Light voter turnout OK's amendments

Follows trend through state

In one of the lightest voter turnouts in recent Cochran county history, countains gave their approval to the two state constitutional amendments which were the sole items on the ballot. Light though it was, the vote was fairly well balanced, with the retired teachers pay proposition winning by a margin of 173-148. The other amendment, which was for a state legislators pay and per diem increase, squeaking by in the county by 163 for and 158 against.

This followed the state-wide trend which saw the legislative pay raise pass by a considerably narrower margin than the teachers retirement.

The legislator's amendment passed 307, 243, to 219, 725, according to the latest returns from the Texas Election Bureau in Dallas. The teachers and state employee retirement proposal won more handily, receiving 393, 470 votes for to 138, 343 against.

No organized opposition to either amendment was mounted, nor was there any overt campaign to pass the proposals except for teachers groups who backed the Legislative pay raise proposal hoping the one to raise their retirement benefits would also pass!

The teachers' amendment increased the amount of money the state is allowed to contribute to teacher and public employee retirement funds. The legislature authorized \$120 million in appropriations to the funds to the funds to finance pension increases initiated in February, on a contingency basis. Tuesday's vote was required to make the increases permanent.

Under the amendment passed Tuesday, legislators will now receive \$7200 a year. Their old salary was \$4800 a year.

They also receive an increase from \$12 to \$30 a day in expense allowances during legislative session and a raise in their travel allowance from 10 cents to 16 cents per mile.

BIG TRIBE TOMAHAWKS--Those weapons Precilla Minor and Sherita Fluit are holding may not look exactly like tomahawks, but they have been used effectively this season in "axing" opponents to the tune of a 26-6 record and second place in the regional tournament in Odessa last week. There they qualified to advance to the state tournament in Austin to be held May 2-3, with an eye toward all the marbles. This is the second consecutive year that the Indians are assured of being represented in the state tournament, and after the boys regionals this weekend, there may be more.

Notaries given renewal reminder

Texas SECRETARY OF STATE Mark White today announced that all presently commissioned Notaries Public desiring re-appointment for the new term which begins June 1, 1975 and ends June 1, 1977, must pay the required fee and file a new oath and bond with the county Clerk between May 1, 1975 and May 15, 1975, inclusive.

Secretary White further stated that any person not now a Notary Public who desires appointment for the beginning of the new term on June 1, 1975, should apply to the County Clerk before April 30, 1975. The required application forms may be obtained from the County Clerk.

Mr. White emphasized that Notaries Public should not send requests for appointment or for commissions directly to the Secretary of State as the law specifically provides that the County Clerk approve Notary Bonds and forward copies of the application to the Secretary of State.

This whole thing is unreal--Ted Whillock, what are you trying to do to us?

The answer to that question lies in next year's Indian basketball schedule. We fans of the Tribe will wind up--before district play begins--as either fingernail consuming zombies, or fanatical followers who believe their ball team is capable of all things.

