

SQUAWS YIELD TO WHITE DEER

Friena's Squaws bowed out of the running for the Region 1 girls' basketball (Class A) tournament in Lubbock by a score of 54-74.

The White Deer girls went on after the win over Friena to trim defending champion Ropesville 77-61 Saturday night in the Class A finals.

Friena found the champions a little rough at the first game of the tournament Saturday morning in Lubbock.

The two teams were evenly matched during the first period of play with only one point separating the two. During the second quarter, which proved fatal to the local girls, White Deer's McConnell and Freeman poured a total of 22 points

through the basket while holding the Squaws to 11 points. This lead Friena never matched.

Jonnie Hand scored 26 points for the Squaws followed by Robbie Boggess with 23 and Charlotte Bock with five.

No School In Friena Friday

School-age children will be distressed to learn there will be a holiday for students in the Friena Independent School District Friday all day.

The event is to allow teachers to attend the District Teachers Meeting in Amarillo that day.

R. Freeman of White Deer was high-point winner of the game, scoring a total of 36 points.

The third quarter saw Friena play point for point with the Regional champs-to-be but the final stanza put White Deer too far out in front to catch.

Friena was well represented in the stands at the game, which was played at 8:30 a. m. in Chapman field house in Lubbock. It was a disgruntled drive back for most as White Deer proved too tough for the local girls.

Lawana Houlette fouled out of the game for the Squaws during the first half and was replaced by Janiece Bock.

FHA Elects New Officers

At a meeting of the Friena Future Homemakers of America chapter Tuesday morning, officers for the 1958-59 school term were elected. These officers will be formally installed in early September.

The new officers are Raye Jene Jones, president; Jacquelyn Magness, vice-president; Belle Smith, secretary; Geneva Floyd; treasurer; Marilyn Potts, historian; Lawana Houlette, reporter; Nancy Outland, parliamentarian; Charlotte Bock, sergeant at arms; Lavon Fleming, song leader, and Nelda Douglas, pianist.

Whew-w-w! Well, the basketball season is over for another year and it was quite a few times the Squaws had us biting our fingernails off up to our elbows sweating out those last minutes of play.

Tuesday night over at Dimmitt was no exception and to us was the closest "sweat" of the year.

It's too bad that White Deer beat Saturday but the Squaws played a "heckuva" battle and we are proud of their efforts.

To quote an overused line from AggieLand—"Just wait 'til next year."

Seriously girls y'all did well and we are proud of each and every one of you.

This scribe had planned to make the trip to Lubbock Saturday morning to see the game but our plans changed late Thursday evening and instead we set sail for College Station and the annual mechanical conference there Friday and Saturday.

Let me tell you one thing right now, that is a pretty long drive, especially when you are foolish enough not to get a good night's sleep before.

But things worked out OK and W. H. "Sonny" Graham Jr., Tom Darnell and I had ourselves a pretty nice trip.

Coupla things happened on the trip which were pretty grim to us at the time, although a few minutes afterward we all got a big kick out of it. (One incident almost got this fellow a real "kick.")

Like I said we drove all Thursday night and pulled into College Station just in time to change clothes, clean up and start the rounds of discussions and general bull-shooting.

After staying up all night we stayed up all day visiting and taking part in the programs. About 10 o'clock that night we were all just about walking in our sleep, and thinking back, it all seems sorta hazy.

Anyhow Sonny and I were going to stay in the Memorial Student Center and got our gear out of the car to take to our room about 10 p.m. As I took a coat out of the car it slipped to the ground and I laid down some of the stuff I was carrying to get it.

This seemed insignificant at the time.

Anyhow, the next morning I was shaken out of a deep sleep by the sounds of drawers banging and a low muted muttering.

"Whatzamatter, Sonny?" I sleepily asked.

"Can't find my shaving gear," he muttered.

Sonny, and all of us, left Parmer County in a rush the night before and to end a hunt for his shaving kit, had placed the necessary equipment in an old shoebox. This was the object of his search.

I remembered having picked up the box the night before and swore I'd brought it to the room. But, thinking it may have been left at the desk as we registered, Sonny phoned downstairs and checked.

No box.

I was sure I'd left the box at the desk so Sonny dressed and went down and personally looked under the check-in desk and through their lost and found items.

The kind lady on the desk was getting sorta shaken by this time. . . probably figured there was some form of uranium in the box, I reckon.

Anyhow Sonny phoned up and reported no luck.

Meantime I had dressed and, determined to vindicate myself for losing the boss' shoebox, sailed forth to do battle at the desk.

When I walked up to the desk and asked "Has anyone seen a yellow shoebox?" I thought the lady was going to call the police.

She backed up a few steps and said, "No. In fact there has been someone else looking for a shoebox also."

Still keeping a good eye on me all the time. Guess she thought by this time we were so desperate for the box that I might sail over the desk and try to choke the information out of her.

After watching her search a third time through the desk, under the desk and getting the manager, I was convinced that perhaps she didn't know anything about the box after all.

To collect my wits I stumbled out of the MSC and to the car to get a pack of "weeds."

Imagine my surprise to spot a familiar object sitting on the hood of the car.

Yep, there was The Box. Yelling at my find I ran to grab it before it escaped. As I grabbed at it, it seemed to disintegrate in my hands.

As usual, it had rained during the night and the moisture didn't help the cardboard box or Sonny's extra pair of socks and underwear.

Proud of my find I returned to the room to announce my prize.

(Continued on Page 3)

ANOTHER MOTHER—Adding her name to the long list of parents and friends who visited school last week is Mrs. Eugene Boggess. Seated at the guest register is Erma Drake.

NEAR MISS FOR FOUR FRIONANS

Four Friena residents narrowly missed becoming "statistics" Sunday morning when a bathroom heater began producing carbon monoxide in the home of Dudley Bainum.

Dudley, his wife Bennie, their 6-month-old daughter, Debra, and a sister-in-law, Ruby Grubbs, were saved only by a miracle.

"That's as close as I ever want it to be," said Bainum after the accident.

The family had gotten up and eaten breakfast Sunday morning and was preparing for church. Bainum was coming out of the bathroom after taking a shower when his sister-in-law passed out in the hall.

Bainum caught her as she fell and wondering what was the matter he rushed to the kitchen to get his wife. She had passed out while feeding the baby and was keeled across the table.

Bainum knew something was wrong and started for the door and from here on it is all a "blank" as far as he can remember.

Brewer Announces Office Candidacy

TO THE PEOPLE OF PARMER COUNTY

I wish to take this means of announcing that I am a candidate for election to the office of County Judge and Ex-officio County Superintendent of Parmer County, subject to the action of the Democratic Primary in July.

I feel that I am no stranger to you, since I served you as County and District Clerk for four terms from 1947 through 1954. I am very grateful for the confidence you have given me in the past, and I solicit your support and vote for the office I now seek.

If elected, I will devote my full time to the office, which is a full time job. I feel that any person serving in such an important office is obligated to serve all the people of the county fairly and honestly.

I have been a resident of Parmer County since 1928, am a veteran of World War II, and am 43 years of age. My family consists of my wife and two sons, ages 7 and 9 years. I believe that I am well acquainted with the problems of Parmer County and the duties of the office I seek.

As County Clerk, I served as clerk of the Commissioner's Court, Probate Court, and County Court, as well as of the District Court. I feel that I am well acquainted with the procedures of these courts.

I will sincerely appreciate every consideration shown my candidacy for this office, and I will make a determined effort to contact every voter in Parmer County before the date of the Primary Election.

Loyde A. Brewer

According to witnesses Bainum managed to get to his car—the family has no phone—and drive to his father's home about six blocks away.

As he entered the back door he collapsed and managed to gasp out enough to tell his father, Charlie Bainum, of the trouble.

Charlie and another son, Jimmy, rushed to the scene and while the older Bainum opened windows Jimmy went back home and phoned the doctor and went to the fire station after a respirator.

Returning to the scene young Bainum side-swiped a car being driven by Ira Bruce Parr. Luckily again no one was injured.

After examination the family was taken to Parmer County Community Hospital where the two women were kept for observation overnight. Dudley

Wesley Hardesty Announces For County Judge

Wesley Hardesty of Friena has announced his intention of entering the race for the position of county judge of Parmer County and ex-officio member of the county school trustee board, subject to the action of the Democratic primaries.

Hardesty is a barber in the Lewis Barber Shop in Friena and has lived in this area since 1944.

He is a graduate of Wayland College and has attended Texas Tech where he majored in business, government, economics and law.

He is the father of three daughters. One is still a senior in Friena High School and the other two are married.

Hardesty has been active in politics for many years and took an active hand in the political circles in Hale County where he resided prior to moving to Friena.

"I will work as a full-time county judge if elected and feel that my education and background qualify me for this position."

"I will run the office in an honest and sincere manner in the best interest of the people of Parmer County."

Wesley Hardesty

Delmar Shirley Dies Suddenly

Delmar Shirley, 51, of the Hub Community died of a heart attack Tuesday morning about 11 o'clock somewhere between his home and the Parmer County Community Hospital. He was stricken at his home and was being carried to the hospital

by Claborn ambulance. He was dead on arrival.

Mr. Shirley, a well-known figure among the citizens of Parmer County, was also familiar to a host of people over the entire area as he had traveled as a participant in many "old-fiddler" contests held annually.

A native of Granite, Okla., Mr. Shirley was born there March 25, 1906. He moved with his family from Wellington and had been a resident of the Hub Community for the past 21 years. He was a retired farmer for the past several years.

Funeral services are at Sixth Street Church of Christ in Friena Thursday (today) afternoon at 2 o'clock with S. A. Freeman and M. B. McKinney of Dora, N. M., officiating.

Burial will be in Friena Cemetery with Claborn Funeral Home in charge.

Mr. Shirley is survived by his wife, Carrie; two daughters, Mrs. John Hand and Mrs. Paul Call, both of Friena; his mother, Mrs. Merler Shirley of Friena; two sisters, Mrs. Pat Busby of Friena and Mrs. Lester Dean of Black; four brothers, J. B. Shirley of Hereford, Jack Shirley of Hub, Carl Shirley of Santa Monica, Calif., and Reaford Shirley of Ojai, Calif.; and four grandsons.

Pallbearers include Johnny Hand, D. G. Hand, L. R. Hand, George Green, and Homer Lindeman, all of Friena; and Ed Hardage of Farwell.

Bainum was released Sunday afternoon and his daughter came through it all with nothing worse than a carrot-smear on her face. (She was eating breakfast when it all began.) Mrs. Bainum and Ruby were released Monday.

The house was searched for the cause and it was determined that the air intake on the wall heater in the bathroom was clogged with lint causing the stove to discharge carbon monoxide.

Charlie and another son, Jimmy, rushed to the scene and while the older Bainum opened windows Jimmy went back home and phoned the doctor and went to the fire station after a respirator.

Returning to the scene young Bainum side-swiped a car being driven by Ira Bruce Parr. Luckily again no one was injured.

After examination the family was taken to Parmer County Community Hospital where the two women were kept for observation overnight. Dudley

Credit Upped Five %

Friena's fire rates will be subject to a 10 percent credit effective April 1, 1958, according to information received here this week.

The credit for 1957 was 5 percent and this year the fire record and other considerations hiked the credit the maximum which can be added to the rate.

Each year the State Board of Insurance adjusts rates for cities in the state and when persons and cities buy their insurance the rate is credited to, or subtracted from, the premiums.

It wasn't too long in the past that Friena's rate was a charge of 15 percent, and this year it changed to a 10 percent credit.

5 Men Enter School Race

Five men have filed petitions for the three places which are up for election on the Friena Independent School District board of trustees.

The five men include the three incumbents, Clyde Weatherly, from north and east of Friena; C. V. Potts, from Rhea Community; and Arthur Drake from Friena.

Two other men include O. J. Beene, former druggist, and insurance man from Friena, and Ernest Osborn, farmer from Friena.

CARR ALMOST MAKES GREATEST ADDRESS

REP. WAGGONER CARR

THIS IS FOR REAL—

Stovall Subs Ably

As Russia shocked the people of the United States with the launching of Sputnik I last October, Travis Stovall, surprise speaker, shocked members and guests at the Friena Chamber of Commerce and Agriculture annual banquet Wednesday night in the school cafeteria.

The superintendent of Clovis Schools used "Positive Thinking" as his topic. In expounding its values he cited the power of positive thinking as the best defense against communism and depression.

Telling the crowd that again the Russians have stolen the ball from us with their acceptance of positive thinking, he urged the audience to get out of the "me, my, I" type of thinking and acting and maintained that using three little terms—"Thank you, you're welcome, and good morning," could change America's prestige in foreign lands almost overnight.

Getting down to the High Plains area, Stovall said the power of positive thinking must be used to gain for the Southwest the industry that is already moving south. "Water is the only limitation in our area," he said, "and positive thinking holds the solution to that problem."

"If we think that water will run out and accept that as final, we are finished," he warned. "But on the other hand, if we use the power of positive thinking in searching for other sources of water and use the power of the atom, lack of water need not be a limitation. The future lies in our hands and only positive thinking can be used to meet the challenge."

Committee reports for 1957 were distributed at the banquet. Highlights of the year are as

But What Could We Do?

The story below concerning "an address" made by Waggoner Carr is offered half in fun and half seriously. It came about after sudden foul weather cancelled the appearance of Congressman Carr at the annual Chamber of Commerce banquet Wednesday night.

The Star, wanting to have a story in this week's paper, faced a dilemma in its planning. Carr was scheduled to speak Wednesday night. The Star goes to press Wednesday night. This problem was averted by having the speaker supply the newspaper with an advance copy of his address. The story was written well ahead of the Wednesday evening banquet.

When plans for Rep. Carr's appearance fell through, The Star editor was about ready to junk the type already set. But the Lubbock congressman, who is one of the state's outstanding public figures, had prepared such a timely talk that it seemed a shame to deprive Friena people of it.

So, here is what Congressman Carr would have said if he had been able to complete his plans. We present this in good humor; but the message Rep. Carr brings is a serious one and deserves consideration.

★ ★ ★

Texas Has a Great Future—Carr

"Texas' future is great if we will all dig in and help," Waggoner Carr, speaker of the house of representatives of the Texas legislature told a packed house of members and guests at the annual Chamber of Commerce and Agriculture Banquet in Friena Wednesday night.

Carr told of, and described, plans for the solving of a series of problems that face the citizens of Texas this year.

