## WHOPPER RAIN DELUGE . . . Something to Remember or to FORGET

### MOST RAIN EVER RECEIVED IN AREA AT ONE TIME IS OPINION OF MANY

#### The Sotello Case . . .

#### Feels That Important Information Should Have Been Allowed in Barber's Case

Editors Note: In response to a request from H. G. Long, to publish the law concerning their recent case, "The State of Texas vs. Sotello," the Tribune agreed to publish the law as furnished by H. G. Long, if brought to the Tribune in time for careful consideration. The following was brought in yesterday afternoon, to late for consideration before Wednesday's publication date, and is hereby published in the Dollar Day Special.

reporting the case of The State of Texas vs. Sotello. Due to the failure of this report to reflect what occurred, Messrs. Long and Matthews have requested that I make a statement as to what transpired at this, so-called, trial.

Sotello was charged under Article 283 Texas Penal Code of violating this law. On Sunday, June 26, 1960, with unlawfully and willfully laboring, in that, he cut the hair of H. G. Long, charging him therefor the sum of \$1.25.

Sotello was represented by counsellors Boring and Hamilton, The

State by Grover D. Edgar, County Attorney. The Defendant pleaded "Not Guilty." The State placed two witnesses upon the stand and proved the violation of the law. Upon cross-examination of Matthews, Boring attempted to prove the violation of the law by others. The State objected to this line of questioning as bringing in collateral issues not relevant to the case. Justice of the Peace, Morrow, refused to rule on this objection, but Boring pressed the issue and insisted that his client's constitutional rights were being violated because of other like

crimes were being committed in Morton, and he moved for an instructed verdict for his client. The State objected on the grounds that no-one has the right under the constitution to commit a crime under any theory known to the law.

At this juncture, Mr. Hamilton moved the court for an instructed verdict because the evidence of the State clearly indicated "entrapment." The State objected to this motion, insisting that there was no entrapment in the case, because of the fact the Defendant had his barber shop open for business and in-

cluding, openly, the commission of the crime of which he was charged. That the complaining witnesses accepted the invitation and procured the haircut along with the evidence.

At this phase of the trial both the defense and State counsel were attempting to present their respective views. Justice of the Peace, Morrow, suddenly stopped the trial, before Boring could conclude his cross-examination, and proceeded to end the case by announcing his decision in these words: "I know no law

Rains of unusual intensity and duration turned much of Cochran County, along with most areas of the South Plains, into a mass of lakes from Monday through Thursday of this past week.

The heaviest rains in Morton came all day Thursday, and poured into already overflowing lakes, the bulk of up to six inches of water which fell.

Heaviest area hit appeared to be just east of Morton which got all of its own rain, and a huge

run-off of water which flowed from Morton toward the lake just south of the Country Club Gin, all during the day. In its path this torrent of water spilled over into a great many lakes in farm fields.

The rains fell in all directions, though the amount varied greatly. But most old timers seemed to be in agreement that the amount over a week period was as much as or more than had been received here in a similar period of time since they could remember.

W. E. Angey said he remembered shorter, harder rains, and others recalled that they had received more rain during an entire crop season than we have had this year, but few would admit to having seen the lakes here with any more water, and many remarked about "new" lakes that hadn't ever appeared before.

In 1941, heavy summer rains nearly washed out a crop before September, T. D. Marshall recalls, but he also recalls that the same heavy rainfall nearly insured the crop for a three year period following.

Changes in landscaping most assuredly had a great deal to do with the amounts of water that ran into certain places. Several persons hinted at court action because the natural flow of water from Morton had been detoured causing extreme damage in certain places. But just what would be the overall result is anybody's guess.

This much is certain . . . damage from crops absolutely lost (not reclaimable) and from other things destroyed by floods was sure to run into hundreds of thousands of dollars . . . and perhaps millions. By the same token high lands received benefits the likes of which most of their owners had never seen before.

Around Stegall, Thurl Lemons reported lighter rainfall than was received here. He reported his gauge showed 2.2 when read Thursday morning and had another 3 inches when it was read Friday morning. The road between Three Way and Enochs was underwater and impassable Friday morning.

Coming farther south, but still west and north of Morton, Bert Jennings recorded 7.4 inches of water and most farmers reported some crops under water in that area. Coming further east T. D. Marshall, on the outskirts of Morton reported 10 inches of water since Monday. Still further east, Haskell Milligan had 13 inches, Weldon Newsom had 10 inches, and 4 miles west and so-

uth of the Northeast corner of the county, Jim Clampitt had 12 1/2 inches of water.

In Morton J. H. Lowe reported 9 inches received at his house since Monday.

Milligan reported he started with 400 acres of crop and had 150 acres left, not underwater. D. E. Benham estimated a 200 acre patch farmed by he and his father, under water. All of this was east of Morton.