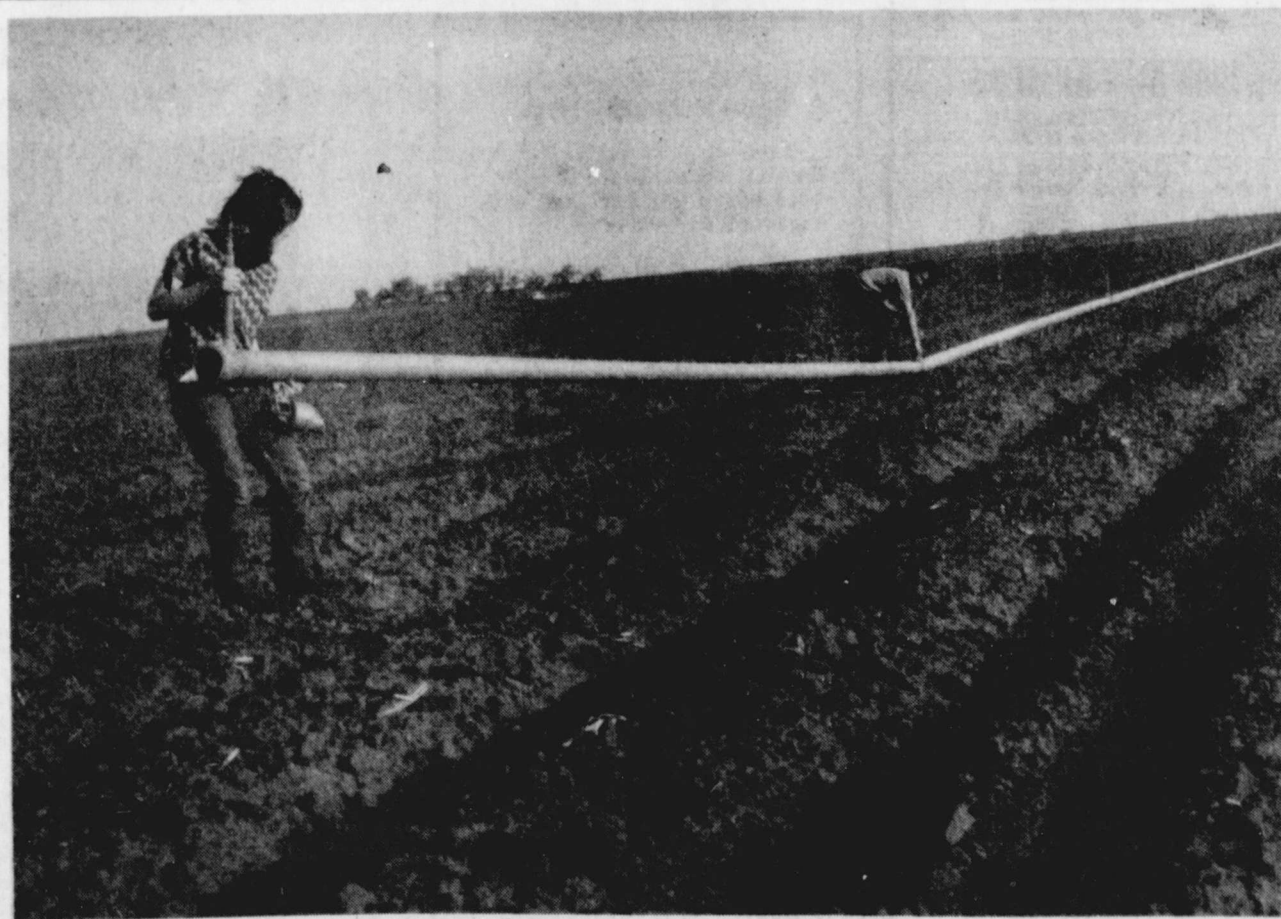

At this point, we reluctantly feel that we have a good chance of winding up in the former camp, but certainly hope we will wind up in the latter.

As a little insight into our thinking on this subject, let's list the pre-district game schedule that's released early this week (Only varsity games listed.)

WHAT JUVENILE DELINQUENCY PROBLEM?--When you are a proud tanner and have a Deana and Todd Zuber on your side, you don't have to waste much time thinking about today's world and the problem children in it. Deana, 14, and an eighth grader, and Todd, 13 and a fifth grader, had laid approximately 1/2 mile of pipe between school dismissal and 6 p.m. Monday evening when the

TRIBUNE CAMERA HAPPENED UPON THEM BY MERE ACCIDENT. They were working so hard and were so enthusiastic about it, that the situation just begged for a picture. Soon tall, proud cotton will stand where those bleak, bare rows extend now--and Deana and Todd can be proud of their part in making it grow. They are the daughter and son of the Wilburn E. Zubers.

DDT substitutes being sought

COOK'S HUMOR

If you come across the ingredient vanilla de Marseille in a French recipe, it helps to know a little about Gallic humor — this is a joking reference to garlic.

