

mack's
tracks
—by Dave

We used to listen sympathetically to those persons who told of getting locked out of their house, car, office and various other places. But—this last week we topped them all—we got locked out of the United States.

Now just how this was accomplished is simple, in fact it didn't require any skill on our part at all.

It came about while we were attending a convention of the West Texas Press Association at Alpine last Friday and Saturday.

Dolph Moten, editor of the State Line Tribune at Farwell and yours truly were roommates at the convention and Friday night we were riding around enjoying the beautiful scenery about Alpine. There was a bright moon and lots of country around and we decided to go down and explore Ojinaga. This is a town of around 10,000 just across the border from Presidio.

We arrived at the border about 11 p. m. and drove across.

Ojinaga didn't impress us too much, although one could tell immediately that they were used to the turista traffic which you find in other border towns like Laredo and Juarez.

After wandering around and getting stared at we decided to return to Alpine.

Scarcely glancing at our watches we noticed it was just a few minutes after midnight and were figuring on getting back to Alpine in plenty of time to get in some much needed sack time.

We drove up to the border at 12:10 p. m.

The man on duty raised his hand and we thought he had waved us on so shifted into second gear and began to go on toward the bridge.

The Mexican official hollered at us to stop, and believe you me, we did.

Backing up to see what was the matter, we wondered just what "n heck" we had done this time.

Leaning in the car window the official informed us casually that he was sorry but the "Breege ees locked."

It didn't get through to us at first. "The what is which?" we cried.

"The breege ees locked up," he said again, shaking his head and grinning.

"Well, unlock it and let us get back into the United States," we said.

Shaking his head and swinging his arms like an umpire calling an out, we were informed "Ze breege ees locked."

This was about all we could get out of this helpful gent other than to inform us that this was the only way across until 8 the next morning.

By this time we were getting worried.

Here we were, 450 miles away from home, 100 miles from Alpine in a strange town and locked out of the U. S.

We remembered seeing a car of oil men downtown so we thought we'd find them and see what could be done about getting across that dad-blamed bridge.

We did, and once again were informed that we might as well make ourselves at home for "Liddy, it's no soap after 12 . . . they won't let you across again until morning."

With this helpful bit of information we drove back to the bridge, asking ourselves would it be worth it to just speed past the guard and ram through the gate and try to beat it out of there.

After looking the guard over a little closer, particularly his "peestols" which he unholstered this time, we figured that maybe the Ford we were riding in would make a pretty good place to sleep after all.

The next morning we woke up to find out why Presidio is always right up at the top in the temperature reports. Hot—what!

We still had a while to wait until finally at 8:05 were allowed to proceed toward the Promised Land.

Meanwhile, back in Alpine, the boss, Sonny Graham, and our other two companions on

(Continued on last page.)

THINK SHE'LL MAKE IT--Jane Rushing, 6-year-old daughter of Mr. and Mrs. Eric Rushing, stands atop a monstrous pile of learning. The books piled around her represent the 130-odd volumes of required material a student entering school must master before graduation 12 years later. We wish you luck, Jane.

Hub Downs McCaslin In First Playoff Game

Undefeated Hub had the axe put to them Tuesday night as McCaslin's Lumbermen made them go all out to come through with a 7 to 3 victory in the first game of the Intermediate League Championship playoffs.

During the first four innings of play, the Lumbermen put up a superb show and led by a score of 3 to 2

going into the fifth.

The Hubsters put their shoulders to the grindstone and blasted in three runs in the fifth and two more in the sixth and held the Lumbermen scoreless during the final innings to hold their undefeated record for the season.

Several beautiful plays were racked up during the game, among which was as nice a

peg as seen this season by McCaslin third baseman Dennis Howell who picked up a line drive and while still on his knees shot the ball to Ronnie Brookfield at first for the out.

Hubster Gary Jackson got into the limelight when he snagged a drive at second, tagged a runner between first and second and then relayed the pill to first baseman Clinton Long for a second out.

Gary Lou Renner was the winning pitcher. He allowed five hits and walked three.

Bernie Deaton was charged with the loss for the Lumbermen allowing six hits and walking six.

The second, and perhaps final, game in the two-out-of-three playoff will be Friday night at 7:30.

McCASLIN AND HUB GO INTO FINALS

McCaslin's able Lumbermen downed Black in a semifinal game in the Intermediate League Thursday night by a score of 12 to 4 to gain the championship playoffs which began Tuesday night.

Beginning with a toe-to-toe scrap, the Lumbermen began pulling away in the third in-

(Continued on last page.)

STAR HAS NEW DELIVERY BOY--Chuck McKinney has been employed as carrier boy for the Friona Star. He will be a sixth grade student this fall. Anyone who wishes to have the Star delivered each week is invited to call the office or Chuck at his home. His parents are the M. B. McKinneys.

SLEEPY FAIRCHILD--

Local Boy To Play In Annual Grid Classic

Weldon "Sleepy" Fairchild, a 180 pound fullback from the 1957 district champion Chief team, will represent Friona in the first annual Panhandle Grid Classic to be played in Amarillo August 23.

The game will be at Price College Field, in northeast Amarillo. The field will accommodate 5,000 fans.

Opposing teams, the "Sodbusters" and "City Slickers" will provide the kickoff for the first football game in this area prior to the fall season.

Tickets will be \$1.50 each

for the contest and will be on sale at the gate.

Fairchild will play for the Sodbusters in the contest and this team is composed of players from the smaller high schools in the Panhandle area.

Coached by Frank Hodnik and Jack Barry, the team members are from classes AA, A and B teams from the surrounding area.

Athletes from classes AAAA and AAA schools will compose the City Slicker team. They will be tutored by Bill Cross, former West Texas State star and professional player.

(Editor's note: With football becoming more and more a conversation piece and with fall looming close on the calendar, The Star will bring our readers a rundown on "things for this fall" in next week's issue.)

Coach Collie Huffman and his staff are slated to return to town from the annual coaching school sometime this week.

Mesdames Nora Y. and Lucy Welch visited their sister, Mrs. Della Y. by, at Lockney, Sunday.

Congregational Church To Have Birthday

Union Church History Tells Story of Friona

Members and friends of the Union Congregational Church of Friona are invited to attend the 50th anniversary celebration to be at the church Sunday.

Dr. Ralph L. Woodward, president of Central College of Fayette, Mo., will bring the sermon at the morning service at the church.

The celebration will begin with the 11 a. m. service in the church.

After the service, a basket dinner will be served by the Women's Fellowship at the church.

Highlighting the afternoon's program, Clyde Goodwine will moderate a "Down Memory Lane" program designed to bring back and recall the days gone by in early Friona.

Dr. Woodward will be remembered by many Frionans as the district superintendent of Congregational Churches for the Central South Conference several years ago.

In addition to serving as president of Central College, Dr. Woodward is a nationally known clergyman, educator and speaker.

He was graduated from Central College in 1931 with an A. B. degree and holds an M. A. degree from Piedmont College, Ga., and a D. D. degree from Yale University.

Dr. Woodward was born in Kansas City, Kans., and began preaching in 1924.

He served congregations in Missouri, Kansas and Connecticut and later was assistant dean of the Yale University School of Divinity.

DR. RALPH WOODWARD

(Editor's note: The following is taken from the records of the Union Congregational Church of Friona.)

When the spirit of progress led ambitious people from the more crowded sections of the Eastern, Northern and Southern United States to begin building homes in the newly founded town of Friona after the turn of the century, they recognized that a place of worship was a part of their ambitions.

In less than one year after the community was given a name, "Pursuant to a call, the people of Friona met to consider the organization of a church."

This initial meeting was June 14, 1908. However, a charter wasn't issued until August 17, 1908.

Charter members of the new church included Mr. and Mrs. R. V. Williams, Mr. and Mrs. J. W. Karr, Mr. and Mrs. D. W. McMillen, Mr. and Mrs. C. S. Furgus, William McLelandish, C. B. Olsen, Mrs. Carrie Olsen, and Mr. and Mrs. Seth Roush. In the early days of the

Ten Cents

Volume 34, Number 45

THE FRIONA STAR

Section I

Friona, Texas

Fourteen Pages

To The Readers of The Star

This issue of The Friona Star is history-making for this newspaper--if not for the entire small newspaper industry. The Star this week is being produced entirely by photo-lithographic means, which is a radical departure from time-worn methods in use for a century or more.

The term "offset" is commonly used to describe this process. We will attempt to explain to our readers and the general public how the paper is produced in subsequent issues, and also would like to show this to you at the open house of our new building about a month from now.

In the meantime, we are hoping that you will understand that because we are attempting to initiate such a new and different system of printing, there is sure to be a certain amount of work that will be more or less experimental in nature. If flaws in the text and reproduction occur more frequently than is usually the case, we hope that you will overlook these minor deficiencies as temporary in nature, and be sympathetic with our efforts until we have made our work systematic.

We feel confident that within the space of a few short weeks the quality of your hometown newspaper will not only measure up to what you ordinarily would expect, but that both content and appearance will exceed what heretofore has been possible with the conventional slow, laborious, and expensive methods of the past.

THE STAR STAFF

Found--One Lost Boy

There was a great deal of confusion in the neighborhood of the Ranza Boggess farm, southeast of town Sunday afternoon. At the time a group of neighbors of the Pendergrast family had gathered together to help search a corn field for Dennis, two and one-half year old son of the Pendergrasts, Mr. and Mrs. Otho Whitefield were surprised to run onto Dennis about four miles away.

Mr. and Mrs. Pendergrast and their children, ranging in ages from one and one-

half years to five, went to pick peas and corn early in the afternoon. After finishing with the peas, the parents left the children in a pickup while they gathered corn.

After finishing with the corn, they returned to the pickup and found that Dennis was missing. Pendergrast went to the Boggess home and asked for help in searching for the child after he and his wife had combed the immediate area without finding him.

Mr. and Mrs. Otho Whitefield were driving east about four miles from the place where Dennis had disappeared when they came up on him walking barefoot down the road. Mrs. Whitefield got out and picked the little fellow up and talked to him. He said, "My daddy went that way."

Whitefield then called to report he and his wife had found Dennis unaware that a search party was being organized to hunt for him. After being given a drink of water, Dennis went to sleep before the Whitefields reached his home.

