We had a time this week trying to decide whether to discuss Hemisfair, our proposed state sales tax increase, the baby Cocker Spaniel puppies at our house, or the federal income tax surcharge. Perhaps we'll touch on all of them before we're through.

The Ellises were among some 175 newspaper families who were able to combine a press convention with San Antonio's Hemisfair last week -- and it proved to be an unbeatable combination.

Of course, San Antonio has enough attractions to stand on its own feet -- but this year Hemisfair has added to the charm of this romantic old Texas city.

It was our first opportunity to see a World's Fair, and we all enjoyed it tremendously. Some of the attractions from the 1962 Seattle fair and the 1966 New York exposition are being shown at San Antonio.

This is the chance of a lifetime for most Texas residents, and we hope many of them will avail themselves of the opportunity before the summer is over to see the big show.

The weather was unbelievable for San Antonio in the summertime during our visit to the fair. It never got above 85--and was mostly cloudy and cool. Our hat is off to the San Antonio Chamber of Commerce for arranging this for our visit. The nights at the fair were very similar to our nights in West Texas. Don't know if they guarantee this for the run the fair or not, though.

Don't try to see the whole thing in a day or two, if you can spend more time there. We had a three-day whack at it, not all day each time, but it required a steady pace for us to hit the highlights, and see most of the things we wanted to see.

A professor at San Antonio's Trinity University spoke to one of our convention sessions. He said he had visited the fair several times, and hoped to see it all before the summer ends. However, the weekend visitor can be selective and still catch the main attractions -- so don't cancel your trip on this account, either.

Entertainment is one of the top attractions of the fair, and it is all real fine. At least 11 attractions give performances hourly or at other intervals. Much of the entertainment deals with new innovations to the movie screen, such as Laterna Magika, which has been featured at previous world fairs, and is definitely worth the extra admission price, which is some of the attractions charge.

However, the free entertainment and exhibits are just about as good as the ones which make additional charge. Good examples are the Bell System's magic show, Coca-Cola's Kaleidoscope puppet show and Frito-Lay/Pepsi-Cola's "Los Voladores" -- which presents a breath-taking re-creation of an Indian ceremonial and sacrifice.

