Outlaws Maul First Christians, 15-4; Utilities Slaughter Co-Vets, 27-10

By JIM EWELL, Sports Editor.
Bill Kendall's "Outlaws" from a man's church were on the rampage again in last night's twin game against the First Christian team in an ever fast, slugging game for the kill — scoring by a large majority — 15-4; and those men from Reddy Kilowatt's office showed, as they have done before, that climbing isn't the only thing they can do — playing baseball is another specialty that just seems to be a natural. West Texas proved that in the second double-header thrashing the Cisco Co-Vets 27-10.

The Christians, winning the toss, were at bat in the beginning of the first inning, with Travis, Christian short stop, slugging one to short issuing the first out; Sharpe hitting to pitcher who forced him out on first; and still taking one up and putting them down, the "Outlaws" second baseman snagged a fly hit by Whitaker. The Christians made no runs nor hits in the first.

Jones, first man up for the "Outlaws" in the bottom of the first, got a one base hit, making second on an infield error. Rains, left fielder and second in the line-up, struck to short, making the first out for the Kendall "Outlaws." Greenhaw, catcher, slugged a hard one to left field, bringing in Jones from the bases and made second. Boatman struck to pitcher and Norris was called on first after hitting to short stop who threw to first, issuing the third out for the "Outlaws."

Still keeping their motto, one up and one down, the "Outlaws" snagged Rylee's long hit into center field, being brought down by Morris. Weathers knocked to second who issued the second out and Hayes' hit was caught by Greenhaw, "Outlaw" catcher. Farnsworth "Outlaw" short stop, got a two base bagger; Callerman, capable pitcher, made first on a hit to left field and Laws, on an infield error, made first; Jones flied to second forcing Laws out on second in a double play. Rains knocked to Travis, Christian short stop, scooping it up and throwing to first — issuing the third away. Farnsworth crossed the plate boosting the score an additional point.

Somewhat out of the hole, the Christians retaliated, slugging three runs across home, and leaving one on bases at the time of the third away. Travis, Sharpe and Bacon made the runs in home. Whitaker flied to center field; Weathers struck out and West flied to shortstop, thus retiring the sides.

Hitting hard and long in the bottom of the fourth, the Baptist Outlaws yielded twelve runs to home before the sides reversed. Edwards, second baseman, made the only home run for the game, bringing in three men from bases. Farnsworth and Callerman both flied to left field.

The Christians' third baseman, Whitaker, socked a long one into mid-field making second. Rylee, Weathers and McDaniel concluded the scoring for their side as all were called on first.

In the commercial play, Westex won the toss and scored two as Phippen and Sledge crossed the home plate. Overall and Deuschle were on base at the end of the first inning. The Co-Vets bringing up the last of the first, made no scores in their half as Albert, Blackstock and Thackeron were called on first. Score at the end of the first, 10-0 in favor of the Westex nine.

In the bottom of the second, long distance hitter Heyser, second baseman for the Co-Vets, knocked another against the fence, making the

first home run of the game. Wood, right fielder, was wanked to first and stole second but was called as he attempted to take third. Anderson made the second out, striking to second. Duncan hit to short who issued the third out to first.

Top half of the second saw the Westex Reddy Kilowatts founder the Co-Vets with score as Carroll, Cooper, Phippen, King and Burrows crossed home. Sledge hit to short; Deuschle flied to right field and Anderson to short.

Bottom of the third, Pruitt hit to first; Albert struck to catcher; Blackstock made first on error and then making home on a three bagger by Thackeron. Heyser made first on infield tumbling. Woods fanned to pitcher and Anderson flied to second. Westex came home with an additional four scores as Sledge, Phippen, King and Burrows crossed home with the aid of errors, walks and base hits. Carroll flied to third, Deuschle to first and Burrows on throw from third to first.

