BROWNFIELD, TERRY COUNTY, TEXAS, JULY 19, 1929

NUMBER 43

School Bonds Go Over 2 to 1 Majority Mon

Not a great deal of opposition developed Monday to the bond election here that day when \$75,000.00 were voted for the building of the Senior High School. The most objection that we heard was from some that felt that in all probability not enough money was being voted, and they feared that an additional amount will have to be voted in the next few years to augment what was voted Monday. Well, in all likelihood this will be the case anyway, for Brownfield will grow in the next few years as it has never before grown, and we will have to keep building more schools, just like every other growing town on the Plains is having to do.

With the completion of the laying of gas mains over the city, the paving of the business section, and now the provision for schools equal to the very best, people from the worn out east are going to come to the fertile country, buy our lands and rear and educate their families. And they will be the best class of people too, for the other kind don't care about either conveniences or the schools. The best people do care, and will not go to a place that does not provide them. The vote stood 179 to 51 in favor of the bonds, according to the figures given us.

There were several who did effective work for them, among whom we might mention the trustees, lead by their president, Fred Smith. Prof. W. B. Toone was also active in putting the issue before the people and to show them wherein they could greatly improve the school system with the least possible cost right now. Then there were a number of ladies representing the several churches of the city who did effective work with the phone, and by calling at the homes of the voters and carrying the lady voters to the polls if need be. There were others who encouraged a good vote on this issue one way or another and all deserve credit.

We want to edge in a good word for our superintendent right here. Most of us who have watched him know that he is a tireless worker for the school. He doesn't seem to have any other side line to work at, and his business with you if he has any is always for the school. We know that he is a good educator, and knows how to impart knowledge to others. But there is still another side to Prof. Toone that is very commendable in him as the head of our faculty, and as an advisor to the board of trustees, and that is he has business ability. The woods are full of superintendents who know how to spend money for the people, but know nothing or do not seem to care about saving any for them. One of the trustees informed us recently that he was one of the most valuable school executives he ever worked with; that Mr. Toone after suggested short cuts and better economy methods of doing things to them that meant big savings to the district in a year's time.

In conversation with Fred Smith, president of the board Tuesday morning, he informed us that they hoped to have the material on the ground and construction ready to begin by September 1st, and that they hoped to have the building ready for occupancy by December 1st, and not later than the beginning of the new year.

Club Boys Train at The Tech College

County Agent Roy B. Davis carried eleven Terry county club boys to Lubbock Monday where they practiced judging at the Tech College.

The Tech College offers good classes in dairy cattle, hogs, beef cattle, and sheep, and Mr. Davis reports a good day's work with the splendid classes of livestock that were available at this institution.

The following boys were in the workout and from them the dairy cattle and livestock judging teams will be selected: Willie Arnett, Bill Gore, Ray Brownfield, Homer Causeaux, Harlar Howell, Reuben Leach, Loyd Lee, Clayton and Horace White, Owen Wasson and Malcolm Timmons.

We like to have your news items.

The Week-ender

(Copyright, W. N. U.)

Merchants Underwrite Big Ad Campaign

The Chamber of Commerce Directors met last week in the Commissioners Court room and formerly accepted the prospectus of the advertising campaign as outlined in these columns last week. This prospectus was drawn up by Mr. H. C. Davis, manager of Head-Hargrave Store here, and was formerly turned over to the Chamber of Commerce with all the ad spaces, and the editorial section left blank, in order that his firm take their proper chance with other firms on the space assigned them. The editorial were left up to the C. of C. Secretary with instructions to get what help he needed if any. Those present, most all of which were business men, considered the plan a very valuable piece of advertising propaganda to the city, if judiciously use. As to the contents of it, wait till you see it.

At this writing, Tuesday morning, we understand that every space has been taken in the circular, there being only one left on Monday. The cost for the large spaces are \$10, and the small ones \$5. This covers all cost of postage and distribution. The circular will be used mostly outside the circulation limits of the Herald, but it will be run in the Herald also.

Just a word to those merchants who underwrote this advertising campaign: Please get your data to the Herald at the earliest possible moment, for it is very essential that this campaign be put in the mails in the shortest time possible. It will be a waste of time for us to undertake to make up this huge circular if all ads are not in, and we will not start until they are. Also, you will soon be going to market for your fall and winter goods, and then you will not have time to prepare your copy. Mr. Shelton has completed his job—showed you the prospectus and sold you your space. It is up to you to fill in the space right NOW while you have it on your mind.

We want to get the people of this huge trade territory turned to Brownfield before the fall rush, and the best time to put it over is right now while the people have time to read and reflect. Let us have your copy today.

Good Gains Are Made In Fat Pig Contest

Darrel Verner, of Meadow, reports that his pig made an average of one and three-fourths pounds gains per day the first month that he had it on feed. This is an excellent daily gain for a pig that weighs under one hundred pounds. He will raise this above two pounds per day from now on until the fat pig contest closes the first day of the County Fair.

Encouraging Letter To Club Membership

It is during these long, hot days that prize winning pigs, poultry, calves, sheep, boys and girls are made. You know that it is mighty easy to neglect to water that pig during the heat of the day or to put off hoeing or plowing that crop when to do so might be the reason for winning first prize at the County Fair or possibly a trip. In my visits to the club members I find too many dry water troughs and not enough shade for pigs, in the heat of the day. When do you drink the most water? It is during the hottest part of the day, and a pig will too if you will provide water for them under a shade.

No matter what you have, please don't expect to win or to make money with it if you do not take care if it EVERY DAY.

If you have a pig in the Bell-Ende-er Contest see that it has plenty of water and shade along with all the feed that it will eat and weigh it every week or two so that you can tell if it is getting along as well as it should. If you have a pig that you are raising for breeding stock be sure that it too, has plenty of fresh water, shade and exercise. Too much fat will not be best.

If you have a Jersey calf feed it some crushed grain along with pasture on sudan. Plenty of size, especially large middle, is going to be necessary to win and to make a good producing cow.

If you have chickens it will be well to crowd them for too many are too small to enter the fall fairs and to start laying in the fall.

Keep the weeds out of your crop. They get moisture that your crop may need.

To do any or all of these things it will take work. However, if you expect to be the winner or among the winners it will be much better to trust to the rewards of work rather than luck.

Our Annual Club Rally has passed and was a success. Let us now begin looking forward to the County Fair and keep in mind that what we see at the County Fair will depend upon what we do every day.

Sincerely yours,
R. B. Davis, County Agent.

Said the "J. P." to the motorist: "Ten dollars fine."

"Can you change a twenty, Judge?" asked the motorist.

"Nope. Twenty dollars fine. Next case."

"Why are you using such a heavy roller on that potato field," asked the lady from the city.

"Because I want to grow mashed potatoes," answered the plowboy.

The Herald Just Only \$1 in Terry.

County Paving Bonds Seem to Be Passed

As we prepare to go to press, the \$15,000 bond issue for paving the public square, or the county's portion of it, seems to have been safely put over, as only the small country boxes are out, and some of them that have come in are reported to be solid for the bond issue. This was confirmed by one of the Forrester boxes and the Hunter box, both solid for the bonds and the other Forrester box giving the required two-third majority. Meadow and Union both gave an adverse vote, but Meadow was not as strong against the issue as we were led to believe last week, as only a small majority was registered against it. The report given us being 45 for and 50 against. It is reported that Johnson gave a solid or almost solid vote for the bond issue.

