**Holloman Rites Set for Lampasas**

Word was received Thursday of the death of Mrs. Ada Holloman, of Clarendon, mother-in-law of Mrs. J. A. Holloman of Morton, and grandmother of several Mortons.

A group of the grandchildren, and other relatives, including Mrs. J. A. Holloman, were planning to leave Friday noon for Lampasas to attend the funeral rites.

A daughter, Mrs. Ralph Howard lives in Levelland.

Mrs. Holloman had been alternating staying with some of her children and also spent some time in a home for the aged, at Clarendon.

**LOCAL ALDERMEN ELECTION SET FOR JULY 14; NO APPLICANTS YET**

Tuesday, July 14, 1959, is the official date of the aldermanic election for the City of Morton, at which time three vacancies in office will be filled.

The official information came this week in a notice of publication which will appear in the Tribune next Thursday setting the date of the election.

No candidates have yet filed with the city for the three posts, it was learned Thursday.

Those elected to the posts in

**YEARLY AUDIT SHOWS CITY TO BE IN GOOD FINANCIAL SHAPE; A FEW SPOT CHANGES ARE RECOMMENDED BY AUDITING FIRM**

The City of Morton got an excellent rating on its annual audit report, returned Monday at the meeting by Ray Lawrence, of the firm of Hearn and Lawrence.

Mr. Lawrence went over the figures for the City Commission members and answered questions and then the Commission approved a two page summary to be published. Accordingly, it was published in last Thursday's edition of the Morton Tribune.

The City of Morton holidays for the present year were officially passed upon by the Council, four holidays being set up for observance by the City this year. However, two of the four happen to fall on Saturdays and the city is closed on Saturdays anyway, except for weekend emergency duty.

The four holidays to be observed are Memorial Day, Fourth of July, Thanksgiving and Christmas.

Another item discussed was the need for the establishment of a sick leave policy. On a motion by Gentry and seconded by Taylor, the policy was set to allow two

weeks pay for employees who get sick for that long a time, and to cut the pay off after the two week period. This sick leave is not an automatic benefit. An employee would be allowed two weeks sick leave per year, providing he or she was sick. Sick leave would not accumulate from year to year. This motion was passed but the mayor did not concur.

The group approved a sewer extension project and continued a practice they have followed the past three years, by authorizing the hiring of an additional employee for the gas department dur-

ing the summer months, who will be put to work repairing known gas leaks.

It was said the city has not yet finished repairing all the leaks that were detected two years ago when they hired an outside tester to locate the leaks.

However, as proof of the value of the plan to repair leaks, the audit report showed the city has a six percent less loss of gas, from point of purchase to point of sales, this past year, over a year ago. The loss still hovers around 25 percent.

The City Clerk was told to re-

place the broken and bent stop signs vandals have destroyed the past few weeks.

They also once again discussed the police department and the need for a City Attorney to represent the city in city court cases, but no action was taken.

**To Market At Dallas**

Several Mortons are among more than 5,000 buyers and retailers who are attending the American Fashion Association's Fall and Back-to-school Market in Dallas. More than 750 lines of women's and children's apparel are being exhibited by the association members in the Adolphus and Baker hotels, from Sunday, May 24 through Friday noon May 29.

Enthusiasm runs high among the buyers and retailers, who expect an excellent Fall season according to Miss Ruth Holland, president of the association. "Business has been good, and there is much optimism throughout this market for even better business in the Fall," Miss Holland said.

A highlight of the market week will be the Fashion Merchandising Clinic, to be presented in the Crystal Ballroom of the Baker Hotel in two performances on Monday night, at 7:30 and 9:00 and two performances on Tuesday night, 7:30 and 9:30. This show will be staged by Charles Moecker with Mrs. Kim Dawson as Fashion Director and with fifteen professional models on the runway.

**First Methodist Church School Opens June 5th**

Vacation Church School at the First Methodist Church in Morton has been set for June 5-14.

More information as to time of the school, the commencement program, etc., will be forthcoming soon.

A partial list of the teachers already lined up include:

Kindergarten — Mrs. Bob Mayson, Supt., Mrs. Mildred Windom, Mrs. D. A. Ramsey and Mrs. Bill Bridge.

Primary Div. — Mrs. Bill Gassford, Mrs. Ed Howell, Mrs. Edna Roland and Mrs. Nancy Key.

Junior Division — Mrs. Pauline Burnett, Supt., Mrs. Mildred Gunter, Mrs. Dean Jackson, Lavelle Benham and Mrs. Fred Payne.

The group plans to participate in the city-wide parade, Saturday, May 30th.

Mary Ledbetter and Carolyn Houston with provide music. Refreshments will be furnished for the children by the different classes and groups of the church.

**County Line Baptists Plan Vac. Bible School**

Vacation Bible School will begin Monday, June 1, and continue through Friday, June 5, at the County Line Baptist Church, it was announced this week by Mrs. W. K. Courtney.

School time will be from 2 to 5 o'clock each afternoon. Mrs. J. D. Stewart of Pep will be the school principal. All area children are invited to enroll and attend the school.

**Meet With Oil Tax Men**

County Judge Glenn Thompson reported this week after a meeting with oil company tax men, Wednesday, the County is still off on its figures around a half million dollars, but the two are closer together than they have been in years.

Judge Thompson had hopes they would be able to get together before tax paying time and thus avert any action by the oil companies through courts.

Its on the percentage of assessment being taxed on that the oil companies have complained about.

