

PICKED BY AGGIES--Sharon Reeve, left, and Pat Myers, were chosen by the FFA boys as sweetheart and plowgirl respectively. Miss Reeve is a sophomore student in Friona

High School and Miss Myers is a senior student. Parents of the girls are Mrs. Fay Reeve and Mr. and Mrs. Charles Myers Jr.

Trustees Table Street Decision

Friona Schools' Board of Trustees tabled a motion that would dedicate streets around the school's property in southwest Friona at a Monday night meeting.

The property located in the Staley Addition, is a 27 acre block bordered by Grand and Etta Avenues. Dan Ethridge, who owns property adjoining the school property, presented a tentative plat of the area and requested the board act one way or another on the question of whether streets be dedicated around the plot.

City Manager Albert Field also attended the meeting to answer questions concerning the city.

Remainder of the session was concerned with routine business.

Ethridge, who is also tax collector, reported \$48,743.95 in taxes have been collected, including delinquent accounts.

Only \$243.45 are on the delinquent roll for this month. Another \$57,009 are delinquent for the year. Last year at this time, more taxes had been paid, Ethridge reported, but he indicated the difference isn't significant.

The board authorized payment of \$5146.40 in paving assessments for property on Grand and Frío Avenues. Payment will not be made however until irregularities connected with billing have been cleared.

Budget and bookkeeping particulars took up the remainder of the meeting. Superintendent Alton Farr reported that the football program showed about the same figures as last year.

Fleming Hired As Officer

Jack Fleming has joined the Friona Police Department replacing Ed Duke, who resigned to take a similar position at Hereford.

Fleming, has been on the police force at Azle for most of the past three years, and comes to Friona with "high recommendations."

Azle is a Fort Worth suburb. Fleming's family still live there and will join him here later.

"We are happy to have Jack on our force," Police Chief Ben Moorman said.

Fleming began his duties Monday night. Duke's resignation was effective the same day.

Horns Meet Groom

The Lazbuddie Longhorns, champions of District 2-B, will attempt to prolong their season Friday afternoon when they meet Groom in Canyon at Buffalo Stadium.

Groom is champion of District 1-B. The two teams will be battling for a chance to advance to Regional Playoffs against the winner of the Anton-New Deal game. Regional is as far as Class B teams can advance.

The Longhorns zipped through the recently-completed regular season with seven wins and only one loss. They were 4-0 in district play. John Bond and Bobby Crooks are Lazbuddie coaches. Lazbuddie fans will sit in the west stands of Buffalo Stadium from the 50 yard line north. Admission will be \$1 for adults and 25 cents for students.

NEW OFFICER SPEAKING -- Jack Fleming learns the equipment and surroundings he will have as a member of Friona Police Dept. He is shown speaking into the receiver of the radio transmitter.

Jaycees Will Meet Hereford

Another football contest between "has beens" is in the making.

Hereford Jaycees have challenged Friona Jaycees to a game and the Friona group decided at a Monday night meeting to accept the challenge.

Jaycees lost a game earlier in the year to the Little League Boosters.

The game will be played sometime within the next two weeks and proceeds will go to community projects. It hasn't been decided whether the game will be played here or at Hereford.

Jaycees also set a tentative date for the Junior Chamber of Commerce banquet on Dec. 17. Further details of the banquet will be discussed at a special meeting Monday night.

Meeting dates were also discussed last Monday night. Jaycee meeting nights are second and fourth Mondays. The discussion was to determine if there were other nights that would offer fewer conflicts.

Jaycee membership is open to young men between 21 and 31.

Church Work Begins

The Calvary Baptist Church has started construction of new educational unit which is to be used for the elementary and married young people departments.

Enrollment of Sunday School has grown to 197, which made it necessary to acquire more room.

The Building Contract was awarded to R. L. Fleming Construction of Friona. The contract calls for construction of a brick veneer 32x40 ft. unit to be finished in 9 days. The church hopes to occupy the unit by Jan. 1.

Four superintendents of the elementary departments, Mrs. Jackie Brown, Mrs. Charlie Howell, Mrs. Bill Sheehan, and Mrs. W. S. Crow, along with Connelly, have been elected as Furniture Committee to furnish the new building.

Dedicatory services are being planned upon completion of the new building, M. J. Stacy, Mrs. Cayson Jones, and Mrs. Elroy Wilson have been elected to plan the dedication service.

"PROJECT CHRISTMAS CARD"--

Hospital Will Receive Funds From Campaign

Preliminary steps have been completed and the Fifth Annual "Project Christmas Card" will be in full swing by the first

week after Thanksgiving. Modern Study Club and other civic organizations sponsor the event, which has contributors giving what they normally spend to buy Christmas cards to be sent locally.

The proceeds are donated to Parmer County Community Hospital.

Contributors have their names listed in a full-page Christmas greeting in the Christmas edition of The Star.

"We don't ask for contributions or make any personal contacts in an effort to raise money," a club woman who is working with the project said.

"This is not another campaign to get people to spend more money, but merely a plan to put funds ordinarily spent for local Christmas greetings to help our hospital."

Last year some 160 families contributed their local Christmas card money, and postage used to send them, to the fund and \$1057 was raised which went to the hospital.

Part of the funds joined with that raised by other sources was used to purchase a surgical lamp which the hospital needed.

In four previous campaigns, the program has raised \$5016. Dec. 17 is the deadline for having the contributions in The Star's mass Christmas greeting.

Members of the Modern Study

Club will erect posters and take care of other publicity details the week after Thanksgiving. Persons wishing to contribute

may do so by mailing or taking their checks to Friona State Bank for deposit in the "Project Christmas Card" account.

Early Star

Next week's Star will be published on Wednesday instead of Thursday.

The publication date has been moved up to allow for Thanksgiving Holiday and permit subscribers to get their paper before the holiday.

Advertising and news deadlines will be moved to Monday afternoon.

Lazbuddie Takes 2-B Grid Title

The Lazbuddie Longhorns were too wild for the Happy Cowboys Friday night, as they beat the visitors 26 to 6. Lazbuddie ended its regular season with a 7-1 record and a 4-0 conference record.

The win gave Lazbuddie the championship of District 2-B.

Lazbuddie's line opened up holes long enough for its speedy backs, Bradshaw, Savage, and Hardage, to break through for several nice runs. Bradshaw had three TDs for a total of 18 points, while Savage was picking up one and two points conversions for a total of eight. Jim Broadhurst was outstanding on defense, making 12 tackles, while Brantley and

Blaze Kills Sows, Pigs

Two sows and six pigs perished in a fire on the Floyd Schueler farm near the Rhea Community Tuesday afternoon.

A swine house was destroyed by the fire and all the animals inside were killed.

Firemen from Friona answered the alarm but were unable to save either the animals or the shed. Fire Chief Ruben Taylor said the fire apparently started from a light bulb being used to warm the pigs. It ignited bedding in the pens.

Break-In Attempt Fails At Farwell

An attempted break-in at Holiday Stores, Inc., at Farwell Sunday night proved fruitless, and the would-be burglar (or burglars) were successful only in damaging the back door of the business.

