NUMBER 46

RANKIN, UPTON COUNTY, TEXAS

THURSDAY, NOVEMBER 24, 1966

"Excellent . . . of distinctive quality . . ."

Good Ole Red Devil Band Scores High in Big Spring

Rankin's Red Devil Band took a big step up in the UIL ratings last Saturday in the Big Spring Marching Contest when they received a Division II rating. In

a split decision between the three judges—one voting for a Division I—the Red Devil group was topped by only three Class A bands. None were from District 8-A.

The UIL describes Division II as: "Excellent. An unusual performance in many respects but

not worthy of the highest rating due to minor defects in performance . . . a performance of distinctive quality."

With this II rating, under the newly revised UIL rules, Rankin is still eligible to win further overall honors provided they are able to maintain or improve their position in the Spring when the final band contests are held.

Along with their Division II for the entire band, Rankin took further honors when all four twirlers were rated "I's". The twirlers are Toni Shaffer, Cheryl Little, Pat Carrol and Rhonda Sproul.

Among the words used in describing a Division I rating is "Superior."

Some 52 bands with 500 students participated in the marching at Big Spring. For Class A, (Continued to Page 2)

One-Day Shut-Down on Tap for Rankin

With the exception of the Rankin School which closed shop at 2:30 Wednesday until Monday, business houses and offices will generally observe a one-day closing locally for Thanksgiving. An exception or two will be Boggs Grocery where a Thursday and Friday closing has been announced, and the Troy Laundry pick-up station that will be closed until Monday.

All schools slated to be closed from Thursday until Monday will be the county offices.

No special observances of the turkey day have been announced in Rankin with the exception of long sessions on the tv with some six hours of football—plus a morning of parades.

Somewhere in between will come the traditional dinners—followed by the bicarb.

BASKETBALLERS WIN 4 -- LOSE 2

Overall, Rankin basketballers had a good week for their opening games, winning four and losing two.

Opening the action last Thursday, the Junior High 7th Grade Girls won in Grandfalls while the 8th Grade lost. On Friday night in McCamey, the Red Devil Boys A team went down in their opener by about 15 points but bounced back to win the B game.

Last Tuesday night in Rankin, the A and B Girls team took a handy pair of wins from Mertzon.

Next action will be Monday, November 28 when the Boys A and B host Big Lake. On Tuesday night, the boys will play a pair of games in Wink while the Girls A and B will host Grandfalls.

Fans are reminded to keep in mind the dates of December 2-3, the Rankin Boys Invitational tournament.

THE FIRST new business structures to get in Rankin in several months is the new building on Main Street. Workmen level the floor.

COMMISSIONERS COURT SPECIAL SESSION

A special session of the Upton County Court continued here from the previous session. Considered was a case involving securities held by the Trust Co. of Dallas amount of \$10,000—sent to First State Bank. This is a regular case where county funds are in banks outside the county.

canvass of the November 8 General Election and put up for bids one used Allis Chalmers dozer owned by the county but not in operating condition. Interested bidders may inspect the machine at the county barn in Rankin.

In further action, the Court approved the advertisement for bids for furniture and equipment for the McCamey Hospital. Both the furniture bids and the bids on the dozer are to be opened at the Court's meeting on December 12.

Worth Meeting --

of Low-Rent Units Fixed

Plans of the Housing Authority in Rankin were in Ft. Worth for a preliminary session for the low rent units in Rankin. The one session was attended by E. J. Dunn Lowery, chairman of the local board, and J. B. Hutchins, director. They discussed with some six representatives of the Federal Housing Administration.

room units. Due to the small number involved in this first undertaking, all must be located on one site. This site will be selected by the land department of the Federal Housing Authority in Fort Worth from three recommended locations, made by the local board. Final selection will be determined by a number of factors with cost being of primary concern. Actual acquisition of the property is expected to take about six months with another year from that date before the units will be ready for use. This puts the probable occupancy date for these first ten units somewhere in 1968.

