

TEXAS

By WILL H. MAYBEE, Austin.

PUBLICITY EXPENSES.—The proposal to enact laws permitting cities, towns or counties to appropriate tax monies for advertising and publicity will not be likely to meet with much favor in Texas. However desirable publicity may be there is very little sentiment in this state favorable to any measure that would force those who do not care for it or would not profit by it to pay for publicity campaigns. The papers of the state that have expressed opinions in regard to the proposal have not hesitated to say that such a policy would be unwise and that its proponents will not be long in learning so.

MISUSING THE SCHOOLS.—No one objects to public utilities companies appropriating their money in any amounts for the maintenance of publicity bureaus or the employment of public relations counsellors, provided the cost is not figured as a necessary expense and used as a partial basis for fixing charges for service. Neither can there be any objection to these bureaus examining text books to ascertain whether they contain matter prejudicial to their interests and frankly pointing out objections to the text book commission. Any citizen should have such a right. But when it comes to supplying the schools with their own text books, paying the direct results of which they are interested, paying expenses of teachers in attending conventions where utility interests are studied, the people are likely to resent the activities of the utilities companies as efforts to shape public sentiment to their financial advantage.

OFFICIAL BOSSISM.—Unless newspaper reports are creating the wrong impression as to the action of the Bexar county office holders, there is an unusual local political condition in that county. The office holders of the county, which means San Antonio, have gotten together and endorsed all of the group who want to remain in office and have agreed that each one shall throw all his personal and official influence to the re-election of the entire group. Employees around the courthouse have been told, says the San Antonio Express, that "There is entirely too much political gossiping in the court house corridors by employees and they should immediately refrain from discussing the impending campaign unless they can boost the entire ticket 'from top to bottom.'" Speakers are telling employees that they must adopt all personal local political slogans "one for all and all for one," that they must be "one happy family," and that "if there are any deserters, they should be put out." That all sounds a little bit like there might be some coercion.

CONVENTION REVENUES.—Whatever may be said of the proceedings of the Federated Club convention at San Antonio, whatever mistakes may have been made, the Texas women who had charge of the local arrangements and were responsible for the results to San Antonio and Texas proved themselves most capable managers. There were 49 active convention committees, every one of which functioned ably and with a minimum amount of friction. They extended most gracious and pleasant hospitality in a way to make Texans proud of Texas women. They paid all their debts. It is estimated that the 7,500 women who registered as guests and delegates to the convention spent more than \$1,000,000 in railroad fares, living expenses, and shop purchases while in Texas.

HIDALGO COUNTY BONDS.—Hidalgo county isn't a bit afraid of bond issues. The most recent issue voted was \$2,250,000 additional road bonds, which brings the total amount voted in less than a year to \$10,500,000. Another issue of \$1,000,000 is to be voted within the next month. One issue of \$500,000 was voted by 174 in its favor to 1 vote against it.

ISAIAH WALTON CLUBS.—Most of us think of Isaiah Walton clubs as organizations with a single purpose of catching as many fish as possible. One just organized at Boerne sets forth that "The immediate concern of this new chapter is the conservation of wild life and natural beauty in the Boerne country." There is much natural beauty around Boerne with its spring-fed running streams and tree covered hills. Similar clubs have organized at New Braunfels, Kerrville, Bandera and San Antonio.

JUNIOR COLLEGE SAVING.—The enrollment of the San Antonio Junior College for the last year reached 420. A member of the faculty says that this saved San Antonio \$500,000 that otherwise would have been spent elsewhere in college cities.

DAIRY CENSUS VERY ENCOURAGING

Henning No. 1 Is Running Wild

GUSHER FLOWS AT DAILY RATE OF 7,000 BBL.

The L. Henning No. 1 well drilled by A. H. Rhodes, of Eastland, was reported to be running wild Saturday afternoon, flowing at the rate of 7,000 barrels per day. The well was reported Saturday morning to be making 1,600 barrels, but after the bit was placed in the hole Saturday afternoon and the well agitated, it began flowing all over the terrain surrounding the well. The Prairie Pipe Line Co. is taking 100 barrels per hour, and workmen are throwing up earthen tanks in an effort to save the oil that has overflowed all storage available. A story of this well's production is given in another section of today's News, but that report was put in type before this phenomenal increase was made. It is flowing from the Ranger sand at a depth of 3,175 feet. The pay sand was discovered a week ago and additional drilling increased the production from 1,600 to what conservative oil men estimate to be 7,000 barrels per day. Its former production of 1,600 barrels was considered remarkable for that field, but the news of the latest phenomenal production has caused a sensation among oil men in Eastland, reports from that place indicated.

The L. Henning No. 1 is just north of Staff, and about 500 feet southeast of the Williamson well, drilled by Will W. Brown, of Cisco, and associates, a few months ago, which came in for an initial production of 900 barrels at the 2,990 foot level.

CLEAR WATER AGAIN FLOWS FOR CISCOANS

With the completion of the installation of the new motor Saturday morning and the resultant clearing of the water in the Cisco mains, recent annoyance of muddy water was at an end. Since the rainy season began Cisco has been troubled at intervals with discolored water, due to the fact that no pumping facilities were available at the settling plant, and water had to be pumped direct from the lake. During the first storm lightning struck the motor and put it out of commission. It was temporarily repaired but the capacity was not adequate to supply clear water. A new motor had to be ordered. Mayor J. M. Williamson stated Saturday and is now in operation pumping water to the settling plant, and people of Cisco can now take their baths in pure clear water.

BITTER ATTACK BY NORRIS ON 'TRIUMVIRATE'

WASHINGTON, June 16.—Senator George W. Norris, Republican and Nebraska farm leader, today uncorked a ripping attack against the "Hoover-Curtis-Borah triumvirate." He bitterly arraigned the administration and declared the platform and nominee "will be a sad disappointment to every progressive citizen of the country." He asserted that a direct slap had been administered the farmers and criticized the platform for "silence on the domination of our politics and social activities" and asked if any Republican believing in honest government could look upon the controlling features of the Kansas City convention "without shame and disgust."

COOL RECEPTION GIVEN FARMERS AT CONVENTION DESPITE WEATHER

General view showing farmers and their banners, which speak for themselves, as they neared the convention hall where they intended to "crash the gate" and once inside express their opinions as to who should receive the nomination. But the police kept them out of the hall and they didn't get to tell the delegates what they thought about the present national administration and the lack of farm relief. And that wasn't all—the convention turned down their farm relief plank and then nominated Hoover, whom they don't like at all. The only thing that may have pleased these farmers was the nomination of their friend, Senator Curtis, for vice president.

FIRE MEETING TAME AFFAIR, SAYS CISCOAN

That all units have worn parts and that the honestly represented can be absolute the quality and you select.

You are sure to have been looked reconditioned iced.

T-LOW-COST

NEVADIAN CO

The personnel at future meets will naturally be of a different character of men. The delegates in the future will be those who go with the desire to learn something of the duties of firemen. I heard a large number say that this was their last convention, but they belonged to that class who go for the purpose of having only a good time and not to learn anything useful.

Fort Worth Ready to Entertain Largest Crowd in Its History as W. T. C. C. Vanguard Reaches City

FORT WORTH, June 16.—The advance guard for the West Texas chamber of commerce, which opens here Monday morning in its fourth annual session, began to reach this city today. More than a score of representatives from as many West Texas cities and towns were here to make plans for their delegations, establish headquarters and to attend to such other requirements to make their stay in Fort Worth during this convention as nearly complete as possible.

Fort Worth has planned to entertain the greatest crowd in the history of the city. Practically all the leading hotels of the city are filled with advance registrations, while the thousands of homes have thrown open their doors to care for the crowds expected to begin to arrive Sunday noon. The first special train is scheduled to arrive shortly after noon Sunday. Three bands, coming in advance of the regular delegations, are expected to reach the city Sunday morning, while before nightfall it is anticipated that at least thirty bands and delegations will have reached the city.

The convention proper will begin Monday morning with a massed concert. The business session will begin at 9 a. m. and will be concluded by 12:30 o'clock. In the afternoon committee meetings will be held and various entertainment features will be carried out. One of the important events of the day will be the Fort Worth parade, scheduled to march at 6:30 o'clock. This will be followed by the pageant at Texas Christian University stadium, when the 100 West Texas sponsors will be presented and Miss West Texas will be crowned queen of the event.

The formal ball will take place Tuesday evening at Lake Worth. All registered delegates will be admitted to this event. This will be the first time that registration badges will admit to the official ball. Tuesday afternoon will also witness the annual delegation parade in which it is expected there will be 15,000 marchers, 75 bands and at least 100 decorated floats. All sponsors, 39, will ride in these decorated vehicles while many places without sponsors have announced an intention of entering decorated floats for this parade feature. The pageant is expected to be one of the most colorful events of the kind ever presented in the Southwest. This feature the general arrangements committee approximately \$10,000. Among other features in this presentation will be the name of each sponsor, which will appear in an electric sign 36 inches high. A wonderful fireworks display will also take place during the presentation. This event will take

CISCO'S MAYOR TO FILL PULPIT IN FORT WORTH

J. M. Williamson, Cisco's mayor, will deliver a lay sermon in the Boulevard Christian church at Fort Worth this morning at 11 o'clock. He is one of 25 prominent West Texas laymen who will occupy the pulpits of the Fort Worth churches. Mr. Williamson departed Saturday afternoon and will remain over for the West Texas chamber of commerce convention which opens Monday.

