

The growing population of the United States figured in a couple of different meetings in the area recently.

Last Thursday at Bovina, Tom McFarland, manager of the High Plains Underground Water District, pointed out that if the population growth continues, household pets such as dogs and cats may become a rarity.

"There are 25 million registered dogs in the United States today; and no telling how many unregistered. Those 25 million registered dogs consume enough food for four million people. There may come a time when our food supply in relation to the population may be such that pets cannot be afforded," McFarland said.

McFarland, in addressing the county members of the High Plains Underground Water District board, pointed out that 70 per cent of the nation's food is produced in an area between the Mississippi River and the Rocky Mountains.

Yet, this area has only about 20 per cent of the nation's water, the district water official stated.

The High Plains Water District will be 15 years old next month. It has done a lot for West Texas farmers; chief thing recently being the test case which won West Texas irrigation water expenses from their income taxes.

This alone returned around \$1,300,000 to area farmers last year -- an amount in excess of the taxes collected by the water district in the past 15 years, it was pointed out.

In another meeting concerning an item of interest to this to this area, a research scientist predicted that grain sorghum eventually will become known as a food grain rather than a feed grain.

This took place at the fifth biennial International Grain Sorghum Research and Utilization Conference recently in Amarillo.

O. Ben Garrish, head of the food science section of Midwest Research Institute of Kansas City, made this forecast.

"While sorghum is a most important food grain in large parts of Asia and Africa, only about 10 per cent of the sorghum grown in the United States is used as human food," Garrish said. "When the population in this nation comes into a closer relationship with the available food supply, then we'll start using more grain sorghum for food in the United States, he said.

In light of the state girls basketball tournament, Friona's Squaws didn't do badly at all. Springlake beat the team three times, and all Springlake did was to set all kinds of records with a 105-52 win over Cross Plains in the finals.

Local fans remember that in their final meeting of the season here, Springlake pulled out an eight point win, 54-56 but had trailed the Squaws by three points after three quarters.

Springlake really meant to make up for losing the state championship a year earlier. And, we'd say they did it.

That the team could run up such a score in the state finals is almost beyond belief, even considering the strength of Springlake-Earth. Especially when you consider that the team they beat had lost only one other game all season.

And the Tulla Hornettes, another rival, breezed to their second straight title, after winning their first title in history last season.

It is to be remembered that the Squaws topped Tulla, 56-39, in the first home game of the season here. Tulla lost only six games during the season, including three to Springlake.

Springlake ended up with a 37-2 record; although in fairness to the Wolverettes, the two losses were to Wayland's Queen Bets. So the team didn't lose to a high school foe during the season.

Spearman was sidetracked in their efforts to win a second straight state championship in class AA, as Little Cypress took the title. Friona fans remember this school as the one which derailed the Squaws in the opening game of the 1963 tournament.

We thought West Texas was well represented at the finals with four teams going for titles.

SCOUT OFFICIALS . . . Members of the Girl Scout building committee are shown going over plans for the new Girl Scout building, which plans to break ground immediately. From the left are Weldon Dickson, Mrs. Russell O'Brian

and Ralph Wilson. The three discussed the building program with parents of Girl Scouts at the annual father-daughter meeting Monday.

Construction To Begin On Girl Scout Building

Decision to begin construction on a Girl Scout headquarters building for Friona was announced this week during the annual father-daughter night Monday.

The Friona council's building committee presented plans to build a 36x65 building at 700 Ashland, adjacent to the Masonic Temple, completed last year.

The building will be built on a lot and one-half which was provided for the purpose, along with a cash contribution of \$1,000 by Pearl Kinsley, Friona pioneer.

"We feel like we've waited long enough on this building program, and we're now definitely ready to get underway with the building," said Ralph Wilson at the meeting Monday night.

Wilson said the girl scouts had never begun the building

because the fund drive was considerably under the necessary amount for a building. However, he said it was the committee's feeling that once construction was begun, the fund drive would get several donations.

Officials pointed out that the Friona Girl Scouts have grown to 10 troops, currently having 171 girls enrolled, as well

as 30 women workers.

At present, the scouts hold their regular meetings at various locations in the city.

The building will consist of a big 20x35 meeting room, as well as three smaller "troop" rooms, a kitchen, two restrooms and storage closets. The building also will have a fireplace. It will be of concrete block construction.

Weldon Dickson, member of the building committee, drew the plans. Johnny Brand will be the building superintendent.

Dickson told the crowd Monday night that the building could be built for an estimated \$13,000.

Those wishing to contribute to the building fund may make deposits at Friona State Bank to the Girl Scout Building Fund.

Hightower Introduces Agriculture Measure

Senator Jack Hightower of Vernon, warning that Texas Agriculture is in serious trouble, introduced Thursday a bill to create a state Agricultural Development Board.

He said the board would mobilize the states' agricultural resources by providing an overall view of the agricultural economy and analyzing its weaknesses.

Citing a report by Governor John Connally, Senator Hightower warned that Texas is falling behind in its relative growth in the field of agriculture.

California and Texas were equal in agriculture 15 years ago, the Governor pointed out in an earlier report, but California today reaps \$1.5 billion more in agricultural income than Texas.

Senator Hightower said that his bill would require the new board to:

---Make an inventory of present agricultural assets, services and facilities in the state;
---Promote new agricultural business and industries and expand existing businesses and industries;

---Promote the use and consumption of agricultural products grown by Texas farmers, both in foreign and domestic markets;

---Stimulate the development of new ways and means of converting raw agricultural products into marketable items;

---Hold such conferences, institutes, or seminars concerning agricultural development as it deems necessary and feasible.

The board also would advise the Coordinating Board for Higher Education in its supervision of agricultural research and extension in state supported colleges and universities.

Senator Hightower said that the board would be required to file annual reports of its activities with the Governor and Legislature.

Members of the board would consist of 15 persons appointed by the Governor.

Motorists Reminded Of Inspection Deadline

The director of the Texas Department of Public Safety reminded motorists today that only six weeks remain before enforcement begins on the 1967 vehicle stickers.

Col. Homer Garrison, Jr., DPS Director, said that the law allows for no extension of the April 15 deadline and urged drivers to have their vehicles inspected before the last minute lines begin forming.

Garrison pointed out that some two and one-quarter million vehicles in Texas remain to be inspected in order to comply with state law. This amounts to approximately 14

vehicles per working day for each of the 5,500 official inspection stations.

"Undoubtedly, Garrison stated, "many motorists will wait until the last day, and it may be very difficult to find an inspection station that is not swamped with late-comers."

"In order to secure an orderly flow of the remaining un-inspected vehicles through the inspection stations we would urge each motorist to have the inspection attended to as soon as possible. This can easily be taken care of during a routine visit to an authorized neighborhood inspection station."

SCHOLARSHIP WINNER . . . Terri Lynn Wilson is shown with a citation proclaiming that she was a winner in the English division of a "Talent Day" contest at Eastern New Mexico, entitling her to a \$120 scholarship at ENMU, along with other entrance benefits.

Wanda Jones New Officer Of FTECU

Mrs. Tommy (Wanda) Jones has been named treasurer of the Friona, Texas Federal Credit Union by the organization's board of directors, replacing Lucy Jones.

At the same time, Mrs. Jones and Richard Collard were added to the organization's board of directors.

The Credit Union has moved to 523 Main Street in the Schueler Building formerly occupied by Jack's Shoe Repair, and is currently in the process of re-decorating the building.

Teachers ReHired; Pay Raise Voted

All classroom teachers with the exception of four who had previously resigned, were re-hired by the Friona School Board Monday night.

The four who have resigned are William Arnold in high school, Anna Lou Williams in junior high, Anita Messenger, and Marie Carroll in the elementary school.

In addition, Porter Roberts

was re-hired as school tax assessor-collector, and Mrs. Billie Jo Mercer was employed as school nurse, to replace Marie Carroll, who is retiring.

The board approved a pay raise of \$150 annually for all teachers. This brings the base pay for all Friona teachers to \$500 above the state schedule.

Superintendent of Schools Alton Farr, as well as the three

principals and counselor Baker Duggins all have a year remaining on their contracts.

In other business, the board approved the purchase of a tractor and mower for the school. The tax report showed that a total of \$3,344.29 in delinquent taxes were collected in February.

Prior to the business session, a meal was served to the board members, superintendent, principals, counselors and tax assessor-collector by the high school homemaking department.

GARCY HARPER

Services Conducted For Gunshot Victim

Funeral services were conducted Monday for Worley Garcy Harper, 36, who was fatally injured in his home last

Friday when the 22-calibre rifle he was cleaning discharged, striking him in the chest.

