Howdy—for all the swell people that I have yet to meet I hope this greeting will suffice until I get the opportunity to meet y'all personally.

From the noise of the buzzing-around in the vacant space above my eyes it feels like I've met most of the folks around downtown Friona, and it is a big job trying to keep the names and places associated, but with your patience I hope I'll be able to place everyone before too long.

The first question most folks ask is "What do you think of Friona?"

Well, I'll tell you right now, my family and I have been a number of places before moving here, but never, and I mean NEVER, have we been so well treated and met so many friendly folks.

The physical appearance of this country and Friona just leaves one breathless—especially one who was raised over in East Texas.

I just want to say, THANKS, to all of you who have made it possible for us to move among you and enjoy our new home so much.

Y'know, for people that have never been west of Fort Worth, you can imagine all kinds of things, about this part of the state, most of it good, but then some folks kinda "pour it on" when they tell you about West Texas and the plains country, so really we didn't know what to expect.

Seemed like the further we came the rougher it looked, until we topped the ridge and found Friona—you folks up here really have a place to be proud of and my family and I hope that we can fit into the community and become an asset to it.

Opening the morning mail one day this week we came across a letter to the editor which we thought we should pass on to the subscribers of the Star—

Dear Editor,

I had wrote you last week about the possibilities of keepin up with writin my reglar report from the Draw but hev sense found that my woman hes had it in her hed fer sum time to move down to Runnin Water Draw out of Bovina.

Reckon how you and I couldn't git together too easy frim way down thar thout a lot of runnin back and forwards and thout that I would jest keep on sendin in my colymn to Leland Boyd beens hes moved here to Bovina.

I shore hate to hev to quit youns this way, you beins new thar in Friona, but reckon this will be easiest on us all.

Yours truly,  
Don Karatal

**THIS TASTES PRETTY GOOD**—Last, but not the least unnoticed at the Firemen's Dinner last Thursday night was young two and a half year old Buddy Gale Squyers, son of Fireman Buddy Squyers and his wife Phyllis. Showing an unusually good appetite, young Buddy has no cares as he enjoys his first bite at the banquet.

**HOW DID I MISS THAT?**—Buddy looks down to find another tasty tidbit which was overlooked earlier, some may have said in big words how good the food was, but if you wanted proof of the bill of fare Buddy was living evidence that it was more than just "pretty good."

# Commission Pat On Building Code

City fathers stood pat on living up to the standards as set down in the Friona building code Monday night in a meeting with Ross Terry and his attorney, J. W. Witherspoon, of Hereford.

The special meeting, called for the purpose of meeting with Terry and Witherspoon and receiving the yearly audit report from Bob Ginsburg, lasted about two hours.

In his report to the commissioners, Ginsburg stated that the general fund of the city "shows a deficit due to the requirements put upon it for the payment of special assessments for paving and curb and guttering that remained unpaid by the property

owners who are benefitting from the improvements."

Other comments included in his statement showed that "The 1956 tax roll was 92.7 percent current collections as of January 31, 1957, and at the balance sheet date the 1957 tax roll showed a total of 94.1 percent current collections pointing out that collections for the year were up considerably."

A review of fines collected by the police department during the year as compared with last year showed that \$375 was collected during 1956 as compared with \$2117 in fines collected during 1957.

After the audit report, Witherspoon and the commission discussed Terry's application for

a building permit which had been previously refused for not coming up to the standards as set down in the city's building code.

Terry argued that in his opinion a steel and sheet iron building would be more fire-resistant than the one which is designated in the code.

The code calls for a stud wall with one-inch plaster and fire-resistant lath on each side for the required two-hour fire-resistant wall which is needed for the type and location of the building Terry wants to build.

After discussion, Witherspoon and Terry told the commission that they would discuss the matter with engineer-

ing authorities and come back when they find a wall which in their opinion will fit the "two-hour fire-resistant" clause.

"If we still disagree on the two-hour wall then we'll let a jury decide who is right," Witherspoon told the commission.

Present at the meeting were Commissioner Oscar Baxter, Mayor A. W. Anthony Sr., City Clerk Roy Wilson, Terry, Witherspoon, County Commissioner E. G. Phipps, and J. B. Buske.

City Commissioner J. G. McFarland was absent due to being ill with the flu.

## ★ FIRE ALARM NOT SO HOT

A false alarm brought members of the Friona Volunteer Fire Department out of warm homes into the cold Tuesday night, about 10:45. The alarm was turned in by passers-by who thought the high school gymnasium was afire.

Upon investigation by firemen, it turned out the fire was a result of heat from the escape vents on steam radiators mixing with the cold air outside the gym, which sent up a column that looked like smoke to anyone passing by.

The above, coupled with dust and smoke from cigarettes from inside the building, where cleaning men were working, looked from the outside as if the entire building was afire.

After close inspection of the building, firemen returned equipment to the fire station, and went back home to warm their toes.

## ★ ★ ★ 'Loop' Paving A Topic

Just a sightseer at Monday night's commission meeting, E. C. Phipps, county commissioner, told members of a meeting county commissioners had with the new district engineer for the Texas Highway Department recently.

Phipps told the commissioners the new engineer was unfamiliar with the territory and that it seemed to him that a visit with him would be of benefit to the Friona Loop paving project.

"Being new in the territory he will naturally be at a loss as to the background of most local projects and this would be a good time to meet him and tell him of the paving needs on the Loop in Friona," Phipps said.

"If you work fast there is a possibility that the engineer could include the Loop's paving on bids for the new road scheduled to run east of Friona," Phipps said. "This would be a good time for the Highway Department to include this Friona project and they could get a better bid from contractors for the job."

As to when the projected new road construction would begin Phipps told Mayor Anthony he didn't know, but the way engineers talk it would be sometime within the year.

**Crume Resigns To Join Tellyer**

Floyd Crume, work unit conservationist with the Friona office of the Soil Conservation Service, has announced his resignation to enter private business, effective February 23.

The soil conservationist will become a sales engineer for Tellyer Pipe Company of Friona. A resident of Friona for two and one-half years, Crume and his wife will continue to live at 919 Washington Street in Friona.

Crume is a 1950 graduate of Texas Tech and received a degree in agricultural economics. He farmed two years in Lubbock County after his graduation from Tech, and joined the Soil Conservation Service in 1952.

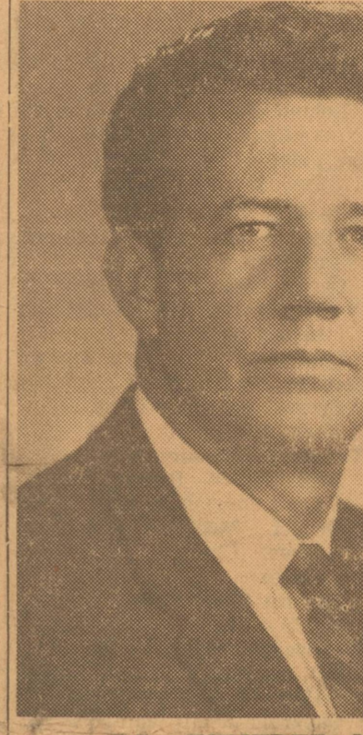

His first assignment with the SCS sent him to Dimmitt, later to Dumas and then to Friona. As of Wednesday, no successor had been named by the SCS to take over Crume's position.

Mrs. G. D. Minchew and Mrs. Weldon Minchew made a business trip to Hereford Monday.

## Revival Starts Friday

A spring revival at the First Baptist Church begins on Friday evening of this week and will continue through Sunday, February 23.

Preacher for the meeting will be Dr. Winfred Moore, pastor of First Baptist Church in Borger. He received his education at Lambeth College, Union University, and Peabody Baptist College. Before coming to Borger he was pastor of the First Baptist Church, Tupelo, Miss. He is a trustee at Wayland College, past-president of the Baptist Training Union Convention of Texas, and a member of the Executive Board of the Baptist General Convention of Texas.

Music for the meeting will be led by Don Durham, a recent graduate of Oklahoma Baptist University who now lives at El Paso. Services have been set at 10 a.m. and 8 p.m. with prayer services at 7:30 p.m.

An invitation is extended to the entire community to attend.

## Rites Read For Mack Short

Funeral services for Mack Short were conducted in Rose Chapel of Gilliland Funeral Home in Hereford at 2:30 p.m. Monday. Mr. Short, 71, died at 7 p. m. Thursday in the Osteopathic Hospital at Roswell, N. M. He moved from Friona to Roswell about seven years ago. Prior to moving here he lived at Hereford.

