## Board Asked To "Go Easy" ON Spending — HOSPITAL BOARD ASKS JUDGE TO CHECK INTO AVAILABILITY OF EAST GERMAN DOCTORS

Cochran County Judge Glenn Thompson has advised the Cochran County Hospital Board of Managers to go easy on operating expenditures.

The advice was given Monday night at the board's regular second Monday night meeting at the hospital.

Present for the meeting were J. O'Brien, president of the board; W. Barrett, vice-president; Bill Bradford, secretary to the board; and members, J. C. King, L. E. McDonald, and Arvell Snodgrass. Also present were Dewitt Allsup,

administrator of the hospital, and Judge Thompson.

## Whiteface Extends School Contracts

WHITEFACE (Sp.) — The Board of Trustees of the Whiteface Public Schools extended contracts with Superintendent Weldon A. Skinner, Ralph Bradley, junior high principal and R. K. McCoy, elementary principal and Henry D. Alvin, Tax Assessor - Collector.

Contracts for all Whiteface teachers will be considered in a regular board meeting on Feb. 23.

Contracts for all Whiteface teachers will be considered in a regular board meeting on Feb. 23.

## Hockley F. Bureau Invites Neighbors To 2 Meetings

Cochran County Farm Bureau members and other interested area men have issued an invitation to attend two meetings coming up in Hockley County, which would prove both interesting and informative.

## Boaty's Garage In New Location

Boaty's Garage and Cars is moving to a new location, the first building south of the First State Bank, Morton.

## Roast Beef Dinner To Be Served Sunday, March 1st

The Young Matron's Junior Study Club will have a Roast Beef Dinner at the Activities Building, Sunday, March 1st.

## Lions Donate On Visual Machine For Local Schools

The Morton Lions Club, last week, at its regular meeting, voted a \$100 donation on a visual machine for testing eyes, to be used at the Morton Schools, and available for use of other neighboring schools.

## New Lights Up Around the Square

Visitors to downtown Morton have noticed a big change in the city's lighting this week.

## Three Charter Members on Hand As Local Lions Observe 20th Anniversary

"Lionism is a lot of people banded together with the same idea — helping people," Dr. Dick Self, former international director of Lions International, told members of the Morton Lions and their guests at the twentieth anniversary dinner of the Morton Lions club Tuesday night.

## County Judge Makes A Report To The People

(Editor's Note: The following statement was prepared by the Cochran County Judge, Glenn Thompson.)

## Indians Lose Two; Abernathy Wins Both 2-AA Titles

In a pair of strikingly similar games, in which both scores turned out 8 points against them, Coach Bobby Travis' Morton Indians ended their season on a sour note, losing to Abernathy and Lockney, and frittering away any chance they had to win their third straight district basketball championship.

## Half of County's Special Rat Bait Supply Has Been Bought Since Drive Opened

Approximately half of the rat bait ordered for Cochran County has been sold, Homer Thompson, county agent, advised this week.

## Gospel Meeting Well Attended

A continued good attendance was reported for the gospel meeting which closed Sunday night at the Eastside Church of Christ in Morton.

## Chili Supper at Bledsoe, Feb. 20

A chili supper, with proceeds to go to the March of Dimes drive in this county, has been set for Bledsoe, Friday, February 20th.

## Bailey Co. Co-op Sets Program for Members' Meeting

The annual meeting of the members of the Bailey County Electric Cooperative Association will be held February 20, 1959 at 2 p.m. in the High School Auditorium at Muleshoe, Texas.

## Senior Club Sets Sunday Dinner

The Morton Senior Club has announced a dinner for Sunday, Feb. 22, starting at 12 noon in the County Activities Building Banquet Room.

## Delinting Plant Is Now Open

Just an hour or so after the first run of the Tribune had been put on the press, and started, the Tribune received a call from Curtis Willoughby, of Cochran County Delinting Company, reminding folks he is now open for business.

## Shirts, Sheets Still Needed by Cancer Group

More and more white shirts and white sheets are needed by the local representatives of the American Cancer Society for the making of bandages, Mrs. Roy Hickman, Cochran County Service Representative for the society, said again this week.

## County to Aid In Farm Labor Job Placement

Fridays will be Farm Labor Days for Cochran County starting tomorrow.

## Two New Farm Roads Seen for County

Cochran County may have two more roads added to its road system if all goes well with two proposed road building projects which have been "hatched up" in the past month.

Commissioners from Cochran County met in Milnesand, N. M., Tuesday afternoon, with Roosevelt County Commissioners at Milnesand, New Mexico, to talk about completing a road through from Bledsoe to Milnesand and get it a FTM designation.

The second proposed road, of about 13 or 14 miles in length, would connect at what is known as the 214 cutoff, or Sundown Cutoff, 17 miles south of Morton, and would go through the Buckshot Oil Field and the area now being broken out for new farms.

## 56,839 Bales of Cotton Ginned Here; Increase of 10,000 Bales over 1957

Cochran County ginned 56,839 bales of cotton from the 1958 crop the U. S. Department of Commerce, Bureau of the Census, announced this past week.

Figures for Hockley County were 157,583 for 1958 as compared to 164,147 for 1957.

## Supt. Barnes Gets Contract Extension

The Morton Independent School District Board of Trustees, in a vote without opposition, Monday night extended the contract of Superintendent of Schools John Barnes, another year, giving him a 3 year contract at the same salary, \$10,000 yearly, effective July 1, 1958.

## County Judge Makes A Report To The People

(Editor's Note: The following statement was prepared by the Cochran County Judge, Glenn Thompson.)

## Father Dies In Lubbock Home

W. A. Tadlock 76, father of Mrs. J. N. Leavitt, teacher of mathematics at the Morton High School, passed away Friday at 4:15 a.m. in a Lubbock convalescent home.

## Dee Willingham Purchase Grocery

Mr. and Mrs. Dee Willingham announced this week the purchase of Weed Grocery on South Main, Morton. Beginning Monday it will become the Willingham Grocery.

February 3, 1959

Dear Friend:

This Nation faces challenges by Russia on two vital fronts — in space and on the ground.

In the survival for space, this Nation trails the Soviets. And on the second front — of economic warfare — it faces the taunting dare of the Kremlin.

In development of missiles — in the exploration of outer space — this Nation is engaged in the deadly game of playing catchup. We are trying to catchup with the Russians.

Quick up we must. And soon. The goal must be to exceed the Soviets.

But before that achievement can be accomplished, we must determine how far this Nation is behind. We must determine what must be done now.

That is the purpose of the Defense Preparedness and Space Committee hearings now in progress. But in meeting Communism on the front, we cannot abandon the

It was Nikita Khrushchev who recently boasted the Soviets can beat this Nation to its knees by economic warfare.

The challenge must be picked up. Answered. Hurled back. We must realize this Nation is engaged in a race for survival of our way of life. It is a race in which we are a day late and a dollar short.

We must have bold, imaginative programs to open new markets. New patterns of distribution must be sought by the best informed minds in the field of foreign trade.

To answer the challenge of the Kremlin, I firmly believe it would be well now if we were to assemble an advisory committee of businessmen. Men of action, experience and vigor.

From this group should come recommendations of economic strategy — broad plans that would put this Nation on the attack in shattering the Soviet economic challenge.

### SENATOR Yarborough's Report

We have all seen and have all been concerned about the towns of Texas which prosperity has passed — those communities that are growing smaller instead of larger.

Unfortunately, we have quite a number of little Texas towns where people are having a difficult time making ends meet. Boarded up store windows and deserted farm homes are mute evidence of a gloomier day for these areas.

The best way of stopping the slow death of these once-prosperous communities is to help each town to help itself. Since our state is blessed with rich natural resources, many of these communities could build or attract new industries. But it is frequently impossible for a town that has gone downhill economically to raise necessary funds for surveys, sites, and construction necessary for establishing new industry. Yet new industry means vital new jobs and new payrolls.

Local funds needed to help get these towns and areas back on their feet are provided in a bill which I am co-sponsoring called the Depressed Areas Act. The portion

of this act applicable to rural redevelopment establishes a \$100 million revolving fund from which loans could be made for local industrial development projects.

Under this plan, the town's leaders would decide what type of industry could best be located in the area, and then can apply for a loan to set up or attract such an industry. This bill is especially designed to help these small towns which cannot obtain industrial capital from other sources.

This loan would help create the factory which would create the jobs which would give the city's residents more money to spend with their hometown businesses, thus improving the town and our state.

