MORTON, TEXAS, THURSDAY, FEBRUARY 25, 1960

NUMBER ONE

FAT STOCK SHOW SET THIS WEEKEND

As Posse President... B. Betts Rites Held Tuesday at First Methodist

Funeral rites were held at the First Methodist Church in Morton, Tuesday, at 2:00 p. m. for B. "Buster" Betts, who died Monday, at the Cochran County hospital, shortly after suffering heart attack.

Rev. Leroy Deans of the Grace Lutheran Church at Slaton and J. E. Harrell, pastor of the First Methodist Church, conducted the funeral for the 46 year old President of the Cochran County Sheriff's Office. Burial was in the City of Slaton Cemetery.

F. WARTON DIED IN FALL AT HIS HOME

Funeral services were held at the home of F. W. Warton, Tuesday, Feb. 23, at 2:00 p. m. for F. W. Warton, who died Monday, at his home, after a long illness.

Services for C. Hyatt San Benito

Funeral services were held at San Benito, Texas, Tuesday, Feb. 23, at 2:00 p. m. for C. Hyatt, father of Mrs. Baker Davis of Morton.

Contestant For Misses Honors

Sandra Powell, 18 year old daughter of Mr. and Mrs. Connie Powell of Whiteface will represent the Whiteface FFA Chapter in the Misses Contest at the South Morton Junior Fat Stock Show to be held on the fair grounds in Morton, March 21 - 23.

To Seymour

Funeral services were held at the home of Mrs. Grover Ward, Tuesday, Feb. 23, at 2:00 p. m. for Mrs. Grover Ward, who died Monday, at her home, after a long illness.

OPENS MONDAY NIGHT — JAYCEES ARE HOSTS TO ANNUAL VOLLEYBALL TOURNAMENT

The Morton Junior Chamber of Commerce will host their 3rd annual volleyball tournament beginning Monday, February 29th, and concluding the following Saturday night.

TOO MUCH GAS PUTS FIRM MANAGER IN THE HOSPITAL

Bill Berry, manager of the South West Furniture here, suffered from gas asphyxiation last Thursday.

Thirty Boys Working Out Regularly For Morton Indian Track Squad

Thirty boys are working out regularly on the Morton cinder paths as the Indians head into what they hope will be a highly successful track season.

Coaches John Paul Jones and Bobby Travis this week announced the schedule which opens March 5th and includes 8 regularly scheduled meets, including the district track meet and the sectional competition for any Indians who qualify.

The first scheduled meet is at Crosbyton on March 5th. A meet at Floydada follows on the 12th and the Indians will travel to the well known Monahans meet on March 19th.

WHO'S WHO

Break-ins Reported Here — Morton, Whiteface, Levelland Have Rash of Burglaries In 4 Day Period

Cochran County law enforcement officers joined other area officers in an investigation into a series of break-ins Sunday night, three of them in this county.

Honor Students To Attend Dinner

Fourteen students of Morton High School are among the students of Hockley and Cochran Counties invited to a dinner for honor students, at 7 p. m., March 4th in the South Elementary School Cafeteria at Levelland.

Athletic Banquet Is Postponed; Will Be Held on Monday, March 14

The annual Morton Athletic Banquet which was to be held here Friday night, has been postponed until March 14th.

The change in plans was announced Wednesday, because of inclement weather and the inability to get the ticket sale rolling early enough.

The banquet, honoring all high school athletes, will be sponsored by the Morton Athletic Boosters and all high school athletes and their dates will be guests.

The Boosters, and their wives held a meeting Monday night to set up plans for decorating the cafeteria for the event, print tickets, and get programs put together.

Teachers, and view special work by the student which will be on display in many rooms.

Monday through Thursday, downtown classes will be held in the Western Abstract Building on the east side of the square, a repeat of a program that drew lots of attention last year.

Whiteface Youth Named Finalist In National Merit Scholarship Program

Daniel Galvin, son of Mr. and Mrs. H. D. Galvin, a senior at Whiteface High School has been named finalist in the 1959-60 competition of the National Merit Scholarship Corporation Program and has been awarded a Certificate of Merit, according to Principal Charlie Booz.

Dan distinguished himself by his high scores on two college aptitude test used in the National Merit Scholarship competition. About six tenths of one percent of the seniors in each state received the awards. A national total of 10,000 students were honored.

Over 550,000 students were tested in the 1959-60 National Merit Scholarship competition which began last April. The test results have pared the competition down to the 10,000 finalists from which the Merit Scholars will be selected and announced this spring. They, and the colleges they have chosen will share in the several million dollars in Merit Scholarship funds to be offered by over 130 different organizations and individuals and by the corporation itself. The winners will be announced about April 27, 1960.

Merit Scholarships are four year awards, and carry stipends that range from \$100 a year to \$1500 a year. Each stipend is individually determined on the basis of need. The amount is based upon family resources, summer earnings, and college costs, all of which vary for each winner.

Each student chooses his college and course of study. Gaining admission to college is the responsibility of the student, but in 1960, the National Merit Scholarship Corporation gave additional

Daniel Galvin

assistance to the 37,000 top scorers in the National Merit Scholarship Qualifying Test, by sending, without charge, test scores to their first and second choice colleges.

The National Merit Scholarship Corporation was established in 1955 with grants of \$20.5 million from the Ford Foundation and the Carnegie Corporation of New York. The current program is the fifth that has been conducted. Over one and one half million students have participated. Of the more than 7000 Merit Scholars selected in the first four programs, twenty-six have already graduated having completed their studies in three years or less, all had distinguished records.

Low Flying Jets Performing Needed Part of Their Overall Training Program

WEBB AFB (sp.) — Some of the area residents may be surprised these days to see normally high flying jets occasionally swooping low across the flat landscape.

The aircraft however, are performing vital defense training and follow flight plans rigidly controlled to bypass cities and towns and avoid interference with other users of the airspace.

The aircraft are supersonic F-100 Super Sabres from Cannon AFB, at Clovis, N. M. Officials from that base are making every effort to inform civilian flyers, airport officials, and the general

public as to the necessity of these low - level navigation missions. Enlisting the aid of Webb's Operations and Information Offices, they explain:

"The low - level, high speed attack has two primary advantages in combat. First, it is difficult, if not impossible, for radar to acquire low - flying, high speed targets in sufficient time to prevent attack.

"Second, it provides a method of precisely navigating to a given target under minimum weather ceilings with a limited all-weather capable aircraft. Precision low-level techniques at 500 knots allow no margin for error. These techniques must be practiced on a continuing basis if the required level of proficiency is to be maintained."

The pilots of the F-100 tactical fighter aircraft must do a tremendous amount of flying to maintain the high level of combat skill required for their immediate alert mission.

