

STAR

Lives
by Bill Ellis

One of the most unusual presidential campaigns comes to a close next Tuesday, and by the time we print another issue of the Star - we'll know the outcome -- maybe.

It's been a different type of presidential election -- similar to 1960 when, as that year, there was no incumbent president running.

Many party leaders in both the Democratic and Republican parties have been dissatisfied or lacked enthusiasm concerning their party nominees. And for the first time in modern political history, a third-party candidate could actually have a bearing on the outcome of the election.

No one has conceded defeat--not even the Wallace supporters, although polls continue to show that their candidate will capture only a minor portion of the votes.

In fact, one Wallace supporter told us this week of polls he had seen which showed Wallace to be the leader, and in each case Nixon was a close second, with Hubert Humphrey straggling along with a small percentage.

We agree that it's hard to tell how much stock to place in the various polls. About the only poll that means anything is the one which will be taken on November 5. We plan to mark our preference in that one, because it's a permanent poll, and will affect us for at least the next four years.

One thing for sure--it bids to be an interesting election -- and we're getting all set for a big night of returns next Tuesday.

Last weekend was kind of a "lost weekend" for us. To start off with, the Chieftains dropped their heartbreaker to Floydada, in which quarterback Danny Kendrick received his broken wrist.

The next day we were all primed for a big homecoming game at Texas Tech--but so were the SMU Mustangs and that ruined that afternoon. Monday night's loss by the Dallas Cowboys to Green Bay just completed the "lost weekend" for our favorite three football teams.

However, we see by Wes Izard's column that those of us who suffered through the homecoming loss at Tech can take heart -- the same thing happened to Slippery Rock last weekend at its homecoming game. Don't know if they had anything like the Southwest Conference lead riding on the outcome of the game -- but it must have been sad for the old grads.

Our better half has been "daring" us for the last several years to put a Slippery Rock game on our football contest lineup of games. We may just do that sometimes. The only trouble might be in finding out the outcome of the game.

We appreciate the many kind words which have come our way since the announcement about our purchase of the Friona Star. They have made us all the more certain that our decision was a good one -- and that our confidence in Friona was well founded.

Also, we'd like to publicly say how much we appreciated the kind of association we had the past five years with Joe Osborn, the former owner.

Many people have told us -- "Heck, I thought you owned the paper already."

We were fortunate in having the type of working agreement with Joe Osborn which allowed us the freedom of expression, etc., that enabled many of our readers to think as indicated above, that we actually owned the Star. We've always tried to manage the paper as though we did, in fact, own it.

We're grateful to Joe Osborn for the opportunity he gave us back there, and then for the opportunity of having the paper for ourselves. This proved that our decision to settle in Friona was a good one, and one that we won't regret.

TEN CENTS

BEWITCHING TIME. . . Thursday is Halloween Day, and the time of year to think of pumpkins and witches on broomsticks. In the series of pictures above, a shock of feed and gaily-painted pumpkins decorate the fruit and vegetable stand on the eastern edge of Friona. In the center, Donald and Mary Miller try out their carved-out Jack-o-Lantern. On the right, Perrywinkle Pussycat lends the traditional (though he's not black) touch of mystery as he investigates a Halloween centerpiece.

State Representative's Race Election Highlight

A large turnout of voters in Parmer County is expected for the general election next Tuesday.

While the presidential race holds the largest amount of attention, the race for state representative bids to be an important one for local voters. The incumbent, Bill Clayton, who is finishing his third term, faces young, energetic Frank Ford of Hereford, and will also have to contend with votes he may lose to split-tickets as well as protest voters.

Both Clayton and Ford have waged hard campaigns in the

six-county district--probably the hardest campaign in history for the office. Both ran for the office in 1962, when it was vacated by the retirement of Jesse Osborn. Clayton won handily that time, and was unopposed in 1964 and 1966.

On the presidential level, the Richard Nixon-Spiro Agnew team will be expected to carry Friona and Parmer County fairly easily. The Republican ticket has prevailed in the county in the past four general elections, and dissatisfaction with the Johnson administration isn't expected to help the Humphrey-

Muskie cause this time.

Incumbent congressman Bob Price is favored to win in Parmer County, and across the 18th Congressional District. Price, finishing his first term as representative, has campaigned heavily for re-election, while his opponent, Dick Brown, hasn't generated the backing which would be needed to stop Price.

Past the top two races (presidential and congressman), most area voters will be expected to hop back into the Democratic column to vote for Preston Smith for governor and

Ben Barnes for lieutenant governor. Smith's brand of conservatism pretty well suits the area's mood, and besides, the West Texan will be shooting for the same "local support" which he received in the primaries.

Otherwise, the incumbent Democrats in state office with opposition will probably be favored. These include attorney-general Crawford Martin, controller Robert S. Calvert, treasurer Jesse James, land commissioner, Jerry Saddler, agriculture commissioner John C. White and railroad commissioner Jim Langdon.

Republicans have, however, fielded candidates for all the major state jobs this time, headed by gubernatorial candidate Paul Eggers, and one or two of these might surprise an incumbent, depending on their campaigns in the metropolitan centers.

David Smith First Again

David L. Smith, son of Mr. and Mrs. Lewis Smith, Route 2, has once again led his class scholastically. He was valedictorian of the eighth grade graduating class in 1963 and also valedictorian of the graduating class of Friona High School in 1967.

Smith, with a 4.0 grade point average, finished first in a class of 525 freshmen at Texas Tech, Lubbock during the 1967-68 school year. He has been granted the C.C. Perryman award for 1968.

The \$200 award, established in 1966, is given annually to an engineering student who has

demonstrated his ability with outstanding achievement in freshman engineering courses and in engineering graphics. Smith is an engineering physics major. The award is given annually by Prof. Emeritus C.C. Perryman, who taught engineering graphics at Tech for 36 years before retiring in 1965.

When questioned about a formula or easy way to earn "A" grades in every course, Smith replied, "I have to work for what I get. I went to school five hours a day last year and had to study about twice that long each day."

CHARLES S. BAINUM

Final Rites For Charles S. Bainum

Final rites for Charles Sumner Bainum Jr., 68, a resident of Friona for the past 43 years, were conducted from Friona United Methodist Church at 2 p.m. Tuesday with Rev. James Price, pastor, officiating.

Bainum, who was shop foreman for Reeve Chevrolet, died early Sunday morning in Parmer County Community Hospital following a brief illness. Survivors include his wife, Tina; three sons, Wayne of San Antonio, Dudley of Scottsdale, Arizona and Jimmy of Houston. Three sisters, Mrs. Annette Palmtag, Kelseyville, California, Mrs. Celestia Cotton, Litchfield Park, Arizona, and Mrs. Katie Neill, Tulsa; four brothers, George, Santee, California, Mack, Dalhart, Albert, Denver and Delbert, Hereford; and eleven grandchildren.

One son, Kenneth, preceded him in death.

Born at Calvert, Texas, June 13, 1900, he was one of eleven children born to the late Mr. and Mrs. Charles S. Bainum Sr. The family moved to Plainview early in the 1900s and homesteaded on land near Bellview, New Mexico a few years later.

He moved to Friona in 1925 and was married to Tina E. Bartlett, Clovis, June 5, 1929.

The couple has lived in Friona since that time. He was one of the charter members of the Friona Volunteer Fire Department and served in the capacity of fire chief for about 25 years before his retirement in 1959.

Bainum was also active in the Masonic Lodge and Order of the Eastern Star. He had served as master of the Friona and Farwell Masonic lodges and worthy patron of the Friona and Bovina OES. He was also charter chapter father of the Demolays at Bovina and had served as district deputy Grand Master of the Masonic Lodge of Texas and father advisor of Rainbow Girls at Bovina.

