School doors to open

SIMON MARINA was one of the first of the goodies served as the Morton coaching staff held open house in the newly refurbished athletic field house Saturday night. Miss Sabrina Wells, a member

of the high school cheerleading team, does the honors as new head football coach Roy Winters and Mrs. Winters look on in the background. A large crowd of Indian boosters turned out to review the remodeled facilities.

Preparations were virtually complete this week and the doors ready to swing open for the beginning of the 1973-74 academic year for area schools.

One school, Three Way, is already in operation with the first day of classes beginning Wednesday, August 15. Other area schools begin classes on either August 20 or 27, with a week of teachers in service training preceding the classes.

Morton schools will open classes on Monday, August 27, with in service training scheduled August 20-24. Whiteface classes open August 20, with in service training August 13, 14, 15 and 16. Bledsoe school classes will begin August 27, with in service scheduled for the previous week. Bula schools will begin classes August 20, with in service preceding them.

A survey of the five area schools failed to turn up any exact enrollment figures due to incomplete registration, however, all those superintendents interviewed indicated that they expect approximately the same number of students as attended last year. Morton superintendent Bob E. Travis estimated the 1973-74 enrollment at between 1,080 and 1,100—which is near the same as that ending the last school year.

Labor Day will be a holiday at Whiteface and Bledsoe but will be a class day at Morton, Bula and Three Way.

Pre-Registration

Pre-registration for Morton High School students will take place at the Principal's office on August 21.

Seniors and Juniors will register from 9 to 10:30 a.m. and the Sophomores and Freshmen from 10:30 a.m. until 12 noon.

The principal urges all students to pre-register at this time and to observe the class time schedule.

New look' Indians report

JOHN COFFMAN Monday morning the herd led his flock out, not on pastures and still but to two weeks of work and strenuous use. The shepherd in this case Coach Roy Winters led his flock the thirty-five

eager candidates for starting places on this year's Indian football team.

Cotton markets continue spiral

Activity in Western Region cotton markets continued to be centered around contracting and the approaching South Texas harvest, according to the Agricultural Marketing Service of the U.S. Department of Agriculture.

Foreign mills showed a strong demand for both 1973 and 1974 crop cotton for forward delivery. Growers on the Texas Plains continued to contract 1973-crop cotton at around 26.00 cents per pound over loan rates for Light Spotted grades 52 and higher, 3.5 to 4.9 mike cotton.

LINDA BROWN

National publication selects local student

Carol Brown, a senior at Morton High School, was notified that she is featured in the Seventh Edition of Who's Who in American High Schools, 1972-73, the largest award publication in the nation.

Linda is the daughter of Mr. and Mrs. Edwin Stevens. She is active in Pep Squad, Choir and FTA and has also received an award as an outstanding Spanish I student.

In addition to having her biography published in the book, Linda will also compete for one of ten \$1,000 scholarship awards funded by the publishers and will be invited to participate in the firm's annual 'Survey of High Achievers' later in the academic year.

Linda plans to attend South Plains College upon graduation in June.

THE RECENTLY RE-OPENED Roberts Memorial Nursing home was the scene of an open house and reception Sunday to acquaint the public with the operation and facilities of the home. Shown above at the refreshment table are Mr. and Mrs. L.E. Dodd, new owners and operators of the home, behind table, and Mrs. Myrtle Roberts, who donated the land upon which the home was built. The Dodds, who operate nursing homes in both Littlefield and Amherst, are currently accepting patients in the local home.

CONSTRUCTION GOT UNDERWAY this week on the new office building for the Morton branch of Levelland Savings and Loan located in the 300 block of south Main. The one story brick and stone building will contain 4,300 square feet of floor space which will house the necessary company offices and a 25'X57' community room. The community room will be connected to, but separate from the offices and will be open to clubs and organizations for their activities both day and night, company officials announced. Target date for opening is some time in November.

'Super Fall Fair' planned by chamber

A real old-time country fair was cranked into the fall schedule of activities by the Morton Chamber of Commerce board of directors at a meeting Friday morning.

The decision to have a county fair came as a result of a critique of the rodeo and country fair that ran August 2, 3, and 4. It was decided that the August date for the country fair was too early in the year to be effective due to the produce and crops not being mature and the fall canning not being completed. The ladies participating in the fair each year have given a later date strong approval.

September 19 and 20 were the dates set for the two-day event. The carnival that recently played in Morton will be here again at that time and

chamber officials expect to tie the fair and carnival together to increase attendance by the public.