Please notice I am speaking of loans. There are a few grants for public facilities included in this measure, but primarily the assistance would be provided in the form of loans. These loans must be repaid. This means it is an investment program rather than a spending program.

In my opinion, this bill would be of great benefit to some areas of Texas.

Senator Preston Smith

By Sen. Preston Smith

Several issues carried over from the 56th Legislature are already on the agenda this session.

Among such bills facing decisions are:

A bill to increase the truck load limit to 22,000 pounds.

A measure that would not require a state permit to impound water in lakes not exceeding 200 acre feet.

Amendments to the rural electricity law.

Pay raises for members of the Legislature.

Measures to regulate the small loans business in Texas, more popularly referred to as the "loan shark bill."

Municipal bills dealing with city service and other city problems.

Elevation of some junior colleges to senior status.

There are many other issues. But the measures and the issues they involve, as listed above, consumed many hours of debate in both houses two years ago.

Truckers and railroad men are busy counting noses in the House and Senate on the controversial 22,000 pound truck load measure, which passed the House two years ago but lacked a very thin margin of having enough votes to be brought up in the Senate out of order in the closing days of the session.

Trucking interests were said to have been active supporters of several freshmen members of the Legislature. This measure to raise the truck load limit from the present 18,000 pounds was one of the hottest potatoes of the last session.

Lobbying activities will be moving into high gear soon, since the appointments of major committees for the 56th Legislature are complete.

Pay raises for members of the Legislature.

Measures to regulate the small loans business in Texas, more popularly referred to as the "loan shark bill."

Municipal bills dealing with city service and other city problems.

## 'Women Better Patients,' Says Family Doctor of Year

Dr. Lonnie A. Coffin, M.D., of Farmington, Iowa, back at work after being named General Practitioner of the Year by the American Medical Association.

"Women are better patients than men," according to Dr. Lonnie A. Coffin, Family Doctor of the Year. "They'll do what you tell them, but men won't."

At 68, Dr. Coffin is a warm and happy man, easy with his words and with views on life. Here are a few of them.

On smoking: "It's undoubtedly bad for you. I gave it up after my coronary, and — he stopped to light one of his six cigarettes — I've given it up several times since then."

On health: "The work of the voluntary health agencies makes me confident about the future. The National Foundation, for instance, which helped us eight years ago when a polio epidemic hit Farmington (three of Dr. Coffin's four grandchildren were stricken), is now applying its March of Dimes funds to problems like arthritis and birth defects. That's good news, and good health."

On sickness: "If you're sick, do what you can to get well, but try not to worry about it. If you worry, you'll feel worse and so will everybody around you."

On being sick at night: "We all get sicker at night. That's because we have more time to think about ourselves."

On drinking: "There are only certain people who should drink. Those who can both control it and afford it."

On fishing: "You can fish sitting down and I like that. If you catch something, fine. If you don't, exaggerate."

On being a doctor: "I try to take care of people no matter what the hour, no matter where they live, no matter who they are. Where or when they get sick is not their fault."

On being a doctor named "Coffin": "Well, it's true that's what they carry you off in. But the fact is my name hasn't scared off too many patients."

### ANIMAL HEALTH

Several bills dealing with Animal Health have been introduced this session. The main one of which is a brucellosis control program for cattle other than dairy cattle.

Dairy cattle already are under a combination State Federal Program.

The program would require 75% of the stock owners to approve it in any area, and then it could go into effect and all stock owners would have to comply.

CATTLE TO BE BANNED Unless Texas sets up a program for its beef cattle, we may find Texas cattle banned from many states. When a state becomes brucellosis free, then cattle from an area which is not "clean" will be banned from entry into that state.

House Bill 31 would help take care of this problem.

RIGHT TO WORK LAW Texas' Right-to-Work law is coming under fire this session. The labor unions have introduced several bills which might allow the repeal of this law.

MUST BELONG TO UNION In many states which do not have a Right-to-Work law, all workers (farm workers too) must belong to a union and pay their dues before they can go to work.

Of course, this means more money for the unions because more people pay dues. I believe in a man's right to work without having to belong to any group or organization or labor union. When we have to pay dues for the right to get a job, then we have lost a little more of our freedom.

SPENDING All groups are now appearing before the House Appropriations Committee requesting more and more money. The more money that is required, the more taxes we will have to pay.

This is the vicious circle in which we find ourselves.

CUT THE FAT The problem, of course, is where we can "cut the fat" and where we must expend to adequately provide state services for Texans. Certain fundamental programs must be expanded, and yet all money requests cannot be granted.

These are the "horns of the dilemma" which is before the legislature. As members of the legislature, we must therefore make some people happy, and some people mad, and others merely disappointed. I hope you will be one of those who are "happy."

BOB BOWERS, State Representative, 98th District

### SOIL SAMPLING

Many farmers are coming in daily and inquiring about getting soil samples run. The season is here to determine your fertilizer needs. First, the farmer needs to have a soil analysis run. Then he can determine the approximate amount of fertilizer requirements for each crop on that particular land.

To use fertilizer by guess work, is like determining the speed of a car without a speedometer.

I had a farmer tell me he was going to use 250 lbs. of 7-14-7 per acre on his cotton land. This farmer had an analysis run in 1957 and he needed to use 40-60-0 fertilizer per acre. 250 lbs. of 7-14-7 would give him about 17-35-17 lbs. per acre. This would be about 1/2 as much fertilizer as the test called for. Be sure not to overlook the higher analysis fertilizers. For example, it would take 300 lbs. of 10-20-0 to meet his 30-60-0 requirements or 200 lbs. of 15-30-0 per acre.

The County Agent's office has available on request soil sample cartons which you may use to put the soil in for testing. Come by and pick them up if you are thinking of having a soil analysis run. Wrap these cartons very securely and mail them to the Soil Testing Service, College Station, Texas. You should have your return in 10 days after mailing.

When taking the soil sample use a spade. Dig a V-shaped hole in

the soil, 6 inches deep, then take a thin slice the full depth of the hole. Place the soil in the container. Take a new sample of soil with different texture or slope. Repeat until you have sampled the different types of soil. If you wish you may mix thoroughly several composite samples together and take one sample of soil for testing from this composite.

If you take more than one sample of soil for analysis — number each sample and mark on your farm outline just where each numbered sample was taken. Too, list all crops you expect to grow in 1959 on this land; so you can make an interpretation of the proper fertilizer recommendation. This office has a sheet of questions for you to answer and send in with your soil.

Precautions:

1. Avoid taking samples in unusual spots as gullies, etc.
2. Do not use old vegetable cans, tobacco cans, or match boxes to submit samples.
3. Do not use heat to dry samples.
4. Be sure sample numbers on the carton correspond with sample numbers on the information sheet.
5. Be sure to keep a record for yourself as to area represented by each sample.

You may pick up the information sheet with instructions and soil sample cartons anytime in the County Extension Office.

All of Lots Nos. One (1), Two (2), Three (3), and Four (4), Block No. One (1), Evans Subdivision No. Two (2), of the East part of Acreage Blocks Nos. 68 and 76, Original Town of Morton, and that part of Tract No. 6, Minnie Slaughter Veal Subdivision of League No. 102, Jeff Davis County School Land, South of South right-of-way line of State Highway No. 116, situated in the East part of Morton, in Cochran County, Texas, and consisting of approximately 2 acres of land.

Any additional information on this property can be secured from Alton Burleson, Morton, Texas. Bids will be received until 2:00 p.m., February 20, 1959. Mail or bring bids to First Baptist Church, Box 117, Morton, Texas.

The Trustees reserve the right to reject any or all bids, and such bids shall be accompanied with a bid check of 10% of the bid. All bid checks will be returned or applied on the purchase price of the property.

This the 27th day of January, 1959.

Trustees, First Baptist Church Morton, Texas Alton Burleson, Chairman

#### LEGAL NO. 168 NOTICE TO DEPOSITOR BIDDERS

THE STATE OF TEXAS COUNTY OF COCHRAN

Notice is hereby given to any and all banking corporations, associations, or individual bankers in Cochran County, Texas, that on March 2nd, 1959, at the special February 1959 term, at 10 a.m., o'clock of such morning in the Commissioners' Court Room in the Court House at Morton, Cochran County, Texas, such Court will consider bids for contracts to become Depository for the Public Funds of Cochran County, Texas, for Depository for the Public School Funds of the Common Schools of Cochran County, Texas, and for the Public Trust of Cochran County, Texas.

