

South Plains Full of Million Dollar Banks

A compilation recently made by the Lubbock Avalanche, reveals that 36 banks in 28 towns on the South Plains, have a total of \$162,903,581.00 on deposit. Brownfield ranks third, exceeded only by Lubbock and Plainview, with Lamesa a close fourth.

Local State Guard Unit Needs Recruits

Captain W. Graham Smith, who is to organize and command the Cannon Unit of the State Guard to be established here, announced early this week, he had enlistments to form the first phase of the Unit, but needs some 25 or more recruits to round out the Company.

He desires some mechanics, men with heavy truck driving experience. Some with experience that they may instruct others; also several teen agers pointing out, that in event they should be drafted, the training received in this home work would enhance their promotions.

This Unit can have up to 70 men, brings a good payroll to the county. The Federal Government will build barracks, and improve grounds, and is considered a worthy enterprise for the community.

The Grandma Gets The Picinny

In a three way collision, between the father, mother and grandmother over the custody of a three year old colored boy baby, each represented by different local attorneys, after an all day trial Monday Judge Reed rendered a decision without invoking Solomon's rule by giving the grandmother custody.

The parents have been divorced two years. All their virtues and vices were aired out, but the maternal grandmother who has kept the child all this time and who bore an excellent reputation among the white folks for whom she worked, was allowed to keep it with privileges of parents visitation.

A number of other cases, mostly divorces, were disposed of.

Firemen Called to Quell Grass Fire

During the rather brisk wind Monday evening, the Fire Department was called to the Legion Hall, just south of the city on account of a grass and trash fire which was threatening the building. However no damage resulted to the Hall.

This incident serves to remind us that the next three months is the windy season in the Plains country and we should exercise caution with outside fires.

Dr. W. A. Roberson, local dentist, attended the Dental Clinic and State meeting at Dallas, last Monday and Tuesday, where all latest methods of dentistry was discussed.

First National Bank Conveniently Arranged

R. M. Kendrick, president of the First National Bank, took us about everywhere last week except where the money is kept. He knew better than to do that. Joking aside, this splendid institution is so arranged that it utilizes its space to the best advantage of any building its size we know.

This past year before there was a sound of the hammer, trowel or concrete mixer, an architect and builder took in the whole situation, and when the work inside was completed, there was the most radical change you have witnessed in a long time. All the vaults are beneath the first floor, and one of them is devoted exclusively to customer vaults, with space for many more, as well as bank stationery, etc. The customer's vault is the one they allowed us in.

The money, bonds and other valuable papers belonging to the bank, are separated by a concrete wall from the customers vault. Both are reached from the ground floor.

As now arranged all official offices are in front of the bank, with a series of cages for cashiers, tellers, etc., as well as a large lobby with desks, etc for customers. Part of the marble for finishing the rails, etc, has not arrived, but one can see the beauty of the arrangements now.

There is a large balcony over the rear where bookkeepers have access to their machines unhindered by passing and repassing of other bank employees. However, they are well as other isolated places in the building are being connected by telephone with the officers, cashiers, etc., who will not have to leave their places to check with bookkeepers on accounts, or what have you.

The whole building is to be air conditioned and with circulating heat, so that the building may be kept comfortable for employees as well as customers at all times.

Memorial Service For John S. Powell

Arrangements are now being made for a Memorial Service for Pappy John Powell at the Methodist church, next Sunday, Jan. 19th. All his old friends are invited. Here is some of the highlights of the life of John S. (Pappy) Powell.

His church was his life. He felt it his duty to attend and participate in its work.

He was at church twice each Sunday, with friendly greetings and a hearty handshake for all. If some of a family was absent, he invariably inquired about their health.

He was always at his class and was prepared to teach it as he had given the lesson much study. He was always on hand at the steward's meetings. Also the Fellowship meetings. Friendliness was inseparable from his religion.

His heart's desire was the goodwill of all mankind. Who will follow in his footsteps?

Stolen Car Recovered Here Sunday

Constable Chic Holmes apprehended two young men about 2 a. m. Sunday at an all night Cafe here in connection with a reported stolen car from Lubbock.

The passenger automobile was identified by the owner Monday, and taken home. Officers from Lubbock took the men back there for further action. One lived a Levelland, the other at Wolffarth.