These pilots and aircraft have been needed on extremely short notice in the past. Combat units have been deployed from Cannon AFB to the Far East and Europe ten times in the past two years — most notably to Formosa during the crisis in the autumn of 1958.

One of the routes comes south to a point just west of Littlefield and then veers southwest alongside Morton, across the state line, and away past Tatum, N. M.

Four training routes have been selected, all chosen to provide the best possible margin of safety and avoid heavily populated areas.

The one nearest the Big Spring area runs eastward between Levelland and Brownfield, south of Tahoka on a line toward Colorado City, turning northeast between Big Spring and Snyder, and passing out of the area on a line west of Snyder, Spar, and Dickens.

P-TA Hears Students Explanation Of Worth of School Organizations

In a highly interesting P-TA meeting held here recently, a group of students, representing several different school organizations very effectively answered a lot of questions that are continually proposed by school patrons.

Through the program ran to such lengths that a question and answer period was not held, Mrs. Murry Crone, who guided and managed the program had already asked most of the questions that are usually asked. She had care-

are the students who were interviewed, questioned and some of their replies.

Gary Coffman represented the Student Council and explained the purpose of the organization. He listed the requirements for membership, methods in which the Council can effect discipline and control from the students themselves, to help further the overall better discipline program in the school.

Bob Nieman, representing the band, explained that playing musical instruments helped the students develop an outlet for his emotions, gain a great deal of personal satisfaction which was usable in later life. Asked if the program wasn't unfair because of the cost of the instruments, and the fact that some parents couldn't afford to purchase them for their children, it was explained that arrangements could be made to rent instruments, and that the band had a place for that student who, could do his other work to satisfaction and join the band, conduct himself properly in association with others, and work at learning to master an instrument.

Closely associated with band work, is choral work which Lenore White explained as an opportunity for students to learn cooperation, because of the great cooperation needed to give a harmonious performance. She showed the individual confidence that is gained by the choir student who learns to perform before an audience. She pointed out the tolerance taught to those who have superior voices in respect to accepting the weaker voices as a necessity of an overall good choir. She felt that the type of study and attention needed to do a good job in choral work, enabled these students to exert the same type of attention and study in other courses. Leadership and the ability to follow were, in this case, as in most every case, taught by participation in these organizations.

The athletic program, as it always does, came in for its share of debunking when Mrs. Crone explored with Butch Nairn, the student representative, the oft heard criticisms about "waste of time," "poor grades" and "dangerous to health."

Butch explained that records showed that persons involved in the athletic program, as a rule, are among those students carrying good to top grade levels, regardless of what is commonly thought. He pointed out the talents of an individual which are developed through the athletic program, how he felt that cooperation, leadership, the ability to follow, developing confidence and self discipline were important advantages to students who compete in athletics.

He probed the question of accidents and injuries by pointing up the number of students injured in traffic mishaps and in other ways, where they would have been relatively safe occupied at that time in an athletic pursuit.

Then Patsy Amyx, representing girls athletics enlarged on many of these same points and explained that she felt girls athletics helped develop mental alertness (needed in most everything); helped teach physical fitness; enabled girls to meet more people and learn to "get along", and of high importance, stressed the value in learning how to accept defeat and how to win gracefully.

Steve Middleton, representing the Science Club, showed how the study of sciences was closely related to subjects in school which are traditionally hard for students, and how they learned applications of mathematics, and learned how to study. He showed how scientific work not only develops initiative and talent, but develops cooperation to a very fine point and spurs initiative, teamwork, and self discipline.

Joyce Edwards, representing the Future Nurses, stressed two points: that young girls often exhibit an interest in becoming a nurse, but that training often is not available at an early enough age; and that there is today and will be for some time to come, an urgent need in this country for more, properly trained nurses. She also stressed the fact that every girl as a parent, will need training in how to take care of

sick or injured in her own family. How as a student teacher, a young person can develop a better insight into the problems of teachers, was a point stressed by Shirley Miller, representing the Future Teacher's Association. The student also quickly sees, when he or she takes over a classroom for a day, the need for discipline, and attention. It makes the student teacher a better student; puts another person in the classroom who can and will help the teacher; and develops better attitudes toward education in these students who will one day be parents.

She also brought out a point for the entire group as to why the organizations need money; why they undertake various types of fund raising projects; the value of banquets, parties, etc. One of the points she expanded was that as long as the organizations could conduct such types of fund raising projects as bake sales, magazine subscriptions drives, etc., they are giving the public something for their money and not "begging" for donations.

The values of the FHA to future mothers, future raisers of families, were quickly and easily explained by Viola Smith, representing the Future Homemakers.

Learning to manage funds, shop properly, and tend to the many duties of homemakers is a big job. But the nation, Viola told the group, is based on home life... everything is based on the home.

R. E. Thompson's chore was explaining how as a group, after school hours, with the help of their instructors, boys learn the fundamentals of farming that they could not get from the classroom. He also told of the value of special projects which they could do only after school hours, because of limited time in the classroom, toward teaching youth how to stand on their own two feet. He led the audience into a demonstration of parliamentary procedure by the local high school FHA demonstration team.

Mrs. Crone closed the program with a "thank you" to all for the attention and the program put on, and explained that the program helps the adult of today realize, that these organizations are imparting in the student, ideals and principles that today's adult was not able to receive in his or her schooling. She felt all of these things, through proper control and guidance, were helping students of today be better adults of the future.

Lubbock Christian College Students From 12 States and Four Countries Joins Fraternity At U of Texas

Students from 12 states and three foreign countries are represented in the student body of Lubbock Christian College for the spring semester.

Of the 322 students now enrolled in Lubbock Christian College, 259 are Texans, including 70 from Lubbock. Thirty nine are from New Mexico, 5 from Colorado, 4 from Arkansas, 4 from Oklahoma, 2 from Kansas and one each from Alabama, California, Idaho, Oregon, Michigan and New York.

The college also released the following student religion preference data: Church of Christ, 275; Baptist 19; Methodist 15; Roman Catholic, 4; Disciples, 2; Lutheran, 1, Bible Church, 1. Five students gave no religious preference.

Nothing seems to work out right anymore. In a town where you park as long as you wish, you don't wish to.

AUSTIN (spl) — Clovis Ray Hale, of Route One Morton, is one of 14 University of Texas Students who are new members of Eta Kappa Nu, national honor electrical engineering fraternity, announced this past week from the University's News Bureau.

Ammonia increases maize, wheat yields

W. O. GROVES of Spearman, Tex. reports maize yield up to 97.5 bu. per acre with 100 lbs. ammonia.

"A pre-plant application of 100 pounds of Phillips 66 Ammonia helped make an average of 97.5 bushels of maize per acre. Wheat has averaged 41.3 bushels per acre following pre-plant application of 75 pounds ammonia," according to W. O. Groves, who farms 480 irrigated acres.