All such bids should be prepared in accordance with the Laws of the State of Texas, as contained in Chapter 3, Title 47, Revised Civil Statutes of Texas, 1925, as amended, and presented to G. W. Thompson, County Judge of Cochran County, Texas, on or before the day and hour mentioned for consideration by the Commissioner's Court in Regular Session sitting on such day at such hours of such day in the place mentioned.

This notice to bidders shall be published in some newspaper published in Cochran County, Texas, as for at least twenty days before such day, and shall also be posted at the Court House of Cochran County, Texas, in the City of Morton, Texas, for at least twenty days before such day.

Full instructions as to preparation of bids may be obtained from G. W. Thompson, County Judge of Cochran County, Texas, at his office in the City of Morton, Texas.

This 9th day of February, 1959.

G. W. Thompson, County Judge Cochran County, Texas 51-31c

## Jaycees To Collect Funds to Put On County's 4-H, FFA Fat Stock Show

Jaycees will be contacting folks this week for contributions to support the coming livestock show. At Monday's regular noon meeting, Elwood Harris, Fat Stock Show Committeemen, passed out cards with names thereon for members to contact.

An American Medical Association film on the community problem of doctors was shown. Bill Bridge, president of the club, announced that next had been set as the day for members to receive their shots if they hadn't already taken them.

## Branch Office of SBA Is Opened At Lubbock

LUBBOCK (SpL) — South Plains businessmen can now take advantage of a Small Business Administration branch office which has opened in the Veteran's Administration Building, 1600 19th St., in Lubbock.

The SBA, created by Congress in 1953, gives financial assistance to qualified small businesses, counsels them on their financial problems and provides them with technical aid and management tips.

"Sometimes we can help a business without ever making it a loan," points out Carl Gallagher, acting manager of the new Lubbock office. "In fact, we are not in competition with private institutions and we encourage businessmen to go to their local banker."

To qualify for an SBA loan, according to Gallagher, a business must show that it is unable to get help elsewhere and the owner or owners must evidence good character and ability to operate a business successfully. He also must have enough capital so that with the aid of an SBA loan the business will be on a sound basis.

The Lubbock SBA office will serve a 96 county area west of a line from Quanah to Ozona.

Small businessmen in this area can obtain help from the SBA concerning how to boost a product, how to get a fair share of government orders and contracts, how to improve accounting methods, and how to solve other management and technical problems.

The SBA is authorized to make several types of loans, including direct and participating, up to a total of \$50,000.

## General Telephone Distributes New Phone Directories

The most widely used book in Morton will be delivered this week.

"It's the new telephone directory, bigger and better than ever," says Paul Farrar, district manager for the General Telephone Company of the Southwest, "with more names, more Yellow Pages, and more information." The color of this new book has also been changed. It is now dressed up in a colorful new cover, he said.

More than 4,900 directories will be distributed throughout the area with all up-to-date information.

Farrar has this suggestion about the replacement of your old directory: "Leaf through the old book. You may find something valuable in it. Folks have found money, important letters, notes, as well as cherished addresses in their telephone directories. And while you are going through the old directory, you'll want to transfer the frequently called numbers you have written down to the new book."

### TAKEN TO HOSPITAL FOR CHECK - UP

Mrs. Mamie Dean, mother of Mrs. Byron Willis of Morton, was in the Phillips - Dupre hospital, Levelland, Monday for a check-up. She was expected to return to Morton Thursday.

### Shinnery, Bindweed Control Ideas Be Explained Monday, Feb. 16th

County farmers who have been troubled by shinnery and bindweed control problems are invited to attend a meeting at the County Auditorium, Monday, February 16, at 8 p. m.

The purpose of the meeting is to discuss the latest data from the Extension Station on the control of shinnery (bituminous weed) and bindweed.

It is being done for shinnery and bindweed control problems. The County Agent advises that the same can be said for bindweed. Also much work has been done on poison and control on range land.

Robison, Range and Grass from the Spur Experiment Station will be on hand at the meeting to discuss methods of control of these weeds and grass seeding.

A grass film will be shown, the Agent advised, and added that if the farmers were interested, they will go to the Frank Bennett Ranch, after the meeting and observe some "on the spot" demonstration work. Bennett is in the "Great Plains Program."

#### VISITED RANCH

Mrs. Jenny Bea Denny spent last weekend at the McAdams Ranch near Crowell with her aunt and uncle, Mr. and Mrs. McAdams and other relatives.

### Corner on Cotton BY BOB COLLINS

This season's cotton support price will be 30.40 cents for Choice "A" and 24.70 cents for Choice "B" basis Middling 7/8-inch... based on formulas used in the past some pretty smart cotton men predict the difference between Middling 7/8-inch and Middling 1-inch will be 370 points... if this is the loan differences (and loan differences probably won't be announced before spring) that would mean Middling 1-inch Choice "A" cotton would have a support price at 34.10 cents and the same grade and staple in "B" would have a support price at 28.40 cents... you now have a much sounder basis to decide whether or not to take the "A" or "B" Choice... if you choose "B" you must notify your county committee in writing by March 16.

**Near Correct**  
Those of you who wrote for the work sheet will note that the prices were only a few points on for Middling 1-inch.

#### Misunderstood

Two items of the new cotton law should be pointed out: First, you don't have to sell your "A" cotton to the government... you can sell it where you please... if the market is above the support price you can sell your cotton on the market, but get this: Once the government takes over your "A" cotton, you can't withdraw it as you have been able to do with cotton in the past;... second, the law says that the Secretary of Agriculture may allow a farm operator to change from "B" to "A" if something prevents his planting his "B" acreage but the law doesn't say it will be done, it just gives the Secretary the authority to do it if he wishes... but if something beyond your control (such as excessive rain) does prevent your planting all your allotted "B" acreage, you should apply for a change.

#### Market Builders

If you haven't read this paragraph from the President's farm message you should... if you have read it, read it again to a friend:  
"Our farm families deserve programs that build markets. Instead they have programs that lose markets. This is because the overall standards for the programs they have are outdated relationships that existed nearly half a century ago."

### Local 4-H, FFA Boys Eligible to Enter Animals In Lubbock Jr. Stock show

Regularly enrolled 4-H Club and Future Farmers of America of Cochran County are eligible to apply for entry in the South Plains Jr. Fat Stock Show, March 16, 17, and 18, at Lubbock. It was announced this week by the Lubbock Chamber of Commerce.

The show is timed well as far as local boys are concerned, since the Cochran County 4-H and FFA Fat Stock Show will be completed on the Saturday previous to the opening of the Lubbock show.

Teachers and the county agent have all information and forms with which to enter qualified exhibitors. Ray F. Johnson, the show's general chairman, has announced.

Entries in the Jr. Fat Stock Show, one of the largest in the state, must be postmarked by March 3, 1950. All entries must be through FFA teachers or the county agent.

The livestock bags at the Pasha-South Plains Fair Grounds will be opened for exhibitors at 8 a. m., March 14, for checking in of animals. All entries must be in the stalls by 6 p. m. that day, Johnson added.

Sitting committees, which eliminate unqualified animals from the show, will begin work Sunday, March 15.

The show will close with the annual auction sale of prize winning animals on March 18.

Lubbock is presently raising money among merchants and businessmen to provide higher-than-market prices at the auction of 4-H and FFA stock, and to provide prize money for winning stock.

### Entries Due for Fat Stock Show By March 1st

Cochran County 4-H boys were advised this week by their Agent, they have until March 1st to turn in to him, a list of entries in the Cochran County 4-H and FFA Fat Stock Show, March 13-14.

He asked the boys to mail to him the following information on a card — as soon as possible:  
Name of 4-H boy, number of head of each type animal, and description such as breed and approximate weight.

### Farmers, HERE'S FACTS ABOUT COTTON DELINTING

You can plant your fuzzy, flame, gas delinted, saw delinted or wet acid delinted. We recommend the wet acid process. Here's Why:

1. Seed stays in contact with the acid for a period of only 20 seconds or less.
2. Water is used to neutralize.
3. Does not eat the bags.
4. Wet or green seed can be safely delinted.
5. Can be safely stored and used for a period of several years.
6. Does a more thorough job on angular leaf spot and other seed borne diseases.
7. Heat is used only to dry seed after the acid has been washed off.
8. More uniform planting.
9. More even stand.
10. Quicker emergence.
11. Plant faster.
12. Get bigger yields.
13. Gravity table breaks up the weak seed.
14. Treating prevents seed rotting even in cold, stormy weather.
15. No sticks, stems, or dirt to clog up the planter.
16. In warm soil, seed will sprout in 12 hours — a stand can be had in 4 days.
17. Less moisture is required for germination.
18. For only one pound of wet cotton per acre you can have your seed delinted using the wet acid process.

