When the dedication was Mayor Jack Russell, who said, "It is altogether appropriate that this Little League season has been dedicated to John Haggard. John was a tremendous man, not because of his great size, but because he had a big heart."

He put in many hours of work as president of this Little League and his continued success, and his return for him through his tireless devotion to helping the youth of this community.

## Meeting called on Country Club

A general meeting of all stockholders in the Morton Country Club, Inc., has been called for Friday night, June 3, it was announced today by Neal Rose, president, who stressed the importance of the session.

The meeting has been scheduled at 8 p. m. at the club house.

At this time, members will consider and act upon the recommendation of the board of directors to dissolve the corporation, Neal said.

Should it be decided to so act, it is anticipated that formation of a new Morton Country Club, along the general lines as has been previously reported, will be discussed and voted on.

Neal said that in addition to stockholders, the public in general is invited to attend the meeting, especially anyone interested in formation of a new Country Club.

## Season's play for Babe Ruths starts on Monday

The 1966 summer baseball season of the Frontier Babe Ruth League is set to get under way Monday evening, it was confirmed today by Maurice Lewellan, league secretary.

Opening activity will see the Tigers tangle with Sundown at 5:30 p. m. in the first of a double-header. The second game between the Indians and Whiteface is scheduled for 7:30 p. m. Games will be played at the Babe Ruth diamond at the county park.

Lewellan said no plans have been made for a formal ceremony opening the season Monday evening. "It appears it will be just a matter of 'Play Ball' for the Babe Ruthers", he stated.

Originally, the Tiger-Sundown game was slated as the second tilt of the evening, but school activity conflicts at Sundown caused it to be changed to the opening slot.

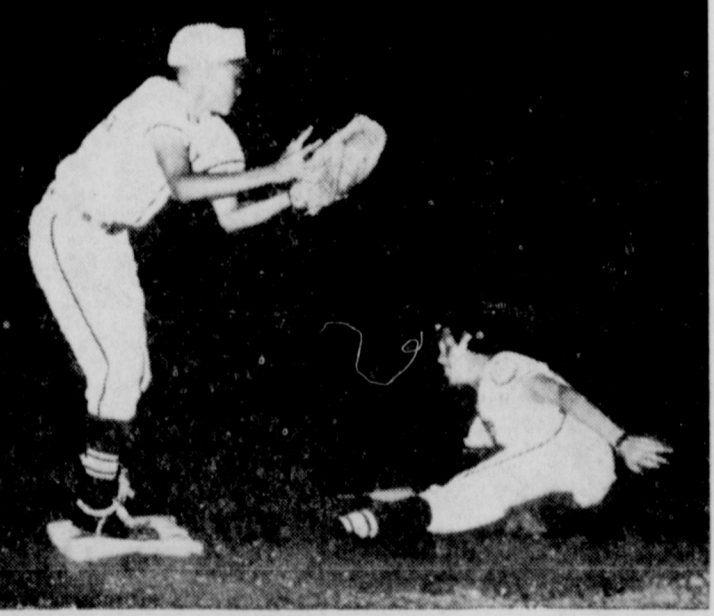

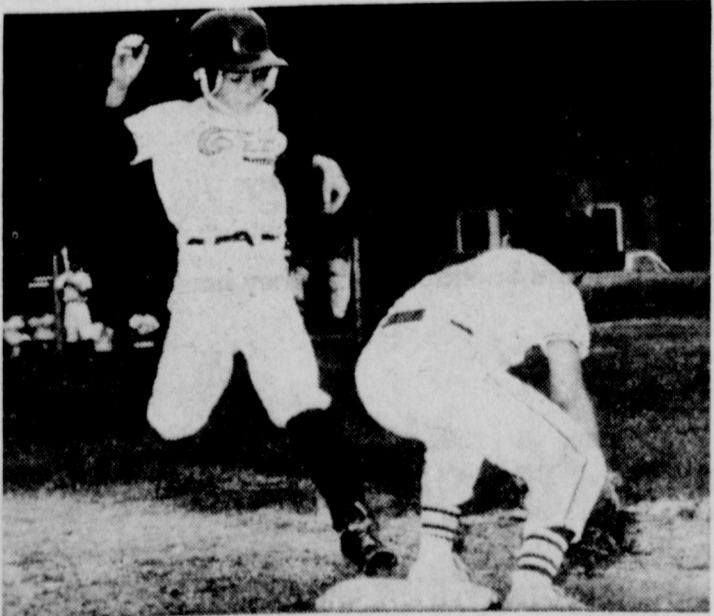

Lewellan said there was still a need for more boys to completely fill out the team rosters to the maximum of 15 players per squad. He said team rosters would be completed by the first of next week and players announced at that time.