L. W. (Shorty) Ware, farming some 1346 acres south near Lehman reported they had received around 6 inches of rain or more there before this week, in addition to the huge hail damage they had suffered. He estimated they could have received as much as 18 inches with this weeks rainfall in that area. He reported two 500 acre areas he farms (one in Eastern New Mexico), west of Morton received good rains but he was highly optimistic about the benefits of the heavy rain. He estimated he had only about 40 acres of lakes in the entire land, though most of his cotton acreage was badly damaged, he had high hopes for his grain crop. He has already harvested a wheat crop over some of the land and will go in and plant maize and other crops after this rain.

Homer Thompson, County Agent had this to say about the overall crop damage and prospects, after

see (RAIN) Page 4

#### Country Club Gin, Manager's House Hard Hit By Flood

One of the worst cases of damage occurred in the low water basin just east of Morton, where water funneled out through a series of lakes and the majority concentrated in the lake directly behind the 4th green, at the Morton Country Club.

Needless to say, portions of the Country Club were under water all day, but by early Friday morning, the golf course was nearly one solid mass of water.

The lake filled to a depth estimated at 8 to 10 feet in places, ran up to 4 feet in the Country Club Gin office; washed trailers off the road leading from the gin to the FTM Road; ran up to 3 feet in the win building causing a large amount of damage there. Motors and all sorts of ginning equipment were under water, much of the equipment only newly installed.

Eddie Shipman, who was living in the house provided by the gin, was reached early Thursday morning and the clothes of his family were carried out. They stacked the furniture but didn't go back to get it, and by late Thursday the house had three feet of water in it. By boat they carried out as much of the furniture as possible. His auto and pickup were buried under water . . . but, as he said, it could have been worse.

Shipman's personal damage alone would amount to several thousand dollars and the gin damage just couldn't be figured at that time, Gene Benham, one of the owners, said.

#### TORNADO IS SIGHTED AS STORM HITS

During the height of the rainfall Thursday afternoon a tornado was reported sighted southwest of Morton, but no damage has been reported.

Fred Crow reports the funnel dipped down into Virgil Coffman's field and was spotted by several persons.

#### Roads In Most Directions from Morton Were Flooded Out For Short Time

One of the main consequences of the heavy rains received here Tuesday, Wednesday and Thursday, was the large number of roads that were blocked.

Roads all over the South Plains area were blocked, many of them for the first time in history, and though a few persons held out for heavier rains in shorter periods of time, most old timers agreed this was the most rain ever received in this part of the country at this time of the year.

The road to Muleshoe remained open Thursday, but to get to Levelland, folks had to go to Whiteface, cut south and then back over through Fairview, then back to

Levelland. Later Thursday that road too was cut off, and Friday morning you just couldn't get through.

South the road remained open Thursday to Plains most of the day.

West there were lots of places the water over the road, but most of the time it remained passable.

Farm to Market roads were the biggest headache in this county. Folks were stranded in several places, roadbeds were badly washed, and every known lake in the county and many newly created ones, were full and overflowing with water.

VOLUME VIII "Covers Texas' Last Frontier Like the Dust" MORTON, TEXAS, SUNDAY, JULY 10, 1960 NUMBER FIVE

# OIL EVALUATION IS DOWN

#### NEW FARMERS IN COUNTY ARE ELIGIBLE TO VOTE . . .

#### Wheat Allotment Notices Being Mailed Out

College Station, (sp.) — Official notices of farm allotments for the 1961 wheat crop are being mailed to farmers this week, according to Baldwin P. Davenport, chairman of the Texas Agricultural Stabilization and Conservation Committee. Most of the allotments differ only slightly from those for 1960, since the final acreage allotment results at the minimum of 55 million acres, Davenport said.

Only a few farmers in Cochran County are among those who will be eligible to vote in the referendum. Cochran County farmers who are growing the 15 acre minimum allowed without an allot-

ment pointed out that all growers will produce more than 15 acres of wheat as grain in 1961 and are eligible to cast ballots on the July 21 referendum on wheat quotas for the '61 wheat crop. Growers with smaller acreage and those in the feed wheat program are not eligible to vote. Their wheat would not be subject to marketing quota penal-

ties. Davenport said the referendum will decide important questions on wheat production and he urged eligible growers to cast a ballot. Marketing quotas will be in effect for the 1961 wheat crop. Two-thirds of the growers casting ballots favor their continuing. Too, marketing penalties apply to the excess wheat of those not complying with their allotments, and price support at not less than 75 percent of parity will be available.

More than one third of the growers oppose the quotas, no quotas and penalties will be in effect for the 1961 wheat crop and price

support at 50 percent of parity will be available to producers who plant within their farm allotments.

Growers who like to make their own decisions should cast a ballot on July 21, Davenport said. Local announcements will soon

be made regarding polling places and opening and closing times for the balloting. Local ASC offices can supply additional information on the referendum or it may also be obtained from community and county ASC committees, Davenport said.

#### Cut In Value of Pumping Wells Voted By Commissioners In Annual Hearing With Oil Company Representatives

Oil companies with holdings in Cochran County got a slight tax reduction over the proposed taxes submitted to them by Commissioner's Court.