A phone call will get you complete details —

By LEILA PETTY

- NOW IS THE TIME**
1. To give shrubs, trees and lawn a good watering.
  2. Fertilize the lawn.
  3. Set out new shrubs and trees.
  4. Prune all dead branches from trees and shrubs. Do further pruning if needed, except on early flowering shrubs such as forsythia, flowering quince, red bud, etc. They should be pruned after blooming if needed.
  5. Cut off and burn tops of chrysanthemums and other perennials.
  6. To plant petunias and annual phlox.
  7. To plan the vegetable garden for a succession of vegetables.
- Staggered plantings will give a continuous supply of top quality vegetables over a longer period of time.

**TRYING TO CUT FOOD COSTS**  
It's likely you're paying more for food when you pay the grocery bill.

How much you pay will depend on a number of things. When and where and how you shop; whether fruits, vegetables and meats are fresh, canned, or frozen; whether foods are in seasonal supply, and whether you select luxury or economy items.

Monthly food bills will also be affected by the amount of impulse or "spur-of-the-moment" buying you do; the keeping quality of food you select; how you handle, store and cook the food; and how much goes into the garbage can.

Another factor is the amount of home preparation you're willing to do.

**PLANS FOR THE MONTH**  
That making workshops will be held this month for special interest groups. Non club members who are interested should contact this office.

**FOOD FOR THOUGHT**  
These thoughts are credited to Abraham Lincoln.  
You cannot bring about prosperity by discouraging thrift.  
You cannot strengthen the weak by weakening the strong.  
You cannot help the wage earner by pulling down the wage payer.  
You cannot further the brotherhood of man by encouraging class hatred.  
You cannot help the poor by discouraging the rich.  
You cannot establish sound security by spending more than you earn.  
You cannot build character and courage by taking away a man's initiative and independence.  
You cannot help men permanently by doing for them what they can and should do for themselves.

**LOW CALORIE FOODS CAN BE DELICIOUS**  
Low-calorie foods can be tasty provided you select and prepare them for fine flavor.

Fresh fruits, vegetables, cottage cheese and lean meats are examples. All are the makings of good meals, and not necessarily fattening ones. Remember that you add calorie value to these foods when you dress them up with mayonnaise, whipped cream, gravy, rich sauces or other fats or sugars. It is suggested that weight watchers use spices to season vegetables instead of rich cream sauce, butter, or margarine.

Use a little salt and vinegar or lemon juice on your green salad instead of salad dressing. Each tablespoon of mayonnaise adds 90 calories.

Raw fruit is always a wise choice for dessert. Have an apple or an orange at 75 calories, a half grapefruit for 45. Choose apple pie or a piece of cake and you get approximately 350 calories.

Remember that daily meals should include the basic foods necessary for good health — milk, meat, fruits, vegetables, cereals and breads. Go slow on pastries, candies, fats, salad dressings, and rich sauces when you need to cut calories.

**LOW CALORIE SALAD DRESS'G**  
Mix together 1/2 cup tomato juice, 2 tablespoons lemon juice or vinegar, 1 teaspoon salt, 1/2 teaspoon dry mustard, 1 teaspoon grated onion, and 1/2 teaspoon Worcestershire sauce. Store, covered, in refrigerator. Shake well before using. Add a clove if desired. The entire recipe contains 25 calories.

February 3, 1959

Dear Friend:

This Nation faces challenges by Russia on two vital fronts — in space and on the ground.

In the survival for space, this Nation trails the Soviets. And on the second front — of economic warfare — it faces the taunting danger of the Kremlin.

In development of missiles — in the exploration of outer space — this Nation is engaged in the deadly game of playing catchup. We are trying to catchup with the Russians.

Catch up we must. And soon. The goal must be to exceed the Soviets.

But before that achievement can be accomplished, we must determine how far this Nation is behind. We must determine what must be done now.

That is the purpose of the Defense Preparedness and Space Committee hearings now in progress. But in meeting Communism on the front, we cannot abandon the

It was Nikita Khrushchev who recently boasted the Soviets can beat this Nation to its knees by economic warfare.

The challenge must be picked up. Answered. Hurled back.

We must realize this Nation is engaged in a race for survival of our way of life. It is a race in which we are a day late and a dollar short.

We must have bold, imaginative programs to open new markets. New patterns of distribution must be sought by the best informed minds in the field of foreign trade.

To answer the challenge of the Kremlin, I firmly believe it would be well now if we were to assemble an advisory committee of businessmen. Men of action, experience & vigor.

From this group should come recommendations of economic strategy — broad plans that would put this Nation on the attack in answering the Soviet economic challenge.

### SENATOR Yarbrough's Report

We have all seen and have all been concerned about the towns of Texas which prosperity has passed — those communities that are growing smaller instead of larger.

Unfortunately, we have quite a number of little Texas towns where people are having a difficult time making ends meet. Boarded up store windows and deserted factories are mute evidence of a desperate battle for these areas.

The best way of stopping the slow death of these once-prosperous communities is to help each town to help itself. Since our state is blessed with rich natural resources, many of these communities could build or attract new industries. But it is frequently impossible for a town that has gone downhill economically to raise necessary funds for surveys, sites, and construction necessary for establishing new industry. Yet new industry means vital new jobs and new payrolls.

Local funds needed to help get these towns and areas back on their feet are provided in a bill which I am co-sponsoring called the Depressed Areas Act. The portion

of this act applicable to rural redevelopment establishes a \$100 million revolving fund from which loans could be made for local industrial development projects.

Under this plan, the town's leaders would decide what type of industry could best be located in the area, and then can apply for a loan to set up or attract such an industry. This bill is especially designed to help these small towns which cannot obtain industrial capital from other sources.

This loan would help create the factory which would give the city's residents more money to spend with their hometown businesses, thus improving the town and our state.

Please notice I am speaking of loans. There are a few grants for public facilities included in this measure, but primarily the assistance would be provided in the form of loans. These loans must be repaid. This means it is an investment program rather than a spending program.

In my opinion, this bill would be of great benefit to some areas of Texas.

Elevation of some junior colleges to senior status.

There are many other issues. But the measures and the issues they involve, as listed above, consumed many hours of debate in both houses two years ago.

Truckers and railroad men are busy counting noses in the House and Senate on the controversial 72,000 pound truck load measure, which passed the House two years ago but lacked a very thin margin of having enough votes to be brought up in the Senate out of order in the closing days of the session.

Trucking interests were said to have been active supporters of several freshmen members of the Legislature. This measure to raise the truck load limit from the present 58,000 pounds was one of the hottest potatoes of the last session.

Lobbying activities will be moving into high gear soon, since the appointments of major committees for the 56th Legislature are complete.

Lobbyists present their positions for or against certain bills to the many committees in charge of studying proposed legislation.

# 'Women Better Patients,' Says Family Doctor of Year

Dr. Lonnie A. Coffin, 68, of Farmington, Iowa, back at work after being named General Practitioner of the Year by the American Medical Association.

"Women are better patients than men," according to Dr. Lonnie A. Coffin, Family Doctor of the Year. "They'll do what you tell them, but men won't."

At 68, Dr. Coffin is a warm and happy man, busy with the health needs of more than 3,000 people in and around rural Farmington, Iowa. Enriched by 43 years of country doctoring, he is also a man who speaks his mind, a philosopher with a sense of humor and a life. Here are a few of them:

**On smoking:** "It's undoubtedly bad for you. I gave it up after my coronary, and I've stopped to light one of his six daily cigarettes—I've given it up several times since then."

**On health:** "The work of the voluntary health agencies makes me confident about the future. The National Foundation, for instance, which helped me eight years ago when a polio epidemic hit Farmington (three of Dr. Coffin's four grandchildren were stricken), is now applying its March of Dimes funds to problems like arthritis and birth defects. That's good news, and good health."

**On sickness:** "If you're sick, do what you can to get well, but try not to worry about it. If you worry, you'll feel worse and so will everybody around you."

**On being sick at night:** "We all get sicker at night. That's

because we have more time to think about ourselves."

**On drinking:** "There are only certain people who should drink. Those who can both control it and afford it."

**On fishing:** "You can fish sitting down and I like that. If you catch something, fine. If you don't, exaggerate."

**On being a doctor:** "I try to take care of people no matter what the hour, no matter where they live, no matter who they are. Where or when they get sick is not their fault."