Seigler Resigns

T. E. Seigler, president of the board of directors of the Deaf Smith County Electric Cooperative, tendered his resignation at a meeting of the board Wednesday, August 6.

Seigler's resignation was accepted by the board with regret.

Seigler was elected to serve on the board in 1947 and served his two years as secretary of the board and in 1949 was elected chairman and has been reelected every year since.

During Seigler's term of office the cooperative has tripled in size, having grown from 1000 to 3000 members.

Seigler, formerly administrator of the Deaf Smith County Hospital, has accepted the post of administrator of two hospitals in Matagorda County and will move to Bay City.

No successor has been named by the board which is composed of Sloan H. Osborn, Friona; Tom Draper, Hereford; Joe Birkenfield, Nazareth; Dewey L. Wright, Dimmitt; A. W. Gober, Oklahoma Lane; and A. T. Frye, Dawn, Friona.

Son of Frionans Completes Army Basic Training

Army Pvt. Boyd W. Mears of Lubbock recently completed eight weeks of basic combat training under the Reserve Forces Act program at Fort Chaffee, Ark.

Mears, whose wife, Brookie, lives at 1902 Tenth St., was employed by the Commercial Credit Corporation before going on active duty.

A 1954 graduate of Littlefield High School, the 22-year old soldier attended Texas Technological College. His parents, Mr. and Mrs. Claude M. Mears, live on Route 2, Friona.

FINAL RITES FOR GOETZ CHILDREN

Joint funeral services for Harry and Angie Goetz of the Rhea community were held at the Candra Memorial Chapel in Taylor at 10 a.m. Thursday last week. Rev. Henry Stroebel, pastor of the Rhea Lutheran Church, was the officiating minister.

Harry, 13, and Angie, 8, drowned Monday afternoon in a surface tank on the John Wenzel farm located eight miles east of Thorndale. Their parents, Mr. and Mrs. Chris Goetz, and brother, Gary, had accompanied them to Central Texas for a visit with relatives and friends.

Cousins of the two children served as pall-bearers. Interment was in the Taylor cemetery under the direction of Candra Funeral Home.

Immediate survivors besides the parents and brother, include a grandmother, Mrs. Al. Krueger of Austin.

Mr. and Mrs. Goetz plan to return home by Friday of this week.

BAXTERS HAVE WEEKEND GUESTS

Weekend guests in the homes of Mr. and Mrs. Jim Baxter and Patricia, Mr. and Mrs. Oscar Baxter and children and other relatives and friends were Mr. and Mrs. Bill Daniels of Amarillo; Also Mr. and Mrs. Leo Russell of Elk City, Okla. Mrs. Russell is a sister of Jim and Oscar Baxter, and Mrs. Daniels is their niece.

Mr. and Mrs. C. W. Dixon visited in the Ray Landrum home at Gruver early this week. Mrs. Landrum is the daughter of the couple.

Barbara Edens of Perryton, who is a former Friona resident, is a guest in the home of Mrs. Tommie Parker and daughters, this week.

Sunday night guests in the home of Mr. and Mrs. Fred Helmke and Karen were Mr. and Mrs. Rudolph Renner of Shattuck, Okla., and Paul Renner of Amarillo.

Never ask pardon before you are accused.

NOTICE OF PUBLIC HEARING

Notice is hereby given to all property owners within the city limits of the City of Friona, Texas, and to all other interested persons as provided by law and Section 24 of Ordinance No. 118 of the City of Friona, Texas, that the City Council of the City of Friona, Texas, will hold a public hearing on the 1st day of September, 1958, at 8 p. m. in the City Hall in Friona, Texas, to consider amending zoning Ordinance No. 118 presented to the City Council by and approved by the Planning and Zoning Commission of the City of Friona, Texas, and said proposed amendment proposes that all Lots 4 to 9 inclusive in Block 1; lots 4 to 9 inclusive in Block 2; lots 4 to 9 inclusive in Block 3; all of Blocks 24, 25, 26, 27, 28, 30, 31,

32, 33, and 52; lots 1 to 12 inclusive in Block 51, lots 1 to 12 inclusive in Block 23, lots 1 to 12 inclusive in Block 34; all in Original Town Addition to the City of Friona, Parmer County, Texas, to be changed from a "C" zone to a "B" zone, and that All of Block 53, and lots 8 to 12 inclusive in Block 29, Original Town Addition to the City of Friona, Parmer County, Texas be changed from an "F" zone to a "B" zone and that this notice is particularly to all owners of the property described above and to all owners of property within 200 feet of said property in all directions and that all property owners in the City of Friona and all interested persons will be given an opportunity to be heard.

JIM DIXON ATTENDS AF SCHOOL IN FLORIDA

Lt. James W. Dixon, son of Mr. and Mrs. Clarence W. Dixon of Friona is presently attending the 8-week radar course of the USAF Aircraft Controller School at Tyndall Air Force Base in Florida. This 22-year-old officer is being taught to direct, through

the use of ground radar and radio, our jet fighter aircraft within firing range of enemy aircraft. His primary duty during peacetime is to control rocket totting jets in practice intercepts-simulating conditions of an actual air attack. He is also learning to use his air force equipment to assist aircraft that become lost and to navigate aircraft around storms.

Upon completion of his course in October, Dixon will be assigned to an air defense unit somewhere in the United States or overseas to help fortify the radar network guarding this country and the free world.

Heavy-duty 100 Series tandem (foreground) and Fleetside pickup.

You get the right power... right down the line!

From the mountain-movin' Workmaster V8 in tandems down to the quick-stepping Thriftmaster 6 in pickups, Chevrolet trucks offer precisely the kind of power you need. Here are seven truck engines designed and built to work longer for less on your job.

HEAVY-DUTY SUPER TASKMASTER V8—This 175-h.p. V8 is tough-built for tough jobs. Like the Workmaster, it has 4-barrel carburetor, dual exhaust.

HEAVY-DUTY TASKMASTER V8—Engineered to put muscle in medium-duty jobs, this 283-cubic-inch V8 packs 160 h.p.

WORKMASTER V8—Built for top-tonnage hauls, this 348-cubic-inch V8 packs 230 h.p., has new "Wedge-Head" design.

JOBMASTER 6—Built for dollar-saving durability, this 261-cubic-inch 150-h.p. 6 hauls hefty loads with ease.

TRADMMASTER V8—This 160-h.p. V8 has stay-on-the-job stamina for tight schedules. 8.5 to 1 compression ratio.

THRIFTMASTER 6—Tops for cutting cost corners, this 235-cubic-inch 6 has 145 h.p., 8.25 to 1 compression ratio.

THRIFTMASTER 6 SPECIAL—Ruggedly built for Forward Control duty, it's got more "go" for stop-and-go hauling.

Peggy Hanson Weds Paul Elton

In a candlelight ceremony at the Trinity Methodist Church in Brady at 7:30 Saturday evening, July 26, Miss Ranghild Hanson, who is better known to Friona residents as Peggy, became the bride of Paul Norman Elton of Clifton.

The single ring ceremony was read before a large arrangement of pink gladioli and white chrysanthemums by Rev. Roy Wold, pastor of the church.

Mrs. Elton, who taught one section of the third grade here for the past eight years, is the daughter of the late Mr. and Mrs. John Hanson of Brady, and the groom's parents are Mrs. O. N. Elton and the late Mr. Elton of Audubon, Minn.

Mrs. Paul Hanson of Brady, a sister-in-law of the bride,

presented appropriate music at the organ. She also accompanied Miss Roberta Hanson of Abilene, niece of the bride, as she sang "O Promise Me," and "I Love You Truly."

Given in marriage by her brother, Paul Hanson of Brady, the bride wore a white dacron dress with white accessories and a corsage of pink rosebuds. She carried a white Bible.

Mrs. J. D. Dobbins of Lawn, sister of the bride, was the matron of honor. She wore a blue dacron dress with white accessories. Johnnie Dobbins, niece of the bride, was the flower girl. Her dress was blue and white polished cotton. Harry Hanson of Brady, brother of the bride, served as best man.

Immediately following the ceremony a reception was in the home of Mr. and Mrs. Paul Hanson. Wedding and reception guests were members of the immediate family.

The refreshment table was covered with a white lace cloth and centered with an arrangement of pink gladioli and white chrysanthemums. Refreshments of punch, mints, cookies and cake were served. The bride's cake was white with pink icing and decorated with white rosebuds.

Mr. and Mrs. Elton left immediately after the reception for a wedding trip. Mrs. Elton wore a beige dress with brown accessories. The couple is now at home at 510 South Avenue G in Clifton where he owns and operates a locker plant.

A graduate of Brady High School and Mary Hardin-Baylor College in Belton, the bride received her master of arts degree from North Texas State College in Denton.

Elton is a graduate of Makoti High School in North Dakota and Jamestown College in the same state. He served in the United States Air Force for three and one half years

during World War II and made his home in Brady from 1942 until May 1 of this year when he purchased the Clifton Locker Plant.

During the time Mrs. Elton made her home here, she was active in PTA work, was an active member of the Friona Methodist Church, and conducted classes for children who needed instruction outside the classroom.

Renner Family Has Reunion

Sixty-nine persons attended the Renner family reunion at the Hub community center Sunday. A basket lunch was served at noon. Guests of honor were Mrs. Jael Wilhelm, Bianka, Sonya, and Dagmar, who have recently moved to Friona from Germany.

During the afternoon Paul Helmke, Jr., George Green, Don Green, and Gwendolyn Green presented musical numbers. Group pictures were made.

Those present were Mr. and Mrs. John Appel, Harlan Lee and Wayland Wayne of Higgins, Mr. and Mrs. Paul Helmke Jr. of Hereford, Mr. and Mrs. Johnnie Brace, Roxanne and Debbie, and Paul Renner of Amarillo, Mr. and Mrs. W.C. Dettman of Connell, Wash.;

Ronnie and Fabien Renner of Perryton, L. L. Appel, Mr. and Mrs. Ted Brace, Mr. and Mrs. Rudolph Renner, Mr. and Mrs. Rudolph Treibler, Elizabeth Ann and Randy, and Gotlieb Renner, all of Shattuck, Okla., Mr. and Mrs. Cotton Renner and son, Robin, of Pensacola, Fla.;

Also the following from Friona: Mr. and Mrs. Rudolph Renner Sr., Mr. and Mrs. Billy Dean Baxter, Johnnie, Debbie and Blayne, Mr. and Mrs. Doyce Barnett and Cindy, Mr. and Mrs. Lee Renner and Dickie Lee, Mr. and Mrs. Rudolph Renner Jr., Phyllis, Lana, Conrad and Mickala;

Mr. and Mrs. John W. Renner, Gary Lou, Ted and Vickie, Mr. and Mrs. John G. Renner, Clyde and Jerry, Mr. and Mrs. Fred Helmke and Karen, Mr. and Mrs. George Green, Gwendolyn and Rita, Mr. and Mrs. Don Green and son and the guests of honor.