Carr predicted that 1958 will bring rapid development of our new water conservation program.

"Texas will again see the need for fighting for title of our tidelands and the millions in school taxes which they represent," he said.

In describing the constant battle to protect the public trust, Carr said that "Texas stands constantly ready to weed out those who would betray this trust—and never has there been more of an effective bat-

tle waged for integrity in government than there is today."

"There is no greater crime, in my way of thinking," Carr said, "than for a man or woman in public service to commit some act which destroys the confidence of the people in their government."

Winding up the talk, Carr told of developments over the state which are again labeling Texans as a proud and independent people and these programs are designed to strengthen Texas' future.

Following Carr's speech the new officers of the Friena Chamber were revealed which include Hollis Horton, president; Ralph Wilson, vice-president; and Bill Nichols, secretary, for 1958.

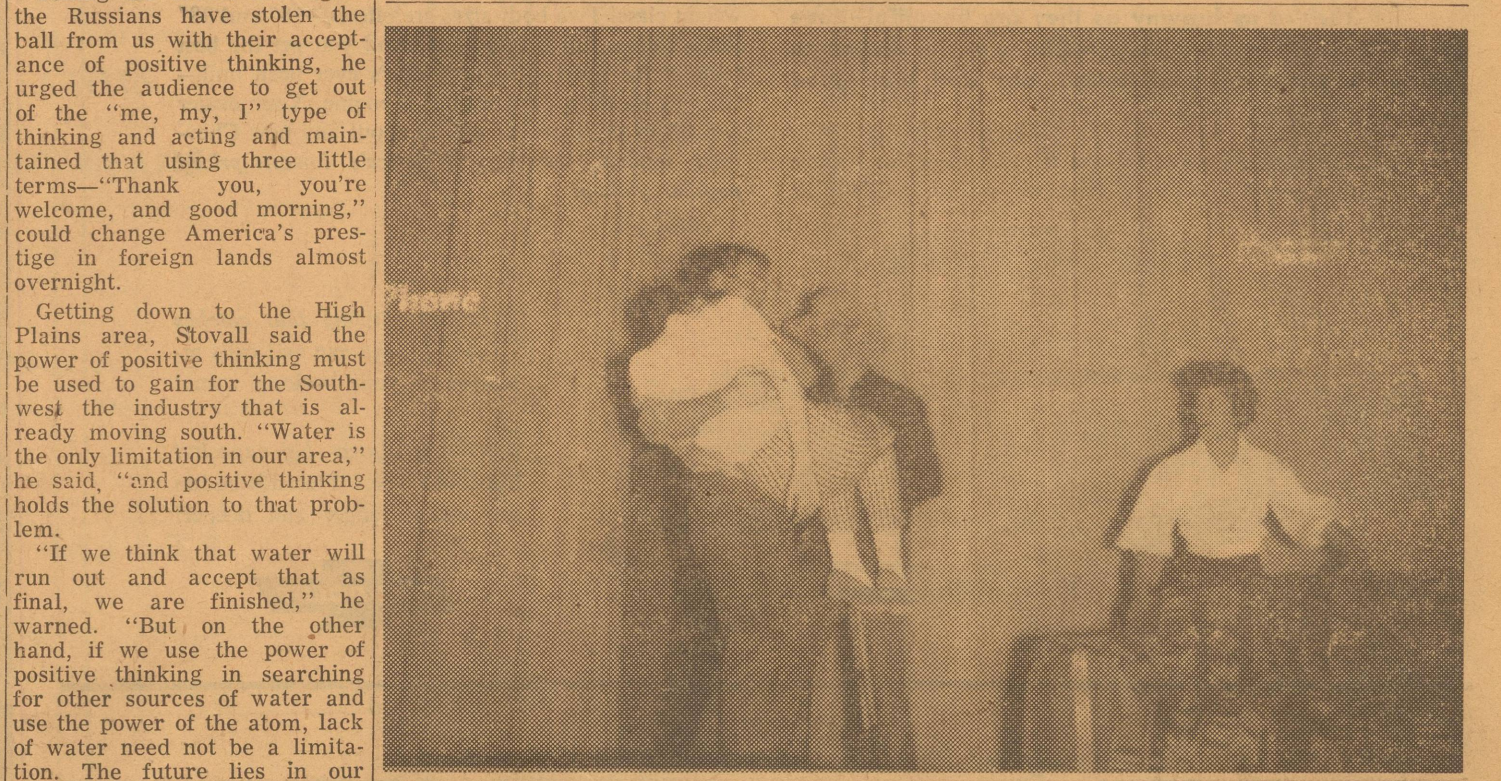

The banquet, held in the Friena High School cafeteria, was presided over by J. C. Claborn, retiring president of the Friena C of C & A.

Invocation for the program was given by Rev. Fred R. Dean of the Union Congregational Church in Friena.

Entertainment was provided by Mrs. Eva Miller.

WHO'D A THOUGHT IT?—Leslie Curry and Gary Brooks grinning like a couple of proud papas, "ham it up" for a group of pre-school age youngsters at the elementary school during Public School Week. The babysitters were enjoying it all and the kids didn't seem to mind.

DON'T DROP IT—it may break. Nolen Johnson carries Eva Nell Thomas on the stage during one of the scenes from Friday night's production of "The Trail of the Lonesome Pine" which will be presented by the Senior Class of Friena High School. On stage above, in addition to the burdened Johnson are Jerry Hinkle and Phila May Buske. Don't miss this Friday night in the high school auditorium.

THE STAR'S EDITORIAL COMMENT

What Is That Buck For?

Many citizens are talking about the \$1 increase in the minimum water bill, which was approved by city officials this week.

Perhaps there would be less criticism if everyone understood just WHY the added buck.

Few people, including this writer, understand a bond issue, but one thing for sure is that they cost a lot of money over a period of years.

Friona needs more water and water storage facilities.

What we need will cost an estimated \$40,000.

OK—How do we get this \$40,000?

You can pay it out of current revenue, which we don't have, or you can vote more bonds.

Friona already has quite a bit of bonded indebtedness on the books and to vote more bonds would require the calling in—paying off in plain language—of the bonds already out.

To this total we would have to add the \$40,000 needed for water facilities. The interest rate on the bonds we owe now is around four percent. Now if we call in the bonds out now and turn around and vote more, we wouldn't be able to get a four percent coverage.

Ad Valorem Tax Collection Good

Lee Thompson, Parmer County tax assessor-collector, reports that his office has had an unusually good year in collecting ad valorem taxes. In the past, a 90 percent collection of assessed taxes was about average, but this past year through February alone the office has brought in 93.4 percent of all outstanding taxes.

The total assessed valuation is \$133,317.50, and the amount

collected already is \$124,508.58. By the end of March, Thompson expects to have in the county's coffers about 95 to 96 percent.

Franklin, Va., Tidewater News: "The actual increase in military spending in next year's proposed budget is less than a billion more than is being spent in the present fiscal year. . . . Come on, Congress, let's slice off some of the non-military fat, and let the states handle some things they should be handling anyway."

The Friona Star

In Parmer County \$3 Per Yr.
Elsewhere \$4 Per Yr.

Entered as second class mail matter July 31, 1925, at the post office in Friona, Texas, under the Act of March 31, 1897. Published each Thursday.

Money comes a little higher nowadays.

Friona would be lucky to get four or a half or maybe five percent on the bonds.

In other words, we would be going in debt, until around 1993, and paying a high rate of interest all those years.

On the other hand we can pay, yes, each of us pay \$12 a year for five years and you know what?

We can pay for those needed improvements, and own them clean in five years by this route.

Friona will have the water it needs, and the broker can keep his hands out of our pocketbooks.

Three Band Concerts Slated

Richard Bentz, band director, has announced the dates for the annual band concert at the auditorium and two guest performances. The concert in the auditorium, which will be presented by the beginners band of fifth grade pupils, the junior band of sixth and seventh graders, and the senior band which includes students in the eighth grade and high school, will begin at 8 p.m. Tuesday, March 25.

The program will be varied and some special numbers will be presented. Admission prices will be 50 cents for adults and 25 cents for students.

Thursday, March 20, the senior band will present a concert in the Bovina auditorium in the morning and in the Farwell auditorium in the afternoon.

Delegates to the latest convention of the American Farm Bureau Federation approved a resolution opposing compulsory unionism and favoring a national right-to-work law. The resolution states: "No person should be deprived of his right to work because of membership or lack of membership in any organization."

Sat'day Slated For Tags

Tax Assessor-Collector Lee Thompson will make the rounds of county towns and communities in an effort to prevent a last-minute rush to get 1958 auto tags.

Here is his schedule: FRIONA, March 15 and 22 (Saturday) 8:30 a. m. til 5 p. m. at the city offices.

BOVINA, March 14 and 21 (Fridays) 8:30 a. m. til 5 p. m. at the city offices.

BLACK, March 20 (Thursday) 8:30 a. m. til 5 p. m. at the county elevator.

LAZBUDDIE, March 27 (Thursday) 8:30 a. m. til 5 p. m., location instructions available at the store.

Thompson asks everyone to bring his title and 1957 license receipts, as these items are now required to be presented by law before new license plates can be purchased.

He said that only tags will be sold while on the circuit. Any title cases must be handled from the main office in the court house at Farwell.

Thompson said Wednesday that there are fewer early buyers for this year than in past times. "Tag sales are not up to the last couple of years," he said. "People are hesitating."

According to the tax collector, quite a few people are not aware that they must bring both title papers and the previous year's receipt in order to get the new plates.

Because of the expected last-minute rush, Thompson will keep the tax office open all day each Saturday in March. The office usually closes at noon on Saturday, but it will remain open until 5 p.m. during this month.

As to the types of plates purchased, Thompson says that there is little change, if any. "There seem to be fewer heavy truck license plates being issued this year," he said. "Perhaps this is due to the fact that many local men have no present use for their heavier vehicles."

MARRIAGE SCHOOL FOR UN FORCES

Fort Payne, Ala., Times New-Era: "In gloating over Russia's achievement in putting the first earth satellite in motion Nikita Krushchev gives credit to the 'socialist' system of government under which the Soviets operate. He implies, of course, that this 'socialist' or communist system is superior to the capitalistic system that we know in America. For our part, we'll take the good old American way over the totalitarian way of Russia, even if it means that we're later than they in making a spectacular demonstration of our ability to get a 'Sputnik' circulating around the earth. We hope the day will never come in this land of ours when even the most amazing scientific achievement is put ahead of the freedoms we are wont to enjoy."

ENMU Band To Appear Here

Floren Thompson, assistant professor in music, will direct the Eastern New Mexico University concert band Tuesday of next week when it appears in the Friona High School auditorium. Friona is on the tour itinerary which includes eleven other towns.

Richard Bentz, local band instructor, is a former student of ENMU and recommends the program to all persons who enjoy good music. The program is planned with a wide range of selections including modern and popular, classical, marches, and special solos, quartets, and quintets.

The public is invited to attend this program.

UN SUEZ TROOPS MORALE HIGH

Free airmail letters and motion-picture films are two of the most effective wonder drugs that sustain morale among the 6,000 troops of the United Nations Emergency Force in the Suez area.

The relative inaccessibility of the Force, and the many different languages spoken have increased the problems of welfare programs and entertainment.

Live entertainment, for these reasons, has been on a very limited basis and, thus far, has been provided mostly by the men themselves.

Motion pictures, however, of the song and dance type, need little translation and some of the American musicals—Gentlemen Prefer Blondes, etc.—are enjoying international popularity.

SOIL CONSERVATION DISTRICT NEWS

OUR SOIL ★ OUR STRENGTH

"To grow bluegills big, raise your pond's fertility quickly, as soon as winter cold begins to wane," say biologists of the Soil Conservation Service. This is a most significant fact that fish culturists have learned by experience in recent years. Pond fertilization was first begun in America about 1938. For a time technicians recommended delay in applying fertilizer "until the spring rains are over." Farmers waited until May or June. Hundreds were disappointed because the bluegills quit growing after the second year. Now it has been shown that even April fertilization is too late to obtain satisfactory growth.

Bluegills begin to spawn in May or June. Within two or three weeks after the eggs hatch, the thousands of little bluegills are eating all the spare food. When that happens their parents cannot get food enough to grow even with full water fertility, yet they continue to spawn all summer and until the first chilly nights in the fall—usually October. During this summer period the production of bass is high. They are growing rapidly on the thousands of little bluegills which are the chief bass food.

When bluegill stop spawning in the fall, the bass continue their heavy consumption of bluegill fingerlings. As the bass reduce the number of fingerlings bluegills, the adult bluegills began to grow—slowly at first, then more rapidly. Growth is slow again during the colder days of winter, as fish feed very little in cold temperatures. Then when the water begins to warm a little, bluegills are ready to grow larger, but only if the water is fertile enough to grow a lot of microscopic creatures that are an essential part of a food cycle.

If runoff water from spring rains is too much for early spring fertilization, the watershed is too big and in many instances the owner can divert the water around the pond. In most cases, however, the loss of fertile water from the pond is not as serious as was thought. A fishpond in any case may have to lose a little fertilized water to get his bluegills to grow to a profitable size.

"To get the first three to five applications in quickly, fertilize every week or 10 days as you begin the year's program of water culture," are the SCS instructions. "Fertilize until a white object cannot be seen 12 to 14 inches deep." Another tip for good fishpond management—don't just fish bass. There is a lot of fun and good eating in the fat bluegills in a pond and it keeps the pond

in good condition to fish for them. Many ponds that get over populated with bluegills have not been fertilized properly and have never had enough bluegills caught. Bass fishing alone in a pond is not good water management.

Kress, Tex., Man Reports—

"2,000-lb.-Per-Acre Increase From Irrigated Maize."

Melvin F. Walter, who farms 1,100 acres near Kress, Tex., says: "I put down 100 pounds of Phillips 66 Agricultural Ammonia on irrigated maize and got a 2,000-pound increase in grain per acre. I also made 50 bushels of wheat per acre using 100 pounds of Phillips 66 ammonia."

Other Southwestern farmers have discovered that the 82% nitrogen in top quality Phillips 66 Agricultural Ammonia helps them get more profit per acre through higher yields. They get more cotton that classes higher at the gin . . . yields of grain sorghum and ensilage are increased . . . more marketable vegetables are harvested . . . and profits on wheat are increased through better forage and higher yields of grain.