**On being a doctor named 'Coffin':** "Well, it's true that's what they carry you off in, but the fact is my name hasn't scared off too many patients."

## With Your... COUNTY AGENT

By HOMER E. THOMPSON  
SOIL SAMPLING

Many farmers are coming in daily and inquiring about getting soil samples run. The season is here to determine your fertilizer needs. First, the farmer needs to have a soil analysis run. Then he can determine from the analysis the approximate amount of fertilizer requirements for each crop on that particular land.

To use fertilizer by guess work, is like determining the speed of a car without a speedometer.

I had a farmer tell me he was going to use 250 lbs. of 7-14-7 per acre on his cotton land. This farmer had an analysis run in 1957 and he needed to use 40-60-0 fertilizer per acre. 250 lbs. of 7-14-7 would give him about 17-35-17 lbs. per acre. This would be about 1/2 as much fertilizer as the test called for. Be sure not to overlook the higher analysis fertilizers. For example, it would take 300 lbs. of 10-20-0 to meet his 30-60-0 requirements or 200 lbs. of 15-30-0 per acre.

The County Agent's office has available on request soil sample cartons which you may use to put the soil in for testing. Come by and pick them up if you are thinking of having a soil analysis run. Wrap these cartons very securely and mail them to the Soil Testing Service, College Station, Texas. You should have your return in 10 days after mailing.

When taking the soil sample use a spade. Dig a V-shaped hole in

the soil, 6 inches deep, then take a thin slice the full depth of the hole. Place the soil in the container. Take a new sample of soil with different texture or slope. Repeat until you have sampled the different types of soil. If you wish you may mix thoroughly several composite samples together and take one sample of soil for testing on this composite.

If you take more than one sample of soil for analysis — number each sample and mark on your farm outline just where each numbered sample was taken. Too, list all crops you expect to grow in 1959 on this land; so you can make an interpretation of the proper fertilizer recommendation. This office has a sheet of questions for you to answer and send in with your soil.

- Precautions:
1. Avoid taking samples in unusual spots as gullies, etc.
  2. Do not use old vegetable cans, tobacco cans, or match boxes to submit samples.
  3. Do not use heat to dry samples.
  4. Be sure sample numbers on the carton correspond with sample numbers on the information sheet.
  5. Be sure to keep a record for yourself as to area represented by each sample.
- You may pick up the information sheet with instructions and soil sample cartons anytime in the County Extension Office.

### Legals

NO. 167  
STATE OF TEXAS  
COUNTY OF COCHRAN

Notice is hereby given that the Trustees of the First Baptist Church, Morton, Texas, will receive bids on the following tract or parcel of land located in the Town of Morton and described as follows:

To-wit:  
All of Lots Nos. One (1), Two (2), Three (3), and Four (4), Block No. One (1), Evans Subdivision No. Two (2), of the East part of Acreage Blocks Nos. 68 and 76, Original Town of Morton, and that part of Tract No. 6, Minnie Slaughter Veal Subdivision of League No. 102, Jeff Davis County School Land, South of South right-of-way line of State Highway No. 116, situated in the East part of Morton, in Cochran County, Texas, and consisting of approximately 2 acres of land.

Any additional information on this property can be secured from Alton Burleson, Morton, Texas. Bids will be received until 2:00 p.m., February 20, 1959. Mail or bring bids to First Baptist Church, Box 117, Morton, Texas.

The Trustees reserve the right to reject any or all bids, and such bids shall be accompanied with a bid check of 10% of the bid. All bid checks will be returned or applied on the purchase price of the property.

## Jaycees To Collect Funds to Put On County's 4-H, FFA Fat Stock Show

Jaycees will be contacting folks this week for contributions to support the coming livestock show. At Monday's regular noon meeting, Elwood Harris, Fat Stock Show Committeeman, passed out cards with names thereon for members to contact.

## Branch Office of SBA Is Opened At Lubbock

LUBBOCK (Sp.) — South Plains businessmen can now take advantage of a Small Business Administration branch office which has opened in the Veterans' Administration Building, 1600 19th St., in Lubbock.

The SBA, created by Congress in 1953, gives financial assistance to qualified small businesses, counsels them on their financial problems and provides them with technical aid and management tips.

"Sometimes we can help a business without ever making it a loan," points out Carl Gallagher, acting manager of the new Lubbock office. "In fact, we are not in competition with private institutions and we encourage businessmen to go to their local banker."

To qualify for an SBA loan, a business must show that it is unable to get help elsewhere and the owner or owners must evidence good character and ability to operate a business successfully. He also must have enough capital so that with the aid of an SBA loan, the business will be on a sound basis.

The Lubbock SBA office will serve a 96 county area west of a line from Quanah to Ozona.

Small businessmen in this area can obtain help from the SBA concerning how to boost a product, how to get a fair share of government orders and contracts, how to improve accounting methods, and how to solve other management and technical problems.

The SBA is authorized to make several types of loans, including direct and participating, up to a total of \$350,000.

## General Telephone Distributes New Phone Directories

The most widely used book in Morton will be delivered this week. "It's the new telephone directory, bigger and better than ever," says Paul Farrar, district manager for the General Telephone Company of the Southwest, "with more names, more Yellow Pages, and more information." The color of this new book has also been changed. It is now dressed up in a colorful new cover, he said.

More than 4,930 directories will be distributed throughout the area with all up-to-date information.

Farrar has this suggestion about the replacement of your old directory: "Leaf through the old book. You may find something valuable in it. Folks have found money, important letters, notes, as well as cherished addresses in their telephone directories. And while you are going through the old directory, you'll want to transfer the frequently called numbers you have written down to the new book."

### TAKEN TO HOSPITAL FOR CHECK-UP

Mrs. Mamie Dean, mother of Mrs. Byron Willis of Morton, was in the Phillips - Dupre hospital, Levelland, Monday for a check-up. She was expected to return to Morton Thursday.

GOV. PRICE DANIEL is shown signing a proclamation during the week of Feb. 15 - 22 as "Farm Bureau Week" in Texas, on are J. H. West, Bishop, president of the Texas Farm Bureau; Millard Shivers, Waco, organization director. A big rally of Farm county and community membership chairman, in Dallas Thursday, Feb. 12, kicks off the drive. Cochran County President Harrison, will make the trip, and this week has been trying other Cochran Farm Bureau men into attending.

## OPPORTUNITY AVAILABLE FOR QUALIFIED MAN OR WOMAN

# Wormery, Bindweed Control Ideas To Be Explained Monday, Feb. 16th

County farmers who have wormery control problems are invited to attend a meeting Monday, February 16, 10:30 p.m., at the County Auditorium.

The purpose of the meeting is to explain the latest data from the Extension Station on solutions to the control of turpentine (bituminous) worm, or, shinnery, and bindweed.

As has been done for shinnery in the County Agent advised by the state, and good results have been obtained. The same can be said for wormery on both pasture and farmland. Also much work has been done on poison and control on range land.

Robbison, Range and Grass Station will be on hand at the meeting to discuss methods of control of these weeds and grass seeding.

A grass film will be shown, the Agent advised, and added that if the farmers were interested, they will go to the Frank Bennett Ranch, after the meeting and observe some "on the spot" demonstration work. Bennett is in the "Great Plains Program."

### VISITED RANCH

Mrs. Jenny Bea Denny spent last weekend at the McAdams Ranch near Crowell with her aunt and uncle, Mr. and Mrs. McAdams and other relatives.

This season's cotton support price will be 30.40 cents for Choice "A" and 24.70 cents for Choice "B" based on middling 7/8-inch... based on formulas used in the past some pretty smart cotton men predict the difference between Middling 7/8-inch and Middling 1-inch will be 370 points... if this is the case differences (and loan differences) probably won't be announced before spring that would mean Middling 1-inch Choice "A" cotton would have a support price at 34.10 cents and the same grade and staple in "B" would have a support price at 28.40 cents... you now have a much sounder basis to decide whether or not to take the "A" or "B" Choice... if you choose "B" you must notify your county committee in writing by March 16.

**Near Correct**  
Those of you who wrote for the work sheet will note that the prices were only a few points on for Middling 1-inch.

