

GRAHAM CRACKERS

—WHG

When County Agent Joe Jones told us a couple of weeks ago that D. W. Williams, Texas A & M president, would fly into Hereford on his way to Black, we raised our eyebrows.

We told Joe we knew that Hereford had voted to build an airport, but if it was already finished, we hadn't heard of it.

Sure enough, President Williams flew over Hereford for over a quarter hour looking for a place to set down. He ended up by turning up the highway and putting in at Amarillo.

That made a lengthy drive to Black necessary. The irony of this story, naturally, is that there is an airfield a whole lot closer to Black than even the one at Hereford (which was purely imaginary.)

You may recall a few weeks back when The Star said it thought it ought to be paying more to mail the papers, because very likely Uncle Sam is doing it for less than it costs him to get the job taken care of.

We are happy to report that this "strange idea" of getting the newspapers away from the government feed trough seems to be gaining some favor, much to the dismay of many of the larger publications.

The hottest subject taken under study at the meeting of the National Editorial Association last week in San Francisco was not what television is doing to the newspapers' automobile advertising, or what level price of newsprint is fixing to jump to next.

It was postal rates! Controversy was rather evident among delegates to the national meeting, but as recently as three years ago, there would not have been enough publishers in favor of raising mailing rates to make a good barbershop quartet, so it is obvious the trend to get off the gray train is gaining momentum.

The least one can say is that a considerable commotion is being stirred up.

"Newspapers can no longer be beggars," declared Paul C. Smith of Rock Rapids, Iowa, who only last year was NEA president. He couldn't be more right, and if there was ever a time or a place the government ought to go to work, this is it.

A careless bit of reporting appeared in The Star last week: "The council instructed Wilson to check on the license of a photographer taking pictures in the city for Ware's. Some people were 'hooked' by a transient photographer several years ago, and the council said they want to be sure of fair treatment."

The only people who didn't get fair treatment in this story were those of the studio and Ware's. The reporter failed to recognize the subtle inference that perhaps the photographer was something less than honest. We apologize for this lack of tact in our news columns. We didn't intend for the story to sound like it actually did.

We attended the state meeting of the Texas Press Association in San Antonio last weekend, and just to show you how far apart even the best informed people can get on a particular subject, let us tell you about Senator Lyndon Johnson and Kingsbury Smith.

Sen. Johnson, as majority leader of the upper chamber, hardly needs an introduction to our readers. He talked to us about several things, but the main point of his remarks was world disarmament, a very noble undertaking. The senator did a splendid job of outlining the problem for the publishers in the audience. At least we thought so, because he aroused our interest in something we had about written off as a diplomat's giddy dream.

The senator said he was pleased to report that hopes for a workable and foolproof disarmament plan are better than they had ever been at any time since World War II.

The very next day we sat in a banquet hall and listened with rapt attention to a very articulate young man named Kingsbury Smith. He is on the foreign reporting staff of International News Service, and has the distinction of being every inch an "expert" in the field of foreign affairs in general and the Middle East in particular.

Smith has interviewed Ben Gurion, Colonel Nasser, and other leaders in that troubled part of the world. We were greatly impressed with his lucid speech.

The quirk of the thing, though, is that Smith passed the subject of disarmament casually, almost obliviously, leaving the impression that only idle dreamers waste their time thinking we can ever go so far as to work out such a Utopian idea as world disarmament. He was, at once, uplifting and discouraging. We still don't know what to think. Perhaps it really doesn't make too much difference, as there obviously is wide

(Continued on Last Page)

Star Wins Award

The Friona Star won its first newspaper award in over two years at the annual convention of the Texas Press Association in San Antonio last week.

While the award was not a top-rung one, Publisher W. H. Graham Jr. says he is proud of it because of the tough competition in the state contests this year. Judges awarded the local newspaper a white ribbon signifying fifth place in the appearance contest. This has to do with the general readability, printing, and make-up of the paper.

The Star competed against other newspapers in the state being published in towns from 2,000 to 3,500 population.

Area papers making significant placings in the Texas competition this year were the Tulsa Herald, which was second in the "sweepstakes" or over-all contest, The Canadian Record, first in editorial writing; and the Castro County News at Dimmitt, which had third place in general excellence.

Two other Parmer County papers, The Bovina Blade and The State Line Tribune, won high awards, but competed in another division—towns of fewer than 2,000 population.

BLAKE HOSPITALIZED

SP3 Orval L. Blake, son of Mr. and Mrs. L. B. Blake of Route 2, is a patient in the U. S. Army Hospital at Camp Zama, Japan. Blake was scheduled to arrive here June 26, but was delayed due to illness. Three hours after he boarded the U. S. S. Mitchell to return from Korea, he was stricken with neuritis and was transferred from the ship to the hospital at Camp Zama.

Rattler Strikes Girl

A disturbed rattlesnake struck Monday afternoon from its hiding place in wheat stubble, biting Pamela Ann Jones, 13.

She was treated in Parmer County Community Hospital and reported in satisfactory condition by officials at the hospital.

The rattler almost escaped detection when her father, Buster Jones, searched the area where she was running when bitten. He first found a small black snake, carried the girl to the hospital, only to return and find the rattler, reported to be about three feet long, with five buttons.

The girl was hurrying across a field of wheat stubble to where her father was working on a stopped combine when the snake struck, biting her on the right ankle.

The Jones' farm is about 20 miles from Friona, about eight miles north of Lazbuddie. Ice pack treatment was used until the kind of snake that bit her could be determined, then serum was given.

Baseball

Team Standings

* Benger and Black played a three inning game which ended in a tie, and is to be played off later.

(Standings are as of Monday, July 1.)

KIRK ON LEAVE

Charles Kirk, son of Mrs. Cleola Kirk, is home on leave from the Naval Training Station at Memphis, Tenn. His next assignment will be at the Naval Training Station at Pensacola, Fla.

Some Will, Some Won't Take 4th

Fourth of July will be observed in Friona Thursday, with a few firecrackers punctuating the hours, and air conditioners in most homes running full force, if the weatherman's prediction of continued heat holds true.

No special occasion is planned for the city, unless getting another holiday is a special occasion. Yet, some will not

get to depart from their regular schedule, since the hustle-bustle of wheat harvest, rush to cultivate growing crops, or to get a little water on parched fields will require work from those who cater to farm occupations and related businesses.

Most Friona business firms will be closed for the day, according to J. C. Claborn,

chamber of commerce president. Retail Merchant Association voted to observe the Fourth as a holiday, Claborn says.

Quite a few persons indicated they will go visiting relatives, have picnics, go swimming, and have similar holiday activities, while just about as many indicate they will spend a quiet day at home

rather than face the heat of crowded highways and an unmerciful sun.

On the calendar of happenings for the day is little league and intermediate league baseball Thursday night at the ball park when Friona Consumers tests Reeve Chevrolet and Benger Air Park tries Hub Community. Game time is 7 p. m.

TEN CENTS

WEDNESDAY, JULY 3, 1957

Wednesday Deadline For Queen Contest

Wednesday, July 10 is the deadline for entering the annual Parmer County Farm Bureau queen contest, which this year will be the night of July 20 in Bovina.

Mrs. J. T. Jones of Bovina, county chairman of the contest, has arranged a meeting of entrants next Thursday to prepare them for the judging the following week.

To emcee the contest this year will be Odie "Pop" Echols of KCLV, Clovis radio station. The Thursday meeting will be set aside as a time to practice.

General George Custer was 37 when he made his famous "last stand" against Indians in the Dakota Territory.

Friona Economy Moves Up

Economic conditions in the Friona area during the second quarter of 1957, April, May, and June, were sparked by an increase in volume of business transactions as compared to last year, according to estimates by Charles Allen, cashier of Friona State Bank. Allen says most merchants report better business conditions than a year ago for this time.

The bank has about a quarter of a million more dollars invested in outstanding loans than a year ago, Allen says. The quarterly statement of conditions of the bank has recently been issued.

An increase in production loans to farmers accounts for most of the increase in loans,

Allen says. More activity in fertilizing is one reason for the increase in loans to farmers, he said.

A trickle of new deposits from wheat is reported, with most of the revenue from wheat going to retirement of loans. Deposit of wheat income is expected to increase this week, Allen said. The salaried workers are the only individuals that are adversely affected this quarter, and that is due to an increase in cost of living over last year, Allen says.

More activity in real estate is reported than was taking place last year.

Bank deposits are lower, about \$600,000 less than a year ago. A strong demand for credit is reported, along with evidences

of tight money.

The statement for this year's second quarter was issued June 6 instead of June 30 as it was last year. This, a late wheat crop, and having no Commodity Credit Corporation loans being deposited are the reasons why total deposits are lower than deposits for the second quarter last year.

Deposits for this quarter would be about \$68,000 more than for the same quarter last year, if CCC loans are not considered, Allen says.

Thomas Jefferson started the Democratic party in 1793 when he resigned from Washington's cabinet and formed his own political party.

More Spray Fogs Today

Another attack with city spraying equipment against mosquitoes and flies is to be made today, according to Clyde Fields, of the city water and sewer department. Next spraying date is to be July 10.

Formula that is presently being used in the fogging machine is malathion, chlordane, lindane, and DDT. Good results from this formula are reported, Fields said.

Learn The "Why?" of 4th of July

You live in the United States of America. You are an American.

Real Americans like their country. They are proud of it. They think it is a good place to live. And they want to keep it good—to keep it getting better all the time.

Why is America the way it is? What makes it a good place to live? The answer is simply this:

Throughout our history most Americans have believed that every person has certain rights and duties and responsibilities.

Americans have believed that there are certain things people should do, and things they should not do.

They have also believed in certain things that people are, and are not.

These things that people believe are called principles. This book is an attempt to state the Principles of America in simple, primer fashion so that you can understand them, learn them, and remember them.

This is important. It was because earlier Americans believed in these principles and guided their lives by them, that America has grown to be the good place it is.

If all of us learn and remember these principles—if we also guide our lives by them—then we can help to keep America growing better, and better, and better.

And if we follow these Principles of America, we can help make the world a better place to live in, too.

The Principles of America are these . . .

1. Each Person is of Importance and Value as an Individual.

This is the cornerstone . . . the foundation of all our other beliefs in a person's right to live his own life, to speak for himself, to choose and change his leaders.

From it comes our hatred of those "isms" under which the individual has no value or importance as a person, but is only one of many unimportant people who have to live the way their leaders tell them to.

Coming directly from that first principle are two others that are also part of the foundation of Americanism.

2. We Believe that All Men should Enjoy Personal Freedom.

It is worth noting that the Declaration of Independence expressed the belief that "all men are created equal." It did not state or imply a belief that men develop equally or have equal ability, or that they should ever be forced to an exact equality of thought, speech or material possessions.

That would be equality without freedom. Americans have always believed the two should go together.

In our Constitution, and in other laws of our land, there are set down principles to protect the rights and freedoms and equality of individuals.

4. The Right to Freedom of Speech.

This includes freedom of the press, of radio, of motion pictures, of every means by which man may express his thoughts.

5. The Right to Freedom of Assembly.

As we believe in the right of individual action, so we believe that individuals should be free to act together.

6. The Right to Freedom of Worship.

Not only is the individual free to worship as he will, but religions themselves are free and equal.

7. The Right to Security of Person and Property.

Not just one, but three Amendments to the Constitution (4th, 5th and 14th) protect against illegal search and seizure, or loss of life, liberty, or property, without "due process of law."

8. The Right to Equal Protection before the Law.

As individuals are equally important, so laws must apply equally to all, without special privileges for any group.

9. The Right to Freedom from Slavery.

This includes "the right to quit," for no individual may be forced to work for another.

10. The Right to Petition the Government.

The right of the individual to "petition the government for redress of grievances" is evidence of the American belief that government is the servant, not the master, of the people.

11. The Right to Vote for people of your choice.

This is the individual's most potent weapon in the protection of his rights and freedoms . . . a weapon that to be effective must be constantly and wisely used.

Other Principles hold that every man has . . .

12. The Right to a Good Education.
13. The Right to Live where he pleases.
14. The Right to Work where he wants to.
15. The Right to Belong to an Organization.
16. The Right to Own Property.
17. The Right to Start his Own Business.