Besides Mr. Williamson other West Texas laymen of this immediate section who will be in Fort Worth pulpits include Col. R. H. McCarty, editor of the Albany News, at the Tabernacle Baptist church; Carlisle A. Adair, of the Breckenridge American, at the First Methodist church; Dr. F. Godbold, of Brownwood, at Broadway Baptist church, and James B. Simpson, of Abilene, at College Avenue Baptist church.

Mrs. Coolidge Ill

Plans of the President and Mrs. Coolidge to leave Washington for their vacation on the Brule river in Wisconsin were temporarily held up by the first lady's illness. Her doctors, however, denied that their patient was in any danger and the presidential party proceeded.

Farmers Want Milk Plant and Will Buy More Cows if Market Assured; End Survey Tuesday

J. E. Spencer, chairman of the dairy committee in charge of taking the census of dairy cattle in the Cisco country, announced Saturday that completion of the survey had been postponed until Tuesday, when it is thought that sufficient man power can be put in the field to finish the survey by night. Tabulation of the surveys made Friday was being completed Saturday and will be submitted to the officials of the Katy road, but the remainder of the work in the 13 mile radius of Cisco will be completed without delay, Spencer said.

"If incomplete Tuesday night additional enumerators will be sent out Wednesday until all of the 14 school districts have been thoroughly canvassed," Spencer said. "But it is not proposed to stop when a survey has been made of these 14 school districts, as the work will be carried on till all the country within a radius of 35 miles is covered." The results obtained by the enumerators Friday have been most encouraging and revealed that the number of dairy cows in the Cisco country was much greater than anticipated. While it has not been determined the exact number of cows found Friday, it will probably be over 2,000, and that is far from complete. However, numbers, as important as they are, are not the biggest thing developed in this survey, for everywhere the enumerators went they were met with the heartiest enthusiasm from all the farmers. Nearly every man canvassed said he would buy additional cows as soon as there was a market for the milk. The willingness of the farmers to buy and take care of the cows is the most important factor in developing the milk industry.

Most of those who made the canvass Friday are thoroughly sold on the dairy industry, and report heartiest cooperative from the farmers who manifested much enthusiasm.

"The time spent among the farmers was one of the most enjoyable we recall," was the way W. B. Statham and C. E. Yates expressed themselves on their return from the Nimrod school district. "It was a big day for both of us. We met with a most enthusiastic reception at every farm we visited, and were offered all the assistance they could give in getting the data sought. We counted about 200 cows, but every man said that he would buy other cows as soon as there was a market for the milk. L. D. Standford sent his son Lee out with us in the morning, and he accompanied us in the afternoon. Both were of great help in the work."

"We found that nine out of every ten farms we visited were owned by the occupants, and only a very few tenants were seen. Another significant bit of information was the fact that few of the farmers in the Nimrod school district are cultivating more than 25 acres in cotton. All have lots of corn feedstuff and truck, and many of the farms are subdivided for pasturage. Many told us that they were expecting this visit as they had ready about the dairy census and the milk plant in the Daily News and Weekly American and Roundup."

W. W. Wallace and Dr. Charles C. Jones closed their offices and went out to take the cow census Friday in the Central school district. Their report regarding the enthusiastic reception given them, and the cooperation promised for a milk plant was similar to the report made by Statham and Yates.

"We found splendid crops wherever we went," Dr. Jones and Dr. Wallace reported, "but we ran upon 15 vacant farms, absolutely without tenants, with tracts of fertile lands varying from 90 to 160 acres. The farmers were eager for any information we could give them about the milk plant, promising their hearty cooperation should a plant be established in Cisco. We counted 191 cows, and the promise to purchase 76 in addition to those now owned should there be a demand for the milk. Most of the farms we visited are free of debt and occupied by their owners, and we found very few tenant farmers, and a majority of these were men living on the farm of their parents. Every farm had hogs, chickens and other products of the farm that would indicate live at home condition."

JESSE JONES IS PLEASED BY G. O. P. CHOICE

HOUSTON, June 16.—Jesse H. Jones, publisher and capitalist, declared today that if the Democrats could have dictated the Republican nominee, they would have picked Herbert Hoover as "the man whom I would like to see in the White House." Jones believes that in addition to his own unpopularity with the farmers, Hoover will be saddled with the liabilities of both the Harding and Coolidge administrations.

BLANTON DATE HERE CANCELED WHEN HE IS ILL

Congressman Thomas L. Blanton, who was scheduled to speak in Cisco Saturday night in the interest of his candidacy for the United States senate, was forced to cancel his engagement on account of taking ill at Ranger Saturday afternoon. Judge Fred Cockrell, of Abilene, arrived shortly after the appointed hour and spoke in his behalf. Joe Blanton, son of the congressman, who was accompanying his father, said that his father had a slight attack of pneumonia poisoning and was forced to cancel his date to speak at Eastland Saturday afternoon. Judge J. R. Stubblefield substituted for him in that city.

After his speech in Ranger, knowing that his condition prevented his filling his Eastland and Cisco dates, Blanton was driven to Abilene where Joe Blanton secured Judge Cockrell and returned to fill his date here. Blanton spoke at Fort Worth Friday night, in Mutual Wells Saturday morning at 10 o'clock, and at Ranger at 1 o'clock.

Joe Blanton stated that his father would be able to fill the remaining speaking dates.

U. S. NET STARS ARE DEFEATED BY BRITISHERS

WIMBLEDON, England, June 16.—England won the Wimbledon tennis cup from the United States this afternoon when Mrs. Margaret Watson and Miss Eileen Bennett defeated Misses Helen Willis and Penelope Anderson in the final doubles match, 6-2, 6-1. The English won four matches against three for the Americans.

TENNIS STAP ENROLLS AT RANDOLPH COLLEGE

One of the early enrollments for Randolph college is that of Miss Kathleen Darnell, of Sweetwater, who has made reservations for a room in the girls' dormitory, reports Dr. T. T. Roberts, president of Randolph college. Miss Darnell won the tennis state championship awarded to high school tennis players at the contest held at Austin last month.

THE WEATHER. West Texas: Today generally fair.

Entered at the Postoffice in Cisco, Texas, as second class mail matter. Publication Days: Afternoons (except Saturday) and Sunday morning.

Subscription Rates: Per month (delivered in Cisco), 75c. If paid in advance: Three months, \$2.10; six months, \$4.00; twelve months, \$7.20.

The News is delivered by carrier boy in Putnam, Tex., each afternoon and Sunday morning. J. T. Black, of Putnam, is circulation agent.

The News is on sale afternoons and Sunday mornings as follows: Cross Plains; City Drug store, Smith Drug Store, Rising Star; City Drug store.

Obituaries and Cards of Thanks, 10c per line; classified, 2c per word.

IMAGINARY MILLIONS.

When the winners of the Calcutta sweepstakes were announced last week there was the usual flutter of excitement because a merchant won \$1,300,000, a stenographer won \$625,000, and a poor cobbler won \$55,000.

BUSY SHIPS.

Nineteen liners, nearly half of them bound for Europe, sailed recently from New York in one day. Several liners sailed from other American ports on the same day, bound for three foreign countries.

TRAFFIC RULE OBSERVANCE.

Dallas is credited with the best observance of local traffic ordinances of any city in the United States. A visitor explains that as follows: For two months before the present traffic code went into effect, the city conducted a campaign of education.

OLD CARS.

More new cars were sold in May than in the same month last year. More old cars were sold in May than ever before. As a dealer expresses it, "It was the greatest used car month in history."

FEMINE JUDGES.

Genuine Portias are developing in the legal profession in this country. Ohio has had a woman judge in its supreme court for several years. Now a woman takes her place on the bench of the United States Customs Court in New York, and holds it none the less securely for having had to struggle a bit to have her appointment confirmed.

America today a woman has any opportunity that she can measure up to. That is a fact proved by her own experience. Also she observes that a woman on the bench, or in any other official position, expects to be treated no differently from a man in a similar position.

MIDDLE-AGED STUDENTS.

The University of Pittsburgh has just graduated the oldest student who ever attended that institution, aged 47. That, it may be remarked in this era of prolonged middle age, is not very old. But it seems old in college, where the ordinary student is half or less than half that age, and the oldest and youngest students are half a dozen or more "school generations" apart.

Air-Rail Passenger Service From Coast to Coast in 48 Hours to Start in 6 Months

CHICAGO, June 16. — By train and airplane from New York to California in forty-eight hours. Deluxe pullman service for the train part of the trip which will provide almost bedroom comfort.

CISCO DAILY NEWS

EASTLAND CO.—Area 925 square miles; population 125,000; cotton, fruit, poultry, dairying, natural gas and oil; Cisco is headquarters for operators of the greatest shallow oil field in the world.

VOLUME IX.

CISCO, TEXAS, SUNDAY, JUNE 17, 1928.

TEN PAGES SECOND SECTION

NUMBER 88

MINIATURE LAKE CISCO AT W. T. C. C. CONVENTION

Four Colleges to Be Reproduced in Display for Heart of Texas; Wearers of Badges to Be Favored

Lake Cisco in miniature will be one of the exhibits in the Heart of Texas display at the West Texas chamber of commerce convention at Fort Worth, opening Monday. The four colleges—of Randolph, John Taylor, Howard Payne and Daniel Baker will be reproduced in miniature, each bearing an electric sign containing the name of the school. There in a setting of trees, lakes and streams will be the central display around which the other exhibits will be arranged. Lake Cisco forms the major feature of the landscape. In the Cisco exhibit the Bedford-Catharine Cut Stone Co. will display its products of carved stone, similar to that used in the Texas Tech buildings.

