20,000 Persons Spend Holiday at Lake Cisco

OLD HOME TOWN

Temple Bowen of Bowen Bros., operator of Fort Worth, operators of West Texas Coaches, was in Cisco Monday investigating conditions at Lake Cisco with a view to putting on bus service between the city and the lake, if the business should justify. After seeing the thousands who swarmed to the lake Monday, Mr. Bowen said he was convinced the traffic would prove profitable, and that he would recommend putting on the bus. Mr. Bowen asked what the name of the chairman of the committee in charge of the July celebration was, stating that he wanted to donate to the fund for expenses.

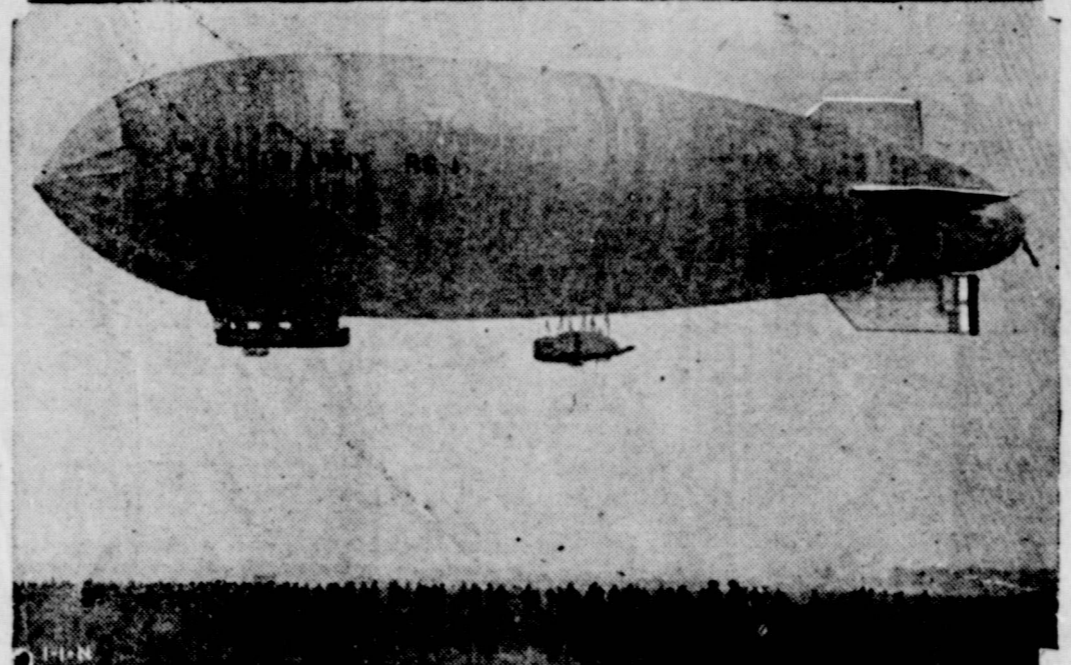

HUGE CROWD HANDLED IN GOOD MANNER

Figures of the amusement company showed that more than 2,000 persons went in swimming during the day, while many thousands of others lined the beach or patronized the other amusements at the lake. The bath house was taxed beyond its capacity at times, and it became evident that in the future additional arrangements will be necessary to care for big crowds. Many also went fishing and boating during the day, while the dance Monday night attracted a large crowd until midnight.

SIX INJURED IN CAR CRASH NEAR DOTHAN

Six persons were injured, one seriously, about 11 o'clock Monday night at Dothan when the automobile in which they were riding turned over. All except Miss Lenore Blakely of Baird were able to leave the hospital here, where they were rushed after emergency treatment had been given them, but Miss Blakely is still confined to the hospital. She is suffering from a hemorrhage of the lungs, caused by being crushed beneath the car when it overturned. She is reported as resting nicely.

ARMY'S LARGEST DIRIGIBLE TO TOUR SEABOARD

The army's largest dirigible, the RS-1, is to tour the eastern part of the country. It will float from Scott Field, Belleville, Ill., to Langley Field, Va., to Bolling Field, Washington, to Lakehurst, N. J., to Boston and back to Lakehurst, then to Buffalo, and home to Scott Field.

Attorney General Pollard Starts Campaign Against Gambling Halls In Southern Portion of the State

AUSTIN, July 5.—Carrying out his threat to take a hand in closing road houses in Harris, Galveston and other Texas counties Attorney General Pollard today obtained an injunction against operation of Loma Linda, Fort Bend county resort, 12 miles from Houston. The injunction was obtained by the state from Judge N. S. Munson of Angleton, and restrains the resort from operating a road house and a gambling den. No arrests have been made so far, the attorney general said. Similar action will be taken against other alleged gambling houses and road houses unless speedy action is taken by the authorities.

ROTARY CLUB COMMITTEES ARE SELECTED

FOURTH TAKES TOLL OF FOUR TEXAS LIVES

FORT WORTH, July 5.—A check up of casualties resulting from the Independence Day celebration yesterday today revealed that four were dead, three probably fatally injured, and more than a dozen others were suffering from minor injuries. Firecrackers were not responsible for any injuries.

E. E. Keen Has Returned Home

E. E. Keen has returned home from Temple after having been treated at a sanitarium there for some time. Mr. Keen appeared much improved, and said he was feeling considerably better.

"I've Made a Discovery," Said Farmer

"I've made a discovery," said "Skeet" Wilson, Cisco dairyman and farmer Tuesday. "I found blister bugs infesting my tomato crop today, and I feared great damage. I tried everything I could think of to get rid of them but they kept on their job. Finally I happened to take a fly spray and shot its contents on the bugs. They left in a hurry, and most of them died before they got ten feet away."