Duncan, Co-Vet pitcher, slammed a homer after making second and third on errors. Haimark struck to short; Albert to left field and Blackstock to pitcher to first, making the third. Coming to bat, Sublett, King and Burrows added to the count after crossing home from a walk and on outfield errors. King whammed a homer in the top of the fifth. Cooper, Overall and Ellison contributed to the outs.

Thackeron and Heyser crossed home in the bottom of the fifth, adding to the Co-Vets' score. Two men were left on base at the end of the inning.

In the top of the sixth, Westex flowed home with scores, seemingly as though new energy had been revived. Phippen whammed a long one to mid-field, bringing in the bases already loaded. The Co-Vets still trying desperately to cope with their opponents, struck out before any additional scoring could be copped; Albert to first from second; Blackstock to third; Thackeron from pitcher to first.

Westex slipped in two additional points before the teams retired in the top of the sixth inning. The Co-Vets crossed home with three scores — Heyser, Miller and Duncan being the scoring players.

Two additional scores were chalked up for Westex as Sublett and Burrows slipped in home. Final score at the end — Westex 27, Co-Vets 10.

Drilling started on Shaw Test Near Carbon

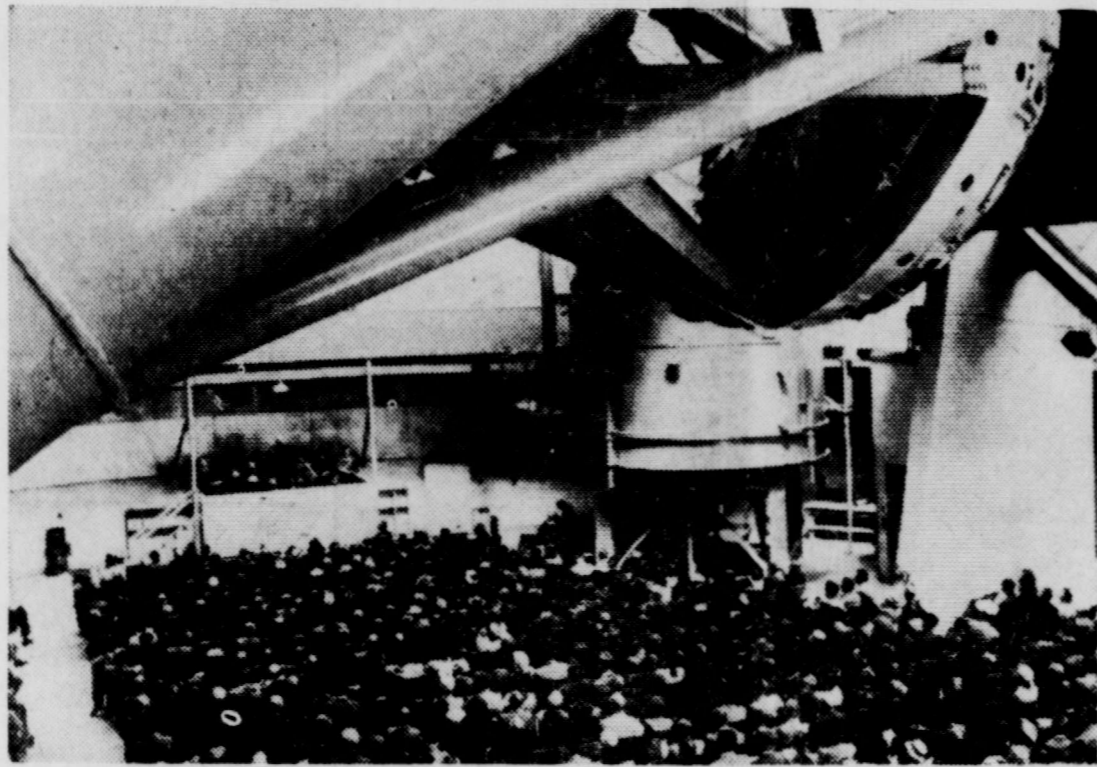

Drilling has started on the Crawley-Crawford Bessie Shaw number 1 well, a test being drilled in the northwest corner of the tract.

