WOODWORK BY DALTON

IN THESE DAYS when people figure it's every man (and woman) for himself and the devil with everyone else, we still have a lot of people who try to do the right thing. Celestine Rosemond of Amherst is one.

Wanda Dumas of Sudan, who does income tax work, had sent the Amherst Press a check for an advertisement. She mailed the check in Sudan Feb. 9. On March 5, almost a month later, Celestine Rosemond found the letter lying on the ground at her home east of Higginbotham-Bartlett Co. in Amherst. She returned the letter to the post office, and we appreciate her taking the trouble to do this.

Just how the letter got there, nobody knows. Anyway, it was delivered in Amherst (probably for the second time) nearly a month after being mailed in Sudan. Had it not been ZIP coded, we might never have received it. Wanda can expect another bill for the publicity.

JUST FOR LACK of having any other topic, some of us the other day were drawing a comparison between transportation used by high school students way back in prehistoric 1940s and the present.

I don't know that kids learned as much, but we sure used our legs more. When I was in high school I can remember only one boy who drove his car to school, which had about 175 students in the last four grades. And I think when he quit school, he was a 19-year-old junior.

He would park his car with eight or 10 faculty cars, and that would be the total number parked around the school during the day. About half the students rode bicycles to school. There would be perhaps a 100 bikes parked out there with the cars, and when school was out, everyone jumped on his bicycle and pedaled away. The school was at the top of a long hill, with the street paved, so all had a big time going down the hill after school. Most of the bicycle riders were boys, but probably a fourth of them were girls. Those who didn't have bicycles either walked to school, or their parents brought them.

Contrast that to the present, when every kid past the age of 12 figures he has to drive a car to school — and it really should be his own car, instead of the family vehicle. Also, it needs to be not over two years old; the more underprivileged have to drive models from 1950 to 1960. There are exceptions; I know of several who walk to school. But blamed if I know any high school students who ride bicycles to school (they would have a hard time even finding a place to park them). A high school junior or senior today would be mortified and humiliated if he or she had to ride a bike to school. Besides, somebody probably would steal it before the day was over.

You can't blame the kids, though. Parents now figure they have to have two cars, or sometimes three, and the family without a car at all is almost extinct.

Of course, the family with all its cars paid for is even more extinct.

Mrs. C. A. White of Lubbock visited Sunday in the home of Mr. and Mrs. R. B. Wile.

Hall Resigns Job Of Head Coach

Resignation of Head Coach Henry C. Hall and drawing of names for the order of the ballot in the upcoming school trustee election were featured items on the agenda of the Sudan school board's Monday night session.

Hall's letter of resignation was read to the board. Most of the other teachers and coaches were re-elected, and the board did not specifically reject any personnel, although action on five other

teachers was deferred until later. The board did not act on Principal Ralph Stewart and Board member W. E. Hancock, because these administrators already have contracts for next year.

A lengthy discussion evolved around the head coaching vacancy, but the board finally decided to study the situation further before taking any action other than to accept Hall's resignation. Assistant coaches Jimmy Alsup and Wayne Potter were among those re-elected.

Candidates for the school board draw for the placing of their names on the ballot for the trustee election April 3. Candidates, in order, will be Guy Walden, Frank Lane, Bill Nix, Donnie C. Boyles and Calvin Stues. Five of the five will be elected to fill the seats of Walden and W. B. Jones Jr., who did not seek re-election.

The board approved a new boiler explosion insurance policy contracted through Weather Insurance Agency, and voted to accept the Textbook Committee's recommendations on new textbooks.

Repairs on the tennis courts and installation of new backstops was reported to the board.

The board voted to purchase 20 new band uniforms at approximately \$100 each and 50 citation cords for the uniforms.

It also was agreed that the school would help the ESA sorority in a project to bring the Lubbock Tuberculosis Mobile Unit to Sudan schools.

COUNTY RESIDENTS AID CROP PROGRAM

Lamb County residents contributed the equivalent of nine bales of cotton to the Christian Rural Overseas Program in the recent South Plains appeal for Cotton for CROP.

The figure was reported as part of the total of 60 bales, in cotton and cash in lieu of cotton, representing about \$7,000, which was donated to the program. The figures were reported at last Thursday's (March 4) CROP cotton dedication meeting in Plainview.

The Cotton Appeal was part of the overall CROP program, which includes a Halloween appeal and United Clothing Appeal. All donations are used to help suffering men, women and children overseas who have few, if any, other sources of aid.

Chairman of the Lamb County Cotton Appeal is Truitt Sides of Oltus. Kenneth Burgen is Sudan local chairman.

"I PRAYED -- BUT IT DIDN'T HAPPEN"

By HAZEL MOORE

Scripture: Mt. Luke 11: 1-13; Matthew 6: 10.

Prayer -- prayer is just a word until it is practiced. For prayer is not just words, it is an experience. It is always a shared experience -- always shared between you and God, and sometimes including also other persons.

What form prayer takes is not of first importance. You may pray in a congregation, or a-

lone in your home, or you work, or you are in school -- wherever you are. But prayer is the cry of the soul of man to the God who is both Creator and Father. If you have accepted God's plan to save man (by grace, through faith to believe in Jesus), then you can rest assured God hears His own child's faintest cry. He knows His own children, too. If you are a sinner not yet saved by His grace, He only hears when you pray "God be merciful to me, a sinner." And as God hears, He always answers!

Your prayer may be only an unintelligible cry or moaning, but as your soul suffers in a need for which you do not know how to ask, Jesus, our High Priest, intercedes and interprets, for He

knows our needs even before we ask. But He said to "ask, and ye shall receive!"

Prayer is two-way -- you ask, God listens. God answers, you listen. Then, with God abiding in you to do His promised work, you go from the prayer to put the answer into action.

But you must give God your attention. Stop thinking about something you are going to do, or have done, or want to do, or someone else, but think only of God and His greatness, His love for you, and your love for Him. Praise Him, thank Him, and accept His way as your way. Listen to Him, and never doubt God, for He is our almighty loving, forgiving and merciful Father. His amazing grace and power are available to you and me, who are His children.

Christ gave us a prayer form, and He grounds prayer on relationship between Father and child. First with God charging Himself with all the responsibilities, as a loving, all-powerful Father; and the child as the petitioner. In the Lord's prayer

Christ taught us that right prayer begins with worship, and acceptance of the Father's will, even before the asking for an answer. Remember God knows all things!

But, all the asking in prayer is futile, without listening and believing in God's answer so that you will go out and act like you have heard and believed.

So, if you want almighty God's help, ask for it and you will get it. Finding out the answer in its fullness as you live and walk by faith with Him one step at a time. Pray -- and believe, and be obedient to God's will.