J. Thad Johnson, Killed as He Was Landing at the Flying Field at Ottawa, Canada, After Accompanying Col. Charles A. Lindbergh

J. Thad Johnson, killed as he was landing at the flying field at Ottawa, Canada, after accompanying Col. Charles A. Lindbergh there last Saturday, formerly lived near Scranton and taught school at Sabanno about 15 years ago, according to Walter L. Boyd. He was a graduate of Trinity University at Wapakoneta, and was a Presbyterian minister before entering the air service. Mr. Boyd said he knew Johnson well, and that he was well thought of in the Scranton and Sabanno communities.

Rev. P. T. Stanford Returned from Temple Last Night, Where He Conducted the Funeral of Miss Arlene McDonald

Rev. P. T. Stanford returned from Temple last night, where he conducted the funeral of Miss Arlene McDonald. Miss McDonald was president of the State Graduate Nurse association, and superintendent of the Temple sanitarium.

CROSS PLAINS REVIVAL WILL OPEN TONIGHT

Rev. J. H. Lenox, pastor of the First Christian church here, will begin a revival meeting at Cross Plains tonight, using the Baptist tabernacle there for the services. There is no church of his denomination at Cross Plains, but it is hoped that one will be organized or that a "Cross Plains roll" can be added to the roll of the Cisco church, just as has been done at Putnam.

Oil Man Freed From State Pen

OKLAHOMA CITY, July 5.—The state court of criminal appeals today ordered the release of O. O. Owens, state legislator and millionaire Tulsa oil operator now serving the second month of a year's sentence imposed by the state supreme court for contempt. Presiding Judge Thomas H. Doyle rendered the opinion which said that the supreme court should have disqualified itself collectively in the Owens case on the grounds of personal interest. The decision also said the sentence was excessive.

CHRISTIANS IN CISCO TO PICK CAMP

East 12 of lots 1 and 3, 23, Daugherty addition, 2d. Deed, T. A. Russell in D. Seale, \$150. West 12 1 and 3, block 23, Daugherty addition, Eastland. Deed, O. W. Hanson to Mrs. Emma R. Mathey.

LEON MANER SOLE OWNER OF STORE NOW

Leon Maner has now become sole owner of the City Drug store here, it was announced Tuesday following completion of a deal whereby he has purchased the interest of Mrs. Bea McLinton and Marvin T. Turner in the store.

President Has Entry in Rodeo

RAPID CITY, July 5.—President Coolidge went by down east prepared today to leave here about noon for Belle Fourche, S. D., where he will take in a little of the more spirited entertainment they furnish way out west. Especial interest in the round up is being manifested by the presidential party because they have their own entry, "Dakota Clyde" Jones, in the rodeo contest. He is game warden here Clyde, who held the broncho busting championship two years ago, entered the rodeo by request of the president. Reports today indicated that Clyde more than held his own in preliminary contests.

Hawaii Flyers Will Leave Plane Behind

HONOLULU, July 5.—Lieuts. Lester Matland and Albert Hegobeger will take their last spin today in the big Fokker in which they flew here from California. The Fokker will remain in Hawaii and Inter-island flying Matland and Hegobeger call for Oakland tomorrow.

FOURTH SEES FEW BREAKERS OF LAWS HERE

The Fourth of July passed off quietly in Cisco, so far as law-breaking was concerned, according to the police station. R. C. Hayes, Mrs. Charles J. Gyr and S. W. Manning reported theft of castings and films from their cars during the week end and holiday. One youth was arrested at Lake Cisco for an attempt to steal a bathing suit from the bath house. A woman telephoned the police station at 4 a. m. that a truck with a tool car body had been parked in front of her house for some time, and that she thought the occupants had left a pint of whisky on her sidewalk. According to the notice on the blotter, "she did all the talking" and hung up the receiver before telling who she was or where it happened.

AMERICAN NETSTERS SWEEP TOURNAMENT

WIMBLEDON, Eng., July 5.—Lacking only the men's singles to complete a clean sweep of the all-comers contest here Americans completed one of greatest tournaments ever held here, today. The final two championships remaining in play were taken consecutively today by Helen Wills, singles champion, and Elizabeth Ryan, who rushed through Mrs. Penseck and Miss E. L. Helne for a straight set win of the women's doubles titles, and by Francis T. Hunter and Miss Elizabeth Ryan who defeated the British pair, Mr. and Mrs. L. A. Godfree for the mixed doubles title. Miss Wills and Miss Ryan won the women's doubles match 6-3, 6-2. Hunter and Miss Ryan won the mixed doubles 8-6, 6-0.

\$150,000 to Entertain American Legion

PARIS, July 5.—An indication of the welcome members of the American Legion will receive in France this year was given by the French government today when it requested the chamber of deputies to vote a credit of \$150,000 for entertainment of the legionnaires during their visit here.

U. S. Opposes Increase in Total Cruiser Tonnage; Would Cost Big Sum to Bring Us Up to British

WASHINGTON, July 5.—The American government is not prepared to sign any cruiser agreement at Geneva that would allot to the United States and Britain more than 400,000 tons of cruiser strength. It was made plain here today. If the British demand for 600,000 tons is persisted in, the American delegation will permit the conference to break up with no limit placed on cruisers. As a matter of fact, this government is extremely loath to see the cruiser limit go from 250,000 to 300,000.