**Lions Speaker**

The Morton Lions Club had as their program at their regular noon luncheon, Wednesday, a Project Alert speaker from Lubbock

**Bible School Set At East Side Church of Christ**

Minister Cecil Williams of the East Side Church of Christ this week announced the teachers who will conduct the church's Vacation Bible School, June 8 through 12. The school will open at 9:00 a. m. each day and will close at 11:00 a. m. Transportation will be provided for those youngsters who need it, Minister Williams said.

The Commencement Program is to be held at 8:00 p. m. Friday, June 12.

Teachers and workers in the school will include the following for the groups named:

Pre-School (Age 2-3) — Mrs. Byron Willis, Mrs. Clarence Harbison, Betty Sullivan and Glenda Chessher.

Pre-School (Age 4-5) — Mrs. Mark Philbrick, Mrs. Era McCamish and Mrs. Bill Nunnally.

Primary (Age 6-7) — Mrs. Henry Chessher and Mrs. Jim Clamplitt.

Junior (Age 8-9) — Mrs. Cecil Williams and Mrs. Tee White.

Intermediate (Age 10-11) — Mr. Coy Sullivan.

Senior (Age 12 - High School) — Byron Willis.

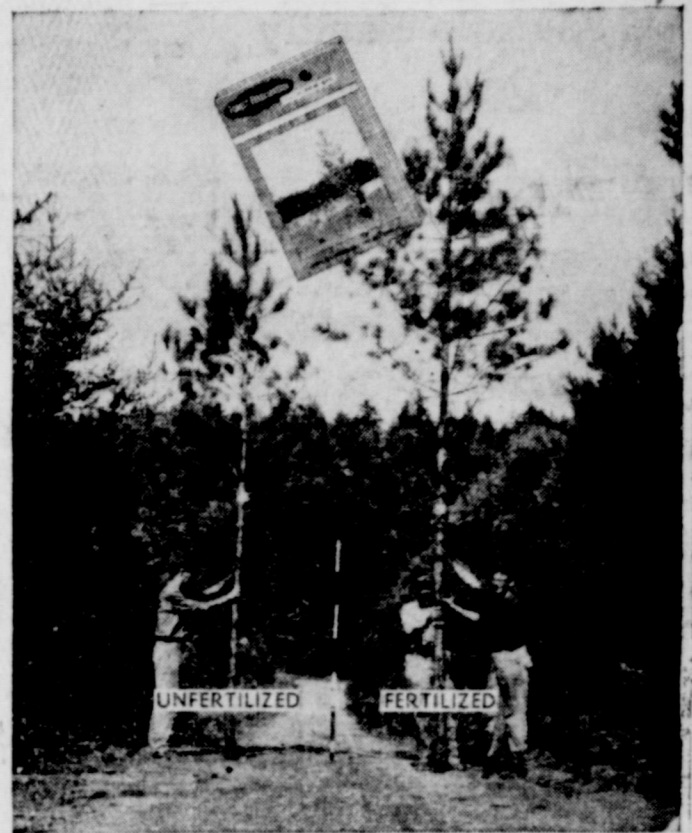

**First Baptist Church Summer School Set For June 1st**

The annual First Baptist Church Vacation Bible School will begin June 1 and continue through June 12, it was announced this week.

School will begin each morning at 8:30 a. m. and continue until 11:30 a. m.

Age groups from three through sixteen are invited.

Work will consist of Bible study, Bible stories, character stories, and handwork.

Interest in forest tree nutrition is growing. Results are being recorded. This picture was taken 14 growing seasons after the red pine on the right received 200 pounds of potash per acre, while the pine on the left went unfertilized. The white bands show height at time of treatment. This picture appears in the handbook on forest fertilization just issued by the American Potash Institute. It is featured with an article by Dr. Donald White, well-known Michigan State University forest tree nutrition expert. Copies of the handbook are available while the supply lasts.

**INFORMATION ON PENDING VACATION BIBLE SCHOOLS**

**Bible School Set At East Side Church of Christ**

Minister Cecil Williams of the East Side Church of Christ this week announced the teachers who will conduct the church's Vacation Bible School, June 8 through 12. The school will open at 9:00 a. m. each day and will close at 11:00 a. m. Transportation will be provided for those youngsters who need it, Minister Williams said.

The Commencement Program is to be held at 8:00 p. m. Friday, June 12.

Teachers and workers in the school will include the following for the groups named:

Pre-School (Age 2-3) — Mrs. Byron Willis, Mrs. Clarence Harbison, Betty Sullivan and Glenda Chessher.

Pre-School (Age 4-5) — Mrs. Mark Philbrick, Mrs. Era McCamish and Mrs. Bill Nunnally.

Primary (Age 6-7) — Mrs. Henry Chessher and Mrs. Jim Clamplitt.

Junior (Age 8-9) — Mrs. Cecil Williams and Mrs. Tee White.

Intermediate (Age 10-11) — Mr. Coy Sullivan.

Senior (Age 12 - High School) — Byron Willis.

**Missionary Baptist Bible School Opens June 1st**

"Living for Jesus in the Space Age," is the theme for the Vacation Bible School at the First Missionary Baptist Church, corner of Main and Taylor, which begins June 1 and closes June 12.

The closing commencement exercise will be held Thursday night, June 11, followed by a picnic for the entire school on Friday, June 12.

"Get Into Orbit" is the slogan for the school at which boys and girls from Nursery through Intermediate ages, will enjoy Bible stories, memory work, singing, handwork, and refreshments each day.