WTCC surey indicates confidence in U. S. economy

A sample of West Texas Chamber of Commerce members (60 percent) expect an upturn in the nation's economy while 24 percent expect a downturn and 16 percent expect no change according to results of a recent survey of a sample of one-fourth of the membership.

The results of the survey of a cross-section of the West Texas Chamber of Commerce membership were announced recently by Executive Vice President J. Fike Godfrey. 822 members were sent surveys and 338 members returned the survey. It covered such diverse topics as the recession, determining what the members considered as the Nation's, the State's, their cities' and their own business' biggest problems are for 1975.

The West Texans were about evenly divided on whether the recession would take an upturn in 6 months (58 percent) or would be a year or longer (42 percent).

As for our National Problems, those returning the survey indicated that "Inflation," "Recession," "Government Spending" and "Leadership by the Administration" were closely bunched at the top of the list.

"National Regulations on

business," "Actions of Congress and Welfare Reform" were grouped in a second level of concern. And bringing up the bottom of concern were: "Actions of the Supreme Court," "Health Care," "Detente with Russia and China" and the "U.S. Post Office" in that order.

The state of Texas' biggest problems for 1975 were headed by "Actions of the Legislature" as number one followed at a lower level by "State Budget Demands," "State Leadership of Highest Office Holders," "Local Education," "State Regulations on Business," "Welfare Program" and "State Budget Cuts." All closely bunched and in the order listed. A low level of concern was "Higher Education."

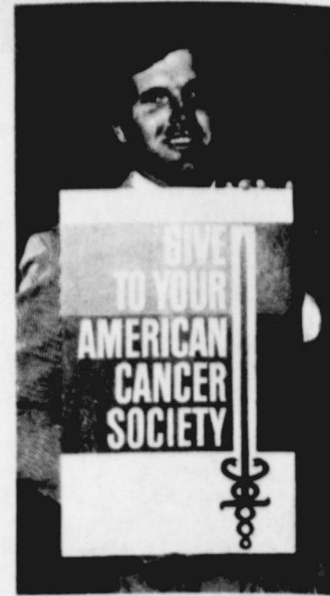

The local cities problems that were considered to be of the most concern for 1975 were "School Financing," "Housing and Local Taxes" closely bunched at the top, followed at a lower level by "Expansion of Needed City Services," while bringing up the rear at a much lower level was "Medical Services."

The West Texas Chamber of Commerce members listed their Business' Biggest Problems for 1975 as "Cost of Doing Business" as number one and "Inflation" number two. "Recession" was listed as third but at an appreciable lower level along with "Federal Government Regulations." Following together in a crowd at a lower

level of concern in the following order were "State Government Regulations," "Making a Profit," "Capital Monetary Needs for Your Business," "Shortages" and "Drop in Business," "Labor Supply" and "Price Resistance" by Customers.

Finally, at the bottom of West Texas business problems for 1975 were "Filling orders or having enough merchandise or being able to provide enough of the service you sell."

Results of the survey would seem to indicate that West Texans' major problems are caused by the Federal and State Government.

Letter to the Editor

Dear Community Citizens:

We look to you for guidance, love and understanding. We try to follow your Christian principles but sometimes you confuse us. Are you as understanding as you should be? Do you really see both sides of conflicts — there are two sides you know.

Do you really try to make our community a better place to live for ALL people — or do you see only your segment of people? Are you concerned only in what your children are involved in or can you see programs for ALL children?

Adults are you acting in a Christian manner?

Sincerely,
Vickie Hall, Elia Reyes, Kenneth Egger, Beverly Bridges, Sherita Flutt, Doretha Patton, Teri Dobson, Cindy Tanner, Kathy Mason, Tommy McClintock, Gail Basped, Billie Pritchett, Dexter Pritchett, Yvonna Vanstony, Precilla Minor, Robbie Sanders, Sabrina Wells, Verna Richards.