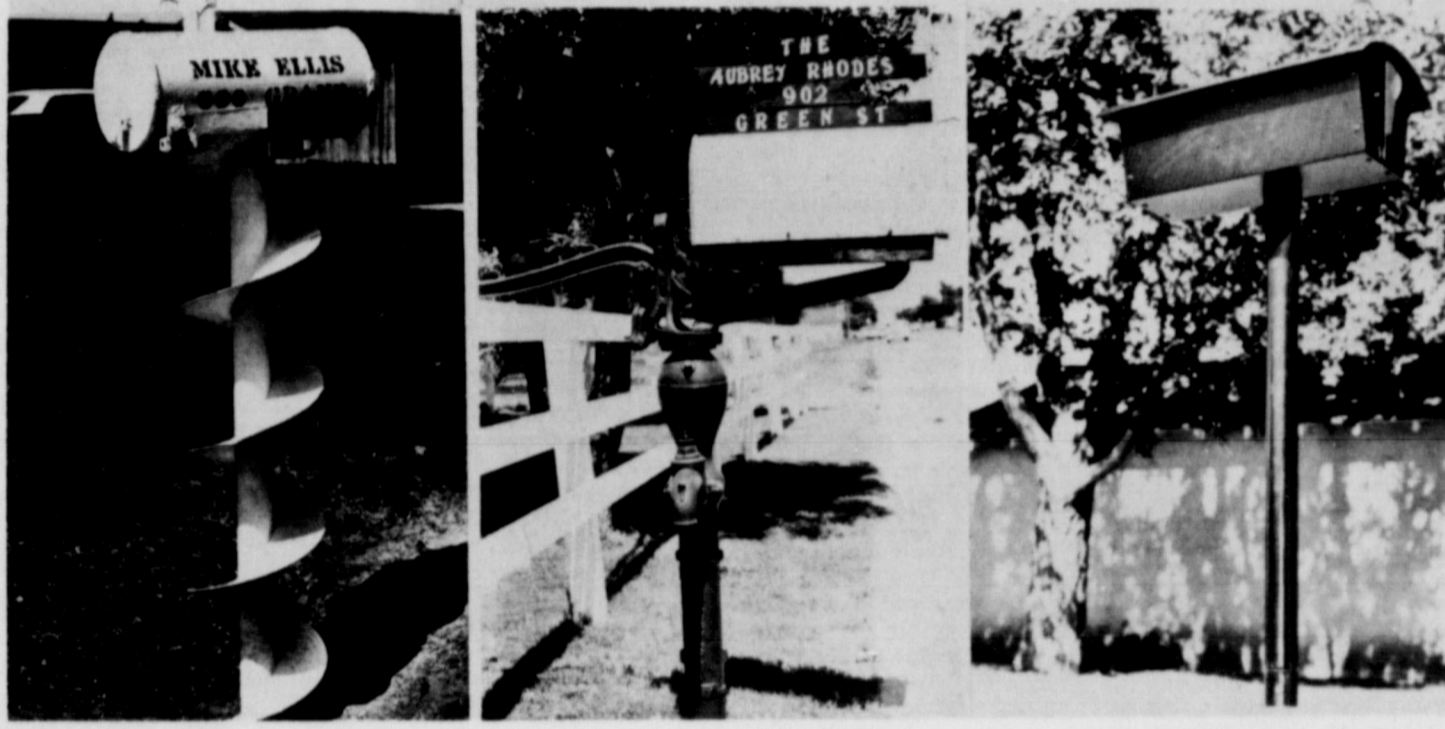

We only looked closely at four of the 21 governmental exhibits, which are further attractions of the show. Those we saw were from close to home -- the U.S. Pavilion, Institute of Texas Cultures, Mexico and Columbia. We can recommend all of these, and probably the other small exhibits were equally as good.

Those interested in religion would enjoy the Southern Baptist Pavilion, which presents a solemn Christianity and just how influential it is on today's world.

In addition to the exhibits and regular entertainment the fair's main arena presents special "name" entertainment daily. For instance, while we were there, the Bolshoi Ballet and Herb Alpert were two of the attractions.

Other top-flight entertainment is set for the remainder of the summer, and we have a schedule in the event anyone would like to know who will be there at the time they plan to visit Hemisfair.

We realize we haven't really told you much about Hemisfair; but rather, as if it were a mystery show, we've not revealed the plot. Seriously, much of it defies description, and you'll (Continued on Page 9)

MAIL BOX TIME. . . Postmaster Wright Williams reminded Friona residents this week to have their mail boxes set at the curb by Saturday if they intend to take city mail delivery, and also to have house numbers, regardless of whether they take the delivery. Three different styles of boxes are shown in these

shots taken around the city this week. On the left is an unusual box installed by Mike Ellis. In the center is a box at the Aubrey Rhodes residence using a pump as base. On the right is a typical mailbox being sold and installed by the Friona Noon Lions Club. (Photos by Floyd Miller)

### House Numbers Are Needed!

Postmaster Wright Williams this week urged residents to apply house numbers where they are missing, whether they intend to take city mail delivery or not. "Our mail cases will be devised by house number and street addresses, rather than by names, so it is imperative that everyone have numbers," Williams said. City mail delivery begins on Saturday, and all patrons intending to get delivery at home were reminded to get a mail box set at their curb, and to file a change of address form at the post office.

## LOCAL NOMINEE

# Tyler Vance Wins WTPA Scholarship

Tyler Vance, who served as staff photographer for the Friona Star the past year, has been chosen as 1968 scholarship winner by the West Texas Press Association. Vance was nominated for the award by the Friona Star. The scholarship won by Vance is for \$800, to be applied \$200 per year over the four years of college. Vance says he plans to study journalism at West Texas State University in Canyon, which has also awarded him its journalism scholarship in the amount of \$200 for the first year's work.

In his nomination letter to the scholarship committee, Star editor Bill Ellis said "Tyler is the best prospect for a journalism career of the many students with whom we have worked in our career as an editor. I'll not need to 'hard-sell' you on his talents as a photographer when you see his scrapbook."

James M. Gillentine, publisher of the Hereford Brand, for which Vance is working this summer, describes the 18-year-old youth as "a near genius" in photography. He also does news writing and advertising layout.

Gillentine told the selection committee he felt "there is not a youngster in the United States who can outdistance Tyler" in photography, "and in 30 years of newspaper experience I have had only one or two professionals who come up to his quality."

Vance began journalism work during his sophomore year in Hereford High School as a writer-photographer on the school paper, The Whiteface.

