A NEW HIGH IN PERFORMANCE!

Higher octane! Higher power! A new gasoline that brings out the best in today's more powerful engines!

Announces a New

Now Phillips 66 brings you its new FLITE-FUEL with the higher octane and higher power you need to get peak performance out of any car. Not only new cars, but older cars, too, will benefit from the remarkable performance qualities of this higher-powered FLITE-FUEL. It's blended for local driving conditions. It's the only gasoline containing added Di-isopropyl. It has extra high octane for smoothness and long mileage. It's clean burning, so it needs no anti-fouling additive. iness, and the rising retail prices, and after much research, I have decided to discontinue giving Scotty Stamps.

During the last 5 years I have tried to offer quality merchandise at competitive prices and I want to continue this policy.

I plan to offer Exceptional good Specials and sales promotions which will result in much more saving to the customer than would a savings stamp plan which offers only 2 to 3 per cent saving. Also, my plan will result in more savings in our comunity, and not take money out of town to a Stamp Company.

With Farm equipment, repairs, food and clothing, along with everything else a farmer must buy continuing to rise in price, and with cotton and grain and other produce remaining the same, the merchants of Morton must try to help in any way they can to make ends

I hope that by this action I may continue to give the Service that I have in the Past and to contribute my part to the Community's well being.

Sincerely. Charles Jones P.S. - We will continue to Redeem

Here's why Chevy's best-showroom is the road!

Because Chevrolet's sleek good excessive loads off the front wheels, looks, its advanced features, are only part of the story. The big springs, Ball-Race steering, spherbonus is its remarkable roadability, the crisp precision handling that has posted an entirely new standard for cars in every price class. There are reasons for this, of course: Chevrolet's balanced weight distribution that takes

the wide stance of outrigger rear ical-joint front suspension. Sure, you can admire the sculptured lines in the showroom. But Chevy's a car specifically designed for beautiful motion-you have to travel in this one to know just how terrific it is. Try it, this week!