Dear Editor:

As a citizen, I wish the teachers in our schools could find it in their hearts to remain in the community on the weekends and contribute to churches, schools and community events, rather than staying a few days and spending money and time elsewhere.

WE NEED PEOPLE WHO REALLY ENJOY OUR COMMUNITY AND ARE WILLING TO HELP.

Some schools demand this — A Citizen.

'Light' at End of Tunnel Is Really the 'Bullet Train'

The Japanese National Railways (JNR) now provides direct, super express train service between the nation's capital, Tokyo, and Hakata on Kyushu Island. Sleek trains named "Hikari" (meaning "light" in Japanese) cover the 730-mile distance between the two cities in 6 hours and 56 minutes. The end of the line is the Kammon Tunnel, linkage between Honshu and Kyushu Islands.

Popularly called "bullet" trains because of their missile shape as well as their speed, the Hikari travels at 130 m.p.h., reducing the former travel time by three and a half hours, and eliminates tedious transfers.

The new service has 45 daily departures — 23 westbound from Tokyo and 22 eastbound from Hakata. Each run consists of 16 interconnected coach cars with a total seating capacity of 1,400. In addition to a buffet car serving light meals, the Hikari includes a diner offering full sit down meals. An enlarged boarding area enables passengers on wheelchairs easy access as well as space in the coaches for storing equipment for the handicapped.

The link up of Tokyo and Hakata on Japan's southernmost island of Kyushu represents a giant step toward the completion of a nationwide network of super express rail service by JNR. It greatly enhances tourist access to resorts in Kyushu such as Beppu, Nagasaki and Mt. Aso — and for native residents it's the fast way home.

Handling The Problem

Seems everyone is alarmed concerning our school problems, and we have had some. I think our school board can and will handle these problems. To us they may seem to act slow sometimes but they are guided by certain rules they must follow. I think we as citizens should give them our support not criticism. I think they will get on whoever toes that is necessary to keep our schools in shape. It may be necessary for them to take some hard action & to get tough to straighten our problems out, but they have the power, they are our spokesman, they represent the citizens and I know they will do their job wisely, and efficiently. Horsemanship clinic slated in Lubbock

A two-evening horsemanship clinic for horsemen of all ages and experience has been set for April 28 and 29.

The Livestock Pavilion at Panhandle South Plains Fair Grounds is the site of the event, according to Billy C. Gunter, district extension agent.

Fundamentals of horsemanship, biting horses, and training horses to perform basic maneuvers comprise the first night's agenda.

Registration is 5:00-6:00 p.m. on the first evening. Fee is \$2 for adults and \$1 for youth under 19.

The second night program includes grooming, showmanship at halter, western pleasure, horsemanship, reining, and timed events. Both evening programs last until 9:30 or 10:00 p.m.

Two noted horse specialists with the Texas Agricultural

Extension Service and a local horse breeder are instructors for the clinic. They are B.F. Yeates and Dr. Gary D. Potter, both of College Station, and Lynn Peveler.

Gordon Harris, Yoakum County Extension Agent, and Ken Cook, Lubbock County Extension Agent, are coordinating the clinic.

South Plains Development Program (SPD) of the Texas Agricultural Extension Service is sponsoring the event.

Skills, lectures, and demonstrations are methods of teaching to be used. Anyone interested in horsemanship, horse care and training is urged to attend.

boys representative at state will be determined this weekend when the boys regional will be run off at Odessa. Last year the Tribe's Ralph Mason and David Barerra fought their way to the runnerup spot before being defeated by the state champion doubles team.

Minor and Fluit, whose season record now stands at 26-6, defeated teams from Phillips, Ozona and Slaton before losing out in the finals. In the championship round they were finally conquered in split sets by FLOYDADA's strong Marble and Johnson 2-6, 6-4, 6-4.

Other Morton girls playing outstanding tennis at the regional tournament were TERI Dobson who won two matches before bowing out in the semi-finals and Joann Whitehead and Kathy Mason, who won their first two matches before losing to Marble and Johnson of Floydada in the semi-finals.