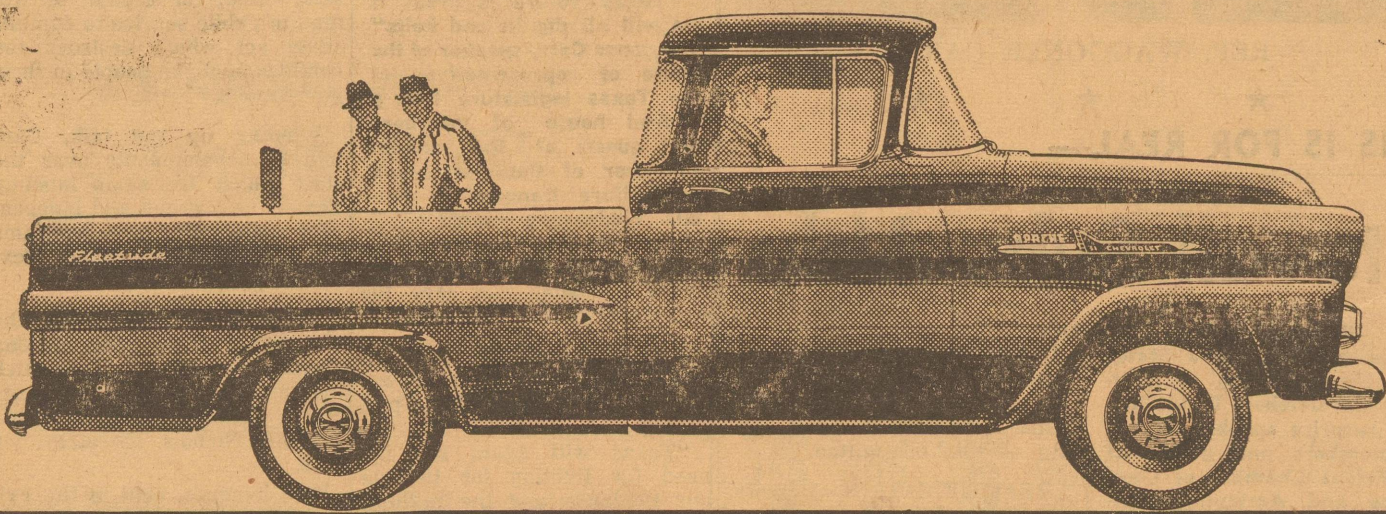

Phillips 66 Agricultural Ammonia contains 82% nitrogen and gives you more nitrogen per dollar than any other form of commercial fertilizer available.

Y'know what? Sonny didn't act the least bit pleased.

Guess you can't win 'em all.

Thumbing through an issue of TIME magazine we found an article on "the strange new language in TV commercials." Given as examples were the deodorant fortified with TD-4; confectioner's 10-X sugar; toothpaste containing WD-9; motor oil boasting an "active ingredient" called Z-7.

Others lumped into a class containing such names as—Gardol, Estron, Lurex, Lumium, Vionate, Bio-Dyne, Rynosec and Purscent, Liquifix, Fadionic, Opaquelon, Neo-Synephrine, Hydrolin SLS, Theradan, Sarrthionate and Thorexlin. Gosh—we thought Hadaacol was bad!

We hope that an accident of ours one night recently didn't result in any bodily harm to man, beast or property.

While bustling down Highway 60 Saturday night, late as usual, we had the "luck" to have a flat tire, but not without the

result of ruining a tire and losing a hubcap.

Now, it is this hubcap that has us worried.

When the tire went flat the hub cap flew off and was last seen clearing the bar ditch headed for parts unknown.

We sincerely hope no one was injured by this UFO as it skimmed along.

If anyone happens to pick up a "lost" hubcap which fits a '57 Chevy, just holler.

Walter Lippmann writes: "Our schools and colleges are overwhelmed by the growth of the population they are supposed to educate, and they are under enormous pressure—for the most part irresistible—to lower their intellectual standards. There is an ominous tendency in American education to teach more and more students less and less of the great disciplines which form an educated man."

Generally speaking, capital investment by industry is substantially down from the very high levels of last year. A major exception to this rule is the electric utility industry. Gene Smith writes in the New York Times that the utilities will spend \$5,300,000,000 this year for expansion—a new record. They will add 16,400,000 kilowatts to their capacity, also a new record.

ROBBIE OSBORN AND HIS AG II PROJECT—Young Robert (Robbie) Osborn, son of Mr. and Mrs. S. H. Osborn of Friona, is pictured with his two pure bred Duroc sows which he has as a project in his work in Agriculture II in Friona High School.

NO. 1 OF A SERIES—

Robbie Has Both Beef and Swine

Robbie Osborn is shown in the picture with two of his purebred Duroc sows. In addition he has five Duroc gilts and all seven animals are due to farrow soon. Robbie, 16-year-old son of Mr. and Mrs. S. H. Osborn of Friona, is a second year vocational agriculture student in Friona High School.

As a part of his supervised practice program in Agriculture II young Osborn is feeding four Hereford steer calves. At the time these were purchased last November they averaged 450 pounds each.

"My five Duroc barrows will be ready for market soon," young Osborn says. I am hoping to sell them while the hog market is at a high peak.

His projects last year included feeding a Hereford calf, that placed in the top bracket at the local junior livestock show. His Agriculture I program also included two Duroc gilts.

An alternate on last year's Junior Farm Skill team that won first in the district, area and state contests, Robbie helped with the Friona FFA educational exhibit at the Amarillo Tri-State Fair this year on debeaking poultry.

Other farm skills which Osborn has to his credit include pruning of trees; using farm level; identification of different varieties and breeds of poultry; identification of grains and seeds. His most recent farm practices are calculation of balanced rations for swine and calves and recognizing and treating diseases of swine.

BANQUET—

(Continued from Page One)

made through the local newspaper to encourage church attendance. The total number in attendance at Sunday school was reported each week.

MEMBERSHIP—Joe Ferrell, Ralph Roden, and Hollis Horton. An extensive drive was made for new members. Good results were obtained. Volunteer membership from farmers was good. The committee made a good will and educational tour of the community.

FINANCIAL—Charles Allen, Mack Bainum, and Newman Jarrell. All dues were readjusted, with a good response from all members. Most categories were raised to make possible the Chamber's expanded program.

AGRICULTURE—Ralph Wilson, Steve Bavousett, and W. H. Long. Supported promotion of area agriculture in Maize Days celebration. Encouraged activity within the Chamber to interest new industries as a

service and development incentive to local agriculture.

RETAIL MERCHANTS—Wes Foster, Andy Hurst, D. C. Herring, Allen Stewart, Tom Lewis, Alvin Gaines, Bonnie Wilson, and C. O. Houser. Contacted merchants on giving away a new car at Christmas-time as a community promotion. Worked with American Legion on Santa Claus project. Conducted weekly drawings in city park.

DEVELOPMENT—Joe Douglas, Frank Spring, W. H. Graham Jr. Investigated the possibility of getting this area approved for the production of safflower. Sought to interest a second major vegetable processing shed in Friona. Helped pave the way for eventual realization of this project. We recommend an Industrial Fund be established to promote new industries. An industrial survey needs to be made. Also, assistance should be given in obtaining suitable sites.

NEW RESIDENTS—Eufaula Ethridge, Loyde Brewer, and John Blackburn. About thirty special "welcome" letters were mailed to new residents as soon as their names could be obtained.

RURAL ROADS—Dan Ethridge, chairman. Assisted with securing easements on FM 2397 eight miles east of Friona. This road should be under contract soon. We believe widening of West 5th can be accomplished soon. FM 2013 from the "10-mile corner" to the "Schlenker corner" is now caliche topped and will be paved as soon as the weather permits.

We should continue work on: Extension of 4-lane on U. S. 60 east and west through city as is needed; FM 2397 east to Castro County line; FM 2013 northwest to New Mexico; overpass from U. S. 60 south.

L-218, "Texas Guide for Controlling Cotton Insects" (1958) and L-219, "Ways to Fight the Pink Bollworm in Texas" are now available at the offices of local county agents or from the Agricultural Information Office, College Station. They were prepared by entomologists of the Texas Agricultural Extension Service.

Texas farmers are now using approximately 300,000 tractors and more than 2,500,000 allied farm implements in order to gain the advantages of efficient mechanized farm production. In addition to this investment, W. L. Ulich, extension agricultural engineer, says farmers of Texas spent about \$95,000,000 for petroleum products and \$75,000,000 for farm equipment repairs last year.

Vacation In Mexico

Mr. and Mrs. Louis Welch and Mr. and Mrs. D. C. Herring left Monday for a vacation in Mexico. They planned to go from here to Tucson and from there to Guaymas, Mexico, which is on the west coast of the country.

In addition to fishing gear they took a boat and some water skis. Guaymas is a resort town and the vacationers planned to go fishing, boating, and water skiing. They expect to return in about ten days. The Welch girls, Jan, Gay, and Holly, are staying with their grandmother, Mrs. F. N. Welch, while their parents are away.

Carolyn Herring is visiting in the home of the D. T. Elliotts and Glenn and Tim are with their grandparents, Mr. and Mrs. Jim Roberts.

Clafin, Kan., Clarion: "The way to find out how many folks read the hometown paper thoroughly is to make a mistake or print something which can easily be misconstrued. Newspaper folks are human—they try to satisfy but mistakes do creep in."

News from The Hospital

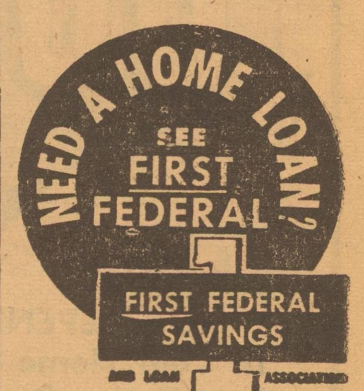

ADMITTED—James Stevens, Friona, medical; Lex Huggins, Farwell, medical; Mrs. Roy Simmons, Friona, o.b.; Noel Guerrero, Friona, medical; Earl Drake, Friona, surgery; Lee Collins, Friona, medical; Mrs. James Norton, Farwell, o.b.; Mrs. Truett Johnson, Friona, medical; Mrs. Doyle Elliott, Friona, medical; Rebecca Elliott, Friona, medical; Willie Radford, Bovina, medical; Mrs. Fred Barker, Friona, medical; T. L. Houston, Friona, medical; D. P. Mann, Bovina, medical; Ethel Walker, Friona, medical; Mrs. Dudley Bainum, Friona, medical; Ruby Grubbs, Friona, medical; C. W. Bradley, Friona, medical; Mrs. Lawrence Cole, Friona, o.b.

DISMISSED—James Stevens, Deana Beth Grider, Jesse O'Neal Dawkins, Dorothy Mann, Robert King, Mrs. W. C. Thornton, Edward Lee Keith, Willy Gonzales, Norma Sigle, Lex Huggins, Santos Arreola, Ethel Walker, Mrs. Truett Johnson, Willie Radford, Lee Collins, Mrs. Dudley Bainum, Ruby Grubbs, D. P. Mann, Frances Brown, Mrs. Doyle Elliott, Rebecca Elliott, Mrs. Roy Simmons and baby girl.

SHEEHAN RETURNS
District Attorney Bill Sheehan returned Tuesday evening after spending several days attending the Attorney General's Law Enforcement Conference at Austin.

Final Rites Read For David W. Smith

Funeral services for David W. Smith, 77, retired Plainview farmer, were conducted at the Bethel Baptist Church of Plainview Saturday afternoon at 2:30 p. m. Rev. F. W. Almore was officiating minister. Survivors include the wife, Mrs. Ada Smith; four daughters, Mrs. Zelma Inman and Mrs. M. C. Hill, both of Plainview, Mrs. J. W. Beaty of Friona, and Mrs. L. L. Atkins of Artesia, N. M.; a son, Hoye L. Smith of Plainview; a brother, Tom J. Smith of Amarillo; a sister, Mrs. E. T. Meadows of Longview; 16 grandchildren and six great grandchildren.

JOHN DEERE DIESELS OFFER YOU POSITIVE WINTER STARTING

If you've had experience with other Diesels, especially when the temperature drops to zero and below, you'll really appreciate the husky V-4 starting engine featured on the new John Deere "720" and "820" Diesel Tractors. This engine furnishes unfailing power to crank the Diesel engine, and also performs three other important functions for cold weather starting. Through connected cooling systems, water in the main engine is warmed during the starting cycle. Exhaust heat from the starting engine is used to warm incoming air for easier combustion. Finally, cranking the main engine operates the oil pump, prelubricating the Diesel. Stop in soon and let us tell you the many other features that keep John Deere Diesel Tractors head and shoulders above the field.

Another Boy For L. Coles

The new baby boy who was born to Mr. and Mrs. Lawrence Cole at the Parmer County Community Hospital at 7:20 a. m. Tuesday was named Lex Kent. He weighed 7 pounds 1 ounce.

Older children in the family are Sherry, Andy, Jodelle, Kay, and Cliff. Grandparents are Mr. and Mrs. E. L. Cole of Midland and Mr. and Mrs. A. C. Johnson of Robert Lee.

Social Events of Interest

HD Agent Meets With Black Club

Jimmie Lou Wainscott, county home demonstration agent, presented a demonstration on one dish meals at the Thurs-

day afternoon meeting of the Black Home Demonstration Club at the Community House. Carrie Tatum was the hostess. Several committee reports were given. Those present were Lucille Rockey, Maxine Price, Mildred Barnett, Geneva Ivie, Helen Fangman, and the hostess. The next meeting will be Thursday, March 20, with Mildred Barnett as hostess.

At the meeting, Emma Elmore and Lois Latham, who attended a recent lamp shade demonstration will present the program.

Circle Members Hear Book Review

"The Day Christ Died" by Jim Bishop was reviewed by Nola Faye Vestal at the Tuesday morning meeting of the Lucille Circle of the WSCS in the home of Mrs. Opal Jones. Two new members, Shirley McReynolds and Diane McDowell, were present at the meeting.

Following the book review there was a social hour during which refreshments of coffee and banana nut bread were served by the hostess. Those present, besides the hostess and new members, were Luella Drake, Gwen Graves, Cora Shaffer, Lucy Vestal, and Anna Anthony; Also Blanche Boyle, Willard Stewart, Lucille Rockey, Juanda Jarrell, Betty Rector, Doris Sides, and Nola Faye Vestal. The next meeting will be in the home of Lilah Gaye Gee Tuesday, March 25.