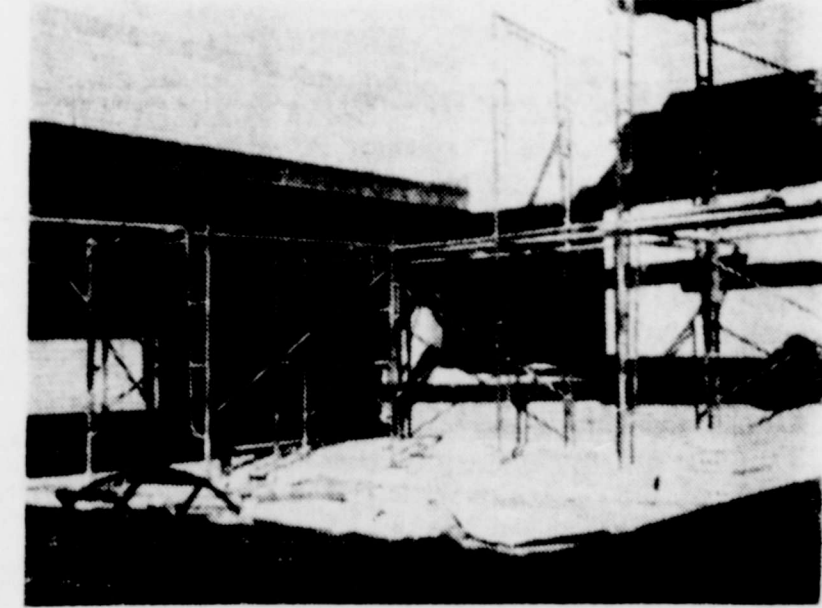

Cost of rentals, who will be eligible to rent, etc. will all be determined—by Fort Worth—at a much later date. No money has been received as yet by the local Authority although \$500 of a \$2000 preliminary loan has been

budgeted and will be on hand in the near future. This money is to cover operating costs.

The only salary connected with the program is currently \$45 per month, paid to the general manager for keeping the books, filing and answering correspondence and being responsible for the assets the Authority will accumulate as the program is developed. The director will also be in charge of rentals once the units are occupied, and will be responsible for seeing that they are kept in good repair as well as keeping track of all property.

The pay will remain at \$45 per month as long as Rankin has ten units.

None of the members of the Authority receive any pay although they do receive travel expense money when on official business out of Rankin, not to exceed \$16 per day.

SOMETHING NEW for Rankin Hospital will be this inside patio area located approximately in the center of the building, as redesigned. It will be used for "sunning" by patients on the recuperating list during their stay at the hospital.

THE SCOOP by Scoop

J. B. Hutchens, Jr., Editor

EASY DOES IT—

Ever since that fellow escaped and came up with the thing they call "New Math" there has been a batch of jokes, pun and tears throughout the land. From a relative in Arizona comes the following bit of spoofing from the "Scottsdale Daily Progress." The writer called it "Take Away Base Eight". Base eight, that's new match talk for those of you who have not had kids in school for the past four years.

Here tis:

Have you learned the new math yet? It's really simple once you get the terms and your child explains it. In fact, you're supposed to help your child (yes, you help them). It is part of their learning process and shows

CARD OF THANKS

WE WISH TO THANK everyone for the many cards and letters and words of encouragement during Mr. Whiteside's stay in the Lubbock hospital.

Mr. and Mrs. K. H. Whiteside

your interest and motivates them.

So, now we come to the modern math. Let's take one term of approach, say, base eight. Well it's hard to multiply by eights, so to understand base eight we'll with base six. It's similar to base ten. There are ten ones in ten, and ten tens in 100. In our day they called it decimals.

With base ten out of the way we can attack base six. Remember learn with your child. Now under base six everything has to work out from the number six (and don't ask what that means). For instance five base six equals 30 or maybe it's 180 base six equals 30, but it doesn't really matter.

That's part of the fun of the new math; it challenges your imagination, it breaks down old patterns of learning. The new math is designed for the computer age children.

Now, let's try it another way. Remember, by using base six we are going to arrive at 30. Three plus 3, times 2, divided by 4, minus 1, times 10, plus 9 base 6 (it has to come in some place) equals 30. It doesn't really, but (Continued to Next Page)

Band Wins --

(Continued from Page 1)

Pains, Roscoe and Seagraves topped the Rankin entry with Division I ratings. Also scoring II were Rotan, Coahoma, O'Donnell, Merkle, Wink, Iraan and Sanderson. Division III ratings went to Tahoka and Abilene Wiley. In another similar contest, Eldorado, from District 8-A, was awarded a Division I.

Crane, McCamey and Big Lake took I's in Class AA.

Tops News Notes

BY THE TOPS REPORTER

Hello from your Tops reporter. Not much news this week.

All but Connie (yes, Cranfill) are moaning this week. She is our TOP and ONLY loser.

We all have red faces and a new bulge to get rid off. So—"See you lighter!"—next week.

Jameson-Adams Vows Exchanged

Mr. and Mrs. G. A. Jameson of Big Lake announce the marriage of their daughter, Glenda June, to Nolan G. Adams, Jr. of San Angelo. The couple were married Sunday, November 13 in San Angelo and have established a home at Shady Village Cottages, No. 22, 1900 Sherwood Way.

