Ringneck pheasants released in two panhandle counties

Ringneck pheasants have slowly expanding their range in the Texas Panhandle over the past few years but not fast enough to suit biologists at the Parks and Wildlife Department. On Oct. 16, some 125 colorful Asian birds were released in Carson and Counties.

The release was part of the TP&WD program of accelerating the expansion of pheasant in the area using the program wild broodstock trapped in Panhandle. This is the first for such a release.

During the first part of 1974 adult pheasants were trapped in the Hereford area and transported to the department Management and Release Station in Tyler.

At the M&R Station the pheasants produced some 204 young.

Of this number, 100 10-week-old birds were released Oct. 16 in the grain fields of Panhandle along with 25 hens from the original 44.

The remaining 9 pheasants and 19 adult cock pheasants were to be retained at the M&R Station broodstock for future production and releases.

Biologists at the station are hopeful for an even greater pheasant production next year in the northernmost part of the state.

1974 Agricultural census

Expected to be big project

The 1974 Census of Agriculture, the largest cultural statistical project in five years, will begin in January. It will be conducted by the Bureau of the Census, part of the U.S. Department of Commerce's Economic and Statistics Administration. From Alaska to Florida, from Hawaii to Hawaii, farmers and ranchers will receive census forms in the mail around the first of the year. The report forms will be filled out and mailed promptly.

Farmers themselves have participated in deciding what information is collected in the census. Representatives of farm organizations such as the Farm Bureau, The Grange, Farmers Union, National Farmers Organization, and Farmers for Progress serve on the Advisory Committee that recommends to the Bureau the items that should be included in the census.

Three kinds of information are included about operations in 1974: first, a count of farm resources, number of farms, acreage of farm land, acres of cropland and pasture, number of head of livestock and poultry, number of persons employed on farms, number of farm tractors and other farm equipment; second, a record of farm products produced and sold in 1974; and third, selected farm activities during 1974 such as number of days of off-farm work by the farmer, amount of custom farm labor, for custom work, for feed, for gasoline and

quantities harvested, products sold, major farm expenses and the like readily available so that he can easily and accurately fill out his census report when it comes.

It is from the Census of Agriculture, conducted every five years, that data are taken to form the basis for programs of the U.S. Department of Agriculture, Congressional farm legislation, farm organization policies, farm programs established and administered by State departments of agriculture, and many other services provided by colleges, business firms, manufacturers, publishers and broadcasters.

The Census of Agriculture is the only source of statistics on agriculture that are comparable from county to county nationwide. It is the sole source of comprehensive data tabulated for each State and for the U.S. for farms classified by size, tenure, type of organization, market value of products sold, and type of farm enterprise.

Every farmer's report is confidential by law. It may be seen only by sworn Census employees and may be used only for statistical purposes. The main census method reinforces confidentiality. And it allows the farmer to complete his report at his convenience with accurate information from his records.

Hospital notes

Patients admitted to Cochran Memorial Hospital from October 29 through November 4 were Jessie Garcia, Francis Scoggins, Raymond Shelton, Lillie Jordan, Pearl Ledbetter, W.H. Bilbrey, Ernest Soliz, Benina Morales and Juana Zuniga.

Successful MOD campaign enables program expansion

"March of Dimes volunteers are looking forward to the most exciting program year in history," reports Mr. and Mrs. Maurice Lewallen. "The excellent response to last year's drive has enabled us to expand research and medical service programs around the country."

Mr. and Mrs. Lewallen have just returned from a regional meeting of the voluntary health organization in Dallas. There, they met with delegates from neighboring states to go over the new dimensions of March of Dimes programs aimed at prevention of birth defects.

"The medical advances we heard about were particularly impressive," they both said. "Improved methods of treatment, diagnosis, and consultation for high-risk pregnant women and newborns were explained by specialists. At one session, Dr. Edwin Lee Gresham of New York and Dr. Loren P. Petersen of Indiana, discussed how their specialties are rapidly developing combined techniques to reduce many risks of pregnancy."