### Misunderstood

Two items of the new cotton law should be pointed out: First, you don't have to sell your "A" cotton to the government... you can sell it where you please... if the market is above the support price you can sell your cotton on the market, but get this: Once the government takes over your "A" cotton, you can't withdraw it as you have been able to do with cotton in the past... second, the law says that the Secretary of Agriculture may allow a farm operator to change from "B" to "A" if something prevents his planting his "B" acreage but the law doesn't say it will be done, it just gives the Secretary the authority to do it if he wishes... but if something beyond your control (such as excessive rain) does prevent your planting all your allotted "B" acreage, you should apply for a change.

### Market Builders

If you haven't read this paragraph from the President's farm message you should... if you have read it, read it again to a friend:

"Our farm families deserve programs that build markets. Instead they have programs that lose markets. This is because the overall standards for the programs they have are outdated relationships that existed nearly half a century ago."

## Home Demonstration Agent

  - Fertilize the lawn.
  - Set out new shrubs and trees.
  - Prune all dead branches from trees and shrubs. Do further pruning if needed, except on early flowering shrubs such as forsythia, flowering quince, red bud, etc. They should be pruned after blooming if needed.
  - Cut off and burn tops of chrysanthemums and other perennials.
  - To plant petunias and annual phlox.
  - To plan the vegetable garden for a succession of vegetables.
- Staggered plantings will give a continuous supply of top quality vegetables over a longer period of time.

**TRYING TO CUT FOOD COSTS**  
It's likely you're paying more for food when you pay the grocery bill.

How much you pay will depend on a number of things. When and where and how you shop; whether fruits, vegetables and meats are fresh, canned, or frozen; whether foods are in seasonal supply, and whether you select luxury or economy items.

Monthly food bills will also be affected by the amount of impulse or "spur-of-the-moment" buying you do; the keeping quality of

food you select; how you handle, store and cook the food; and how much goes into the garbage can.

Another factor is the amount of home preparation you're willing to do.

★

**PLANS FOR THE MONTH**  
Hat making workshops will be held this month for special interest groups. Non club members who are interested should contact this office.

★

**FOOD FOR THOUGHT**  
These thoughts are credited to Abraham Lincoln.

You cannot bring about prosperity by discouraging thrift.

You cannot strengthen the weak by weakening the strong.

You cannot help the wage earner by pulling down the wage payer.

You cannot further the brotherhood of man by encouraging class hatred.

You cannot help the poor by discouraging the rich.

You cannot establish sound security by spending more than you earn.

You cannot build character and courage by taking away a man's initiative and independence.

You cannot help men permanently by doing for them what they can and should do for themselves.

★

### LOW CALORIE FOODS CAN BE DELICIOUS

Low-calorie foods can be tasty provided you select and prepare them for fine flavor.

Fresh fruits, vegetables, cottage cheese and lean meats are examples. All are the makings of good meals, and not necessarily fattening ones. Remember that you add calorie value to these foods when you dress them up with mayonnaise, whipped cream, gravy, rich sauces or other fats or sugars. It is suggested that weight watchers use spices to season vegetables instead of rich cream sauce, butter, or margarine.

Use a little salt and vinegar or lemon juice on your green salad instead of salad dressing. Each tablespoon of mayonnaise adds 90 calories.

Raw fruit is always a wise choice choice for dessert. Have an apple or an orange at 75 calories, a half grapefruit for 45. Choose apple pie or a piece of cake and you get approximately 350 calories.

Remember that daily meals should include the basic foods necessary for good health - milk, meat, fruits, vegetables, cereals and breads. Go slow on pastries, candies, fats, salad dressings, and rich sauces when you need to cut calories.

★

### LOW CALORIE SALAD DRESSING

Mix together 1/2 cup tomato juice, 2 tablespoons lemon juice or vinegar, 1 teaspoon salt, 1/2 teaspoon dry mustard, 1 teaspoon grated onion, and 1/2 teaspoon Worcestershire sauce. Store covered, in refrigerator. Shake well before using. Add a clove if desired. The entire recipe contains 25 calories.

## Local 4-H, FFA Boys Eligible to Enter Animals In Lubbock Jr. Stock show

Regularly enrolled 4-H Club and Future Farmers of America of Cochran County are eligible to apply for entry in the South Plains Jr. Fat Stock Show, March 16, 17, and 18, at Lubbock, it was announced this week by the Lubbock Chamber of Commerce.

The show is timed well as far as local boys are concerned, since the Cochran County 4-H and FFA Fat Stock Show will be completed on the Saturday previous to the opening of the Lubbock show.

Teachers and the county agent have all information and forms with which to enter qualified exhibitors, Ray F. Johnson, the show's general chairman, has announced.

Entries in the Jr. Fat Stock Show, one of the largest in the state, must be postmarked by March 3, 1959. All entries must come through FFA teachers or the county agent.

The livestock bags at the Pampa-South Plains Fair Grounds will be opened for exhibitors at 8 a.m., March 14, for checking in of animals. All entries must be in these stalls by 6 p.m. that day, Johnson added.

Sifting committees, which eliminate unqualified animals from the show, will begin work Sunday.

The show will close with the annual auction sale of prize winning animals on March 18.

Lubbock is presently raising money among merchants and businessmen to provide higher-than-market prices at the auction of 4-H and FFA stock, and to provide prize money for winning stock.

## Entries Due for Fat Stock Show By March 1st

Cochran County 4-H boys were advised this week by their Agent, they have until March 1st to turn in to him, a list of entries in the Cochran County 4-H and FFA Fat Stock Show, March 13 - 14.

He asked the boys to mail to him the following information on a card - as soon as possible:

Name of 4-H boy, number of head of each type animal, and description such as breed and approximate weight.

**Farmers, HERE'S FACTS ABOUT COTTON DELINTING**

You can plant your fuzzy, flame, gas delinted, saw delinted or wet acid delinted. We recommend the wet acid process. Here's Why:

- Seed stays in contact with the acid for a period of only 30 seconds or less.
- Water is used to neutralize.
- Does not eat the bags.
- Wet or green seed can be safely delinted.
- Can be safely stored and used for a period of several years.
- Does a more thorough job on angular leaf spot and other seed borne diseases.
- Heat is used only to dry seed after the acid has been washed off.
- More uniform planting.
- More even stand.
- Quicker emergence.
- Plant faster.
- Get bigger yields.
- Gravity table tests are the weak seed.
- Treating prevents seed rotting even in cold, damp weather.
- No sticks, stems, or dirt to clog up the planter.
- In warm soil, seed will sprout in 12 hours - a stand can be had in 4 days.
- Less moisture is required for germination.
- For only one pound of wet cotton per acre you can have your seed delinted using the wet acid process.

For those who would rather have saw delinted cotton, we will have our saw in process by the first of February.

A phone call will get you complete details —

**Chevy panel steps lively in Florida...runs day and night, delivers 19.3 miles per gallon!**

This '59 Chevy panel is on the go, morning, noon and night: it covers as much as 387 miles a day... runs so constantly that its engine never cools off completely. Yet Mr. Clark Farber, the Tampa Tribune's circulation manager, reports that the truck is delivering 19.3 miles per gallon!

This year, the light-, medium- and heavy-duty trucks of the 1959 Chevrolet Task-Force fleet are out to whip anything that comes their way—and they've got what it takes to do it!

Take the panel pictured above, for example. Powered by the '59 Thriftmaster 6 with new economy-contoured camshaft, it's building a sensational economy record, despite the sizzling pace of its work. That's typical of the way Chevrolets of all sizes are turning-to on the most challenging jobs in America. The way they're made, with tough-built truck components, they make the hardest hauls look easy!

If you have a job that puts a truck on its mettle, see your Chevrolet dealer!

### Singing Group Elects Officers Next Sunday

Election of officers for the coming year is scheduled for Sunday afternoon when the Cochran County Singing Convention meets in the Morton Assembly of God Church at 2:30 o'clock.

Everyone interested in gospel singing is cordially invited to attend. H. B. Bedford, president of the convention, announced.

Other officers at present are: K. A. Turner, first vice-president; Doyle Fowler, second vice-president; and Mrs. Jack Baker, secretary-treasurer.

Other business will include a proposal to set the Cochran group's meeting at such a time as not to conflict with the Houston County group's meeting date.

Also, it was announced the new leaders are expected to be ready for the group's singing Sunday afternoon.

In addition to the regular Sunday meeting, the Cochran group needs once a week in the homes of members.

Tuesday night the convention is set at 7:30 o'clock in the home of Mr. and Mrs. Bedford.