Busy week experienced by sheriff

County and city law enforcement officers experienced a busy week as a minor crime wave hit Cochran county over the past several days.

Manuel Flores, 54, of Morton, was charged in county court August 12 with driving while intoxicated and no drivers license. He was still in sheriff's custody Tuesday in lieu of \$500 bond.

Manuel Franco, 22, of Morton, was arrested by Texas Highway Patrol officers August 12 and charged with aggravated assault with a motor vehicle. He is alleged to have attempted to strike and run over another man with a pickup truck. He was still in

Bryan, Pete Soliz, David Ramby, Larry Thompson, Malcolm Coleman, Eddie Dunn, Kenneth Standmire, Greg Bell, and David Silhan.
We have previously mentioned that the new Head Coach at Morton High is a graduate of West Texas State University. He learned his trade under the able direction of the late Joe Kerbel, for several years the fabled coach of West Texas football.

Coach Winters was the starting quarterback for the Buffaloes for two years and played with such gridiron greats as Mercury Morris and Duane Thomas. He has the unique distinction of having been a college coach before turning to high school football. Prior to Morton, he was a coach at Canyon High School.
His able Line Coach, Earl Clardy, also is a product of West Texas State University.
Probably the toughest part of the football year are the two-a-day sessions necessary to the beginning of each campaign. Bodies have to be whipped into shape, plays have to be learned, and most important of all, eleven or more youngsters begin to function as a unit.

The new systems being installed by the coaches this year require many hours of practice and repetition before becoming a part of the team's weapons for gridiron warfare this fall. The Indians are meeting each day at 7 a.m. and at 5 p.m., giving liberally of themselves in time and sweat to perfect the polish necessary to the "wide open football"

Coach Winters has promised Morton fans can bear in mind that the student body of Morton High is numerical just enough to be included in the AA classification, just a little over half of that of most of the schools the Indians meet in a majority of their games. This has a decided bearing on the amount of talent available to the respective coaches in game competition. Even the Indians gave a good account of themselves game after game.

In evaluating the early practices to date Coach Winters says that he is real pleased with the attitude of each player. He feels that the Indians are on the edge of becoming a winning football team. To quote him, "The bunch of young men will be exciting to watch!"

Parents and boosters have been stopping by to watch the team practice, usually during the evening session. The coaches have the welcome message out to those who would like to become acquainted to the team before the start of the season.
This Saturday at 6:30 p.m. the Indians will conduct an intra-squad scrimmage. The public is invited.

Anyone wishing to take pictures of their favorite Indians are urged to avail themselves of this opportunity. Afterwards, an ice cream get-together will be held for the team. Be sure to be there with your freezer of ice cream!!!

Starting next Monday August 20, Freshmen will begin working out in shorts during the evening workouts.
Tee shirts and caps each with an arrowhead with a superimposed "M" are being sold this season to defray expenses of lettermen's trips planned for this fall and next spring. In prospect is a trip on October 19th (Open date) to Texas Tech or West Texas University, and a fishing trip next spring. These shirts and caps can be obtained from the coaches, players, or at Liner's Pharmacy.

Home loans easier for married vets

The Veterans Administration has initiated new measures making it easier for married veterans to qualify for guaranteed home loans.

Administrator of Veterans Affairs, Donald E. Johnson said VA regional offices have been told of the July 18 changes.

"In consideration of current social and economic patterns, VA will hereafter recognize in full the income and expenses of both the veteran and spouse in determining ability to repay a loan obligation," Johnson explained.

He noted VA is required by law to determine if the contemplated terms of repayment bear a proper relation to the veteran's anticipated income and expenses before approving a loan.

The spouse's income has always been considered for this purpose, but in the past, local rules which had the effect of discounting the young wife's income were often imposed. Under the new policy, no such local rules will be imposed and the wife's income will be given full consideration.

VA guarantees 60 percent of home loans (maximum \$12,000) private lenders make to servicemen, veterans and eligible widows of World War II, Korean and Post-Korean conflicts and the Vietnamera.

Jerry L. Elliot graduates Saturday

Some 1,500 students are candidates for degrees, or diplomas which will be awarded by the University of Houston in summer commencement exercises Saturday, August 18, at 3 p.m.

Governor Dolph Briscoe will deliver the commencement address. The exercises will be held in Hothelz Pavilion.

