MORTON, TEXAS THURSDAY, JULY 25, 1974

FIFTEEN CENTS

'Last Frontier' caravan rolls Saturday

A GROUP OF YOUNGSTERS were lined up in the "ready" position for the start of the motorcycle race that will be held in conjunction with the Last Frontier celebration scheduled here next week. The bike races will be held at the County Park Sunday, with registration beginning at 12 noon and the races blasting off at 2 p.m. A large number of entries and a large crowd of spectators are expected for the event.

Departs east side of square at 8 a.m. sharp

The annual publicity caravan to publicize the Last Frontier Rodeo Days celebration scheduled for next week will roll out of Morton Saturday morning for an eleven-town trail ride.

The caravan will leave the southeast corner of the courthouse square at 8 a.m. sharp and hit the long trail with scheduled stops in Whiteface, Sundown, Levelland, Littlefield, Amherst, Sudan, Muleshoe, Texas and Clovis, Portales, Dora and Causey, New Mexico.

An extra added attraction to this year's caravan will be a group from the Buttons and Bows Square Dance Club who will dance in the street at every stop.

These caravans have achieved outstanding success in publicizing the Morton celebration each year and have grown in size with each passing year. All who can are urged to join in the fun and make this caravan the biggest ever.

Those wishing to participate in the caravan are asked to contact Bill Smith at Bill's Furniture and Appliance or to just show up on the square prior to the departure time of 8 a.m. Each person going is asked to bring a sack lunch as plans have been made for the caravan to stop for a picnic during the noon hour.

Cold drinks for the public will be furnished by the Chamber of Commerce.

Other events shaping up and close on the heels of the caravan, will be the motorcycle rodeo Sunday afternoon. The track at the

THE REAL THING—Yes, this old chuck wagon is the real article, all right, having spent many of its days on the range serving the purpose that chuck wagons are supposed to serve—filling the ravenous bellies of cantankerous cowpokes. It is owned by the Cochran County Sheriff's Posse and has been on loan in Muleshoe where it helped decorate the Mule Monument for the past several years. It was retrieved Tuesday for exhibit during the Last Frontier Rodeo and 50th anniversary of the county celebration here being held from July 28 through August 3.

Oil, gas profits up

Higher prices for oil and natural gas in Cochran County significant jump in price for county land owners who last year received \$5.7 million as a result of the county's share of the county's production according to a study by Continental Oil & Gas.

discovered natural gas selling intrastate for more than \$1 per thousand cubic feet, the outlook for the economy of producing communities is encouraging if prices hold up," according to Sherman Hunt, Dallas, Association president.

"Should price rollback schemes and other tax-and-control proposals now underway in Congress be successful, current economic gains will evaporate," Hunt said.

The Associations' study shows that crude oil and natural gas produced last year in Cochran County was valued at \$45.4 million, ranking the county 42nd in the state. Crude oil production of 11.4 million barrels was valued at \$43.8 million and 8.7 billion cubic feet of natural gas at \$1.6 million.

Statewide, crude oil prices for 1974 are estimated to be some 74 percent higher than 1973. This expectation has stimulated a revival of drilling in Texas, with well completions the first five months of 1974 at 4,031, a 19 percent jump over the same 1973 period.

From the county's 1973 output, the State of Texas collected \$2 million in oil production taxes and \$123,331 from natural gas.

Also adding to the dollar flow in the county last year were these factors:

Drilling activities, on which producers spent \$3.6 million in drilling 53 wells, \$913,824 of which was lost in 12 dry holes. Successful completions amounted to 27 oil wells and 14 gas wells.

Operation of other oil and gas facilities, including one natural gasoline processing plant with 20 million cubic feet per day capacity.

Grape production meet planned for weekend

A meeting of all persons engaged or interested in the grape growing and wine making industry is scheduled in Lubbock this coming weekend.

The two gatherings will be

held at Sagmor Vineyards at 87th and South Quirk Avenue in Lubbock and will run from 9 a.m. to 6 p.m. on Saturday and from 1 p.m. to 6 p.m. on Sunday.