Harper, a lifelong resident of Friona, was employed at Friona Feed Yards. Funeral services were conducted at Calvary Baptist Church, with Rev. Russell Pogue officiating, assisted by Rev. Jake Armstrong. Burial was at Friona cemetery under the direction of Claborn Funeral home.

Survivors include Harper's wife, Joyce, a daughter, Deena, and three sons, Bobby, Ricky and Teddy of the home. Also, his mother, Marie Harper of Colorado Springs, brothers, Clifton of Friona; B.C. of Hayward, Calif., a half-brother, Vernon of Fresno, Calif., and sisters, Mrs. Sandra Christian of Colorado Springs and Mrs. Eleanor Williams of Panama.

Harper was taken to Farmer County Community Hospital following the accident, but was dead on arrival.

Dog License Date Friday

Dr. Gene Cope of Hereford will be in Friona tomorrow between the hours of 3 and 5 p.m. for the purpose of licensing and vaccinating pets for 1967.

Dr. Cope will be at the Friona Fire Department for the two hour period. This is the final date for pet owners to take advantage of his service. Charge is \$2 for the vaccinations and \$2 for the license for a total of \$4 per dog.

Only 21 dog owners licensed and vaccinated their pets last Friday, so the bulk of the pets are unlicensed. All pets within the city limits must be vaccinated and licensed, according to City Ordinance #81.

Contract Set For Sealcoating

A contract for a total of 191 miles of sealcoating of roads in the area was awarded last week in Austin. Included in the program is a 38 mile segment of U.S. Highway 60 through Farmer County.

McElroy Transport Co. of Fort Worth submitted the low bid for the 194-mile project, at \$640,636.95. The seal cost program is expected to take 75 working days, according to O.L. Crain, District Highway Engineer at Lubbock.

Area's Water Needs Discussed By Group

The need for the Texas High Plains to have a plan for bringing water to the area to assure the future development of the area was discussed at a meeting of the county's High Plains Underground Water District directors last Thursday night at Bovina.

Tom McFarland of Lubbock, manager of the HPUWD, addressed the group, after which Ross Goodwin of Muleshoe, a member of the district board, showed a series of color slides depicting a huge water system in California.

"If our population growth trend continues as it has in the past, by 1980 the United States will be using twice the amount of water as we're now using," McFarland pointed out.

The water district manager pointed out that sufficient opposition had been voiced by West Texans to the Texas Water Development Board's state water plan to set the board to work on a plan for securing water for West Texas. The original plan released by the board had excluded West Texas.

"Now that we've made ourselves heard, it's going to be up to us to act on proposals

made by the commission," McFarland said.

He predicted that within the next six to eight months, the people in West Texas will be asked to decide for or against a proposed water program in their behalf.

"We need to do some figuring, and be ready to decide on the program. If we're not able to provide water for our area, it's going to be a sad situation someday," he added.

It was pointed out that contrary to the original report by the Texas Water Development Board, there is a source of water possible to transport to West Texas; engineering is feasible; and the cost should not be prohibitive.

Goodwin's slides were taken during a recent tour by a West Texas group of big Southern California water systems which were supplying recharge water for both agricultural and municipal use.

Those who had made the tour agreed that it was hard on the Texans' pride to see California taking the lead in an area which is getting to be a critical one for the West Texas area.

TALKING ABOUT WATER . . . Part of the group which met at Bovina last week and discussed possible solutions for the area's water needs in the future are shown above. From the left are Tom McFarland, manager of the High Plains Underground Water Conservation District No. 1; Ralph Shelton,

Farmer County water board member, Ross Goodwin of Muleshoe, who represents Bailey, Farmer and Castro counties on the district board, and Jim Roy Daniel, another county board member.

Pause And Reflect

by Nelson Lewis

What reasons do free people have for resisting the worldwide spread of communism? How do communist beliefs compare to our thinking in the area of politics and economics?

The following rules and quotations are offered with the hope that they may show how vastly different the communist doctrine is to our American way of life. The rules are numbered consecutively, the quotes need no explanation.

Rules for Membership in the Communist Party International Author; Lenin Co-Author; Leon Trotsky.

Adopted at the second congress of the International Communist Party, 1921.

1. Each member party agrees to constantly carry on agitation against the established bourgeois government of said country.

"We hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain unalienable Rights, that among these are Life, Liberty and the pursuit of Happiness. That to secure these rights, Governments are instituted among Men, deriving their just powers from the consent of the governed, -That whenever any Form of Government becomes destructive of these ends, it is the Right of the People to alter or to abolish it, and to institute new Government, laying its foundation on such principles and organizing its powers in such form, as to them shall seem likely to effect their Safety and Happiness." Declaration of Independence.

2. Each member party must remove reformers or evolutionists from its ranks and replace them with experienced revolutionary workers.

"I do solemnly swear (or affirm) that I will faithfully execute the Office of President of the United States, and will to the best of my Ability, preserve, protect and defend the Constitution of the United States." - The Oath of Affirmation of the President of the United States.

3. Each member party must parallel an illegal underground apparatus, if said party is legalized in said country, for the purpose of subversion. "Each state retains its sovereignty, freedom and independence, and every Power, Jurisdiction and right, which is not by this confederation expressly delegated to the United States, in Congress assembled." Article II of the Articles of Confederation.

4. Each member party must carry on subversion activities in the military of said country, until 100% support is attained.

"Let us unite, therefore, in imploring the Supreme Ruler of Nations to spread his holy protection over these United States; to turn the machinations of the wicked to the confirming of our Constitution; to enable us at all times to root out internal sedition to put invasion to flight; to perpetuate our country that prosperity which His goodness has already conferred, and to verify the anticipations of this Government being a safeguard to human rights." - George Washington.

5. Each member party is to work in the rural areas of said country to gain support of the rural populace.

"Is life so dar, or peace so sweet, as to be purchased at the price of chains and slavery? Forbid it Almighty God! I know not what course others may take; but, as for me, give me liberty, or give me death!" - Patrick Henry.

6. All international parties must encourage and support imperialistic wars to insure weakening the bourgeois governments.

"The unity of government which constitutes you one people is also now dear to you. It is justly so, for it is a main pillar in the edifice of your real independence, the support of your tranquility at home, your peace abroad, of your safety, of your prosperity, of that very liberty which you so highly prize. But as it is easy to foresee that from different causes and from different quarters much pain will be taken, many artifices employed, to weaken in your minds the conviction of this truth, as this is the point in your political fortress against which the batteries of internal and external enemies will be most constantly and actively directed, it is of infinite moment that you should properly estimate the immense value of your national union to your collective and individual happiness; that you should cherish a cordial, habitual, and immovable attachment to it; accustoming yourselves to think and speak of it as of the palladium of your political safety and prosperity; watching for its preservation with jealous anxiety; discountenancing whatever may suggest even a sus-

pected that it can in any event be abandoned, and indignantly frowning upon the first dawning of every attempt to alienate any portion of our country from the rest or to enfeeble the sacred ties which now link together the various parts." George Washington

7. Each member party must split entirely with evolutionary processes and support the revolutionary theme.

"No state without the Consent of the United States in Congress assembled, shall send any embassy to, or receive any embassy from, or enter into any conference, agreement, alliance or treaty with any King prince or state; nor shall any person holding any office of profit or trust under the United States, or any of them, accept of any present, emolument, office or title of any kind whatever from any king, prince, or foreign state; nor shall the United States in congress assembled, or any of them, grant any title of nobility." - Article VI of the Articles of Confederation.

8. Each member party must maintain agitation in all labor unions in said country.

"A prudent man foreseeth the evil, and hideth himself; but the simple pass on, and are punished." - Proverbs XXVII: 12

9. Each member party must work, organize, and gain control of the Trade Unions of said country.

"Beware of false prophets, which come to you in sheep's clothing, but inwardly they are ravening wolves." - Matthew VII:15

10. When member party gains control of legislative parliaments of the bourgeois countries, they must be used for propaganda purposes.

"Equal and exact justice to all men, of whatever state or persuasion, religious or political; peace, commerce, and honest friendship with all nations, entangled alliances with none; the support of the State governments in all their rights, as the most competent administrations for our domestic concerns and the surest bulwarks against antirepublican tendencies; the preservation of the General Government in its whole constitutional vigor, as the sheet anchor of our peace at home and safety abroad; a jealous care of the right of election by the people - a mild and safe corrective of abuses which are lopped by the sword

of revolution where peaceable remedies are unprovided; absolute acquiescence in the decisions of the majority, the vital principle of republics, from which no appeal but to force, the vital principle and immediate parent of despotism; a well disciplined militia, our best reliance in peace and for the first moments of war, till regulars may relieve them; the supremacy of the civil over the military authority; economy in the public expense, that labor may be lightly burthened; the honest payment of our debts and sacred preservation of the public faith; encouragement of agriculture, and of commerce as its handmaid; the diffusion of information and arrangement of all abuses at the bar of the public reason; freedom of religion; freedom of the press, and freedom of person under the protection of the habeas corpus, and trial by juries impartially selected." Thomas Jefferson

(To Be Continued Next Week)

Church Meeting Is Underway

The spring revival at the First Baptist Church is underway this week, with the Rev. J. Wayland Edwards of Artesia, N.M. doing the preaching.