Later he went to work part-time for the Hereford Brand, and then last summer worked full time for the Star. He continued on a part-time basis in Friona during the school term, driving back and forth two days per week.

Vance was named the Outstanding Industrial Cooperative Training Student of Hereford High School for 1968. In 1966 he won first place award in news photos in the Panhandle Press Association contests. This year he won first in Technical Information and second place as Outstanding Photographer in Texas at the state meeting of Vocational Industrial Clubs of America.

His pictures also have won attention in national competition.

On the state and regional level, Pictures entered in the contest were from three consecutive issues (September 14, 21, and 28, 1967), and the bulk of the pictures in those issues were taken by Tyler Vance, who also won first-place state award earlier through the Vocational-Industrial Clubs competition.

The Star also won the state press association's award in news pictures in 1962 and 1964. The award cannot be won in consecutive years.

The neighboring Bovina Blade helped the Star to "show where the talent is" by win-

ning the corresponding news pictures award in the division for newspapers published in cities of under 2,000 population. The Blade also was runner-up among the 16 newspapers entered in its class in competition for the "general excellence" award.

Another West Texas newspaper--the Lamb County Leader of Littlefield, won "all the marbles" in the division for towns of 5,000 to 8,000, winning three first place awards as well as the coveted general excellence award.

Mr. and Mrs. Bill Ellis attended the convention, and were on hand for the awards presentation on Friday.

## REC GUESTS

# Chileans Make Tour Of Area Last Week

A group of 15 residents of Chile were guests of Deaf Smith County Electric Cooperative for tours of the area last week, studying rural electrification in the area.

In the Friona area, the group saw how electric power serves feedlots, farms, tallwater return systems, etc. They visited specifically Hi-Plains Feed Yard, Missouri Beef Packers, and the Sloan Osborn farm. On Friday, the group lunched at the Farmer House.

Leo Forrest of Hereford, manager of the Deaf Smith County Electric Cooperative, served as host of the group. During the past 20 years, Forrest has made several trips to Chile, and knew many of the executives on the tour.

Forrest indicated that the purpose of the tour was to assist the organization in Chile which corresponds with the U.S. Department of Agriculture, the government of Chile and the National Federation of Electrical Cooperatives in that

country to carry out a \$7 million expansion program of rural electrification.

"The individuals participating in this trip will have major roles in the execution of the project which includes the extension of electricity to about 5,500 families in the rural areas of Chile," he said.

Two of the main topics which were discussed with the group were long-range financing and long-range construction planning of electrical lines to rural areas.

The visitors included Mr. and Mrs. Elio Casanova, Mr. and Mrs. Juan Kemp, Mr. and Mrs. Jose Soler, Mr. and Mrs. Reinaldo Munoz, Mr. and Mrs. Jorge Lopez, Mr. and Mrs. Waldemar Heinrich and daughter Sonia, Manuel Bustos and Carlos Icaza.

During the portion of their tour in the Friona area, the group was joined by members of the board of directors for the REC and their wives.

# 'TEXAS' Gala Opening Slated For Saturday

The lights will blaze for the opening of the 1968 season of "TEXAS" on Saturday, June 29th, when the cast will start the third season of the Paul Green spectacular musical drama. The costumes are receiving their hems and their buttons; the last coat of paint is going on the scenery; chairs for the side extensions have been put together and are in place; the sound tests are complete; the lights on the six hundred foot bluff behind the stage are focused to outline the boulders and crevices; one horse has been trained to pull the surrey; others have practiced with the flags and the lights;

the tickets for the season are racked in the box office, the proofs of the Souvenir program have returned to the printer.

People from all walks of life make up the cast. And the directors are working on tempo and pace to bring the performers to the peak of exciting performance they need to reach by opening night.

The show will run from June 29 through Labor Day, September 2. For reservations write "TEXAS", box 268, Canyon, Texas, 79015, and join the 125,000 people who have already seen it. Telephones are 015-4272 and Dk-4-5345.

## Riders To Organize

Due to increasing interest, a meeting will be held this Friday, June 28 at 8 p.m. in the Friona State Bank meeting room to organize a local riding club.

Clark Jarnagin, National President of the American Association of Sheriff Poses and Riding Clubs, will be present to assist with organization.

Jarnagin states that Sheriff Poses and Riding Clubs are organized for many different needs or reasons; usually there is one thing that causes the original members to get together and organize; however in many cases after they get together they find many other things and activities available to them just as important as the one they had in mind that caused them to organize in the first place.