The demonstrations at the Festival will be similar to those presented on the "You Can Do It" TV Series.

The demonstrations will be presented by Marsha King, Decorator Consultant from Lubbock; Lynn Bourland, Family Resource Management Specialist, Texas Agricultural Extension Service, College Station; Robin Taylor, Bailey County Extension Agent, Muleshoe; Dorothy Powell, Lamb County Extension Agent, Littlefield and Gail Gladden, Cochran County Extension Agent.

The Fixit-Festival is being sponsored by the Cochran County Family Living Committee and The Texas Agricultural Extension Service. There is no charge for the program and it is open to everyone regardless of race, religion or national origin.

The Festivals are also being held in Lamb and Bailey Counties. The Lamb County Festival will be April 29 and Bailey County Festival will be April 30.

State of Texas, County of Cochran
 Sworn to and subscribed before me this 22nd day of April, 1975.
 and I hereby certify that I am not an officer or director of this bank.
 My commission expires June 1, 1977.

Let us pointedly note that only 22 of 2,303 registered voters in the county bothered to cast their vote in the constitutional amendment election held here Tuesday. The figures out to thirteen percent of those eligible.

The next time some vocal local yoke complains about how the state and local government is being operated, we feel we will have a 1 to 1 opportunity to slap him up by asking how he voted in these two very important amendments to our state constitution.

PSALM 16:11

HERE IS THE PATH

Marshmallow World

It's a marshmallow world—at least, through the eyes of children—a wonderful world of discovery. Each day brings new happiness, exploring exciting sights and sounds. Their trust and belief make every day a fascinating adventure. But what happens when they grow up? The staggering pressures of today's modern world take the beauty and excitement out of life. Greed, crime and the struggle of earning a living all filter out the joy and sprightliness of the days are long. But with all its problems, life is still incredibly beautiful. When we forget that it is, we need to be reminded that life has a meaning—we need to take on the faith of a child. Come to that constant source of inspiration and truth and renew your strength in the Church.

Mrs. Crowder discusses social problems at meet

The program for the 1936 Study Club was based on the stark contrast between the old American dreams of the Pilgrims and the new American reality, Wednesday, April 16, at the First State Bank. Mrs. B.H. Tucker was hostess for the afternoon meeting.

Mrs. John Crowder acted as moderator for a round-table discussion of the pressing social problems of America today. Among the topics were racism, pollution, energy, over population, and the gap between rich and poor. She summed up the question of too much or too little government control by reminding the members that "Liberty is the luxury of self discipline" and that each citizen has a responsibility in the continuing search for a promised land. She spoke of the times in history when people have overthrown tyranny and enjoyed the uses of freedom only to abuse that freedom and again return to tyranny.

Mrs. Lessye Silvers presided over the business meeting. She asked members for suggestions for next year's programs. Mrs. D.E. Benham led the group in reciting the American's Creed. Others present were: Mmes Neal Rose, Iva Williams, Glenn

Thompson, John L. McGee, M.C. Ledbetter, W.W. Smith, James Price and W.C. Benham.

Soil Conservation Service observes fortieth anniversary

April 27, 1975, marks the 40th anniversary of the SOIL Conservation Service of the U. S. Department of Agriculture.

"Soil and water conservation districts have grown beside the Soil Conservation Service, bringing a better life and future to everyone," a local conservation leader said.

George Martin, chairman of the COCHRAN SOIL AND Water Conservation District, said the SCS has been giving technical help to landowners here since 1940.

The Cochran SOIL AND Water Conservation District, organized in 1940, was created to help the landowners in Cochran County develop needed conservation measures. SCS assists the district under a jointly-signed agreement.

"The COCHRAN District covers about 501,480 acres with 738 operating units," said Martin. "About 691 landowners are planning and applying conservation practices on their land with the technical assistance of the Soil Conservation Service," he said. SCS conservation professionals assisting the Cochran district are Bob Walkup, District Conservationist, SOLOMON Hamilton, Soil Conservationist, and Donald Bales, Conservation Technician.