The vote so far turned in gives 362 for and 124 against, as follows:

Boxes	For	Against
Brownfield (4)	254	37
Meadow	45	56
Union	7	10
W. Forrester	6	0
E. Forrester	4	2
Sawyer	7	6
Hunter	11	0
Wellman	15	4
Happy	13	1
Tokio	0	8

Total 362 124
With a little better than a 3 to 1 lead, it is not believed there will be enough adverse votes in the county to materially change the results, and that the bonds will have the required two-thirds majority.

As to the Constitutional Amendments voted on at the same time, both seemed to have been hopelessly snowed under so far as Terry county is concerned.

Club Boy Purchases Registered Heifer

Homer Causeaux, of the Meadow Club, purchased a splendid yearling heifer from N. P. Tate of Loop last week. The dam of this heifer is now on official test and promises to exceed the register of merit requirements. More and BETTER Jerseys are being sought by the club boys and they never fail to take every bargain that is offered.

PECOS building permits amounting to \$40,000 were granted for structures downtown and along the highway recently. Construction of a \$40,000 building by the American Telegraph & Telephone Co. is expected to begin shortly. Plans for a new courthouse are being rushed.

Best Crop Prospects Here In Many Years

The Herald has interviewed many people the past two weeks as to crop conditions here, who have had the opportunity of going over a vast portion of the county the past few days, and we find them pretty well agreed that we have one of the best prospects at this time of year we have ever had in our history, if not the very best. These gentlemen represent all walks of life. Some of them were local merchants, some were gin men, but most of them were farmers, but all seem to see things about alike.

They say the crop is the most uniform all over the county that we have ever had, and is making the most rapid growth. Fine stands are also reported from all portions of the county on cotton as well as feeds and corn, and the average height is nearer uniform in the same fields. One farmer who has just returned from other counties on the plains informed us that while most of them had more uniform crops in size that he never saw a crop while he was away that was as well advanced as his own, or many of the crops of Terry county for that matter.

One farmer admitted that corn was beginning to need a shower, but said cotton would be better without the shower, but he said of course we could not expect to have our cake and eat it.

One of our gin men who has been in the county some fifteen years, part of the time farming himself says conditions over all portions of the county where he has been are more ideal than at any time since he has been here, and he is predicting the largest cotton yield in our history if some unforeseen thing does not interfere from now to harvest time.

Arthur Sawyer informed us that he had planted the deep broken ten acre test on his place to all field crops, and that everything was making rapid growth, and did not appear to be suffering in the least, and that he expected a bumper yield on the test. He reports that the land although very sandy by nature had not blown a bit, and the crops on it are all good stands.

Meadow Puts Over School Program Mon.

The Herald got in touch with Meadow Monday night and learned that Meadow people had put over their bond issue for \$50,000 by a majority of 29, the vote being 88 for and 53 against. The money will be used in building a modern high school.

Meadow, like Brownfield, had reached the height to which they go under present arrangements, and we were informed by some that in all probability they would have to abandon their high school department and go back to a grade school, and our informant expressed some uneasiness about the bonds carrying. While they did not go over at the tremendous majority that Brownfield people gave theirs, a safe majority was registered, and the Meadow people can again build for the future.

It has reached the point that people must educate their children or handicap them in the race of life against the competition of the children of communities who have good schools and the Meadow people do not wish to have their very best families move to communities that have good schools—they need them there.

Gaines Co. Agent Buys More Terry Club Pigs

Reg. Martin of the Tokio Club sold three nice Duroc sow pigs to Mr. R. F. McFarridge, county agent of Gaines county, to be distributed to club boys of his county. Mr. McFarridge is well pleased with the pigs that he has purchased from time to time from the club boys of Terry county and expects to place several more good gilts in Gaines County.

Evil brings its own punishment. "But a man's sin never find him out half as quick as his own wife does."

The Herald just a dollar in Yoakum.

Concerning the Trip To A. & M. College

The Terry County Delegation will leave Brownfield in the late afternoon of Saturday, July 27th for Post where the special train will be boarded for College Station.

This delegation will be composed of ten members of the judging teams together with the delegates sent by the various clubs and any boy, girl, man or woman who wishes to make the trip.

Those who contemplate going should see the county agent as soon as possible as it will be much better to make reservations not later than Monday, July 22nd. It will be best to notify the county agent by Saturday of this week if at all possible. Better accommodations can be had by sending in room reservations.

All club members will pay for their room, meals and transportation to the county agent, and he will purchase tickets and take care of other necessary purchases.

The transportation costs will be \$10.04 plus cost to and from Post. This is to and from College Station. There will be an additional transportation charge of \$3.44 to those going to Galveston on the one day excursion to that city. The registration and room charge for the five days at College is \$1.50. The meals for the five days there will cost \$5.00. There will be a charge for meals for the return trip. This is something of the way that the Terry county delegation was handled last year and it was very successful.

The trip to College and back can be made on \$20.00 and to Galveston for \$25.00. It would be advisable to have \$25.00 to \$30.00.

Mrs. E. D. Moore will act as chaperon for the girls enroute to and from the Short Course. There will be special chaperons for the girls while on the campus of A. & M. College.

Mr. Davis will accompany the delegation and will look after the boys while at the Short Course.

This trip is not compulsory in club work, but it is very instructive and is very pleasant to any person who can spare the time and money to go.

The pleasure is worth the cost of the trip besides there are a great many things that every person can learn on such a trip or vacation.

For further information see the ticket agent or the county agent.

Three Stores Suffer Burglary Sat. Night

Three of the stores of this city were entered Saturday night, and various things were missed from them when the proprietors made investigation Sunday morning. Officers have been making investigations, but so far have not given out anything that we have heard of, but all are of the opinion that it was done by local parties, and the officers are working on the case from that point of view.

The Chisholm store was entered and the thieves finding no money in the cash register, they forthwith proceeded to make havoc of the register, totally destroying it, which cost in the neighborhood of \$150. Some eight dollars worth of pennies were taken from another place, but the safe was not molested, as they never keep money in it now. This is one season that officers believe it was done by local parties, as they were on the inside of where money is kept in this store.

The Hogan Dry Goods store was entered, and some suit cases, suits and other wearing apparel were taken. From this store entrance was made into the Holms Pokus store of White & Murphy, where a small sum of money was taken. Both the other places were entered from the front door probably while the watchman was in some other portion of the town.

"Your sugar daddy has a heart of pure gold."

"Yes, it is surprising what treasures you'll find sometimes in an old chest."

The Herald thanks Mrs. J. M. Williamson for a nice sack of apricots which she brought in last week. They were a real treat of fine flavor. She has given and sold a great many from her trees, besides eating and canning as they wanted.

FIELD OF EIGHT OR TEN IN RACE FOR GOVERNOR

AUSTIN, July 8.—While committees wrestle with uninteresting figures, the foot loose legislators, waiting impatiently for the financiers to get the appropriations bills in shape, like to speculate on next year's State political campaign.

Formal announcement of Senator Thomas B. Love of Dallas, for governor, has added fuel to the flames, and everybody is counting one of the most colorful campaigns that Texas has ever witnessed. As the situation stands now, there will be a field of eight or ten.

There are now five avowed candidates, Senator Love, Oscar B. Holcombe, former mayor of Houston; Representative T. N. Mauritz of Ganada, advocate of an income tax; Miss Kate Daffin of Ennis, historian and active in the United Daughters of the Confederacy, and E. G. Senter of Dallas, writer and lawyer.

Some now in might get out. At the outset of every gubernatorial campaign there are announced candidates who decide later to pull down before the horses are led to the tape.