"For several years Phillips 66 Ammonia has been used successfully. I'm stepping up my rate of application each year. Even on dryland wheat, in years with very little rain, Phillips Ammonia has produced up to 10 extra bushels per acre," he says.

Thousands of Texas farmers are now using Phillips 66 Ammonia to help assure top net profits per acre—on irrigated or dryland fields... in wet or dry years. Actual field reports prove that Phillips 66 Ammonia (1) produces more high grade lint (2) increases sorghum grain yields (3) boosts wheat and small grain yields (4) stimulates pasture growth for more meat and milk.

See your local Phillips 66 Agricultural Ammonia Distributor now. You can make more money this year with this 82% nitrogen fertilizer. It can be applied by you or your distributor.

Comparison of Water Wells Added Shows 1959 Well Ahead of 1958

LUBBOCK (spl) — The High Plains Underground Water Conservation District has announced that in 1959, commercial well drilling within the Water District increased almost two-fold over 1958. In 1959, a total of 1518 wells were drilled, as compared to 879 wells in 1958.

Officials of the Water District explain that because of the need for pre-planting irrigation water on crop land in the spring of 1959, the first six months of that year showed a tremendous increase in drilling activity when compared to the first six months of 1958. The latter half of 1959, however, was about equal in number of wells drilled to the last six months period of 1958.

The District reports that very little new land is being placed under irrigation for the first time, even though additional wells are being drilled. Most new wells are drilled to obtain additional water with which decreasing irrigation supplies may be supplemented. Wells in the southern High Plains of Texas are generally decreasing in capacity, consequently, new wells added to an irrigation system are used to regain quantities of water originally pumped from fewer wells.

Another factor which probably had a bearing on increased drilling activity in 1959 is that generally excellent crops were harvested over the southern High Plains area during the fall of 1958. The good harvest not only re-filled the area's sagging pocketbook, but it was also instrumental in creating optimistic feeling within individuals toward making additional capital investment.

Over 98 percent of the water pumped from wells in the Southern High Plains is pumped for agricultural irrigation purposes. In Cochran County, 36 permits

were issued in 1958 as compared to 82 in 1959. In 1958 29 new wells were drilled and 50 the following year. Of the totals, in 1958, one replacement well and three dry holes were drilled, making a total of 33 wells and in 1959, nine dry holes and five replacement wells cut the total to 64.

How does Cochran County stand, during these two years, in the drilling of water wells? In 1958, the total of 33 wells drilled was 10th, of the 13 counties in the area; and the following year, the total of 64, was again 10. Only Armstrong, Potter and Randall are drilling less wells.

Hockley is drilling the most with Lubbock, Lamb, Floyd, Farmer, Castro, Lynn, Bailey and Deaf Smith all ahead of Cochran County. Percentage-wise, our position remains about the same.

Attend Officials Meeting at A&M

County Judge Glenn W. Thompson and Commissioners M. R. Holloman, Leland Seifres and Harrel Rawls were among the judges and commissioners representing 84 Texas Counties who attended the second County Judges and Commissioners Conference at the Texas A & M Campus at College Station, February 14 - 15.

The "back - to - school" type conference program was developed from suggestions by county officials. Its primary purpose is to give those participating a better understanding of the many problems which commissioners' courts must handle in the discharging of their responsibilities.

The three-day conference is sponsored by the Texas Agricultural Extension Service and the Judges' and Commissioners' Association of Texas.

Normal speed meets every need. Men wonder why the fool moth will fly straight into the flame — and then go out and try to beat a train to the crossing.

Anton "99" Stormproof Cotton

Developed to meet many requirements demanded by cotton producers, buyers, and the Cotton Industry. Is an excellent STRIPPER - SNAPPER cotton with top yields and grades, high lint turn-out. Fiber has high micronaire and tensile strength. All seed are State Registered, and properly processed and treated, fuzzy, saw delinted, and acid delinted seed available. DIRECT FROM BREEDER. Lockhart, Texas

"CORVAIR HANDLES BETTER, STEERS MORE EASILY, RESPONDS MUCH MORE QUICKLY AND HOLDS THE ROAD MORE SECURELY THAN ANY STOCK FOUR-DOOR SEDAN EVER MADE IN THE U.S."

— Jim Whipple, Car Life

If you think we're enthusiastic about Corvair, leaf through the leading automotive, sports and science magazines and see what the experts are saying. Then, by all means, drive one yourself.

"Corvair's steering is so light that at parking speeds it feels power assisted; it is so precise as to be absolutely without play, and it is fast enough to allow complete control over every situation."
— Karl Ludvigsen, Sports Cars Illustrated

"Steers like a feather and is extremely quick. . . This is a beautifully designed automobile, engineered by real pros."
— Tom McCahill, Mechanix Illustrated

"Most surprising thing to me outside of the excellent handling characteristics was the feeling of roominess inside. . . I didn't have the sensation of driving a small car and the headroom was greater in the Corvair than in some standard size cars. . ."
— L. H. Houck, Automotive News

"So far as shopping goes, the Corvair is a housewife's dream. It's small and easily maneuvered without any power steering, and so easily parked. . . it's a lot easier to unload a cart full of groceries into a front trunk at the supermarket than it is into a rear one."
— Rosemary Francis, Popular Science

"There is none of the typical whine normally associated with rear-engined vehicles. Inside the car, the effect is quite unlike anything we have ever experienced. It almost seems that there is no engine, and the general effect is so quiet as to be almost uncanny."
— John R. Bond, Road & Track

"No written word can suffice for the genuine pleasure that you will receive behind the wheel of America's newest and most advanced contribution to transportation. . . It is a great car."
— Don Stewart, Motor Life

— Jim Whipple, Car Life

Drive it— it's fun-tastic! See your local authorized Chevrolet dealer for fast delivery, favorable deals.

Sen. Johnson Bemoans Recent Soviet - Cuba Pact

Senator Lyndon B. Johnson said today that the communist conspiracy to invade the Western Hemisphere "took its biggest step forward" in the signing of a commercial agreement between the Soviet Union and Cuba.

In his weekly report to Texas newspapers, Johnson described the arrangement as "more than a simple commercial agreement."

"There is a question of economic penetration," he said. "And one of the most interesting facts is that Mikoyan made it clear at a press conference that the \$100 million loan would be accom-

panied by Soviet technicians who would help the Cubans.

"This is one of the classical patterns of communistic penetration. There is nothing new in the story except for one very basic and important fact — it has happened right at our doorstep."

Jaycee Tourney Starts Monday

The Morton Jaycees made final plans for the volleyball tourney to be held here beginning next Monday and also discussed another possible fund raising plan.

