

Vorn's Views

Recently this writer moved to the other side of the desk and wrote a letter to editor H. M. Baggary of the Tullia Herald.

Baggary had written in his column about a speech given to the Amarillo Knife and Fork Club by Congressman Walter Judd. Judd is a Republican, and Baggary has never been able to understand that without Republicans, there would be no two-party system.

Therefore he dug into Judd's speech saying that "he (Judd) couldn't resist the temptation to act like a politician." Politicians hardly ever are able to act like anything but politicians, but Baggary went on to say that Judd told a half truth concerning Quemo and Matsu, the tiny off-shore islands that developed into a controversy during the presidential election.

Judd had said that although the islands really weren't too important from a military standpoint, they nevertheless should be defended, since the principle of not yielding to Communist aggression was the important thing, and that if our government remained firm about not giving up the islands, there probably wouldn't ever be any need to actually defend them with military forces.

Baggary penned a choppy little editor's note at the bottom of my letter that said:

"If I must choose between the word of Richard Nixon and Walter Judd and the word of the nation's top military men, including Eisenhower, who said that the defense of Quemo and Matsu wasn't worth the death of one American soldier, I'll choose the latter."

It seems to me that Baggary is guilty of the same offense he charged Judd with. His statement conceals the fact that a little matter of foreign policy enters the picture and that concentrating on pure military strategy alone in such a situation as this is far less than half the truth.

One doesn't have to be a top military expert to be able to determine that the islands aren't worth fighting for, but some of us think the rest of the world is. If the free world establishes its front at such places as Quemo and Matsu and doesn't yield to Communist aggression, it won't have to watch the reds gobble up everything between the front and the Iron Curtain.

If the United States had told the world it would fight to protect South Korea instead of letting Dean Acheson tell the world that South Korea wasn't worth fighting for, there probably wouldn't have been a Korean Conflict.

My letter to Baggary accomplished exactly nothing. He had called Judd's comments on the situation a half truth; I wrote and asked him to explain what he considered the whole truth on the matter, and he answered with a little less than a hundredth-truth.

But don't let my experience at writing letters to the editor discourage anyone that was anticipating writing one. They usually accomplish more than you would expect and they give you almost the same power as the editor.

A Friona man, Jake Lamb, was recently mentioned in Paul Crume's "Big D" column in The Dallas Morning News as (Continued on page 2.)

FCU Sets Meeting Jan. 31

Friona's Federal Credit Union has scheduled its annual meeting for Jan. 31.

The meeting, which will be conducted in the school cafeteria, will see the election of one committeeman and two directors. Bill Flippin, is the committeeman whose term will expire, and Loyde Brewer and Lucy Jones are directors involved.

Speaker for the occasion will be Mrs. Dyalthis Benson, treasurer of the Hereford Federal Credit Union.

Distribution of dividends will be an important item of business. Door prizes will be awarded and refreshments will be served.

SHIRLEY IS CHIEF--

Firemen Choose Officers

Volunteer firemen elected officers for the year Thursday night at a regular meeting.

Ralph Taylor was chosen chief, replacing Ruben Taylor who had served in that capacity for the past two years.

Also elected were J.C. Blankenship, assistant chief, Ray White, secretary-treasurer, Tommy Jones, captain, company 2, Pete Hollis, captain company 1, Glenn Reeve Jr., lieutenant company 1 and Orville Houser, lieutenant company 2.

Jay Sanders, retiring secretary-treasurer, had served in that capacity for the past seven years. Lee Campbell, lieutenant of company 1 for the past two years was another officer replaced.

Accomplishments under the 1960 officers included acquisition of a new fire truck and two walkie-talkie radio sets.

Shirley, the new chief, had served under Taylor as assistant chief for the past two years.

The department meets each first and third Thursday.

FRIONA, TEXAS

Schools Week Set By Decree

March 6-10 has been proclaimed "Public School Week" in Texas by Governor Price Daniel.

The week has been set aside each year for the past 11 years as a special time to place increased emphasis on our educational system.

During this period parents are encouraged to visit the public schools, and all citizens are urged through special programs to recognize the importance of the education system.

"Our goal is to make Texas public schools the finest in the nation, and to achieve this our citizens are urged to take an active interest in the school systems and to cooperate with their school boards, superintendents, principals and teachers," Daniel said in making the proclamation.

"Never before in our history has there been a greater need for educated leadership. As we rush to train young people in science and technology and to keep pace with world events, it is also important to remember that our public schools will furnish our leaders of tomorrow with the basic human, moral and spiritual foundation necessary for more advanced training and knowledge," the governor concluded.

Officials of Friona schools will announce later the steps. Local schools will take in observance of the week.

Mr. and Mrs. H. A. Hyde visited recently in Gotebo, Okla., with Rev. and Mrs. Don Kimbrough and children. Mrs. Kimbrough is the daughter of Mr. and Mrs. Hyde. While here they also visited with another daughter and family, Rev. and Mrs. Haskell Bolding from Corbin, Kentucky, and their son and family Mr. and Mrs. Truell Hyde of Lubbock.

Farr Gets Two Year Pact

Superintendent Alton Farr accepted a new two-year contract offered him Monday night by the school board.

Farr, who will soon complete his second year here, will receive a slight salary increase. He expressed satisfaction to members of the board for the vote of confidence.

Tax Collections Show Increase

School tax collections for December totaled a whopping \$72,838.81 according to figures released by tax assessor collector Dan Ethridge.

The big boost in collections brings the total for the year to \$148,243.95, or 66.7 per cent. Some \$73,957 are still uncollected, which accounts for the remaining 33.3 per cent. Total tax roll for 1960 is \$22,201.35.

Ethridge presented the figures to the board of trustees at a Monday night meeting. He and the trustees expressed satisfaction over December collections. Ethridge had predicted a large amount of the tax roll would be accounted for as soon as the majority of crops were harvested.

Meeting in a regular session, the trustees went through a heavy schedule of relatively routine business in addition to extending the contract.

Among items discussed was the exchange student program that has been tentatively approved by the trustees. A field representative at the Foreign Exchange Student Assn. will meet in Friona with a committee of individuals representing both the school and groups that would help sponsor an exchange student.

Already named to the committee are Raymond Cook, high school principal, Baker Duggins, school guidance director, and Farr, who will represent the school. Mrs. George Jones will represent women's Study Clubs and Wesley Foster will be representative for Lions Club.

The superintendent also reported on a trip to Austin he made last week to the annual conference of Texas school superintendents.

The administrators were divided into sectional groups for discussions, and Farr chose curriculum, and student insurance. He reported that from the discussion, he was convinced that the firm that handles Friona's student insurance is a reliable one.

First item of business on the agenda was a tax report from Dan Ethridge, tax assessor-collector for the school. Ethridge reported collections

Bank deposits in Friona at the close of 1960 indicate a slight rise in the community's financial condition.

Poll Taxes Selling Slow

Sale of poll taxes is progressing slowly according to personnel at Ethridge-Spring Insurance Agency, where tax receipts are available.

Only about 15 persons had paid the tax at last report, with the deadline 19 days remaining before the Jan. 31 deadline. This year is often referred to as an "off year" but school and city elections will be conducted in April in addition to a special senatorial election.

The special election will pick a successor to vice president elect Lyndon Johnson, who resigned the post after he learned his election as vice president was assured.

Other special elections may be called during the year, and only those persons who have paid their poll tax may vote.

The increase of 1960 over 1959 wasn't as impressive as was the increase of 1959 over 1958. But the reports, contained in a statement of financial condition released this week by Friona State Bank do indicate an upswing in bank deposits and total resources of the bank that are encouraging.

Funeral Held Here For J.O. Clark

Funeral services for Joseph Oscar Clark, 63, were held in First Baptist Church Saturday.

The Rev. Porter Arnold, pastor of Rosedale, N. M. Baptist Church was in charge. Burial was at Clovis under direction of Claborn Funeral Home of Friona.

Mr. Clark was pronounced dead on arrival at Parmer County Community Hospital Thursday. He was brought to the hospital by a Claborn Funeral Home ambulance that was called to his home near the Rhea Community. He had been a resident of Hollene, N. M. since 1911. He

Total deposits at the bank were \$4,573,556.33, compared to \$4,561,805.29 in '59, representing an increase of \$11,751.04.

Total resources of the bank showed a more sizable increase, moving from \$4,850,793.05 in 1959, to \$4,929,006.65 at the end of 1960.

This is a bumper year for milo and a "short year" for cotton. Mill damage late in 1960 caused the year just past to fall short of expectations related to farm income. Despite the unfortunate weather, the cotton crop was generally better than expected, and the grain crop probably ranked near average.

The increases indicate overall progress of the area.

Survivors include his wife, Mary Lillian of the home; two daughters, Mrs. H. L. Hughes and Mrs. Billy Johnson, both of Texico, N. M.; two sons, Marlon Clark of Hobbs, N.M., and Joseph Oscar Clark Jr. of Liberty, Mo.; three sisters, Mrs. Georgia Smallwood of Houston, Miss Beulah Clark and Mrs. Marian Fidler, both of Sulphur Springs, Ark.; one brother, Jimmy Clark of Clovis, N. M. and nine grandchildren.

Visiting with Mr. and Mrs. C. A. Guinn Sunday were Mr. and Mrs. Walter Wittle, Mr. and Mrs. Allen Guinn and family and Mr. and Mrs. J. R. Southward all of Muleshoe.

Gin Worker Killed In Mishap Monday

Servino Gutierrez, 62, was fatally injured Monday in an accident at Fleming and Son Gin of Hub.

Gutierrez was injured Monday morning in a fall from a truck. He was rushed to Parmer County Community Hospital by private automobile. After examination there, he was taken to St. Anthony's hospital in Amarillo by ambulance where he died about 5:45 p.m.

Look! Lions

Ralph R. Thomas, district governor of Lions District 2-1, will be principal speaker tonight at the regular meeting of Friona Lions.

All Lions are urged to attend, according to an officer of the organization.

Funeral home personnel said they were told Gutierrez was helping load bales of cotton on a truck at the gin when he fell from the truck. A head injury was thought to have been cause of death.

The dead man was a resident of the Friona area, however a list of survivors and details of funeral arrangements could not be immediately learned.

Youth Confesses To Motor Theft

A 19-year-old Clovis youth has confessed to stealing an irrigation motor from the farm of J.D. Rucktashel four miles east of Farwell.

Arrested Friday by Parmer County Sheriff Chas. Lovelace was Morgan Smith, who admitted taking the new Pontiac V-8 motor from the farm last Tuesday.

His bond was set at \$2500 by Judge Loyde Brewer and he has been bound over to the grand jury.

The arrest was made following investigation of several leads by Sheriff Lovelace. At the time of the arrest, the youth was preparing to install the motor in his pickup. Lovelace says.

The arrest of Smith also cleared up several other small thefts which have occurred in the area, the sheriff says.

In what was a busy week for the sheriff's department, several other thefts were investigated and three arrests were made.

Several parts from an irrigation well were reported stolen from the Gene Sterling farm north of Farwell last Tuesday night and the sheriff was investigating this theft along with two week-ins near Lazbuddie.

On Saturday night the offices at McBride Gin and at Par-Lamb Grain Co. were entered and a few small items were taken.

Entrance was made to both offices through unlocked doors, and reported missing were soft drinks and some small change. Both offices have been broken into on several occasions during the past year, the sheriff says.