The well was spudded Tuesday and today was drilling at below 100 feet. The contract calls for drilling to a depth of 1900 feet unless oil is encountered in paying quantities above that and it is hoped to encounter pay about 1250 in the Strawn section.

The well is located about seven miles southwest of Carbon in the old Erath County school lands and is 333 feet from the north line and 33 feet from the west line of the Bessie Shaw, a 105 acre tract.

GIANT TELESCOPE DEDICATED

Over 800 invited guest attended the official dedication of the 200-inch Hale telescope at Mt. Palomar, California. The telescope was named for its founder, George Ellery Hale, who 20 years ago envisioned this dream which is now known as the world's largest. (NEA Telephoto).

\$1,000 Offered in Hunt for Missing TSCW Girl

FORT WORTH, June 11. — Rewards totaling \$1,000 were offered Thursday for information concerning the disappearance and present whereabouts of Miss Virginia Carpenter, 21, of Texarkana, who was last seen June 1 in Denton and for whom a state-wide search is being conducted.

Mrs. Hazel Carpenter, mother of the girl, was in Fort Worth Thursday afternoon en route to her home in Texarkana after having assisted Denton officers in the hunt.

She said the family has offered \$500 in rewards and this amount had been matched by two Texarkana business men, John Holman and Thomas Kittrell.

No trace has been found of the girl's luggage, she said. Miss Carpenter was carrying a cardboard hatbox, a cosmetic case and an overnight bag when she last was seen in front of a TSCW dormitory. She was wearing a Wittnauer wrist watch, case No. 681035, which Mrs. Carpenter had purchased as a gift in Fort Worth in 1946.

Texas Rangers are assisting in the search.

ABC Soft-Ball Double-Header Slated Tonight

A bargain bill is scheduled for tonight at ABC field at 7:30 when the scrappy Scranton nine will match bats with the Cisco Junior Collegians in the first game. The second contest will bring another good game, when the red-uniformed R. L. Boyd's play host to the slick-playing Moran team in a game that will show what the local aggregation can do against a fine out-of-town team. This second game is scheduled for 9 p.m.

This exceptionally interesting evening of ABC soft-ball will cost just the customary 15 cents admission. It is expected that an unusually large crowd will be at the field, to watch this double-bill which should provide the type of baseball that Cisco fans like to watch," said a ball official today.

RIDE IN BORROWED BUS COSTS SOLDIER \$142.

BELLEVILLE, Ill. (AP) — It cost Pfc. Donald R. Lyon of the nearby Scott Field air base \$142 to ride a Belleville bus less than a block.

What police and Justice of the Peace F. X. Bertelsman objected to was the fact that Lyon was driving and the bus wasn't his. He was fined \$50 and costs and charged \$85 for damages to a fire hydrant he hit during the brief jaunt.

Lyon told the court he took the parked and unattended bus after a round of taverns and didn't know what he was doing.

GETS HER PIANO, EVEN IF ITS IN A TRAILER.

FORT WAYNE, Ind. (AP) — When Robert Skeetz was courting his wife he promised her that she'd always have a piano.

Not long after they were married they found themselves living in a 22-foot trailer. There was no other place.

Mrs. Skeetz held him to his promise. That's why the Van Horn trailer camp resounds with the sound of a piano at almost any hour of the day.

Two More Patients Admitted to Polio Ward; Totals Six

FORT WORTH, June 11.—Two patients were admitted to the polio ward at City-County Hospital Thursday, making a total of six now in the ward.

Donald Teague, 5-month-old son of Mr. and Mrs. S. A. Teague, 2222 Lincoln, was admitted Thursday afternoon for observation. Sandra Joyce McCormick, 2-year-old daughter of Mr. and Mrs. L. S. McCormick of Burkett, was admitted Thursday morning as a definite case. The Teague infant is a possible polio case.