STATE REP. JESSE T. GEORGE

## Brownfield plans Jesse T. George Day for May 16th

Monday, May 16, has been proclaimed as "Jesse T. George Day" in Terry County by Mayor C. E. Ross, Brownfield, it was revealed today.

A public reception, sponsored by the Democratic Women of Terry County, will be held that evening honoring the state representative, who is presently serving as manager of the Morton Area Chamber of Commerce, in the home of Mr. and Mrs. H. C. Hinson, 1702 Gillham Drive, beginning at 7:30 p. m. Ben Barnes, Speaker of the Texas House of Representatives, will be guest speaker, it has been learned.

Rep. George will also be given special recognition throughout the day by the Brownfield radio station in its programming, with emphasis being placed on the patriotic theme.

George, youngest member of the

was notified Tuesday that the Office of Economic Opportunity had approved the local application for the federal program. Notification came by telegrams from U. S. Congressman George Mahon and U.S. Senator Ralph Yarborough.

Federal funds in the amount of \$8,318 have been granted for the project. Local participation, valued at \$1,630, will be "in kind", Supt. Lanier said, which is the value, in lieu of actual monies, placed on school room facilities to be used, as well as electricity, water, etc.

The grant, it was explained, will provide for a maximum of 40 children to be enrolled, all from economically-deprived families.

Teachers named

Project "Head Start" is scheduled to get under way Monday, June 6, and will continue each week day for a period of eight weeks, closing July 29. Teachers for the kindergarten-type program will be Mrs. Iva Williams, second grade instructor in the primary building, and Mrs. Lula Mae Blandford, second grade instructor at East Side Elementary school.

According to Bob Travis, elementary school principal who will conduct the program, the project will be open to all qualified youngsters in Cochran County who are five and six years of age. Eligibility is determined by the degree of economic disability of the family.

Eligibility

Eligibility scale ranges from the only child in a family with a yearly income of \$1000 or less, through a graduation of \$500 intervals, per child. For example, a family with four children must have an annual income not exceeding \$3,000 to qualify for participation.

Application blanks are now available in the office of Mr. Travis at the elementary building, and parents whose children qualify under the program are urged and invited to see Mr. Travis and fill in an application if they have not already done so. Migrant families in the area are also welcome to enroll if eligible.

In addition to the teaching instruction to be given children enrolled will also have the opportunity to receive all inoculations necessary for entering school as a first grader, and will have complete dental, visual and hearing check-ups with referral arrangements.

Love, Crone, Silvers win—

## Voters force two-runoffs

A moderate turnout of voters in the Cochran County Democratic primary favored by more than a two-to-one margin the re-election of County Judge Johnny Love and forced two-men run-offs in balloting for county commissioners of Precincts 2 and 4.

Cochran voters were right in line with their counterparts throughout the state at Saturday's Democratic primary in support of Governor John Connally and those with whom his name has been linked in campaign columns.

Of the more than 1,300 voters in the primary here, 1,053 favored re-election of the governor.

Voters' choices throughout the state closely followed poll predictions in favoring Connally, Lt. Gov. Preston Smith, Waggoner Carr for senator, and Crawford Martin for Attorney General.

Local vote

Local primary participants did likewise.

Stanley Woods received 227 votes

See COCHRAN, Page 2

Also winning re-election as county treasurer was Bill Crone, nudging out challenger Richard Houston by 174 votes. And emerging victorious in the justices of peace races were Joe Gipson in Precinct 1 and H. J. Knox in Precinct 2.

With an unofficial total of 1,367 citizens voting, Love polled 934 votes in Saturday's primary, as compared to 402 ballots for challenger Fred Stockdale.

Voters forced a run-off election to determine county commissioners in the two precincts "up for grabs".

Run-offs

In Precinct 2, T. A. Washington

Nominated

Winning nomination outright was Bill Crone in the county treasurer's race, defeating his opponent, Richard Houston, 761 to 588.