In other activity the sheriff's department issued a warrant for the arrest of two individuals who passed a forged check at the Holiday Store in Farwell. The check, in the amount

of \$167, was forged on a Pampa firm and cashed at the Farwell store on December 27.

Three persons were arrested over the week-end by the sheriff and charged with being intoxicated.

Arrested Friday and charged with driving while intoxicated was Juan Salinas, 31, of Dimmitt. He was tried by County Judge Loyde Brewer, fined \$100 and court costs and had his driver's license suspended for six months.

Picked up along with Salinas was Charles Youts, 41, also of Dimmitt. He was charged with drunkenness and fined \$28.50 by Justice of the Peace J. R. Thornton. Both arrests were made east of Bovina.

Also arrested for drunkenness was Ben Finch, 52-year-old Negro. He was tried by Justice Thornton and fined \$28.50.

Local Post Hosts Zone Meeting

A crowd of slightly less than 100 persons attended the Zone I American Legion meeting Monday night in the school auditorium.

The meeting, that was open to the public, featured a film on the threat of Communism. W. L. (Preach) Edelman, a Friona farmer and former teacher spoke on the Communist Threat.

Charlie Mason told what the American Legion is and some of the programs it is responsible for.

Mrs. Noona Moore, commander of Zone I, was in charge of the meeting.

The Rev. Wallace Kirby, pastor of Methodist Church here lead the opening prayer.

INSTALLED BY ODDFELLOWS--Left to right officers are Bill McGlothlin, noble grand, Joe Moyer, vice grand; Pat Callahan, recording secretary and Sam Williams, recording secretary.

JOINT CEREMONIES--

Lodges Install Officers

Bill McGlothlin was installed as Noble Grand of Friona's Oddfellow Lodge at open installation for Oddfellows and Rebekahs here Tuesday night.

The installing team came from Muleshoe and Dimmitt, with Mode Gibson, district deputy grand master in charge. Others installed were Frank Reed, right support; J. D. Sanders, left support; Joe Moyer, vice grand; Waymon Wilkins, right support; Lee Renner, left support; Pat Callahan, re-

cording secretary; Sam Williams, financial secretary; Ralph Reed, treasurer.

Past grand, G. E. (Bud) Reed, Henry White, warden, Roy Estep, conductor, and Roscoe Parr, Chaplain.

Rebekah Lodge No. 308 installed Jaunita Reed as Noble Grand and other officers are Jewel Wells, right support; Pat Fallwell, left support; Addie Moyer, vice-grand; Thelma Jones, right support; Phyllis Sanders, left support; Inez Shir-

ley, past noble grand; Joyce Wilkins, recording secretary; Mary Durstine, financial secretary; Katie Parr, treasurer; Lauretta Brookfield, warden; Wanda Jones, conductor; Genevieve Williams, chaplain; Nola Adams, color bearer; Fern White, musician; Ethel Bengler, inside guardian and Virgie England, outside guardian.

Following the installation sandwiches, pie and coffee were served to members and guests.

No Diphtheria Cases Reported

Health officials were beginning to breathe easier this week since no diphtheria cases had been reported in the county, but they were still urging vaccination against the disease that had reached epidemic proportions in some communities of the Panhandle.

Vern's Views--

the town philosopher. It isn't every day that a Frionan is the main topic in one of the state's largest newspapers so we think it worthwhile to pass along Mr. Crume's column.

BY PAUL CRUME

It is reported that Jake Lamb, the town philosopher at Friona up on the high plains, is still nettled because the people up there got excited at the force of the wind during that tornado while back. He said it was a piddling wind and didn't even register on his wind gauge. His wind gauge is a 50-pound anvil on a chain. In a proper wind, it is supposed to rise in the air. The chain keeps it from floating away.

This is not a new kind of wind gauge. It has been used by town philosophers in the Panhandle for years, but they ought to quit using it. The gauge is not reliable. At times we have seen an anvil riding vigorously at the end of the chain, like a kite without a tail, when the wind was hardly strong enough to carry off a section of land, much less a county. In stronger winds the anvil at times has seemed to sulk.

About half the time, too, when the anvil is floating in the air, it doesn't point out the direction of the wind accurately.

It is our theory that, in the ordinary uncalibrated anvil, the wind gets trapped in the hole set aside for the swage block and causes this erratic behavior.

The floating anvil is esteemed as a wind instrument by the town philosopher of the high plains simply because he is given to caution, literal statement and exact truth. As a wind instrument, for instance, it obviously eliminates, night breezes, wayward zephyrs and trivial air currents from consideration.

It is not, however, the end-all of plains meteorology. There are lots of ways of studying the wind. You can tell its force, for instance, by noting how many miles the plume of smoke from a Mallet freight engine blows back in a line parallel to the earth before it begins to spread out. You can measure how far the loose 2x4's are standing out from the barn. If you want to know the direction of the wind, you can wet your thumb and hold it in the air. The side toward which the wind blows will turn muddy.

The only excuse for using the anvil is fine accuracy. If Mr. Lamb is going to continue to use his, he ought to file down the horn to a fine point and plug up the swage block hole and streamline it.

Probably it isn't worth the effort. In a couple of weeks or so, the spring wind season will hit the high plains, and Mr. Lamb will be able to tell it is blowing all right.

THEY HAVE about fouled up weather science on the high plains now by deep well irrigation. The countryside won't move around and orient itself to the wind as it used to. In our day, nobody ever needed to know the direction from which the wind was blowing. It was always southwest. This was one of the constants of the universe, so much so that it was used as a constant and a man would direct another by telling him to set a course about three miles to the right of the wind.

Nobody needed to know how strong the wind was either. It was always strong enough.

MR. MILQUETOAST VISITS HIS NEPHEW IN COLLEGE

The young New Yorker on his first trip to the West especially impressed with skillful way one cowboy lit his cigarettes. "Aw, shucks," said the boy, "there's nothing to roll them. It's adding the filter gets me."

Two Men Needed

An editor doesn't understand or care to know about the problems confronting a large company such as the one that supplies telephone service here any more than a preacher would want to know how to handle problems an editor faces, or vice-versa.

An editor only experiences the inconveniences, boils and says bad things about the concern that is responsible for his telephone troubles.

There is no denying that Friona's telephone service is far from satisfactory. There may be explanations for some of the shortcomings but many phone users feel that part of the trouble could be remedied fairly simple. A repair man, who has established a reputation for efficiency is located here. He can handle problems that arise, but there is one thing that prevents him from keeping Friona telephone users contented. That reason is that he is also required to take care of Bovina's telephone problems.

Why each town cannot have its own telephone man is a mystery to those who pay a phone bill each month. If Friona had its own man to take care of telephone trouble here, and Bovina had the same setup there, everyone would be a lot happier.

phone man is a mystery to those who pay a phone bill each month. If Friona had its own man to take care of telephone trouble here, and Bovina had the same setup there, everyone would be a lot happier.

But telephones of necessity operate on a monopolistic basis in rural areas as well as most urban areas. Therefore, we get the idea that there is really nothing we can do about the unfortunate situation except grin and bear it.

Surely no one that has a telephone wants to take it out. The service we have is better than none.

General Telephone Co. is fairly interested in its public relations. If officials of the company are made to realize that by placing a service man here, and another man in Bovina, their company will have a higher standing with residents of both communities, maybe this part of the problem will be overcome.

J. V. S.

Youngsters Praised

Less than five per cent of America's young people are delinquent, but the five per cent that are receive so much publicity that some people get the idea that the modern generation is worse than previous ones.

Friona's night patrolman Jack Fleming, who has been on the local police force for about two months, should know the young people of Friona about as well as anyone since he has opportunity to observe them and their recreational habits practically every night.

Fleming says Friona young people are "exceptionally well behaved." Coming from Azle, a Fort Worth suburb where he was police chief for several years, Fleming has had experience in a metropolitan area where juvenile delinquency is a problem.

His appraisal of Friona youth should therefore be a genuine indication that juveniles

and young adults here are above average when it comes to personal conduct.

Nothing is more disgusting to a youngster than to hear some older person say that the younger generation is going to the dogs.

But since the news each day usually contains details of serious crimes committed by individuals not old enough to be executed, it is understandable that some people have accumulated this mistaken idea.

One concession must be made on the delinquency problem; crimes committed by the young have increased in seriousness, if not in percentage.

But the kid next door is still there, delivering papers, and helping make up the 95 per cent.

Night Classes Moved To Campus

CANYON, (Special)—Several new courses, never before offered during its evening program, will appear on the schedule when West Texas State College opens its evening classes for the spring semester here on the campus in Canyon, after the move from Amarillo Center in Amarillo.

Most of the new offerings are in the field of science, which could not be offered at

the Center because of lack of laboratory facilities. Now, with the evening program on the campus, such courses as biology, chemistry, physics, and geology are available.

The long projected move to the college campus, to take advantage of full college facilities, will be made when the second semester opens Jan. 25. The Amarillo-Canyon Expressway, now completed, makes it possible for night students to drive from Amarillo to the campus in "Only 13 Minutes," as a billboard in Amarillo proclaims.

A total of 118 different courses will be available for night sessions, with some 50 of these in the School of Business. Other work is offered in Art, biology, Bible, chemistry, economics, government, sociology, education, psychology, English, geography, geology, history, home economics, industrial arts, mathematics, physical education, physics, Spanish, and speech.

Along with general biology, the science courses include general and physical chemistry, economic geology, and an advanced physics class in "Vector Analysis." Two courses in industrial arts, "Elementary Woodworking" and Upholstry and Refinishing" are also being offered for the first time.

Classes are scheduled in the major campus buildings, and students will have access to the college library and student union facilities. Classes start at 7 p. m. and continue until 9:40 p. m.

School Employs 82 Persons, Has \$293,932 Budget Annually

Few Frionans probably realize the importance local schools have for this community aside from their educational value. A study of the facts, figures and personnel connected with the large organization indicates that a large number of persons are employed by the school, and a huge budget is spent in Friona each year to keep the school operating. During the 1960-61 school year the payroll for the 82 employees will be \$293,932. Gross budget for the school year has been set at \$399,883.

In addition to the employees on the payroll, there are seven members of the board of trustees who spend a great deal of time looking after the interests of pupils and taxpayers. Members of the board are D. C. Herring, president; Arthur Drake, secretary; Cordie Potts, Clyde Weatherly, John L. Ray, W. M. Massie and W. R. Mabry. According to figures released by Superintendent Alton Farr, who is serving his second year as head of the local schools, total enrollment this year is 1061.

years ago, Mrs. Carroll was an office nurse at Hereford. In addition to giving first aid when it is needed, she maintains health records for each pupil enrolled in school.

In addition to this daily routine, Mrs. Mayfield is often called upon to direct preparation and serving of banquets for various public organizations.

Financial Expert Tells Best Way To Buy Car And Home Insurance

"You can be ruined by improper insurance on your car or home," says Donald I. Rogers,

business and financial expert, and author of best-selling books on personal finance. "That's why I firmly recommend buying insurance only through an independent insurance agent."

Mr. Rogers points out that an independent agent is a professional insurance man as well as a local businessman who knows local conditions. "An independent agent

is available both day and night," says Mr. Rogers. "When a loss occurs, he takes care of all details and sees to it that payment is made fairly and promptly. You can tell him by the Big 'I' Seal."

You can buy insurance with confidence from the man who shows this seal. To display it, we have had to meet professional standards designed to protect you.

No Diphtheria Cases Reported

Health officials were beginning to breathe easier this week since no diphtheria cases had been reported in the county, but

they were still urging vaccination against the disease that had reached epidemic proportions in some communities of the Panhandle.

