Plains cotton outlook bright

The excellent start that Cochran county cotton and grain sorghum crops have made this year appears to be duplicated throughout the High Plains area according to a crop estimate released in Lubbock Saturday.

If the official August 1 estimate of High Plains cotton production proves correct, area farmers will harvest the biggest cotton crop since 1965 and could reap almost \$400 million for their efforts.

The estimate, compiled jointly by Plains Cotton Growers, Inc. and the Lubbock Cotton Exchange, sets production from about 2,602,000 standing acres in the 25 PCG counties surrounding Lubbock at 1,917,000 bales. Last year's production came to only 1,279,150 bales. The 1965 crop totaled 2.3 million. The all-time high for the Plains was 2,457,703 bales, produced in 1961. Assuming market prices of 24 cents a pound for lint and \$30 per ton for seed and including some \$130 million in price support payments the value of the crop would be \$389,178,000. That figure, if realized, would just about equal the cash value of the record 1961 crop.

Milo, with heavy yields in prospect for the second year in a row, could add \$226 million to \$249 million across a 39-county area, according to the Grain Sorghum Producers Association here and grain trade officials.

Thus the region's top two money crops could be worth approximately \$615-\$633 million to farmers. This includes federal farm program payments now being distributed by county Agricultural Stabilization and Conservation Service offices.

"Cotton has been making real good progress," Dr. Bob Metzger, cotton specialist with the Texas Agricultural Extension Service at Lubbock, said.

The crop, after being slowed by a cold snap and "wet weather" blight early in July, recently has been putting on a heavy load of fruiting forms, Metzger said.

A Terry County farmer, calling the TES to inquire about irrigation recommendations, commented last week he "had never seen cotton fruit as heavily as it had in the last few days," Metzger said.

Many farmers, especially those with early cotton, began irrigating the crop last week. For maximum production, dryland cotton will need rain by about mid-August.

"Most of the dryland cotton could 'make a crop' without additional rainfall," Metzger said, "but it will have to have some timely rains if top yields are to be harvested."

Last year's early-season estimates also projected a rosy picture for the fleecy crop on the Plains, but unseasonably cool, wet weather in August and September

LONG MAY THEY REIGN . . .

RAYMA HALL, right, daughter of Mr. and Mrs. Raymond Hall of Morton, began her reign as queen of the 23rd annual Last Frontier Rodeo Saturday night as she took over the reins from Leslie Holden, center, who reigned over this year's rodeo. Leslie is the daughter of the late John Holden and Mrs. Holden, also of Morton. On the left is Rusti Coleman, daughter of Mr. and Mrs. Ronald Coleman, Morton, who was Rayma's runnerup.

School budget nears \$1 million

Approval of a near-record budget and faculty personnel changes were the main orders of business at the regular meeting of the MISD Board of Education Monday night.

An operating budget in the amount of \$972,161.00 was approved by the board for the 1972-73 school year. This is several thousand dollars higher than the 1971-72 budget and is believed to be the highest in the history of the Morton school system.

Personnel changes included resignations from the faculty of Mary E. Whillock, Cheryl McDaniel, Sammie Love and Dennis Howell. Deborah J. Hayes was added

to the teaching staff to fill the fourth grade vacancy created by the resignation of Miss McDaniel. The board reviewed a number of applications for teaching positions now vacant in the Morton schools.

Phillips "66" was the low bid winner of the contract to furnish gasoline for the school system during the coming year and Humble Oil Company received the oil contract. Bell Dairies was awarded the contract to furnish whole milk and chocolate milk to the school system.

Labor Day will be a school holiday this year. The board voted unanimously to dismiss school on that traditional holiday this year. It was a regular school day in 1971.

Minor changes in the school dress code were approved as a last item of business at the meeting. The dress code reads as follows:

Wearing apparel for girls should be confined to dresses, skirts and blouses, and slacks. Slacks should be properly fitted. (Not too loose or too tight). Shorts should not be worn to school. Culottes and scooter skirts resembling skirts are permitted. Students are not permitted to attend classes or other school activities in bare feet.

Texas sports writers name Ted Whillock cage coach of year

Ted Whillock, head basketball coach at Morton High School, received a signal honor during the Texas High School Coaches Association convention in Houston last week. He was named as the Texas Sports Writers Association basketball coach of the year and was named as a coach to handle one team during the state all-star basketball game during the coaches school next year.

Whillock received the sports writers nod after leading the Morton Indians to the state Class AA basketball championship in 1972. He will begin his ninth year at the basketball helm at Morton when play begins this fall.