Honorary pallbearers were Ed Boggess, Jim Shaffer, Glenn E. Reeve Sr., Guy Farris, Fred White, Bill Stewart, Sloan H. Osborn, Ralph Wilson, Elroy Wilson and Cayson Jones.

Active pallbearers at the church were Ralph Shirley, Paul Spring, Floyd Reeve, Charles Russell, Glenn E. Reeve Jr. and Lloyd Thompson.

Pallbearers for the Masonic graveside rites were Frank Spring, Dan Ethridge, Reagan Looney, Charles Allen, Wright Williams and Hugh Moseley. Burial was in Friona Cemetery under direction of Claborn Funeral Home.

FRIONA-CROSBYTON

It's Chiefs vs Chiefs In Friday's Contest

Having found district 3-AA warfare a bit on the rough and tumble side, the Friona Chieftains probably welcome the break from district action this week.

The Chiefs host Crosbyton Friday in the unusual non-conference game for the eighth game of the season. The Crosbyton game was the last game added to the 1968 schedule, following the opening left after Memphis was transferred out of the district. The game begins at 7:30 p.m. at the Chieftain field.

The game will mark the first meeting in history between Friona and Crosbyton in football. It's the second such game of the year for Friona. Previously, Tucumcari was met on the gridiron for the first time.

One thing about it -- all the fans at the game will be yelling for the Chiefs Friday night, since that is also the team nickname for the Crosbyton athletes.

Two starters have been lost for the balance of the season by the Chiefs. Quarterback Danny Kendrick and center Donny Carthel are both out, each supporting arm casts this week. Kendrick had a broken arm bone in last week's game and Carthel had an arm operation.

Johnny Barker, quarterback for the last two seasons, has worked some at the position this week, but he also may be sidelined this week, due to a

torn tendon in his ankle. In that event, Ted Procter will be the starting signal-caller. James Weatherly has a slightly - sprained ankle, but should be ready for action.

Crosbyton likes to split their men wide, in a "Denver City type" offense, according to Coach Owen. Although the Chiefs from the south have only a 2-5 record, they've played a tough schedule, and have

a well-balanced attack, he said, running and passing well. They are about as big a team as was Floydada, the Friona coach indicated.

Mary Rando To Appear On TV

Mary Rando, Friona High School senior, who has become well known for her rendition of "I Am The Nation," will present this patriotic reading on KGNC Television between 7:30 and 8 a.m. Sunday.

This is to be a pre-election program in color and will make the second time Miss Rando has appeared on a television program from Amarillo in the past two weeks.

Friday Deadline For Absentees

Friday at 5 p.m. is the deadline for applying for an absentee ballot, according to County Clerk Bonnie Warren.

As of Tuesday's closing time, a total of 125 voters had taken absentee ballots, Mrs. Warren said. This just about equaled the total which voted absentee in 1964, with three big days left to go.

All voters who think they might be away from home on November 5 are urged to secure an absentee ballot.

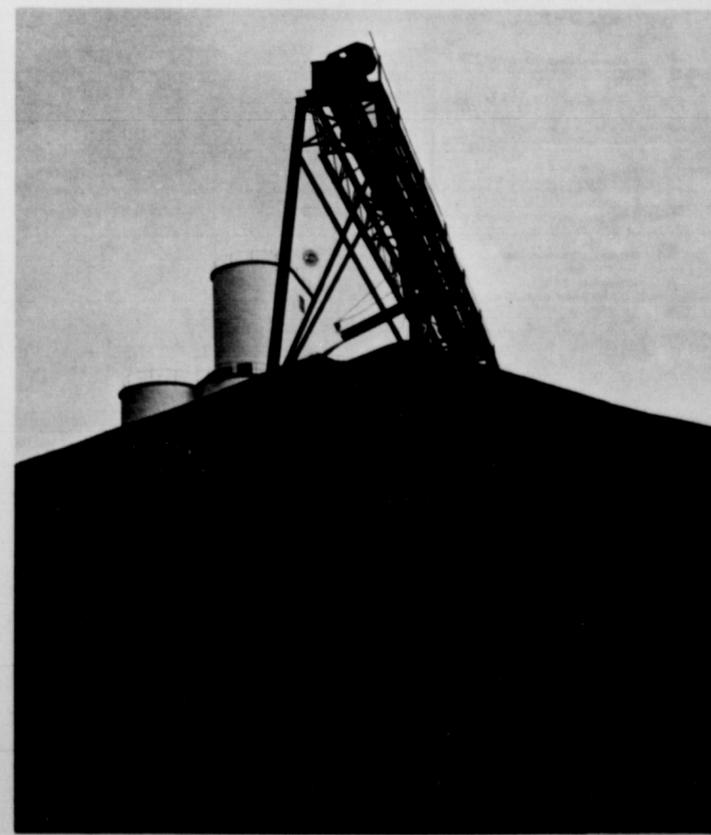

Star Office Is Moving

The Friona Star is moving Thursday to its new location at 916 Main Street, in the north half of the building formerly occupied by the Golden Spread Spudnut Company.

Because of the move, the Star will be closed for business on Thursday, but expects to be open on Friday, November 1, in its new location.

RECEIVES ENGINEERING AWARD -- David L. Smith, left, receives the C.C. Perryman Award from Prof. Emeritus C.C. Perryman of Texas Tech. Smith, a sophomore engineering student, earned a 4.0--or perfect--grade point average during the 1967-68 school year. He is the son of Mr. and Mrs. Lewis L. Smith of Friona.

MOUNTAIN OF GRAIN. . . It appears from this angle that the elevator at West Friona Grain is about covered up with a hill of grain, as the harvest reached its peak in the Friona area the past week. Harvest operations are now tapering off for the most part. Yields have been good to excellent.

Pause And Reflect

By Nelson Lewis

There is an old saying to the effect that "silence gives consent."

For many years past this writer has been a witness to the deterioration of many of those American freedoms which he had been taught to honor as well to enjoy.

Realizing that old policies must necessarily be revamped and modernized if a nation, or an individual, is to advance, he remained silent; although at times he accepted the new methods and theories with misgivings.

At long last the light of reason overcame the shadows of doubt and dispelled the darkness of lethargic blindness.

He became aware that his beloved United States was fast changing from his boyhood "Land of the Free and Home of the Brave," and was becoming a land where talk of Freedom was considered idle flag waving and where Bravery was related more to the hazards of making a fast buck than to the defense of national honor.

During these same years his friends were slaughtered in an undeclared war in Korea while the politicians held peace talks. The peace talks continue while the Pueblo crew suffers the indignation of scolding captivity.

At present he sees a new generation fighting a "no win" undeclared war while more peace talks are held. However these two military fiascos were not the basis of this column being written.

The slowly infiltrating, cancerous plague of Communism and the apathy of the average citizen toward this monster furnished the fuel that propelled these amateurish outpourings.

Although critical of the present administration from time to time, no effort has been made, nor will be made, to influence the thinking of the reader; mainly because of some things that were done when the other team was at bat.

An effort has been made, and will continue to be made, toward the defeat of any "ism" that tends to rob our future generations of Life, Liberty, and the pursuit of Happiness.

Tuesday, Nov. 5, is election day. That day is the great common denominator for the American people.

That day the least among us can stand as tall as the Washington monument.

For whom you vote is your business. But by all means, vote!

Mr. Bill Ellis, Editor
The Friona Star
Friona, Texas

Dear Mr. Ellis:

We from Seagraves wish to express our sincere thanks and appreciation to the city of Friona for the "royal" treatment we received while attending the Caprock District TPWC Fall Board Meeting and Workshop last Saturday. Especially do we wish to thank Mr. Gib Boatman of Sanatone Cleaners and White's Electric Service. As we ar-

rived in your city, I dropped my lipstick all over my suit. As we were about to start home, we discovered we had left our lights on all day and our battery was dead. White's Electric quickly sent someone out to repair it. Neither Sanatone Cleaners nor White's Electric would allow us to pay for their services.