Purposes of the meeting will be to give growers the opportunity to confer together, to discuss cultural practices, to observe new plantings, to check over 100 new grape plant varieties and to sample the flavors from 50 grape varieties.

The feasibility and potential for establishing a major winery in the Lubbock area will be under discussion at the meetings.

All persons interested in any phase of the wine making industry are urged to attend. Indications are that there will be a sizeable contingent from Cochran county in attendance.

Grain bug infestation proves hard to control

Sorghum crops in the area are being hit by a new epidemic of grain bugs, according to a research director at the Grain Sorghum Board.

adding that if rapid mite buildup is present, higher rates of granular or liquid chemicals could be advisable.

The area hardest hit at this time is north of Plainview, east of the Caprock and west through the grain sorghum producing areas of New Mexico. There appears to be some problem north of the Canadian River, but there's little reported activity in the North Plains.

"I don't know why we're having these control difficulties," but it could be one of the extremely hard to control because of the resistance to the present compounds," he added that farmers recognize that in most cases the fault is not with the aerial application.

Decorating announced

Sea Smith Junior High will sponsor a "Decorating Contest" for the ride in the parade. The contest will be eligible for prizes of \$10., \$7.50 and \$5.00. The rules require that all participants have their bicycle, decorated in an original theme. The parade will be immediately after the parade on the north square.

Early residents

All early residents of Cochran County are invited to participate in the Rodeo parade, August 1. Arrangements will be made by the chamber of Commerce if transportation is desired. Call 266-5200 for additional information.

Local net team wins championship

Sherita Fluitt and Prescilla Minor won first place doubles in the First Division tennis tournament held in Brownfield this week.

Both Sherita and Prescilla are senior students at Morton High School and are members of the tennis team.

Hunting season set

With the exception of geese and ducks, the 1974-75 hunting seasons are set and here are how they shape up:

White-tailed deer, in most

regulatory counties, Nov. 16-Jan. 1, for the regular gun season; Oct. 1-31 for archery.

Mule deer, Nov. 30-Dec. 15 in the Trans-Pecos; Nov. 23-Dec. 8 in the Panhandle.

Antelope, by permit only, Sept. 28-Oct. 6 in the Trans-Pecos; Sept. 28-Oct. 1 in the Panhandle.

Javelina, Oct. 1-Jan. 1 with the exception of Real, Kerr, Kennedy, Edwards, Schleicher and Frio Counties where there is no closed season and no bag limit.

Turkey, generally concurrent with the Nov. 16-Jan. 1 whitetail season.

Quail, South Texas, Nov. 1-Feb. 2; Possum Kingdom and Northeast, Dec. 1-Feb. 16; most other sections of the state Nov. 16-Feb. 16.

Mourning dove, North Zone Sept. 1-Oct. 30; South Zone, Sept. 21-Nov. 3 and Jan. 4-19; exception are those counties with a whitening season, fall segment closes Oct. 30.

White-winged dove, Sept. 1-2 and 7-8, in those counties along the Rio Grande.

Jacksnipe, Nov. 16-Jan. 19.

Teal ducks, Sept. 14-22.

Regular duck and goose seasons will be set by the Texas Parks and Wildlife Commission during their August meeting.

Complete listings of seasons and bag limits will soon be available in department publication, "A Guide to Texas Hunting and Freshwater Sport Fishing Regulations, 1974-75" to be found wherever hunting and fishing licenses are sold.

School's "Long Arm"

Big Eddie, an oversized teenager, liked to bully the girls on their way home from school. When several parents finally complained to school officials, Eddie was placed on probation. But at that point, his own parents decided to take a hand. Filing a lawsuit against the school, they claimed their son's punishment was illegal. Evidence in a court hearing indicated that the newspaper indeed contain criticism of school. But the criticism was:
1) libellous;
2) inflammatory; or
3) obscene.
The court thereupon lifted suspension, saying that school authorities had overreacted. "It should have been punitive," said the court, of inflicting the constitutional right of freedom of the press. A public service feature of American Bar Association, the State Bar of Texas, by Will Bernard.