The reduction came Friday as oil company representatives met with the Commissioners' Court, sitting as a Board of Equalization, and the County's oil evaluation engineering firm of King, Latham and Stults.

The reduction came in the form of a \$500 reduction per flowing well, County Judge Glenn W. Thompson, said Friday, after the meeting. After considerable discussion the court voted three to one to allow the reduction. R. Z. Dewbre cast the dissenting vote on the reduction.

Judge Thompson said the amount of evaluation on flowing wells and on minerals remained the same. He said the oil company's request for reduction was based on the fact that the allowable pumpings have gone down to eight days, and that equipment at the wells has been reduced considerably in the past years.

He estimated the total taxable reduction would be about \$500,000 but said the complete figures wouldn't be known until the tapes had been rerun on all of the wells. He said the reduction would keep the county's taxable valuation a little over \$30 million, but again reminded that final figures would not be known until the Board meets with local property owners in the scheduled meeting next Tuesday.

#### Two Families Are Evacuated As Homes Flood

Families were evacuated in Morton, early Thursday, at the peak of the heavy rains.

The Shorty Shields home & the Embry home were invaded by high water, just north of Strickland's Lake on West Grant Street, early Thursday.

Volunteers helped evacuate the families and stood by in the event others needed moving out.

Late Friday night the water remained deep over the street making it impassible for a block.

#### Works Part Time

The Cochran County Sheriff's Office recently changed the hours of its office deputy.

Vaughan Killian, who was a full time deputy handling the local road headquarters during the day, is now working for the county on an hourly basis, four hours each evening, Sheriff Hazel Hancock said.

During the day, Hancock said, it is possible to keep someone available to answer the radio. But at nights, with other offices closed, and some of the deputies off duty, the radioman is needed to help carry on the business of the office, he added.

Killian works for the Highway Department in the daytime.

#### STRESSES NEED FOR GETTING RID OF OUTHOUSES

The flooded section of "the flats" points up the need for the getting rid of outdoor privies, one of the local doctors, reminded this week in a tour of the city during the heavy Thursday rains.

Forced removal of outhouses has been advocated before but the project has not been pushed. Danger of disease is definitely imminent during such a flood, it was pointed out, though the doctor said in this country the outbreak is not as likely as in other parts of the country.

#### NEEDS HELP

Dramatic proof of the need for aid for Chilean earthquake victims is evidenced by this Puerto Montt orphan—his only belongings heaped in a string bag—shown waiting a mercy plane trip to a refugee reception center in Santiago.

Nations throughout the world are responding to appeals for help. President Eisenhower appointed American Red Cross President, General Alfred M. Gruenther, as coordinator of U. S. voluntary relief efforts. Numerous religious and welfare organizations are engaged in the massive relief project. The Red Cross, which is conducting a nationwide fund appeal, made an initial allocation of \$175,000 and provided \$250,000 worth of donated medical and other supplies.

Photo courtesy Washington Daily News

#### Tigers Finally Gain Victory Over Indians

The Morton Tigers finally caught up with the Indians, in the Babe Ruth League, Friday night, on a damp field.

Don Lamar's Tigers, who had lost all their games to the Indians this season, but had beaten all other teams, carried a 7 to 4 lead into the top of the 6th inning as time ran out. But the Indians, batting, scored three runs to knot the score and force the last half of the inning.

Then Terry Davis delivered the game winning hit which sent the winning run scampering home third base.

It was the final scheduled meeting of the two teams this season, and unless the Indians lose another game, and the Tigers win all of their remaining games, the Indians will come out as the league winners.

VISITING RELATIVES IN O'DONNELL Mrs. Hardy Rhyne of Morton is visiting relatives in O'Donnell this weekend.

#### BOYS ARE AMONG LEGION BATTERS

Larry Pollard, hitting .500 Morton's Steve Middleton, batting .388, are among the hitters on the Littlefield American Legion team, it was revealed last week by manager Jimmy Chapman who disclosed the averages.

The Littlefield team, one of the top American Legion teams in the area, will be in the state playoffs in a few weeks.

CALL FOR \$300 Tribune's Who's Who contest. \$300 to be awarded, Tuesday, end this week, area residents reminded. Anyone, or group of persons will be \$300, Tuesday, unless no-one identifies the Who's Who.

#### Rains for Week Over 8 Inches In The City

The official reading from the Soil Conservation office of rainfall received this week was released Friday afternoon.

On Monday, July 4th, the gauge showed .30.

On Tuesday, July 5th, .59.

Wednesday, July 6th, 1.71.

Thursday, July 7th, 4.69.

Friday, July 8th, .75. The total for the entire period was 8.04 inches of rainfall. The gauge readings were taken at 5 p. m. each of these days, the SCS reports.

### County Sing Set This Afternoon

The regular monthly County Sing will be held Sunday from 2 to 4 p. m. at the Assembly of God Church in Morton and the public is cordially invited to attend.

In addition to the out of town guests from neighboring cities that have been attending these meetings are Mrs. Bryant Booth and daughter of Muleshoe, who are conducting a singing school at the Assembly of God Church here, will be in attendance.