UH president, Dr. Philip G. Hottman, will confer the degrees and diplomas, and Dr. Emmett B. Fields, executive vice president and dean of faculties, will recognize honor graduates.

Candidates for degrees or diplomas include Jerry L. Elliot, Route 2, Morton, bachelor of business administration.

announced that the billing rate of Federal Land Bank farm and ranch variable interest rate loans has been increased from 7 per cent to 7 3/4 per cent effective August 1, 1973. The rate on rural residence loans has been increased from 7 1/2 per cent to 8 1/4 per cent. The variable interest rate loan plan which was introduced by the Houston Bank in July 1969, lets the rate "float" over the variations in the money market.

"Continued high interest rates in the money market have made it necessary for the Bank to take action. Interest rates have risen rapidly since early 1973 and the Bank has delayed action until this time in order to determine whether or not these rate increases were temporary," Joe Breed stated.

The Bank recently marketed an issue of bonds which sold at an average effective cost of 7.6 per cent. "It now appears that present interest levels will probably not change materially until the end of the year," Mr. Breed stated.

The Federal Land Bank of Houston makes long-term real estate loans on farm and ranch land and rural residences throughout Texas and now has more than 775 million dollars in volume of loans outstanding. The local association makes and services loans in Cochran, Hockley, Terry and Yoakum counties. Officers and directors of the association are L.F. Schoenrock, President; Leon Lawson, Vice President; J.F. Steele, all of Levelland; Hugh Hansen of Morton and G.L. Sims of Brownfield.

AND MRS. JOE B. GIPSON will celebrate their 50th wedding anniversary Sunday, with a reception in the County Activity building from 2 until 5 p.m. Hosting the event will be their children, Lt. Col. Joe B. Gipson of Fort Knox, Ky., and Mrs. K.I. Gipson of Houston. Gipson and the former Lena Block were married September 3, 1923 in Sherman. They lived in Gunter and before moving to Morton in 1933. Following graduation, friends and relatives enjoyed a dinner in a Lubbock restaurant. Attending were Mr. and Mrs. Gray, Mr. and Mrs. Earl Polvando, Robin, Melanie and April, Mr. and Mrs. Bill Gray, Little Bill and Mindy of Midland, Miss Gloria Gray and Mr. and Mrs. Ira Hudson of Lubbock, Miss Marie Wilcox, Miss Judy Steed and David McClung.

Accent on Health

There is something new under the sun—flame resistant fabrics in the sleepwear of small children and in mattress pads and mattresses.

Children's sleepwear garments through size 6x must pass the test for flammability if manufactured after July 29. Some mattresses and mattress pads currently being manufactured meet the required standard. All such items manufactured after June 21 of this year must either meet the standard or be prominently labeled (with a 40 square inch label) to show that they do not pass the flammability test. This labeling provision is available for a period of not more than six months and is designed to permit plants to complete arrangements for testing facilities.

Arriving at garment standards, as well

Airman Ricky Don Williams, son of Mr. and Mrs. Jim Young of Morton, has completed basic training in the Air Force at Sheppard Air Force Base, Wichita Falls and has reported to Lowery Air Force Base at Denver, Colorado.

Williams was selected by the Air Force to attend the weapons maintenance course. His address while at Lowery is Box G2458, 3443 Student Squadron, ATC, Lowery AFB, Denver, Colorado.

as procedures for testing various materials has been a long struggle, one which has taken the cooperation and efforts of fabric manufacturers, clothing manufacturers and government agencies. Rules and testing procedures to cover all types of fabrics going into children's sleepwear were tried over and over again to produce the most effective ones.

Industry and the government have been aware of deaths and injuries caused by fabric ignition, and new regulations, in effect, are preventive medicine for those most likely to be the victims of burns.

The sleepwear standards are included in the Texas Hazardous Substances Law. In Texas the State Health Department's Bedding and Product Safety Division is charged with enforcement of charged with enforcement of flammability standards.

The annual toll of fabric ignition fires in this country, says the Department of Health, Education and Welfare is between 3,000 and 5,000 deaths, along 150,000 to 250,000 injuries. Directly-related financial losses exceed a quarter-billion dollars.

Incident after incident in Texas pointed to the need for flame resistant fabrics—not only in clothing for children but for adults and the elderly. In clothing, it is the quick-ignition fabric which causes the greatest human loss. Usually you'll find this soft, highly flammable material in children's clothing as well as in nightgowns and robes worn by adults.

