Texas celebrates its 100th anniversary as an oil-producing state, and Cochran County shares in the de-ham and Mrs. Tommy... event... 1964... the seniors...

oil production (29 billion barrels), Cochran County has contributed approximately 162 million barrels, its record dating from 1936. The latest U. S. Bureau of Mines figures (1964) show Cochran County produced more than 4.5 million barrels of crude oil valued at \$19.3 million; and 10 billion cubic feet of natural gas worth about \$1.3 million. The 1965 output would be approximately the same, preliminary estimates indicate.

Cochran County ranks 55th among the Texas counties producing oil and gas. It includes two of the state's 97 fields which are classified as "giants" with ultimate recovery estimates in excess of 100 million barrels — Levelland; and Slaughter.

Payrolls, distribution of royalty checks to local landowners, new drilling ventures and tax payments are some of the ways by which oil and gas revenues are injected into the Cochran County economy.

Countians who are directly employed by oil and gas firms. This, of course, is only part of the total employment created by petroleum operations for many others work in related service and supply jobs.

## County officials wait on beer sales ruling

Ruling is still being awaited from the attorney general's office regarding the "wet" status of Whiteface, according to County Attorney James Walker.

Walker said Tuesday that additional information had been requested by the attorney general, and that he could not predict how soon a ruling would be received here.

The ruling was requested after an attorney for the wholesale beer distributors of Texas called the attention of County Judge Johnny Love that under an old vote in

Whiteface, current statutes would make possible the licensing of beer sales in that town.

The attorney general recently issued an opinion that entities within a county which by vote legalized sale of alcoholic beverages and which has not rescinded such vote by an election, are still subject to licensing of such sales. Back in 1923, Whiteface legalized sale of beer by vote, the status continuing until the Texas Supreme Court ruled that option must be on a county-wide basis. The court sub-

## Two area youths named as scholarship winners

Two area high school graduates have been awarded \$400 college scholarships each by Bailey County Electric Cooperative Association and Muleshoe State Bank.

Recipients are Jerry Elliott, Morton High School, son of Mr. and Mrs. Claude W. Elliott, and Jolinda Robertson, Bula High School, the daughter of Mr. and Mrs. Bradley Robertson.

The scholarships are good at any college or university of the recipient's choice, and extend over a one-year period.

Elliott, named to the All-District football team last fall, is a member of the National Honor Society at Morton High, served as senior class treasurer, and was named as "Most Courteous" in his senior class.

Miss Robertson served as cheerleader, was named as "Best All-Around" and Miss Bula High School this year, member and officer of the FFA and received the citizenship award as a senior and freshman.

Initial requirement to qualify for

the scholarships calls for parents of students to be member-users of the cooperative's rural electric lines according to D. B. Lancaster, association manager.

Final selections of the winners are made by the board of directors of the cooperative, and are based on financial need, ability and qualifications.

## Internal Revenue begins compliance survey in county

The Internal Revenue Service will begin a "compliance survey" of many business firms in Cochran County to determine if they are aware of and complying with Federal tax laws requiring the filing of tax returns.

District Director Ellis Campbell, Jr. said the survey, which is expected to take about two months to complete, will be conducted by Revenue Officers who will check a cross section of non-farm businesses to see if all required tax returns are being filed on time.

Mr. Campbell said the survey is not designed to audit returns, but is to ascertain the awareness and extent of compliance with the tax return filing requirements of the Internal Revenue laws. The survey will also be used to check the completeness of the IRS Master File of business taxpayers.

Most business managements comply conscientiously with the tax laws, Mr. Campbell said. However, he added, these laws are complex, and some business taxpayers may not be fully aware of all the specific tax returns which apply to their particular business operations. These may include returns covering income, withholding, social security, and a variety

of other taxes.

## New building to be erected here

Construction of a new office building in Morton for the Bailey County Rural Electric Cooperative Association is expected to get underway about the first of September, according to D. B. Lancaster, manager.

Lancaster said the association is currently awaiting approval of plans and specifications for the building by REA Association architect will then be notified to prepare notice to bidders for publication.

The building, as planned, will be of brick construction to house offices and warehouse, and will include approximately 1500 square feet. Location will be across the highway from the cooperative's sub-station near the bowling alley. Lancaster said \$32,000 had been budgeted for the project.