At their noon luncheon Monday, the group had proposed the holding of a terrapin derby. A discussion was held but no action was taken.

EDITORIALS ...

This Is FHA Week In Texas ...

This week has been officially designated as FHA Week in Texas by Governor Price Daniel.

In Cochran County the FFA movement is strong, thanks to the hard work of real fine FFA leaders such as Duane Knott, Morton FFA supervisor and James Carroll, FFA supervisor at Whiteface.

Both of these men have a complete program of training that not only gives the boys under their supervision the fundamentals

of know how, but the opportunity to follow through with projects. The major activity is competition in the annual Fat Stock Shows, but other work of importance is their district contests in various agricultural skills, activities they sponsor themselves to raise funds for the projects, and training in leadership.

The Tribune salutes the Cochran County FFA Chapters and its members during this week, Feb. 20 - 27, Texas FFA Week.

Hats off to the Morton P-TA For a Series of Interesting Programs ...

One of the hardest organizations to keep functioning on the proper level and at the same time draw interest of the members is a Parent - Teacher Association.

This is not because of any lack of worth in the type of organization, and its not even because of the lack of interest in the schools ... as many theorize.

More, it is a result of the rapid change in society in which parents have become complacent about their relationship to schools ... feeling, in most cases, as if they have no place in the school in any way but through the athletic program or a few other extra-curricular activities.

This attitude has made the need for strong P-TA's even greater.

The Morton P-TA has done a good job during the present school year, mainly on the strength of some well planned programs which proved highly interesting to those in attendance. Even with these, the attendance has not been what the officers and members had hoped it would be. But in this day and age it takes a while for the word to get around that anything good is occurring. We think the good programs this year will build a stronger P-TA next year, but we must continue to strive to present these interesting programs.

Our hat is off to the two ladies responsible for the most interesting programs, Mrs. Murry Crone and Mrs. Lloyd Miller.

and that enrollment had exceeded their expectations. They had looked for a strong enrollment, but those in the field warned the picture wouldn't be as bright as they might think.

but the ...

ENROLLMENT continues to grow, and Dr. Spencer told the Lions "it just seems like we've every break that could come our way."

Nathan Tubb ...

SPEAKING of the curriculum at South Plains College mostly spent his time debunking statements and theories that quite often are advanced by persons who don't know what they are talking about. He told the group that grades made at South Plains College are transferrable, at their face value (an A for an A or a C for a C) at any accredited senior college, providing the grade is in a course for which senior college credits are given.

Science Teacher To Visit 3-Way

THREE WAY (spl.) — Walter R. McGuire, one of 20 specially trained science teachers participating in an eight-state traveling science demonstration - lecture program during the 1959 - 60 school year, will spend 2 days in the Three Way High School beginning March 7-8, 1960, according to Charles Bowen, principal.

The program is supported by a \$335,000 National Science Foundation grant to Oklahoma State University, Stillwater, where McGuire spent three months during the past summer in preparation for the job.

While at OSU he was issued a station wagon completely equipped with lecture - demonstration apparatus and supplies. He and the

other 19 traveling science teachers were selected by a committee of scientists because of their outstanding qualifications.

McGuire, 55 a native Texan, attended schools at Grimes and Weatherford, Okla., graduating from high school at Weatherford.

He holds a BS degree from Southwestern State College, Weatherford, and an MA from Western State College, Gunnison, Colo., and has done additional work at University of California.

He is a member of the New Mexico Academy of Science (past state president), National Science Teachers association, Masonic Lodge and Church of Christ.

From 1946-59 he taught science and mathematics at Portales, N. M., and for the 15 previous years he was in school systems of Oklahoma and Texas.

edlines ...

By Eddie Irwin

SPEAKING BEFORE the Morton Lions Club last week, Dr. Thomas Spencer, president of South Plains College at Levelland and Nathan Tubb, Registrar, had a lot of interesting facts to put across.

Dr. Spencer ...

GENERALLY covered the subject of what is a Junior College, how does it fit into today's edu-

ational trends, and what are the statistics about the growth of Junior Colleges. To us, the statistics were a little more startling than we had expected. The growth is tremendous.

for instance ...

IN 1942 THERE were only 3,000 students of junior college standing being educated in junior colleges in the state of Texas and today, just 18 years later, there are 69,000 enrolled.

he went into ...

THE FINANCIAL picture showing that tuition fee as a junior college is around \$165 dollars compared to the college average of \$1,825. The state pays \$275 per year on each JC student up to an enrollment of 350 students and \$189 per student over that figure of 350.

the tax rate ...

IN THE SOUTH Plains College District as of now is .34 on the \$100 evaluation with property values at around 20 percent. The budget on which the college is operating this year is around \$4,000,000.

why can ...

JUNIOR COLLEGES DO such a good job and why are other colleges (senior colleges) so much in favor of junior colleges. The many sided question has many sided answers, some of which are Junior Colleges enable a lot of students to go on to college who would not be financially able to get into a senior college.

many ...

TIMES, the adjustment is a matter of personality, rather than finances, and in many, many instances a student can get started and stay in junior colleges near his home, where the adjustment of living away from home would be more than he or she could stand.

the smaller ...

SIZE OF ACTUAL CLASSES is a huge factor toward the type of education received. Instructors are able to give far more individual attention and explanation, and there is much less of the "sink or swim" situation into which a lot of senior college freshmen are thrown into. Statistics show that students who graduate from two years of a junior college and then enroll in a senior college are in better scholastic standing, on the average, than those junior classmen in the senior college who got their freshman and sophomore training in a senior college.

this is a ...

POINT WHICH educators themselves strongly endorse. They see in a minute that junior college preparation is often far superior on the individual level ... not because of the quality of instructors, but because of the outside factors involved.

the college ...

At LEVELLAND tries to add any course which they can get 10 or more students enrolled in, and can find a capable instructor to do the job of teaching. Dr. Spencer said. He also said that at its inception, it was hoped the junior college at Levelland would draw students from a six county

sometimes ...

A STUDENT takes a non credit course, something that does not fit into the requirement for a degree picture in a senior college, and that when he transfers, this credit is not given to him. Then someone in the family gets the story mixed up in telling it, and first thing you know the word is out that you don't get credit for all of your junior college work.

fact is ...

MOST PERSONS WHO graduated from college took some courses for which they got no credit toward their degree. And, a great many started off their training in one field, later switched to another major, and thus had some courses that were not related to their eventual major field.

he also ...

EXPLAINED WHY he is so "sold" on the junior college idea, and gave references where students were attending a junior college who would not have found it possible to get into a senior college.

he assured ...

THE GROUP they have around 55 students in day and night classes from Cochran County and that those from here had been among their good students and he complimented the type of student being turned out of our high school program.

all in all ...