Accent on health

A blood test for gonorrhea—a new weapon in the fight against venereal disease in Texas—is undergoing a pilot study in the Texas State Department of Health Laboratories in Austin.

While blood tests have been available for syphilis, there has been no accepted blood test for gonorrhea. The serologic procedures for detection of gonorrhea have received increasing attention, especially in efforts to identify those with no outward symptoms—the asymptomatic carrier.

Health authorities feel that the asymptomatic carriers of gonorrhea are responsible in a large way for the continuation of the disease. Since they do not know they have gonorrhea, they can continue to spread it as long as they are sexually active.

An automated device using an indirect fluorescent-antibody technique was developed for detection of antibodies to *Neisseria gonorrhoeae* in the blood of persons with gonorrhea.

When a disease organism enters a person's body, the body builds up antibodies in the blood to help fight off the intruder. Research scientists have now found a way to detect gonorrhea antibodies using a fluorescent antibody technique.

To be effective, the fluorescent-antibody method of detection must be used on someone who had had an infection long enough for the body to build up its defenses, or antibodies, against it. There is no exact time period for a body to produce antibodies. It may be from seven to 10 days to as long as weeks before the appearance of detectable antibodies; therefore the test is not valuable in diagnosis of early acute infections. The time period may depend on the type and degree of infection, the response of host and the sensitivity of the detection system.

In the State Health Department Laboratories, blood samples are placed on special slides prepared by automated machines—manufacturer—Aerojet Medical and Biological Systems. Each slide goes through different processing, solutions and incubation stages before it is read microscopically. The first slide takes almost an hour and 46 minutes for processing, but subsequent specimens follow at intervals of only one minute and 46 seconds.

In the State Health Department's pilot program, blood samples are supplied from the Austin-Travis County Health Department.

It is a combination project, using both the conventional culture method and the indirect fluorescent-antibody technique. In the culture method, a specimen is taken from the genital tract of a patient and placed in a special cultural medium. If gonorrhea bacteria are present, they will grow, revealing their presence.

The State Health Department's pilot study calls for some 4500 tests in determining of the test is worthwhile from the standpoint of results and cost.

In 1972 a stepped-up campaign against gonorrhea was begun in Texas in cooperation with the National Venereal Disease Program. The five-year program has a two-pronged attack—culture screening and interviewing of

male and female patients for their sexual contacts.

During 1973, almost 400,000 cultures were screened. This year, the total is expected to reach 456,000.

With increased emphasis on gonorrhea, the number of reported cases of gonorrhea increased to 64,210 cases last year. More than 88 per cent of the victims were under age 30.

The active campaign against gonorrhea has turned up some noteworthy statistics. Among these are the presence of hundreds of

asymptomatic male carriers—a condition which had gone virtually unrecognized.

Some other salient trends also have been noted.

The male-to-female ratio has dropped from four-to-one to two-to-one, suggesting that the reservoir of females, or the source of male infections, is being reduced at a faster rate than they are occurring.

The female morbidity in 1973 increased 28.9 percent, the result of intensified casefinding via the culture screening program and the epidemiologic process.

Health authorities are hopeful that 1974 will be the peak year and that 1975 will be the beginning of the decline of

County consumer spending increased over past year

As much as Cochran families are spending part of their income reaches the registers of local retail stores, in offices, in factories, in the teaching and health professions and in service industries. Almost no field of endeavor is closed to them any more.

Service. In indicates just how the average family in each section of the country has been spending its retail dollar and the amounts that it allocated for food, clothing, household supplies, cars, furniture and the like.

In Cochran County, the figures show, a major part of the consumer dollar was spent in stores selling food and automotive equipment. Together, they garnered 45 percent of all retail business in the area.

In other parts of the United States, they got 41 percent of the total and, in the West South Central States, 43 percent.

Food expenditures alone, in local bakeries, butcher shops, supermarkets, grocery

stores, delicatessens and other food outlets amounted to \$2,082,000, as against the prior year's \$1,737,000.

This covered only food that was bought for home consumption. Not included is money spent in lunchrooms, restaurants and other dining and drinking places.