The entire day at Friona was most enjoyable. Again may we say thank you.

Sincerely,
Mrs. Bob Andrews
President, Cultus Club.

V "I believe there are more instances of the abridgement of the freedom of the people by gradual and silent encroachments of those in power than by violent and sudden usurpations."
(James Madison -1788)

O Put fear out of your heart. This Nation will survive, this State will prosper, the orderly business of life will go forward if only men can speak in whatever way given to them to utter what their hearts hold - by voice, by posted card, by letter or by press. Reason never has failed men. Only force and oppression have made the wrecks in the world."
(William Allen White -1922)

T "Behind all these men you have to do with, behind officers, and government, and people even, there is the Country Herself, your Country, and you belong to her as you belong to your own mother. Stand by Her as you would stand by your mother.

Notes From F.A.R.M.

(Friona Association Of Retail Merchants)

By Chuck Iveritt

Each week, presents many interesting aspects of life, I see people who help other people make a decent living and don't mind giving the retailer his price, but I have seen people, who will try to cheat to get a bargain, and I wonder, "How do they sleep?"

We live in a world where people think someone is trying to get to them. Not so! In foreign countries, people are working for \$1.00 a day, living in stucco type dumps, with very little to eat, no transportation, ragged clothing, and little entertainment. If you have never been to Korea, Hong Kong or those type of countries, you

have no idea of what I mean, but the fact remains that our government, our society will not permit that in our country, our city. They make merchandise which cost more each year, taxed with Federal tax which grows year end, year out, to help with such progress as Foreign aid, medicare, etc.

No reputable business in Friona, Amarillo or anywhere else is out to cheat anyone. They are out to serve you both in service and merchandise and they are out to make their employees and themselves a living, make their payments on time and try to grow with the community.

FOUR PICK 12

Score Of 12 Wins In Weekly Grid Contest

Only four contestants from among the 170 who entered the seventh week of the Friona Star's football contest got as many as 12 of the 14 contest games, and three of that group claimed the contest's weekly prize money.

John Frazier was the winner, on the basis of the tie-breaker score, and received \$5. Conrado Bautista was second, and received \$3, and Joy Morton was third, receiving \$2. The fourth contestant to pick 12 games was Kenneth Neill. He was the only one of the four-some to correctly pick Baylor over Texas A&M.

Frazier doubly deserved to win, as he was the only one of the quartet with scores of 12 to give Floydada the margin over Friona. His tie-breaker score was 14-7, Floydada, only eight points off.

Bautista missed it 19 points, Miss Morton was 20 points away, and Neill missed by 26 points.

His score of 12 enabled Bautista to climb to within a point of the overall lead in the race for contest grand prize, with a score of 70 after seven weeks. Three contestants are tied for the lead at 71. They are Owen Drake, Raymond Milner and Winston Wilson.

Tied with Bautista a point off the pace are Sam Mears, Paul Mohr and Emmett Tabor of Bovina. Seven contestants are three points back at 68. These are Dean Blackburn, Chuck Everitt, Herman Jesko, Joe Perez, Gerald Shavor, C.H. Veazey and Bobby Wied.

Eleven contestants have scores of 67, seven more stand

at 66, and another eleven are tied at 65. Many contestants are still in the running for the three grand prizes, to be awarded at the end of 12 weeks.

Twenty one contestants had scores of 11 in the topsy-turvy week, which saw two or three upsets scored, plus other toss-up games on the slate. Those with scores of 11 were:

Patsy Bandy, John Renner, Mrs. Johnny Mars, John Baca, Larry O'Connor, Larry Sanders, Matilde Castillo, Frank Castillo, Joe Perez, John Wilson, Eugene Bandy, Jane Houlette, Trip Horton, Jerry Hinkle, L.F. Jacobs, Glenn Phillips, Mrs. Glenn Phillips, Jerry Loflin, Jerry Mabry, Janice Clark and Bob Roden.

Another contest appears on an inside page of this issue.

DEMOCRATS

If you split your ticket in the election on November 5; let's not fail to vote for the man best qualified for the office of governor -- Preston Smith.

- *Give West Texas a voice at the top.
- *Vote for the most experienced man in the race with 18 years in State Government.
- *Vote for the candidate who advocates a Statewide water program, including West Texas area.
- *Vote for the candidate who supports improvements in Education, all the way from College level to public schools.

IT'S HARD TO SELL FERTILIZER IN AN ELECTION YEAR!

"GENTLEMEN, I STAND HERE BEFORE YOU TODAY TO TELL YOU THAT I'M AGIN' POVERTY, AND THAT YOU AND I TOGETHER CAN DO SOMETHING ABOUT IT. INSTEAD OF STANDING THERE LISTENING, WHY DON'T YOU GO OUT AND PUT SOME NITROMITE IN YOUR LAND?"

LET IT GO TO WORK AND RELEASE THE PLANT FOOD YOU HAVE TIED UP IN TURNED UNDER STALKS.

ANY GOOD FARMER (AND SOME POLITICIANS) KNOW THAT YOU CAN APPLY NITROMITE EARLY. IT WON'T LEACH OUT WHEN YOU GET WINTER MOISTURE. EVEN HOT AIR CAN'T TOUCH IT.

ALL THE NITROGEN YOU PLOW DOWN NOW, PLUS ALL THE NUTRIENTS IT HAS RELEASED, WILL BE WAITING TO FEED YOUR CROP AT PLANTING TIME.

AND I PROMISE YOU GENTLEMEN... THAT CAN MEAN MORE MONEY IN YOUR POCKETS NEXT YEAR AT HARVEST TIME.

PIT CONSTRUCTION. . . A backhoe is shown digging a trench for a pipe for the tailwater pump on the L.L. Norton farm four miles northeast of Farwell.

Irrigation Systems Should Integrate Conservation

A surface irrigation system is where all necessary water control structures have been installed for the efficient distribution of irrigation water by surface means such as furrows, border, contour levees, or contour ditches.

Surface irrigation systems are installed to efficiently convey and distribute irrigation water to the point of application without excessive erosion or water loss.

Irrigation systems should be planned and installed to serve only lands that are suitable for use as irrigated land and the quality of water available. Water supplies must be sufficient in quantity and of a quality to make irrigation practical for the crops to be grown and also, must be adequate for the water application methods to be used. An irrigation system is designed as an integral part of an overall plan of conservation land use and treatment for the farm that is based on the capabilities of the land and the needs of the farm enterprise.

Lands differ in their irrigation requirements. Coarse-textured soils must be irrigated differently than fine-textured soils. Shallow soils have different requirements than deeper soils. Steep slopes have more stringent irrigation limitations than gentle slopes.

Farm irrigation system design shall be based on the use of conservation water application methods that are adapted for the site condition combination of soil and slope and the crops to be grown. Adapted methods are those methods that will provide for efficient use of water without destructive soil erosion.

The capacity of a system and its component parts shall be adequate to meet the peak use requirements of the crop to be grown and the required rate of water delivery for the irrigation method used. Where various irrigation methods will be used on the same field, the system capacity must be adequate for the method requiring the highest rate of water delivery. Where crops with different peak use requirements are to be grown, the system should be based on the crop having the highest use rate.

Head ditches or pipelines used for surface irrigation should be located so that irrigation water can be applied uniformly over the entire field without erosion. Ditch or pipeline should be spaced so that the irrigation runs will not be longer than allowable length of runs as determined for the limited crop or method. Ditches should be located on non-erosive gradients.