Mrs. Booth has been giving private voice lessons and piano lessons daily. The school has been conducted each night, at 8 p. m.

Bro. Clarke reported this week the school has been "going well" with good attendance.

### FLOYDADA IS NEWCOMER... Indians' 1960 Grid Slate Announced; Five Are District 2-AA Opponents

The Morton Indian Gridders for 1960 will open their season on the home field, Friday, September 2nd, against the Sudan Hornets, it was revealed this week by Coach John Paul Jones.

Jones, who is getting anxious for football training time to roll around, had to be evasive about answering the question of just how strong the Indians will be this year. He had only one season to base his judgement on, and still feels he doesn't know enough about the capabilities of the boys, to accurately predict. He does expect the team spirit to be strong, probably a lot stronger than last year; the com-

parative slow afoot Indian team of last year was considerably faster than this year's team. However he quickly amends his woes about lack of speed, to say that several of the back are of quick action, which goes a long way toward making up for lack of swiftness afoot.

After meeting Sudan in the home, the Indians will go to Whiteface for their annual encounter with the Antelopes, then get their open date.

Farwell and Idalou will provide the opposition, Idalou coming to Morton, before the rugged meeting with Sundown's Roughnecks at Sundown.

Conference play then gets underway with Morton going to Abernathy; Olton coming to Morton; Morton traveling to Muleshoe and then closing out the season with two successive dates at home against Floydada, newest conference member and Lockney.

Jones is not yet ready to "tab" a favorite label on any one conference team. Floydada was the power of the Plains among the AA schools last season, but was in a different district.

The Morton coach expects to field a relatively strong and well balanced line but sees little chance for the coming of a breakaway runner. Nor does John even know who his assistants will be. Coach Bob Travis has not indicated he will leave but one of last year's coaches, Pat Hughes, has already moved from Morton and another is reported "looking."

Coach Jones would like to see an early start on sale of season tickets, instead of waiting until a few days before the grid season actually gets underway. He feels the early start will give fans time to work up a strong appetite for football and that they would be so apt to place so harsh a judgement on the opening performance, if they are worked up to the stage where they are anxious to see football played... rather than keyed up for just winning a game.

Coach Jones is expecting a lot of help from boys who played freshman ball last year, though the crop was as potentially strong as will be this year's freshman group, or even next year's.

Here is the complete schedule:

- Sept. 2 Sudan H
- Sept. 9 Whiteface T
- Sept. 16 Open Date
- Sept. 23 Farwell T
- Sept. 30 Idalou H
- Oct. 7 Sundown T
- Oct. 14 Abernathy T
- Oct. 21 Olton H
- Oct. 28 Muleshoe T
- Nov. 4 Floydada H
- Nov. 11 Lockney H

#### EQUALIZATION BOARD MEETS AT BLEDSOE

The Board of Equalization of the Bledsoe Independent School District will meet next Wednesday at 9 a. m. at the School, it was announced last week.

#### HOSPITAL BOARD TO MEET

Members of the Memorial Hospital Board of Managers will meet Monday night, July 11, at 8 o'clock in the dining room of the hospital. The meetings are open to the public.

**RAIN —**

(Continued from Page One)  
 Thursday's rain:  
 "From July 4 to July 8, 1960, the heaviest rains that have ever fallen in Cochran County fell during this period. Rains have been reported from 10 inches to 14 inches in this area. Roads are blocked, much damage has been done to the state and farm to market roads because of the wash-outs and flooded low areas.  
 Much of the grain sorghum has been washed out or covered up with either soil or water. It is too early yet to estimate very accurately the total extent of damage but talking to farmers — the cotton acres in this area will be 20,000 to 25,000 acres short of the allotment due to rain, hail, wind, diseases, insects, and other factors. This could be a little

low but I hope it is high and that no more damage occurs in cotton.  
 As for grain sorghum the same applies as far as the factors above are concerned because much of the grain sorghum is washed out, covered up with sand or water. Again the estimate is difficult but I would say about 40,000 acres of grain sorghum has been destroyed in the county.  
 It is getting very late but it is possible to plant Norghum, or Double Dwarf Sooner Maize and get it matured before frost. These plantings may be as late as the third week in July and have a good chance to mature.  
 The availability of seed is not known at this time but the County Agent will be glad to help farmers locate seed if they need them."

**U. S. CONTINUES TO IMPORT LARGE QUANTITIES OF COTTON GOODS**

(Editor's Note: The following article is released by American Cotton Manufacturers Institute, Inc., 1501 Johnston Building, Charlotte 2, North Carolina.)

**UPSPURGE IN TEXTILE IMPORTS CONTINUES**

A large volume of foreign made cotton textile products is continuing to move into U. S. markets. These low wage textile products include cotton yarns, unfinished cloth and many varieties or types of garments.  
 Sharp increases in U. S. imports of cotton textiles have occurred since drastic reductions in U. S. textile import duties were made in 1955 during negotiations under the General Agreement on Tariffs and Trade.