Badges to the convention can now be had at the Cisco chamber of commerce, the price being \$2.50. Those who procure badges will have free admission into attractions that would cost more than \$10, and the badge is a souvenir that will be worth preserving. Those with badges will be admitted free to the banquet; Panther Park to see the baseball game; ladies' reception at the Woman's club; the official ball at the Casino; dances at the Texas hotel, Elks club or University club, and other functions.

The official badge is unique. It is a bronze cut-out of Texas, with West Texas marked off and designated as "Prosperity Land." It is suspended from red and blue cloth, with the Lone Star between ribbon and cut-out of Texas.

ABILENE TO BE HOSTESS TO 200 EASTERN STARS

ABILENE, June 16.—Two hundred women of West Texas are expected to be in attendance at the school of instruction to be conducted in Abilene by officials of the grand chapter of the order of the Eastern Star, Tuesday, as one of the eight similar schools being held in the second district.

Chapters in other cities, including Pecos on June 15; Colorado, June 16; Eastland, June 20; Vernon, June 23; Floyd City, June 26; Clarendon, June 28; and Dalhart, June 30, will also entertain grand and district officers in the annual instruction schools.

Mrs. Lena LaFon, worthy grand matron of Greenville; L. E. Tension, worthy grand patron, of Fort Worth; and Mrs. Clesie Baggett, district deputy grand matron of Big Spring, will be in charge of the schools, and are to spend the entire day, Tuesday, here with the work.

A definite program of study and work is being planned by the local chapter, under the direction of the officers, Miss Minnie Higginbotham.

THEY WILL GIRDLE WORLD

Now that they have conquered the Pacific Ocean in a series of flights which amazed the whole world, Captains Charles Kingsford-Smith (right) and Charles E. P. Elm, Australian aces, announce that they will continue on "round the world." The two Americans who played important roles in the Pacific crossing, Capt. Harry W. Lyon, navigator, and James W. Warner, radio expert, will board a presac steamship at Melbourne to return to the United States.

The Britisher who says America is too efficient probably never has seen a woman driver trying to park a 10-foot sedan in a 7-foot space.—Harrisburg Patriot.

OAKLAND AUTO SHOP ARMY TO BE UNIFORMED

An army of something more than 15,000 men, representing the service station personnel of the Oakland Motor company throughout the United States, is being outfitted in a standard uniform.

Soon this entire group of Oakland-Pontiac service specialists will be wearing the uniform recently adopted by the Oakland Motor Car Co.

The new service garb includes one uniform for the "privates" of Oakland's shop army and another for the "officers." The former will wear coveralls of special two-tone twill—powder blue with trim on pockets and collars of dark navy blue. The "officers," or floor men will wear a long coat of similar color and material. Both the mechanics and the floor men will wear hats to match their uniforms.

According to R. A. Armstrong, service manager for the Oakland Motor Car Co., the decision to uniform his nation-wide organization is the latest development in an unceasing campaign to raise still further the standards of Oakland-Pontiac service.

"We train our men with painstaking care and maintain a force of factory service representatives who visit every Oakland-Pontiac service station at frequent intervals," Armstrong said. "We have decided upon a standard service uniform not only because of the more favorable impression that a neatly uniformed service department will make upon the public, but also because of the psychological effect that the new uniforms should have upon the service men themselves."

GRADUATE STUDENTS AT TEXAS U. ORGANIZE

AUSTIN, June 16.—Graduate students at the University of Texas have organized and elected officers for the summer, with L. H. Moore of Denton as president. W. E. Tidwell of Elms was chosen vice president and Miss Mabel Mansell of Mineral Wells, who was elected before the end of the long session, was re-elected as secretary-treasurer of the club.

Spectacular demonstrations are no longer impressive in public affairs. Politics depends rather more on red tape than on red fire.—Washington Evening Star.

The fellow who admits he owes all his success to his wife is careful to see that she isn't around when he says it.—Dayton Daily News.

USED CARS

Approximately 24,000 Americans to Be Killed by Automobiles in 1928 If Present Ratio Continues

CHICAGO, June 16. — Approximately 24,000 Americans will meet their death through automobile accidents this year, if the present ratio keeps up, according to statistics prepared by S. H. Nerlove and W. J. Graham, of the commerce administration faculty at the University of Chicago.

Despite safeguards which are being thrown up constantly to protect pedestrians and motorists, automobile fatalities are increasing at the rate of 1,755 a year, statistics show, on a basis of comparison between the years 1917 and 1926.

As many as 25,800 persons may be killed this year, Nerlove said, and mathematical projection seems to be carried out for the first period of the year.

Growing Fatalities

"Fatalities have been climbing constantly at a rapid rate from year to year, and on the basis of all present indications, the rather alarming tendency will continue," the report of the two experts says.

"Data for the survey was obtained from various states and from the National Automobile chamber of commerce.

"Our data shows that on a basis of the nine year period 1917-1926 fatalities due to the automobile have been increased geometrically at a constant rate of about 10.7 per cent. On the basis of the five year period 1921-1926, the trend seems to be somewhat different. Instead of increasing geometrically, these fatalities appear to be increasing arithmetically by a constant amount of approximately 1,770. If this is an accurate indication of the trend, our figures show that the automobile death toll will be approximately 23,440 in 1928."

29 Fatalities Per 100,000.

The straight line trend for the period between 1921 and 1926, showing 19.2 individuals killed per 100,000 population, would indicate almost 29 fatalities per 100,000 for 1928. A compound interest curve, which fits the data more accurately,

CROSS PLAINS.

Miss Pearl Ray left last Saturday for a several days' visit in Tulsa, Okla.

Mrs. Ernest Motes of Cisco visited friends here last week.

Marvin Miller of Vernon was a Cross Plains visitor last Saturday.

Misses Sinovia Loving and Mozelle Swafford visited in Rising Star Saturday.

Mr. and Mrs. R. F. Bailey of Comanche were the guests of Mr. and Mrs. A. G. Crabb the middle of the week.

Rev. and Mrs. Hunt, and Mr. and Mrs. W. A. Williams left Tuesday for a two weeks' trip to be spent on the Llano river fishing, in San Antonio and Corpus Christi.

Mrs. M. G. Clark and grand-daughter of Cross Cut are visiting relatives here this week.

Dave Clark of Rising Star was a Cross Plains visitor last Saturday.

Dr. Mary Graves returned Sunday from a dental convention in El Paso. She took both lecture and study courses.

Macon Freeman and family of San Angelo were the week end guests of Mr. Freeman's parents at Dresser.

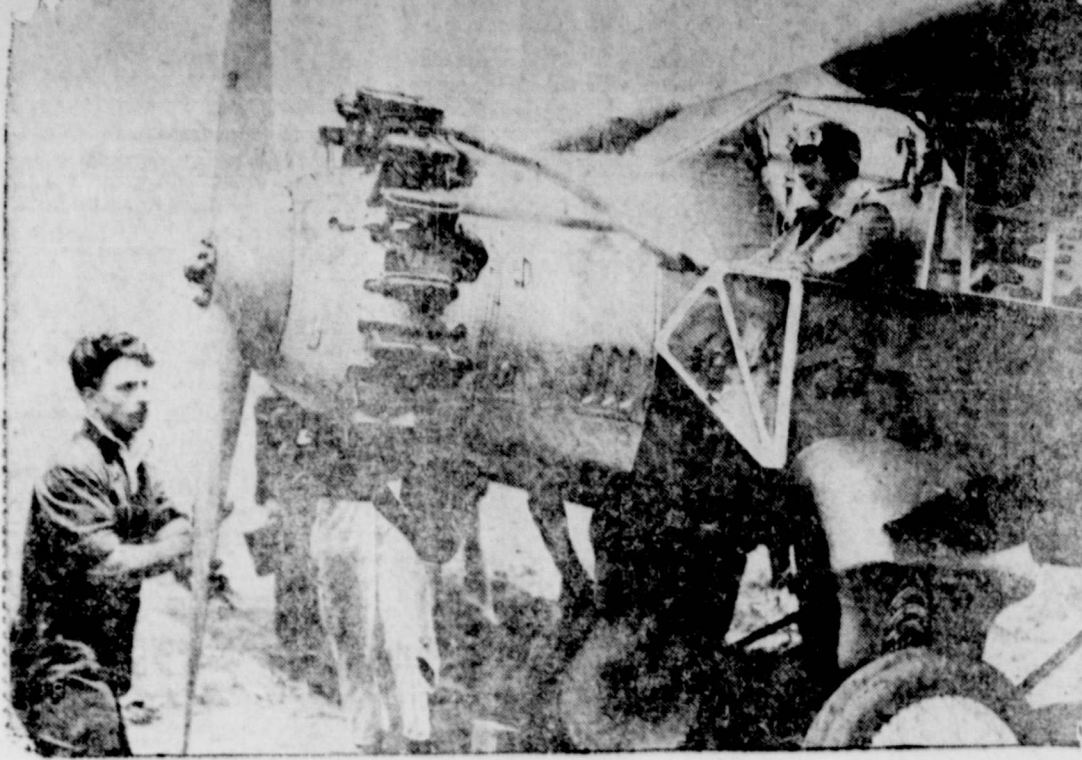

H. A. Young, with the Cree Machine Shop of Cross Plains, left Sunday for West Virginia to be with his parents on their golden anniversary.

M. F. Kennedy, English teacher of our faculty, opened a night class of fourth year English Saturday night. The class, however, will meet on Monday, Wednesday and Friday nights. The members so far are Stanley Clark, George Robinson, Arthur Carmichael and Ernest Davis.