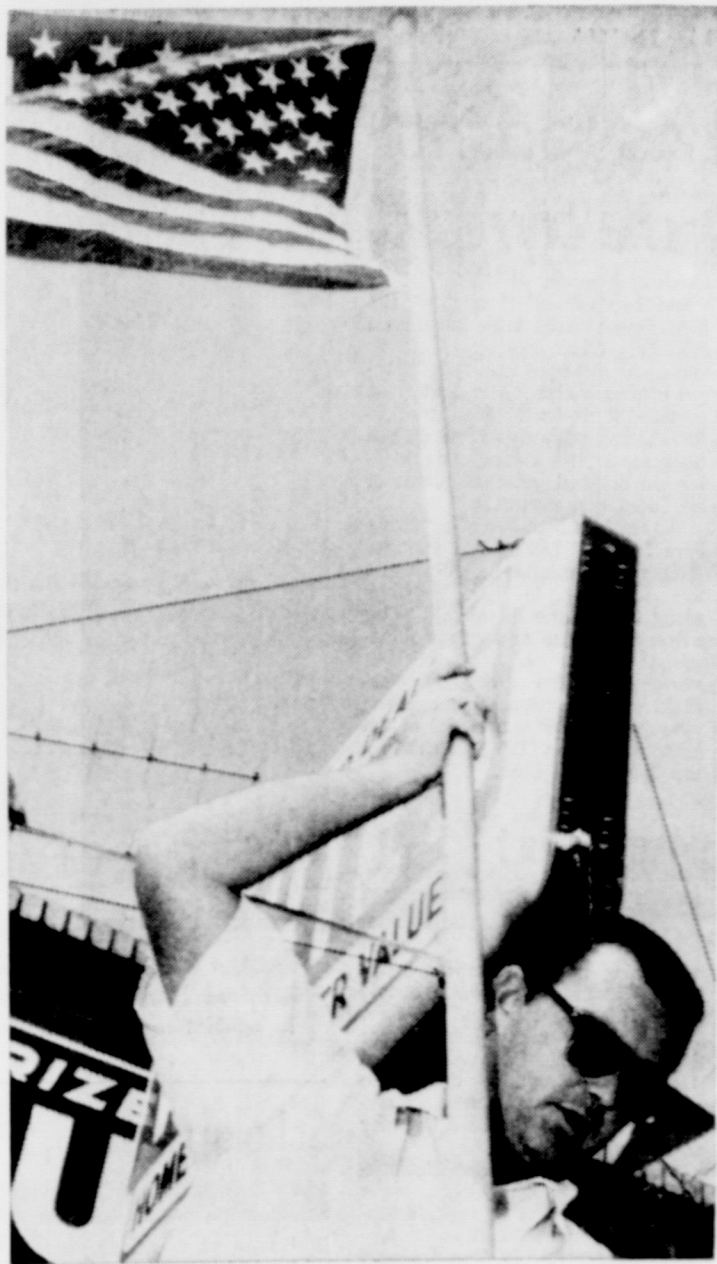

The manager also reported that tentative plans include an open house for the public following the building's completion.

## Name four to Salvation Army camp

Four Cochran County boys are looking forward today to an exciting and wonderful week at the Salvation Army's Camp Hobbitzelle.

The youths will spend the week from Sunday, June 5 through Sunday, June 12, at the camp site, located near Midlothian, Texas.

Two of the boys are from Whiteface, and two from Bledsoe, it was reported. No youths from Morton will attend the camp this year, although several were contacted to participate.

Attending from Whiteface, according to R. K. McCoy, camp chairman for that town, will be Johnny Ray Sims, 10, son of Mr. and Mrs. Jessie Sims, and Eldon Trent Miller, 8, son of Mr. and Mrs. Walton G. Miller. Johnny Ray is a fourth grader and Eldon Trent is a second grader.

Youths attending from Bledsoe will be Bill Funk, 11, son of Mr. and Mrs. V. H. Funk, and Esidoro Perez, 12, son of Mr. and Mrs. Ramon Perez, Supt. Otis Parr. Bledsoe camp chairman, reported. Both boys are elementary school students there.

The four boys will be taken by car to Camp Midlothian, but definite arrangements have not as yet been completed.

The youths will participate in a full program of activities including baseball, swimming, handicraft, camp fires, stunt night, amateur programs, worship services and Bible studies. Campers live in redwood and brick cabins, 12 boys and a counselor to each cabin. Meals are properly planned and served on a schedule. There is a well equipped dispensary with a nurse on duty at all times.

Camp will begin after lunch on Sunday, June 5, and ends with breakfast the following Sunday. Each day begins with reveille at 7 a.m., and closes with lights out at 9:45 p.m. In-between hours are crammed with a variety of events.

## Absentee voting underway

Absentee balloting in the June 4 second Democratic primary election, or run-off election, opened here Wednesday and will continue through Tuesday, May 31.

In Cochran County, there are only two run-off races for Democratic Party nomination for local offices.

Persons who will be out of the county on the June 4 election date may cast absentee ballots at the office of County-District Clerk Leslye Silvers, located in the courthouse in Morton.

A total of 76 persons cast absentee votes in the May 7 first primary election in Cochran County and officials today are hoping for a larger turnout in the absentee voting for the June 4 election.