The bridegroom is the son of Mr. and Mrs. Nolan (Hot) Adams of Rankin and attended Rankin schools.

Mrs. Nolan is a 1965 graduate of Reagan County High and attended Columbia Secretarial College in Odessa. At present she is employed in the accounting department of a San Angelo discount store. Mr. Adams is a mechanic on the dam construction between Robert Lee and San Angelo.

Rankin Fifth Grade made a field trip Tuesday, November 22 to the Caverns of Sonora.

(From Preceding Page)

This makes for a pleasant atmosphere in school. Everyone is well adjusted. With the new math there's very little window breaking, few knifings and almost no riots. Schools are now happily turning out students for the computer age.

There's only one cloud on the horizon of new math. Some day a parent will say, "NO! It does not make 30. Let's use the old math, it only makes 29!"

Then, as in Hans Christian Andersen's "The Emperor's New Clothes," everyone will look again at base eight and start laughing. Then the parents can

start spanking their kids, teachers can flunk kids, and principals can bail kids out. All will be happy again with the old decimal system.

SOME OLD MATH—

The following has been bugging Ed Guy Branch for the past two or three months and if you know Ed Guy, you know it has to be on "Old Math" problem.

Three fellows had a meal at a cafe. Their bill came to \$10 each. Each gave the waiter a \$10 bill—\$30 in all.

The waiter took it to the man-

ager who decided that these were good customers so he would only charge them \$25 for the three meals.

He gave the waiter five \$1's and told him to return them to the customers. On the way back, the waiter decided to take a little cut. He put \$2 in his pocket and gave each of the men back \$1.

Now bearing in mind that each had given a \$10 bill and got back \$1, that means each paid \$9. The waiter had \$2 in his pocket.

Now three times \$9 is \$27 — plus the \$2 the waiter pocketed—that comes to \$29.

Who has the other \$1?
If anybody knows, they ought to tell Ed Guy. He's already lost 40 acres of turkeys worrying about it.

**RANKINITES BROTHER
BURIED IN ALTUS, OKLA.**

Mrs. Odessa Edwards of Rankin attended funeral services on Tuesday, November 22 in Altus, Oklahoma for her brother, Maltus Baker. Services were held in the Timms Chapel at 10:00 a.m.

Mr. Baker, in his early 50's, died of a heart attack.

Mrs. Herbert Hurn, Miss Rebecca Reed and Mrs. Will Nix were luncheon guests of Mr. and Mrs. Stanley Eddins Sunday in Midland. They attended the presentation of "Music Around the World," in which Kathryn Eddins was a participant.

Bell liked to make things better...

Alexander Graham Bell invented the telephone in 1876, he did not win his laurels. He helped form the National Geographic Society, pioneered the basic method of making phonograph records on wax discs, pioneered a method of locating icebergs by detecting echoes from them, and suggestions and contributions that helped give us air conditioning and iron lung. For 46 years after inventing the telephone, he lived a busy and creative life.

Western Bell likes to make things better, too . . .
Years ago, we did not offer the Princess® telephone, Home Phone, Wide Area Telephone Service, Centrex service, Data-Phone communications service or Panel Phone. There was no electronic dial, no automatic dialer and no Speakerphone. Today, these help us provide the best telephone service in the world. We want to make it better. That's our legacy from Mr. Bell.

Jerry Underwood Hosts Omicron Tau

"Interpretation of Love," a program presented by Mrs. W. C. Stokes and Mrs. Tommy Greer, highlighted the November 14th meeting of Omicron Tau Chapter of Beta Sigma Phi in the home of Mrs. Jerry Underwood. Seventeen members joined hands to repeat the opening ritual. Mrs. Bill Wrinkle, president, led the women.

Mrs. Bill Anderson announced a profit of \$254.44 from the annual Halloween Carnival. Most of this money will go back into the community in the form of service projects.

Thursday, Nov. 24

Social chairman, Mrs. Joe Lee, discussed plans for a covered dish dinner this month to entertain members and their families.

Mrs. E. Travis Bley gave a talk on the Rankin Hospital Auxiliary. The chapter is reported to

be very much interested in this type of service.

A large drawing of the chapter yard stick was displayed and explained by Mrs. Underwood. This device is used by the International Office to determine a chapter's yearly stars. Mrs. Underwood will total points at each meeting to keep members informed as to progress.

