Indians win state AA crown

BY DENNIS HOWELL

The greatest season in Morton Indian basketball history has finally come to an end — and what an ending! The last chapter in the story took place last weekend in Austin and two hard-fought victories brought the Tribe the trophy symbolic of supremacy in Class AA basketball.

The triumphs for Ted Whillock and his title hungry band were accomplished despite numerous handicaps the team was forced to overcome. The squad went to Austin with the worst record of the four teams in the tournament, and the student enrollment at Morton was also the smallest.

In the first contest against Roma, the Indians top scorer, Elton Patton, went to the sidelines with six minutes left in the second quarter as the result of a sprained ankle. The Tribe could have folded at this point, but they responded to the challenge just like the champions they proved to be. Bryant Lewis took up the slack and scored nine straight points to keep Morton on top until the necessary repairs could be made to Patton's left ankle.

In the final game against Whitehouse, senior floor general Keith Embry left the game with three minutes left in the third period when he committed his fifth foul. Again the Indians could have folded, but the character of true champions took over and victory was snatched out of the shadow of defeat.

The Tribe found themselves facing opponents who were taller in both their games; they were outshot from the field in both contests, but a combination of desire, quickness, and a tenacious defense all honed to a fine perfection by Coach Ted Whillock catapulted the Indians to the winner's circle.

The key to both wins was the tight press employed by the Indians. Roma committed 31 turnovers which led to 18 Morton points, and Whitehouse turned the ball over 18 times that gave the Tribe 12 additional points.

One other factor leading to success was the superb conditioning of the Morton squad. Time after time the Indian fast break would allow the Tribe to get easy

lay-ins, and they were moving at what seemed to be a faster pace in the last quarter than in the first.

Against Roma, the turning point of the game came with the score 50-49 when Jimmy Harvey hit a jump shot and then as the Gladiators were bringing the ball up the court, Harvey stole a pass and went in unmolested to give Morton a 5 point bulge.

The Indians were not able to breathe easily in the final game until Patton did his thing with two minutes to go in the contest. With the score tied 57-57, Elton hit a lay-up and then intercepted the inbounds pass and hit a 20 foot jumper to give the Tribe a solid four point margin.

Patton led Morton against Roma with 24 points, followed by Embry with 17 and Harvey with 12. In the championship game Embry had 16, Patton had 14, and Harvey and Lewis ended up with 11.

The Indians finished the season with a fantastic 32-4 ledger, and that victory total is the highest in Morton history. The tournament marked the end of high school basketball for three members of this best of all Indian teams. Elton Patton, Keith Embry, and Bryant Lewis have all made great contributions to the team this year with their leadership ability, and they finished their career on top — a position few are able to attain during a lifetime.

Financial security concern of countians

As happens in times of recession, when people are more concerned than usual about their future, residents of Cochran County took steps in the past year to bolster their financial security.

They tightened up on their non-essential expenditures, put more of their disposable cash into their savings bank accounts, more into life insurance and health insurance and reduced their installment See FINANCIAL, Page 2a

4-H food show set Monday

"Food for Special Occasion" is the theme for the 1972 4-H Food Show. Thirty-six 4-H members from Morton and Whiteface have learned to prepare and serve special occasion foods as a part of meals, snacks, and refreshments. In addition, these 4-H members have gained a better understanding of nutrition for better health. Approximately 20 of these 4-H mem-

bers are expected to have exhibits at the County 4-H Food Show, Monday, March 13 in the County Activity Building. Judging will be from 7:00-8:30. At 8:30 the winners will be announced. The public is invited to the awards program at 8:30 p.m.

The winners will compete in the District 4-H Food Show in Lubbock, April 8 on the Texas Tech Campus.

MEANWHILE, BACK AT THE HOME PLACE . . .

WHILE THE MORTON INDIANS were off fighting the basketball wars at the state tournament in Austin, some of the home folks were preparing a large welcome on their return. Several local citizens pooled their resources and talents to design the welcoming banner pictured above, and

when they had it finished, Cochran Power and Light personnel and equipment were on hand to erect it for them. The above photo was made at 3 p.m. Sunday and the team bus passed under it at approximately 6:30 p.m.

ASCS Farm News

With the March 10 deadline nearing for sign-up in the 1972 feed grain, wheat, and cotton programs, some 200 to 300 more farmers are expected in the Cochran County Agricultural Stabilization and Conservation Service (ASCS) Office for enrollment during the final week.

