FORTY-SIXTH YEAR NUMBER 52

SUDAN, LAMB COUNTY, TEXAS

THURSDAY, FEBRUARY 18, 1971

10¢ PER COPY

WOODWORK BY DALTON

LAST MONDAY was George Washington's birthday. Next Monday also is George Washington's birthday, and if poor George were alive today, he surely would be confused, not to mention getting older in a hurry.

Most calendars this year list George Washington's birthday as Feb. 15. Some of them also list the 22nd, with the notation "traditional Washington's birthday."

One calendar I saw gave a brief explanation, and probably there will be others in the media before this is printed. It said that the 15th now is being observed because of the bill making most national holidays fall on Monday.

Well, great. The only thing wrong with that is the fact that Feb. 22 also is on Monday.

Probably the unions will get a clause in their next contract saying they can observe both birthdays, so nobody will be offended.

I NEVER HEARD of George Lindsay until last week, but I sure hope he's right with his forecasts of what's going to happen on the stock market this year.

Carlton Smith, writer for Newspaper Enterprise Assn., noted last week that Lindsay apparently owns one of the best crystal balls on Wall Street. Since 1951 Lindsay has been making market predictions and checks against his forecasts from 1958 to 1970 shows he never was far off, says Smith. Anyway, the news for the investor--and consequently for the nation's economy--looks good to Lindsay for the rest of this year. Noting that the last time the market rose throughout the year, without any major interruption, was 1964, Lindsay said in December: "The coming year, 1971, will be the first one since then."

He foresees a series of steps--advance followed by decline, but moving up each time to higher levels--with the strongest advance running from early July to early October.

This sounds good, but don't go raking the family fortune on my say-so about his say-so.

A MAN went into a lumber yard to buy some two-by-fours. "How long do you want them?" asked the clerk.

"Quite a while," came the reply. "I'm building a room."

PUBLIC NOTICE Proposed CONSTITUTIONAL AMENDMENT NUMBER THREE ON THE BALLOT (SJR 5) Special Election May 18, 1971

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Article III, Section 51-a, of the Texas Constitution, be amended to read as follows:

"Section 51-a. The Legislature shall have the power, by General Laws, to provide, subject to limitations herein contained, and such other limitations, restrictions and regulations as may be deemed expedient, for assistance grants to and/or medical care for, and for rehabilitation and any other services included in the federal laws as they now read or as they may hereafter be amended, providing matching funds to help such families and individuals attain or retain capability for independence or self-care, and for the payment of assistance grants to and/or medical care for, and for rehabilitation and other services to or on behalf of:

(1) Needy aged persons who are citizens of the United States or noncitizens who shall have resided within the boundaries of the United States for at least twenty-five (25) years;

(2) Needy individuals who are totally and permanently disabled by reason of a mental or physical handicap or a combination of physical and mental handicaps;

(3) Needy blind persons; and

(4) Needy dependent children and the caretakers of such children.

"The Legislature may prescribe such other eligibility requirements for participation

in these programs as it deems appropriate.

"The Legislature shall have authority to enact appropriate legislation which will enable the State of Texas to cooperate with the Government of the United States in providing assistance to and/or medical care on behalf of needy persons, in providing rehabilitation and any other services included in the federal laws making matching funds available to help such families and individuals attain or retain capability for independence or self-care, to accept and expend funds from the Government of the United States for such purposes in accordance with the laws of the United States as they now are or as they may hereafter be amended, and to make appropriations out of State funds for such purposes; provided that the maximum amount paid out of State funds to or on behalf of any needy person shall not exceed the amount that is matchable out of federal funds; provided that the total amount of State funds paid for assistance grants for needy dependent children and the caretakers of the children shall not exceed Fifty-Five Million Dollars (\$55,000,000) during any fiscal year.

"Provided further, that if the limitations and restrictions herein contained are found to be in conflict with the provisions of appropriate federal statutes, as they now are or as they may be amended to the extent that federal matching money is not available to the State for these purposes, then and in that event the

Legislature is specifically authorized and empowered to prescribe such limitations and restrictions and enact such laws as may be necessary in order that such federal matching money will be available for assistance and/or medical care for or on behalf of needy persons.

"Nothing in this section shall be construed to amend, modify or repeal Section 31 of Article XVI of this Constitution; provided further, however, that such medical care, services or assistance shall also include the employment of objective or subjective means, without the use of drugs, for the purpose of ascertaining and measuring the powers of vision of the human eye, and fitting lenses or prisms to correct or remedy any defect or abnormal condition of vision. Nothing herein shall be construed to permit optometrists to treat the eyes for any defect whatsoever in any manner nor to administer nor to prescribe any drug or physical treatment whatsoever, unless such optometrist is a regularly licensed physician or surgeon under the laws of this State."

Sec. 2. The foregoing constitutional amendment shall be submitted to a vote of the qualified electors of this State at an election to be held on May 18, 1971, at which election the ballots shall be printed to provide for voting for or against the proposition: "The constitutional amendment removing the limitation on the total State appropriations for assistance grants for the needy aged, the needy disabled, and the needy blind, and setting a limitation on total State appropriations during any fiscal year for assistance grants for needy dependent children and the caretakers of such children."