Joe Gipson retained his office as Justice of Peace, Precinct 1, by a 424 to 383 vote over challenger Cecil Barker, and H. J. Knox was elected to the same position in Precinct 2 by a 227 to 66 vote over Mrs. Lillie May.

Carl Ray was re-elected as county Democratic chairman, defeating Mrs. Dorothy Barker 738 to 568 votes.

Elsewhere on the local ballot, local residents strongly favored Governor John Connally and candidates linked with the popular Texas governor. These results are listed in another story in this issue.

County Democratic Chairman reported turnouts at precinct conventions were about normal. Delegates were elected for the County Democratic Convention, scheduled for 2 p. m. this Saturday at the County Activities Building.

Although losing out to Crone in his bid for the county treasurer's post, newcomer Houston topped the

## Lions set date for installation

Date has been set for the installation and Ladies' Night dinner of the Morton Lions Club.

The event is scheduled for Thursday night, June 30, at which time wives of Lions Club members will be special guests.

Pete Cheaney, Lubbock, Governor-Elect of District 21-2 has accepted the invitation to be present and serve as installing officer.

Evening's program will be put on by members of the losing team in the recent Lions broom sale, Gene Benham was captain of that group.

Transportation for youngsters in need of it will be provided, with present plans calling for the operation of one school bus. Possibly volunteer workers from local study clubs, who have already indicated their desire to assist as aides in the program, will also be called upon to assist in transportation.

**Lunches planned**

Classes will be conducted weekdays from 9 a.m. to 1 p.m., in the first grade rooms of the elementary school campus, with a lunch to be served by the school cafeteria. Mr. Travis said. Mrs. Opal Priddy, cafeteria supervisor, will be responsible for the organization of this phase of the program.

Travis said that an enrollment of 40 was the maximum to be included in this initial "Head Start" program due to the amount of federal funds allocated. Because it is anticipated that more than that number will apply, six year olds will be given preference, he explained.

Project "Head Start", completely segregated, will operate under a local advisory committee, including Mrs. Lula Mae Blandford, chairman; Antonio Amala, 406 E. Pierce; Mrs. James E. Joyce, Route 1; Mrs. Walter Sandefer, 406 SW 8th; Mrs. Juanita Flores, 604 W. Hayes; Mrs. Olivia Casarez, Morton; Mrs. Doyle Butler, 406 SW 8th; Mrs. Jennie Ruth Grishy, Morton; and Mr. Travis. The school board of trustees serves as the overall governing body, with Supt. Lanier in charge.

**Benefits cited**

Project "Head Start", it was explained, is designed to assist the child from economic underprivileged families to enter first grade in the fall on a par with more fortunate children.

Poverty, it was explained, has its impact on a child from the time of birth. During pre-school years, the toll becomes more apparent. Health services are usually inadequate, and children of the low income families often show learning

the fourth to leave the score knotted at 2-all. But the Colts blasted out eight runs in the fifth inning and added four more in the top of the sixth to win going away.

Randy Bedwell took the win as he struck out nine, walked four and gave up four hits, singles by Rush Coffman, Jerry Silhan, Fred Brown and Steve Newton.

Silhan took the loss. He was relieved by Alex Perez in the sixth. The 13 hits by the Colts included homeruns by Mark Fluit and Bryant Lewis, James Partlow, Rick Woods and Elton Jonas had doubles. Singles were by Sid Hunt, Rick Bedwell, Partlow, Fluit (2), Woods and Jonas.

The nightcap was a closer game all the way. The Giants left eight runners on base, three of them on third, but couldn't push in a run. The three Giant hits included a double by Larry Heutzier and singles by Randy Kuehler and Barry Key.

The Cubs opened their scoring with a hit batter, followed by a double by Dewayne Baker and a single by Armado Ortega, a fielder's choice and a walk. They held on to that three-run edge until the last of the fifth when Tommy Tuck bunted for a single, stole two bases and came in on a double steal after Leslie Carter walked. An error and a single by Andy Gunter drove in Carter.

Willie Harrison absorbed the loss, although he allowed just four hits, walked two and struck out seven.