The American Association of Sheriff Poses and Riding Clubs are made up of club memberships from all over the country with some 15,000 individual members.

## Chamber Sets Model Display

Chamber of Commerce manager Ted Weaver this week announced a "model" display and contest for the youngsters of Friona. The display will consist of model cars, airplanes, boats, etc. Ronald Smiley has been named chairman of the event, set for July 10.

Contest will be open to enthusiasts, according to the contest promoters. Cash prizes will be awarded, probably in two divisions. Contestants may bring entries to the Chamber of Commerce office, which will put them on display prior to and following the judging on July 10. "This is another in our series of activities to benefit the young people of Friona," Weaver said.

### OUR READERS Write

Freedoms Foundation Valley Forge, Pa.

Dear Bill:

As you know I was privileged to receive a scholarship for a three weeks seminar on Preservation of the Principles of Freedom at the Freedoms Foundation at Valley Forge.

I arrived late Sunday night June 9th. They had already had their meeting telling everyone what was expected of them and when I heard I was completely overwhelmed, in fact ready to catch the first plane back to Friona. However, I got down to business and work and I am really enjoying it.

We have had some wonderful, inspiring speakers, they just make you so glad that you live in our wonderful land of America.

The setting is beautiful, the main building is located along a line where there was a group of huts where Washington's troops made bullets during the winter of 1777-78 while he had his troops in training at Valley Forge. Some of the original buildings still are standing.

We made a trip into Philadelphia last Saturday and saw many of the historic sights

there. Next Saturday we go to Gettysburg and the Dutch Country.

There are forty eight enrolled in the course, seven from Texas, seven from Alabama, one from New Mexico, one from Idaho and the remainder from states nearer Pennsylvania. We Texans have really stuck together -- they all know we are here and we are teased about our western accent, as they call it.

I had a long mailing list but not enough time to write everyone. Too much work to do-- so I am writing to the editor.

The seminar is directed by Samford University, Birmingham, Alabama, though some individual has paid for my scholarship. I'll probably never know who it was.

The weather has been very nice, quite a lot of rain and sometimes really cold.

This has certainly been a rewarding experience for me, I just wish many more adult Americans could have the same. I surely feel that I will be a better teacher next year after having been here. Sincerely  
June Rhodes.

## Pause And Reflect

By Nelson Lewis

Every now and then we hear someone refer to the "old XIT ranch." Natives and adoptees, familiar with the history of this region, know that the 3,000,000 - acre layout of the XIT was so called because it was located here in the panhandle in ten Texas counties.

The names was related to the old and the new. The X was taken from the Latin numeral - X, meaning ten, and the IT meant "in Texas" -- in other words ten counties in Texas, or XIT.

Parmer County was the only one of the ten almost completely covered by this huge spread. All of Parmer except a tiny bit of the northeast corner was included.

Now there is a new XIT, a new "ten in Texas." We refer to Gov. Connally's newly announced Ten Travel Trails in Texas. The ten trails, soon to be marked by the Texas Highway Dept., are located all the way across the state and will give the traveler a complete view of this vastly diverse commonwealth. To appreciate fully the scenes and history one will encounter along the way it will be necessary to occasionally become a "shun-piker".

What is a shun-piker? One who shuns or avoids the pikes. In olden times kings built good roads and at various points placed soldiers armed with pikes (spears) to collect tolls from anyone who used the roads.

Upon the approach of the travelers the soldiers lowered their pikes across the road, turning them aside only after the toll was paid.

From this custom we derive our term for an improved road-- a turnpike.

Those not wishing to pay the toll would take back roads there by shunning the pikes.

The Ten Trails of Texas make use of the best roads where possible but you must become a "shunpiker" now and then to see the real Texas.

Friona is on the western edge of the one designated as the Plains Trail.

Briefly the route is north from Hereford to Boys Ranch at Old Tascosa and Dumas. Then east to Stinnett and turning south to Borger, Panhandle and Claude. Here you may cross Palo Duro Canyon and, if you are pressed for time, return to Friona by way of Silverton, Tulia, and Dimmitt.

The complete Plains Trail goes all the way south of Lubbock to Gail and to see it all could mean an overnight trip.

The trails average about 600 miles each and abound in true Southwestern lore.

To travel all of them will be a rewarding experience.