At stake in the June 4 balloting will be the nominations of candidates in two local offices. In run-off races for party nomination and the right to stand for formal election in the November general balloting are candidates for commissioners of Precincts 2 and 4.

Squared off in the campaign for commissioner of Precinct 2 are T. A. Washington and L. L. Taylor, while U. F. Wells is opposed in his bid for re-election by J. C. O'Brien.

State-wide, the only office remaining to be determined for party nomination is that of attorney general. Crawford Martin, former secretary of state, is opposed by Franklin Spears, both of whom have been campaigning briskly for the office currently held by Waggoner Carr, Carr was not a candidate for re-election, but won the spot on the November election ballot as Democratic candidate for

U.S. Senator.

Settled in the May 7 primary election were the nominations of candidates for county judge, county treasurer, county-district clerk and two justices of the peace.

Although there are only two county offices still at stake in the run-off election, Democratic officials are hoping for a goodly turnout of voters. In the May 7 election, slightly more than 1,300 Cochran Countians went to the polls.

## Equipment arriving for local Head Start project

Needed teaching aid equipment for the "Head Start" program here this summer has begun to arrive and more is on order as plans crystallize for the eight-week project to be launched June 6.

The program, funds for which are provided under the Office of Economic Opportunity, is designed to assist the child from economic underprivileged families to enter first grade in the fall on a par with more fortunate children, according to Bob Travis, school principal who will supervise "Head Start."

Kindergarten-type instruction books for preparatory first grade work, together with other teaching aids such as building blocks, sandpiles, and miniature kitchen appliances will all be used as a means to make the path ahead for the pre-schoolers a more easy one.

Travis said the maximum of 40 children who can be enrolled under the \$8,318 in funds granted has been achieved, but that additional applications are still being taken.

"This is because a number of the children originally enrolled have already moved from the community," he explained. "We probably won't know the exact status of all the children until opening day."

The director urged all parents to accompany their children on the first day, June 6, if at all possible, to assist in giving necessary information.

In addition to the educational instruction, children will also receive immunizations with no cost to the parents, as well as general physical examinations. Corrective

measures will be taken where possible, it was explained.

Parents of children enrolled in the immediate area are being asked to provide their own transportation for the first week, until it can be determined where routes need to be established. Arrangements

## City park seen as possibility

Possibility of a city park in southwest Morton as some future date is being viewed hopefully by city councilmen, who, freed from pressing business problems, Monday night by a short agenda, turned to an impromptu discussion of such a project.

The proposal hinges on several "ifs", the major one being whether the owner of the land would donate the area to the city for such a use.

The owner has previously made such an offer, it is understood, but only of a portion of the area, not large enough to warrant the development into a park.

"Civic organizations and clubs could contribute play equipment," one councilman suggested. . . . "and other groups could take over landscaping," another a d d e d. "Wouldn't it be great to have a lake stocked with fish," mused a third.

Maybe Morton just may have a city park in the future, for dreams often have a way of becoming true.

## ★ Memorial Day

An unofficial survey made by the Tribune shows that some businesses and firms plan to close Monday, Memorial Day, in observance of the holidays, while for others it will be "business as usual."

Closed will be the City Hall, court house, with the exception of the sheriff's office, and federal offices such as the ASCS. Curtailed holiday service only will be observed by the post office, with no mail delivery on that day.

First State Bank will remain open, but close for the second primary election June 4. Also to be open will be the majority of grocery stores, and some retail businesses. Most firms handling farm and equipment repair will be open.

Because of the variance in plans, The Tribune suggests that readers check to make sure their favorite store or business firm is open for business next Monday before making a trip to town.

# Sharon Davis earns high Camp Fire award

Sharon Davis, 16-year-old daughter of Mr. and Mrs. Leonard Davis, received the Individual Torch Bearer award Monday night, one of the highest awards given by the Camp Fire Girls.

Sharon has been a member of Camp Fire Girls since she joined

fields of interest. She has worked throughout the past nine months with her music teacher, Mrs. Norma McCarty while she explored her study of types of music, composers, and great periods of music history. She performed many times on her chosen instrument, the piano, once playing an original piece of music of her own composition.

Sharon is a member of a "Camp Fire family," having two younger sisters, Karen and La Nita, who are following in her footsteps along the "Camp Fire Trail." Her mother has been an assistant leader and sponsor and her father has accompanied her group on overnight camping trips. A junior next year, she is now a member of the Wacoa Horizon Club sponsored by the 1936 Study Club.

Closing program will be given the night of June 3, and a picnic at the county park has been planned for Saturday, June 4. Vacation Bible School will also be conducted for all Negro children four to 16 years of age by First Baptist workers at the First Baptist Mexican Mission May 30 to June 3. Rev. of miscellaneous excise taxes. "Compliance surveys" are made under the Internal Revenue laws, Mr. Campbell said, and are a continuous part of the regular program to maintain high levels of taxpayer compliance. Compliance surveys will be conducted under the usual high standards of fairness the Internal Revenue Service requires in its dealings with taxpayers.