Janice Woodruff, 8, daughter of Mr. and Mrs. Jack Eunice Woodruff, 2413 McKenzie, was placed in the iron lung when her condition failed to improve.

AMERICAN LEGION BUILDING DELAYED

It was learned this morning that the American Legion building which was to have been moved from Brownwood today, will not be brought before the first of the week on account of unforeseen delays which could not be helped.

East Cisco Pastor Resigns Church; No Definite Aims

Rev. C. K. Roberts resigned as pastor of the East Cisco Baptist church last Sunday morning. Mr. Roberts was pastor of the church for 13 months, coming here from First Baptist Church, Paint Rock.

During his brief ministry with the East Cisco Baptist Church there have been 57 additions, 3 other professions of faith, two young men surrendered to the ministry, one young lady surrendered to be a missionary, with 51 other definite decisions.

Rev. Roberts has no other pastorate to move into since his decision to leave his present work was quite sudden.

The family will remain in the parsonage for a brief time, then remove to some other location, perhaps remaining in the town of Cisco until he gets located in some other field.

Hope Wheeler Makes Hot Statement On Old Age Pensions

ARLINGTON, Texas, June 11.—The President has asked Congress for liberal increases in old-age pensions and other social security benefits. Never was a request more timely.

The latest budget estimate for support of an elderly couple was released by Federal Bureau of Labor Statistics in March, 1946, over two years ago. The minimum set by the bureau ranged from \$1,169 in Houston, Texas, to \$1573 in Washington D. C.

Within two years living costs have almost doubled, says the same authority. Therefore the average for an elderly couple now is around \$2,400 a year, \$100 a month per person.

There has been no increase in old-age pensions, needy blind benefits nor social security benefits, support or dependents child. The average old age pension is around \$36 a month and social security payments about the same.

Still the Government says it cost about \$100 a month to support an elderly couple in March, 1926. What is that cost today?

On December 31, 1947, the balance in the old-age and survivors' insurance trust fund (social security) was \$9,360,144,000 (billions). The amount collected in 1947 in payroll taxes was \$1,557,000,000 (billions) while benefit payments for the same period was only \$446,000,000, slightly more than one-fourth the amount collected.

Why are the Nation's needy citizens forced to starve on one-third their actual needs while billions of their money pile up in the U. S. treasury? Why don't good American citizens do something about this outrage. Why don't they smoke out the Washington politicians.

I have a feeling we are going to do something about it. What do you say. What are we waiting for? Let's get busy now! Hope Wheeler Arlington, Texas.

Cisco Assigned Artillery Field Post

Battery A 961 Field Artillery has been assigned to Cisco, according to notification of Major General D. K. Berry, adjutant general of Texas, to the local chamber of commerce.

Olin O. Odum is to be captain in charge with Robt. Donovan as first lieutenant, and temporary

headquarters will be in the shop building at Cisco Junior college.

It is hoped that sometime soon an armory building will be assigned to Cisco since the city has volunteered to give 26 acres of land on which to erect such building. The usual cost of such buildings placed by the government has been around \$1,000,000.

The battery is to consist of 105 men and four officers. It will be assigned armored units and vehicles.

Empty Box Cars Rushed to Wheat Section of Texas

FORT WORTH, June 11.—More and more empty box cars were moving into wheat areas of West Texas and southwestern Oklahoma Thursday night to help move the weekly-early crop to market.

The Burlington lines reported sufficient cars for all demands, with the loading "opening up in good shape" on the South Plains. "The cars aren't coming back too fast from the coast or from Fort Worth elevators," one official commented, "but the situation is better than it was last year. The movement is normal this year for grain is moving to Fort Worth or the coast instead of all over the country as in 1947."

A steady movement of empties into the crop area also was reported by the Frisco, Rock Island and M-K-T lines. Meanwhile, some 1,000 cars were on holding tracks and at local elevators here, and long lines of trucks filled with wheat were reported at elevators throughout North Texas.

