Commissioners Court Makes Appointments

Is There a Doctor For The House . . .

Do you read the classified ads? If so, and most do, you may have been making a few second guesses about a series of ads appearing over the past few weeks having to do with the "specialist" arriving in town.

Now the mystery has cleared. It was a rather unique way of announcing by Wallace Lumber Co. that they are in the business of curing "houseaches" and have at their service, specialists in this field. When your house aches and you are just not in the mood to sit up with it, call The House Doctor, and go fishing.

Wallace Lumber Company has again been designated as a "One Stop Remodeling Service" by the Good Housekeeping awards committee, an honor they also won in 1961.

Weather forecast as of 10:05 a. m., Wednesday, March 14: Snow, perhaps.

missioners Court covered a variety of business items including the appointment of Bill Medley, an employee of The Western Company, to the Rankin Hospital Board and the re-appointment of two other Board members whose terms had expired; C. G. Taylor and Lloyd Harlan. Other Board members are R. L. Bell, Horace West and Floyd Everett. Medley Taylor and Harlan were appointed for two-year terms. Medley replaces Norman Elrod who has entered the race for County Judge of Upton County.

In McCamey, the court appointed Bob Turpin to the McCamey Hospital Board in Place 6.

On a motion by Commissioner H. Wheeler, seconded by Commissioner Tommy Workman, the court voted to raise the salary of the secretary to the State Department of Public Welfare by \$20.00 per month effective April 1, 1962. Mrs. Mary Lou Holt is secretary for the Department Her present salary is \$112.50 per month.

On a motion by Commissioner Bufford, seconded by Commissioner Conger, Royce Burnett replaced Howard Newton as a member of the election officials to canvass the absentee voting in the forthcoming elections.

Report To Be Given Thursday--

Accreditation Team Here; Making Look At Schools

Members of the accreditation team from the Southern Association of Colleges and Secondary Schools arrived in Rankin on March 13 and immediately began work on a schedule of evaluation in the Public Schools. A favorable report by this committee is needed to full accreditation of schools in the Association.

meetings, reports, class room visitations, tour of plant and student activity conference, lasting throughout the day.

Wednesday's schedule was to open at 8:30 with more visitations in classes, lasting until 2:30; then a curriculum conference, more reports, a look into the arts and crafts program, driver education, math and music and physical education; a guidance conference, more reports—all lasting until 8 p.m.

Thursday's schedule opens at 8:30 with further class visitation,

study of all written reports and final reports from sub-committees within the committee itself.

At 3:45 p.m., an oral report, all members present, will be presented to staff members, school board members and the general public in the school cafeteria. This will give a summary of the findings of the committee and should be of great interest to the public in hearing from what is considered the best experts in their fields, the actual conditions prevailing at this time in Rankin Schools.

1962 ANNIVERSARY

THE SCOOP by Scoop

J. B. Hutchens, Jr., Editor

THAT'S IT—

All deadlines are past and we now have the candidates off and running in the school, city and primary elections. After a slow start, the school and city have both turned up with a good number of candidates and each and every one of these gentlemen are to be congratulated for their interest in offering their services as servants to a job that has no pay and plenty of responsibility and headaches. We all josh the candidates a little about their quest for these non-paying jobs—all in fun—but if we'd admit it, I expect most of us admire them just a little for having the courage to step out and say they are willing to take the responsibility.

Doing a little fussing about our city and school administrations is just another of the privileges we enjoy in this country but I would be willing to bet my golf clubs that we could replace every employee of the city and schools, all school board members and all the city council—and within six months to a year—we'd have just as much fussing about the new batch as we now have about those holding these positions. It's just the old truth that no-body is going to please everyone.

This about wraps it up for the city and school—all that's left is to encourage each voter to go to the polls and cast his ballot on election day. I will say in regards to the school election—and this is not something new for the News has long encouraged this—that at least one school board member should be from the field in the Midkiff area. Over twenty-five percent of the enrollment of Rankin Schools comes from this area, most of the people there are employed by oil companies—big tax payers in the district—and it's only right that they have a voice on the board.