Except for the latter part of the year, business was good in the automotive field as well. Sales of cars, motorcycles, boats, trailers and related equipment totaled \$2,869,000, compared with the previous year's \$2,341,000.

Market strength was also in evidence in most other retail lines.

Variety shops and department stores carrying general merchandise grossed \$101,000, as against their former total of \$85,000.

Those selling shoes, hats, clothing and other articles of apparel had receipts of \$284,000. The year before it amounted to \$248,000.

In stores selling furniture and home furnishings, the volume was \$306,000. Previously it was \$259,000.

Nationally, consumer buying rose 12.7 percent in the year, the figures show. Much of it is attributed to inflation.

Land Bank billing rate hike effective August 1

The Federal Land Bank Association of Levelland has announced that the Federal Land Bank's billing rate on farm and ranch variable interest rate loans would be increased from 7 3/4 percent to 8 1/2 percent effective August 1, 1974. The announcement was made by Jack Williams, Levelland branch manager.

The billing rate on rural residence loans will be increased from 8 1/4 percent to 9 percent on the same date. The variable interest rate loan plan was introduced by the Houston Bank in July, 1969 with a billing rate on loans outstanding to "float" with the variations in the money market.

In making this announcement, Mr. Williams stated, "The Bank's decision to make this change was

necessary because of the increased cost of bonds sold which had increased with every issue since the beginning of the year, with the most recent issue selling at an all time record high of 9.21 percent average effective rate.

The Bank had delayed action in raising the billing rate in order to assess the duration of present high interest levels, and there is noting in the present monetary situation to indicate any improvement in the immediate future."

The Federal Land Bank of Houston makes long-term real estate loans on farm and ranch land and rural residences throughout Texas and now has more than 913 million dollars in volume of loans outstanding. The local Association makes and services loans in Cochran, Hockley, Terry and Yoakum counties.

County women employees steadily expanding

Cochran County women entering the labor force in recent years in ever-increasing numbers.

Current figures show that some 27.0 percent of the local female population over the age of 16 are employed outside the home looking for such employment.

The number, according to official tabulation by the Department of Commerce, is 470 local women, out of a total of 1,760 of the labor force.

The facts and figures are from the Department of Commerce, The Conference Board and the Bureau of Labor

Statistics. Nationally, they find, women have made big strides in the last 25 years or so in the labor field. Federal restrictions on sex discrimination in employment and legislation requiring equal pay for equal work have been a boon for them.

The extent of the change is indicated by the figures. In 1947, they show, women constituted only 27 percent of the labor force. This included all persons who had jobs or were looking for them. As of last year, however, the proportion had jumped to 38

"Thou wilt shew me the path of life, in thy presence is fulness of joy..."
PSALM 16:11

HERE IS THE PATH

shall love the Lord thy God with all thy heart, and with all thy soul, and with all thy strength, and with all thy mind, and thy neighbor as thyself.
Luke 10:27

The basis of God's first and greatest commandment is love. God gave man the freedom to choose, and therefore will not force. The Bible teaches man to love God with all his heart, soul, mind, and strength, and his neighbor as himself. The first step and is always ready to receive any who would come to Him.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedom which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny, the truth which alone will set him free to live as a child of God.

sang "The Gift of Never" and soloist J. Wayne McDermott of Haskell who sang "Because."

The bride is a graduate of Douglas MacArthur High School in Houston and the groom is a graduate of Morton High School.

The couple will make their home in Morton, where the groom is engaged in farming, following a wedding trip to Run Away Bay in Bridgeport.

Old Settler's reunion slated

The Cochran County Senior Citizens will sponsor an Old Settler's Reunion Thursday, August 1, in the County Activity Building.

The 50th Anniversary celebration will include a noon luncheon and the naming of the Senior Citizen Man and Woman of the Year. Nominations are open to anyone 65 years of age or older who have made a personal contribution to the county, community and/or church. Nominations must be in the County Extension office by noon Tuesday, July 30.