Methodists Plan For Week of Youth Activities

Sunday afternoon at 6 a week-long program observing Youth Activity Week will get under way at the Methodist Church in Friona with a supper for the young people in the church basement.

Following the meal the youngsters will be in charge of the evening worship service at 7 in the church sanctuary.

A watermelon feast in the Blaylocks' back yard will complete the first day's program during the YAW.

Having an over-all theme of "Christ Above All," members of the Methodist Youth Fellowship are sponsoring the annual observance.

Monday the theme will be "Christian Witness," with personal visitations slated during the afternoon, supper at 7 in the church, recreation at 7:45 followed by a special feature at 8:30 and worship at 9.

Tuesday night's theme will be "Christian Citizenship" and will be built around a program of "Christmas in the Summertime."

Gifts will be brought to the church and sent to the Wesley Foundation in Amarillo. Wednesday is family night with "Christian Outlook," the theme.

The night's program will have an "Around the World" flair with the youngster's playing games and eating food from several foreign countries.

Thursday night the activities move out of doors for the evening program with a

wiener roast and talent show highlighting the activities for the theme of "Christian Fellowship."

Friday night "Christian Faith" is the theme with a play, "Big Decision" to be presented by youth of the church.

Each night's program will begin at 7 with a meal at the church.

Open to youth of any denomination, the YAW Council composed of Patsy Anthony, youth advisor; Adelle Smith, worship committee; Charlotte Bock, special features; Dale Smith, recreation; Janiece Bock, publicity; and Adabeth Akens, food; has guaranteed an evening of wholesome entertainment for the youth of Friona.

PROCTERS HOST JOINT PARTY

Mr. and Mrs. James Procter were hosts to a party in their home Tuesday evening honoring Mrs. Kenneth Thompson and sons, who are moving to Houston, and Mrs. Bill Wooley, who was observing a birthday.

Others present for supper and the party which followed were Mr. and Mrs. Leonard Nettles, Charlotte and Danny; and Mr. and Mrs. John Hand, Gary and Rex. Gifts were presented to the guests of honor. Kenneth Thompson was unable to attend because of illness.

The greatest wealth is contentment with a little.—Ray

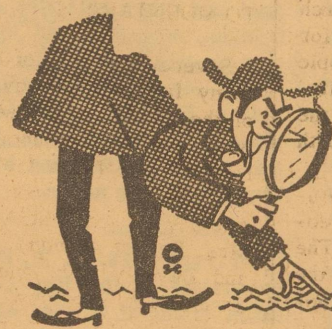

ORGANIZATION OF NEW LODGE PLANNED

Mrs. Henrietta Armstrong of Earth, who is district deputy president of the Rainbow Assembly of Texas, was a visitor in Friona Monday. She was accompanied by Mrs. Jim McNeil, also of Earth.

Mrs. Armstrong is working in the interest of organizing a Rebekah Lodge here. She asks anyone who is interested in joining the lodge as a charter member or anyone who has ever been a member of the Oddfellow Lodge to please contact Mrs. Charley Bainum here.

Mrs. Henrietta Armstrong of Earth visited in the home of Mr. and Mrs. M. L. Howard Monday.

Interdenominational Church Women Plan Year's Program

At a recent meeting of the Interdenominational Church Women, plans were made for the 1958-59 year. The topic of study will be "World Missions." This group meets the fifth Friday of each month during the year.

Meeting dates will be August 29, November 28, February 27, and May 29. The host church will provide the music in this order: Methodist, Baptist, Assembly of God, and Congregational. The devotion, prayer, and program at each meeting will be presented by members of the different churches here.

For further information concerning any of these meetings, anyone who is interested may call Mrs. C. W. Dixon, Mrs. Otho Whitefield, or Mrs. H. C. Kendrick.

Mr. and Mrs. Bert Shackelford returned home Friday after spending several days vacationing in Ruidoso and other points of interest in New Mexico.

ANTHONY'S GO TO MOUNTAINS

Several members of the Anthony family took advantage of the rainfall last week and went to the mountains of New Mexico for a few days.

Those who went were A. W. Anthony Sr. and Pat, Mr. and Mrs. Ernest Anthony, Jimmy and Beverly, Mr. and Mrs. Estis Bass, Charles, Betty, Troy and Sue, Mrs. Howard Biggers, Gary and Richard, and A. W. Anthony Jr. and Larry.

GIRL SCOUTS RETURN THURSDAY

A group of Girl Scouts returned Thursday afternoon of last week after spending several days in the mountains of northern New Mexico.

Those making the trip were Edith Johnson, Helen Potts, Linda Kay Johnson, Mary Knight, Cordelia Parr, and Willene Baxter.

COMMUNITY WIDE PARTY PLANNED

A group of residents of the neighborhood into which the Wilhelm family recently moved from Germany has planned a community-wide get-acquainted party and shower for Mrs. Jael Wilhelm, Bianka, Sonya, and Dagmar.

The party will be in the home of Mr. and Mrs. Howard Mayfield, Monday, August 18, from 3 to 5 p.m. This family was forced to sell all their household belongings before sailing to America to make their home.

Everyone in the entire community is cordially invited to attend the party to get acquainted with the new residents, by the Mayfields and their neighbors who have helped plan the party.

SHEEHAN'S TO CHICAGO

District Attorney and Mrs. Bill Sheehan and children left late last week for Chicago. Jack, youngest member of the Sheehan family, will visit in the home of his grandmother at Childress. Mary Margaret, Kathleen and John accompanied their parents.

Prise a fool and you may make his useful.—Danish

VISITORS DEPART

Mrs. Neal Cearley and children, Donnie, Darlene, and Deborah returned to their home in Amarillo early last week after spending three weeks visiting in the home of Mr. and Mrs. T. A. Sherley and Tommy. Mrs. Cearley is the former Imogene Sherley.

Guests In Anthony Home

Guests in the home of Mr. and Mrs. A. W. Anthony Sr. this week are Mrs. Anthony's sisters, Mrs. George Duncan of Vinton, La., and Mrs. Jack Sanders of Bakersfield, Calif. Mrs. Anthony and Mrs. Sanders went to their old family home at Sulphur Springs, Tex., and were joined there by Mrs. Duncan.

Mrs. Anthony and Mrs. Duncan had not been to Sulphur Springs in about 50 years and Mrs. Sanders had not been there for more than 20 years. The trio visited cousins and friends there.

Mrs. Sanders and Mrs. Duncan have also been visiting in the homes of Mr. and Mrs. Ralph McBroom and Kay and other Friona relatives. Mrs. McBroom is a daughter of Mrs. Sanders.

J. K. ANTHONY'S FETE VISITORS

Mesdames George Duncan and Jack Sanders were honored with an outdoor supper in the backyard of the home of Mr. and Mrs. J. K. Anthony Monday evening. Roasted corn and wieners were featured on the menu.

Those present besides the hosts and guests of honor were Mr. and Mrs. A. W. Anthony Sr. and Pat, Mr. and Mrs. A. W. Anthony Jr., Larry and Dennis, Mr. and Mrs. Ernest Anthony, Jimmy and Beverly, and Mr. and Mrs. Ralph McBroom and Kay.

Also Mr. and Mrs. Howard Biggers, Richard and Gary, and Mr. and Mrs. Estis Bass, Charles, Betty, Troy and Sue.

FLEMINGS ENTERTAIN WITH OUTDOOR DUPPER

Mayor and Mrs. Raymond Fleming were hosts at an outdoor party in their back yard Thursday evening. Hamburgers with all the extras and homemade ice cream were served.

Those present besides the Flemings and their daughter, LaVon, were the V. R. Wilcoxes, Gerald Taylors, Grady Nelsons, Ross Millers, Sterling Grahams, Eugene Bandys, Robert Zetzsches, M.B. McKinneys and Charles Sutterfields and children.

FROM IOWA

Mr. and Mrs. Arthur Frahm and children, Nancy and Mike, of Des Moines, Iowa, spent several days recently visiting in the home of Mrs. Charles Schlenker and Mrs. Mabelle Hartwell, and Mr. and Mrs. Cordie Potts and other relatives. Mrs. Frahm is Mrs. Schlenker's granddaughter.

New Auxiliary Officers Elected

The principal item of business on the agenda at the Friday afternoon meeting of the Friona County Community Hospital Auxiliary at the educational building at the First Baptist Church was the election of officers. The newly elected officers, Fern Awtreay, president; Lilah Gaye Gee, vice-president; and June Spring, secretary-treasurer; will take office in September.

The next meeting, which will be Friday, September 12, will be in the home of Deke Kendrick. The president, Katie Osborn, wishes to remind all members that dues for the coming year will be due in September. She would also like to urge all members to be present for the next meeting.

Though through the ages man has progressed to the point where he walks upright, his eyes still swing from limb to limb.

ANTHONY'S FETE MYF MEETING

Mr. and Mrs. Jean K. Anthony were hosts to an outdoor wiener and corn roast in their home north of town Sunday evening for members of the MYF of the Friona Methodist Church. After supper there was a session of group singing.

Then the group took a vesper walk to a field of corn for their worship service. The program was presented from the field. A spotlight supplemented the light of the moon for the program.

Those present besides the host couple were Rev. and Mrs. Hugh Blaylock, Janiece, Charlotte and Judy Bock, Jerry Jacobs, J. B. Douglas,

Dale Smith, Joe Ayers, Celia Weatherly, Larry Anthony, Jimmy Anthony, Sally Hough, and Jolynda Stokes;

Also Adele Smith, Jimette McLean, Gail Knight, Nelda Douglas, Mike Ellis, Virginia Patton, Floyd Reeve, Patsy Anthony, Mr. and Mrs. Estis Bass, Charles, Betty, Sue and Troy, and Darrell Anthony.

