Edwards, Upton County Sheriff, of McCamey, has been notified by the Highway Department of a day extension for disabled veterans to file application for "Disabled Vet" license plates under law enacted in 1971.

Service Officer's address is 502 N. Main Ave., Box 583, McCamey, Tex. 77852.

JUDGES REPORT

This is the third and report of a three-judge report by Judge A. Moore.

present time Upton County is operating jointly with Rankin and McCamey on three programs. They are the Department, Museums and Water and Garbage Disposal program, the latter program gone into effect some months ago. Upton County participates with the City of Rankin in the Fly and Mosquito Health Program and the former Emergency Service in furnishing ambulance service to the citizens of McCamey and surrounding area. All these services that benefit residents of our county.

you have previously read, Bill 646 opened up new contract participation for between local taxing bo-

committee meeting at the A. S. Andrews residence in McCamey this week.

A cook book will again be published and it will have many improvements over last year's book. Those wishing to enter the Foods Division of the show should contact Mrs. Jalyne Burkett, County Home Demonstration Agent.

A Pecan Queens Pageant will be held in connection with the show

County Ranked 23rd in Oil Production

Petroleum production continues to play a significant role in the economy of Upton County with a direct input of \$70,427,330 last year.

According to the latest compilation of Texas Mid Continent Oil and Gas Assn., the county in 1970 produced 19,156,385 barrels of crude oil valued at \$63,216,070 and 49,392,188 thousand cubic feet of natural gas valued at \$7,211,260. It ranked 23rd in value of petroleum production.

In addition, the county received the stimulation of \$8,803,416 in royalty payments to landowners and others with mineral interests.

Texas state government benefited from the county's petroleum. (Continued to Back Page)

dies. It allows local government to approach a problem in a businesslike manner to receive the ultimate benefits of your tax dollar. For your perspective, one item has been taken from this group of many for your reflection. This is police protection. This is not to be construed in any way or manner to reflect upon the integrity and efficiency of our county and local police officers or any other similar departments where contracts could be affected.

The cost of police protection grows just as well as the need for protection grows. Good police protection is the backbone of our nation. We need it on a twenty-four hour basis, and we know we are going to pay for it. In return, we expect efficient and courteous service, an authority to whom we may voice our complaints and receive corrective action. (Continued to Center Section)

Sonora Rated No. 4 in State -- Rankin, 52nd

Lamed Red Devils to Test Sonora

When injuries hit in the backfield of the Red Devils two weeks ago in the Wink game, it was felt by most fans that it would be only a temporary situation and that for once, Rankin was blessed with a little depth in that department. But fate again turned the screws down a notch in last Friday's game in Stanton and two more backfield players picked up knee trouble.

Currently, four regulars are on the lame list from the backfield and may possibly miss action in Friday's encounter with the strong Sonora Broncos. And, due to a lack of experience, most offensive hands also double over on defense with the result being that Coach Turner is digging deep into his reserves of Sophomores and even some freshmen to field

a team. In the Sonora Broncos, Rankin will meet their strongest foe of the season thus far. The Broncos, defending Class A State Champions are rated No. 4 in big Class A in Texas on the Harris Power Poll, considered by most as the most nearly accurate poll of this kind. On the same listing Rankin is pegged at 52nd, having slipped a few positions following last Friday's loss to Stanton

Although they have had them on the ropes several times and always seem to play a good game against the Broncos, the Red Devils are still looking for their first win over Sonora in the current eleven-man series. In their meeting last year, the Broncos prevailed 40-20 and have most of their squad back for services a-

gain Friday night. As is the custom, however, winning or losing, the Red Devils will have strong support from their fans as a large contingent is expected to travel to Sonora for the 8:00 p.m. kickoff.

Three Games Here Thursday Evening

Beginning at 4:30 p.m. at Red Devil Stadium, Rankin will host three ball games Thursday with the always tough McCamey Badgers. Action will open with a 7th Grade game, followed by an 8th Grade and B-Team affair for the nightcap.

Concession stands will be open and the public is invited to attend all games with no admission charged.