Lieutenant Governor Barry Miller is depended on by a large following to announce his candidacy in due time. Gossip circulating freely through the capitol has it that Earle B. Mayfield, former United States senator, contemplates making the race. The same current of talk carries the rumor that if Senator Mayfield runs former Governor Pat M. Neff of Waco will enter the field. Senator Mayfield and Governor Neff had quite a spat lately when the retiring United States Senator from Texas opposed the confirmation of the former governor as a member of the United States medication board.

WEST TEXAS FRIENDSHIP

When one does a real favor to a West Texan, especially one of the old-timers, and wins his friendship, he has won something that lasts.

This was shown in the trial of Land Commissioner Robison. A few years ago, when this district was stricken by a terrible drouth, he came to the assistance of the cattlemen of West Texas. He obtained a revaluation of their lands. Many of them believed that he saved them from ruin.

Now he is old, his health is poor, his fortune gone, he has suffered the loss of loved ones.

Time to drop a man, the cynical would say. No profit to be gained by supporting a man in that fix. He is under powerful attack. Time for others to draw off.

Well, if you want to talk that way to one of the old-timers of West Texas, stand near the door when you do so, and be ready for a rapid exit. He won't like it. He won't hesitate about letting you know most forcibly he doesn't like it.

When the news spread through West Texas that their old friend was under fire the cattlemen were practically a unit in their such to his support. Robison was defended by Dayton Moses, attorney for the Cattlemen's Association.

Witnesses by the hundreds offered to go to Austin to help with their testimony, with money, with influence, in any way possible.

Friendship? It means much to the old-timers of West Texas. It is strongest when a man is in hard luck and needs it. Turn back on a friend because he is under attack? That isn't the West Texas way—El Paso Times.

Mr. J. H. James, of Tatum, N. M., was a visitor in the city this week. He formerly resided here with his family in the pioneer days. He says Brownfield has certainly changed since he resided here.

"Have any great men ever been born in this city?" asked the inquiring young stranger.

"Nope, only babies," said the native.

4-H Clubs Have Big Day Here Friday Last

It was the intention of the Herald to put the write up of the 4-H Club Rally here last Friday on the shoulders of our smiling county agent, as he never has any work to do (?), but he slipped off and left it up to the Herald man. We were unable to attend anything except a portion of the morning session after they came down to the tabernacle and none of the afternoon session, so you see how well prepared we are to do the job.

But there were something like 400 boys and girls registered at the Baptist church before the parade through the business section started, and they were the peppiest bunch of youngsters we ever saw. Cheer after cheer echoed in the streets as the long line came down the streets, and the word "pep" was the main theme in the speeches. It was not all talk either, but "pep" was written in the faces of these boys and girls and even in their every action. However, we must say that each speaker in the forenoon had the closest possible attention during their addresses from the club members.

There were a number of good speakers on the platform for the day and we understand each gave interesting addresses on their lines. We know the two speakers in the forenoon made interesting talks whether you are a farmer or not. Several yells and pig calls were given by the united clubs, as well as the county club song. Officials of the clubs also made interesting talks. It was interesting to get verbal reports by questioning of Mr. Davis of boys and girls at random in the audience of the success they have had with pigs, calves, chickens and turkeys.

At the noon luncheon at the tabernacle, the Rotary Club put on a program for the entertainment of the boys and girls, which was said to have been highly appreciated by them. It was announced that the Johnson bunch had the greatest percent of all members present, and they are to choose from their membership the boy or girl who will go to the A. & M. at the expense of the two banks here. The money was given to the treasurer of this club.

As to what happened in the afternoon we cannot say, as we were called to the office on business, and were detained from attendance. We'll try to make Roy Davis give something on it next week before he gets off to the A. & M. with the boys and girls from here.

"Remember that 'American' ends with I-Can."

PARKING ROOM ON EVERY SIDE—USE IT

Yo-Yo Contest to Be Held Here Saturday

The male population of adult age of this city has taken the Yo Yo habit from the youngsters, and they have either left their's at home, or have sold them to the men folks, and now they just watch their elders do the stunt of making the little bright colored discs climb the string. Like all other games, there are some good and some better, and some complete fail-

ures. Also, there are some termed experts. There are at least four such in this city, who are to have an elimination contest at three next Saturday to declare the town champion. It will be held in front of the Michie Drug Store.

The contestants are Messrs. Luther French, Tom May, Everett Michie and Bob Gage. Each believe they have the prize tucked down in their pocket or on their key ring. The prize is to be a combination cork screw and bottle cap lifter, and is to be given by one of the popular hardware firms. Friends of all the contestants are

rallying around their champions, and giving hem lots of wholesome advice and encouragement. It is reported that Luther has opened his training camp at his father's farm 12 miles south of the city, but the others have opened them in or near the city, but are keeping them well screened from the gaze of enemies from rival camps.

The judges will not be announced until the contest is ready to start, but rumor has it that they will be composed of a blind man from Yoakum county, a deaf man from New Mexico, and a dumb lad from Tahoka. Meet us there.

Advertising Rates on Application

Official paper of Terry County.

Now comes a report from New Mexico that one of their sheriffs made a raid on Coffee, but got liquor. This will give those who contend that there is nothing in a name something else to argue about.

Just like Will Rogers says, the same old bunch will handle all the new dollar bills just like the did the old ones. There has not been a new one in the Herald office to date unless some of our rich, rascally friends have brought one in secluded nicely in their front britches pockets. No, we are not excited over the new dollar bills.

Well, the Brownfield business men are in for a great advertising campaign in our trade territory, and they are going after it with a determination to get all there is out of it. And another good feature is that they are doing the work and getting the advertising at cost, and not paying some promoter 200 percent profit to do something for them they can just as easily do themselves.

If hot weather is the ideal weather for cotton, there has absolutely been no room for complaint for the past week or ten days, for old Sol has beamed down as he seldom does on the Plains. It is said that one can become used to most anything, but it is hard for a Plainsman to get used to hot weather, especially if the heat extends well into the night. We are used to cool nights, but even the nights have been unusually hot of late.

Improvements of any nature seems to have a "catching" effect not unlike the itch, and when one starts to improving they see to unconsciously set an example for the neighbors to follow. One can walk or drive up and down the streets one day and see some one putting in some improvement, and in a few days the neighborhood seems to catch the spirit and start themselves. It may not all be on the outside where you can see it. There may be some on the inside of the stores or homes in the way of modern conveniences, or household necessities to beautify and attract the family, making home what it should be.

Well, the club boys and girls of Terry county had the old town by the tail and a down hill pull, as it were, again last Friday. The more we people of the town see of this fine bunch of the coming men and women of the county, the deeper our affection becomes for them, and the more we feel that we ought to help them every way possible. It is our candid opinion that the doors of the city could be thrown open to and left up to them for full 24 hours and upon our return not a pen would be missing. They have been raised right, and are now practicing what has been taught to them both at home and by

their school teachers and the county agent.

"I'm going to have the rights of every other congressman—if it's in the congressional barber shop or at a White House tea." These are the words of Oscar DePriest, Chicago negro congressman. DePriest says he is going to have what is coming to him and if social equality is not coming to him, he will have that anyway. If he were in Texas he would get "what's coming to him" all right, but we doubt if it would be White House tea. It might be "hickory tea," but we rather think it would be "grass rope" and "elbow grease."—Colorado Record.