IT WAS AN interesting talk and a good pep talk for those who have contemplated enrolling in a junior college. It was a program of information that persons from this area should have been glad to get ... and they exhibited that they were.

Today's MEDITATION from The World's Most Widely Used Devotional Guide

The Upper Room
© THE UPPER ROOM, NASHVILLE, TENNESSEE

This is the message that ye heard from the beginning, that we should love one another. (1 John 3:11)

Tradition gives us this story about one of the early saints. As he walked along the streets of his city, a beggar lifted his hands to him and asked for charity. The saint replied, "My brother, I regret that I have no coin to offer you."

Whereupon the beggar, with tear filled eyes said, "But you have just given me the greatest gift you could have bestowed upon me. You called me Brother."

What a glorious day it will be for this old war-weary world when we shall learn to look upon our fellow man in his hunger suffering, frustration, and rejection, and in answer to his outstretched hands and pleading eyes, say, "My brother."

Curtains of race, creed, religion position and ideology will then crumble into rubble. We will push it aside to make room for the foundation of the bright new world of tomorrow.

PRAYER: Father, I remember the question Cain asked of Thee, "Am I my brother's keeper?" When I am tempted to ask the same question, may the answer be so obvious as to shame me. For Jesus' sake. Amen.

THOUGHT FOR THE DAY
Because as a Christian I believe in God as Father, I think of all persons as my brothers.
Rufus F. Sorrells (Arkansas)

Audrey Faye Ward Engaged To Wed

Mr. and Mrs. Grover Ward of Seymour are announcing the engagement and approaching marriage of their daughter, Miss Audrey Faye Ward to Specialist 1st Class Donald M. Fortenberry, son of Mr. and Mrs. J. C. Fortenberry of Star Route 2, Morton.

Fortenberry is now stationed with the U. S. Army at Mineral Wells. The wedding has been announced for 3 p. m. on April 8, in the home of a brother of the bride, Mr. and Mrs. R. C. Ward at Seymour.

SOCIETY

Three Way News ...

By Mrs. Frank Griffith

ENTERS HOSPITAL
Mrs. Frank Knox entered the Methodist Hospital last week for treatment.

RELEASED FROM HOSPITAL
Mr. Mrs. Lillie Dodd, mother of D. P. Brinker, was released from the West Plains Hospital in Muleshoe last week. She had been a flu patient.

George Fine was also released from the hospital after a several weeks stay there.

HONORED ON BIRTHDAY
Mrs. Jack Lane was honored with a surprise birthday party at her home last week. Present for the occasion were her parents, Mr. and Mrs. Quisenberry of Circleback and Mr. and Mrs. Conrad Williams and children. Mrs. Williams baked and decorated a three-tiered birthday cake for Mrs. Lane.

HOME FROM ENMU
Nan Johnson was home the past weekend from ENMU. She had as her house guests, her roommate, Miss Nancy Adams of York, Penn.

While driving down the road to Goodland, Miss Adams saw what she thought was a lake of water in the middle of the road. She mentioned it to Nan and was told that it was a mirage. Nancy then asked if that was the same thing that people saw in the desert. When told that it was, she then remarked "Why, I'm not thirsty." Miss Adams was fascinated by so many "lakes" on the dry plains of Texas.

SPONSOR BOX SUPPER
The women of the Three Way Methodist Church sponsored a box supper at the Fellowship Hall last Monday evening.

DINNER GUESTS
Sunday dinner guests in the Frank Griffith home were Mr. and Mrs. J. L. Bateaux and girls of West Camp, Mr. and Mrs. W. K. Paul of Portales, Misses Nan Johnson and Nancy Adams, students at ENMU.

SKATING PARTY
The eighth grade class went to Morton last Monday on a skating party.

BREAKFAST SERVED TO MORTON'S RAINBOW ASSEMBLY

The Morton Rainbow Assembly met Saturday morning, Feb. 20 at 9 a. m. in the Masonic Hall. They were served a delicious breakfast by Mrs. James St. Clair, Mother Advisor, Mrs. Gene Huggins, and Mrs. J. C. Reynolds.

After the breakfast the girls practiced their initiation work.

Rainbow girls attending were Gayle McCelvey, Jeanie Tysor, Dorothy Tucker, Barbara Maston, Shirley Fine, Donna Ferguson, Pam Bowers, Kay Lemons, and Sandra Lemons of Maple and Three Way; Lynda Nixon, Brenda Mullinax, Kay St. Clair, Cathy Huggins, Sally Leverett, Barbara Kennedy, Paula Burnett, Pam Reynolds, Linda Long, Mary St. Clair, and two past Worthy Advisors, Shirley Miller and Sara Wallace, who is a sophomore at ENMU.

Morton last Monday on a skating party.

BALL GAME SUCCESSFUL
The ball game at Three Way Tuesday evening between the girls and the teachers and the outsiders and the high school boys took in \$38.50. The money is to be used to help buy a score board clock for the gym.

ENOCHS NEWS
By Mrs. Jerome Cash
VISIT BROTHER
Mr. and Mrs. Calvin Coley of Muleshoe visited her brother and family Sunday, Mr. and Mrs. J. J. Brackman.

FLU EPIDEMIC
An epidemic of flu and colds swept through the Enochs Community this past week. Among those sick were Clyde Price and son Glen, E. C. Gilliam, Buford Peterson, Charles and Jimmie Pool, Mr. and Mrs. Newman, and Mrs. A. D. Hallford.

REPORTED WEAKER
Mrs. Clara McGinnis was reported, Sunday, to be getting weaker. She is at the home of her son at Lubbeck. Her address is care of J. F. McGinnis, Rt. 5, Lubbeck.

REVIVAL CONCLUDED
The Enochs Baptist Church reports a wonderful revival last week. A baptismal service was held Sunday night, for 5 new members.
Pastor J. J. Terry extends thanks for the good attendance and for the large number of visitors, especially for the visiting pastors from neighboring churches.

SURPRISE POUNDING
A surprise pounding was held for Bro. and Mrs. J. J. Terry immediately following church services Sunday night.

REPORTED IMPROVED
Carl Hall was reported to be improved on Sunday, and hoping to return home on Wednesday of his week.

He underwent surgery at the Methodist Hospital last Wednesday on his left arm which was injured last fall.

IS BETTER
Mrs. Flora Nichols is reported to be better this week. She had an attack of strep throat last week.

BIRTHDAY PARTY FOR BILL HANSON

Mr. and Mrs. Troy Hanson of 220 Southeast Third honored their son, Bill, on his 15th birthday Wednesday, Feb. 17.