The Big Winners

Record Since 1968: 23 wins, 4 losses, 1 tie

A portion of the thirty-one boys on the Red Devil B-Team are shown here. They are, front row, left to right:

David Rucker, Roger Reams, Tom Lindsey, Billy Helms, Richard Loftin, Raul Servantes, Ronnie Surber and Mark Stewart;

Second Row (l-r): Joe Brookens, Gary Dupriest, Bobby Johnson, Tommy Gray, Mark Russom, Fred die Plagens, Curt Copeland, Erick Fitzhugh, and Bobby Wishman;

Back Row: Coach Butler, Kim Batchelor, David Wilkerson, Harlan Harris, Johnny Midkiff, Carl G'Feller, Doug Brazil, David Black, Ordin Lee, Mark Parker, and Coach Johnson.

Boys absent when the picture was made or who have later joined the B-Team are Ernest Black, Bob Rees, Randy Mobley and Bodie Bennett.

The Red Devil B-Team is the winningest football team in the Rankin Schools. Since they began their new schedule in 1968—prior to that they played such Class AA powers as Big Lake, Crane and Ozona — they have won 23 games, lost 4 and tied one thru last Friday. In their last 12 games they have allowed only 12 points, all to Stanton teams.

Losses over this time have included a pair to McCamey in '69, one to Comstock and one to Stanton—all in 1969. Their one tie was

a 0-0 affair two weeks ago with Wink.

In 1968 they went undefeated, winning 7 games. In 1969 they had a 5-4 record, were again undefeated in 1970—winning 9, and are currently 2-0-1. Over the years, a number of the younger Red Devils have asked to be assigned to the B-Team where they feel their chances are better to get to play a lot of ball. Practically every member of the Red Devil Varsity has gained experience on the B-Team prior to being moved up.

Thursday night they will host the Class AA McCamey Badgers. (Continued to back page)

THE SCOOP by Scoop

J. B. Hutchens, Jr., Editor

VISITORS—

The old saw that says you can't see the trees for the forest may well be the way it is with a lot of us when it comes to some of the benefits of living in Rankin—and to save an argument, I will here and now admit that there are some disadvantages. In this instance, however, its the plus side that it being mentioned.

One of the things that apparently strikes an out-of-towner first about Rankin—and one to which most of us have grown so accustomed that we don't notice—is the paved streets. Be they from large or small towns, they marvel at practically every street being paved—as was the case with an inlaw from Phoenix who visited with us last week. Every time we left the house, he commented on the pavements.

Another point that most of us

The Rankin (Tex.) News —
Thursday, Oct. 7, 1971

possibly don't notice much but which seems to impress the big town visitor is the slower pace of activity. Even people from Midland have told me—as recently as last Monday—“Boy, you people have it made living out here in

ng, paved streets. And n't just put them down them. They take some maintenance and recent s—something to which

we're not exactly accustomed, have played heck with some of these streets— especially those running north and south and the "down-hill" ones. Some are in real bad shape and may have to be re-done.

As mentioned, these streets are now, and have been for some time, the responsibility of Upton County just as any ranch road or oil patch road. And it is reported that plans for renovation of the streets—in both Rankin and McCamey—are included in the current county budget.

That's fine and even though the emphasis in county affairs is currently on efforts to cut down on expenditures, it would be hoped that redoing city streets is not to be shortchanged. The pavement here and in McCamey represents a considerable investment and is of benefit to a large segment of the county's population. To half-way do the job of repairs would be most unwise.

From time to time either city or county employees go about the town and fill up the holes with an assortment of tar and paving goop. Comes the next hard rain and most of it is chugged out by traffic. This is patchwork and something better needs to be done.

Fortunately it is reported that the upcoming plans do call for more extensive work than just putting up the holes. That's good. It will be money well spent—done right.

BIG BUSINESS—

In his final report in this issue of The News, Judge Allen Moore notes that the county is big business and "much to our dismay, a growing business." And that it is.