Survivors are his wife of the home; five sons, Bob and George of Roswell, Charles and Glenn of Friona, and J. D. of Seattle, Wash.; three daughters, Mrs. Lois McDonald of Hereford, and Mrs. Mary Kalawetter of Mendenhall, Miss., and Mrs. Wanda Gene Billingsley of Newport, Wash.

Also one sister, Mrs. Dess Fallwell of Friona; and one brother, Ed Short of California; fourteen grandchildren and one great grandchild.

Interment was in the West Park Cemetery at Hereford under the direction of Gilliland Funeral Home.

## Six Nominated For C of C Posts

Six men were nominated to fill three upcoming vacancies on the Board of Directors of the Friona Chamber of Commerce at a meeting Friday at 3 p. m.

Names of the six nominees, Billy Nichols, Robert Ginsburg, Kenneth Williams, Gaylord Maurer, Joe Ferrell and Hollis Horton, were placed on ballots which were mailed out earlier this week.

Included on the ballot are spaces for three additional write-in candidates should members choose to do so, according to J. C. Claborn, president of the board.

Friday is the deadline for returning the ballot, Claborn said and urged all members to get the ballots in so officers for the new board may be elected.

The three vacancies will exist at the termination of the terms of Hank Outland, Andy Hurst and Joe Douglas.

Holdover directors include Ralph Wilson, Pudge Kendrick, W. H. Graham Jr. and Claborn.

No date was set for the annual Chamber of Commerce banquet, but the affair will be scheduled in the near future according to members of the board.

## Salary Picture Not Quite Complete

Each year, when the figures of county salaries are published, questions are raised by well-meaning readers. That was the case last week when this newspaper ran a story, "County Salaries Set."

It should be remembered that the salary schedules quoted in the story of last week apply to county funds only. The county and home demonstration agents and the county judge (as ex-officio school superintendent), receive supplemental salary from state and federal sources.

The paper views it as unfortunate that misconceptions arise when such figures are published, and will, in the future, undertake to accompany such figures with appropriate explanation whenever they are used.

# Junior Play Packs House

Friona High School Auditorium was packed Friday night as spectators watched the presentation of the annual junior class play.

Under the direction of Joy Crow, student director, who was aided by faculty members, Dempsey Watkins, Carmalest, Truitt and Doris Ann King, the play was termed a "tremendous success" by the audience.

The 3-act performance, "Reserve Two for Murder," took on added realism as much of the action took place along the first six rows in the audience.

Actors and actresses who gave a sterling performance include Nancy Outland, Jon Mac Roden, Lanette Prichard, Kim Caffey, Janiece Bock, Pat Cranfill, Robbie Boggess, Bomar Stacy, Dale Smith, Gene Pope, Lavon Fleming, Eldon Sparkman, Frank Ready and Luann Hardesty.

The play, which was quite "mysterious," kept the audience guessing as to which person on the front rows would enter the play next.

Contributing to the success of the effort were members of the backstage crew and other members of the cast which included Keith Taylor and Mary Tom Spring—stage and costumes; Gary Sherrick and Larry Moyer—lights; Junita Schwab, Toni Bruns, Luann Hardesty, Jim Roy Clements, Gary McLaughlin and Jackie Sheek—ushers; Jonnie Hand, Raye Jene Jones and Bobby Fulks—advertising; Jackie Sheek and Jimmie White—properties; Johnnie Tomlin, Jo Ann Beatty—programs; Elaine Holcomb—makeup; furniture arranged through the courtesy of Claborn Furniture.

**Weather Blamed For Car Crash**

A combination of fog and ice was blamed for the collision of two cars at the intersection of 11th and Main Streets Monday about 3 a.m.

A 1958 Willis station wagon, driven by John W. Nanney of Amarillo, was making a left turn off 11th Street onto Main when his vehicle was struck in the left side by a 1954 Chevrolet driven by Mrs. Joyce Sanders of Friona.

Nanney is a civil engineer working for the Pioneer Natural Gas Company here and Mrs. Sanders is a housewife.

Following investigation of the accident Mrs. Sanders was charged with failure to yield right of way.

Total damages to the cars amounted to \$140.

Joy Crow presented the three faculty directors with small gifts.

The junior class presented Miss Crow a gift of earrings.

Senior class president, Leon Massey, presented her a bouquet of red carnations for the junior class.

**Friona And Farwell Tied For Third**

The Friona Chiefs took a scalping at the hands of the Farwell Steers at the Friona gym Tuesday night, which threw the Chiefs into a tie with Farwell for third place in the district title race.

Farwell had a three-point lead at the end of the first quarter and was never behind. When the final gun sounded, they won by a score of 66 to 48.

Nolen Johnson was high point man with 18 points for Friona and Johnny Lovelace of Farwell was high with 18 points. Next game for the Chiefs will be in the district tournament scheduled at the Friona gymnasium February 18, 20, and 21.

# Squaws Keep It Up As Chiefs Falter

**Squaws Squelch Farwell Girls**

A substitute guard, Phila May Buske, turned in the best performance of the night Tuesday, when the Friona Squaws blasted the Farwell girls 71-35 in the Friona gymnasium.

The outside weather was cold and icy, but the Squaws were really hot, as Jonnie Hand poured a total of 41 points through the hoop for Friona in three quarters of play.

The game was close until the half, when the Squaws found their stride and the Farwell maidens never threatened again. Coach Baker Duggins says the Squaws need a tough game. As he puts it, "We aren't playing as well as we were earlier in the season."

Tuesday night's game gave the Squaws undisputed top rating in the district round-robin play, and are rated in the top spot going into the district tourney which will be in Friona next Tuesday, Thursday, and Friday.

The Squaws will meet Springlake as their first opponent in the district tourney.

**Cub Scouts Observe Boy Scout Week**

Several dens of the Cub Scouts observed Boy Scout Week by making invitations, plans, plate favors, and other objects for the Blue and Gold Banquet, which will be in the school cafeteria at 7:30 p.m. Friday, February 28.

At the banquet a number of boys will receive awards and Maurice Teague of Amarillo will be a guest.

Den III prepared a display of different things the cubs of that den have made for the window of Bi-Wize Drug.

Eighteen persons attended the training meeting in the Bill Nunn home Monday evening. The training meeting date has been changed to the first Monday night in each month. The next one will be held at the club house at 8 p.m. March 3. A film was shown by Coy Patton.

## Community Fund Meeting Postponed

A meeting of the board of directors of the Community Fund, originally scheduled for Monday night of this week, has been postponed indefinitely, according to Chairman Andy Hurst.

Hurst gave the bad weather as the reason for postponing the meeting and said that men in the outlying communities who are on the board would have been unable to attend Monday night because of weather conditions.

Another meeting date had not been set at press time.

**THREE AREA FARMERS**—The above trio was honored at a meeting Friday in Plainview for their 5-acre yields of sorghum by the DeKalb company. The winners for Parmer County are (left to right) Edmund Schlabs, first place; Jerry D. Bell, second place and Curtis Murphree, third place.

THE STAR'S EDITORIAL COMMENT

Pay As You Go Water Plan

At their regular meeting last week members of the Friona city commission discussed the possibilities of increasing the water bills \$1 on each meter to raise additional funds for the purpose of constructing a new well, pump, ground storage tank, booster pump and other necessary equipment.

The new facilities, which will cost an estimated \$40,000, will be needed to meet estimated demands this year and will be a "necessity" by 1959.

As any increase in city taxes would be met with vigorous opposition, and a bond issue would cost money in increased interest, the commission tabled the matter until the next meeting.

As a route to show the comparison of bonds vs. higher taxes the Star came up with the following figures which show how each citizen would be directly affected in all three routes of paying for the new well and facilities.

Estimated cost of raising \$40,000 under the present revenue bond market system would be broken down in the following manner:

Cost of recalling and issuing new bonds would cost \$2750.

The interest table for paying off the debt would be as follows: (The city would have to add this additional debt to the already drawn out bonded indebtedness table which will not be paid off until 1986 before the debt could even be touched).

1986	5%	on \$40,000	....	\$2000
1987	5%	on 35,000	....	1750
1988	5%	on 30,000	....	1500
1989	5%	on 25,000	....	1250
1990	5%	on 20,000	....	1000
1991	5%	on 15,000	....	750
1992	5%	on 10,000	....	500
1993	5%	on 5,000	....	250

interest for 8 years ..... \$ 9000  
principal ..... 40000

cost of recalling & issuance 49000

total cost of bonds .....\$51,750

The Friona Star

In Parmer County ..... \$3 Per Yr.  
Elsewhere ..... \$4 Per Yr.

Entered as second class mail matter July 31, 1925, at the post office in Friona, Texas, under the Act of March 31, 1897. Published each Thursday.

By virtue of this arrangement it is easy to see that this route does not seem to be too "golden an opportunity" or the road to follow for the water system additions.

