Do you bring home everything you've paid for?

It's a good question.

Which you can answer "yes" — if you always buy from the business people right here at home. Where you live.

Wherever you buy, part of your money goes to build and to keep up the community in which you spend. To support schools, churches, civic projects, to pay the people who work in that community, and to provide better business and job opportunities for those who live there.

When you buy in YOUR OWN town, you get about the same merchandise you'd get anywhere else — PLUS the enjoyment of these other things that your money pays for.

When you buy anywhere else, you get merchandise ONLY. And your home community is a little poorer because you carried off part of its resources. And the many things other than goods that your money pays for are left for somebody else to enjoy, while they wait for you to return and give them some more.

For district level six selections are required with awards going to: Glorietta Gray, Marie Davidson,

Susan Birdsong of Muleshoe, an advanced piano student has earned all the awards, plus the ones given by Mrs. McCarty Monday night.

Awards on the International level, in which students must memorize 15 selected numbers and have a grade of 95 or above were won by Sam Feagley, Lanita Anglin, Rheda Jane Brown, Terry Shiflett Vicki Goodman.

Best musicianship awards also were won by the five just mentioned. These plaques were actually earned by the students in a contest which was set up in the studio last September. Students had an option of participating.

Mrs. McCarty said, "All awards are possible to all students, each is elective and winning of the awards is up to the individual. Each award is actually earned by the student," she said. All awards with exception of the plaques won in studio contests, were gold pins.

Little League sportsmanship

Little League baseball play begins in Morton on Monday night. This program is a fine opportunity for boys in the proper age group to participate in one of the best developed athletic programs in the United States.

Constructive leadership can play a vital part in and be a great influence on the minds of the players at a very impressionable time in their lives. A great responsibility lies on the shoulders of the men leading the Little League program. The attitudes of the men in charge will be reflected by a majority of the players. Adult leaders and fans should set the proper example for the youngsters.

Too often in all sports players develop an excapist complex by blaming defeat on the umpires. Little Leaguers should learn that the best teams don't win all of the time and the worst teams don't lose all of the time. They should, however, realize that most contests can be decided by good or bad play on the field along with the leadership provided.

The success of a Little League program depends on players, leaders and fans alike. All involved should remember the rules of good sportsmanship and fair play at all times during the season. This is a thought to keep in mind from the first pitch Monday night until the last out of the final game.

May proclaimed Senior Citizen Month

May has been proclaimed Senior Citizen Month by President Lyndon B. Johnson.

Theme for the special observance is "Opportunities for Older Americans." Groups throughout the country have responded quickly to the invitation to spotlight activiities of older citizens, says Patsy Reynolds, Texas A&M University Extension specialist in family life education

Housing officials, recreation leaders, educators, heads of state Commissions on aging, state and local officials, and leaders of Senior Citizens organizations have pledged fullest cooperation in giving recognition to older Americans.

Senior Citizens Month has a fourfold purpose: To honor older citizens and make their needs known; to publicize services that are available and mobilized support of general programs for senior groups; to encourage local communities and organizations to do more for older Americans, and to recognize the talents of older citizens and provide opportunities for them to contribute their experience, skills and wisdom.

Who are the older citizens being honored this month? They include three former presidents of the United States; nearly 10 percent of the entire U.S. population; nearly 1.5 million people living on farms; more than one out of four U. S. senators, annd almost 2 million people working full-time.

A newspaper columnist says that the Beatles are on the way out and that the Beatlemania has subsided. This is news to us, but we are ot very well informed on the current music craze. It does seem to us that we haven't heard as much screeching and squawling from the Beatles lately. This columnist says that these fads come in ten-year cycles, like lemmings and that we will have to wait for another singing sensation to come along and capture public fancy.