HUNT NEGROES AFTER SLAYING OF 4 TEXANS

CLARENDON, July 5.—County officers of Donley county today are making a search for murderers of Frank Weatherly and his wife and two children whose bodies were found in a badly decomposed condition yesterday. Neighbors who became alarmed at the continued absence of the family since June 23, when they were last seen, entered the home and found Weatherly dead in one room, and in another found Mrs. Weatherly and two children. Under their bodies officers found a hammer and crow bar. Mrs. Edward Cries went to the Weatherly home June 23 to take Mrs. Weatherly for a visit. Some negroes who worked in the farm told her Mrs. Weatherly had taken ill and had been taken to Wellington to a hospital by her husband. Since then the negroes have disappeared, as has Weatherly's new automobile.

Seven Cities Promise Entries in Cisco Bathing Girl Revue July 22; Church Encampments Investigated

Delegations and entries of bathing girls in the bathing girl revue here July 22 at the dedication of the various projects at Lake Cisco were promised by Rising Star, Brownwood, Lampasas, San Saba, Fredericksburg, Junction and Menard, according to J. E. T. Peters, secretary of the Cisco chamber of commerce, who has returned from a trip to the points named. Mr. Peters made a trip of 922 miles, leaving here at 10 a. m. Saturday and returning at 10 a. m. Monday, and advertised the big celebration scheduled here, and investigated church encampment sites and equipment at Lampasas, San Saba, Kerrville and Menard. He placed highway signs at strategic points showing the mileage to Cisco. One of these was placed at the southern terminus of Highway 23, a distance of 201 miles from Cisco, where it converges with Highway 27 four miles north of Junction.

BYRD PLANS TO SAIL HOME WITHIN WEEK

PARIS, July 5.—Commander Byrd and his companions, Bert Acosta, George Noville and Bert Balchen are planning to sail for the United States on one of the big liners the middle of next week. This announcement was made this afternoon after they had returned to Paris after spending the forenoon with French flyers at LeBourget flying field. While at the field, they passed at the table at Civalis field to commemorate the landing of Lindbergh.

POLLUTION WILL BRING ON CHARGES

AUSTIN, July 5.—Orders were issued today to institute criminal proceedings against oil companies operating in Texas unless pollution of stream and lake water is ended. Judge J. R. Smith, director of natural resources of the game, fish and oyster commission was notified today. Judge Smith reported that pollution of water was especially bad around the Vernon oil fields and that deputies of the department had collected evidence preparatory to filing 27 cases against oil companies operating around Fort Worth and Dallas notice that pollution of the Trinity river must be stopped.

Gold Medals Struck In Lindy's Honor

PARIS, July 5.—Two gold medals commemorating the epochal flight of Charles A. Lindbergh to Paris were struck by the French mint today. Minister of Commerce Bokonovski handed the medals to Sheldon Whitehouse United States charge d'affaires. One of the medals is to be given to Lindbergh, and the other to President Coolidge.

Million and Half Tool Order is Up

AUSTIN, July 5.—The board of control today was deliberating on bids submitted for the purchase of \$1,500,000 worth of highway equipment. The highway department already has made its recommendations to the board. Contracts will be awarded this week. It is expected.

JUDGE J. H. MILAM IS DEAD AT SEYMOUR

SEYMOUR, July 5.—Judge J. H. Milam, 56, of the fifth judicial district, died Sunday at his home here following an illness of several days. Judge Milam came to Texas in 1908 from Warrenton, N. C., and settled at Benjamin, moving here in 1914. He was serving his fifth term as district judge. Funeral services were held at 4 o'clock Monday afternoon from the First Methodist church, of which he was a member.

LEON MANER SOLE OWNER OF STORE NOW

LEON MANER has now become sole owner of the City Drug store here, it was announced Tuesday following completion of a deal whereby he has purchased the interest of Mrs. Bea McLinton and Marvin T. Turner in the store.

TRAFFIC IS NORMAL WITH BRIDGE OPEN

Traffic over the Bankhead highway to Fort Worth had returned to normal Monday following the collapse of the bridge over the Brazos river four miles west of Mineral Wells Saturday night, and the collapse of a bridge over the same river on a detour about 20 miles north of Mineral Wells near Graford Sunday noon. In the latter accident, W. W. Weteris, 20, employed by a Dallas truck company, was killed, and his companion, Ray Jordan, escaped death by clinging to the steel work of the bridge.

WOMAN YEGG BLOWS SAFE AT FT. WORTH

FORT WORTH, July 5.—County officers here today were asked today to look out for three handies, one of whom was a woman, who today blew a safe of the Quick Tire Service company here and escaped with \$150 cash. In their haste, they overlooked \$500 in currency in a money sack. The handies were pursued for ten miles out of the city by police who became mired on the Weatherford road.

NEW WELL AT PECOS FLOWS 200 AN HOUR

SAN ANGELO, July 5.—The tenth flowing well in Pecos county resulted Saturday from the Mid-Kansas and Transcontinental No. 2-B Yates, which flowed 200 barrels an hour from noon Saturday until drilling ceased at dark at 1,355 feet.

LLANO CHAMBER TO MAKE HOTEL SURVEY

LLANO, July 5.—The Llano chamber of commerce has entered into a contract with James C. Trostle to have a survey made here concerning the proposition of a new hotel. Trostle has met with the executive committee of the local chamber and others interested in the project, and is now preparing the survey for his company.

BUILD LOADING RACK

CARBON, Eastland Co. Texas, July 5.—Chestnut & Smith, who are erecting a gasoline plant six miles southwest of Carbon, have contracted for a tract of land adjoining the Katy tracks on the west edge of Carbon, and construction is to start at once on a loading rack that will load ten cars of gasoline at one time.

AUSTIN—Bids for \$1,800,000 of highway maintenance machinery

AUSTIN—Bids for \$1,800,000 of highway maintenance machinery were opened today.