Through 3-6-72, approximately 300 producers in Cochran County had signed up for participation in one or more of the set-aside programs offered in 1972, according to Danny Key, ASCS County Committee Chairman.

"We've been recording about 30 sign-ups

debts. As a result, they entered the current year with more safeguards than ever, especially with respect to cash savings and life insurance.

For the local community as a whole, life insurance holdings are now placed at more than \$47,643,000, a record high.

Data on the number of policy holders and the extent of their coverage is given for each of the states and for the United States as a whole in the current Life Insurance Fact Book and in other reports.

They show that families boosted their protection in this direction by an average of \$1,600 during the past year.

As a result of the large increase, the overall amount of life insurance in force in the United States reached \$1.4 trillion (yes, trillion), or nearly 10 percent more than in 1969.

In the State of Texas alone, the reports show, the total is \$71,525,000,000, as against \$66,227,000,000 a year ago.

For the majority of families, there is a direct relationship, it is found, between their annual income and the amount of insurance they carry. In Texas, the amount now held is equivalent to about 27.2 months of after-tax income.

Applied to Cochran County and to the average income listed for the area, the life insurance holdings locally are an estimated \$26,600 per family.

This is well above the average per family throughout the United States, \$21,100. In the State of Texas, it is \$20,300.

Another factor accounting for the surge in insurance protection is the big increase, recently, in the number of marriages taking place. These young couples, with their new responsibilities, are quick to provide themselves with such protection.

per day, but we expect that average climb sharply during the last week sign-up," he said. Total participation in Cochran County is expected to amount about 550 farms.

Farmers have been waiting to sign early each day, he reported, starting 8:00 a.m. when the local ASCS office opens. The office closes at 5:00 p.m. and said that any producer who is in the office before closing time will be rolled, registered for enrollment that day.

In the 1972 voluntary farm program participants agree to set aside 25 percent of their farm's base or alternate of whatever crop or crops they sign for. Options are offered for additional voluntary set-aside in the wheat, feed grain (corn, grain sorghum, milo) programs, in order to aid farmers in being production into better adjustment to market demand. No option for more set-aside for upland cotton is offered, as cotton is in short supply.

In return for setting aside a portion of their productive land, producers receive set-aside payments based on their established yields for the program. Additionally, program crops on participating farms are eligible for special loans.

Producers were reminded by Danny Key that they may request set-aside inspection and measurement service at same time they sign up for the programs. This service, which is provided at cost, offers a quality-and-quantity guarantee on set-aside acres.

VA dividends exempt from income taxes

The Veterans Administration has come news for 4.1 million veterans due a record \$286 million in dividends this year on World War I and II government life insurance policies, according to Jack Coker, VA Regional Director.

The dividends, Coker advised, are subject to federal income tax, and not reported as income on tax returns. Veterans who have instructed to hold insurance dividends in interest-bearing accounts, however, must report accrued interest as income, and pay tax on it, it was pointed out. One of seven veterans falls into this category, the VA official said.