"Another important aspect," the Lewallens continued, "is the progress on plans for a strategic network of prenatal services throughout the country. These guidelines have been drawn up by leaders in obstetrics, pediatrics, family practice, the nursing

profession, and health agencies. The goal is to allocate highly trained staff and equipment to treat mothers and infants at different levels of risk to avoid duplicating costly services."

Mr. and Mrs. Lewallen also noted that there was emphasis on new March of Dimes programs to train nurses in recognition, evaluation, and team performance for treatment of sick mothers and infants. This course of action, they say, is intended to meet the alarming shortage of nurse clinicians as quickly as possible.

"The challenge to volunteers is helping to upgrade delivery of maternal and infant care is greater than ever," they add. "Special projects in public education that stress prenatal care and nutrition took up a major part of the meeting. Another segment was devoted to youth activities for high school and college volunteers."

EXCHANGING WELCOMES in Dallas recently were Jamie Weaver, 1975 National Poster Child for the March of Dimes, and volunteers Mr. and Mrs. Maurice Lewallen of Morton. They met at a regional meeting of the voluntary health organization for discussion of programs aimed at prevention and treatment of birth defects. Jamie, 9, was born without eyes, but leads a normal, active life. She lives in Spokane, Wash.

Bob Hope slates show in Lubbock November 22

"King of Comedy" Bob Hope, with the Goldiggers of the NBC-TV Dean Martin show, will present an evening of entertainment at the Lubbock Municipal Coliseum Friday, November 22.

Other entertainment includes a talent contest and a fashion show. The one-night entertainment special is sponsored by the Texas Tech University Ex-Students Association. Profits will be used for academic recruiting and scholarships at the university, according to Manuel DeBusk, president of the association.

The 8 p.m. performance precedes the Texas Tech University of Arkansas football game Saturday afternoon, November 23, the last regularly

scheduled game of the season for the Red Raiders.

Dr. Grover E. Murray, president of Texas Tech University, has invited the famous comedian to remain in Lubbock to be his guest at the game.

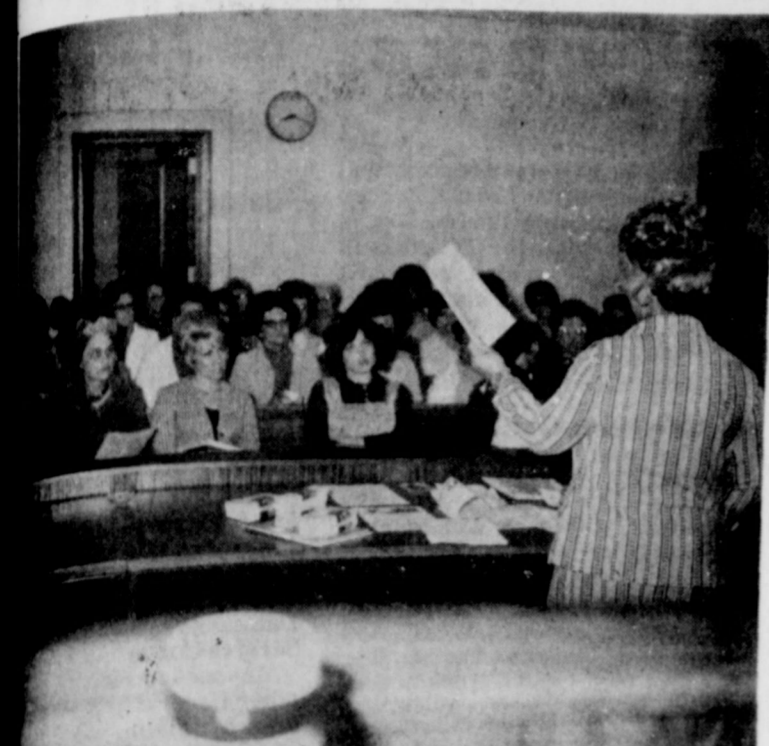

Mayor Roy Bass of Lubbock has signed a proclamation declaring Nov. 22 as Bob Hope "Thanks for the Memory" Day in the city.