We are almost ashamed to publish the Tribune this week on account of its size, only four pages and with only ten of our fifty business concerns represented in its columns, but it will be better next week. The size of a paper is based on the patronage that it receives from its merchants, as it is like all other institutions, it takes money to keep the wheels turning.—Lorenzo Tribune.

When merchants permit a local paper to go into the mails that the publisher is ashamed of, they are hurting themselves vastly more than they are the publisher. But it seems that the merchants in some towns will never learn this.

Well, at an rate Texas legislature passed the anti-evolution bill! It may be difficult for it to convince the people that there isn't anything in the theory of evolution, considering the exhibition just closed, but at least it "seen its duty and done it." It would have been a terrible thing for the younger generation to have gone on thinking as they pleased—if, so be, they gave the matter any thought whatever—and it was tremendously important that action should be taken even though tax rates, appropriations, the penitentiary and sundry other bills were neglected. We are now all set to give educators "the air" if anything they say or do can possibly be construed as favoring the theory of evolution. There may be those who indulge the notion that it would have been a good thing for the legislators to spend more time paring the appropriation bills which considerably exceeded the budget thereby causing the Governor to call a third special session but schools will soon begin again and it was vitally important that all M. A.'s, Ph. D.'s, Profs. and just common ordinary teachers be forewarned that their smartness wouldn't help them a bit if they were caught monkeying with the Genesis version of the creation. Of course, that settles the matter and henceforth and forever no Texan will be guilty of claiming kinship with the simians. Only a few of our five million inhabitants are related to the members of the Forty-first Legislature, anyhow.—Southwest Plainsman.

CARD OF THANKS

We wish to thank our many neighbors and friends of Brownfield for the sympathy and kindness shown us in the loss of our precious little Helen. May God bless each of you.

Bailey Bridge and wife,
H. L. Bridge and family.

BIG SPRING's Petroleum building was accepted by the Directors recently and a formal opening held shortly following. The building was constructed by a stock company composed of local citizens. A \$10,000 bonus to be used for the purchase of the site was given by the Big Spring Chamber of Commerce.

are secured by vendor's and deed of trust liens on said land; that said land was conveyed by J. M. Bizzell, Jr., and wife to Jack Woodard, December 1, 1923, and said Woodard assumed the payment of said notes; that all of said notes and the liens securing same were transferred by Thos. C. Spearman to plaintiff for a valuable consideration before the maturity thereof; that Notes Nos. 1, 2 and 3 were extended to December 1, 1928, 1929, and 1930, respectively; that default was made in the payment of the principal and interest due December 1, 1924, 1925, 1926 and 1927, and plaintiff declared all of said notes due and placed the same in the hands of his attorneys for collection; that default was made in the payment of State and County taxes for the years 1924, 1925 and 1926, on the South Half (S 1/2) of said land, and plaintiff paid said delinquent taxes amounting to \$73.76; that default was made in the payment of the School taxes for the years 1925 and 1926, and plaintiff paid said taxes amounting to \$50.92 on June 1, 1928, under the terms of the Deed of Trust, and defendants are liable to plaintiff for the amount paid for taxes with 10% per annum interest thereon. That defendants, A. E. Mills, G. W. Byrd, Jodie Shuping, Mrs. N. C. McConnell, S. D. McConnell, and Wayne F. Arthur, are asserting some liens or claims to said land, which are subordinate and inferior to the liens held by plaintiff. Plaintiff prays for judgment against J. M. Bizzell, Jr. and Jack Woodard for the principal, interest and attorney's fees due upon said notes, and the amount paid for taxes, with interest; for costs of suit; and against all of the defendants for foreclosure of his vendor's and deed of trust liens; for order of sale; writ of possession; and such other and further relief, both at law and in equity, general and special, to which plaintiff may be entitled.

Herein Fail Not, and have you before said Court, at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same.

Given under my hand and the Seal of said Court, at office in Brownfield, Texas, this the 1st day of July, A. D. 1929.

**Largest Display Room
West of Fort Worth**

Work is now under way remodeling the Tudor Sales show rooms, which when complete and opened up will give this firm what is said to be the largest automobile display room west of Fort Worth in Texas. The new addition will be 50X50, which added to the other, will give them display rooms alone of 50X100 feet. The new portion will give them 2500 square feet more space. This is as large as the average show rooms, storage and work shops combined of the average small town automobile agency.

Fronting 100 feet on west Main, (120 to 124) 120 to 122 have always been used as an entrance to the storage compartments of the building, using only 123 and 124 west Main as show rooms. With the remodeling will go new concrete floors, new metal ceiling to match the other show room, the wall will be replastered, and the decorators art will be brought into play to make this just as attractive as the original compartment. While this will take quite a considerable outlay of money, Mr. Tudor informed us that he was doing this both to increase his show space, and to make his building more attractive. New plate glass will replace the old wooden doors, and entrance to the storage compartment will be reached from the rear.

Mr. Tudor is unloading five new Fords this week, which he said was about one-third the number he really needed.

**Speaking on Court-
house Lawn Sat. P. M.**

Mr. J. A. Johnson, of Lou, was in one day this week and requested that we announce that there would be a public speaking on the courthouse lawn Saturday afternoon at 3 o'clock.

The farmers are especially requested to be present as the Farm Relief Bill will be discussed and of its benefit to the farmer.

Mr. Johnson said that a speaker that was on the program here last week at the Club Rally would address the farmers, Saturday, and that means they will be well entertained and instructed.

J. C. Hunter, who conducts a truck to and from Lubbock each day, is now a regular reader of the Herald.

**Sage of Nubbin Ridges
Thrown in the Cooler**

The Herald had some more adverse reports concerning our old friend, the Sage of Nubbin Ridge via the Wheatley route the past week, and like the other report kinder looked thin to us, but Wheatley says he will stand behind the statements and shield the Herald from all damage suits. One R. Stice also seemed to have a great deal to do with the report as well as other Johnson citizens, until it sure looks like they are trying to frame our friend, Mr. Ridge. But as he never comes in to deny or confirm these reports, what are we to do?

These men solemnly report on what they declare to be reliable sources that Mr. Nubbin spent at least one night while down in Haskell county in that county's cooler. The reports says that he made a campaign speech for the socialist party without the formality of obtaining a permit. And they report that the Sage was very indignant about the matter, as he was under the impression that this country allowed all the Free and Unlimited Coinage of Speech one might have under his honest but unbuttoned shirt bosom, but the Haskell police showed him that this country does not always practice what it preaches. Of course he got insulted about the matter and returned to old Terry where he can air his views at will.

We understand that the Sage has also become quite incensed at the Hon Commissioners Court here and promises a hot campaign against them next year. It is his intention, it is reported, to replace them with his own cohorts, he himself presiding at the east end of the table. What up your knives, men, for we are in for a big political campaign next year, and you'll want your old barlow in good whittling order while you listen to campaign speeches.

Some women seem to believe they have sufficient will power to gossip or leave it alone.

**Get set for
extra miles**

YOUR speedometer wants to tell a story—and it's a story with a happy ending, too. It wants to show you just how much extra mileage is really packed into Conoco Gasoline. So give it a chance.

Note your mileage the next time you fill with Conoco—then keep an accurate record of your miles per gallon. That's the way to prove to your own satisfaction that Conoco is the real low cost economy fuel for summer driving.

Look for the sign of the Continental Soldier—it's the symbol of extra miles. Back of that sign stand the resources and experience of an organization which has been serving the public with petroleum products for almost half a century.