UNIFORM IRRIGATION. . . In this photo, showing graded furrow irrigation at its best, a uniform supply of water is evident from one end of the rows to the other. The picture was taken on the A.T. Malory farm three miles south and four east of Bovina.

Tailwater Systems Provide Additional Water Source

A tailwater pit is a facility to collect, store, and transport irrigation tail water for re-use in the farm irrigation distribution system.

Tailwater recovery systems are installed to conserve farm irrigation water supplies by collection of the water that runs off the surface of sloping fields and making this water available for re-use on the farm.

Tailwater recovery systems are adapted for use only on sloping lands that are served by a surface irrigation system properly designed and installed to facilitate the conservation use of soil and water resources and where excessive irrigation

runoff occurs or can be anticipated under the management practices used or expected to be used.

Tailwater recovery systems can be used in conjunction with either a graded furrow or graded border system.

Storage structures should be well protected from erosion and damage from rainfall runoff. Sediment traps should be installed where needed.

Some type of facility should be used to return water to other systems. This may be either underground pipelines, aluminum pipelines or by open ditch.

Club Features Political Soapbox Derby

Members of Progressive Study Club attended a Political Soapbox Derby at Federated Club House Tuesday evening during their regular meeting. Roll call was answered with "The woman I would back for president. The meditation was given by Mrs. Glen Phillips in the form of a reading "Formula For Living."

Mrs. Lee Spring and Mrs. Bill Ellis sang "Sister Suffragette" from "Mary Poppins." Mrs. Wayne Hodgson served as moderator for the mock campaign and election. The Off White Party candidate was Mrs. John Fred White. The Tattle Tale Gray party candidate was Mrs. Jimmy Mabry.

The women presented their political platforms and made campaign speeches, complete with spontaneous demonstrations from their respective supporters in the audience.

At the close of the campaign an election was held and Mrs. Mabry was voted the first president of the country.

Mrs. O.F. Lange was special guest and was presented with a red rose at the completion of the song by Mrs. Spring and Mrs. Ellis.

During a brief business session letters of appreciation were read from officials of the Caprock District for the hospitality extended them while in Friona for the board meeting recently.

Hostesses for the evening were Mrs. Bill Ellis and Mrs. Philip Weatherly. They served hot cider punch and fruit pie to 18 members and three guests, Mrs. Lange, Mrs. J.T. Gee and Mrs. Tommy Hammock.

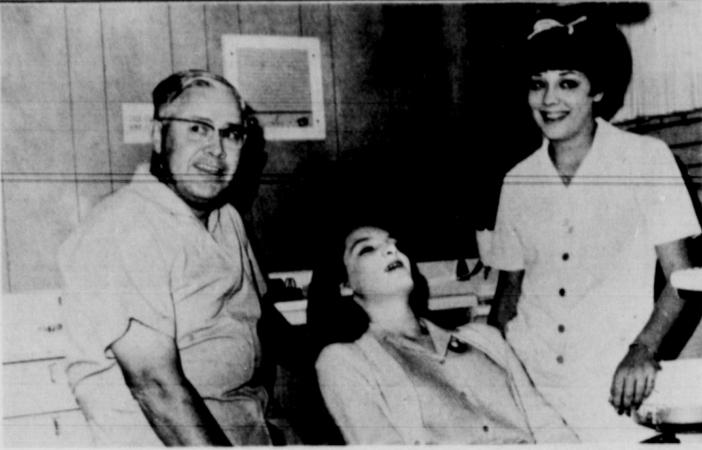

Mrs. Shirley Smith Presents Club Program

Highlight of the Monday evening meeting of the Rhea Home Demonstration Club was a program on refinishing old trunks by Mrs. Shirley Smith. This was followed by a report of the Texas Home Demonstration Club meeting in McAllen last month by Mrs. Cordie Potts, delegate.

Plans were made for a Halloween party in the Herman

Grissom barn Thursday evening beginning at 7 p.m.

Refreshments were served by Mrs. Norman Taylor, hostess, in whose home the club meeting was held. Others present were Mrs. Leroy Widner, Mrs. Walter Schueler, Mrs. Herman Schueler, Mrs. Herbert Schueler, Mrs. Jack Patterson, Mrs. Herman Grissom, Mrs. Shirley Smith, Mrs. F.T. Schlenker, Mrs. C.V. Potts and Mrs. Elmo Dean.

Club Members Vote To Assist Girlstown

During the business meeting of Friona Woman's Club Wednesday afternoon at Federated Club House a motion that members assist in Project Girlstown, which is being sponsored by members of Black Study Club, was passed and plans were made to prepare a box of supplies to be sent to the girls early in November.

Roll call was answered by eighteen members with an international event. Several committee reports were given by members who attended the board meeting here the previous Saturday.

Following opening of the program by Mrs. E.S. White Sr., Mrs. V.R. Jordan presented "God of Hermes," and Mrs.

Ethel Benger presented "My Visit to HemisFair '68." Refreshments were served by the hostesses, Mrs. C.W. Dixon and Mrs. M.B. Buchanan.

Close-up of a nerve?

No. It's just a rope . . . at the breaking point. But, frankly, it's a good illustration of how a man feels when his nerves are "worn to a frazzle."

The Church has never claimed that religion is a cure for frazzled nerves. But a man's Christian faith does this for him:

It shows him a Purpose in life more important than mere existence. It shows him a Power more effective than his own strength. It shows him a Future more rewarding than selfish gain. And it gives him courage more lasting than the sheer force of his human will.

With these spiritual resources, founded in the certainty that God understands and helps, a man never reaches "the breaking point." For when his human reserve is exhausted . . . he has only begun to tap the vast reservoir of Divine Strength.

THE CHURCH OF YOUR CHOICE CAN SHOW YOU THE WAY!

THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a cornerstone of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Rhonda Ruzicka Weds David Warren Cutair

In a formal wedding ceremony at St. Anthony's Catholic Church, Hereford, at 3 p.m. Saturday, October 5, Rhonda Ruzicka, daughter of Mr. and Mrs. Leo Ruzicka of the Hub community, became the bride of David Warren Cutair, Baltimore, Maryland, son of Mr. and Mrs. Frank Cutair, also of Baltimore.

The vows were read by Father Aedan Davis, who was assisted by Brother John. The altar decorations were arrangements of yellow glads centered with a white kneeling bench.

Lanya Dolle, Morton, was the maid of honor. Cindy Greener, Lubbock, and Shirley Miller, Portales, were bridesmaids. Linda Ruzicka, sister of the bride, was the flower girl.

The honor attendant wore a floor length gown designed with slim skirt of Ivory Venice lace. The bodice was of moss green silk worsted with long sleeves and high round collar. A wide belt of velvet, which encircled the waist, was highlighted with a matching bow and floor length streamers in back.

brother of the bride, Paul Ruzicka, Morton, cousin of the bride, was the ring bearer. Ushers were Charles Hurt Jr., Myles Demel, cousins of the bride from Pep, Texas.

The bride, who was escorted to the altar and presented in marriage by her father, wore a formal wedding gown of deep candlelight organza over bridal taffeta designed with empire styling and A line skirt. The yoke, heavily embroidered with candlelight Alencon lace and clusters of seed pearls, was accented with a portrait neckline.

The long tapered sleeves were of re-embroidered lace and seed pearls on imported English net. Tiny covered buttons enhanced the back of the gown and the circular chapel train fell from a Dior bow with streamers to floor length. Her elbow length veil of imported silk illusion was secured by a crown of pearls. She carried a cascade arrangement of white roses tied with white satin love knots and centered with a corsage of white gardenias.