At the risk of being considered an alarmist or as one Friona citizen said "too patriotic" (something like being "too healthy") I will again take up the cudgel against the communist infiltrators.

On March 2nd 1967, this column referred to a proposed legislation that all firearms be registered. At that time it was stated that confiscation could, and probably would, follow registration.

Recent tragic events have caused a well meaning president and congress to pass a gun law.

The connection between the communists and the gun law is evident to anyone who cares to read between the lines of this modern American tragedy.

For months the F.B.I. has warned of communists being the instigators of street riots and campus rebellions.

To incite the over-zealous and to influence the ignorant is no great task for the well-trained Soviet saboteur.

**Clayton Defends Tax Bill Stand**

State Representative Bill Clayton this week defended his stand in relation to the tax bill he sponsored during the special session. Clayton said: "I was concerned about a statement issued to some newspapers in our area by my Republican opponent."

"My opponent referred to a tax bill introduced by Representative Red Simpson and myself. Our proposed tax bill was introduced to raise money for fiscal year 1969. The tax bill was also designed to help meet needs of 1970-71 fiscal year by accumulating enough surplus to take care of increasing higher education costs, a teacher pay raise, vocational training and other functions and services without having to pass another tax bill next January when the Legislature meets again."

**Chamber Notes**

BY TED WEAVER  
Chamber of Commerce Manager

We have been reportedly asked to evaluate Friona -- so here goes.

Many areas of the community really shine in comparison to other equal-sized communities. The local fire department with 33 volunteers and modern efficient equipment must rate an award in comparison with any size community. Chief Ralph Shirley and his men seem to have a fraternal working type organization that combines fellowship with work. Local fire insurance rates speak for their efforts.

The FRIONA STAR is a dedicated community servant. Bill and Carol Ellis, Mrs. Floyd, Floyd Miller and all the staff have co-operated with the Chamber of Commerce and ap-

parently with all the community very well. The reporting of community activities, community growth and particularly the continuing news about Missouri Beef Packers, has been handled as only an editor with the community at heart could do so. Friona owes much of its present prosperity and publicity to Bill Ellis and the FRIONA STAR.

Friona is fortunate to have a progressive-minded City Council. Mayor Edelman and the City Council members as well as city manager Jake Outland do an outstanding job although their efforts often times go unnoticed and unappreciated. City business is conducted in a serious and mature manner. Meetings are open to the public and on the several occasions that special interest groups have met with the City Council, they have received a welcome and have received a fair hearing followed by appropriate action.

Jake Outland and the city employees are busy constantly making way for community growth and maintaining current responsibilities. Chief of Police Bill Morgan and the Friona Police Department also often go unthanked for their dedication and service. These men are serving Friona 24 hours per day.

**PUBLIC HEARING NOTICE**

Missouri Beef Packers, Inc., P.O. Box 1178, Friona, Texas, has applied for a permit from the Texas Water Quality Board to retain an average of 23,040,000 gallons per day of process and cleaning water from its slaughter house and beef packing plant located approximately three and one-third miles southwest and immediately south of Highway 60 and the Santa Fe Railroad intersection between Farmerston and Friona, Parmer County, Texas. The waste water, after treatment in separate tanks and in a lagoon system, will be retained in a playa lake located on the east boundary line of the company's property and on adjacent property belonging to C.W. Dixon, Section 15, Township 3 South, Range 3 East, of a Capitol Syndicate Subdivision of Parmer County, Texas. A public hearing on this application will be held on this application in the Board Room of the Texas Water Quality Board, 1108 Lavaca Street, Austin, Texas, at 9:00 a.m., on July 12, 1968, to determine the conditions, if any, under which a permit may be granted. Additional data will be developed at the hearing, but further technical information concerning any specific aspect of the discharge, if available, can be obtained by writing the Texas Water Quality Board, 1108 Lavaca Street, Austin, Texas, 78701.

did an excellent job as a chairman on the Grand Opening of Missouri Beef Packers, Cecil Maddox, mentioned above for his work this summer is also the President of the Friona Noon Lions Club.

Alton Farr is always ready to cooperate on community activities and allows public use of the Cafeteria and auditoriums. Porter Roberts, school tax man, has become a yes man when help and leadership is needed on community projects.

The list of involved school personnel could go on with mention of Tom Jarboe, J.T. Gee and their activities. Also the hard work of Alton Peak on the successful Kite Flying Contest. Mrs. Ira Holt is a faithful poll worker. The efforts of Mrs. June Rhodes with Mary Rando deserve community recognition. Mr. and Mrs. Benny Pryor having both been named "Teacher of the Year" serve the community well as does Lionel Young and the artistic talents of Bobby Wied.