Local Buyers Getting a Break

The dry goods stores of the city are really giving the local area buyers a break, offering staple dry goods far below prices offered since the 1942 season. First week of this year Collins Dry Goods and Sheltons broke the ice.

Last week they were joined in store wide sales by Cobb Department store and the Bargain Center.

Rhode Island, the smallest state in the Union, is the most densely populated.

Huge Farm To Market Road Program

The Texas Highway Department is further advanced on its farm to market road program than any other highway department in the United States according to Tom K. Eplen, president of the Texas Good Roads Association. This statement is based upon a report just released by Thomas H. MacDonald of the Public Roads Administration in which Texas is listed in the top three highway departments in number of contracts awarded and the total number of miles involved in these contracts.

"A large portion of the mileage placed under contract in Texas," Commissioner MacDonald said "was for improvements on secondary or farm to market roads."

The three year program on federal aid secondary road system in Texas contemplates the expenditure of \$60,000,000 for these much needed roads. The total sum of \$52,500,000 reported in the contracts executed last year in addition to state highways provided for the construction of 2,073 miles of farm to market roads under this federal aid program.

President Eplen expressed himself as being highly gratified over the fine accord that had been achieved in the adoption of this program.

Brownfield FFA Try Breeding Pure Hogs

The Brownfield Future Farmers in 1943 decided to try and improve the hogs in their community. Many of the boys had pure bred hogs, but few of them were registered. They decided to start with the use of rating gilt plan for their improvement.

Money was taken from the chapter funds, and three registered Duroc gilts were purchased and given to these Future Farmers.

The boys receiving gilts agreed to give back to the chapter a registered gilt from the first litter, to be given to other boys on the same plan.

Since the start, seven gilts have been added to make a total of 10 registered gilts in the rotating program. The gilts owned at this time are four Durocs, three Berkshires, two spotted Poland chinas and one Poland china.

The following ten boys were chosen from the Future Farmer chapter to receive these gilts, and possess them at this time: Freddy Huckabee, George Henson, Joe Covington, Dale Newsom, J. W. Parrish, Hershell Wooley, Ben Kennedy, Kerby Sexton, Ray Carter and Billy Bond.

This program has helped a great deal to build up the service program of the boys, as well as the farmers of the community. A large number of registered animals are in the county, and 26 Future Farmer boys now own 30 registered gilts as sows for breeding purposes.

Many of the boys plan to show their hogs at the Brownfield Junior Chamber of Commerce Stock Show in April.

Lion To Attend Odessa Meeting

A large group of Lions club members will go to Odessa next Tuesday night, to attend a banquet in honor of Clifford Pierce, President of Lions International, who is touring the southwest. A bus is to be chartered for the trip. Barbecue, ranch style, is to be served.

Frank Jordan, Mayor of Brownfield, and District Governor of Lions, has just returned from south Texas, where he arranged for the President to visit this district.

Matches should be kept in a covered metal container where children cannot reach them.

Better Sugar Supply Seen By April

Texas homemakers can now look with renewed hope toward an improved sugar supply.

Miss Gwendolyn Jones, food preservation specialist of the Texas A. and M. College Extension Service, calls the attention of housewives to a recent statement by Secretary of Agriculture Clinton P. Anderson concerning possibilities of increased home sugar supplies:

"Barring unpredictable disasters, sugar will be available to increase rations in the United States by one 5-pound consumer stamp by April 1, 1947. It is believed that the sugar supply situation will warrant further increases later in the year, but at this time it is too early to specify amounts."

A step toward a better sugar supply was taken January 1, says Miss Jones, when a spare stamp for five pounds of sugar was made good by the OPA. The spare stamp will be valid until April 30.

Judging from reports from the U. S. Department of Agriculture, it is likely that the second consumer stamp will be made good before the spare stamp expires, predicts Miss Jones. When this happens, the present ration of five pounds of sugar every four months will be increased.

Man Loses Leg In Oil Mill Accident

Luis Castro, 32 well known Mexican-American residing here sustained injuries early Sunday morning while unloading a car of soy beans at the oil mill. Castro and his brother were in a box car shoveling the beans into a large auger conveyor, when his foot slipped into the auger, crushing the limb so badly that an amputation was made immediately at the local hospital.