"They tried to force the back door open but couldn't make it," said Parmer County Sheriff Chas. Lovelace, who investigated the attempted break-in.

There were several burglaries in Clovis Sunday night and it is possible that the attempt in Farwell can be linked with the

Accidents Hurt One

Three wrecks, one Sunday and two Monday, sent a Latin American laborer to the hospital and caused about \$1200 damage to six vehicles involved.

Injured and treated at Parmer County Community Hospital was Nicholas Perez Corrolio. He was in satisfactory condition Tuesday and was expected to be released soon.

Corrolio was riding in a 1959 model pickup truck involved in a collision Monday morning with a 1956 sedan. Lawrence Wayne Garth was driver of the pickup and Kenneth Ray Ferguson was driving the sedan. The mishap occurred at Fifth

and Euclid Streets. The car was driving east on Fifth and the pickup was headed north on Euclid.

Another accident occurred just one block from that intersection Sunday afternoon when automobiles driven by Walter Lavern Mabry and Jack Jones collided at Sixth and Euclid. Damage in this collision was not extensive and no one was injured.

The last of the three wrecks occurred on South Main when a grain truck driven by Leona Ethel Wolfe was involved in a collision with an auto driven by Larry Drake.

FOOTBALL CONTEST--

Sqyres, Wilkins Tied For Cotton Bowl Trip

Buddy Sqyres and Waymon Wilkins swept past long-time leaders Phyllis Sqyres and Richard Hapke to deadlock for first place for the grand prize in the Cotton Bowl Football Contest.

Sqyres and Wilkins each had perfect entries and Sqyres took \$5 for first place prize money on the tie breaker, West Texas State vs New Mexico State game.

Terry Fields also had a perfect entry to take third place money.

With Sqyres and Wilkins in a dead heat two weeks before the contest closes, prospects of a tie for the grand prize looms as a likely possibility.

In case of a tie, the winner will be decided by a drawing. Hapke and Mrs. Sqyres slipped into a tie with John Renner for second place. All three have missed 24.

The contest last week was by no means a push-over. At least three underdogs came out winners as most high school races came down to the wire.

College game schedules will draw to a close next week, and the contest will end after next week's round and the winner will be announced in the Dec. 1 issue of The Star.

FIRST TRY, FIRST PRIZE -- Mrs. Ethel Mingsu entered the Cotton Bowl Football Contest week before last for the first time. She won a first prize and a check for \$5. She said she would probably enter again.

Vern's Views

Last Monday night, we had the pleasure of attending our first city council meeting in Friona.

I was impressed by the way business was handled. Maybe I was so impressed I forgot to keep up with what was going on. Anyway there was a mistake in the story telling of the meeting.

For all citizens who are getting set for an increase in their water bills, remove the thought from your minds and let this department correct the error.

The story said that "City Manager Albert Field was instructed to draft a resolution abolishing the installation fee for oversized water meters. To cover the extra cost of the meter, a high minimum water bill will be established."

Actually, the higher minimum for oversized meters has already been in effect for years and it will NOT be increased. The council only voted to eliminate the installation fee and that was that.

We poor Texans will have to go through another election now to pick a successor to Senator Lyndon Johnson.

We must think the vice-president-elect is worth a lot to this state since we are willing to put up a million dollars or two in tax money to assure that Johnson gets to Washington one way or another.

I don't know exactly how much the senatorial election will cost, but I do feel it will cost too much. I didn't hear of Dick Nixon running for anything but president, and that poor guy is completely out of a job now.

But he won't for long and I'll wager Lyndon could have found something to occupy his brilliant mind if he would have been brave and only sought one job at a time.

They are already talking about a successor for Johnson. We remember when Price Daniel resigned his senate post to run for governor. One Bill Blakely was appointed to fill out his term. Why don't we send Blakely back to Washington until we can have a regular election. At least maybe he wouldn't be out running for something else and trying to hold that job at the same time.

But here is the worst part of calling a special election; with some of the Republicans

"WEST MISSED CHANCE"--

Lions Hear Refugee Tell Of Youth Revolt

"The Western World missed its chance to help peoples behind the Iron Curtain when it refused to send help to Hungary during the revolution," Geza Krepelka told Friona Lions Thursday night.

The young former student leader of the bloody revolution crushed in 1956 said Russia was not ready for a full-scale war at that time and would probably have let countries such as Rumania, Poland and Hungary out from under communist domination.

Krepelka escaped from his homeland following the revolt and found political asylum in the United States. He is currently employed in Amarillo as

Drive Set For Nov. 29

In less than two weeks, the United Fund For Friona and area will begin its one-day campaign to accumulate funds to meet health, recreation and welfare needs of this community.

The drive will last but one day, during which time, Frionans can give once and for all without having to be bothered with later campaigns that sometimes become so numerous and frequent that they heckle the would-be contributor and turn him against fund-raising in general.

The united approach eliminates duplication in agency services through centralized budgeting and a cooperative community organization approach to needs and services. It reduces the cost of fund raising by consolidating the costs of many appeals in a single operation.

The plan also provides a method of fair

distribution of funds to local and national agencies as determined by a local group of directors.

Friona's fund goal is \$5000, which sounds like a large sum to be accumulated in one campaign. But when the budget is broken down and studied, it reveals that actually less money will be taken in the one drive than would be taken in a series of campaigns for separate particular purposes.

Every need from Boy Scout support to funds for use in time of emergency will be taken care of on Nov. 29. It will be a one-day drive and after it is over, Frionans can feel they have done their part and won't have to be answering the door numerous times to tell solicitors that they have already contributed for every thing.

Care For A Degree?

In the closing days of the recent campaign, Senator John Kennedy promised that if he were elected, he would work for a system of aid and scholarships that would insure every qualified American a college education.

The people of the United States saw fit to choose Kennedy as their executive leader either ignoring or accepting his wild promise of giving everyone a degree.

As the college situation now stands, anyone who wants a college education had enough can earn one regardless of his economic background, if he has moderate intelligence, and isn't afraid of work, he can earn his way through school and when he is finished, he will have something he appreciates instead of a gift from Washington.

Standards in most colleges are low enough now to enable practically anyone who has finished high school to get some kind of a degree, Kennedy's promise therefore means that after the taxpayer has spent millions putting a crop of youngsters through elementary and high school, his load is apt to become heavier instead of lighter because he will have to support these kids four more years while they are being given something he had to work for if he got one at all.

Rich kids and poor kids will have the same opportunity in college under Kennedy's plan but, is there anything good about this?

It won't mean that the poor kids will do any better in school. It will mean that they will have more time for beer busts and social clubs. It will also mean that the owner of the corner drug will have to look beyond the campus to find someone to jerk sodas since the college kids will have plenty of handouts from Uncle Sam and won't need to work anymore.

The large student work force formerly employed in the summer will no longer be available since all the kids will have next year's school money waiting for them in a Washington vault.