Those helping him celebrate the occasion were Carolyn Houston, Willard Cox Jr., Rita Baldrige, Jerry Dan Trice, Kay St. Clair, Jimmy Bilbrey, Miki Hefflin, Lee Mapes, Gloria Stroud, Lester Dupler, Mike Clappitt, Barbara Akin, Linda Key, and Mike Holland.

After the gifts were opened, refreshments of sandwiches, the traditional birthday cake, and punch were served.

Later Mr. and Mrs. Hanson carried the group to Lubbeck Coliseum for the Rock and Roll show. Everyone reported having a good time.

VISITED AT BLEDSOE
Rev. Glenneth Harrington, pastor of the First Methodist Church in Grants, New Mexico, his wife, two small sons, Al and Bill, visited Mr. and Mrs. H. T. Collins of Bledsoe, last Thursday and Friday. Mrs. Harrington is Mrs. Collins niece.
Mr. and Mrs. Collins teach in the Bledsoe Public schools.

LEHMAN HD'S HEAR PROGRAM "CARE OF SICK"

Mrs. David Burt gave a program on "Home Care of The Sick" when the Lehman H. D. Club met with Mrs. F. L. Fred. Roll call was answered with "My Remedy or a Cold", by nine members. One visitor was also present.

Refreshments were served to the following: Mmes. Edward Brownlow, Tim Brooks, Burt, J. C. Howell, Clayton Stokes, Charles Sanders, Claude Drennan, one visitor and the hostess.
Next meeting will be on March 2, with Mrs. Charlie Sanders as hostess. Miss Lella Petty, H. D. Agent, will give a demonstration on "Vitamin C in pleasant ways."

HOME ON LEAVE
Airman 2/e Robert L. Taylor has spent the past month visiting his parents, Mr. and Mrs. Willie Taylor, Rt. One, Morton.
Airman Taylor is on leave before reporting for duty in Alaska.

"LIGHT FOR TODAY'S CHILDREN" PROGRAM HEARD BY WESLEYAN SERVICE GUILD

The Wesleyan Service Guild met in the home of Mrs. James E. Harrell, Monday night.

A business session was conducted by Miss Lella Petty, president. At this time a committee composed of Mrs. Carl England, Mrs. Bob Cross and Mrs. Carlton Luper, was appointed to survey the needs and investigate the possibilities of sponsoring a day nursery for Negro Children.

A program on "Light for Today's Children" was given by two members of the Women's Society of Christian Service, Mrs. H. M. Christian and Mrs. W. C. Benham. Mrs. Christian told of the needs of children in foreign lands. Needs of local children and youth of the community was discussed by Mrs. Benham.

The hostess served a refreshment plate to the two guests and 16 members.
The Guild will meet in the home of Mrs. Raymond Ross on March 14. Mrs. Johnnie Green will direct a program on "Populations On the Move."

INITIATED INTO KAPPA ALPHA THETA

Miss Suzy Hawkins, Daughter of Mrs. Scott Hawkins of Morton, has been initiated into Kappa Alpha Theta at Texas Technological College in Lubbeck.

Miss Hawkins is a freshman liberal arts major.

Resigns

Elwood Harris announced last week his resignation from the Willingham Farm and Ranch Store.

Harris, who managed the Farm and Ranch Store since its opening remained with the firm for several months after Sam Tidwell purchased an interest in the firm. Harris resigned in order to accept another position in Morton to be announced at a later date.

TESTS ARE CONDUCTED
The fourth six weeks tests will be administered at Morton Schools on Thursday and Friday.

**BOX SUPPER GIVEN
AT BLEDSOE FRIDAY**
A good crowd and a fine time was reported by Supt. Otis Parr, at the Box Supper sponsored by the Bledsoe Senior Class last Friday night.

Preceding the box supper, held in the auditorium, the four Bledsoe Seniors presented a one act play entitled "Sparkin'."

MOVING TO IRVING
Henry Clay Hornsby of Morton announced this week he has accepted a position as director of music at the First Methodist Church, Irving. He is moving to Irving this week.

**L'Allegros See
Style Show**

Minnie's Shop presented a fashion show of Current and Vacation wardrobes. Models were: Mmes. J. C. Reynolds, Truman Doss, James McClure, Bill Hulse. Bright and easy to care for fabrics will be pace setters for the Spring fashions.

Following the style show the president, Mrs. W. C. Vanlandingham called the meeting to order. The guests, Mrs. Doug Mullins, Mrs. Bill Hulse, and Mrs. L. B. Childs were welcomed.

Discussion followed concerning a workshop on Federation to be given by Mrs. Casey Jones, also a course of study on Citizenship by Mrs. MaIdox from Lubbock Christian College will be available. Members attending the meeting

in the home of Mrs. Truman Doss were Mesdames H. B. Barker, Truman Doss, Harold Drennon, Tommye Hans, Eddie Irwin, C. D. Knott, James McClure, J. C. Reynolds, T. A. Roland, M. A. Silvers, Bobby Travis, W. C. Vanlandingham, Jack Wallace, T. R. Williamson, E. O. Willingham, Tom Pate, W. B. Merritt, and 1 guests. Delicious cherry tarts were served while the lovely spring fashions were discussed.

**MORTON RECREATION
CLUB OPENS**

The Morton Recreation Club for which the city recently issued a permit to house pool tables will open this weekend under the management and ownership of Don Lamar and George Auld. The establishment from Mr. Highland of Post, who applied for the permit.

By Homer E. Thompson
MAJOR CHANGES IN EARLY SEASON COTTON INSECT CONTROL PROGRAM

The following information is given for the benefit of dealers in insecticides in making supply purchase for 1950.

1. Aldrin has been deleted in all recommendations except for grasshopper control.

2. Sprays are recommended over dusts. Refer to comments in the guide under the heading "Dusts".

3. In many areas of the State fleahoppers have become resistant to certain insecticides. It has been found that thrips were very difficult to control in the Lubbock area with the commonly used insecticides. Due to these problems, it is recommended that DDT be mixed with other chlorinated hydrocarbons in areas where

difficulties have been encountered in controlling thrips and cotton fleahoppers. Also note that there are certain phosphorus compounds that can be used in place of DDT for controlling thrips and fleahoppers.

5. Strobane is listed for the first time this year. Strobane and toxaphene perform about the same in laboratory and field tests in controlling certain cotton insects.

In the new cotton insect control guide, L-218, which will be available in a few days, attention is called to a mistake — 'In the leafworm column under 'Dusts', Sevin should be included in the dust form — (10 percent Sevin - 40 percent sulphur) for the control of this pest.

BEEF CATTLE PRICES

John G. Moloney, extension economist, says, "While no sharp break is likely in 1950 in cattle prices, we are entering a period which calls for alertness in producers. The small increase expected in cattle slaughter this year together with large hog slaughter will take the boom off cattle prices." He further states the prices of cows will likely be evident in these lower grades and the major part of the year's expected decline will be felt during late summer and fall.

