Tribe off to shaky start

Picked for District 3AA championship

The Morton Indian basketball squad, highly touted by both the Avalanche-Journal and Panhandle Plains Basketball magazine as strong state AA contenders, took it on the chin Tuesday night to the tune of a 47-68 clobbering.

If clobbering it was, it was administered by experts, and the Tribe has nothing to be ashamed of by their showing. A uniformly lanky squad from Floyd, New Mexico firmly demonstrated the advantages of many extra practice sessions and four additional rounds of competition to the Tribesmen, who have not yet had time to change from football to basketball legs in their one short week of practice.

The Indians got off to a slow start and found their excellerator stuck as they trailed at the end of every period of play. They trailed by 12-17 at the one quarter mark,

Tax meeting

The Cochran County Extension Service invites all interested persons to attend an Income Tax Meeting to be held Tuesday, December 4, 1973 at 7 p.m. in the County Auditorium in Morton.

Marvin Sartin, Area Economist-Management with the Texas Agricultural Extension Service, Lubbock, will present the program. The meeting is open to all.

Harvest passes 1/2 million bales

The South Plains cotton harvest passed the 500,000

bale mark during the past week and is nearing peak activity,

according to Paul R. Dickson, in charge of the U.S.D.A. Cotton Classing Office in Lubbock.

Sample receipts at the four South Plains Classing offices have reached a seasonal high of approximately 40,000 daily.

The U.S.D.A. Cotton Classing Offices at Lubbock, Brownfield, Lamesa and Levelland classed samples from 214,000 bales during the week ending Friday, November 23rd. This brought the total classed this season to 572,000.

Estimates indicate that approximately one-third of this season's crop is now out of the fields.

At this date last year only 126,000 samples of the 1972 crop had been classed.

Quality of cotton continued excellent and is considerably higher than last year.

Grades 31 and 41 continued to be the predominant grades at Lubbock, making up 78 percent of all classed. Grade 31 made up 30 percent, Grade 41, 48 percent and Grade 32, 10 percent.

Staples were predominantly 30 to 32. Fifty-six percent had staple lengths of 30 and shorter and the remaining 44 percent stapled 31 and longer. Average staple length was 30.6-32nds of an inch.

HIGH WINDS of unknown force were blamed for an 80 foot drilling rig toppling Monday, seven miles west of Whiteface. Workmen on a rig belonging to Cherokee Drilling Company of Oklahoma were going back into the hole when

the derrick began to whip. The day crew managed to escape injury except for Ronnie Durrant who received a broken nose. The rig platform was reported broken in three places. (Photo by Joyce Wrinkle)

ROUNDBALL TIME AGAIN--and the war of the fighting Indians is heard throughout and Larry Thompson is shown snagging a rebound above with some determined determination from S. Washburn, No. 11, of Floyd, Mexico as their two teams fought it out on

the local court Tuesday night. Morton dropped this one by a score of 47-68 to bring their record in the young season to 1-1. The Indians eaked out a one point win over Dora on their floor Monday night.

School audit, tax roll OK'ed

Approval of the 1973 school tax roll and approval of the 1972-73 school year were the main orders of business at the regular November meeting of the MISD Board of Education last night.

The school tax roll presented for approval of the assessor-collector J. Hodge has an assessed value of \$17,508,259 and a levy of \$359,079.02. Approved by trustee Don Lynskey and seconded by Trustee Reba Payne and Carol Hodge presented the audit for the 1972-73 school year. The board gained the various questions by board members.

Following the presentation, motion for approval by the board and seconded by Ben Kuehler, carried. Other business, the board approved the appointment of the 1973-74 book committee consisting of the following members: Superintendent Bob Rose, Sherry King, Carolyn Owen, Dennis Owen, Ruth

Whitecotton, John Coffman, Leslie Dendy, Earl Clardy Dale Kirk and John Stockdale.

Approved the ordering of an additional 48 passenger school bus.