Mrs. C.E. Dolle registered guests in the home of the bride's parents. The serving table was covered with a candlelight cutwork cloth over moss green. The three tiered wedding cake was decorated with yellow roses and moss green leaves. Cake, nuts, mints and punch were served by Jeanie Quest and Carla McPherson.

For a wedding trip to Baltimore, Maryland and the Chesapeake Bay area the bride wore a bright purple pleated knit dress and the corsage from her wedding bouquet.

Mrs. Cutair is a 1968 graduate of Friona High School and her husband is serving in the United States Air Force. He is currently stationed at Cannon Air Force Base, Clovis.

Mr. and Mrs. Newman Jarrell Jr., Clovis, became parents of a baby boy at 1:45 a.m. Sunday, October 27, at Clovis Memorial Hospital. He was named Drew Gregory and weighed 6 lbs. 10 1/2 ozs.

Older children of the couple are Gregory and Lark. The Jarrells are former Friona residents.

Paternal grandparents are Mr. and Mrs. Newman Jarrell Sr.

Frionans Return Home

Mr. and Mrs. Rudolph Renner Sr. and Mrs. Rebecca Weis returned home Sunday after spending one week visiting relatives and friends in Kansas, Oklahoma and the northeastern panhandle of Texas.

They were guests in the home of Mr. and Mrs. John Baker at Utica, Kansas several days. Then went to Woodward Oklahoma where they visited in the homes of the Merlin Schmidts and Leon Ohlanders.

Before returning home they visited in Shattuck, and O'Keene Oklahoma and Follett, Texas.

Black Study Club Meets In Welch Home

Black Study Club met Thursday afternoon in the home of Mrs. Gene Welch with eight members present. Roll call was answered with a fashion note

for fall and winter. The open exercise, which was a pantry item game, was directed by Mrs. John Bengel following reading of a poem "A Farmer's Wife is A Woman Who."

The program was highlighted by a fashion show. Club members modeled and showed garments which they had made. A number of hand made articles were also shown.

Plans were completed for sponsorship of Project Girlstown. Boxes have been placed

in each grocery store in town for receipt of items for Girlstown. A truck will come to Friona once each month to pick up supplies.

Halloween candies, cake, coffee and punch were served by the hostess to Mrs. Bill Carthel and Doug, Mrs. Tommy Tatum and Wendy, Mrs. Ethel Bengel, Mrs. Helen Fangman, Mrs. Cliff Allmon, Mrs. Ellis Tatum and Mrs. Johnny Mars.

Sharon Cramer, Hereford, organist, played traditional wedding selections and accompanied Jeanie Quest, Lubbock, vocalist. Altar boys were David and Johnny Demel, Pep, Texas, cousins of the bride.

John Callison was the best man. Groomsmen were Gordon Higgins and Bill Ruzicka,

Floydada Adds Insult To Injury In 21-8 Decision

It was a doubly hard loss for the Friona High School Chiefs as they were defeated by the Floydada last Friday. The Chiefs not only lost the ball game, 21-8, but lost quarterback Danny Kendrick for the balance of the season due to a broken arm.

Kendrick sustained a broken wrist bone midway through the final quarter, at a time when the Chiefs were making a drive and attempting to overcome a three-touchdown Floydada lead.

The loss just about eliminated Friona from the District 3-AA title chase, leaving the Chiefs with a 2-2 district record with two games to play. Olton leads with an unbeaten 4-0 mark.

The Chiefs were in a hole early, spotting the Whirlwinds a touchdown after less than a minute and one-half of play in the first quarter.

Floydada recovered Ted Procter's fumble at the Friona 25, and on the second play, wingback Steve Puckett went 18 yards for the score. The Whirlwinds kicked the point for a 7-0 lead after only 1:26 was gone from the clock.

Friona missed a chance to tie the score following the kickoff. The Chiefs drove to the Floydada 45, where they faced a punting situation. Harper's punt was fumbled at the Whirlwind 10-yard line, and James Weatherly recovered to give Friona first and goal.

However, the first play lost a yard, and three more gained just nine, and Floydada took over on its two-yard line.

The Chiefs forced Floydada to punt on third down with good defensive play, and got the ball back in good field position, at the Floydada 34. However, what could have been a scoring drive was hampered when Tony Perea's dash to near the goal-line was rubbed out for a clipping penalty, placing the ball back at the 24, and Friona couldn't recover.

Late in the second quarter, the Whirlwinds gained possession of the ball near midfield,

and took to the air. Quarterback Jack Gregory hit end Todd Wester with a 21-yard pass with a minute left on the clock, and then passed to Andy Hale for 28 yards and a touchdown, operating from a "shotgun" formation. Wester kicked, for a 14-0 Floydada halftime lead.

Friona had the ball on a 10-play drive during the third period, but Perea was stopped a yard short of a first down at the Whirlwind 31 on a fourth and six situation.

Floydada then cranked up its passing machine once again. Gregory hit Wester, Tim Rose and Hale for first downs, and then tossed to Wingback Con Bearden for 14 yards to score. Bearden was hit and fumbled the ball in the end zone, but had taken it across the goal-line. Wester's kick made it 21-0, and only nine seconds remained in the third quarter.

Chieftain fans, who had little to cheer about all evening, were given an opportunity to vocalize at the start of the final quarter. On the first play of the period, Lowery Harper broke, and almost went all the way for a score. He finally was caught at the 10 after a 41-yard romp. He was shaken up on the tackle.

Perea made the remaining ten yards in two slashes at the line to put to put Friona on the scoreboard with 11:07 left in the game. On the conversion, Kendrick passed to Perea for two points, and Floydada's lead was trimmed to 21-8.

Friona fans had another opportunity to cheer, as Perea's running sparked the team into Floydada territory when the Chiefs got the ball again. However, with the ball at the Floydada 35, quarterback Kendrick was hit on a jarring tackle and sustained his broken arm.

This brought up fourth down and four yards to go, and although he gave it all he had, Perea was stopped at a scant yard short of the mark, and Floydada took over.

Nor was this the final Friona threat. With time growing short

Friona got the ball again, this time deep in its own end of the field. Procter completed two consecutive passes, to Isidore Cordova and Perea, moving the ball to the Floydada 41.

However, all the running had given Perea leg cramps, and this kept him from making a first down, and Floydada took over on its 32-yard line with a minute to play.

Their strong second-half showing allowed Friona to lead in the statistical battle.

The Chiefs led in first downs, 15-11, and in total yards gained, 259-225. Floydada led in yards gained passing, 140-33, but Friona held the advantage in rushing yardage, 226-85.

Perea, although held to his second-lowest yardage total of the year, still managed 101 yards, and this easily sent him past the old one-year record of 1184 yards gained in 1964 by Doug Dodd. Perea now has 1206 yards rushing through seven games.

Perea's eight points gave him the district scoring lead with 72 points. Olton's Charles McClain has 70.

STRATEGY HUDDLE. . . Danny Kendrick, Chieftain quarterback, is shown in a strategy huddle with Coach Bob Owen shortly before Kendrick sustained a broken arm in the game at Floydada last Friday.

Seventh, Eighth Braves Split With Tulia Gridders

The Friona seventh and eighth grade Braves travelled to Tulia on October 22, where they won a game and lost one.

The seventh grade was victorious by a 12-6 score, and the eighth grade lost, 22-18. That left both teams with 3-1 records for the year. The seventh grade stands 2-0 in district play, and the eighth is even at 1-1.

In addition, the seventh grade "B" team scrimmaged to a 0-0 tie, and the eighth grade "B" team lost, 16-6 in their pre-game scrimmage.

After playing scoreless for the first quarter, the seventh grade scored a pair of touchdowns in the second stanza.

Mickey Harrelson recovered a Tulia fumble early in the quarter, and Rene Perez ran 25 yards for the TD. Arunning try for points failed, and Friona led, 12-0.