Residents of the county for twenty-five years or more are invited to attend. Those attending are asked to bring a covered dish and wear old fashioned clothes. Women are requested to wear bonnets.

Plaques will be presented to the oldest person attending, the one who has traveled the furthest and the person who has lived in Cochran County the longest.

A bonnet and tobacco spitting contest will be held, and entertainment plus an afternoon of visiting and reminiscing will be on tap.

Last call

All children who were in first, second and third grade last year have only four more Wednesdays to check outbooks at the Elementary school, second grade room library. The summer program is sponsored by the Town and Country Study Club.

Vegetable Growing...Cattle Advisors' Names...Brucellosis Again...Screwworms Increasing...Cotton Report Awaited

COMMERCIAL VEGETABLES mean around \$140,000,000-\$150,000,000 a year to the Texas economy, and tasty, healthful foods for everyone. Only California and Florida rank higher in commercial vegetable growing, although Texas ranked first in 1972 in harvested acres of watermelons, cabbage, and spinach. The Rio Grande Valley and Winter Garden areas are the biggest producers of vegetables but there are many commercial vegetables grown all over the State. As an indication, the Texas Crop and Livestock Reporting Service estimates the following acreages for harvest this year: 55,000 acres of watermelons, 4,500 acres of tomatoes, 5,400 acres of onions, and 1,000 acres of cucumbers. Of course other vegetables, like green peppers, lettuce, carrots, turnip greens, spinach, and cantaloupes are grown in Texas.

THREE TEXANS are on the new Cattle Industry Advisory Committee announced by the U.S. Department of Agriculture. They are: James W. Campbell of Pampa, Tobin Armstrong of Armstrong, and Harold D. Florence Jr. of Dumas. The large committee is supposed to provide counsel on cattle production, marketing, international trade, economics outlooks; but will meet only as needed when called by the chairman, Dr. Richard L. Felner, assistant secretary for marketing and consumer services.

TALKING ABOUT the suffering cattle industry, cattle growers in Freestone, Leon and Milam Counties face more brucellosis testing before shipping beef or dairy breeding cattle. Those three counties, and some counties in Oklahoma and South Dakota, have been taken off the modified-certified brucellosis areas. Navarro, Wood and Cherokee have been restored to the modified-certified brucellosis areas. A part of Bailey County, Texas has been placed under quarantine for sporadic cattle scabies after an infestation was found in a feedlot late in June.

SCREWORM control officials report that there were 628 confirmed screwworm cases in 71 counties of Texas during June. Counties reporting their first screwworm cases in 1974 included Edwards, Reeves, Crane, Upton, Hays, Williamson, San Saba, and Menard. Over all of Texas, there were 628 cases of screwworms reported in June, Bee County leading the list with 55 cases, followed by Kennedy with 51 and Brooks with 48. There were only 145 cases reported in June, 1973 and 15,889 in June, 1972. There have been 1,500 confirmed screwworm cases so far this year in the State.

COTTON FARMERS are waiting for the USDA's first cotton production estimate August 12. It is expected that the 1974 crop will produce less than 13.4 million bales, because the crop reports earlier are believed higher than the number of acres actually planted. In late June, USDA estimated it thinks the 1974-75 cotton supply will be below the 1973-74 supply of 16 million bales. The August 1 carryover is estimated to be 3.5 million bales. On the High Plains, a total of 2,271,000 acres are estimated planted or being planted, and that is 20 percent below the total in 1973. Total for the entire State is estimated at 5,600,000 acres, compared to 5,400,000 acres in 1973. However, there were only 5,200,000 acres harvested last year.

AND A FEW NOTES: Federal Crop Insurance protection is now available in 87 Texas counties...Broiler chicks placed in Texas during the week ending July 6 totaled 3,357,000; and there were 193,000 turkey poult hatchlings during the same week...Drylot sheep feeders had 115,000 sheep and lambs on feed for slaughter July 1.

Cowboy Campfire Cook-off plans firm up; judges set

Plans for the Second Annual International Cowboy Campfire Cook-Off are beginning to firm up, Max Polen, chairman of the Abilene Convention & Visitors Bureau Cook-Off committee, said.