Mrs. L. L. Seward and Miss Jackie Stewart of Brownwood were Cross Plains visitors Saturday.

Mrs. R. E. Dorsett of Brownwood has been visiting in the Campbell Morris home this week.

THEA RASCHE TESTS TRANS-OCEAN PLANE

Thea Rasche, the flying frau from Germany, was all smiles when her new trans-Atlantic model Bellanca was delivered to her for lifting and loading tests. Clarence Chamberlin, who, with Charles A. Levine, flew from Roosevelt Field to a point outside Berlin a little more than a year ago, instructed Miss Rasche in the use of some of the instruments which the craft carries. Above, a photo of Miss Rasche starting her first solo in the new plane.

put a value of approximately \$2-500 a day.

Mr. Rhodes is one of the most successful operators of West Texas. Root & Rhodes have drilled perhaps 50 wells as contractors in the Big Lake field on the University of Texas lands. The company drilled around 50 shallow wells on its 400-acre block in Brown county without a dry hole.

SUBSCRIPTIONS TO COUNT MONDAY ON EXTRA POINTS

Subscriptions secured Monday and sent in to the Cisco Daily News office will count for points in the country wide subscription drive at the rate of 1,250,000 extra points for one year to the Weekly American and Roundup at \$1.50, with the same amount for the Cisco Daily News with the American for one year or the Daily News alone without the American.

The offer for points for subscriptions for next week and the amount that will be given for Free Coupons will be announced in Monday's city edition and Tuesday's mail edition. The coupon in this paper is worth 27,500 points. It will be reduced to a less amount for the remaining weeks of the drive.

COUPON FOR FREE POINTS

Daily News and American and Roundup Subscription Drive

GOOD FOR 27,500 POINTS NOT GOOD AFTER JUNE 26, 1928.

FOR

Address

Fill out properly, mail or send, to The News Office on or before expiration date. No points can be transferred after being received at the office. Coupons must be trimmed carefully, pinned together, and it is only necessary to write the name and address on the top coupon with the added number of coupons which appear in every issue. The date that the coupons will be good for will be changed each week so that same will be good for ten days or two weeks from the time published.

RHODES WELL IN SIBLEY POOL AT 1,600 BBL.

EASTLAND, June 16.—The biggest gusher in Eastland county in months is rated around 1,600 barrels a day.

It is the Louis Henning No. 1, owned by A. H. Rhodes of East-

land and associates. The well has been drilled only three feet into the pay and responded with a flow of 70 barrels an hour.

It failed to hit production at the usual depth around 2,990 and was drilled on to 2,175 when it began making 25 barrels an hour after being drilled one foot in. Yesterday it was drilled a total of three

feet into the pay and began producing at the rate of 1,600 barrels a day.

The oil is high gravity—42—and the rate at which the well is producing would give its flush out-

OFFICERS ELECTED BY RISING STAR CHAPTER

RISING STAR, June 16.—Following are the officers-elect of the Rising Star chapter, Royal Arch Masons:

A. L. McDonald, high priest; J. V. Huntington, king; E. M. Howard, scribe; W. E. Tyler, treasurer; E. E. Bryan, secretary. The high priest has not announced the appointive officers. Installation will be at the regular meeting in July.

Frigidaire household cabinets are artistically beautiful

Frigidaire's mechanical superiority is matched by the design of its cabinets. Beauty of line, proportion, finish and coloring combine to make Frigidaires strikingly beautiful. The fact that in household models all mechanical parts are completely enclosed, that the smooth, gleaming exterior surface is as easily cleaned as a china plate, that there is nothing to catch dust, grease or dirt, is thoroughly appreciated by any woman. Frigidaire's beauty and clean appearance is one of the great factors in making it the choice of home owners. Today Frigidaire is offered in Tu-Tone porcelain-enameled models, fitted with beautifully etched, satin-finish hardware of new design. Other models are offered in Duco. All fit perfectly into the decorative scheme of the modern kitchen.

[The combination of many factors have made Frigidaire the choice of more buyers than all other electric refrigerators combined]

Frigidaire food shelves are at a convenient, comfortable height	Frigidaire is quiet
Frigidaire is the powerful automatic refrigerator	Frigidaire is adaptable to every home and commercial use
Frigidaire is economical in the use of current	Frigidaire is a Product of General Motors
	Frigidaire is low in price

Prizes Distributed in Two Districts. District One, workers who reside in surrounding towns. District Two, made up of workers who reside on rural routes and in the country.

1st Prize for Each District. Chevrolet Coach or Touring or Roadster. Each District to be awarded one car.

2nd Prize for Each District. The Viva-Tonal Columbia or Atwater Kent Radio Set. The Columbia will go to one District and the Radio Set to the other district.

3rd Prize, Two Scholarships, One for Each District. Draughons, Abilene, Dallas and Wichita Falls. \$75 Special Course in Typewriting or Bookkeeping. Non transferable. J. D. Miracle, president.

4th Prize, Two Scholarships, One in Each District. Randolph College, Cisco, Texas. Literary Course covering tuition for one semester. Non transferable. T. T. Roberts, president.

5th Prize, Two Wrist Watches, One for Each District. 15 Jewels, 25-year case, white gold with white gold flexible band in nice blue velvet case.

6th Prize, Two Toilet Sets, One for Each District. Three-piece Pyralin two-tone Toilet Set. Beautiful design. Sets in pink and blue. Purchased from and on display at Elliott Drug Store.

7th Prize, Two Strings of Dellar Pearls, One for Each District. These noted Pearls are indestructible. Long strand put up in nice velvet case. Purchased from and on display at J. A. Jensen, jeweler.

8th Prize, Two Ladies' Hats, One for Each District. Choice of hat from Smart Shoppe. These Hats are exclusive with latest designs. Commercial State Bank building, Main street.

9th Prize, Two Lobos Season Tickets, One for Each District. This ticket will be good at all football, basketball and baseball games for one year from date of ticket. Given by the Athletic Association, Cisco.

10th Prize, Two Season Tickets, One for Each District. Good for one year to any show at the Palace and Ideal Theater, Cisco, Texas.

11th Prize, Two Photographic Portraits, One for Each District. 8x12. Done in oil, and in nice frame. Walton's Studio and Art Shop, Cisco, Texas.

12th Prize, Two Seneca Folding Scout Cameras, One for Each District.

13-14x5 1-2. Automatic Shutter. Good lens. Purchased from and on display at Tomlin-Young Drug Store.

13th Prize, Two Service Strap Wrist Watches, One for Each District. Swiss movement. Guaranteed to give good service.

14th Prize, Two 3-piece Steel Carving Sets, One for Each District. Extra quality steel. Hard black stag handles. Steel sharpener. Silver plated caps.

15th Prize, Two Kitchen Sets, One for Each District. Six-pieces. Paring knife, spatula, meat fork, slicer, butcher knife and meat cleaver. Cocoa-bola wood handles. Blades of high grade crucible steel.

CASH AWARDS of ten percent for subscriptions secured by workers who do not receive one of the above prizes in both districts.

U. S. Leading Rest of World in Radio Developmen

20,814 Transmitting Stations in Country; Around 12,000,000 Receiving Sets Used Last Year

WASHINGTON, June 16.—The phenomenal forward strides of the United States in development and employment of radio communication is disclosed by figures by the radio division of the commerce department.

In 1927 in operation in United States were 20,814 transmitting stations of all classes and 13,821 in other countries. The 1913 figures showed 2,974 foreign and 2,110 American stations.

In numbers of stations the American amateur exceeded any other classes in this country or the world with 15,926 transmitters in operation at the close of the year. Despite the gradual narrowing of the restrictions against amateurs they still are contributing much to radio development and are achieving transmitting and receiving records that parallel those of the big commercial corporations.

Praise Amateurs

Radio commissioners and private engineers attribute much of the progress made in American development to the work of the amateurs who attacked wireless transmission first as a plaything and gradually built it up to a world-wide communication system.

United States had 694 broadcasting stations and probably 12,000,000 receiving sets in use at the end of last year. Experts estimate a night radio audience of probably 20 per cent of the population of the country. Undoubtedly this audience is increased to over 50 per cent of the population during the broadcasting of national events such as political conventions, world baseball series and heavyweight championship prize fights.

The foreign broadcasting system has not developed to the extent of that in America. There are several reasons. The purchasing power of the foreign population is not so great making it impossible for the people to buy sets as they are purchasing in the United States. Restrictions are placed on the operation both of sets and transmitting stations, while there are other factors to prevent the progress of the United States.

Undoubtedly the big expansion of broadcasting in United States is due to the fact that radio has become an excellent advertising medium. Most big corporations which have competitive articles to sell the public maintain highly

paid entertainers who appear weekly over the broadcasting chains.

Advertising Methods

The advertising methods of the more important corporations are not offensive and detract little from the entertainment value of the programs. The percentage of advertising time taken up in the program is not as great as the advertising space in the newspapers and magazines and the wise advertisers are taking care that their methods of selling do not become offensive to the public.

There are about 185 experimental stations in operation in United States maintained by universities, manufacturers of broadcasting and receiving equipment, communication companies, newspapers and private engineers. These stations are making large contributions to the wireless transmitting art.

The government has 1,203 ship stations and 33 land stations, most of them operating outside the broadcasting ban between 200 and 600 meters.

OIL ROYALTIES OF UNIVERSITY NEAR \$9,000,000

AUSTIN, June 16.—Within the next month oil royalties in the University of Texas permanent fund from production on West Texas lands will pass the \$9,000,000 mark, figures from the general land office show.