The Internal Revenue Service, he said, recognizes that most of the delinquencies brought to light will be the result of honest misunderstandings and oversight. The rare instances of flagrant abuse which may be discovered will, of course, be dealt with according to the law, he added.

## Ruling

from Page One

sequently ruled that such option could be on a precinct basis. Walker said similar situations have been found to exist in Terry and Hale counties, and in a total of 23 counties in the state.

Walker said that should the attorney general's opinion uphold the legality of beer sales in Whiteface, an election could be called to clarify the issue.

An application for a petition must be signed by 10 qualified voters in that precinct, then signatures obtained on the petition by 10 per cent of the qualified voters who cast ballots for the governor in the last presidential election. Walker said he believed 25 to 26 signatures would be required for such a petition.

The petition would then be presented to the commissioners' court, who must call an election at the next regular meeting for a date not less than 20 days or more than 30 days.

Walker said he has the necessary forms for both application and petition at his office, in event they should be requested.

Judge Love said Tuesday he had not received a formal application as yet for a license to sell beer in Whiteface.

just fine". Oden told members of the council.

The secretary went on to point out that in checking neighboring cities, nearly all have approved water supplies with as high or higher fluoride content than Morton. "When Levelland's water supply was approved", he reported as a case in point, "the fluoride content was the same as ours."

Oden said apparently the amount of fluoride acceptable for approved city water had been decreased in recent years.

The city is currently compiling fluoride statistics from a number of towns with approved water supplies to back up the request that Morton's water should be given the official okay.

Councilmen, asking if it would be possible to remove the excess of fluorides to the point where the water would conform with the current state standard, were told that it would be too expensive. "About as expensive as talking salt out of ocean water", Oden commented.

# Charges filed against Cano on breaking, entering

Charges of breaking and entering have been filed by city police officials against Francisco Cano, 38, of Morton, in connection with a May 5 break-in at city hall.

Cano entered a plea of not guilty before Justice of Peace Joe Gibson, who set bond at \$1500. Cano currently is in the Levelland jail.

Glass in both front and rear doors was broken at the City Hall during the night of May 5. Only item discovered missing was \$2.40 which had been placed in an envelope by a city employee to cover laundry charges for uniforms. Chief Burtis Cloud said two other envelopes also containing small sums of money, were untouched.

Chief Cloud and Sheriff Hazel Hancock, working on the break-in, said the suspect was apprehended after it was determined that blood scrapings taken from the glass matched in type a blood sample taken from the suspect. The suspect also has newly healed cuts on the arm, officials said, and other evidence strongly points to Cano.

Need to begin cleaning off vacant lots was discussed, and work

It doesn't take a great MANY dollars to keep the wheels turning in a community like ours... but it does take dollars that are CIRCULATING in the local trade channels.

FOR every time a dollar turns over again in this community, it gives us another lift toward better job and business opportunities for all of us... better school, church, and other civic facilities... and more fine people as friends and neighbors and co-workers.

WE can get far more from every one of our dollars... in material and social benefits... if we keep them at home where they can work for us... instead of sending them away to start working for somebody else.

If we'll let them stick around longer, we can get a lot more work out of our dollars.

## Anniversary of WSCS, Guild observed at tea

The Woman's Society of Christian Service of First Methodist Church met in the home of Mrs. Pegues Houston to celebrate the Twenty-Fifth Anniversary of the Woman's Society of Christian Service and the Wesleyan Service Guild.

The tea brought back the spirit and flavor of the organization these past 25 years when the present title was adopted. Mrs. E. R. Lytle was the only charter member present. ## Little Folks in school end outings

Closing activities for the Little Folks School were varied and enjoyed by all students. Friday, May 13, the children had a picnic lunch at McKenize Park in Lubbock and returned by train by way of Muleshoe.

On Tuesday, May 17, they visited the game reserve for a morning outing. They were told about the birds and their habits.

Thursday, May 19 the children went on a safety trip around town. They visited First State Bank where Mr. James Dewbre showed the children the banking system, and then went to the drug store for refreshments.

Friday, May 20 was the last day of school and the children went to the County Park for a picnic honoring those who have summer birthdays. Some of the children had visitors. Sack lunches, cake and ice cream were served.

courthouse square. It reminded us of the Okie migration of the depression days. City patrolman P. B. Cunningham said that the man was on his way to California. About the only difference between then and now was the absence of a mattress tied to the top of the car. One other difference—a vintage car in running condition, like that one, likely would bring twice its original price from a collector.

Would you pause and pray On this Memorial Day For those who serve that we Might enjoy the land of the free.

