ROAD PLANS ARE WELL ADVANCED

Contract for Overpass West of Cisco to Be Let at Next State Meeting; Engineers Are Pleased

Gibb Gilchrist, chief engineer of the state highway department, J. E. Early, divisional engineer, J. W. Puckett, construction engineer, E. Arbrook, in charge of district maintenance, and Joe Blankenship, maintenance engineer for the county met on Monday in Eastland with County Commissioners Cooper, Burns, Poe and Britain to confer on the highway improvement work now started in Eastland county.

The plans have been submitted and sent to the state highway department for the overpass across the T. & P. tracks west of Cisco, and for the new construction necessary to eliminate the bad curve in Highway 1, near the county line east of Ranger.

Plans were also submitted and accepted for re-topping and paving for Highways 23 and 67. The contract for the construction of this paving and the overpass west of Cisco will be let at the next meeting of the state highway commission, as it involves the construction of approximately one mile of new highway and a 200 foot span of bridge, as well as re-topping and paving on Highways 67 and 23. Active paving of the road through the city of Gorman on to the county line and also through Carbon will be under way not later than July 15, if the present plans for this particular work are accepted by the commission.

Gilchrist and Early were very appreciative about the splendid cooperation given to their department by the commissioners' court and by the citizenship of Eastland county as a whole, and it is very gratifying to them to be able to start this extensive improvement at this time. The right-of-way man for the county and the citizens' committee are urged to secure the signing up of the few remaining strips of right-of-way not yet secured as any delay in getting this right-of-way will only delay the highway department in its construction program as it is very anxious to get this work started and as much of it completed this year as possible.

CHARLIE TALKS IT OVER WITH HERB AT LUNCH

WASHINGTON, June 19.—Senator Charles Curtis of Kansas, Republican vice presidential nominee, arrived here today and plans for the Republican campaign began to assume a more definite shape. Curtis lunched with Herbert Hoover, presidential nominee, after which they began laying out war maps.

They are expected to discuss the national committee chairmanship, Hoover's resignation, farm relief, where notification ceremonies will occur and other angles of the campaign.

M'ADOO TO BE AMONG MISSING AT CONVENTION

WASHINGTON, June 19.—William Gibbs McAdoo, former secretary of the treasury and presidential candidate four years ago, will not attend the Democratic national convention at Houston next week. This became known today when the announcement was made that McAdoo and his family will go to Santa Barbara within the next few days to spend the summer.

Mrs. McAdoo, daughter of the late President Wilson, will enter the metabolic clinic at Santa Barbara for several days. She is not seriously ill.

Two Dozen Ciscoans in Field for Cow Census Today; Wider Canvass Is Planned after Present Count

"The appeal for volunteer enumerators to take the dairy census, as made Monday through the Daily News, brought gratifying results," said J. E. Spencer, chairman of the dairy committee, said this morning after 23 had reported and were assigned school districts in which to work today. We will complete the survey today in the districts, where these enumerators are taking the census of the cows, but there are a few more districts yet to be covered in the 15 mile radius. The remainder of the school districts will be canvassed Friday, when we hope to wind up the survey in the territory immediately surrounding Cisco, after which we will begin work in the outlying districts.

"We have many men in the field today, and the large number who responded this morning to the call for volunteers is encouraging, and shows that the people appreciate the importance of taking an inventory of our resources which we will present to the milk product manufacturers as an inducement to secure a milk plant for Cisco. Besides those who went out this morning four others, Oscar Cllett, J. H. Blanken, J. J. Youngblood and W. H. LaRoque, were assigned territory and went out for the afternoon.

"Thirteen school districts will have been covered when the 23 enumerators make their report this evening, as two of these enumerators will canvass two school districts."

After a breakfast at 7:30 this morning at the Savoy cafe the following volunteers went out in the field: Olden—E. H. Varnell and E. O. Elliott. Harpersville—Ernest Hittson and Judge Webster Hayden. Morton Valley—J. C. McAfee and C. H. Colman. Grapevine—W. R. Simmons and Gordon Roberts. Zion Hill—O. J. Russell and L. L. Walker.