Surely since Mr. Kennedy is going to give everyone a college education, he can figure some way to give everyone that goes to college one of those sleek red sports cars so all the male students will have the same opportunity to marry into a wealthy family. On the other hand, if the conservatives don't stop our new president, there may be no such thing as wealthy families.

Squaws Win; Chiefs Lose

Friona basketball teams split a doubleheader with Bovina here Tuesday night, with the Squaws winning 53-26 and the Chiefs dropping a 22-23 decision.

The boys game was a rough affair, with roughness keeping the scoring of both teams low.

Roger Ezell led the visiting Mustangs with eight points. Gary Sneed and Bobby Daniels also had eight for the Chiefs to pace the home team.

The Squaws, opening defense of their regional title and runner-up spot won last year, swamped the Phillies. Tommy Lewellen threw in 21 points for the winners and Pamela Roden had 16.

Jimmette McClain and Eleanor Dodson paced the defense for the Squaws.

Bovina was led by the 12 point barrage of Kay Looney.

Modern Study Club Met Tuesday

The Modern Study Club met Tuesday evening for the program "Don't Grow Old; Grow Up." Mrs. Mack Bainum and Mrs. Guy Latta used Dorothy Carnegie's book of the same title for their skit, "Life in a Capsule."

Mrs. Wesley Foster read a Thanksgiving poem for the meditation, and Mrs. Dan Ethridge introduced the program by giving high lights from the two years she was president of the club, 1948-1950.

During the business, plans were announced for the pre-Thanksgiving bake sale Saturday, Nov. 19, at the Ethridge-Spring agency. Christmas gifts for patients of Texas State Hospital at Wichita Falls are to be brought to the next club meeting, December 6.

Community service committee reported promotion of Project Christmas Cards. They will also prepare and serve the kick-off breakfast, Nov. 29, to workers for the United Fund Drive.

The collect, repeated in unison, closed the meeting. Hostesses, Mrs. Alton Farr and Mrs. Glenn Reeve Sr., served refreshments to twenty members.

Ag Boys Compete Saturday

Three teams of Friona FFA boys will seek honors at the district level in a District Contest at Muleshoe Saturday.

Determining team members was apparently a difficult job and at last report instructors J. C. Lane and David McVey were conducting further tests in an attempt to pick the top talent.

Last year the Friona chapter brought back two second places from the contest and the teams that won the two firsts went on to win state.

Contests the boys will enter are Junior Farm Skills, Senior Farm Skills, and Radio Broadcasting.

McVey and Lane will accompany the teams.

Mrs. Cordie Potts, president, presided at the business session held.

Each member brought a gift that could be made for Christmas with the pattern for exchange.

Mrs. Elmo Dean, hostess, served refreshments to the group.

Present were: Malinda Schlenker, Velma Schlenker, Nat Martensen, Sue Smith, Dorothy Bauer, Martha Schueler, Gay Taylor, Ona Patterson, Helen Potts, and the guests Mrs. Wesley Hardesty and Mrs. J. D. Sanders.

Sue Smith will give the demonstration on "Interior Decoration" at the next meeting. The meeting will be in the home of Mrs. Franklin Bauer.

RHEA LADIES AID MEETS

Mrs. Raymond Schueler, new president for '60-'61, presided at the regular business session of the Rhea Ladies Aid, which was held at the Parish Hall Thursday. It was decided to have the annual Christmas Social at our next regular meeting in December.

Each member is to put \$1.00 on the tree rather than a gift. This will be sent to a home for retarded children. The birthday money collected during the year will also be added to this contribution.

The annual Thanksgiving dinner usually sponsored by the Ladies Aid will not be held this year since many members will be going elsewhere on vacations.

Alma Goetz gave an interesting topic reading. Refreshments were served to the group by Mrs. Melvin Sachs.

Mr. and Mrs. Walter Schueler and children, Mr. and Mrs. Raymond Schueler and family, the Robert Schuelers, the Herbert Schuelers, Mr. and Mrs. Ray Martensen and Mr. and Mrs. Leland Gustin attended the dedication services Sunday of the new Lutheran Church in Clovis.

Mr. and Mrs. Shirley Smith and Shirley Lynn visited in Portales Sunday. Mrs. John Guyer of Farwell visited with Mrs. Malinda Schlenker Friday. Mrs. Bill Nazworth of Friona visited in the Billy Sifford home Sunday afternoon.

Cummings Now Offers Bulk Tank Delivery

A new bulk tank delivery truck is now on hand. It is being used in a Purina Feeding Demonstration sponsored by Cummings Farm Store in the same manner it is available to farmers who are also feeding livestock.

The truck takes the ration to feed pens where the calves being used in the demonstration are located. It distributes the feed in self feeders.

Farmers can bring their grain to Cummings for storage and have their cattle fed in the same convenient manner.

MAKING ANOTHER TRIP--The bulk tank delivery truck is about ready to haul out another load of feed to a local feeding operation. The truck makes it possible for livestock feeders to feed their animals without leaving the house. 9111 is the number to call for arrangements.

Club Program Theme Is "A Date With Nobel"

"Nobel Year" tires look like trouble ahead.

The Progressive Study Club met Tuesday, November 8, at the club house for a regular meeting. The program theme for the evening was "A Date With Nobel"

Opening prayer was by Mrs. Homer Lindeman. The members answered roll call with "Prize Won."

Mrs. W. S. Bengé gave the history of the Nobel prize. Presenting different types of winners were Mrs. Sam Green, Literature; Mrs. Martell LeVeque, Peace; Mrs. Billy Joe Mercer, Physics and Chemistry and Mrs. Tom Pruett, Medicine.

Mrs. Frank Spring and Mrs. Sloan Osborn, guests, spoke to the group about the Modern Study Club's Project Christmas

Card. Other guests were Mrs. Philip Weatherly and Mrs. Clyde Fields.

During the business session, Mrs. Bob Riethmayer, finance chairman, reported that the Christmas card coffee and bazaar were very successful. Mrs. Lee Spring and Mrs. Bill Nichols were hostesses.

A distinguished pianist was performing in a college auditorium, when a telephone began ringing in a nearby office. He ignored the persistent ringing, but the audience began to squirm. J. C. Lane and David McVey attended the Littlefield District of Vocational Agriculture Teachers meeting at Lazbuddie, November 9.

Scottie Windham was in charge of the program and W. W. Hall, Littlefield agriculture teacher, was chairman.

Representatives from Southwestern Public Service were present and explained how the FFA chapter electric contest would be sponsored.

Others on the program were W. A. Marshall of Austin, who

discussed the importance of supervised farming; and Walter Labay, Plainview, told the agriculture teachers what must be done to improve local programs.

A city boy on a night hike in the Rocky Mountains inquired of the guide, "Is it true a grizzly won't attack you if you're carrying a flashlight?" "That depends," said the guide "on how fast you're carrying it."

Brownie Troop 93 Relates Fall Program Activities

The theme of the fall program of Brownie Troop 93 has been "Nature" during the months of October and November. They established a secret meeting room and wish to express their appreciation to the owner for letting them use this place for their activities.