Behind the running of Rene Perez, Randal Snyder and James Perea, the Braves drove for another score. Snyder got the TD, leaving the halftime score 12-0, Friona.

Friona held one Tulia drive at their four-yard line, but the Hornets finally scored on a 49-yard run in the fourth quarter.

A try for two points failed for Tulia, which also covered an on-side kick, but failed to do any further scoring.

Penalties plagued the eighth grade Braves, as they picked up 56 yards during the game, with Tulia getting only one penalty for five yards.

Mario Perea, James Bartlett Lewis Lee and Johnny Bandy sparked a scoring drive which saw Bandy go over from the one. A run failed, but Friona led, 6-0.

Early in the second quarter, Perea ran 11 yards for a TD, stretching Friona's lead to 12-0. And the Braves weren't through for the quarter.

Bandy passed to Bartlett to the Tulia 17, and Lee carried over from the five for the TD which made the halftime score 18-0. The second half was all Tulia.

The Hornets drove 34 yards for a score and the two-pointer made the score 18-8. That was also the third quarter score.

In the final frame, aided by a penalty, Tulia scored on a one-yard plunge, leaving the Braves ahead by 18-14.

A fumble gave Tulia the ball near midfield, and Tulia scored drove for the winning score. This came on a 25-yard touchdown pass. Tulia also converted for the final score of 22-18.

FRANK FORD

FOR STATE REPRESENTATIVE

FRANK FORD IS THE ONLY CANDIDATE IN THE RACE WHO HAS SPOKEN OUT CLEARLY ON:

- *The need to keep the family sized farm unit strong as it is the backbone of our rural economy.
- *Practical measures that should be encouraged in each community for economic growth.
- *The need for abolishing daylight savings time, a measure which his opponent pushed to passage in 1967.
- *Ways to reduce the crime rate, which has nearly doubled in the last eight years.
- *The need for a two-party system so that the people can regain control of their state government.
- *The need for immediate feasibility studies for importing water and strong legislation concerning water conservation.
- *The need for education and vocational training as an effective answer to poverty.

FRANK FORD WILL REPRESENT THE PEOPLE OF THIS DISTRICT

The following bit of prose has appeared in several publications during recent years and recently appeared in the Mooreland, Oklahoma Leader. Mrs. Rudolph Renner Sr., who visits relatives and friends in that area picked up and was generous enough to share it with our readers.

It was supposedly written by an Okie to a preacher in Oklahoma City and goes like this, "In reply to your recent request to send a check, I wish to inform you that the present condition of my bank account makes it almost impossible. My shattered financial plight is due to federal laws, estate laws, county laws, city laws, corporation laws, liquor laws, mother-in-laws, brother-in-laws and outlaws.

Through these laws I am compelled to pay a business tax, amusement tax, head tax, excise tax, school tax, income tax, and furniture tax. I am required to get a business license, operator's license, car licenses, truck license, a marriage license and a dog license.

I am required to contribute to every society and organization which the genius of man is capable of bringing to life; to woman's relief, unemployment relief and gold diggers relief. Also, to every hospital and charitable institution in the city including the Salvation Army, Community Chest, Red Cross, Boy Scouts, Girl Scouts, heart fund, Y.M.C.A. and the Y.W.C.A.

For my own safety I am required to carry health insurance, life insurance, fire insurance, burglar insurance, accident insurance, unemployment insurance, compensation insurance and old age insurance.

My business is so governed that it is no easy matter to find out who owns it. I am inspected, expected, suspected, disrespected, rejected, dejected, examined, re-examined, informed, required, summoned, fined, commanded and compelled until I provide an inexhaustible supply of money or hope for the human race in every known need or desire.

Simply because I refuse to donate to something or other, I am boycotted, talked about, lied about, held up, held down and robbed until I am almost ruined.

I tell you honestly that except for a miracle which has just happened, I could not inclose this check. You see, the wolf that sits at my door these days just had pups: I was able to sell them -- so, here is the money.

Probably there has never been a time in history when it was more popular to use letters to represent words. In this age of abbreviated everything, abbreviating is the accepted thing to do. Those of us in the newspaper profession are like everyone else -- we almost never write out a word or series of words when we can make a record by the use of letters or abbreviations.

Of course, we sometimes make errors by doing this. Since David Smith has been a student at Tech, some information for a story concerning his progress there came across my desk. One sentence read, "He is an Eng. major." I'm sure the person who typed the information knew Eng. was an abbreviation for engineering, but when I wrote the story, I interpreted it to be English.

Just this week I learned that David is an engineering physics major. I'm sorry if I've caused David any embarrassment about being an English major. The information we received this week was spelled out "engineering physics" which made our job of accurately reporting the news easier. Congratulations David, up on your accomplishment.

Frionans must be becoming better adjusted to time changes. All day Monday I listened for a report which began "I got up one hour early." "I arrived at church yesterday morning and had to wait an hour for anyone else to show up." or "After getting the children ready for school, they had to wait an hour for the bus." Maybe we will learn.

Anyone who missed the aspen tours in Northern New Mexico, the foliage tour in the Canadian breaks northeast of Amarillo or other colorful fall tours, can still see a lot of brilliant colored leaves by making a tour of Friona. The large tree just north of the Paul Spring's house is beautiful. The fruit trees at the E.H. Lewis home are arrayed in leaves of every fall color you could see anywhere. I'm sure there are lots of others, too, so just get in your car

Cinderella's Pumpkin Tarts

THESE PUMPKIN TARTS happen almost as quickly as Cinderella's coach did its disappearing act, and you don't even need a magic wand. Milk, cream, Jell-O Vanilla Instant Pudding, pumpkin, and spice -- quickly twirled with a rotary beater -- make the smooth-eating filling. Serve the pumpkin mixture by itself on a day that's too busy for tart making, or check your market or bakery for ready-to-go tart shells.

PUMPKIN TARTS

- 1/2 cup light cream
- 1/2 cup milk
- 1 package (3 1/2 oz.) vanilla instant pudding
- 1 1/4 cups canned pumpkin
- 1 teaspoon pumpkin pie spice
- 1/4 teaspoon salt
- 5 or 6 baked tart shells, cooled
- Prepared whipped topping
- Walnut halves

Pour cream and milk into bowl. Add pudding mix, pumpkin, spice, and salt. Beat slowly with rotary beater or at lowest speed of electric mixer until well blended--about 1 minute. Mixture will be thin. Pour at once into tart shells. Chill 30 minutes. Garnish with prepared whipped topping and walnut halves. Makes 5 or 6 servings.

Green Thumb Tips

Winter rye sown in autumn will act as a cover crop for the vegetable garden, controlling erosion. Start sowing it in the rows as they empty, fertilize the rye and plan to spade or cultivate it underground in early spring.

This is a cheap way to add organic matter to your soil and thus improve crops for years to come.

If seeds of perennials and biennials were sown earlier and you now have sturdy little plants, better transplant the

largest to wherever you want them to bloom next year.

The little ones, if spaced far enough apart, can be left where they are for winter, protecting them with a straw covering.

Parsley and spinach may be sown in fall for use in spring. Both are hardy and will produce an extra-early crop.

If you have rabbits in your garden and expect to eat the spinach yourself, better fence the area now.

Fall is not only the best time

and drive around residential Friona and make a list of trees you want to see next fall.

The completion of maize harvest is often the key to a down-state fishing trip for many of our fisherman-farmers. I'm sure some of them will be taking off real soon.

If the report I heard early this week about Raymond and Nola Adams and their recent fishing trip to Ute Lake is true, some of their friends should be getting invited to a fish fry real soon.

Prosperity is something the businessmen create for the politicians to take credit for.