Beginning the program, Mrs. Stokes read the highlights of the life of Dr. Albert Schweitzer, a man who spent his life expressing love for God and became known as one of the greatest Christians

of his time. Mrs. Greer read the following quotation: "Where love is God is. He that dwelleth in love dwelleth in God"—Henry Drummond. In closing, she recited "The Divine Image."

Members participated in the program by listing an everyday deed of love they do for their families.

After the program, the members were served pumpkin pie with whipped cream, coffee and soft drinks, mints and nuts. The serving table was centered with a Thanksgiving theme.

Mrs. Wayne Mitchell won the door prize.

HINTS for the HOMEMAKER

By Mrs. Louie S. Jeffers, County Home Demo. Agent

FALL IS BULB PLANTING TIME

In general, bulbs need a well-drained soil.

Peatmoss can be added to supply organic matter if the soil is extra heavy or sandy. Bulbs do not tolerate heavy concentrations of fertilizer near them. For this reason fresh manure should not be used in the bulb garden. Bone meal is one of the most commonly recommended fertilizers for bulbs. However, superphosphate, because it is more effective and much cheaper to apply is recommended. Apply at a rate of five pounds per 100 square feet of bed area.

Mice and moles will eat most bulbs except daffodils. If these pests are especially bad, the bulbs can be protected with small wire baskets made from quarter-inch hardware cloth.

Plant bulbs where they will receive plenty of sun and be protected from north winds. New plantings should be mulched during the first winter to prevent drying out. Dry grass clippings or leaves work very well.

Bulbs should be planted together in large masses. Some of the small bulbs, crocus and hyacinth for instance, need to be planted in groups of 25 to 50 in order to make a good display.

Daffodils, crocus and hyacinths should be planted as soon as the bulbs become available in garden stores. Tulips will not do well unless your purchase pre-cooled bulbs. Daffodils should be planted about 6 inches deep and from 6 to 8 inches apart. Set hyacinths about 3 inches deep and 6 to 8 inches apart. The small jonquil types are planted 3 to 4 inches deep and spaced 4 inches apart. Crocus are planted 4 inches deep and 2 to 4 inches apart. The planting depths just mentioned are to the top of the bulb.

MY3 on way out in Rankin Telephone Dial Listings

All telephone numbers in Rankin will have a new look in June, 1967 when MY3 will become 693.

This new telephone numbering plan is known as All Number Calling (ANC).

Don Williams, manager for the Southwestern Bell, said about 3/4 of the telephones in the United States have already been converted to All Number Calling. The change to a new numbering system is necessary because of the tremendous growth in the number of telephones. Telephone companies would eventually run out of suitable numbers if they did not convert to All Number Calling, he said.

Williams explained that for all Rankin customers the prefix is the only part of their telephone number that will change. The last five digits of all numbers will remain the same. He noted, too, that dialing MY3 is the same as dialing 693 so that telephone users will continue dialing exactly as they do now.

Telephone directories listing the new numbers will be distributed when the changeover is made in June, 1967.

Giving an example of the new all-numeral numbers, Williams said the Southwestern Bell business office number in McCamey will change from OL 2-3201 to 652-3201.

Persons who plan to order stationery and other printed material on which telephone numbers are carried should keep in mind that their number will change in June, 1967.

The changeover to all numeral numbers in Rankin is part of Southwestern Bell program to convert all telephones in the

states served by the company to All Number Calling gradually over the next few years.

"With All Number Calling, telephone numbers in Rankin will be of the same type as most phone numbers throughout the country," Williams said. "This standardization makes it more convenient for the telephone user when he travels on business, makes vacation trips or moves to another city."

"Without All Number Calling, Southwestern Bell and other telephone companies would eventually run out of telephone number prefixes," Williams explained.

"Within a few years, the number of dial combinations using two letters and five digits, such as present local numbers, will have been exhausted in many parts of the nation. Although is not likely to be true in this immediate area, it is nevertheless a factor because no two telephone numbers can be alike in the same numbering plan area (example: Area Code 915) now that Direct Distance Dialing is in widespread use," he said.

He said All Number Calling is the best solution to this problem.

The Rankin (Tex.) News—
 Thursday, Nov. 24, 1966

"All number telephone numbers allow us to expand the possible combinations of dial pulls by about 50 percent in each numbering plan area," he said.

Williams noted that all-numeral numbers will eliminate dialing errors caused by confusion of the numeral "1" with the letter "I" and of the letter "O" with "zero".

He said, too, that the trend in telephone instrument design is toward compactness. A dial with only numbers can be smaller, yet actually more readable and easier to use than a dial with both letters and numbers.