October 10, the group met and investigated the new room, made their wood piles, raked and cleaned the area.

On October 17, they started the patrol system of troop government, with patrol leaders and their assistants serving six weeks. Each girl will have the experience of leading a patrol during the year. The adult leaders Mrs. C. L. Lillard, Mrs. Bob Riethmayer and Mrs. Watson Whaley will be counselors for the troop. The patrol leaders and an adult counsel or plan the programs at the Court of Honor each meeting.

The troop gathered autumn leaves and caught butterflies and made pretty nature plaques with them. They also planted golden daffodils at their regular troop meeting place, the 6th Street Church of Christ, in observation of the Golden anniversary of Girl Scouting in 1960-61 and 1962.

On October 31 the troop with their mothers observed their second troop birthday and the 100th birthday of Mrs. Juliette Gordon Low, the founder of Girl Scouting. Mrs. C. L. Vestal Jr. spoke to the group on the Life and Works of Juliette Low. Mrs. C. L. Lillard presented membership cards to the Brownies, leaders and troop committee members.

November 14, Mrs. Joe Fallwell spoke to the girls on Personal Health, and they made

The quickest way to get a lot of undivided attention is to make a mistake.

Mr. Brown read the erroneous report of his death in the paper. Excitedly he called the office and asked to talk to his boss, "Did you see this morning's paper?" he shouted into the phone.

"Yes," replied the boss, "Where are you calling from?"

Kolvwvia Circle Met Wednesday

The Kolvwvia Circle met Wednesday, Nov. 9, in the home of Mrs. Clyde Fields.

A brief business meeting was held. Mrs. George A. Jones conducted the study "Into All the World Together."

Attending were Mesdames Eugene Ellis, U. S. Akens, W. M. Stewart, Newman Jarrell Jr., George A. Jones, J. G. McFarland, R. W. Ginsburg, Wayne Jones, J. L. Shaffer, C. L. Vestal and the hostess.

has hurt the communists because about 10,000 of them were engineers and intellectual individuals of the nation." Hungary, which was a kingdom until 1944, went under the Iron Curtain following World War II. It has a population of 18 million. About a half million persons were killed or taken to Russian labor camps after the revolt was suppressed.

Krepelka said the communist first started taking control of the country by assuming control of mines, the postal system

several successful ones in Clovis, the sheriff says.

In other activity for the sheriff's department this past week, Bill Morgan, newly-appointed deputy at Friona arrested F. L. Adams, a 20-year-old Negro for theft. He was picked up last Wednesday and charged with stealing tires from the Deaton Service Station in Friona.

Adams was tried Friday morning by County Judge Loyde Brewer and was sentenced to 15 days in jail and fined \$20.

and utilities. Soon the last trace of private enterprise was eliminated.

The revolution began as an unplanned demonstration. Some 2,000 students of the college Krepelka was attending had an outdoor meeting that lasted until 4 a. m. in Budapest. The students discussed ways to gain some liberties, including the right to hold free elections.

The group decided to make a silent demonstration at the statue of a Polish leader since a small rebellion in Poland had recently been crushed.

About 20,000 of the students started to the statue, but before they reached it, 250,000 persons joined the march and began chanting "Russians go home." The mob marched to a radio station where they continued to chant. It was at this point that Russian soldiers began firing at the group.

The shooting convinced members of the demonstration that the time had come to fight and they raided supply centers to get guns.

Russian soldiers with 500 tanks were sent to eliminate the revolters in bloody door-to-door fighting.

About 15,000 Hungarians were

killed. Krepelka says most of them were in their teens or early twenties. Another 150,000 were taken to concentration camps.

Krepelka's family still lives in Hungary. His father holds medical and law degrees and has been given a job sweeping factories by the Communists.

His wife's father was a supermarket operator until capitalist were eliminated. Now he has no income except charity sent from outside the country, mostly by his daughter and son-in-law.

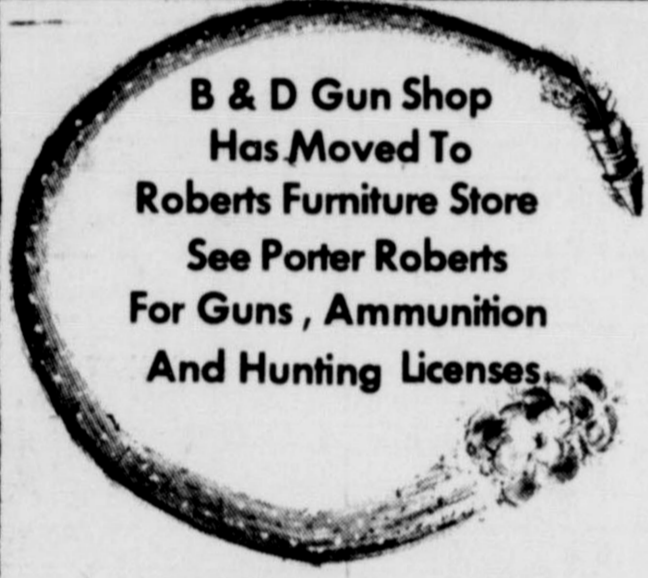

"It is too late now to do what we could have done in 1956," the refugee said. "He (Russia) is ready for war now."

Krepelka will receive his United States Citizenship in about 14 months. After that, he hopes his mother can come from Hungary to this country.

He said old persons who can no longer work can easily leave Iron Curtain countries. His father, however, refuses to leave his homeland, saying he is too old to establish himself in a new land.

Following the talk, Friona Lions gave a donation to the young man for food and aid to be sent to Hungary.

Frank L. Spring Has Unique Experience

Frank Lewis Spring, son of Mr. and Mrs. Frank A. Spring of Friona and a senior at St. Stephens Episcopal School at Austin, had a very unusual experience during his summer vacation. He spent seven weeks on an Indian reservation near Lame Deer, Mont.

During this seven weeks nineteen high school students from the United States, France and Germany worked in a summer work camp sponsored by the American Friends Service Committee. This committee is an affiliate of an organization known as Religion of Friends, better known to the general public as Quakers.

These high school students

came from California, Louisiana, New York, Pennsylvania, Iowa, Michigan and Massachusetts and the two foreign countries already mentioned. Frank Lewis was the only Texan in the group.

Religions represented in this group of boys and girls were Methodist, Church of the Brethren, Quaker, Jewish and Roman Catholic. Spring stated that due to the large number of religions present it was impossible to hold any kind of church service in the camp.

Each day began with a 20 minute silent meditation. Quaker meditation services were held on Sunday but attendance was not mandatory.

The American Friends Service Committee has very little money to work with and most of the labor is voluntary. Directors of the work camp were Dan and Audrey Dibble of Pullman, Wash. He was a high school teacher and she was a university instructor at Washington State University. Brent Barksdale, a graduate of Stanford University at Los Angeles, was the boys' counselor.