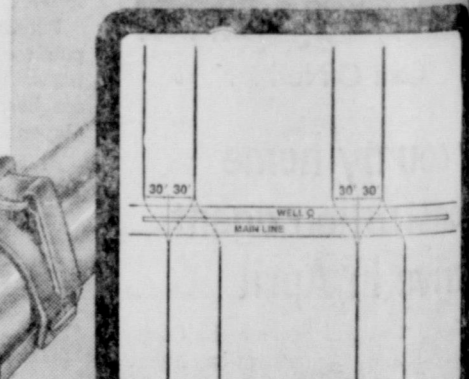

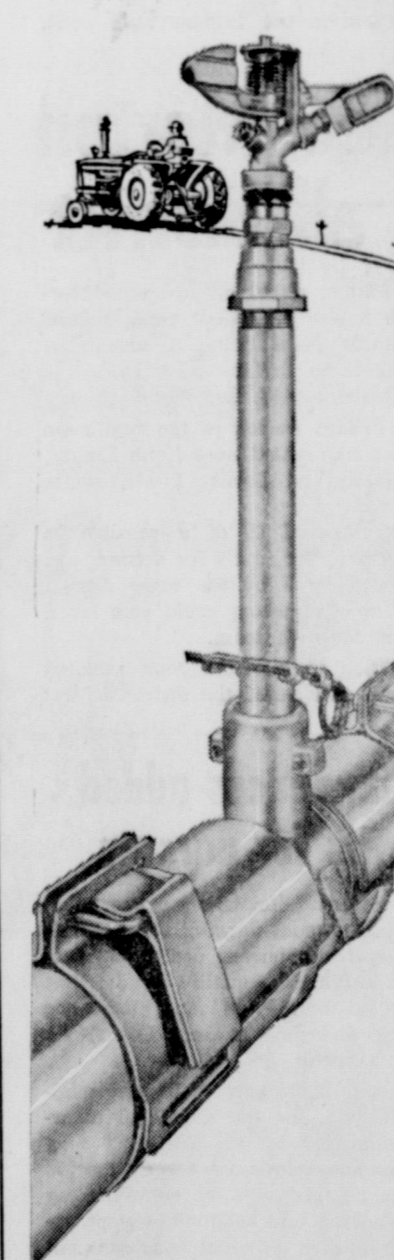

Coker also explained that although government life insurance proceeds are not taxable, death benefits are taxed for federal estate tax purposes.

Last month, VA announced payment of insurance dividends during the first months of this year an accelerated rate. Ordinarily these dividends are paid during the year on the anniversary of policies.

Cotton planting dates set

Harvesting of the 1971 cotton crop is under way in North West Texas planting the 1972 crop in the Rio Grande valley. The planting season is beginning. This continuous process in Texas is a valuable crop, Texas Agricultural Experiment Station. Commissioner John C. White reminds growers that the fight to control the destructive pink bollworm should be unabating. Commissioner White sets planting and harvest dates for cotton six zones of Texas over 100 counties, as authorized by the State's Pink Bollworm Control Act. He urges all cotton farmers in the state to observe the planting dates to observe the planting dates of the pink bollworm can be more effectively controlled. Cotton has already been planted in the Rio Grande Valley where planting is authorized by the Texas Department of Agriculture in Cameron County and parts of Hidalgo and Starr Counties are February to March 31. Other planting dates are: Zone 1: February 15 to April 20 in the 13-county area that reaches from Willacy County

ACCENT ON HEALTH

Your heart is the sturdiest, toughest muscle of your body. The work it does is almost miraculous. Yet too many Texans are neglecting the health and conditioning of that heart muscle. In this computerized age exercise has become the uncommon thing, and our urbanized society and the fast pace of living that society demands adds tensions and stresses to that tough heart muscle that it cannot tolerate indefinitely. State health officials are increasingly concerned over the large incidence of heart disease in Texas and across the nation. "Each day, on the average, heart disease kills some 1,400 Americans, and cerebral brain strokes take another 500 lives," said Dr. James E. Peavy, Texas Commissioner of Health. "In total, the toll is more than one life a minute. Uncounted hundreds of thousands are crippled every year."

Many of these people actually lived their way into a premature heart attack, by habit or choice running certain risks that raised their chances of being stricken. Their seemingly sudden heart attack had been building up to crisis for years. Many heart attacks could have been prevented. By simple knowledge, and action, most heart attack victims could have reduced any of nine risk factors which make a man more susceptible to a heart attack far too early in life. After many years of medical research we know heart disease is due to a conspiracy of factors. There is no single cause but a combination of causes.

These are the chief suspects: High blood pressure. High levels of cholesterol, a particularly dangerous fatty material, in the bloodstream. Overweight. Excessive eating, especially of certain types of fats and cholesterol. Too little exercise and physical activity. Diabetes. Excessive cigarette smoking. Tensions and stresses. Heredity. Those are the nine risk factors of heart disease.

"A man's chances of having a heart attack before age 65 are only about one in 20 to one in 50 if he is normal in these nine risk factors," said Dr. Peavy. "If he is shadowed by two or three of these risk factors, such as high blood cholesterol, high blood pressure, or heavy smoking, his chances rise to one in two — or 50 percent."

Cotton council cautions on contracting pitfalls

Advance contracting has become a more popular way to buy and sell cotton in the past few months, and this popularity makes it incumbent on the buyer and seller alike to be aware of possible pitfalls.

These problems, and some recommendations for coping with them, were discussed at a recent industry meeting called by the National Cotton Council. The meeting came as the result of a resolution adopted at the Council's annual meeting last month, calling for recommendations which might provide adequate mutual safeguards for persons dealing in advance contracts.