MEN WILL COOLIDGE THEIR DESIRE

ADO SPRINGS, July 5.—For equal rights for women put squarely up to President Coolidge. If militant demands of the annual convention of the National Woman's party, to be held July 7-10, have their way, the president's piscatorial activities and the streams adjacent to the white house in the state of South Dakota will be visited by an automobile of ardent feminists who will from Colorado Springs City for the purpose of fully acquainting the chief executive with the demands they plan to present at the next session of the complete equality of the sexes.

Coolidge will be asked by the equal rights for women to support a new amendment to the federal constitution.

Wants Big Caravan

for the equal rights caravan made during the convention, according to Miss Rebecca, vice chairman of the state branch of the Women's party who is already in Colorado. The caravan is to mark the centennial of the convention. It will consist of a number of automobiles of American women for the purpose of making a message delivered for the national advisory committee composed of 43 women from 21 different states. The caravan will be the point which Miss Coolidge's stress in her talk on the international struggle for equal rights which will culminate in the 17th to the constitution was six years after the suffrage women victory.

Geo. M. Bailey, Editor Dies

ON, July 5.—Col. George M. Bailey, one of the outstanding newspaper editors of the Post-Dispatch, died in a hotel here last night. He had given for a century to his newspaper. He had carried him through illness which slowly weakened his strength and had for several months. He was 80 years of age. He was one of the 20 outstanding editors to make a tour of study of its political, social and economic aspects for the foundation. He was an elaborate testimonial, attended by scores of influential persons of the city. He was to start in July a month ago. Colonel Bailey was unable to go. He had been confined to bed. Funeral arrangements have not been announced.

5 cents—A Good Clear.

Miss Ramey Has Busy Week Ahead

Miss Ruth Ramey, Eastland county home demonstration agent, has a number of club meetings planned for this week.

Tuesday morning she held a canning demonstration near Dotlan on the Penn farm, and will have a special meeting with the Okra club women in the afternoon.

Wednesday a meeting of the Rising Star club will be held and Miss Ramey will attend.

Thursday, in the forenoon, a canning demonstration will be held on the Skinner farm. Thursday afternoon Miss Ramey will meet with the Seranton club women in a special meeting.

Friday both Miss Ramey and County Agent Patterson will meet with the citizens of the Luther community to plan for the community fair this fall.

Friday night a meeting has been planned for Flatwoods at which time a community fair for this fall will be discussed.

N. Y. TO LONDON AIR PASSENGERS TO FLY SAFELY

LONDON, July 5.—While agreeing with Lindbergh and Chamberlin that a trans-Atlantic air passenger service is feasible and will become a reality in the near future, Sir Arthur Whitten Brown, who with the late Sir John Alcock made the first flight from east to west across the Atlantic eight years ago, believes that it will be by airship and not by airplanes.

Discussing the significance of the Lindbergh and Chamberlin flights, Sir Arthur said: "Without being the least dogmatic, I am certainly confident that within a short time, possibly a very short time, we shall think to more of passengers flying regularly from New York to London or Paris and vice versa than today we think of them flying regularly between London and Paris or London and Berlin."

Prefers Airships

"But," he added, "so far as one can anticipate the future, it seems to me to indicate that a trans-Atlantic air passenger service will be an affair of airships rather than airplanes. There is one real and ever present airplane risk which negligible in flying across country, where a pilot can choose a landing place, would lead to disaster over the Atlantic, and that is engine trouble."

"Again, if a service is to be maintained on a commercial basis the airplanes that have crossed direct from America to Europe must be able to fly back from Europe to America. And we have still to wait for the pioneer flight that will show us that this is feasible."

"Further, it is reasonable to expect to find pilots who are willing to go without sleep for 36 hours with the responsibility of the lives of others in their charge. An additional pilot would mean carrying more gas or the margin of safety being reduced."

Meet Less Obstacles

It seems to me that there are less obstacles to be overcome in the establishment of an airship service. In the first place, the airship is supported by the air, as a ship is supported by the water. In an airship engine trouble can be dealt with while the airship is still supported in and by the air. Serious engine trouble in an airplane means that it has to come down."

"What I envisage as most likely to happen in the near future, and what I forecast as the normal line of development, is the use of the airship for long distance travel, with the airplane as a subsidiary and feeding service. One cannot ignore the advantages the airship possesses in respect to long distance air travel."

HOOVER PLANS TO CALL AIR CONFERENCE

WASHINGTON, July 5.—The United States government, through the department of commerce, has been quick to respond to the keen interest in aviation which has developed following the trans-Atlantic flights.

Secretary of Commerce Hoover is planning to summon an aviation conference to be held in the autumn which will endeavor to launch the United States on a commercial aviation program which may equal that being carried out in European countries.

"Domestic Air News," a publication issued every fortnight, has been launched by the department of commerce, to give information concerning commercial aviation.

"Airway maps," similar to road maps used by motorists, are now being prepared.

The department of commerce has also created a special bureau in the establishment of municipal airports, which are now springing up all over the country.

ACTRESS GIVEN YEAR

LOS ANGELES, July 2.—Dorothy Mackaye, stage actress, today was sentenced to serve from one to three years in San Quentin prison on charges of attempting to hide facts in the knuckle slaying of Ray Raymond, her actor husband.

Sees War Ahead

The same forces that produced the World War are more active today than in 1914, says Major-General William Lassiter, commander of the Sixth Corps Area. He urges preparedness.

Maurice—Who Always Wanted a Little More from Life—Finds Death Awaiting

Maurice Mouvet, dancer, always hoped for a little more fame and a little more happiness, but he was always thwarted, and now, after love seemed to be his, he finds life slipping. He is shown with Eleanor Ambrose, his wife, surrounded by his former dancing partners, Florence Walton (upper left), Leonora Hughes (upper right), Barbara Bennett (lower left) and Joan Sawyer (lower right).