18. The Right to Manage his Own Affairs.
 19. The Right to Make a Profit or to Fail, depending on his Own Ability.
- There are other, similar rights of individual action which are Principles of America, but all of these individual rights may be combined in these two broad principles . . .
20. Every Man is entitled to Freedom and Equality of Opportunity.
 21. Every Man may Earn his Living When, Where, and How he wants to.
- There are also Limiting Principles . . .
- Principles of individual freedom sometimes clash with those of individual equality. Therefore our rights as individuals must be limited, and those limitations are themselves principles.
22. The Rights of any Individual shall not Interfere with those of Other Individuals.
- Your right to swing your arms stops where the other fellow's nose starts.
23. The Rights of any Individual shall not Interfere with the Welfare of the People.
- Freedom of speech does not give the individual the right to shout "fire" in a crowded theatre.
24. Every Individual owes Obedience to the Laws under which he Lives.
- The individual has the right to talk against a law, to work and vote to change that law, but NOT to disobey that law.
- Principles that are Patterns of Behavior . . .
- Many of our principles of individual freedom and equality are guaranteed to us by law. But we have other beliefs, other general rules of action and conduct that have grown to the status of principles. And these too, are foundations of Americanism.
25. A Man shall be Judged by his Own Record.
- A man's family background, his race or his religion, is not as important as what that man himself can do, for Americans believe a man must stand on his own feet.
26. A Man is Free to Achieve as much as he can.
- We believe that where any boy may become President, where any man may achieve greatness, there is the greatest incentive for every man to do his best.
27. To Achieve anything, a Man should be Willing to Work.
- Americans have always known that "you don't get something for nothing," that to get anything takes a willingness to work. The combination is the basis for most individual achievement in our country.
28. Achievement also Depends upon the Ability to do a Good Job.
- Add to "willingness to work" the ability to produce results and the combination is the basis for most individual achievement in our country.
29. Every Man has the Right to a Fair Share of the Results of his Work and his Ability.
- Because of this belief, America has not only produced more goods, but they have been more fairly and more widely shared by more people than in any other country.
30. Security is the Ability of a Man to Provide for himself.
- The only true security for any individual is the opportunity, the ability, and the determination to work and plan and save for his own present and future. Self-reliance is vital to individual independence and personal freedom. No man can be "proud and free" who depends on others for his security.
31. When an Individual cannot Provide his own Security, the Responsibility should be Assumed by Others.
- We believe that no one should starve, or be without adequate clothing and shelter, so those who have more than their basic needs share the responsibility of providing the essentials of security for those who need help.
32. Each Individual must Deal Fairly with others.
- Honesty, fairness, and personal integrity are virtues that help free and independent individuals get along with each other without losing their independence.
33. Fair and Free Competition is a Good Thing.
- Americans have always believed that competition among individuals or groups encourages greater effort which in turn brings greater benefits to all.
34. Cooperation among Individuals is Vital.
- PRESIDENT EISENHOWER has said: "The freedom to compete vigorously accompanied by a readiness to cooperate wholeheartedly for the performance of community and national functions, together make our system the most productive on earth."
- Principles of Individual Responsibility . . .
- Freedom for individuals carries with it an equal responsibility to use that freedom wisely. If we wish to remain free, we must faithfully fulfill this responsibility.
35. The Individual is Responsible for himself and his Family.
- He must protect them and provide for their present and future well-being.
36. The Individual has Responsibilities to the Groups of which he is a Part.
- He must give of his best to his community, his church, his employer, his union, and to every group in which individuals cooperate for their mutual benefit.
37. The Individual has Responsibilities to his Country.
- He must be an active citizen, interesting himself in local, state, and national government, voting wisely, thinking and speaking and acting to preserve and strengthen freedom, equality and opportunity for every individual.
38. The Individual has Responsibilities to the World.
- Man's horizons have expanded. What happens in the world affects him, and his actions can affect the world. Today, therefore, each man has a responsibility to act—and to encourage his country to act—so that freedom and cooperation will be encouraged among the people and the nations of the world.
- For America's Future
- Most of us have faith in our country's ability to move forward, to improve, to grow, to provide more and more individuals with more and more of everything they want and need in life . . .
- If we, the people of the United States, want to have more material benefits, we must believe in and follow these two principles:
39. The only way we can Have More is to Produce More; and
 40. As we Produce More, we must make it possible for More and More People to Enjoy that which we Produce.
- If we, the people of the United States, want to have a better life, spiritually as well as materially . . .
41. We must stand firmly for our Beliefs, our Rights, our Principles.
- There are those who would chip away our confidence so that their special brand of tyranny might creep into America. They must not succeed. So, let us ask of every plan, or act, or idea . . .
- Is it With or Against the Principles of America?

Road Work Set

Contracts were let this week to Kerr and Middleton of Lubbock for constructing additional farm-to-market roads in Parmer County. Two projects are involved.

One is from F-M Road 690 at Oklahoma Lane south and southwest to the Bailey County line, where it will join another paved road already existing.

The other will link Rhea with the two F-M pavements running north of Bovina and west of Friona. The combined length of the two projects is about 14 miles.

A bid from the Lubbock firm of \$209,403.87 won the work of grading, structure building, base and surfacing for these and two roads in Castro County.

Resident Engineer Rhea Bradley of Littlefield will be in charge of the project for the Highway Department, and he estimates the work to take 160 days.

Mercury Soars; Friona Sweats

"It is hotter today than I can ever remember it being before," said many old timers about temperatures that soared higher than has been recorded since 1918, when 108 was reported.

Temperature was reported to have been 108 Saturday about 4 p. m., 106 Sunday, and well over 100 Monday afternoon.

A short, summer shower relieved the situation somewhat late Monday afternoon. It was measured at a trace, which brings the total for the year to 8.97.

Pool Committees, And Directors Meet Monday

A meeting to work further on plans for a Friona swimming pool will be held Monday at 8 in Bill Sheehan's office, according to Bill Sheehan, secretary-treasurer of the swimming pool Association.

Reports are due from the finance committees, the entertainment committee and youth committee. Various members of the committees are to meet with the directors for the first meeting of all committees and the directors.

Scouts Prepare For Jamboree

Ted Sanders and Robert H. Osborn of Friona Troop 56 and Johnny Miller and Ira Bruce Parr of Black Troop 54 spent several days last week at Camp Dan Harrington where preparation was being made for 35 boys and three leaders from the Llano Estacado Council to attend the National Boy Scout Jamboree at Valley Forge, Pa.

Officers were elected for the trip and Sanders was elected junior assistant Scoutmaster. The group will leave Amarillo Saturday, July 6, and will spend one day in Washington, D. C. and one in New York before reaching Valley Forge.

Youth Revival Starts Sunday

Services of the youth-led revival of the Friona First Baptist Church will start Sunday morning and continue with morning and night services throughout the following week.

Morning services will be held at 6:30 a. m. with night services scheduled for 8:30 p. m. Evening prayer services are to begin at 8 p. m. each day, according to Janice Miller, general chairman of the special services.

Evangelist will be Don Berry. Jackie Fryer will lead the singing.

Little League Players Insured

Insurance for Little League, Intermediate, and Pony League teams has been in effect for the entire season, according to DeWayne Neel, summer recreation director.

The policy was obtained by the recreation committee at the start of the season, Neel said. It is a blanket policy, covering all accidents, as well as when players are on the way to games, he said.

Cost of the policy is \$1.50 for each team member. Parents are being asked to pay this amount, and may do so by getting the money to team managers, according to Neel.

TWO CASES TRIED

Two cases were tried in Justice Court by Judge Walter Loveless during the week ending July 1.

Sonny Rondos pled guilty to unsafe movement and was fined \$15.50.

Benjamin Raymond McGehee pled guilty to operating a vehicle without an inspection sticker and was fined \$16.50.

THE STAR'S EDITORIAL COMMENT

Ounce of Prevention

Even though city spraying equipment is being used to get mosquitoes under control in Friona, and a few reports of good results have come in, the virility of the ones that are left seem to be increasing.

Neighboring Deaf Smith County is facing an emergency mosquito control problem, with warning that unless something is done an epidemic of encephalitis could start.

One wonders whether Friona is not in the same condition when experiencing numerous mosquito bites after darkness arrives and the insects leave hiding places in search of victims.

Will it be next week, or the week after that, when headlines might read: "Man Stricken with Encephalitis?" Let us hope this does not happen, and the story isn't written.

That it has happened, and can happen again is an unpleasant thought.

To remain content with living with the problem until an outbreak of the dreaded sleeping sickness occurs has no virtue. Contrition is the product of waiting too long.

A suggested way to help cut down on the incidence of mosquitoes is to give the effectiveness of the city sprayer a boost by spraying or dusting lawns and shrubs with insecticide. When the spray is fogged over a lawn mosquitoes seek hiding places, and shrubs are probably the most handy.

Getting rid of weeds, cans, bottles, boxes, and crates is another. This is something that should not require enforcement, though the city does have an ordinance requiring weeds be destroyed where they are a fire hazard.

Just a little effort and time for a little prevention of the problem's get-

African variety outyielded eight other warm season legumes in tests at the Texas Agricultural Experiment Station at Crystal City. African produced 4,290 pounds of dry forage per acre, compared with 3,430 pounds produced by Southwest common, 710 pounds for Ranger Buffalo and 690 pounds for Ranger. African and Indian, which produced 4,020 pounds, varieties not only made the most growth, but recovered more quickly after cutting than the other varieties tested. Southwest

Common grew faster after germination, but rate of growth slowed considerably within three weeks.

In both England and the U.S. the term "convict" refers only to a person found guilty by a jury.

Coodies was a nickname applied to those members of the Federalist Party in New York who favored the War of 1812.

X-Ray Worth The Price

Let it not be said that the x-ray service furnished Friday in Friona was not a bargain. It was really a deal that was worth taking.

The effectiveness of this operation depends entirely upon proper action when recipients are notified of the results. Follow the instructions and see a doctor if the report calls for this.

An expression of appreciation to those who made it possible by donating time and supervision is in order. To have done this service for this area is something which the donors were probably glad to do, but those who received the service should remember to express gratitude to them.

Join others in saying, "We appreciate your interest in us."

Texas cotton farmers last year saved more than \$15,000,000 in their fight against weeds and grass by using three practices—rotary hoes, post-emergence oiling with naphtha oils and spot oiling Johnson grass. Fred Elliott, extension cotton specialist, says the savings this year can mean even more because farmers generally are now behind in their farming schedules and the heavy rains will make weeds and grass an even greater problem. Local county agents have detailed information on the practices.

Since 1954 the number of farm residents in Texas has increased by 30,000. Since 1933 the trend had been downward. The farm population now makes up only 13.2 per cent of the state's total population but this figure is dropping because of the rapid increase in the urban population, says R. L. Skrabanek, department of agricultural economics and rural sociology, Texas A & M College.

Vegetable gardeners will find much helpful information in a recently released Extension publication, B-70, Vegetable Gardening. It's available from local county extension offices or from the Agricultural Information Office, College Station, Texas.

ARMY WHIRLBIRDS — Ricky Jennings, son of Mr. and Mrs. Elvie Jennings, gazes from his sawhorse perch at two of the three army helicopters that landed at Benger Air Park Thursday evening.

Brocks Tell Experiences While Touring West Europe

(Editor's Note: The following is a letter received by Mr. and Mrs. G. H. Brock, from their son and daughter-in-law, Bettie and Keith.)

We left here on a Thursday night for an American Express travel tour, guided by their agent here in Neureut Daserne, who has an excellent knowledge of Germany and Holland. We traveled on a touring bus, driven by a short, squat German with a flair for showmanship and expert driving. The bus was equipped for FM radio, and a microphone for the guide to use.

In a 1,500 mile tour, I was amazed at the way the driver wove his way through horses, bicycles and pedestrians. Moving up the Autobahn River, we stopped at Mannheim, south of Frankfurt, and continued on through the night. We crossed the border into Holland Friday morning. We found Dutch Customs officials very courteous, requesting one's ID card and leave form only. We had a typical Dutch meal for breakfast, consisting of yellow cheese, lightly cooked bacon, assorted bread, coffee, and jelly. Incidentally, the Dutch never serve a drink with meals and one must pay extra if he wants a drink. Coffee is much higher than a glass of milk in this noted dairying country.

After a few minutes to enjoy the air while overlooking a deep valley filled with grass, spotted by Holstein cattle, we left to explore more of Holland. The typical Dutch home is located on the farms, whereas in Germany most families live in little communities and ride bicycles to their land each day. Dutch homes are mainly built of brick while stucco is the material used for most homes in Germany.

As we traveled toward Amsterdam, I was extremely disappointed in finding no tulips. I had thought of Holland as a land of tulips, windmills and wooden-shoe clad people. The primary agricultural enterprise is dairying and hay producing.

Milking is done by hand, with only a few farmers having milking machines. They go to the cow in the pasture for milking, rather than let her walk to a grade-A dairy barn. A common sight is the milkman and his wagon as he pours milk from gleaming aluminum spigots into containers for the Dutch housewife in villages.

There are a few swine, the rangy, lean Yorkshires being the only breed we saw. They are of the bacon type, and require many months of feeding before slaughtering.

Upon reaching Amsterdam, we went on a canal tour in wide boats. A typical old salt dog with a crisp manner was our captain. A Dutch college girl was the canal tour guide. We discovered Amsterdam is like many European cities — full of American cars, bicycles and pedestrians. The guide told us there were 500,000 bicycles, 50 miles of canals, 100 islands and more than 400 bridges in the city. Housing is an acute problem and about 12,000 people live

in canal boats. Harbor fee for one of the boats is only one to one and one-half Guilders (27 cents) a month. We completed the tour, seeing several locks on the canal.

We were surprised to hear so many people speak fluent English. It was music to my ears after hearing the harsh German accent so long.

We crossed the harbor at Amsterdam on a ferry to Volendam. We passed through the Zuider Zee, 17,000 acres of land reclaimed from the sea. It is now an area of beautiful homes, lush pastures and Holstein cattle. We drove parallel to the dikes several miles. Dikes are constructed by building two clay dams side by side and then filling the void with sand.

Pumping the water out was a tremendous project because the area ranges from five to 15 feet below sea level, with some places being 40 feet lower than the sea. Drainage is done by pumping water through a series of canals, each higher than the other, until the water is finally pumped over the last one and into the sea. It is understandable why one hears the saying "The Dutch created Holland."

We finally saw some wooden shoes in Volleman, where we visited the city of fishermen. There we saw fishing nets, and men hooking lines for a fishing trip to the North Sea.

We went next to Marken, an island completely untouched by modernization. We saw the world-famous, brightly-colored costumes and picturesque groups of houses leaning to-

gether on the seven hills of the island.

While on Marken, we visited the home of Mae West.

Homes have such high beds that stools must be used to climb into them. This is a safety measure against floods which plagued the country years ago. Mae West showed us her antique dishes and an old foot warmer heated by coal. "We do not have bed warmers, we have our husbands to keep us warm," Mae told us.

She told us of the manner of marriage: When a couple becomes engaged, the future bride spends two months making her husband six pillows. These are very large, about eighteen inches square. He presents her a gift of hand carved wooden shoes, the product of about two month's work. "Lots of time they think the matter over and back out," Mae says.

Girls can marry when they become 18 years old, but younger girls often start looking for a man and perhaps she is secretly married before the accepted age. Wedding dresses are handed down from mother to daughter, and we saw some about 200 years old.

We returned to Amsterdam and went to Nordwik on Sea for the night. On the way we saw flax in brilliant bloom and turned off a highway as fine as any

in the States, and there the tulips were! Little roadside stands sell tulips for 25 cents for a bunch of ten.

At Nordwik on Sea, we toured the tulip beds and saw a huge windmill, complete with corn grinding machinery.

We next visited Hague, site of the World Peace Palace, a huge building of stone and wood constructed of gifts from each country in the world. Here we saw several of the queen's residences, and canals much like those in Amsterdam.