### CARD OF THANKS

I would like to take this way of saying thanks to the many friends who visited me during my stay in the hospital, and to the beautiful flowers and cards sent. I shall never forget my wonderful neighbors who helped at my home. I have had an absolutely beautiful stay. These are some of the kindest people I shall have the honor of knowing.

A very special thanks to the ones who donated blood. May God bless everyone of you.

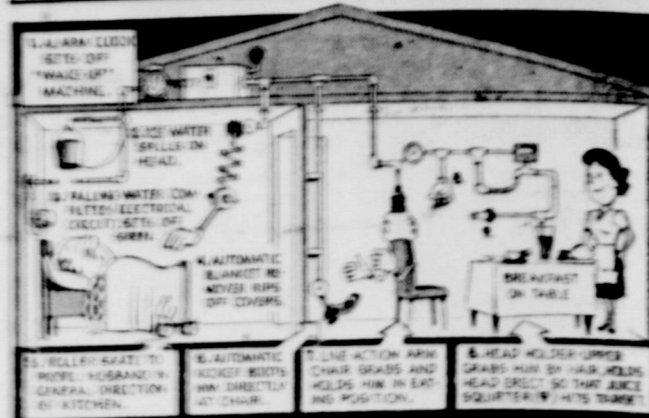

Mrs. W. E. Roy

### CARD OF THANKS

May I take this method of thanking my many friends for the beautiful flowers, letters and cards and to those who set up with me hospitalized in Lubbock from the car wreck. Through the mercy of God and the untiring efforts of the doctors and nurses I am up and able to be home, for which I am very grateful. Thanking you again.

Joe Tarborough

### Solution to Breakfast Problem

Having a problem getting the family up for breakfast? In this age of electronic miracles, the gadget shown above is suggested as a logical solution.

It will arouse the sleeper in more ways than one, but once up, he can help establish good eating habits for the family.

Strong measures (music and light) are taken to arouse the sleeper, according to leading doctors and nutritionists who have studied the subject, to insure that breakfast will not be the day's most neglected meal.

Breakfast, according to these diet authorities, should supply about one-fourth to one-third of the daily food requirements. They point out that the "let's skip breakfast" people prove to be less alert, less efficient and more susceptible to fatigue than those who eat a good morning meal.

The human body is so constructed that for maximum health it requires fairly even intakes of food at regular intervals. You can't make up for the lack of a good breakfast.

People who are troubled in holding the right weight should eat a good breakfast. If they neglect breakfast they may eat too heavily a lunch or dinner, and they just might have a snack or two between meals.

What constitutes a good breakfast? The foods essential to the day's first meal include fruit or fruit juice, cereal, milk or other beverage, and several slices of toast. Eggs and breakfast meat frequently should be included.

These foods are necessary both for children and adults. They supply the nutrients essential for the physical and mental stimulus for work—and play.

### EFFICIENT FEEDING AND LIVESTOCK MANAGEMENT

By Dr. George Bohstedt, Emeritus Professor of Animal Husbandry, University of Wisconsin

### A Pecking Order in Every Flock or Herd

There are social stratifications not merely in the human but also in the animal world. Poultry men recognize a pecking order in a flock of hens, similar to what one calls a chain of command in the military service. There is a boss hen that can peck any other hen in the flock, another one that can peck any but the boss hen, and so on.

This principle also applies to a self-assumed right to help themselves at will to feed or water ahead of the rest. Haven't we all seen a boss cow butting other cows out of the way in getting what she wants, with others in the herd more or less in submission following her example?

Some of our more perceptive herdsmen have made fascinating observations in this respect showing that there are leaders and followers in most every herd, and that each group settles the right of precedence among its own members. A newcomer will have to find her own place, sometimes at the expense of plenty of bruises.

I recall a swine-herdman who for lack of sufficient paddock space was obliged to put two hogs in the same enclosure. These resulted the inevitable fight, fuming snouts, and vicious jabs. One of the pair seemed to be getting the upper hand. Did the herdsmen take the part of the underdog? He did not! He simply helped the bully by whisking the prospective loser over the ramp. This quickly decided the contest and brought peace. The "pecking order" had been established.

But at the feed trough, bulies among a bunch of pigs are likely to "hog" the feed, and for that reason plenty of trough space must be provided to encourage unhindered and more uniform consumption. Where pigs are slop fed and the trough space grows shorter as they grow larger, feeding-time competition has caused pigs to voraciously consume excessive amounts of harmful ingredients in the feed that they would not have consumed at leisure. This competition sometimes accounts for dead pigs. Similar situations occur with sheep and other livestock.

**Question:** We have a chance to buy some three-year-old hay. It has good color and seems all right, but please indicate what if any nutrient value has been lost during this length of storage?

**Answer:** Even though this old hay has a good green color, the carotene or provitamin-A is all but gone. Usually about half of the carotene is lost during the first six months of storage. There are other but minor losses. The palatability is affected because the stems of this hay are likely to be so brittle as to injure the gums of the livestock if this hay is eaten in any quantity.

It also appears obvious that taxing policies which make it impossible for small farms to stay in business and thus offer the public a broader range of products and brands at different prices, is the road to ruin.

It becomes quite evident when small business is taxed out of existence, there is bound to be inflation. The only other alternative is the Russian system. This is not a pretty picture.

### Beneath the Surface

THE TINY MOLE HAS BEEN KNOWN TO BURROW 100 YARDS IN A SINGLE NIGHT. THIS IS EQUIVALENT TO A MAN DIGGING A TUNNEL 25 MILES LONG AND 80 INCHES IN DIAMETER.

12,000 MILES OF UNDERGROUND PIPELINES ENOUGH TO REACH FROM NEW YORK CITY TO LOS ANGELES, CALIF. HAVE BEEN Laid ON THE BOTTOM OF LAKES, RIVERS, MARSHES BY CREOLE PETROLEUM CORPORATION & THE COMPANY AND THE LARGEST OIL PRODUCER.

CITY DWELLERS IN NEW YORK TRAVEL UNDERGROUND ALONG SUBWAY ROUTES TOTALING 87 MILES IN LENGTH. CONSTRUCTION OF THIS SYSTEM WAS BEGUN IN 1904.

### To The Busy Housewife . . .

A wonderful way for a busy young mother to save countless hours is by shopping the ads in her hometown newspaper. By knowing, before she goes to town, which products she wants and where to buy them, she can do an efficient job of marketing. While the housewife spends her time becoming an expert nurse, laundress, cook, playmate, and bookkeeper, the local newspaper is bringing her the shopping news. It tells her about the latest products and services that will help her accomplish her work most efficiently. It tells her where to find the best prices offered on items she needs. It saves her many long hours of "shopping around".

### WILLINGTON AND "SMALL BUSINESS" By C. WILSON HARDER

In a recent poll of the nation's independent business by the National Federation of Independent Business, 85% voted in favor of placing cooperatives on the same tax basis as independent enterprises.

It is a measure long sought by independent businessmen, not only to plug a tax inequality, but also make competition in the market place a fairer procedure.

Many years ago, special sales were permitted to eligible farmers to form cooperatives for the orderly marketing of their crops. And it is without doubt that in many cases these cooperative marketing plans immensely aided agriculture.

But the law was written on such a broad basis that now there are many cooperative enterprises that have about as much relation to the farmer as the Kremlin has to the Vatican.

Thus, in the field of manufacturing, wholesaling and retailing, and even in certain areas of finance, there are profit-making cooperatives competing with independent enterprises without carrying the tax burdens imposed on private enterprise.

And in this day and age when any small corporation which pays at least 25% of all profits over \$25,000 in a year is federal income taxes, it is quite obvious the competitive edge that is gained by a cooperative enterprise that can set itself up as a cooperative.

# TRIBUNE SOCIETY . . . NEWS - FOR - AND - ABOUT - WOMEN - AND - CLUBS

## Miss Rowena Christene Gray and Earl Polvado Exchanged Vows Here In Double Ring Ceremony at First Baptist Church, Sunday, February 8th

In a double ring ceremony performed at 3 p.m., Sunday, Feb. 8, at the First Baptist Church in Morton, Miss Rowena Christene Gray of Morton and Earl Polvado, son of Mr. and Mrs. E. L. Polvado of Morton were united in marriage.

The church performed the rites. Connie Gray gave his daughter in marriage. She was gowned in a Chantilly lace over taffeta gown designed with sabrina neckline. A moulded bodice had long petal point sleeves and terminated in a point at the center front waistline. From this stemmed a voluminous, waltz-length skirt made of tiers of chantilly lace highlighted with two panels of appliqued lace down the center front and back.