In keeping with the President's request to take all measures possible to conserve energy, the school board requested, through Superintendent Travis, that all

ASCS to help allocate fuel

The Agricultural Stabilization and Conservation Service (ASCS) and the Texas Railroad Commission have joined hands in an effort to increase efficiency in the handling of the mandatory allocation of middle distillate fuels, reports John Hall of the Cochran County ASCS office.

An agreement between the state and federal agencies should speed up the program.

Beginning immediately, ASCS County Office personnel will verify fuel needs for hardship cases on Form OOG-PAP-20 for all applications prior to their submission to the State Allocation Officer (Texas Railroad Commission.)

Previously, it was planned that needed verification would be obtained after the form was submitted to the Austin office. Form OOG-PAP-20 is to be used by wholesale purchasers to request emergency allocations for immediate use. The form has been supplied to ASCS County Offices throughout the State and was made available to County Clerks' offices.

Also available is Form OOG-PAP-17 which is for the use of purchasers of middle

Annuals

Morton students are reminded that Friday, November 30, is the last day they may purchase the school annual.

Price of the book is \$1.75.

The annual may be ordered by contacting any one of the annual staff members or its sponsor, Mrs. Masten.

Time is short-order now, the staff members urged.

Silhan was the main attraction for the Tribe, dunking 13 times, with Larry Thompson and Billy Joyce and Fluit with 8 each, and Standmire with 4 and Smith and Ralph Mason with 3 each.

James and L. Cooper tied for the most points with 19 points each for the invaders.

Fluit and Standmire both made their exit from the contest via the five-mile route with Silhan and Joyce, and three each. Mason went out without fouling.

Next competition on tap for the Tribe will be at the Invitational tournament slated for Friday and Saturday. They will be competing as defending champions and are generally expected to repeat this year.

Scout troops, individual and all interested persons are urged to enter the parade and to bring in friends. Entries may be made by contacting the Chamber office at 266-5200.

Parade Marshal Don Hodge announced that the parade will form up on East Grant in the vicinity of the hospital and all entries are urged to be present by 3:30 p.m.

Santa Claus will make his traditional visit to Morton and will bring up the rear of the parade riding on a city fire truck and dispensing candy and goodies with both hands throughout the parade route.

"Several entries have already been received and it looks like this may be one of our best parades ever," Hodge states as he urged more and more persons to participate.

within the United States (except Alaska and Hawaii) should now be posted no later than December 15, rather than December 21.

"The seriousness of the fuel shortage to the Postal Service is underlined," Mr. Klassen said, "by the fact that in addition to the fuel consumed by commercial air carriers, we require approximately 350 million gallons of fuel traveling 2.25 billion miles to deliver the 90 billion pieces of mail that flow through the system each year."

Mr. Klassen said that "public cooperation" on meeting these new advanced mail early dates is needed to help us complete all Christmas deliveries.

"Although roughly half of our Christmas mail remains

within a 150-mile radius of senders, the Christmas season is a time of particularly large volumes of long-distance mail.

"Except for surface parcels and other bulk materials, much of this long distance mail travels by air."

"So far, reductions in airline flights have not interfered with our ability to meet service standards since alternate flights have been available," he said. "But further reductions, particularly coming as they may during the Christmas season, give us cause for concern."

The Postmaster General has also requested that long-haul operators under contract to the Postal Service observe the 50-mile-an-hour speed limit asked by President Richard M. Nixon. To enable them to do this and still meet contract requirements, the Postal Service is re-evaluating its long-haul truck operations to make the necessary schedule changes. The Postal Service clamped an

energy-saving 50 m.p.h. limit on its own vehicles last May.

"The effect of the 50-mile-an-hour speed limit will be most noticeable in the West, where typically you find long distances separating communities," Mr. Klassen said.

The Postmaster General emphasized that the Postal Service has anticipated the nation's energy crisis, noting a continuing decline over the past years in the Service's energy use while mail volumes were simultaneously increasing.