By NICHOLAS GOLPIN, International Illustrated News Staff Correspondent.

LAUSANNE, Switzerland (I-I-N)—Life always mocked Maurice Mouvet, and, with echoing mockery, it is leaving him to death. Maurice, who always wanted a little more, and never got it!

Maurice's struggles first came to attention in Paris. There, a youngster who had run away from his widowed father, he created a sensation with Madeline, a beautiful English girl. They danced. A brilliant future beckoned. And then Madeline married a wealthy American, and Maurice was back where he had started.

Came Joan Sawyer, a society girl. With her Maurice won more plaudits. And as he hunged for greater successes with her, she married.

And came Florence Walton, a Polish beauty. It was with her that he perfected his waltz, for did he not waltz right into her heart? They were married—what a pair! said their audiences—only to be divorced. And came Leonora Hughes. As separated them.

And then came Eleanor Ambrose, from Newton, Kan. They were married under auspices that certified it to be a union of true love. At last Maurice had found a partner for life, the stiches of recognition were fondles. He brought her from Paris to New York. The most brilliant season of his career seemed ahead.

Life mocked again. Fashionable audiences had tired of the waltz. They wanted the Charleston and the Black Bottom. They didn't want art. They didn't want grace, and Maurice felt they didn't want him. Maurice returned to Europe.

Life's mockery was not through. Today he is dying of tuberculosis at the Hotel Savoy here. His health and his successes are behind him. He has still the love of his wife still hope for life, still hope for return to the world as a dancer, to win greater renown.

They were coming in town on the Strawn highway when a gusting blow out causing the car to turn over which resulted in slight injuries to both occupants.

Return to Switch Cure for Children

GROESBECK, July 5.—A return to the parental-welded bench tree limb or the hickory limb as recommended by County Judge Fountain Kirby as a panacea for the juvenile delinquency problem of the state. The Judge made this observation after sentencing a 16-year-old boy to the Gatesville state training school.

BIG TOWN WRITERS ARE HICKS IN RAPID CITY

RAPID CITY, S. D., July 5.—The Washington, New York and Chicago correspondents who accompanied President Coolidge to the Black Hills are losing little time in making most of the western country in which they are making their home this summer. Silver dollars are being collected eagerly for souvenirs as if the supply was soon to run out, the collectors failing to realize that in this section paper dollars are seldom seen. Others are patronizing the local stores by purchasing broad brimmed cowboy hats some of them with little colored cotton balls hanging from the edge.

Women Want Extra Time for Parking

HOUSTON, July 5.—"Fooly Judge," pleaded a woman brought before Judge Lucien Andler of corporation court here for parking too long in the restricted business zone. "It is impossible for us to get our shopping done within an hour. I wish you would, as a personal favor to me, take the matter up with the city council and see if the ordinance can be changed so we can do our shopping without getting arrested. The law is all right for men, but I think women should be exempted."

CASING BLOWS OUT TWO RANGER BOYS INJURED

RANGER, July 5.—Emanuel Disherson of Ranger was reported to have been slightly injured in an automobile accident Monday morning. It is said that the car was occupied by young Disherson and Mike Rodh, who was slightly injured.

"Iron Jack" Walton Re-Enters Politics. KANSAS CITY, July 5.—J. C. "Iron" Jack Walton, former governor of Oklahoma, is going back into politics in Oklahoma because "I can't quit if I wanted to." The governor who in 1923 called out the national guard and 75,000 volunteers to break up the Ku Klux Klan, made this announcement today. He said he would run for the United States senate.

BED ACTS AS CREDIBLE PUTS OCCUPANT TO SLEEP. LONDON, July 5.—A bed which rocks the occupant as if he were a baby in a cradle is the latest scientific wonder of the world. The bed is a product of the fertile brain of Sir Alfred Row, the eminent British scientist. Sir Alfred has suffered from insomnia, and he discovered when traveling in Canada, by train that he was able to sleep much better when the train was in motion. As a result he has constructed a bed which reproduces all the motions of a train. The movements are arranged to occur at the rate of 80 a minute.

Set For Your Vacation. Before you leave be sure that your wardrobe is worthy of the trip. Send your clothes to us for cleaning and pressing. Then you can start on that trip with the complete assurance that all's right with the world. DeLure Cleaners, Dyers, Pleaters. It's Better to Have It and Not Need It Than to Need It and Not Have It. Why take a chance? Thousands of cars are stolen every year. Then there are the other possibilities of loss or damage. Fire, Collision, Property Damage and Liability. Play Safe. Insure Completely. J. DEATH MARS AUTO RACES AT ABILENE

ABILENE, July 5.—Fred Frame of California, driving Car No. 37, a Miller Special, won the feature race of 32 laps at the annual Independence Day automobile races on the West Texas Fair speedway here yesterday afternoon. But it was no easy victory for Frame, for M. S. Wells of San Antonio, driving a Frontenac Ford, Car No. 7-11 gave the crowd an exhibition of driving that has scarcely ever been equalled on the local speedway. Fourth in the grilling race at the outset and for the first few laps, Wells crept steadily up and showed the nerve of a champion driver. Car No. 7-11 lived up to its name for luck and on the nineteenth lap Wells went into second place and held it for the remainder of the race. Frame took the lead of the race on the twenty-third lap and held it for the rest of the time, although often-times he was closely cheered from the thousands of spectators as he came into the pit.

C. E. Coats of San Antonio, driving a Coats Special, Car No. 77, sustained fatal injuries during the running of the third event of the afternoon when his car smashed in the final laps. Coats' car crashed into the inside fence and catapulted. Coats was crushed and lived an hour after being rushed to a hospital in an ambulance.