Mangum—Rev. Thomas Lenoax and Dr. T. T. Roberts. Cottonwood—J. J. Collins and C. O. Pass.

Yellow Mound—V. G. Locke and Eugene Ford. Friendship—H. P. Garrett and W. H. Hurd. Reagan and Sandy—T. C. Williams and Eugene Shockley. Leeraay—Charles Hartman and Bill Mayhew. Cisco—T. F. Preston.

Those who went out this afternoon were augmented by two other volunteers, swelling the total enumerators in the field today to 29, and were as follows: Pleasant Grove—W. H. LaRoque and E. C. McClelland. Haskell—E. B. Isaacks and J. J. Youngblood. Pueblo Consolidated District No. 5—J. H. Blanken and John Thompson.

PROBE BEGUN INTO BIG COLD DRINK CONCERN

AUSTIN, June 19.—Investigation of one of the largest cold drink corporations in the country with a capital stock of \$1,000,000 will be made by the attorney general's department, it was learned here today. R. M. Tilley, assistant attorney general, left for San Antonio this afternoon to begin a preliminary probe.

He refused to divulge the name of the concern but said that it was from out of the state.

"FLYING FRAULEIN" HELD UP BY THREATENING RAIN NEW YORK, June 19.—Threatening rain today kept Thea Rasche, "flying fraulein," and the Belanca plane, North Star, from hopping off for Old Orchard, Me., thence to Berlin. She plans to take off tomorrow.

Candidates Names Are Approved

Fee for Filing to Make Race for Office in Eastland County Ranges from \$15 to \$200; Poe Withdraws

With only five of the members of the county Democratic Executive committee responding to the call of Chairman Ed T. Cox, the committee met at Eastland Monday for the purpose of arranging the names of the candidates' names on the ticket and assessing the candidates for the

purpose of defraying the expenses of holding the two primary elections. Secretary O'Flaherty was out of the county, and Will St. John, of Cisco, represented him at the meeting.

The list of candidates for state offices and United States senate had not been certified to the county committee by the secretary of the state executive committee, and could not be placed on the list of candidates published below, the name of Alvin Owsley being the only candidate for the senate whose name appears. Mr. St. John stated that the list of state candidates will be added at a future meeting of the committee to be held before the date of the primaries.

For county judge the name of R. L. Poe, of Cisco, is omitted, as St. John stated he failed to file his application for a place on the ticket with the county committee. Inquiry at the home of Mr. Poe revealed that he had intentionally withdrawn from the race. A new candidate for the office of constable of justice precinct No. 6 (Cisco), appears on the list, that of R. L. (Tub) Wilson, making three aspirants for that office, C. S. Looney, S. B. Sisk and R. L. Wilson.

No detailed report of the assessments of the candidates are available, but it was stated that the district judge's office was assessed \$200, which is the highest, while the precinct offices carry \$15 as the minimum assessment. Time for filing for a place on the ticket expired Saturday night. The district and county candidates will appear on the ticket in the following order: Chief Justice of court of civil appeals, 11th supreme judicial district, J. E. Hickman. Associate justice 11th appellate court, O. C. Funderburk, Eastland; B. W. Patterson, Cisco; James A. Stephens of Benjamin, Knox county.

Member of congress from 17th representative district, R. N. Crisheim, Eastland; R. Q. Lee, Cisco. TURN TO PAGE 6, COLUMN 4

PLANS LAID BY RED CROSS FOR COMING YEAR

The executive committee of the Eastland county chapter met Tuesday at the chamber of commerce with J. E. Spencer presiding. The board discussed the program for the local organization for the coming year and determined to be prepared for any disaster that might arise in the country. In the event that such disaster prove too large for the local community to handle, it has the assurance of the national organization to assist. The chapter will also promote life saving instruction and announcement was made of the coming from national headquarters of A. T. McCue early in August.

Mrs. Grace Ashbaugh, national field representative, gave a report of the activities of the national organization during the past year. Cisco was complimented upon its response to all national appeals for disaster work. While the Mississippi disaster was the greatest of its kind in recent history and engaged the services of thousands of workers and every arm of government, it was only one of 77 national and 20 foreign disasters handled by the organization during the current year.