The grower has three options open to him in handling his crop. He may sell in the futures market; he may sell his crop forward; or he may hold it for sale in the spot market. The producer who contracts his crop in advance secures a known price, which permits him to plan his year's operations more effectively.

At the Memphis meeting, the group recognized two major problems with advance contracting: assurance that the buyer will be ready and able to take delivery on the quantity called for by the contract and make prompt payment when the seller invoices the cotton, and assurance that the seller will deliver the quality cotton expected by the buyer in the quantities called for by the contract.

It was pointed out that failure of either the buyer or the seller to perform satisfactorily would make it difficult for that party to make contracts in future years. The group also pointed out that contracts are only as good as the people who make them, and that no contract could be written which would give complete protection from an unscrupulous party to a contract.

The U.S. Department of Agriculture estimates that by early this year about 31 per cent of the 1972 crop will be contracted, and with adequate contracts available it is generally felt that selling in this way will increase.

The group meeting in Memphis pointed

out there are different types of contracts, based on whatever agreements the buyer and seller may come to. There are, however, some points to consider when making contracts which might reduce the risks for both parties. The committee suggested:

Knowing the reputation and financial standing of those involved. If there is a lack of personal knowledge, banks or persons with whom the other party has dealt can often provide information, and if a broker is involved he should have satisfactory knowledge of both parties.

Entering into mutual performance bonds or escrow accounts if not completely satisfied about the ability or desire of the other party to perform according to the contract.

What is to be delivered, when it is to be delivered, and where it is to be delivered, as well as the selling price and whether the terms agreed to are binding on both the purchaser and the seller, are points of the contract to be studied closely, according to the committee.

Considerable emphasis was given to the fact that while discounts for poor quality cotton are not very significant in this time of short supply, buyers remember growers who fail to do a satisfactory job of preserving quality, and the word gets around in the trade, just as it does among growers when a buyer reneges on a contract. Buyers either refuse to enter into agreements with these producers in the future or discount offers they may make.

Post-Mortons

BY BILL SAYERS

How does one go about describing a trip to Austin when your team actually wins the STATE CHAMPIONSHIP?

Someone else will have to tell you that because we feel totally inadequate to round it all up and put it into so many words. One thing we know, however — It sure feels GOOD.

If there is ever kept a history of any kind concerning our family, we would like to enter the three days involved as a candidate for the most enjoyable interlude in our lives. We'll bet that this is

true of a good many other citizens of Morton as well.

There must have been well over 500 local people that made the long 400 mile trip, and we wouldn't be surprised if the figure went much higher. In addition to our present local citizens, there were a large number of former Morton residents, displaced persons and other interested individuals that showed up to see their favorite ball team take the big prize.

Did we say it was a long trip? Well, it was a pretty long trip going down — but it was a might short one coming back, with that state championship under our belt. We didn't spot quite as many local folks on the road as we did when we made our first state tournament pilgrimage in 1970, but that was probably because we took the less-traveled route through Big Spring and San Angelo. We did see a bunch, though, and when we reached Austin, it looked to us like a Morton homecoming.

We don't know what your impression in that gym — and that whole area as far as that goes — was against our Indians. Do you reckon those down easters think that West Texas is out of state?

As the Tribe was warming up to play — and we were warming up to take pictures — before the Roma game, we heard an uncouth voice behind us state: "that don't look like a state tournament team to me. I wonder how they got here?" Needless to say, you could live a month just on the egg off his face when the game was over.

Having been to Austin and the university several times, we have become somewhat caloused to the hippie and kookie atmosphere, but it sure was an education for our two boys. They saw some sights they weren't even expecting.

One of them was this tall, skinny fellow with his head shaved clean except for a

little round area in the back out of which grew a long pony tail. He wore an ankle-length white robe and sandals and was reading out of a book and chanting as he walked down the street. Our youngest just about flipped.

We feel that the townspeople of Morton owe a kind word of thanks to Mrs. Rex Mauldin, the Weldon Wynns, Ramsey's Shoes Shop and the Cochran Power and Light company. Those are the people responsible for erection of the welcoming banner at the street light which welcomed our state champions back home. The Wynns thought up the idea, Mrs. Ramsey donated and sewed the canvas, Mrs. Mauldin hand lettered the message and Cochran Power and Light erected the banner for us.