"Over the past five years, we reduced our energy use by an average of 4.4 per cent per year and over the last three years, our average per annum decrease has been six percent," Mr. Klassen said.

uninjured about 2:30 p.m. Saturday when the landing gear failed to lock on the craft during a forced landing on State highway 214 in Cochran County.

Pilot William Neil Renfrow, 44, his wife and daughter, all of 3306 58th St., Lubbock, and a guest were aboard when undetermined mechanical trouble with the airplane forced Renfrow to attempt the landing on the highway, near Townsend Gin, about 3.8 miles south of Lehman.

The gear failed to lock, and the plane skidded on its nose, Texas Highway Patrol officer T.A. Rowland of Morton reported. The plane was a 1970 Cardinal RG.

Renfrow said there was only minor damage to the airplane. Numerous farmers pulling cotton trailers stopped to check the incident, he indicated.

Micronaire readings continued excellent. Eighty-

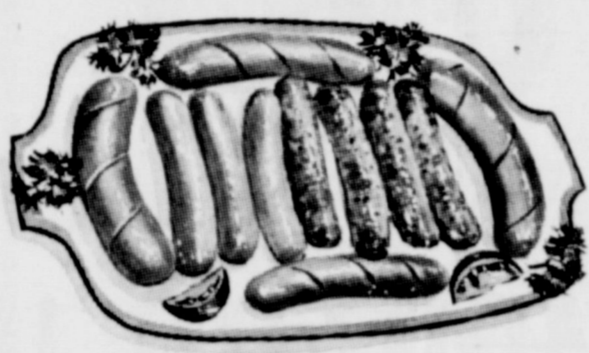

six percent of all cotton tested at Lubbock had micronaire readings in the premium range of 3.5 to 4.9, 8 percent was in the high micronaire range of 5.0 to 5.2 and 2 percent was in the very high range of 5.3 and above.

The Agricultural Marketing Service of the U.S.D.A. reported increased trading on the Lubbock market. Prices were steady from the previous week and averaged 34 cents per pound over the loan. Most lots were selling in the price range of 50 to 60 cents per pound.

Average prices paid for the most predominant qualities in the 3.5 to 4.9 premium micronaire range were: Grade 31, Staple 30 - 49.65 cents per pound, Grade 31, Staple 31 - 53.40, Grade 31, Staple 32 - 57.40, Grade 41, Staple 30 - 48.70, Grade 41, Staple 31 - 52.25, and Grade 41, Staple 32 - 55.95.

Cottonseed prices were steady and farmers received \$96 to \$110 per ton. Average price was \$101.50 per ton.

Daily nose drops should be avoided. If the oil is inhaled into the lungs while sniffing, it can form a "pocket" in the lung tissue. There is no way for the lung to rid itself of the oily coating and so degeneration of the area sets in. Surgery may finally be the only remedy. Cattle on Feed Up Again...Crop Production Up Again...Wheat Pasture Report...Milk Production Down Again.

Texas had 2,359,000 head of cattle and calves on feed as of Nov. 1, which is 4 per cent above a year ago and two per cent above a month ago. Texas continues to be the number one cattle feeding state in the nation.

Texas farmers continue to set new records this year.

Production of most major crops in Texas this year is running above last year, and records or near records are being set in yield.

Production will be up this year for cotton, corn, grain sorghum, peanuts and soybeans. Only rice and milk and pecan production is on the downside.

Cotton production in Texas this year is estimated at the highest since 1949. The projected total is 4,800,000 bales, an increase of 554,000 bales over last year.

Grain sorghum production in Texas will be more than 100,000,000 bushels above the 1972 production. Grain sorghum is now projected in Texas at a record 421,600,000 bushels. Yield, too, will achieve a new record.

Soybean production is more than twice the total of 1972. Production of that crop this year is expected to be 5,460,000

bushels. Corn production is now estimated at 60,800,000 bushels with a per acre yield of 95 bushels.

WHEAT pasture throughout the state is showing progress. Seeding of wheat is complete in most areas. About a third of the 1973 wheat crop now shows sufficient growth to pasture; this compares with only four per cent a year ago. About 10 per cent of the 1973 crop is being grazed, compared to only one per cent last month.