TO ARKANSAS

Mr. and Mrs. D. C. Herring, Carolyn, Glenn and Tim, Mr. and Mrs. Cordie Potts, Larry, Marilyn, and Jay, and Geneva Floyd left Wednesday for a vacation in the Ozark Mountains in Arkansas. The group expects to be gone about a week.

Sixth Street Church of Christ

Friona, Texas

"WHO WILL LIVE IN HEAVEN?"

"Blessed are they that wash their robes, that they might have the right to come to the tree of life, and may enter in by the gates into the city." (Revelation 22:14) "Without," John continues to say, "are the dogs, and the sorcerers, and the fornicators, and the murderers, and the idolaters, and every one that loveth and maketh a lie." Thus it is clearly seen that there will be two classes of people in "that day." Some are to be within and some without the heavenly city.

"But," it may be argued, "Did Christ not die for the sins of all men?" Yes, he did. "And he is the propitiation for our sins; and not for ours only, but also for the whole world." (1 John 2:2) "Well, then, if Christ died for the sins of the whole world all the world will be saved," some religionist might conclude. If this were all of the teaching of the Bible on this important subject the conclusion might be a good one. But it is not, for the Bible says much more about the salvation of man.

It teaches that Christ invites all men to come to him that they might enjoy that which he has to give (Matthew 11:28-30). BUT, it also teaches, in the words of Jesus, that men should "Enter in by the narrow gate; for wide is the gate, and broad is the way, that leadeth to destruction, and many are they that enter in thereby. For narrow is the gate, and straitened the way, that leadeth unto life, and few are they that find it." (Matthew 7:13-14)

The Bible then, plainly teaches that only those who seek for that narrow, straitened way and who give diligence to walk therein will inhabit heaven. Would you enter heaven? Search the scripture to see how to "wash your robes" and to walk in that way that leads to eternal life.

Ware's

FRIONA

Union Church-

church, laymen carried on the work with an occasional visit by the district superintendent. In the early days this was Rev. C. S. Murphy. In addition to the services of Rev. Murphy, pastors from Amarillo, Farwell and Springlake served in the pulpit. On May 23, 1909, the church was officially recognized by the General Council and appropriate dedication services were conducted. August 1, 1909 was a date early church members will long remember. It was on this day the first full time

pastor, Rev. W. A. Hensel assumed his duties. Rev. Hensel remained in Friona until January 8, 1912. In 1910 church activities began to grow with the organization of several societies and a board of deacons. The Board of Deacons in 1910 was composed of William Goodwine, Jefferson, and W. S. Hensel. Trustees included Orbaugh, Karr, and McMillen. Mrs. Pearl Kinsley was elected clerk, a position which she filled for 37 years. A home missionary society and ladies aid society organized in 1910. These later combined and formed the Women's

Fellowship which we know today. A youth group, Christian Endeavor, was organized this same year and is still active under the name of Pilgrim Fellowship. Mrs. Kell, Mrs. Hensel and Mrs. Kinsley organized a Cradle Roll in 1910 and the names of many of the leading citizens of today can be found inscribed on this roll. In February 1911, the church roll boasted 45 members. Rev. Hensel resigned in January 1911, and Rev. William H. Hurlbutt was called as pastor. He remained until February of 1916. Other pastors who have served this community include Rev. C. M. Stevens, L. J. Grantham, Fred Willman, Richard Jones, John Peyton, John Beattie, Samuel Pearson, Kenneth Parks, Carl C. Dollar, Paxton Smith, Walter H. North, George E. Meyer, Lewis J. Knight, C. G. Nelson and Fred Dean, present pastor. Disaster struck the original church during the early morning hours of August 7, 1921. During a rainstorm the church building was hit by lightning and burned to the ground. Friona's citizenry came to the rescue and more than \$1,000 was subscribed the next day in cash to build a new church. Following the blaze, services were conducted in the school until it also burned. Work began on a new church building and the present church was dedicated on June 17, 1923. Members of the Union Congregational Church have

traditionally come from all faiths and over 15 denominations are represented on the church rolls. "All our friends are invited to join with us in celebrating our anniversary," says Rev. Dean. He added that the Board of Trustees, Deacons and Deaconesses and the entire membership of the church join in thanking the people of Friona for the privilege of serving this community for over half a century.

Hub Downs-

ning and held the Black team during the final innings to take the game. Bernie Deaton and Mike McKee made up the winning battery for the Lumbermen with Rickie Coon and Ray Braxton pitching and Danny Carmichael catching for the Tri-County boys. ****

Hub wore down a fighting Herring Implement team Friday night 13 to 8 to win a spot in the finals in the Intermediate League playoffs. Marked by hard hitting with both teams making their best effort, the hitting strength of Hub was not to be denied as they pulled away from Herring in the final stanzas to take the contest. Gary Lou Renner and Doyal Mabry composed the winning battery with Russell Scales and Robert Stewart doing the pitching and catching chores for Herring.

Max Trax-

the Alpine journey, Jeanne Graham and Laurie Cooper of Farwell, had been ringing our phone off the hook and pounding on our door trying to awaken us for the morning program. Naturally they had no success, and when we stumbled in about 10 a. m. they could hardly wait for a coffee break to find out where we had been. Somehow, they found our predicament humorous. In fact, at noon Saturday after the luncheon, Sonny really poured it on. By this time, we had left the convention to try to get back to the Plains before dark. The speaker at the luncheon from which we played hooky was none other than the Mexican Ambassador, and we told the boss that we'd had enough of Mexico to last us for quite some time and sneaked out right after we ate. What we didn't know, nor find out until later, was that Sonny, who is the retiring president of the WTPA, told the whole crowd our story and compared us to the Russians at the UN. "When they saw who the speaker was going to be, they left," Graham told the other members. Gads! Sonny told us Sunday that perhaps our venture did come to some good, however, for it seems that the folks down there have been trying to get the officials to leave the bridge open 24 hours a day just because of things like we got into. We wish them success, but you can believe this scribe, it will be a long time before we go "exploring" into Mexico again.

FATHER OF FRIONAN KILLED IN CAR WRECK

Mr. and Mrs. Alton Day and Allen Ray and Mrs. Jack London were called to Whitney, Tex., Sunday of last week following the death of Mrs. Day's father, Sam Hill. Hill, who was 75, was fatally injured in an automobile accident near Whitney. He died before he reached the hospital. Funeral services were conducted from the First Baptist Church at Whitney Tuesday afternoon and burial was in the Whitney cemetery. Survivors other than Mrs. Day are two sons, Alfred and Lonnie, both of Whitney, and another daughter, Mrs. Roy Caton of Durant, Okla.

ATTEND REUNION

Mrs. Tommie Parker and daughters, Janie and Carolyn, Mr. and Mrs. Clarence Ashcraft, and Mr. and Mrs. Johnnie Parker and son, Dan, attended a Berry family reunion at Elwood Park in Amarillo Sunday.

Mr. and Mrs. T. A. Sherley and son Tommy, spent the weekend visiting Mr. and Mrs. M. M. Sherley and other relatives and friends at Memphis. The M. M. Sherleys are former Friona residents.

News From LAZBUDDIE

By MRS. CLYDE MONK

Visiting in the Dan Cargile home on Sunday were their children, Mr. and Mrs. Preston Cargile and girls of Dimmitt, Mr. and Mrs. Don McDonald and children and Mr. and Mrs. Dwin Menefee of Farwell. The Preston Cargiles also visited her parents, the C. A. Watsons.

Mrs. J. F. Strickland and daughters, Mrs. Peggy Peel of Amarillo and Mrs. Ann Christopher from Ropes, visited last week with a son and brother in Abilene.

Mr. and Mrs. T. R. Smallwood and girls spent the weekend at Ralls with her brother-in-law and sister, Mr. and Mrs. C. M. Woodard and other relatives.

atives.

Mr. and Mrs. Doug Horsley and family vacationed several days last weekend at Tres Ritos.

Five Cheerleaders Attend School

Rosemary Agee, Carolyn Hinkson and Wanda Steinbock left by train Saturday for Dallas where they are to attend a week's cheerleaders school. On Sunday Marie Houston and Sussie Carpenter accompanied Sussie's parents, Mr. and Mrs. Howard W. Carpenter to Dallas to attend the same school. The Carpenters planned to return home Monday or Tuesday and Mrs. John Agee was making plans to go to Dallas to pick up the girls on Saturday.

Don Stevens and Harvey Kendrick and Doyle Bills of Earth are in Red River, N. M., for a few days this week.

Visiting Friday and Saturday

in the Owen Broyles home were Mr. and Mrs. Thed Dodson and family of Hobbs, and Mr. and Mrs. Oliver Smith of Okemah, Okla.

Wilson Reunion

Mr. and Mrs. A. H. Wilson, Andrew Wilson and Margaret, Carl and Geneva Robertson, and Wayne Knowlton from YL were in Amarillo Sunday for a family reunion at the home of Mr. and Mrs. David Robertson, daughter of the A. H. Wilsons. Others attending were Donald Robertson of the home; Mr. and Mrs. Leon Robertson of Amarillo; Mrs. Mary V. Knowlton, Norma, Vern and Max from Wetumka, Okla.; Mrs. Ray Melton of Oklahoma City.

Mr. and Mrs. Ernest Merriott of Dalhart, friends of the family, called in the afternoon. The afternoon was spent viewing moving pictures of the family and more pictures were taken of different groups later in the afternoon.

Donald Robertson came on Monday to visit with his grandparents, the Wilsons, and the rest of the family.

Linda Monk was among a group of young boys and girls going to Camp Blue Haven located west of Las Vegas, N. M., Sunday for a week's stay. Mr. and Mrs. Clyde Monk were among the parents making the trip up with the youngsters.

Future Bride Feted With Shower

Fellowship Hall of the Methodist Church was the setting for a miscellaneous shower last Wednesday honoring Rosemary Hicks, bride-elect of Dan Smith. Shrimp course was carried out in the decorations with the centerpiece of the serving table being of shrimp gladiol.

Kitchen gadget corsages were presented the honoree, her mother, Mrs. T. B. Hicks, and Mrs. Barney Floyd. Games were played and refreshments of sand tarts and shrimp colored lemonade were served to approximately 30 guests.