Dea Kinsey, a graduate of Oberlin College at Oberlin, Ohio, was the girls counselor. The other assistant was Mary McDermitt, who held a bachelor's degree from Ohio State University and a masters degree from Columbia University, is currently studying for her doctor's degree at Heidelberg, Germany.

Each work camper paid his own transportation and fee for participating in the work project. It was difficult for the Indians to understand why anyone would be willing to spend his own money and work for better living conditions of other human beings.

During the time the high school students were at Lame Deer, a quonset building was constructed to be used as a community center and meeting house for the Tribal Council of the North Cheyenne Indians. Other chores included sanitation work, such as spraying with insecticides and teaching preventative measures.

Principal idea of the entire project is teaching, aiding and encouraging the Indians to do things for themselves and thus better their way of life.

Only churches at Lame Deer are Catholic and Mennonite. Many Indians are members of the native American church, according to Spring. He states that the native American church is not a Christian organization. It is named for the narcotic drug, Peyote, which comes from the mescal plant.

Use of this narcotic, which is outlawed in many states, gives the user ecstatic visions. The Indians meet together in a teepee which holds about 30 people and hold all night Peyote meetings. During the meeting, the participants take Peyote, chant and say prayers for sick relatives and friends.

Each meeting is ended with a feast the following afternoon. One man sponsors each meeting and the women prepare the feasts. Meetings are held regularly every two weeks of each month.

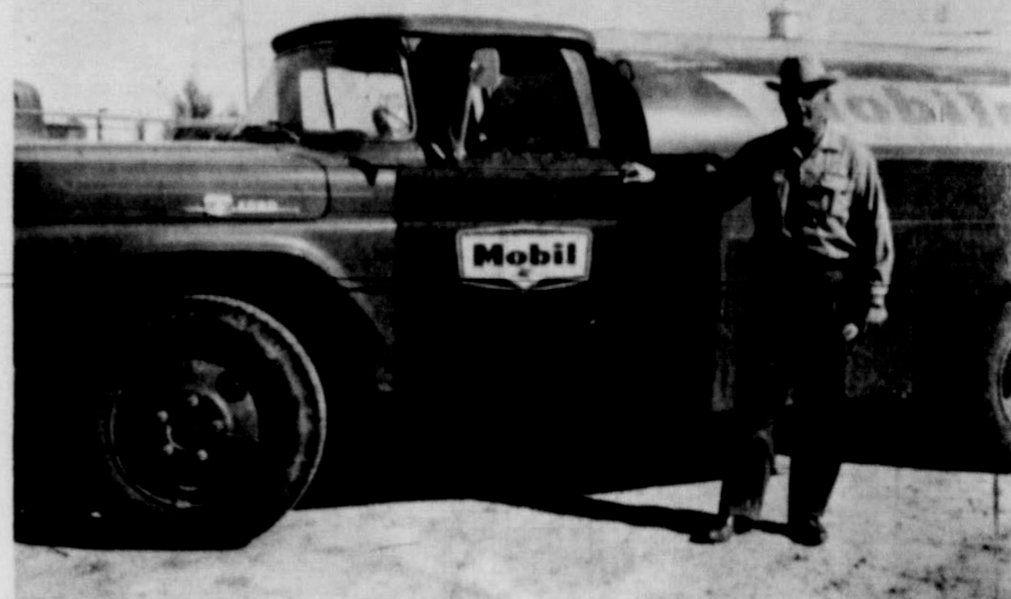

Health problems among the Indians are many. The tuberculosis rate is high and many of them believe that Peyote cures this dreaded disease. There is a government hospital where a doctor visits three times each week. There is also a public health nurse.

Medicine men and women are numerous and due to the ignorance of most of the people they present a problem. Poverty is another major problem of those people.

Each Cheyenne adult has 160 acres allotted to him by the government, but they are unable to live off this land, so they lease it out and draw relief checks. They also receive small checks from the government.

Many of the younger Indian men work in the forests during fire-fighting season and then spend all the money they earn for alcoholic beverages. Alcoholism is another major problem.

Spring summed his experience up in these words: "The summer for me was most rewarding. Besides feeling that something worthwhile was accomplished, I learned what a

complex situation the Indian problem is and a great deal about some phases of sociology from this study of Indians.

In general, I had a great time. The work campers were real nice intelligent kids and we had a lot of fun playing baseball and other games with the Indians and enjoying our own music."

"Advice is a poor substitute for example."

Phone with the built-in switchboard

Here's a phone designed to play a big role in business offices. Right in this single instrument are all the conveniences of a telephone switchboard. Six push buttons give you complete control over all incoming and outgoing calls. You can select any of five lines - talk on one while holding calls on others - "buzz" your secretary - or use the phone as an office intercom. Lights in the buttons tell you which lines are busy, which are free.

Our "phone with the built-in switchboard" is another example of how General Telephone works to make the telephone a more convenient and valuable instrument of communications for everyone. Call or visit our Business Office and learn how little it costs to have the "switchboard" service of a push-button phone.

Something To Think About
6th. Street Church of Christ
Box 515 -- Friona, Texas

It is only natural for man to take pride in his religious convictions. The man who has no conviction is in a miserable state, and is of little value to his God or himself. However, the fact that one has conviction does not necessarily mean that the thing he professes is always right. The fact that it seems right to us is no assurance that it is right.

"There is a way that seemeth right to a man but the end thereof are the ways of death." (Prov. 14:12) The devil's greatest victory is not in causing us to commit sin, but in causing us to stubbornly refuse to admit our sins. There is only hope for the man who is willing to admit his error, and then take the necessary steps to correct that error. Every case of New Testament conversion is centered around one who found that he was in error, and was willing to correct that error by rendering obedience to the commands of Christ. And, most of them were already religious.

The eunuch, Cornelius, Lydia, Saul of Tarsus, each of them had very definite convictions and was affiliated with a religious body. If Judaism was as good as Christianity, why change? Because they learned that Christianity, not Judaism, was the way of life set forth in the gospel. The old law had been nailed to the cross (Col. 3:14) and the gospel was God's power unto salvation. (Rom. 1:12) Only the truth will make us free.

Complete Peace Of Mind And Freedom From Worry Are Gifts Reserved For Youth. Each Of Us Can Approach These Gifts By Regular, Active Church Participation.

An old legend tells of two angels sent to our world to collect the prayers of mankind. The first one returned loaded with petitions and complaints. The second one carried in his basket a few expressions of thanks and gratitude.

This illustrates the tendency prevailing in our world. People are more inclined to complain than to rejoice and give thanks.

We have good reasons to rejoice evermore and give thanks always, for God has bestowed upon us unspeakable gifts and bounteous blessings. We can thank Him for all things beautiful, good, and true. We can thank Him for the light and air, and "for the eyes that see the unseen, and ears that hear the heavenly harmonies." Above all, we can rejoice and give thanks for His supreme token of love manifested in human flesh in the persons of Jesus.