By the time they reach school age, repeated failures may have caused a lack of confidence and loss of their sense of worth and importance. Motivation for learning is often limited. **Confidence vote**

Lessey Silvers, only county-level candidate to be without opposition, was given a fine vote of confidence in her bid for county-district clerk when she received a total of 1,355 votes.

Cochran Countians also endorsed wholeheartedly the return of Jesse T. George as state representative from the district, as he received 1,346 votes.

County Judge Johnny Love was given two-to-one majorities in all but Voting Precinct 4, or Neely Ward, in his successful bid for reelection, but even there received 66 per cent of the ballots cast.

The run-off election for state Democratic nominations and for the two commissioners in Cochran County will be held June 4.

**Church this Sunday.**

An estimated 700 delegates and visitors are expected to attend the convention, according to Rev. Lawrence C. Bobsien, pastor of St. Ann's.

The Bishop of Amarillo, the Most Rev. Lawrence M. DeFalso, will be present to bless the new Catechetical Center shortly after 1 p.m. Convention activities will take place in St. Ann's church and in the Center.

The center, which includes 4,700 square feet, was built at a cost of \$43,388 and is completely air conditioned for summer and winter.

The interior includes one large 60 by 40 foot room, three permanent classrooms, two classrooms which can be formed by sliding walls, and a 22 by 18 foot kitchen. Designer was Jay Neyland, Lubbock, with J. F. Reissig, Lubbock, as builder contractor.

Fr. Bobsien said a generous donation of \$10,000 was given the Center project by the Catholic Church Extension Society of America, which has headquarters in Chicago. It was with the financial aid of this extension society that the Catholic church was originally built in Morton. "Once again the Society has come to the aid of the church here," Fr. Bobsien added.

The Catholic Church Extension Society of America was founded around the turn of the century, he explained, to help financially with the establishment and construction of Catholic churches in areas of low Catholic population. The Diocese of Amarillo, in the past 40 years, has received over a million dollars from the society for this purpose.

Primary purpose of the new

**Catechetical Center at St. Ann's,**

Rev. Bobsien explained, is for the religious instruction and education of the Catholic people of this area. The large hall area will also be used for parish meetings, social affairs and special events such as the convention this Sunday.

Open House for the Center was held last Saturday and Sunday.

**Survey shows community optimism**

A pride in Morton — its fine churches and schools — and a belief in its future is felt by the average, ordinary citizen who is happy to call Morton home.

And, the few expressions of discouragement and discontent to be found — and they are few — stem from those who have been more financially successful, and, by rationalization, should be the biggest boosters.

This revealing picture study of Morton emerges from an extensive "behind the scenes" survey of attitudes just completed through a reciprocal agreement between officers and board members of the Morton Jaycees and Muleshoe Jaycees.

Well over 100 contacts were made of Morton residents by Muleshoe Jaycee officials through the past six weeks, while a similar number of visits were conducted by Morton officials in Muleshoe. It was done with no fanfare or publicity, and through casual conversations with home folk so that

a true survey would emerge. The survey included 18 basic questions over a wide area.

Essentially, local residents believe Morton to be a fine town, and a good place to raise a family. They feel it is growing, slowly to be true, but steadily, and that overall business while not as good as hoped, has not decreased to the point of worry.

Churches and schools were unanimously endorsed by the average citizen in the survey, although it was felt the town as a whole did not support the schools as much as would be desired. Belief that a PTA would help to familiarize the town more with the school was often expressed.

Many were not too well-informed on the activities of the Chamber of Commerce, but the majority said they had noted new activity and vigor in the Chamber in the recent past.

The majority expressed themselves as satisfied with the city government, but again, were not in-

formed with the majority unable to give even the basic tax rate of Morton. Hospital facilities and medical services came in for plaudits, with the feeling expressed that expansion was needed and desired.