Dr. Paul Spring, county health officer, said response to pleas for protection against the disease has been very good, and although no cases of diphtheria have been reported in the county shots are still advisable.

"We are proud of the way people have responded to our urging," Dr. Spring said. The doctor advises all children to receive the diphtheria vaccinations and adults to take a Schick test to determine whether they need the shot.

Vern's Views--

the town philosopher. It isn't every day that a Frionan is the main topic in one of the state's largest newspapers so we think it worthwhile to pass along Mr. Crume's column.

BY PAUL CRUME
It is reported that Jake Lamb, the town philosopher at Friona up on the high plains, is still nettled because the people up there got excited at the force of the wind during that tornado while back. He said it was a piddling wind and didn't even register on his wind gauge. His wind gauge is a 50-pound anvil on a chain. In a proper wind, it is supposed to rise in the air. The chain keeps it from floating away.

This is not a new kind of wind gauge. It has been used by town philosophers in the Panhandle for years, but they ought to quit using it. The gauge is not reliable. At times we have seen an anvil riding vigorously at the end of the chain, like a kite without a tail, when the wind was hardly strong enough to carry off a section of land, much less a county. In stronger winds the anvil at times has seemed to sulk.

About half the time, too, when the anvil is floating in the air, it doesn't point out the direction of the wind accurately.

It is our theory that, in the ordinary uncalibrated anvil, the wind gets trapped in the hole set aside for the swage block and causes this erratic behavior.

The floating anvil is esteemed as a wind instrument by the town philosopher of the high plains simply because he is given to caution, literal statement and exact truth. As a wind instrument, for instance, it obviously eliminates, night breezes, wayward zephyrs and trivial air currents from consideration.

It is not, however, the end-all of plains meteorology. There are lots of ways of studying the wind. You can tell its force, for instance, by noting how many miles the plume of smoke from a Mallet freight engine blows back in a line parallel to the earth before it begins to spread out. You can measure how far the loose 2x4's are standing out from the barn. If you want to know the direction of the wind, you can wet your thumb and hold it in the air. The side toward which the wind blows will turn muddy.

The only excuse for using the anvil is fine accuracy. If Mr. Lamb is going to continue to use his, he ought to file down the horn to a fine point and plug up the swage block hole and streamline it.

Probably it isn't worth the effort. In a couple of weeks or so, the spring wind season will hit the high plains, and Mr. Lamb will be able to tell it is blowing all right.

THEY HAVE about fouled up weather science on the high plains now by deep well irrigation. The countryside won't move around and orient itself to the wind as it used to.

In our day, nobody ever needed to know the direction from which the wind was blowing. It was always southwest. This was one of the constants of the universe, so much so that it was used as a constant and a man would direct another by telling him to set a course about three miles to the right of the wind.

Nobody needed to know how strong the wind was either. It was always strong enough.

MR. MILQUETOAST VISITS HIS NEPHEW IN COLLEGE

The young New Yorker on his first trip to the West especially impressed with his skillful way one cowboy's his cigarettes. "Aw, shucks," said the boy, "there's nothing to roll them. It's adding the filter gets me."

Two Men Needed

An editor doesn't understand or care to know about the problems confronting a large company such as the one that supplies telephone service here any more than a preacher would want to know how to handle problems an editor faces, or vice-versa.

An editor only experiences the inconveniences, boils and says bad things about the concern that is responsible for his telephone troubles.

There is no denying that Friona's telephone service is far from satisfactory. There may be explanations for some of the shortcomings but many phone users feel that part of the trouble could be remedied fairly simple.

A repair man, who has established a reputation for efficiency is located here. He can handle problems that arise, but there is one thing that prevents him from keeping Friona telephone users contented. That reason is that he is also required to take care of Bovina's telephone problems.

Why each town cannot have its own tele-

phone man is a mystery to those who pay a phone bill each month. If Friona had its own man to take care of telephone trouble here, and Bovina had the same setup there, everyone would be a lot happier.

But telephones of necessity operate on a monopolistic basis in rural areas as well as most urban areas. Therefore, we get the idea that there is really nothing we can do about the unfortunate situation except grin and bear it.

Surely no one that has a telephone wants to take it out. The service we have is better than none.

General Telephone Co. is fairly interested in its public relations. If officials of the company are made to realize that by placing a service man here, and another man in Bovina, their company will have a higher standing with residents of both communities, maybe this part of the problem will be overcome.

J. V. S.

Youngsters Praised

Less than five per cent of America's young people are delinquent, but the five per cent that are receive so much publicity that some people get the idea that the modern generation is worse than previous ones.

Friona's night patrolman Jack Fleming, who has been on the local police force for about two months, should know the young people of Friona about as well as anyone since he has opportunity to observe them and their recreational habits practically every night.

Fleming says Friona young people are "exceptionally well behaved." Coming from Azle, a Fort Worth suburb where he was police chief for several years, Fleming has had experience in a metropolitan area where juvenile delinquency is a problem.

His appraisal of Friona youth should therefore be a genuine indication that juveniles

and young adults here are above average when it comes to personal conduct.

Nothing is more disgusting to a youngster than to hear some older person say that the younger generation is going to the dogs.

But since the news each day usually contains details of serious crimes committed by individuals not old enough to be executed, it is understandable that some people have accumulated this mistaken idea.

One concession must be made on the delinquency problem; crimes committed by the young have increased in seriousness, if not in percentage.

But the kid next door is still there, delivering papers, and helping make up the 95 per cent.

Charlie Calaway Funeral Tuesday

Charlie Calaway, 66, Rhea community farmer and former county commissioner, died Sunday morning in Parmer County Community Hospital.

Mr. Calaway's death was a shock to his relatives and many

Simple Solution

Keeping children clean during a trip is easier if you carry paper towels and a water-filled plastic spray bottle in the car's glove compartment.

friends. He was in apparent good health until he was stricken by a heart attack in his home Saturday night.

Funeral services were conducted Tuesday afternoon in Bovina Methodist Church. Rev. Davis Edens, pastor, officiated. He was assisted by Alfred White, minister of Bovina Church of Christ.

Charlie Lee Calaway was born in Halesboro August 5, 1894. He married Miss Dora Lawson, October 19, 1913. They moved to Parmer County

some 32 years ago.

Survivors are his wife, one son, Robert; one daughter, Mrs. Paul Jones, both of Bovina; one brother, Luther, of Sparks, Nev.; three grandchildren and three great-grandchildren.

Pallbearers were George Trimble, Johnnie Horn, Carl Schlenker, Boye Taylor, Jack Patterson, Cordie Potts, George Harold Trimble and Orbra Cole.

Burial was in Bovina Cemetery with Claborn Funeral Home, Friona, in charge.

Night Classes Moved To Campus

CANYON, (Special)--Several new courses, never before offered during its evening program, will appear on the schedule when West Texas State College opens its evening classes for the spring semester here on the campus in Canyon, after the move from Amarillo Center in Amarillo.

Most of the new offerings are in the field of science, which could not be offered at

the Center because of lack of laboratory facilities. Now, with the evening program on the campus, such courses as biology, chemistry, physics, and geology are available.

The long projected move to the college campus, to take advantage of full college facilities, will be made when the second semester opens Jan. 25. The Amarillo-Canyon Expressway, now completed, makes it pos-

sible for night students to drive from Amarillo to the campus in "Only 13 Minutes," as a billboard in Amarillo proclaims.

A total of 118 different courses will be available for night sessions, with some 50 of these in the School of Business. Other work is offered in Art, biology, Bible, chemistry, economics, government, sociology, education, psychology, English, geography, geology, history, home economics, industrial arts, mathematics, physical education, physics, Spanish, and speech.

Along with general biology, the science courses include general and physical chemistry, economic geology, and an advanced physics class in "Vector Analysis." Two courses in industrial arts, "Elementary Woodworking" and Upholstry and Refinishing" are also being offered for the first time. Classes are scheduled in the major campus buildings and college library and student union facilities. Classes start at 7 p. m. and continue until 9:40 p. m.

Salesman: "This car will climb any hill."

Motorist: "I don't doubt it. The last one I bought from you was over ambitious and tried to climb a tree."

Car-Truck Mishap Hurts Woman, Man

A car-truck collision at Amarillo hospital for further treatment after X-rays were taken here.

Bernard J. Andreini, of Camp Vandenberg Air Base in California, and another passenger in the Harris automobile, was also treated at the hospital for an arm injury. He was released. Neither driver require hospital treatment. Driver of the car was Ralph Harris, and Walter Riethmayer of Route 3, Friona was driver of the pickup truck involved.

The pickup was traveling north on Washington and the car was proceeding west on Highway 60 when the mishap occurred. Total damage to the vehicles was estimated at \$800.

School Employs 82 Persons, Has \$293,932 Budget Annually

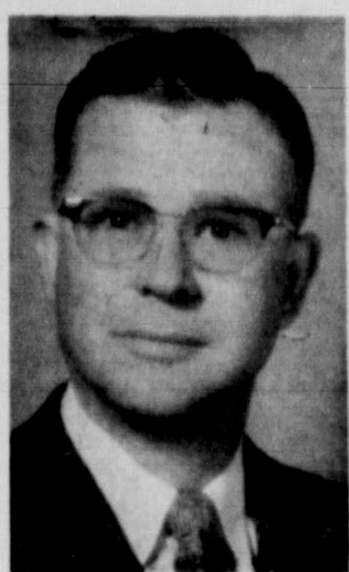

Few Frionans probably realize the importance local schools have for this community aside from their educational value.

A study of the facts, figures and personnel connected with the large organization indicates that a large number of

persons are employed by the school, and a huge budget is spent in Friona each year to keep the school operating.

During the 1960-61 school year the payroll for the 82 employees will be \$293,932. Gross budget for the school year has been set at \$399,883.

In addition to the employees on the payroll, there are seven members of the board of trustees who spend a great deal of time looking after the interests of pupils and taxpayers. Members of the board are D. C. Herring, president; Arthur Drake, secretary; Cordie Potts, Clyde Weatherly, John L. Ray, W. M. Masie and W. R. Mabry.

ALTON FARR

Farr came to Friona from Paducah and has been in the teaching profession 25 years. He and his wife and 12-year-old son live in the west part of town. He is a graduate of Texas Tech with a master's degree in education. His hobbies are golfing and hunting.

BAKER DUGGINS

Guidance director, Baker Duggins, has been a member of the Friona faculty the past six years. In addition to being girls basketball coach, he has been a classroom teacher and principal of the junior high school. He holds a bachelor's degree in history and physical education and a master's degree in education. Duggins and his wife, who is also a teacher, have one son.

One of the busiest members of the staff is Mrs. Marie Carroll, school nurse. She is a graduate of the Burnham Hospital School of Nursing at Champaign, Illinois, and has spent 32 years in the profession. Before coming to Friona five

years ago, Mrs. Carroll was an office nurse at Hereford. In addition to giving first aid when it is needed, she maintains health records for each pupil enrolled in school.

MRS. MARIE CARROLL

Eight years ago Mrs. Howard Mayfield assumed the position of cafeteria manager and has served in this capacity since that time. Mrs. Mayfield directs the preparation and serving of approximately 825 persons daily during the school year.

In addition to this daily routine, Mrs. Mayfield is often called upon to direct preparation and serving of banquets for various public organizations.

MRS. HOWARD MAYFIELD

For the past ten years Mrs. Virginia Jennings has served in the capacity of school secretary in the superintendent's office. In addition to this position, she assists her husband in the operation of Benger Air Park.

their four children recently moved into a newly completed home in the Lakeside addition.