The track record of 65 seconds for two laps, 1.4 miles, set by Frank Lockhart, still stands, although it was endangered several times.

FRED FRAME WINS IN BRECKENRIDGE RACES.

BRECKENRIDGE, July 5.—Fred Frame of Los Angeles piloting a Miller Special, won the two major races before 6,500 spectators here Sunday. He romped home an easy winner in the five-mile event in 5 minutes and 51.35 seconds and in the final race of ten miles he made the 16 laps in 10 minutes and 39.45 seconds, but was not able to displace Simpson from the lead till the last lap.

Five cars were in smashes. Chester Gardner was injured in the closing race. Harry Wilburn won a ten-lap event in 6 minutes and 28 seconds and another ten-lap race was won by Curtis Cross in 6 minutes and 40.15 seconds.

LITTLEFIELD TO BE MADE COACH AT T. U. SOON

AUSTIN, July 5.—Appointment of Clyde Littlefield as head coach of the University of Texas may be acted upon by the board of regents within the next few days, under a special meeting of the regents, it has been learned here. During the past week, the regents investigating committee composed of Sam Neuhbery of McKinney, R. L. Holliday of El Paso, and Ed Crane of Dallas, have been continuing the probe of activities of L. Theo. Bellmont, athletic director, which was started by a faculty committee whose report, it is said, exonerated Bellmont of all charges. The faculty report was side-tracked by the regents. Even though the regent committee is not ready to submit its report to Bellmont, it is generally thought that the regents will name a football coach so that official preparations can be made for training work.

Dalhart—Dalhart Ice & Electric and Dalhart Water Companies consolidate to form Dalhart Public Service company.

Comfort—Ground broken for two new buildings of Central Power & Light company.

PERSONAL MENTION

Oscar Hudson of Eastland was a Cisco visitor Sunday.

Rev. Griffith from Nogales, Arizona, is visiting in Cisco.

E. L. Poch left Sunday for a three weeks' stay in San Antonio.

Miss Gladys Reagan is visiting in Norman, Oklahoma with friends.

Arthur Cunningham, who is a student at the Metropolitan Business college in Dallas, was home for the week end with his family.

Miss Helen Keough and her brother, Lawrence Keough, left this morning for a visit in different points in California.

J. B. Peacock and family have gone for a two weeks' visit in Tulsa before they make their home in Wichita Falls.

Mr. and Mrs. G. B. Lundy, 1307 Adams, attended the dance in Thurber Monday evening.

Mrs. C. C. Moore and small son of Hambleton are visiting in Archer City.

Charles Alford has returned to Graham after a short visit in Cisco.

Frank Fee from Vernon spent the week end in Cisco.

Miss Ruth Endicott spent Saturday in Gorman.

W. C. Pillove has returned to his home in Dallas after a week's visit with his sister-in-law, Mrs. Philip Pettit, 805 West Seventh street.

Miss Bertha Helen Triplitt has returned from a visit in Fort Worth.

Mr. and Mrs. Charles Parker of Gorman were Cisco visitors over the Fourth.

Mrs. W. L. Holmesy received the message of the death of her niece, Mrs. Gus Barber of Hollywood, California. The funeral will be held in Tulsa, Oklahoma.

Mr. and Mrs. Jack Hale and small son have returned to their home in Eastland after a visit with Mr. and Mrs. A. Angus, 809 West Seventh street.

J. D. Hall from Denton was a visitor in Cisco the past few days.

Dick Mancill of Kerrville is spending a few days in Cisco.

W. B. Chapman and Minor Grady spent Sunday afternoon in Putnam.

W. L. Holmesy spent the week end and fourth with his wife and children, 807 West Seventh street.

Marvin Boyd left Tuesday morning for McMurry college at Abilene to attend summer school.

Bill Windsor has returned from a visit to Kansas City, Mo.

T. M. Prettzman is in Abilene on business.

Mr. and Mrs. E. A. Haley of Cross Plains motored to Cisco Monday night to visit their son, Irma Haley.

Mr. and Mrs. George Anderson and Felix Lewis went to Dallas Saturday night and spent Sunday and Monday with Judge Moulden and family.

Mr. and Mrs. A. J. Ward returned Monday from a visit with their children, Guy Ward and family, of Fort Worth.

Miss Ethel McCann and Miss Corlie Guthrie spent the week end in Dallas. Miss McCann will probably go on to Galveston before returning home.

Misses Margaret and Dorothy Teatsorth of Eastland were visiting friends in Cisco Monday.

Arthur Cunningham returned to Dallas yesterday after a short visit with his family here.

Walter Tegeler of Ranger spent the fourth in Cisco with friends.

Mr. and Mrs. Edward Keough returned Sunday from a short visit in Dallas.

Mr. and Mrs. A. J. Muller and children spent Sunday with friends near Breckenridge.

T. E. Rush spent the fourth in Dallas.

Mr. and Mrs. Rufus Petty and Mr. and Mrs. Holmes Little spent

AIR TRAINS PLANNED FOR THE FUTURE

NEW YORK, July 5.—"Air trains" with powerful airplanes for "locomotives" and motorless gliders as "cars," rushing passengers and freight across the sky, were pictured today as fascinating possibilities of the future by Sumner N. Blossom, editor of Popular Science Monthly, discussing the significance of recent steps in the progress of aviation.

"Aside from the astounding success of the trans-Atlantic flights," said Mr. Blossom, "a number of remarkable inventions and experiments in recent weeks have added new impetus to the development of air travel. Among these

would continue its flight. "The wonderful possibilities of the glider were shown not long ago when Ferdinand Schütz, at Pustitz, Germany, set a new world's record for motorless gliding by soaring for fourteen hours and eight minutes! His success far eclipses the previous record of the hours and twenty minutes held by the Frenchman M. Massaux.