THINGS ARE BUZZIN' DOWN ON THE FARM

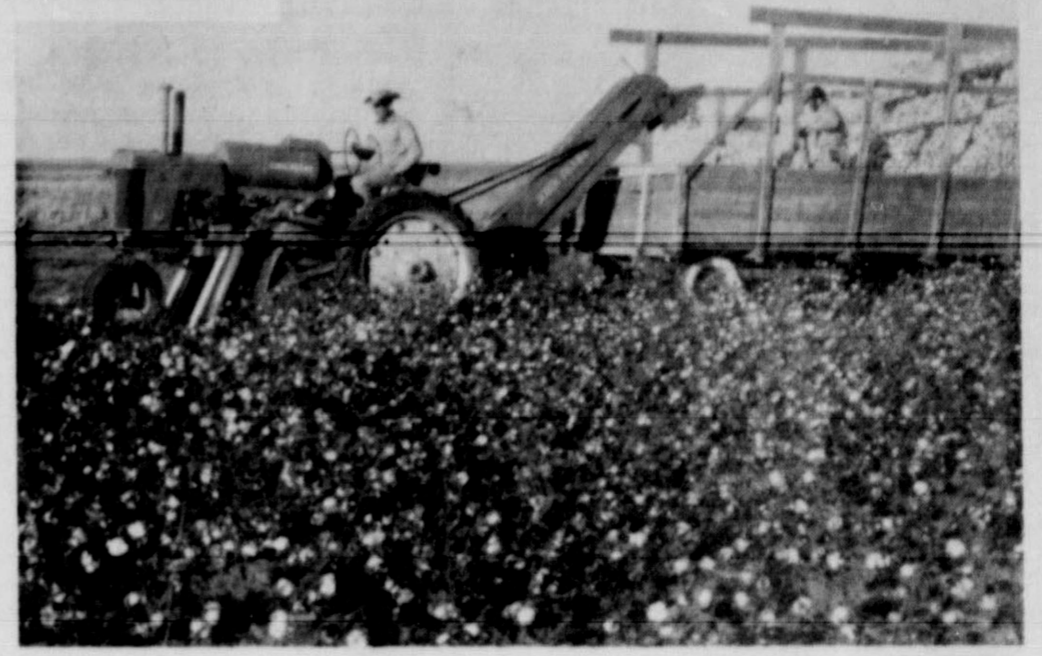

The fall season is a busy time of year for the High Plains farmer. Not only is he in the midst of harvesting his milo, but it's also time to start gathering the cotton, and to harvest fields of sesame, castor beans and other minor cash crops.

In an effort to find out just what was taking place throughout Farmer County, a High Plains Farm and Home photog-

rapher took off one day this week, stopping to shoot pictures of the different activities he saw.

Mostly, he found that the farmer was doing one of four things--either stripping his cotton, combining his milo, shredding the stubble remaining after the heads had been clipped from the field, or plowing the ground in preparation for another crop.

JUST GETTING STARTED IS THE cotton here, and near the Hub community a farmer speeds through a field, stripping the plants of all their nice white, fluffy fruit. In spite of adverse weather conditions during much of the growing season, there are still going to be some good yields of cotton.

DRIVING ALONG SIDE a combine on the M. F. Carson farm near Bovina is this truck, relieving the combine of its bin load of grain. Hail took its toll of grain sorghum, but there is still a lot of grain being harvested. Lodging was a problem in this field and the header had to be lowered, thus slowing down the operation of the combine.

LENDING A HELPING HAND is Gaylen, four-year old son of Mr. and Mrs. M. F. Carson, who farms north of Bovina. After the grain is dumped into the truck it has to be leveled, to assure a maximum load before it is hauled off to the elevator. It's a tough job for a small boy, but Gaylen shows that he can take a part in the harvest too.

We stand for local leadership in doing this job, a job that becomes more urgent every day. As our population grows at the rate of a quarter of a million people a month, and our cities and industries expand, we demand more from our land. We are cutting in our good farm land for non-agricultural uses at the rate of 1,000,000 acres a year. This land goes into urban developments, airports, highways and other uses where it is lost for production of food or fiber.

Just because our land produces enough for our 180 million people in 1960 is no assurance it can provide abundantly for an expected 225 million or more in 1975 or in possible emergencies meanwhile--unless the farm land is kept in condition to produce what is needed, efficiently and economically. That means keeping our land permanently productive.

We cannot afford to let our soil and water conservation "insurance" lapse. Combatting soil erosion and encouraging good land use is a job Soil Conservation Districts can do well. Why? Because from the very beginning, Americans have fought for great principle--the principle that free men can govern themselves successfully. We believe in personal liberty and the dignity of the individual. We are determined that our families shall have the opportunity to live in peace and safety, without fear of compulsion.

Our government is founded on the principle that we--all of us--have the right and the ability to decide for ourselves the actions we want to take together in our joint interest and common welfare. This is what we stand for.

This is a representative self-government--the best government and the best society that men and women have ever enjoyed on Earth. This is the kind of government and society that offers the greatest advantages in personal liberty and the greatest opportunities for accomplishment.

State Acreage Cotton Allotments Announced

College Station.--The U. S. Department of Agriculture has announced state acreage allotments for the 1961 crops of upland and extra long staple cottons.

The upland allotment for Texas was set at 7,849,196 acres which includes 10,686 acres as the state's share of the national reserve. The Agricultural Act of 1958 authorizes a national acreage reserve of 310,000 acres for apportionment among the states on the basis of the estimated needs for additional acreage to establish minimum farm allot-

ments as provided by legislation.

The extra long staple acreage allotment for Texas was set at 21,893 acres out of the national allotment of 63,740 acres.

The state allotment will be apportioned among the counties to establish county allotments and these will be further broken down among the individual farms of the counties in accordance with the provisions of the law and regulations issued by the secretary of agriculture.

Farmers who were engaged in the production of cotton will vote in a national referendum on December 13 to determine whether marketing quotas will be operative for the 1961 crops--upland and extra long staple. At least two-thirds of those voting must approve quotas if they are to continue in effect.

Only one allotment-price support program will be available to upland cotton growers for 1961. If marketing quotas are approved in the referendum, price support will be available to upland growers who comply with their farm allotments at a level within the range of 70 to 90 percent of parity. The exact level of support will be announced at a later date.

If quotas are not approved, allotments will remain in effect and price support at 50 percent of parity will be available to upland growers who comply with the allotment program.

The USDA announcement noted that farm acreage allotments will be mailed to operators of cotton farms prior to the December 13 referendum.

Farmer County farmers should be notified of their allotments by December 1, says Prentice Mills, manager of the county ASC office. He estimates that the total acreage increase in the county will be 10 or 11 per cent above last year's allotments.

COTTON TRAILERS ARE ON THE ROADS throughout the area, loaded down with the fruits of the harvest, and they all suddenly congregate at the gins. As the harvest begins in earnest, ginners find themselves swamped with trailers such as these and are having to work around the clock.

TWO COMBINES GET THE JOB DONE TWICE AS FAST and that's the situation in many fields where farmers are in a hurry to get their maize cut and into the elevators.