MRS. VIRGINIA JENNINGS

Keeping the school buses running in order that pupils may be safely transported to and from school each day is quite a demanding job. This job is filled by Mr. J. P. Ready. He has served in this capacity three years. The Ready family lives in the west part of town.

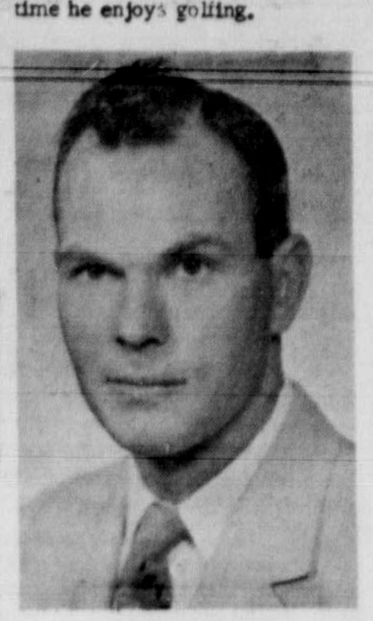

J. P. READY

High school principal John R. Cook joined the teaching staff of Friona High School 12 years ago. Before becoming principal he was a math teacher, assistant football coach and head basketball coach.

He received his bachelor of science degree from Hardin-Simmons University at Abilene in 1948 and his master of education degree from West Texas State College at Canyon in 1957.

Mr. Cook and his wife and two children live on a farm in the Hub community. In his spare time he enjoys golfing.

JOHN R. COOK

(Continued on page 6.)

Inscriptions in Egyptian tombs indicate that wild animals were confined in captivity (as in modern zoos) as early as 2,000 B.C.—there is definite record of a well-balanced zoo in China, in 1,100 B.C.

Jarrell's Variety

Friona

Friona Takes Three Tilts From Dalhart

Friona basketball teams won three games from Dalhart Tuesday night in first round action of the district 1-AA chase.

Probably the most impressive of the three wins from Friona's standpoint was the 37-34 victory snatched by the Chiefs, playing without the services of Gary Snead, a top scorer who was out with an ailment, the Chiefs scrapped all the way through the close match.

Tommy Sanders scored 10 points to lead the winners, Jim Lillard had 9 and Bobby Daniels accounted for 8.

Coach Vernon Scott called the game, "the best we have played this year."

The Squaws were favorites to win their game, and did so by a comfortable 65-24 margin. Tommy Lewellen scored 27 points to take high point honors in the game.

Su-Zan Harper scored 23, and Pamela Roden 11, while the defense checked Dalhart almost completely. Jimette McLean, Eleanor Dodson and Kay Burleson were credited with keeping the Dalhart score so low.

The B team boys won their game 45-39, with Charles Bass scoring 19 points for the winners. Max Reeve also hit in double figures, scoring 12 points, as did Don Stubbs.

'Horns Take Amherst Tournament

The Lazbuddie Longhorns scrapped their way to the throne in the Amherst tournament last week.

Lazbuddie slipped by Witharral 41-38 to take the crown. R.L. Porter accounted for 21 of the Longhorn's tallies. Amherst girls took the trophy in their bracket, as they beat Farwell 67-51.

The Longhorns, who have shown good promise during the season to date, will probably be district favorites in District 2-B. They opened play this week in defense of the crown they won last year in a playoff series with Bovina.

Friona Star Sports Page

AT LOCAL LANES--

Bowlers Can Win Spot On Television Program

Friona Lanes announced this week a working agreement with Panhandle Star Bowlers that could result in bowlers from the Friona area competing for prizes on a television program.

Final details of the program are not completed, but it is known that each week, two top bowlers in the Panhandle area will be featured on a television program from Amarillo.

The contest begins Feb. 5. Entry details may be obtained at Friona Lanes. Contestants will vie for the right to appear on the program by bowling at the local establishments under

rules and conditions common to a ABC or WIBC bowling tournament. In fact, the Panhandle Star Bowlers, are approved by both ABC and WIBC.

The program from Amarillo will be patterned after "Jackpot Bowling," a program carried by a national network. The winner each week will stay to compete until he is defeated in men's competition. Women bowlers, who will be featured on the program once each four weeks, will have two new faces before the television screens each week.

The tournament will be operated on a handicap basis. Women handicaps will be 75 per cent of 180 and men will be 66 2/3 from 200.

The trip to Amarillo for top bowlers will be expense paid. Winner will receive \$100 and loser \$50. Also, any contestant who bowls six strikes in succession will win the jackpot which will contain a minimum of \$50 and will grow until it is won.

"We feel this program will cause much interest to be generated in bowling in this area," said Ed Hicks, manager of Friona Lanes.

Dimmitt Teams Knock Cagers From Tourney

Both Friona basketball teams were defeated Saturday in the Dimmitt tournament by Dimmitt teams.

The Squaws, having one of few-and-far-between cold nights fell to the Bobbies 45-35. Dimmitt's B team defeated the Chiefs for a consolation trophy by a 48-39 margin.

While the B team was axing the Chiefs, Dimmitt's varsity, which was heavily favored to win district before the tournament began, added more laurels to its non-district record by defeating Hereford for the championship.

Junior Coffey led the Bobcats to a 57-50 victory over the tough Whitefaces who had rolled over the Chiefs 72-36 Friday night.

Friona had gained the boys consolation finals by dropping Nazareth 46-28, Gary Snead's 23-point effort paced the Chiefs.

Muleshoe downed Friona B team in girls consolation action Saturday. Janice Buckley scored 20 points for the losers.

In the girls championship game, Friona's red-hot offense was almost stone cold. Pamela Roden hit for 14 points and Su-Zan Harper managed 13. Friday night, Miss Harper had 41 points and Tommy Lewellen scored 30 in whacking Canyon.

But things didn't go nearly so smoothly in the finals. The Friday night scoring outburst by the Squaws gave them an 81-53 win over Canyon.

Eleanor Dodson, outstanding guard for the Squaws, and Miss Harper were named to the all-tournament team.

Snead, who also scored 15 points in the loss to Hereford,

was outstanding for the Chiefs. The tournament was the last non-district action for most area teams before they enter district competition. District 1-AA began loop play Tuesday night.

Friona, medical; Leroy J. Spears, Texico, medical; J. H. Steelman, Bovina, surgery; Marilyn Blackburn, Friona, medical; Sid Killough, Bovina, medical; Mrs. Santo Esquivel, Friona, Texas; Rafael Agullar, Friona, surgery.

DISMISSED: Eldon Thatcher, Vi Warren, Janice Patton, Mrs. H.D. Blythe, Margaret Charles, Edgar Carney, Danny Cruse, Thomas Huerica, Anna Castillo, David Dan Clark, Fred Langer, Evelyn Walker, Mrs. Johnnie Clark and baby girl, Myrtice Lea Shockley, Mrs. R. A. Cassidy and baby girl, Eunice Lee Schilling, Mrs. Paul Williams and baby girl, Lucy Vestal, Cynthia Ann Guinn.

Mr. and Mrs. J. T. Gee were in Roswell last weekend visiting in the home of Mr. and Mrs. Glenn Cunningham, Sunday they attended a concert directed by Cunningham.

The Gees were also in Truth or Consequences, Alamogordo and White Sands.

NEW! BUTLER Farmsted BUILDINGS

AT A NEW LOW PRICE

Here are the newest, most attractive farm buildings in America... Farmsted buildings, made by Butler.

Now, for the first time, farm buildings can be colorful, have low "ranch" styling and still be low in cost.

And these new buildings are as practical as they are attractive. Construction is fast and easy. The top-quality Butlerib™ cover seals out wind and weather. And the Butler-Tone™ colors add new beauty, new protection to Butler Farmsted buildings—inside and out. Here's the newest way to build everything from small sheds 18' x 20' to the largest storage buildings.

CALL US TODAY for the full story on Farmsted... the newest, biggest farm building value in America.

• Important news for new-car buyers—
THE '61 CHEVY BRINGS JET-SMOOTH TRAVEL DOWN TO EARTH

HERE'S WHAT GIVES CHEVY ITS JET-SMOOTH RIDE—
Full Coil suspension—Chevy's one of the few cars with a coil spring at every wheel. Precision-balanced wheels—For smoother rolling with less vibration. Sound-hushing insulation—Sheet metal is carefully insulated against drumming and vibration. 51 built-in "shock absorbers"—Cushion the chassis against shock and shake. Live rubber body mountings—Extra-large butyl rubber cushions that further isolate the ride from the road.

This is the Impala Sport Coupe—just one of 20 Jet-smooth Chevies!

Better just circle your dealer's block the first time you try a Jet-smooth '61 Chevy. Get anywhere near an open highway and he's liable never to see you again.

What we mean, Chevy's ride whets your yen to travel. Wins you over with its delightful coil-spring smoothness, its hushed comfort and light steering. You find yourself feeling sorry for people who buy higher priced cars, thinking they have to pay premium prices for a luxury ride.

That may have been true at one time, but not any more. Chevrolet's ride, its roadability, just doesn't take second place to anybody's. Drive one soon and see.

School Employes--

MRS. LIONEL YOUNG

Mrs. Lionel Young, assistant secretary in the superintendent's office, is a new resident of Friona. Her husband is teaching in Friona for the first time this year.

Mrs. Valoris Osborn, a long-time resident of Friona, is a graduate of Texas Tech. She is a homemaking teacher and advisor of the Friona Future Homemakers of America. Her husband is a farmer and the couple and their two children live in the west part of town.

MRS. VALORIS OSBORN

Mrs. Virginia Chambers Huff, is also a homemaking teacher and FHA advisor. She and her husband, also a teacher, moved to Friona from Lawton, Okla., two years ago.

MRS. VIRGINIA HUFF

Freshman coach Billy Bob Adams has had two years experience in Friona. He teaches math, social studies and driver education in high school. He and his wife, Jeanne, have a first grade daughter, Becky. The Adams family moved to Friona from McLean.

The advantage of being bald is that when you expect callers all you have to do is to straighten your necktie.

BILLY BOB ADAMS

Another first year teacher in Friona is Lowell Bynum, who moved here from White Deer. He is the band and high school chorus instructor and taught six years before coming here.

The Bynums have four children. In his spare time Mr. Bynum plays golf and studies music.

LOWELL BYNUM

Dorothy Rowlett has taught History and Literature at Friona High School the past three years. She attended the University of Oklahoma, Norman, Okla.; Oklahoma Baptist University, Shawnee, Okla.; Lindenwood College at St. Charles, Missouri. She has B. A. and B. S. degrees and 8 hours of her Master of Arts

degree. Stamp collecting and reading are hobbies of Dorothy's. She has one son.

DOROTHY ROWLETT

Lionel Young, a science teacher, is teaching for the first time this year. He has a B. S. degree and attended the following schools: Eastern A&M, Wilburton, Okla.; Oklahoma State

University, Stillwater and Southeastern State College, Durant, Okla.

Hobbies of Lionel's are Radio and Models. Mr. Young is married.

Something To Think About

6th. Street Church of Christ Box 515 -- Friona, Texas

Many times we are asked; "Do you think everyone has a right to his own belief?" Legally, the answer is "Yes!" Man is free to believe any thing he wants to believe. However, we have found that in most cases the inquirer has in mind the idea that a person can believe anything he wants to religiously and please God.