Fed cattle prices in the spring of 1950 may average a little below a year ago with a little prospect for advances before summer. Imports also added much to the large beef supply. Net imports in 1949 probably reached the billion pound mark. This was enough meat to supply 5 1/2 lbs. per person in our civilian population.

COTTON
Agriculture legislation on cotton passed by Congress last year has real significance for cotton producers in 1950 and in future years. The law establishes new provisions which the cotton producers must follow if they are to keep their allotments.

If fair farm allotment is under a Soil Bank Contract of the Great Plains Conservation Program, the allotment will be preserved. The next provision is likely to affect many cotton growers. Cotton growers and operators not under the Soil Bank Contract or Great Plains Program have two choices. (1) They must plant as much as 75 percent of allotted cotton acreage, or release sufficient acre-

Fire Destroys Wash House at A. H. Cox Farm

A late morning fire, Tuesday, gutted a tin combination wash house and storage building on the A. H. Cox farm about 8 1/2 miles northeast of Morton.

The fire alarm, sounded around 11:30, was turned in after Mrs. Cox said she heard an explosion while they were sitting in the house. Arlen had been working in the back all morning but had returned to the house. When he went into the yard after what he thought was a jet plane flying overhead, he saw the flames. When firemen arrived from the Morton Volunteer Fire Department, the flames had enveloped the small building.

The building housed two washing machines, a dryer, a hot water heater, and Mrs. Cox had all her canning and preserves, and a lot of clothes stored there. She estimated around \$2,000 worth of goods.

Nothing was saved.

age to meet this 75 percent requirement to the county ASC committee for reapportionment to other growers in the county. For example, a farmer with 50 acres

allotment may decide to plant only 38 acres, since this is over 75 percent, or he may plant 30 acres and release as few as 8 acres to be distributed to others.

Keep in mind the release is made for one season only and will not reduce the future allotment of producer reducing the acreage also it will not help the producer

planting the acres to receive a larger allotment next year. Finally, the released acreage cannot be used to set up allotments for new growers.

The third stipulation of the law lease his total cotton allotment for two consecutive years but the third year he must plant at least 75 percent of his allotment in order to preserve his full acreage means that a producer could re-

WIN CASH ...

WHO'S WHO in MORTON

TOTAL PRIZE MONEY \$1320.00
THIS WEEK \$ 66.00

and the MORTON AREA

Copyright 1959 by B. Reinhardt. All Rights Reserved

Where to LOOK for CLUES ... RULES

Clues may be hidden in ANY ad in this group ad. When a "Star" appears in any of these ads, it means that additional advertising for that merchant appears elsewhere in this issue of the Morton Tribune, and additional clues may be hidden in any of those

ads, also!

Clues will be scattered ... there may be from one to five clues in any ad ... or none. This is a contest of skill ... and we intend to do our best to outwit you. We invite you to do your best to outwit us!

RULES

1. This is a family fun contest. Entries welcome from every member of the family old enough to fill out his or her own. You may submit one entry per person at any or all of the Sponsoring Merchants whose ads are in the row that is heavily bordered this week ... but only one entry per person at any one store (more than one will disqualify all entries of that person for that week). Anyone can enter unless a member of your family is employed by the MORTON TRIBUNE. Sponsoring merchants, their families, (and their employees and families) are most welcome to enter EXCEPT during weeks that entries are brought into the Sponsor's place of business.

2. Nothing to buy. Use any slip of paper for entry blank. DO NOT put your entry in an envelope. Not necessary to be present at the drawing to win.

3. WHO'S WHO may be anyone in the Morton trade area. Clues to his or her identity will be hidden ONLY in ads of Sponsoring Merchants (this means any ad in this section or any ad of the same merchant elsewhere in the paper). When star (*) appears in any ad in this section, it is your warning that other ads of the same merchant (in which there may be clues) appear elsewhere in the paper. Clues will be scattered ... many ads will have no clues while others may have as many as five. Beware of false clues; there may be some! This is a contest of skill and we intend to do our best to outwit you. We'll be delighted if you succeed in outguessing us, in spite of our best efforts.

4. If, by coincidence, the name of WHO'S WHO (or other facts about him or her) happen to appear in news items, editorial matter, or other places in this newspaper, these will not count as clues.

5. To enter, write down the name you think is WHO'S WHO. List all the clues you can find in all the ads of the Sponsoring Merchants in this issue. Don't forget your own name and address! Then drop your entry at the business location of any Sponsoring Merchant WHOSE AD IS BETWEEN THE HEAVY BORDERS IN THIS SECTION. You may enter at all four if you wish. There are no other places where entries will be accepted ... and MAIL ENTRIES WILL NOT BE ACCEPTED.

6. This week's contest starts when you receive this issue, and closes at 4:30 p. m. Tuesday of the following week. At that time (4:30 p. m., Tuesday) a drawing will be held. The first entry drawn that correctly identifies the WHO'S WHO will win \$10.00. If THAT entry also lists every correct clue, (and no false clues) hidden in all ads of Sponsoring Merchants, the Bonus Jackpot of \$56.00 will be given. Whenever this bonus is not won it will be added to next week's BONUS which will continue to grow until it is won! Winning the BONUS requires a PERFECT list of correct clues ... the exact number and all copied correctly.

Family participation gives you a better chance to win the jackpot. Your wife, husband, or some bright-eyed youngster MAY spot a clue that you miss! Got any detective blood in you? Think you can outwit us? Remember you can't win if you don't enter ... Fix up your entry NOW!

Home Demonstration Agent

By Leila Petty REPORTER'S TRAINING A training meeting for Home Demonstration Club Secretaries and Reporters, was held Tuesday morning, Feb. 9, in the Extension office, Mr. Bill Glassford, manager of the Morton Tribune was most helpful with his professional advice and suggestions to the reporters.

The bad sandstorm caused poor attendance at the meeting. Attending were Mrs. Carl Kooz, Friendly Circle and Mrs. Ralph Burt, Lehman.

CLOTHING LEADERS AT MEETING Mrs. Charles Sanders and David Burt of Lehman, H. T. Gardner of Friendly Circle, and G. C. Keith, Whiteface attended the training meeting on making tailored buttonholes, Monday afternoon.

RECREATION TRAINING The Recreation Committee of the County Home Demonstration Council will sponsor training in recreation on Friday afternoon, March 4. The meeting will be held in the Banquet Room of the County Activity Building.

GIRLS' 4-H CONCESSIONS STAND The Concessions Stand at the Fat Stock Show will again be for the benefit of the 4-H Club Girls' Fund. Mrs. Lewis of Lehman will be in charge.