Tests have shown that flimsy, night apparel burns faster, for instance, than the body-fitting knit garments when worn. Thus, the sleepwear may become more of a torch than regular clothing when ignited. And, in many cases, trim on the garments led to quicker ignition than similar garments tested on a mannequin or a clothes hanger, which varies in the amount of oxygen circulating freely around the fabric.

Now that manufacturers must produce flame resistant garments in smaller sleepwear, what comes next? "Larger sizes in sleepwear," says Harold R. Ray, director of the Health Department's Bedding and Product Safety Division. A year from now, he says sleepwear in sizes 7 through 14 must be of flame resistant fabric when manufactured. The federal Consumer Product Safety Commission sets compliance dates for manufacturers.

Ray says some of the clothing on the market now will be carry-over items which aren't flame resistant. "These may take a few months to cycle out, but they will have a label stating they don't comply if manufactured in the past 12 months," said Ray.

Highlights and sidelights from the State Capital

Rewriting the nearly-century old Texas constitution is turning out to be stickier job than many figured.

The Constitutional Revision Commission went into overtime at a recent three-day meeting near Austin, but still failed to complete its agenda and slated another August 10-11 cleanup meeting.

Meanwhile, legislative planners for the 1974 Constitutional Convention, at which lawmakers will actually propose a revised constitution, disagreed on routine stage-setting.

House members suggested a new voting machine (which was later ordered) and new desks for delegates. Senate planning committee spokesmen indicated they would be satisfied to bring their own desks over from across the capitol rotunda and set them up in the House middle aisle.

The revision panel agreed:

—To keep the provision for real property taxation in the constitution for state purposes, but leave it to the legislature to write separate laws governing personal property taxation.

—To retain the state highway users

gasoline tax, with three-fourths of the revenue earmarked for highway building and one-fourth for public schools. A provision was made for abolishing the highway fund levy on statewide referendum with support of two-thirds of the legislature.

—To keep the Permanent University Fund and Permanent School funds in the constitution. The university fund would be altered somewhat to include present and future branches of the University of Texas and Texas A&M University.

—To add to the constitution a guarantee of "equitable" financial support for all schools and districts rich and poor.

—To retain as constitutional elected members of the executive branch only the governor, lieutenant governor and attorney general, with the legislature empowered to decide if the comptroller, treasurer, secretary of state, land commissioner and railroad commission should be elected or appointed by the governor.

"HOUSES" CLOSED—Two land-busy houses — in La Grange and — were closed by local officials at request of state officials.

Gov. Dolph Briscoe, Atty. Gen. John and Department of Public Safety Director Wilson E. Speir sought action reports aired by a Houston television station.

Briscoe acknowledged he had received calls from La Grange area citizens supporting and opposing the action. He had been told he would be petitioned by a group who want the "Chicken Ranch" reopened.

Hill and Speir said they found no with organized crime in operation of houses, but Attorney General Hill said "It is an illegal operation. The officials were requested to take action. They took it."

RATE RAISE EXPECTED—Increase in some working compensation insurance rates is those injured or killed in job accidents.

An average 19.5 per cent hike in rates employers must pay for coverage is anticipated under a Insurance Board staff proposal, which would become effective if approved between September 1 and September 30.

Rates would have gone up 22.8 per cent in the absence of the federal anti-inflation program, a Board document indicated.

Under new law effective September 1, injured workers can get up to a maximum of \$63 a week in benefits, an increase from the present \$49 top.

Proof of age required for Texas first grader

When the month of August rolls around, thousands of Texas mothers suddenly realize that only a few more weeks remain until school begins. Parents with youngsters beginning school for the first time this September, and many mothers whose children are going off to school may be a bit bewildered by it all.

In addition to the million-and-one things that must be performed in getting a youngster ready for school—new clothes, health examination—school districts require proof of age beginning students. A certified copy of birth certificate is usually requested, says the Texas State Department of Health.

This fall there will be 221,000 new first graders in the schools throughout Texas, and the total public school enrollment is expected to reach 2,805,300. Continued growth of the school population is expected for the next two to three years, according to the Texas Education Agency. In addition, there will be 78,700 children enrolled in public school kindergartens.

Anticipating the rush of birth certificate requests, the Records and Statistics Section of the Texas State Department of Health has been prepared. Requests already are pouring in. It takes a sizeable staff just to open the thousands of letters received daily, let alone search out a requested certificate, make a certified copy, mail it out and then return the original certificate to its proper owner.