We then returned to Nordwik on Sea for the night and departed for home the next morning, arriving here in Karlsruhe around 6 p.m. Sunday.

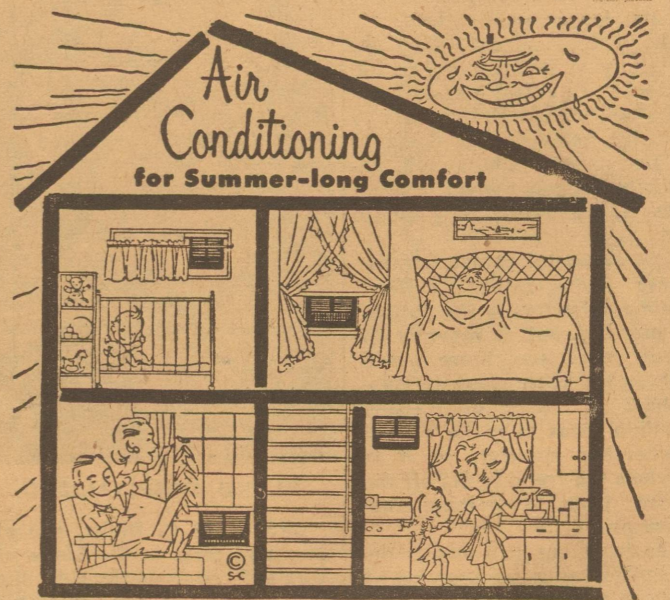

We hope to make another tour with American Express, because of the convenience and interesting places visited. It was really a great trip.

Keith is looking for a bicycle to ride to work, so I can have the car. We are about nine blocks from the bus stop and it is pretty hard to carry groceries that far. Too, he said that by riding a bicycle to work, we could save money on gasoline.

HURST GETS GAVEL—Andy Hurst, right, takes the Lion's Club gavel from W. L. Edelman, who installed the slate of officers for the coming year at the meeting Thursday night of last week.

Lion Officers Get Charges

The 1957 slate of officers for the Friona Lions Club took office Thursday night of last week, with W. L. Edelman of the local club giving the officers their charge.

New officers are Andy Hurst, president; Deon Awtry, first vice-president; George Jones, second vice-president; H. H. Horton, third vice-president; and Robert Ginsburg, secretary. Directors are Steve Messenger, Charles Seales, Charles Allen, and Newman Jarrell Jr. Kenneth Williams is tail twister. Edelman, in installing the officers, said this is the first time for the local club to have one of its members to give the charge to the new officers. He is a charter member of the club.

Also in a new office for the Lions Club is the sweetheart, Betty Agee. The Tuesday meeting was a breakfast at 6 a.m. at Mary's Cafe.

Plans for the year were also made at the meeting.

CUBS TO CAMP

All Cub Scouts of Friona are included in an overnight camp at Camp Don Harrington Saturday night. Cubs and their dads will leave from the Legion Hall at 3 p.m. Saturday.

Sunday, the mothers of the Cubs will prepare basket lunches and take them to the camp. The entire group will return late Sunday.

Five Fined For Drunkenness, DWI

Five area men, arrested in Parmer County over the weekend and charged with drunkenness and driving while intoxicated were tried and fined in county and justice of peace courts Monday morning.

Bobby Alley, Dimmitt, and Joe Costillo, Bovina, were the two picked up by Sheriff Chas. Lovelace and charged with DWI's. They were fined \$100 and court costs by County Judge A. D. Smith.

Charged with drunkenness were Jack Adams, Dimmitt; Gene Molina Bryan, Bovina; and John Everett, Bovina. They were each tried by Justice of Peace J. R. Thornton in Farwell. Fines and court costs were \$20 each.

Frionan Attends Training Course

Mrs. Howard Ford returned Sunday after spending a week studying at the Jurisdictional School of Missions at Sequoyah, Ark. Mrs. Ford was the representative to the school from the Northwest Texas Conference of Methodist churches.

Mrs. Ford was accompanied by Mrs. Billie Suddeth of Bovina, who represented the Plainview District; Mrs. O. M. Butler of Pampa, who represented the Pampa District; and Mrs. Henry Cusick of Amarillo, who represented the entire conference.

BIRTHS AND DEATHS

A total of 14 live births were registered during June, according to records compiled by Justice of the Peace Walter Loveless. The figure includes only those born at Parmer County Community Hospital.

Two deaths during June were recorded, from the Friona area of Parmer County.

Visits Grandparents

Tommy Pierce of Miami, Arizona, is visiting his grandparents, Mr. and Mrs. M. H. Skinner. Rev. and Mrs. T. L. Pierce who are Tommy's parents, and their other children, Shirley, Sandy, and Gary Lynn, returned to their home Thursday after spending two weeks in the Skinner home.

Visitors in the home of Mr. and Mrs. C. W. Dixon during the weekend included Mr. and Mrs. Mac Wiggs of Waterford, Bucky Dixon of Fort Worth, and Mr. and Mrs. Ray Landrum of Gruver.

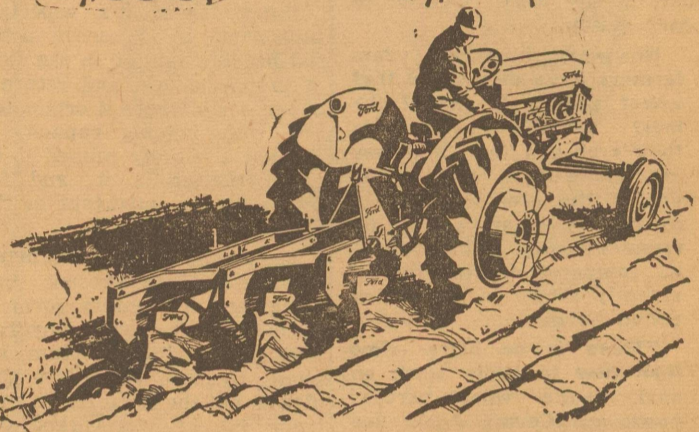

CHECK ON NITROGEN

Nitrogen applications from several different sources produced about the same increase in cotton yields in six tests conducted over a 3-year period in the El Paso Valley by the Texas Agricultural Experiment Station at Ysleta.

Anhydrous ammonia, ammonium nitrate, ammonium sulphate and urea were compared by D. E. Longnecker and Dr. Paul Lyrly, resulting in an average increase of 415 pounds of seed cotton from applications of 98 pounds of nitrogen per acre. In similar tests using superphosphate there were no significant yield increases.

Virginia Dare, first child of English parents in the New World, was born in Roanoke, Va., in August, 1587.

FORD puts the POW in POWER

...with a full line of 2-3 and 3-4 plow tractors

Smashing power . . . that plows through tough spots with ease. A reserve of power, there when you need it for all your farming operations. This is what you get in Ford Tractors. Whatever your needs, you can now choose a Ford Tractor that fits your kind of farming. The 3-4 plow 800 Series and 2-3 plow 600 Series both include a choice of All-Purpose models . . . with many advanced design and performance features. In the Ford 700 and 900 Series, you get power for row crop farming—with your choice of dual or single front wheel, or wide adjustable front axle. Now's the time to see and drive a new Ford Tractor.

Come in and ask for a demonstration!

Makes Forced Landing

An empty fuel tank and a forced landing on a rough field Sunday caused the first near serious accident of Elvie Jennings' flying career.

Jennings says the engine on his 1953 Super Cub sputtered as he was flying low with about 100 gallons of insecticide in the storage tank, but he did not have time to switch to fuel in the second gas tank.

The forced landing was made across water furrows in a field of mile owned by Herschel Johnson about 15 miles northwest of Friona.

Damage to the plane consisted of the landing gear being torn away, a bent propeller and fuselage damage.

Jennings was not injured. Water containing only a small percentage of potassium cyanide will dissolve silver and gold.

Court

Sam Wilks was arrested in Friona early Monday morning and jailed on charges of intoxication. He was released later in the morning after pleading guilty in corporation court and paying a \$50 fine.

The arrest was made by Howard Mayfield and Bill Ford, deputy sheriffs.

«The High Plains Farm and Home»

Work Starts Now For 1958 Wheat

The peak of wheat harvest is just passing, but already the progressive farmers of the irrigated High Plains are looking forward to next year's wheat crop.

This may sound strange, but there are several good reasons for it being true. For one thing, there is no substitute for time when it comes to getting the wheat stubble removed and made good use of.

There was a time when burning stubble was popular. It was believed that such a practice was an improvement over the "plow it under" method, since there was no comparison to be had in the work required for each system.

However, in recent years farmers have discovered that wheat stubble is one of the most valuable by-products their crop can have, and they are taking steps to make full use of the profits locked in every acre of straw. The interest in using stubble might be compared to the interest recently shown in conserving cotton burs.

"There is no better time than now to begin work on next year's wheat crop," points out County Agent Joe Jones. "Whatever you do, don't burn your straw. It is valuable organic matter, and preserves and increases the water-holding ability of your

soil." Traditionally, the soils of the High Plains have been low in organic matter. With little or no natural cover such as trees, and with a low amount of rainfall, there had been little bacterial-logical activity down through the centuries that the pastures were virgin.

Then the farmer came to the Plains and opened up the rich soils with a plow. With the development of irrigation and heavy cropping practices, the problem was even more aggravated because the amount of organic matter removed from the soil each year was multiplied many times over.

Today, then, it's especially important to preserve potential organic matter in the form of crop residues, and return it to the earth where it originated. The water-holding capacity of the soil is closely related to organic matter in it, and few things are as important as this on the Plains.

The county agent recommends fertilizer at the present time, using an ammonium form of nitrogen—such as anhydrous ammonia and ammonium sulfate. He adds that it's a good idea to put the fertilizer on even before the straw is worked, providing that moisture is sufficient.

From 80 to 100 pounds of nitrogen per acre will do a good job of speeding up the decomposi-

tion of crop residues, and in addition, the fertilizer will unite with organic matter and "fix" itself for the hungry young roots that will need nourishment next year.

That much fertilizer will, in fact, not only take care of the immediate job of breaking down the straw, but will very likely be enough fertilizer to plant the next wheat crop on—thus avoiding a fall application prior to planting, which is becoming customary.

"Then," says the agent, "the farmer can follow up with a top dressing in the spring and be assured of adequate plant food. Too much of our wheat this year ran out of food."

On that point, Jones makes the observation that many farmers who grazed their wheat during the comparatively warm winter months of last year (when the wheat was making good growth) hurt yields. The reason: The wheat was stimulated to grow, but exhausted the plant food in the soil. Livestock, in reality, walked off the range carrying the fertilizer intended for the wheat.

"If you're going to graze wheat—be sure to fertilize in February," he says.

Everything in this story pertains to irrigated wheat. In the case of dryland wheat, the object is not so much how to get rid of straw as it is how to keep the straw on or near the top of the ground so as to furnish protection from the wind.

Potatoes Show Good Quality

The 1957 potato crop is showing signs of good quality and good production, according to an observer from a Chicago vegetable buying firm.

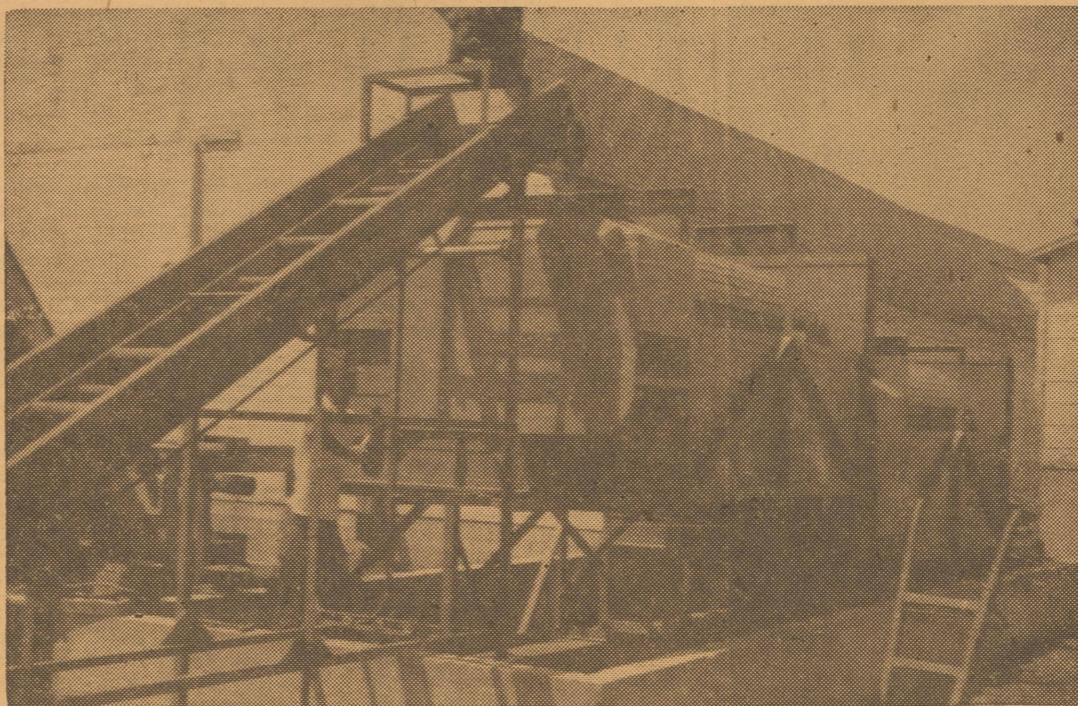

W. J. Dunkel, in Friona Saturday looking over some potatoes dug by hand, expressed himself as recognizing a potential good quality crop this year. He was examining potatoes grown by Hardy May, about three miles southeast of Friona.

May's potatoes, 100 acres of them, are expected to be ready for harvest about July 10. Dunkel, buyer for M. W. Frisell and Co. of Chicago, said the crop still needs to fill out more, and should do this in another week or two.

Kenneth Neill of Friona Growers and Shippers said the crop will probably be ready for harvest in a week or 10 days. It is hard to say what the yield or quality will be, he says.