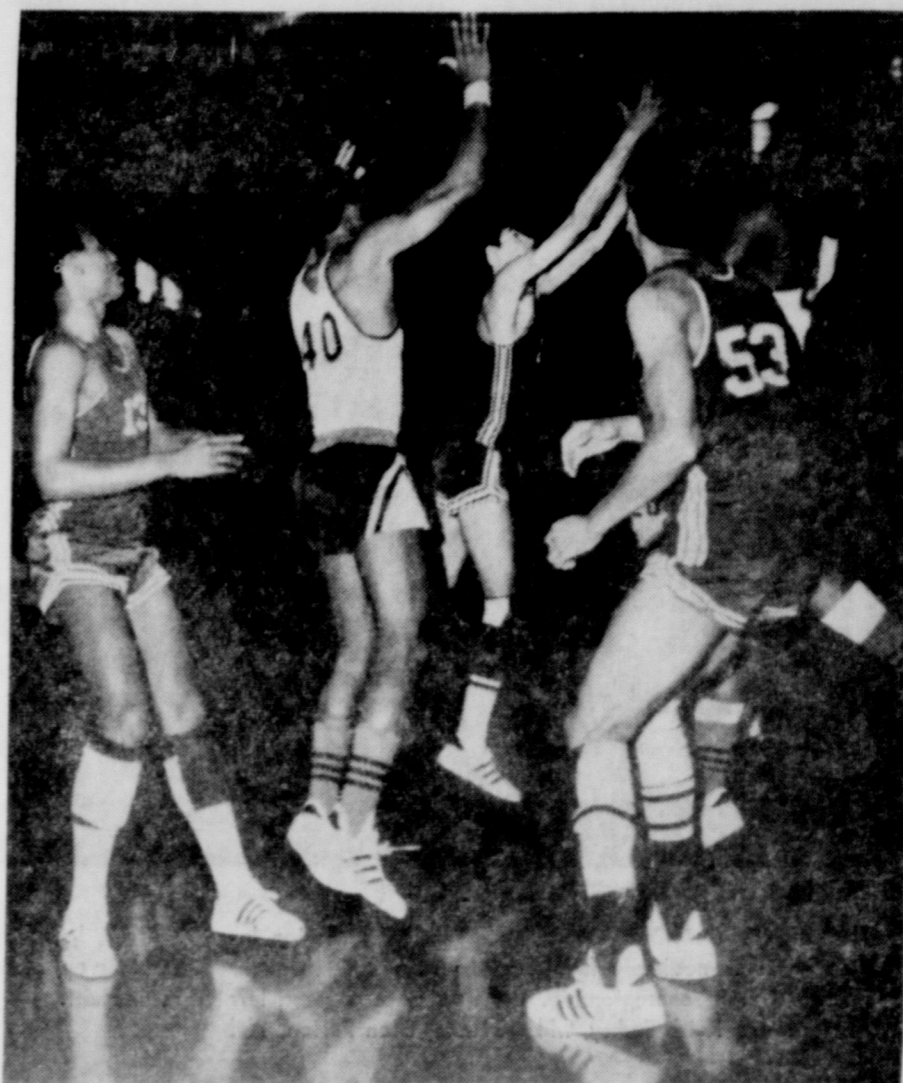

We regret that we could not publish a more complete story on the stock show this week, but there just was not time, either for the Tribune or the show officials to get all the information together by press time.

We do promise you a comprehensive story next week though, and who knows, the extra time may allow us to check and double check and be sure we get everything just right this year. We were going to say that we hope it never happens on Monday and Tuesday again, but then had the thought that if a trip to the state tournament was at stake, we would gladly go along with the inconvenience.

The more we see his teams perform, the more admiration and respect we have for coach Ted Whillock. His teams, year after year, show the results of superior coaching. There was not a team we played the entire year that could run with the Indians. Their superior conditioning usually begins to show its effects on the opponent along about the third quarter, and by the middle of the fourth quarter the other team is floundering. This was very much apparent in the state tournament where second class teams just don't go.

The effectiveness of the coaching could also be seen in the way the Tribe smothered their opponents with the full court press and the easy and systematic manner with which they broke the press themselves.

We hope to see many more state champion teams in Morton coached by Ted Whillock.

ALWAYS IN THE THICK OF PLAY . . .

BRYANT LEWIS seemed always to be in the right place at the right time in both championship games and contributed mightily to the victories with his ball hawking, accurate shooting and solid defensive play.