The series of services continues through Sunday. Morning services are held on weekdays except Saturdays. David Campbell, church music director, is in charge of revival music.

Youth Choir To Perform

The First Baptist Church Youth choir will present a cantata, "Behold Your King", by John Peterson next Wednesday, March 22 at 7:30 p.m. at the church.

The cantata is under the direction of David Campbell, music director at the church.

If baby's best cotton dress is trimmed with delicate lace, put the garment in a mesh bag before machine-washing. Wash on delicate fabric cycle and dry on low heat setting of automatic dryer. Remove the dress from dryer while still damp.

1967 Savings Bond Goal For County Is Announced

The 1967 United States Savings Bond goal for Parmer County is \$130,000, according to an announcement made by Frank Spring, Chairman of the Parmer County Savings Bonds Committee. January sales in the county totaled \$3,168 which represent two per cent of the 1967 sale goal.

The Texas 1967 Savings Bond goal is \$181.3 million. E and H sales during the month of January totaled \$15,191,696

which is an increase of 18 per cent over January 1966.

"The County Savings Bonds Committee was happy to learn about the new "Freedom Shares" announced by President Johnson on February 21. They will go on sale May 1, 1967. Freedom Shares along with E and H Savings Bonds play an important role this year in supporting our forces in Vietnam and in helping stabilize the Nation's economy,"

Junior High School Honor Roll Listed

A total of seven eighth grade students, four seventh graders, three sixth graders and three fifth grade students were on the "Straight A" honor roll released this week Tom Jarboe, junior high school principal.

Eighth graders on the straight A list were Deborah Clausen, Larry Johnston, Donnie Lewellen, Sandy Reznik, Dale Schueler, Susie Spring and Debra Wyly.

Seventh graders making all A's were Sally French, Sally Kendrick, Alesia Ragsdale and Sheila Struve. **Sixth graders were** Carol Reeve, Betty Sachs, and David White. **Fifth grade students with straight A's were** Beth Cranfill, Annette Reznik, and Kyle Shelton.

Other students on the list included:

Eighth Grade
One B, the rest A's: Janetta Cole, Glenda Deaton and John Hoover.

Two B's, the rest A's: Wayne Bauer, Mike Buchanan, Mike Mills and Esther Smith.

Seventh Grade
One B, the rest A's: Jonie Cannon, Cynthia Gable, Kathy Horton, Andrea Hurst, Kathleen McLean, Carolyn Martin, Jill Riethmayer, and Carleen Schlenker.

Two B's, the rest A's: Bill Bailey, Dave Buske, Denise Erazier, Tony Keeth, Cindy McGermitt, Janice Milner and Lou Whaley.

Sixth Grade
One B, the rest A's: Willie Bailey, Darlene Harper, Deborah Kretzman and Kim Parr.

Two B's, the rest A's: Debbie Horton, Robert Jackson and Carolyn Murphree.

Fifth Grade
One B, the rest A's: Beverly Bailey, Kay Cochran, Carolyn Gore, Trip Horton, Bobby Lewellen, Pamela Lewellen and Gayla Self.

Two B's, the rest A's: Danny Bailey, Ricky Harper, Dorothy Johnston and Vickie Pryor.

Fourteen Names On All A Honor Roll

Names of fourteen Friona High School students were listed on the all A honor roll released by Principal John R. Cook early this week. They were Brownie Cole, Crista Evans, Mac Hancock, Lowery Harper, Darla Howell, Rhonda Lawrence, Nroman Mohr, Darla Perkins, David Reeve, Wayne Schueler, David Smith, Connie Whaley, Shirley White, Terri Wilson.

Other names listed and grades earned were as follows:
A's with 1-B -- Susie Carmichael, Lou Cochran, Becky Coffey, Belinda Mabry, Tommy

Gene Riddle attended the High School Principal meet held in Dallas recently. Mrs. Riddle accompanied him to Dallas. They visited with her parents, Dr. and Mrs. R.D. Van-Scheucher and his parents, Mr. and Mrs. F.L. Riddle while in Dallas.

Cheryl Ramage and Jill Mimms, candidates for State Degrees attended a meeting in Lubbock to evaluate Area 1 State Degrees. They were accompanied by their advisor, Eva Dean Ivy.

The Bert Bergstrom family spent the weekend in Amarillo with their relatives, the A.T. Randols.

Mrs. Mary Johnson of Roswell is in Lazbuddie this week visiting her parents, Mr. and Mrs. Everett Maxwell.

Rev. Calvin Beach of the First Baptist Church, Lazbuddie is holding a revival in Slide Texas this week. The deacons of the Lazbuddie Church will bring messages for the Sunday March 12th services in the absence of Rev. Beach.

Mike Hinkson, son of Mr. and Mrs. Frank Hinkson plans to attend New Mexico State at Las Cruces starting the fall term.

Mrs. Fred Graham visited Mr. Graham's sister, Mrs. Mary Rush in Elida N.M. Thursday of last week.

Mr. and Mrs. Richard Engelking and Mr. and Mrs. Fred Wilbanks attended the funeral of Mrs. Wilbanks' mother and Mrs. Engelking's grandmother, Tuesday of last week. The Wilbanks picked up their son, Paul, at S.W. College in Oklahoma who accompanied them to Marshall to attend the funeral.

To save sewing time, use cotton iron-on tape to hem trousers for growing boys. Turn under pants legs to the desired length and iron strips of tape over raw edges. When you need to let out the hem, just press the cotton tape with a warm iron and pull it off.

RESOLUTION

BY THE CITY COUNCIL OF THE CITY OF FRIONA, TEXAS ESTABLISHING CLEAN-UP WEEK

WHEREAS, it has been determined that a City-wide Clean-up Week is in order for this time of the year,

WHEREAS, such said clean-up week would enhance the beauty of the City by the removal of accumulated trash and debris,

WHEREAS, the clean-up activity would materially assist in the reduction of fire hazards, fly and mesquite breeding habitats and improve the general sanitation of the city,

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF FRIONA, TEXAS, that:

The week of 10-15 April, 1967 be designated CLEAN-UP WEEK for the City of Friona and all citizens are urged to participate by gathering trash and debris from their private properties and place some in the alleys where the city employees may remove some.

PASSED AND APPROVED THIS THE 6th DAY OF MARCH, 1967.

W.L. Edelman, Mayor
ATTEST:
Arley L. Outland, City Secretary

The National Association of Manufacturers report that, "Industry is now making a concerted effort to show students the great opportunities and challenges to be found in the business world. Students who can contribute new ideas, new efforts, new concepts are the ones industry is seeking; such students usually have the imagination and ability to recognize industry's vast contributions in problem-solving for the public good."

PUBLIC NOTICE

City of Friona

Ordinance #81, City of Friona, provides for levying of Dog Tag and Vaccination of pets within the city limits. The vaccination, taxing, registration and tagging of dogs for 1967 will be held at the fire station, Friona City Hall, between the hours of 3 p.m. and 5 p.m. on the 10th and 17th days of March, 1967. Dr. Gene Cope, licensed veterinarian, will be present to administer the vaccinations. Tax \$2.00, vaccinations \$2.00 for a total charge of \$4.00 per dog.

Arley L. Outland
City Assessor-Collector

READY FOR ACTION... Kalitta, left, examines fuel line jet that feeds this 1400 H.P. Ford engine. This is "The Bounty Hunter", one of the exotic cars that AA fueler drivers use to attain money, fame and glory. "The Bounty Hunter" piloted by Kalitta is just fresh from winning the winner Nationals Championship in Pomona, California. Kalitta blasted through the quarter mile at the unbelievable speed of 219.50 miles per hour with an elapsed time of 7.17 seconds. Kalitta will be featured on the season opening program this Sunday at the Amarillo Dragway, 7 miles south on Washington in Amarillo, Texas, as he pairs off in open competition against over sixteen of Amarillo Dragway's regular runners who put down two National Champions in 1966. The action is slated to get underway this Sunday afternoon at 2:00 p.m.

AT AMARILLO

Dragway Begins 1967 Season This Sunday

Earnest Walker, President of Amarillo Dragway, in Amarillo, announced today completion of plans for the 1967 season's opening race. This Sunday, March 19, action is slated to get underway with time trials at 7 a.m. and final races to start at 2 p.m.