HUDGENS & KNIGHT

GRAPEFRUIT THREE-FOURTHS OF TEXAS CITRUS OUTPUT

Although the lower Rio Grande Valley produces a grapefruit that now takes precedence over the California or Florida fruit, Texas is still a poor third in citrus fruit production. With several million citrus fruit trees now

planted, however, when they all come into bearing, there should be a different standing. It is estimated that grapefruit trees comprise 65 to 75 per cent of the trees now planted in the Valley; oranges 20 to 30 per cent; and lemons the remainder.

Plains Stages Polo Game Past Sunday

We had a spirited Polo game yesterday, as follows:

Line up—Captain Ingerton of Lubbock Tech College, N. W. Sides of Lubbock, W. L. Turner and W. C. Lewis of Plains, against Dr. Harborough V. S. of Tech College, Robert Hester of Lubbock, and Carl Rushing and Ralph Bennett of Plains.

A rousing game was played and resulted in a score of 5 to 4, in favor of the last named four players.

The Lubbock boys have the old F. L. Boyd home place leased here north of Plains and have had some polo ponies quartered there and in training for a month or two. The real game of the season is slated for next Sunday, July 21st. The games are attracting crowds from Lubbock, New Mexico and other points. Come over.
—Cow Puncher from Plains.

Plumbing Gas Fitting Electrical

Concerning the New Highway Legislation

Austin, Texas, July 5, 1929.—The Legislature has passed the 4c gasoline tax bill, together with a revision of the registration fees on automobiles. The 4c gasoline tax is the Bill of Representative Leonard Tillotson of Sealy, which provides for collecting the tax on those who use gasoline in the State, as well as those who engage in the occupation of selling gasoline at wholesale. It is estimated that by placing the tax on the use of gasoline as well as the sale it will increase the revenue to the State from this source by at least 15 per cent, and collect the tax on as much as 850,000,000 gallons of gasoline in 1930, and this after allowing a deduction for exempting gasoline used in farm tractors and for other purposes.

The Registration Fee Bill is also by Tillotson, and follows the general plan of his original measure, but is amended to reduce the fees on passenger or family cars by 50 per cent instead of 30 per cent from the present fees, as the Bill originally provided; but leaves the fees on trucks and busses as they are now, and divides the fees between the counties and the State on the basis of the first \$50,000 collected to be retained by the County, and an equal division of the remainder of the fees above the first \$50,000, between the State and counties, up to a maximum for any one county of \$175,000 a year. This

legislation follows the general plan of highway financing from current revenues supported by Representative Tillotson, and will, while providing very satisfactorily for the efficient operation of the State Highway Department, give to the great majority of the counties an increase from registration fees over their present allotment. Representative Tillotson estimates that the new law will produce for the State in 1930 a minimum of \$28,500,000 and for the counties at least \$8,500,000, and that the State income will increase at a rate of not less than 10 per cent a year, and the county income will increase from 5 to 10 per cent each year.

STATE FAIR TO HAVE THREE LARGER BUILDINGS

Dallas, Texas, July 15.—One new building and two with larger space will be ready in time for the opening of the State Fair, October 12th, it has been announced by T. E. Jackson, president of the state exposition. A new Livestock Coliseum with an arena 100 by 168 feet and a seating capacity of 6,000 is now under construction.

Work has also started on the balcony in the Agriculture Building. The balcony will add one-third more space to this building. Greater floor space will be arranged for the Poultry Show.

Experts say business letters should have imagination and honesty. But the imagination is what makes some of them dishonest.

G. G. G. CLUB

The G. G. G. Club met Saturday evening, July 6, in a call session. We sang some of the club songs and gave the pig yell. Some of the boys came out so loud on "pig" that their pigs heard and made trek. Therefore some of the boys spent the remainder of the evening and night in hunting their pigs.

My! But the 4-H's poultry is doing so well that they will undoubtedly carry off many ribbons at the Fair this fall. Mildred Fore still has all of her chickens, and reports that they

are doing fine.

The pie supper brought in "healthy" proceeds of pocket change as well as fun for all. We had thirteen pies, lemonade and candy which brought \$18.75. This will be used to send our delegates to the Short Course.

Rally Day proved a "howling" success in every way for all Club members. Those who did not attend missed some talks that would have done anyone much lasting good.

We wish to extend our heartfelt thanks to the local Chamber of Commerce and Farm Bureau for the appetizing lunch they gave us, and to

the local Rotary Club for the show they gave us. As the boys and girls of today will be the men and women of tomorrow, we hope that the assistance you have given and are giving us will make us the better leaders of tomorrow.

—Reporter.

Mrs. M. E. Spear left last week for Ruidoso, N. M., to take her baby who developed hay fever asthma for a change of climate. The baby was reported some better when she wrote the Herald to have her paper sent out there awhile.

HALE CENTER had shipped 300 cars of wheat and other grain by both elevators and independent shippers up to a little over a week ago. It is estimated that over 80% of the wheat has already been harvested. The 1929 crop promises to be one of the largest from the standpoint of yield in many years.

Through the columns of the Herald, the church of God at Forrester wishes to thank the business men of this city for their liberal donations to their church building recently erected. The donations amounted to about \$119.00.

Uncle Al Turner is now trading either new or second hand Ford cars for live stock, he says.

J. L. O'Connor from Kansas City, and Mrs. S. F. Rodgers, of Amarillo, came in Tuesday to visit their parents, Mr. and Mrs. J. H. O'Connor and sister, Mrs. R. E. Hamilton.

The new combination Victor phonograph and radio is on display now at the Palace Drug Store, and is attracting quite a lot of attention from prospective buyers. This is the first radio the Victor people have brought out. Aside from its utility, it is a beautiful piece of furniture.

Guy Batis and William Lewis,

young business men from San Texas, were here this week looking for a business location. They are friends of W. G. Harris.

T. H. Wilson, of Lamesa, for proprietor of the Sanitary Bazaar here, was a visitor here over week end with his family, in the home of Mr. and Mrs. Claude Hudgens.

OF COURSE IT PAYS

In this day and time it would seem that about the most foolish question anyone could ask is "Does Advertising Pay?" But a great many local business men, if they do not actually ask the question give a negative answer by their actions.

There is a reason for their belief that advertising would not pay them in many cases. Perhaps these fellows have used a small advertisement now and then and because their business was not doubled overnight were disappointed and concluded that it

did not pay. In other cases the failure of advertising was due to poor and uninteresting copy, or an inferior medium. Again it might be because the general reputation of the firm was not such as to give the public confidence in its merchandise.

Advertising will not make an unattractive, slipshod, or unreliable store prosperous. But if the merchant has the right goods at the right prices, displays them attractively and gives his customers attentive service, judicious advertising will be the very best investment one can make.

One tobacco company is spending

\$12,000,000 this year in advertising a single brand of cigarettes, and declares that its increased business has far more than justified the expenditure already.

Of course advertising pays, if properly done and provided the advertiser has the goods and prices to back it up.—Exchange.

Miss Dollie Miller, of Plainview, was down over the week end visiting in the Stricklin home.

SOCIETY and Club

MRS. R. L. BOWERS, Editor
Phone 1-8-2

Miss Robbie Marion Hardin will write the society and club news for a month or so, as Mrs. Bowers is out of town.

MRS. McSPADDEN CLUB HOSTESS.

Mrs. Flem McSpadden was hostess to the I-Deal Klub Wednesday afternoon at four o'clock. A pretty motif of yellow and white was carried out with the use of flowers. Small begonia plants in pots were given as table cut prizes and a large begonia as high score prize. Those receiving the table prizes were Mrs. Enderesen, Mrs. DuBois and Mrs. McGowan. Mrs. DuBois scored high.