On the other hand, adding \$1 to each water bill will raise \$44,000 in only five years, by 1963, and this will not be money on which the city will be paying interest but rather it will be money that the city will be COLLECTING interest on.

This is arrived at by figuring the estimated number of water taps that will be in the city at the average rate of \$12 per year per meter.

Total meters in 1953—507, 1954—550, 1955—631, 1956—690, 1957—720, estimated meters for 1958—720, and estimating an additional 30 meters each year would bring the total meters in use in 1962 to 840.

As the number of meters increases each year, so does the money collected to total \$684 per month income during 1958 and climbing to \$798 per month in 1962. This includes an allowance of 95 percent collections on total meters.

As this special fund would be used for the improvement of the water department and be paid by users of the city water department, this method seems better than raising the city taxes or calling for more revenue bonds.

The taxes certainly are enough where they stand. The revenue bonds would only add strain to the bonded indebtedness of the city and in the end would cost \$9,000 in interest alone whereas by the \$1 per meter method the city at the end of five years would own the new facilities clear and outright.

This method will tend to place the cost of the new facilities on those who benefit directly from the added water resources of the city and will not add to the amount of interest the city is paying at the present time on bonds.

March of Dimes Nearing \$2,000

Contributions from over Parmer County for the annual March of Dimes campaign are close to \$2,000 according to Raymond Euler of Friona, campaign chairman.

The report has not been closed out yet, as some money is still coming in, but it appears certain that the total will not exceed \$2,000. Bovina and Farwell led county giving this year.

The money collected in Farwell totaled \$701, and Bovina was hot behind with \$700.59. In Friona, \$231.12 was collected, but as yet, receipts from the school have yet to be added to that total (Friona had a "community fund" drive for the first time this year, reducing individual contributions to the March of Dimes.) Lazbuddie citizens donated \$104.60, and reports Hugh Moseley, county chairman, \$51 was collected from various sources through a mail appeal. "We about broke even in our mail this year," he says. One more tally will be published in a week or two to wind up the 1958 March of Dimes in Parmer County.

The supply of cotton in the U. S. during the 1957-58 marketing year is estimated at about 23 million bales—4.6 million bales smaller than the record of last year and the smallest supply since 1953-54, says John McHaney, extension economist.

The FHA executive council met Monday afternoon and made nominations for president for the coming year. Jacquelyn Magness, Joan Beaty, Raye Jene Jones, and Adelle Smith were selected as nominees for the office.

Tuesday morning the chapter met in the home economics department. The meeting was

called to order by Judy Barnett, president. The names of the nominees were presented to the chapter. Judy Smith was nominated voting delegate to the FHA district meeting. Announcement was made that the new president and the member with the most points would represent the chapter at the state meeting.

Phila May Buske presented the chapter sweetheart, Kenneth Carter, with a box of Valentine candy while the Treblaies sang "Let Me Call You Sweetheart." Mrs. John Bengler, who was a guest speaker, discussed Community Life.

WITH JUNE

As most of you know by now, we have a new employee at the Star office. He is Dave McReynolds and he came here from Galveston. He and his wife, Shirley, and young son, David, live in Frank Spring's rent house on Prospect Street.

Since Dave is not familiar with the way things are done in West Texas, some very amusing incidents have occurred during the past week. However, he is learning his way around and beginning to catch on. If he isn't careful, we will make a West Texan out of him real soon.

Wednesday as Dave and Leland Boyd, who is now the editor of the Bovina Blade, were returning to town from the south side of the tracks, Dave noticed the levee, which was built just after the 1941 flood.

Said Dave, "If I didn't know better, I'd think that was a levee for flood protection." Leland immediately told him that it really was built just for that purpose. Not wanting to be the victim of a gag, Dave asked for proof of the statement.

The first old timer they ran into was Charley Turner and he was called upon to verify Boyd's statement that the railroad had built an expensive levee to keep the track from washing out. Think Turner's

story must have been pretty convincing. Dave's parting remark was, "Now, I will not be surprised at anything."

With the coming of spring we should all become a little bit more trash conscious. In addition to picking up debris that blows around, we should make a special effort to refrain from throwing candy wrappers, paper cups, paper napkins, or other such things on the sidewalk, street, or highway.

Perhaps it would be a good idea if each car was always equipped with a litter bag. Of course, for the bag to be effective toward keeping our towns and countryside neat and clean it will be necessary for each one of us to make use of it.

Have you seen the picture Win Holcomb has been carrying around since his return from Tampico, Mexico? He is quite a fisherman, and usually no one pays much attention to fish stories. However, with a picture to prove that the Big One did not get away, we just about had to believe the story.

Roy Botkin, who was a member of the fishing party, verified Win's which goes like this, "We caught four that weighed an average of ten pounds each and I caught two of the biggest ones."

The PTA is planning to sponsor a chili supper at the school cafeteria Thursday, February 24. If you are interested in assisting with the project, whatever assistance you can give will be greatly appreciated whether

So many of us think when we are discouraged that all our troubles would be cured if we could "Just go somewhere else and make a new start." Several good ideas on making a new start are expressed in the following bit of verse:

**A New Start**

I will start anew this morning with a higher, fairer creed; I will cease to stand complaining of my ruthless neighbor's greed;

I will cease to sit repining while my duty's call is clear; I will waste no moment whining, and my heart shall know no fear.

I will look sometimes about me for the things that merit praise; I will search for hidden beau-

ties that elude the grumbler's gaze;

I will try to find contentment in the paths that I must tread; I will cease to have resentment when another moves ahead.

I will not be swayed by envy when my rival's strength is shown;

I will not deny his merit, but I'll strive to prove my own; I will try to see the beauty spread before me, rain or shine;

I will cease to stress your duty, and be more concerned with mine.

Another interesting article came across our desk this week. It was printed in the form of a classified ad and read as follows: MAN WANTED! Wanted: A man for hard work and rapid promotion; a man who can find things to be done without the help of a manager and three assistants.

A man who gets to work on time in the morning and does not imperil the lives of others in an attempt to be first out of the office at night.

A man who listens carefully when he is spoken to and asks only enough questions to insure the accurate carrying out of instructions. A man who moves

quickly and makes as little noise as possible about it.

A man who looks you straight in the eye and tells the truth everytime.

A man who does not pity himself for having to work.

A man who is neat in appearance.

A man who does not sulk for an hour's overtime in emergencies.

A man who is cheerful, courteous to everyone, and determined to make good. This man is wanted everywhere. Age or lack of experience does not count. There isn't any limit, except his own ambition, to the number or size of the jobs he can get. He is wanted in every business.

There will soon be an all weather parking lot for Johnson's Corner Grocery customers. Gravel is being put on the lot early this week. With all the parking lot improvement being made indications seem to be that someone is expecting to have some wet weather.

**HERE IS THE NEW PURINA HOG PROGRAM**

1. Start litter on new, improved Purina Baby Pig Chow. Then creep feed Purina Pig Startena until 3 weeks after weaning.
2. Put pigs on growing ration of 4 parts grain and 1 part Purina Hog Chow until pigs are about 3 months old.
3. For last 6 weeks, feed 9 parts grain to 1 part New Purina Hog Chow. Feed either free choice or mixed, in correct proportions.

**Now...market hogs in 4 2/3 months**

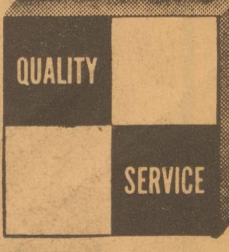

New Purina feeding program weans pigs at six weeks... grows pigs to 190 lbs. in 4 2/3 months... cuts feed costs 4%... 1 lb. of pork for every 3.26 lbs. of feed, from weaning to market... conditions sows faster for next farrowing.

Every year more proof piles up that hogs should be fed according to age and weight requirements. Young pigs use feed differently than do older hogs. They need more protein... more vitamins... more of the expensive parts of the ration. But, as pigs grow, they become more efficient users of carbohydrates—the less costly part of rations. The proportion of cheaper carbohydrates can be rapidly increased.

Tests at the Purina Research Farm showed that this new program cut feed costs an average of 4% below any previous Purina Program... produced each pound of pork on only 3.26 lbs. of feed from weaning to market. It also gave sows the chance to recover faster from farrowing and nursing. Sows were ready to breed again in less time than when pigs were weaned at 9 weeks.

**Improved Purina Hog Chows Make Program Click**

Purina Baby Pig Chow and Pig Startena, the famous Fast-Start Twins, have been further improved to take advantage of the newest research findings. Purina Hog Chow has been improved to the point where you may now use 35% more grain during the last six weeks than on previous Purina Hog Programs. Be sure to feed right... follow the recommended steps closely. The fast gains, early weaning, and increased efficiency of this new Purina Hog Program can be yours when you feed these high-quality Chows in the way research has proved they should be fed for top results.