Decreased production, together with low prices of crude oil, have kept the permanent fund from growing as fast as it would have done under favorable conditions of the past, when monthly payments usually doubled the present income. For May \$198,406 has been received so far, while the total in the permanent fund has now reached \$8,896,252. This is a slight advance over past months, due to a large lump payment of back royalties from one company.

Checks received this month, in addition to the arrears payments, are: Magnolia, \$4,216; Simms, \$6,961; Atlantic, \$9,132; Humble, \$18,442; Big Lake, \$58,400; Texon, \$18,095; Texas, \$39,582.

BOYDSTUN OF BAIRD SEEKS BANKRUPTCY

BAIRD, June 16.—A voluntary petition of bankruptcy has been filed in United States district court by Benjamin Louis Boydstum of Bairst, pioneer merchant of Callahan county.

His liabilities were placed at \$76,671.44 with assets of \$68,450 of which \$8,500 is claimed to be exempt.

Mr. Boydstum has been in the mercantile business in Callahan county, with headquarters at Bairst, Clyde and Putnam. Besides his stores he owns stocks in several Callahan county firms.

BRADY ENJOYS ERA OF REAL PROSPERITY

BRADY, June 16.—The largest bank deposits in the history of Brady and an elaborate paving and building program now in progress manifest the firm prosperity and splendid advancement characterizing this flourishing capital city of McCulloch county.

Long recognized as one of the most enterprising cities of its size in the state, Brady is experiencing greater development than it has ever before known.

Thirty-five blocks are being paved, which will give the city five miles of pavement. Three automobile agencies are constructing buildings—one at a cost of \$25,000 and two at an expenditure of \$18,000 each. The Heart of Texas hotel is nearing completion. A concern is spending \$23,000 for a business structure and another handsome store building is being constructed.

Brady is the home of two new theaters, as fine as can be found anywhere in this part of the state. The Brady Hotel ranks among the most modern and attractive in West Texas.

The city has natural gas from the Lehn field where a new gasser has just been drilled. The water and light plants are municipally owned.

Cattle, cotton, turkeys, sheep and goats contribute to the prosperity of Brady. Just now, the Brady section is looking forward to the big annual celebration on July 4, 5 and 6 when horse races and many other entertaining features will be held and thousands of people will attend.

Number of Producing Wells in Northwest Eubank Extension is Brought to 14 by Addition of 3

CROSS PLAINS, June 16.—The addition of three producers to the northwest extension of the Eubank pool brings the total of producing wells to 14 in this area.

Drilling in the extreme south end of a high hill Cranfill & Reynolds touched the sand at 1252 feet on their No. A-4 J. B. Eubank and after having drilled 14 feet of sand it began flowing at the rate of 20 barrels hourly. The first two feet of sand was very hard but softened and gas showed up. After drilling four feet farther into the sand, the oil began rising very rapidly in the hole and started flowing natural at five minute intervals.

After failing to find the Fry sand, the Bradstreet-Mahlstedt No. 2 J. B. Eubank was plugged back to the Cross Cut sand, given a 40 quart shot, and is now standing better than 200 feet of oil in the hole. It is estimated that it will make 15 to 20 barrels when placed on the pump.

Offsetting to the south the Sinclair Oil company has just drilled its No. 2 Eubank and tests show it to be placing 125 barrels in storage daily.

Rigs have been moved in and work started on two tests offsetting producing wells. Cranfill & Reynolds are well under way on their No. 5-A Eubank which is 300 feet north of their No. 1-A producer. Bradstreet-Mahlstedt have started their third well on location north of their discovery well.

The Sinclair Oil company is only a few feet off the sand and should drill in in the early part of the coming week.

R. E. Pitts and George Wilson have a small amount of oil in their

wildcat four miles south of Cross Plains at a depth of 850 feet. Several bailers of live oil were obtained when a lime formation was drilled. A number of nearby leases have been made and several tests will be made in this vicinity soon. The discovery of oil in a lime formation at this shallow depth is very unusual in this part of the state and many

are inclined to believe that it is sweeping into the lime from some sand which may be picked up when other tests are made nearby.

Tom Bryant has succeeded in drilling up the bailer which was dropped into the hole at 2000 feet and work is progressing nicely on this deep test.

FLOYD COUNTY FARMERS FORMING BULL CIRCLES

LOCKNEY, June 16.—Many Floyd county farmers believe that pure bred dairy cattle pay large dividends and to that end a number of those interested are forming bull circles even though they do not have the assistance of a county agent.

E. W. Thomas, manager of the Lockview model farm and first

county agent of Hale county has undertaken the work and final arrangements have practically been completed for the organization of the first circle. Five grandsons of Masterman of Oaklands are to be used as foundation stock.

A three-ring circus was enough, but many of us will get itively pop-eyed trying to w both Pacific and Atlantic flight Terre Haute Star.

STUDEBAKER

The Great Independent

Safeguards Champion Speed with Super BRAKES

Studebaker brakes stop speeding cars in half the standard distance specified by American Automobile Association

BRAKES APPLIED AT 45 MILES PER HOUR

STUDEBAKER now holds all official endurance and speed records for fully-equipped stock cars—a world's champion in each of 4 price classes!

Here is proof of amazing stopping ability as well—

Studebaker and Erskine cars, thanks to their amplified-action 4-wheel brakes, stop in LESS than half the distance specified by The American Automobile Association's official safety code!

World-Championship speed and stamina proved by heroic, self-imposed tests under official scrutiny and sanction!

Safety proved by brake equipment more than twice as efficient as accepted standards demand!

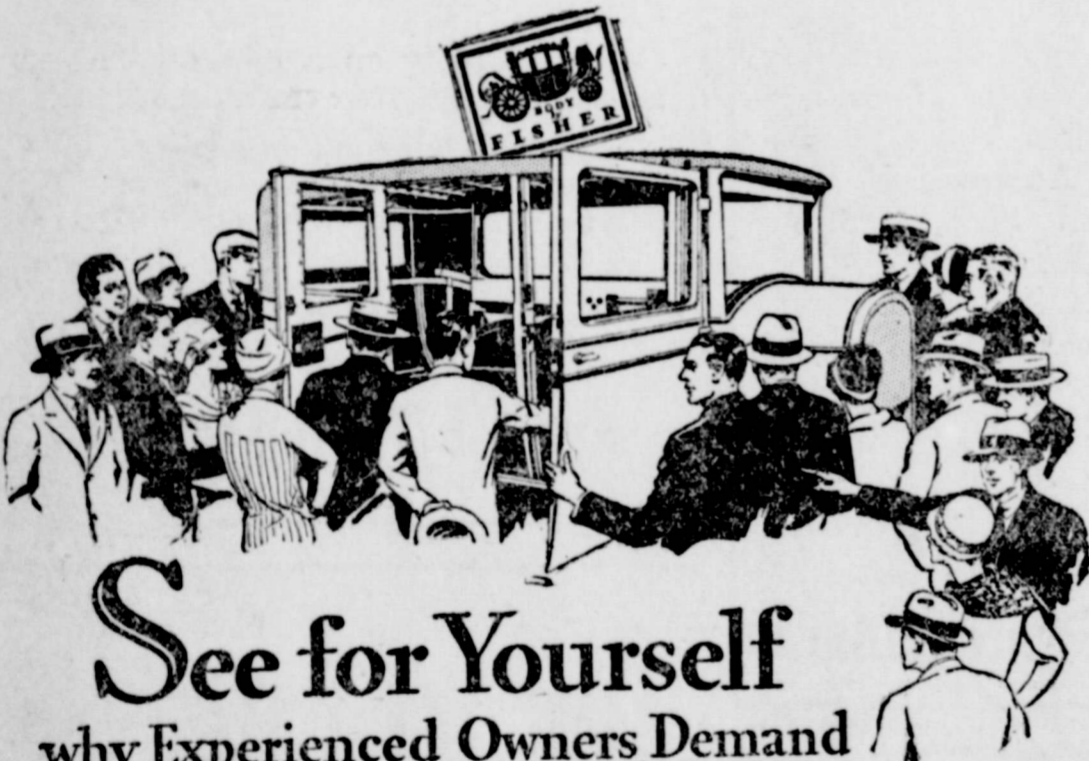

Studebaker engineering genius has gone still further—for Studebaker's brake system, even if you were to smash it at vital points, would still continue to serve you . . . Steel bodies, low center of gravity, clear vision, and twin beam headlights are other Studebaker factors of safety.

As a result of the combination of quality materials, precision workmanship, rigid inspections and engineering genius, you can drive any Studebaker or Erskine car 40 miles an hour even when NEW. The oil in Studebaker-

built cars need be changed but once in 2500 miles.

Studebaker alone offers you championship performance in every price class—One-Profite value backed by 76 years of manufacturing integrity.

See for Yourself why Experienced Owners Demand Bodies by Fisher

In Oakland-Pontiac showrooms throughout the United States a special Fisher Body Demonstration opens Saturday, June 16. Cooperating with the Fisher Body Corporation, Oakland has arranged to demonstrate to automobile owners everywhere the reasons for the superiority and popularity of Fisher bodies.

Come to our showroom during the Fisher Body Demonstration. Learn how Fisher builds bodies and what high quality of material is used. See for yourself why experienced owners demand bodies by Fisher. Don't miss this opportunity to gain a sound understanding of such an important part of your automobile.

Oakland All-American Six, \$1045 to \$1265. New Series Pontiac Six, \$745 to \$875. All prices at factory. Check Oakland-Pontiac delivered prices—they include lowest handling charges. General Motors Time Payment Plan available at minimum rate.