Years of experience have eliminated every bottleneck. The operation is both quick and fast. Usually the copy is made within 3 or 4 days after the request is received.

Our bottleneck still remaining, however, is the individual who makes the request. Parents are requested to stop now and write for a certified copy of the birth certificate, or have either the city registrar where the child was born or the county clerk in charge of birth.

In most cases it is an easy matter to strip to your county courthouse or registrar and personally request a certified copy of a birth certificate. The city clerk's office has birth records on file, as well as countless other documents.

If you write the Texas State Department of Health, Bureau of Vital Statistics, the address is 410 East Fifth Street, Austin, Texas 78701. Be sure to include the child's name, his place of birth, the date of birth, and names of the parents—including the mother's maiden name. The health department fee for a

certified copy of the birth certificate is \$2.

Filing of birth certificates is just one function of the Records and Statistics Section of the State Health Department. Records also are kept of deaths, diseases and other public health information.

There are more than 13 million birth certificates on file in the state office, and the tabulation of birth certificates is a never-ending process. Last year, for example, there were just under 222,000 live births recorded in Texas.

Largest number of live births for Texas in one year was recorded in 1957. That year 249,567 babies were born alive in Texas, and their births are recorded in the Records and Statistics Section.

Just maintaining records of current births and deaths is a mammoth task. In order to do this, the statewide system includes 1,000 local registration officials

who collect these records. All of these must be carefully indexed to expedite the hundreds of thousands of searches that must be made each year to process applications for birth verifications and certification.

This sounds complicated, and it is. But to a person who needs a birth certificate for a passport or to prove the age of a child entering school, it is a vital service.

Not only are these records helpful to you and necessary for legal proof in many instances, but they furnish—as a group—information of great value to the state. To best use this wealth of statistics, data is transferred from records to magnetic tapes and a computer converts these into tabulations. From these charts and reports come information enabling staff statisticians to read and interpret the very pulse of the state's health.

Snyder College offers golf management course

Golf courses being built at the rate of about 1,000 per year in the United States create a tremendous demand for qualified managers. Realizing this need, Western Texas College at Snyder, has developed an innovative program in Golf and Grounds Operations to start in the fall, 1973.

A nine-hole golf course is planned with greens and fairways surrounding a beautiful 12-acre lake on the 160-acre of the two-year-old campus.

The beautifully landscaped golf course, chipping greens, driving range, and putting greens will be used in conjunction with the college's own greenhouse as laboratories for the numerous courses offered in the curriculum of the Golf and Grounds Operations program.

There are very few programs of this nature in the nation, and WTC is the first in the state of Texas with a course in Golf and Grounds Operations. The two-year program in turf management is arranged and taught in such a manner that a student who has completed the work will receive an Associate in Applied Science degree and will be well qualified to accept a position as an assistant, or in many cases as a superintendent of establishments, golf courses, or to

establish a turf business in his community.

The student will study the principles of plant growth; nature and properties of soils and fertilizers; pest control; design, operation and maintenance of modern irrigation systems; and landscape design. Practical experience will be gained by the student in the use of major lines of equipment, welding, concrete work, carpentry and swimming pool maintenance. Under the supervision of a qualified employer and the instructor, the student will be employed in actual field training during the summer months.

Qualified people are being interviewed to be employed as an instructor in this program. The person must have an agricultural background, with a bachelor's or master's degree and experience in turf or related management.

Prospective students desiring more information about the turf program or qualified persons desiring to apply for this teaching position at Western Texas College should write or call: Gene Robertson, Dean, Occupational Education and Technology, Western Texas College, Snyder, TX 79549; 915/573-8511 Ext. 220.

Couple weds in California

Darlene Ann Harris of Phoenix, Arizona, and ADJ. Craig Chapman of the United States Navy were married in a double ring ceremony at 7 p.m. Aug. 4 in the Chapel of the Valley in Spring Valley, California.

The bride wore a white satin floor length gown and carried a bouquet of yellow baby roses. Mrs. Eddie Bowers of Phoenix, Arizona, sister of the bride was her only attendant.

The bride is the daughter of Mrs. Ann Harris of Phoenix, Arizona and the groom's mother is Mrs. George Gushwa of Dona, N.M. the former Mrs. Zane Smith of Maple.