The local civic clubs, study clubs, boy and girl scouts and summer baseball teams all require the dedicated efforts of individuals. All these people mentioned plus countless others work constantly in their respective areas for the overall betterment of Friona. We believe their efforts are successful.

**Displays Wanted For C-C Office**

Chamber of Commerce manager Ted Weaver is contacting various clubs to see if they can help secure displays for the Chamber of Commerce office.

Weaver hopes that various displays can be arranged, such as antiques, etc., to stay in the office for two weeks, and then be replaced by another display. The office had a display of pictures by local artists during April. Another display, featuring model airplanes and cars is planned for the immediate future.

**Messenger Named Eye Bank Prexy**

Steve Messenger was installed as president of the Hi-Plains Eye Bank in Amarillo recently. Messenger has been a member of the Eye Bank's board of directors for several years.

Messenger's three sons presented a musical program, and Mary Rando, accompanied by Jo Witten, presented her reading, "I am the Nation."

Fourteen members of the board of directors plus four other officers were also installed.

## Freezer Foods Simpler For Quick Summer Meals

By Cricket Taylor  
Parmer County Extension Agent

During hot summer months, it is easier to open the freezer for baked goodies or casseroles than to spend hours in the kitchen. Freezing is the only method to preserve many of these baked or cooked goods.

Miss Frances Reasonover, Extension foods and nutrition specialist, says to cook most breads, cakes and pies before freezing. Cool them and wrap in moisture-vapor-proof material.

Use standard recipes for breads and cakes. For quick breads use double-action baking powder. Biscuits and muffins are better frozen uncooked. Bran muffins, fruit and nut breads are better if baked before freezing.

You may freeze bread and rolls baked or unbaked. It is suggested that you use a recipe with a fairly large amount of fat and sugar. Baked products may be stored as long as 9-12 months.

If you want to freeze dough,

allow it to rise until double in bulk. Doughs shaped before freezing may be inferior, even when stored only two weeks.

Prebaked cakes containing fat may dry out slightly after two months, and after four months, flavor changes may be expected, says the specialist. Use pure extracts as imitations may produce off-flavors. Angel food, yellow sponge, chiffon and fruit cakes baked before freezing will keep up to a year.

Uncooked confectioners' sugar frostings freeze best. Boiled and other soft frostings containing egg whites and cream fillings are not suitable for freezing.

Fruit, vegetable and chiffon pies freeze successfully. Fruit pies may be frozen either before or after baking. Crust is more tender and flaky and flavor fresher when the pies are frozen before baking.

The agent advises against freezing lattice top pies. Don't cut steam vents in top crusts of frozen unbaked pies until they have been removed from the freezer.

## At Home In Parmer County

By CRICKET TAYLOR  
County HD Agent

Two important events for 4-H'ers will be completed in July. After that, records will be judged in the County. These are due in the County office, July 22.

The County 4-H Dress Revue and the County 4-H Bake Show are the two remaining events to be completed for this year. Sewing groups throughout the County are busy as beavers, trying to complete requirements for this project by the 18th of July. This is the date for judging.

One food that has been received nation-wide attention as result of a USDA survey is that of milk. Since milk is one of the most important foods in our diets, it will pay everyone to take notice of some facts that concern our health and well being. This concerns all income levels.

According to reports, the proportion of people with inadequate diets increased from 15 to 20 per cent since 1955. Reason cited for this change included decreased intake of milk, vegetables and fruits.

Consumption decreased by 10 per cent for calcium. Carbonated beverages appear in large amounts. What a waste of food dollar! Nothing wrong with these beverages if they are not allowed to substitute for milk needed in diets.

Homemakers may do well to consider the health-giving value and cost of milk and dairy products in relation to other foods.

Bulletins for sparkling meals and better use of dairy products are found in a bulletin entitled "Are You Getting Enough Milk," from the County Extension agents office in the County Courthouse. The bulletins are free. Call or come by for a copy.

Dates have been set for the completion of County 4-H Contest Activities for this year. The Parmer County 4-H Dress Revue will be held Friday, July 19, at 8 p.m., at Lazbuddie. The County 4-H Bake show is scheduled for Tuesday, August 20th. County winners in each event will be eligible to compete in the District Contest for honors.