All three judges have definitely been secured for the annual event, scheduled for Labor Day Weekend, August 31 through September 2, at Old Abilene Town on Interstate 20.

Gary Luskey, President of Luskey's Western stores, Acey Lockhart, president of Hydro-Tex Oil Co., based in Fort Worth and Mrs. Ruth M. Malone the food editor for Holiday Inns of America, have been confirmed as Cook-Off judges.

Mrs. Malone is also the food editor of the Holiday Inn Magazine and is known as "The Cook Book Lady" from coast to coast. Some of the cook books to her credit are The Dogpatch COOK Book, Swiss Holiday Recipes, and Where to Eat in the Ozarks and How It's Cooked. She was selected by the Smithsonian Institution to contribute an article for the 1970 Festival of American Folklife program book.

MEDAL OF HONOR

The Medal of Honor for "gallantry in action" was authorized by Congress July 12, 1862.

The Cowboy Campfire Cook-Off was conceived to preserve the historic tradition and color surrounding the cattle era of the old west. Polen said, "While trail drives are a thing of the past, ranch cooks and a few remaining trail cooks continue to feed the cowboys that bring beef to the world's tables. We are trying to perpetuate the tradition of the hearty, wholesome, outdoor meal in this cooking competition."

The committee is planning a multitude of events around the actual competition which this year will include three categories: Pro-Trail Cook, Campfire Cook, and Maverick Cook.

Pro-Cooks are persons who make the major portion of their living by cooking, such as ranch cooks, restaurant chefs and caterers. Campfire Cooks are those who have entered the competition at least once, but do not wish or cannot qualify to compete in the Pro division. Mavericks are amateurs, persons who cook primarily for their own pleasure and who receive no major income from their cooking.

Entry fees will be \$10 for the Pro-Trail Cooks; \$5 for Campfire Cooks and \$3 for Mavericks.

Richard Marcantel, ACVB manager, said the committee is also looking into the possibility of a concert at the Taylor County Coliseum in conjunction with the affair. There will be Barber Shop Quartet entertainment daily. Also a western shootout at Old Abilene Town, Double Decker Shuttle Bus service between Old Abilene Town and Zoo World, square dance demonstrations, a mock up Indian village, pony express throughout the weekend and a Texas Travel Fair open to the public.

Polen emphasized that all of this open to the public free of charge and said, "We want this to be an Abilene function and not just a Chamber or Bureau activity. We are encouraging the entire community to be involved in this event so that the visitors to our town will really enjoy their visit to this year's Cook-Off."

Additional information, rules and entry blanks are available at the Abilene Convention & Visitors Bureau Office, 341 Hickory in Abilene or may be obtained by writing Cowboy Campfire Cook-Off, P.O. Box 2281, Abilene, Texas 79604.

Lighten the Load!

Two things no female really wants to do in Summer are a heavy kitchen schedule and carry a heavy body. Why not lighten both loads simultaneously? Plan a summer diet that takes pounds off you and takes you of the kitchen pronto.

Lighting light helps you feel cooler, but that's only half solution toward taking off unwanted weight. Eating while you lose is equally important. Forget fast diets to avoid the starvation home. A successful diet that gives you all nutrients every day, satisfies your hunger, isn't too low in calories and is low enough in calories to let you lose 2-3 lbs a week. Diet food can keep you healthy, and look and taste different and be easy enough to eat so that you don't get hours in a hot kitchen cooking and measuring. This is like a tall order, but remarkably easy.

Under diet food from nutrition answers all these questions. First of all, it's specifically formulated so one serving supplies quarter of the Recommended Daily Allowance of nutrients, according to best government standards. This means you can substitute it for one regular meals during the day. All you stand to gain is that load of excess fat. Mixed with 6 oz. of milk, this mini-meal has 164 calories. Mixed with whole milk or in the 4-oz. drink pull-top can, it has 225 calories.

It's straight, or make it quick and easy "peach" for a change. For a change, try adding fresh or frozen fruit like this.