Weekend Guests

Weekend guests in the home of Mr. and Mrs. J. L. Stowers were Mr. and Mrs. Robert Dick-ey of O'Donnell, Mr. and Mrs. H. G. Houston and Debbie, Mr. and Mrs. Ernest Beavers, Mrs. Leo Bails, and Mrs. Donn Tims.

To Kansas

Mrs. Marvin Skinner left early this week for Dodge City, Kan., to make her home. Skinner, who is associated with a shop in that city, has been gone about six weeks. The Skinners moved here from Bula about two years ago.

Weekend Guests

Weekend guests in the home of Mr. and Mrs. W. B. Norwood Sr. were Mr. and Mrs. W. B. Norwood Jr. and daughters, Joylinda, Janette, Jackie, and Jill of Albuquerque.

Woman's Fellowship Has Work Meeting

The Wednesday afternoon meeting of the Union Congregational Women's Fellowship was a work session making preparations for the annual election day bazaar, which is held in connection with a dinner. The devotional was presented by Ethel Reeve. Her theme was "You Should Run And Not Be Weary." The hostesses, Wilma Wise and Frances Spring, served congealed salad with whipped cream, cake, coffee, and tea. Those present were one visitor, Mrs. Randol Allen, and the following members: Ethel Reeve, Malinda Schlenker, Grace Whitefield, Viola Treider, Nona Pavulus, Edith Lillard, Kitty Loveless, Luella Maurer, and Ann Shackelford.

Wedding Date Set By Marie White

Mr. and Mrs. Levirn R. White have announced the engagement and approaching marriage of their daughter, Marie, to Virgil Hughlett of Brownfield. Hughlett's parents are Mr. and Mrs. Ray E. Hughlett, also of Brownfield.

Birthday Dinner In Shackelford Home

Mrs. Bert Shackelford honored her husband and grandson, Ray Bert Hurst of Midland, with a joint birthday party Saturday evening in the Shackelford home.

Mr. and Mrs. Ray Hurst and children, Ray Bert, Diane, Holly, and Chris, of Midland were weekend guests in the Shackelford home.

Osborns Return

The M. C. Osborns have returned from Fort Lee, Va., where Osborn has been serving with the U. S. Army. Osborn has been released from active duty and the couple will make their home here. He is the son of Mr. and Mrs. Claude Osborn.

Baby Girl For Roy Simmonses

Mr. and Mrs. Roy Simmonses became parents of a baby girl at the Parmer County Community Hospital at 1:05 Thursday afternoon. She weighed 9 pounds 13 1/2 ounces and was named Melanie Jane.

Simmons is a teacher in the local high school. The couple has one son, Roger, who is nine.

Attend Luncheon

Mrs. Pearl Kinsley and Mrs. Florence Guinn were guests at a past matron's club luncheon in the home of Mrs. Florence Fluitt of Hereford. Mrs. Kinsley and Mrs. Guinn are both past matrons of the Hereford Eastern Star.

Weekend guests in the home of Mr. and Mrs. Hubert Roberts, Ruby Jean and Phillip Ray, were Mrs. Esley Cox and son, Bill, of Borger. Mrs. Cox is the former Joan Roberts.

THE BULWARK OF A COMMUNITY IS ITS CHURCHES

"IDOL"

We here in the land of America feel that those who bow to an IDOL god made of wood or stone or some other thing are very ignorant people. The word IDOL comes from two words, one which means "to see" and another which means "the whole." In other words an IDOL is a god of which one can see the whole. Or all that there is to the god is seen and understood.

The God revealed in the Scriptures is one who cannot be seen like that but who is greater than us all and who must be worshiped as such. He demands complete surrender to Him of His children and all that they are and have. There are many here who have put other things ahead of God. Anything that is put ahead of God in our lives is an IDOL. The things that we put ahead of Him are things of which we can see all and therefore we are little better off than the man who carved his god out of wood and placed it on his table to worship. How about your God? Is he great enough to have your complete allegiance or is he small enough for you to see all of him.

When those of us who call ourselves Christians realize how great our God really is and put ourselves in His hands completely then we will be able to lead the entire world to know Him and thus solve the problems that face us.

Would you let me make a passionate plea for you to be faithful and true to the Living God through your church and your daily witness for Him?

Jennings To Show New Airplane

If the weather clears, the new 1958 Comanche airplane will be shown Friday and Saturday of this week at Benger Air Park.

Elvie Jennings, owner, says the public is invited to attend the special showing, which will feature free demonstration rides.

The Comanche is a low-wing four-place plane that cruises at 160 miles per hour.

Bad weather prevented the

showing of the plane scheduled for last week.

Closing of a refugee camp on the Greek island of Tinos last December 15 was made possible by \$35,000 awarded to Nobel Peace Prize money to the Office of the United Nations High Commission for Refugees.

Additional contributions of \$10,000 each from the Norwegian Refugee Council and Swiss Aid to Europe supplemented the prize money. This constituted another step in the plan to dissolve all such camps in Europe as quickly as possible.

Open House Set For Tuesday

A special Open House is slated for Tuesday at which the people in this area will get the first look at new Case tractors with years-ahead styling, engineering and performance.

Spotlighted during the Open House will be what OF&O Supply Co. heralds as "the greatest engineering achievement in farm tractors in 25 years." This is Case-o-matic Drive.

A motion picture specially filmed at the "World Premiere" in Phoenix, Ariz., will be shown every hour on the hour. This film features tug-of-war contests between Case-o-matic tractors and competitive models.

Open House date is scheduled for March 18 at OF&O Supply Co. from 9 a. m. to 4 p. m. There will be refreshments for everyone attending.

Buck Garner Seeks Patent on Guide

Buck Garner of Friona isn't taking any chances on his tractor guide being copied for competition purposes.

Garner has applied for a patent on the Hired Hand Tractor Guide, a product of four years of improvement and arranging switches.

Garner, in his Friona shop, first started work on the machine in 1954. Tractor guides were coming into wider use then. Garner's first machine was successful, but he began to inquire of farmers how he could improve it.

"Put a switch on it to keep the tractor from turning too short," was suggested, and later, "Fix it to where the motor dies when the tractor spins its wheels and stops."

To accomplish the latter, Garner turned to auto wrecking yards. He selected oil pumps to use, and rigged up the present switch in its first stage.

Oil pressure keeps the ignition switches connected until the tractor spins its wheels, and then a spring flips the switch to kill the tractor motor.

When asked about the success of his Hired Hand Tractor Guides, Garner says, "To my knowledge no tractor has ever ruined tires, left the furrow,

turned too short, or run through fences or houses when a Hired Hand was connected to the tractor."

The danger of a tractor running wild with a guide has hindered some farmers from using them. But Garner maintains that this doesn't happen with his guides.

Presently, Garner is thinking about widening his territory, and taking some guides to Kansas for demonstrations. He is certain that the Hired Hand Tractor Guide will convince farmers in that area of its workability if they can see it demonstrated.

Although there are quite a few farmers in the Parmer County area who do not have Garner's guide, the machinist feels that this territory is nearly saturated with the guides.

Bill Hope, an employee at the shop, helped with the switch arranging, and some of the other improvements.

One of the latest additions to the machine is a cover for the belt that turns the oil pump. This is to keep the belt from wearing so fast, and to keep stalks from throwing the belt from the drive wheel.

Garner feels very enthusiastic about expanding with the Hired Hand Tractor Guide. It might develop to the extent that it would require me to spend all my time building and demonstrating them, he says.

"The patent on the switches has not yet been granted," Garner says, "but the application will protect my invention until the patent is granted."

The way to get rid of a friend who wants to borrow some money is to lend him money; you won't see him again for a long, long time.

NEWS FROM

Rhea

By MRS. FRANKLIN BAUER

HD Club Meets In Schlenker Home

Rhea HD Club met Monday in the Carl Schlenker home. During the business session Mrs. Elenor Garber was received as a new member.

Miss Jimmie Lou Wainscott gave a demonstration on "One Dish Meals." Those present were Malinda Schlenker, Sara Dean, Helen Potts, Marie Wall, Francis Vaughn, Martha Schueler, Ona Patterson, Elenor Garber, Shirley Brown, Nat Martensen, and the hostess, Velma Schlenker.

FARM BUREAU MEETS

A large group attended the regular Farm Bureau meeting Friday night. D. H. Atyer of Amarillo International Harvester, and Douglas Connelly, from Parmer County Implement Co., furnished entertainment for the evening. Several films were shown to the group. Gilbert Kaltwasser, county Farm Bureau president, gave a talk on farm bureau policy.

At the business session it was decided to have a community supper April 11 to raise money for Parmer County Community Hospital.

Mrs. Elmo Dean and Mr. and Mrs. Franklin Bauer served coffee cake and coffee to the group.

SALE POSTPONED

The bake sale scheduled by the Rhea HD Club for last Saturday was postponed until March 22 due to bad roads making it impossible to get all the articles to town.

Special "Easter Cakes" will also be sold for those wishing to buy for Easter visitors.

Mr. and Mrs. Florian Jarecki and children and Mr. and Mrs. Claud Mears and children visited in the Jack Patterson home Sunday to celebrate the birthdays of Suzie Jarecki and Mrs. Jack Patterson.

Mr. and Mrs. Elmer Deyke

and family visited in the Ray Martensen home Sunday afternoon.

Visiting Lanelda Wall Sunday afternoon were Marilyn Potts, Cynthia Patterson, Gayle Potts, Greta Mears, Maxine and Jake LeFavors, Carla Vada Singleterry, Gabriel and Allan Parson and Joanne Wheeler. Lanelda had her tonsils removed recently.

Mr. and Mrs. Joe A. Brown and Larry spent the weekend visiting in Lubbock.

Mrs. F. T. Schlenker and Mrs. Elmo Dean spent Monday shopping in Amarillo.

Mr. and Mrs. Oscar Schlenker and Mrs. Malinda Schlenker spent Tuesday in the home of Mr. and Mrs. Cordie Potts.

Mr. and Mrs. Walter Schueler were dinner guests of Mr. and Mrs. Herman Schueler Sunday.

Mrs. Walter Schueler and children and Mrs. Gilbert Kaltwasser and children visited in the home of Mrs. Norbert Schueler in Clovis Wednesday.

Mr. and Mrs. Gilbert Kaltwasser were supper guests in the home of Mr. and Mrs. Walter Schueler Friday evening.

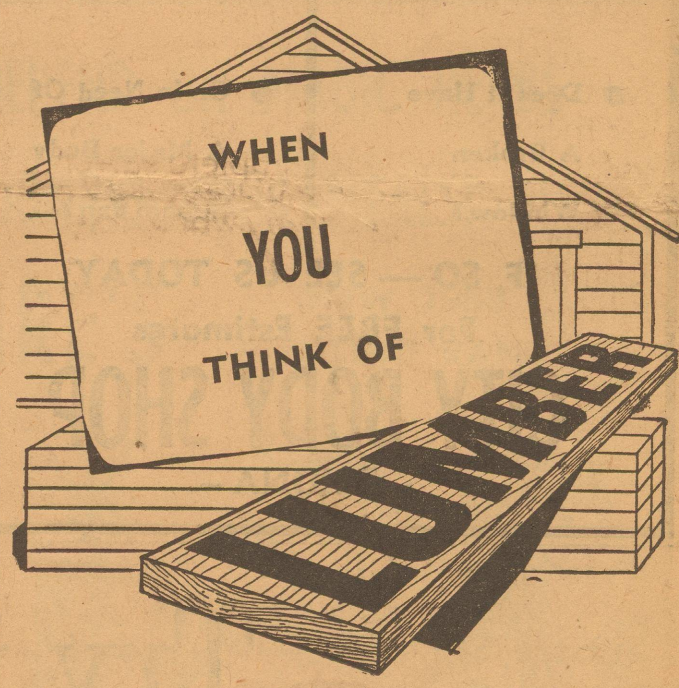

Mr. and Mrs. Herman Schueler left Tuesday morning to spend several days with relatives in Vernon.

Mr. and Mrs. Franklin Bauer and children spent the weekend in Happy.

Monday guests in the Franklin Bauer home were Mr. and Mrs. LeRoy Bauer and Rickey, and Gus Leseberg of Canyon.

Raymond Schueler, Walter Schueler, and Franklin Bauer attended a Weed and Legislation meeting Monday night at the Farm Bureau office. Raymond Schueler was elected president of the weed commission for another year.

Hagerstown, Md., Morning Herald: "For decades it has been taken for granted that the rail companies do not generally find the passenger business profitable. Now, however, the picture on freight traffic, always the lines' bread and butter, is growing extremely dark."

YOU SAVE 3 WAYS WHEN YOU DRY CLOTHES WITH GAS

GAS can save you \$24.96 a year—enough to buy a brand new dryer every 10 years! And your savings is not in money alone. A Gas dryer saves your clothes... its gentle action adds longer life to every fabric, every delicate color. And a Gas clothes dryer saves you work! A twist of a dial does the job that formerly required hours weekly of carrying, lifting, bending, stretching! When you add up the score on both economy and performance, you'll see why it makes good sense to "Go First Class With Gas and Save the Difference!" Let us give you the full story, then see your gas appliance dealer soon.

It costs only \$2.64 a year to dry clothes for a family of 4

fuel for a growing empire Pioneer Natural Gas Company

IN THE COURTS

Corporation Court
The following cases were tried before Judge Walter Loveless in city court in Friona during the week ending March 11: John Miller, double parking in intersection, fined \$5. John Melvin Jackson, drunk in public place, fined \$50.

JP Court
The following cases were tried before Justice of the Peace Walter Loveless during the week ending March 11:

A. D. Cumpton, speeding, \$25. Alvin K. Gaines, passing on wrong side, \$25.50.

Frances M. Brown, driving on left side of road, \$20.50.

Perez Rodriguez, defective tail lights, fined \$16.50.

Surveys made last fall on the number of adult grasshoppers revealed that counties in the Texas Panhandle and upper South Plains may have serious outbreaks of grasshoppers this spring. The surveys showed that approximately 6,000,000 acres, most of it rangelands, could be infested heavily enough to require control measures. The final outcome, says F. M. Fuller, extension entomologist, will depend on the weather and the destruction of grasshopper eggs by predators and parasites. Cool, wet weather with heavy rains at hatching time could cut the 'hopper population below the danger point.