Hostesses were Mesdames D. B. Ivy, John Gammon, Joe Briggs, Don Littlefield, Frank Hunt, Max Steinbock, Luther Hall, Don McDonald, Junior Stout and Miss Glenda Hall.

Lullaby Shower Honors Mrs. Treider

Mrs. Albert Clark and Mrs. Andy Brown were co-hostesses last Tuesday afternoon at Mrs. Clark's home for a lullaby shower honoring Mrs. Ted Treider. The afternoon was spent visiting. After the gifts were opened refreshments of brownies and punch were served to Mesdames Max Steinbock, Gene Smith, Jimmie Black, Dud Winters, Linda Fuqua, Andy Fuqua, Don McDonald, Betty Lou Whitworth, Beardean Broyles and the honoree. Several who were unable to attend sent gifts.

Mr. and Mrs. Alton Morris and family left Friday for Durango, Colo., where they are vacationing this week.

Rev. and Mrs. Joe Moore of the Calvary Baptist Church in Muleshoe and Mr. and Mrs. Deter Wenner accompanied the young people of the church to the fellowship meeting conducted at the Bible Baptist Church in Slaton on Friday, August 8.

Mr. and Mrs. C. C. Matthews returned Sunday afternoon after spending a week at Sherman and Lake Texhoma. They returned Matthews' sister, Mrs. Willie Davis, to her home in Sherman after visiting here for a week. The Matthews also visited in Desert.

Mr. and Mrs. Richard Engleking were vacationing in Las Vegas, Nev., last week. En route they visited the Grand Canyon, Hoover Dam, and other spots of interest. Mr. and Mrs. Fred Wilbanks enjoyed the company of their grandchildren, Debbie and Davey, while

Richard and Marilyn were gone. Mr. and Mrs. James Hall and small son from Fort Worth spent the weekend with his parents, the Luther Halls, and other relatives.

Mr. and Mrs. Bud Coke and family from Midland were weekend visitors with her sister, the Doug Horsleys.

MRS. THORN HAS SURGERY

Mrs. Garvin Thorn underwent major surgery last Tuesday at the Northwest Texas Hospital in Amarillo. She is recovering nicely and is expected home the last of the week.

Mrs. Carroll Hunton from Portales has been staying in Amarillo with her mother.

Reggie Crabtree from Leveland has been visiting his grandparents, Mr. and Mrs. R. L. Forrester. Reggie expects to return to his home on Thursday.

Mr. and Mrs. Albert Ramm and family from Sallisaw, Okla., visited last Thursday night with his sister, Mr. and Mrs. Leroy Pierce and son. Also visiting with the Pierces Thursday were Mr. and Mrs. Jim Cleveland and family of Clovis. Mrs. Cleveland is a sister of Mrs. Pierce.

James Nelson from Shattuck, Okla., is a visitor with Clifford Hugg and his family.

Miss Mitzi Ivy from Dallas visited with her parents, the Jimmie Ivys, the latter part of last week.

Weekend visitors in the J. B. Young home were his brother, Mr. and Mrs. J. E. Young and family from Lamesa.

Mrs. Eddie Joe Hall returned from the hospital in Plainview on Thursday and although not able to be about yet is recuperating nicely.

Mrs. H. A. Douglas from Muleshoe visited Sunday night with her daughter, Mr. and Mrs. Glen Stevens.

Ronald and Darrell Elliott are up and about doing fine after having tonsilectomies at the Clovis hospital last Monday.

Mr. and Mrs. G. W. Brock and family from Clovis visited Sunday with Mr. and Mrs. Ben Foster. Mrs. Foster is Brock's sister.

Mr. and Mrs. L. B. Hambricht were in Midland over the weekend visiting their son-in-law and daughter, Mr. and Mrs. B. J. Trimble.

Mr. and Mrs. Short Ivy and Gail and Mr. and Mrs. Junior Matthews and boys visited with Mr. and Mrs. Chunky Ivy in Odessa over the weekend.

Mrs. James Kyle and Sheila from Wichita Falls arrived Sunday to visit with relatives for a couple of weeks. Jimmie Kyle has been here for the past week with his grandparents, Mr. and Mrs. Rhiney Steinbock.

Mr. and Mrs. Lois Fletcher and family from Walters, Okla., visited Sunday and Monday with the Gene Smiths.

Sunday guests with Mr. and Mrs. E. T. Ford and family were Mr. and Mrs. Howard Cash from Clearwater, Fla.

Elaine and Aleene Embry left Saturday by train to visit their uncle and aunt, Mr. and Mrs. Sarguine in Boulder, Colo. The girls will visit a few weeks before their parents go up and return them in time for the school season to open.

Judy Bruns accompanied Mrs. Ruth Briscoe and children, Sally, Polly and Joe Don, to Ruidoso Sunday for a few days vacation.

David Wimberley has gone to Portales to visit for about two weeks with his grandmother, Mrs. W. F. Wimberley.

Mr. and Mrs. J. W. Maddox attended the Brazael family reunion at Ralls on Saturday and on Sunday attended the Reese reunion at the Mackenzie Park in Lubbock.

Mr. and Mrs. Buck Crim and Doyle and Mr. and Mrs. Robert Waggoner and Kim from Snyder spent several days last week vacationing at Ruidoso. They also drove on to El Paso and Juarez before returning home. The Waggoners are visiting with the Crims this week, and with friends in Muleshoe.

Weekend visitors in the J. B. Thomas home were her parents and brother, Mr. and Mrs. Jim Echols and Joe Lloyd, from Albany. Others visiting in the Thomas home on Sunday were Mr. and Mrs. Carl Mangum, Jr., Kenny and Patricia, and Sonny Walston, all from Plainview, Mr. and Mrs. J. W. Echols, Johnny, Jimmy and Ronny, and Mr. and Mrs. Lloyd Echols, all of Portales, Mr. and Mrs. Buster Echols and Carla, from Throckmorton, and Mr. and Mrs. Bill Jennings and children. Joe Lloyd is staying this week with his sister and family.

Buddy and Derrell Embry were in Tulia the latter part of last week visiting with the Reece Wilterdings.

Mr. and Mrs. Alvie Reavis from White Deer visited Sunday with Mr. and Mrs. Elbert Nowell. Mrs. Reavis is an aunt of Mrs. Nowell.

Mrs. Obie Caraway and three daughters from Hereford visited last week with the Bill Jennings family. Mrs. Jennings and Mrs. Caraway are former school mates.

Toni Bruns went with Lou Ann Hardesty of Friona to Snyder last week where they visited with Lou Ann's sister. They enjoyed boating and skiing at Lake John while there.

Mrs. Don Sanders left Tuesday morning with a group from the Main Street Baptist Church of Muleshoe for an encampment at Leuders. The group plans to return Friday evening.

Mr. and Mrs. Don Schumann and children visited last week in Aztec, N. M., with her mother, Mrs. J. J. Haun.

Mr. and Mrs. Ed Steinbock were dinner guests Sunday with her niece and family, the W. S. Stewarts in Pleasant Valley. Mrs. Steinbock's sister,

Mrs. Freda Neely from Fredrick, Okla., was also present. Mr. and Mrs. Boots Reed and son, Doyle, left Monday morning to make their home in Pecos. Mrs. Reed will teach home ec in the school system there.

Mr. and Mrs. Jimmie Black, Mr. and Mrs. Beardean Broyles, Mr. and Mrs. Leland Gustin, Mr. and Mrs. Buster DeLoch, Mr. and Mrs. Max Steinbock, and Rex Steinbock and son Troy were all in Ralls on Sunday attending the drag races.

Mrs. Jack Smith visited Beverly at camp in Canyon last Thursday and went on to Amarillo where she visited with Mrs. Garvin Thorn in the hospital.

McGEEHEE TO FUNERAL

Mr. and Mrs. Raymond McGeehe and Mr. and Mrs. Adrian Weir attended funeral services for Jim Traweck at the First Methodist Church in Wilson on Monday. Mr. Traweck passed away at the Methodist hospital on Saturday after a lengthy illness. He was a former resident of this community. McGeehe acted as a pallbearer.

Mr. and Mrs. G. W. Cherry and girls from Muleshoe visited Sunday in the V. H. Bewley home. Other visitors were Mr. and Mrs. Luther Alexander of Olton.

Mrs. Ira Wimberley and Mrs. Edgar Hartley attended a music camp of the Plains Baptist Association in Floydada the first three days of last week. While there, Mrs. Wimberley visited one night in Plainview with Mr. and Mrs. A. G. Ivey.

Johnny Mitchell is visiting his cousin, Don Mitchell, in Olton this week and Duane

Mitchell from Olton is visiting with the Euell Mitchell for a few days.

Mr. and Mrs. C. C. Graef and Mr. and Mrs. Gene Phillips and family left Saturday for a church reunion at Wilburton, Okla. The Phillips family plans to be home in about 10 days but the Graefs intend to visit in Kansas before returning home in about three weeks.

Mr. and Mrs. John W. Crim, Mr. and Mrs. Weldon Crim, Gary and Cheryl Pumroy from Pampa recently spent a few days at Cowles, N. M., on a short vacation. Last week Mrs. J. W. Crim attended a church meeting in Amarillo all week.

Weekend guests in the Dee Chitwood home were a cousin, Mr. and Mrs. Hartsel Edwards

and family of Bureka, Calif. On Friday evening the group enjoyed an outdoor supper with the J. B. Youngs.

SALAD SUPPER HONORS GUESTS

Mr. and Mrs. Estia Bass were hosts at a salad supper in their home Wednesday evening honoring Mrs. George Dupean of Vinton, La., and Mrs. Jack Sanders of Bakersfield, Calif.

Those present besides the hosts and guests of honor were Mrs. Howard Biggers and sons, Gary and Richard, and Mr. and Mrs. A. W. Anthony and Pat.

Dimmitt, Tex., Man Reports—

"Ammonia makes a big difference in my wheat"

Frank S. Wise, who farms 960 acres near Dimmitt, says: "I know from experience that Phillips 66 Agricultural Ammonia makes a big difference in my wheat yields. I figure I'm getting an average of 20 bushels more to the acre by putting down 80 to 100 pounds of Phillips ammonia pre-plant."