A pretty plate was served consisting sandwiches, pineapple and cheese salad, iced tea, cake and sherbet served in an imitation flower pot with a pretty nasturtium in it.

The guests were Mesdames McDuffie, Ralph Carter, Michie, Arthur Sawyer, Leo Holmes, Enderesen, DuBois, McGowan, Ike Bailey, R. L. Harriss, Fred Smith and Bowers.

MRS. HARDIN GIVES PICNIC FOR SUNDAY SCHOOL CLASS.

Mrs. W. G. Hardin gave her class of small children of the Church of Christ Sunday School a picnic Tuesday afternoon at the Sand Hills. She was assisted by her daughters, Misses Robbie Marion and Kathleen and Miss Bonita Neal.

The little folks enjoying this outing were Mary Lena Winston, Betty Neal, Caroline and Geraldine Jones, La Verne Collier, Mildred Collier, Alta Myers, Sammie Legg, Loretta Carr, Earline and Evelyn Jones, Jane Brownfield, Mary Faith Harris, Doris Carr, Harry Neal, Carol Collier, Grady and Archie B. Carr, Billie and Joe Ralph Hardin.

THE RUTH CLASS ELECTS OFFICERS.

The Ruth Class of the Baptist Sunday School met Wednesday afternoon with Mrs. Tom Glover and elected the following officers: President, Miss Lola Mae Tittle; first vice-president, Miss Mae Holgate; second vice-president, Miss Wynona Burnett; third vice-president, Miss Phyllis Holgate; Secretary, Miss Mary Coe; reporter, Miss Vivian Clare.

Mrs. Earle Williams entertained with some musical selections after which iced tea and cakes were served to Misses Mae Holgate, Lola Mae Tittle, Wynona Burnett and Mary Coe.

PICNIC FOR GUESTS

Mrs. Allan Owen entertained Monday evening with a picnic at the sand hills honoring her guests, Messrs. Bob and George Owen and Miss Hazel Owen of Childress. Fried chicken, potato chips, salad, olives, ice cream and cake were spread for Misses Mary Ann Bell, Kathleen Alexander, Kathryn Stinson, Elizabeth Hargrave, Fay and Alma Brown and Messrs. James Harley Dallas, Bill Collins, Adolphus Smith, Paul Crawford, Mr. and Mrs. Roy Herod and the honorees.

Afterwards the guests returned to the home of Mrs. Owen and danced.

YOUNG WOMEN'S MISSIONARY SOCIETY.

The Young Women's Missionary Society of the Methodist church met at the church Thursday afternoon at four o'clock with Mrs. Finney as leader. The members and guests present were Mesdames Knight, Coleman, Moore, Boone Hunter, J. C. Hunter, Bynum, Baldwin, Finney, Leo Holmes, Rickles and McBroyer.

The next meeting will be a social.

Mrs. W. J. McDuffie, Miss Jeanette McDuffie and little Miss Margaret Andrews of Waxahachie are visiting Mr. W. R. McDuffie and family here.

Miss Emma Jane Alexander, daughter of Mr. and Mrs. A. W. Alexander, is at home after having taught expression in the schools of Benjamin, Texas the past term.

Bob and George Owen, of Childress visited their sister-in-law, Mrs. Allen Owen Monday. Miss Hazel Owen who has been visiting here returned with them Tuesday.

IDLE WIVES CLUB

The Idle Wives Club met Tuesday afternoon with Mrs. Ike Bailey. In bridge, Mrs. McDuffie won the highest number of games and Mrs. Enderesen next to high. Sandwiches, iced tea and frozen salad were served to the following members and guests. Mesdames Claude Hudgens, W. R. McDuffie, Wingerd, McBurnett, DuBois, Enderesen, A. A. Sawyer, Miller, Shelton, McGowan, Fred Smith, King, Dallas, A. M. and A. R. Brownfield, and Misses Kate Duke and Jeanette McDuffie.

Miss Kate Duke of Mineral Wells is here on vacation visiting her sis-

ters, Miss Lela Duke and Mrs. Earl Anthony Jr.

BIBLE CLASS MEETS

The Ladies Bible Class of the Church of Christ met Monday afternoon at 3:00. The lesson was the third chapter of Phillipians and was led by Mrs. Will Moore. Those who were present were Mesdames L. F. Hudgens, Ditto, Will Moore, W. G. Harris, Claude Hudgens, Hamilton, Fields, Jackson and Sanders.

CIRCLES MEET AT CHURCH

The Circles of the Baptist Missionary Union met at the church Monday instead of in their respective divisions. An interesting business session was held first and a favorable report was made by the members on the new parsonage. Mrs. E. V. May then in her usual manner gave an inspiring lesson on prayer. Mesdames Pounds and Green closed the meeting. Present were Mesdames May, Glover, Dunn, Pounds, Sears, McBurnett, Green, Collins, Holt, Wilson from Lubbock, Auburg, Wirtz, O. E. Adams, Price, Sexton, Glover, Coe, Floyd and McNutt.

STAR PARASITE REMOVER will keep your chickens free of lice, mites, fleas, blue-bugs, healthier and producing more eggs or your money back. Alexander Drug Co. 25-1c

The Rialto Theatre has run a new concrete floor in front of the building.

The Herald wishes to thank Com. L. L. Brock of No. 1, for a nice box of fruit of various kinds presented to us this week. The fruit was not only nice but very pleasing to our taste, and we hope for many more returns of the day.

THE DOCTOR'S REVENGE

Lady—"You believe in mustard plasters, doctor?"
Doctor—"Yes! I always order them for patients who call me out in the middle of the night when there's nothing the matter with them."

THE MEDICINE FOR PELLAGRA

Dr. J. L. Leverett, prominent Paris, Texas, Specialist, is attracting National attention with his NEW method of treating Pellagra and certain forms of stomach trouble closely resembling Pellagra. Under a rigid test of more than 3000 patients the treatment proved to be all that was claimed. A 28 day trial treatment for \$5 and this money back if the patient is not benefited and the patient alone is the judge. The medicine doesn't make you sick to take it. For particulars, testimonials and blank for FREE diagnosis write J. L. Leverett, M. D., Paris, Texas.

FIRST

THE STERLING qualities of the man, George Washington, earned for him a place, "First in war, first in peace, and first in the hearts of his countrymen". Likewise, there are reasons for the leadership of New Process Gas Ranges with Red Wheel Self-regulating Ovens.

A few of these reasons are: Dependable baking qualities, long-wearing construction and the saving of time and work made possible by the Lorain Red Wheel.

Come in and let us show you why these New Process Lorain-equipped Gas Ranges are "First" in the hearts of local home-makers.

TEXAS PROSPECTS GOOD FOR BILLION DOLLAR CROP

Dallas, Texas, July 15—One of the most comprehensive crop reports ever compiled by the Department of Public Relations of the Southland Life Insurance Company indicates that, with even fair cotton, Texas again will produce crops valued at more than a billion dollars.

The Panhandle and North Texas counties are in the midst of a plentiful grain production. Central and East Texas reports that practically all of the grain harvest has been completed. With the fact in mind that crop damage further North has boosted wheat prices from the low level of eighty-five cents per bushel in June it is estimated that the Texas wheat crop will bring from thirty to forty million dollars.

Approximately 75% of all counties reporting on cotton indicate that crops are normal, good or excellent. More than 25% report excellent. Insects are reported present in many localities particularly in South and Central Texas. However, less than 10% of these counties report any considerable damage.

