NUMBER 49

WOODWORK

BY DALTON

THE FORT WORTH Press is having a contest to select "Mrs. Texas", with the winner to enter the Mrs. America contest. State champions and Mrs. America will be chosen for their ability as homemakers and for their poise, personality, good grooming and participation in community activities.

Some points should be allowed to the contestant who can thaw out a TV dinner the fastest, or to the woman who can load the automatic dishwasher fast enough to get in on all of "As the World Turns".

WANT TO KNOW what's wrong with the town? It's the people, a group of members of Sudan Chamber of Commerce and Agriculture decided in a discussion last week. They didn't exclude themselves, either, and it was noted that the biggest thing wrong with the people is apathy.

This is not only the basic cause of a lot of trouble in Sudan; it applies to practically every town, every organization, every endeavor, and to the nation itself. The truth is, every person has his own little field of interests, and they don't usually include community improvement in any form.

One man noted that the 5-acre crop contest for youth sponsored here for a few years fell through because the kids just weren't interested, in spite of the cash prizes offered. "And the kids weren't interested because their parents weren't interested," he declared. He recalled that even some of the parents of the winners in the contest didn't display enough interest to show up at the banquet where the prizes were awarded.

I've seen Little League and Pee Wee baseball players whose parents never did come out to see their boys play for even one game during the season, much less volunteer to help the coaches and managers.

The biggest single problem of the town is the attitude of the people. It's the attitude that counts.

Simply that people just don't care.

The solution? I don't know. And it's a temptation to add; I don't care either.

AN ESTIMATED 40 thousand people a year try to walk through glass doors, glass walls and picture windows, says the Texas Dept. of Health, intimating that such a practice isn't too healthy.

To prevent such accidents, we don't ever wash our windows.

CAGERS SPLIT CLOSE ONES

By LINDA WILLIAMS
"To close for comfort" might best describe the feeling of the spectators as well as the players Friday night when the Hornettes outlasted the Springlake girls 46-29 in their 23rd win of the season.

Although the score doesn't in-

dicade it, the game seemed like a losing battle for Sudan until the last quarter. Springlake jumped ahead of Sudan in the first period, and had a 19-15 lead at the half. The Hornettes didn't close up Springlake's margin, which was made up mostly by Beth Dent's free throws, until the last minutes of the third period. Sudan went into the final quarter with a 26-24 lead, and from there surged ahead to a comfortable victory. Candace Mudgett scored 17 points for Sudan.

DEVOTIONAL

BY
HAZEL

Scripture: Ezekiel 3: 15-23; Habakkuk 3:17-18.

Sitting here in the shadow of a sick bed, in the midst of pain, suffering and troubled minds, I ask, "What do we, you and I, need?" Where are you, who read this, in what circumstance, and what is your need? How

much do you understand about your need? Does the name of Jesus mean Savior to you, or is it just a name? In looking at those who suffer, do you also see those who serve?

Reading of how Ezekiel was led by the Spirit of God to go and dwell with the captive people of Israel, I begin to consider my writing this devotional, and the different and varied personalities and circumstances of you who read these words. For, like Ezekiel, I am continually astonished at the different circumstances and people, and at how God uses these written words to reach out and touch both you and me where we are.

What we truly need to know is a Savior. What we need is hope for the future. A Light shining out into the darkness, in order that in our pain, trouble or sorrow we can look with hope into that Light. And we see in joy the beauty of love, courage, forgiveness, strength for our help, and life eternal.

Jesus is that Light, whoever and wherever we may be. He is the One we need, Jesus is the only name given under heaven, whereby you and I may be saved — out of the darkness of pain, hate or temptation, into the light of an everlasting love, and abundant, eternal life. A life where there is neither pain, separations or tears — only joy, peace, love and light forevermore.

So, you or I may be ever so busy, ever so poor or ever so rich, but neither you nor I can find hope except in Jesus Christ. Each one of us needs a Savior.

Can you answer, the why of pain, or the need of a loved one whose hands reach out pleadingly in seeking, but whose mind is wandering in a dark and unknown and bewildered place? No, you cannot answer, but Jesus can! He is the only Answer; and we who know Jesus can look away from and above the pain or sorrow, and know the joy of His love, and the light of His presence shining out into the darkness.

Then in exultation I want to say with the Psalmist, "Come and hear, all ye that fear God, and I will declare what He has done for my soul." And like Habakkuk I may not be always rejoicing in my present situation but always I am rejoicing in the Light of Jesus' presence with me, and I can go out in that light to try to let Him be seen in me, through my joy and service and love.

Do you know Jesus? He came, He died, to save you and me, and more and more I appreciate the assurance and service of other Christians (who are primarily interested in telling any and all who are without a Savior, about Jesus and how He has saved them from death into everlasting life). For we know, like the words of an old hymn, that "Just when I

need Him, Jesus is near: Just when I falter, Just when I fear, Ready to help me, Ready to cheer — just when I need Him most."

CATS need affection, according to a report from a New York veterinarian conference. A cat gets frustrated trying to adjust to man-made living conditions. To guard your cat's mental health, pet while you feed, the doctors advise. The cat will have a better appetite, too.

THE LARGEST cavern ever dug—2.2 million cubic feet—was hewn out of solid Pennsylvania granite by an oil company to store propane gas. In one of the biggest "piling" jobs ever, Cardox pumped in 112 tons of carbon dioxide, displacing enough air so that the propane could be safely injected. This eliminated any explosion hazard.

A RAINDROP COUNTER has been developed at New York University which can count as many as 130,000 drops a minute and separate them into 13 size groups. It's used by weather researchers, soil scientists, safety and aircraft engineers. Raindrops, by the way, are round, not tear-shaped.