Tickets range in price from \$25 for main floor seats, to \$4 for student discount tickets. Other individual ticket prices are \$12.50, \$10, \$7.50 and \$5. Front row VIP seats are also being offered at \$50 each. Holders of the \$50 tickets will be invited to a

It will cost more for less newsprint

Conservation efforts will account for U.S. newspapers using less newsprint next year but the industry's annual newsprint bill is expected to increase — \$2.6 million in 1975 as compared with \$1.8 million in '74, according to Editor and Publisher.

The trade magazine estimated that consumption would drop from 10.5 million tons in 1974 to about 10 million next year. — CNS

Chili Supper

The MHS Tennis Club members will sponsor a Chili Supper Thursday night, November 7. Serving will begin at 6:30 p.m. in the County Activity Building. Tickets are now on sale or may be purchased at the door.

Lubbock's City Hall, South Plains Association of Governments' (SPAG) President Carolyn S. Jordan signed a \$1,078,770.00 contract with General Electric, Inc. to provide new radio equipment for all law enforcement agencies in the 15-county SPAG region.

The new radio communications system will be funded in part through a grant from the Governor's office, criminal justice division. Participating agencies will pay 25 percent of the total cost for the new equipment.

The project will replace present obsolete equipment with a modern, four-channel system for radio communications. The overload on the 37,180 frequency currently used by most agencies in the area will be relieved with each agency being assigned a separate frequency.

The multi-channel system will allow agencies to monitor other departments within the county, while maintaining clear

will serve as no more than a hearing to gain input from the anti-seeding spokesmen, the TWDB staff members will take the information under advisement.

No action now pends before the board concerning weather modification permits. The two projects, however, will appear before the board in the spring to renew permits.

The same anti-seeding groups that requested Briscoe to call the meeting have met with the TWDB on several occasions to oppose the issuing of permits, but the permits have been granted each year since the programs began in the mid-1960's.

Claims that hail suppression has hindered rainfall were aired in a court battle in May in which 127 dryland farmers and ranchers sought a restraining order in 154th District Court in Littlefield to halt the programs.

The court order, however, was not granted and the programs have continued.

Members who will hear the West Texas farmers and ranchers include Milton Potts, a Livingston businessman; Marvin Shurbert, a Petersburg farmer-rancher; Robert B. Gilmore, a Dallas engineer; W.E. Tinsley, an Austin businessman; John H. McCoy, a New Boston businessman; and Carl Illig, a Houston attorney.

WORCESTERED SNACKS WITH SMACK

A fun evening with friends always calls for snacks—either as appetizers or after-dinner hospitality. Here are some ideas that are as flavorful as they are easy to make with a dash of Worcestershire.

Savory Cream Cheese Spread is a good make-ahead treat. Blend together 2 packages (8 oz. each) softened cream cheese, 1 cup butter or margarine, softened, 2 tablespoons toasted sesame seed, 1 tablespoon onion powder, 1 1/2 tablespoons original Worcestershire sauce and 2 teaspoons prepared brown mustard. Chill several hours and serve with crackers. (To toast sesame seed, sprinkle thinly in pan and bake 10 minutes in moderate oven.) Worcestershire Nuts and Bolts are always tempting. Blend 1 tablespoon melted butter or margarine and 2 tablespoons Worcestershire sauce. Add 2 cups salted peanuts, 2 cups toasted oat cereal and 1 cup pretzel sticks. Toss to coat and spread evenly over shallow baking pan. Bake in very hot oven for 8 minutes or until hot and golden brown.

"Thou wilt shew me the path of life, in thy presence is fulness of joy." PSALM 16:11

HERE IS THE PATH

Thou shalt love the Lord thy God with all thy heart, and with all thy soul, and with all thy strength, and with all thy mind, and thy neighbor as thyself. Luke 10:27

The basis of God's first and greatest commandment is love. God gave man the freedom to choose and therefore will not force his love on anyone. God took the first step and is always ready to receive any who would come to Him.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, ever from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny, the truth which alone will set him free to live as a child of God.