Walker states that drivers of stock cars, and 1,000-horsepower fuel dragsters will battle it out, tournament style, attempting to win \$5,000 cash, 89 class trophies, and set new strip records.

The event will feature Connie Kalitta from Mt. Clemens, Michigan in his overhead cam Ford Powered AA Fueler. Just fresh from winning a National Race at Pomona, California, Kalitta pushed the 1400 Horsepower Ford powered entry to the low elapsed time of the meet with an unbelievable 7.17 seconds coupled to the top speed of the meet at 210.50 miles per hour.

The question that now comes to mind is -- will Kalitta's momentum carry him to a win at the Amarillo Dragway's Top Fuel 1967 Season Opener? The present Amarillo Dragway

speed record is 213 MPH held by Vance Hunt of Dallas. Kalitta will pair off against Amarillo Dragway's regular runners who put down two national champions in 1966.

Also appearing is Gene Snow, who downed all challengers last year, in his 66 Dodge Dart "Rambunctious", as he takes on one of California's top drag racing champions, Tom Sturm, driving his 1967 Chevrolet Corvair (Funny Car) that has turned the quarter at consistent speeds of over 160 MPH, in a best two out of three race.

Another matched race will feature Mike Burkhart of Dallas, Texas as he pits his 66 Chevrolet against the Fenner Tubbs Mo-Par Plymouth From Lubbock.

According to Walker, the strip will open at 7 a.m. this Sunday with classification of race cars and time trials, and all entries are to be in by 12 noon. The final races and match races will get underway at 2:00 p.m. sharp. Walker urges each and every drag racing fan to make their plans now to attend this gigantic drag racing event.

Danny Murphree Sets New School Record

A team of Wayland College underclassmen racked up new school records and enough points to nail down fourth place in the recent Border Olympics at Laredo, Texas major track and field contests.

Danny Murphree, Friona, sophomore, clocked 48.3 in the 440-yard dash to set a new Wayland record, besting the previous record of 48.5 set a few years ago by Bill Hardage, now Wayland Pioneers' track and field mentor and coaching the Friona speedster.

Lamont Batchelor, Wink, did the intermediate hurdles in 56.8. With that time Batchelor, a freshman, bettered his own previous time.

John Fowler, Houston, hurled the javelin 171-9 to give Wayland the third school record and the third meet first this season. Fowler is a sophomore.

The Wayland mile relay team were second out of third place and missed ranking Wayland third in the star-studded contest. Murphree, anchoring the team, started the final lap 15 yards behind but at the finish had closed the gap to just a half step from the tape.

The Wayland team was third in the 440 relay with Fowler, Murphree, and Larry and Roy Donaldson, sophomore-junior brother team of Farwell, making the circuit in 42.4.

THREE GIRLS

Squaws Named To All-District Team

Both Cindy Ingram and Hazel Fallwell were named to the team as forwards, with Lou Cochran making the team as a guard. Eighteen players were named to the team, nine forwards and nine guards.

Three members of the Friona Squaws were chosen to the all-District 3-AA girls basketball team, announced this week by district coaches.

Only district champion Floydada had more than three players on the team, as the Whirlettes had four players named all-district.

Miss Fallwell was one of three sophomores chosen to the team, along with Judy Townsend of Hale Center and Pam Foster of Olton.

Miss Ingram will play in the girls state all-star game next summer at Duncanville.

AWARD WINNERS . . . Three Girl Scout leaders received service pins Monday. Seated are Mrs. Bill Bandy, who received a 10-year pin, and Mrs. Ralph Wilson, who was presented with a 25-year pin. Standing is Mrs. Elvin Wilson, who got a five-year pin.

Struve Is City Chairman For ACC Fund Campaign

Steve L. Struve, 1215 White Ave., has been named city chairman for the Community Gifts campaign for Abilene Christian College's \$25.7 million Design for Development. Struve will direct the activities of team captains and volunteer workers in Friona as the community Gifts campaign gets underway here.

The Design for Development, initiated in 1965, is a 10-year program to raise \$25.7 million for academic, physical and endowment expansion. The Phase I three-year target of the campaign is \$10.4 million and currently more than \$8 million has been raised.

The Community Gifts campaign will be conducted among the alumni, parents and friends of ACC in more than 260 Texas cities. The effort will reach about 30 thousand persons, seeking three-year gifts or pledges up to \$3,000 during the first half of 1967.

A local farmer, Struve attended Draughon's Business College. He has been a member of the Lions Club since 1945. A member of the Sixth Street Church of Christ, Struve is on the advisory board of both the Bible Chair at E.N.M.U. and the New Mexico Children's Home. The Struves have three daughters, Kay, Joan Carol and Sheila.

Swine Production Termed Untapped

Swine production is an almost untapped source of better returns for Panhandle agriculture according to the recently issued Panhandle Economic Program report.

The PEP study indicates increased feeding of cattle, sheep and hogs could increase income from livestock sales \$20-million each year.

FRIONA CANDIDATE. . . A Friona girl, Pat Cannon (second from the left) was first runnerup in the "Miss Girlstown, USA" contest, which was held the past week at Girlstown, near Whiteface. Other girls are LaWanda Lambert, Brenda Griffiths, Melinda Weeks, Daria Horne and Manda Rush. The crowning of "Miss Girlstown" highlighted an anniversary celebration by the organization last Sunday.

LION PROJECT . . . Members of the Friona Lions Club sold packets of light bulbs door-to-door this week, as a fund-raising project, proceeds of which went to Farmer County Community Hospital. From the left are A.L. Outland, Ross Ayers and J.G. McFarland.

Washington Report
From Congress
BOB PRICE 10TH DISTRICT, TEXAS
1222 LONGWORTH OFFICE BUILDING, WASHINGTON, D.C. • 222-3726

Since my election I have received many letters in regard to postmaster and rural carrier appointments in the district. However, these appointments are made by the President with the advise and consent of the Senate. This is a holdover from days when all government jobs went to the friends of politicians.

On March 9 I introduced a bill to take these jobs out of politics. The legislation would provide that appointments to these positions be given to qualified career employees in the postal service.

A resolution approving additional United States food aid to India was debated in the House on March 9. During the discussion I pointed out that the American farmer should not be asked to subsidize this Nation's foreign policy, of using American food to aid and stabilize needy areas, unless he is getting a fair price for his products.

The actual purpose for considering the resolution was to take the blame from the President's shoulders for sending more grain abroad for which the American farmer received prices well below parity. Just last month the Department of Agriculture reported the market price for wheat was only 58 per cent of parity and for grain sorghum, 76 per cent of parity.

While taking all these things into consideration I decided to vote for the resolution any-

way. There are starving people in India who need this food. It is a market for the farmer's product and will keep our surpluses down. I will be doing everything possible in the future to see that American farmers receive a better price for their grain in transactions with India and other countries.

The problem of our defense policies still overshadows most other considerations here in Washington. The war in Viet Nam, of course, remains at the top of the list, occasionally other problems arise. One of these was recent testimony before a Senate subcommittee when a former State Department official testified that his sources in Cuba have indicated the Russians still have some missiles in that country.

For many months I have advocated blockading Cuba. This would undoubtedly bring about Castro's downfall in a short period of time. It seems very stupid to me for our fighting men to be dying in the jungles of Viet Nam, thousands of miles away, while we continue to let this communist sore exist 90 miles from our shores.

On the subject of Viet Nam, I would like to quote from a letter one of my colleagues received from an American airman serving there. It expresses my feelings.

"We might make a few of our friends mad when we sink a few of their ships in the Port of

Jordan Named All-District

Bobby Jordan was named to the first team all-district 3-AA basketball team announced this week, and Ray Lynn Murphree missed by an eye-lash also making the first team.

Murphree was sixth highest among players in the district, according to Friona coach Cecil Maddox.

State runnerup Dimmitt led the all-district selection with three players on the first unit. They were John Howell, Tommy Stafford and Ronnie Kenmore. Also on the first team was Tommy Hunley of Abernathy.

Besides Murphree on the second team were Lyndol Dyer and H.T. Smith, Hale Center; Bobby Carroll, Memphis and Steve Marler, Floydada.

SUPERBLY STYLED—Maid of Cotton Georgia Pearce wears an ensemble of double-faced cotton damask. In pale pink with white dots, the jacket buttons high over a sleeveless dress. Jacket and hemline are bound in white stripes. By Bill Bliss for Maurice Rentner.

CHEVY'S BONANZA SALE

Watch Lorne Greene, star of Chevrolet's "Bonanza", each Sunday night on NBC-TV.

A Different Kind of Sale You Can't Afford to Miss

Some sales offer stripped down, bottom-of-the-line cars at low prices. But look what your Chevrolet dealer's offering during March. Five popular accessories and options on a handsome Impala V8 Sport Coupe, or if you prefer, a 2-Door or 4-Door V8 Bel Air Sedan. And best of all, you're getting the car you want at a price you can afford in plenty of time for traveling this summer. Just check the extra low price with your dealer. Hurry.