In 1959 these imports reached new highs. Now we find these low wage textile products are being shipped in from many countries which heretofore were not important factors in world textile markets. In addition to the traditional Japanese and European competition, U. S. textile mills now face an ever widening circle of low wage competitors based in Hong Kong, India, Korea, Pakistan and Formosa, as well as other countries which are developing textile manufacturing capacity.

The basic facts which portray the sharply increasing trends in cotton textile imports are reported in world trade statistics by the U. S. Department of Commerce. These historical trends of cotton yarn, cotton cloth, wearing apparel and other miscellaneous textile manufactures are depicted in the attached tables and charts.

**Cotton Yarn**  
 Cotton yarn imports have shown a precipitous increase since 1957. In 1958 U. S. imports of cotton yarn reached 835,000 pounds, the highest level since the Korean War years of 1950 - 51. However, in 1959 cotton yarn imports again increased sharply to a total of 1.4 million pounds, an increase of 65 percent. The latest government reports covering the January - April period in 1960 indicate a 5.5 million pound import level, or an annual rate for 1960 of about 15 million pounds of foreign made cotton yarns.

These foreign made yarns are coming from Brazil, The Netherlands, France, Switzerland, Spain, Portugal, Egypt and Israel. The latest trade reports indicate that shipments of these yarns are currently continuing at high levels.

**Cotton Cloth**  
 U. S. mills are confronted with a sharply increased import level of low wage cotton cloth from foreign countries. The rising trend in cotton cloth imports is much like that in cotton yarn. From a level of about 73 million square yards in 1954, cotton cloth imports rose to 133 million in 1955, and to 188 million in 1956. They eased to 122 million square yards in 1957 with the imposition of the Japanese voluntary quota arrangement, but increased to more than 141 million square yards in 1958 as other countries began to capitalize on the U. S. market. An explosive jump to 241 million square yards in 1959 represented a 70 per cent increase over the 1958 import level. If the first quarter 1960 import rates are continued throughout the year, U. S. mills stand to lose almost one half billion yards of production of unfinished cotton cloth alone to low wage foreign countries. There appears to be no lessening in the build up of textile manufacturing capacity around the world. Neither is there any cessation of the steady erosion of traditional U. S. domestic and export markets by textile manufactures produced under conditions below wage standards required by law in the U. S.

**Apparel**  
 Textile end-products, such as apparel, are now being shipped into the U. S. in ever increasing quantities from the low wage countries.  
 This is a logical development in view of the low cost advantages growing out of the differential in wage and working condition standards between the United States and foreign countries. The advantage gained from the production of yarn and cloth in low wage countries is multiplied when it is finished and manufactured into end products. Additionally, their competitive edge is sharpened further by the raw material cost factor. Foreign manufactures buy cotton, including U. S. growths, at prices about 25 percent below U. S. mills must pay.  
 From a level of \$47 million in 1954, U. S. apparel imports more than doubled in 1956 to \$107 million. They continued to rise to \$124 million in 1958, and increased sharply to \$190 million in 1959. The same incessant upward trend is indicated for 1960, and a careful appraisal of factors involved points toward the continuation of this trend in the years ahead.  
 For example, cotton shirt imports of 511,000 dozen in the first four months of 1959 may be com-

pared with imports of 565,000 dozen through April of 1960. In 1953 these shirt imports were only 11,000 dozen. In 1954 they had risen to 211,000 dozen; and by 1956 they had increased to 1.2 million dozen. Cotton shirt imports in 1959 totaled 2.2 million dozen, which represented a rapid rate of increase.

Other examples of these trends are seen in the rise of cotton sport shirts from 1.3 million dozens in 1958 to 1.9 million dozens in 1959. Cotton trousers imports jumped from 1.8 million dozens in 1958 to 3.5 million dozens in 1959. Imports of cotton blouses and shorts sets doubled in the same period to reach nearly 1 million dozen sets.

**Textile Manufactures**  
 A significant change has occurred in the overall textile trade between the U. S. and the rest of the world. In 1947 U. S. textile exporters found a world market for \$1.4 billion worth of textile manufactures while imports amounted to only about one-fourth of this volume. This net textile export balance diminished until by 1955 U. S. imports of textile manufactures of \$385 million had grown to 95 percent of our \$615 million export trade. By 1958 a net textile import balance was firmly established.

U. S. imports of textile manufactures totaled \$837 million in 1959 in contrast to exports of only \$634 million. And the latest available statistical measurements of world trade in textile manufactures in 1960 indicate that these trends are continuing. Imports of textile manufactures are currently running at more than 140 percent of our export trade.

**Man-Made Fibre Fabrics**  
 Following the Korean War, U. S. imports of man made fibre fabrics ran at more than 1 million pounds in 1953 and 1954. A steady rise in imports to more than 3 million pounds in 1957 was followed by a further increase to nearly 5 million pounds in 1958. In 1959, U. S. imports of

man-made fiber fabrics shot upward at a heretofore unprecedented rate. Imports of these fabrics totaled 11 million pounds in 1959. This was more than double the 1958 level.