JESSE H. JONES, DEMOCRAT WHO FIGHTS FOR FARMERS, IS OF THE SOIL

The above shows Jesse H. Jones at the age of 17, when he worked a small farm in Tennessee. In the center is shown the old Jones homestead, a few miles west of Springfield, Robinson County, Tennessee. On the right is a late picture of Mr. Jones, finance director of the Democratic party, won the attention of farmers throughout the nation several days ago when he took up their fight. When farmers of a number of Western states announced their intention of marching on the Republican Convention in open protest, Mr. Jones asked them to come to Houston in June to the Democratic Convention and help build a platform for the Democratic party.

"We invite them to Houston to help write the platform and we will invite them to Washington to help pass the legislation that affects them," he said. "The American farm is one of the chief foundations of American welfare and prosperity."

TROTZKY WILL NEVER RETURN, SAYS OLD FOE

PARIS, June 16.—"Trotzky is finished. If he had brushed aside everyone and jumped into the saddle when Lenin died he would have Russia in his grip today with military Communism. But Trotzky lost his chance. He can never come back."

This is the opinion of Alexander Kerensky, former dictator of Russia. Eleven years ago Kerensky had Trotzky arrested, but that time he "came back." Because he did so Kerensky was obliged to flee from Petrograd in the disguise of a sailor.

Withers in Exile

Now, it is reported, Trotzky has been left to wither away in a Turkish exile. Kerensky who lives in the rue Vineuse, Paris, gave his impressions of his former adversary to the "Petit Journal."

"Trotzky was an extremist through opportunism," he said. "One sentiment dominated him—hatred for England. This hatred caused him to destroy."

"Trotzky never knew how to do, not even build up his own political career."

"He lacked audacity. When Lenin died Trotzky could have seized the power, but he did not dare to try. Since then the events he failed to master have crushed him."

Kerensky then told the paper that although he signed the arrest order for Trotzky following an uprising at Petrograd in July, 1917 he was not sure Trotzky took part in that movement. Kerensky was even reported as saying stories of Trotzky being an agent of the German general staff were myths.

"The arrest was merely an administrative measure," Kerensky explained. "I had Lenin pursued but when he hid himself in Finland we could not catch him. I did not liberate Trotzky. That was done by the judge who examined him and found that he did not participate in the pro-German riot. Perhaps that is true. I will not argue against a judicial decision."

Not a Liberal

"I never believed Trotzky was mixed up in any German plot, because he protested against Berlin's demands at Brest-Litovsk. While peace negotiations were underway

Trotzky spouted with indignation, was clever enough to use Trotzky's oratory as a bluff.

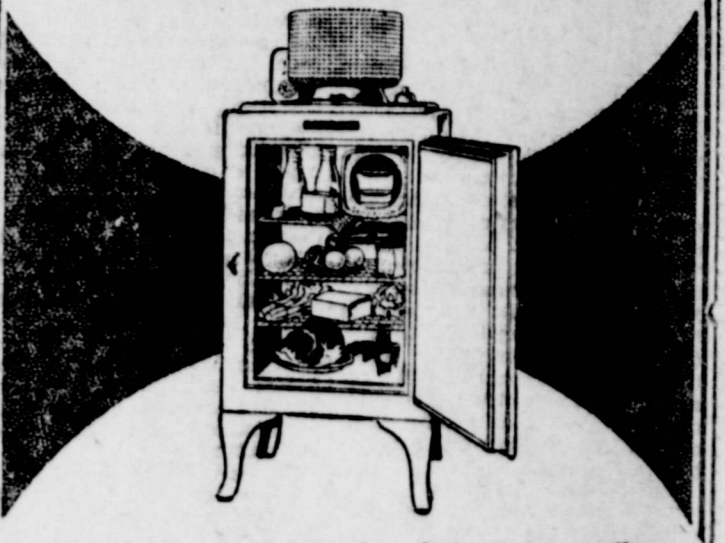

"Many thought Trotzky was a liberal. Quite the contrary. He would have instituted military communism, but now he will never have another chance."

The moths are about to open a banquet season. It is believed that no moth has ever been known to go on a hunger strike.—Detroit Free Press.

EASTLAND LIONS PAY TRIBUTE TO CARL SMITH

In sympathetic expressions of condolence to Mrs. Carl Z. Smith and her father, W. S. Michael, president of the Eastland Lions club, that body passed resolutions on the death of the late Carl Z. Smith, of Cisco at the last meeting of the club. The resolution eulogized the high character and splendid manhood of deceased and his accomplishments in life.

GENERAL ELECTRIC Refrigerator

There isn't a single belt, fan, drain-pipe or stuffing box in the General Electric Refrigerator. There's nothing to get out of order. There isn't an exposed moving part. All the mechanism, built and tested in the General Electric laboratories, is hermetically sealed in a single steel casing. Come in and see these remarkable refrigerators.

New Locomotives, 5 of Them Mountain Type Passenger, to Go on Texas and Pacific Lines Soon

The second consignment of five new Texas type freight locomotives, among the most powerful built in America, will be received by the Texas & Pacific railroad from the Lima Locomotive works in about ten days. It was announced this week at the general meeting of the road. An equal number of similar engines was received in March.

As fast as the new engines arrive they are being put into heavy use. It was explained, because for several months past the T. & P. has been forced to run as high as 70 extra freight trains a day to get out of the shipyards of oil from the Kendrick field in West Texas. This petroleum traffic reached its peak several weeks ago but extra crews are still in service daily to man extra trains still required to handle this large volume of business. Monahan, Wichita and Pyote are main points for most of this traffic.

Heavy purchases of new equipment have been made thus far by the railroad company.

delivery having started on a large part. Beginning about July 1 the first five new mountain type passenger locomotives will be delivered to the line at Texarkana. These engines are similar to those now in service heading the Sunshine Special, the Texan and other limited trains of the system.

The mountain type engines carry boosters which make easy starts and add speed in ascending heavy grades. The new engines will be more powerful than equipment now in service.

Other equipment bought this year, much of which has already been delivered, includes five baggage and express cars, 200 automobile box cars, 300 gondola type cars, 500 flat cars, all steel underframes. In addition the railroad company has ordered three new dining cars which will be delivered shortly.

"TENDERLOIN," starring Dolores Costello, is a Warner Bros. picture.

LOVELY ROSE SHANNON, one of the dancing girls at Kelly's Ringside Cafe in the Bowery, has attracted the attention of Chuck White. He escorts her home. Later he tries to make passionate love to her. In desperation she seizes a clock and strikes him with it. Chuck drops unconscious. Terrified that she has killed him, Rose hastily packs her things and rushes into the night. In the meantime Chuck's confederate, "Sparrow," has robbed the Mercantile National Bank, sounding the alarm. A chase is spread. In an armored car police pursue the automobile in which the bandits are trying to make their getaway.

CHAPTER IV—Continued. On and on. In and out of pillars. On into side streets. All lights out. Blinding blackness. Swaying, skidding, barely missing corners, the two machines sped forward, exerting every bit of their power. Like two prehistoric animals, suddenly let loose, they seemed, as they tore through the night. Rat-at-tat! Rat-at-tat! The machine gun played its dance macabre. Then suddenly the holdup car swerved recklessly; barely missed a lamp post, crashed upon the sidewalk, and jammed its nose with terrific force between two buildings. The sudden, jarring impact threw the Mug from his seat and out into the narrow alleyway, sprawling on his back. On top of him came Sparrow, landing with a dull thud. Lefty, still clinging to the wheel, kept from his post and made a dash for it up the street, leaving his companions with the deserted car. The Mug scrambled to his feet, dragging

"Well, watcha got in that suitcase, huh?" Sparrow with him. He seized the satchel that still remained, because of its weight, on the floor of the car, and with the bag in one hand, and the Sparrow by the arm, he ran up the alleyway. And not a moment too soon for the police car was already slowing down with a screech and grinding of brakes. The bluecoats jumped from their positions in their car, a machine gun still popping, and sent a rain of bullets down along the alleyway. The Mug and the Sparrow had nearly found a shelter, leading through a tortuous path, between two sheds. In the panic of driven fear they stopped for a moment, the Mug, overhanging roof of the building protecting them. The Mug took hold of Sparrow's arm and shook him.

"If that goddam Johnny'd been wif dis here racket'd been K. O. O. gotta make a get-away, see?" the Mug turned on his miserable, shaking companion, his little pig eyes moving swiftly about in his fat, pudgy face, searching for some means of escape. "Chuck was comin'—he was down Kelly's tonight with his jine. I see him." Sparrow cringed as a flash of machine gun bullets spat an adjacent wall. "Yeah! Dat ain't quite no good wif dem bulls camplin' right on ur tails." For a moment the two lay quietly beneath the sheltering eaves of the sheds. They could hear the steady tramp of feet; catch a glint of searchlights that were weaving back and forth in the little blind bits that led in and about courtyards and buildings in an amazing and mysterious tangle. The rain fell steadily down, dripping, dripping, dripping. They could feel it tickling down their collars. "Jeez, wist I had 'at henny." The Sparrow shivered uncomfortably. "Yeah! You'd make a hell of a well get-away wif dat on. Good thing we parked 'em in de bus." The Mug growled. "Give dem bulls mef'n to play wif. Dey can look

OF A SOCIAL NATURE

Miss Baker of Ohio Honored At Bridge Party. Mrs. Bob Gilman entertained with a three-course luncheon at Acorn Acres Wednesday honoring her guest, Miss Katherine Baker of Marietta, Ohio. Roses were used to decorate the tables and sweet peas were given as favors. Delicious punch served throughout the afternoon. Mrs. E. L. Graham won the high score prize and Mrs. J. L. McMurray won the consolation prize. The cut prizes were awarded Mrs. J. E. Tichenor, Mrs. W. W. Brown, Miss Bess Maxwell and Miss Pearl Hale. Miss Grace Gilman of Tulsa, Okla., was given a lovely gift and the honoree was given a lovely gift. The guest list included: Mesdames W. W. Brown, A. D. Anderson, Jack Anderson, W. L. Graham, Forrest Wright, J. L. McMurray, Wm. Heey, G. C. Meriwether, J. E. Tichenor, F. L. Hutton, P. R. Warwick, Misses Esler Hale, Bess Maxwell, Mary Pce, Grace Gilman and the honoree.