Louis Simmonds, driver of the ambulance applied first aid, which possibly saved the man's life.

The Castro's have been progressive farmers here for the past five years. His father owns a farm near Leahay. He has a wife and three small children.

Both are war veterans. Mr. Stevens has not announced his immediate intentions.

Tech To Sponsor Gloves Tourney

Texas Tech's athletic department will again sponsor the district Golden Gloves tournament in Tech gym Jan. 27, 28 and 29, Morley Jennings, athletic director, has announced.

Several returned servicemen of various weights have indicated they will enter the competition, along with experienced high school and college fighters of the area and others. Two divisions will be presented again, the regular division for experienced fighters and the novice group, restricted to high school students.

Prizes in both divisions are being offered, with winners in each weight of the regular section going to Fort Worth and the state finals next month.

Last year Lockney, Brownfield, Petersburg, Lubbock and Texas Tech provided most of the fighters and these are expected to repeat this year. Entry blanks also have been requested by boxers in Plainview, Abernathy, Tahoka, Morton, Littlefield and other towns. Director Jennings says he expects one of the best tournaments in history. He is urging all prospective fighters to get in shape immediately and for high school coaches to supervise activities of students in their communities.

Tech's delegation may include winners of bouts in Army, Navy and Marine competition.

Nearly Half Inch Rain Last Week

With almost half inch of rain last week, following the big snows around the first of January, puts a fair deep season in the ground, and farmers and their friends are hopeful that this year is the year that we are going to get back to normal crops—perhaps a bumper.

Most of the farmers already have their land broken, and ready for further rains and snows should any fall the rest of this month and the two following. Most people look for plenty rain from April on this year.

They Ate Christmas Dinner Picnic Style

The folks out there in California sought to rub it in on us, by writing that they ate Christmas dinner out on a table in the back yard. Well, we could have done the same thing here in old Terry. In fact we didn't have a speck of fire in the dining room, and had the east door open.

But Brother, by Saturday, the 28th, no such stunt would have been possible. Mercury was going down like a broken drill bit in and oil well, and stayed that way more than a week.

Tracy Cary, manager of Knight Furniture store here, and Earl Denton manager of the Seminole branch, are in Chicago at market, this week.

Estimate 2,500,000 Orders For Phones

It is estimated that there are currently 2 1-2 million orders for telephone service held due to lack of facilities. The Southwestern Associated Telephone Company who owns and operates the telephone exchange here, and exchanges in the States of Kansas, Louisiana, New Mexico, Oklahoma and Texas, has 8,691 such applications held by that Company on December 1, 1946, even though 8,347 telephones have been installed for civilian use since VJ Day.

The Civilian Production Administration, while recognizing that the objectives of Utilities Order U-2 were still needed and were in the public interest, felt that the problems treated by the Order should now be handled by the Telephone Industry.

Shortage of material and skilled labor required in expanding telephone service are continuing to hamper telephone companies in their effort to provide service to those who want and need telephone service. Regardless of labor and material shortages the following holds true in Brownfield:

On Dec. 1, 1946 there were 729 telephones.

On VJ Day there were 611. Representing a gain of 118.

The numbers of orders held is 159, reports the local telephone office.

Two Local Men Held On Moral Charges

Two local men, residing in the west part of town, were picked up early this week, one on a charge of impersonating an FBI officer. He was turned over to a US Marshal, and taken to Lubbock for further investigation. The other was fined on a charge of contributing to delinquency of minors.

It was learned by the officers that the first one claimed to be a secret FBI agent, and desired several girls and women to work with him as detectives, having them to meet at the other party's home for "examination," which wasn't acceptable to some of the prospects, who reported the plan to officers.

He was offering fabulous paying jobs, if accepted. It was thought he had succeeded in taking one or more to nearby towns, for "detective work."

Another is to increase salaries of State employees; one to increase pay for the judiciary, Supreme Court Justices to \$11,000; Court of Appeals to \$9,000; District Judges to \$7,000 and a raise for District Attorneys to \$6,000.