Civil Service slates high level examinations

The U.S. Civil Service Commission has announced the testing schedule for its new Professional and Administrative Career Examination (PACE) which will be administered this year, for the first time, to candidates with a college degree or equivalent work experience.

The new examination will be used to fill a variety of career positions at GS-5 (presently \$8,500) and GS-7 (\$10,520). Nationwide about 10,000 appointments are expected to be made through PACE each year, from among the more than

100,000 candidates who take the test.

PACE exams will be held in November, January, March, and May. The cut-off date to apply for the November test is October 31. Persons wishing to take the January, March, and-or May tests must apply by the 20th day of the month preceding the month the test is given.

The written test will take about 4½ hours and will be given at locations throughout the nation.

PACE will be used to fill a variety of entrance-level professional, administrative,

Olton, tied with Dimmitt for the league lead with a 2-0 mark in district, hosts Littlefield, and will be out to run their loop mark to 3-0, and set up their encounter with the Bobcats on Nov. 15.

Dimmitt, Friona and Olton have combined season records of 22-2, and one of the games in the loss column represents two of the teams meeting (Olton edged Friona 6-0 on October 25).

Dimmitt tuned up for its match at Friona by soundly thumping Morton, 56-6, while Friona had to turn on some fourth quarter heroics to edge past Littlefield, 21-14, a game that eliminated the Wildcats from title contention.

The Bobcats evidently had one of those nights where everything was clicking, as seven players shared in the scoring. Morton, meanwhile, couldn't buy a break, until they recovered a Bobcat fumble in the fourth quarter at the 23 and drove in for their only TD.

Friona had fumbled at Littlefield, giving the Wildcats the ball at their 10 and 11, both resulting in touchdowns. But the Chiefs fought gamely back, with

Three Way Union split cage games

Three Way hosted the Union basketball teams Tuesday night. The host girl's team breezed through with a 51 to 37 win but the Three Way boy's team went down 72 to 56.

Leading scorers for the winning girls was Debbie Ferguson with 26 points followed by Connie Richardson's 23. The game sea-sawed back and forth the first quarter but from halftime on, it was Three Way all the way.

High scorers for Three Way boys team was Dan Simpson with 24 points and Randy Locke with 10.

Union will host both Three Way teams Friday at 7 p.m.

game-winning in the last minutes.

"I was real proud character our kids showed giving up when it looked everything was going them," said Friona coach Owen.

The Chieftain coach laid Friday opponents, the Bobcats. "They are triple talent. With seven players the scoring leaders in and one of the top rushers state, they're going to be stop," he predicted.

The Bobcat express grossed 507 yards offense Morton, and is averaging yards per game. Friday's might turn out to be the top offense against one of defensive units around

Mexican Peso Remains Stable; Backed Near-Record Reserve

MEXICO CITY—(Special) A strongly reinforced peso will continue 20-year parity with the dollar. President Echeverria asserted in his fourth State of the Union address to the Chamber of Deputies.

The exchange rate of pesos to one U.S. dollar has been in effect since 1954, showing an unbroken stability in the international monetary market.

"I reiterate our determination and ability to maintain the exchange rate of pesos to one U.S. dollar without resorting to currency controls on transactions involving merchandise, services or capital," the president asserted. "This essential part of our policy aimed at protecting domestic price levels, inspiring an atmosphere of confidence for attracting productive investments to develop Mexico's resources."

The stability of the peso is backed by Banco de Mexico (central bank) reserves of 2.46 billion dollars (16.5 billion pesos). Of this 1.3 billion dollars (16.5 billion pesos) are primary reserves in the form of silver and foreign exchange. The remaining 1.1 billion dollars (14.3 billion pesos) consists of secondary reserves in the form of special drawing rights with international financial institutions.