A need for garments for refugees of Bulgaria was designated and of bags of Christmas cheer was made for the regular army located in foreign ports. Many of these men have no Christmas remembrance other than what is supplied in this way through Red Cross. Mrs. Don Sivalis was appointed to act as chairman of this volunteer service and the Eastland county chapter will supply ten Christmas bags to soldiers and will assist in the international work of making refugee garments.

One of the chief responsibilities of the local Red Cross has to do with the work of soldiers and sailors and their families. H. G. Bailey is chairman of this work and the chapter has as its responsibility only those men who are residents of Eastland county and who are disabled. Transients and able bodied men are not to be cared for by the local group, according to the chapter plans. Annual roll call of members will be held November 11 to 25, director to be announced later.

SWAPPING OF RADIO PATENTS HELD BENEFIT

WASHINGTON, June 19.—The remarkable progress in radio transmission in the United States never would have been possible without the system of cross licensing of patents practiced by the Radio Corporation of America and other equipment manufacturers, John W. Davis, New York, counsel for the American Telephone & Telegraph Co. and the Western Electric Co., today told the federal trade commission. He asked that monopoly suits against the concerns be dismissed.

FISH HATCHERY BREED PLACES BEING DRAINED

Superintendent Norton of the state fish hatcheries of Austin, has been in Cisco several days working with S. B. Wright, superintendent of the Cisco hatchery, superintending the draining of the breeding ponds at the fish hatchery at Lake Cisco. Wright stated that 30,000 fingerlings had been taken from the ponds up to Monday night, but only three of the twelve ponds had been drained.

"All these were bass, and are being distributed to places in the Cisco territory. Only two more of the ponds have bass, the remaining seven ponds are stocked with crappie and cat fish. All will be drained and distributed where needed. We placed 2,949 of those taken out Monday in Lake Cisco, and others will be placed there too. We will replace about 20,000 in one of the ponds where they will be kept until fall when they will be distributed. By that time they will have grown to several inches in length, and a larger percentage will live after being transferred," Wright said.

"The Cisco hatchery is one of the best plants in the state," said Norton. "There are only five hatcheries, at Cisco, Wichita Falls, Dallas, Tyler and Kerrville. It is a rather difficult problem to find suitable locations for fish hatcheries, as the proper soil is just as essential as plenty of pure water. Cisco is an ideal location, and had not the hatchery been located at the time it was it would have eventually come to Cisco for the reason of its ideal location, combined with the proper soil and plenty of pure water."

Norton stated that he expected to finish up the work in Cisco this week and go to Wichita Falls to drain the ponds there. Enroute he will distribute a batch of the young fish where needed until he gets into the territory of the Wichita Falls hatchery.

TEXAS

By WILL H. MAYES, Austin.

FIRST BALE COTTON—Texas marketed its first bale of cotton at Houston Saturday. This is always an important news item in Texas and it got front page position in most of the newspapers even if almost all the rest of the space was given over to national politics. San Juan, Hidalgo county, gets the distinction for the earliest bale of the season, but perhaps before this gets into print there will be other "first bales" from other South Texas points. More important than the fact indicated by its marketing that the new cotton season has opened and that Texas may expect a period of activity in cotton fields and in business that will extend over into the New Year.

CANDIDATES AND PLAT-FORMS.—It one may judge by what he sees in the papers everywhere, Republicans and Democrats alike, is pleased with the nomination of Hoover and the platform on which he will run for president. The Republicans are satisfied because most of them think they have the strongest man and the best platform to be obtained. The Democrats declare that they are happy because they think they can beat Hoover on the platform that has been made for him. We are indeed a strange people. Each party seems to think that it can make no mistakes when it finally reaches a conclusion as to men or principles and that the other party can not by any possible chance do the wise thing.

TEXAS TRUCK CROPS.—It is a far jump from national politics to a comment on the Texas truck crops, but I confess that I am far more interested in the market price of tomatoes than in the family tree of Hoover's running mate. Judging from Eastern reports of receipts and sales, everybody in this country must be having Texas tomatoes and watermelons for dinner today and that should be true to all Texans. Tomatoes and melons are not the only things from Texas being served on Eastern dinner tables. Other Texas delicacies that are appreciated are June peaches, plums, cantaloupes, nesting ears, cucumbers, potatoes, okra, and other products of orchard and garden now being rushed to the markets by car loads and even train loads.