To be eligible to compete in the two County events, 4-H'ers must be enrolled in a Clothing and food project during the year.

## James Price Returned To Friona

During the recent Northwest Texas Conference of Methodist churches in Amarillo, Rev. James Price was re-appointed to serve as pastor of Friona Methodist Church for one year.

Rev. Price, who moved here from Trinity Methodist Church, Plainview, two years ago, has been in the ministry fifteen years.

Keith, a son of Rev. and Mrs. Price, who has just completed his freshman year at M.I.T., Cambridge, Mass., is spending the summer with his parents.

## Water Leaders Acclaim Committee's Report

Mills Cox, chairman of the Texas Water Development Board, said Friday he is "hopeful" that the Congress will follow the House Appropriations Committee's recommendation to allocate \$892,000 to the Bureau of Reclamation and the Corps of Engineers to continue their studies of importing water to Texas and New Mexico from outside the two states.

"The Texas Water Development Board and I were gratified by the Committee's action which recommended \$467,000 for the Bureau of Reclamation for its part of the study and \$425,000 to the Corps of Engineers to coordinate the study aimed at providing a long-range source of water for a large part of Texas and eastern New Mexico," said Cox. "It is our hope that the Congress will follow this recommendation."

Cox also praised U.S. Rep. George Mahon of Lubbock, Chairman of the House Appropriation Committee, for his careful and skillful handling of President Johnson's recommendations for funds for the two federal agencies. "The states of Texas and New Mexico are indebted to Rep. Mahon for guiding the President's budget recommendations through the Committee," Cox said. "The continuation of these studies is important to Texas and to New

Mexico, and I feel that the Congress, even though it is determined to reduce expenditures will recognize the need to continue these important studies and appropriate the funds recommended by the President."

Committee approval of the recommended import study funds, said Cox, is an indication that the federal government is tacitly approving the Texas Water Development Board's plan to provide water for all sections of Texas. "It is further indication," he added, "of the desire of the Corps of Engineers and the Bureau of Reclamation to continue the excellent relationship that exists between the two federal agencies and the Texas Water Development Board."

The Bureau of Reclamation last month released its progress report on studies of importing water to West Texas and Eastern New Mexico. The preliminary appraisal concluded that a possible source of water is available from the lower Mississippi River and recommended aiming further studies in that direction.

Texas Water Development Board studies indicate that underground water resources, on which crop irrigation in West Texas is dependent, cannot be counted on beyond the year 2000. Declining availability of irrigation water in some parts

### Information Now Available

Copies of a new booklet describing the recent improvements in social security disability insurance protection are now available at any social security office. The booklet, entitled "Recent Improvements in Social Security Disability Insurance Benefits," is available free of charge.

Wayne Klipping, social security Field Representative for this county, said today that over 165,000 persons were made immediately eligible for disability benefits under the amendments signed immediately into law by President Johnson ear-

lier this year. Millions more, he pointed out, have increased disability insurance for themselves and their families.

The new booklet (Leaflet No. 3), Klipping said, gives more details about new categories of disability benefits and other changes in the disability provisions of the social security law. He urged those in the Friona area who believe they may be eligible for payments under the changed law to get in touch with Klipping in the Council Room at the City Hall from 9 a.m. until noon on the third Tuesday of each month.

Latest reports from H.V. Rockey, who is undergoing treatment at M.D. Anderson Cancer Clinic, Houston, indicate he is making satisfactory progress. He has sent word to the Star office that he feels deeply grateful for the many flowers which have been sent them, but is unable to see them due to the nature of the treatment he is receiving.

He has requested that contributions be made to the Cancer Fund in lieu of flowers in the future.

If you have lost a simulated leather case holding two Ford keys with Watson Motor Company, Clovis, printed inside, come by the Star office. Coach Crofford found this case a week or so ago and brought them to the office and asked us to make an effort to locate the owner.

It has been said that when something starts in any part of the world you can usually find someone in Friona doing the same thing. Not too long ago I read an article entitled "Jogging For Your Life."

My thoughts went something like this: "Now there's something you will not see Frionans taking up." I knew of course, that a number of local residents walk, ride horseback and go bicycling, but just couldn't see any of them "jogging." Since then I've heard rumors of "joggers," but haven't seen any.