## Patsy Anthony Emcees Style Show

Patsy Anthony, daughter of Mayor and Mrs. A. W. Anthony Sr., of Friona, was the commentator at a recent clothing review for her fashion class at Stephens College in Columbia, Mo.

Clothing reviews take the place of examinations in fashion department classes. Each student models the garment she has made in class. Miss Anthony was chosen to do the commentary for her class of 15 girls. She introduced each student and described the student's garment as she modeled it.

Patsy made and modeled a black wool sheath and a red wool plaid bloused jacket with hat wing sleeves. She is a 1957 graduate of Friona High School and was an active member of the FHA chapter here.

## 'BITE' WORSE THAN BARK

San Antonio, Tex.—A 79-year-old man was given ten days to pay a \$100 fine for causing a nuisance by playing his radio at a loud volume and barking back at neighborhood dogs.

Five neighbors testified Walters had his radio so loud they had to close their windows and put cotton in their ears before they could sleep.

They complained that the man went to his front porch and imitated dogs when they barked early in the morning.

The accused man conceded the dogs had kept him awake so he retaliated.

## THE BULWARK OF A COMMUNITY IS ITS CHURCHES

# The Sabbath Spirit

I was in the spirit on the Lord's day (Rev. 1:10).

Every Christian has known the Sabbath spirit since childhood. The Apostle John wrote these words when he was an old man, a prisoner in exile, living on a rocky, barren, desolate island. Yet here John was in the spirit. Here many of the most majestic visions and revelations ever made to humanity were unfolded before his lonely eyes. We are told that these visions and revelations came to him on the Sabbath.

The Sabbath spirit is one of great peace and rejoicing. God intends the Sabbath to be a delight. Then, too, the Sabbath spirit is one of promise. It speaks of future rest, worship, communion with God and fellow Christians. Exodus 20:8 reads, "Remember the Sabbath day, to keep it holy." The Lord's day and the appropriate spirit of that day in modern hearts, opens glorious promise of the future to all who have the true Sabbath spirit.

Attend the church of your choice on Sunday.

**Pre-Nuptial Shower Honors Betty Floyd**

A bridal shower honoring Betty Floyd was Wednesday, January 29, before her marriage to O. A. Stout. The fellowship hall of the Methodist Church was the place designated for the occasion.

The decorations and the theme of the entertainment was "Betty's Horoscope Party." This turned out to be quite hilarious as the different horoscopes were read for the various signs and ended up with the article "What your sweetheart would be like if he was born under a certain sign."

Mrs. Barney Floyd and Mrs. O. A. Stout Sr. assisted Betty with the opening of the gifts. Red raspberry punch was served with white cake squares iced with white and trimmed in red.

Others present and sending gifts were Mesdames Jimmy Ivy, Frank Hinkson, Jack Smith, Van Howard, Mable Lavender, Ott Misenhimmer, Ham Smith, F. W. Green, Bill Johnson, L. O. Norwood, Worth Howard, Andy Fuqua, Duane Darling, Jack Black Leland Ivy, Troy Neesley, Donald Runyon, Freeman Davis, Juel Treider, Larry Treider, R. B. Seaton.

**4-H'ers Attend Achievement Day**

A large number of boys and girls attended the 4-H Achievement meeting in the High School Auditorium in Bovina Saturday night. Miss Edith Lois Wilson, district Home Demonstration Agent for District 1, was the speaker and Knox Parr, District Extension Agent presented the awards.

Girls receiving awards were Katherine Smith, Beverly Smith, Patsy Chitwood, Linda Lesly, Linda Monk, and Jan Nowell. Boys receiving awards were Richard Chitwood, Cooper and Steve Young, James and Gary Mac Brown, Billy Hardage, Glendale King, Don, Benny and Leon Watson, Gary, Gerald, and D. H. Foster, Roland Barnes, Craig Schumann, Ron-

ald Scott, Odis and Lloyd Bradshaw, Buddy, Embry, Harroll and Carroll Redwine, Terry Darling, Donnie Smith, Paul Wilbanks, and Eugene Houston.

Adult leaders also received awards. They were Mr. and Mrs. Dee Chitwood, and J. B. Young.

Young showed colored slides of the 4-H boys and their projects and also of the annual 4-H encampment at Holy Ghost Canyon near Cowles, N. M. Mrs. Dee Brown showed movies made by Miss Wainscott at the last achievement day and also of the girls at the Hub community last summer.

Lacy Hardage has been confined to his home the past week with a case of pneumonia. His grandson, Randy Hardage, son of the Wayne Hardages was a patient in the Clovis Memorial Hospital last week.

Mr. and Mrs. C. C. Matthews are on a vacation trip for a few weeks to Lake Buchanan.

Mr. and Mrs. Frank Hunt recently spent a week in Dallas visiting her mother, Mrs. B. L. Beasley. They returned via Lubbock and their granddaughter, Vicki Briggs, came home with them for the week. Mr. and Mrs. Gene Briggs and Ricki came down for the weekend and returned Vicki home.

Mr. and Mrs. Junior Matthews helped her brother, Mr. and Mrs. Chunky Ivy from Muleshoe move to Odessa this past week where Chunky is employed.

Visiting in the Joe Paul home over the weekend were Mr. and Mrs. Joe Howart and boys from Flagstaff, Ariz., M. F. Howart, Clovis, and Mrs. D. Z. Bradbury, Roswell.

Mr. and Mrs. T. O. Lesly and girls visited Sunday afternoon in Bovina with the Jim Owens family.

**Celebrates Birthday**

Mrs. Rufus Carter celebrated her birthday Sunday with two of her daughters being present for the occasion, Mr. and Mrs. L. H. Bradshaw, Jane Ann and Lewie of Farwell and the Gene McClures from California. Mrs. Carter says she was surprised to find Mrs. Hubert Elliott at her door on Saturday to present her a lovely birthday cake she had made. Mrs. Carter says birthdays are easy to have when they are so nice.

Reports of trouble in the oat fields of Texas are coming to Extension Plant Pathologist Harlan Smith from all sections of the state. Many of the reports indicate that oats are deteriorating as a result of the heavy rains, but Smith points out there may be other causes. A chief culprit may be Helminthosporium blight, a seed borne fungus disease which attacks oats from the seedling stage to maturity.

**Reduce Delinquency CORRECTION PUNISHMENT III.**

(A distinguished Texas judge offers pointers on combating our rapidly increasing juvenile delinquency problem.)

By JUDGE SARAH T. HUGHES

JUDGE HUGHES

Formerly a child of 7 was considered responsible for his offenses and was punished as an adult. The object of society was to punish the offender, regardless of his age if he was over 6, and revenge the crime as well as to protect society.

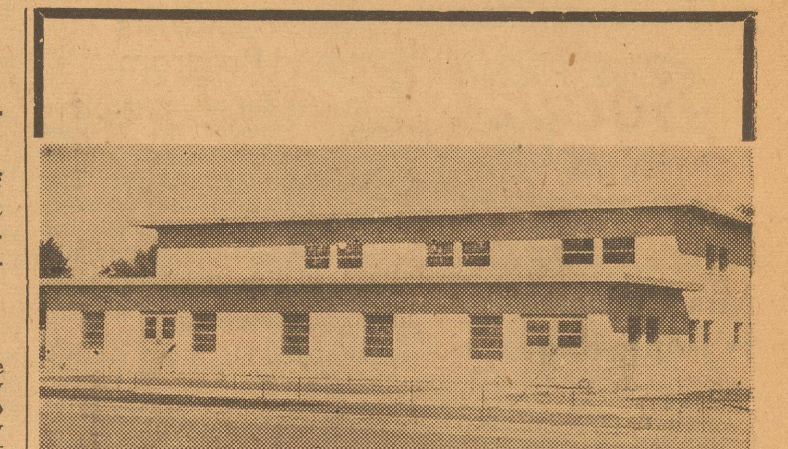

Double Object Today we no longer try to revenge ourselves, as was done as late as 1825 — when a 13-year-old New Jersey boy was hanged for stealing a pair of shoes. We try now to rescue the child as well as to protect society.

We try to find out the causes of the individual child's delinquency so that we can remove them. We are not so concerned with handing out punishment as we are with trying to save the offender for good citizenship.

Training Program The sentence may be probation or an institution, both involving a positive program to prepare the boy or girl for wholesome community life, including vocational training.

Whatever the punishment, the object is the same — to protect society, remove the causes of delinquency, and make the youngster a good citizen.

**VI**  
**LEARNING CRIME?**  
(A distinguished Texas judge offers pointers on combating our rapidly increasing juvenile delinquency problem.)