**GATT**  
 Currently the government has included a number of textile items on its list of products to be considered for possible U. S. concessions in the next negotiations under the General Agreement on Tariffs and Trade.

Notably the list includes such cotton items as yarns, knit goods, hosiery, underwear, quilts and bedspreads and such synthetic or man made fiber items as yarns, knit fabrics, and all kinds of apparel.

Naturally, the industry is planning to appear before the U. S. Tariff Commission and the Committee for Reciprocity Information in an effort to have textile items removed from the GATT list. Our position is that present tariff rates have failed to stem the flow of imports and there

is no need to reduce them further for the purpose of stimulating world trade in textiles.

**VISITED HERE**  
 Mr. and Mrs. Richard Lytle of Riverside, Calif., were recent visitors in the E. N. McCall home at Enochs (her sister) and on Friday of this week stopped by and visited Mrs. Thurl Lemons and Mrs. Eddie Irwin (the half sisters) before returning to California.

# edlines...

**By Eddie Irwin**

**REV. FRED THOMAS** may or may not have a legitimate complaint against the Tribune Office, but we'll tell him just what we told a man the other day, he'll just have to get in line to sue us, punch us in the nose, or whatever.

**FRED IS A NOSE PUNCHER.** We hope he took it all in good humor, but we'll have to admit he must feel that we had something

to do with his being elected to the presidency of the Ministerial Alliance.

**how we...**

**DID IT, WE'LL never know,** but we did get Rev. Thomas' name in the paper as President of the Alliance, when Rev. H. T. Clarke was president. So, Secretary Austin Steadman said they just decided to cooperate with the Tribune and make their statement true... they just elected Bro. Thomas as President.

**BE CONSIDERED** some kind of conspiracy, we guess.

**WE COULD talk about the rain,** a whole paperful, and still not get through with the comments and stories folks around here have to tell about it. But we're going to confine the rain to separate stories instead of going into details in this column. It's to bad there isn't a way to check with every farmer and get the most rain recorded in the county.

**IN JP COURT** the other day concerned a very interesting subject about businesses being open on Sunday. As is the case in many of our laws, there are laws and there are exceptions to laws, also cited in the law books. Not being a lawyer or judge, it is not our place to decide, right or wrong, though the case did have some significance.

**WISH TO APPEAR** to be presenting "sides" to the barbering question. It is a ticklish thing, and a sore thing to some folks. We don't claim to be judge, attorney, or jury. But once open for discussion, we feel everyone concerned should have his say, if he wants it, subject of course to limitations of possible libel, or something that could be construed as contempt of court, by the judge.

**IN NO WAY** an admission by us that we have misrepresented what took place at the trial. No two people watching something will come out with the exact same opinion of just what happened.

**STARTED OUT TO PUBLISH** was "the law" concerning the barber shops. But, when the product was presented to us, it was, instead of strictly coverage of the law, a dissertation about the law, the case and the entire proceedings at the trial. And, of course, everyone to his own opinion.

**STATES,** the hours of being open, prices charged, etc., are regulated by a State Board of Barbers, just as we have State Medical Association, State Bar Association, etc., that take up grievances in their particular profession, against members of the profession. In extreme cases, members are disbarred, or relieved of their license to practice in the state. Texas has no regulations of this type by a barber group.

**USHERING IN** of cotton season usually begins when the first blooms are brought in, and Lloyd Miller brought in the first we had seen Sunday, picked on the Jug Hill farm southwest of Morton.

**HAD THE HEART** to ask him, since, if the cotton which was off to such a fine start, is today, under two or three feet of water.

**IN VET'S HOSPITAL** Walter (Moon) Lytle of Ft. Worth, brother of Mrs. Thurl Lemons and Mrs. Eddie Irwin of this area, was to enter the Veteran's Hospital at Dallas this week.

## SOME WILL VOTE ON WHEAT REFERENDUM

The State Agricultural Stabilization and Conservation Committee May 11, 1960 announced that the annual marketing quota referendum for wheat growers will be held July 21 as the first step in the wheat program for 1961 required by present law. The purpose of the referendum is to determine whether or not wheat growers wish to market their 1961 crop wheat under a marketing quota system. Quotas have been proclaimed by the Secretary of Agriculture, as required whenever the wheat supply is more than 20 percent above normal. They will take effect if approved by at least two thirds of the growers voting in the referendum.

If marketing quotas take effect, a grower who complies with his allotment will be entitled to market his total 1961 wheat crop without any penalty and will be eligible for price support at the full rate.

A grower who exceeds his acreage allotment will be ineligible for price support and will also be subject to marketing quota penalties if he harvests more than

15 acres of wheat. A grower who obtains approval (exemption) to produce 30 acres or less of wheat to be used exclusively on the farm will not be subject to penalties.

If marketing quotas are approved in the July referendum all wheat produced will be eligible for marketing without penalty. Price support will be available at 50 percent of parity to those who comply with their acreage allotments.