We know of but one dependable answer when this is the reason for the question, and that is the Word of God. The gospel is God's power unto salvation (Romans 1:16) if man or angel from heaven preach any other gospel his is accursed. (Galatians 1:8) Christ declared in Matthew 24:24 that there would be false teachers shewing great signs and wonders and shall deceive the very elect. Peter states that these false teachers shall bring in damnable heresies (2 Peter 2:1) And we might add, all this in the name of religion.

Yes, dear friend, you can believe anything you want to but be prepared for the frightful end if you choose the doctrine of men rather than the gospel of Christ. Others have been deceived and we can be too. Remember those people who prophesied, cast out devils and did many wonderful works in the name of the Lord and yet he said to them, "Depart from me, ye that work iniquity." (Matthew 7:23) We have no reason to question their sincerity, they simply exercised that privilege of believing what they wanted to, but they were lost never-the-less.

The Church - Man's Link With His God

Peter therefore was kept in prison; but prayer was made without ceasing of the church unto God for him. (Acts 12:5)

When Herod imprisoned Peter, the church prayed without ceasing unto God for him. The prison doors were opened, and Peter gained his liberty. His fearless witnessing for Christ was used to change other lives.

In his book WELLSPRINGS OF IMMORTALITY, Starr Daily tells of an incorrigible prisoner thought to be beyond redemption from a life of crime. But through prayer he began to examine his life and seek for a way of recovery from bondage to crime. He decided that in every situation he would do the thing that led to the most reasonable and beneficial results. He prayerfully made this choice in each situation and carried through. His life was changed. At length he was set free from prison and because a useful citizen. Here prayer changed a life and opened prison doors.

The city girl was on her first visit to the country. She was anxious to show that she was not altogether ignorant of rural conditions, and when a

dish of honey was set before her on the breakfast table she saw her opportunity. "Oh!" she observed carelessly, "I see you keep a bee."

School Employes--

Vernon R. Scott Jr. is another new member of the Friona High School teaching staff. He is a graduate of Way-

land Baptist College and teaches physical education and history. He is also boys' basketball coach.

Tech. The McClains live here but spend a great deal of time at their pony ranch near Paris, Texas.

Coach Earl Smith, a graduate of Texas A&M, has been here three years. He came from Mountainair, N. Mex., and has been teaching seven years. In addition to being head coach, Mr. Smith teaches mathematics. He is married and has two children.

In a certain class a teacher asked her young pupils to draw a picture of the Christmas nativity scene. All the youngsters turned in conventional

drawings, except little Robert, who drew one round figure. When the teacher asked about the rotund little man, Johnny replied: "Oh, that's Round John Virgin."

MRS. CARL MAURER shown with some of the interesting souvenirs she brought home from Venezuela including a beautiful stola, a black heron made from bull's horns, replicas of shrunken heads from one of the Indian tribes, small harps and banjos and other musical instruments.

Carl Maurers Visit Son In Venezuela

(Editors note: The following account of a trip to Venezuela was written by Mrs. Carl Maurer.)
"We traveled by jet from Amon Carter Field in Fort Worth to New Orleans, where we stayed over a day to secure our visas. The following morning we took off for Caracas with stops at Havana, Cuba and Montego Bay, Jamaica.
At Havana we were asked to remain in the plane until the pilot had deplaned, (a precautionary measure, we felt) although a three piece orchestra was serenading us as we left the plane.
We arrived in Caracas about 9 p.m., and after a very short session at the customs office, we were met by Gaylord and went directly to Maracay, where he is located. Between the airport and the city of Caracas we were stopped by soldiers and had to show our passports. There had been an incident that afternoon - an army officer had tried to take over the army (and thereby the government) but had failed, but they were still checking everyone arriving at the airport. Other than this it was a very peaceful trip.
We stayed at the Hotel Maracay, one of the most beautiful in Venezuela and since this and our trip down was our Christmas present from Gaylord, we enjoyed it thoroughly.
We saw many interesting places, including the "Rain Forest" where orchids and birds of paradise flowers grow in profusion in the dense jungle. You could see and hear beautiful tropical birds and from overhead hung the long tropical vines, - fully expected to see Tarzan leaping around and

swinging on them.
On the trip home we arrived in Havana the day the United States had broken off diplomatic relations with Cuba and everyone was a little uneasy when we had to land again, although we were met by the same smiling little orchestra.
However the airport was lined with people whom they said had been trying for days to leave the country and just beyond the end of the runway soldiers and civilians were working to set up some sort of military installations.
We were quite happy to leave - that big expanse of water we had to fly over wasn't nearly as threatening as that little strip of land, Cuba."

Mary Dorcas SS Class Met With Mrs. Vernon

The Mary Dorcas Sunday School Class of the First Baptist Church met in the home of Mrs. Sarah Vernon Saturday, Jan. 7 for the monthly meeting.
For the devotional Mrs. Vernon read the 100th chapter of Psalms. Mrs. Florence Day gave the prayer. The social hour was spent in visiting and fellowship.
The hostess served cake, ice cream, coffee and lemonade to Mrs. Alpha Baker, Mrs. Sallie McFarland, Mrs. Florence Buske, Mrs. Julia Lloyd, Mrs. Bulah Massey Mrs. Rosa Anderson and one guest, Mrs. Leona Wolfe.

Guests in the home of Mr. and Mrs. Johnny Hand Sunday for an evening meal were Mr. and Mrs. Bob Riethmayer and family, Mr. and Mrs. Bill Wooley and boys and Mr. and Mrs. James Procter and boys.

Study Club Has Progressive Dinner

The holiday season's meeting of the Progressive Study Club was held recently with a progressive dinner.

Members met at the home of Mrs. Marion Fite. Mrs. Baker Duggins gave the opening prayer. Here the group was served appetizers.

After arriving at the home of Mrs. Andy Hurst, a salad was served to the guests.

Moving to the home of Mrs. Robert Ginsburg the main course of the evening was served.

The last stop was made at the home of Mrs. Marty Martinez where dessert and coffee were served. "Christmas Thoughts" was presented by Mrs. Martinez.

Climaxing the evening was the gift exchange of party aprons. Each member modeled her apron and told who made it.

Mrs. Jack Tomlin Hosts Hub HD Club

Mrs. Jack Tomlin was hostess to the members of the Hub Home Demonstration Club meeting that was held Thursday Jan. 5 at the Community Center.

During the business session plans were discussed and completed for the luncheon to be served at the Hub Community Sale. The group also worked on the programs for the year books.

Mrs. John Hand appointed the new committees and chairman for each.

Refreshments were served to Mesdames Albert Cannon, Woody Fleming, Buck Fallwell, Paul Daniel, Rene Snead, Warren Smith, Aubrey Cannon, A. L. Black, John Hand, Weldon Stringer and Flake Thurman.

Herbert Garths Attend Funeral

Mr. and Mrs. Herbert Garth and son returned to Friona Sunday, Jan. 8, after being at Ore City, Texas where they attended the funeral of Mrs. Garth's mother, Mrs. A. W. Lavendar. Mrs. Lavendar died Jan. 5 at the age of 88. Her husband preceded her in death three years ago.

Visiting in Amarillo Monday were Mrs. Dan Ethridge, Mrs. Frank Spring, Mrs. Sloan Osborn and Mrs. Roy Clements.

Past Matrons Club Met Friday

The Kinsley Past Matrons Club met Friday afternoon at 2:30 in the home of Mrs. R. W. Ginsburg for the regular meeting.

Mrs. Claude Miller presided over the meeting. Mrs. Ginsburg gave the devotional. The

theme was "Christian Challenge in the Changing World." She used scriptures taken from Isaiah and Deuteronomy.

Attending were Faye Southward, Mrs. Miller, Mrs. Pearl Kinsley, Mrs. Ed Boggs, Mrs. Mack Bainum, Mrs. Bert Chitwood and the hostess.

Surprise Coffee Fetes Mrs. Talley

The Ruth Sunday School Class honored their teacher, Mrs. Joe Talley, with a surprise coffee in her home Monday afternoon. She was presented with a colonial bedspread as a gift from the class.

Following a tour of Mrs. Talley's home brownies, coffee and cold drinks were served.

Attending were Mesdames Noyle Wood, A. L. Black, Jack Tomlin, Dean Bingham, Bruce Parr, Luther Shelton, B. W. Turner, Clyde Sherrieb, George W. Jones and T. A. Williams.

E. S. Whites Have Guests

Recent visitors in the home of Mr. and Mrs. E. S. White Sr., were Mr. and Mrs. Roy Campbell, David and Audrey of Seminole, Texas, Mr. and Mrs. Edward Wate Jr., and sons, Mr. and Mrs. M. M. McPheirsoa of Clovis Air Base and Pvt. Wayland Hinds who is in boot training at Ft. Hood.

Also Mr. and Mrs. Raymond White of Dumas. Raymond was recently discharged from the army at Ft. Barry. He enlisted three years ago and took his boot training at Fort Carson, Colo. They are making their home in Dumas where he is employed.

"I used to be terribly con-celcted," said the young man, "but my psychiatrist straightened me out, and now I'm one of the nicest guys in town."

Mary Tom Spring returned to Nevada, Mo., Monday where she is attending school at Cotney College.

Black News

BY MRS. DELTON LEWELLEN

BLACK HOME DEMONSTRATION CLUB

The Black Home Demonstration Club met Thursday in the home of Mrs. Fern Barnett.

The year books for the coming year were filled out and the committees and club demonstrators were chosen.

Mrs. Dick Rocky was elected as a nominee as THDA to attend the District meeting.

Delicious refreshments of chicken salad, crackers and hot punch was served to mesdames J. R. Braxton, Giles Cobb, Clyde Hays, Helen Fangman, Roscoe Ivie, Lloyd Prewett, Ralph Price, Dick Rocky, Ellis Tatum and Gene Welch.

The next meeting will be held in the home of Mrs. J. R. Braxton on January 19.

PAINTING PARTY

The all day Dresden Painting Party has been changed from the 24th of January to Friday the 20th. Everyone note the change and be sure and try to attend.

I am happy to be back on the job again and I hope I can do better than I did last year. With the help of the people of the community I know I can collect a lot of news.

Mrs. A. W. Wood has announced the engagement and approaching marriage of her granddaughter, Judy Fesser, to Harold Taylor, son of Mr. and Mrs. Glenn Taylor. The couple plan a late January wedding.

I am happy to report our daughter Donna is doing real well after her heart operation. The check up last weekend at Dallas made us very happy as the Dr. gave us a very good report.

Mrs. Woodrow Whitaker and David spent the day Sunday with her parents Mr. and Mrs. T. J. Presley.

Mrs. T. J. Presley was in the hospital last week but we are glad to report Mrs. Presley is home now and feeling much better.

We are sorry to hear Mrs. Les Gibson is on the sick list this week. We hope she has improved by the time this paper is printed.

Mr. O. B. Roberson has been ill and is in the hospital in Hereford.

Mrs. Clyde Hays and Mrs. H. H. Elmore visited Mrs. T. J. Presley while she was ill with the flu.

Mr. and Mrs. Travis Stone were hosts to a supper and 42 party one night last week. Those attending were Mr. and Mrs. Harland Frye, Mr. and Mrs. George Frye, Mr. and Mrs. Gene Welch and Mr. and Mrs. Bill Carthel.

Mr. and Mrs. Clyde Hays were in Hereford on Sunday afternoon attending a surprise birthday party for Mr. A. C. Hays who was celebrating his 90th birthday.

Mr. and Mrs. Roscoe Ivie visited Mrs. M. J. Ivie in Amarillo on Sunday.