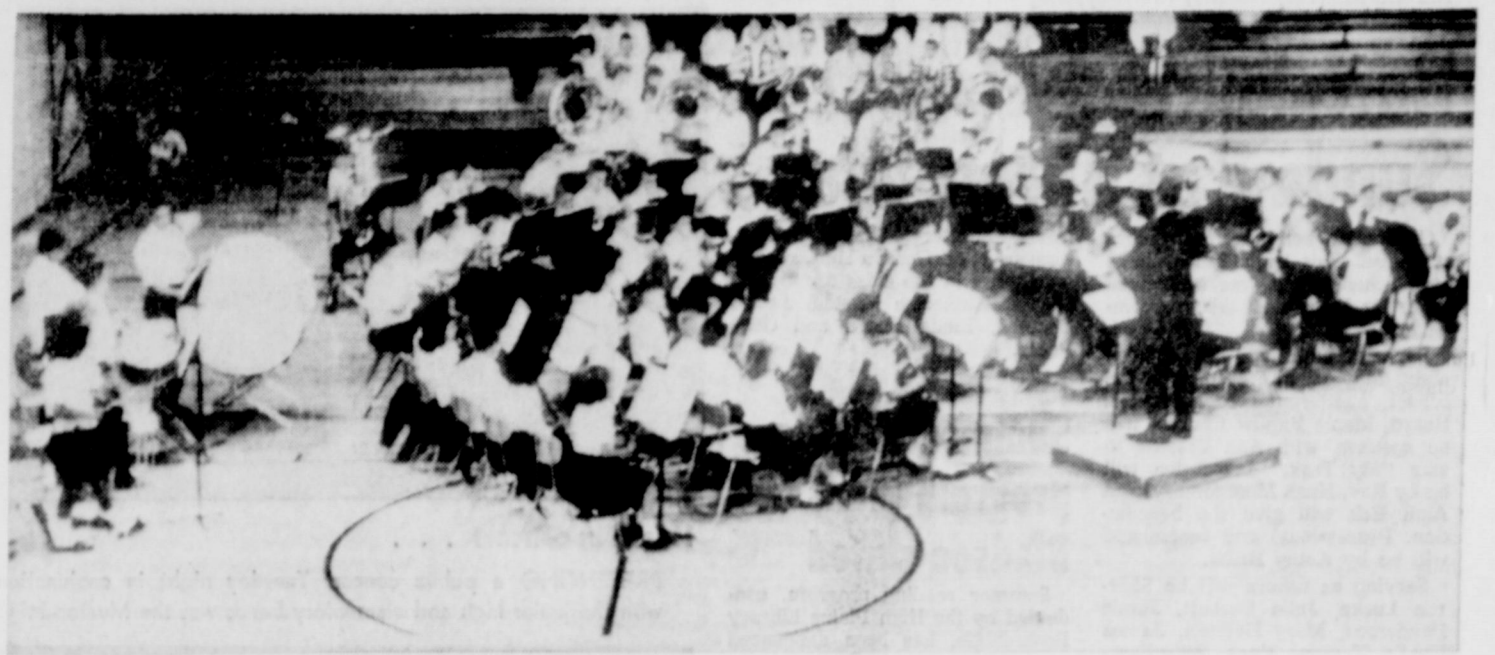

Residents felt rental property was fairly available, and rents were in most instances reasonable. Need for more recreation facilities was expressed, and the lack of any definite youth program deplored.

Idea for the survey was suggested to Jaycee leaders at a recent event when the story was told of a small, unaggressive town that was being considered for an industrial location. The industry sent in several representatives to "feel the pulse" of the citizens in regard to the town, and returned with such a fine report of their pride and faith that the company decided in its favor, despite the fact the town had nothing more than that to offer the industry.

"We wanted to see how Morton would measure up if such a survey was taken here", Jaycee officials said. "And we feel that it would. The results of the survey indicate Morton definitely would stand a good chance."

The survey was launched about six weeks ago, before the general rain, when there was some depressing talk about recession, drought, and "hay will be piled in the lobby of the bank."

The survey showed that, the reported quoted, a "few were doing the most talking" and that in general there was little pessimism.

### Bids for police car awarded to Allsup-Reynolds

Allsup-Reynolds Chevrolet Co. was awarded the contract for the purchase of a new city police car on the basis of the low bid submitted at Monday night's meeting of the city council.

Accepted was the bid of \$1124.30 for a 1966 Chevrolet, per city specifications, plus trade-in of the present police vehicle, a 1963 Oldsmobile.

Hawkins Oldsmobile's bid for the car was \$1135.25 plus trade-in, while the bid turned in by Jones Ford Co. was in the amount of \$1308.79. Dale Jones, of Jones Ford, present for the opening, in explaining that he knew his firm's bid was high, said Ford will not build a police car unless it is to "big city" specifications for such a vehicle, but that he turned in a token bid because he wanted to honor the city's request.