Beehive residue has the 'taste of money'

English beekeepers are profiting from the discovery that propolis, a gummy substance used by bees to draught-proof their hives and previously thrown away as useless, is worth far more than the honey.

They are being paid \$3.65 an ounce for the residue which is being exported to Scandinavia for the treatment of respiratory infections. — CNS

Cochran countians said heavily insured

Residents of Cochran County are more heavily insured at the present time than they have ever been.

Despite the fact that they have better financial safeguards than they once had, thanks to social security and private pension plans, they have been increasing their insurance holdings, especially life insurance, in recent years.

The trend is attributed, in part, to the fact that most local families are earning more than before and are in better shape, economically, enabling them to enlarge on this type of protection.

At the same time, they have been providing for their future by putting more money aside as savings.

As a result, ownership of life insurance has reached an all-time high in Cochran County. The total amount in force is now approximately \$23 million.

The basic statistics, for the nation at large and for each of

the states, come from the Department of Commerce and from the Life Insurance Fact Book, recently released.

They show that the bulwark that Americans have set up for themselves in the form of life insurance has grown to the enormous sum of \$1,628 billion.

Of this amount some \$87,069 million is on the lives of State of Texas residents. In 1963, by way of comparison, the total was \$35,824 million.

And this is exclusive of Federal insurance, provided for veterans and others, and insurance issued by fraternal organizations.

In terms of the individual family, the extent of its coverage is almost directly proportional to its income. Families with bigger earnings have more insurance, as a rule.

On average, ownership by the average family in the state is equivalent to 25.2 months of its net, after-tax earnings, the

figures show. In Cochran County, based upon this yardstick and upon the average level of earnings locally per family, the amount of life insurance in force in the area comes to approximately \$15,900 per family.

And in the past, ordinary insurance is the type most widely held. Next in volume, and increasing most rapidly, is group insurance, which is generally job-connected.

Neighbors give Sowder family early Christmas

Christmas came a little early this year to the Mickey Sowder family. Eighteen cotton strippers moved in on their farm last Saturday in the early morning hours and by late afternoon of the following day, 400 acres of cotton had been harvested and hauled to near-by gins.

Sowder, who has farmed three miles south of Stegal for approximately 12 years, underwent back surgery at University Hospital in Lubbock September 7. He was hospitalized two weeks and confined at his home for a month.

Close friends and neighbors knew that he would be unable to harvest his crop

and came up with the idea that by all getting together, they could do his harvesting in short order.

Two gins, Nichols Gin and Goodland and Buck Ragsdale Gin in Stegall, stopped all other ginning to gin Sowder's cotton.

Wives of the farmers cooked and served hot lunches.

Mickey, his wife Ann, and their four children, Robby, Shannon, Matt and Jarod gave a special thanks Thanksgiving day for their good friends with the helping hands.

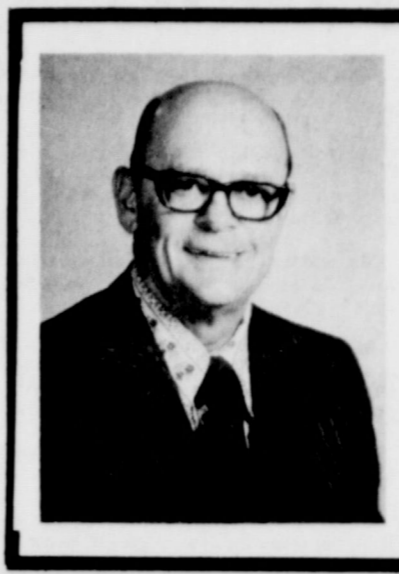

Farmers helping in the harvesting were: Frank Stegall, Jack Hodnett, Wayland Altman, Homer Richardson, Don Lowe, Jack Furgerson, Jack Baker, John Sowder, Bill Dupler, Pete Tarleton, Louis Henderson, M.L. Fine, Doug Owen, Cass Stegall, Wesley Warren, Corky Long, C.B. Hightower, Dolly Ann, Dovie Davis, Carl Pollard, R.H. Baker, Burlie Lee Roberts, Freddie Parkman, Nelson Carlisle, Glenn Lowe, Billy Simpson, Jake Burkett, Gib Dupler, Jack Reeves and Ruel Kirby.