By JUDGE SARAH T. HUGHES

Gatesville, as you know, is the state school for delinquent boys. Only the worst offenders should be committed there, but unfortunately many counties do not have facilities for handling boys who cannot be rehabilitated on probation. Many others do not have probation officers, paid or voluntary.

The result is that in some instances small boys 10 to 13 are sent to Gatesville simply because the county doesn't know what else to do with them. They may have committed only minor offenses and have no home.

**Too Young**  
Such boys are really dependent and neglected rather than delinquent. They should never have been sent to Gatesville and it is not good that they are there.

These 40 to 50 younger boys sleep in a separate cottage. But otherwise—at meals, in school, and at play—they mix with older boys who have longer and more serious criminal careers and are good instructors in the ways of crime.

**Too Little Remedy**  
The last regular session of the Legislature did not provide a separate school for younger boys but did remedy the situation in part. Dormitory and eating space were provided away from the main campus.

In many activities, however, the younger boys WILL CONTINUE TO MIX WITH THE MORE HARDENED OLDER BOYS, and only when the schools are entirely separate can the facilities be considered adequate.

Next week: How to get what we need.

**Celebrate Birthdays**

Sunday night visitors in the Milton Sullivan home were Mr. and Mrs. Eldon Garber and family, Mr. and Mrs. Florian Jarecki and family, and Mr. and Mrs. Oliver Rieken. The group celebrated the birthdays of the Sullivan twins and Mrs. Rieken.

Homemade ice cream, cake, and coffee was served to the group who visited in the Ray Martensen home Monday night celebrating Ray's birthday. Those present were Mr. and Mrs. Walter Schueler and family, Mr. and Mrs. Franklin Bauer and family, Mr. and Mrs. Milton Sullivan and family, and Mr. and Mrs. Florian Jarecki and family.

**FARM BUREAU MEETS**

Rhea Farm Bureau met at the Parish Hall Friday night. Walter Schueler presided at the business session. Membership captains were appointed by the director, Jack Patterson, who is county membership chairman. Those appointed were Florian Jarecki and Franklin Bauer. Helpers are Raymond Schueler, Herbert Schueler, Milton Sullivan and Walter Schueler.

After the business session refreshments of cake and coffee were served to the group by the hosts, Mr. and Mrs. Willie Wall, and Mr. and Mrs. Chris Drager.

**NEW RESIDENTS**

Mr. and Mrs. Eldon Garber and four children, Danny, Darrell, Darla, and Donna, arrived from Platte Center, Neb., the past week to make their home in our community. They will live in a house being moved on the Carl Schlenker farm and work for Carl.

Mrs. Garber is a cousin of Mrs. Florian Jarecki and Mrs. Milton Sullivan and a niece of Mrs. Oliver Rieken of Friona.

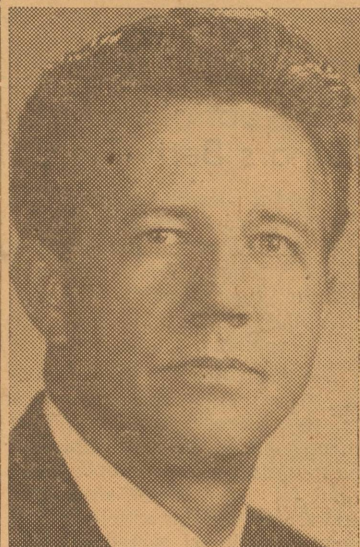

Platte Center is well represented in our community. The Garbers are the fifth family to move here from Platte Center. We are happy to have them with us.

Soaking the seed before planting appears to be the most practical way to control loose smut disease in wheat. In tests at the Texas Agricultural Station at Denton, Dale Weibel and Dr. I. M. Atkins found that soaking seed 4 hours and keeping the seed in an airtight container for 116 hours before planting produced wheat with less than 1 percent loose smut disease, compared with more than 17 percent smut-diseased plants from untreated seed. Some wheat varieties such as Ponca, Pawnee and Triumph are resistant to loose smut disease, but most varieties are susceptible.

Plainview, Tex., Man Reports—  
**"I Got a 2,000-lb.-per-acre Increase on 575 Acres of Grain Sorghum."**

Lem Brock, of Plainview, Tex., says: "I put down 100 pounds of Phillips 66 Agricultural Ammonia on 575 acres of irrigated maize land, and got an average of 2,000 pounds of grain increase per acre. I also put down 100 pounds of Phillips ammonia on castor beans and got an increase of 500 pounds of beans per acre. Also, by using Phillips 66 ammonia I got 1½ bales of cotton to the acre in an unseasonable cotton year."

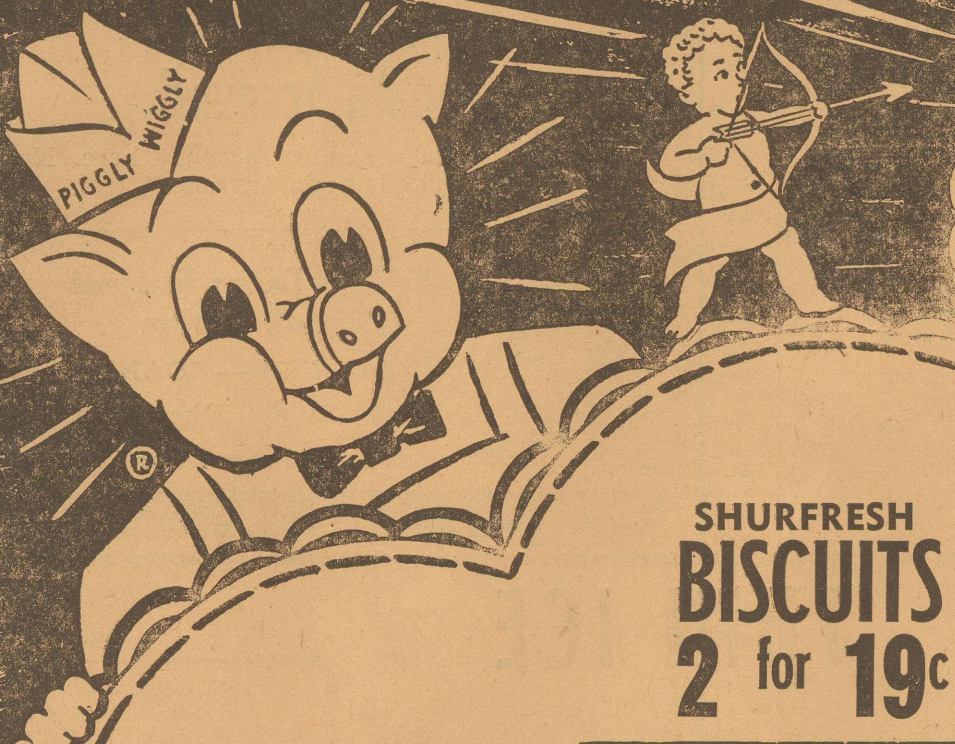

Other Southwestern farmers have discovered that the 82% nitrogen in top quality Phillips 66 Agricultural Ammonia helps them to get more profit per acre, through higher yields and lower production costs.

They have found that, by using Phillips 66 Ammonia, they get more cotton that grades out higher at the gin; yields of grain sorghum grain and ensilage are increased; more marketable vegetables are harvested, and profits on wheat are increased through better forage, and higher yields of grain.

# Friona Boy Scouts Study Compass

Members of the Friona Boy Scout troop met in the Scout hut in the park Monday night and worked on a program of improving their working with the compass.

Scoutmaster Jay Sanders said that members of the Lions and American Legion have been working with the Friona Scouts and Scouters during the past few weeks with the improvement of the local program and participation as their goal.

The Scouts meet every Monday night in the hut in the park and all boys 11 years and older are urged to attend and learn about the local program, Sanders says.

Compass work has been under the direction of Senior Patrol Leader Ted Sanders. Boys working in the program's compass work include Owen and Larry Drake, Greg Jarrell, Ted and Tom Sanders and Fred Jackson.

The next meeting will be Monday night at 7:30, in the Scout hut.

Reading from left to right: Miss Nancy Lally, Teen-Age Champion of Woonsocket, Rhode Island, Mr. Carlson W. Fryor, Men's Champion, Tallahassee, Florida and Mrs. F. A. Richardson, Grand National Champion of Homestead, Oklahoma.

America's Crochet Champions, selected by a panel of leading needlework authorities, were honored recently at presentation ceremonies in the Waldorf-Astoria, New York, climaxing the 16th annual National Crochet Contest sponsored by the National Needlecraft Bureau. Almost 100,000 pieces of crochet were entered in the Contest through 869 State and County Fairs throughout the country during the past year.