Voting in the referendum will

be done at polling places to be announced later by the county ASC committee. Every wheat grower who expects to have more than 15 acres of wheat for harvest in 1961 will be eligible to vote, except those who participated in the up to 30 acre wheat program in 1960.

The wheat referendum is required, the committee said, by the fact that the national wheat supply is at almost twice the normal level. If quotas are approved for 1961, this will be the eighth successive year in which they have been used for wheat.

## OIL —

(Continued from Page One)

Judge Thompson said they were prepared to stand behind their evaluation figures in case of any disagreements with the oil firms.

Representative of Honolulu Oil Corporation, Butch Darby and his group did not arrive until around noon due to difficulties with the high water. They had gone to Anton, being advised that was the best way

to get through the high water, and wound up having to detour some 200 miles or more before getting to Morton, the judge said.

### It's Been Fun, and Profitable, Too

As the series of Who's Who contests, which have been a feature of the Tribune weekly, for the past 22 weeks, rapidly draws to a close, the publishers would like to offer their thanks to all who have shown an interest in this community game.

We sincerely feel that the merchants who participated in the contest have been paid by the most thorough readership of their ads, ever accorded the Morton paper.

The program has been most rewarding to the Tribune in the interest it has created in the paper.

It is our sincere hope that you have joined in the game, though by far the majority of you could not be winners, have been repayed by the enjoyment in playing the game.

### Time to Get Back To Work

What has happened to the Chamber of Commerce project? That is a question that has been asked by a great many people of the Morton area the past few weeks.

The inability to command attendance of the persons who were appointed on the committee at the meeting to iron out the problems and get the C of C going, has been the major stumbling block.

This, in turn, gave the opportunity for a lot of us, who had been pessimistic from the start, to begin saying, "I told you so." - instead of redoubling our efforts to get the project over the hump.

By far the majority of pledges made still stand. They await a committee to get to work and collect the money, seek out a manager, and get the Chamber started. But the impetus must come from the members of the committee themselves. They were appointed to do a job, because the citizenry felt they could and would do the job.

That feeling still stands. We can only hope they don't quit us now. . . when the possibility looks good.

Morton still needs the Chamber just as badly as it did when the project started. . . maybe even more so. Each day passing only serves to point up more ways in which a Chamber of Commerce would be beneficial to a city and an area, struggling to get over the growing pains, and into steady growth.

Let's get hot, while the weather is cool, and get that Chamber rolling with the fall season which is just around the corner.

**TRAFFIC JAM STUDY?** — No, this superhighway tie-up of "dream" cars is being analyzed by two of the judges in the 1960 Fisher Body Craftsman's Guild model car competition. Judging of hundreds of these scale miniature cars is now in progress to determine teen-age winners of \$117,000 in cash awards and university scholarships.

### Rev. Fred Thomas Elected President Of Cochran Ministerial Alliance

The Cochran County Ministerial Alliance has selected Rev. Fred Thomas as President. Rev. H. T. Clarke is outgoing president.

The next meeting Alliance is set for the Assembly of God Church, August 4th.

The group of ministers met Thursday, July 7th, naming Rev. Thomas president; Rev. H. T. Clarke, vice - president; and Rev. Austin Steadman, Secretary-Treasurer.

The group also named their Charity Fund Committee to serve with the Secretary - Treasurer. They include Ted Jones, Truett McCuiston, E. L. Willis and Bill

### Wrong Man Listed In Court Case Reported Thurs.

The Tribune regrets the error in names in Thursday's edition which listed Jesse Robinson fined in County Court.

Evidently, with Robinson's case coming up Thursday, and the other cases having been held earlier in the week, the names were simply confused.

Ernest Williams was fined \$50 and cost for theft of the television antenna from Mrs. Bea Yarborough.

Robinson, charged with desertion by his wife, in Court Thursday, saw the case dismissed by Judge Glenn Thompson for lack of evidence.

### 3-Way Methodist Revival Began On Friday Night

Rev. Cecil M. Tune, Methodist Conference Evangelist is conducting a revival at the Three Way Methodist Church which began Friday July 8, and continues through Sunday, July 17.

Rev. Campbell Smelser is pastor of the church.

Rev. Tune, who resides in Lamona, is conducting the meetings each evening at 8 p.m. and a morning service is also being held each day, though the Tribune does not have the time of those services.

A cordial invitation has been extended the public to attend any and all of the services.

### Preaches Today At Assembly of God

Paul Thompson of Odessa will preach Sunday at the Assembly of God Church in Morton, according to Rev. H. T. Clarke, pastor. Bro. Thompson will bring both the morning and evening message.

**Sotello Case —**

(Continued from Page One)

and do not want to know any, this is all hog-wash, I find the Defendant "Not Guilty." The State counsel then attempted to read a case to the Justice of the Peace expounding what the law really is, but he refused to listen, apparently standing on his ground of ignorance of the law. Both the State and Defense counsel were denied their rights and privileges, under the law, to be heard. Thus ended the case, and, in fact, no trial was had.