"I do know that the hot weather we have been getting is not beneficial to potatoes," Neill said.

Long Term-Low Interest
Ethridge-Spring Agency, Friona

CARROT MACHINERY — Carrot processing and packing machinery is being installed by Friona Growers and Shippers to handle this year's crop. Jamie Clearman is tightening one of the last nuts on the washing facilities.

Carrots Coming To Friona Area

Carrot growing business will get a good try in the Friona area this year. It will be the first time for this enterprise to be tried on a large scale by many farmers.

Friona Growers and Shippers, Inc., is installing carrot handling machinery and it is already ready to start operation even though usual carrot harvest is not expected to start until August.

About 300 acres of the crop is expected to be grown around Friona, with the most of it already started, according to Kenneth Neill of Friona Growers and Shippers.

Neill says that about 400 acres is the goal of the firm for the first year and would like to contact farmers who have land that is not planted yet, so the other 100 acres could be planted.

"We are starting on a small scale since farmers will be getting their first experience in carrot growing," Neill says.

If farmers want to plant carrots this year, they may contact Neill at the potato shed, now a carrot shed too, since the additional machinery has been added.

Neill says the carrots should be planted before July 15.

He points out that he does not want to leave the impression with anyone that carrot growing is a way to get rich from the first year's crop. It is like other vegetable crops, and sometimes the price is good and sometimes the price is not quite so attractive.

Carrot growing does require a little special equipment.

Neill can furnish the planter and supply seed. About 250 pounds of 16-20-0 fertilizer should be applied to the land. Tillage of carrots requires a special cultivator, but can be rigged up on a tool bar.

Hardy May pioneered carrot growing in this area last year with about 45 acres. And he liked carrot growing well enough to go ahead with plans for about 125 acres this year. Part of this 125 acres was planted in March, and the rest is to be planted later.

About last year's crop, planting dates were July 4 and 25. The ones planted first were better quality than the later

planted carrots, while the part that was planted July 25 produced more tons per acre.

"I was well pleased with carrot growing," May says. May marketed last year's crop in Hereford. Only in the past few years has the Hereford area figured into the carrot producing areas to a great extent.

John O'Haugherty, sales manager for Growers and Shippers, says the new machinery will employ about 35 people when carrots are being harvested. It will have a capacity of four carloads of one-pound carrot bags a day.

Prospects for the Friona area becoming prominent in carrot production are good, according to O'Haugherty. Eventually, about 2,000 acres of carrots should be planted in the Friona area if this crop is favorably received by farmers.

"The quality of carrots grown in this area is good, and the carrot season comes at a different time than most growing areas," O'Haugherty says.

"Carrot growing should work into a farmer's program more satisfactorily than potato growing. Carrots will store better and do not require immediate selling when harvested," he says.

"What needs developing is an outlet. We feel sure we will be able to move the crop this year on the Dallas-Fort Worth and Houston and New Orleans market, but markets in the North will be utilized eventually," O'Haugherty says.

A coot is an aquatic bird found principally in South America.

Corn acreage in the U.S. exceeds that of wheat, oats, barley, rye and rice combined.

SOIL CONSERVATION DISTRICT NEWS

Last week in this column we discussed the two principal types of range or grass land in this district. We would like to follow this up with a discussion of the use we make of our grass.

Most of us, if we have any grass, usually just have small fields. When the grass greens up in the spring we pull the cattle off of wheat and put them all on the pasture. What happens is over-grazing. This decreases the forage producing ability of the pasture.

The picture we see on over-grazed pastures is very little grass and a lot of annual weeds which have poor grazing value. The land is left unprotected, creating conservation problems.

If you have a grass management problem, come by the Soil Conservation Service office in Friona and let's discuss it. If you have a grass seeding problem, let's look into it also.

Wheat harvest is here. There has been comment around the district that some of the wheat is cutting 40 to 50 bushels. Sounds good.

Let's save that stubble and use it for soil-building organic matter rather than burn or bury it six inches deep. Next week we plan to cover some procedures of handling this stubble for next year's crops.

Seems like more farmers in the district are planting soybeans this year than usual. Soybeans often make a good cash crop and when inoculated before planting will be of benefit as a soil improving crop and improve fertility even though the beans are harvested.

We have observed some soybeans being interplanted with cotton. This has been done by planting four rows of soybeans and then four rows of cotton.

NEWS FROM THE FARM BUREAU

By RAYMOND EULER

Entries for the queen contest to be held in the Bovina School auditorium Saturday night, July 20, should be presented to Mrs. J. T. Jones of Bovina, or taken or mailed to the office of Farm Bureau in Friona. The phone is Friona 3521.

Community chairmen who will take the entries are Mrs. M. T. Glasscock, Farwell; Mrs. L. F. Bruns, Lazbuddie; Mrs. Jack Patterson, Rhea; Mrs. Grace Parr, Black; and Mrs. Roy V. Miller, Friona.

Farm Bureau representatives are present in Washington, presenting American Farm Bureau recommendations to appropriate committees throughout the legislative session. Here are some of the bills Farm Bureau is supporting:

USDA inspection of poultry and poultry products.

Requiring specific congressional approval for withdrawals of public lands for military use in excess of 5,000 acres.

Extension for two years of Public Law 480 (the reciprocal export trade law).

The law to exempt wheat feed or wheat used for seed on the farm from market-

ing quota restrictions. To provide for transfer of title of federal irrigation distribution systems to irrigation districts after such districts have completed payment of the cost allocated to the irrigation systems.

Farm Bureau is opposing the wage-hour legislation that would extend coverage of some agricultural workers and all agricultural processing workers. It is also strongly opposing bills being pushed to provide federal aid to education.

Subsidies? Nearly everyone gets some of them directly or indirectly, but this, Farm Bureau believes, does not necessarily make them right. Railroad grants in the amount of \$123 million were made by the government when they were building.

In reduced rates for government traffic, including mail, until the early forties, the railroads, in effect, repaid the government \$1.1 billion. There are, of course, other considerations to be looked at. But we usually look at the side we like to see and ignore the other. That's because we're human.

Consider this: "A man shall be commended according to his wisdom; but he that is of a perverse heart shall be despised."—Proverbs 12:8.

Crabs are shipped to market alive packed in seaweed.

A Creole is an American-born person of pure European blood.

THE PARMER COUNTY IMPLEMENT CO.
NEWS
"The Place Where Most People Trade"
Friona, Texas
July 3, 1957

Several people from Friona enjoyed fishing and skiing at Conchas last week. The fish were really biting and the water was calm and still for skiing. The Ralph Wilson, Herschel Johnson, Louis Welch, Frank Spring and D. C. Herling families were some of the folks who were there.

Goodyear tires are the cheapest transportation you can buy. They give more miles per dollar. We have all kinds and all sizes. More people ride on Goodyear tires than on any other kind.

Mr. and Mrs. A. S. Grubbs and girls have moved to town for a few weeks while carpenters finish a big remodeling job on their farm home.

Ever wonder why you see so many Oldsmobiles on the road? That's because they're the best buys. We have some beautiful Olds on our lot and will be glad to give you a demonstration ride in the new "Rocket 88."

Mr. and Mrs. John Renner are building a swimming pool at their home. We understand it will be 18' x 36' and the Renner children are sure it is just about perfect.

Three of the girls who work at the bank were surprised Friday when they had chest x-rays to find they all had the same first name — Shirley. Everyone knows Shirley Hogue, of course. The others were Shirley Jane Phipps, and Shirley Anne Narworth.

Four new homes in Friona are almost ready for their owners. They belong to the Danny Mac Bainums, the Sam Williamses, the Bill Cogdills, and the Billy Joe Mercers.

Let us show you the new IH Tractors—how a new Farmall helps you save time and money on all your jobs. Let us bring a new Farmall out to your place. Try Culti-vision on the Farmall 150. Try the big tractor features of a Farmall Cub. Try the pull power of a Farmall 230. We'll gladly demonstrate.

Favorite poetry of ours—One thing that most young mothers find awfully hard to do, is learning that their neighbors have "perfect" children, too.

Then there is the story of the general practitioner who sent a patient to a psychiatrist with the explanation that he was a Texan with an inferiority complex.

Questions at our house—Why can't we have a big dog? When will we go fishing? What makes some stars big and some little? When will I be big enough? What does it hurt if I put a frog in my pocket? Who tells mothers and daddys what to do?

Our shop is always busy but not too busy to help keep your equipment in first class shape for all the work it will have to do this season. Call Ben Woody at 2091 for any repair work you need to have done.

"Texas" comes from "Tejas," an Indian word for "friends." An Indian tribe near Nacogdoches bore the name. Early explorers misunderstood the name of the land they had found.

Prize Pan-American good-will expression from a Mexican: "When Texas declared independence from Mexico and

set their boundaries they made one big mistake. They should have included Mexico."

Before the days of Pan-American good-will, any Mexican would boast that if it were not for the Texans in Texas, they could lick the whole of the U. S.

Ease of handling and new cab comforts make A Line International trucks ideal vehicles for family transportation. Cabs have widest inside dimensions among comparable trucks, colorful new interiors, are attractive and durable. Exterior finishes are available in a choice of two-tone colors.

The new Sunday School rooms at the Methodist Church will be ready for use this Sunday. All classes will meet in the sanctuary Sunday morning for a promotion program and then be assigned to their new classrooms.

Our parts department is always ready to serve you. We will be open early and late through harvest, but if the store is closed call 2091 or 3051.

We read that one sure cure for acne is dandelion greens. For a complete cure eat the greens twice a day for two months. We will be glad when the cure becomes popular. Think we'd have enough dandelions in our yard to supply all of Texas?

To kill moss in irrigation ditches, use bluestone. We have plenty of this moss killer for sale.

Saw a dog chasing a jack rabbit the other day and it was so hot they were both walking.

COTTON CHOPPERS HARD AT WORK

It's that time again, and these hoe hands are hard at work in the Oklahoma Lane area this week removing weeds from around tender young cotton plants. Spring rains prompted a heavier weed crop than is usual this year.

dom and frustrations, as well as such physical factors as overwork and strain, will cause that tired feeling.

Short rest periods from 10 to 20 seconds will work wonders if you are tired from heavy work. A change of environment or activities will often relieve fatigue caused by boredom or monotony.

Efficient, happy homemakers have found that these simple rules will help to fight fatigue and make work more interesting.

First—check your kitchen and household storage—Is everything within easy reach? Keep cleaning tools in good repair and located close to the job.

Wear comfortable work clothes and sit as much as possible while you work.

Study your jobs and organize the work in assembly line fashion. Use both hands whenever possible.

Don't try to stay with a heavy or difficult job too long. Intersperse big jobs with easier ones and rest at intervals.

Dark Cottons Deserve Special Care

The wonderful dark cottons now provide comfortable and fashion-right costumes the year-around. With proper care they

can be kept attractive and new looking for a much longer time, says Nena Roberson, extension clothing specialist.

Good dark cottons should be drycleaned to preserve their finish and appearance, at least as long as they are used for best wear, says the specialist. Garments with decorative details, padding, interfacing and designs which cannot be removed must either be drycleaned or laundered with special care. Dry cleaning avoids any risk of spoiling the appearance of the garments.

To launder the garments, wash each one individually in softened water. Rinse completely to remove all traces of soap or detergent. Soft water helps to prevent hard water curds or lint from sticking to the cotton. Use warm, not hot, water with mild soap flakes or detergents. Soapless detergents are good for dark cottons, especially in hard water. Be sure to read the directions on the package. Some detergents are used for cotton and some are recommended for rayon. Do not use a bleach. Many of the bleaches affect the finish of the material.

When ironing a dark cotton garment, press it on the wrong side to retain the finish of the material.

17 New Wells Drilled In May

Statistics at the Lubbock office of the High Plains Underground Water District indicate that Parmer County landowners drilled 17 new irrigation wells during the month of May. Three wells were listed as replacements.

Hot Sun Starts Wells

Old Sol turned on the heat across the farming area of the irrigated Plains this week, and farmers responded by turning on their irrigation wells.

The temperature soared over 100 and hung there and young, tender crops suddenly felt a terrific need for water. The 2,300 irrigation wells in Parmer County are hard at work this week to supply this need.

Generally speaking, most crops are making satisfactory progress after a rather late start this spring. The hot weather has been ideal for cotton, and to date, hasn't hurt anything else. In fact, the Plains have been due a little hot weather, since they haven't had any this year so far.

Most early cultivation has been completed, and water furrows are in readiness for a season's irrigating.

USDA Team Quizzes Farmers

"How much is your land worth? How long have you owned it? Do you have any trouble getting credit?"

These are some of the questions asked of about 22 Parmer County farmers last week by a USDA research team. Reason for the questioning was to get an over-all picture of farming conditions in Parmer County, that was selected at random from counties on the Great Plains.

Members of the team were recent graduates of Texas A & M College, hired by USDA to take the survey. They were Tom Livingston, DeMarcus Gordon, Larry Claborn and Gene Voelkel.

Voelkel said they selected 22 farmers at random and asked those selected questions from

a 23-page form. The questions involved land management, land tenure, and farm finance, he said.

The survey is the Great Plains Study, initiated this summer by USDA farm policy makers, in an attempt to get specific information on what farmers in the Great Plains need.

"When policy makers have this information, they will be able to make policy better fit the needs of these farmers," Voelkel said.

Texas is one of 10 states in which the study is being made.

Cotton culture is thought to have originated in India about 1500 B.C.

Not all crows are black; some have brightly-colored feathers.

New Farm Supply Business In Bovina

Parmer County's newest agricultural business bears the county's name—Parmer County Farm Supply. Last week it started operation in Bovina under the management of A. E. "Bud" Crump, formerly of Friona.

Fertilizers are being sold by the business at the present, but plans call for enlarging activity into general farm supplies.

Also associated with the business in the capacity of employees are R. L. Barber, Norman Killough, and Earl Riley. Crump was formerly with Parmer County Implement Company in Friona for nine years.

Plenty of land buyers we have, but enough good land to sell we are short of. We have land buyers who did not find land they wanted to buy last fall, and they're out looking early this year, so if you are thinking of selling some land, why wait until fall? Let us list it now, so we can work up advertising and show it while there is a crop on it. If you will come in and list your land we will go out and sell it.