"Cottonseed Treatment for Texas" is the title of a recently released Texas Agriculture Experiment Station publication and copies may be obtained from the Agricultural Information Office, College Station, Texas. Ask for L-383.

Your Hometown Newspaper is his first taste of independence

From the moment a child first begins to enjoy the "funnies," the hometown newspaper is an important part of his life. But even more important is the opportunity it gives the young boy to find out what it means to earn money for himself. The responsible job of being a "paperboy" gives thousands of youngsters their first independence. An irreplaceable source of information and enjoyment, your hometown newspaper is even more—it is an integral part of your community—a business employing your townspeople, an organization interested in the welfare of the community.

SUPPORT YOUR HOMETOWN NEWSPAPER—IT IS AN IMPORTANT PART OF YOUR COMMUNITY!

1716 SAN ANTONIO STREET AUSTIN, TEXAS

Senior Play Friday Night

The curtain will rise promptly at 8 Friday evening at the high school auditorium on the first act of "The Trail of The Lonesome Pine," which will be the final presentation of the senior class of 1958.

Those who attend will see some of Friona High School's finest performers on the stage. It isn't often that spectators have the opportunity to see twin sisters as sisters in a play such as this. Phila May Buske will play the part of June Tolliver, a lovely young heroine, and her twin sister, Lila Gay, has been cast as Sal Tolliver, June's devoted sister.

Many laughs for the evening will be credited to the humorous parts played by Roy Mack Nazworth and Luellen McLean. Roy Mack plays the part of Uncle Billy Beams, justice of the peace, who has never arrested anyone; and Luellen will be Ole Hon, his domineering wife.

Weldon Fairchild, who has attracted much attention on the football field and basketball court for several years, will be seen on the stage playing the part of Dave Tolliver, who is a distant cousin and very much in love with June.

Others in the cast are Randy Dickson, Leon Massey, Linda Gee, Jan Edelman, Eva Nell Thomas, Jerry Hinkle, Nolen Johnson, Betty Agee, and Helen Hamilton.

All members of the senior class invite everyone in the area to attend the play.

THE PARMER FARMER

by W. H. Graham Jr.

How long has it been since you saw the Texas Blacklands? Perhaps you never have. But most everybody who is interested in farming has at least heard of them at some time.

Soon after white colonization of Texas began around 1820 under the leadership of Stephen Austin, farmers began growing cotton. The crop took hold of the new Texas soil, and soon the cotton growing area spread in all directions.

However, it was in the waxy Texas soil belt called the Blacklands that cotton growing reached its peak. The Blacklands range from the Red River in North Texas southward through Sherman, east of Dallas, by Austin, and southward and westward toward San Antonio where it plays out.

Blacklands cotton growing really got up a full head of steam after the reconstruction period following the Civil War, and at the turn of the century, this area was one of the most famous in the world as for its crop growing abilities.

But, have you seen the Blacklands lately? They are not what they once were. Not hardly. The cities that sprang from them either turned to other things to support their economies or withered and died.

Last week we went from College Station northward and

sliced through a big part of the famous Blackland area. Most of the small towns are mere shells of their once proud selves. Deterioration and decay is everywhere.

The appearance of the Blacklands today is deceiving. The heavy, waxy soil looks and feels tremendously fertile. But its potency has been taken away by years of continuous cropping to one crop, and by water erosion, to which it has been very susceptible.

Today, many of the old Blacklands' plowed fields have been returned to grasses. The wounds of more than a century of misuse are slowly healing. There has been much rain and the grass is green and tall. That makes the rolling land a pretty sight. But this too is deceiving. The cattle that one sees from time to time are standing

belly-deep in this grass—and starving to death. There is no nutrition in the grass. The coats of the cattle are dull and poor-looking. They have no bloom, no sheen.

This country was once "Texas." Today much of it is "no man's land." This country is so worn-out that it won't even pay to fertilize it and nurse it along to increased productivity. So, for the most part, it lies idle.

Here on the High Plains, where most land has been in cultivation less than a half century, it sometimes seems hard to realize that such a thing could ever happen. The most tremendous natural fertility of our native soils is seemingly limitless.

But, it is not. Cropping systems and farming practices that conserve or improve soil fertility are as necessary here as they

were in the Texas Blacklands. While our land is not subject to water erosion as is the Blacklands area that usually receives about 35 inches of rainfall a year, we do have our erosion problems. Our land is susceptible to damage by the wind. How our land will be producing 50 years from now remains to be seen. Its "life expectancy" unless conservation measures are strictly adhered to, has certainly been shortened by heavy cropping under irrigated conditions. Surely we will be anxious to take every precaution necessary to avoid a duplication of the fate that befell the great Texas Blacklands in a century of farming.

Since the initiation of the 7-Step Cotton Program 12 years ago by the Texas Agricultural Extension Service, the average lint yield per harvested acre in the state has climbed from 134 pounds in 1946 to 291 pounds for 1957. The program brings together on the county and state basis committees representing every segment of the cotton industry. They work for the betterment of their industry. Fred C. Elliott, extension cotton specialist, gives full credit to the 7-Step Committees for the achievements made.

NEWS FROM LAZBUDDIE

By MRS. CLYDE MONK

Mrs. J. O. Webb returned to her home in Waco Saturday after spending the past six weeks in the homes of Mr. and Mrs. George Crain and Mr. and Mrs. James Robinson, helping care for her youngest grandchild, Jimmy Robinson. The women are her daughters.

Mr. and Mrs. Bill Lancaster and Linda visited in Olton Sunday with Mr. and Mrs. A. D. Adams.

Mr. and Mrs. Alton Morris

and Mr. and Mrs. Valton Morris and their families visited in Portales Sunday with their parents, Mr. and Mrs. J. W. Morris.

Nancy Carol Huddnall from Dimmitt visited Sunday with her grandparents, Mr. and Mrs. Claude Heath. Other visitors in the Heath home Sunday were Mr. and Mrs. Charlie Meyers from Friona.

Mr. and Mrs. Pete Mimms were in Hobbs, N.M., on Monday to visit with George Duncan who is confined to the hospital suffering from a severe heart attack.

The C. A. Watson family visited a son-in-law and daughter and family, Mr. and Mrs. Preston Cargile, in Dimmitt on Sunday.

Mr. and Mrs. Rufus Carter visited in Lubbock Sunday with some old friends, Mr. and Mrs. J. J. Lawler.

Sunday visitors in the C. M. Splawn home were Mr. and Mrs. Howard Splawn and Mr. and Mrs. Red Glasscock, all from Muleshoe and Mr. and Mrs. Lacy Hardage.

Mr. and Mrs. Lowell Savage and Freddie attended the funeral services in Chickasha, Okla., last Thursday for a nephew. The Savages visited there over the weekend returning Sunday afternoon.

Mr. and Mrs. J. R. Carter, Peggy and David, from Needmore visited in the Clyde Monk home Thursday.

Mr. and Mrs. Barney Floyd visited last Thursday in Floydada with Mr. and Mrs. Ham Smith. Mrs. Smith is Floyd's sister.

Mrs. R. B. Seaton and girls attended a church singing in Earth Sunday afternoon.

Mr. and Mrs. Demp Foster, Timmie and Steve, accompanied by Shan Foster, spent the weekend in Lamesa with the W. R. Fosters.

Mrs. Perry Barnes visited her sister, Mrs. Lawson Edwards in Bovina Sunday.

Wayne Hardage and L. O. Norwood from the Y. L. community were in Eagle Pass on business the first part of the week.

Mr. and Mrs. Joe Cox and children from Farwell visited Saturday night in the home of her parents, the Juel Treiders.

Mr. and Mrs. V. H. Bewley visited some former neighbors and friends, Mr. and Mrs. Ray Jackson in Hobbs, N. M., on Sunday. They stopped over in Morton and visited with Mrs. W. H. Harris who has been ill.

Mrs. Thomas Carrell's father, A. T. Kirby of Dimmitt, had surgery on his knee Tuesday morning. He had surgery on the same knee some two weeks ago.

Mr. and Mrs. John Vaughan and small daughter, Janet Lynn, moved last week to the R. L. Kimbrough place where they will make their home and help Kimbrough with his farming operations.

Mr. and Mrs. Owen Broyles visited the J. D. Tylers in Hereford Sunday.

Mrs. Mae Mahon spent the weekend in Lubbock with Mr. and Mrs. Chill Jordan. Mrs. Jordan is her daughter.

Mrs. Billy Ray McGehee and daughter, Cathy, who recently moved to Grants, N. M., spent the weekend with her parents, Mr. and Mrs. Juel Treider.

W. W. Bates from Davidson, Okla., visited Sunday night in the home of his son-in-law and daughter, Mr. and Mrs. Hoyt Eubanks and family.

Lee Kimbrough had major surgery Saturday morning in the West Plains Hospital and is in good condition.

Mr. and Mrs. Dick Mathis from Spur visited last Monday in the home of their son-in-law and daughter, Mr. and Mrs. Boots Reed and son Doyle.

Mr. and Mrs. Gene Smith, Timmie and Jerry, attended the drag races in Roswell on Sunday.

Mr. and Mrs. Paul Templeton and family visited Sunday in Amherst with Mr. and Mrs. John Norwood.

Mr. and Mrs. Wesley Barnes and family visited Sunday in Bovina with Mr. and Mrs. Tony Ivy. They all attended a band concert in Bovina in the afternoon.

Mr. and Mrs. Dan Cargile and Mr. and Mrs. Don McDonald and children spent a long weekend in Corpus Christi visiting with Mr. and Mrs. Dwain Menefee.

Mr. and Mrs. Clyde Monk visited Wednesday at Halfway in the W. H. Dean home.

Mrs. Leonard Duncan and son, Eddie, from Hale Center came over Sunday and accompanied her grandparents, Mr. and Mrs. O. M. Jennings to Clovis where they met Mrs. Duncan's parents, Mr. and Mrs. Ed Carthel, and a brother-in-law and sister, Mr. and Mrs. Robert Joiner from Ft. Wingate. They all enjoyed several hours visit and returned in the afternoon.

The Paul Zahns visited Mr. and Mrs. R. M. Dunn in Amarillo Sunday. Mrs. Dunn is the daughter of the local couple.

Mr. and Mrs. Charles Stafford from Amarillo visited Sunday night in the home of her parents, the Glen Scotts. They left Sunday morning for a visit in Del Rio with his parents.

Public Schools Week in the Lazbuddie school was termed a success. A large number of parents visited in the school rooms every day with the parents invited to eat in the lunch room in a group on Friday. Around 200 participated in the feast and sat in on classes afterwards.

The junior 4-H group enjoyed a party in the Hub community building Saturday evening. Those attending from here were Ara Ann Mitchell, Candy Burreson, Pat Chitwood, Linda Lesly, Charlotte Seaton, Linda Monk, Judy Billingsley, Hoppy Jennings, Gary Mack Brown, Cooper Young, Steve Young, Jimmie Dale Seaton, and Dickie Chitwood. Also Mr. and Mrs. J. B. Young, Mr. and Mrs. Dee Chitwood, Mr. and Mrs. Jimmie Seaton, Theresa and Ricky, Mr. and Mrs. Aaron Mitchell, Mr. and Mrs. T. O. Lesly and Hazel Gay, and Mrs. Clyde Monk.

parents for a visit.

Mr. and Mrs. J. W. Scott from Lubbock visited Sunday in the home of Mrs. N. M. McCurdy.

Marsella Mayfield and Charlotte Seaton visited Sunday with Marianna Gammon and enjoyed helping her celebrate her 11th birthday.

Mr. and Mrs. Perry Barnes and family from Clovis visited Thursday in the home of his mother, Mrs. Perry Barnes Sr.

The Sam Longs from Hereford visited Friday evening in the W. S. Menefee home.

Mrs. E. A. Parham spent the weekend in Anson with her parents, the Y. B. Mayfields.

LUNCH MENU, MARCH 17

Monday, weiners, sauerkraut, creamed potatoes, black eyed peas, bread, milk, strawberry cake.

Tuesday, pinto beans, okra, buttered cabbage, sliced beets, hot rolls, butter, milk, sweets.

Wednesday, meat loaf, plum potatoes, buttered rice, spinach, milk, bread, pear halves.

Thursday, chicken and dumplings, green beans, tomatoes, carrots, and celery strips, milk, bread, fruit Jello.

Friday, tuna salad, buttered corn, potatoes, dried apricots, hot rolls, butter, milk, ice cream.

It's a Boy For James Nortons

Mr. and Mrs. James Norton are the proud parents of their first child, a boy born Friday, March 7. The young man weighed 6 pounds and has been named James Jr.

Grandparents are Mr. and Mrs. Garvin Thorn, Lazbuddie, and Mr. and Mrs. L. L. Norton of Farwell.

PRINTING PROBLEMS

Special problems arise in a printing department when every document received has to be translated and printed in five languages—in this case the working languages of the United Nations: French, Spanish, English, Russian and Chinese. It all adds up to 650 tons of paper a year rolling off the presses of the United Nations. The peak season is—always. This year, for example, the printing bureau was unusually busy because of the long sessions of the General Assembly and the meetings of the Subcommittee on Disarmament, supposed to take only six weeks, but which stretched out to five months.

A small rush job was handled during the "Suez session" last year when the United Nations Expeditionary Force was suddenly created. Identity cards for the soldiers were needed immediately. They had to be printed in English, French, Arabic and Hebrew. The short text was typed on a special machine. The model thus typed and drawn was photographed and, on the same day 4000 cards were printed and sent to the Field Operations Service to become part of the equipment of the soldiers of the historic UN-EE. They are still being used today.

India reports the discovery of thorium-bearing sands on the sea floor off the coast of Kerala State. The south Indian coasts and Ceylon are already well known for their thorium sands. Thorium is supplementary to uranium as an atomic fuel.

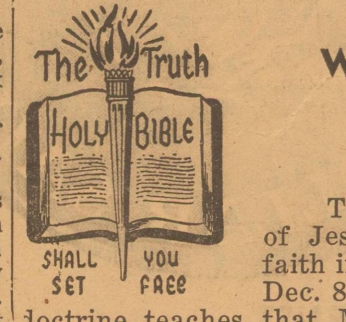

WAS JESUS CHRIST A SINNER?

