COAST-TO-COAST **ECONOMY RUN PROVES IT-**

CHEVY COSTS LESS TO DRIVE!

Test run from Los Angeles to New York by the three leading low-priced cars showed Chevrolet costs less to operate, with up to 17% greater fuel economy!

When fuel and operating costs for cars are officially checked from Los Angeles to New York, that's an economy comparison! And what happened?

In certified NATA * findings, Chevy delivered up to 17% greater fuel economy, and lower total cost for the trip-proof that Chevrolet costs least to operate of the three leading lowpriced cars that were tested! But that's not surprising. You expect Chevrolet engines to wring extra miles out of a gallon of gas-just as you expect finer craftsmanship in the way a Chevy is built. Better see your Chevrolet dealer soon!

COAST-TO-COAST **ECONOMY RUN PROVES IT-**

CHEVY COSTS LESS TO DRIVE!

Test run from Los Angeles to New York by the three leading low-priced cars showed Chevrolet costs less to operate, with up to 17° greater fuel economy!

When fuel and operating costs for cars are officially checked from Los Angeles to New York, that's an economy comparison! And what happened?

In certified NATA* findings, Chevy delivered up to 17% greater fuel economy, and lower total cost for the trip-proof that Chevrolet costs least to operate of the three leading lowpriced cars that were tested! But that's not surprising. You expect Chevrolet engines to wring extra miles out of a gallon of gas-just as you expect finer craftsmanship in the way a Chevy is built. Better see your Chevrolet dealer soon!