Steel For Overpass Due in December

BAIRD, June 11.—Steel for the overpass over the Texas & Pacific railway on re-routed U. S. Highway 80, now about to get under construction, 1½ miles east of Putnam will not be delivered before December 1, I. G. Mobley, Callahan County Commissioner said.

Mobley said that Brown Construction Co., Abilene which has contract for the new super highway construction from Mexia Creek, east of Baird, to the Eastland County boundary, is now moving equipment onto the old square at Putnam.

The highway will parallel the T&P railroad north of the line. A section house of the railway has been moved to the south side of the railroad, which also acquires much of the parallel right-of-way of the old Putnam - Scranton highway in exchange for the parallel stretch on the northside of the railroad.

EASTLAND POSTOFFICE GOING FIRST CLASS.

EASTLAND, June 11.—Postmaster El E. Layton has received information from Washington that effective July 1, the Eastland postoffice will be advanced to an office of the first class.

TEST PLANNED ON EASTLAND LAND.

EASTLAND, June 11.—The City of Eastland laid plans this week to get into the oil drilling business.

When it obtained Lake Eastland, it also acquired land in connection with the lake. The land is known as the old Brelsford tract, and it is here that the Tex Harvey Oil Co., of Dallas will drill.

The new well will be carried on down to test the Ellenburger.

MILLIONS IN SUNKEN GOLD AWAITING TREASURE SEEKERS ALONG U. S. COAST

WASHINGTON (AP) — There is gold in the sand.

From Nantucket to Tristan da Cunha, from Cocos to Hispaniola, from Nova Scotia to Vigo Bay, treasure is to be found.

It is a matter of record," the National Geographic Society says, "that treasure worth countless millions lies in hundreds of sunken ships only a few fathoms down, all along the world's coast."

The recent discovery near Sandy Hook, N. J., of gold coins two centuries old may inspire "a mild rage of beachcombing" among vacationists this summer, the society said.

It may also lead to "better-equipped salvage expeditions" and "could even produce a popular-price diving rod for shore cottagers' use."

Forecasting that "the new look at coast resorts this summer will be the downward look," the society supplied a few tips for treasure hunters:

1. The British frigate Hussar in 1780 sank in New York's East River 30 miles north of Sandy Hook after hitting a rock. It went down with \$4,000,000 — possibly much more — in pay for British Redcoats. The treasure has never been recovered.

2. Also in 1780 the British frigate

Envy of the World.

The history of the world, since recorded time began, has been blackened at regular and frequent intervals by terrible famines. Countless millions have died miserably from hunger. And those that survived were not confined to long past, primitive times. In the last quarter century starvation has stalked through China, Russia, and other nations.

Yet, in the United States, we have never had a famine. Some may say short-sightedly that this is because we are blessed with an abundance of resources. But other countries, where the standard of living is abysmally low compared with ours, have great resources also. Some may think it is because we work harder. Yet in the hunger-ridden nations the average man and woman work much longer hours, and performed a great deal more manual labor than does the average American.

The basic reason for our abundance lies elsewhere. It has been in a theory of government that encourages every man to do his utmost and reap the rewards that has stimulated voluntary, individual enterprise and that, finally, has given every man the right to compete with any other in his chosen field.

We see how this system works on every hand. As a simple example, every American can walk into a store and buy all the meat he wants — something that is impossible in most other countries. Free enterprise is responsible for putting that meat in the butcher's showcase — for turning steers, hogs and other animals into cuts that are ready for consumption. To meet the needs of the country, a great packing industry has been developed to bridge the gap between the livestock producer and our homes. It performs a vital service at a cost which is almost unbelievably small.

So it goes, in every field of enterprise. Free people, working in a free economy, have made the American standard of living the envy of the world.

Unemployment Insurance Abuses.