The "Immaculate Conception" of Jesus was made an article of faith in the Roman Catholic Church Dec. 8, 1854 by Pope Pius IX. This doctrine teaches that Mary, the mother of Jesus, was miraculously made free from inherited sin at the conception of Jesus and as a result Jesus was not born in sin. This doctrine was the outgrowth of the false doctrine that Adam's offspring inherited sin from him.

The Bible no place teaches that sin is inherited. Babies are not born in sin. Sin is the transgression of the law, 1 John 3:4, and therefore is a personal thing. Since no one is born in sin there is no need for such a false doctrine as "Immaculate Conception."

Jesus was never a sinner. The following scriptures prove this beyond a doubt: He was righteous, Isa. 11:5; John 7:18. He was guileless, Isa. 53:9 and sinless, Matt. 27:3-4; II Cor. 5:21. In John 8:46 Jesus made the following challenge: "Which of you convinceth (convicteth) me of sin?" Some today, even religious people, have the audacity to accuse Christ, the Son of God, of being a sinner before his death.

Some may ask, "What is meant by the statement that Jesus was made perfect through suffering?" Thayer's Greek Lexicon says it means: "To raise to a state befitting Him: so of God exalting Jesus to the state of heavenly majesty." It simply means that Christ's ministry was brought to a completed state and he was exalted to the right hand of God, the place befitting His Majesty. NO, CHRIST NEVER WAS A SINNER.

Court Cases Finished

Criminal cases included the following:
C. L. McWhorter, charged with forging and passing bad checks, pleaded guilty and was given two years in the state penitentiary.

The Altman case, brought to indictment in February, 1957, ended last week with the defendant pleading guilty and receiving a five year suspended sentence. No jury was present.

Billy Beeson, charged with three counts of armed robbery and one count of burglary, received 12 years for his part in the burglary and 45 years for each of the three armed robbery counts. He was sentenced to a total of 147 years in the state penitentiary.

Frank Serna was given 40 years on each of two counts of armed robbery, and 10 years for his part in the Thompson burglary.

Celestino Guana was sentenced to 20 years on a single count of armed robbery.

Defino Lopez remains in the county jail awaiting trial by jury in an armed robbery indictment. He was arrested and charged with the rest, who chose to be tried by the judge alone.

His trial is set for March 24. In a case involving the theft of sheep, Manuel Zapata and Antonio De la Carda were charged and sentenced to three years each. However, probation was granted in both cases.

Large Number Visit School

Every day last week a large number of parents and other adults visited classes at all three of the schools here. The student faculty congress provided a nursery and attendants for it throughout the week.

Many parents took advantage of this opportunity to sit in the classrooms and observe methods of teaching and materials being used. There were guests at the school cafeteria for each meal. Mrs. Hoyt Smith registered the guests each day.

Mrs. Ann Routh of Amarillo, a former Friona resident, spent several days last week visiting in the home of Mrs. Rosa Anderson.

Mr. and Mrs. Bill Wooley and sons, Mike and Scotty, spent Sunday in the home of Mr. and Mrs. H. G. Wooley and Bill in Clovis.

Weekend visitors in the homes of the A. O. Drakes, Arthur Drakes, and Earl Drakes were Mrs. Treva Reece and Ted of Canyon and the Bud Minors of Hereford.

in & around FRIONA WITH JUNE

Our congratulations this week go to the Friona Squaws. Even though you didn't win your first game in the regional tournament, we are proud of you and think you did a good job. If you are feeling discouraged, just stop and take stock. Although you didn't win your last game, you have had a good season and the fans were behind you all the way.

Wednesday morning of last week we had an opportunity to talk to a large number of businessmen by telephone. Almost without exception, the man talking would say, "We're going with them all the way." They really meant it, too. Most of them were very optimistic right up until the scores were added up.

Maybe basketball playing is kinda like farming. That is, "a good next year" game. Our squad will lose but two starters off the team by graduation next spring. Paula Neel and Janiece Bock are the only two seniors on the starting line up.

Haven't seen any official figures on school visitation last week, but feel sure that a large number of parents visited different classes at different times. From reports we have heard some of the high school boys make pretty good baby sitters.

If those of us who visited school and attended some of the classes will give some time and thought to some of the problems which confront teachers and pupils, our visits could do some lasting good. At the same time, if we do nothing except observe and criticize the entire purpose of the week will have been missed.

Friday afternoon we sat in on a fourth grade math class. If those nine- and ten-year olds did nothing else, they certainly cooperated with one another. When any child was called on to recite and failed to figure out the letter combination for any number, his classmates were eager to assist him.

One observation we made in attending a high school class was that too many people are discourteous to a speaker. During the time the teacher was talking, some pupils were looking at pictures, others were discussing a magazine article, and still others were just sitting staring into space paying no attention to what was going on.

Our first reaction was, "How rude." This thought kept coming up at odd times for several days. Then one evening we attended a meeting of grown-ups. About two seats behind us several people kept a conversation running all the time another was trying to talk to the whole group.

Maybe this is another instance

where setting a good example would be worthwhile. Perhaps if we as parents were very careful to pay close attention to the speaker at all times, our children would catch onto the idea early that any speaker deserves our undivided attention.

An article came in the mail a few days ago that seems to be promoting a very worthwhile idea. Until we read it, we had thought that there was probably nothing in the world as useless as old eyeglasses. Looks like we were wrong again.

The article came from an organization named New Eyes For The Needy, Inc., which is located at Short Hills, N. J. In this city there is a unique organization which turns discarded eyeglasses and silver scrap into new glasses for needy people all over the country—without soliciting a penny. This organization is incorporated in New Jersey as a non-profit charitable organization and is endorsed by the Essex County Medical Society, the National Society for the Prevention of Blindness, the New Jersey State Commission for the Blind, and the American Academy of Ophthalmology and Otolaryngology.

Over 180,000 people have been helped by New Eyes in the last 26 years, and in October 1955, the millionth pair of discarded glasses was received.

Anyone in the world can apply to Eyes For The Needy, Inc., for glasses and people all over the world participate in donating used glasses. If there are used glasses around your house that you would like to contribute for a worthy purpose, just send them to the above address.

While on the subject of eyeglasses, there is still a pair of bi-focals at the Star office that have not been claimed. If someone doesn't claim them within the next sixty days, possibly we will send them to Eyes For The Needy.

We also have a lady's shoe that was handed to us late last summer. It is a pretty tan summer shoe, so when everyone starts wearing them again, we may find the owner.

There will be a Brownie or Girl Scout at just about every door this week offering to sell you some Girl Scout cookies and nuts. Money from this sale will go for the financing of a new camp for girls of the Caprock Council, of which Friona is a part.

BIRTHS

The following births were reported to Justice of Peace Walter Loveless during the week ending March 11:

Boy, 7 pounds 14 1/2 ounces, to Mr. and Mrs. D. J. Sigle of Friona. Born 7:35 a. m., March 2.

Girl, 9 pounds 13 1/2 ounces to Mr. and Mrs. R. C. Simmons of Friona. Born 1:05 p. m., March 6.

Boy, 6 pounds 1 1/2 ounces, to Mr. and Mrs. J. H. Norton Jr. of Texico, N. M. Born 1:04 p. m., March 7.

UNDERGOES SURGERY

Earl Drake, who has been a patient at the Parmer County Community Hospital several days, underwent major surgery Saturday morning. Latest reports from his family indicate that he is making satisfactory progress.

ATTEND CONVENTION

Odie Claborn and Pat Lucas of the Claborn Flower Shop attended a Floral Design school in Lubbock over the weekend. The meeting was sponsored by the florists of the Southwestern area.

Mrs. Bill Stewart left Tuesday afternoon for Texarkana, Ark., where she plans to spend several days visiting a sister who is convalescing following surgery.

Revival Meeting Now in Progress

Revival services are being conducted each evening except Saturday at the Assembly of God Church at 8. The revival, which will last ten evenings, began Wednesday of this week.

The guest speaker is Rev. Charles Ogden of Muldrow, Okla. He and his wife are both talented singers and musicians. They both play the piano and guitar and special musical numbers will be presented each evening.

Rev. M. Alvin Askins says, "The public is cordially invited to attend these services."

★ ★ ★

REV. CHARLES OGDEN

CONDITION UNIMPROVED

Latest reports on the condition of J. B. "Granddad" McFarland indicate that he shows no improvement. McFarland has been hospitalized at the Parmer County Community Hospital several months. Out-of-town visitors in the McFarland home last week included the R. H. McFarlands of Tucumcari, John McFarland of Farwell, and Lora Mae McFarland of Clovis.

Darlene and Robert Dickey visited in the home of Mr. and Mrs. J. L. Stowers over the weekend. Other guests included Mr. and Mrs. Ernest Beevers and Mr. and Mrs. H. G. Houston and Debra.

PTA Meeting Time Changed

The next regular meeting of the Friona PTA will be held in the High School auditorium at 4 p. m. Thursday, March 20. Plans are for all regular meetings to be held at this hour.

The program for this meeting will be presented by Miss Viola Leonard and her fifth grade pupils. A demonstration on the use of handwork with regular class activities, will be given.

Mary Sheehan, president, urges all parents and teachers to make a note of the time change and attend as many meetings as possible.

MVI Deadline Set For April 15

April 15 is the last day for securing the motor vehicle inspection stickers for automobiles without running the risk of a fine.

According to records only 909 vehicles in Parmer County have been inspected and the county has a total of 4,712 vehicles registered.

State officials have asked that motorists check to see if their car has a current sticker on the windshield and if not to have their vehicle inspected soon in order to avoid the last minute rush.

MEETING POSTPONED

Mrs. Claude Osborn, president of the Parmer County Community Hospital Auxiliary, has announced that the regular meeting of this organization has been postponed.

A railroad spokesman says this about his industry: "The vicious circle of loss of markets, higher rates, still further loss of markets, still higher rates, can be stopped only by providing the railroads with far greater freedom to price competitively and to price for quantity, thereby reflecting the railroads' inherent efficiency."

BUILDING PERMITS

The following building permit was issued from the City Hall in Friona during the week ending March 11.

V. A. Hall, permit March 7 to construct a storm cellar and addition to bathroom and storage; value \$850.

REPRESENTATIVE HERE

Jesse M. Osborn of Muleshoe, representative from this district, was in Friona Friday visiting with his brothers, Sloan and Claude, and other relatives and friends.

Mr. and Mrs. Randol Allen of Lubbock visited in the homes of their parents, Mr. and Mrs. Denver Smith and Mr. and Mrs. Charlie Wise, over the weekend.

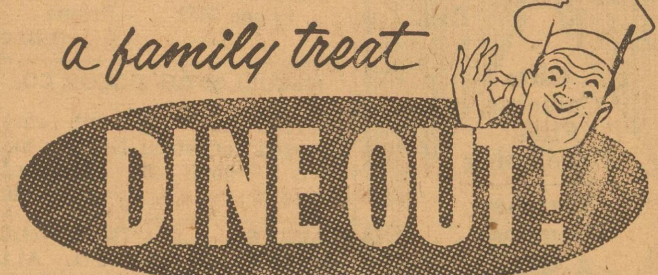

Frionans Attend Funeral At Edmond

Elsie Ritter, who is the elementary music teacher in the local school, was called to Edmond, Okla., Thursday morning because of the death of her mother, Mrs. Anna W. Ritter, of that city.

Funeral services were conducted at the First Baptist Church at Edmond Sunday afternoon at 3, with the pastor, Dr. M. E. Ramay, officiating. Interment was in the Grace-Lawn Cemetery under the direction of the Baggary funeral home.

Mrs. Jewell Woodward of Friona and Mrs. Mary Whitaker of Canyon attended the funeral services in Edmond.

Texas 4-H Alumni Win Honors

Proof that 4-H training lays a firm foundation for successful living is found in the records of five former Texas 4-H Club members. They are 1957 state award winners in the 4-H Alumni Recognition program, conducted by the Cooperative Extension Service.

Each was awarded a handsome burnished copper plaque appropriately inscribed to commemorate the occasion. Olin Mathieson Chemical Corporation, Plant Food Division, provided the awards.

These former 4-H'ers were selected from a list of candidates submitted to the state Extension Service early last fall. They are Evelyn Birdsong Gibson, housewife, Lufkin; C. B. Hodge, rancher, Salado; L. O. Tiedt, radio director, 5329 Doulton Drive, Houston; and Mr. and Mrs. Paul Odell, dairy farm operators, of Como.

Mrs. Gibson began her 4-H work in 1936 with projects in garden, sewing, canning and home improvement. The following year she was chosen 4-H Gold Star award girl, and two years later won the 4-H Leadership award.

Now as a mother and homemaker as well as volunteer 4-H leader, Mrs. Gibson says her 4-H training continues to pay most satisfying dividends.

Tiedt's creative and honor winning 4-H projects were launched in 1943. Today his enthusiasm for 4-H is exemplified by his frequent participation in livestock shows and young people's agricultural activities. For the past year he has served as assistant agricultural director of KRLD radio-TV in Dallas.

Mr. and Mrs. Odell are veterans in 4-H volunteer leadership, putting to use the training they received as 4-H Club members themselves.

In 1940 the Odells bought 100 acres of run down land and started a dairy business. They credit 4-H with helping them to turn the farm into a highly successful enterprise.

Mr. and Mrs. Paul Odell

Now a grain and feed dealer as well as rancher, Hodge helps 4-H'ers in his community to start livestock feeding projects.

Tiedt's creative and honor winning 4-H projects were launched in 1943. Today his enthusiasm for 4-H is exemplified by his frequent participation in livestock shows and young people's agricultural activities. For the past year he has served as assistant agricultural director of KRLD radio-TV in Dallas.

Mr. and Mrs. Odell are veterans in 4-H volunteer leadership, putting to use the training they received as 4-H Club members themselves.

In 1940 the Odells bought 100 acres of run down land and started a dairy business. They credit 4-H with helping them to turn the farm into a highly successful enterprise.

Evelyn Gibson L. O. Tiedt

Hodge joined 4-H when he was 13, and enrolled in livestock and feeding projects. Seven years later, aided by solid 4-H training, he took over the management of a 2500-acre ranch.

Friona Independent School Dist.

A special school board meeting has been called at 7:30 a.m. March 17, for the purpose of accepting bids for an addition to the present Friona school cafeteria.

Plans and specifications of the addition can be secured from the Butler-Kimmel Co., architects, at 412 Avenue N in Lubbock, Texas

The addition is 42 x 46 feet brick veneer structure and will contain a kitchen, storeroom, dishwashing unit, restroom, and a walk-in icebox.