Good News for 4-H -- A new contest has been added to the 4-H 1969 Roundup Event. It is a 4-H Home Improvement Educational Activity which will help the contestants appreciate beauty and understand design as a basis for planning the home and furnishings; develop skills in planning and selecting furnishings, provide space and facilities for individual and family activities.

Some 4-H girls who have taken project in Home Furnishings should be interested in this contest. Also new leader and member guides in Home Improvement has updated the teaching of this subject and offers the 4-H girl enrolled in the projects new experiences.

Halloween parties in 4-H clubs will end activities for this month. All 4-H members are urged to get their enrollment cards in by the first of November, so plans for training meetings in various subjects can be completed.

Security is associated with ownership in America -- so Americans want to own houses. A home decorator's recipe for a good color scheme is: 2/3 of one color, 1/3 of another, a dash of a third accent color. This can make a very pleasing and interesting room when applied. Housing can and does effect a family's activities. How can members visit and eat together at dinner if they don't have a table? The "snack bar," cannot take care of the "togetherness" that is needed in the home. A child's first world is his home -- there he can be stimulated or stultified.

Another thought about the house worth considering. When arranging furniture remember where your family makes traffic patterns in the room. Keep major seating on one side of this path. The path can divide the television and seating.

Housing is usually the largest investment most families make -- and since housing effects our attitudes, values, and quality of living, it is most important to plan well.

Man needs a sense of place -- roots so he can feel he belongs. Thus man has a home.

THE 72nd DISTRICT NEEDS BILL CLAYTON

The Economy Of West Texas And Particulary The 72nd Legislative District Is Based On Water Supply For Agriculture, Municipal And Industrial Needs.

We Need The Help ,Assistance And Proven Leadership Of People Like BILL CLAYTON Who Have The Influence , Seniority And Ability To Get The Job Done.

BILL CLAYTON

VOTING RECORD & POSITION

*WATER DEVELOPMENT

Bill Clayton has been directly associated with every major piece of water legislation passed during the last six years. He is recognized by his colleagues as being one of the most effective and well informed members of the Texas Legislature on water and soil resource development and conservation. Bill Clayton knows the vital importance of water, not only to your future, but to the future of the entire State. Past accomplishments and effective leadership have made Clayton vital to continued progress in development of water resources for the High Plains.

*EDUCATION

Child by child we build our nation. . . tomorrow depends on today's children and young adults. Bill Clayton is ever mindful of the need to raise our standard of excellence in the Texas school systems. This can only be done through the uprating of the Texas schools, and dedicated recruitment of the finest teachers. Clayton co-authored a bill that created the "coordinating Board of Texas Colleges and University systems. His voting record shows a continued support of teacher pay-raise and the strengthening of all educational systems in Texas.

*LAW ENFORCEMENT

Today, law enforcement agencies are facing new problems. Bill Clayton is concerned about the breakdown of law and order. Clayton has been activr in seeking higher salaries for law enforcement officials and uniform standard procedures. Bill Clayton served on a special House Committee which will suggest revision of our obsolete liquor laws. Clayton believes that all people must respect the law and that proper enforcement is essential to maintain law and order.

*INDUSTRIAL DEVELOPMENT

Bill Clayton knows that industrial development helps to stabilize the economy of any given city or area. During his six years in the Legislature, Bill Clayton has worked aggressively for industrial development for our area of the State. Several smaller cities in our 72nd Legislative District now have air ports as a result of Clayton's assistance in starting a program of State grants. These State grants are financed with unclaimed gas tax refund on aviation fuel. Bill Clayton knows that air-ports help encourage industry in less densely populated areas.

*TOURISM

Bill Clayton has worked hard for tourism during his six years as State Representative. Clayton, House Speaker, Ben Barnes and other interested legislators were successful in establishing a National Park in the Big Bend area of West Texas. The water importation program being led by Clayton will develop many new recreational opportunities with huge water reservoirs for fishing and boating. Bill Clayton realizes both the need for more recreational facilities in his district and increased business activity from tourist trade.

*COUNTY, CITY & LOCAL GOV'T

Bill Clayton has been a strong advocate of local government. He is currently serving as chairman of the Committee on Counties of the Texas House of Representatives. Clayton believes that government at the county and city level are more responsive to the people and whenever possible they should take the lead and the responsibility of many governmental programs and functions. Clayton has authored many bills that benefit the cities and support the idea of allowing cities the option to choose their own taxation method. Bill Clayton is needed on the job for more effective and responsible county, city, and local government action.

**Take Advantage of This Opportunity To Keep Your Firm Grip In The State Legislature
By Going To The Polls On November 5th, And Casting Your Ballot For BILL CLAYTON.**

Election Party

by Betty Crocker

Since politics is the vital subject these days, why not turn election eve into a lively neighborhood party? Set up two television sets if you have them, and watch the proceedings on a couple networks. Add a few campaign posters, maybe, or red-white-and-blue touches — and please both Democrat and Republican friends with light refreshments. Something tasty, something simple. Like my golden quick bread with the subtle flavors of pumpkin and spices. With hot or cold cider to drink. And keep the refills coming. It's going to be a long, exciting evening.

GOLDEN PUMPKIN LOAF

1 cup sugar
1 egg
1 can (1 pound) pumpkin
3 cups New Bisquick
1 teaspoon pumpkin pie spice
1/2 teaspoon cloves
1/2 teaspoon nutmeg
Cream cheese or butter

Heat oven to 350°. Grease loaf pan, 9x5x3 inches. In large mixer bowl, blend sugar, egg and pumpkin at medium speed on electric mixer. Gradually beat in New Bisquick and spices on low speed. Pour into prepared pan. Bake 1 hour and 10 minutes or until wooden pick inserted in center comes out clean. Remove from pan. Serve warm or cold with softened cream cheese.

Little Loaves: Follow recipe for Golden Pumpkin Loaf

(left) except — grease 8 loaf pans, 4 1/2 x 2 1/4 x 1 1/4 inches. Divide the batter among prepared pans. Bake 35 minutes. Pumpkin bread can be reheated by wrapping well in foil and placing in 350° oven for 15 minutes.

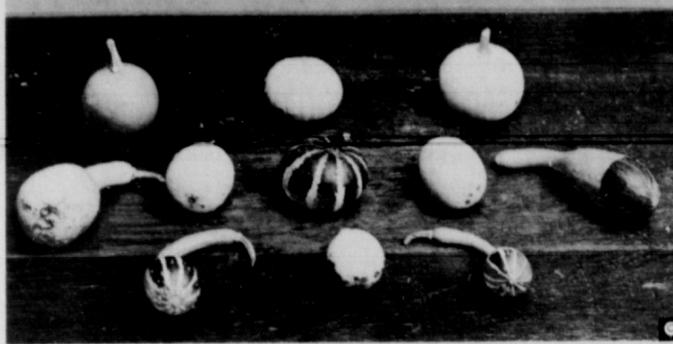

APPLE ZING

Mix 1 bottle (12 ounces) carbonated lemon-lime beverage and 1 1/2 cups chilled apple cider. Pour into ice-filled glasses. 4 servings.

SPICED CIDER

In covered saucepan heat 3 cups apple cider, 1/4 teaspoon whole cloves, 1/4 teaspoon whole allspice, 1-inch stick cinnamon, 1 thin lemon slice and 1 tablespoon sugar to boiling. Cook 10 minutes. Strain; serve immediately. 4 servings. (Cider bottles convert to pretty lamps.)

WHEN "TOGETHERNESS" COUNTS

Little ornamental gourds should be picked off the vine with an inch of stem attached just before the first killing frost. Hang them up, with strings attached to the stems, in a place that's

warm and dry. In a week or two they'll be dry and ready to wax or varnish to add sheen to the bright colors. Even then, seen one by one, they give little impression of their collective beauty.