Other successful Southwestern farmers use Phillips 66 ammonia to give them higher grain yields... and more profitable grazing. The 82% nitrogen in Phillips 66 Agricultural Ammonia gives young wheat a fast start, supplies plenty of lush, protein-rich forage that puts on more beef at less cost per pound.

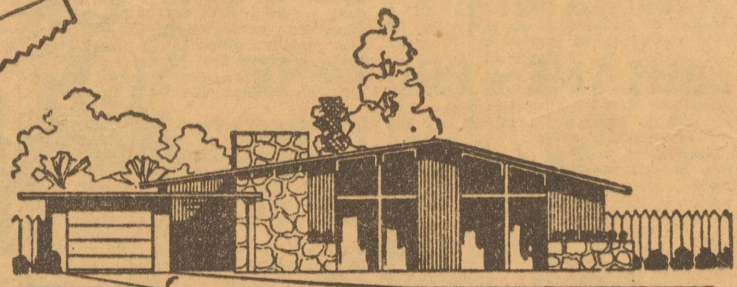

Many of these farmers plow down Phillips 66 ammonia in the fall on maize land. They know that 82% nitrogen helps decompose crop residue, to provide extra plant food and make the soil more productive. Remember, Phillips 66 ammonia gives you more nitrogen per dollar than any other form of fertilizer—a full 82%.

LOOK WHAT HAPPENS WHEN YOU BUY FROM THE...

"WHOLESALE" CATALOGUE

You may pay more...

- A wholesale firm is one which sells in quantities to a retailer who intends to re-sell the merchandise to his individual customers.
- The reason the wholesaler can sell at wholesale is because he does sell in quantities — and does not have to deal directly with each individual retail customer.
- A good question to ask then is: How can a wholesaler print and distribute thousands

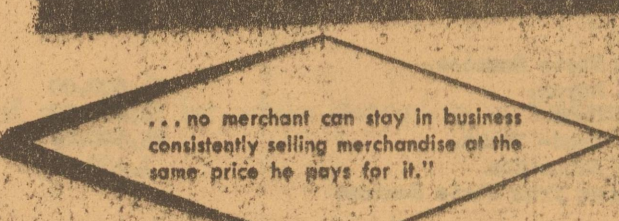

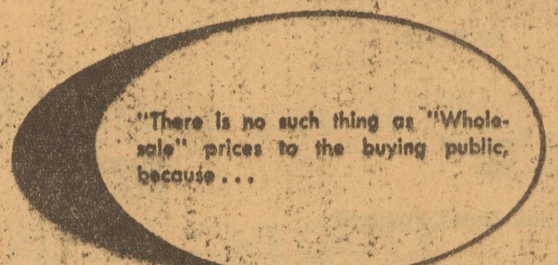

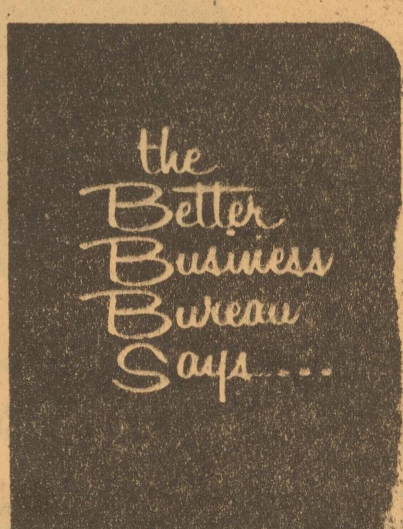

of catalogues to individual consumers, stand the cost of each sales transaction and still sell at "wholesale" prices?

• The answer is: He can't. He is mis-using the word "wholesale."

• By actual comparison, the cost of some merchandise listed in such catalogues is even higher than that charged for comparable items by the retailer.

CAUTION - CHECK THE PRICES IN THE "Wholesale" Catalogue

YOU MAY SAVE MONEY!

THEN

FROM AN HUMBLE BEGINNING on June 14, 1908, to present day the Union Congregational Church of Friona has served first, the pioneers and early settlers in Parmer County, and then today the modern generation.

On that memorable day back in 1908 a group of men and women formed the Union Church. A charter was issued in August and the original building constructed in 1909. Today's structure was built following a fire which destroyed the original church in 1921 with dedication services in 1923.

Today the rolls have grown from the original 13 to over 100 embracing 15 different faiths and denominations.

SUNDAY SCHOOL Class picture (top, left) taken prior to 1921 on the steps of the original church. The class was taught by Mrs. Pearl Kinsley (2nd picture.) WATER DOWN THE COTTON ROW is a sight that will become more and more rare within the next week or 10 days. Agricultural advisors recommend it end entirely by August 20 in the Parmer County area. Extensive studies have shown that irrigating after that date won't pay off in the long run.

Prospects Bright For Bumper Cotton Crop This Year

"Cotton over the county is certainly looking good, and prospects for a bumper crop are bright," reports County Agent Joe Jones this week after a survey.

This is supposed to be a "catch-up" year for Parmer County cotton growers. They had a good crop in 1954, a poor one in 1955, another good one in 1956, and another poor one last year. Thus, the pattern has been set and farmers hope to forge ahead with a good season for 1958.

"In a very short while the cotton fleahopper worry will be behind us and small squares will not have time to mature anyway," says the agent. "The big job ahead is to keep what fruit is on the cotton plant and mature it out to insure the best

grains possible." It is at this point that much debate and temptation arises among Plains cotton farmers each year. Nearly always they are sorely pressed to continue irrigating their fields past what is usually considered as the "frost deadline" of August 20.

The cotton plant calls for water and the farmer wants to irrigate it. It is a simple illustration of human emotion. The cotton is hurting, and the farmer is tempted to irrigate. During this time of the year, Plains cotton farmers often find it better to "go fishing" than to stay around the place and watch their cotton wilting down under the hot August sun.

However, statistics accumulated over a long period of time indicate that any farmer who irrigates his cotton past the recommended shut-off date is gambling—and the odds are against him.

His gamble might have paid off in 1954 and 1956. But the loss he sustained by the practice of late watering in 1955 and 1957 more than took whatever gain he realized in those two years of mild, warm falls.

"Chances are good that we will receive four inches of moisture in August and September by rainfall, so to insure the best possible grades, keep water off of cotton after August 25—preferably earlier," says Jones.

"This will give the cotton

a chance to mature out before frost is expected. In years past everyone has seen what late watering did when coupled with an early freeze or wet fall. The law of averages will be with you if you never water cotton after late August. Keep a close lookout for the cotton bollworm, lygus bugs, and cotton leaf worms. These insects can hurt right up until the crop is mature. The lygus will not damage large bolls but can cause small bolls to fall off."

Defoliants and desiccants are recommended if the crop reaches maturity before frost. Applications before 60 percent of the bolls are open usually lowers the micronair (fiber fineness). Avoid harvesting cotton while it is wet.

"Last year we had the poorest cotton ever so let's do everything possible to prevent such a condition this year," encourages Agent Jones. "Good grades are likely to go at a premium for there is a good supply of poor quality cotton left over for the market to draw from."

To play safe, farmers should control insects and stop irrigating before August 25 if possible. "August 15 to 20 is considered the best time for the last water to be applied to cotton far north," emphasizes the agent.

Reports just before Farm and Home went to press also indicate the presence of the insects in some of the sesame of the area.

Chinch bugs have the same effect on sesame that they do on grain sorghum so far as lowering yield and quality is concerned.

Dealers have indicated that they believe that toxaphene or other insecticides can be used for control in sesame, just as in the case of grain sorghum or cotton.

A formula which the Texas Sesame Seed Growers field man for the High Plains recommends is two pounds of toxaphene, and one pound DDT (the 2-to-1 formula often used for cotton), applying at a rate of three pints per acre.

«The High Plains Farm and Home»

False Cinch Bug Hits Grain Fields

Parmer County area farmers, with a whopper grain sorghum crop in the crucial heading-out stage, are anxious over the appearance—often in damaging numbers—of insects in their fields.

The insect has been identified as the false cinch bug, not exactly a newcomer to area grain growers. It has made its appearance within the past two weeks.

"This pest can cause varying degrees of damage," reports County Agent Joe Jones, "depending on the infestation and the stage of the grain. If enough of the bugs feed on a head as the grain is forming it can cause the head to 'blast' or not have grain in it.

"If the grain is in the milk or soft dough stage the bugs can materially reduce the yields by causing the grains to not mature normally and to be very light."

Jones says the chinch bug can be controlled at times with only spot treatment, but that where the infestation is severe planes are often used and spot treatment is impossible. Entomologists have reported good results with 1½ pints to 1 quart of Parathion (2 pounds a gallon), 1½ pints to 1 quart Malathion (5 pounds a gallon), or 2 to 2½ quarts Toxaphene (6 pounds a gallon). Some other insecticides may give satisfactory results, also.

"The residual effect of any of the above cannot be expected to last in killing quantities for an extended period," cautions the county agent. "Norris Daniels of the Bushland Experiment Station reports Parathion and Malathion still give satisfactory kills after nine days, and he feels they might last a few more."

Jones also warns about toxic effects: "From the best information I can get the Pure Food and Drug Administration has not approved Parathion for use on grain sorghum. It has been approved for many vegetables and other crops and the feeling by most people is that it would be satisfactory if applied at this time of the year."

The agent asks farmers to keep in mind that the Pure Food and Drug agency sets tolerances for insecticides that feed and food can contain, in parts per million.

"If more than this is found, food or feed can be confiscated," he points out. "Be careful about eating vegetables from areas treated or where drift may get on vegetables. Forage from treated areas should not be fed livestock being finished for slaughter or dairy animals for several days, depending on the insecticide used."

For best results treat infested fields after heads have opened

up and the false cinch bug is found on the head instead of in it. Usually this happens after the sun has warmed things up some, says the agent.

THE PARMER FARMER

by W. H. Graham Jr.

Something learned from others is always well remembered. Speaking for ourselves, we believe that some of the best instruction we have ever received has come from others we have visited in our occasional travels across the country.

During the past week, business called us to the Big Bend area of Texas. To and from there, and in fact, right in the Big Bend country, we saw many things of interest to a person who appreciates lessons on better agriculture. This "lesson" we speak of came to us in the form of a special serving at a breakfast we attended during the convention of the West Texas Press Association.