Geographically, the 368 national winners in the Contest represent a good cross section of the country. . . . 39 states had one or more winners, with California taking top honors with a total of 54. Iowa was second with 37 and Ohio third with 25. Idaho, Indiana, Minnesota, Nebraska and Washington were next with 15 winners each. Illinois, Oklahoma and Oregon followed with 14, 13 and 11 respectively.

Each Champion received a free, all-expense paid trip to New York for two, plus substantial cash awards. In addition, Mrs. Richardson won an 8-day cruise to Bermuda for two as Grand National Champion, and a special cash award as First Prize Winner in the Original Design Group. Her winning entry was a beautiful centerpiece. Miss Lally won her title with a group of crocheted dolls and Mr. Fryor's championship piece was a handsome crocheted bedspread.

**DeKalb Honors County Farmers**

Three Parmer County farmers were honored in Plainview Friday at the first annual DeKalb sorghum yield banquet for their efforts in the DeKalb acre-yield contest for sorghum during the past year.

The trio, composed of Edmund Schlabs, Jerry D. Bell and Curtis Murphree, are all from Friona and represented the top acre-yields in Parmer County at the banquet.

Two other local men, Doyle Cummings of Cummings Farm Store and Bill Nichols, agriculture director of the Friona State Bank, attended the affair. Schlabs was presented a gold, engraved plaque as evidence of his top yield in Parmer County which averaged 8553.60. Bell was second with 7877.87 and Murphree's yield averaged 6655.87.

Two of the winners planted F-62-a variety and Murphree planted E-56-a.

Top winners for the state were Guy Bartlett of Abernathy, in the irrigated class with an average of 5 tons per acre

and John Mackie of Pampa was top in the dry-land class with a yield of 7508.44.

All the yields were based on a 5-acre average with an impartial agent taking the samples from each contestant.

J. T. Gee, vocational agricultural teacher at Friona High School, took the samples for Parmer County.

**Farmer's Union Has Chili Supper**

Over 200 people attended a chili supper sponsored recently by the Lazbuddie Farmer's Union.

Proceeds from the affair amounted to about \$170 and will be used to send a delegate to represent the area members in a special delegation in Washington later this month.

**What Fertilizer Is Best Pay For You?**

**Phosphate Fertilizer Appears Helpful In Sandy Areas**

Experiments conducted by County Agent Joe Jones and Al Pope of the Amarillo Experiment Station in the "sandy land" area of Parmer County indicate that farmers in this type land might well consider phosphate fertilizer.

Tests were run on grain sorghum plots on the Arthur Haseloff farm near Lariat, last year. The fertilizer was applied in bands before seeding. The bands were slightly to the side and below the depth of the seeds which followed.

"Everything except the fertilizing and harvest was done

by Arthur in the same manner he planted and cared for the rest of his crop," says the county agent. "From these results, farmers in the sandy area might well consider using phosphate on grain sorghum where this has not been the practice."

Below is a table of the results. Farmers can complete the costs of various fertilizer formulas, and compare them to the increased yield and the increased cost in obtaining that yield to determine the best paying combination.

Jones places special emphasis on the method of placing the phosphate fertilizer in bands for row crops.

**TRF Tests Tight Land Fertilizers**

An application of 120 pounds of nitrogen per acre produced the greatest increase in yield of grain sorghum on Pullman clay loam in 1957 at the High Plains Station of Texas Research Foundation at Halfway. This application also gave the greatest net return per acre over fertilizer cost.

In this experiment with different rates and ratios of nitrogen and phosphate (P205) both nutrients were applied at the rate of 40, 80, and 120 pounds per acre alone and in all possible combinations.

The phosphate was applied as raw phosphoric acid in bands 20 inches apart on each side of the beds at a depth of five

inches just before planting. Four-row plots 100 feet long with each treatment replicated four times were used. Texas 610 hybrid was planted at the rate of six pounds per acre in 40-inch rows on June 19, 1957. The nitrogen was applied as anhydrous ammonia in bands 20 inches apart when the grain sorghum was from one to two inches high.

The soil was irrigated prior to planting in addition to three waterings during the growing period. A total of 32.4 inches of moisture was available from the time the preplant irrigation was made in April to the end of the growing period on October 1. Of this total 15 inches were

applied through irrigation with 17.4 inches of rainfall.

The two interior rows of each plot were harvested on November 15 to determine yield. The yield data are the average of four replications.

Yield data for one year are not adequate to use as a basis for making fertilizer recommendations but these results indicate that nitrogen alone at the rate of 120 pounds per acre will give the greatest yield increase and net return per acre of any of the rates tested thus far.

Fertilizer for this test was contributed by Phillips Chemical Company and Plainsmen Fertilizer Company, Plainview.

(1) Figures refer to pounds of nitrogen, P205, and K2O applied per acre. 40-80-0 means 40 pounds of nitrogen, 80 pounds of P205, and 0 pounds of K2O.  
(2) Yields are in pounds of grain containing 13% moisture.  
(3) Nitrogen calculated as anhydrous ammonia at \$120 per ton and 45% super at \$72 per ton.  
(4) Net return equals value of increased yield less fertilizer cost with grain sorghum calculated at \$1.65 per 100.

One of the favorite accompaniments for fish with people in the South is Hush Puppies. It would be interesting to know where, when and how the name originated. From the sound of the name it seems that maybe it is just something that is cooked then thrown to the dogs but this doesn't seem likely.

**Ingredients:**  
1/2 cup sifted flour  
1 tablespoon baking powder  
1 tablespoon sugar  
1 teaspoon salt  
1 1/2 cups white cornmeal  
3/4 cup milk  
1 small onion, grated  
Combine dry ingredients then stir in milk and grated onion. Drop bite size hush puppies into hot fat. When golden brown remove and drain on absorbent paper. This recipe should be excellent for use in a deep fat fryer.

There is really nothing that quite compares with the beauty and aroma of baked breads. Hot breads should not be treated casually. By including either of the following recipes on an ordinary menu, you can easily turn a regular meal into a special occasion.

 3/4 cup molasses  
 1 cup boiling water  
 2 1/4 cups sifted flour  
 1 teaspoon soda  
 1/2 teaspoon salt  
 1 teaspoon ginger  
 1 teaspoon cinnamon

Mix together shortening, sugar and eggs; blend in molasses and boiling water. Sift flour, soda, salt, ginger, and cinnamon. Add to blended mixture and pour over apple mixture.

To prepare the apple mixture, melt 1/4 cup butter in a 9x9x2 pan. Sprinkle 1/4 cup brown sugar evenly over butter. Drain a No. 2 can sliced apples and arrange slices on sugar mixture. Bake 45 minutes in 325 degree oven. Remove and immediately turn upside down on serving plate.

**THE PARMER FARMER**

by W. H. Graham Jr.

Somehow or another, we got it into our head that the paving running eastward from Lazbuddie had been extended to the Parmer-Castro County line. Last week, when we had occasion to run over to Hart in southeastern Castro County, we decided to go this route.

Although we thought the paving had been installed, it definitely has not. We dropped off the pavement a couple of miles from the county line. Apparently, paving is in the works but not yet installed, and we just got a little bit ahead of things.

Also, we thought that when we got to the county line, we were within two or three miles of pavement in Castro County. We have always had the notion that there is an east-west strip that is a short distance away from where the Parmer County road will end.

However, we failed to find it, and must assume that we were ahead of the Highway Department in this category, too. However, the highway boys slipped one by us when we proceeded a little further east and crossed, unexpectedly, a north-south paved road that appears to run from Earth, in Lamb County, southwest of Dimmitt. It wasn't on our map, and we didn't even know the road existed.

We knew we were at approximately the right latitude to find Hart when we dropped off the pavement near Lazbuddie back in Parmer County, so we tried to keep track of our north-south jogs and move due eastward. This was not always successful, however, on account of correction lines and unopened roads. Trying to cross Running Water Draw at such a shallow angle made it hard to find roads where we needed them to be.

We finally made it to Hart, but our head was spinning several times before we figured things out. We don't recommend this route to strangers to that part of the Plains as it can get confusing.

While wandering around in Parmer and Castro Counties, looking for paving that wasn't there, we had a good chance to see some high class farming country—and it was our first visit to several places.