The school will begin each morning at 8:30 a. m. with a general assembly, followed by the departmental meetings with dismissal at 11:00 a. m.

The director for the school is Mrs. G. F. Cooper, Jr., and her staff of department superintendents includes Mrs. Marion Matthews, Nursery; Mrs. Maurice LeWallen, Beginners; Mrs. C. W. Wiggins, Primary; Mrs. Tommy Lynch, Juniors; and Mrs. B. D. Elliott, Intermediates.

All boys and girls of Morton are invited to attend.

Rev. Austin Steadman is pastor of the First Missionary Baptist Church.

**Gospel Meeting, Bible School Will Coincide**

A Gospel Meeting and Bible School will be held at the Church of Christ at 202 Southwest Second, July 19 through July 26.

Luther Blackmon of LaPorte, Texas will conduct the Gospel Meeting according to Minister Denton Thompson.

**Opening Date For Revival Is Changed**

Opening night for the June revival at the Morton Assembly of God Church has been changed to Wednesday night, June 3, it was announced this week by Rev. and Mrs. H. T. Clarke, pastors.

Rev. Alfred Spell of Kennett, Missouri, will be unable to arrive in Morton before that date, it was said.

Rev. Spell is a brother-in-law of Mrs. Clarke. He has preached here previously, but never conducted a meeting here.

He was formerly located at Oklahoma City, and was district youth representative in Oklahoma for a number of years.

Services will be conducted each evening at 8 o'clock. The public is cordially invited to attend.

**Bible School for Negro Children Is Announced**

A Vacation Bible School for Negro children in the area is being sponsored by the First Baptist Church of Morton, Rev. Houston Walker, pastor, announced this week.

The school will begin June 1 and continue through June 5 from 8:30 a. m. to 11:30 a. m. each day.

School will be in the East Elementary school building. All children from three through sixteen years of age are invited.

Harold Drennan will serve as principal. Other faculty members include Mrs. Lorene Smith, Mrs. Judy Coleman, Mrs. Burl McCauland, Mrs. Harold Drennan, Mrs. Bob Scott, Miss Judy McCauston, Mrs. Sue Rozell, Mrs. A. R. Coleman, Mrs. Merle Walker, Mrs. Noel Crow, Mrs. June Kennedy, Mrs. Ann Griffith, Miss Peggy Patterson and Victor Walker.

The children are asked to come to the school building on Saturday, May 30, at 2:00 p. m. for registration and for participation in the local parade at 3:30 p. m.

Following the school for the Negro children, the First Baptist Church will sponsor a school in the same building for the Latin American children, June 8-12.

**SHOP MORTON'S DOLLAR DAY MONDAY**

**Farm and Home Development Demonstrator ... Merlin Roberts In Cotton Fertilization Test Program**

Merlin Roberts, one of the Cochran County Farm and Home Development demonstrators, is cooperating with the Extension Service and Texas Agricultural Experiment Station in cotton fertilization. The County Agent Homer E. Thompson, Harvey J. Walker, Agronomist of the Texas Agricultural Experiment Station, Lubbock Tex. and Merlin Roberts worked out a series of fertilizer test plots together for the Merlin Roberts farm. This test is one of 15 on the

farm research test conducted by the Experiment Station personnel. The test was applied on May 1st and 2nd.

Application of the fertilizer was made before the preplant irrigation. All of the different treatments were applied on 20 inch centers and approximately 10 inches below the top of the undisturbed lister bed. After planting, the fertilizer will be 10 inches from the seed and 4 to 5 inches below the seed furrow level.

Twenty different rates and combinations of fertilizer were applied in the rate test as follows:

Nitrogen-0, 40, 60, 80, 100 and 120 lbs. acre  
Phosphorus- 0, 40 and 80 lbs. acre  
Potassium- 0, 40 and 80 lbs. acre

For example the treatment 40-40-0 or 120-40-0 and others can be observed in this test. One rate of 240-240-240 was included for observation. The design and special equipment used for this test make it possible to accurately apply and get information on many more treatments than could be used in regular field applications.

In addition to the rate test, another series of treatments with different sources of fertilizer were applied. These treatments were all made at the rate of 50-50-0 per acre.

This test will be staged for observation, later on in the growing season. All of the plots will be harvested by Experiment Station Personnel to determine the yield of cotton on the various treatments. Samples will also be taken for grade, staple and micronaire.

Materials, equipment and financial assistance by the Plains Cotton Growers, Inc., National Plant Food Institute and the South Plains Soil Fertility Committee in cooperation with the Texas Agricultural Experiment Station, the Texas Extension Service and Merlin Roberts make these tests possible. Mr. J. W. McDermott and Cooper and Willis, local fertilizer distributors, assisted by furnishing a major portion of fertilizer for this test.

**PLANNING FERTILIZATION** — Merlin Roberts, Morton farmer, talks with County Agent Homer Thompson, far left and three members of the Lubbock Experiment Station, (seated left to right) Borden Reeder, Harvey Walker and Denny Stapp, about his fertilization program he is undertaking with the assistance of these men.

## SUMMER HOMEMAKING PROGRAM IS ANNOUNCED FOR STUDENTS AND ADULTS WHO WISH TO KEEP BUSY LEARNING DURING VACATION

Morton Summer Homemaking program got under way Monday, May 25th, with the registration of sixteen of the twenty-six planning to take homemaking this summer. The schedule for students and youth will be as follows:

ing household accessories at Levelland.