On our breakfast plate were a couple of large slices of just-ripe cantaloupe. Tucked under the edge of our plate was a white card: "CANTALOUPE—compliments of the M. L. Todd Cantaloupe Company—Tri-State Produce Company—Pecos, Texas."

We thought that was real interesting. So we anxiously awaited a chance to talk with Joe Pouns, publisher of the Pecos Enterprise, who brought the melons down to feed the newsmen.

Pouns says passing out free cantaloupes to gatherings such as ours is a very common practice, and one that yields great rewards to the growers. The advertising value of such gestures far exceeds the cost of the melons and the trouble involved to do such a thing, he reports.

The Pecos publisher indicated that growers from his area have been carrying on ambitious produce merchandising for years. He was, in fact, surprised that we were unacquainted with the famous "Pecos Cantaloupe."

We did admit having seen the word "Pecos" stamped on the end of some melons that found their way to our home earlier in the season, but so far as remembering that area as being synonymous with cantaloupes—we just didn't.

Promotions such as the one we witnessed fit in very well with the Pecos cantaloupe men's plans, Pouns says. Several of them specialize in selling "gift packages" to companies and individuals who in turn give them to others as a friendship or public relations gesture.

Although it is obvious that a grower could not expect to move his crop in tremendous volume such as might be attainable on the open, helterskelter market, this is the thing we have tried to point out in previous columns about raising the value of raw goods

with intermediate finishing, packaging, or marketing steps.

The Pecos cantaloupe growers sell these gift lugs at a price which exceeds considerably what they would expect for the same number of melons on the open market.

Hard to do? Yes. It takes planning, effort, and probably some extra money. Impossible to do? Of course not. Farmers who raise even perishable produce such as cantaloupes are proving that it can be done.

Pouns didn't know how many acres of cantaloupes are grown around Pecos. He thought it might run a couple of thousand or better, but insisted this notion was probably not too accurate. The Pecos growers are few in number, if they do have an acreage of this size. There are only about 10 of them.

That compares with about 40 for the 600-plus acres being grown in the Bovina area this year. Of course, the Bovina deal is an entirely different one.

You might say that our story about the Pecos cantaloupe promotion is an isolated incident. However, we can prove it is not. In Pecos and Reeves Counties we saw lots and lots of irrigated cotton—most of it hip high.

Quite a bit of this cotton is of the Egyptian type, having a longer staple length. Most of this type is Pima, although there is some Acala and other varieties. The Pima growers of deep

West Texas, Southern New Mexico, and Arizona got together two years ago and "seceded" from the mess that the upland growers have gotten into with relatively high fixed prices and acreage controls to restrict production.

They asked the USDA to chop long-staple supports, which the government did. The Pima producers then began an intensive campaign to educate the textile industry and other fiber users on the advantages of their product. Sales went up tremendously. Prices on the open market rose above support levels and Pima stopped going into the government loan program.

Now, we are not naive enough to believe that America's agriculture, as big as it is, could get along without a semblance of a farm program. We need regulation, we need protection, for the nation's agriculture—in certain amounts.

However, there is still plenty of opportunity left for certain groups or segments to get together for a common goal and to undertake projects such as did the Pecos cantaloupe people or the Pima growers.

(Continued on back page.)

This Letter Makes News

(Editor's note: The following is a mixture of fancy and fact. We print it because it presents a different perspective of High Plains farming.)

Dear Mom and Dad,

Well, here I am down on the irrigated Plains. I say "down" on the Plains—really, I'm up. Where I am right now (Parmer County) I am over 4,000 feet high. To us, that's just like being in the mountains!

I'm sure glad that you encouraged me to come down and see this part of the country before I go back to college this fall. I had about given up hope of studying agriculture and getting into farming when I finish school, but what I am seeing down here is renewing my enthusiasm for what I can probably do better than anything else.

Sue is very pleased with what we have seen, too. She says it isn't true at all that this part of the country is barren and bleak. Sue says it's really inspiring in its bigness, its almost limitless horizons. She is very glad that she has come. She came in on the train at Amarillo and Uncle Ned brought

her down yesterday. Although the folks down here are just as proud of their farmland as we are back in the Midwest, there is still apparently plenty enough to go around. What these folks think of as being "settled up" is really wide-open to us!

I have been talking with some real estate people the past two days, and they can show me just about anything that I might be looking for in the way of size, location, improvements, soil, slope, and the like. Depending on how choosy the buyer might be, you can get irrigated land priced all the way from about \$175 an acre all the way up to \$400 or even \$500. There is a big range in prices, and this is a farmer's shopping paradise if I ever saw one.

When I finish school next spring and Sue and I make that big step and get married, I believe that we can have things all worked out. It is a relief to know that a young couple can still buy a farm without having to mortgage their souls like we have to back in Illinois now. What's more, we can't find anything really attractive back home even at ANY PRICE, and you know it. There're just too many people who want more land.

Folks tell me that all of what we are seeing has come about in just a few short years. That is hard to believe. They say that if Sue and I had visited here about 1950 that things would have been different. I can hardly imagine what it must have been like. The big crop then was wheat, but in good years the row crops (mostly milo maize) would pay off too.

What's more, the natives tell me a lot more changes are in the making. They say that the development of irrigation is about complete, and that the wells that are drilled in the next five or ten years won't be of any significance compared with what has already been done.

They say that the big changes that are to come have to do with cropping and land use. Acreage-wise, grain sorghums (milo) is still the big crop down here. But feed grains have been so cheap in the past few years that there is big pressure to grow other things.

Most everybody wants to grow upland cotton. There is no telling how much cotton the irrigated High Plains could produce if it were not for allotments. However, because of controls, other crops must fill in.

I just wonder if you can imagine five million acres of land in one piece—all irrigated. It's hard to, I know. Well, that is what they have down here, and there isn't enough cotton to go around.

Like you suggested I should, I have looked at several different places on the High Plains. Hale and Lubbock Counties get all the publicity, it seems. I guess that's because they've been in the irrigated farming business so long, and also because they have (especially Lubbock) large cotton allotments.

Kershner's New Mexico NURSERIES
1710 S. Prince Clovis, N. M.
Phone PO 2-7721
"Graduate Landscape Designer"

But I am convinced that the biggest opportunities can be found in some of the other parts of the irrigated Plains, where there is still lots of developing to be done.

As you can see, I'm writing from Parmer County this week. So far, this county has impressed me the most of all. For one thing, the hydrologists we saw in Lubbock said Parmer County has more irrigation water under it than any other on the Plains.

There are about 2500 irrigation wells here, and the average well can pump a little over a million gallons of water a day. There is a lot of interest in water conservation and better application methods, but even the pessimists say that these wells could run for probably over 25 years before they ran out of water. Can you imagine that much water just a couple of hundred feet away!

Since irrigation is the lifeblood of High Plains farming, I think that is the most important thing. Secondly, the land here in Parmer County is really terrific. These Plains soils have tremendous natural fertility. They aren't worn out like so many other places. If a farmer will take care of his land from the start, the soils of the irrigated Plains can outproduce anybody else, anywhere, bar none.

What has impressed Sue has been the kind of people that are out here. She says that there have been so many stories told about Texans and westerners in general that she was a little sick of the whole thing.

But the people of the High Plains aren't all cowboys and Indians by a long shot, and they aren't all self-assured braggers, either. They're just honest, friendly folks who are here to stay and welcome anybody else who wants to join them.

Most people out here enjoy a really good standard of living for agricultural people, and I sometimes wonder if they really appreciate it. They have so much machinery and so much of their work has been mechanized that they nearly all get along pretty well.

For the hand labor that is still to do, a lot of them hire either native Latin Americans or imported "braceros" (Mexicans) who are willing to work for low wages. That is a big advantage that they have over us.

Well, this letter is getting too long and I shouldn't get so carried away. You said you wanted to know how the crops look this year. They really look terrific to me, although I've never been here before and so am not too sure of my judgment.

However, most of the farmers I have talked with agree that prospects are very good this year. They are about two or three weeks ahead of conditions at the same time last year.

The milo is all heading out. I have never seen so much feed. They say that some fields will produce up to three tons of grain an acre. Imagine that!

Of course, I don't know much about cotton, but those I have talked with say the fruit set is the best this year it has been since 1954—maybe better. If the fall is dry and warm, and if a sudden cold spell doesn't come too early, a lot of this cotton will make over a bale and a half an acre. No wonder

Queen Contestants Now Number 10

Ten candidates had entered the Parmer County Farm Bureau Queen Contest up to Saturday afternoon, according to Mrs. C. V. Potts, contest chairman. The contest will be held in the Frona School Auditorium Friday evening, August 22, at 8.

Candidates, to qualify, must be daughter or sister of a Farm Bureau member, and between 16 and 22 on September 22. Two or three more entries are expected, to make a total of 12 or 13, on the basis of two from each town, and one from each rural community. Farwell allowed Lazbuddie two, with Farwell entering only one.

Those entered and their sponsors are: Mary Ann Stacy, Hub, sponsored by Fleming and Son Gin; Harriette Lou Charles, Bovina, sponsored by Sherley Grain Co.; Marilyn Potts, Rhea, sponsored by Rhea Grain and Fertilizer; Jonnie Hand, Frona, sponsored by Frona Battery and Electric; Ruby Lee Grubbs, Lakeview, sponsored by Lakeview HD Club;

Carol Hukill, Oklahoma Lane, sponsored by Oklahoma Lane Farm Supply; Juanita Range, Farwell, sponsored by Helton Oil Co.; Robbie Bogges, Frona, sponsored by Herring Implement Co.; Donna Redwine, Lazbuddie, (sponsor not known yet); and Rosemary Agee, Lazbuddie, sponsored by Clay's Corner.

Winner of the county contest will receive a check for \$100 and be eligible to compete in the District contest in Lubbock in September. All candidates will receive token gifts. Mrs. Roy V. Miller of Frona will have charge of the musical program and entertainment for the contest, and the public is invited to enjoy the evening, says Mrs. Potts.

Judges will all be from outside the county, and will try to select the queen most likely to go beyond the district contest to the State Contest in Corpus Christi in November. Joe Ed Sullivan, service agent from Brownfield, will be master of ceremonies.

They like cotton here! We got here too late to see the wheat crop. They had about 90,000 acres this year, and tell us it was a good crop. The straw looks like it might have been just that, too.