While in full flight at an altitude of 100 feet, according to reports, the pilot of the glider cut his machine loose and swooped down to a safe landing, the towing plane landing nearby. The German pilot, Espenlaub, expressed the belief that long distances can be covered without difficulty by a plane and a glider in this fashion. Other aeronautical experts are even more optimistic. They foresee an air train of a number of gliders carrying passengers and freight bound for several points along the line of flight. At each of these points one of the gliders would be "uncoupled" from the train and would descend with its freight and passengers, much as railway cars are switched to a siding. The rest of the train

was the recent actual demonstration, at Karlsruhe flying harbor near Berlin, Germany, that "flying trains" can be made to work. In this test a biplane took the air-towing a full sized glider—probably the first stunt of its kind in history.

AIR TRAINS PLANNED FOR THE FUTURE

NEW YORK, July 5.—"Air trains" with powerful airplanes for "locomotives" and motorless gliders as "cars," rushing passengers and freight across the sky, were pictured today as fascinating possibilities of the future by Sumner N. Blossom, editor of Popular Science Monthly, discussing the significance of recent steps in the progress of aviation.

"Aside from the astounding success of the trans-Atlantic flights," said Mr. Blossom, "a number of remarkable inventions and experiments in recent weeks have added new impetus to the development of air travel. Among these

would continue its flight. "The wonderful possibilities of the glider were shown not long ago when Ferdinand Schütz, at Pustitz, Germany, set a new world's record for motorless gliding by soaring for fourteen hours and eight minutes! His success far eclipses the previous record of the hours and twenty minutes held by the Frenchman M. Massaux.

While in full flight at an altitude of 100 feet, according to reports, the pilot of the glider cut his machine loose and swooped down to a safe landing, the towing plane landing nearby. The German pilot, Espenlaub, expressed the belief that long distances can be covered without difficulty by a plane and a glider in this fashion. Other aeronautical experts are even more optimistic. They foresee an air train of a number of gliders carrying passengers and freight bound for several points along the line of flight. At each of these points one of the gliders would be "uncoupled" from the train and would descend with its freight and passengers, much as railway cars are switched to a siding. The rest of the train

was the recent actual demonstration, at Karlsruhe flying harbor near Berlin, Germany, that "flying trains" can be made to work. In this test a biplane took the air-towing a full sized glider—probably the first stunt of its kind in history.

Speaks Seven Languages, but Cannot Make Coffee--So She Loses Husband

The remarkable child prodigy, Winifred Stoner, could speak seven languages at the age of twelve, when the picture at the left was taken. But today at twenty-four (right), she cannot make a cup of coffee to please Louis Hyman, New York merchant. He sought the aromatic diffusion away from home--and found love elsewhere, his wife charged in seeking a divorce.

(Copyright International Illustrated News)

NEW YORK--GIN Special-- Winifred Stoner could write seven, read Greek and speak seven languages at the age of twelve. But when she couldn't cook a cup of coffee at the age of twenty-four, she lost a husband. Winifred Stoner is the daughter of Mrs. Winifred Sackville Stoner, specialist in child training, whose theories made her own daughter one of the most startling prodigies of the generation. At twenty-four she wed Louis Hyman, prosperous New York dry goods merchant, after a courtship of three weeks. Within a year they separated. "My daughter had learned the art

of cooking," Mrs. Stoner explained. "But she never learned how to make good coffee. I never drank it. He told her flatly that she couldn't cook coffee. He shouldn't have done that. If he hadn't, she wouldn't have got an inhibition about domestic life. But as it was, she never cooked a meal at home. They never had any children. "I urged her to get a divorce, but it was not until he was lacking in fidelity that Winifred acted. "But it's over now, and the only thing to do is to see whether genius can be happily married or not." Dr. Stoner thinks genius can. "Her first marriage, to Count Charles P. de Bruche, when she was sixteen, convinced me that she could be happily wed. He was older than

herself, he could beat her at chess and fencing. Because he could do things better than she, she idolized him. Every woman should idolize her husband. But he died within a year. Her daughter will marry again if she finds the right man, her mother indicated. "Not that I'm matchmaking," she said, "but I hope, now that she has tried a composer and a business man, she will try a progressive--by which I mean a worker a builder, a man who is faithful and who has sound sense. She is a genius and needs someone to guide her, to cultivate her, to direct her." The daughter is seeking no alimony, because her writing provides a sufficient income, she said.

Arizona Pastor Preaches Here

The services at the First Methodist church are being well attended each Sunday, it is said. Rev. P. T. Stanford preached Sunday morning. Three members were received into the church. At the evening hour Rev. Charlie Griffith of Nogales, Arizona, preached. Rev. Griffith is the pastor of the First Methodist church of Nogales and with his family are visiting relatives in Cisco. Mrs. H. T. McCorkle and Mrs. Griffin are sisters. The pastor will preach a series of special sermons both morning and evening during the month of July. The public is cordially invited to hear these messages.

Moody Leaves For Houston to Speak

AUSTIN, July 5.--Gov. Dan Moody returned home today after a tour of the north and east as a member of the Texas good will delegation. He spent but a few hours in his office, reviewing matters that needed his attention, and then attended a meeting of the state board of education. He left for Houston to deliver an address to the American Legion. Gov. Moody promised to issue a statement in regard to success of the good will tour on his return to Austin.