MUNICIPAL BANDS.—More and more, Texas cities and towns are supporting municipal bands by taxation, or else giving them partial support by engaging them for concerts in the parks and open spaces on summer evenings. Cities are recognizing that there is an obligation on their part to help furnish entertainment for the masses of a kind that is educational and uplifting. Where the right kind of entertainment is provided there is much less likelihood of the people engaging in questionable pastimes. Most people love music and get an uplift from a first-class concert. Public libraries and music should not be regarded as luxuries, but as necessities.

GIRLS PLAY BALL.—To divert the mind of the people from politics for a short while, Memphis (Texas) is having a game of baseball with one team made up of the "business girls" and the other composed of "business men." The girls propose to show the men that they are not the "weaker sex" when it comes to ball playing, that they can wield a bat as well as a rolling pin. The success of a similar game last year has resulted in making it an annual affair, and as it is held after the stores close at 5 o'clock and an admission charge of only 25 cents is made, the game is witnessed by nearly every one in the community.

DONKEYS FOR ALL.—An enterprising Houston theater manager has bought 50 donkeys and will present one to each of the state delegations attending the Democratic convention and one to the Alaska and Philippine delegations. It is not stated whether arrangements have been made to admit these donkeys to the convention hall.

JOURNALISM BY MAIL.—Texas Technological College is now offering journalism courses by correspondence to such newspaper workers as would like to improve themselves in journalism but are unable to go to college. The courses are in such subjects as newspaper reporting, feature writing, newspaper management, editorial writing and history of journalism. No entrance examinations are required and under certain conditions students are accepted on individual approval.

JULY PICNICS.—Many Texas towns have planned picnics for July 4. It will be a gala day for the people and especially for the candidates who will find in it an opportunity to set forth the reasons why they should be elected to office.

SYNOPSIS
Lovely Rose Shannon, one of the dancing girls at Kelly's Ringside Cafe in the Boveery has attracted the attention of Chuck White. He escorts her home. Later he tries to make passionate love to her. In desperation she seizes a clock and strikes him with it. Chuck drops unconscious. Terrified that she has killed him, Rose hastily packs her things and rushes into the night. Running through the darkened streets she stumbles suddenly across a satchel marked "Mercer National Bank." On her way to return it she is met by a policeman on the trail of the bandits. He marches her to the police station.

CHAPTER V—Continued
"Sure, an I was bargain' around with me weather eye open, thinkin' I might pick up some trail on the robbery," Reilly explained. "And as I comes down the street I bumps right into this moll totin' this bag." He pointed to the satchel on the table, which Daniels was already beginning to examine with evident relief. "The Jane's carryin' it, but when she sees me, she drops it and starts to beat it. But I grabs her quick and asks her where she got it. She says she found it, but sure, Sir, 'n I figgers it's a stall for the get-away. So I blows me whistle, and Murphy comes along and we hauls her in."

"Quit the stalling. You know damned well where the money is."

when they figured they were being caught, passed the loot on and reeled on the moll to weep herself out of the situation. He wasted no time at that game—not by a long shot. "Thuh, so you found it on the street. Right how? I suppose it dropped right out of the sky, didn't it?" "Oh, please, please, believe me. You must believe me," Rose was crying afresh. "I almost fell over it, and then I stood and looked at it, and finally I picked it up. I couldn't leave it setting there—" "Oh, no! It happens every day, don't it?" Simpson peered round at the girl, a cynical smile on his lips. He too, was studying her intently, for the face was new to him. "Well, Mr. Daniels," Sergeant Cassidy turned to the Cashier. "I suppose you'll want to open the bag and examine it. You've got the key, haven't you?" "Oh, yes, indeed, Sergeant. I'd like to get it open right away. This is certainly a great relief." He pulled a key ring from his pocket; selected one of the small keys and fitted it into the lock of the satchel. Sergeant Cassidy leaned forward eagerly. The two detectives gathered round the table with the officers, Reilly still holding tightly to his prisoner, all watching intently every move of the Cashier. With a turn of the key the bag flew open and Daniels lifted out a large canvas sack and several big envelopes. The spectators pressed closer about the table. Fumbling with the string on the bag, Daniels finally untied it and allowed it to stand open. In the excitement of the moment even Reilly forgot to hold onto his prisoner. But Rose stood, her eyes wide with interest, gazing with the others. Then Daniels lifted the sack and emptied the contents out upon the table. There was an intense silence for a moment. Then sharp intakes of breath, low whistles, and a gasp. Round lay before them on the board. "My God!" Daniels clasped his hand to his head. "Well, I'll be damned!" Sergeant Cassidy stared down in amazement at this unexpected turn of events. Rose's eyes dilated in horror as she realized almost immediately the danger that threatened her. She saw Daniels tearing open the envelopes and waited, her fists