Residents will get their first look at a town brightened by American flags on Monday, May 30, when the Jaycees mark Memorial Day with their new flags. We think it will be a wonderful addition to the appearance of the downtown area on all official holidays. Next prospect might be the sale of small flag kits for use on residences!

Buddy Franks reported this week that the recent class basketball tournament to get money for a new scoreboard and clock in the gym brought in about \$100 and that the project now has about \$500 in the kitty. It sounds good. But what looked even better to us was the strength of the freshmen and sophomores in the tourney. That indicates that our cage program should be stronger during the next two or three years, particularly since some of the younger boys are still growing and getting the coordination and experience that comes with time.

Peggy Patterson, the pretty secretary out at Silvers Butane, is talking a lot of kidding about getting married next month. Button Silvers and I have been doing our best to talk her out of it, but seems to be most unresponsive. Peggy said, "I don't understand, everyone is talking about how terrible marriage is," and Button retorted, "The only people who say that are the ones who are married!"

We generally try to keep our advertising messages and our news separated. But this week, we are impressed with a public service message on Memorial Day that we want to urge that you pay particular attention to the wording. The ad was prepared by a national company, SCW, Inc., and is one of the finest we have seen. Please take the time to read it.

For a few moments Wednesday morning, we thought time had gone back 30 years. An old sedan, 1935 or '36 model Chevrolet, with Oklahoma tags was parked on the

## Minor damage in two-car collision

Moderate damage to two vehicles was reported following a Friday collision on Washington at the intersection of NW 4th Street. Involved were a 1965 Oldsmobile, driven by Warren Williamson, and a 1969 Chevrolet operated by Sotero Valenzuela. Both drivers are of Morton.

Damage was limited to bent fenders and window glass breakage, estimated at about \$100 to the Olds and \$50 to the Chevrolet, investigating officers reported.

Larry Hale and Johnny Fimcannon gave their demonstration on "Windbreaks", pointing out how windbreaks improve farm land, buildings and livestock.

Mrs. Carl Ray gave a council report, and it was announced that an advanced clothing workshop will be taught by Mrs. A. E. Sanders the week of June 7 at the school home economists department. Beginning June 13, she will conduct a sewing class for beginners, and on June 24 a style show will be held with students, to model clothes they have made.

## Skaggs-Tyson nuptial vows recited Sunday

First Missionary Baptist Church was the setting for the candle-light wedding Sunday, May 22, when Miss Charlotte Juanice Skaggs, daughter of Mr. and Mrs. E. Skaggs, 509 West Hayes, became the bride of Troy Dean Tyson, son of Mr. and Mrs. George Tyson, Maple.

Vows were exchanged at two o'clock before an archway entwined with green ribbons, and from which three large wedding bells were suspended. On either side were baskets of white chrysanthemums touched with green, and branched candelabra holding white flowers.

Rev. William S. Hobson, minister, performed the double-ring ceremony. Nuptial music was furnished by Cheryl McDaniel, organist, playing the traditional wedding march, and by soloist, Susie Black-wood, who sang "One Hand, One Heart."

Given in marriage by her father, the bride wore a gown of white satin and chantilly lace, fashioned with squared neckline and petal point sleeves. The lace-over-satin pointed waist extended into a full floor-length skirt. Her finger-tip veil of silk illusion cascaded from a headpiece of white rose petals, and she carried a white Bible topped with baby white roses and baby breath.

Following tradition, for something old she slipped the wedding band of the bridegroom's mother onto her right finger, and the "new" was a pearl pendant, gift of the groom. Her veil was borrowed from the groom's twin sister, she wore a blue garter and tucked a penny in her slipper.

Mrs. Jean Williams of Morton, twin sister of the groom, was matron of honor, with Glenda Smith as bridesmaid and Carolyn Waters as maid of honor. They wore matching dresses of green satin and brocade, with empire waists, and green veiled hats. Complementing their ensembles were white shoes and gloves, and each carried long-stemmed white roses.

Attending the groom as best man was his brother, Buck Tyson, of Morton. Serving as groomsmen

were Darnel Williams, Morton, and Tommy Joe Durham, Wolforth, brothers-in-law of the groom, and ushers were Danny Petree, Morton, and Melvin Davonport, Littlefield, the bride's brother-in-law.

Kay Peterson of Morton and Gary Hodges of Littlefield, cousin of the bride, were candlelighters and Glen and Hunter Wayne Tyson, Morton, nephews of the groom carried the rings on white satin pillows. Rustie Coleman of Morton and Shellie Davenport of Littlefield, niece of the bride, wearing green satin and brocade dresses, were flower girls, and carried baskets of miniature mums.

A reception was held immediately following the ceremony in the home of the bride's parents. The table was covered with a white lace cloth, made by the bride's grandmother, underlaid with green and serving guests were Linda Davenport, sister of the bride and J. Taun Holloman.