Mr. and Mrs. Jimmy Patton and daughter Charla of Amarillo visited Mr. and Mrs. Coy Pat-

ton this last weekend. We are happy to see Mrs. Coy Patton up and around after being in the hospital last week. We understand she is feeling much better.

Mrs. Fern Barnett is visiting a few days in Alamogordo, New Mexico with her parents and other relatives.

Mr. and Mrs. H. H. Elmore just returned Monday from a trip to Moreland, Oklahoma where they visited Joe Elmore, Mr. Elmore's brother.

Mr. and Mrs. Joe Golden and son Ronnie of Grand Junction, Colorado visited Mr. and Mrs. Bill Carthel on Thursday.

Mr. and Mrs. Bill Carthel visited Mr. B. R. Carthel in the Lockney Hospital on Sunday. He is Bill's Grandfather.

Mr. and Mrs. R. E. Barnett are visiting in their daughter's home, Mr. and Mrs. George Brock this week in Lubbock.

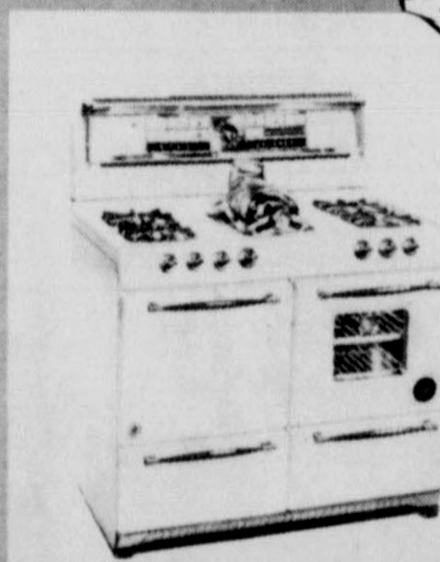

Mr. and Mrs. Delton Lewellen and Donna spent the night Saturday in the home of Mr. and Mrs. T. A. Kelley and girls in Plainview.

The preacher finished his sermon with "All liquor should be thrown in the river," and the choir ended by singing "Shall We Gather at the River?"

When the small boy of the family eating out in a restaurant heard his parents ask the waiter to put their beefsteak leavings in a bag to take home to the dog, he spoke up in a shrill, excited voice:

"Oh, boy, are we going to get a dog?"

There's a reason why **HOMEMAKERS OVERWHELMINGLY PREFER GAS RANGES**

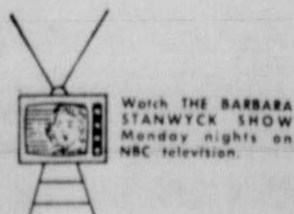

ROPER

ECONOMY...

The American homemaker is about as sharp a cookie as you'll find when it comes to dough (both kinds)! The more efficiently and economically she handles the family budget, the faster she can feed the piggy bank. When it comes to buying a new range, she knows she'll be "way ahead with GAS because what other range gives such beauty and performance... for so little money? And when she can save more than \$30.00 a year in operating costs over "coil type" cooking... what else can a smart woman choose?

Friona

in and around

FRIONA

WITH JUNE

An old saying is being re-written this week to read "Friona's loss is going to be gain to the City of Hobbs." When Jay and Odie Claborn and their boys move to Hobbs, which is one of the most up and coming towns in New Mexico, Friona is

going to lose some very valuable citizens. Knowing and working with Jay and Odie these past 4 1/2 years has been a very pleasant experience and our most sincere wishes go with the Claborn family in their new location.

Frionans who read the Better Homes and Gardens magazine were probably impressed with the Five Star home in the January 1951 issue. This home was beautifully pictured in color on two pages, but no mention was made that the owners were Mr. and Mrs. E. R. Day Jr. or that they lived in Lubbock. Those of you who know Emmett Jr. and Maridee and their two children, Debbie and Danny, may have recognized the Days in the pictures. Apparently Danny was taking a nap or gone

from home when the photographer called to make the pictures. Mr. and Mrs. Day both grew up in this community and are graduates of Friona High School. Their parents, Mr. and Mrs. E. R. Day Sr., and Mr. and Mrs. P. L. London still live here. Americans are faced with many problems this year. These problems are both domestic and international. One of the biggest steps in the direction of any

problem is the realization that a problem exists. The threat of communism is probably a greater problem than many of us realize. Apparently some of us are in such a state of lethargy that nothing short of a bomb being dropped in our backyard can awaken us. Some of the programs that have been planned to expose the threat of communism have drawn almost no spectators. Some of the radio stations are devoting time to these programs and our time would be well spent listening to them. Our local Lions Club and PTA are sponsoring such a program this Thursday evening at 7:30 in the high school auditorium. If you haven't seen a film sponsored by the American Legion or other civic organization, do attend this meeting.

Claborn Will Leave Funeral Home Post

Announcement was made this week that Carrol Kreig will become funeral director at Claborn Funeral Home here. At the same time, J.C. Claborn, who has been funeral director here for the past four and one-half years, announced that he would move to Hobbs, N.M.

Kreig comes to Friona from Hereford and Big Springs. He is married and the father of three children: Jim, 13; Mike, 11 and Suzette, 8. Mr. and Mrs. Claborn are also parents of three children, all boys. They are Jobey, high school senior; Johnny, 12; and Jackie, 10. Jobey will remain

in Friona to complete his schooling. Claborn will continue to be connected with Claborn Funeral Home here and will maintain ownership. "We are sorry to leave Friona," Claborn said, "but have an opportunity there (Hobbs) that I wanted to try." "It won't be like we were leaving completely," he said. "It is only a two and one-half hour drive to Hobbs." J. C. has been active in civic affairs during his stay here.

Friona

Foster's Drygood is in the process of moving into the building formerly occupied by Ware's. It seems that Friona is definitely marching north. Losing good neighbors is always hard, but we do wish the Fosters much success in their new location and realize that they will be able to offer their many customers better service in the new quarters.

It is certainly good to see Granddad Reeves up and around again. Noted he was occupying his bench at Reeve Chevrolet Monday of this week. He and Claude Osborn were visiting and he seemed much the same as before his long illness.

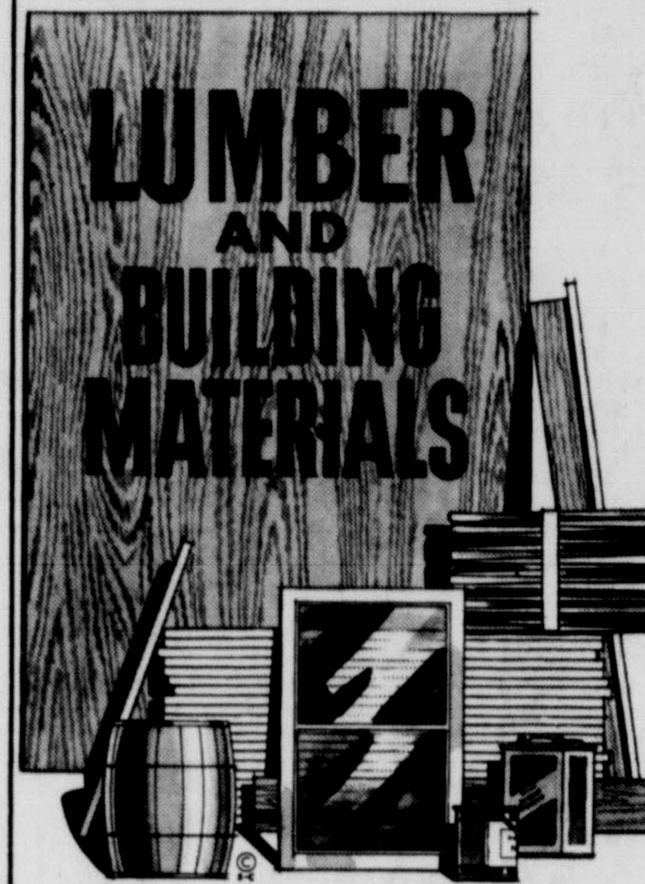

Squaw fans were disappointed that the Dimmitt Bobbies beat the Squaws in the final game of the Dimmitt tournament Saturday evening. This disappointment was fading by Monday and coffee drinkers all over town were saying, "We'll do better next time."

From reading the Farmer's Union report this week it looks like Parmer County will be well represented in Washington at the national convention.

Do hope someone takes time to make notes for a full report in local papers upon their return.

Mr. and Mrs. Guy Latta spent the Christmas holidays in San Jose, California as guests of Mr. and Mrs. Noel Benger and Eddie. Noel is Mrs. Latta's brother. They also were in San Francisco visiting with an aunt, Mrs. Mertle Kelly.

Before returning home they visited with Mr. and Mrs. Kenneth Latta and family at El Paso.

We Will Be Glad To Help Make Suggestions And Give Advice

As You Make Plans For 1961, Consider These Advantages Of Financing Your Farming Or Ranching Operation With Production Credit Association.

SPECIALIZED

1. It handles only agricultural credit.
2. The loan committee is composed of farmers and ranchers who know agriculture in this area.
3. All personnel dealing with credit have an agricultural background and agricultural credit training.

DEPENDABLE

1. Local conditions do not affect our supply of money, since it is all borrowed through the Intermediate Credit Bank at Houston from the investing public all over the nation.
2. The Association is owned by those who borrow from it and is in business to help them make money.
3. It is strong, and can handle any loan regardless of size.

AVAILABLE

Loans are available for most any agricultural purpose including operating expenses, equipment, purchases, building, land purchases. Pay off existing indebtedness and are made in line with one's equity in his business and ability to repay.

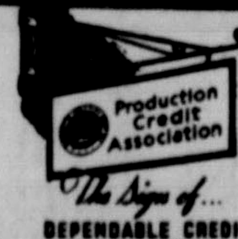

Our Interest Rates Are Now 6%

CARD OF THANKS
We have not the words at our command to express the humble gratitude in our hearts to each and everyone for the many kind and thoughtful things that have been done for us through the long hours of our anxieties and sorrows.

To the men of the Civil Air Patrol, the State Highway Patrol, from both Texas and New Mexico, all law enforcement officers of Texas and New Mexico, we are deeply grateful for the concentrated efforts made in our behalf.

For the magnificent floral offering, the memorial donations to Boys' Ranch, the food prepared by the ladies of our community and various other assistance given by them, and to those everywhere whose sympathies went out to us in these trying days, we are so very thankful.

Please forgive us if there are those who should have received personal cards of thanks and do not receive them. We do know some have been lost. May God bless and take care of each and everyone of you from this day forward is our prayer.

SOIL CONSERVATION DISTRICT NEWS

OUR SOIL ★ OUR STRENGTH

What are soil surveys? Simply stated, a soil survey is an inventory of soil resources in a given area. A soil survey tells us the kind of soils and their characteristics. It tells us how the soils are distributed, where they come from and how they behave under different climatic conditions.

About one half of the soils in the United States have been covered by a soil survey that shows enough detail that they may be used for conservation planning.

In a soil survey the important properties and characteristics are noted. This gives us a soil unit. These units are located and plotted on aerial photographs. Finally this information is published in a soil survey report. A soil survey report includes a map that shows the location and extent of the soils in the area. It includes a description of the soils and how they may be used and managed. It also gives the limitations and potentialities of the soils. A report usually covers one county.

Although some soils may look alike on the surface, they are quite different just below the surface. This difference may be due to their composition as in the arrangement of the soil layers. Through research and experience we know there is a close relationship between different kinds of soil, their soil and water management problems and their production potentials.