TOWER TALKS

by U.S. Senator for Texas
JOHN TOWER

Dominoes, anyone?

WASHINGTON—"The discredited domino theory..." You've heard that phrase before. It drips like honey from the tongues of television newscasters. It punctuates the lectures of political science professors. And it is the sum and substance of the geopolitical thinking of all too many Senators and Congressmen.

But when was the "discredited domino theory" discredited?

President Eisenhower put the "domino theory" into our political vocabulary when, at a news conference in April, 1954, he was asked what the consequences would be of a Communist victory over the French in North Vietnam.

President Eisenhower said: "... you have broader considerations that might follow what you would call the 'falling domino' principle. You have a row of dominoes set up, you knock over the first one, and what will happen to the last one is the certainty that it will go over quickly."

Eisenhower meant that if Communist aggression was not checked, it would spread throughout Southeast Asia in much the same way as Nazi aggression spread through Europe in the 1930s.

"We come to the possible sequence of events," he said, "the loss of Indochina, of Burma, of Thailand, of the Peninsula and Indonesia following..."

With the benefit of 20-20 hindsight, we can determine whether Eisenhower was right or wrong.

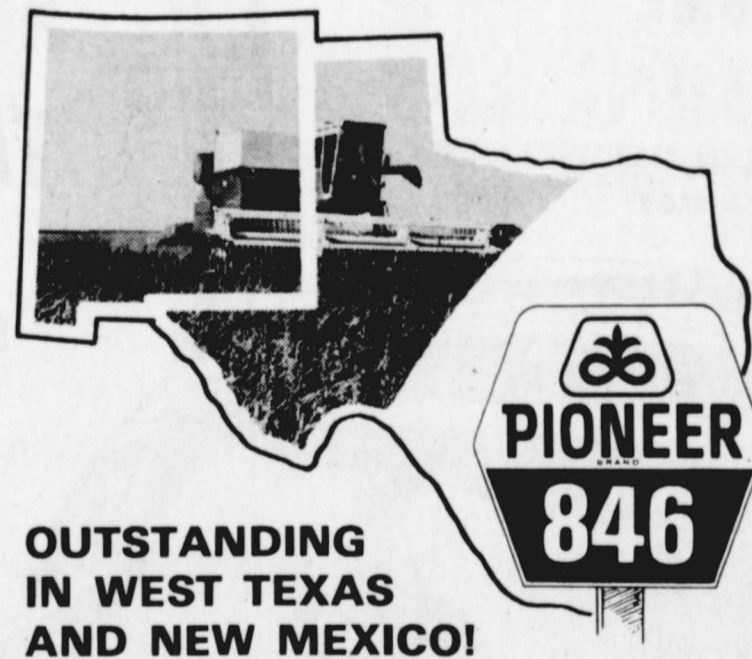

In 1954, shortly after the President's press conference, the Communists came to power in North Vietnam. After a bloody period of consolidating their gains, North Vietnamese Communists sponsored insurgents in Laos, resulting in the formation of a neutralist government there in 1961. With the Ho Chi Minh Trail through Laos now secure, the North Vietnamese stepped up aggression against South Vietnam. When the Cambodian people threw out a pro-Communist ruler there, the North Vietnamese organized an insurgency against that beleaguered country.

The Thais have perhaps the most sensitive political antennae of all the Indochinese people. They "allied" themselves with the Japanese just in time to prevent an occupation of their country during WWII, and switched to the Americans before it was clear to most others that the Rising Sun was setting. The Thais have recently asked the Americans to leave their country. They know which way the dominoes are falling.

If Thailand makes an "independent accommodation" with the Communists, the road to Malaysia, the Philippines, Indonesia and Australia is clear.

In the 1954 press conference, Eisenhower said: "the possible consequences of the loss are just incalculable to the Free World."

That was true then, and it is true now.
