Friendly Circle Met On Craft Work

Friday, March 15. This was an all day work meeting

during which time the group worked on copper tooling. Copper tooled pictures

de by Mesdames Jake Reid, Hor-ace Gardner, Dexter Nebhut, Wo-odrow Self, Lonzo Scorgins and J. W. Jeffcoat. Mrs Vernon Blackv assisted the group.

The group was served a meal at noon and all enjoyed the final reults of their pictures.

The next meeting will be at Mrs. Lonzo Scorpins home on April 5. at 2 nm. The demonstration will be on Master Mix for pies by Miss Leila Petty Home Demonstration All homemakers are invited to

ttend the meeting.

Garden Club Had 'Tree" Discussion

Should we have a tree planting rogram? No garden is of perm nent value without trees says Mrs T. M. Tanner. According to Mrs. Charles Jones a Texas Tech hortiulturist recommends Honey Loc ust, Magnolia (stellata), Mountain Ash. Redbud or Mimosa trees for West Texas. In planting your trees is very important to check your subsoil if you would have your trees live, says Miss Jackson, These were three important points a group of Garden Club speakers made at the meeting Manday.

In the business session conducted by the president Mrs. Bob Henthorne, three delegates were appointed to attend theconvention & short course March 26, 27, at Lub-bock. They were Mesdames Pob Henthorne, T. M. Tanner and H.

Members attending wore Mmos: Charles Jones, Henthorne, Dan Brown, A. A. Fralin, Barnes, Jerry Barton, Ollie Robinson, T. D. Mar shall, Roy Gunnels, Tanner. Roy Hill. Miss Lonora Jackson and Miss Leila Petty and two visitors, Mrs. C. B. Jones, and Mrs. Glenn Jones, and the hostess, Mrs. R. J. Hill.
On April 1st at 8 p.m. the club
will meet with Mrs. Dan Brown.

Morton Jaycees OK Fair Project

itt. 35; Howard Pollard, Yoakum

Approving a plan to act as the rganizing agent for the 1957 Coctran County Fair, to insure its continution this year, the Morton Jaycees, Monday, named a five man committee to work at accom plishing this goal.

The group emphasized that the aycees do not intend to stage the Fair, nor to shoulder the maineffort of staging the fair Simply de want to do their part in the ir. & to act as the group which contact the other organizations d interested parties and see that 1957 Fair Organization is formed. On the five man group are El-wood Harris, John Barnes, Joe Boone, Bob Huckabay and Joe Seag-

The group discussed several other projects but took no other action except to give voice approval to enative plans on a new trades day drawing for Morton. One guest, S. J. Bills, was hand for the meeting.

Edna Waltrip To Pledge at M-M

Waltrip, daughter of Mr. and Mrs. W. J. Waltrip of Morton has been invited to pledge a social club at McMurry College.

Miss Waltrip is pledging Alpha
Pi Alpha, women's social elub at

the Methodist College. She is among the more than 100 McMurry students who received invitations to pledge the nine clubs for men and women during the current spring semester.

A 1956 graduate of Morton High School, Miss Waltrip was a member of the Annual Staff, FTA, FHA and the Speech club. She was also valedictorian of her class

Don Elliott is part time pastor of the Fin Christian Church in Morton. He attends colle at Texas Tech in Lubbock and is currently senior pre-med student. Next year he will tend medical school at Baylor Medical school is Houston and will eventually become a medic missionary with the United Christian Mi

What the Christian Churches Believe by Don Elliott, First Christian Church

Morton, Texas

This week we tell about our belief that "there is one God and Creator-sustainer and director of the universe, who loves u through Jesus Christ."

This almost universal Christian Belief, is one which sums up the key to a complete understanding of the world. We must con stantly realize that God created us and likewise created our world around us. Too many times in this age of scientific discovery man is prone to get the idea that he created everything, including himself; but this does not tell the whole story. It is true that we can create many things and there seems to be no limit on what may come in the future through science. Is this evil? I think that it need not be. God expected us to use our minds to "create things in His world; else, God would never have given man the power to think. We do need to remember, however, that everything that has ever been created by man was first thought of by God. He was the One who gave us the basic tools. Certain then we must realize that God is back of this whole scheme of

Just as God is at the beginning of things, so is He the sistainer of things now, and is the ending. (As in Revelations 1:8, God says "I am the Alpha and Omega, the beginning and the ending which was, which is, and which is to come.") God did not create the universe and then leave it to run down like some giant clock mechanism. We can continually see God working in and through history, still making His will known,

This will of God, of course, has been best expressed in his tory through Jesus Christ, who showed us how God's will was a will of love, with a purpose for each of us. (John 3:16).

We often fail to see the implications of this love, however, for our lives. This happens when we do not keep in contact with Got through prayer, (which too many of us give up because we an not willing to place our confidence in the power that is ther bible reading (which we "forget" to do each day because we not read it intelligently, open to its power, but read into it our o petty desires and beliefs) and through the Christian commu which is the church (which we do not attend because we have a learned the joy in real worship of God.

Thus we must not allow our concepts to become so small that we keep God out of our souls and minds. Only when we realize that God first loves us, through Christ and His creation, can we love Him (see I John 4:10 and 4:19); and only then does life become

Next week we will speak about the response we may have to this love, as free agents. Until then we welcome you to visit is in our Sunday morning service at 11 o'clock, in the Veterans Hall where we are temporarily meeting.

We invite your questions and comments. Just write to Don Elliott, First Christian Church, Morton, Texas.

New 800-6A power unit develops 148 hp on LP gas and 134 hp on natural gas at 1200 rpm.

Here's another dependable MM power unit designed to furnish low-cost, trouble-free performance. Smooth, 6-cylinder high-turbulence power and counter-balanced crankshaft reduce tor-

turbulence power and counter-balanced crankshalt reduce to sional vibration for longer engine life.

Newly designed heet exchanger base plan keeps oil at proper operating temperature, greatly increases engine life and lengthens period between oil and filter cartridge changes. Pan acts as a cooler as well. Sight oil glass provided in base pan can be converted to oil-flow control valve for adding oil directly to crankcase from a barrel of oil, thereby keeping oil at a constant level. Pan attaches directly to an SAE standard flywheel housing and provides a rigid mounting of the power take-off for heavy belt drives, etc. Double-disc clutch and power take-off are of heavy-duty design.

duty design. MM heavy-duty power units are noted for their long life. Nine models to choose from. Stop in soon. Let's talk over