Farm worker, domestic worker wage hikes told

Recently-enacted federal legislation raised the minimum wage for farm workers who are covered from the present \$1.30 to \$1.60 an hour, effective May 1.

The minimum will increase to \$1.80 on January 1, 1975; to \$2 on January 1, 1976; to \$2.20 on January 1, 1977; and to \$2.30 on January 1, 1978.

"The differential in minimum wage for agriculture and non-agriculture is wiped out by 1978," points out Kenneth Wolf, economist in agribusiness for the Texas Agricultural Extension Service.

"The newly-enacted amendments to the Fair Labor Standards Act do not change the exemption of agriculture from overtime requirements or the '500 man-day' test for coverage of agricultural employers."

Wolf advises each farmer to examine his records to determine whether he hired as much as 500 man-days of agricultural labor in any quarter of 1973. If so, the farmer is obligated to pay at least the minimum wage to all labor in 1974.

"Covered farm employers need to keep the new minimum wage

requirements in mind in recruiting workers for this summer," adds the Texas A&M University System economist.

Also effective May 1, certain domestic service workers were covered by the minimum wage law for the first time, notes Wolf. In general such a worker is covered if employed for a total of more than eight hours in a work week, even if the employment occurs in more than one household.

"However, domestic workers are not covered if employed on a casual basis for babysitting or companionship services for individuals who, because of age or infirmity, are unable to care for themselves," explains the economist.

The minimum rate for newly covered domestic workers is \$1.90 an hour. It will increase to \$2.00 on January 1, 1975; to \$2.20 on January 1, 1976; and to \$2.30 on January 1, 1977.

For non-agricultural employees covered before 1966, the minimum wage increased from the present \$1.60 to \$2.00 an hour on May 1. Next January 1 it will go up to \$2.10, and a year later, to \$2.30.

Vets urged to tell survivors their benefits

"If you haven't done so, tell your survivors what benefits they might be entitled to in event of your death," the Veterans Administration periodically reminds the nation's more than 25 million veterans.

Jack Coker, VA Regional Office Director, insists there are good reasons for this advice.

"Too often," he pointed out, "the veteran and his wife neglect to discuss the subject of death, resulting in unnecessary burden on survivors in times of great emotional stress."

Not only should the veteran and his wife discuss locations of important family documents, they should make sure they are protected from fire, theft and damage. It also was emphasized that survivors should be briefed on what to do in case of the veteran's death.

The veteran's family should be told of possible survivor's benefits such as VA's dependency and indemnity compensation for service-connected

death, or non-service-connected death pensions for widows, or just for children in cases where a widow may be ineligible because of excessive income.

Burial benefits for wartime and certain peacetime veterans should not be overlooked. These include a maximum \$250 burial allowance, plus a plot allowance not exceeding \$150 for veterans buried outside national cemeteries. In lieu of these benefits, there is an \$800 burial allowance for veterans who die of service-connected disabilities.

Coker further stressed the importance of keeping track of GI insurance policy numbers, claim numbers for inclusion in all correspondence with VA, commercial insurance policies, social security numbers and naturalization papers — all important in claiming various survivor benefits.

"And don't forget to turn to VA offices, veterans county service offices, and veterans service organizations where assistance is available," Coker advised.

MINIMUM WAGE
A minimum wage of 40 cents an hour was set by a new industrial code on July 12, 1933.

County Agent news

By Phil Sullins

In past years, killing greenbugs has been as simple as pouring the insecticide in the crop duster and flying it on. However, as of July the situation has changed dramatically because producers have reported applying materials to control greenbugs and getting little or no control.

In addition to the control problem, the greenbug population is increasing dramatically. In past years greenbugs have typically increased approximately 6-fold per week, this year records indicate the populations were increasing at a rate of 10-fold per week.

Producers should become aware of the problems with control and the higher rates of increase being observed for the greenbug and check their fields twice a week.

Sorghum plants can tolerate the loss of two mature leaves and this generally occurs when there is about 100 to 1,300 greenbugs per plant. An application of 1/2 pint of any of the registered aphicides

approved for use on sorghum is recommended. This is the upper range of rates suggested in the Agriculture Extension Service bulletin, "Suggestions for Controlling Insects on Corn and Sorghum."