Farm Housing Loans Available

"Eligible farm owners in Parmer County may borrow from the Farmers Home Administration to build or repair farm houses and other essential farm buildings," Billy R. Boling, the agency's county supervisor serving local farm families, said today.

He said that farm housing loans were made available under recent legislation. A total of \$50,000,000 has been provided for these loans.

Interest on the loans will be four per cent per year on the unpaid principal and repayments will be scheduled over periods up to 33 years. A housing loan will be secured by a mortgage on the borrower's farm.

The agency expects applicants to obtain the building plans and specifications for the improvements to be financed with the loans, Boling says. To help the borrower obtain construction that meets generally accepted standards of soundness, the Farmers Home Administration will review plans and inspect the construction as it progresses.

The local Farmers Home Administration County Committee will determine whether or not an applicant is eligible for a housing loan. To be eligible an applicant must be the owner

of a farm, be unable to obtain suitable credit for dwellings and other buildings from other lenders, and have enough income from the farm or from other sources to meet family living and farm operating expenses and repay his debts.

Farm Housing loans are made under the authority of Title V of the Housing Act of 1949, as amended.

Further information on the loans may be obtained at the county office of the FHA located on the second floor, room 17, of the county courthouse in Farwell.

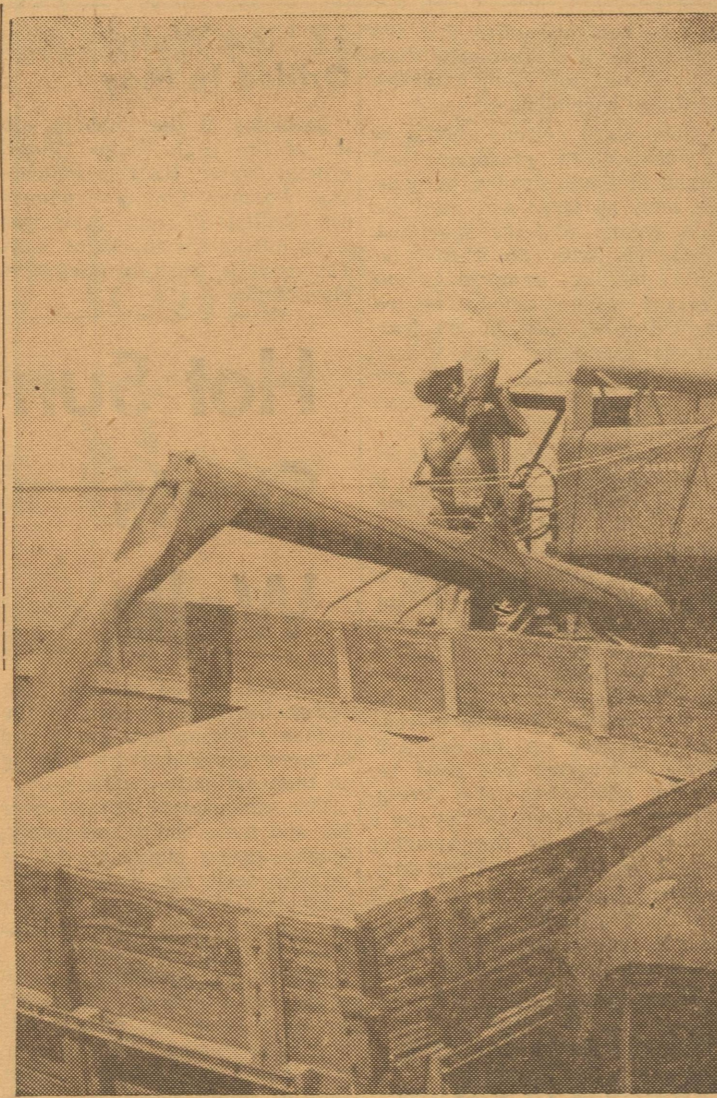

Harvest Reaches Peak

The area's biggest wheat harvest since 1949 is buzzing along at a fast pace under a Southwestern heat wave this week, and before the week is over, the peak will likely have passed.

Combines clanked into hundreds of fields almost simultaneously this week as farmers "got with it" and hoped to gather in the golden harvest before rough weather reduced or eliminated profits from the crop.

Earlier fears of damage from a number of causes seem to have been largely allayed, and yields are holding good in most instances. At first it was feared that greenbugs, the March snowstorm, and even some reports of blasting would bite into yields.

But now, most irrigated fields

No time was being lost this week to gather the area wheat crop into trucks and to elevators. This field near Bovina is on the Ed Johnson farm, and was averaging about 35 bushels per acre. It is typical of most of the irrigated wheat of the Western High Plains.

are averaging out from 35 to 45 bushels per acre, with cuttings of over 60 being heard occasionally. Dryland wheat is not too good, making from five to 15 bushels per acre, but generally is better than what farmers expected along in February—nothing.

Quality and weight of the wheat is excellent this year, with most loads checking out 60 pounds or better. The hot, dry weather has removed a high moisture content threat.

The western part of the High Plains does not have the trouble that some of the rain-soaked wheat areas to the east have had. Wet weather has delayed maturity of their crop, and the hot weather has hurt it.

Wheat of this area matured under very favorable conditions when cloudy skies and cool weather prevailed.

THE PARMER FARMER

By LELAND BOYD

It is encouraging to note the installation of carrot handling machinery at Friona Growers and Shippers. Another business venture is being made possible for farmers, for this is the first year to have these facilities in the county.

It appears that this area is well suited to carrot growing, having water for irrigation and rich, loamy soil. Then, there's a relatively long growing season for carrots in the Parmer County area.

If farmers are the gamblers that one is always hearing they are, there should be a few more around Friona that would like to get in a few acres this year. Enough are signed up now to have about 300 acres this year, and Kenneth Neill of Friona Growers and Shippers, says he'd like to see enough farmers plant carrots to have about 400 acres.

Hardy May is reported to have grown carrots last year, and is going into it with larger

mer County, tells about getting one field finished in a hurry. He said the field was finished in two rounds and a through for the six machines. The field was about 38 acres.

One of the machines was out of commission the other day because the motor "burned up." The water in the radiator got low and the temperature mounted, finally ruining the motor, he said.

I don't believe I've ever seen any farmers as busy as those around the county area during wheat harvest. And this means that employees at the elevators in the area get to work long hours. A few clouds were around Sunday, and if a hard rain or hail comes, farmers will be well paid for their rush.

Elvie Jennings, who has been "hombing away" at cotton insects since the start of the early season control program with his airplane, ran out of fuel while flying low Sunday and had to make a forced landing, he said.

He had to land in a field of milo across the beds. The roughness tore off the landing gear and bent the propeller when the plane nosed down, but Jennings was not injured.

"The moral to this story is always be sure that there is plenty of fuel in the plane before take-off," Jennings said.

THE HAPPY HOMEMAKER

If every week was like this one, writing this column would always be a wonderful experience rather than the chore it

turns out to be once in a while when we run out of ideas. Thanks to our good friend and faithful reader, Lady Armstrong down at Bovina, we have some wonderful recipes to share with our readers this time.

As happens so often when Lady has company, some guests complimented her cooking and the compliments served as an inspiration for her to share some more of her favorite recipes with us. We are deeply grateful to her and know all the readers who liked the ones she sent before, will be anxious to try these.

The first one is for Pineapple Salad. It is another of those wonderful dishes that fits in with a complete meal or with sandwiches or snacks.

1 pkg. lime Jello
1 No. 2 can crushed pineapple
2 three oz. packages cream cheese
1 cup chopped celery
1 cup chopped pimento
1 cup chopped walnuts
1 cup whipping cream

Bring can of pineapple to boil. Mix in Jello and cream cheese and stir until well dissolved. Place in refrigerator to chill.

When mixture begins to congeal, add celery and walnuts. Whip cream and fold into mixture. Cut in squares for serving and garnish with cherries.

The next one is for an ice box cake which is very versatile. It can be made in several combinations and there is a secret to making a success each time the recipe is used.

ICE BOX CAKE

Dissolve two packages of red Jello and chill until it begins to set. Mix together one-third cup butter, 1 cup sugar, and 1 egg. Cream until sugar is thoroughly dissolved. To this mixture add 1½ cups drained crushed pineapple and 1 cup pecans.

Line bottom of 12-inch pyrex pie plate with vanilla wafers. Spread creamed mixture over the wafers, then add another layer of wafers. When Jello begins to set, pour over the entire mixture and chill. Cut in squares and top with whipped cream.

The secret of success is to be sure that the sugar has dissolved and the Jello has set

enough that it will not soak into the bottom layer of vanilla wafers.

Raspberry flavor Jello with graham crackers makes a tasty variation of this recipe. Ice cream may be frozen as a topping.

Mrs. Armstrong recommends Butterscotch Whirls for a dessert which can be made ahead of time and says, "They will keep for days if you can keep them that long, and are just as good or better when they are one week or ten days old." This one we just must try.

BUTTERSCOTCH WHIRLS

1 cup butter
2 cups brown sugar
2 eggs
1 teaspoon vanilla
¾ cups flour
1 teaspoon soda
1 teaspoon salt
1 tablespoon lemon juice

Cream shortening and sugar thoroughly. Add eggs one at a time and beat after each addition. Add lemon juice and vanilla, then add dry ingredients all at once and mix until well blended.

Roll dough to one half inch thickness and spread with date filling. Shape into a roll, chill, slice and bake in 400 degree oven.

DATE FILLING

½ cup dates
½ cup sugar
½ cup boiling water
1 tablespoon lemon juice
¼ cup nuts
Cook dates, water and sugar

COOL AID ANYBODY? — Exploiting the demand among hot, thirsty people is the aim of this tri-partner business, and sales go up with the temperature. Owners of the "corporation" are Ronnie White, in box, Billy Thomas and Earl Crow, not pictured. Morris Deaton (r) "stays here to run off potential customers," White says.

Farm Bureau Hears Delegate Reports

Parmer County Farm Bureau directors met Monday night in Friona to hear a report from four 4-H Club members who were delegates to the annual 4-H Roundup, held in College Station June 10 through 12.

Reports were given by Billie Hardage of Lazbuddie, Cooper Young of Lazbuddie, Judy Billingsley of Farwell, and Lexie Stevenson of Bovina. The Farm Bureau sponsored the four on the three-day trip.

Also on the agenda for the night was a discussion about current legislation before the house and senate.

Reeds Have Weekend Guests

Weekend guests in the home of Mr. and Mrs. Leo Reed and sons were Mrs. Reed's parents, Mr. and Mrs. O. T. Ingraham of Mooreland, Okla.; Mr. and Mrs. Jim Ingraham and family of Mooreland, and Mr. and Mrs. Charles Ingraham and daughter of Quinlan. Jim and Charles Ingraham are brothers of Mrs. Reed.

Other guests were Mr. and Mrs. Aaron Hale of Henderson. Mrs. Hale and Mrs. Reed are sisters.

Building Permits \$3,105 For Week

The following building permits were issued in Friona during the week ending July 1.

Howard Love, 302 East Sixth Street, 16 x 24 addition to residence, estimated cost, \$2,855.

John Blackburn, 1003 West Sixth Street, construct redwood fence, estimated cost, \$250.

Total for the week, \$3,105.

Electricity Works For Sorenson From Egg to Egg

VETERAN POULTRYMAN PREDICTS BRIGHT FUTURE FOR EGG PRODUCERS.

From egg to egg electrically defines the success of Nels Sorenson, pioneer hatcheryman and egg producer, Amarillo area.

Nels entered the poultry industry when it was "egg money" for the farm housewife. Through 36 years in the poultry industry, he has developed many electric appli-

cations for profitable and efficient chicken and egg production.

He depends on electricity to incubate the eggs, brood the chicks, warm the water, operate an automatic feeder, and provide 14 hours of light per day and egg refrigeration. In addition, Sorenson employs Reddy Kilowatt to grind and

mix his feed, pump his water, and keep water pipes thawed. The veteran poultryman's electric operation is coupled with strict sanitation practices and a mandatory vaccination program.

Sorenson's poultry raising activities have progressed from selling hatching eggs to being one of the major egg and chicken producers in the area. His thermostatically controlled incubators can hatch 9000 eggs per week, and he has space in his electric battery brooders for 15,000 chicks.

Sorenson is optimistic about the egg picture despite the current low price in eggs. He bases his favorable outlook on the reduction in the number of chicks put down this spring.

"Seventeen percent less laying pullets are being put down in the Southwest than a year ago, Sorenson remarked, "and it indicates a high egg market next fall and winter."

From electric incubator to electric home where the future laying hens will live for the next three weeks. Sorenson's loss during this brooding is less than 1/4 of 1%.

Controlled breeding and electric incubation gives Nels Sorenson an 87 to 90% hatch. Picture shows him examining and counting one of his bi-weekly hatches.

disagreement on the possibilities of such a pact ever being worked out.

Incidentally, Lyndon Johnson earns his \$25,000—don't ever think he doesn't. At least, we wouldn't do what he does for four times a salary such as his.

He was sitting at the speakers' table, awaiting his turn at the rostrum, in a huge dining hall at Kelley Air Force Base. The hall was not air conditioned, and the atmosphere was very oppressive. Johnson, like most other men, had removed his coat for a little relief.

When it came time to talk, though, he jerked on his coat just as Emily Post would have decreed, and began a 35-minute talk in the room where the temperature was likely 100 or over and the humidity about the same.

That would have been enough to cause most men to have a stroke, but after he finished, he dashed to the door of the hall and vigorously pumped the hand of each of the newsmen as they filed out—about 500 strong.

Perspiration poured from his face, but he grinned and kept pumping. We couldn't help but think of his heart and of his doctor's probable orders as we passed by. You may remember

that he had a severe heart attack a year or two ago.

Politics, wow! It's too rough for us.

No less an authority than good old Bing Crosby has labeled most of today's music "trash." If anybody is qualified to judge, we'd doff the hat to Der Bingle, who has sung everything from "Ave Maria" to "Pistol Packin' Mama."