«The High Plains Farm and Home»

Prospects Best Ever For Wheat Crop

In the memory of many farmers of the Parmer County area, prospects for winter wheat are better at the present time than ever before in history. At this point, they are better than 1949—the last year a "good" wheat crop was produced on the western High Plains, then nearly altogether unirrigated.

It's been so long since wheat looked good that farmers admit that their memory may be playing tricks on them, but most maintain that they can't recall a time when prospects for a bumper crop seemed better.

This may be premature optimism, because the wheat is not even heading out yet and many things could happen before harvest time next summer. However, moisture has been sufficient from the time of planting until now, and enough water is stored in the soil already to almost assure some grain production even if the "finishing" rains do not come.

Dryland fields are hard to distinguish from irrigated ones, except for the rows or borders that are used to direct the water on the irrigated fields. The wheat is a rich, healthy green that so far shows no signs of molestation from insects.

It is growing off so fast, in fact, that many farmers are registering concern about what a sudden cold snap in the spring could do to too much plant. Grazing usually controls this problem with little difficulty, but this year it's different.

There is so much wheat doing so well—both dryland and irrigated—that the limited number of grazing stock can't make a dent in the tremendous growth of wheat pasture. Consequently, quite a bit of wheat is pushing along toward maturity faster than its owners would prefer.

The Parmer County wheat allotment this year is 109,905 acres. That is a slight increase from the previous year. Of this, about 7,000 is set aside for "new growers."

But, officials at the county ASC office estimate that only about 80 percent of the allotment has been sowed. That has been characteristic of county farmers in the past five or six years. They have failed to plant their full allotments.

There are 9,060 potential acres of wheat taken from production by the acreage reserve phase of the soil bank. However, this still means that Parmer County farmers could plant another 19,000 acres of wheat if they just wanted to.

Some farmers have planted their full allotment and would plant more if they could. Others have not used their allotment,

Lush is the word for the Parmer County area wheat this year. This is a closeup of a clump pulled from a dryland field and held up for inspection by the camera. Prospects for wheat are probably the best in history.

and, in failing to reallocate this amount back to the county to be issued to other farmers (even though they could still claim the acres on their farm's history), the total planting for the county has been held down.

Last year improved weather conditions plus a better understanding on the part of farmers about irrigation and fertilizing teamed up for the best wheat crop since 1949. Wheat traditionally has not responded to irrigation as well as grain sorghums, cotton, and other crops.

But intelligent application of fertilizers and better methods of watering have resulted in increased yields for many farmers, and the wheat allotment is coming to be more "thought of" than it was three or four years ago.

Just how much wheat is raised under irrigation is open to debate. It probably is around 40,000 acres—or, about half of the total planted acreage. Many

farmers irrigate wheat in the fall and winter months when they have no other use for their wells, and so the figure is difficult to estimate.

WHO EATS WHAT?

The supply and provisioning of the United Nations Suez force has been a crucial problem from the beginning, due to the emergency nature of the operation and the international character of the Force.

A 60-day reserve of pack and dry rations is maintained in the area, with another 30-day reserve in Naples, Italy.

The nature of the ration poses a challenging problem, due to the different national tastes. A comprehensive ration scale, based on Canadian, British and Indian scales, and supplemented to meet particular dietary demands, seems to cater adequately in the supply of national dishes.

Sesame Producers Schedule Meeting

Farmers contemplating sesame acreage this year are urged to attend a special meeting at the American Legion Hall in Friona Tuesday night, March 18. Robert L. Parker, executive vice-president of the Texas Sesame Growers, Paris, will be the featured speaker. The meeting starts at 7:30.

Indications are that sesame will continue to grow in importance in the Parmer County area. Farmers are seeking more profitable cash crops, since drastic acreage restrictions have curtailed cotton production and price supports for grain sorghums are at a low ebb.

This week, Parker confirmed in a telephone conversation with Farm and Home that Parmer County led the nation in sesame production last year. More than two million of the seven million pound crop in Texas was produced here, and under adverse conditions, at that. Sesame occupied about 2,500 acres in the county last year.

Parker is traditionally conservative in making any predictions about sesame's outlook. However, optimism creeps through his cautiousness, and he states, "There is room for an increase in the Parmer County production."

For five straight years, sesame prices have met or beaten Association predictions. Last

year the price was \$10.41 per hundred—highest on record. "The outstanding performance of sesame in 1957, despite bad weather, and low prices of other crops, has resulted in more farmer interest this year than at any other time," says Parker.

"High Plains farmers averaged \$80 per acre gross for their crop, and some grossed as much as \$120 per acre," he says. "Many Plains farmers cleared more money on sesame last year than on cotton."

Improved machinery and harvest methods developed by farmers have greatly reduced labor costs, and further simplifying the crop, much of the High Plains sesame last year was harvested by custom operators.

Tonnage of sesame produced in Texas jumped to seven million pounds in 1957, more than double the 1956 production, and 17 times bigger than the first commercial crop grown in 1953. The High Plains produced six and one-half million of the total.

A documentary color film showing how the crop is produced, harvested, and marketed will be shown at the meeting. Also to be on hand will be Clyde Black, manager of the High Plains sesame headquarters in Muleshoe.

THE HAPPY HOMEMAKER

BY JUNE FLOYD

Homemakers who do not serve pumpkin pie except at Thanksgiving and Christmas time are depriving their families of a treat that could be enjoyed any time of year. There are so many ways to make pumpkin pies that one should not serve the same kind of pumpkin pie two times in a row.

For creamy pumpkin pie, you need the following ingredients:

- 1 cup brown sugar
- 1/4 teaspoon cinnamon
- 1/4 teaspoon nutmeg
- 1/2 teaspoon salt
- 2 tablespoons flour
- 1 cup cooked pumpkin
- 1 cup sweet cream
- 1 cup boiling water
- 2 eggs, slightly beaten
- 1/4 cup crushed pecans
- 1/4 cup crushed walnuts
- 1/2 teaspoon orange rind
- Few drops of vanilla

Blend sugar, spices, salt, flour together. Then stir into pumpkin. Mix cream and boiling water and beaten eggs, then add to dry ingredients. Add orange rind, nuts, and vanilla and pour into unbaked pie shell. Bake in medium oven. Serve with whipped cream or ice cream.

Have you sewed one of the new chemise dresses? If not, you really should make at least one. If your figure doesn't happen to be right for one of them, make it for your daughter or some other person who doesn't have bulges where curves are supposed to be.

A cartoon which appeared in a paper years ago has long been one of our favorite jokes. It

pictured a woman who needed a size 40 or larger viewing a pattern which pictured a dress in her size about like a trim 16 or so. She said, "Well, I just cut and sew as nearly as possible according to the instructions, but my dresses never look like the pictures."

Let's make a meringue pie. It seems that there is no kind of dessert that pleases the man of the house as much as a soft pie topped with meringue. You might like to try this recipe.

Lemon Meringue Pie

- 1 1/2 cups sugar
- 7 tablespoons cornstarch
- 1 1/2 cups water
- 3 tablespoons butter
- 6 tablespoons fresh lemon juice
- 2 tablespoons grated lemon peel
- 3 egg yolks, beaten

Mix together sugar, cornstarch, and water and boil six minutes, stirring constantly. Remove from heat, stir in egg yolks, return and cook over low heat for six minutes, stirring constantly. Then add butter, lemon juice, and grated peel.

Stir only until well blended. Pour into baked nine inch pie shell. Top with meringue. For the meringue beat 3 egg whites and 1/4 teaspoon cream of tartar until stiff. Add six tablespoons sugar gradually, then add 1/2 teaspoon vanilla and beat until meringue is glossy and stands in firm peaks. Spread on pie and bake at 400 degrees F ten to twelve minutes.

If you like raised coffee cakes that are simple to make, the following recipe is one you will sure want to try.

- Cocunut Pineapple Coffee Cake**
- 3 tablespoon butter or margarine

TOP PRICES PAID FOR USED FURNITURE AND APPLIANCES

PETE'S TRADING POST
Phone P03-5252
108 Main — Clovis, N. M.

Some farmers are still putting ammonia-type fertilizer on their grain sorghum stubble. Tractor-mounted rigs such as this one are very popular. Many farmers put on their own fertilizer in this manner, renting the rigs and purchasing the fertilizer from dealers.

- 2 tablespoons dark brown sugar
- 1/3 cup shredded coconut
- 1/3 cup pineapple tidbits
- 1/3 cup water
- 1/3 cup sugar
- 3/4 teaspoon salt
- 1/4 cup shortening
- 1/4 cup lukewarm water
- 1 package yeast or 1 yeast cake
- 1 egg, beaten
- 1/2 teaspoon vanilla
- 2 cups flour

Melt butter or margarine in bottom of 8"x8"x2" pan. Spread evenly with brown sugar and coconut; arrange pineapple over this. Scald milk, and stir in sugar, salt, and shortening. Cool to lukewarm. Sprinkle or crumble yeast into water and stir until dissolved. Stir in lukewarm milk mixture. Add egg, vanilla and flour.

Beat until well blended. Turn batter into prepared pan. Let rise in warm place, free from draft, until doubled in bulk, about 1 1/2 hours. Bake at 375 degrees F about 35 minutes. Turn out of pan immediately. Serve warm.

Next week we have one of our favorite holidays and regret that it falls on Monday this year. Think it would be nice if all of us could just take off St. Patrick's Day and listen to the radio. Since we will not be able to spend the day listening to Irish music, maybe we can observe the tradition by serving Irish Stew.

A new recipe that came to our desk from the Texas Beef

Council is being printed below. Of course, it should be made with Texas beef.

Irish Stew

Cut into 1 1/2 inch cubes 2 pounds beef round and brown it in 3 tablespoons fat. Remove beef from pot and brown 1/4 cup sliced onions. Return the beef and cover it with 4 cups boiling water. Add these spices and seasonings to the water: 2 bay leaves, broken into pieces; 4 whole cloves; 1/8 teaspoon ground black pepper; 2 teaspoons salt; 1 tablespoon Worcestershire sauce; 6 drops Tabasco sauce and 1/8 teaspoon dry mustard.

Cover the pot closely, reduce the heat and simmer for 1 1/2 to 2 hours. Parboil 12 small, whole new potatoes and 8 to 10 whole small round onions; drain and add them to the stew. Quarter and slice lengthwise 4 medium carrots and add to stew. Simmer for 20 to 25 minutes.

Rather than thickening the

stew with a flour gravy, the potatoes are to be mashed after the stew is cooked. Leave the other vegetables in their original form for texture and appearance.

REALLY HOME

As the troopship, laden with battle-scarred veterans of Korea, pulled into the West Coast harbor the happy sergeant said to Private Smith, "Well, farmer boy, are you glad you are going to hear the roosters crow and the old donkey bray again, eh?"

"It'll be mighty nice to hear the old donkey bray," replied the private. He added, "And not give orders."

Don't neglect a severe sore throat. Your doctor might find it is a "strep" throat. "Strep" infections can lead to rheumatic fever which sometimes is a forerunner of rheumatic heart disease, says the American Heart Association.

If a crop is combinable, (that means if a crop can be cut with any combine) the McCormick No. 151 self-propelled can do it quicker and better. Let us show you why the No. 151 is truly the "mighty master of the big yields."

Claude Bradley, one of our mechanics, suffered a heart attack while working Monday afternoon. He was taken to the hospital and is doing very well.

Some of our family goes to Amarillo each week for trampoline lessons and little Susan Spring, who is four, usually goes with them. The other day her father and mother, Dr. and Mrs. Paul Spring, went along and were watching. When, Nard, the instructor, asked Lunell to do a difficult back flip, she said, "I can't. I'd break my neck." Susan said loudly, "You'd better try it now while the Doctor is here."

Mother to little Johnny: "Why did you kick David in the stomach?" Johnny: "I didn't mean to do it, he turned around too quick."

Want to know how to have a perfect lawn at your house this spring? We read that this is the way it is done in England. Plow the land very deep, level perfectly, rake and rake until the soil is pulverized, add fertilizer, and plant food, water well and plant one hundred years ago.

If you need bolts and nuts, spark plugs, air cleaners, paint for your machinery, batteries, irrigation tarps or tubes, tires and tubes, grease guns, fan and generator belts you will find them at the Parmer County Implement Company.

Everyone at the Kenyth Cass home is working hard this week and that includes son, Jerry. They have company—their twenty-month-old twin nephews. The father of the boys is a brother to Mrs. Cass and the boys are visiting in the Cass home while their mother is ill. Although the boys keep them busy, Mrs. Cass says they are lots of fun and they will be sorry when they have to go home.

You may think with all the rain we've had, you won't be needing your irrigation well much this season. That's not true in West Texas, however, and the time to repair the motor on your well is now before you need it.

A Texan explains it thus—"A fellow can't be fast enough to keep up with the truth about Texas."

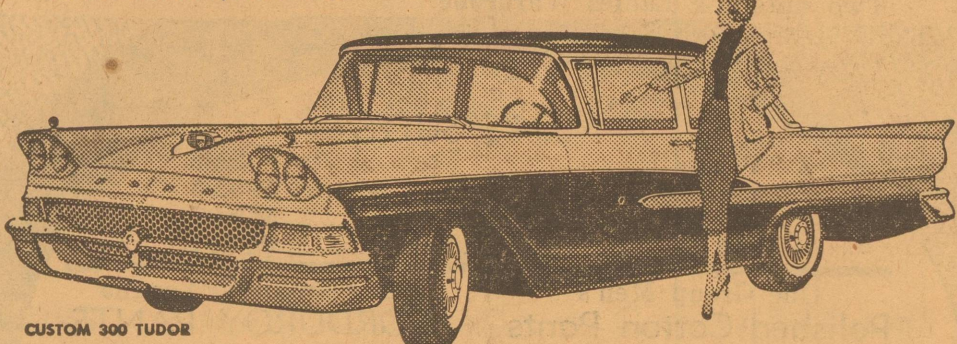

A lady noticed a little boy sitting in the backyard crying and crying. When asked what the trouble was, he

ALEX DICKIE

Dickie Plugs Corn, Sorghum Link

Alex Dickie, state president of the Texas Farmers Union talked to members and guests of the local union in Farwell High School Tuesday night. The business of the evening included a "Pat and Mike" type report from Washington, music and songs by Charlie Phillips and his Sugartimers, and Dickie's speech and appeal for membership.