For the wedding trip to Ruidoso, New Mexico, the bride changed to a pink and white ensemble with white accessories.

The young couple will be at home at Huntsville, Alabama, where Tyson is an Army instructor at Redstone Arsenal.

**Reflections on Memorial Day**

For almost 200 years, brave men and women have fought to make this nation free. It has been customary to honor the sacrifices of these heroes each year. This year, we will mark their memory on Monday, May 30, Memorial Day, with flying flags and a few ringing speeches.

As Memorial Day approaches this year, we find our armed forces again engaged in a battle for freedom and democracy. Battles are being fought in a tiny corner of Southeast Asia to halt the spread of Communism and oppression.

Since 1775, when a tiny band of determined settlers opposed the injustice and oppression of a wilful ruler, America has defended the dignity of man and the rights of the individual against all types of enemies.

Our nation's current battle for the freedom of others, and perhaps the freedom of the world, is unpopular in some quarters. It is decried as an unnecessary sacrifice of human life for an important corner of the world. Our Selective Service system draws protest marches and is assaulted from all quarters for being unfair.

But we say, "Thank God for the brave citizens of this land" from the bottom of our heart. Our nation's freedom is built upon the bravery of such men who cried, "I regret that I have but one life to give for my country" or "Give me liberty or give me death."

Literature records that "Faint heart ne'er won fair lady." Neither did a faint heart ever win a battle or a war. Battles are won by those who have belief in a cause and are willing to give themselves for it.

Where would this nation be if George Washington had said, "I don't think we'd better cross the Delaware right now; my men are tired and hungry and we are outnumbered"; or if Paul Revere had said, "Am I the only man in Boston who owns a horse?"; or if Gen. Anthony McAuliffe, at the Battle of the Bulge, had said, "We're surrounded and outnumbered, so we will surrender."

Earlier we pointed out that the conflict in Viet Nam is not popular on all sides. But history shows that the battle against King George and the British was not universally popular with the colonies; isolation and neutrality prevailed for the first three years of World War I and for two years of World War II. Many decried our involvement in Korea as they now decry the death of our soldiers in Viet Nam.

Perhaps unwillingly, America has become a leader in the battle for freedom of all nations and the bulwark against Communism's creeping cancer.

Am I a patriot, a flag-waver? YES, and proud of it. I still feel a tinge of pride when the Star-Spangled Banner is played, I still remember to salute the Flag of the United States of America, I still feel tears well in my eyes at the gripping notes of Taps. I still get angry when my country's flag is torn down, trampled, abused and spit upon. I still get angry when residents of this proud land parade openly waving the flag of Communism or that of the Viet Cong. I still get angry when young men and young women, enjoying the freedom that was bought with blood of their ancestors, denounce as fools those who serve this nation in uniform.

Again I say, "Thank God for those brave men and women who defend this nation against all who would oppress others. Thank God for those who have served to defend our heritage. I am proud to salute freedom on Memorial Day."

**Spring is clean-up time**

June 6 will mark the beginning of the annual Clean-up, Paint-up, Fix-up Week in Morton. Spring cleaning has been a tradition in the world ever since Eve decided to tidy up around the Garden of Eden.

But much of the work of the annual spring rites, while organized by the women, must be men's work. There are windows to be washed, large boxes to be moved, weeds to be cut and painting to be done.

Morton needs a good cleaning this spring, as most towns do this time of year. Weeds are beginning to sprout, painted surfaces are often looking a bit shoddy against the bright greenery of spring, some of the alleys are littered.

Resolve now to do your part next week to make Morton a sparkling clean place to live. And while you're at it, clean out the accumulated rubbish that is stacked up in your garage or attic. This rubbish is a potential fire hazard and needs to be eliminated. Old papers, rags, paint cans and discarded clothes are where many fires start.

Morton has been fortunate this spring in having very few fires and your fire department would like it to continue that way. Removing the place where fire can start or feed might save your property . . . and the origin for fires that might cost loss of life or property.

Let's all resolve now to make the 1966 clean-up campaign the best in history. All of us can be proud to live in a town that is clean and bright from one end to the other.

**Clergybirds** — The other contribution was a newspaper clipping proclaiming the formation of the National Association for Clergybird Classification and Preservation (NACCP). The article was written by the Rev. John R. Hendrick, pastor of the Covenant Church in San Antonio.

The Rev. Mr. Hendrick writes that many unsuspecting clergybirds are being fired upon, especially those who appear to have a pink hue. It was for the protection that the NACCP was formed.

Of the clergybirds' nesting habits, the Rev. Mr. Hendrick says that they do not ordinarily build nests, but usually accept whatever nests are provided them by clergybird lovers. He claims that some clergybirds will not migrate while others never seem to become permanent residents anywhere.

They tend to court and mate like other species of birds except for the Ecclesiasticus Romanus, which significantly chooses not to mate.