Cisco Girls Get Epworth Certificates

Four hundred young men and women attended the Central Texas Epworth League Assembly last week at Fort Worth. The largest assembly ever held in any conference in Texas. Christian Culture Certificates were received by Miss Eileen Wilson and Miss Bertha Helen Triplitt of Cisco. The largest class of the assembly was taught by Rev. P. T. Stanford, 100 being enrolled. The Texas Women's college of Fort Worth was selected as permanent meeting place. C. L. Reichart, who is with the Fort Worth Record-Telegram, was elected president for the year.

GOING OUT TONIGHT WITH THAT PIMPLE SHOWING

The boy or girl who has nothing to worry them about the way they look are so much more noticeable when compared to the ones who are afraid to mingle in the fun because they know how unattractive they must look on account of their pimply, blotchy or rough, eczema skin.

Their one friend is Black and White Ointment. If they will just use it faithfully, because it will get rid of all those ugly bumps and make their skin soft, smooth and lovely. Then, to keep it that way, be sure to use Black and White Skin Soap when you bathe. They are both economically priced in liberal packages. The 50c size Ointment contains three times as much as the 25c size. All dealers have both the Ointment and the Soap--Adv.

SORE GUMS. One bottle Leto's Pyorrhea Remedy is often all that is needed. Druggists everywhere will return money if it fails. It has no equal. --Tomlin-Young Drug Co.

Off again, on again, Clean again!

What's inside your tires? Most motorists will say, "air"--but ten to one there is also grit--and sometimes rust. Let us clean out your tires--inspect them--replace them--cheerfully, and without a cent of cost to you.

Firecracker Takes Life of Small Girl

AUSTIN, July 5.--Betty Green, 8 year old daughter of Captain and Mrs. J. P. Green of Fort Benning, Ga., died in a local hospital today from burns received yesterday when an exploding firecracker ignited her dress while she and other girls were celebrating the Fourth of July.

Head Sticking Out of Car Causes Death

EDINGURG, July 5 -- Arnold Gaston of Hattiesburg, was instantly killed near here today while returning from McAllen with some companions. Gaston had his head stuck out from the automobile in which the youths were riding when a heavy truck going in the opposite direction struck him.

Wilcey Moore, at 29, Enters Majors to Find Self a Star

This twenty-nine-year-old, six foot, two hundred pound fellow from Greenville, S. C., is the newest star on big league horizons. Armed with a "heavy" dropping ball he's puzzling batters who face him in the Yankees' box.

By Jack Keene, International Illustrated News Staff Correspondent.

NEW YORK (I.I.N. Special)--Miller Huggins has apparently panned the biggest Nugget of the season from Minors' Creek.

The nugget is Wilcey Moore, who's breaking into the large leagues at the ripe age (for baseball) of twenty-nine. Baseball is that way. The boys come in at between seventeen and twenty. They last for a few days or years, and then go the old route: minors--to farm--to cemetery. Once in a while a fellow keeps going beyond average ten years. Then he becomes a Connie Mack, a John McGraw, or a Miller Huggins, and doesn't have to play. Dazzy Vance broke in at thirty--but then, he was Dazzy league batter before in his life--he allowed four runs.

Moore's greatest strength lies in a fast ball with a peculiar sudden drop. It's what is known as a "heavy" ball, a ball difficult to knock into the air. This heaviness comes from its peculiar twist and great speed. During a practice game in the South, Moore pitched four innings without throwing a ball that was hit into the air. Every one of the few hits dribbled along the ground; some stopped dead in the infield.

He'll probably get opportunity to try it often on big leaguers. It appears that Huggins is going to rotate Moore regularly with Pennock, and he'll be used as a reserve to check out the opposition rallies, one of the most needed forces on any club. Perhaps he'll prove another Marberry.

COTTON CROP TWO MILLION BALES SHORTER

AUSTIN, July 5. -- Predictions that the total cotton crop of the south this year would be 2,000,000 bales short of last year, or 16,000,000 bales, were made today by George B. Terrell, state agriculture commissioner, who said that, in his opinion, cotton would bring 20 cents a pound, "if properly marketed."

"Reports from our correspondents representing all agricultural counties in Texas indicates that the biggest portion of the cotton crop will be late. Cotton has just been planted in the west and northwest parts of the state, while picking is well advanced in the Lower Rio Grande valley," Terrell said.

Returning from a tour of Texas, Commissioner Terrell declared that the boll weevil was doing damage in all sections, with the possible exception of west and northwest Texas. "The damage is reported at approximately 10 per cent," Terrell said, "and if rainy weather continues, the weevil damage may become serious soon, and greatly reduce production."

"It is too early," continued Terrell, "to estimate the production at this time, as conditions might vary during the month and cause a loss or gain over present estimates. The decrease in acreage of 13 per cent makes the total planting of cotton only 16,951,900 acres, and the lateness of the crop in some sections indicates a shorter crop than was gathered last year, with higher prices prevailing. Louisiana and Mississippi report reduced acreage and serious damage from overflows and boll weevils. As far east as Georgia, damage by boll weevils is reported."

Terrell also said that only half of a normal oat crop had been harvested. "The wheat crop also will be only half as large as last year, it is probable," Terrell stated.

"Grain sorghums are good, and corn is reported good, being matured in the south half of the state and late in the northern part. Peanuts, watermelons, sweet potatoes and ribbon cane are about average," Terrell concluded.

C.I.A. Girls Purchase Goods on Honor
DENTON, July 5. -- "Gimme a ticket for 60 cents." A cash register clangs, the ticket is signed, and the student of the College of Industrial Arts goes on her way. No one asks her how much or what she has bought. That she has taken no more than 60 cents worth of merchandise is no doubt. That is how proprietors of college stores in Denton do business. Of the few students who leave owing bills most agree to pay them out of their first year's salary. The only students who never pay, according to the proprietors are those who marry and whose husbands are reluctant to pay bills their wives contracted before their marriage.