Dr. L. S. Bird, one of the nation's top research workers on cotton diseases, will be the featured speaker at the Plant Disease Short Course, to be held November 21-22 in Texas A&M's Memorial Student Center. Another special feature will be an exhibit of plant disease control equipment. This is the second year that the Short Course, which is coordinated by the Texas A&M Department of Plant Physiology and Pathology, has been held.

Within the next few weeks many of us will be making gifts for friends and relatives for the approaching holiday season. The nicest thing about making gifts for those near and dear to us is that we put a part of ourselves into the gifts and in return receive much more pleasure from the giving than if we just go out and buy gifts.

sewing machine or on a work table with dried weeds, left over garden products, cotton burs, maize heads and grains of corn. A very pretty winter bouquet at the Floyd home was made by Susan, youngest member of the family, at a Brownie meeting Monday afternoon. The container is a coffee can that has been sprayed with gold paint. All the other articles were gathered up along the roadside or in the field and garden.

Some of the prettiest improvised flower vases we've seen recently have been made from plastic liquid soap containers. All that needs to be done is to cut scalloped edges near the top of the containers with manicure scissors. The ones we've seen have been pink, aqua and white. Possibly there are other products on the market that come in re-usable plastic containers, too.

Since cookies and candy are year around favorites with most homemakers, we've decided to share our favorite cookie recipe with our readers.

This is the first oatmeal cookie recipe we had ever tried that called for molasses. We used white Karo syrup and the cookies were very crisp and chewy.

RAISIN OATMEAL COOKIES

- 1/2 cup shortening
 - 1 1/4 cups sugar
 - 1/2 cup molasses
 - 2 eggs
 - 1 3/4 cups sifted flour
 - 1 teaspoon salt
 - 1 teaspoon soda
 - 1 teaspoon cinnamon
 - 2 cups rolled oats
 - 1 1/2 cups raisins
- Beat together shortening, sugar, molasses and eggs. Sift dry ingredients and combine with creamed mixture. Add raisins and oats. Shape in roll and wrap in waxed paper. Chill. Slice and bake in 375 degree oven 8-10 minutes. Remove from tray and let cool thoroughly before storing.

If you, like a lot of other homemakers, dislike dropping cookies on a sheet, you will probably enjoy using the following recipe.

COCONUT BARS

- 1/2 cup butter or other shortening
 - 2 eggs, unbeaten
 - 1/4 cup milk
 - 1 1/2 cups sifted flour
 - 1 1/2 teaspoons double-acting baking powder
 - 1 teaspoon ground cinnamon
 - 1/4 teaspoon ground cloves
 - 1/4 teaspoon allspice
 - 1/4 teaspoon ground nutmeg
 - 1/4 teaspoon ground ginger
 - 1/4 teaspoon salt
 - 1 cup sugar
 - 1 teaspoon vanilla
 - 1 1/3 cups coconut
- Have shortening, eggs and milk at room temperature. Sift flour once, measure, add baking powder, salt, sugar and spices and sift again into mixing bowl. Add shortening, eggs, 2 tablespoons of the milk and vanilla. Beat two minutes. Add remaining milk and the coconut. Beat 1/2 minute or longer. Beat vigorously by hand or at low speed of electric mixer. Chill 2 hours. Spread mixture in two greased 8 x 8 x 2 inch pans. Bake in moderate oven 20 to 25 minutes. Cool. Spread with a butter cream frosting and decorate with colored coconut.
- Cut in 2 1/2 x 1 inch bars. Makes 4 dozen bars. To keep cookies soft, store in tightly covered container with a slice of fresh bread.

WITH THE COUNTY AGENT

Twenty-five people attended the Income Tax Meeting held at Hub on November 10. The meeting was very good and proved to be helpful to those attending. Mr. Howard Martin, with the Internal Revenue Office out of Amarillo is very familiar with our area and was able to hit the points of interest here. Mr. James Murphey, Area Specialist with the Extension Service is also familiar with the management problems of this area and brought good information to those present. The Income Tax Meeting was only one phase of the "Management Program" planned by the County Extension Committee on Management.

The Lazbuddie Junior 4-H Club elected new officers at its October meeting, and at a meeting of the club in November several members gave demonstrations. Officers elected were Danny Miller, president; Terry Parham, vice-president; Timmy Foster, secretary; Ronald Mayfield, pledge leader; Mike Hinkson, council delegate; and Bobby Gleason, reporter. Members who gave demonstrations at the November meeting were Danny Miller and Billy Jones. Those who will give demonstrations at the December meeting are Larry Morrow and Terry Parham on "Feeding and Fitting a Lamb for Show"; Ronald Mayfield and Timmy Foster on an "Electric Motor"; and Mike Hinkson on "Wiring a Plug-In."

The new soil testing laboratory in Lubbock will officially be opened on Monday night, November 21. This laboratory is presently located at Erskin Road, two blocks East of the Plainview Highway, but will be permanently located at the new site of the Lubbock Agricultural Experiment when facilities are completed. This laboratory should offer us a real service in the field of soil testing. Mr. James Valentine, area soils chemist, will be in charge of the Laboratory. Information sheets showing how to take Soil Samples are available in my office along with the address of the laboratory at Lubbock and College Station.

Farmers who want to go ahead with their cotton harvest can field store their stripped cotton and expect just as good grades. Storing mechanically stripped cotton in ricks on the ground without cover has proven to be a satisfactory method of handling cotton when the Plains gins are unable to take care of the peak harvest. Keep in mind cotton should be packed into trailers. Use three bale trailers for three bales, not four.

Seedling trees for windbreak purposes are available through the Texas Forest Service again this year. The cost is \$1.50 per hundred. I have order blanks for those desiring trees that can be secured by coming by, writing, or calling my office on the Second Floor of the Courthouse.

The domestic supply of wheat for the marketing year July 1, 1960 to June 30, 1961 is estimated to be about 2,682 million bushels, another record, says John McHaney, extension agricultural economist. According to McHaney, the minimum national average support price for the 1961 crop wheat is \$1.78 per bushel, the same as the 1960 average support price.

Record Supply Of Wheat

College Station--The domestic supply of wheat for the marketing year July 1, 1960 to June 30, 1961 is estimated to be about 2,682 million bushels, another record, says John McHaney, extension agricultural economist.

This large supply is the result of a carryover on July 1, 1960 of 1,313 million bushels, and a 1960 crop estimated to be about 1,362 million bushels. Added to this will be about 7 million bushels of imports.

Domestic disappearance in the present marketing year 1960-61 will probably be about 610 million bushels, about the same as in 1959-60, McHaney continues. The expected slight decline in per capita consumption will be offset by the population increase, however. Seed

and feed use of wheat will be about the same as last year.

Exports during the present marketing year will probably be higher than in 1959-60. About 525 million bushels will be exported as compared to 508 million exported last year. Government export programs, which will account for about two-thirds of the exports, will continue to play a major role in the movement of wheat abroad, the specialist points out. Less favorable crop conditions in Europe, however, will also aid U. S. exports.