You pick the car now and we add this: Every sale car comes with five handsome whitewall tires, four dressy wheel covers, bumper guards for the front and rear, two handsome wraparound lights for the front fenders and even a pushbutton AM radio. You'll notice, every option and accessory in the package is there to make the car you choose more luxurious, more finished.

For even more enjoyment, specify these: Order power steering and power brakes and your Chevrolet dealer includes them at a special Bonanza Sale package savings. If you've

never had power steering and power brakes, now's your chance. **BONUS-BONUS-BONUS!** While the Sale is on, you can order Chevrolet's big 275-hp Turbo-Fire V8 engine together with Powerglide and save yourself a bundle. Both the engine and the Powerglide come specially priced.

Truck Buyers—You save now, too! Need a pickup? Look what your dealer has in store for you. A handsome half-ton Fleetside pickup (Model CE10934) with 175-hp V8, a pushbutton radio, chrome hubcaps and custom appearance and comfort items all wrapped up in one low-priced Bonanza package.

Bonanza Sale Days Are Slipping by Fast. Hurry Down to Your Dealer's Now!

BAND WINNERS . . . These four members of the Friona Junior High School band earned the right to compete in the state solo and ensemble band contest in Austin next June. From the left are Larry Johnston, Dale Schueler, Debra Mears and Kathy Schueler.

class II clarinet trio. The following rated third Division: David Sides, class I bass solo; Janet Mingus, class I flute solo; Kara Beth Sides, class II French horn solo; Amelia Sims, class I clarinet solo; Jill Riethmayer, class I clarinet solo; Sallie Kendrick, Jeannie Thompson, Kathy Schueler, class II woodwind trio; Sharen Awrey, Darla Howell, Karene Milner, Crista Evans, Cindy Ingram, class I woodwind quartet; Deborah Clausen, Nick Collier, Troy White, Richard Shirley, Class III drum quartet; Larry Johnston, Donnie Lewellen, James Sims, Clinton Schueler, Class III cornet quartet. Larry Johnston, cornet soloist, and the clarinet trio of Debra Mears, Dale Schueler, and Kathy Schueler, having rated first Division on class I material, are eligible for the State Solo and Ensemble Contest, held in June in Austin.

Two Rural Accidents Are Reported During Feb.

The Texas Highway Patrol introduced two accidents on rural highways in Parmer County during the month of February, according to Sergeant W.E. Wells, Highway Patrol Supervisor of this area. These crashes resulted in an estimated property damage of \$340. The rural accident summary for this county during the first two months of 1967 shows a total of 12 accidents resulting in no persons killed, five persons injured, and an estimated property damage of \$6,440.00. Only one month remains for approximately 2,000,000 vehicles registered in Texas to secure the 1967 Safety Inspection Sticker. The period set by law for securing the 1967 sticker ends at midnight, April 15, 1967, and there can be no extension of that deadline.

AN IMPORTANT MESSAGE TO COTTON FARMERS...

If This Area Is To Continue To Be A Cotton Area, It Is Imperative That We Produce A Variety Of Cotton Acceptable To The Cotton Mills.

In Short, We Need To Become "One Variety" Conscious. One Variety Of Cotton Which Is Favored By Both The Farmer And The Mills Is Paymaster "111"

Whether You Gin With Us Or Not, We're Interested In Supplying You With Paymaster "111"

Paymaster 111

For the Grower Who Wants to Produce Top Yields of Quality Cotton

MULTI-LINE
Paymaster 111 is a multi-line cotton variety, developed from a cross between Paymaster 101 and Lankart 611. It is real quality cotton with high micronaire, stronger fiber and longer staple.

MATURITY
Paymaster 111 is a cotton of medium maturity. It is only slightly later than Paymaster 101-A.

STORM RESISTANCE
Paymaster 111 has good storm resistance.

BOLL SIZE
Paymaster 111 has extra large, thin rind, round bolls. The bolls are the largest of any cotton yet developed by Paymaster. 111 is especially adapted for stripper harvesting or it can be spindle picked.

AREAS OF ADAPTATION
Paymaster 111 is the most widely adapted of any Paymaster variety. It has performed well on both irrigated and dryland from the Texas Rio Grande Valley through the Coastal Bend, Blacklands, North Texas, Western Oklahoma, Eastern New Mexico and the Texas South Plains.

SEEDLING VIGOR
Special selection of parental strains has given Paymaster 111 excellent seedling vigor. Early seedling vigor has two distinct advantages: (a) Establishes and maintains good stands early (b) Helps to escape seedling diseases.

WHAT DOES THE BREEDER SAY?
Dr. Harold Loden states: "Paymaster 111 is the result of an intensified program started in 1952 to develop a really good quality cotton. Particular attention was given to fiber properties which included: (a) staple length (b) micronaire (c) fiber strength. We were also fortunate to develop a cotton with such excellent seedling vigor. I believe Paymaster 111 is the best cotton we have developed to date."

PLANT TYPE
Paymaster 111 fruits well off the ground and is of a semi-compact plant type. It has few long fruiting branches, has light foliage, strong stalks, and strong root system.

We Have A Limited Supply-- So Book Your Seed Early!

We Also Have WAC, Paymaster And Excell Milo Seed, As Well As Soybeans or Castor Beans.

GRASS FIRE . . . Above is a picture showing the Sunday grass fire 10 miles west of Friona on land owned by Joe Wilson. It was the second grass fire within three days for Friona firemen to help with. Friday night, a fire was battled six miles north of town on the draw. Dry conditions have added to the potential of such fires.

GSPA Meet To Be Held March 22

The Parmer County Grain Sorghum Producers Association will hold a meeting Wednesday, March 22 at the First State Bank in Bovina. The meeting will begin at 10 a.m. Elbert Harp, Abernathy farmer and GSPA President, said that farmers have done the best job ever in supporting the organization and this is a series of meetings to inform them of the programs and projects currently being worked on by GSPA and to seek added direction on new activities for grain sorghum betterment.

Y.F. Snodgrass of the GSPA staff will be discussing the possibility of changing county loan rates on sorghum as well as the new labor laws affecting producers.

Rudie Tate of the GSPA North Plains staff will talk on current new developments in livestock feeding and processing in the sorghum area as well as possibilities for food and industrial use of grain sorghum.

During the new business sessions county GSPA directors and officers will be elected.

On The Farm In Parmer County

County Agent

HERBICIDES FOR WEED CONTROL

Weed control through the use of herbicides can be profitable provided the correct selection and application of the herbicide is made.

The 7 steps to satisfactory results in using herbicides are as follows (1) carefully read the manufacturers instructions or precautions (2) careful sprayer calibration, (3) use proper herbicide rates, (4) careful seedbed preparation (5) thorough incorporation of materials, if recommended (6) good planting methods and (7) careful follow-up with mechanical or additional chemical weed control practices.

READ MANUFACTURERS LABEL

Be sure and read the manufacturers label. Certain characteristics or facts about the use of the herbicide can be found here. For example, only corn, sorghum or winter wheat should be planted the year following the use of Atrazine.

SPRAYER CALIBRATION

1. For 40-inch rows measure 100 feet. Then time the number of seconds it takes your tractor to travel 100 feet going the speed to be used on the sprayer.

2. Collect fluid and measure in ounces from all nozzles used per row for the number of seconds required to travel 100 feet. If the spray is broadcast catch spray from the nozzles used to cover 40 inches (usually 2).

3. The number of ounces collected is equal to the number of gallons applied per acre of crop. If gallonage is not suitable, small adjustments can be made by changing pressure. Larger adjustments in gallonage must be made by changing tips.

4. When treating bands, the amount of chemical to be mixed with the gallons required per acre is a function of the area treated. For example, to apply 0.2 of a pound of diuron per treated acre, with 10-inch bands in 40-inch rows, the chemical

rate per acre is 10/40 or 1/4 X 0.2 = .05 pound of diuron per acre of crop. With 36-inch rows the fraction of acre treated will be 10/36.

PROPER HERBICIDE RATE

The herbicide rate depends mainly upon 3 factors, (1) time of control (2) type of weed to be controlled and (3) the type of soil where herbicide will be applied.

For example, for season-long control of both grass and broadleaf weeds, use 1, 1 1/2 and 2 pounds of Propazine per acre active ingredients on fine sandy loam, loam and silty clay loam, respectively.

SEEDBED PREPARATION

According to the South Plains Research and Extension Center at Lubbock best results have been obtained when pre-plant herbicides to control weeds in cotton are applied to dry flat soil prior to bedding for pre-irrigation. Heavy crop residues should be worked into the soil prior to spray-application. The herbicide must be incorporated 2 to 4 inches deep.