'Cotton' sewing contest slated

The Last Frontier Cotton Council met Thursday, August 9, at the Tic Toc Restaurant to finalize plans for the annual "Sew It With Cotton" contest to be held October 1 and 2 in the Cochran County Activities Building.

Mrs. Glenn Price, president, announced that the same district rules used last year would apply for the contest. Seamstresses must be at least nine years of age and all garments must be made of 100 percent cotton, either domestic or imported. Additional rules and requirements may be obtained from members of the council.

It was announced that Noel Crow won the 8 track tape player given away during the Country Fair.

All women in Cochran County who are interested in cotton and its promotion are urged to join the Last Frontier Cotton Council. Applications may be obtained from any member of the council.

Club elects officers

Members of the Mary Kay Club met August 13 in the Board Room of the First State Bank Building for an election of officers.

Mrs. Marie Pruitt was named program chairman and Patricia Bell was elected secretary-treasurer. Others serving are Mrs. Dorothy Nichols, Sarah Gross and Inez Swicegood, hospitality and social; Ana Jackson, bumper sticker and name tag chairman; Dorothy Nichols, reporter; Carmen Arnold, sunshine and think positive chairman; Wilma McDonnell, reports chairman; song leader, Sarah Gross and dove tail chairman, Marie Pruitt.

Mrs. Clara Williams presented the program on recruiting. Sarah Gross won the door prize drawing and Mrs. Williams was named for high sales.

SCHOOL
FROM PAGE ONE

Morton will observe the Thanksgiving holidays on November 22 and 23 and will miss December 21 for the Christmas break with classes convening January 2, 1974. Whiteface schools will miss from December 23 through January 1 for Christmas. Three Way will miss December 24 through January 1. Bledsoe will observe December 21 to

January 2 Christmas holidays. Bula dates are unknown. Spring break dates for four of the schools include April 5-15 at Bledsoe; 15-19 April at Three Way; March 19-22 at Whiteface and April 15-19 at Morton. Baccalaureate services for Morton High School seniors will be May 19 and Commencement exercises on May 21. There will be 180 teaching days in the school year and 190 working days for teachers,

which includes their in-service training. This is in accordance with legislation passed requiring a ten month school year that first went into effect two years ago. Including elementary, junior high, high school, junior college and university students, the teachers will be greeting more than 2,000 students from the local area who will be reporting for the 1971-72 school year classes.

Following a new semester schedule inaugurated last year, Whiteface and Bula High Schools, South Plains College, Lubbock Christian College and Texas Tech University will complete the first semester prior to the Christmas holidays. The other area schools will still have several days remaining on the semester after returning from the holidays. Cochran county students

will again help to swell the enrollment of South Plains College where they were the third largest contingent of students last year, trailing in numbers only Lubbock and Levelland. A large percentage of the Morton High School graduating class has declared intentions of enrolling there and several have indicated they will attend Texas Tech.

Daytime Fishing Facts
It's only natural that fish spend most of their time in sheltered areas—places where small fish can hide and where large fish can forage for food. But there's another reason—COMFORT—The fish's comfort. For the same reason that you seek shade, even more so does the fish. You have ways to protect yourself from the sun's rays—the dish doesn't. You can wear a hat or close your eyes. A fish can do neither. He doesn't have eyelids to close. So, he does the only thing he can do—seek the shade. He heads for the brush, the lily pads, the shelter of a dock or goes down deep enough in the water to escape the intense rays of the sun.

JAPANESE BEAUTY KEIKO MIURA, a Lions Club exchange student, really enjoyed a taste of the old west last week during the 4th Annual Last Frontier Rodeo and Country Fair in Morton. She said she liked the rodeo, but she didn't understand it. She is wearing "Slap Jack" while Rodeo Clown and Bullfighter, Terry Kendall of Seminole watches. (Trib Photo)

FOR PEOPLE WHO THINK

From the Christians who assemble at Taylor and S.W. 2nd Sts.—Greetings: When Jesus said in John 14:6—"I am the way, the truth, and the life; no man cometh unto the Father, but by me."—He definitely eliminated any other way, or set of men by whatever description, by or through whom any one can come to God the Father. This very clearly teaches that NO ONE can be saved by trying to come to God any other way than THROUGH, or BY CHRIST JESUS. Jesus TOLD THE TRUTH. Hence, there is absolutely NO TRUTH in what theologians today claim when they say that there is but one true God—BUT—God has chosen others than Christ through whom God has made himself known; and hence other various "religions" originating in other places in the world, and setting up a form of faith (?) in God and obedience and worship of God. This directly contradicts the claim of Jesus that through no other than Jesus can any man come to God. Can any say today that they believe in Christ and yet CONTRADICT Christ's own words? Certainly not. Neither can one truthfully claim that he believes on the one true God while denying the words of the Son of God.