#### Uphold action

Council on a split vote, decided to uphold action taken earlier this year in the release of Jack Burt, city maintenance operator, after again hearing Burt appeal for reinstatement. Voting for the action were aldermen Donnie Simpson, Ty Williamson, W. L. Taylor, and E. C. Seaney, with Earl Stowe abstaining.

Eira Oden, city secretary, told the council that county help had been promised through use of a large dumper in moving heavy trash at the city dump grounds. At an earlier meeting, Jack Stoner, caretaker, had said he would keep as much of the trash as possible pushed back with a light tractor he had built for that use. It was suggested at that time that Stoner be paid \$40 per month for his services. The agreement was contingent on help from the county.

#### New charge

Rusty Reeder, manager for Cochran Power & Light, appeared before the council to inform the group of a new company regulation in which a transformer rent of \$92.30 will be charged against the Little League Park this summer. Reeder said his firm would continue to sponsor a Little League team and would donate the transformer rent charge in lieu of the \$75 sponsor cost. Herman Bedwell, of the Little League association, pointed out that would in essence deprive the Little League of one sponsor.

There was some discussion as to whether the transformer rent was rightfully that of the city, since it owned the park, and if so, it should not be charged against a municipi-

### ★ Elected

Precinct chairmen named Saturday in the Democratic Primary were reported today by Carl Ray, county chairman. They include Leroy Johnson, Pct. 1; Truman Swinney, Pct. 2; Tom Williams, Pct. 3; Francis Shiflett, Pct. 4; Vincent Logan, Pct. 5; G. D. Lewis, Pct. 6.

Census of election returns was conducted Tuesday afternoon by the county Democratic executive committee, with no changes noted.

### Three Way FFA holds banquet for its parents

The Three Way FFA had their annual Father-Son Awards Banquet on Saturday night, April 23. Approximately 70 people were in attendance.

Francis Montandon, Area I State Vice President, was the guest speaker. He talked about his trip to Europe and showed some interesting slides.

Wendell Williams received the Star Greenhand award and Monte Tombs received the Star Chapter Farmer award. Charles Abbe and Dub Black were presented Honorary Chapter Farmer degrees.

Council tentatively agreed that the city would go ahead and continue to pay the light bill at the park, and let the CP&L and Little League agree on the method used to pay the transformer rent.

More investigation was suggested in the possibility of purchasing a logging machine to use in the abatement of mosquitoes within the city area.

#### Resigns

Members were informed by City Secretary Eira Oden that Jeff Tanner, streets superintendent, had submitted his resignation, giving ill health as his reason.

A tentative budget for the new fiscal year was presented to the council by the city secretary for preliminary study. Budget was reportedly similar to that of the year just concluding.

# THE BOLL WEEVIL IS . . . DOWN and on the way

DIAPAUSE CONTROL PROGRESS

### ENTOMOLOGISTS REPORT

**RESULTS:**

- About 99% fewer weevils following the 1965 program.
- Westward movement of weevils completely stopped in 1964 & 1965.

**FACTS:**

- High Plains weevils are a different strain from any previously studied.
- They have adapted themselves to the High Plains climate and conditions.
- They CAN and HAVE lived through winters on the Plains.

**CONCLUSIONS:**

- Without the diapause control program of 1964-65, most Plains farmers would have had to fight weevils in 1966 at their own cost of at least \$20 per acre not counting yield and quality losses.
- Cost of the program is an unwelcome but absolutely necessary expense.

Since this story is rapidly getting around, I might as well go ahead and make it official. When my wife wants candy for Mother's Day she has to get it for herself! Accompanied by a sister-in-law and a nephew, I took the Tuck clan to the Bonanza Saturday night and the Jaycees' balloon dart booth attracted all of us first thing. Up steps nephew and "Bang!" go three balloons for a box of candy. Not too much money later, older son manages to break three more and gets another box. I invest my money (I think donate would be a better word) but get nothing but laughs as I graze one balloon and leave the others unscathed. So wife Jennie decides to try her skill. "Whiz" go the darts and "pop" go the balloons . . . and my ego. An appropriate climax for this tale of husbandly woe is that I ended up shelling out another buck the next day to buy a box of Little League candy from my nephew, which brought on still more snickers from the family.