Soil surveys are made cooperatively by the federal and state governments. The Soil Conservation Service is the federal agency that has the primary responsibility for soil surveys. The land-grant colleges and universities and primarily state agricultural experiment stations are the state agencies.

Guam has the highest birth rate of any area of the world, with 58 births per year for each 1000 population. (U. S. average, 24.8) (Monaco claims the low record of 14.2 per 1,000 population).

FARMER'S UNION NEWS

BY W. L. EDELMON

More than one hundred farm people listened intently as Alex Dickie, state president of Texas Farmer's Union, painted a brighter picture for American agriculture during the next four years at the Hub community center Friday evening.

"A friendly attitude toward farmers will mean a lot," said Dickie in discussing the incoming administration.

"Orville Freeman has a broad knowledge of and a profound sympathy for the problems of the American farmer and will act boldly when he assumes the duties of office," he added when describing the new appointee to head the department of agriculture.

"He is now determining the possibilities of improving the farm situation under present laws and considering the most needed changes to provide the best possible farm program that can be set up and at the same time reduce the expenditures which are opposed by the nation's press," Dickie added.

Delegations from Bovina, Farwell, Lazbuddie, Friona and Lamb and Bailey Counties were present.

Formosa, 240 miles long and about the size of Maryland and Delaware combined, sustains some 10,000,000 people.

THE HIGH PLAINS FARM AND HOME

SEEDLINGS PLANTED LAST SPRING on the Leon Billingsley farm near Oklahoma Lane are making progress, and several years from now they will provide a nice windbreak.

These three rows of Red Cedars were planted west of the Billingsley home.

FURTHER ALONG are these Cedar trees that were planted on the Donald Watkins farm a few years ago. It won't be long before these three rows of trees will provide a nice windbreak.

Seedlings Available For Farm Windbreaks And Beautification

Once again this year tree seedlings for windbreaks and beautification of farm homes in Farmer County are available through the Texas Extension Service.

Orders may be placed through Farmer County Agent Joe Jones for any of 14 different species at a cost of \$1.50 per 100 seedlings.

Orders must be received before February 10 and shipment will be made between mid-January and Mid-February and the first week in March.

Since the forestry program was first started in 1951, quite a few farmers in Farmer County have order trees from the

Forest Service and several farms are well on their way to having good windbreaks.

The trees are mainly for windbreak purposes, but they do help in farm beautification, Jones says.

The county agent suggests that farmers ordering the plants, plan a windbreak around their farms to protect their houses from wind and sand and provide a place for children to play.

Also, adult recreational facilities such as a patio or barbecue pit would be possible.

Windbreaks are usually planted in two or three rows and sometimes surround a farmhouse,

the county agent says.

Tree application blanks may be picked up at the agent's office in Farwell. While there are 14 species from which to choose from, Jones recommends three which are best adapted to this area.

They are Red Cedar, Ponderosa Pine and Austrian Pine.

Trees may also be ordered

for churches and schools but not for city residences. Orders must be for at least 100 trees.

Meeting On Farm Records Monday, 1:30

A meeting for assisting farmers in setting up a farm records system is slated for Monday, January 16, at 1:30 p.m. in the Friona State Bank Building.

James Murphrey, extension farm management specialist from Amarillo, will be present to help farmers set up and keep a good, comprehensive set of records.

The meeting is one of several which the Farmer County Farm

Management Committee has been sponsoring for the purpose of helping farmers with management problems.

Believing that good farm management is a must if farmers are to get the most out of their farming operations, the committee invites all interested persons to be on hand at the meeting.

The meeting will last for about two hours.

Friona Farmer's Union Members Elect Officers

The Friona local of Farmer W. Mingus, vice-president; and County Farmer's Union, following a countywide meeting at the Hub Community center Friday evening elected officers to serve during 1961.

Officers elected included John W. Renner, president; Glen W. L. Edelman, secretary.

Following the election plans were made to send a bus load of farmers from Farmer County to the National Convention in Washington, D. C., when president Kennedy will be the featured speaker.

Black Optometric Clinic
A. J. BLACK, O. D.
OFFICE HOURS: 9:00 to 5:00--Sat. 9:00 to 1:00 Ph. 8240--Muleshoe, Texas 113 West 1st. St.

At this meeting, four cabinet members, Secretary of Agriculture Orville Freeman; Secretary of State Dean Rusk; Secretary of Interior Stewart Udall; and the Secretary of Health, Education and Welfare will address the farmers. Round-trip tickets can be purchased for \$30 and the stay in the capitol city will be four days.

The HAPPY HOMEMAKER

BY JUNE FLOYD

During the holiday season many of us ate so much fruit cake, orange-date cake and other filled cake that just a common everyday cake would probably go over big with family members or guests. If you don't already have a

treasured basic layer cake recipe, try the one in the next paragraph. This cake can be iced in so many different ways that it changes character each time. Or, if you prefer, you can bake it in a sheet pan and serve un-iced.

BASIC LAYER CAKE
 1 3/4 cups sifted flour
 2 teaspoons baking powder
 1/2 teaspoon salt
 1/2 cup margarine

1 cup sugar
 2 eggs
 1/2 cup milk
 1/2 teaspoon vanilla extract.
 Sift together flour, baking powder and salt. Stir or beat margarine until creamy. Gradually add sugar, beating or stirring until light and fluffy. Beat eggs until very light and thick. Add to margarine mixture with vanilla extract and beat well. Add flour mixture and milk alternately, beginning with flour and beating smooth after each addition.

Pour batter into two 8-inch cake pans lined with waxed paper. Bake in moderate oven (375 degrees) 25 to 30 minutes. Cool in pans on wire racks 10 to 15 minutes. Turn out of pans and remove wax paper. When cake is entirely cooled, fill and ice with desired frosting.

Most of us use flour when making cornbread, but tasty cornsticks can be made without any flour. If you want to give your vegetable dishes the perfect companion, serve piping hot, golden cornsticks with them.

GOLDEN CORNSTICKS
 2 cups yellow corn meal
 1 teaspoon salt
 1 teaspoon soda
 1 egg, beaten
 2 cups buttermilk or sour milk
 6 tablespoons margarine
 Start oven and set at moderately hot. Put heavy iron or aluminum cornstick pans into oven to heat while batter is being mixed.

Stir together corn meal, salt and soda. To beaten egg, add buttermilk and 4 tablespoons melted margarine. Add to corn meal mixture. Mix well. Remove piping-hot pans from oven.

Use remaining margarine to grease hot pans. Pour batter at once into pans and bake 22 to 25 minutes, or until golden brown. Serve hot with margarine.

A well filled cookie jar is a wonderful addition to any home. For a yummy cookie

that will be a hit any time it is served, try

SPRITZ COOKIES
 1/2 cup margarine
 1 cup sugar
 2 eggs
 1 teaspoon vanilla extract
 1 tablespoon cream
 2 1/4 cups sifted flour
 1/4 teaspoon salt
 1/2 teaspoon nutmeg
 1 1/2 squares unsweetened chocolate, melted
 Cream margarine. Add sugar gradually, creaming until light and fluffy. Add eggs and beat well. Stir in vanilla extract and cream. Sift together flour, baking powder, salt and nutmeg.

Add to margarine mixture, about one-fourth at a time, mixing well after each addition. Divide dough in halves. Leave one half plain. To other half add cooled melted chocolate and mix well.

Fill cookie press and form cookies on ungreased baking sheet. Bake in moderately hot oven 8 to 10 minutes. If desired, decorate cookies with colored sugar before baking.

Or the baked cookies may be decorated with confectioner's sugar icing and coconut, nuts or candied fruits.

Now, there is a Vitamin B lipstick--for girls with anemic boy friends.

34 New SCD Agreements

During the six-month period from January 1, 1960, to August 31, 1960, there were 21 new cooperative plans written for farmers in the Farmer County Soil Conservation District.

According to the annual report recently released by the SCD's board of supervisors, there were also 13 basic conservation plans written in the district for a total of 34 new agreements.

The new cooperative plans written in the district during the six-month period pushed the total number of farmers in the county applying conservation practices under the SCD program to 477. There are 256,498 acres in the program.

In their report, the supervisors cited five county farmers for outstanding soil conservation practices during the year.

Arthur Drake installed a lake pump on his farm near Friona and tied it into his concrete pipeline system with

aluminum pipe. The pump was installed in March and has been used all year, thus making good use of water that would otherwise be wasted.

Jerry Bell has made excellent use of his grain sorghum stubble the past three years. Each year he has harvested from seven to eight thousand pounds of grain which leaves him with a bumper crop of stubble.

Realizing the value of this stubble for erosion control and adding organic matter, Bell uses a roto-tiller and disc to work the stubble into the soil surface instead of burying it with a mold board plow.

Kenneth Nunn did some earth moving on 35 acres of land to improve the application of irrigation water.

Leon Wilson installed a sprinkler system to irrigate alfalfa on sloping ground. A used motor and pump was set to pump out of a playa lake.

This, according to the SCD supervisors, is wise use of

rain water that would be wasted. By using the sprinkler method on his sloping ground and permeable soil, he is applying the amount of water needed without waste or erosion.

Gilbert Schueler planted approximately 75 acres in soybeans and he does so each year. Schueler has seen the advantages of planting soil improving crops in rotation with other crops.

In addition to improving the soil, he has a cash return as well, that will bring almost as much as grain sorghum. During the six-month period, the SCD purchased several pieces of equipment to help farmers and ranchers accomplish more difficult conservation problems. Equipment now in use by the district includes four Engler scrapers, three weed poison spreaders, and one Hancock grass seeder.

Also during the year, the board continued its practice of furnishing farmers in the district with Arizona Cypress trees for farmstead and livestock windbreaks at a reduced cost. Approximately 330 trees were planted under this program during 1960.

In winding up their report, the SCD board listed several problems and needs of the Soil Conservation District. They included:

1. A greater amount of help from Agricultural Conservation Program in the form of financial assistance to farmers for concrete tile and other conservation practices. This would be of benefit in promoting the district welfare.
2. The board also feels that the Agricultural Conservation Program should supply part of the help for ACP checking. Additional men for technical assistance is still needed in the district from the Soil Conservation Service.
3. The greatest need of the district is educating the farmer to use proven methods of soil and water conservation planning. Although farmers are already aware of the methods, it is a matter of encouraging them to use them and realize the need for proper soil and water control.
4. The board feels there is a need for another grant to the district in order to carry on and expand this program so that it may be of greater service to farmers in the district.

The board acknowledged the assistance given them by the following businessmen and other civic groups:

- 1) Newspapers in the county for supporting the district by getting information to the public.
- 2) Friona Chamber of Commerce for furnishing office space for the Soil Conservation Service.
- 3) Friona State Bank for paying the dues for a number of years to the National Association of Soil Conservation Districts.
- 4) Other businessmen and civic groups who assisted the district in other projects.

During the year, the district had cash receipts totaling \$5,836 and expenses in the amount of \$5,756.48, leaving a balance of \$79.77.

Top Producers In Statewide Sorghum Program Named

Jim Shearhart, a Deaf Smith county 4-H Club boy with a knack for doing things well, today was named state champion in the 1960 Texas Hybrid Grain Sorghum Program. His yield of 7,892.9 pounds from an acre of Texas RS610 was produced under irrigation. He applied 150 pounds of anhydrous ammonia before planting. His acre was planted on June 6 using 9 pounds of seed in 30-inch rows. Three irrigations were used.