June 15 to 17 Classes will be held

### ENGAGED . . .

Mr. and Mrs. E. T. Johnson of Levelland are announcing the engagement and approaching marriage of their daughter, Linda Elizabeth, to Bobby Junior Sexton, son of Mr. and Mrs. R. C. Sexton of Morton. The wedding has been set for 7 p.m., Friday, June 5, at the Fifth Street Church of Christ, Levelland.

Friends of the couple are invited to attend the wedding.

in the Morton Homemaking Department with the girls who attended the training school teaching other girls and any other person interested.

June 17 to 18 FHA Officers training School at Levelland;  
June 19 Tips on flower arrangement for the home, adults and youth;

June 22 to 26 Time Saving Methods in Clothing Construction for Adults to be held in the afternoon from 2:00 to 3:30;

June 23 to 25 FHA Workshop for all FHA members and girls who will be taking Homemaking for the first time next fall.

August 10 9:30 A. M. Preparing and serving meals from the home freezer. Open house will be held August 13. The FHA will hold regular meetings throughout the summer. Its first meeting will be a joint party with FFA members June 2 in the County Park.

There will be no fees for any of the classes or workshops. The only expense to any person wishing to take any of the work will be the cost of material they will use in articles that they make. If any one has any questions concerning the work they may contact Mrs. Mabel Ann Sanders at the high school or at her home. Her phone number is 5991.

## Home Demonstration Agent

LEILA PETTY

A food preservation workshop will be held in the county during June. Any person interested may attend. A two day session is being planned.

It will be necessary to have a planning meeting in order to decide whether the workshop will be on freezing or canning. If there is enough interest a workshop on each activity will be held.

The planning meeting will be at 4:30 Tuesday afternoon, June 9, in the banquet room of the County Activity Building.

### LAMP SHADE WORKSHOP

A lampshade workshop will also be held in June. Any person interested should contact my office for the time of the workshop and for materials needed.

### CUT WORMS GALORE

Many parts of the state have a heavy infestation of cut worms this spring. This insect can do a great deal of damage to garden vegetables and he can do it quickly. Extension Entomologist point out that 3 insecticide dusts commonly used for cut worm control are 5 per cent DDT, 10 per cent chlordane or 20 per cent toxaphene.

These dusts need to be applied in a manner that a zone of protection will be developed around the young vegetable seedling or plants. One way to accomplish this is to open the furrows where the vegetable seed are to be planted just slightly deeper than proper planting depth. Dust both sides and bottom of the furrow with a garden dust gun filled with one of the recommended insecticides. Use a rake to work the side of the furrow down and the bed is at proper planting depth. The seed may then be planted and covered with the treated soil. This treatment will also help to control some of the other soil insects. It may become necessary to dust directly around the plants as they increase in size.

Tomato, pepper and other garden transplants should be planted in soil that has had one of the recommended insecticide dusts worked in about one or two days prior to planting. In addition when the plants are placed in the soil, a small amount of the dust should be applied over the surface of the soil around the plant.

MONDAY

IS DOLLAR DAY — in MORTON

There have been some fairly small sales of Russian cotton to Europeans at a price below even Mexican growths . . . this really can cause you concern if you project the incident a little . . . Russia sold some Strict Middling 1-1/16" for October-December delivery at about 26 1/2 cents per pound . . . this is considerably under the U. S. price even with the eight cents subsidy . . . now suppose that Russia decides to really upset the cotton market in her economic war . . . subsidy won't make any difference since the Russian economic system doesn't have to recognize the cost of producing cotton and can throw the fiber on the market at any price that suits the Reds . . . fortunately Russia's customers are a little suspicious . . . as well they may be! . . . look what happened to some of Red China's customers recently: after sales were made at very low prices, the shipments just stopped and left the buyers holding

but nobody seems to know . . . but it won't help either Red or White in Russia to gain contented customers: however, the low prices of the Red's cotton will cause lots of buyers to take chances on delivery . . . one cheery note, though, some European spinners are willing to pay a little higher price just to get the traditional assets of doing business with American cotton shippers: continuity and reliability of supply . . . assets, incidentally, that our government programs often times place in jeopardy.

**Farm Land Up**  
Value of farm land turned in records in March . . . across the country farm real estate now averages \$108 per acre and that's an eight per cent over March, 1931 . . . the figure of \$108 per acre breaks down to an average price of \$83 for land . . . \$25 for buildings.

**Mexican Plantings**  
Cotton plantings in Mexico are down considerably from the 2.5 million acres of 1931 . . . cause is tight credit brought on by declining prices . . . no estimate on total '32 acreage yet . . . we'll guess the Mexican production will be down 30 per cent.

**Mills Position Good**  
U. S. cotton mills now have best profit margin in over two years . . . spread between cotton selling prices and raw cotton costs was 27.18 cents a pound in April . . . one year ago it was 22.75.

### Wheat Varieties Being Tested At Halfway

Most of the 26 varieties of wheat being tested at the High Plains Research Foundation are fully headed. Some of the later maturing varieties are just beginning to head out. Farmers interested in comparing the wheat varieties are invited to visit the experimental farm at Halfway, Dr. Longnecker, Director, said today.

Eleven of the varieties are experimental. The fifteen released varieties are Early Blackhall, Wichita, Triumph, New Triumpha, Crockett, Ponca, Comanche, Wheatheart Triumph and Kharkof, mist, stated.

They are Kearney, Dicktoo, Puccio, Harbine, Wintex, Rogers, Cordova, Missouri Early Beardless and K-nbar. Two varieties are experimental.