The 1959-60 price to U. S.

farmers would be produced, the economist continues. A 1961 crop of this size would be about 9 percent below the 1,362 million indicated for 1960, but 13 percent above the 1950-59 average. Assuming that domestic disappearance and exports are the same as that estimated for 1960-61, the carryover on July 1, 1962 may be increased about 100 million bushels. The minimum national average support price for the 1961 crop wheat is \$1.78 per bushel, the same as the 1960 average support price, McHaney concludes.

farmers averaged \$1.76, about 5¢ above the average support rate after allowing for storage charges. The price in 1960-61 is expected to again average above the effective support, storage deducted. This is mainly because large quantities of wheat continue to be placed under the price support program, explains McHaney. The support rate for the 1960 crop is \$1.78 as compared to \$1.81 for a year earlier.

With minimum allotments in effect for 1961, it is estimated that about 53 million

Donations Of Surplus Foods Heavy

Donations of surplus foods by the USDA at home and overseas totaled almost 2.8 billion pounds in the year ending June 30, 1960. This total is down slightly from the all-time record of 3.0 billion set the previous year.

The foods donated are acquired by USDA in its price-support and surplus-removal operations, and are made available to schools and charitable institutions in this country and to needy persons both here and abroad through the Agricultural Marketing Service's Direct Distribution Program. Eligible recipients in the U. S. receive commodities through designated State and local government agencies. Foreign distribution in over 90 countries was handled by about 20 U. S. voluntary agencies in the fiscal year just ended.

Distribution to domestic recipients in the past year showed a 17.5 percent decrease from the previous year. This decrease was due largely to the improved dairy situation, coupled with a decline in the number of eligible needy persons in family units.

Schools, under priority rules established by Congress, continued to receive available stocks of butter and cheese, and registered a gain of about 6 percent in volume of surplus commodities used. Supplementary foods purchased by the USDA exclusively for schools taking part in the National School Lunch Program were not included in these totals.

The largest child ever born, according to medical records, was the 23 3/4 pound, 30 inch long son born in 1897 to seven-foot-five tall Nova Scotia mother, Anna Bates.

Census Bureau To Take County Farm Survey

The 1960 Sample Survey of Agriculture will be conducted in this county during the next several weeks, it was announced today by the Bureau of the Census, U. S. Department of Commerce.

The 1960 Sample Survey of Agriculture will collect information on ownership and size of farms, acreage and harvest of crops, and livestock production and inventories. Information will be collected also on farm equipment, farm income, construction of new farm buildings, farm contracts, and farm operator debts. This survey will supplement information collected in the 1959 Census of Agriculture.

Farms in the county which will be covered in the 1960

Sample Survey of Agriculture were selected at random under the Census Bureau's scientific sampling program to provide a representative cross-section of all farms in the county. Information collected locally will be combined with that collected in other areas of the country to provide national estimates.

Local interviews for the 1960 Sample Survey of Agriculture will be conducted by Louise B. McDaniel.

NEWS FROM THE

FARM BUREAU

BY RAYMOND EULER

George Meany, President of Agricultural Workers Organizing Committee, in the interest of AF of L and CIO, has released some organizational information that we have been reading with alarm. If you are interested in reading it and giving some consideration to methods of combatting the intentions described in it, you are welcome to do so. Farm Bureau, locally and on the state and national level, has had for several years resolutions against this sort of thing. Your

MEMBERSHIP in Farm Bureau strengthens your position on it. Here is one portion of the information referred to--The warm, earthy picture of family-farming has masked the transformation of agriculture into AGRIBUSINESS. America's largest industry, without the accompaniment or creation of one single new law to control it. Agribusiness is free to recruit and use SEMI-SLAVE LABOR (underlines ours) free to maintain and use wage-breakers and strikebreakers, free to operate without minimum wages, maximum hours, unemployment insurance, or any of the social, ethical and financial controls society imposes on the rest of the industrial community. The organizing effort has as a major task, if it is to succeed, the destruction of this false image of family-farmerism, and the identification of agribusiness for what it is: RUTHLESS, COLDBLOODED BIG BUSINESS EXPLOITATION OF PEOPLE AND THE LAND." The document goes on to outline the methods of destroying this warm family farmer picture of the farmer in the eyes of the public.

Here is an easy way for people to decide whether they believe in communism or capitalism, as far as economic principles are concerned: (1) Communism: Some persons other than the one who produces the goods and service can decide who shall have the

right of possession or use, and (2) Capitalism: Each person may be allowed to have whatever he produces.

At this time, we are still not sure who went to the Farm Bureau Convention in Dallas. We have heard good reports from the convention, however. We know that positive action was taken on the above mentioned labor threat.

The USDA has announced that the 1961 upland cotton allotment for Texas will be 7,849,196 acres. Extra long staple acreage allotment for the state was set at 21,893 acres out of the national allotment of 63,740 acres. Only one allotment-price support program will be available to upland growers in 1961, but this will not be determined until the December 13 referendum is held.

Unusual weather in some areas of Texas has prevented the planting of winter temporary pastures. George McBee, extension pasture specialist, says, however, that late pastures can be planted and they can be profitable if they are managed correctly. Seed treatment and fertilizer are the keys to successful production of late-planted winter pastures, the specialist says.

Do You Really Understand The Bible?
Many people maintain that the Bible is so simple and clear that anyone can understand it. Yet today the Christian world is divided into conflicting opinions as to what the Bible means.
How would you interpret the following passages from the Bible: "I say to thee, thou art Peter, and upon this rock I will build My Church, and the gates of hell shall not prevail against it." (Matthew XVI, 18ff). "For, behold, henceforth all generations shall call me blessed," (Luke I, 48). "Receive the Holy Spirit; whose sins you shall forgive, they are forgiven them; and whose sins you shall retain, they are retained." (John XX, 23). "He who believes and is baptized shall be saved." (Mark XVI, 16).

Soil Testing Lab Opens In Lubbock

Area Soil Chemist James H. Valentine, A&M College Agricultural Extension Service, has completed preparations for the formal opening of a new soil testing laboratory in Lubbock, Nov. 21. Above, he is making a final check of the delicate chain balance which is used to measure the minute quantities of chemicals required in running a soil analysis.

Texas A&M College with a major in agronomy and minor in plant physiology. The overseas veteran of World War II served for 5 years as soil scientist with the Soil Conservation Service and for the past 9 years has been director of the soil testing laboratory at Stephen F. Austin College at Nacogdoches. Valentine says the new laboratory, which he heads, will devote full time to fertility problems of farmers in the Panhandle and High Plains areas of Texas.

THE LIONS LAUGH
The police of a big city were hot on the trail of an escaped convict. When they learned that the fugitive was heading for a small town downstate, they called the local constable there.
"You send me a picture of that guy and I'll get him," the constable promised. Immediately, the city police mailed the constable a dozen pictures of the wanted man--profile, full face, standing, sitting and in various costumes. Within twenty-four hours, the constable called back, "We got eleven of those crooks," he boasted excitedly, "and I guarantee to jug the last one before morning!"