WE PROUDLY ANNOUNCE

ON OCTOBER 28, 1974, THE PRESIDENT APPROVED AN AMENDMENT TO THE FEDERAL DEPOSIT INSURANCE ACT. AMONG OTHER THINGS, THIS LEGISLATION INCREASES INSURANCE ON DEPOSITS FROM \$20,000 TO \$40,000 FOR EACH DEPOSITOR, EFFECTIVE ON NOVEMBER 27, 1974. IT ALSO PROVIDES INSURANCE OF PUBLIC UNIT FUNDS IN SOME CIRCUMSTANCES NOT TO EXCEED \$100,000 PER ACCOUNT.

Feeder cattle market outlook claimed dark

Feeder feed costs, continued losses, and exceptionally high prices for replacement animals mean lower prices for the feeder cattle market, says Dr. Ed Uvacek, a marketing specialist with the Texas Agricultural Experiment Station.

Prices placed on feed during the first seven months of 1974, were down 22 percent in the seven major states, which indicates a pessimistic attitude among feeders, says the Texas A&M System specialist.

"The real key to the future of feeder prices is fed cattle prices," contends Uvacek. "Unless feedlots become profitable again, it will be hard to sell replacement animals — at any price."

October because of the increasing number of non-fed available," predicts Uvacek. "However, prices during the remainder of the year should move upward."

Uvacek also expects feeder cattle prices to continue downward because of high feed costs and feedlot unprofitability.

"On July 1 of this year there were about 5 1/2 million more replacement cattle available outside of feedlots than last year. This larger supply of feeders will continue to push down feeder prices. However, some recovery is expected by November and December as supplies thin out."

"The real key to the future of feeder prices is fed cattle prices," contends Uvacek. "Unless feedlots become profitable again, it will be hard to sell replacement animals — at any price."

TU planning variety of homecoming activities

Avenue for a bonfire and pep rally at 7 p.m.

Friday's activities will conclude with a dance at 9 p.m. in the KoKo Palace in Lubbock.

A reception and coffee honoring the classes of 1941-1949 will begin Saturday's activities at 9:30 a.m. in the Ex-Students Association Building.

The Homecoming Parade will begin at Broadway and Texas Avenue at 10 a.m. The parade will move west on Broadway to the campus under the leadership of former Gov. Preston Smith and Mrs. Smith, parade grand marshals. Nineteen floats, the Texas Tech band, the Monterey High School Band, cars representing various organizations, and Anne Lynch, the Red Raider, will be featured in the parade. Floats will be on display in the Administration Building parking lot after the parade Saturday and part of Sunday.

Ex-Students, their spouses and dates, will be hosted to a homecoming luncheon in the Municipal Coliseum by Furr's Supermarkets, Furr's Cafeterias and Gold Bond Stamps. Luncheon will be served from 11 a.m. to 1 p.m.

Pre-game activities begin at 1:45 p.m. in Jones Stadium. The homecoming football game with Texas Christian University will begin at 2 p.m. During halftime the 1974 homecoming queen will be crowned.

Ranch headquarters tours now closed for winter season

Texas Tech Ranch Headquarters officials are announcing that the outdoor museum, adjacent to The Museum of Texas Tech University, is closed for the season to public tours.

The popular tours are expected to be resumed in the spring. The closing became effective Sunday, Oct. 27. More than 13,000 visitors had toured between May 5 and the closing date. The number averaged 695 per Sunday during the two and one-half year open period. This represented an increase over the 1973 tour numbers when the average was 336 per tour day.

Looking Back

26 YEARS AGO
Morton is high on the list of towns to receive new dial telephone equipment, according to G.D. Shelley, District Manager of Southwestern Associated Telephone Company.

Herbert Wayne Walthall of San Angelo has been assigned to Morton as Texas Highway Patrolman, according to Colonel Homer Garrison, Jr., Director of Department of Public Safety.

Mrs. Roy Weeks, owner of Dorthea Weeks Beauty Salon, announced early this week the formal opening of Morton's newest business enterprise, on Sunday afternoon, November 7 from four till six.

The Halloween Carnival sponsored by American Legion and Auxiliary at Veterans Hall Saturday night attracted a large crowd.

Cochran County voters added their weight in the November 2 election by casting a record ballot of approximately 1,000 five box total.