The fertilizer experiments on eleven varieties are being tested. In the barley research program, wheat are definitely showing re-

sponse to nitrogen. The wheat and barley tests are being conducted in cooperation with the Texas A & M Extension Division. Seed was furnished by the Bushland U.S.D.A. Station.

a former Morton school official, is a candidate for a bachelor of science degree at Howard Payne College in Brownwood.

Degrees will be awarded at the school May 29, Donald Macon is a graduate of Olton High School.

The late Mr. Macon was also associated with the Bula School prior to his moving to Morton.

**NILE HILTON OPENS**  
The twelve story, 400 room Nile Hilton Hotel has just opened in Cairo, Egypt, U.A.R. Centrally and scenically located in one of the most beautiful sections of Cairo, the Nile Hilton faces Liberation Square, and flanking it on either side are the Egyptian Museum and the new Arab League Building.

### America Lives Better Electrically As Industry Grows, Creates Jobs

**THE PHRASE "ELECTRICITY BUILDS MORE JOBS"** is the key to a nationwide event, National Electrical Week, this month, as well as a reminder of the role this powerful form of energy plays in our lives.

Local payroll, national defense, comfort in the home, entertainment and plain good living all pivot on the services and products of this \$30 Billion industry. Over 50,000 local dealers, electric utilities, electrical manufacturers, trade associations, electricians and specialists celebrate their industry's contributions to the nation's welfare.

Americans can live better electrically because of the industry's constant progress in research and development. Today over 60 different types of appliances and electric home equipment are on the market, as compared to the 17 items that were available in 1930. Despite inflation, the cost of electrical service and equipment has stayed far below costs of other consumer goods and services.

Over 70,000 new homes across the nation were certified for the industry's highest award for electrical excellence, the Medallion, during 1931. Local utilities checked out these residences to determine that they met the industry's top criteria for the best in wiring, lighting and appliances. Industry experts forecast that over 100,000 new residences will qualify for the Medallion during the year ahead.

National Electrical Week marks the birthday of pioneer Thomas Alva Edison, his 112th anniversary. Edison's inventive genius paved the way for America's vast and vital electrical industry. In the past half-century, the growth of the industry has been so rapid that one out of every 20 working Americans is today in some branch of the industry or related services. Over \$14 Billion annually pours out in wages to industry employees.

### COMING EVENTS IN ARAB LANDS

The International Baalbeck Festival, an annual event at the 2000-year-old Temple of Helios, Baalbeck, Lebanon, will take place this year during July and August. Music, drama, folk dancing, and the Story of Lebanon told in lights and recitation, will comprise this year's program.

Camp Petra Hotel at the rose red city of Petra, Jordan, opens for the spring season on March 15, and will stay open to receive visitors until about the first of June. A new rest house has recently been completed at Petra by the Jordan State Tourist Office.

During the summer season, visitors to Petra can be accommodated at the Petra Hotel in Ma'an, an hour's drive. The fall season for Camp Petra is September 15 to October 30.

Lebanon and Syria will welcome their blood-brothers and their families from the Americas this summer in a 1932 Overseas Convention of the National Association of Federations of Syrian and Lebanese American Clubs. About 700 members of the National Association are expected to leave for Lebanon in July. Some members plan a short vacation in Lebanon and Syria, U.A.R., while others will stay for the summer and tour Arab countries. This is the third Overseas Convention of the National Association of Federations of Syrian and Lebanese American Clubs in recent years.

### General Tire Laboratory Technicians Report Major Advancement to be Adopted by All Tire Industry

A major advance in rubber technology has resulted in a unique "steam-whipped" synthetic rubber which makes it possible for motorists to get one-third greater tread wear from their tires than can be obtained from any tires now on the road, it was announced recently.

The sensational rubber, a special blend of synthetic and ultrafine carbon black and its highly successful tire application were announced by General Tire and Rubber Company president, W. O'Neil.

"This type of rubber will quickly be adopted by the industry for quality tires and, eventually, will be used for all tire manufacture," O'Neil said.

The new rubber, a styrene-butadiene, black masterbatch type, is manufactured at General Tire's synthetic rubber facility at Odessa. Tires utilizing the rubber have undergone stringent road tests at San Antonio and exhaustive lab testing at General's Akron research headquarters, he said.

"We have led the way in blending synthetic rubber with other materials," O'Neil said, pointing to General's development of oil-extended rubber and black masterbatch. "This blend ranks as another major advance in our extensive and intense research in synthetic rubber."

"Key to the rubber's greatly increased wear, said O'Neil, is a high energy process perfected by General Tire chemists which fuses a new ultra-fine carbon black with rubber while it is at the latex or liquid stage."

The new carbon, called super-abrasion furnace, is 20 percent finer in particle size than blacks normally used in the tread compounds.

Carbon black, a reinforcing agent, greatly increases the abrasion resistance or wearing quality of rubber. The finer the carbon black and the more uniform its dispersion in the rubber, the greater the abrasion resistance.

"We are the first major manufacturer to add a carbon black of such small particle size to rubber with any degree of success," O'Neil said, explaining that, previously, the poor dispersion obtained with conventional mixing methods resulted in cracking of the tire tread in service.

In General's process, the finer

particle carbon black is "steam-whipped" with great force and turbulence into the latex to produce a perfectly balanced dispersion of the carbon. The blend is then coagulated and dried.

"This blending of materials at the rubber plant makes for a far easier and faster operation at the rubber products and tire factories," said O'Neil, besides eliminating the troublesome and sooty mixing that has heretofore been necessary.