The money from the Concessions stand is used to buy 4-H year pins, prizes for the Dress Revue, Dairy Foods and Vegetable demonstration contests, etc., and to help sponsor the 4-H Day Rally, and the 4-H Camp.

4-H MEETINGS The Morton Junior High 4-H Clubs will meet at 9:30 Monday morning, Feb. 29. The Whiteface 4-H Clubs will meet at 1:15 Monday afternoon.

TO DO NOW IN THE FLOWER GARDEN

Check ornamentals, especially arbor vitas and other coniferous evergreens, for Bag worms. The silken sac or bag, usually about 1 1/2 to 2 1/2 inches long, is attached to a shrub's branches and carries in it the eggs of the worm that crawls out in late spring or early summer. The bags should be hand picked now and burned as there is no chemical control when worms are full grown.

A clean up job in the flower garden is in order now. This would include removing all dead branches and old leaves of roses cutting off any old annuals still standing, and clipping off tops of chrysanthemums and other perennials. These should be burned as they harbor insects.

Wait awhile to prune roses. Pruning stimulates growth and its likely there will still be plenty of freezing weather before spring. Generally, pines do not need pruning but the appearance of the plants will be improved by

WHO'S WHO'S —

(continued from page one)

phone number, if you have one. Deposit your entry in Who's Who box at firms whose ads on the Who's Who page appear inside the heavy black border.

Here are the clues to Mrs. Reynolds' identity: rode buggy to school, (in Oklahoma); "love 'em and leave 'em, reference to school days"; played football, (right here in Morton for Navy Relief fund — the Lucy 13 and Spee-Dee clubs, all girls); chopped cotton, (here in Cochran County); milked cows, (same); Purvis Hill student, (Oklahoma).

Physical education major at Tech; first saw the light at Gould (born in Gould, Okla. — was spelled in the Tribune, Gould); operated a switchboard, (at Tech); kept books; Bonny Blossom Shop, (florist shop where she worked while at Tech); enjoys fishing, (ask her friends); once carried oilier in chief title, (at Morton High); participated in debating, (and went to district, too); related to "Smiles", (sister's nickname); double honeymoon, (she was maid of honor at J. B. Passmore and Nellie Merle Bennett wedding, 30 minutes before her own wedding — restrictions on autos and ties resulted in the double honeymoon); active in civic work, (P-TA, Eastern Star, WMU, MCD, Camp Fire, etc.) wed on ground hog day, (Feb. 2, 1946); friendly, courteous, (as everyone who knows her knows); birth date is bank holiday, (April 21, San Jacinto Day); goes by nickname, (Blackie).

Pulled bolls, (in Cochran County); ten years to decide on mate, (that relates to her first date with J. C. prior to their marriage ten years later); served as teller, (in First State Bank); appeared before "Big D" Grand Jury, (while on honeymoon, and in connection to the bank robbery here in 1945); rode horse to school, (in Oklahoma); mate attended school at Shallowater; married here, and still here; loves sports, (any football fan of Morton High knows).

Don't wait . . . get your pencil and get busy . . . you could be the lucky person this week . . .

SOIL CONSERVATION DISTRICT NEWS

OUR SOIL ★ OUR STRENGTH

What is a conservation plan? This question might be asked by a farmer or rancher interested in the future of his land. The answer is that a conservation plan is a plan made by the farmer to protect his land and at the same time improve it as much as possible.

In making the plan the farmer or rancher must first consider the type of soil or range land he has. This is necessarily the basis of any conservation plan. He then sets up a management system which will enable him to reach his goals of protecting and improving his land. The farmer includes in his plan measures to control wind and water erosion. He also plans ways to maintain the organic matter and fertility level of his soil.

Ranchers plan their operations to prevent destroying their better grasses by overgrazing. The rancher may plan brush control, reseeding, fencing or other measures which will improve his grassland. For irrigated land an irrigation system must be designed which will apply moisture evenly and at the right time according to the crop's needs and without waste or erosion.

Landowners all over the country have formed Soil Conservation Districts to help them make and carry out conservation plans. These Soil Conservation Districts are set up locally and are headed by a board of 5 supervisors elected by the landowners of the 5 zones of the District. The United States Department of Agriculture has provided the Soil Conservation Service to give technical assistance to cooperators of the Districts. If you would like to help in making a conservation plan for your farm or ranch contact one of your Soil Conservation District supervisors or any of the personnel at the Soil Conservation office.

FIRE —

choked out from lack of oxygen. Smoke damage was, of course, very extensive, but the actual damage to the building was undeterminable immediately.

Joe Mohmpod, owner of the store, contacted early Tuesday morning, said he closed up the store around 8 o'clock, went to the Lodge hall, and then went home. Firemen, roused out of bed to the scene, ran into one of the coldest nights of the year, with the temperature down around 20 degrees and a cold wind whipping around the building.

removing all dead growth. Many plants are already blooming. Bringing some branches into the house and in a few days you will have lovely yellow blossoms. A deep vase makes the best container.

NEW SPRING HATS ARE HERE New spring hats are blossoming in shop windows these days. The spring collection includes cloche types that fit the head snugly and many variations of bretons or beret types to be worn like a halo — slightly back on the head and centered. A hat puts the finishing touch to an ensemble. It should also serve as a lovely frame for the face. With the great variety in style, color, and size, there has to be a hat perfect for you.

Consider the hat in relation to your figure as well as your face. Also notice the profile. You want the side view to be pleasing too. To add length to the face and figure, wear hats with brims that turn upward. Hat decorations with an upswept air will also tend to keep the eye moving in a vertical direction.

To shorten the face and figure, wear hats with drooping brims or fitted close to the head. Hats in bright, contrasting color or with horizontally placed decoration will stop the eye, decreasing the apparent height of the figure. Hats worn straight on the head are the hardest to wear. This style produces a straight line across the forehead which shortens and broadens the face. For best results, shop when you are rested, and have time to look carefully. A full-length mirror is a reliable friend to consult before you make a final decision.

Last year's winner has won again! 1959'S BIGGEST SALES SUCCESS IS GOING STRONGER THAN EVER IN 1960. ONE LOOK AT THOSE BEAUTIFULLY PROPORTIONED LINES AND YOU'LL KNOW WHY! Within one year from introduction, the Ford Galaxie, the Thunderbird of the low-price field, has become the world's best-selling series. For 1960 it is even more sensational. Inside and out, in style and luxury, the Galaxie is unmistakably Thunderbird. For power, you can have the "lightning" of the Thunderbird's own V-8 engine. And for 1960 Galaxie has more room for six passengers than ever before! Yet, all-new and elegant as the Galaxie is, it still sports a low Ford price tag. So take a tip from all America. Come test-drive the 1960 Galaxie—the best-selling car in the world.