Bing, in a recent newspaper article, implies something sinister is happening to the music business. It has something to do with how tunes get into circulation in the first place, though we profess an inability to understand the complicated mechanism of this system.

However, we'll point out this: Stick around for a little while longer, and you'll see a change. It doesn't make any difference

Protects 3 WAYS!

Pittsburgh SUN-PROOF HOUSE PAINT

1. Fume Resistant!
2. Self-Cleaning!
3. Stays brighter - LONGER!

SUN-PROOF House Paint is now fume-resistant too! This quality of resisting darkening, discoloring gas fumes and coal smoke gives longer life to SUN-PROOF House Paint, and assures your house greater protection and better looks. New Fume-Resistant White Sun-Proof House Paint STAYS WHITE — colors retain their original bright beauty.

Hi-Point HD Club Has Two New Members

The regular meeting of the Hi-Point Home Demonstration Club was held in the home of Mrs. Harry Hamilton Friday afternoon. Two new members, Mrs. Rudolph Renner Jr. and Mrs. Homer Lindeman, were added to the roll.

The program on "Child Safety-Home, School, and Community" was presented by Mesdames Dan Tims and Lloyd Recker. Mrs. Joe Brummett conducted the opening exercise. The council report was given by Mrs. Lloyd Mingus.

Refreshment of cookies and cold drinks were served by the hostess to two guests, Helen Hamilton and Carol Oldham, and the following members: Mesdames Joe Brummett, Lloyd Mingus, Glen Mingus, G. L. Mingus, Elmer Oldham, Billy Dean Baxter, Rudolph Renner Jr., Homer Lindeman, and Dan Tims.

The next meeting will be held in the home of Mrs. G. L. Mingus Friday, July 12, and will feature a demonstration on fabrics and fibers by Jimmie Lou Wainwright.

School Takes Bids On Bus

Bids on a 1952 Chevrolet, 24-passenger bus are being taken this week by Friona School and will be opened Saturday at 1 p.m. at the High School, according to Dillie Kelley, superintendent.

The bus, number 27, may be examined at the bus barn, Kelley said.

No new bus is to be obtained to replace the one being offered for sale. The vehicle is an extra which has not been used recently.

The school reserves the right to reject any and all bids, Kelley said.

The island of Corregidor is one mile wide, four miles long.

McMahan To Play With Red Raiders

According to an announcement made this week by Coach DeWitt Weaver of Texas Tech, Don McMahan is one of three football standouts who have been named recipients of Texas Tech athletic scholarships.

McMahan, who is a 1957 graduate of Friona High School, stand 6' 5" and weighs 225. He was an all-district tackle and linebacker for Coaches Colie Huffman and Joe Means. He also put the shot and threw the discus. He was active in FFA and plans to major in agriculture.

Observes 91st Birthday

Mrs. Charles Schlenker of Friona, who is better known as Grandmother Schlenker, observed her 91st birthday Friday. Although no formal party was planned, several children, grandchildren, and great grandchildren visited her. Many friends and relatives sent greetings and other remembrances.

MOVED

Mr. and Mrs. John Lamb and daughter, Su Zann, moved to Waco this week. John O'Haugerty moved into Mrs. J. P. Wilson's garage apartment. O'Haugerty is employed as salesman by Friona Growers and Shippers.

NEW YORK IS A SUMMER Festival

NEW YORK CELEBRATES ITS FOURTH ANNUAL "NEW YORK IS A SUMMER FESTIVAL" THIS YEAR BY WELCOMING VISITORS TO SEE ITS WONDERS BOTH OLD AND NEW.

- EMPIRE STATE BUILDING** MAN'S TALLEST TRIUMPH, THE EMPIRE STATE BUILDING, BUILT 26 YEARS AGO, IT IS 102 STORIES HIGH AND SOARS 1472 FEET SKYWARD.
- UNITED NATIONS** HISTORY IN THE MAKING CAN BE OBSERVED AT THE UNITED NATIONS HEADQUARTERS SITUATED ON 18 ACRES OVERLOOKING NEW YORK'S EAST RIVER.
- ROCKEFELLER CENTER** RADIO AND TELEVISION CAPITAL OF AMERICA, ROCKEFELLER CENTER IS A FOCAL POINT OF NEW YORK'S BUSINESS & ENTERTAINMENT ACTIVITIES.
- TIMES SQUARE** TIMES SQUARE, FABLED IN SONG & STORY AS NEW YORK'S AMUSEMENT CENTER, IS ACTUALLY TRIANGULAR IN SHAPE AND BIG IN HEART.
- STATUE OF LIBERTY - MAYFLOWER** TWO SYMBOLS OF FREEDOM—THE STATUE OF LIBERTY AND A REPLICA OF THE HISTORIC MAYFLOWER. BOTH WILL BE FEATURED ATTRACTIONS OF THE 1957 "NEW YORK IS A SUMMER FESTIVAL."

WORK ON THE 4TH!

For some the Fourth of July will mean another day in which to harvest wheat, or cultivate crops, or run irrigation wells at full steam.

Others will take trips while some stay at home. We hope each of you enjoy this commemoration of a national holiday and have safe trips or a pleasant day.

Depending on your NEED for service, Bainum Butane will be prepared to fill that need on the Fourth of July, just like other days.

DARLENE DOUBLE CEREMONY PLANNED ARLENE

Mr. and Mrs. J. L. Stowers have announced the engagements and approaching marriages of their twin daughters, Arlene and Darlene. Rev. W. C. Wade of Seagraves will officiate at the double ceremony, which will be read at the Assembly of God Church in Friona Sunday, July 14, at 3 p.m.

Arlene will become the bride of Ernest Beavers, son of Mr. and Mrs. B. D. Beavers of Route 3, Hereford, and Darlene will become the bride of Robert Dickey, son of Mr. and Mrs. J. E. Dickey of Friona.

in & around FRIONA With June

Judging from the "I've Had My X-Ray, Have You?" signs we saw in town Friday, the participation in the chest x-ray program was good. Feel sure that the majority of people liv-

ing in Friona had chest x-rays made. Several came from Farwell, several from Lazbuddie, and at least two from Erick, Oklahoma.

There were also a lot of persons wearing them that we did not recognize, so couldn't tell where they were from. The thing about it that caused the most comment was the time it took. Almost before the person being x-rayed understood the simple instructions given by the technician, he said, "That's all." Wonder how many of those

who had the x-rays made stopped long enough to be thankful that we live in a country where such things can and are being done. Too many of us accept the privileges we enjoy without any thought of being thankful for them.

Wheat harvest is really in full swing and within a few days will all be over. Each year it seems that the duration of what used to be a long drawn out operation becomes shorter and shorter. Reports of above average yields are coming in from every direction. Think the dry land farmers northwest of town are more than pleased with the turn-outs they are receiving.

Mrs. A. H. Boatman always reminds us that she is vacationing by sending a picture post card. The most recent one came from some resort town down on the coast. We have been informed that she is absent from work under her doctor's orders. If that report is true and she needed a vacation, she hardly gets home until she's off again to Oklahoma, California, or South Texas. Anyway, we surely do enjoy the pretty cards she sends and feel honored that she remembers us.

Right now she's home and has her three grandchildren from Oklahoma City visiting her. Her son, Cliff, came with them and returned home by bus. On the way they passed a cemetery where the trees were dust laden. Someone remarked that the trees looked dead. One of the children spoke up and said, "Why, of course they are dead. They are in a cemetery."

The noises which are so noticeable to country people when they visit in large cities may soon be reduced. There are new plastic garbage cans and lids that can be bounced on a sidewalk without waking the persons in the household or the neighbors.

One New York construction company finds that building

than likes, newspaper people very rarely receive compliments. It is good to know though that if we are not doing a good job someone will tell us about it.

A reversal of this came about in our office this week. Late Thursday a subscriber, who had recently renewed her subscription, came in and didn't find anyone in the office. She wrote a note explaining that she did not receive a paper, so was taking a copy. Upon finding the note, we were happy that she had missed not getting a paper and stopped by the office to pick up one.

After making a note to check and find out why she had not received the copy which should have been mailed to her, the incident was temporarily forgotten, but not for long.

Upon returning from lunch Friday, a copy of the paper addressed to this person was lying on the desk. Under the name and address were the words, "I apologize."

Now we know that there is at least one Frionan who took time to relay a message to us when an error was discovered. Of course, we still don't know why she didn't get the paper Thursday afternoon. Just hope all of our subscribers will feel free to let us know any time they fail to receive a copy of the paper.

Before you go out of town to buy office supplies, check with us. We have most of the popular styles and sizes in anything you might need.

GUEST SPEAKER

Steve Eckstein of Portales was guest speaker at the Sixth Street Church of Christ at the morning and evening services Sunday. Eckstein is head of the Church of Christ Bible Chair at Eastern New Mexico University.

Mr. and Mrs. Marvin Cunningham were weekend visitors in the homes of Mrs. J. E. Cunningham, Mr. and Mrs. James W. Cunningham, and Mr. and Mrs. Walter Cunningham.

Shower Honors Ralph Sheltons

Rex, young son of Mr. and Mrs. Ralph Shelton, was honored with two showers recently. Friday morning Mrs. Shelton and Rex were guests of honor at a shower in the Kenyth Cass home. Co-hostesses with Mrs. Cass were Mesdames J. H. Boyle, Arthur Drake, and Forrest Osborn.

The serving table was centered with an arrangement of yellow spring flowers including a miniature boy and dog. The refreshments carried out the color scheme of pastel green and yellow.

Those attending and sending gifts were Mesdames Ernest Osborn, Wesley Foster, W. S. Ingram, Clyde Weatherly, John Wright, John L. Ray, L. C. Johnson, J. G. Baker, Luther Shelton, U. S. Akens, Leroy Blaylock, Henry Lewis, O. L. Rankin, Hugh F. Blaylock, Hank Outland, and Tom Pruett.

Also, Mesdames Andy Hurst, Billy Sides, Floyd Rector, I. T. Graves, Fay Reeve, R. N. Gore, C. L. Lillard, C. L. Vestal, Buddy Squyres, Frank Spring, J. T. Gee, Guy Latta, W. M. Stewart, Jean Anthony, Ernest Anthony, Homer Lindeman, O. C. Jones, Lloyd Rector, Loyde Brewer, David Moseley, H. C. Kendrick, Wright Williams, W. B. Norwood, Dorothy Hough, Gene Ellis, and Mrs. George Price of Lubbock.

Also, Phillip, Celia, Bill, Gene, and James Weatherly and the hostesses.

Friday evening a group of youngsters planned a surprise shower and party for Rex in the Forrest Osborn home. Gifts were presented by Erma, Betty, and Peggy Drake; Jerry Cass, Carl and Teddy Osborn.

Refreshments of animal cookies and ice cream were served to the children and their parents.

James and Annette Crow of Amarillo spent several days last week visiting their grandmother, Mrs. A. A. Crow.

SECTION II THE FRIONA STAR

Mrs. Boatman Returns Friday

Mrs. A. H. Boatman returned Friday after spending two weeks visiting and sight seeing in Oklahoma and South Texas. She visited a sister, Mrs. Claude Wilkinson at Duncan, Okla., then went to Oklahoma City where she visited in the homes of Mr. and Mrs. B. E. Todd and Mr. and Mrs. Clifford Boatman and children.

Mrs. Boatman, Mrs. Wilkinson, and Mrs. Todd went to Fort Worth and visited Mrs. R. R. Ruyle. Then the four went to Houston and visited in the home of Mrs. Topsy Clour, who is a cousin of Mesdames Boatman,

Wilkinson, and Ruyle. The group also went sightseeing at Corpus Christi, San Antonio, and San Marcos. On the return trip from Oklahoma City, Mrs. Boatman was accompanied by her son, Clifford, and grandchildren, Linda, Cynthia, and Gary. The children will spend a month visiting with Mrs. Boatman, the Gib Boatmans and the Leo McLellans.

To Clovis

Frionans who were in Clovis Thursday include Mrs. C. S. Crow and Barbara and Raye Jene Jones, Mrs. Kenneth Houlette and children, Mrs. Pearl Hand and Mrs. D. G. Hand, and Mrs. Bob Rule.

ALL PROPERTY INSURANCE IS THE SAME....

...until you have to use it!

One property insurance policy is pretty much like another — at the time you buy it.

When you have to use it, however, the differences become apparent. That's when you find out how comforting it is to have the counsel and services of an independent local agent and the peace-of-mind protection of reputable Capital Stock insurance companies.

So be sure when you insure. Select an established, independent local agent to whom you're a neighbor, not a number. And make sure that he represents only Capital Stock "Standard Protection" companies. There's a big difference!

LETTERS TO THE EDITOR

GREETINGS FROM A NEW PASTOR

HELLO FRIONA!

Since we are about through with the job of moving, unpacking and arranging furniture, etc., we would like to take this opportunity to get acquainted. We would like to meet each of you personally, but since that is a job that takes time, we felt that this was next best.

We believe that we are living close to the time spoken of by our Lord in Luke 21:25. He described it as a time of "distress of nations with perplexity." Each of us has his problems, also problems that concern our community, and last but not least, we have our problems as individuals. We feel that our mission in Friona is to help with as many of these individual problems as time and circumstances will permit.

Perhaps you have tried other remedies, and other formulas without success. So why don't you try God's way? Men and women, old and young, from every walk of life have found help when they brought their problems to God. . . . 'Oh what peace we often forfeit; Oh what needless pain we bear; All because we do not carry, Every-

thing to God in prayer."

In closing, I would like to leave the words of a little poem with you. It is called, "The Parson's Prayer."

I do not ask
That crowds may throng the temple
That standing room be priced;
I only ask that as I voice the message
They may see Christ!
I do not ask
For church pomp or pageant,
Or music such as wealth alone can buy;
I only pray that as I voice the message
He may be nigh!
I do not ask
That men may sound my praise,
Or headlines spread my name abroad;
I only ask that as I voice the message
Hearts may find God!!
Sincerely yours, in the Master's Service,
Rev. and Mrs. H. C. Louis
Friona Assembly of God

ELECTED PRESIDENT

Leo McLellan, Friona postmaster, last week was elected president of the postmasters organization of the 18th Congressional District. He previously had been 2nd and 1st vice-president during the first and second years in his position here. The purpose of the organization is to seek better methods of giving postal service. Election of McLellan was made at an Amarillo meeting.