One who, as we have before learned, has been "called-out" of the world and INTO Christ becomes one more Christian among all that have so responded to the gospel of Christ. These make up the whole of the church (called-out) people. There are no others. All these have come to God through Christ. Hence, it is wrong to say that people can come to God THROUGH the Church. All who have truly come to God through Jesus the Christ become what we call the "church"—but they do not become that THROUGH WHICH people can come to God. To claim that the "church" occupies such a place is to claim something for which there is not one iota of authority in the word of God.

The word "iniquity" in the New Testament embraces ALL things which are without authority—lawless—lawlessness—without law. Many things may, and do, seem really right to man—but if practiced as a part of God's will and there is no authority for them in the word of God—it is a work of INIQUITY. Jesus said all such "workers of iniquity" shall be rejected in the final judgement—read Matthew 7:21-23. More later.

Remember—you are sincerely invited to be present at the assemblies at Taylor and S.W. 2nd Sts.

C. R. MANSFIELD, Evangelist,

FAIR
FROM PAGE ONE

Gallo'Neil are co-chairmen of the project and have already begun plans for a large fair with features and events to please everyone. The annual fall merchandise fair held here the past two years will be combined with the fair to broaden the base of participation.

The fair is expected to include the showing of livestock, a large number of 1974 model automobiles--with some outside dealers bringing in makes and models not offered here from out of the county--cooking, sewing, baking and canning contests and all the other features that go to make up a county fair.

The discussion held on the frontier rodeo and country fair was participated in by a large number of those who volunteered their efforts and made it a success. It was decided to divorce the fair

from the rodeo and re-shape the celebration along the lines of a frontier days observance. This was in keeping with the date being too early for a fair.

Those events that did poorly this year have been pared from the list and others that were successful with receive additional emphasis. Some events that could be useful but that were not schedule this year were added to the agenda for next year.

Overall, the rodeo and country fair were considered a solid success.

custody Tuesday in lieu of \$500 bond.

Joe Lemons, 56, of Portales, New Mexico, was charged in county court Saturday with driving while intoxicated and driving with a suspended drivers license. He was free on bond of \$500 and the DWI charge and \$100 bond on the drivers license charge.

Jerry Thomas was picked up by sheriff's deputies Tuesday and was being held on a warrant for Levelland authorities on a charge of check law violation. His bond was set at \$500.

Mrs. Rosa Flores, who is listed on sheriff's records also as Rosa Quintanilla and Rosa Martinez, 33, was still in custody Tuesday on a charge of theft of over \$50. Her bond of \$750 had not been posted at that time.

Mrs. Flores is wanted for questioning in three states in connection with a theft ring that has been operating with the use of children who do the stealing while the grownups distract the attention of those whose business is being robbed. She was arrested August 9 following a series of thefts in Whiteface, Levelland and Littlefield.

There was a sign of the times reflected in the loot taken when Waynes Grocery and Market of Bledsoe was broken into Sunday night or Monday morning. The intruders smashed the front door glass to make entry and headed right for the meat counter. Items taken included:

Three fryers, 15 pounds of bacon, 65 cartons of assorted cigarettes, two mirrors, 1 box of cigars, 8 flashlight batteries, 1 carton pipe tobacco, 23 butane cigarette lighters, 4 transistor radios and 8 pocket knives.

The sheriff reported no suspects in custody but stated that he was able to lift good finger prints to help in the investigation.

Further signs of the times was a break-in of the Whiteface Variety Store Sunday night or Monday morning in which the total take was 20 pennies. Jimmie marks indicate that the thief or thieves first tried to break into the grocery store and when frustrated in that effort, took the variety store as second choice, sheriff's deputies reasoned.

Property valued at well over \$1,000 was taken during a break-in at the Red Barn Fertilizer and Chemical Company Sunday night or Monday morning.

Leonard Groves reported to police Monday morning that thieves had entered by breaking a padlock on the front door and took 9 five gallon cans of Treflan and two cases of Caporal (96 lbs). The treflan is valued at \$105 per five gallons and the Caporal is valued at \$2.45 per pound.

Police investigator Chester Miller stated that there were indications that the materials