When they're arranged in artistic groups, however, their appearance is quite different. This is when "togetherness" counts. Giant gourds, medium size gourds and the little fellows all add

varied forms and colors to a single picture. Therefore, a neutral-colored container is a necessity. The straw tray illustrated is an especially appropriate choice. Neutral-toned pottery is also good.

IN OR OUT

Do you have morning glory vines in pots outdoors? Move them inside and enjoy them.

Morning glories that were grown in pots outdoors can be brought inside well before frost to fill a new role as house plants.

While it is true that they require a position right next to the glass of a south-facing window in order to continue to flower, many homes can furnish this.

And what a joy it is to see their cheery blooms each morning that the sun shines! Replanting into a larger pot rarely is possible because the vines are tall and brittle, therefore too likely to break.

For this reason fertilizer should be given regularly to keep the vine growing and flowering. Be sure the soil is thoroughly wet first, then apply dry fertilizer or water with a liquid solution.

Keeping dead flowers picked off as they become unsightly also encourages the plant to set new buds and thus produce more flowers.

A morning glory vine rarely survives the entire winter

**It's time
for new leadership
in our Country**

The Old Ways Have Failed. The Time Has Come For
New Departures, New Solutions And New Vitality For
America. Only New Leadership Can Restore The Con-
fidence Of The People In Their Government.

**VOTE FOR RICHARD NIXON
FOR PRESIDENT**

THE NIXON STAND

Vietnam Every American wants peace. We must end this war in a way that discourages aggression and prevents future wars.

Foreign Affairs The judgments of history can bestow no honor greater than the title of peace-maker. It is this honor — this destiny that beckons America, the chance to lead the world at last out of turmoil and onto that plateau of peace man has dreamed about since the dawn of time.

The Draft After Vietnam, eliminate Selective Service completely. Change to an all-volunteer armed force, with better pay so that it becomes an attractive career.

The Pueblo When respect for America falls so low that a fourth-rate military power like North Korea dares to seize an American naval vessel on the high seas, then it's time for new leadership in Washington.

The Presidency He must reach out and draw on the strength of the people.

The People America became great because for 190 years we have recognized that progress is achieved not through government doing more for people, but through people doing more for themselves.

Rising Crime In recent years crime in this country has grown nine times as fast as the population. We must take the offensive against criminal forces and rebuild respect for law across this country.

Order and Progress Let us have order in America, not the order that suppresses dissent and discourages change but the order which guarantees the right to dissent and provides the basis for peaceful change and progress.

False Promises We've had enough of big promises and little action. The time has come for honest government in the United States.

Inflation The cost of living is rising at its fastest rate since 1951. More government spending now would only add to inflation, hurting the people it tried to help.

Farm Crisis Enlarge the farmer's opportunity to manage his own affairs and give him a greater voice in shaping his own future.

Black Capitalism Black Americans do not want more government programs which perpetuate dependency—they want a piece of the action. Let government use its tax and credit policies to enlist the greatest engine of progress — American private enterprise.

Friendship Garden

Mother has a green thumb For flowers and people too. She has a friendship garden And one of flowering rue. There is a time for everything She says and seems to know When to tender her affection And when to let things go. For the rhythm of all growing things Like flowers and you and I Is an alternate attention And a silent standing by. A friendship must grow slowly Nor the flower plucked anon. When it's time the bud will open And the shyness will be gone. In friendship garden mother works As with her flowering rue. She says it makes her fit to be A friend and have one too. And every flower that blossoms there Begging Nature's pardon Seems to have its human counterpart In mother's friendship garden. —dorothy morrison

SILVER A LA MODE

There's much hulloaloo these days about The Mod Look and Carnaby Street, but it's not just the swinging teens who are concerned with keeping in step. That's why the Toni Company reminds women who have gray hair (and like it that way) that they, too, can be in vogue—with Silver Curl, a home permanent that keeps natural gray hair softly curled, bright and shining.

PLAN NOW FOR A DRESS-UP HALLOWE'EN

New York (NAPS) - For centuries, special costumes have been part of the Halloween spirit. Some English farmers, for example, used to don tattered garments and go from house to house collecting food for a village feast. (Their trick, if not treated, was often to plug up the stingy person's chimney!) The ragged clothes were worn in order not to arouse the envy of lurking evil spirits. To confuse these same malicious spooks, boys and girls sometimes swapped clothes when they went trick-or-treating. In parts of Ireland, the Halloween procession was led by a man in a white robe and a horse's head! In other regions, the lads dressed as mummies and pretended to be messengers of a spirit called the Muck Olla. Thanks to the stern Puritan influence, Halloween fun and games were slow in coming to America. When they arrived with the waves of 19th century immigrants, they were accompanied by the new-traditional ghosts' and

witches' costumes. Today, youngsters have a spirited but not always spooky variety of costumes that range from Batman and Robin to Chiquita Banana outfits! A colorful dress from South of the Border, sure to make any little girl a standout at Halloween parties, is inspired by the famous Chiquita Banana symbol. The pattern, designed for United Fruit Company by McCall's Needle Work Pattern Design Department, is available for 25¢ in girls' sizes small (2-4), medium (6-8) and large (10-12) by writing to CBP, P.O. Box 510, Boston, Massachusetts 02117. Chiquita's skirt and sleeves bloom with yellow flowers on a red background; these colors are reversed on the bodice. The easy-to-sew dress can be quite economical, depending on the fabric used. Its accompanying burlap hat is lively with red felt flowers and a big yellow felt banana.

There's more than one way to be bewitching on Halloween!

'68 CAMPAIGN RUFFLES WOMEN

In this all-important election year, to be in the majority you'll cast your vote for the fluttery, frilly, romantic ruffle—because it's on the fashion ticket for every party. It can run down the front of a body shirt, up the sleeves of a blouse, swirl around an exaggerated neckline, or tier the entire length of an evening skirt. Cotton is the major candidate. Ribbed cotton, dotted swiss, lightly embroidered batiste, or nipped and tucked chambray get the primary votes. And the new, washable synthetics are coming up stronger than ever. There are Victorian echoes and thoughts of the Thirties in the return of the ruffle. But the new plank in the '68 platform is today's promise of easy care. When the ruffle was in the running years ago, it faced stiff competition because of all the extra care that such frills called for. Easily soiled, easily wrinkled, its limp showing made it a short-lived fashion candidate. But today the

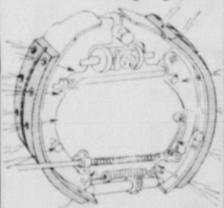

ruffle is one of the strongest and most popular contenders because a new technique has been developed for keeping its bright, fresh look. The secret weapon in the new ruffle campaign is ironing with a spray starch containing a soil repellent. The Pruf laboratories have come up with an exclusive ingredient that puts on an invisible protective finish to resist dirt and dust. So the fashion campaigner Pruf-starches her ruffles into a crispness that also keeps them cleaner longer. Advance polls indicate that while this season's first ladies of fashion will appear elegantly ruffled, this modern easy-care technique will leave them unconventionally cool, calm and unruffled from now right through election time.

HOT brakes can't stop you!

Install Star VENTILATED BRAKES

When you slam on the brakes at high speed, your brakes must develop tremendous friction to stop your car. But friction generates heat, and when heat builds up to the danger point, your brakes can fade or fail altogether.

That's why we install new Star Ventilated Brakes on every reline job we do. Star Ventilated Brakes are designed to allow free circulation of cooling air through and around the linings. Brakes stay cooler for top stopping efficiency. Give your car the benefit of the safest brakes money can buy—Star Ventilated Brakes... installed in our complete shop.