"As a matter of fact such ultra-fine blacks with their long wear characteristics can be added to this rubber only at the synthetic producing facility," he said.

"Extensive field testing of tires utilizing this new rubber have shown a 30 to 35 per cent increase over normal tread wear," the General president stated.

General research chemists pioneered the concept of mixing carbon black with rubber at the latex stage and General Tire produced more than a billion pounds of this black masterbatch rubber in the government synthetic rubber plant at Baytown, he said.

When General built its own plant at Odessa, the company installed its own specially engineered and precisely controlled system to take advantage of a new dispersant-free principle of black master preparation.

General has been making black master rubbers with normal blacks for some time, but advanced development and testing have been aimed at rubbers which raise the entire performance level of tires.

# Instructions and Advice for Camp Fire Girls Planning to Attend the Summer Camp, Near Cloudcroft, N. M., June 22nd through June 26th

**MONDAY IS DOLLAR DAY**

Local Camp Fire leaders recently released a mimeographed sheet of instructions and advice to the girls who will attend the summer camp this year.

Because some of the girls did not get sheets, because some of the parents may not have seen the sheet, and for the advice of the younger girls who will be going next year and their parents, the Tribune herewith reprints the contents of this letter.

All bluebirds, Campfire Girls and Horizon Club Girls who will be in the fourth grade or above next fall are eligible to attend summer camp.

Camp will be held from June 22 to June 26 in the Sacramento Mountains near Cloudcroft, New Mexico.

Transportation will be by school bus leaving Monday morning at 6:00 A. M. from the court house square and returning same place at 5:00 P. M. Friday afternoon.

The camp fee will be \$12.00 for any registered Campfire Girl. This covers craft material, insurance food and lodging. The Council pays for transportation, and counselors. The girls will need a small amount of money for incidentals and lunch on the way home.

Any non-Campfire Girl of the same age group and wishing to follow the camp rules may attend for a fee of \$15.00.

A daily schedule will be followed of sports, games, crafts, and nature study, regular hours for activities, rest, sleep and plenty of wholesome food.

A nurse will be at the camp for the full period.

The physical exam for all those attending will be given Wednesday afternoon June 17 at the Cochran County Hospital at 1:30 p.m. The camp fee covers this exam but any girl not present at that time will have to arrange for her own physical at her own expense.

**WHAT TO BRING**

A sack or lunch for first day. Two or more pair shorts, levis, slacks, etc. sweaters, shirts, blouses. Camp Fire Uniform and Blouse.

Socks (one pair for each day) Underwear

1 pr. Pajamas (warm) robe (short length best)

2 pr. low heel shoes (one pair for hiking)

Raincoat (optional)

1 Warm jacket

2 towels and 2 wash cloths

Toilet articles and soap (soap container)

1 roll or box tissue

Camp Fire Manual

Head Scarf

Shower Cap

BEDDING

1 large sheet or 2 small sheets

Pillow (if desired)

Blankets are furnished

DESIRABLE BUT NOT REQUIRED

Camera and Film

Canteen and Flashlight

Old Moccasins (to wear to the bath house)

Any scraps of colored felt to use in handicraft

Oil or water colors or art supplies (for Older Horizon Girls)

Please leave valuable jewelry at home, and new clothing is not necessary as they all get hard use in camp.

It's Never TOO LATE to ENROLL for the VACATION BIBLE SCHOOL at the EAST SIDE CHURCH of CHRIST — June 8 through June 12 —

Below is an enrollment card that you are invited to use for anyone who would like to attend our Vacation Bible School Daily. Under the question about a way of transportation, please check this one, so we will know where to route a bus or buses.

Cubs Attended Weblos Camp

Seven Cub Scouts from the Morton Pack 101 attended the Weblos Cub Scout camp held Saturday and Sunday at Camp Post.

The boys participated in games, skeet shooting, archery, rifle range shooting, knot tying, and first aid.

Boys making the trip were Mike McDermott, Lem Chesher, Everett Bilbrey, Dennis Avery, Perry Crockett, Lonnie Hamilton, and Kenny Coats.

Sponsors attending were Charles McDermott, Lem Chesher, Austin Bilbrey, Weldon Avery, Mr. Cole and Leon Hamilton.

Is President of Scottish Rite

Eugene Walden of Farmington, N. M., son of Mrs. Sallie Walden of Morton, and brother of Mike Walden and Mrs. Lee Stewart of Morton, was recently elected president of the Scottish Rite Masons of Farmington for the 1956-57 year.

Highlights and Sidelights FROM YOUR State CAPITOL

(6) Graduated oil tax, by Rep. Bob Eckhardt of Houston.

RE-RUN ON APPROPRIATIONS—Re-approving the appropriation bills passed during the regular session was great stumbling block for either House or Senate.

As before, both houses passed bills calling for 1960-61 spending totaling about \$2,400,000,000. House bill would require some \$333,000,000 from the general revenue fund; the Senate bill, about \$20,000,000 less.

Only change on either side was a House amendment to cut off aid to dependent children payments for illegitimate children after the first one in a family. By having more children, said Rep. H. J. Blanchard of Lubbock, unwed mothers get more money from the state. House members agreed the payments encouraged illegitimacy.

Hard part on getting out an appropriation bill will be settling the House and Senate differences in conference committee. No conference group was appointed in the regular session. Some predicted there would be no effort to come to final agreement on spending this session until ways to pay for it had been agreed upon.