In tax statements just mailed

by the Upton County Tax Assessor's office, a total of \$1,046,456 was billed and that is, indeed, big business. But consider this: the billing was for state, county and the two hospital districts. In addition to these taxing bodies we also have in the county, the two school districts and the two cities.

not readily available — they are a matter of public record to anyone interested—but an estimate of their total tax take, plus the above mentioned county billing, would very likely put the combined figure between 2.5 and 3 million dollars.

How does that grab you for a county of less than 6,000 people?

Totals on all these groups are

Judge's Report --

(Continued from Page 1)

tion and at a cost commensurable to the needs of the public.

Just for thought, compare our county and local law enforcement agencies with the person who might own two similiary businesses in a small community.

The volume of each of the businesses was fair enough to pay for his operating cost and overhead expenses but not enough to allow him a just return on his investment and replacement equipment — something needed to be done.

In looking over his business locations, he found that one of his buildings, with a slight remodeling, could take care of all the similar merchandise of building No. 2.

Knowing the background of his business, he estimated he would keep the volume of both of the businesses. If so, it was possible, however, he might still have to use all of his present personnel. However, if he did, he could easily arrange their schedules so that his customers would have efficient and courteous service in the peak periods of business as well as the slower periods of the week. It would also give him the opportunity to adjust his personnel as to whether the volume of his business increases or decreases.

Also, he wouldn't need as much equipment as he was now using so that would cut down on his cost of replacement of equipment. By not having as much equipment should reduce the maintenance repair bills and utility costs. And lastly, he would have the entire business under his control, and he could personally be on hand to take care of his customers and see that their needs were taken care of.

Should he make the change?

County business is big business, and much to our dismay, a growing business. Its growth can more easily be resolved at the local level, though, than at the state or federal level.

During the past several months there have been many articles written, as well as TV programs, on our problem concerning mental health and mental retardation. Your County Judge attended two seminars lasting three days each in Austin and in Odessa in order to receive the benefit of lectures given by outstanding workers in this field who work with and for the State and Federal Governments in this program.

I wish all of you could have attended either one or both of these seminars.

In brief, we were given a history on this problem from the 1880's to the present date and then given a background of how much could be accomplished at the local level. There are many

contributing factors that may be attributed to be the cause of a mental health condition as well as those being in a mentally retarded state. Progress reports were given showing the advancements made in this field in the past ten years concerning schooling and workshops that have developed productive workers of I.Q.s ranging from forty-five to seventy. This, in effect, removes them from being a taxpayer's burden to sustaining themselves. Of course, efforts were far more successful when these signs can be detected at an early age. There were also good successes with those in the older age brackets. I could go on and on.

In early July of this year in a visit with Mr. Clyde R. McLean, Coordinator, West Texas Region of the Texas Department of Mental Health and Mental Retardation, I was told that there was a possibility that four Mental Health and Mental Retardation Sub-stations would be located in this region. I asked him what the requirements would be in order to have one of these sub-stations. He informed me that the County would have to furnish a building and partition it off as to the needs of the office space and rooms and also pay the utilities. The State, in return, would furnish a full-time nurse to be located in that city, and doctors would be furnished from the Big Spring State Hospital, and their schedules would be set up as to the needs of this area.

I told Mr. McLean that I would like for him to consider McCamey for a sub-station for this area as it was centrally located for the towns of Crane, Rankin and Iraan. In the event that Crane or Iraan did participate in this program, they would share their pro rata expense. He said that he would.

If we were fortunate enough to be designated as a substation, it would give local area treatment to those persons who might need either of these services. By working in conjunction with our schools and local doctors, early detection and treatment would be made possible for children as well as adults. It would pro-

vide all concerned an opportunity for a happy, productive tomorrow.

I approached the Commissioner's Court during our budget session for 1972 and asked them to establish a Mental Health and Mental Retardation Department and appropriate \$3,000 for its use if needed. I considered this as a most important program.

My request was not granted by the Commissioners' Court.

I still think this program most important. I talked to Mr. McLean again on September 9, 1971, and he informed me that action on these sub-stations has been temporarily delayed. I was told that we were being seriously considered for one of these stations. I ask for your support for this program. I would ask each of you to let your Precinct Commissioner know how you feel concerning this program, whether you are for it or against it.