Is state unemployment insurance becoming something of a racket in many instances? The official figures lead one to that unsavory conclusion.

In 1946 a year of full employment, the ratio of benefits paid to contributions collected for the country as a whole was 121 per cent. Eighteen states paid out more in benefits than they received in unemployment levies, and three paid out more than twice as much.

The experience in 1947 was a little better. But the ratio of benefits paid to contributions collected was over 70 per cent, and several states paid out more than they took in.

It must be kept in mind that this happened during years when the national income, employment and production in general were at an all-time peak. In another depression with its consequent mass unemployment, it is almost impossible to visualize what would happen to the funds. Obviously, their receipt would be only a drop in the bucket compared to outgo, and a stupendous burden would be placed on the taxpayers.

Those who have studied the matter are convinced that many men are using the unemployment funds as a means of obtaining free vacations when they don't feel like working — and that laxity either in the law or in the administration of the law is making this possible. That is an inexcusable abuse of a system which we set up to help those who were out of work through no fault of their own and couldn't find a job after a period of honest, aggressive searching. It must be stopped, and it can only be stopped by action within the states.

Complying with a bargaining order issued by the Federal Courts, United Mine Workers Chief, John L. Lewis, second from right background, sits down to bargain with operators of all the producing areas including Joseph E. Moody, foreground, president of the Southern Coal Operators Assn. It was over the seating of Moody that Lewis broke up negotiations several weeks ago. The meetings are being held in Washington, D. C. (NEA Telephoto).

had to let my housework go undone. I felt jittery, restless and could hardly sleep. Strong laxatives nearly got to where they did little good. I had just about given up hope of ever seeing another day when I would feel good. It looked like I would just have to go on suffering.

"My son personally recommended Retonga to me. It brought me such relief that now I can eat anything I want without a particle of fear, those annoying aches and pains have let up. I no longer take strong laxatives, and I sleep restfully all night long. It is a grand thing to feel so good again. No one can be more thankful than I am for Retonga.

priority has been abolished. The action resulted from passage of public law 548 which, in extending the life of the RFC for six years, eliminate authority for the corporation to function in buying for small businesses. The law became effective May 25, 1948.

Generally, the RFC has been accorded a priority just below federal agencies and World War II veterans in the sale of surplus government personal property and second only to federal agencies in sales of government owned real property. The RFC has been especially active in recent months throughout the southwest in the purchase of surplus camp buildings.

Regional WAA officials emphasized that the streamlining will have no effect on other standard priorities, such as for veterans and schools and other non-profit institutions. The agency will continue to encourage development of small businesses, particularly through awards to veteran dealers and to

Chlordane Wipes Out GREEN LIGHT LIVESTOCK PARASITES!

A simple "one-shot" treatment—dip or spray—of GREEN LIGHT CHLORDANE insecticide is deadly to livestock parasites. GREEN LIGHT CHLORDANE is highly adhesive, non-crystalline, evaporates slowly, hence its action on livestock lasts for many weeks. Equally important: GREEN LIGHT CHLORDANE does not harm warm-blooded animals when used in proper dosages.

GREEN LIGHT Chlordane is also prepared for use on thousands of crop, garden, and household insect pests. Insist on GREEN LIGHT CHLORDANE, made in Texas for Texas insects.

CISCO LUMBER AND SUPPLY

"We're Home Folks."

TO OUR WATER CUSTOMERS

Due to the increased consumption of water and our inability to deliver additional water — at peak periods — we ask your cooperation in conserving water — by observing the following schedule for watering your gardens, lawns, shrubs, and etc., homes with EVEN numbers will water on Monday, Wednesday and Friday. Odd numbered homes will water on Tuesday, Thursday, Saturday. Sundays will NOT be restricted. As a number of commercial users are closed on Sunday, we feel that we can allow all domestic users this surplus water. Further, we assure our patrons that these restrictions will be taken off the moment our new improvements are completed.
