BY DALTON

ALL ABOUT old fogey drivers who really are not so bad as they've been pictured and smokers who have no trouble making monkeys out of themselves:

A Denver judge who has done some research on the matter says senior citizens may not be the highway hazard everyone from younger drivers to insurance companies claims they are.

This judge, according to an Associated Press release, looked at driving records of folks aged 65 and over and reported they may be among the best drivers on the highway. He studied statistics in 30 states for his research.

He said that over-65 drivers average 37 per cent fewer accidents totally than projectable from their proportion of the driver population. And their record is even better when only injury-producing accidents are considered.

Lots of us have known for a long time that the older drivers often are safer drivers than younger persons who have better reflexes, but who don't have the judgment that comes with experience.

\*\*\*\*  
AT LSU's School of Medicine they have three heavy smokers who go ape over cigarettes.

The three are baboons who have been trained to smoke and now are confirmed addicts (I'll eat this banana in a minute or two, but right now I just gotta have a cigarette). One of them, named 007, smokes two packs a day.

The research is concerned primarily with hardening of the arteries. We wonder if the whole project may not go up in smoke as the price of cigarettes just keeps on climbing.

Maybe one of these days the only chain smokers in the world will be simple simians.

An appeal to residents of Lamb County for \$1146, the county quota to help restore thousands of disaster victims on the Gulf Coast to normal living, was issued this week by Mrs. Bonnie Haber, chairman of the Lamb County Red Cross Chapter.

The Lamb County Chapter campaign for funds is the local phase of a nationwide appeal by the Red Cross for \$15 million to help meet the needs of families in the shattered cities of the Gulf Coast.

## TCTA HAS OPPOSED TAX LEGISLATION

The Board of Directors of Texas Classroom Teachers Association has gone on record as opposing federal legislation to remove the tax-exempt status of state and municipal bonds.

The proposal to eliminate the exemption of these bonds, which includes school bonds, is pending in the US Senate.

The TCTA Board opposes the tax reform proposal on the grounds that it is essential for school districts to be able to finance needed facilities through issuance of bonds at the lowest possible interest rates.

Taxation of such bonds would force a rise in interest rates to levels affecting the marketability of school bonds. The cost of borrowing for Texas school districts would be raised to a point that might affect ability to finance even the most urgent plant needs.

Opposition to the proposal has also been voiced by the Texas Association of School Boards, Texas Council of Major School Districts, and both United States Senators from Texas, John Tower and Ralph Yarborough.

Texas Classroom Teachers Association is a 48,000-member, statewide organization composed solely of classroom teachers. With affiliates in 215 Texas school districts, it is the largest organization associated with Texas State Teachers Association.

Scripture: Acts 2:22-24, 38; 4:12.

Jesus Christ Is Lord. He is the Son of God who has all power in heaven and on earth. God is Creator of all the planets, the stars, the sun, the moon, and all this universe; and He is the Ruler over all.

But this one God, with all His power, is still the Father who always hears the faintest cry of even the least one of His own children. We know this, by knowing Jesus.

Jesus—do you know Him? Jesus of Nazareth was a man approved of God—He was God and He was man—who was among men, and did miracles and wonders and signs, and man knows about all this. He was crucified by men, among men, but God raised Him up from death and the grave because it was not possible that He could be held by death.

Those men who were living in that day, even a crowd of people at one time, were witnesses to the fact that Christ arose from death, and that He lives. And the Scriptures state that God has

The Sudan Senior Citizens Antique exhibit will be Friday, Sept. 12 at 2:30 in the Community Center. There will be a display of all kinds of antiques.

You are requested by the committee to begin now to make plans to have your antiques on display. Also, the committee asks that you have them at the Community Center by 10 a. m., Sept. 12. Everyone is invited to come. No admission charges.

"Come One, Come All" is the invitation given by the group.

made this same Jesus both Lord and Christ.

We, too, are witnesses that because Christ lives, all men can live forever. We did not see Jesus of Nazareth in the physical body but we have all the evidence that He is the Lord. We have the Bible, we know about the crucifixion, death, and resurrection, and we have the Holy Spirit. Jesus sent back the Holy Spirit, and He is as present in the world as Jesus of Nazareth was present.

The Holy Spirit has no physical body for us to crucify... But He, then, can and will dwell within us, if we want God and will be obedient to Him. He will lead us, guide us, comfort us and strengthen us. God's Spirit is available to you and me.

God's promise to us is that He hears and answers every prayer of His children, whom He knows. You are His child, if you believe in Him and accept Him in commitment of yourself to Christ and His will, His way. For a child of God walks by faith, not by sight.

"And this is the promise that He hath promised us, even eternal life."

Do you have the joy and know the peace of having Christ as your Savior and Lord?

# County Pioneers Hold Reunion

The 20th Annual Reunion of Lamb County Pioneers met Tuesday afternoon at the Community Center in Littlefield.

The oldtimers exchanged tales which brought back memories of the early days in the county, and caught up with events during the past year.

Old acquaintances were renewed and new ones were made during the afternoon session which included a varied program of entertainment, highlighted by the barbecue at 6 p. m.