Three Way News

By Mrs. H.W. Garvin

We wish to express our sympathy to Mrs. H.C. Toombs on the death of her sister who died in California Monday.

Rev. and Mrs. James Gillentine from Lubbock spent Thanksgiving with their parents the H.W. Garvins.

Danny Wheeler from Comanche spent Thursday night with his grandparents the Johnnie Wheelers.

Mr. and Mrs. James Fowler and son and Ray and Kim Fowler all from Lubbock and Mr. and Mrs. Jack Reeves and family from Maple spent Thanksgiving with the D.S. Fowlers.

Mr. and Mrs. Roland Nitcher and children and Kathy Wittner all of Lubbock and Mr. and Mrs. Larry Flowers of Muleshoe spent the holiday with the Adolph Wittners.

Mr. and Mrs. Leslie Fines of Midland visited with their parents, the M.L. Fines last week.

Jimmy Gillentine spent Wednesday until Saturday helping his grandparents pull cotton. He is a senior at Cooper High School and works in Lubbock.

Mr. and Mrs. Tommy Dupler of Corpus Christi and Mr. and Mrs. Larry Dupler from Hobbs, N.M. spent the weekend with the Leon Duplers.

Mr. and Mrs. Jim Green and son from Jai, N.M. visited Thanksgiving with the Jack Furgesons.

Mr. and Mrs. Andy Vinson from Clovis and Lanita Powell and Beadie Powell from Maple had Thanksgiving dinner with the Dutch Powells.

Mrs. Bulah Toombs spent the weekend visiting relatives in Austin.

Mr. and Mrs. George were in Littlefield Saturday night to attend a musical at the Bill Owens home. The Three Way Baptist youth presented a musical, The Natural High, at the First Baptist Church, Sunday night.

Farmers in the community are busy gathering cotton and the gins are very crowded.

Cotton is the leading raw material of the textile and apparel industry.

"Thou wilt show me the path of life, in thy presence is fulness of joy..."
HERE IS THE PATH
PSALM 16:11

Thou
shall love the Lord thy God with all thy heart, and with all thy soul, and with all thy strength, and with all thy mind, and thy neighbor as thyself.
Luke 10:27

The basis of God's first and greatest commandment is love. God gave man the freedom to choose... and therefore will not force his love on anyone. God took the first step and is always ready to receive any who would come to Him.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long preserve and the freedom which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny, the truth which alone will set him free to live as a child of God.

Dr. Stanchfield visits Monday in Morton school

Dr. Jo Stanchfield, Professor at Occidental College, California, was a visitor to the Morton Schools on Monday. Besides teaching, she is an author, speaker and nationally recognized authority on reading.

Two classes in the Morton Elementary School, a fourth grade taught by Debbie Hayes and a fifth grade taught by Martha Choat, are serving as pilot programs in the use of the "Highway Holiday" reading series written by Dr. Stanchfield and published by Bowmar.

Wanda Sanders, reading teacher in Junior High School is also conducting a pilot program using the Action Series, A Reading Breakthrough Program, Co-authored by Dr. Stanchfield and published by Houghton Mifflin. Dr. Stanchfield was most complimentary of the work that is being done in all of these classes and offered suggestions for further improvement.

Teachers and Supervisors of the project met with Dr. Stanchfield each month in Levelland last spring and

received instruction in teaching reading and other literacy skills and methods of utilizing picture files and games to stimulate interest. Final instruction was given in a course offered through Texas Tech the second semester last summer. Besides the three teachers, others from the Morton School enrolled in the course were Vanice Lovett and Dorothy Rose.

Dr. Stanchfield was accompanied by Dr. Max Manley of Texas Tech and Kenneth May, Director of Plan A, for this area. They serve as project directors for the pilot program.