Oh yes, I meant to tell you. They are starting to grow soybeans here. They look plenty good, too. The beans are holding their color better than they do in Illinois, but the farmers have a lot to learn when it comes to soybean raising. Most of them are doing this to build their land as much as anything else.

Something else that looks familiar is the corn. Nearly all of it is hybrid, just like back home. There are no allotments here, but they don't get as much for corn here as we do back home, either. The crop looks good this year, but farmers tell me that earworms and corn borers may cut down the yield.

They say that they had a lot of trouble getting their corn in last year on account of the cold and wet fall. Guess we're not the only ones who have trouble with corn.

There's quite a pickup in

cattle feeding with improved prices, and a lot of this corn may be cut for silage before it makes grain. In that case worms and weather aren't such a worry.

Well, I must get some shut-eye because tomorrow I'm supposed to go with a man to see vegetables being processed. They have onions, carrots, cantaloupes, potatoes, bell peppers, and a few other varieties here this year.

Most of the boosters tell me that a lot of the irrigated land now in milo is bound to be put into vegetables sooner or later, even though the risks are high and there's hardly anybody around who knows about vegetable farming.

I understand that most farmers who are getting in figure on having some hard licks along with the good, but that they are ready to try to change because they need to make more money on this highly productive land.

I'll let you know more about that tomorrow night.

Love,
Jim Jr.

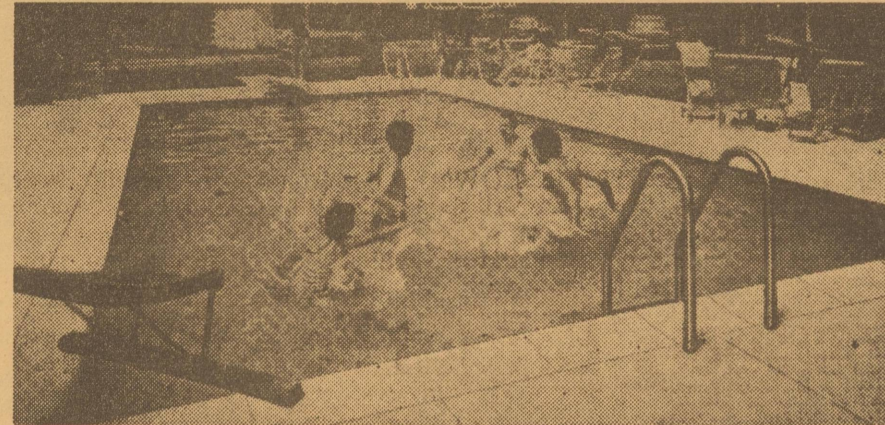

A lawn mower can be a helpful and faithful servant. But it may turn into a dangerous machine unless safety precautions are observed, warns W. L. Ulich, extension agricultural engineer.

The young man told his girl, "I am keeping a record of all the good times we've had together."
"Oh," she said, "a diary!"
"No," he replied. "Stubs in a checkbook."

She: "What's the difference between marching and dancing?"
He: "I don't know."
She: "I didn't think you did. Let's sit down."

WINTROATH PUMPS prove it costs less to own the best

Your Wintroath pump is an important investment.

Its true value is measured by year after year economy. Higher quality construction assures long trouble-free service, and because a Wintroath pulls lighter, power requirements are less.

Years of pumping records prove this Wintroath quality and durability actually lowers pumping costs.

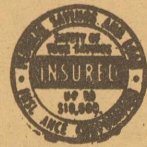

If us. Let us show you the features that make Wintroath the world's finest pump.

and equipment will be needed.

Even if you aren't interested in the course, perhaps you know someone who is.

You need not be a member of a home demonstration club to attend.

When the price of fresh fruit strains your budget, try stretching the fruits with canned fruit cocktail. Fresh strawberries, raspberries, apricots, cherries and other summer fruits combine well with the five luscious fruits from one can. Fruit cocktail saves preparation time, too.

Ripe olives are a festive touch for casseroles. Cut the shiny black olives into wedges or use the pitted ones to add color and texture to scalloped potatoes and ham; macaroni and cheese with whole kernel corn; or tuna-noodle casseroles. Any of these makes a satisfying main dish for a meal.

When the family clamors for a cool drink, give them a choice of chilled whole fruit nectars—a summery flavor such as pear, apricot or peach. Good and so good for them.

For an easy summer dessert, chill canned cling peach slices or halves in the freezing tray of your refrigerator until they are partially frozen. Arrange the peaches in serving dishes, top with a scoop of lime sherbet and sprinkle with flaked coconut.

For an oh-so-good raisin sundae topping, try this. Melt 1 cup semi-sweet chocolate pieces in 1/2 cup hot evaporated milk. Then stir in a pinch of salt, 1/3 cup coarsely chopped light or dark raisins, 1 teaspoon vanilla and 2 or 3 tablespoons water. Serve this luscious sundae sauce warm or cold over vanilla ice cream.

GEARHEAD REPAIRS

Parmer County
Pump Company

IRRIGATION WATER APPLICATION STUDIES are made with interesting devices. This one is placed in the field, and water flows through the orifices, indicating the rate. Holding the equipment is Bob Crozier. Beside him is Robert Zetzsche. Both are SCS technicians.

SCS Runs Water Tests

Many Parmer County farmers are interested in making better use and getting better distribution of their irrigation water. The technicians of the Soil Conservation Service in Parmer County are running tests on various types of soils to obtain information on this important subject.

Irrigation trials were conducted last week on the Bruce Parr farm in the Black community. Parr's land is of the Pullman type—a very tight soil. His land is deep, finely-textured, with a slowly permeable sub-soil.

The field tested had long rows

—2400 feet. The orifices used to check the amount of water running down the row were set 200 feet apart in three different rows of varying slopes. Grain sorghum was being irrigated. The SCS plans to run as many trials in the District as possible in order to collect data. It will be published in Farm and Home as soon as it can be assimilated.

Irrigating tight land has always posed a problem for area farmers. They have a difficult time getting adequate penetration of water, especially if the land slopes very much.

On the Parr farm, the technicians are using the "cutback" method to try to solve the problem. They are releasing from 20 to 25 gallons a minute for six hours, and then cutting back to about eight gallons a minute for 18 hours to complete the set.

More even penetration is obtained in this way, and waste water is kept to a minimum.

NEWS FROM THE FARM BUREAU

By RAYMOND EULER

Senate Bill 4071 was pretty well settled by the Senate Agricultural Committee last week. It is believed, however, that House Speaker Rayburn may be inclined with enough urging from farmers, to request that a rule be placed on the bill, bringing it up for discussion and passage by the House yet. Farm Bureau is urging that every man interested in avoiding the drastic cuts in cotton acreage in 1959 send a telegram to Mr. Rayburn, urging him to bring SB 4071 to the floor of the House for

discussion and passage. If this can be done, it will be the best forward looking piece of legislation farmers have had for a long time. You should be interested in this. Send a telegram.

One hundred eighteen Texas Farm Bureau Counties had sent in more new and renewal memberships by July 31 this year than they had last year. Included in the list are Parmer County and five others in District II.

Texas Farm Bureau President, J. H. West, was one of three men who received honorary Lone Star Farmer Degrees presented by FFA delegates at their state convention July 17 in San Antonio.

Texas Farm Bureau delegates will vote on a resolution intended to protect landowners whose land is annexed to cities, in convention in November. Portions of the resolution text are: "Be it resolved that incorporated towns and cities annexing any additional area shall not collect taxes from the annexed area until all city conveniences are provided." Also, "We oppose the annexation of rural areas to cities without the majority vote of the people residing within the area to be annexed."

On legislation again: We noticed in one day's session of congress that 42 pages were devoted to eulogizing late congressmen and senators who were, no doubt, good men. However, in the same day's session, only 15 pages were recorded on discussion of a farm program. We doubt if this divi-

SOIL CONSERVATION DISTRICT NEWS

Assistance was given recently to several district farmers by the Soil Conservation Service. Most of it was to improve irrigation systems in order to conserve water. We are glad to see that more and more farmers are interested in the conservation of their water. Among those that were assisted along this line were H. C. Wells and C. D. Anderson. Anderson farms the C. W. Dixon land in the Rhea community.

Areas that require dirt moving to improve water application were staked off on the Gilbert Kallwasser and Fern Barnett farms.

Glen Owen is in the process of building an elevated ditch on his place.

A basic conservation plan

was written by the SCS on the Carter and Chisum land in the Rhea community and on C. E. Moore's farm in Lazbuddie. Moore is planning to do some leveling and then seed to grass for improved pasture.

A new cooperater with Parmer County Soil Conservation District is G. C. Taylor Jr. of Friona.

Increase Yields and Profits With The

MARTIN HARVEST HOARDER SYSTEM

The MARTIN SYSTEM is a Drier & Storage Unit all in one. Yet it costs little more than ordinary storage facilities.

Large Farmer or Small Farmer - You can follow the 4 key steps to profits with A MARTIN HARVEST HOARDER SYSTEM.

1. Harvest early—at 33% moisture content. Gain 10 to 15 more bushels per acre because your crop doesn't stay in the field to dry, where it is at the mercy of the sun, wind and rain.
2. Dry with low cost forced air. Drying with forced air is cheap because the air is free and it takes only pennies a day to run the fan. Dry without danger of fire.
3. Store in the same bin. Just turn off the drying switch and your crop is in storage. No expensive handling equipment or labor. Condition the grain at any time by turning a switch.
4. Sell or feed more, better crops. Sell No. 1 corn or grain and you are free to sell any time of the year on better markets. Whether you feed or sell, the greater profits will soon pay for your Martin system.

The Martin System Qualifies For
On - The -Farm Storage By ASC

"Complete Meals

from "extra" food made possible with my food freezer!"

says Mrs. Marvin Shurbet, PETERSBURG, TEXAS

What housewife can always measure exactly how much of each food her family will eat? Even the most exacting woman will occasionally have vegetables, meats and desserts "leftover." It's a shame to throw good food away and no one really likes to do that. Well, Mrs. Shurbet has solved that problem. Here's what she says, "When I cook more than my family eats at a meal, I put remaining servings on foil, divided plates, seal in SARAN WRAP, and store in my food freezer. If additional portions are needed to make complete dinners, I simply add them from various meals."

*SARAN WRAP—A trademark of the Dow Chemical Company, Midland, Mich.