Mother's Club Meets. Home of Mrs. Fleming. The home of Mrs. C. H. Fleming was very attractively decorated with the red, white and blue colors in accordance with Flag Day Thursday, when the Mothers' club entertained, honoring the outgoing officers and the incoming officers. After participating in several interesting contests, Mrs. Fred Moellendick, president, in her charming manner expressed her enjoyment of the past year's work and also presented Mrs. Homer Slicker and Mrs. Bob Herron with a lovely gift for the two members having a perfect attendance record. Mrs. Fleming, the new president, was then introduced and expressed a few words of her hopes and aspirations for the next year's work. Each officer was then introduced. Mrs. Moellendick presented with a lovely set of Rose Marie glasses with plate to match which expressed the club's appreciation for her work. The hostesses served very attractive refreshments to the following guests: Mesdames G. M. Stephenson, J. D. Barker, H. V. Price, Bob Herron, Joe Hanrahan, Eugene Lankford, L. D. Parks, W. K. Eschen, P. R. Warwick, W. W. Wallace, Fred Moellendick, H. O. Stock, Philip Pettit, C. H. Fleming, Jack Kelly and Miss Rose Jordan.

Presbyterian Choir Members Have Picnic. The members of the Presbyterian choir were entertained with a picnic around Wednesday night. After all the guests had assembled a most delightful supper was spread on the tables with everything good to eat. These enjoying this delightful picnic were: Mr. and Mrs. A. E. Jamison, Jean and Doris Jamison, Mr. and Mrs. W. Wallace, Mrs. Lee and Billy Wallace, Mr. and Mrs. A. J. McDonald, Florence, Dorothy, Jeroline and Christine McDonald, Mr. and Mrs. J. E. Peters, Billy and Martha Ellen Peters, Mr. and Mrs. E. P. Crawford and Helen Crawford, Mr. and Mrs. T. C. Williams, E. Y. Suddall, G. C. Morris, Mrs. Ben McClinton, Mr. and Mrs. Fred Watson, Bryan Reiger, Miss Elizabeth Simmons, Mrs. D. E. Waters, Elizabeth Waters, Mrs. E. A. Morrow, Mrs. and Mrs. F. D. Pierce and Miss Lucille Pierce, Miss Stella Hovey, John Erwin, Mrs. J. M. Carter, Mrs. O. W. Shepherd, Rev. and Mrs. B. C. Boney.

Bercan Sunday School Class Has Party at Church. The members of the Bercan Sunday school class of the First Methodist church held their monthly party at the church Friday afternoon, with Mesdames Ed Huestes, Cecil Hibbard and J. E. Cooper hostesses. After a brief business session which was in charge of the president, Mrs. Sherman Roberts, a most enjoyable social hour was held at which time a variety of games was played and several interesting contests were participated in. The hostesses served dainty refreshments to a large attendance.

Miss Collins Entertains With Summer Party. Perhaps you have had your old iron quite a while—these are a convenient size, brightly nickel-plated and very economical. \$3.98

Humble Bridge Club Meets Wednesday Afternoon. Mrs. Jack Kelly entertained the members of the Humble Bridge club at her home in Humbletown Wednesday afternoon. A variety of spring flowers was used to decorate the house. In the bridge game Mrs. Will St. John was awarded the high score prize and Mrs. Joe Hanrahan the consolation prize. The hostess served refreshments to the following guests and members: Mesdames W. K. Esgen, John Ducker, W. W. Wallace, W. J. Armstrong, Everett Davis, L. S. Wrightman, Bob Carwell, Will St. John, Ted McLaughlin, O. C. Coye, Jake Almond, Mike McGannon, P. D. McMahon, C. C. Clifton, Joe Hanrahan, and Miss Mayme Davis.

Mrs. G. B. Kelly Hostess To Bridge Club. Mrs. G. B. Kelly entertained the members and substitutes of the Marjold Bridge club at her home, 512 West Fifth street, Wednesday afternoon. The house was decorated with a variety of pastels

Increased Number of State Schools Found Detrimental

22 New Colleges Since 1917 Have Brought About Reduced Enrollment of Each and Cuts in Appropriation

AUSTIN, June 16.—Making a rapid survey of the subject of college and university registrations for the summer, Dr. Frederick Eby, director of the summer session at the University of Texas, has arrived at two conclusions which prove rather enlightening both to the university and to the whole system of higher education in the state. The first of these is that the mushroom-like growth of advanced educational institutions in Texas since the World War has materially hindered the progress of any one college and has perhaps even retarded the whole system, and the second is that the change to the semester plan of offering courses in the University of Texas is one of questionable value to the school.

"In the first place," said Dr. Eby, "there have sprung up no less than 22 state-supported colleges in the state since 1917, five senior colleges and 17 junior colleges and 17 junior colleges. This condition has materially lessened the enrollment apportionment for each one as well as having made a drastic cut in the appropriation made by the legislature for maintenance of each.

"As for the situation at the university itself," went on Dr. Eby, "so far as I am able to see, from a comparison of the enrollments for summer school for the last five years, the change from the quarter to the semester plan during the long session has done nothing save to lessen the enrollment of undergraduates for summer work.

"Until this year, registration in each of the departments of the university has been about the same, with the exception of the graduate school which has been making a steady advance, until it now has doubled the enrollment of five years ago. This year, the professional schools have enrollments much the same, with only normal fluctuations, while the academic courses have fallen off considerably. This would indicate, I think, that the ordinary student is afraid to take summer work because of the lack of articulation between the summer courses and his long session work.

Total registration at the university for the first term's work has reached a figure which is only 30 less than that of last year at the same time, according to the auditor's office. A little more than 2,700 students have paid fees and it is expected that within the next few days this figure will climb, due to the number of students who have registered with the registrar's office and have not yet paid their fees.

50 WILL VIE IN W.T.C.C. HOME TOWN CONTEST

FORT WORTH, June 16.—More than 50 high school boys and girls in West Texas have entered this year's home town contest, an annual feature of the West Texas chamber of commerce convention, which opens Monday, for three days. This is the largest number of entries since the contest was started in 1926.

Preliminaries will be held at 4 o'clock Tuesday afternoon, while the finals will take place Wednesday morning in the main convention hall. The contest winner will be awarded the Thos. Etheridge Loving Cup and \$100 in cash, a prize offered by Leon Shields of Coleman. Second, third and fourth prizes will also be awarded in cash, while Cliff Caldwell of Abilene will award the ten lowest in the contest a consolation prize of \$5 each.

Week of Study and Recreation to Be Offered by Presbyterians at Buffalo Gap Encampment July 10-17

GRADUATION IS HELD FOR BIBLE SCHOOL

Commencement exercises of first daily vacation Bible school were held Friday evening at the Presbyterian church. The school, which has been a real success, has been under the management of Miss Stella Hovey of Fort Worth, the director of young people's work and religious education of the Fort Worth presbytery. The school began with 50 pupils and enrolled 120 before it closed. The average daily attendance was 79.

A large crowd came early Friday night to inspect the handwork on display in the ladies' parlors.

The exercises were not a specially prepared program, but merely formed a review of part of the work learned the past two weeks. For their worship the children recited the eighth psalm and sang the Lord's prayer. In the citizenship period the United States flag, the Christian flag and the Bible were saluted.

The beginner and primary children sang the songs representing their departments. Dorothy Hammen, in a very pleasing way, held up her note book and reviewed the Bible lessons that the unifiers had learned.

Thirteen intermediate girls gave glimpses of their study of "The Kingdom of Love" while four boys gave a complete outline of the Book of Acts.

At the conclusion of the children's work a free will offering was taken to help carry on this kind of work.

Rev. B. C. Boney thanked the ones who had made the success of the school possible. They were Misses Stella Hovey, Katherine Moss, Lucile Pierce, Lucile McCall, Mesdames A. E. Jamison, Homer McDonald, O. W. Shepherd, Ben Hart, J. B. Garrett, E. P. Crawford, B. C. Boney, Charles C. Jones, C. H. Fee, B. S. Huey, B. C. Dowell, Messrs. Ernest Lennon, B. C. Boney and E. P. Crawford.

SEEK UNIFORM STANDARDS AT STATE SCHOOLS

AUSTIN, June 16.—President H. Y. Benedict of the University of Texas has been selected by the presidents of the senior colleges of Texas to make a study of high school records of state with a view of stabilizing the admission standards to the higher institutions. There has been considerable lack of unity in the admission requirements of the various state-supported colleges, and it is felt that concerted effort should be made to remedy the situation, according to Dr. Benedict.

Dr. Benedict was appointed at a meeting of the college presidents at Texas A. & M. college Wednesday, where methods of gaining more cooperation between the state-supported educational institutions were discussed.