Taiwan visitors come mainly on business

Eight out of ten foreign visitors to Taiwan come for business purposes. In the first nine months of 1973, 12,340 foreign visitors came purely for business purposes, another 391,404 came for both business and pleasure.

Altogether they constituted 87 per cent of foreign visitors which numbered 500,037 in that period, compared with 1972 when they comprised 85.6 per cent.

DR. JO STANCHFIELD, nationally recognized authority on reading, visited in the Morton schools Monday. Pictured with her (seated left to right) are Martha Choat, and Debbie Hayes (Standing) Harold Drennan, Dr. Max Manley and Dorothy Rose.

FOR PEOPLE WHO THINK

From the Christians who assemble at Taylor and S. 2nd. Sts. - Greetings:

We have learned (in the previous article) that man's thinking is NOT the same as God's thinking, and men's ways are NOT the ways of God - read again Isaiah 55:8,9. In the New Testament we are told HOW TO USE the Old Testament. In 1 Cor. 10:11 The Holy Spirit through Paul informs us that the things that happened before Christ were types or examples and that God had them written down for the admonition of us who are living under the law of the gospel. Romans 15:4 said that such was for our learning.....

Now - using the Old Testament as God said use it - let us turn to Numbers chapter twenty. Read and get acquainted with verses 1 through 12 - and THINK. Moses was told WHAT to do and where. Moses DID as God directed at first. Since FAITH cometh by hearing and hearing by the word of God Moses did act BY FAITH thus far. BUT - God not only told him to take the rod and gather the assembly - along with Aaron his brother - God also told Moses to "speak ye unto the rock before their eyes...." Moses spoke TO THE PEOPLE. God had said he was TO SPEAK TO THE ROCK. Moses had NO AUTHORITY from God to speak to the people - therefore Moses did NOT do this BY FAITH as faith cometh by hearing the word of God - Romans 10:17. The Holy Spirit through Paul very definitely states that "....whatsoever is not of faith is sin." Also - Moses "....lifted up his hand, and with his rod he smote the rock twice:...." Now - God had NOT said one word about smiting the rock in this instance. Therefore it was impossible for Moses to do this BY FAITH! Hence, in two instances Moses sinned during this action.

God punished Moses and Aaron by denying them and refusing to allow them to lead the Israelites into the promised land - Canaan. WHY? God said it was "....because ye believed me not...." Hence - IN GOD'S SIGHT - when we do contrary to what God has definitely said - we SIN. When we "go beyond" what God has said in the gospel of His Son - and do not, therefore "ABIDE IN" the doctrine (teaching) of Christ we, too, SIN. Christians are supposed to be on their way to eternal life with God in heaven. The same unbelief that Moses showed that kept him out of Canaan shall also keep us out of heaven unless we refuse to do as Moses did. Most about this faith is to follow.

IN KEEPING WITH THE THANKSGIVING season and their study of Indians and Pilgrims, Mrs. Hamilton's 3rd grade class at Morton Schools presented a short play "Dreams on Thanksgiving Eve" Wednesday, November 21. Following the play, mothers of the class served a typical Thanksgiving lunch.

FTA goes to Lubbock

Fifty members of Morton's Future Teachers of America took a field trip to Lubbock Tuesday, November 20. Mrs. Helen Crone and Mrs. Jeanette Young, sponsors, accompanied the students.

First stop on the schedule was the Tech Museum where the clothing display was viewed which included styles from

different periods. The second stop was Hemphill Wells at South Plains where a fashion show was presented by Margaret Viernes. Miss Viernes explained the fall fashions including jewelry, hand bags and hats. Several of the members acted as models.

buy land?

Acquiring that farm might seem more practical with financing through the Federal Land Bank. Land is easier to pay off when costs are amortized over extra years with a long-term Land Bank Loan. Your total cost of borrowing, too, can be less. Ask us for help. We know land values; we will inspect the property. We will then try to make a loan that meets your exact needs.