The author has noted several different voice characteristics of the clergybirds, one of which is "deliberate, slow, one-pitch and then fading out." Another clergybird's voice was described as a "hoarse, nasal and resonant voice (like a donkey with a sore throat)."

Clergybirds, he said, can be domesticated with very little effort. There are clergybirds who will eat right out of the hand of those that feed them.

Clergybirds tend to flock together and are in their best plumage on Sundays, according to the writer. On that day each week they try to make pleasing sounds to everyone.

The San Antonio pastor classifies clergybirds as follows:

1. Two-year church switcher.
2. Limp-limbed handgripper.
3. Ivory-tufted hailfellow.
4. Double-chinned diet dodger.
5. Smooth-talking say-nothing.
6. Fossiliek's sermon snipper.
7. Broad-smiling compromiser.
8. Wide-eyed member counter.
9. Yellow-bellied knuckleunder.
10. Preying member snitcher.
11. Strong-minded people pusher.
12. Swift-adding money minder.
13. Roseate do-gooder.
14. Broad-tailed officer percher.
15. Long-faced killjoy.
16. Full-breasted bull shoveler.
17. Chicken-livered issue duckler.
18. Purple-throated pulpit pounder.
19. Scarlet-crested riot leader.
20. Speckled elder sniper.

Keeping an eye peeled for one or more of the above varieties of clergybirds should keep local bird watchers busy for weeks.

**Spanish in classrooms**

A Texas teacher, writing in a recent issue of The Texas Outlook, has come up with an interesting proposal.

The teacher, John T. Hood of El Paso, says that each year thousands of children in South Texas begin their schooling unable to speak or understand any English.

They speak no English because only Spanish is spoken at home.

In El Paso alone, says Hood, 2,500 such children enter the first grade each year.

But in the classroom they must speak only English, he points out. As a result, Hood says, these children are at a complete loss.

"As a whole, these children are of normal intelligence, but their frustrations cause them to lose interest. In addition, they receive no help or encouragement from their parents.

The language barrier soon causes these children to be branded as slow learners and associated with the mentally retarded.

Another result, says Hood, is dissatisfaction with school.

"Many are ready to drop out or

**Highlights and Sidelights — School committee is named**

AUSTIN, Tex. — A blue-ribbon committee named by Gov. John Connally has adopted guide-lines for long-range research into public school needs in Texas.

Committee has ordered a survey to determine if the local share of the cost of education is divided fairly.

Known as the Committee on Public School Education, the group has authorized studies in 128 districts over the state, including 30 with 12,000 or more scholars.

Validity of the present economic index — relied on to determine contributions by local school district to the state-wide fund — will be measured carefully to determine how tax assessments compare with actual property value.

Overall study areas agreed on by the Committee include:

Definition of educational goals, program evaluation, personnel matters, financing, administration, impact of the new federal aid programs, effect of interruption on educational quality (with particular reference to problems of faculty desegregation), equity of local property taxes, problems of school size, merit salary plans, teacher effectiveness with varying pupil-teacher ratios, and methods of removing incompetent teachers.

A spokesman for the Texas State Teachers Association called on the Committee to make an interim recommendation for another teacher salary raise next year, although the panel study is not due for completion until August, 1968.

TSTA is pushing for pay boost of about \$60 a month to bring 120,000 Texas teachers to the national average (about \$6,506 a year), together with a built-in "escalation" provision in the state law to guarantee biennial raises keeping salaries up to the U.S. average.

Committee members displayed widely-varying reactions to the presentation by TSTA's L. P. Sturgeon. Chairman Leon Jaworski of Houston said adequacy of compensation will certainly be weighed by the study group, but noted other pressing state needs and necessity of exploring entire area of school finance.

Pay raises for teachers and state employees likely will be among top money issues before the Legislature in 1967.

**RURAL VOTES** — Rural voters were clamored highly by Rep. James L. Slider of Naples for making such a strong showing statewide in the number of votes cast in the first primary.

In conferring with House Speaker Ben Barnes, Slider said he considered it of urgent importance that rural voters repeat this performance in the second primary to offset block votes of metropolitan areas. "Their vote is now a matter of self-preservation, as well as responsible citizenship," he said.

Slider represents the predominantly rural areas of Cass, Marion, Morris and Titus Counties.

**LOOKING FORWARD** — Texas colleges are looking forward to June 1, when the building money boost approved by state voters last November actually goes into effect.

Voters approved a 10-cent per \$100 valuation state ad valorem tax to provide a method of payment

for college building bonds.

They also approved broadening the number of schools which have the benefit of the building bonds from 12 to 17.

**PRODUCTION NIPPED** — Eight straight months of steady increase in the oil allowable ended when the Railroad Commission dropped production from June back to 34.5 per cent of potential — compared to 35 per cent for May.