TOO MUCH OIL—Texas oil allowable for June will be 282,738 barrels a day on a 10-day producing pattern. It is the lowest allowable since last July. Both independent producers and major buyers asked the Commission for a sharp cut. They said there is a surplus of petroleum and the threat of a glut on the market.

OTHER TAX BILLS—As in the regular session there is no lack of ideas for raising money.

Besides the governor's bills, these have been proposed: (1) One per cent general tax on all manufactured goods, by Rep. Jerry Sadler of Pervilla. To bring in an estimated \$200,000,000 annually. Businesses grossing less than \$25,000 annually would be exempt.

(2) 1.5 per cent general sales tax, by Rep. Frates S. Seellesson of San Antonio. Food, feed and fertilizers would be exempt.

(3) One per cent tax on retail sales, one per cent on personal income and three per cent on corporate income, by Rep. Louis Anderson of Midland.

(4) Five per cent tax on corporation net profits, by Rep. Dean Johnson of Houston.

(5) Five per cent tax on trading stamps, by Rep. Joe Chapman of Sulphur Springs.

AUSTIN, TEX.—There's a "get on with it" mood among House members during this special session. House was the target of some criticism after the regular session for having made almost no progress in money-raising.

This session the House began processing money bills at a fast clip. Initial action indicated there was less opposition in the House to Gov. Price Daniel's tax program than during the regular session.

Many in the lower house seemed to be in a mood to get as much as possible over to the Senate and "let them worry with it a while." Then, if the finance problem still isn't solved at the end of this session, they hope people won't be saying that the House "sat on its hands again."

Senate attitude toward the various money-raising approaches is largely an unknown quantity. No money-raising bill ever came to a vote in the Senate -- either in committee or on the floor -- during the regular session.

DEBT-PAYING BILLS—Three bills recommended by Governor Daniel to wipe out the \$65,000,000 state deficit received first legislative attention. These measures are:

- 1. "Bookkeeping bill" designed to lop \$28,000,000 off the Aug. 31 deficit by crediting certain money to this year instead of next year.
2. One-year increase in the corporation franchise tax to bring in \$17,000,000. Sponsor Rep. Joe Ed Winfree of Houston called it "a donation by Texas business" toward bailing out state government.
3. Abandoned property act, to transfer to the State Treasury funds unclaimed for seven years. Estimates vary as to how much it would bring in; sponsors say about \$20,000,000 the first year, \$2,000,000 a year thereafter. It was rewritten after its defeat last session but bankers still aren't happy.

First of these bills received quick House approval.

GOVERNOR'S PERMANENT PROGRAM—To cover new money needs for the next two years, the governor is pushing a separate tax program, a "package bill" known as H. B. 7.

It would raise an estimated \$161,000,000 in two years. Affected by the bill would be (1) natural gas, with a reduction from 7 to 5 per cent in production tax and addition of 5 per cent "severance beneficiary" tax, (2) interstate corporations, with a new and complex taxation formula, (3)

utility companies, with an increase in the gross receipt tax, (4) cigarettes, one cent per pack more, (5) other tobacco products, except snuff, to be added to sales tax, (6) liquor, increase from \$1.40 (correct) to \$2.50 a gallon sales tax, (7) automobiles, with sales tax increase from 1.1 to 1.5 per cent.

Rep. George Hinson of Mineola is sponsoring the bill.

In the past weeks the governor has been making a vigorous round of conferences and talks, rounding up support for his program. He launched it before the Legislature with a speech pouring fire and brimstone on the heads of lobbyists. He accused the "third house" of causing expensive delays.

OTHER TAX BILLS—As in the regular session there is no lack of ideas for raising money.

Besides the governor's bills, these have been proposed: (1) One per cent general tax on all manufactured goods, by Rep. Jerry Sadler of Pervilla. To bring in an estimated \$200,000,000 annually. Businesses grossing less than \$25,000 annually would be exempt.

(2) 1.5 per cent general sales tax, by Rep. Frates S. Seellesson of San Antonio. Food, feed and fertilizers would be exempt.

(3) One per cent tax on retail sales, one per cent on personal income and three per cent on corporate income, by Rep. Louis Anderson of Midland.

(4) Five per cent tax on corporation net profits, by Rep. Dean Johnson of Houston.

(5) Five per cent tax on trading stamps, by Rep. Joe Chapman of Sulphur Springs.

With Your ... COUNTY AGENT By HOMER E. THOMPSON START WITH GOOD SEED

There are two main ways to make a profit farming. One is to get more for your product. The other is to lower your cost. In connection, Lee Coffey, who is in charge of the foundation seed program at Texas A&M calls attention to the importance of starting of any crop with seed that is bred for quality, as well as having the ability to produce more, thus lowering cost. So your best bet, Lee says, is to buy certified seed so as to have the research scientist working for you in this matter of making a profit. You will know the seed is certified by the blue tag and the State of Texas seal on the bag.

### Governor Signs Re-Districting Bill; Names Ledbetter Morgan Copeland, As Judge and District Attorney

County Attorney M. C. Ledbetter of Morton has been named District Judge of the newly created 121st Judicial District composed of Cochran, Hockley, Terry, and York County. It was learned here Wednesday that the appointment of Morgan Copeland, present 106th District Attorney, as District Attorney of the newly created district, were sent to the Senate for expected routine confirmation.

Ledbetter was notified of the move Wednesday, and the Tribune was notified by a telegram from George Christian, member of Gov. Daniel's staff, which said:

"Governor today announced appointment M. C. Ledbetter as District Judge and Morgan Copeland as District Attorney of the newly created district. The new district will officially

come into being September 1, and will inherit all district court cases pending on the docket in these counties and now on the 106th and 72nd District dockets.