First there was Rudy Vallee and then Bing Crosby, then Frank Sinatra and Elvis Presley, now the mop top Beatles. In which era can you place yourself? We missed the Vallee era, but will have to admit that when we were concerned about popular songs and such, it was Bing Crosby who was king of the hill. We were too old when Frankie Sinatra had the girls swooning in the aisles and our reaction to Elvis Presley was one of disgust, a sure tip off to our age. The Beatles? Violence does not dominate the earth despite its continuous blaze and thunder. It is the flame of a match on a distant star. Democrats in Texas should begin offering prayers for the success of Barry Goldwater in securing the GOP nomination for Presi-

He would be the easiest of all Republican hopefuls to defeat in November. America simply has no intention of electing an extremist from either party. The country as a whole is liberal - moderate as it has demonstrated each year since 1932. The majority of people have no intention of turning back the clock, of repudiating the reforms

of the past three decades. So more power to Barry!

Texas Goldwater supporters who are the Republican party in Texas tried to load the deck in favor of Barry. They pitted him not against

such GOP strong men as Nixon, Lodge, Scranton or Romney. Instead they put such men and women as Harold Stassen and Margaret Chase Smith along with liberal Nelson Rockefeller on the ballot, Even then, Goldwater didn't get the majority they hoped he'd

Almost every day somebody walks into your newspaper office and says to the editor: "Let's you and him fight.'

The object is to get the editor to exert the vaunted power of the press against a third party, who has slighted, mistreated, ignored, cheated, or in some other fashion done the dirty to the complainant. The complainant, the man who

But does the complainant offer to sign a letter? Is he willing to be quoted? Not him. Just tell the world in your own words what a stinker he is - say the information came from a highly-placed source - something like that. Don't use my name - I'd get a reputation of being loose-tongued.

The editor clucks sympathetically over the man's inhumanity to man. He insists, however, that authority for statements must be forthcoming.

Complainant thereupon assumes an attitude of outraged dignity, implying the newsman isn't interested in the best local news story in a decade, and should not get involved, publicly. All he be questioning an informant of complainant's reputation.

This weeks favorite recipe was submitted by Mrs. D. A. Watson at the request of her son. David. is a favorite pie with all the family but more especially David. Mrs. Watson says it is easily prepared and not quite so tart as other rhubarb recipes.

Deep Dish Rhubarb Pie 2 eggs, well beaten

11/2 cups sugar 2 cups finely sliced rhubarb 1 cup cracker crumbs

½ cup milk 1 cup raisins 4 tablespoons melted

butter or substitute

Combine eggs and sugar; add milk, then the rhubarb, cracker crumbs, salt, raisins and butter. mix thoroughly. Pour into buttered casserole. Bake in 375 degree oven about 45 minutes. Cracker crumbs will rise to the top and make crust. Serve with whipped

Mrs. D. A. Watson moved to Morton with her family in the fall of 1963, when her husband accepted the call to serve as pastor of the Assembly of God Church.

She is a minister of the church her own right and does quite a bit of Evangelistic work. Only recently she was in Amarillo conducting a revival.

Mrs. Watson worked for 10 years or so with women's groups in the church, also assisting her husband. She often substitutes in the pulpit for him in the local church. She is the pulpit at least once a week. Both helped with the cooperative religious census here.

Of her Evangelistic and ministerial work Mrs. Watson says, 'There is nothing to compare with standing in the pulpit and deliver-ing God's word; there are no words to express the joy or feeling one has when performing this chosen work.'

Mrs. Watson is a former music teacher. She has one piano student here and has taught her son and daughter to play the piano. She says she no longer has time to teach music on a regular schedule.

BEACHED... and forgotten!

This old forgotten boat is almost buried in the reeds. Can this boat in any way be compared to our talents? What of these talents that God has given us? Have they been beached, forgotten, buried?

Heaven expects us to help in this matter of creating a better world where brother helps brother by using to the fullest extent the talents He has bestowed upon us. God always provokes and prods mankind to do good works, and accomplish great things. And He says that if we dedicate ourselves to this matter He will help. But the decision to use our talents and develop them is our choice.

Attend church this Sunday and begin to learn how God would have you use these gifts He has given you.

Their respective careers have been quite varied, the 30-year old blue-eyed Rock, a native of Dublin, Ireland, being something of a world travler, while Murray has ore or less restricted his riding to California and the Great Southwest where he gained perhaps his greatest fame as the regular rider for gallant Little Juan.