Mr. and Mrs. H. B. Barker, Judge and Mrs. Glenn Thompson and Judge and Mrs. M. C. Ledbetter. Saw the Dexter Neh-huts asked him who was home to take care of the TV in case it went out — he assured us we couldn't watch it while we were in Austin and he'd be back on the job Monday morning! Minnie and L. B. Childs were also among those cheering the Indians.

Checked in at the Roadway Inn and were fortunate to have Mr. and Mrs. Weldon Wynn, Max and Joe Bob and the Alex Soliz staying there also, plus the Odessa ball team and their coach.

Saturday morning after the big win — loaded up for home. Stopped for lunch and met more Mortonites, the G. W. Lyons and a group traveling with them.

We were happy to see a lot of ex-Mortonites during our stay in Austin — Bob Hawkins, David Murrah, Mr. and Mrs. Todd Fields, Mr. and Mrs. Billy Smart all of Lubbock, J. Wayne McDermott, Tommy Combs and Mr. and Mrs. Billy Wood of Dallas, Mr. and Mrs. Willard Cox from San Marcus, and Ernest Gene Chesshir, who drove down from Oklahoma City.

There was just too much excitement to see everyone.

Hope to see all of you and many more time and with another winning INDIAN team!

About local folks

Dutch is in Lubbock with husband, Joe, who was operated on at Methodist Hospital Tuesday morning — so we are trying to fill in for her this week.

The 'ole LTD was ready to roll soon as the school bell rang at 2:30 p.m. Thursday — thought we were the first to leave but low and behold, passed the Neal Roses and Van Greeses about 3:45 p.m. between Brownfield and Lamesa — don't know how they got away so fast since we saw Dorothy coming out of the school at 2:30 p.m., guess T. A. Rowland was parking his car about that time and wasn't in his usual place.

Stopped in San Angelo at the Jackson House for the night and the next morning at breakfast who should walk in but Mr. and Mrs. Danny Key and Jana — I kid you not, everypiece you looked you saw someone from Morton.

Arrived just in time for the ballgame Friday and to many more Mortonites know we didn't see everyone but here are a few we visited with: the Jerry Winders, Arnold Lams, Mrs. Don Lynskey, Mr. and Mrs. W. BRAND NEW CHAMPIONS . . .

THE LONG CLIMB IS OVER at last and the Marlon Indians relax immediately following the game that brought them the state championship. The new state champs, left to right, are Keith Embry, Mike Gilliam, Elton Patton, Phil

Graves, Larry Thompson, Bryant Lewis, Jerry Siltan, Jimmy Harvey, Mike Hunter, Ted Thomas, Tony Bramblett and Mark Fluit.

PLENTY OF SUPPORT . . .

THE SUPERHUMAN EFFORTS put out by the Indians at the state tournament certainly did not lack for support from their cheerleaders and the several hundred very vocal fans that traveled to Austin to see them win the title.

Those friendly voices and familiar cheers can go far in bringing out the very best efforts in a player that is far from home.

CONGRATULATIONS, STATE CHAMPS!

We are proud our school and community has been so capably represented by such an outstanding group of young men!

YOU ARE THE BEST!

BEST PART . . .

INDIANS LINE UP to receive their championship trophy following the final game of the state tournament and season. This ceremony is what they have striven so

long and so hard for and receiving the state championship trophy is the best part of it all.

NOW WE'RE REALLY NO. 1 . . .

SEVERAL HUNDRED delirious fans were on hand to greet the Morton Indians on their arrival back in town following their victorious trip to Austin. Elton Patton holds the state

championship trophy and is surrounded by the entire basketball squad and coaches Whillock and Thomas.