One of Whillock's prize students, Elton Patton, whom he coached from the seventh grade through graduation this spring, played in the all-state all-star classic this year. Patton was named second team all-state in 1972 and has accepted a bas-

THE FIDDLIN' FOURSOME above emerged victorious in the ol' fiddlers contest held here as part of the Country Fair last week. Mrs. George Tyson, of [unclear], right, didn't fiddle around — she fiddled up a storm — and took first place in the process. The other three places went to Ted Clark, Dink Esby and Hutch Gardner — not necessarily in that order, as we were unable to get them identified. A substantial crowd attended the contest which was held in the county activities building in conjunction with the old set's reunion which was held there at the same time.

Competition keen in fair exhibits, winners listed

Competition was keen in the Women's Art Division of the Country Fair and Morton for three days last week. Odessa man dies here in freak auto mishap

Howard Cummings, 69 of Odessa, was pronounced dead at the scene of an auto crash on North Main Street in Morton at 5:03 p.m. Friday.

Cummings, who was traveling alone, was pronounced dead of an apparent heart attack by Justice of the Peace Joe Gipson shortly after his 1972 Ford pickup veered off Highway 214 and smashed into another vehicle that was parked unoccupied at the curb in the 600 block of North Main. The pickup was thought to be traveling at a moderately high rate of speed when it struck the other vehicle as heavily damaged both and sealed them together.

The second vehicle involved was a 1969 Chevrolet Custom 10 owned by Silbano Garcia, proprietor of John's Welding Shop. General arrangements for Cummings' funeral are not announced in Morton.

FATAL ACCIDENT SCENE . . .

TWO VEHICLES ARE SHOWN locked together following an accident on North Main Friday afternoon in which the 1972 Ford pickup on the left, veered off Highway 214 and smashed into the unoccupied Chevrolet carryall on the right. Otis Howard Cummings, of Odessa, was

pronounced dead at the scene of an apparent heart attack by Justice of the Peace Joe Gipson of Morton. Officers investigating the mishap voiced the belief that, due to the nature of the accident, that the driver probably had a seizure prior to hitting the parked vehicle.

ruined those prospects. The September 1 PCG-LCE estimate indicated the area would produce a little over 2 million bales in 1971, as compared to final production of less than 1.3 million.

"It is not at all impossible that the current crop could meet a similar or even worse fate," says PCG Executive Vice President Donald Johnson, "but the odds are certainly against it."

On the other hand officials of PCG and LCE point out that ideal weather conditions for the next three months and a normal or later frost could bring on a crop considerably in excess of the present estimate.

Based on the acreage now thought to be "standing" the August 1 projection would mean a per-acre yield of only 354 pounds, as compared to a 10 year average for the Plains of 433 pounds per acre.

The PCG-LCE estimates are traditionally based on "normal" weather conditions, and are updated on the first of each month through December 1, taking into consideration the effects of weather for the past 30 days each time.

Normal rainfall at the Lubbock Weather Station for August is 1.82 inches and the average temperature for the month is 78-8 degrees. Average maximum August temperature at Lubbock is 91.7 degrees and the average minimum is 65.8.

Cochran county is estimated to have 75,000 acres of standing cotton with an estimated yield of 384 pounds per standing acre. This would produce a total of 60,000 bales for the county which is just under twice the county yield of 33,800 bales in 1971.

While no official production estimates are made here on the area milo crop, grain officials agree that yield prospects are equal or superior to the outlook at this point in 1971. The acreage devoted to grain sorghum, however, is down.

Putting the acreage-yield picture together, most industry spokesmen here say the area grain sorghum crop appears to be promising a total tonnage only slightly below last year's 191,055,000 bushels.

Proper dress for boys consists of sport shirts, T-shirts, slacks, blue jeans, and khakis. It is required that all boys wear belts, socks and shoes. Blue jeans should always be worn at the proper level, and other dress that would attract the attention away from regular school routine and classwork is not to be worn at school.

In order to have a business-like attitude toward school and the school environment, boys and girls should concern themselves with proper grooming. Girls are not to wear their hair in curlers to school. Boys should be clean shaven. Any hair cuts worn to observe pledge, identify membership with a "gang" or to attract attention, will not be permitted. Male hair style

Social security payments in county \$59,000 month

Social security benefits were being paid to residents of Cochran county at a rate of \$59,000 a month at the close of 1971. John C. Hutton, social security district manager in Lubbock, said today. The 29% increase recently passed by Congress will automatically raise the monthly payment to \$71,000 effective with the October 3, 1972 checks.

Of the social security beneficiaries living in Cochran county, 388 are retired workers and their dependents. Another 163 are receiving benefits as the survivors of workers who have died, and 85 are getting benefits as disabled workers or their dependents.

