Junior High In 20-0 Victory Over Sudan Eleven

Coach Jim Middleton's Junior High gridders got of to a fast start this season, last Thursday, as they journeyed to Sudan to hang a 19-0 defeat on the Lamb Countians. Bill Ed Thompson, halfback was the ball carrier in one touchdown

and Jackie Neal Brown carried on the other two scoring occasions. He is the team's offensive quarterback and handled the split-T attack in fine style.

The victory was a team triumph the boys playing exceptionally well together in their first encounter of the year and showed signs of be-coming one of the better junior hi teams in the school's history. Oddly enough Morton has come up with several exceptionally fine junior high teams in the past eight years though they haven't had a single conference contending high school

Luke and John. These are the bi-

world. Approximately the first thirty years of Christianity is recorded as a matter of history in this book. Acts of Apostles, wrtten by Luke (63 AD), is

an accurate and reliable historical account of the early church. It gives a number of contemporary happenings which tie it into well-known events of the day, thus its accuracy and value as history is assured. The style of the book is that of a scholarly and well educated man of the times. Its author knew how to approach his subjects and how to present them according to sound principles of historiography.

The New Testament epistles, principally those of Paul, complete the material of the period dealing with the history of the church. These were not written as historical studies, but they give us much information of the movements of men and of Chrstianity throughout the world.