INCORPORATION

Some herbicides need thorough incorporation into the soil before effective control can be acquired. The herbicides that need thorough incorporation is pre-plant and pre-emergence chemicals for weed control in cotton.

PLANTING METHODS

Sorghum planted in 10 inch rows is difficult to weed mechanically but with the use of a proper herbicide they can be profitably controlled.

Cotton should be planted on top of the bed or in a shallow furrow to avoid moving herbicides to the middles, thus leaving the cotton row unprotected.

FOLLOW-UP WEED CONTROL

The rolling cultivator or the broadcast rotary hoe are very effective for controlling weeds mechanically following a chemical weed control program. Along with mechanical weed control successful results can be gained by using additional chemicals as post-emergence.

TO MAKE APPRAISAL County's Outdoor Recreation Potential Is SCS Objective

Parmer County is undertaking the job of appraising its potentials for outdoor recreation. This appraisal will be guided by the Federal and State Agencies headquartered in Parmer County and other interested persons. Eddy T. Willmon, Work Unit Conservationist for the Soil Conservation Service will serve as Chairman for the appraisal team.

Willmon stated that appraising the potentials for outdoor recreation is the essential step in planning to meet our recreation needs. Opportunities for further development of resources for recreational use in Parmer County will be examined with the goal of stimulating county-wide growth. This appraisal will take into consideration more than natural resources since development potentials also depends upon people and facilities necessary for development.

Willmon stated that the potential for twelve kinds of recreational developments will be examined separately. Each re-

creational enterprise has different criteria for evaluation which depends upon requirements of the activities involved. The objective to make the appraisal without long and costly surveys will be achieved by a group familiar with the county and with the requirements of the different recreational developments. Information will be obtained from various public and private sources. This will include data on resources such as water, soils, scenic areas, national areas, also population of people. The group will follow the procedure "Guide to Making Appraisals of Potentials for Outdoor Recreation Developments" prepared by the U.S. Department of Agriculture. This publication is essentially a group judgment process backed up by factual information. This procedure will be described more fully as each kind of potential is appraised.

The end result of this appraisal process will be a group of conclusions regarding the

potentials for further development of the important kinds of recreation areas and enterprises in Parmer County. In addition to the general purpose of providing information needed for effective development of natural resources for outdoor recreation these appraisals will have other uses including:

1. Improving the long-range program of the Parmer County Soil and Water Conservation District.
2. Information for publicizing and promoting outdoor recreation in the county.
3. Information useful for local planning by county and township governments, planning commissions, waterboards, civic groups and promotion agencies.
4. Information useful to Soil Conservationist, County Agents, and planning consultants in advising landowners and others in the District.
5. Information useful to bankers and other lenders in evaluating financial needs and risks for recreation develop-

ments:

6. Information for developing regional and state outdoor recreation plans.
7. Identification of specific project proposals for public recreation areas;
8. Serve as guidelines to more efficient and profitable use of certain natural resources and thereby improve the economic status of individual landowners and the community;
9. Help meet the increasing demand of our people for wholesome outdoor recreation.

Mr. Willmon stated that a meeting will be held at the Bovina State Bank, March 16, 1967, at 7:00 p.m. to get the appraisal underway. All interested persons are invited to attend.

For an amazing time saver in cleaning tarnished silver, line the bottom of a large plastic or enamel pan with aluminum foil, pour in about two quarts of warm water, add two tablespoons each of salt and baking soda, and make sure each piece of silver touches the foil.

4-H PROJECT WORK- Is it Worthwhile?

How many eleven year old girls do you know that can stand up before an audience of 30 people and demonstrate and tell about the need for milk in the diet? That is exactly what Deborah Harding, a member of the Lucky Clover 4-H Club did in the 6th grade Science class recently. Not only does 4-H provide opportunities for girls and boys to participate by "learning to do by doing," but they develop self-confidence and this gives them a "head-start", over the ones that are not trained in project work. Parents would do well to investigate the 4-H work and encourage their children to participate.

NEW ORGANIZATION LEADER

Farwell 4-H Club has new Organizational Leaders, Mr. and Mrs. Doyle Green, who will take over the duties of this position in September. Mrs. Green will really be the leader and assisted by her husband when his time permits.

The Greens have a family of four boys and Mrs. Green like others with a family is a busy homemaker. She bakes all of their bread too. That's almost out of date in this day and time. Her schedule is a busy one but she feels that 4-H is worthwhile and puts this high on her list of priorities. The Farwell Club is fortunate to have the Greens to assume this leadership.

National 4-H week was observed by Farwell Lucky Clover this week. Food display needed in event of a disaster was featured. Eating a good basic diet to maintain good health during a disaster is important. These girls learn through their 4-H Food project work why certain groups of food are important to the proper growth and maintenance of the body. The display shows a balanced diet of foods needed. These girls of the Lucky Clo-

ver Club are to be commended for the display.

Another item of interest to 4-H member of food groups and their leaders is the date for the District Food Show. This has been set for Saturday, April 22nd, in the Canyon High School beginning at 9:30 a.m.

Both Junior and Senior County winners will participate in the District Contest.

Today's homemaker should be aware of the many new time labor saving appliances on the market. With solid electronic devices, Permanent Press materials call for new methods of washing and drying new clothes dryers now have controls on recent models for turning off the dryer based on actual moisture content of clothes preventing wrinkles.

CLOTHING AND GOOD LOOKS

"The concept of the total look has become firmly entrenched in women's fashion. Proportion and complete silhouette have been emphasized by designers."

This point was emphasized by Mildred Ryan, Director of McCalls Pattern Co. New York City in a meeting Thursday in Amarillo. Miss Ryan presented a most informative program to Extension Agents, Homemaking teachers and others on Line, Design and Color and clothing trends. Sewing techniques was also demonstrated.

The way we look tells people about us. Can they tell -- That you have good health? That you try to look nice? That they would like you? There is a total look appropriate for every occasion that casual look should be planned. Don't mistake "Casualness for sloppiness. Those huge rollers in your hair so often seen in public places belong in the privacy of ones home as does brushing of the teeth, which no one would think of doing in public places.

Another thought is worth considering. Do you know that proper applied line, design and color can take 10 lbs. off the overweight person simply by creating "optical illusions." This is a fact proven over and over. It does take knowledge of these tools and how they can apply to each individual figure, in order to achieve this effect. If one wants to improve appearance, look taller, shorter, fatter or slimmer, they should never miss an opportunity to attend educational programs where these things are demonstrated. The individual challenge then really becomes one of selecting the total look to emphasize personal assets and to be appropriate for each occasion.

CHARACTERISTICS OF THE TEXAS AGED:

The Aging population continues to increase rapidly. More attention will be focused on recreation, housing, health, medical and other consumer needs and on service for the aged.

A new publication "Characteristics of the Texas Aged," has been prepared by Dr. R.L. Skrabanek and other authorities of the Department of Agricultural Economics and Sociology is available from this office for those groups who are interested in programs on this subject or working in this area. The publication may be useful in giving direction for future work. Call your County Extension office 481-3619 and come by the office on the 2nd floor of the Parmer County Courthouse for information about the new publication.

DO YOU KNOW

Potatoes may be an overlooked choice for a reducing diet? A medium sized potato broiled or baked, contains about 100 calories.

This is about the same number of calories as in a large apple, orange or half grapefruit.

JUDGING WINNERS . . . Members of the Friona FFA chapter's livestock judging team are shown with a couple of the trophies they have won lately. In the back are Tommy Jarecki and Mike Riethmayer. Seated are Jay Potts and Jim Schlenker.

EYE-CATCHING—Water-repellent cotton twill in a bright shade of lime shapes a versatile coat for Maid of Cotton Georgia Pearce. Style details include a stand-up collar and A-line silhouette. By Ken Merritt for Braetn Juniors.

Judging Team Adds Two Honors To Collection

The Friona High School FFA chapter's livestock judging team added a couple of "scalps" to their collection of triumphs the past week, scoring triumphs in contests at Pampa and Clovis.

At Pampa March 7, the team, composed of Tommy Jarecki, Mike Riethmayer, James Schlenker, and Jay Potts, alternate, placed fourth in the "Top of Texas" livestock contests, among 47 teams entered.

At Clovis March 11 Jarecki, Riethmayer and Schlenker placed second in a swine-judging contest involving 24 teams.

This Saturday, the chapter's judging teams will be in action at an invitational judging meet at Sweetwater. In addition to the livestock team, others will

judge the dairy cattle, poultry, meats and land judges. It will mark the first competition for the latter teams.