### Memorial Gifts Benefit ACS

When cancer takes the life of someone close to us, a relative or friend, the loss is painful. However, many thoughtful persons in Parmer County are turning losses into victories by making memorial gifts in memory of a loved one lost to cancer -- a living memorial. "A gift today may spare others tomorrow," explains Mrs. Iola R. Nelson, Memorial Chairman of the Parmer County Unit of

the American Cancer Society, a national health agency fighting cancer through programs of research, education, and service.

"The Society seeks in this three-fold way to fulfill one of mankind's greatest hopes -- the ultimate triumph over cancer. Each memorial contribution brings the moment of final victory closer."

Contributions are received by Mrs. Iola Nelson.

WHEAT HARVEST. . . Wheat farmers were making short work of the harvest this week, as fair weather prevailed. Observers felt the harvest might be completed by the end of the week.

### Wheat Harvest Nears Windup

The wheat harvest was rapidly reaching the windup stage in the Friona area this week, as dry weather permitted farmers to spend the bulk of the time in the field.

Yields was running 40, 50 and 60 bushels per acre -- a good "average" crop, and termed much better than last year's wheat crop. Most observers predicted that if not delayed by weather, the wheat could be finished up this week.

When cooking with cheese, use low heat. Cooked too quickly cheese gets tough and stringy.

### Tips Given For Freezing Food

"A meal on a moment's notice; fresh corn in December; deer from last fall's hunt -- all compliments of the home freezer"--this has been a popular slogan for homemakers with home freezers for years. For many though this slogan has gradually lost its meaning, according to Parmer County Home Demonstration Agent, Cricket B. Taylor.

For successful freezing, Mrs. Taylor suggests a review of several important points for providing good quality products such as: -- Using good quality

and fresh products (freezing does not improve low grade food)  
--Retaining nutritive value of fruits and vegetables by proper treatment before freezing.  
--Handling food promptly retains quality.

--Use of moisture-vapor proof packaging material for packaging. All packages should be air-tight.  
--A general rule, the quicker a product is frozen -- 0 degrees F. or lower --, the better its quality.

### Firemen Called Twice Tuesday

The Friona Volunteer Fire Department made two runs on Tuesday. One was to Bruce Farr property south of Black at about 8 a.m., where a well house was destroyed.

At 1 p.m., a truck lost several bales of hay about a mile west of West Friona Grain.

### Four Involved In Plane Crash

Four Friona passengers in a plane which crashed in Amarillo Sunday escaped critical injury, but a young woman was killed when the plane struck her automobile.

Matt Brown, pilot, and his three young passengers, Steve Brown, Billy Ross Procter and Jerry Oden, were attempting to take off from Amarillo Dragway when a crosswind caused the plane to veer and strike an automobile.

Killed was Julia Archuleta, 21, of Amarillo. Witnesses said she was struck by the plane's propeller.

Of the four plane passengers, Oden was most seriously injured. He sustained severe facial lacerations. Brown, his son Steve and young Procter were treated at Northwest Texas Hospital and released.

The Frionans had flown to Amarillo to watch the drag races.

Get another of these long-lasting light bulbs each time you come into a Texaco Dealer where you see the Light Bulb sign.

Why is your Texaco Dealer saving you money on light bulbs? It's his way of celebrating the arrival of money-saving Sky Chief, the brand-new gasoline that can drive down the cost of driving. New Sky Chief keeps harmful deposits from building up on engine valves better than any other leading gasoline. With fewer deposits, you can get better mileage--and that can save you money. The chance of an expensive engine repair job is much less, too. So drive in for a light bulb, fill up with new Sky Chief--it can drive down the cost of driving.

## Friona Hosts All-Star Game

Friona will host the Irrigation League all-star game Thursday night (June 27) at Reeve Field. One team will be made up of players from Amarillo, Umlberger and Hereford Knights of Columbus. The other will be made up of Friona, Nazareth and Hereford Rebels. Each team will provide five all-stars.

Game time will be 8:30 p.m. A charge of 50 cents for everyone over 12 years of age will be made to help defray cost of baseballs and umpire expense.

Friona's Indians dropped an 8-7 game to the Hereford Rebels at Hereford last Sunday. Friona had tied the game in the seventh inning on Gary Renner's home run, but left two men stranded to end an attempt to go ahead.

The team dropped a 17-2 game to Amarillo's Graham Plow, as Jim Wynn, who has pitched for the local team, was asked to work out with the St. Louis Cardinals, and missed a pair of games.