Her shoulder length veil of illusion was attached to a crown of pearls. The bouquet that she carried was of white stephanotis with white streamers, topped with a white orchid on a beaded pearl dangle. She wore a pearl ring given her by the bridegroom, for her something old. The dress was new and a strand of pearls belonging to Mrs. Tom Pate, Jr., was borrowed. Her garter was blue.

Mrs. Harold Drennan, sister of the bridegroom was Matron of Honor and Miss Jennifer Garrett, of Sweetwater, cousin of the bride was junior bridesmaid. The attendant's dresses were identical, of light brocade taffeta, fashioned along princess lines, with flared skirts, fitted bodice, and low necklines. The attendants carried white carnations with blue streamers and wore white feather hats decorated with pearls and rhinestones.

## YOUNG MATRONS MAKE PLANS FOR FEDERATION DAY OBSERVANCE, NEXT WED.

The Young Matrons' Jr. Study Club held a call meeting Thursday, February 5, at 8 p.m. in the home of the president, Mrs. Lowell Webb.

Morton Federated Clubs will be hostesses for the event. Two resignations were read to the club — those of Mrs. Buddy Hanna and Mrs. Bill Bridge.

Plans were discussed concerning "Federation Day," which is to be in the form of a gift tea at the Activities Building, February 18, at 4:00 p.m.

The club plans to have a Roast Beef dinner at the Activities Building, Sunday, March 1st, at 12 noon. Admission will be \$1.25 for adults and 75 cents for children. Everyone is invited to attend.

Mrs. A. T. Coeanauger, president of the 7th District, Texas Federation of Women's Clubs, from Lubbock, will be guest speaker.

Members attending the call meeting included Mesdames Jerry Winder, Dexter Nebhat, Sammie Leverett, Kenneth McMaster, Roy Tarver, Jr., Louis Russell, Bob Mayon, Steve Monroe, Lowell Webb, and one guest, Mrs. Ray Keith Monaghan.

## PLAN PARTY FOR VALENTINES DAY AT WHITEFACE

A group of fifteen mothers met on Thursday, February 5, at the Whiteface Junior High School to organize and arrange a Valentine party for the eighth grade.

The party date is to be held in the Whiteface Elementary School Auditorium, February 13, at 7:30 p.m., according to Principal R. M. Brandy.

The fifteen mothers divided into the following committees to plan and carry out the party.

Refreshment — Mrs. Louis Rork as chairman assisted by Mesdames H. L. Fitzgerald, G. B. Lyons, Omar Sims, Earl May and J. W. Allen.

Decoration — Mrs. R. K. McCoy as chairman, assisted by Mesdames Daniel Welch, Garland Brown, Dale Walker and Wallace Lumpkin.

Entertainment — Mrs. Sam Rankin, chairman, assisted by Mesdames Harold Reynolds, Lloyd Wall and L. S. Salsler.

## COUNCIL ACCEPTS RECOMMENDATIONS OF COMMITTEES

The Home Demonstration Council met at 2:00 o'clock Tuesday afternoon, February 10. Mrs. G. C. Keith, Chairman, presided.

reported having two new members.

The recommendations of the Finance, Exhibit, Education, Expansion, Citizenship, and Civil Defense, Health, and Safety Committees, were approved by the club and accepted by the Council.

All Clubs were asked to consider supporting the 4-H Club Girl's concession stand at the Flat Stock Show, March 13 and 14.

It was recommended by the Civil Defense, Health and Safety Committee that a check of all club members be made on their participation in the County's Rat Control program.

Those present were Mesdames Keith, C. W. Word, Ted King, Whittaker, L. Z. Scoggins and Jackie Reid, Friendly Circle; Bob Hamilton, Leon Langrill and Walter Dye, Halfway; Oland Clifton and Stanley Henderson, F.O.E.; Ralph Burt, Arvel Snodgrass and Lewis Walker, Lehman; a visitor, Mrs. Ross Reeves, Halfway; and Miss Leila Petty, County Home Demonstration Agent.

Attention was called to a news article on the Brucellosis Control bill now pending in the State Legislature.

### White Mice Added To High School Biology Dept.

The MHS biology department received two white mice this week. They will be employed to study diet deficiencies. Students are engaged in a contest to name them. Entry blanks

are available in the War Whoop, student publication, Dick Christian, editor; reports.

#### VISIT IN SMITH HOME

Mr. and Mrs. Ernest Gohveen and two children of Anton and Mr. and Mrs. George C. Hughes and two daughters of Dimmitt were visitors Sunday in the home of Mr. and Mrs. Roy Smith. Mrs. Smith and Mrs. Hughes are sisters.

## IT'S THAT TIME OF THE YEAR

### Mr. Farmer!

Now is the time to arrange for your fertilizer needs at the lowest cost. Our location is two doors east of Rob's Drive - In on the south side of the street. We have Armour's brand fertilizer. Also, Vertagreen, a complete fertilizer in pebble form 10-20-10; 10-20-5; 10-10-5; or 7-14-7.

We would appreciate talking to you about your fertilizer needs.

### COOPER and WILLIS

Junior Cooper Virgil (Chesty) Willis  
(Two doors East of Morton Malt Shop)

U. S. Senator Ralph Yarborough (right), who has co-authored a bill providing for establishment of a Richard E. Byrd Antarctic Commission for study and development of the Antarctic, is presented a historic miniature U. S. flag by Dr. James E. Mooney, one of the world's foremost Antarctic authorities. The flag is one Dr. Mooney carried with him on exploration trips over both the North and South poles.

### Local Women

#### Attend Recent

#### Cosmetic Show

Mrs. Rose Thompson, cosmetician employed by the Morton Drug Store and Mrs. Mildred Jones attended an all-day School of Cosmetics in Lubbock on Thursday, Jan. 29, given by the Helena Rubenstein Cosmetics Company.

Special emphasis was given to COLOR LIFT - a new color rinse guaranteed to last through five shampoos.

#### VISIT IN ENGLAND HOME

Mr. and Mrs. Douglas Meador of Matador were visitors Saturday in the home of Mr. and Mrs. Carl England. The Meadors are former Morton residents and also former owners of the Morton Tribune.

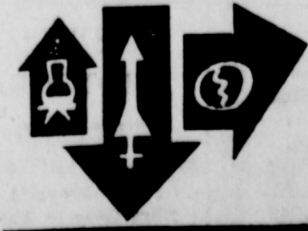

Hazel Donovan of Matador accompanied the Meadors. The visitors were enroute to Levelland where they attended the mid-winter meeting of the West Texas Press Association.

Meador now publishes the Matador Tribune.

### To Attend State Home Ec. Meeting

Miss Leila Petty, Cochran County Home Demonstration Agent, plans to attend the state meeting of the Texas Home Economics Association in Dallas, this weekend.

## LEARN WHILE YOU SERVE

U. S. ARMY

### Whiteface Lions Offer Thanks

The Whiteface Lions club this week offered their thanks to the people whose support made their pancake supper a big success.

A special thanks went to the Morton Lions and patrons for attending.

Committees of Whiteface Lions who helped make the show a success included: Chief Cooks, Leland Selfres, M. L. Collins, Truman Swinney, Vern Beebe; Pancake Mixer, Luke Adams; Coffee Maker, Emmet Broderson; Dishwashers & General Managers, Weldon Skinner, James Cogburn, G. W. Garrett, Ray Showalter, Orville Br-

own; Door Keeper, Cecil Lyons; Groceries, G. B. Lyons, Dave Richardson and Ticket Committee and Advertisers, Kenneth Baker & James Cunningham.

#### ATTEND PRESS MEETING

Mr. and Mrs. Bill Glassford of Morton attended the West Texas Press Association winter clinic Sunday at Levelland. Principal speaker at the noon luncheon was Bill Rives, sports editor of the Dallas Morning News.

### 2nd Entomology Program Saturday For 4-H Boys

Cochran County 4-H Club boys were notified by mail this week of

the second Entomology Training meeting, set for Saturday, February 14, at 9:30 a.m.

County Agent Homer Thompson, County Agent and 4-H advisor, urged that as many boys and parents attend all the meetings on entomology, as possible. "This program is continuous," he said, "and a new lesson plan is to be given each subsequent meeting, plus a review of the previous lesson."

Bob Pierce, High School Science Instructor and Don Avery are helping to instruct the course.

#### VISITS IN DICKENS

Mrs. Bea Yarborough of Morton visited last week in Afton and Dickens.