Under the June order, a maximum of 3,241,308 barrels a day can be produced, compared with the average at mid-May of 3,270,498.

None of the major purchasers appearing at the last production hearings requested a bigger allowable for June. Three asked a cut.

Commission Chairman Ben Ramsey said Texas crude oil stocks increased 2,100,000 barrels in 1965, while national stocks declined.

Earlier, the commission was asked by oilmen and geologists to increase from five to ten the number of allowable discovery wells in new fields. Such wells produce more than usually allowed and are exempt from monthly market demand factor.

On March 28, the commission had increased the onshore oil discovery allowable period from 18 to 24 months. Experts argued that the increasing number of discovery allowable wells would do more to encourage exploration.

**COURTS SPEAK** — Court of Criminal Appeals ordered early sentencing hearing for Jack Ruby this clearing the way for appeal of his death sentence for killing presidential assassin Lee Harvey Oswald.

Court reversed and ordered a new trial in the death penalty-murder conviction of Robert Earl McIlwain resulting from a strangling of an Air Force sergeant at Amarillo last July.

State Supreme Court refused to order new sentencing hearing before the second trial of Leslie Douglas Ashley for the 1961 murder of Fred Tones, Houston real estate man. Ashley's trial was slated to begin in Gatesville Monday.

**COTTON DEADLINE** — Cotton farmers in 25 Central and Coastal Bend counties were granted an additional 15 days — until midnight June 4 — to plant rain-soaked fields.

Agriculture Commissioner John White extended the deadline for the following counties: Austin, Brazoria, Chambers, Colorado, Fayette, Fort Bend, Galveston, Gonzales, Harris, Jefferson, Lavaca, Liberty, Matagorda, Orange, Waller, Wharton, Bastrop, Caldwell, Comal, Guadalupe, Hays, Lee Travis and Williamson.

**CENTER PLANNED** — Board of Texas Educational Foundation Inc., operators of Job Corp Center, voted to undertake direction of a Job Corps Center for Women in McKinney.

Plans for the center tentatively call for an enrollment of 500 girls in the facility to be developed at McKinney's abandoned Veterans authorized Gary Center Director O. J. Baker to work out details of the contract with the U. S. Office of Economic Opportunity.

A new \$14,000,000 contract has been approved for operation of the Gary Center through June, 1967.

**SAFETY IMPROVEMENTS** — Texas Highway Department initiated highway safety improvements amounting to \$4,600,000 during April in the continuing war on traffic accidents.

This brings to \$75,500,000 the amount of funds spent or obligated in the Department's current four-year, \$111,000,000 program to eliminate hazardous locations along the Texas highway network.

During April the Department received bids on 10 projects aggregating \$1,500,000 to be financed by the state. State crews began work on 31 other projects with a total value of \$566,000.

**APPOINTMENTS** — Malcolm C. Landerdale has been appointed superintendent of Mexia State School, according to Shervert H.

**Whiteface Post Office handling livestock survey**

Postmaster J. W. Word reminds rural patrons of the Whiteface Post Office to be on the lookout for June Livestock Survey cards. This week survey cards will be placed in a sample of boxes belonging to farmers and ranchers.

"USDA bases livestock and poultry estimates on replies to this survey," Mr. Word explains. "It is important for everyone to get a card to fill it out and return it to the letter-drop. This way, USDA gets a true sample of the area's livestock and poultry holdings."

Survey cards will be forward to Cary B. Palmer, State Agricultural Statistician in Austin. After adding and analyzing these cards, USDA statisticians are able to estimate the State's milk production, calf and pig crops, lamb and wool crops and the number of hens and pullets.

"Information from this survey will guide livestock and poultry producers in making important business decisions," Mr. Word concluded.

**Whiteface youth enlists in Army**

Gerry Wayne Adams, 19, son of Mr. and Mrs. Luke Adams and husband of Mrs. Ida Lynn Adams, all of Box 172, Whiteface, enlisted in the Air Force on May 5.

Based on the results of aptitude tests administered prior to his enlistment, he selected the field of the Department of Lackland. He has been assigned to Lackland Air Force Base in San Antonio where he will undergo four weeks of basic training. Upon completion, he will be reassigned where he will receive his training and become a specialist in the Administrative Field.

Gerry attended Bledsoe High School and was employed at the Quentin Rhodes '66' Service Station in Whiteface prior to his enlistment.

## Triumph OVER THE SEAS

"What is man . . . Thou madest him to have dominion over the works of thy hands"

God has blessed man and given him the right and power to rule over his creation. As man has needs, God has given him the knowledge and ability to meet these needs. Pictured here is only one of many such triumphs. Our nation has particularly been blessed. Let us each Sunday attend worship services and give thanks to our Lord, who is so generous.

Coleman Adv. Serv.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.