East Texas reports the tomato crop entirely gathered with ideal conditions both as to prices and quality of fruit. Growers received an average of five cents a pound, according to reports.

Business conditions are reported as unusually good. More than 60% report trade conditions as normal or above normal. About 30% rate conditions from 75% to normal and only 10% slow normal.

One of the brightest aspects of the entire situation is the unquestionably growing sentiment for diversification, this sentiment finding expression in the increase of dairy products activity.

I. A. Lowe was in Saturday from the Lou section laying in supplies for the farm.

Mrs. Lee Roy McAdoo and sons of Higgins, Texas, who have been visiting Mr. McAdoo's parents, Mr. and Mrs. Oscar McAdoo of this city returned home last Wednesday.

Mr. and Mrs. J. H. O'Connor had as their guests over the week-end their brother-in-law, E. A. Barber of the Sudan News; their nephew and niece, Mr. and Mrs. J. Anderson of Clovis, N. M. and their niece, Mrs. J. O. Kinsey and children, J. O., Jr., Catherine Jane, Elizabeth Ann and Georgina, of Sparta, Tenn.

ABERNATHY's \$15,000 Struve cheese plant is still running to capacity, milk being brought in from a wide territory. The present capacity of 10,000 pounds of milk per day can be doubled with the purchase of another large vat.

TO HUSBAND AND WIFE

Preserve sacredly the privacies of your own house, your married state, and your heart. Let no father or mother or sister or brother ever presume to come between you or share the joys or sorrows that belong to you two alone.

With mutual help build your quiet world, not allowing your dearest earthly friend to be the confidant of aught that concerns your domestic peace. Let moments of alienation, if they occur, be healed at once. Never, no never, speak of it outside; but to each other confess and all will come out right. Never let the morrow's sun still find you at variance. Renew and renew your vow. It will do you good; and thereby your minds will grow together contented in that love which is stronger than death, and you will be truly one.—Anonymous.

Sheriff J. M. Telford is awaiting papers from Gov. Moody upon receipt of which, he will leave for Bakersfield, Calif., where a man is being held who is wanted in this county for selling mortgaged property.

HAMLIN has been experiencing a prosperous increase in residence building. Five new homes of permanent construction are being built in the most desirable locations. Modern improvements, as sidewalks, sewer, lights, and natural gas are being used.

MEXICANS TANGLED IN TRIANGLE AFFAIR

A Mexican hombre and a fair senora, the wife of another son of Mexico, are looking through the bars of the Lynn County Jail because of an alleged illicit love affair. Complaint was made Wednesday by the aggrieved hombre that his fellow citizen had won the affections of his wife and eloped with her. The two were found in another part of the county and were brought to Tahoka to answer for their misdeeds. This is a rare offense among Mexicans and the injured hombre was deeply incensed over the affair. Just how it will terminate is yet a matter of much conjecture.—Tahoka News.

Mr. and Mrs. Weldon Ridgeway are visiting relatives in Fort Worth this week.

ROSWELL, N. M. entertained the fourth annual motorcade of the WTCC on July 16 when the Pecos Valley-Intermountain district convention of the organization was held. An interesting program on which Governor Dillon and other notables had prominent parts preceded a visit to the irrigated farm section, the reception and entertainment.

Mr. Hogan, of the Hogan dry goods stores in this city and Tahoka, was a business visitor here Monday.

ALEXANDER DRUG CO.

CITY ORDINANCE

AN ORDINANCE GOVERNING THE INSTALLATION OF GAS FITTINGS AND PROVIDING FOR THE INSPECTION THEREOF.

BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF BROWNFIELD.

SECTION 1. There is hereby created the office of gas inspector to be conducted under the supervision of the City Secretary.

SECTION 2. It shall be unlawful for any person, firm or corporation, except a licensed master gas fitter, to engage in the gas fitting business in the town of Brownfield without first having secured from the City Secretary a gas fitters license. This section shall not be construed to prohibit a person from doing gas fitting, either new or repair work in or upon his own property, provided such work passes the inspection of the gas inspector.

SECTION 3. The applicant shall execute and deliver to the City Secretary a good and sufficient surety bond in the sum of one thousand (\$1,000). Such bond shall be conditional for the protection of the Town against loss or damage by reasons of carelessness, defective material or negligence of the person or persons furnishing such bond to properly execute and perform and protect any and all gas fitting work performed by him or under his supervision during the period of such gas fitter's license.

SECTION 4. Upon the approval and acceptance of such bond, and the payment of a fee of one dollar (\$1.00) to the City Secretary, the City Secretary shall issue to the applicant a gas fitter's license in proper form to engage in the business of gas fitter for the period stated upon such license. All gas fitters licenses shall be issued for a period of one year. The town reserves the right to cancel at any time any license for cause.

SECTION 5. It shall be the duty of any person, firm or corporation installing any gas work to notify the gas inspector, when the work is ready to be tested or inspected. Said notice must be filed in the office of the gas inspector, and such notification must be made at least five hours before the work is ready for inspection.

SECTION 6. If it is necessary for the inspector to make a subsequent test of any piece of work, the minimum charge shall be made.

SECTION 7. Before any gas may

be turned on to any consumer by the Gas Company, a certificate must be filed by the gas inspector with the company, stating that this particular work has passed inspection.

SECTION 8. The following rules must be explicitly followed by any gas fitters doing any work in the town of Brownfield:

Rule 1. All service lines must be tested before meter is connected and if they show leakage, meter will not be connected until leak is repaired.

Rule 2. All service lines must have lock service cocks at the meter.

Rule 3. All gas ranges, hot water tank heaters, and closed gas heaters must be vented.

Rule 4. The space used by the meter must be ascertained. The size of the meter will be determined by the number and kind of fires.

Rule 5. Where pipes run through walls, both sides of the walls must be carefully cemented.

Rule 6. All service and house lines, including all valves and stop cocks up to the caps or plugs, must be tested with an air pressure of at least ten pounds, with an air pump and mercury gauge, the test to hold at least ten (10) minutes in the presence of the gas inspector.

Rule 7. A fire test will not be allowed under any circumstances.

Rule 8. No bushings or cast iron fittings can be used, and no cement of any kind shall be used to repair faulty fittings or pipes.

Rule 9. Valves which need repacking from time to time should not be placed under floors or in any inaccessible place.

Rule 10. All valves should be packed with asbestos packing; soft seat valves should not be used.

Rule 11. Place a damper in the pipe on all stoves and furnaces. Dampers with open centers must be used. Mixers on stoves must not be placed in air tight ash boxes. Nipples between mixer and burner must be reamed out to allow a free flow of gas to the burner. Admit plenty of air under the grates to make a cheerful fire, and prevent the hearth from getting overheated.

Rule 12. It shall be unlawful for any gas fitter to make provisions for rubber hose connections. They will not be allowed under any circumstances.

Rule 13. Pipes must be strapped or hooked up to ceiling or walls, and all drops and bracket strips must be securely fastened in place before the inspector is called.

Rule 14. Unions will not be allowed in any lines except to connect stoves. The union to be placed between the valve above the floor and the stove. Right and left couplings must be used in connecting lines.

Rule 15. All gas ranges must have a stop cock or globe valve on the connection above the floor.

Rule 16. A pilot light burner shall be installed in all hot air furnaces, hot water and steam heating house boilers as approved by the gas inspector.

Rule 17. An application for inspection and test must be made for all extension made.

Rule 18. Red lead and oil must be placed on male threads only.

Rule 19. No pipes shall run up or through any flues.