Slagle Is Great Grandfather

Ty Warren Rutherford, who was born at 5:42 p.m. Saturday, in Neblitt Hospital, Canyon, March 4 is the great-grandson of Roy Slagle of Friona. His parents are Mr. and Mrs. Warren Rutherford.

Grandparents are Mr. and Mrs. Ted Rutherford of Amarillo, and Mrs. D.E. Huyck of Amarillo. Mr. and Mrs. Claude Rutherford of Amarillo, Mrs. O.A. Morris of Canadian and Slagle are the great-grandparents.

Farm Exposition Slated In Wisconsin

A three-day Farm materials Handling Exposition will be held in Green Bay, Wisconsin, on March 29, 30 and 31. The event will be sponsored by the Wisconsin Public Service Corporation in the interest of increased farm production per man-hour with the cooperation of the University of Wisconsin County Agricultural Extension Service. It is expected that over \$600,000 worth of materials handling equipment will be displayed. Included will be pipeline milking systems, bulk milk coolers, forage wagons, harvesters and blowers, barn cleaners, silo unloaders, bunk feeders, elevators, conveyors, feed processors, water systems, livestock waterers, ventilating systems, and other items that do the farm chores easier and faster.

DON'T MISS IT!

LIQUOR BY THE DRINK WILL NOT DECREASE ALCOHOL CONSUMPTION

Liquor interests are NOT interested in selling less liquor

With more availability, people will drink more

Liquor interests are interested in selling more liquor. If the saloon bill passes, the per capita consumption of liquor will go up.* People will drink more. Now, in Texas, one gallon of liquor is consumed each year for every man, woman and child in the state. Nearby states that have liquor by the drink, consume 80 per cent more per capita than do states that have bottle only sales.

According to statistics from Iowa, which has had a 17 per cent increase in alcohol sales each year since legalizing liquor by the drink in 1963, Texas could expect a 20 to 30 per cent increase in highway deaths. (Iowa's population has not increased.) At the minimum increase, Texas could expect 606 ADDITIONAL DEATHS the first year! For the liquor industry, and related businesses, liquor by the drink in Texas would mean more profits. But what about the innocent victims?

What can you do? Write your State Representative, your State Senator, and Governor Connally. It is in their hands. Let them hear from you. Ask them to oppose the saloon bill.

we're all dressed up for Easter

**Let's Take A
Pre-Season Peek At What
Fashionable Friona Will Be Wearing
This Easter.**

Hurst's

Mr. and Mrs. J.C. Beck have selected these outstanding Easter ensembles from Hurst's. Mrs. Beck is shown wearing a Donovan-Gaivani dacron knit in hot pink. Her white patent Connie shoes and Caron bag are chosen from the outstanding selection at Hurst's. Mrs. Beck also selected her hat of matching hot pink and white and her leather-look gloves from Hurst's wide array of accessories. Mr. Beck is modeling a Stylemart suit of a silk and wool blend in muted tones of blue and green. He selected his Wembley tie and Bradford Limited dress hat from the men's accessories available at Hurst's. Also available to the men are Royal Ace sport coats and hats both dress and western, and shoes by Freeman. In ladies wear such popular lines as Herman Marcus, Koret of California, Jo Hardin, and Tumbleseeds are available. And the discerning woman may choose from Connie and Jacqueline shoes. Many popular lines are also available for the youngsters at Hurst's, the family store.

Ruthie's

The family of Kenneth Neill made a trip to Ruthie's Ladies and Children's Wear to select their Easter costumes. Mrs. Neill is shown wearing a Cadillac Knit three-piece suit in royal blue and white, and she carries a black patent bag from Ruthie's. Daughter Susan chose a Nardis washable knit one-piece dress in gay spring orange. She carries a bone patent bag. They wear Sharon Hats and gloves by Boyce Lazrus, all chosen from the large selection of stylish accessories available at Ruthie's. Other styles available at Ruthie's are Justin McCarty, Ralph Original pants, Jane Colby Sportswear, Jo Jrs., and for the little girls sizes 1 to 14, Cate Frocks, Carl Classics and Shepherdess. Mike Neill, age 2, selected this handsome suit by Santone, from the little boys' department at Ruthie's and he wears a permanent press Dan River shirt.

Foster's

Mrs. John Humphrey and daughter Dodie are shown as they model some of the Easter finery available this season at Foster's. Mrs. Humphrey is ready for Spring in this Butte Knit 100% wool three-piece suit in yellow and white. She has chosen Miss Wonderful shoes in white Corfam patent, and a white crochet bag from Foster's, just right for any occasion. Her gloves are white cotton doekin by Grand. Petite Dodie Humphrey is ready for Easter in her Kate Greenway frock, chosen from the delightful selection at Foster's. Her dress is yellow with a white, pleated skirt to give a two-piece look and her double breasted yellow coat completes her costume. Dodie selected black patent weather-bird shoes with a matching black patent bag, all from Foster's. These are typical of the many lovely Easter outfits available at Foster's.

Engagements Announced

WEDDING PLANNED . . . Mrs. Earl Perry of Route 1, Honey Grove, Texas, has announced the engagement and approaching marriage of her daughter Nina Ruth, of 422 East Eighth Street, Dallas, to Larry Gene Stevick, 1007 North Zangs Blvd., Dallas. The couple will exchange wedding vows at First Baptist Church, Windom, Texas, April 7. The bride-elect is a graduate of Windom High School and is employed by John E. Mitchell Co. of Dallas. Stevick, who is a graduate of Friona High School, is the son of O.E. Stevick of Hereford and Mrs. Beatrice Stevick, Friona. He is a former student of Dallas Baptist College and is also employed by John E. Mitchell Co.

MAY WEDDING PLANNED . . . S.M. Sgt. and Mrs. Louis Brannon of Chanute Air Force Base, Rantoul, Illinois, are announcing the engagement and approaching marriage of their daughter, Cathrine Lee, to Richard Craig Tannahill, son of Mr. and Mrs. C.W. Tannahill of Friona. Both are students at West Texas State University in Canyon. The wedding will be Saturday, May 6 at 7:30 p.m. at Hill Memorial Chapel in Canyon. Invitations are not being mailed locally but friends of the couple are invited to attend.

Easter Hats Featured On Study Club Program

"Hats! Hats! Hats!" was the theme of the Tuesday evening meeting of Modern Study Club at Federated Club House. Mrs. Guy Latta served as program chairman. She was assisted by Mrs. Ernest Osborn. The musical quotation used was "In your Easter bonnet with all the frills upon it, you'll be the grandest lady in the Easter parade . . ."

Mrs. Osborn presented a history of the origin of women's hats entitled "Our Easter Bonnets." Hats in many colors and styles were on display. Some were for sale.

The opening prayer was led by Mrs. Fay Reeve. Guests were Mrs. Lee Witten, pianist,

Group Pictures To Be Made

Arrangements have been made for group pictures of classes in grade one through four to be made have been completed by members of Friona Young Homemakers. A photographer will be at the elementary school Friday, March 17.

Interested parties may purchase 5 X 8 colored pictures for \$1.00.

For further information you may contact a member of the club.

who accompanied Carol Reeve, soloist, as she sang, "Where Did You Get That Hat?"

Plate favors were miniature hats designed by Mrs. Mack Bainum, Dalhart, a former member of the club.

Hostesses, Mrs. Ernest Tannahill and Mrs. Fay Reeve, served refreshments to fifteen members and two guests.

Baby Girl Born To Local Couple

Mr. and Mrs. Bobby Fulks became parents of a baby girl at 1:14 a.m. Monday, March 13, at Parmer County Community Hospital. She was named Lisa Lea and weighed 6 lbs. 6 ozs. She is the first child for the couple.

Maternal grandparents are Mr. and Mrs. C.R. Brandon of Hereford, Paternal grandmother is Mrs. Agnes Fulks of Friona. Maternal great-grandparents are Mr. and Mrs. Claude Brandon of Roaring Springs and Mr. and Mrs. Joe Stephens of Matador.

Mrs. Ethel Fulks of Carnegie, Oklahoma, is the paternal-great-grandmother.

District Deputy Instructs Members

At the regular Monday evening meeting of the Rebekah Lodge at Oddfellows Hall a school of instruction was presented by Mrs. Roscoe Parr, special district deputy.

Plans were discussed for the convention, which will be held in Amarillo soon. Several members of the local lodge will appear on the program at the convention.

Twenty-one members were served refreshments during the social hour.

Class Meets In Ellis Home

The regular monthly business and social meeting of the L.L.L. Sunday School class of First Baptist Church was held in the home of Mrs. Bill Ellis Thursday evening with Mrs. Paul Coker as co-hostess.

Mrs. Ellis reviewed "The American Way of Death," by Jessica Milford.

Others present included the teacher of the class, Mrs. Ed Hicks, Mrs. Tommy Scales, Mrs. Clarence Monroe and Mrs. Sam Mears.