Worship, fellowship, recreation, instruction and inspiration are the cardinal points on which the program for the annual Presbyterian Encampment to be held at Buffalo Gap, July 10 to 17, has been arranged.

Plans for the week of encampment activities were announced by Dr. E. B. Surface, of Abilene, chairman of the program committee. Serving with Surface are Rev. F. S. Rogers of Stamford, Rev. H. C. Schneider of Breckenridge and Rev. J. A. Owen of Albany.

The faculty of the encampment has been announced as follows: Dr. B. A. Hodges, Waxahachie, field representative of religious education for the Synod of Texas, standard training course; H. C. Glenn, Temple, course in stewardship for adults and young people; Mrs. B. A. Hodges, Waxahachie, president Women's Synodical of Texas, benedict's methods; Rev. I. T. Jones, pastor Madison Square Presbyterian church, San Antonio, Encampment preacher and Bible instructor; Mrs. H. C. Glenn, Temple, course in national missions for adults and young people; Miss Melba West, Merbel, director of story telling and vacation church school division of the children's hour; Rev. L. R. Hogan, Eastland, music director; Mrs. Fred S. Rogers, Stamford, director social activities; Rev. A. O. Rue, Ballinger, director of athletics.

The Buffalo Gap Encampment offers many modern conveniences, including pure well water, sewerage system, electric lights, supply house on the grounds, where milk, meat, bread, ice, fruit and vegetables may be obtained.

A cafeteria in Ewing Reservation Hall provides for meals for those who do not wish to prepare meals in camp.

Provision for recreational activities include the Bland swimming pool, built of concrete 60 by 100 feet, and varying in depth from 18 inches to nine feet. Dressing rooms for both men and women surround the pool. Athletics of all kinds, with picnics and mountain climbing will be features of the recreational programs directed by Rev. Rue.

Encampment directors are: R. L. Bland, Abilene, chairman; John Stanley, Elvaston; W. V. Elliott, Merkel; Floyd Jones, Albany; E. B. Harrison, Stamford; Fred S. Rogers, Stamford; L. R. Hogan, Eastland; E. B. Surface, Abilene; A. O. Rue, Ballinger; L. B. Shell, Plainview; J. H. Mallard, Memphis; H. A. Leaverton, treasurer, Breckenridge.

Nature's Treasury Oil Co. No. 1 Qualls, situated about 10 miles northwest of Cisco, was cleaned out Saturday after a shot preparatory to putting the well on the pump in a few days. The well was shot at 3987 foot level, and has every indication of being 100 barrel pumper. The pay sand has a thickness of 20 feet, and should expectations be realized the well is destined for a long period of production.

STANFORD, Pastor.

CISCO PASTOR TO HELP TEACH EPWORTHERS

FORT WORTH, June 16.—Rev. P. T. Stanford, pastor of the First Methodist church, Cisco, will be a

member of the faculty for the summer assembly of the Central Texas Conference Epworth League to be held at Texas Woman's College here July 2 to 7.

Rev. Stanford will teach a course in Bible study, using the text, "The Most Beautiful Book Ever Written," by Hayes. A delegation of leaguers from the chapter of the First Methodist is expected to attend the assembly.

The campaign for registrations in the Cisco district is under the direction of Miss Eunice Locker, German, district secretary for senior chapters, and Miss Eileen Wilson, Cisco, district secretary for junior and bi-leaguers.

Registrations are now being received by Rev. J. D. P. Williams,

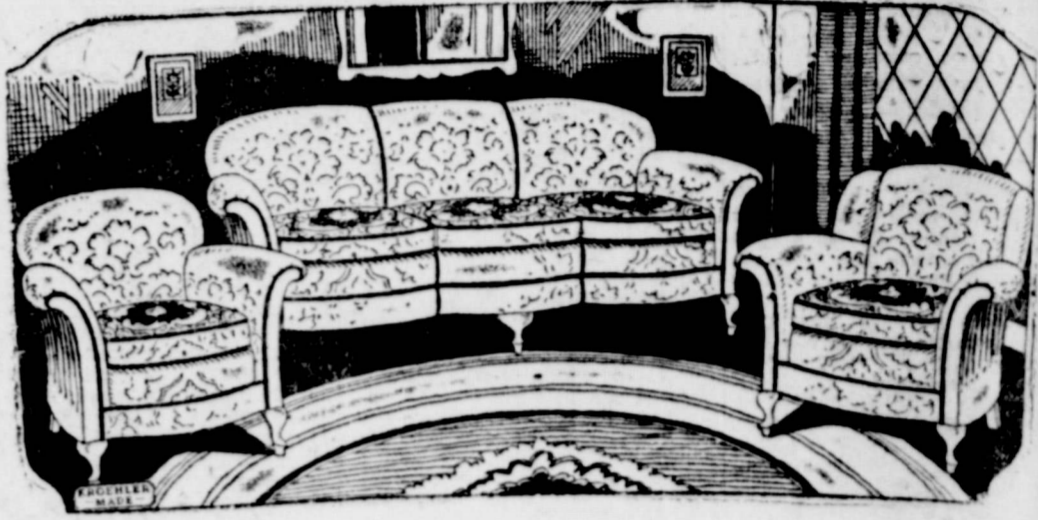

executive secretary, at the conference office, First Methodist church, Fort Worth. Room reservations in the college dormitories are being made at the registrations come in. About 400 leaguers are expected to attend.

4-H MEMBERS FROM TEXAS TO NATIONAL MEET

COLLEGE STATION, June 16.—Representatives of Texas 4-H clubs, two boys and two girls, are expected to leave Tuesday for Washington, D. C., to attend the national 4-H Club encampment, June 21-26. Every state in the union will be represented by club members at the week's session of conferences and entertainment under the supervision of the United States department of agriculture. The Texas boys and girls selected delegates by reason of their work in 4-H Clubs under direction of the extension service. A. & M. college of Texas, include: Herman Anderson of Kuerste, Brazos county; Leon Hanson, of the McCarty, Dawson county; Maurine Watt, of the Wagner Club, East county; and Edith Reneau, Shamrock, Wheeler county. The young delegates will be accompanied and chaperoned by Miss Ethel Horton, state home demonstration agent, and S. C. Evans, state club leader, of the extension service, and Miss Myrtle Miller and Miss Viola Jones, county home demonstration agents, respectively of Hunt and Wheeler counties.

DAIRY BUILDING STATE FAIR OF TEXAS

Dallas, Texas (Special)—The first annual show under the auspices of the recently-organized Southwestern Dairy Association will be held during the first week of the 1928 State Fair of Texas, (Oct. 6 to 12), in the new dairy building shown above. Dairy products machinery and supplies used in all branches of the dairy industry will be displayed in this structure. The various breeds of dairy cattle, comprising the choicest specimens from the best known herds in America, will be housed in the large live stock buildings shown in the background of the picture.

Texas, it is said, is making great strides toward supremacy in the dairying industry and exhibitors from all over the United States will be represented at the show. The State Fair of Texas is the largest in the world and was attended last year by 1,028,317 persons.

A. & M. COLLEGE GETS NEW LABORATORY EQUIPMENT

COLLEGE STATION, June 16.—Laboratory equipment of the department of mechanical engineering, A. & M. College of Texas, has recently been augmented through the latest gift valued at \$375, the gift of Dean Broaders company. The other, a novel form of gear pump for handling various liquids such as oil, water or brine, and valued at \$50, is the gift of the Southern Engine and Pump company, Houston. This new apparatus will be of much aid in instruction for engineering students, of the department have pointed out.

Agricultural Graduates at Texas A. and M. Have No Trouble Getting Jobs; Many Will Return to Farm

COLLEGE STATION, June 16.—The old order under which the college graduate, his newly won diploma in his hand, was faced with the sometimes troublesome task of finding a job, is giving way to a new era in which the job is waiting for the graduate in many instances, data compiled by Dean E. J. Kyle on graduates of this year from the school of agriculture, A. & M. College of Texas, shows. What is considered a significant phase of the survey is found in the announcement of a number of the agricultural graduates that they expect to carry the knowledge acquired at college back to their home ranches and farms and put it to work. "And so," as Dean Kyle laughingly put it, "it seems there is an answer to the query of that one-time popular song, 'How're you gonna keep 'em down on the farm?'"

all of the animal husbandry seniors of this year had jobs in prospect on graduation. Seven indicated they expected to return to their home ranches, three to other ranches while some had jobs with packing companies and allied business concerns. Twenty-five of the general agricultural graduates planned to enter Smith-Hughes work while twelve of the agricultural administration graduates were headed for cotton work with the government. Two graduates in landscape art had jobs in sight before graduation, one having accepted position with commercial nurseries. All graduates who specialized in poultry husbandry had accepted positions prior to graduation. Of the horticultural graduates, two accepted commercial jobs, one planned to teach, two planned to return home to practice horticulture and one expected to return to college. Virtually all dairy husbandry graduates had jobs in prospect as well as all graduates in agronomy. Graduates in entomology were placed in jobs, some with the federal horticultural board, and virtually all of the seniors in agricultural engineering had accepted positions which they expected to enter after graduation.

REAGAN NO. 1 MAKING 150 TO 200 BARRELS

News received Saturday from the Gordon pool, nine miles northwest of Cisco, said that the Reagan No. 1, drilled by Col. E. D. Gordon, the discoverer of the Gordon-Ranger pool, had come in as a production well making 150 to 200 barrels of oil and one million cubic feet of gas from the black line. The well was topped at 3322 feet. The well was drilled to the 2500 feet level, from which depth it is producing.