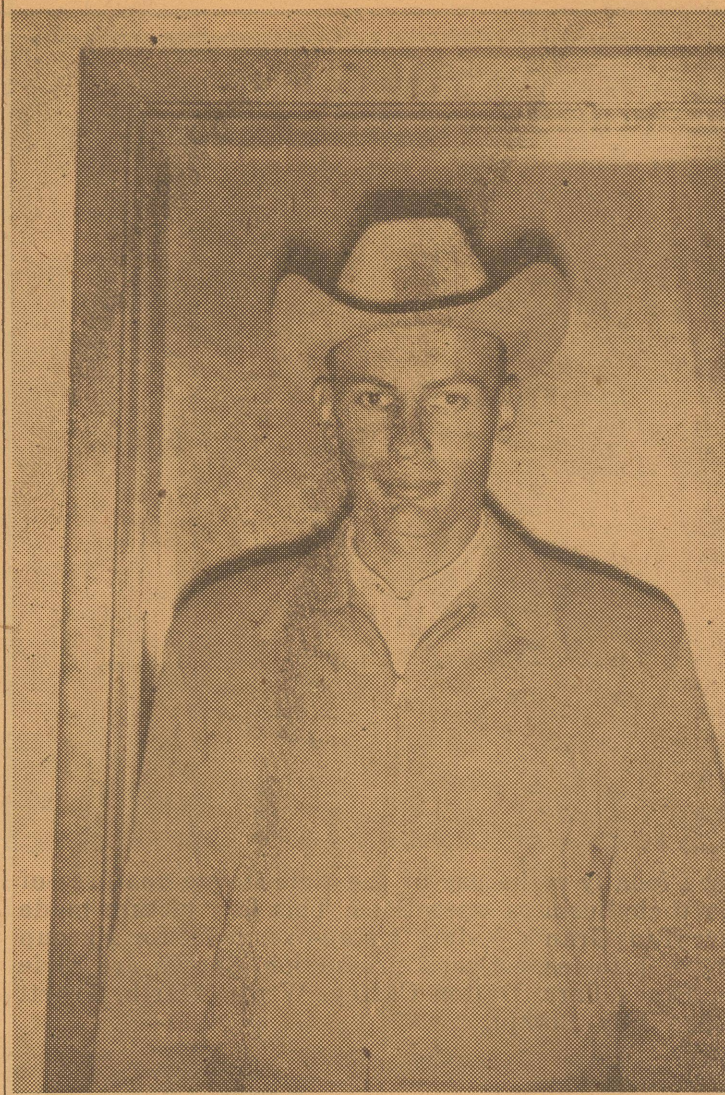

One does not realize and appreciate the magnitude of High Plains irrigated farming until he attempts to cross the farm-land "country style" at 40 or 50 miles an hour instead of 60 or 70 on a modern highway. It's really a sight to see.

It was surprising to see how much land had been "flat broke" in that central part of the High Plains. Their soil conditions are much wetter than ours in Parmer County. They have measured more than twice as much rain and snow as we have in the past eight or nine months.

In fact, we saw several farmers already at work giving their wheat its first watering. And, the wheat didn't seem to be "hurting," either. Guess they were just playing it safe.

Few people who live on the Plains ever stop to think that Running Water Draw is the biggest "river" of the High Plains. It heads up near Field over in western Curry County, and then begins a southeasterly trek to the edge of the Plains in southern Floyd County, where it jumps off into a canyon and is then known as the White River, a northern tributary of the mighty Brazos.

This draw at certain times of almost every year carries a lot of water, although, admittedly, little pours off the Plains. Usually, runoff from a rain on one part of the watershed will be soaked up in another part be-

**Robert Zetsche New SCS Man**

A newcomer to these parts is the new area soil conservationist, Robert Zetsche, 26, who moved into Friona last week. The new conservationist and his wife, Carol, and 3-month old son, Robert W., moved to Friona from Dalhart.

Zetsche is a native of Bowie, Texas, and was graduated from Bowie High School in 1949 and attended college at Arlington State where he began his studies for animal husbandry and agronomy.

After a 2-year hitch in the U. S. Army, he returned to Texas and attended Midwestern University in Wichita Falls, where he was graduated in 1955. After graduation Zetsche worked for the T-Bone Ranch of Wichita Falls and then went with the Soil Conservation Service in 1956.

Mrs. Zetsche is a native of Fort Worth. Milk production in 1958 is likely to show its sixth consecutive annual increase, reports Extension Economist John McHoney. He adds there is a good possibility that average prices will not be as high as in 1957.

The danger is using LPG for inflating tractor tires. The publication "The Butane Vaporizer," of the Texas Butane Dealers Association, says "This death inviting time-saver is more widespread than has been realized."

The tire repair people are in the hot spot, the article says, because reports of the practice have come from them. Although no serious accidents have been reported as a result of this practice, there could be big trouble ahead if it is continued.

Think of the repairman who might try to put a hot patch on a tube that had LPG used to inflate it. Likely the repairman would need patching more than the tire when the smoke died away.

Using LPG in this way might be handy at times, but is not very safe anytime. A calculated amount of calcium chloride dissolved in water would keep the tire weighted, and not freeze, and the ordinary pressure water system can be used to give the tire enough pressure to stand up.

Even a few hundred strokes of an old fashioned tire pump should not be too discouraging in view of the danger of LPG when used to inflate tires.

**Two 4-H Members Have Gold Stars**

Highlighting the County 4-H Achievement Day program Saturday night in the Bovina Auditorium was the presentation of Gold Star Awards to Judy Billingsley and Richard Chitwood.

Top awards for which 4-H members can qualify, the Gold Star Awards are presented by the Agricultural Extension Service, College Station. To be eligible, a youth must be a 3-year 4-H member, have a well-rounded program of 4-H projects in leadership and demonstrations, and be 14 years old.

Miss Billingsley is a member of the County-wide Girls 4-H Club, and Chitwood is a member of the Lazbuddie Senior Boys group. Both are vice chairmen of the county 4-H council.

Guest speaker for the occasion was Miss Edith Lois Wilson, district extension agent from Amarillo. Other features on the program were slides and movies of 4-H activities, and special awards for adult leaders.

Frankie Coffman received the achievement award. He is a member of the Farwell Night Hawks. James Stevens of Bovina received the leadership award.

Clothing awards went to Gladys Dean, Rhea; Iva Ben Parr, Black; Billie Barnett, Black; and Tommy Lovell, Black. Other recipients included Barbara Rea, County-wide, dairy foods demonstration; Gary Foster and Gerald Foster, Lazbuddie, dairy; Beverly Smith, County-wide; Sandra Patterson, Rhea; and Barbara Fallwell, Friona Junior Club, dress revue;

Also Randy Price, Johnny Mabry, and Joe Bob Johnson, Friona, and Gary Mac Brown, Lazbuddie, field crops; Also Virginia Rea and Lexie Stevenson, County-wide, food preparation; Kenny Smith, Farwell Seniors; Bill Quickel, Farwell Juniors, and Paul Wilbanks, Lazbuddie Seniors; garden; Patricia Chitwood, Lazbuddie Juniors; Lindy Dean, Rhea; Patricia Fallwell and Cordelia Parr, Friona Juniors, girls home economics;

Also James Brown and Eugene Houston, Lazbuddie Seniors, and Johnny Miller, Friona Seniors, boys' agricultural; Glendale King, Lazbuddie, beautification of home grounds; Miss Billingsley, home improvement; Gary Stevenson, Bovina Boys Club, poultry; Jim Roy Wells and Tommy Tatum, Friona, and Eugene Houston, Lazbuddie Juniors, meat animal; and Cooper Young, Lazbuddie Seniors, and James Stevens, Bovina, recreation.

Knox Parr, district extension agent from Amarillo, made the presentations. A special award went to Gene Rea of Bovina in appreciation of the record player and speaker system he donated to the county clubs. Other adult leaders receiving awards included Gilbert Watkins, Sterling Donaldson, J. T. Jones, Mr. and Mrs. Ellis Tatum, Mr. and Mrs. James Mabry, Mr. and Mrs. Dee Chitwood, J. B. Young, Mrs. Gene Rea, Mrs. Leon Billingsley, Mrs. Doris Hall, Mrs. Jack Patterson and Mrs. Elmo Dean.

**Weather Hinders Work**

Farmers anxious to get on with their traditional "winter chores," which may turn out to be "spring chores," are again hampered this week by inclement weather.

Biting cold and some moisture in the form of drizzle, sleet and snow has bogged down or stopped cold plowing, fertilizing, corn shelling, and other such work.

Farmers are showing irritation at the unwanted delay, which is especially troublesome since they came into 1958 a month to six weeks behind schedule following the slow harvest anyway.

On the other hand, anything wet is usually regarded as a blessing on the High Plains, and over the years, farmers have come to make a practice of not complaining about wet weather when it does come.

It might be said that right now they have "mixed emotions."

**Tech Slates Sessions**

Two conferences of interest to West Texas farmers and agriculture dealers will be held at Texas-Tech in the next two weeks.

Twenty-nine specialists will speak at the fourth annual Grain Drying and Storage Conference slated there February 20-21.