It is expected that redistricting the State will be pushed, also. The legislature is to canvass the returns of the last election and certify the election of the Governor and Lieut.-Governor early next week.

Ford Motor Company Reduces Prices On Motor Cars

The Ford Motor Company today in a move to halt their spiral of mounting costs and prices reduced the price of every Ford car from \$15 to \$50.

In making the announcement Henry Ford, president, said "although more than one million of our customers are waiting for delivery of their cars at present prices, we are immediately reducing the price of every Ford car, some models as much as \$50. This is a down payment toward a continued high level of production and employment in the months ahead. We believe that the shock treatment of prompt action is needed to halt the insane spiral of mounting costs and rising prices and to restore a sound base for the hopeful period of post-war production we are now entering."

The price reduction was disclosed in a press conference at Dearborn in which the entire policy committee of the Ford Motor Company participated. The new price scale was wired simultaneously to Ford dealers throughout the nation, effective immediately.

Mr. Ford said the company had made a modest profit for the last three months of 1946 and intended to continue to operate in the black. He stated that the millions of dollars lost since V-J Day had been accepted as "an item of the cost of a great and victorious war."

"Because they must build up depleted cash reserves or because they are still losing money, many businesses may not be able to follow suit," he said. "But we hope that our suppliers, our employees and our other economic partners will back each to his own ability, our attempt to return to the economic pattern which has helped to make America great, the principal that higher wages and a higher standard of living for all depend upon lower costs and lower process through increasingly efficient large scale production."

Rabies In Texas Reports S P H U

The South Plains Health Unit releases a report from Dr. Geo. W. Cox, State Health officer in Austin, that three suspected cases of human rabies has focused attention on this disease and the need of more energetic control measures in many communities.

Rabies primarily is a problem in stray ownerless or unsupervised dogs. All dogs should be vaccinated against rabies, stray ownerless or unsupervised dogs should be impounded and should not be released without vaccination. Contacts with rabid dogs should be investigated.

Inoculated persons should receive prophylactic treatment. Exposed animals should be quarantined and in addition inoculated animals should receive prophylactic treatment or be sacrificed painlessly. The control of rabies requires the cooperation of dog owners, veterinary practitioners, public health officials, police officers and all who deal with dogs.

After spending 33 years with the State Tuberculosis Sanatorium at Carlsbad, Texas, and most of that time as its superintendent Dr. J. B. McKnight says no specific remedy has been developed for the cure of tuberculosis. But, by this he does not mean that the disease is incurable in its early stages. He therefore urges early diagnosis by capable physicians and treatment at sanitoriums which consists mostly of rest, sleep, fresh air and sunshine, along with the proper food.

Editor Mollyneaux of Southern Weekly, Dallas, we think is working himself into a needless sweat trying to make Texas and other southern states, two-party states. Frankly, we think he has a hard row to hoe. While a majority of southerners are not now nor ever have been ardent New Dealers, they were real Democrats long before the new deal measures came into being. But they are not going to be persuaded to vote the GOP ticket overnight, not by a jug full.

Speaking of magazines, we have a Texas Week now that promises to become one of the real mouthpieces of our great state we all love to call home—Texas. Only a few months ago the first issue of TW came to us, and even then it was a husky infant. It is printed on slick paper, and gets in more kicks for grand old Texas than most of us even dream is happening. So far, TW covers all of the state without any prejudice to any section, and the Herald believes all who can, should subscribe for it. It is edited and published at

Dallas, where it is printed, the editorial department having recently been moved there from Austin., as it was hard to meet news deadlines with the editorial department in Austin and the publishing plant in Dallas. You'll like Texas Weekly.

Yeah, Bo, we raise an awful howl when infantile paralysis hits Texas, as it did in the past two years, when we had a death toll of 232 in one year. It was bad, and we should continue every means at our command to combat this dreaded disease that threatens the lives and bodies of our little folks, mostly. But a muscle never quivers nor do we bat an eye when we are told that 2000 of our citizens, black and white and from childhood to tottery old age, die each year from the effects of careless drivers of automobiles, with many more left crippled for life. The cost of hospitalization and suffering must also be considered. When will Texas people become conscious of the fact that many of their people are being needlessly murdered by careless and drunken drivers? When we do, we'll begin to give those responsible such a rap that they'll slow down and act with some sense.