Liquid formulations are recommended over granular because they have given more control. In addition the cost of liquid applied is cheaper than granular.

First CC married couple observe 50th anniversary

Mr. and Mrs. Tollie Gray, the first couple married in Cochran County observed their 50th wedding anniversary July 13 at their home on Lake Buchanan Tow, Texas.

Mrs. Gray, the former Jimmie Silvers, is the daughter of the late Mr. and Mrs. J.W. Silvers of Morton. Button Silvers of Morton, Mrs. Hap Rogers, formerly of Morton, now of Carlsbad, N.M. and Mrs. Tip Barnes, Crossroads, N.M. are brother and sisters. The late Charley Henry Silvers of Morton was also a brother.

In recalling their marriage ceremony, Mrs. Gray mentioned they had driven from Littlefield where they each resided with their parents.

Because they were the first couple to request a marriage license, R.H. McCasland, County Clerk, issued them one without charge.

The Rev. G.C. Robinett, local Methodist minister at that time, came to

the clerk's office and performed the ceremony. Mr. Gray's sister and her husband, also of Littlefield were witnesses.

Hosting the surprise celebration for the Gray's were three of her cousins, Mrs. Jay Garrett, Muskogee, Okla., Mrs. Howard Kemper, Lawton, Okla., and Mrs. Gordon Dinsmore, San Antonio. Their two children Mrs. Pat Conley of Fort Worth and son and family Mr. and Mrs. Bill Gray and children attended.

The couple has six grandchildren Jay and Robbie Conley, Fort Worth, Dee Haverson, Scottsdale, Arizona, Betty Lou, Tab and Billy of Austin.

Special guests were Mrs. Gray's elderly aunt's Mrs. Maude Crane and Mrs. Ett Reed of Floresville.

The couple had owned and operated Motel Cedar Point on Lake Buchanan for the past 23 years.

Mrs. Foust hosts Junior Study Club

The Emlea Smith Junior Study Club met Tuesday, July 16, in the home of Mrs. Bill Foust for a called meeting.

Mrs. Glynn Price reported on obtaining tickets for TEXAS, a Texas Heritage Project. Mrs. Dwain Hester and Mrs. Foust volunteered to chair the committee on the bicycle decorating contest for the Rodeo parade, August 1. All bikes are to be decorated in an Americanism theme in honor of Cochran County's birthday and the bicentennial of America. Cash prizes will be given for first, second and third place.

Members voted to give the Rodeo Association a new recording of the National Anthem.

Following the business meeting, refreshments were served and members swam and played water basketball and volleyball.

Hostesses for the afternoon were Mrs. Foust, Mrs. Hester, and Mrs. Jimmy St. Clair. Others present were Meses. Bob Lawdermilk, Glynn Price, Donnie Dewbre, Ken Williams, and Jimmy Roddy.

Friday, Mrs. Hester presented the Rodeo Association president Truman Murdock a recording of the National Anthem on behalf of the club.

MHS students attend Tech workshop

Miss Cheryl McClung and Miss Yvonna Vanstorty attended the 17th annual Texas Tech summer high school publications workshop held on the University campus July 14 through 19.

Both students attended the yearbook section of the workshop and in each session they learned the latest layout, copy and design techniques. They also began working on the 1974-75 Lohah doing layout design on some of the yearbook pages. The sessions were led by the Taylor Publishing Company staff.

Miss McClung and Miss Vanstorty will be co-editors for the 1974-75 Lohah staff and are seniors at MHS.

Mrs. and Mrs. Gray returned tired and glad to be home but with much to remember and share.

Visiting in the home of the W.J. Colliers this week is his sister, Mrs. Rene Moore, of Lubbock.

Mr. and Mrs. Joe B. Nicewarner attended funeral services Monday for his cousin, Mrs. Mamie Elsie, in Lubbock.

Levi Minor of Abernathy, formerly of Morton, is in St. Mary's Hospital in Lubbock undergoing tests this week.
