## **Leading Southwestern Farmers Get More Profit from Cash Crops** with Phillips 66 Ammonia

From all over the Southwest, successful farmers report profitable use of Phillips 66 Agricultural Ammonia, the 82% nitrogen fertilizer. They say that by using Phillips 66 Agricultural Ammonia they get more cotton that grades out higher at the gin . . . yields of grain sorghum grain and ensilage are increased ... more marketable vegetables are harvested . . . and profits on wheat are increased through better forage and higher grain yields.

For more profit per acre from your cash crops, through higher yields and lower production costs, see your Phillips 66 distributor about profitable Phillips 66 Agricultural Ammonia, the 82% nitrogen fertilizer.

#### Lions Complete Plans On Musical To Be Presented

The Morton Lions Club announced this week that arrangements have been completed for the presentation of a musical comedy cal-led "Around The World in a Daze" — to be staged at the County Activities Building on the nights of

April 17 and 18. The action of the show, as indi-cated by the title, takes place all over the world. Casper Perkins, winner of a trip around the world for two, takes his landlady, Ma-ble Mullins, with him on this hilarious adventure. At each stop, they are introduced to new sights and excitement by two charming airline hostesses, and each stop seems more exciting than the last. One outstanding scene takes place in the land of fairy tales, Denmark, where Casper and Mable see the story of Cinderella acted out

the story of Cinderella acted out by a group of children from the second and third grades."

The travelers visit Paris, Japan, peasant villiages in Europe, and have several stops in the USA.

A professional director will put on the show using local talent,

OCEAN TO OCEAN ACROSS SOUTH AMERICA - AND BACK - IN 41 HOURS!

#### **CHEVY'S NEW V8 LEVELS** THE HIGHEST, HARDEST HIGHWAY OVER THE ANDES!

To prove the durability of Chevrolet's radical new Turbo-Thrust V8,\* the tremendous flexibility of the new Turboglide transmission,\* the incredible smoothness of Full Coil suspension, we tackled the most challenging transcontinental road in the world -- the 1,000-mile General San Martin Highway. To make it harder, the Automobile Club of Argentina sealed the hood shut at Buenos Aires -- no chance to add oil or water or adjust carburetors for high altitude.

So the run began -- across the blazing Argentine pampas, into the ramparts of the forbidding Andes. Up and up the road climbed, almost 24 miles in the sky! Drivers gasped for oxygen at 12,572 feet but the Turbo-Thrust V8 never slackened its torrent of power, the Full Coil springs smothered every bump, the Turboglide transmission made play of grades up to 30 percent. Then a plunge to the Pacific at Valparaiso, Chile, a quick turn-around and back again. Time for the round trip: 41 hours 14 minutes -- and the engine was never turned off!

You'll get the best buy on the best seller!