There are over 360,000 people in need of this treatment and services in the state of Texas, and there are facilities to handle only approximately 12,000.

Most of our citizens are busy people. They do not have time to attend the meetings of the Commissioners' Court. They haven't time to acquaint themselves with the operations of our county government and its many separate departments, nor do they have time to make a study of legislation available to or applicable to county government. Therefore, the purpose of this series of articles is to acquaint the citizens of our community with certain phases of the operations of their government; to acquaint them with certain areas of government in which economies of the operation might be achieved; to point out areas where additional appropriations of certain budgeted phases of the government might be desirable and to point out and to make such comments that I felt were justified or demanded.

I hope the report has been informative and I would invite any questions or comments upon these matters that you, as a citizen, might choose to make. Our county business is your business.

* Give a fan the ball and he'll run for a touchdown every play—in the stands.

YEAH, WELL—

It could be said that last Friday was a black day for Rankin and the Red Devils as they lost their first football game ever to the Stanton Buffalos but, actually, it wasn't all that bleak. True, the feeling was among a number of fans prior to the game that we were in for a bad time but still, there are some bright spots—depending on how you want to look at it.

One was that with a patched-up offense, we were still able to put over 350 yards on offense on the record book and the passing was much improved. Young Stephenson looked real good at quarterback for the time he was in and gives hopes that he may be able to take over from old pro Campbell when he graduates.

Eggemeyer did a fine job at the running back slot and he, too, may be able to fill a spot next season—or for the remainder of

Legal Notice

NOTICE TO ALL PERSONS OPERATING UNDER AN ASSUMED NAME

Article 5924, Revised Civil Statutes of Texas, 1925, requires that a Certificate of Assumed Name be filed in the office of the County Clerk by each and every person conducting business under an assumed name. Said certificate shall be effective for a period not to exceed ten years from date of filing and shall become null and void and of no effect, unless prior to said expiration, a new certificate is filed with the County Clerk.

A Withdrawal Certificate must also be filed with the County Clerk when an individual of a firm withdraws from that firm or a change of ownership occurs or a business is terminated.

Failure to comply with this statute constitutes a criminal offense and offenders are subject to fine.

(s) Buena R. Coffee
County Clerk

this year if needed. The bull rider, ole Tom Bloxom, may have been crippled up but I doubt that Stanton noticed.

Another point in our favor was the way the lads kept up the pressure even if they did draw a penalty every time they gained over ten yards at a time. It's a pretty good mark of a team with heart when they can do that.

On the minus side, regardless of the outcome, we still beat ourselves with misques but that's why you play non-conference games—to work on your errors.

This was the second game we have lost in the 4th quarter. As a rule, that indicates one of two things; either you are not in shape physically and mentally to go four quarters or, due to size, the larger team is wearing you down.

It would seem logical that it is the latter since we have not been able to open up the game as the latter since the Red Devils have not been able to open up the games as much as Coach Turner and staff would probably like and have, as a result, had to run at the bigger boys most of the time on offense. With improved passing

There is still one other thought: last year at this time we were 4 & 0 and had won a game or two we wasn't supposed to win. This year we're 2 and 2 and have

lost a pair we should have won. That's sorta the way it goes in contests of an athletic nature. I don't know why it is but it is.

THIS WEEK—

Friday we make the jaunt to Sonora and a tussle with the Bronchos. At this point in the season, I doubt that there are many who think we can handle the lads from the Devil's River country. Certainly, it would be one of the big upsets in high school football if we beat them—later on, well, that's not here yet. We've got to win district

Personally, it looks to me like a good time to play of lot of the boys and let them get the feel of strong competition. And who knows, we've come close to up-ending good Sonora teams before

Pick New Officers 4-H Club Meets to

By Tresa Tate, Reporter

Monday, October 4, the Upton County 4-H Club held a meeting at which we elected officers for the following year.

The president was Debbie Braden. The vice - president was Richard Hoelscher. The secretary was Deborah Whisman. The reporter was Tresa Tate, and the treasurer was Mike Clark.

We also saw a film on some insects which we will have in our Entomology course.

Next month we plan to start a first aid course which will benefit all of us.