Refreshments were served during the social hour.

BRIDGE LESSONS . . . Mrs. Wilma Hall, who conducts a bridge class at Friona Country Club each Tuesday, is shown checking out the hand of Mrs. Calvin Talley, while Mrs. Mike Pavalus waits her turn. An average of seven tables are full each week. Experienced players are welcome to come out and just play for the day if they wish. Lessons continue through the first Tuesday in May.

Society Club Members Study Texas Personalities

O'Brians Visit Hodges Gardens

Hodges Gardens stems from a vast reforestation program and forest genetics research. Featuring a year around uninterrupted succession of bloom, the picturesque parkland of 4,700 acres includes formal gardens, natural scenic areas, a 225-acre lake, outdoor theater, bird sanctuary, wildlife refuge, gift shop and picnic grounds.

Mr. and Mrs. Kenneth O'Brian of Route 1, Friona, Texas, visited Hodges Gardens in the historic and colorful Land of El Camino Real in Western Louisiana and U.S. Highway 171 midway between Shreveport and Lake Charles recently.

Known as Louisiana's "Garden in the Forest," fabulous

Refreshments were served by the hostesses, Mrs. A.H. Boatman and Mrs. Mabelle Hartwell, to members present, the guest entertainers and Mrs. Andy Hurst, Friona, and Mrs. Joe Shields, Amarillo.

Mrs. John Bengert was elected delegate to the Caprock district convention to be held in Lubbock March 27 and 28. The alternate elected was Mrs. T.A. Sherley.

The meeting was closed with the pledge to the Texas flag directed by Mrs. H.C. Kendrick.

Mrs. Margaret Powell and Mrs. Opal Powell, both of Grady were weekend visitors in the home of Mr. and Mrs. R.E. Snead.

BY MRS. V.J. ZEMAN

Our salute of appreciation to the Friona City Council for their careful review of Friona Public Library's growth and for their belief that the library is a worthwhile service.

Continued volunteer work and donation of books and money will always be needed. Representatives of the library believe that support and use by individuals and organizations will continue and increase.

Mrs. Rosalyn Shamblin, Field Consultant for the State Library, outlined the help our local library can secure from the State Library. Included were annual loan of approximately 250 books, valued at about \$1,000., from the State Library, loan of 50 to 150 books from the Bookmobile for a shorter period, work shops to help the librarian and board members, inter-library service, and Mrs. Shamblin for consultation. The local library has been receiving the loan of books from the State Library and Bookmobile and Mrs. Shamblin's help.

Last week marked the first of the inter-library service. Larry Johnston wanted instructions for building a crystal

Friona

Three former Friona residents were highly congratulated in Wes Izzard's column in the Amarillo News Tuesday morning. Earl Smith, a former Friona High School football coach, has been managing director of Kids, Inc. several years. During this time he has started a Roundup Club.

Members of this club are couples who direct the Kids Inc. program in the neighborhood in which they live. Buddy and Phyllis Squires, parents of three sons, live in the west part of Amarillo and are responsible for activities in the Olsen-Park-Belmar area.

Mr. Izzard described all couples belonging to the club as dedicated. He further explained that the work went on week after week and year after year with no monetary compensation. The only pay received is the satisfaction of doing something for kids, for the neighborhoods and for the town.

Steven Thornton, son of the S.T. Thorntons of Hereford is a freshman at West Texas State University, Canyon and is a member of the college Symphonic Band. Recently the band made a tour which took them as far as Denver and Colorado Springs. The spring tour included appearances at high schools in Canyon, Amarillo, Lubbock and Dalhart, then at the junior college at Lamar, Colorado and at high schools in Limon and Denver.

Probably the high spot of the tour was an appearance at the Music Educators National Convention in Denver Friday. Another special event was a concert at the Broadmoor Hotel in Colorado Springs.

The Thorntons are former Friona residents.

Are you for or against legalized liquor by the drink in Texas? The saloon bill is now in the hands of Governor Connally and the state representatives and senators. Now is the time to study facts connected with the sale of liquor then write the governor and the congressmen and express your opinion.

After the bill has been signed it will be too late to voice your approval or objection. For correct addresses for the governor, representative or senator, check an ad in this week's issue of the Star.

Most of us have known many persons who seemed to be especially gifted in the art of getting things done by others. Then we have known others for whom it was a great big chore to get people to come to the table when a hot meal was ready to be served.

If you are in the latter category and would like to be in the former, read the following article then honestly evaluate your approach and perhaps you can come up with some improvement.

"Be a leader not a boss. Make your people want to do things for you. Know your subordinates. Help them to develop their skills. Help them to get ahead. Delegate to them, challenge their abilities, remembering to give authority along with responsibility for getting a job done."

School Menu To Open In Hereford

Monday: 20; corn dogs, lima beans, French fries, hot rolls and butter, cherry cobbler, milk

Tuesday: roast and gravy; potatoes, green beans, vegetable salad, coconut cake, hot rolls and butter, milk.

Wednesday: hamburgers, lettuce, tomatoes, pickles, onions, potato chips, cookies, milk.

Thursday: turkey and dressing, English peas, giblet gravy, cranberry sauce, strawberry shortcake, milk.

Be human. Admit your mistakes and learn from them, and show your people by example that you expect them to do the same. Praise often and in public for work well done; criticize constructively and in private.

Be interested in your people in their personal lives as well as their careers. Don't give commands, issue orders or otherwise act like a martinet. Lead by suggestions, and by example, not by fiat. Ask for their help, their suggestions and their cooperation, making it clear how this benefits everyone -- you, the company, themselves, the community.

Give credit to the man who carries it through. Give people a sense of self respect and personal importance and they will never let you down.

This item was lifted from Kerr Paper Company's newsletter, which always contains a lot of food for thought along with news of new products available. Two other brief items I enjoyed in the latest edition were: "If you don't intend to do anything about the problem, it's silly to worry about it; if you intend to solve it, worry isn't necessary," and "If the going seems easy, you're probably going downhill."

Plans have been completed for the opening of a Revisit Center in Hereford March 20. Guy M. Parrish, director of the Institutes for the Achievement of Human Potential of Texas, Inc., made the announcement of the official opening late last week.

Dr. Bruce G. Beene of Hereford, who is a brother of Friona's O.J. Beene and Dr. Bill Beene, will serve as medical director of the new center, which will be located directly west of the Deaf Smith County Courthouse.

Parrish stated, "The Revisit Center will be staffed by members of the parent institute from San Antonio until such time as a local person can be trained in Philadelphia."

As a branch of the San Antonio institute, the Revisit Center will be designed for treatment of brain damaged persons. "At the present time," said Parrish, "There are approximately 80 children in the general area who will be coming to the Hereford center for evaluation and programming. Many more families have expressed interest in placing their children on the program of rehabilitation now that the facility will be available here."

Three local persons, Jim Shelton, son of Mr. and Mrs. Tom Shelton; Chris Houlette, son of Mr. and Mrs. Dale Houlette; and Terry Thompson, son of Mr. and Mrs. Darrel Thompson, are currently enrolled in the program.

A group of Hereford citizens in an effort to get the center situated in Hereford, have raised about \$1200. Accounts have been set up in both Hereford banks and contributions may be made there.

Any interested person may contribute to this effort by depositing money in either of the Hereford banks or by sending it to Mr. and Mrs. Jack Brown,

Hereford. All inquiries relative to this new center at the present time should be directed to Mrs. Brown. Name for the center has tentatively been set as the IAHP of Hereford, Revisit Center.

Hospital Notes

ADMISSIONS: Mar. 6-13
Lillian Williams, Friona; Darrell Read, Bovina; Estella Loflin, Friona; Nelda Stone, Friona; Dewayne Bauer, Friona; Lupe Rando, Muleshoe; M.H. Carson, Bovina; Urah B. PUBLIC BUILDINGS

From ancient temples and medieval castles to office skyscrapers, public buildings have made use of stone. Thanks to its beauty, economy and durability, building stone has recently experienced a new surge of popularity among leading architects.

you can dry anything in an ELECTRIC dryer— (EVEN THE NEW PERMANENT PRESS MATERIALS)

and still **WALTZ** THROUGH WASHDAY

\$1500 Bonus Certificate

Every Public Service residential customer buying an electric clothes dryer now through April 29, 1967 from a Reddy Kilowatt Dealer will receive a \$15.00 certificate — and that's like drying 300 loads free.

Naturally, you wouldn't be drying a suit of ancient armor these days but you can dry the new permanent press materials in any electric clothes dryer. You can, in fact, dry anything that you wash in your electric washer. And, all it takes is a touch of your finger to the dial. No more lugging 8,000 pounds of wet wash out to the clothesline, every year.