The top dryland yield—a new record—was posted by Albert P. Sulak, Route 2, Itasca, Hill county. The yield, a whopping 7,155.3 pounds per acre, was also from RS610 with only a preplanting application of 50 pounds of anhydrous ammonia. Sulak planted his fine yielding crop on March 15 and used 7 1/2 pounds of seed per acre. The complete list of winners

as released by Ben Spears, extension agronomist, included five 4-H Club entries in the dryland class for West and Northwest Texas Extension Districts. Four of them were from Ochiltree county. They were Bobby and Dale Githens with a yield of 4,077.6 pounds an acre; Kay and Sammy Judice, 3,896.3 pounds; Larry Swink, 3,123.7 pounds and Don Savage, 2,492.8 pounds. The fifth place winner was Richard Jungman, a Knox county 4-H'er with 2,398 pounds from his acre.

In the irrigated production class for the same area, Jim Shearhart was followed closely by Harold Shearhart with 7,635.1 pounds an acre, Bill Cole also of Deaf Smith county and a 4-H member was third with 7,103 pounds and two Castro 4-H members ranked fourth and fifth. They were

Donald Smithson, 7,087.5 pounds, and Johnny Collins with 6,774.1 pounds an acre.

A small boy returned home from school and told his father that he was second in his class. Top place was held by a girl. "Surely John," said the father, "you're not going to be beaten by a mere girl!" Explained John, "girls are not nearly as 'mere' as they used to be."

Surplus Food Donations Up

Rice and flour shipped overseas and dry beans and lard donated at home boosted the USDA's surplus food donations for the first quarter of this fiscal year by almost one-third over total donations for the same period last year. These increased donations brought the total for July-September of this year to 933 million pounds as compared to 713.5 million pounds for the first quarter of last year.

The source of these foods is the USDA's price support and surplus removal program. These food donations are made up of commodities distributed to public and private schools and charitable institutions in this country and to needy

persons both here and abroad, but do not include foods purchased for schools taking part in the National School Lunch Program.

Distribution to domestic recipients in the first quarter of the 1961 fiscal year totaled 234 million pounds, a gain of about 12 percent from the same three months of last year. Charitable institutions, which serve about 1.5 million persons, accounted for 35.9 million pounds, up about 2 million pounds.

Donations for distribution to U. S. needy persons in family units amounted to 127.9 million pounds, a gain of approximately 8 percent over the same period of last year. This increase was accounted for by the addition of dry beans and lard.

Foreign donations, which are handled by U. S. voluntary church and welfare organization, totaled 699 million pounds, an increase of some 39 percent. Surplus foods are allocated for foreign relief only after the requests for all domestic recipients have been met.

Other businessmen and civic groups who assisted the district in other projects.

During the year, the district had cash receipts totaling \$5,836 and expenses in the amount of \$5,756.48, leaving a balance of \$79.77.

NORTHERN STAR NO.5 COTTON

A MORE STORMPROOF COTTON AVAILABLE THIS YEAR

A quality cotton, which is cheap to produce. All of the operations in connection with its production and harvesting can be handled mechanically. Early maturing, grows erect bears few, if any vegetable branches. Large Stormproof bolls on close jointed fruiting branches near the main stem.

This is a picture of the latest improved No. 5 cotton, bred by the Northern Star Seed Farms to be made available to the Plains farmer this season. These seed were all hand gathered and stored before any rains insuring the very best germination. Why take a chance on poor germinating seed when you can get High Germinating, Prime seed from your ginner.

NORTHERN STAR NO. 5

Is Strictly a Variety for Snapping and Machine Stripping.

NORTHERN STAR NO. 5 is a variety for snapping and stripping. The burs are thin and will hold the seed cotton until you are ready to harvest. Many farmers get a 500 pound bale from 1700 to 1800 pounds of pulled cotton. It is a good yielder on both dry and irrigated land. Government green cards consistently show 15 1/32" ach staple, micronairing 4.4-5.5. Its stormproof bur protects seed cotton sufficiently to give a bright clean sample when ginned. Seed are prepared in three different ways: Acid Delinted, Fuzzy and Saw Delinted, all panogen treated.

FOR AN EARLY MATURING, PRODUCTIVE, QUALITY COTTON, PLANT NORTHERN STAR NO. 5 COTTON SEED. IT WILL HELP YOU PUT MONEY IN THE BANK!

TEXAS SESAME GROWERS

SEED AND GRAIN

WITH THE COUNTY AGENT

JOE JONES

Seedling trees for windbreak purposes on farm, ranch, and public lands are available through the Texas Forest Service again in 1964. These are small seedling trees and cost \$1.50 per hundred. The three best adapted evergreens offered for windbreak purposes are the Red Cedar, Austrian Pine, and the Ponderosa Pine. The Red Cedar is the best of these three, but the pines work in well for color contrast.

Orders for these trees must be received by the Texas Forest Service, College Station, Texas,

by February 10. Why don't you plan now to start that windbreak and get your order in the mail? Order blanks are available at the County Extension Agents office by coming by or write and we will send you one. Order blanks have directions for filling out and should be sent direct to the Texas Forest Service, College Station, Texas.

"Don't Guess-Soil Test," was the slogan adopted by the group which met at the Hub Community Center, to discuss the 4-point soil fertility program, on Dec. 15. Better plan now to get those samples taken and sent in so you will have time to plan your 1964 fertilizer program.

Keep in mind that soil samples can be only as accurate as the samples on which they are made. Proper collections of samples is extremely important. The sample must be a true representative of the land from which it is taken.

Several samples from the

area should be taken and mixed well, and one composite sample from this sent for analysis and fertilizer recommendations.

Take the sample from the depth land is normally broken. In most instances this will be from the top 6 to 9 inches in Farmer County. It is alright to send in wet samples, so go right ahead and let the laboratory take care of the drying of the sample. Be sure you do not oven-dry samples, as the organic matter will be burned up and this will not give a true picture of your soil.

Here are a few "Don'ts" to keep in mind. Don't get tobacco ashes in the sample. Don't take the sample from the area where fertilizer was banded in 1960. Don't fail to completely fill out the information sheet. Don't wait until you are ready to apply fertilizer before sending in your sample. See your fertilizer dealer or come by for sample boxes and instructions on taking and sending in samples. The samples should be sent to Agricultural Extension Service, Post Office Annex, Lubbock, Texas.

The USDA reports food consumption per person in the United States at 1488 lb. in 1960. When we think in terms of people in the United States eating up the farm surplus we must keep in mind that human stomachs can use only a given amount of food.

In a county like ours where a large majority of the population already has all the food they want, the actual number of pounds of food consumed would change little, if food was available free. The type and quality would change, but the actual pounds would be near the same.

The records show when money is plentiful, red meat consumption goes up and in times of depressions, consumption of starchy foods increases, but consumption in pounds changes little.

The supply of Farmers Tax Guides has arrived, so why don't you drop by and pick one up. These are 1964 Guides and include the tax changes made since the 1960 guide was printed.

Those of you who are interested in setting up records

HD Agent's Gossip

BY MISS ETTIE MUSIL

Have you ever seen as many January sales as we have around us? All of these specials will be tempting during the next few weeks. Before you buy certain fabrics or other clothing items on sale or otherwise, there are questions you need to consider.

For example, how well will this garment fit into your total wardrobe? Of course, you can't forget your budget, especially after Christmas payments. Do you have accessories that will go with the garments? If not, this buy may not be a bargain if you have to buy new shoes and hat before you can wear the dress. Hope the shoes and hat were also on sale, and that they can be worn with other clothes you have hanging in your clothes closet.

Be sure to look at the dress or fabric label carefully. Can the garment or fabric be laundered at home or will it require dry cleaning? One important question is whether the clothing item is extreme or high fashion. Will it look out of fashion next season?

Yes, all wise buyers have to keep all of these questions in the back of their heads when buying fabrics, garments, or even carpets, and household appliances.

Last Friday night we were privileged to meet with the Rhea Community Farm Bureau that met in the Parish Hall at 7:45 p.m.. Approximately 28 family members and children attended this get-together.

Joe W. Jones, Agricultural Agent, and I presented a program in organizing community 4-H clubs. We explained the purpose of developing boys and girls as useful citizens

for this year will be interested in the meeting being held in the Friona State Bank, next Monday January 16, at 1:30 P.M. Mr. James Murphey, Extension Farm Management Specialist, will be present to discuss and help interested people set up their 1964 record system. The meeting should be over by 3:30 P.M.

through 4-H programs, result demonstrations, record book keeping, and activities in the community and county.

Mrs. Jack Patterson and Carl Schlenker were elected by the group to serve as organization leaders. They will visit with families in the Rhea community to interest boys and girls in organizing a 4-H club in the community.

Another meeting of all interested boys and girls will be held Friday, January 20 at 7:45 p.m. in the Parish Hall. If any other community in the county would like to know more about the 4-H program do let us know and we would be happy to help you with any plans or questions.

During these winter months oranges, grapefruit, and tangerines are always a favorite fruit for every family. These citrus fruit are an easy and

pleasant way to meet daily requirements for vitamin C. Did you know that vitamin C cannot be stored in the body from one day to the next.

See, that ruins your idea of eating two or three oranges one day and saying, "That will be enough vitamin C for three days." So sorry, guess you'll have to have a grapefruit half tomorrow for breakfast. Good aren't they?

If you don't get enough or any vitamin C you may have bleeding and sore gums and tooth decay. Wounds heal slowly and blue spots appear easily from bruises you did not know about.

Recent surveys show that many Texans are not getting enough vitamin C in their diet.

I Get 5% Dividends On My Money At... **FIDELITY SAVINGS & LOAN** 5th at Mitchell PO 3-5581 Clovis, N. Mex.

The largest child ever born, according to medical records, was the 23 3/4 pound, 30 inch long son born in 1897 to seven-foot-five tall Nova Scotia mother, Anna Bates.

HIGHER-LEARNING A good example of academic achievement, says an exchange, is the young wife who can compute the area of a triangle--but can't pin or fold one.

Many sincere people regard the Bible as the sole authority for Christian belief. And they reject the teachings of the age-old Catholic Church because these teachings and forms of Catholic worship are not mentioned by name in Holy Scripture.

"Where," some will ask, "does the Bible say anything about the Mass or Purgatory? And how about confession to a priest, praying to Mary, and those seven Sacraments Catholics talk about. They're not in MY Bible."

Catholics say that their teachings are found in the Bible. She teaches nothing that is not found in Sacred Scripture. If you wish to know more about Catholic teachings, write for a free pamphlet explaining the Catholic Church. Write to: Home Study Center, Box 5644, Amarillo, Texas.

Without obligation, please send free pamphlet.

Then YOU'RE for us ... and WE'RE for you!
Come in... soon!
Dilger's CLEANERS
--Bovina--

NOTICE

January 31 is the last day to pay your county and state property taxes without penalty. Starting February 1 a 1 1/2 percent penalty will be assessed and it will increase each month.

Also, January 31 is the final day for paying your poll taxes. Poll taxes can be paid at the tax assessor's office in Farwell or at Dan Ethridge's office in Friona. Application blanks for the poll taxes are available at the Bovina City Hall.

If you mail in your payment for taxes, make sure that you have included the extra \$1.75 for poll taxes. In the past, some folks have thought their poll tax payments were included in the amount assessed for property taxes. This is not the case since it up to each and every taxpayer whether or not they want to vote.

Car license tags go on sale February 1. Be sure and bring your title and last year's license receipt.