Little League baseball got started here Monday night with two games. Three of the four pitchers went the distance, which is a remarkably strong performance for this time of the year. Babe Ruth League baseball gets going on Monday, May 16, and we want to get out and see how the older boys fare.

Muleshoe Jaycees plan to hold a public auction on Saturday, May 14, beginning at 3 p.m. Buddy Black will cry the items just east of the bowling alley on West American Boulevard. All consignments are welcome. The Jaycees will take a 5 per cent commission on items selling for more than \$20 and 10 per cent on those selling for less.

Seems rather strange this week not to have any Grand Openings or changes of ownership, but business is improving day by day. Things seem to be on the upswing around town and we feel that the worst is past for this year.

Financially, and in other ways, the Community Bonanza was a big success. Staged by the Retail Trade Committee of the Morton Area Chamber of Commerce, the six-day affair netted something like \$500 for the Chamber, plus a net profit for the Jaycees and the Jaycee-ettes on their dart booth and concession stand.

Even before this column gets out

## Peggy Patterson to become bride of John R. Ramp

Mr. and Mrs. L. W. Patterson are announcing the engagement and approaching marriage of their daughter, Peggy, to John R. Ramp, son of Mr. and Mrs. H. R. Ramp. All are of Morton.

The young couple will exchange vows on Saturday, June 18.

Miss Patterson is a graduate of Morton High School, and is employed by Silvers Butane Co. Mr. Ramp graduated from Whiteface High School and now is associated with his father in farming and dairying. Both young people attended South Plains College.

Following their marriage, the young couple plan to establish their home on the dairy farm seven miles east of Morton.

of the typewriter, we learn of a couple more business changes. Weekes-Russell Insurance Agency is announcing its purchase of the Willis Agency. And Raymond Ross is back in Morton after a two-year absence to resume management of Farm Equipment Company. Raymond is bringing back most of his shop mechanics, he tells us.

Flags will start flying around Morton in the near future. Morton Jaycees have received their flags and will begin to put them out on special occasions. They should add much to the town's appearance.

Jaycees also have their new vests, bright yellow in color. The backs are decorated with a large covered wagon and the slogan "Texas' Last Frontier".

Tuesday afternoon's rain was another dandy, although it did cause some personal difficulty. Tuck's transportation was blind as the windshield wipers stopped working at the end of the last rain and we didn't feel there was much need to rush about getting them repaired. It was nice to be wrong again.

The pessimists may say Business is going away. But many others have bet There's growth ahead yet!

## Amusement 'bonanza' said most successful

The week-long "Community Bonanza" of amusement rides and concessions which ended Saturday, today was declared a good success from all aspects.

Not only did the project bolster the treasury of the Morton Area Chamber of Commerce, and the Morton Jaycees and Jaycee-ettes who manned several concessions and game stands, but provided good, clean entertainment for the young folk of the area.

A final check made Monday revealed that a total of 11,526 tickets had been sold for the amusement rides during the week.

Saturday, as could be expected, saw the largest crowd on hand, when 4,123 tickets were purchased. Monday and Friday also reportedly attracted excellent crowds.

Financially, the project brought in a welcome total of \$576.30 for the Chamber of Commerce, from which expenses, mostly electricity for the operation of the rides and lights, must be paid.

Courtesy of the personnel of Star Amusement Co., which operates the rides, and good quality of the equipment came in for considerable praise from patrons.

Jesse T. George, manager of Morton Area Chamber of Commerce, expressed his appreciation for the cooperation and given the project by the citizens of Cochran County. He also special thanks to the retail promotion committee of the Chamber for their vision in procuring the for the community's enjoyment.

Morton Jaycees and Jaycee-ettes expect to clear about \$1,000 from the refreshment stand, and balloon and dart stands, it is reported.

Carl Ray, chairman of the promotion committee of the Chamber, said plans have also made for another community amusement project to be held in Morton in mid-July.

Serving the banquet meal will be sophomore class members. Rita Brown, assisted by Lanita Anglin, both freshmen students, will provide "music to eat by."

Decoration details and theme of the banquet are being withheld to provide a surprise element for the honored seniors.

## Jaycee-ettes in meeting Monday

ham School in Garnett, Kan., and met the young men there where they were also students. They are continuing their travels in Mexico at the present time and will return to England in August.