Sponsored by 21 organizations, the Tech conference will cover sanitation, moisture measure-

ments, aeration and effects of storage on nutritional qualities of grain. Also scheduled are talks on causes of grain spoilage and effects of storage methods on grain for feeding.

Authorities on use of chemicals in West Texas farming operations will meet at Tech February 25-27.

Planned primarily for agricultural chemical dealers, distributors, processors and manufacturers, the meetings are open to anyone interested in these chemicals, their distribution and use.

Sponsoring the fifth annual agricultural conference are Texas Tech, the West Texas Chamber of Commerce, the Lubbock Chamber of Commerce and the A&M College System of Texas. The fee is \$2.

**New Ways With Apples**

Try new tricks with apples and make them real treats. Leave the bright red peel on apples, cut into wedges and use to decorate a meat dish. Extension foods and nutrition specialists say the color adds appeal and primes the appetite. The tartness and crispness of the raw apple brings out the flavor of the meat.

A good eye-opener for breakfast features diced raw apples covered with chilled apple juice. This is tasty eaten as a side dish with bacon, ham or pork chops. You can vary this recipe by using pineapple or grapefruit juice.

Apples make an ideal extender for leftover ham, roast turkey or roast chicken. Dice the apples and meat in bite sizes and bind together with mayonnaise, adding celery, nuts and other ingredients as you like.

For an appealing sandwich tray, core apples and slice crosswise into circles. Spread with bacon crumbs, cottage cheese, deviled ham or cold cuts.

Be adventurous and inventive when you use apples; they combine well with almost any food.

**Setting or Resetting Shrubs**

Now is a good time to organize shrubs into screen or foundation plantings around the home, according to Miss Sadie Hatfield, extension homestead improvement specialist. Any shrubs that dot the lawn and complicate moving may be reset at this time.

Consider potential size of the tree or shrub, when choosing a location for setting or resetting. Large growing plants are not suited for planting around the walls or foundation of the average home. They do make excellent screen plantings to give privacy to the work or recreation area of the

landscape. Some large plants that require very little water are the althea, ligustrums, Arizona cypress, cherry laurel, crape myrtle, evergreen sumac and others. Nearly all of the hollies should be used in screen planting rather than placed around the house.

Shrubs for foundation plantings should be in proportion to the size of the house. For the low, ranch type house, which is very popular now, true shrubs, that is shrubs that will not grow over 8 to 10 feet, are best suited. There are many shrubs that are drought and insect resistant. Among these are rosemary, lavender, the dwarf junipers, spirea, dwarf pyracantha, nandina, abelia, native agartia and others.

Proper location of shrubs will not only save work in pruning and care, it will add to the attractiveness and comfort of the home grounds.

A good quality chick is worth the extra cents it costs. Good layers cannot be developed from low quality chicks, says Ben Wormeli, extension poultry husbandman. Developing good layers, he adds, also calls for the use of the best known management practices and these start even before the arrival of the baby chicks on the farm.

Nature is a mutable cloud which is always and never the same.

Parmer County farmers occasionally make use of the time-saving features of air travel to assist them in their business operations. This is a picture made at Harlingen in the Lower Rio Grande Valley, a stop-over point for a group which flew to Mexico last week to inspect seed production. Shown are Elvie Jennings, F. W. Holcomb, Bruce Parr, Dalton Caffey, Wayne Garth, Truett Johnson, Doyle Shearer, and Roy Botkin.

Here the men go into a field of Texas Hybrid No. 610 to look over test plots near Tampico, Mexico. Growth such as is indicated here is obviously possible only in greenhouses at this latitude—considering weather we have been having of late. In this picture are Caffey, Johnson, Holcomb, and Parr.

Phoenician tombs estimated to be 3,000 years old have been unearthed by heavy construction machinery at Rota, Spain, where the U. S. Navy is building a modern air-sea base.

## Four County Men At Bureau Meet

Four Parmer County Farm Bureau leaders left for Austin Wednesday to attend the annual membership chairman's rally there on Thursday. Leaders from all organized counties in Texas are meeting to map plans for securing the state quota of 80,000 members. Membership at the close of 1957 was 72,500. Attending from Parmer County are Jack Patterson, county vice-president, from the Rhea community; J. D. White and L. F. Bruns, director, from the Lazbuddie community; and M. T. Glasscock, director, from Farwell. The men plan to return Friday. Parmer County's Farm Bureau membership drive will begin following a kick-off banquet for workers in the Farwell School cafeteria on February 24.

## Parmer Counties Inspect Test Plots

Six Parmer County farmers, who have plots of hybrid maize growing near Tampico, Mexico, spent several days last week inspecting the plots and fishing in the Panuco River. They made the trip in two planes which were piloted by Elvie Jennings of Friona and Roy Botkin of Summerfield. Others making the trip were F. W. Holcomb, Truett Johnson, Doyle Shearer, Dalton Caffey, Bruce Parr, and Wayne Garth. On the way down they stopped at Uvalde and Brownsville. On the return trip, stops were made at Brownsville, Harlingen, Uvalde, and Big Spring. The round trip was about 1900 miles by air. Reports indicate that the men were favorably impressed with growing conditions in the section of Mexico they visited. The weather was nice and fishing was fair. The four fish which were caught weighed about 40 pounds and were tarpons and yellow-tails.

## NEWS FROM THE FARM BUREAU

By RAYMOND EULER

Jack Patterson, vice-president and membership chairman, has more people buzzing around getting ready for a county wide canvass for Farm Bureau members than we have seen in quite a while. Unless we miss our guess membership will exceed 600 by victory meeting time, March 3.

President Kaltwasser and all the other officers and directors are giving full assistance where and whenever they can. The kick-off banquet, which is reserved for invited workers and guests, will be in the Farwell School Cafeteria February 24. The following Monday night will find the workers gathering in the Friona School Cafeteria for their victory reporting meeting. These meetings are two of the most interesting and lively meetings of the year held in the interest of agricultural people.

Everybody who has spent time in studying and working for improved agricultural situations knows that there is no single, simple solution to the problem. They also know there is no permanent solution to the problem, just as there is no permanent solution to other problems of great magnitude in America or the world.

America has stood, and will continue to stand, as a bulwark to freedom so long as she continues to produce men and women who are willing to face the facts and give themselves for a better America. From there, as in the past, better conditions can be made possible for other parts of the world.

There is no possibility of a successful compromise with "One World" government ideas unless we are willing to drag the better governments and their peoples to the levels of the poorest. We don't believe anyone who has enjoyed American citizenship is willing for this to happen. It is much better to be in a position to give assistance, rather than having to ask for it, especially if there should be no nation able to give such aid.

Consider this: For three things the earth is disquieted, and four which it cannot bear: For a servant when he reigneth; and a fool when he is filled with meat; . . . Proverbs 30:21-22.

Voice: "Yes. This is the second hand store."  
Goofy Gus: "Well, I want one for my watch."

## HD Council

### Picks Delegates

The Parmer County Home Demonstration Council met Monday afternoon in the district courtroom at Farwell. There were 17 members and five visitors present, with nine clubs represented. Club reports were given for Black, Bovina, Friona, Hi-Point, Hub, Lakeview, Northside, Rhea, and Oklahoma Lane. Recommendations for the standing committees of THDA were voted on and adopted. Maxine Price, Elizabeth Carmichael, and Loretta Brookfield were elected as delegates to the district THDA convention to be held in Stratford on April 10. Alternates are Canevah Turner, Mary Bandy, and Helen Fallwell. A lampshade workshop will be held in the American Legion Hall in Friona on February 19.

## A Few Decades Past . . .

### A NEWSPAPER WAS A RARITY IN MANY AMERICAN COMMUNITIES!

Then—a newspaper was a thing to be marveled at—for memories of the Press' fight for freedom were fresh in mind. Although newspapers are common in our country today, their existence should not be taken for granted. It is a wonderful fact that almost all of our modern communities have their own hometown newspapers, freely edited by members of their own communities—spreading the news, stimulating the business of the community, and keeping their readers informed of important events elsewhere. It is well to keep in mind that a free press and a free people are an unbeatable team.

### CECIL OSBORNE JOINS PARMER COUNTY FARM SUPPLY

Cecil Osborne has joined Parmer County Farm Supply in Bovina. He will be working with the firm as salesman and clerk, and his association with the farmer's supply business marks an expansion in personnel to better serve the farmers of the county. Parmer County Farm Supply is a relatively new business, having been established in the month of June, 1957. Products handled include fertilizer, both wet and dry, several lines of planting seed, and a complete stock of fan belts and small tractor accessories. Bud Crump, Osborne, Ike Wilcox, and Doris Strawn round out the staff of the business. Your needs for items that the business handles will be given prompt attention.