The appointments of the two men were in keeping with desires of the lawyers in the area who picked the two men as their choice for the post.

Ledbetter, a native of Wellington, attended school at Olton and graduated from Olton High School in 1932. He attended Baylor University where he graduated with a law degree in 1938. He came to Morton shortly thereafter. After a couple of unsuccessful races for County Judge, and a hitch in the Army infantry during World War II, he was elected County Attorney on a write in vote in 1944. He has served in that capacity since that time. He has had no opposition.

The Ledbetters have five daughters and one son, and last year the family was named Methodist Family of the Year from the Brownfield District. Only a month ago the family was cited by the Texas Federation of Women's Clubs, District 7, as the "Family of the Year."

"Led," who missed being a charter member of the Morton Lions Club by a few months, is a past president of the club and also has served as Zone Chairman.

Copeland, who resides in Brownfield, got his law degree at the University of Texas. He had served as County Attorney and was appointed Jan 1 of this year, as District Attorney of the 106th Judicial District. Copeland is a Brownfield product. He is married & the couple have two children.

Governor Daniel signed the re-districting bill Tuesday and announced the appointments Wednesday by telegram. Sen. Preston Smith, who had authored the bill necessary before the district could be created, notified Levelland Attorney Alvin R. Allison, Legislative Chairman of the Bar Association of the four counties early Wednesday before the telegrams came from the Governor's office. Allison had pushed the proposal submitted by the legal group as a measure needed to give residents of the area needed and deserved faster court service.

#### Cub Pack to Plan Camping Trip at Picnic, Monday

Members of Cub Pack 101 will have a very important and enjoyable meeting Monday night at the County Park.

The meeting will be in the form of the annual family picnic lunch. Each family is requested to bring their own picnic lunch.

Final plans will be made at this meeting for the trip to Camp Post and boys and dads planning to make the trip should try to be on hand for this meeting.

According to Harold Drennan, Cubmaster, the time for the physical examination will also be announced.

## Garden Plants Can Be Mighty Dangerous for Kids . . . Different Species Have Different Poisonous Parts

A few years ago an article appeared in the *Sunday Parade* section of daily newspapers that caught the eye of R. E. Thomas of Morton, and he saved it. Recently, he brought the article by the Tribune office thinking it might prove valuable and helpful information to gardeners.

The article, entitled "There's Danger in Your Garden . . . so make sure children never nibble on those flowers, leaves and bulbs!" is certainly informative as far as poisonous plants are concerned. Some hunters were lounging around a campfire near town swapping stories.

One of them suddenly became violently ill. Then, each of his companions got sick, too.

They rushed to a doctor. He found symptoms of digitalis poisoning. (Digitalis slows the heartbeat.) All the men denied having had digitalis injections.

But they did mention that they had eaten steaks roasted on branches.

"There's the key," said the doctor, and treated them at once and said:

"You actually owe your lives to a doctor named Foster N. Martin, Jr., a pharmacologist at Tulane University. He's one of the world's top authorities on poisonous plants. Because I know his work, I know what happened when you roasted those steaks.

"The branches were oleander. They contain a poison which acts like an overdose of digitalis.

Dr. Martin has spent 15 years

collecting and studying poisonous plants which we grow in our gardens without really knowing they are dangerous.

### SOME CAN KILL

Of the plants grown in the average American garden, (that doesn't include wild growing stuff like dangerous mushrooms.) Dr. Martin has listed more than 100 that contain poison — some of it lethal.

In an issue of a standard seed catalogue, he counted 54 harmful plants.

Take castor beans, for example. There is enough poison in a 10-cent packet of these seeds to kill five children. One tulip bulb contains enough poison to kill a man.

Sweet peas contain a poison that causes a form of paralysis. It is seldom fatal but it can keep a victim bedridden for six months, says Dr. Martin.

There is a poison in "elephant ears" that causes painful swelling of the mucous membranes of the mouth, tongue and throat. "Dumb

— It is not true to say — Everything is being done — unless Chiropactic is being included, Dr. L. J. Morrison, D. C., Portales Rd., Morton.

cane" has that name because chewing the leaf can cause your mouth to swell to the point where speech is impossible.

Even honey, made by bees in an area grown with rhododendron and mountain laurel, has been found to be poisonous.

"There is no reason, of course," says Dr. Martin "to stop growing beautiful flowers just because some contain poison. But avoid the common habit of chewing on a bit of leaf or a stalk. Remember to tell your youngsters that it is dangerous to put leaves or stems of plants into their mouths.

Above all, don't store plant bulbs where children can get at them."

A partial list of poisonous cultivated plants follows:

PLANT	POISON PART
Elephant ear	any
Dumb cane	any
Narcissus	bulb
Spider lily	bulb
Four o'clock	root, seed
Iris	Underground stem
Columbine	berry
Pinks	Seed
Cyclamen	Tuber
Mock Orange	Fruit
Ivy	Leaves

Spanish bayonet	root
Potato	seeds, sprouts
Bittersweet	berry
Pimpernel	any
Castor Bean	seed
Oleander	leaves
Foxglove	leaves
Lily of the Valley	any
Scotch broom	Seed
Burging Bush	Leaves
Bluebonnets	seed
Sweet Pea	stem

Tulip	bulb
Jimson Weed	any
Mountain laurel	any
Rhododendron	any
Monkshood	root