## Mrs. Wall to attend annual credit meeting

Mrs. Tennie Wall, manager of the Morton Retail Merchants, will attend the 66th annual session of the Texas Credit Conference to be held in Austin May 21-24. The conference is expected to attract at least 500 Texas business and professional men and women in the field of consumer credit.

Accent will be placed on "new" at this year's convention, Mrs. Wall said, pointing out that a new and different approach will be taken on subject matter. Theme of the convention, she said, will be "May Festival of New Ideas, Plans and Systems for 1966-67".

Conference is sponsored by four organizations, the Retail Merchants Association of Texas, Associated Credit Bureaus of Texas, Consumer Credit Association of Texas and the Lone Star Council of Credit Women.

Each group will hold separate meetings during the convention, and because there are so many divergent branches of credit, each with singular and specialized problems, a number of sectional sessions are also scheduled for such groups as automotive, finance, building materials, furniture, home services, jewelry, medical and dental, utilities and wearing apparel.

Among the outstanding speakers will be Alvin A. Burger, director

of the Texas Research League, who will talk on "Texas Government and the Great Society"; Dr. Francis B. May, professor of business statistics at the University of Texas; William Blake, executive of St. Louis, Mo.; and Mrs. Dorothy Alexander of Stratford, N.J., president of the Credit Women's Breakfast Clubs of North America.

Scott Gardner Shepard is visiting in the home of R. E. Gardner for the week.

**Richard Houston Makes Statement TO THE PEOPLE OF COCHRAN COUNTY:**

I would like to take this opportunity to express my thanks to each one of you for your vote and support.

Although it was hard work, the experience was very enjoyable as well as educational. It was a real pleasure meeting each of you and learning where you live. I apologize for not contacting more of you personally and feel that this was my loss, not yours.

To those people who worked individually for my election, words alone cannot express my deepest gratitude and appreciation. I would like to meet and thank each of you personally for your efforts and services.

Let's all unite and support our nominee in the General Election with our encouragement and our votes.

Sincerely,

**Gravemarker provides proof for C. Caplinger**

A weathered, wooden gravemarker provided the proof for a Morton man asking Social Security payments.

The story of Cecil B. Caplinger of Morton came to light this week with information provided by Jim Latimer, Social Security field representative from Lubbock.

The story, as it unfolded, went like this:

On January 16, Caplinger contacted the Social Security office in Lubbock and filed a claim for retirement benefits. As is customary, the office requested age evidence to support his date of birth.

A school record from Hunt County, Texas, where Caplinger grew up, drew a blank as there were no existing school records available.

A 1942 insurance policy was certified and a check of the 1910 census was requested.

But when the census information arrived, it showed that Caplinger was born in 1902. Caplinger told the office that the census was wrong and that he had been born in 1901.

He was sure, he told officials, because his mother died in January, 1902, and Caplinger was born in February. He also told Social Security officials that "a gravemarker in a cemetery located in Celeste, Tex., is still there" and had his mother's name on it.

Officials of all County Clerks in the Greenville area, near Celeste, were searched, but the Death Certificate files didn't go back that far and no death certificate was located.

**To a motorist who still hasn't put a Tiger in his tank.**

You're a skeptic. Good. Then you're going to be a good customer, if we can ever win you. We showed you proof on television that High-energy Enco Extra cleans your carburetor while you drive.

(Probably you said, "So what? My car still runs.")

We told you it improves firing power, helps prevent hot spots and misfiring and gives you the high octane to help you take off like a cat.

(You drove right on by.)

It's frustrating to develop a gasoline that gives this kind of performance and then not even have you try it.

Did you know new High-energy Enco Extra is more powerful than aviation gasoline of just a few years ago?

That the Tiger is now the favorite of motorists all over the world? And that Jimmy Clark became the World's Champion Race Driver with a Tiger in his tank?

So why not "Put a Tiger in Your Tank?" "Happy Motoring!"

**READY FOR *New* CARGO**

This ship has been emptied of its cargo, and now stands ready to take on fuel and more cargo for further service. If this ship were to remain empty, it would be of no value and would be failing in the one thing that it was built for.

Man was created to be a companion to God, and when he does not join in worship with God, he is failing in the reason for his creation. Make your life mean something for God...

★ **ATTEND CHURCH SUNDAY** ★

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.