Johanie Brooks of Morton took honors in the Amarillo Fair and Texas State Fair at Dallas. Brooks showed Primrose Dixie's Heartbreaker, registered Gurnsey bull, and won a blue ribbon.

The Ranch Headquarters scheduled 52 open days in 1973 for two hours on Saturdays as well as Sundays, and only 26 open days in 1974, Sundays only.

The art class of Mr. Kendrick, visiting artist and instructor, opened at Mrs. Ruel Kelley's place on November 27.

Although closed to the general public, special group tours can be arranged by calling The Museum, 742-5151.

One outstanding student, Carol Leavitt, was in a class all by herself when the Morton High School new grade system was used for the first time in the first six weeks of this semester. She was the only high school student getting all "A" card.

The Ranch Headquarters is an outdoor museum of authentically restored ranch homes, outbuildings and windmills, depicting the history of ranching in Texas. It will not be officially open to the public until its completion, expected in 1976.

All the Baptist churches in Hockley and Cochran counties will be participating in Simultaneous Schools of Missions November 9-13.

"Announcement of a woefully inadequate loan level in a manner we consider completely outside the language and intent of the law emphasizes more than ever the need for speedy congressional action to effect changes in the current cotton program."

This was the reaction of Donald Johnson, Executive Vice President of Lubbock-based Plains Cotton Growers, Inc., to the announcement October 31 of a "preliminary" 1975-crop loan level of 34.27 cents, basis Middling one inch cotton at average location, 3.5 to 4.9 micronaire.

The 1974 Middling-inch loan is 25.26 cents per pound, "which is no more than half the average cost of production," Johnson maintains, "and the loan announced for 1975 again fails to offer producers any meaningful price protection."

Moreover, he continues, "there is no authority in the law for USDA to announce a 'preliminary' loan subject to change between now and the end of the marketing year of July 31, 1975."

PCG pointed out to USDA last year and again this year that farmers and others in the industry should not be asked to make planting and marketing decisions based on a loan which could be drastically lowered after such decisions are made.

"The law as we read it," Johnson says, "clearly states that the loan shall be announced on or before November 1."

As a result of recent hearings before the House Cotton Subcommittee, chaired by Congressman B.F. Sisk of California, a National Cotton Marketing Study Committee is being appointed by Secretary of Agriculture Earl Butz. The committee will be divided into six subcommittees to study and make recommendations on (1) Spot Markets and USDA's Market News Service, (2) forward crop contracts, (3) seed cotton storage, (4) bale packaging (5) sampling, classification and standards and (6) warehousing and transportation.

Johnson has been asked to Missionaries from various fields will speak in the several churches each night.

Marine Pvts. Jerry L. Kilcrease, son of Mr. and Mrs. L.H. Kilcrease of Morton, and Aaron H. (Herschell) Hancock of Morton, son of Mr. and Mrs. A.H. Hancock are scheduled to finish four weeks of individual combat training, Nov. 7 at the Marine Corps Base, Camp Pendleton, California.

serve on the Spot Markets and Market News Service Subcommittee, and PCG President Don Marble of South Plains has been appointed to the Subcommittee on sampling, classification and standards.

On the Senate side, Agriculture Committee Chairman Herman Talmadge of Georgia has announced hearings in January on the merits of higher target prices, loan levels, food and fiber reserves, and export licensing.

These are areas treated by Amendment No. 1348 to S-2005 proposed by Senator Hubert Humphrey of Minnesota. The amendment, intended as a substitute for the original bill, among other things would increase target prices and loan levels for cotton, wheat and feed grains. The target price for cotton under Humphrey's proposal would go from 38 cents to 50 cents per pound. And whenever the estimated cotton supply fell below 5 million bales, the Bill would require a loan at no less than 90 percent of the target price, or 45.5 cents per pound.

"With the many other provisions to be considered," Johnson commented, "endorsement or opposition to the entire measure is impractical; but it is obvious that both the loan and the target price for cotton need raising. From the recommendations of the House Study Committee and the testimony developed at Senate hearings, we are hoping to see congressional action in early 1975 to accomplish these purposes."