SPECTROPHOTOMETER — Mike Pavalus, laboratory technician at Parmer County Community Hospital, places a sample in the gadget while demonstrating its operation.

Hospital Gadget Helps Doctors, Patients Too

By using a gadget with a few mirrors, an electronic tube, and an indicator, doctors at Parmer County Community Hospital can now determine how much PBI, and several other substances, a patient has.

PBI is the chemical term for protein bound iodine. Through knowing the amount of this substance in a person's blood, the activity of the thyroid gland is calculated. Knowledge of needed treatment is no longer a guess.

The gadget is a spectrophotometer, and was added to the hospital's equipment about two months ago. The spectrophotometer makes treatment much handier for patients and doctors, says Kenneth Thompson, hospital manager.

"The cost of the gadget and necessary equipment was \$2,480. Because it is not necessary to send samples of fluid to Hereford, the result of a test is known more quickly. This saves patients another trip to the hospital, and ends much of the trouble experienced with sample contamination during shipment," Thompson says.

Laboratory technician Mike Pavalus is the one to whom falls responsibility for operation of the spectrophotometer. Pavalus received training in the operation of the machine when he was in college at Chicago.

"Depending upon the type of sample, one of two ways is used in making tests," Pavalus says.

In one, the sample is placed in an atomizer and burned with a mixture of oxygen and acetylene gas. The color of the flame changes according to the amount of substance in the sample. The light from the flame is reflected through three mirrors, and a prism. The light from the prism is picked up by

an electronic tube and registered. "Results are read from an indicator on the face of the machine and the amount of substance determined from this," Pavalus explains.

"The other method uses a light instead of the flame, reflected through the sample. Color of the flame is registered in the same procedure as when the sample is burned," Pavalus says.

"The main use we have for the machine is for tests dealing with blood chemistry," he says. "Many of the tests we make have to do with thyroid gland activity, blood calcium, sodium, magnesium, and potassium."

"The machine has the ability to test for all minerals. Determination of protein quantity in the blood also can be done. Among 26 substances the machine is capable of determining are blood alcohol, glucose, hemoglobin, and spinal fluid protein."

"Time required to do one test is about two hours. Before running a sample, it must be prepared. We have the equipment, too, which also was added when we received the spectrophotometer," Pavalus says.

The hospital has used a galvanometer for some calculations, but the spectrophotometer is about four times as sensitive, which means that it is four times as accurate, Pavalus says.

Until about two years ago, very few hospitals had such equipment, and even though hospitals at both Clovis and Hereford have similar machines, it is quite advantageous for Parmer County Community Hospital to have the machine, he says.

NEWS FROM BLACK

By MRS. CLAUDE EDELMON

Bengers Have Guests

Monday guests in the home of Mr. and Mrs. John Bengener were: Mr. and Mrs. Marvin Clarke and daughter, Suzette. Clarke is a nephew of Mrs. Bengener. They were on their way to California to make their home. Mrs. Clarke is a native of England and just recently came to the United States with her husband, who had been on a tour of duty with the Air Force.

Community Feels Deeply Grateful

The Black Community would like to express its appreciation to all the people who appeared on the TV show recently when the community was saluted by Cotton John. Special thanks go to Rev. Blaylock, Mayor A. W. Anthony Sr., Superintendent Dillie M. Kelley, and W. H.

Graham Jr. for their kind and complimentary remarks about the community.

Thanks also go to Mrs. Roy V. Miller Sr. and her Trebellaires and to Mrs. Harry May for the song she wrote honoring the community. Everything done is deeply appreciated by all the residents.

The song which Mrs. May composed was sung to the tune of "There's A Long, Long, Trail A-Winding," and the words are printed below:

"SALUTE TO BLACK"
There's a neighborhood we're proud of,
She is the queen of the Plains,
Where all join hands in work and play,
And no one complains.
Black's her name, I'm sure you know her,
Whose fame has spread Texas o'er
Where "Love thy neighbor as thyself"
Is put in practice once more.
If there were more this whole world over
Like Black we'd lose "delinquency"
If in fellowship in work and play
We'd do more frequently.
So, the best of luck, good neighbors,

And may you soar to the skies, Just keep that zeal, and you are sure To win the highest prize.

Mr. and Mrs. R. L. Bray and children of Lubbock were Sunday guests in the home of Mr. and Mrs. Lloyd Prewett and children of the Black Community. Mrs. Bray and Mrs. Prewett are sisters.

Sunday guests in the homes of Mr. and Mrs. John Bengener and Mr. and Mrs. Johnnie Bengener were Mr. and Mrs. Harlan Clarke and Mr. and Mrs. Alan Bridges of Amarillo and Dr. and Mrs. Paul Spring and Susie of Friona.

The word, "democracy," is Greek in origin, means literally "rule of the people."

GET MORE MILK

By grazing oats pasture 1-hour a day, Jersey cows on a three year test at the Texas Agricultural Experiment Station near Tyler increased milk production 1.93 pounds and saved 24 pounds of sorgo silage. The extra milk and saving on silage totaled 23 cents per cow per day. Shannon Carpenter, associate dairy husbandman at the experiment station, said each acre of oats produced 264 hours of grazing, or a gross income of \$60 per acre. Cost of seed, fertilizer and labor was \$16 per acre, leaving a net return of \$44 per acre per year. For each dollar spent to produce oat grazing the return was \$3.75.

Frionans Attend Family Reunion

Mr. and Mrs. Frank Griffith, Mrs. J. B. Buske, and George Curry of Warsaw, Ind., went to Atlanta, Kans., last Sunday to visit relatives and attend a Curry-Cunningham family reunion in the park at Winfield, Kans.

Curry, who is a brother of Mrs. Griffith and Mrs. Buske, had been visiting here several weeks. About 70 persons attended, but Glenn Cunningham of Pine Grove, Kans., was unable to be present.

From Arizona

Mr. and Mrs. Ralph Azbill and children, Helen, Ralph, and Nancy, were weekend guests in the home of Mr. and Mrs. Bill Kappel. Mrs. Azbill is Mrs. Kappel's aunt.

Guests Depart

Mr. and Mrs. J. G. Mills of Rockford, Ill., left Monday for their home by way of Colorado Springs. They had been guests in the home of Mr. and Mrs. J. H. Boyle several days. Mrs. Mills is Boyle's sister.

THE BULWARK OF A COMMUNITY IS ITS CHURCHES

Independence Day

The Fourth of July, as a holiday, means many things to many people. To all, it's an annual holiday for independence; independence from a number of things.

One of the most important of these, and we sometimes tend to take them all too much for granted, is an independence to choose the religion you want.

The churches of our community invite and urge you to do just that — choose one.

And when you do, attend it regularly, support it, and be a part of it.

Because we do have an Independence Day, you're free to attend the church of your choice.

USE THESE SCHEDULES — OUR CHURCHES WELCOME YOU!

Missionary Society Meets in Terry Home

The United Pentecostal Missionary Society met Tuesday afternoon in the home of Mrs. John Terry. The program was opened with group prayer and singing. Rev. Lutz read the 12th chapter of Romans. Following the lesson and business meeting, the hostess served refreshments.

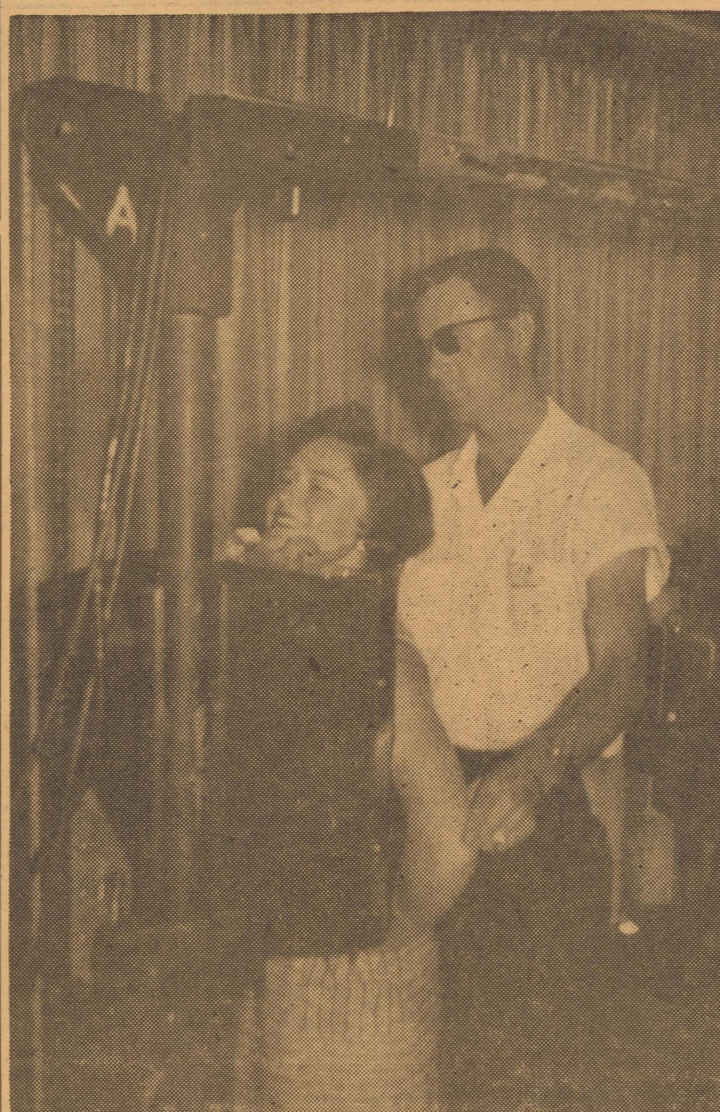

Mrs. Lutz, mother of Rev. Arthur Lutz of Modesto, Calif., was a special guest. Others present were Rev. and Mrs. Lutz, Mrs. P. L. Hughes and Karen, Mrs. Taylor Green, Mrs.

J. V. Riley and Mary Ruth, Mrs. Frank Griffith, Mrs. J. B. Buske, Mitch and Randy Terry, Etta Mae and Ruth Lutz. The meeting was dismissed by prayer in unison.

The next meeting will be in the J. B. Buske home, Tuesday, July 9.

Phil Stowers of Lubbock spent last week with his grandmother, Mrs. Bertie Stowers.

Mrs. O. C. Jones of Hollis, Okla., is visiting her daughter and family, Mr. and Mrs. Lloyd Vaughan and sons.

Vester Venable

FOR THE TAX OF NOT EXCEEDING 30 CENTS ON EACH ONE HUNDRED DOLLAR (\$100.00) VALUATION.

AGAINST THE TAX OF NOT

EXCEEDING 30 CENTS ON EACH ONE HUNDRED DOLLAR (\$100.00) VALUATION."

Each voter shall mark out with black ink or black pencil one of the above expressions thus leaving the other as indicating his vote. The manner of holding said election shall be governed as near as may be by the General Election Laws of the State, except as modified by the provisions of House Bill No. 107, Acts, 51st Legislature, Regular Session, 1949, and none but resident property taxpayers qualified voters of said County who have duly rendered the same for taxation shall be allowed to vote at said election.

Notice of said election shall be given by publication of a copy of this order on the same day in each of two consecutive weeks in a newspaper of general circulation published in said county, the date of the first publication to be not less than fourteen full days prior to the date set for said election. In addition thereto, a copy of this order shall be posted in each voting precinct in said County not less than fourteen full days before said election.

The County Judge is hereby authorized and directed to cause said notice to be published and posted as herein-

above directed and further orders are reserved until the returns of said election are made by the duly authorized election officials and received by this court.

The above order being read, it was moved and seconded that same do pass. Thereupon, the question being called for, the following members of the court voted AYE: E. G. Phipps, C. H. Jefferson, J. H. McDonald, and H. L. Ivy, and the following voted NO: None.

PASSED, APPROVED, AND ADOPTED, this 10th day of June, 1957.

Team X-Rays 627 In Friona

A count of persons who took advantage of the free chest x-ray offered in Friona Friday showed that 627 received the service, according to Mrs. Claude Edelman, chairman of the operation.

The x-rays were made possible through the cooperation of the Texas Health Department, and the work of women's groups over the county. Several months' work and planning were behind the program, says Mrs. Edelman.

Included in the 627 who registered were residents of Deaf Smith County, New Mexico and Oklahoma, besides those from Parmer County.

Findings of the x-ray pictures will be reported to those who received the service in about four to five weeks. A recommendation to see a physician will be included on the report if the x-ray picture shows signs that warrant further investigation.

County Health Officer Dr. Paul Spring points out that it is imperative that everyone who is advised to see a physician do so immediately after receiving the report.

Mrs. Edelman says, "We of the Black Community wish to express our thanks to all who cooperated with us in this effort. Without the cooperation of the surrounding communities, the survey could not have been made."

"We especially appreciate the efforts of the women from Farwell, Bovina, and Friona, who helped with the details necessary for the success of the survey. We are also grateful to the technicians, Jim Brady and John Sadler for doing their job courteously and efficiently."

"To Ethridge-Spring Agency we offer thanks for the use of their office. And, to the men who helped with the loading and unloading of the mobil equipment, we are indeed grateful," Mrs. Edelman says.

First words spoken over the telephone were, "Watson, come here; I want you," spoken by Alexander Graham Bell to his assistant.

LEGAL NOTICE

NOTICE OF ADDITIONAL AD VALOREM TAX ELECTION

THE STATE OF TEXAS COUNTY OF PARMER TO THE RESIDENT PROPERTY TAXPAYING QUALIFIED VOTERS OF PARMER COUNTY, TEXAS:

TAKE NOTICE that an election will be held on the 25th day of July, 1957, at the places, in the manner and on the proposition set forth in the attached copy of an order for additional ad valorem tax election, duly entered by the Commissioners' Court of PARMER County, Texas, on the 10th day of June, 1957. Said attached order for additional ad valorem tax election is made a part of this notice for all intents and purposes.