THE CALENDER BIT—

In a few offices and business places around town, there hangs a nice calender showing a picture of the Capitol building in Wash-

The Rankin (Tex.) News— Thursday, March 15, 1962

ington, D. C. It's a very nice calender—easy to read and would be among the more expensive ones if purchased by an individual. On the back side of this calender is a little notation that it came out of the Government Printing Office—that's the tax supported institution—in Washington, I believe—that prints all the millions of reams of forms, tax reports, etc. which the government uses in keeping track of everyone and everything.

Also on the front of these particular calenders is inserted a picture of Congressman J. T. Rutherford. Now the Congressman may have paid for these calenders out of his own pocket—or he may be entitled to a supply of some through some of the side-benefits that go with being a congressman in the service of his country—but it seems to me like the Government Printing Office would have enough to do in printing the forms actually necessary for the running of the government without going into the calender business and that Congressman Rutherford—who says in West Texas that he's a conservative Democrat—would not be a party to spending the tax payers money to print calenders—with his picture attached.

About the only reason I can think of for the GPO to be in the calender printing business at all is to be sure we all know when April 15 comes around and time to put something in the pot. Still, it may be a good thing. Whenever the GPO is busy printing calenders, they're not printing some nutty form for us to fill out and mail to Washington. Everything actually has a bright side if we'll just look for it.

SIDENOTE—

A little sidenote about the Rankin Band and their win at the Lamesa Band Festival that did not appear in any of the write-ups is the comment by the judge of the sight reading contest—of

which Rankin won first for all Class A bands—in which he stated that Rankin gave the best sight reading performance of the entire 21 bands—regardless of classification.

That's what you call really being first.

Naturally, if they were first in sight reading, the question arises as to why wasn't they also first in concert. Well, for one thing, the judging standards are different and for another—again taking the comments of the judges—it was almost a toss up and since this was not a state interscholastic

 ...his rounds in this area
 ...a good many people who

talked in favor of conservatism. He was confident to the point of wagering his Godwater button that he would beat his more liberal opponent. I immediately covered this bet with a half-dozen old Nixon buttons.

People here and elsewhere—as has been duly noted in this column—talk conservative and vote liberal. I explained this to the candidate and we got to trying to figure out why. The only reason we came up with that made much sense was: "fear."

Just about all of us in this area had a rough go of it back in

the depression days of the 30's. Along came liberalism and its offer of federal aid—we took it—times got better and we have all been afraid to change. We carry on—feeling that socialism is not good—but afraid to rock the boat—always remembering those hard times in the 30's.

Whether this is good or bad, I have no idea but I still think comes November and the votes are cast, I'll win that little wager for sure.

They tell us that in Russia, only a very small percent of the people are actually communists. This being the case, one wonders why they allow themselves to be governed by a group of which they do not approve. Well, for one thing, the communists have control of the armed forces and could put down any revolt—but when people are dissatisfied enough with something, they seem to have a way of rising above physical fear and taking action. But just suppose Russia were to hold absolutely free elections today. Do you really think they would vote the communists out of power? Not likely—not at first for they, too can remember far worse things than the communists and would be afraid to change for the uncertainty of mental fear appears to be stronger than the facts

of physical fear.

In other words, we're stuck with liberal socialism for awhile—at least until we get our nerve up.

Price, spice and everything nice!

Who ever thought a car that saves like this could have so much sizzle? Chevrolet engineers, that's who! Liveliness and luxury for a low, low price were exactly what they had in mind to begin with. And they began from scratch with a whole carload of ingenious new ideas designed to give you more for your money. That spunky 6 with gas-sipping stinginess is just one example. Another: a new unitized Body by Fisher that's fit for a full-size family inside, easy to park

outside. Still another: tough but gentle one-piece Mono-Plate rear springs that outdo many a bigger car for quiet comfort. Any wonder Chevy II won Car Life magazine's 1962 Engineering Excellence award hands down?