MORTON, TEXAS, 79346, THURSDAY, MARCH 9, 1972

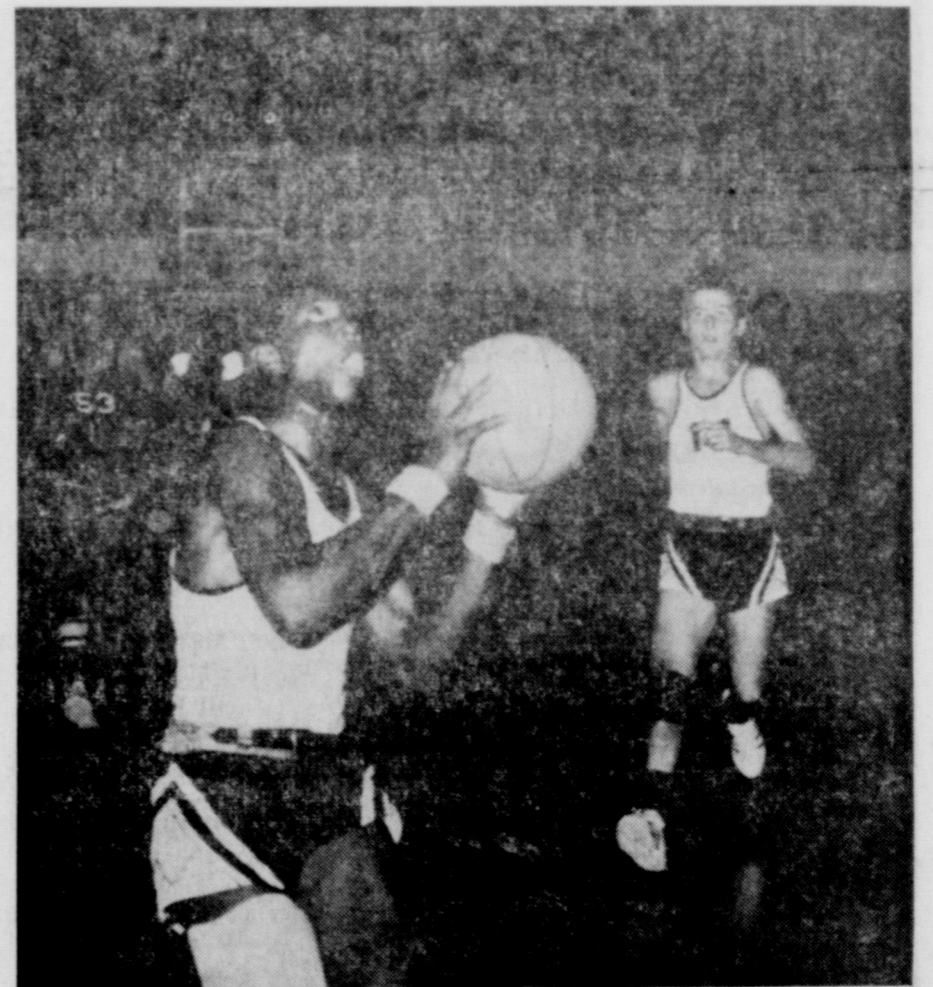

MAN OF THE BEST . . .

CAPTAIN KEITH EMBRY receives the giant trophy that is symbolic of the state AA basketball championship as his teammates and hundreds of appreciative Morton fans look on. Morton's first state championship trophy will be in the high school display case where it will hopefully be joined by others in the future.