Hutton pointed out that although most social security beneficiaries are older people, about one out of every four is under 60. In Texas, 350,000 people under age 60 are collecting social security payments each month. Nearly 200,000 are under age 18, receiving payments because a working father or mother has died or is getting social security disability or retirement benefits. Most of the 35,000 beneficiaries in Texas between 18 and 22 years of age, are getting student's benefits under a provision in the social security law permitting the continuation of a child's benefits beyond his 18th birthday, and up to age 22, if the child is attending school full time.

Also in this 18-22 age group, Hutton said, are some other type of beneficiaries, illustrating the broad family protection that the social security program provides workers of all ages. Some are children of retired, disabled, or deceased workers who became disabled before they reached 18 and who will probably never be able to work and become self-supporting. The monthly benefits of these young people, severely handicapped by physical or men-

tal disabilities, will continue indefinitely. Benefits are also payable to the mother if the disabled son or daughter is in the mother's care.

Hutton said that another relatively small but significant group of youthful social security beneficiaries are those who are receiving benefits as disabled workers. Social security disability payments can be paid to a person who becomes disabled for work even if he has less than 5 years of work under social security. As little as 1 1/2 years of work is required in the case of a worker who becomes disabled before age 24, Hutton said.

State lacks funds for payment of all election expenses

The few remaining dollars earmarked to pay for the 1972 primary elections were to be sent to county officials last Friday, but not all of the primaries' expenses will have been paid.

That's the message today from Secretary of State Bob Bullock, the state's chief election official.

"By the weekend, we will have officially disbursed all the money that was originally appropriated to pay for the 1972 primary elections," said Bullock.

"But, we have flat run out of money before all the costs have been paid," he added.

"This has put many local county chairmen between a rock and a hard place. A lot of election workers, not to mention printers and other suppliers, have yet to be paid for their work."

Bullock said about \$325,000 is needed to cover the remaining costs statewide.

"We believe the only fair way to disburse the remaining monies is on a pro-rata basis. This means that each county chairman who still has an outstanding expense for the primaries will receive a disbursement which amounts to 26.66 per cent of their remaining bills."

"When we have paid all the county chairmen, we will not have one cent remaining of the \$2,150,000 appropriated for conducting the 1972 primary elections," Bullock said.

Bullock said that the remaining expenses "apparently will have to ride" until the 63rd Legislature, which meets in January, can take action on the situation. "I can find no other source of funds available at this time."

By 1980, the railroads expect to be called on to move about 1.4 trillion ton-miles of freight annually. That will be more than 4,700 ton-miles for every man, woman and child likely to be alive then.

Crockett-Marina exchange double ring vows Sunday

Miss Micheline Deana Marina and Steve Raymond Crockett exchanged nuptial vows at 6 p.m. Sunday in St. Ann's Catholic Church. The Rev. David Greka, minister of St. Williams Catholic Church in Tulia, officiated the double ring ceremony.

Parents of the couple are Mr. and Mrs. Simon Marina and Mr. and Mrs. John N. Crockett.

Presented by her father, the bride wore a formal length gown of white silk organza and hand-clipped imported chantilly lace fashioned with a high neckline, empire bodice accented with pearls and long lace petal point sleeves. A wide band of lace extended down the center front of the A-line skirt that extended into a chapel length train. A deep band of scalloped lace encircled the hemline and edge of the train. Her Juliet headpiece of imported lace accented with pearls held her full length veil of imported illusion. She carried a cascade of white rose roses. Following tradition, the bride wore a borrowed gold chain bracelet, something new was a diamond pendant with matching earrings, something old was a penny, minted in the year of her birth and a blue garter.

Mrs. Richard Graves of Lubbock, sister of the bride, was matron of honor. Bridesmaids were Miss Betty Silhan, Miss Becky Greene and Miss Claire Masso of Brownfield, cousin of the bride. Junior bridesmaids were Alice and Mary Marina, sisters of the bride. They wore formal gowns of cranberry silk chiffon over taffeta with softly gathered skirts and round

necklines. Multi-colored embroidery bands accented the empire waistlines. Matching cranberry ribbon Maline hats complimented the gowns and each carried a bouquet of pink roses.

Douglas Crockett, brother of the groom, served as best man. Groomsmen were Charles Marina, brother of the bride, Bobby Ruthardt, Wayne Thompson of Lubbock, Dennis Short of Ajo, Arizona and Henry Marina, brother of the bride.

Guests were seated by Joe Masso of Lubbock, Sammy Masso of Brownfield and Arthur Masso of Plainview.

Randy Kuehler and Donnie Kuehler were candle lighters.

Liane Graves of Lubbock, niece of the bride, was flower girl and Scott Robertson of Lubbock was ring bearer.

Wedding music was presented by Mike O'Brian, organist, and Miss Ruthie Smith, vocalist.

Mrs. Charlie Marina registered guests.