More than 400 ate barbecue and bountiful trimmings which had been brought by women in the county. This year's barbecue was provided by Halsell Ranch and Johnny Murrell, the ranch foreman.

Special guests of honor were volunteer firemen from all six towns in Lamb County—Olton, Sudan, Springlake, Amherst, Earth and Littlefield.

The event got underway at 2 p. m. with registration in front of the Community Center. This year's attendance was up from last year, when approximately 170 were registered.

Fred Lichte of Littlefield was elected as the Pioneer Association's new president for 1969-70 during the business session which followed the entertainment. Eldon Franks of Olton will serve as vice president; Sid Hopping of Littlefield was re-elected as treasurer; and Lyle Brandon of Littlefield will again serve as secretary.

Mrs. Lester LaGrange of Amherst presented gifts from the Association to Mrs. Gladys Lynn of Wilmington, Calif., who traveled the greatest distance to attend the reunion; to Mrs. E. M. Davis of Littlefield, 91, who was the oldest woman present; and to Judge J. E. Dryden, 90, of Sudan, the oldest man present.

Two others came from California, but Mrs. Lynn came the farthest.

New directors for next year are L. L. Uselton of Amherst; R. L. Byers, Jr. of Springlake; Mrs. Bonnie Haberer of Pleasant Valley; Mrs. Myrtle Clayton of Springlake; and Ray Smith of Spade, outgoing president.

To introduce the entertainment was Mrs. A. B. Brown of Spade, program chairman. She introduced a fiddling group formed by E. K. Angeley of Pleasant Valley and Leldon Phillips of West Camp.

Others on the program included the "John Clayton Singers" of Littlefield, an accordion presentation by Rev. Aubrey White, pastor of the Methodist Church

of Sudan; the Kelley Trio from Springlake; a duet from Lums Chapel, composed of Ernest Goertz and Mrs. Percy Carter; three "rags" played on the piano by Mike Riley of Olton; an ensemble and solo presentation from Spade; a piano medley by Betty Elms of Amherst; a congregational sing song; and the fiddlers again.

President Ray Smith read a letter and telegram from Bill Clayton in Austin and Congress-

## WIND EROSION LESS IN 1969

Wind erosion damage in the Great Plains this year is the lowest ever recorded in 35 years of annual reports, according to the Soil Conservation Service.

A total 995,150 damaged acres was listed in the final 1969 "blow season" report, a decrease of more than 15 percent from the previous season.

Texas and North Dakota reported the greatest amount of total acres damaged, while Kansas had the least. The estimates were from 204 counties in the 10 Great Plains States: Colorado, Kansas, Montana, Nebraska, North and South Dakota, New Mexico, Wyoming, Oklahoma, and Texas.

SCS Administrator Kenneth E. Grant said major reasons for the reduced damage this year were better moisture conditions, fewer extremely high winds, and greater use of soil and water conservation practices.

SCS administers a Great Plains conservation program which assists farmers and ranchers in applying large-scale conservation practices and converting unsuitable cropland to permanent grass cover. Ninety five percent of wind erosion damage reported this year was on cropland.

## LEWIS LLEWELLYN

### Who Is Guilty in College Turmoil?

Will there be violence on the campuses of our colleges and universities, this fall?

There certainly will be—because the goals of the SDS and similar groups have not yet been achieved and the militant action organizations are determined to carry on their programs of disruption, dissent, and destruction.

Can you remember, a few years ago, when we read the reports of disorders on the campuses of Latin American universities and complacently remarked, "Well, it can't happen here?"

Now that it is happening—let's ask ourselves the question, "Why did this happen—and what can be done about it?"

#### Marxist Leaders

There is some Marxist leadership at the head of the SDS, we know. Anyone who questions this is simply not informed. Some of the leaders are Moscow-oriented, while some are Peking-oriented. All such are seeking the destruction of our society. Some have been frank enough to say so.

But the question is, "Why will great numbers of students follow such leaders?"

It should be emphasized immediately that the majority of students do not follow them. The rebels are a small minority.

Still, there are enough who do follow them that their influence is severely disruptive. Why do some idealistic young people join in such movements? Why are they sub-

ject to being misled?

The answer may be contained in a statement made recently by a Florida medical man who said, "Recent history of our youth demonstrates the utter contempt they hold for parental authority."

When respect for parental authority breaks down, respect for the authority of university officials and of representatives of government—local, state, and federal—is weakened.

#### Parents Responsible

Unfortunately, the students who are now causing the troubles are probably too far gone to be salvaged, in many cases.

But we have a younger generation coming on. How are they being trained?

Young people who are trained to respect their parents and to understand their personal obligations to help in the building of a constructive society will not be misled by rabble-rousers. They will be immune to the rantings of the revolutionaries.

No wonder the Bible says, "Train up a child in the way he should go and, when he is old, he will not depart from it."

Many parents have failed their children, themselves, their nation, and their God—by not obeying the Lord's command with regard to the rearing of their children.

Are you training your children in the way they should go?

The farm to market road improvement program will cost an estimated \$72,800 for 25.5 miles of FM roads.

Crain stated that the proposed improvements play an important role in the Department's continuing highway safety program.

He said that the type of work included in the program includes seal coating, surface widening, base strengthening, and resurfacing and rebuilding of shoulders.