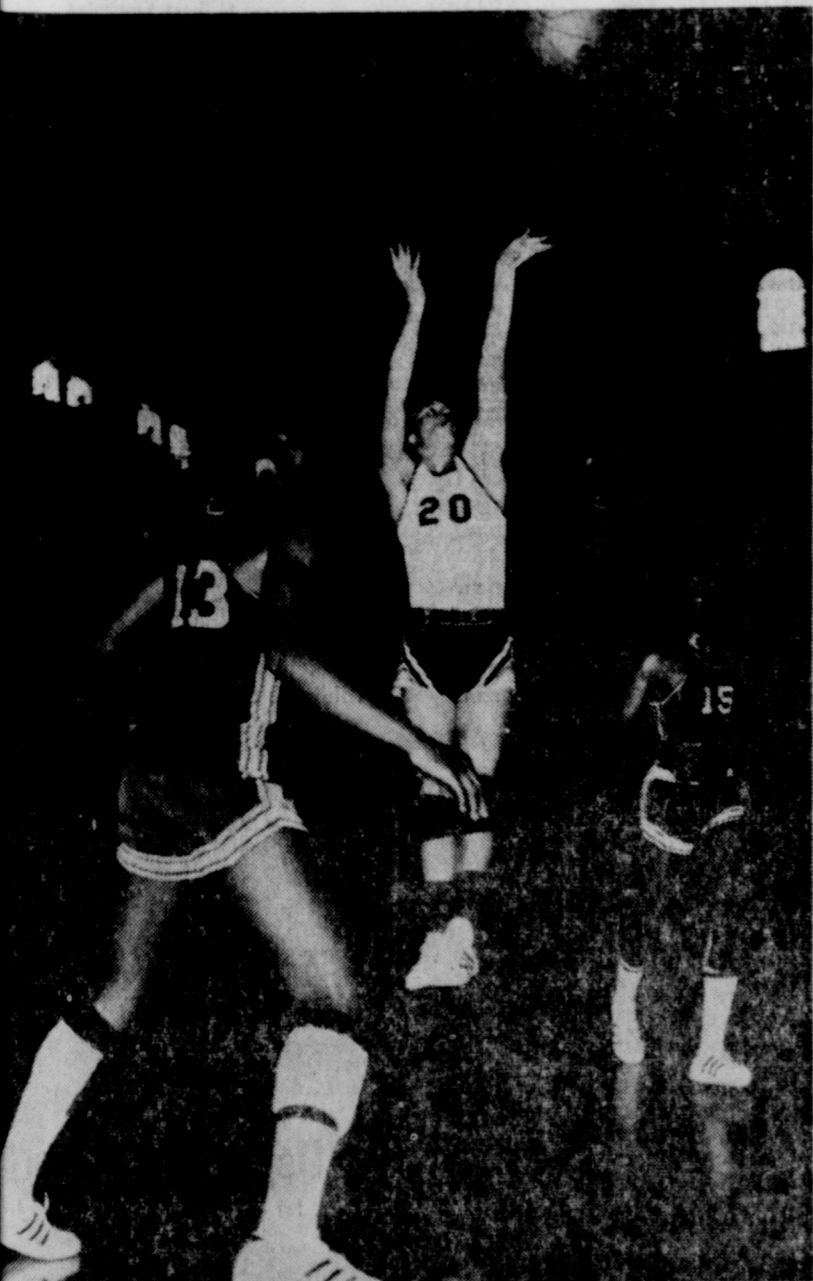

A HAPPY COACH MEETS HAPPY FANS . . .

COACH TED WHILLOCK emerges from the team bus on arrival of the 'Championship Express' from Austin Monday night to be greeted by hundreds of cheering fans. They were showing their appreciation for his coaching efforts which have brought Morton its first state championship in history.

HARVEY CONVERTS A STEAL . . .

WHEN THE INDIAN 'super press' caused a bad pass by Whitehouse, Jimmy Harvey was right there to steal the ball and convert it into a layup and two points for Morton.

TED FIRES FOR EFFECT . . .

SHOTS SUCH AS THIS TWO-POINTER became the trademark of Ted Thomas in both playoff games and prevented the opposition from double teaming other Morton players. Ted's defensive play in both games was also outstanding.

MORTON FACES IN THE CROWD . . .

ONLY A FEW of the hundreds of Mortonites who journeyed to Austin to watch their Indians win the state AA title are shown in front of Gregory Gymnasium above. Those few were mighty vocal though, as the photo was snapped immediately following the championship game.

HOT AND HEAVY . . .

THAT IS THE WAY the action was on the floor in the Roma game as the Indians and Gladiators battled tooth and nail to gain an advantage.

Letter to the Editor

Dear Sir:

I probably do not need to call to your attention the coverage, or lack of it, given to the Morton Indians by the Lubbock Avalanche-Journal for their play in last week's state tournament. In each account of last week's game, the A-J summarized in the same story the wins of both Morton and Odessa Ector. The stories were phoned to Lubbock by an Austin reporter.

Enclosed you will find copies of clippings from Saturday and Sunday's Amarillo paper. Although Morton is not in the immediate Amarillo area, that city's paper saw fit not to lump the Morton and Sanford-Fritch games together; instead, the Daily News gave the Indians sufficient coverage with a personal touch — interviews with Morton coach Ted Whillock. Also, Amarillo's four-column headline seems to reflect a strong interest in the accomplishment of the Indians at the state tournament.

I do not know whether a comparison of Amarillo and Lubbock's coverage would prove anything, but it does seem to indicate that the A-J doesn't seem to care as much about its sports readers outside the Lubbock city limits.

I would like to take this opportunity to thank Ted Whillock and his fine team for their tremendous effort in winning the state title and for their fine display of sportsmanship and character. Other teams advance to that point often on the basis of individual performance; the Indians won it on the basis of a team performance. All of Morton indeed, all of the South Plains, should be very proud.

Sincerely,
David Murrah

The unusually wet fall and winter has given the High Plains one of the best underground moisture situations in recent history which substantially brightens the crop prospects for the coming year.