The Union president presented his talk in three phases: the basis for Farmers Union, the problems it faces, and the solutions to those problems.

Dickie said that the Union stood alone in 1956, being the only representatives of farmers who were against the "Ike-Benson flexible farm price supports."

From the views and interviews made by Dickie and the local members of the Union who went to Washington, it seems that no one today is happy with the way Benson's farm bill worked. Dickie says that "the Farm Bill is the hottest subject on Capitol Hill."

"Corn-grain sorghum tie-up is the key to a workable farm program," says Dickie. He sees a good possibility of getting a workable and suitable farm bill through our law-making bodies this year.

The speaker noted that farmers are the only major industry not practicing price control through product control today. He sees the principal problem of farmers today as not having

any bargaining power in the world's markets.

Using the steel industry as an example, Dickie pointed out that steel plants all over the country are not working at full production capacity, because they prefer to produce only the amount for which they can set their own price.

A basic law of economics is that the supply of a product determines its demand. If a market is glutted, if a surplus is piled up, then the producer cannot set his price; he must take what is offered.

In the case of farmers, this has been true when surpluses did not exist, says the president.

Dickie and the Farmers Union believe that the best chance for farmers to make a living wage is, if necessary, to produce less. In any case the farmer needs more control over the price he receives for his product.

The price of raw materials coming from the farm has a relatively small effect on the price of the finished product. Dickie told the audience that only about 25 cents worth of cotton

goes into a \$4 shirt, for example.

Quoting Department of Agriculture statistics, Dickie told the group that, "For every one percent less we market, there is a gain of eight percent on the price of the products we do sell."

"Only the farmer, of all producers, is required to take a loss when overproduction or underconsumption takes place," said Dickie.

He told the audience that, "Long ago labor and industry figured out that if they controlled the supply, they could control the price for their products."

He added, "No one can truthfully say that either labor or industry got where they are today without favorable federal legislation."

Speaking for Farmers Union, Dickie said that the farmer must have price control. To get the price they ask, said Dickie, they must control the amount they produce.

According to Dickie, a national farm board is the first step toward allowing the farmer to price his own product. He said that the farmer "must nail his price tags on the gate—and don't even try to justify it," saying that neither industry nor labor attempted to justify their less-than-capacity production or nation-crippling strikes.

Dickie sees no way to fight such farm procedures he backs, because it is in use by other segments of the economy today.

He pointed out that labor received bargaining power (what Farmers Union is asking for the farmer) in 1938, through the Wagner Act.

Dickie said that the Union had no fight with labor or industry, that he merely used them as examples of what farmers could do.

He said that all the farmers want is a fair return on their

investment, all they seek is equality in a decent price for their goods, which reflects a living wage.

"Farmers don't want a parity price," he said. "They really want a parity of income."

In closing, Dickie outlined the methods, the legislation, and the way a national farm board could be set up and put into action.

He will return to this area to speak in Bovina March 27. Farmers in that area are forming a local Farmers Union.

NEWS FROM THE FARM BUREAU

By RAYMOND EULER

Six hundred, fifty-nine was the Parmer County Farm Bureau membership following this year's drive. This includes a few more than 60 new members. By some statistical figures, this represents about 90 percent of the farmers in this county. We think the most correct figures would indicate about 75 percent, though.

Anyway, your president and vice-president, Gilbert Kaltwasser and Jack Patterson, respectively, are well pleased with the response received by the 50 or so workers in the field. They feel that a greater membership will strengthen the future of rural roads and rural electrification and telephones.

FARM & RANCH LOANS
Long Term-Low Interest
Ethridge-Spring Agency, Friona
Ph. 2121 or 5551

These projects are being threatened by some powers that try to get their ways in legislation.

Farm Bureau, which according to Governor Daniel, is the most influential organization in Texas, intends to protect and strengthen these services and properties acquired after many hard legislative battles.

We attended another regular meeting of the Rhea Farm Bureau local last Friday night. We found that the vitality of this community has not wavered. They had a good attendance, even though the roads were muddy and covered with a couple of inches of hail. They voted to serve a supper at their next meeting, Friday night, April 11.

Proceeds from the meal will go into the fund they have been raising for benefit of the Parmer County Community Hospital. They are expecting a bunch of Friona and Bovina people to eat with them that night. Mark it on your calendar. Walter Schueler is local chairman.

The Farm Bureau weed and legislative committees met Monday night in the Friona office. The weed committee reorganized and mapped plans for the season's work. The legisla-

tive committee studied the "New Look Farm Bureau Farm Program" proposals.

We would like to suggest that if you do not file for tax exemption on fuels you purchase, you tell your dealer, and he will not fill out exemption invoices. Also, if you think it has been some time since you filed for refund, you should ask about it if your invoices are filed here. There is always the chance that through error you might not be notified. You can file as often as you wish, but should file at least every six months.

Consider this: A righteous man falling down before the wicked is as a troubled fountain, and a corrupt spring. Proverbs 25:26

Over the New Year holiday, traffic fatalities in this country established a postwar record, and the total of 160 was well above predictions. An outstanding exception to the general rule was provided by Connecticut, where there was no traffic death. The state has been waging a tough war against speeders. Licenses are suspended for 30 days on the first conviction, 60 days on the second, and indefinitely on the third.

Irrigation May Be Different in 1958

Big scale irrigation came to the western part of the High Plains in 1953 and 1954. Those were the years of the drouth of the 1950's. In the years from 1949 through 1956, it was "normal" for fields to be bone-dry at planting time. It is understandable, then, that pre-planting irrigation got to be such a routine matter. The farmer and his new well grew up with it.

However, things are considerably different this year. Moisture conditions are much improved, and the supply of water in the soil meets or exceeds what is usually the case for the spring work.

County Agent Joe Jones observes, "With good subsoil moisture available, the big question confronting most all farmers is whether or not to pre-irrigate cottonland, and when watering of wheat should be done."

Jones has some suggestions to make in helping arrive at decisions on this problem. Cotton can take water from great depths. But, applying water now will cool the soil. If pre-irrigation is decided on, it should be done well in advance of planting in order to allow the soil to warm up again.

"It is a waste of water to underirrigate, just as it is to overirrigate," says the agent.

"With the weather as a variable factor, it will just be up to farmers to use their judgement as to which way to go."

With cotton's deep rooting system, Jones emphasizes that a field watered to capacity at planting time usually means that the first watering can come later than if the field is not at capacity at planting time. Usually, the first watering is called for when cotton begins to bloom.

"Wheat is looking the best in many years and appears to have plenty of moisture," says Jones. "But, this may not necessarily be the case where early planting and a warm winter gives a bush-top growth. It is a good idea to do some digging and plan your farming so you will be able to put water on wheat before it hurts in the least."

The agent adds that plant food and water should be near an ideal level this time of the year because of head formation and filling. "It is not too late for fertilizer applications, but it soon will be," he warns. "In all cases, fertilizers should be applied before head formation for maximum benefits."

Some things that apply in a

general way to irrigating for all crops include: Over-watering dissolves plant food and leaches it below the root zone. The length of runs and water amounts applied should be designed to put the proper amount of water in the land with a minimum of leaching.

Water-holding capacity of different textured soils must be taken into account. Sandy or course soils will hold from one-half to one inch of available water per foot. Sandy or light loams will hold from one to one and one-half.

Silt and clay loams (medium soil) will hold from one and one-half to two, and heavy clays from two to two and one-half. Most of the soil types in the Parmer County area range from sandy loams to heavy clays. The medium silt and clay loam is the biggest part of these.

Soil moisture can be estimated by the "feel test." In it, a farmer takes a small amount of soil and squeezes it in his hand. By its feel and by its look, he knows how much water the soil contains.

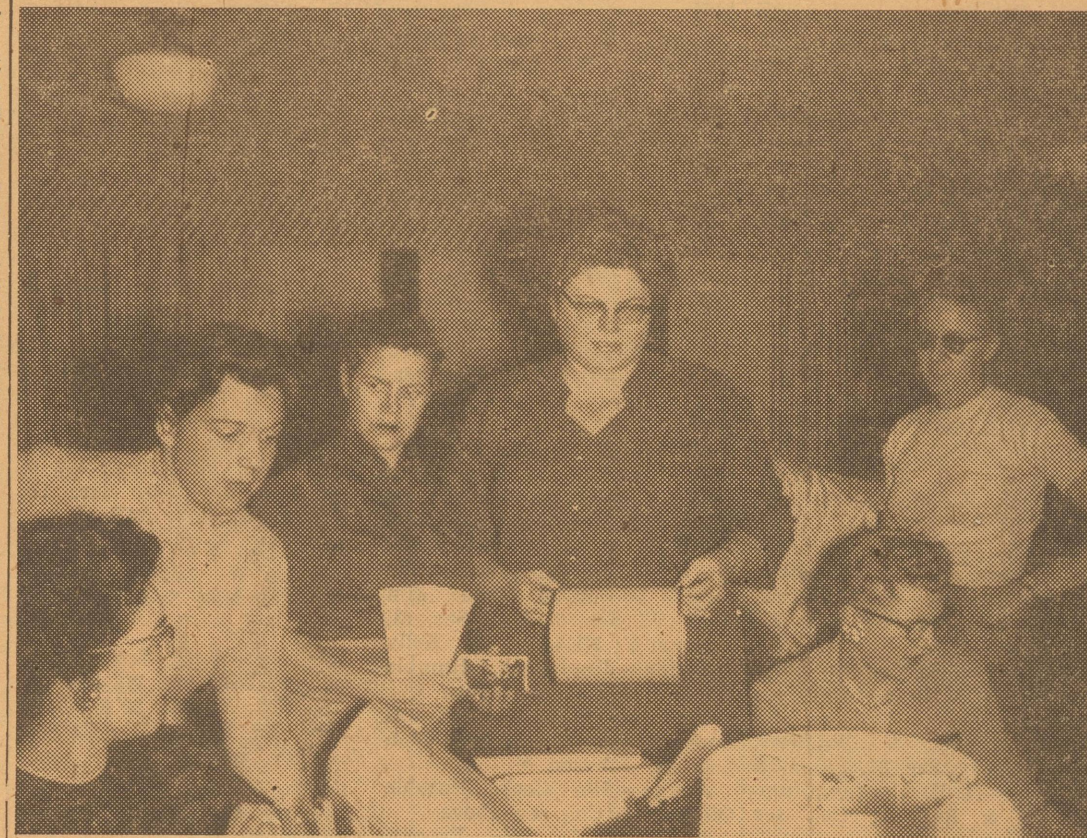

Ideal conditions can be noted when the soil will ball in the hand, but no free water appears on the soil. A wet outline is left in the palm of the hand.

Other conditions including dry, low, fair, excellent, and too wet can be determined, but their measurement is determined in different degrees by soil types.

A chart outlining these can be obtained from the county agent's office.

It's always dangerous to operate a machine that knows more than the operator.

Nature is grand so long as men and women leave her alone.

LET'S MAKE OUR OWN. Jimmie Lou Wainscott, center, demonstrates lamp shade making to home demonstration club women. Others in the picture are Lavon Renner, Mary Roberts, Betty Rector, Jane Stacy, and Nat Martensen.

Club Members Learn Lamp Shade Making

In an all day workshop at the Friona American Legion Hall recently, representatives from each home demonstration club in the county made a lamp shade under the direction of Miss Jimmie Lou Wainscott, county home demonstration agent.

Each representative chose her own design and will give a demonstration to her club at a meeting in the near future. Clubs represented were Bovina, Oklahoma Lane, Midway, Hub, Hi-Point, Northside, Friona, Black, Lakeview, and Rhea.

Appliance Danger Signals

Save yourself personal injuries, fires and damage by learning to recognize signals household appliances give when they're not performing as they should. Extension home management specialists point out some warning signals:

1. Dimming of house lights or slowing of heating appliances when motors start may mean that the circuits are overloaded. This could cause a fire.
2. When a fuse blows the circuit may be overloaded or there may be a short in the appliance. Chances are too many appliances are on the circuit at one time. Be sure the fuse is the right one for size of wiring. If the fuse will let more power through than the wiring can safely carry, it is not a safety device. Overheated wires, damaged motors and fires can result if the wrong fuse is used.
3. "On-off" blinking periods usually mean there's a loose connection somewhere in the appliance. May not be serious, but it should be repaired before a more serious problem develops.
4. "Tingle" or slight shock when handling an appliance or switch is a sign that trouble's brewing. Inspect for loose wires or damaged insulation.
5. Crumbling of rubber insulation on lamp or appliance cords can eventually expose electric wires. This can cause a short-circuit, or make metal lamp bases a serious shock hazard. Replace worn cords with new ones.

Keep these danger signals in mind and act when they occur.

Seniors Lead Games At Junior 4-H Party

Recreation for the junior 4-H members who attended a county-wide party at the Hub Community Center Saturday night was directed by senior 4-H members.

Approximately 30 juniors and 30 adults were present for the party which also featured "42" for the adults. Refreshments of sandwiches, cookies, cold drinks and coffee were served.

Directing games were Cooper Young, Richard Chitwood, Judy Billingsley, Pat Chitwood, and Jimmy Terrell.

Good advice: Losers should never bet.

Most golfers talk a better game than they play.

MAGNESIUM

MIXED DRY FERTILIZER IS AVAILABLE TO FARMERS!

Magnesium is something new in the field of fertilizers. Its place is to make the Potash that is in the soil available to plants, especially cotton. We have this fertilizer in regular N-K-P-Mg analysis for your fertilizing problems. See us for further details.

THURSDAY, MARCH 20—Tri-County Elevator, 8:30 a.m.-5 p.m.

LAZBUDDIE
THURSDAY, MARCH 27—8:30 a.m.-5 p.m.

Please bring your title and last year's receipt. Only tags will be sold. Title cases must come to the courthouse office in Farwell.

LEE THOMPSON

Assessor-Collector
Parmer County

Attention, Parmer County Farmers

If you are considering the planting of sesame this year, you will want to attend a very important meeting

Tuesday, March 18

At the American Legion Hall

In Friona

This meeting, which will begin at 7:30, will be to discuss the 1958 sesame seed program. A documentary film on production, harvesting and marketing will be shown. Robert L. Parker of the Texas Sesame Growers Association at Paris will be present. Refreshments will be served.

High Plains farmers have found that sesame offers a real opportunity for increasing net profits on the farm. Come to this meeting and learn of the possibilities of this crop on your farm.