Highlights and Sidelights from your State Capital

By—Bill Boykin
Texas Press Association

AUSTIN, Tex.—Gov. Dolph Briscoe released an eight-volume Texas land use study which he said will serve as a starting point for discussion of a major modern problem.

He first made clear that it does not necessarily represent his own politics.

The bulky, five-pound report was ordered by former Gov. Preston Smith in 1972 at a cost of \$99,500. A lawsuit was filed to force Briscoe to release it (the report was completed eight months ago), but the governor made clear at the time he would make it public when his office had reviewed it thoroughly.

Three alternative approaches are suggested:

—Delegation to local governments of responsibility for land resource management.

—Recognition that the state must play an active role in managing its resources, but making the role limited and well defined.

—Placing the state in the central position of regulating land use through statewide controls of all lands rather than specific areas or types of development. This alternative, conceded the report authors, would scarcely be "politically palatable," since it would put the state in position of issuing permits for land use rather than simply taking the lead in planning.

The report states federal regulations will be imposed in the land use field if states fail to assume more leadership. Designation of a statewide agency to coordinate changes in handling of land resources is termed essential.

ANTI-CRIME PROGRAM PUSHED—A \$605,416 crime prevention program aimed at reducing burglaries in six cities

by 18 per cent in a year was unveiled by Gov. Briscoe. Burglary accounts for 45 to 70 per cent of major crimes in Texas.

The program, patterned after one in England, concentrates on security rather than apprehension after a break-in.

Cities participating will be Abilene, Amarillo, Beaumont, Odessa, Waco and Corpus Christi. Midland has had a similar program for a year and a half.

Specially-trained units in the cities will analyze crime statistics, train police in prevention, make citizens aware of importance of crime prevention, provide security inspection service and implement a statewide prevention campaign.

Each local project director already has attended a four-weeks' school at the National Crime Prevention Institute in Louisville, Ky. At least five hours' in-service training in crime prevention techniques will be given all police personnel in the six cities.

OIL ALLOWABLE AT 100 PER CENT—For the 21st straight month, the Texas Railroad Commission continued oil production at 100 per cent of market demand.

Commission Chairman Jim Langdon commented that stocks of crude oil are "alarming when coupled with the fact that Middle East crude oil supply is disrupted and Texas is producing crude oil at

maximum rates without creating waste."

Langdon further accused the federal government of doing nothing to increase sources of fuel. He said allocations of all petroleum products is to be expected.

The December order will allow production of about 3,480,000 barrels a day. East Texas and Kelly Snyder fields were held at 86 per cent and the Tom O'Connor field at 70 per cent, Fort Trinidad and Louise fields at 80 per cent.

COURTS SPEAK—Conviction for murder of a 17-year-old Corpus Christi boy in the shooting of a policeman was reversed by the Court of Criminal Appeals because the prosecutor withheld evidence that would have aided the defendant.

The Court of Criminal Appeals also reversed the 99-year sentence of a Dallas man for burglary with intent to commit rape due to introduction of a bloody knife as evidence.

The State Supreme Court, in another reversal, directed a Cooke County judge to order removal of an electric coop's lines from Lindsay.

Dismissal of a suit by a group of South Texans seeking right to hunt in river beds owned by the state in Dimmitt, Uvalde and Zavala counties was upheld by the Supreme Court.

Failure to return a rent car within the rental period is insufficient to support a conviction for theft, the Court of Criminal Appeals held.

Cities Service Oil Company has been ordered by an Austin District Judge to pay \$20,000 in penalties for air pollution violations.

Freeing of \$296.5 million in impounded federal education funds by a Washington, D.C., federal district court order may bring \$19 million to Texas public education's benefit.

AND MRS. JACK POOR of Morton, N.M. have announced engagement of their daughter, Jackie Ruth, to Steve Saller, son of Mr. and Mrs. Steve Saller of Park, Calif. The wedding is planned for a December 2 p.m. in the Baptist Church in Morton. Miss Poor is the daughter of Mr. and Mrs. Baker of Morton.