Hugh Moseley, County Clerk, Parmer County, Texas

ORDER FOR ADDITIONAL AD VALOREM TAX ELECTION

House Bill 107, 51st Legislature, Regular Session, 1949. THE STATE OF TEXAS COUNTY OF PARMER

On this the 10th day of June, 1957, the Commissioners' Court of Parmer County, Texas, convened in regular session at the regular meeting place thereof at the Courthouse in Farwell, Parmer County, Texas, with the following members of the Court present, to-wit:

A. D. Smith, County Judge
E. G. Phipps, Commissioner, Precinct No. 1
C. H. Jefferson, Commissioner, Precinct No. 2
J. H. McDonald, Commissioner, Precinct No. 3
H. L. Ivy, Commissioner, Precinct No. 4
Hugh Moseley, County Clerk and the following absent: None, constituting a quorum, and among other proceedings passed the following order:

WHEREAS, this Court has been petitioned by 10 percent or more of the resident property taxpayers qualified voters of this county as shown by the returns of the last general election to call an election as provided by House Bill 107, Acts of the 51st Legislature, Regular Session, 1949.

WHEREAS, this Court has investigated the submission to the resident property taxpayers qualified voters the question of submitting to said voters the proposition of voting additional ad valorem tax as provided by House Bill No. 107, Acts of the 51st Legislature, Regular Session, 1949, and this Court after said investigation is of the opinion that it would be beneficial to this county to call said election.

THEREFORE, BE IT ORDERED BY THE COMMISSIONERS' COURT OF PARMER COUNTY, TEXAS:

That an election be held in said County on the 25th day of July, 1957, which date is sufficient to allow the posting and publishing of notices of said election as herein provided at which election the following proposition shall be submitted to the resident property taxpayers qualified voters of said county for their action thereupon:

PROPOSITION

To determine whether or not said county shall be authorized to levy, assess, and collect ad valorem taxes upon all property within said county, except the first \$3,000.00 valuation of residential homesteads, not to exceed 30 cents on each \$100.00 valuation in addition to all other ad valorem taxes authorized by

DON'T BUY ANY CAR BEFORE YOU DRIVE A CHEVY . . . ITS BEST SHOWROOM IS THE ROAD.

Beauty in motion—Chevrolet Bel Air Sport Sedan with Body by Fisher.

Here's why Chevy's best showroom is the road!

Because Chevrolet's sleek good looks, its advanced features, are only part of the story. The big bonus is its remarkable *roadability*, the crisp precision handling that has posted an entirely new standard for cars in every price class. There are reasons for this, of course: Chevrolet's balanced weight distribution that takes

excessive loads off the front wheels, the wide stance of outrigger rear springs, Ball-Race steering, spherical-joint front suspension. Sure, you can admire the sculptured lines in the showroom. But Chevy's a car specifically designed for beautiful motion—you have to travel in this one to know just how terrific it is. Try it, this week!

MORE PEOPLE DRIVE CHEVROLETS THAN ANY OTHER CAR

By MRS. CLYDE MONK

Church Of Christ Plans Meeting

The summer meeting for the Church of Christ will be held July 5 through July 14. Thomas McDonald from south Texas will do the preaching. He is well-known in this area as this will be his third year for meetings here. Morning week-day services will be at 7:30 a.m. and the evening services will begin at 8:30. R. A. Hartsell, minister for the church, extends a welcome for everyone to come out and hear Mr. McDonald during this meeting.

Menefees Return From Vacation

Mr. and Mrs. W. S. Menefee, Mr. and Mrs. Joe S. Menefee and daughter, Carolyn, and Mrs. Juel Treider have returned from a vacation at Albuquerque and Vallecito Lake, Colo. They attended church in Durango the Sunday they were away, visited Mesa Verde Park and took the excursion trip from Durango to Silverton, Colo. While on this excursion they report they could have reached out and touched the snow had the train stopped to permit this.

Mr. and Mrs. Ted Treider have as guests this week friends from California.

Mr. and Mrs. Demp Foster and boys, Timmie and Steve, visited Sunday in Lamesa with his brother and family, Mr. and Mrs. W. R. Foster.

Sunday guests in the home of Mr. and Mrs. J. B. Thomas and family were Mr. and Mrs. James Miller and children, Kenneth, Charlene, Brenda and Edna, from Slaton.

Robert Alton from Abilene is spending a few days with his sister, Mrs. Ted Treider, visiting and working in the wheat harvest.

Mr. and Mrs. Aaron Mitchell and daughter were dinner guests in the home of Mr. and Mrs. C. D. Gustin on Sunday.

Bridal Shower For Juanita Scott

The basement of the Baptist Church was the scene of a recent bridal shower for Juanita Scott who became the bride of Charles Stafford last Sunday. The ladies of the WMU were hostesses for the occasion.

The serving table was laid with a pink cloth and covered with lace and was centered with an arrangement of garden flowers.

Refreshments of white cake squares and punch were served to Mesdames Larry Treider, Joe Cox, Jack Smith, O. D. Spitzer, W. S. Menefee, Bill Curry, J. E. Williams, J. B. Jennings, C. D. Gustin, Glen Stevens, Rufus Carter, Glen Stiles, Alfred Scott, C. M. James, Calvin Clark;

Also, Mesdames Hubert Elliott, Leroy Wilson, Leonard Elliott, N. M. McCurdy, Donald Littlefield, L. A. Reed, T. W. Watson, C. W. Stallings, Virgil Teague, Frank Hinkson, C. C. Graef, H. W. Carpenter, Eugene Morton, Alfred Steinbock, Olan Ivy, Junior Matthews, Chunk Smith, Barney Floyd, Gene Smith, Albert Eggers, Hoyt Eubanks, Claude Heath, Buster Jones, Purl Tippie, Lavern Smith, Dan Cargile, Eugene Redwine, F. W. Greene, Wesley Barnes, Carrie Withrow, Willie Steinbock, and Glen Scott;

Also, Misses Alice Gordon, Carolyn Scott, Margaret Ann Eggers, Beverly Smith, Janice Oliver, Patsy Cox, Danny Cargile, Maudine Barnes, Marie Cox; and Letha Elliott, Dianne, Linda and Doyce Smith, Darla, Denise and Steve Spitzer.

Those sending gifts but unable to attend were Mesdames Gene Phillips, R. V. Luna, Claude

Blackburn, Andy Brown, J. D. Carpenter, Abe Mallof, E. L. Clark, Frank Hunt, R. B. Seaton, Bert Gordon, John Agee, Ted Treider, Mae Mahon, Duane Darling, Ernest Nowell, J. J. McDonald, George Cram, J. G. Jennings, Harvey Davis, Demp Foster, Bill Brown, W. E. Pugh; Also, Mesdames Artie Beavers, Raymond Houston, John L. Seaton, Riley Goodnough, T. D. Reed, Rhiney Steinbock, Gerald Smith, Henry Ivy, Claude Watkins, Pete Mimms, R. J. Treider Sr., Fred Gallman, Jimmie Seaton, Jack Black, George Haskins, Burl Baker, John Gammon, Jackie Brown, James Haynes, Raymond Treider Jr., Lee Kimbrough, Perry Barnes, Laura Treider, Roy Daniels, D. B. Ivy, O. M. Jennings, Arvil Lawrence, O. N. Broyles, Thomas Carrell, A. H. Wilson, Ben Howard, Beardean Broyles and Buck Bell;

And Misses Shirley Carpenter, Rosemary Agee, Mary Hartsell, Shirley Steinbock and Mary Maud Eggers.

In Fort Worth

Miss Glenda Hall, who is on vacation from a bank in Muleshoe, accompanied by her niece Glenda Hall and Miss Danny Rue Cargile, are visiting their brothers and families, Mr. and Mrs. James Hall and Mr. and Mrs. Preston Cargile in Ft. Worth this week.

Miss Jill Mimms Has 7th Birthday

Jill Mimms was honored with a party Wednesday afternoon in the home of her parents, observing her 7th birthday. The youngsters enjoyed playing games and were served refreshments of birthday cake, punch and Popsicles.

Those enjoying the occasion with Jill were Susan Pendergrass, Marsha Schumaan, Angie Leos, Irene Hansen, Kirby Burch, Timmy Foster, John and Mike Ward, Gary Strahand, Cathy, Becky, Tommy and Carol Wilson, Kelly, Clay and Tracy Mimms. Also, Mesdames Jess Pendergrass, Harold Wilson, Strahand, and Mrs. Pete Mimms.

Mr. and Mrs. Ham Smith from Floydada spent the weekend with her brother and family, Mr. and Mrs. Barney Floyd and family. Betty Floyd from Plainview also spent the weekend at home with her parents.

Mr. and Mrs. Alfred Steinbock, Jenny and Buster, accompanied by Fern Clark, spent the weekend fishing at Conchas.

Mrs. Katie Crouch from Muleshoe spent Sunday with her daughter and family, Mr. and Mrs. Eucl Hall.

Mr. and Mrs. Rufus Carter visited Sunday in the Eugene Morton home at Dimmitt.

From Fort Worth

Mr. and Mrs. Kenneth Seales and son Gary Kent from Fort Worth were guests over the weekend in the home of her parents, Mr. and Mrs. Artie Beavers. On Sunday they were joined for dinner by Mr. and Mrs. C. C. Graef and in the afternoon by Mr. and Mrs. J. E. Williams.

Dinner Honors Chunk Smiths

In the Smith-Floyd home Sunday a dinner was served honoring Mr. and Mrs. Chunk Smith who left for Fort Ord on Tuesday morning where he will return to his duties as a service man.

Those present were Mr. and

Lavern Smith and children, Mr. and Mrs. Kenneth Keith and children, Mr. and Mrs. Gene Smith and baby, Mr. and Mrs. Donald Runyon from Amarillo, Mr. and Mrs. Duane Darling and family, Mr. and Mrs. Ham Smith from Floydada, Betty Floyd from Plainview, Madalyn Schumaan, Andy Fuqua, Ray Hartman, Jerry and Kay Ann Smith and Mr. and Mrs. Barney Floyd.

Mr. and Mrs. J. D. Carpenter Jr. spent the weekend in Odessa visiting their daughter and family, Mr. and Mrs. Loren Howard. Recent visitors in the home of Mr. and Mrs. David Johnson and boys were Mr. and Mrs. Kenneth Leonhart and Charlene from Earth.

Mr. and Mrs. Max Steinbock, Rex Steinbock and Troy Lee attended the drag races in Amarillo Sunday.

Mrs. T. D. Vaughan and children and Mrs. Annie Vaughan were visitors in the home of the Willie Steinbocks on Sunday.

Dinner guests in the Bill Lancaster home Sunday were Mr. and Mrs. R. L. Donaldson from Muleshoe, Nathan Rich from Slaton and Mr. and Mrs. H. L. Donaldson and Michael from Duarte, Calif. The H. L. Donaldsons, who have been here visiting, returned home this week.

Mrs. Perry Barnes, accompanied by Mr. and Mrs. J. S. Menefee and Carolyn, left this

week on a trip through the south and to visit another daughter and family, Mr. and Mrs. David Donnell at Hubert, S. C.

Mr. and Mrs. T. L. Gleason and children, Linda and Bobby, and Mr. and Mrs. E. A. Parham, Sharon and Terry, enjoyed water skiing and boating at Buffalo Lake, Sunday.

Guests in the home of Mr. and Mrs. Howard Carpenter, Sunday, were Mrs. B. E. Johnson and Nancy from Lubbock and Mr. and Mrs. John Bloomshield and boys from Clovis.

Visiting in the home of Mr. and Mrs. C. M. Splawn, Sunday, were Mr. and Mrs. Lacy Hardage and Mr. and Mrs. Howard Splawn, Kenny and Pam, from Muleshoe.

Mrs. Y. B. Mayfield has been moved to the hospital and clinic in Plainview and the reports are that she is some improved.

Mrs. Clyde Scarborough from Friona and the Joe Scott Menefees were dinner guests in the W. S. Menefee home on Sunday. Catherine Smith spent the weekend with Johnnie Nowell to aid in the celebration of Johnnie's birthday while Beverly Smith spent the weekend with Coretta Watkins making Coretta's birthday a happy one.

Guests in the home of Mr. and Mrs. Neal Bradshaw and boys Sunday were her mother, Mrs. Mae Melugian and her brother and family, Mr. and

Mrs. Ted Melugian, from Slaton. Mr. and Mrs. John Agee and Rosemary accompanied her mother, Mrs. A. T. Henderson, to Roteau, Okla., over the weekend. Mrs. Henderson has been visiting in the Agee home for several months and will visit awhile with her daughter and family, Mr. and Mrs. Robert Titus, in Poteau.

Mr. and Mrs. C. C. Matthews returned Sunday from a fishing trip that took them to the Graham Lake and Possum Kingdom Lake.

Family Reunion Enjoyed Sunday

A family reunion along with a picnic was enjoyed Sunday in Lubbock at the Mackenzie Park by the following: Mr. and Mrs. Robert Kimbrough, Mr. and Mrs. Bob Kimbrough, Brenda,

Mike and Cindy, Mr. and Mrs. Lee Kimbrough and Nancy, Mr. and Mrs. Finis Kimbrough, Mr. and Mrs. Sig Kimbrough, Mr. and Mrs. Ed Nichols, Nicki and Reneau, Mr. and Mrs. F. B. Geade, Mr. and Mrs. Jack Houck and Randy Kile from Lubbock and Mr. and Mrs. Earl Sybert from Morton.

Mrs. John Agee Sr. from Lubbock visited a few days in the home of her son and family, Mr. and Mrs. John Agee, last week.

Mr. and Mrs. Raymond Treider Jr. and family enjoyed homemade ice cream last Friday night in the home of Mr. and Mrs. O. D. Spitzer and family.

Mr. and Mrs. Junior Matthews and boys spent the weekend in Olney visiting with Mr. and Mrs. Jack Clifton and son.