Rule 20. It shall be unlawful for any person, persons or corporations other than the West Texas Gas Company, or its duly authorized agent to tap the main supply lines furnishing gas to the inhabitants of the town, which said lines run through the alleys or streets of the town of Brownfield or its additions or vicinity, and in all cases where installations are required the West Texas Gas Company, or its duly authorized agent shall tap the main.

Rule 21. No pipes shall be concealed until they are inspected.

Rule 22. Electric wiring for circuit of over 25 volts shall not be grounded on gas house piping.

Rule 23. (a) No pipe smaller than 3/4 inch size shall be used in any concealed gas piping installations; and no pipe smaller than standard 1/2 inch size should be used for horizontal concealed piping.

(b) All supply lines, branches, drops, and other parts of any piping installations shall be made up of pipe of a size suited to the length required and the number and character of the outlets to be supplied. It is recommended that the minimum size for pipe shall be indicated in the following tabulations:

Size in inches	1/2	3/4	1
Value in outlets	1	2	6
Size in inches	1 1/4	1 1/2	2
Value in outlets	20	32	66
Size in inches	2 1/4	3	4

MEADOW BRIEFS

(By Aesculapias)

"The days of our years are three score years and ten; and if by reason of strength they be four score years, yet is their strength labor and sorrow; for it is soon cut off, and we fly away."—Ps. XC10.

In the above the "Sweet Singer of Israel" warns us of approaching dissolution. While the age has been frequently passed the vast army of humanity has succumbed to the decree long before the seventieth year is reached. It was once said that the majority of mankind died before the fifth year. This I very much doubt. It is unquestionably however that most of the weak and unfortunate children have been weeded out by the fifth year.

Brisbane says that man should retire at seventy but as he is now past that age and one of the most prolific writers in the newspaper world, he doesn't follow the advice given others. In fact no man or woman who feels well and have something to do should give any attention to such rot.

It is amusing to read the long magazine articles of men and women on "How I reached such and such an age." There is no formula for acquiring old age. We find the octogenarian and the centenarian among all people and among the savage and the civilized; in all climes beneath the tropical sun and the ice and snows of the arctic; among the dissolute and foolish and this too regardless of the food taken, whether it consists of grasshoppers and worms or prepared foods by the best French chef. The French declare that longevity is in their wholesome wines and in our own country a few decades ago I have heard many old men say, a judicious use of good whiskey and tobacco was the surest means of attaining longevity.

To be borned well—that is of healthy parents, who themselves came of long lived parents, would undoubtedly be the first requisite. Whole-

some food, plenty of hard work, and a contented mind would be the balance of the formula, and I might add temperate habits, but eat and drink what you please, doctors and preachers to the contrary, not withstanding.

Saturday July the thirteenth I reached the allotted time of the Psalmist. Feel just as much like work as I ever did and have never spared myself when work was to be done. I have just as much interest in life as at sixteen. Have done my very best to keep up with the rapid changes in our modern life and haven't a single sigh for the glorious past.

It has been a glorious past. Most of our great inventions that are now commonplace and play such great part in modern life, have been made in the past seventy years. The section of our country that was known as Territories along with Texas have also been settled up within that period. In that period the great checker board of rail roads and electric lines have been stretched across the land, connecting all parts of most of North America. Seventy years ago much of the earth's surface was unknown and unexplored. Now however except for a few jungles in known parts of the earth and the region about the South Pole there is no Terra Incognita. I might add that Byrd in the next two years will find out the secrets of that region. Since Morse in '59, the year I was borned, gave the telegraph, electrical energy has been harnessed, and today is almost as indispensable as the oxygen we breathe. It would take too much space to enumerate even a small part of its uses, and the marvels it will bring in the future will doubtless surpass the present. From Radio and Television it may yet connect us with the myriad worlds of endless space. Man compared to the age of the world is in his infancy and he is steadily marching on in search of the secrets of nature. He may be millions of years in finding what God intended he should know but he will ultimately find the goal.

Yes, I believe the world is better morally, mentally and religiously than ever before. There is not so much fuss and fireworks in the religion of today. It gets more wholesome and tends to the practicable side taught by Christ. Instead of the Good Samaritan with his small measure of wine and oil, we now see great hospitals for the sick, the blind the insane and the deaf and dumb. No one who has not traveled and made inquiry has even the slightest idea of the work done for the relief of the unfortunate in almost every land. It has all come about because man, as never before, feels that he is his rother's keeper.

Everyone should so live that when the summons comes, as come it will, "He can draw the drapery of his couch about him, and lie down to pleasant dreams."

I wish to assure my old friend of Nubbin Ridge that the club haven't caught me as he seems to think.

A young man has just handed me a box of Y. B's, in which I find the following note:

NOTICE
ROUGH DRY..... 6c lb.
—Beginning Monday, July 22—
WHY PAY MORE—PHONE 1-4-9
ALICE'S LAUNDRY

edly be the first requisite. Whole-

I wish to assure my old friend of Nubbin Ridge that the club haven't caught me as he seems to think.

A young man has just handed me a box of Y. B's, in which I find the following note:

Dear Doctor—I promise after 70,

these will not hurt you. After the next 70 you may furnish your own smokes, so enjoy these.

—M. C. Bell.

Thanks, Doctor, for the remembrance. In the next world if I may choose, I am sure my time would pass more pleasantly if the weed that cheers is procurable "over there." I would much prefer them to a harp, at least any harp that I would be able to play. In the heaven of Mohamed, there is to be a bevy of pretty girls to look after each man, and all the good things one could imagine are had in profusion. If I am to smoke, let them send me there for the next 70 years.

The election held today (Monday) at Meadow, for the bonds in the amount of \$50,000 for additional buildings and equipment, the vote was 88 for and 59 against them. This will saddle the community with a considerable debt when added to those already outstanding for the former building. But it was either vote for the bonds or go out of business. I am opposed generally to bonding for any purpose, but Meadow has done the right in shouldering the additional load. A school is the greatest asset a town or community can have.

Crops continue to look fine, but rain would help greatly. However, I hear of no one that will risk praying for it lest hail should be mixed with it.

There is a meeting in progress at the church of Christ. Rev. Fitzgerald is conducting the services. We presume it will continue through the week.

Sunday the Methodist brethren held their quarterly conference and the Presiding Elder preached at the morning hour. Dinner was served on the ground.

The infant son of Robert Welch and wife was buried here Friday. We sympathize with them in their loss.

**FOR YOUR SCRAPBOOK—LIST
PRESENT CABINET MEMBERS**

With inauguration day now a few months away, very few of us will recall offhand the members of President Hoover's cabinet. Just paste this in your scrap book, leaving room for the changes that usually occur:

- Secretary of State, Henry L. Stimson of New York.
- Secretary of Treasury, Andrew W. Mellon of Pittsburgh.
- Secretary of War, Jas. W. Good of Evanston, Ill.
- Attorney-General, Wm. D. Mitchell, of St. Paul, Minn.
- Postmaster General, Walter F. Brown, Toledo, Ohio.
- Secretary of Navy, Chas. F. Adams, Boston, Mass.
- Secretary of Interior, Ray Lyman Wilbur, Oakland, California.
- Secretary of Agriculture, Arthur M. Hyde, Trenton, Missouri.
- Secretary of Commerce, Robert P. Lamont, Chicago.
- Secretary of Labor, James J. Davis—Reappointed.

Those who have faced the cold glitter of a banker's gaze will agree with Dr. Russ that the human eye emits a mysterious force.