Considering its size, importance and prestige, one would naturally think of Time magazine as above little things like sectionalism, prejudice, provincialism, but such is not the case. Time is not only prejudiced toward the south, but apparently hates everything and everybody south of the Mason and Dixon line except the negroes. Maybe after all the colored folks constitute the bulk of its southern readers, but we doubt it. Tim cannot even mention anything that happens in the south without the sarcasm, or mention of croaking frogs, swamps, etc. Yes, we subscribed and paid for one year of the publication, which expired last November, but they still send it, but we hope they stop it and soon. Newsweek is a bit on the same order, but uses a bit more sense and judgement in its articles. We have been taking that magazine for years, and shall continue to do so unless it relapses into the dribble as per Time. Understand, we grant any periodical its right to print what it pleases; we would not muzzle them. However, it is beyond us why any white southerner would buy and read Time, is beyond us. It acts more like a spoiled baby than a great magazine.

Two Old Timers Quit The Herald

In the past week, while we were adding a couple dozen new readers two of our oldest readers in point of years they have been on the list refused to pay the new rate, and of course their papers were stopped.

These old timers can't seem to get into their heads that everything that they or we buy had advanced from 50 to 100 per cent in the past few years, and that the Herald is paying double what it did in 1943 for help, and three times as much for material.

The only silly thing we did was not to have gone up on subscriptions about 1944 instead of waiting till last year. We might have been putting something away for a rainy day instead of swapping dollars, or even losing money on subscriptions.

Another strange thing about the matter is, that newcomers do not complain about the new rate. And that is not so strange after all, as they have been paying \$2 or \$3 rate for their home town papers for several years, while The Herald was selling below cost of production, even back in 1941.

Of course we regret to part with these old readers, but when either party to a deal become dissatisfied, right then is the time to part company. Of course they can do without the Herald easily—and we can get by without their subscriptions.

GI Question And Answer Department

Q. Can I pay my National Service Life Insurance premiums at the Veterans Administration contact office?

A. No. Contact offices are not authorized to accept remittances for insurance premiums. Payments must be made to the branch office.

Q. Is a veteran of World War II entitled to emergency ambulance service to a VA hospital or other government hospital in which VA has beds allocated, if the occasion arises?

A. Yes. When a veteran or his representative contacts a field station requesting emergency ambulance service, the chief medical officer or his designate will get all information possible about the case and will grant authority, if warranted.

Q. I was captured by the enemy during World War II and was in a prisoner of war camp for 15 months but my claim for disability has been denied by Veterans Administration. What can I do now that the disability is getting worse?

A. Veterans Administration will give special consideration to disability claims filed by veterans interned in enemy prison camps. You should get in touch with your nearest VA office and have your case reopened.

Q. I am going to school under the G. I. Bill. My eyes didn't

bother me while I was in service, but they bother me now when I try to do very much studying. Will VA pay for a reader to read some of my textbook assignments to me?

A. No. Veterans with visual impairment are eligible for reader service only if they are enrolled under the Vocational Rehabilitation Act (Public Law 16).

About 4000 veterans are now in VA hospitals in the three states for treatment of neuropsychiatric troubles. It is anticipated that many thousands more will require treatment on an out-patient basis in the mental hygiene clinics VA is establishing in the Southwest.

The actor is booked for visits to hospitals at Dallas, Amarillo, New Orleans, and Jackson, Mississippi. He will be in the Dallas Branch Area from January 19 through January 28.

"If the veteran does not have his file number, he will get a more prompt reply from us if he gives his date of birth, his service serial number, his date of enlistment or discharge from the service or some other information to help us identify his file," the VA official said. BROWNFIELD MOTOR CO.

Yes, Mabel! My biscuits are really light!

They should be... they were baked in a ROPER Gas Range

FINE, fluffy biscuits baked in a new ROPER Gas Range don't actually float through the air. But they certainly seem light enough to . . . if they tried. You see, Roper's big "3-in-1" baking oven assures the speed and even heat necessary to bake biscuits just right. Of course, that's just one of the advantages of owning a new Roper for completely modern gas cooking. Stop in, look and be pleasantly surprised.