Following the ceremony, the couple were honored with a reception and dinner party in the Cochran County Banquet Rooms. Over two-hundred guests attended. Mrs. L. S. McCarty, pianist, presented dinner music.

Both Mr. and Mrs. Crockett are 1971 graduates of Morton High School and attended South Plains College. Crockett is employed by Simons Machine Co. in Levelland.

For a wedding trip to Cloudcroft, N. M. Mrs. Crockett wore a burgandy pant suit with a white flop hat, and white accessories. The couple will make their home at Hillside Mobile Park, Space 22, Levelland.

Mrs. Steve Raymond Crockett

Time to ready 'em for school

When the month of August rolls around, thousands of Texas mothers suddenly realize that only a few more weeks remain until school begins.

Parents with youngsters beginning school for the first time this September look forward to school with a little more excitement, and many mothers whose first-born are going off to school may be a bit bewildered by it all.

In addition to the million-and-one chores that must be performed in getting the youngster ready for school -- new shoes, clothes, health examination -- most school districts require proof of age for beginning students. A certified copy of a birth certificate is usually requested, reports the Texas State Department of Health.

This fall there will be a quarter-million new first graders in the schools throughout Texas, with the total public school enrollment expected to reach 2.8 million. Continued growth of the school population is expected for the next two to three years, according to the Texas Education Agency.

Anticipating the rush of birth certificate requests, the Records and Statistics Section of the Texas State Department of Health has been prepared for it. Requests already are pouring in.

It takes a sizeable staff just to open the thousands of letters received daily, let alone search out a requested certificate, remove it from the thick volume, make a certified copy, mail it out and then return the original certificate to its proper place.

Years of experience have eliminated nearly every bottleneck. The operation is smooth and fast. Usually the copy is mailed within a day or two after the request is received.

One bottleneck still remaining, however, is the individual who makes the last-minute request. Parents are requested to stop now and write for a certified copy of the birth certificate, or contact either the city registrar where the child was born or the county clerk in the county of birth.

If you write the Texas State Department of Health, Bureau of Vital Statistics, 410 East Fifth St., Austin, Texas, be sure to: include the child's name place of birth, date of birth, and the parents' name (including the mother's maiden name.) The State Health Department fee for a certified copy of the birth certificate is \$2.00.

SPC slates CLEP exams August 18

Persons interested in receiving college credit through the College Level Examination Program (CLEP) may take exams on August 18 at South Plains College. Don Melton, Director of Guidance at the college is in charge of the testing program.

CLEP is a program which provides credit by examination for a number of college courses. This program allows students to obtain credit for courses by providing their knowledge of the course material on an examination approved by the department under which the course is offered.

Tests being offered include English Composition, College Algebra, Trigonometry, American Government, American History, General Psychology, and Introductory Sociology. Students who score satisfactory on one or more of these tests will be given credit for the course covered by the examination. There is a charge of \$15.00 for each examination taken. The testing program is open to students who are currently enrolled at South Plains College and to high school graduates who plan to enter South Plains College.

Complete information concerning the examination program will be provided upon request by the Registrar's Office or Director of Guidance at South Plains College.

FOR A JOB WELL DONE

The Morton Area Chamber of Commerce

Wishes To Say A Great Big

THANK YOU

to all the fine people who pitched in and worked so hard
to make our first annual Country Fair a success.

We thank all the women's clubs, organizations and
individuals alike for their productive efforts on behalf of
this community project. Without your hard work and know-
how, this enjoyable event would not have been possible.

Though some phases of the fair were not successful,
we learned a great deal from this "dress rehearsal" which
will assure added success in the future.

Your efforts have proven that nothing is impossible
for the people in a community when they work together.

Thank you again and please accept our invitation to
join us for a bigger and better Country Fair in 1973.

DONKEY BALL GAME

A Spill... A Laugh... A Thrill A Minute

BETTER THAN A RODEO! — FUNNIER THAN A CIRCUS!

RULES: — All players except pitcher and catcher ride donkeys. When the batter gets a hit he must mount his donkey and ride around the bases in proper order — if he can. There are no strike-outs or walks. Fielders must ride to within a step of the ball before dismounting and must remount before throwing the ball. Soft-ball is used. Nine players on each team. Game plays 5 to 7 innings — approximately one hour and a half.

12 trained Texas Donkeys furnished by Ralph E. Godfrey, Crescent, Okla.

THIS IS THE OLDEST DONKEY BALL CO. IN THE WORLD
Explanation and account of game will be broadcasted over a loud-speaker!

Friday, Aug. 18 — 8 p.m.

Rodeo Arena

This will be an eyeball-to-eyeball confrontation between
the Morton Volunteer Fire Department and the valiant mem-
bers of the Morton Area Chamber of Commerce.

No holts barred — ear twisting and tail jerking definitely
allowed.