In Ex Parte Kennedy, 42 Tex. C. R. 148; 58 SW 159, Kennedy kept his barber shop open on Sunday in violation of this article, shaving various people at 15 cents per person. He insisted that this a work of necessity. The court rejected this view, stating that this act was within the police power and constitutional. The court further held "where no special circumstances exist, the work of a barber in shaving coust-

omers on Sunday, is not such work of necessity as excepted barbers, the operation of the penal code, prohibiting Sunday work." Also, "Our statute has not excepted barbers, and we do not feel authorized to engraft this exception on the Sunday law."

Justice of the Peace, Morrow, refused to permit me to read this case to him.

Mr. Boring insists this case is not law because it is old. It was decided in 1900, yet the legislature and the higher courts, who have the authority to say what is law and what is not law, for over 60 years, have not changed this law, and it stands as the law today. On the other hand, the same Mr. Boring insists that his client's constitutional rights have been violated and cites the constitution of the United States which is 145 years old. This Sunday law was enacted in 1863, yet no change in it has been made excepting barbers and barber shops, although many other exceptions have been made to this law by the

legislature. This is not written with the purpose of reflecting upon anyone involved, but it clearly shows that in this case no trial was had, and it would appear that no possibility of an orderly trial of cases may be had in the Justice Court in Precinct 1 of Cochran County, Texas, so long as the present occupancy of this bench refuses to hear what the law is from either side. The State has no right of

appeal in criminal cases. The Justice Courts, as well as all other courts, were created to administer the laws and not cater to sentimentality. (Signature) H. G. Long H. G. Long (Signature) M. G. Matthews M. G. Matthews (Signature) Grover D. Edgar Grover D. Edgar County Attorney

ison. The couple returned to Amarillo and have established their home at 832 South Carolina Street. The groom is employed at the Milligan Construction Company, and has completed three years with the Army and attended schools in Canyon and Hereford. The bride was the 1959 valedictorian graduate of Three Way High School and has completed one year at West Texas State College with a major in journalism.

**TO FORT HOOD**  
Ralph Ware, who has been home on emergency leave during planting season, went by plane to Ft. Hood Tuesday of this week, after being released from Reese Air Base Hospital, where he had been for a day. Ware expects to be released from the service soon. He received his emergency leave from a post in Germany.

**LORENA LONG, CARL MILLER WED AT THREE WAY METHODIST**

An altar decorated with tapered wedding bells and an arch cascade of white carnations was the setting for the recent marriage of Lillian Lorena Long to Carl Ray Miller.

The Rev. Hugh F. Baylock read the double-wedding ring service in the Three Way Methodist Church.

Parents of the bride are Mr. and Mrs. Garvin Long of Maple. Mr. and Mrs. Earl Miller of 2607 5th Ave., in Canyon are parents of the bridegroom.

Attendants for the informal service were James Long, brother of the bride, best man; maid of honor was the bride's college roommate, Miss Gail Sargent of Sunnet, Texas.

Deborah Kay Miller, sister of the groom, and Deborah Kay Adams, cousin of the bride, served as flower girls.

Lynn Watson, nephew of the groom, carried the wedding bands on an organly, heart shaped pillow.

Mrs. John Gunter played the wedding marches and accompanied Miss Jane Garvin as she sang "Whither Thou Goest."

The bride was escorted and given at the altar by her father. She was attired in a dress of white pleated cotton, featuring a square neckline and accented by a bustline organly jacket, with puffed sleeves to the elbow. The wedding veil was made of organly and edged in petite lace to match the jacket, and was attached to an oval headband that had been outlined with drop pearls.

Atop her white Bible the bride carried a nosegay of baby roses. To follow tradition the bride carried a silver dollar seventy years old belonging to her paternal grandmother. A white linen handkerchief edged in hand crocheted and made for the bride by her mother was carried as something new. A double strand of pearls was borrowed from Mrs. Bobby Adams, aunt of the bride.

Attendants to the bride were attired in orchid ensembles. The maid of honor wore a sheath dress with the same neckline design as the bride's and her accessories were orchid and white. Identical dresses of orchid were worn by the flower girls. They wore white clips accented with small orchid flowers on each end.

The groom's mother selected an orchid dress and her accessories were white with a white carnation corsage. A lilac carnation corsage complemented the beige sheath dress worn by the bride's mother and her accessories were white.

Ushers for the wedding were Marvin Long, brother of the bride, and James Miller, brother of the groom.

Presiding at the wedding registration table were Delores and Sharon Miller, sisters of the groom. Out of town guests registering were Bill Watson and family of San Angelo, Ruth Ray of Amarillo, Garland Fort of Midland, Mrs. Zemry Boer and Drilma of Bovina and Mrs. C. A. Welch of Mesa, Arizona.

The reception was held in the Fellowship Hall with orchid cloth overlaid with lace. A table center-

piece of carnations and candles formed an altar with a crocheted bridal set arranged as in the ceremony. Orchid punch was served with the four-tiered wedding cake and white mints.

Serving were Misses Linda Welch of Maple; Bennie Bateas of Goodland; Karen Engram of Sudan, and Mary Elmore of All-