COLEMAN GIRL CROWNED MISS HEART O' TEXAS

FORT WORTH, June 19.—Before a background of a real heart lettered in white, "Heart of Texas," which extended almost to the ceiling of Fakes and Company's store, Miss Sarah Dunman, Coleman, was crowned Miss Heart of Texas Monday afternoon.

Her long court train was red heart shaped trimmed in white, and her dress was in scarlet and white. Edgar Godbold, president of Howard Payne College, Brownwood, placed the crown on her head. Little Miss Mary Elizabeth Armstrong was the crownbearer.

The Old Gray Mare Band played "The Old Gray Mare" as the professional for Miss Heart of Texas and "Texas Our Texas" for the sponsors who were introduced by Godbold. Among the sponsors who were present and who participated in the coronation ceremony were: Miss Ann Beth Clayton, Lampasas; Miss Oma Willoughby, Brady; Miss Myrt Bryson, Comanche; Miss Catherine Horn, San Saba; Miss La Vern Simms, Ballinger; Miss Sue Gillman, Brownwood; Miss Ada Bell West, Cross Plains; Miss Louise McDaniel, Santa Anna; Miss May Payne, Cook, Dublin. All the "Heart of Texas" sponsors could not be present.

The Ladies Band played, and the "McDonald Melody Boys" sang and played. The melody boys were Louis Fitzpatrick, Ace McShan, M. L. Leddy and Nolan McDonald, all from Brownwood. The Treble Clef Glee club from Howard Payne sang a group of songs. This section is composed of 17 counties, according to Godbold.

FASHION FAVORS WASHABLE SILKS

PARIS June 19.—When—and if—summer comes this year, washable silk frocks will be much worn at the smart French seaside and country resorts. After hesitating for many seasons, the chic French woman has found that they are pretty as they are practical, wash as easily as linen and pack into much less space. Then, too, they offer an opportunity to wear light colors which are more than charming against blue sky and green trees. The new silk broadcloths and washable silk crepes have sufficient body to restrain their shape and seem to hold their color much better than cotton or linen. Washable silk in plaid design of golden and brown tones makes a charming summer frock from Yvonne Davidson's collection. The ribbon width scarf and belt and the full-pleated skirt are strong points. There are more shoulder-caps for sleeves and it is the smart thing to wear short sac gloves with this style of frock.

ROMNEY MAN RECOVERING FROM INJURY TO EYEBALL
Nelson McKinney, of the Romney community, who was slashed through the eye when a strand of barbed wire, which was winding around a post last Wednesday, slipped through his hands, was reported today to be getting along nicely by Dr. Charles Hale. The physician stated that he would not likely lose the sight of the eye. In Danbury a man was hit on the head with a box of dynamite and nothing exploded but his vocabulary.—Hartford Daily Times.

MISS BLANTON AWARDED HER BACHELOR DEGREE

ABILENE, June 19.—Miss Anne Louise Blanton, daughter of Representative Thomas L. Blanton, and Mrs. Blanton of Abilene and Washington, received the degree of Bachelor of Arts from the George Washington University, Washington, D. C., at the commencement exercises held Wednesday evening, June 13, at the Washington auditorium. At the time degrees were conferred by President Clyde Heck Marvin upon 450 students from all schools of the university.

The commencement exercises were preceded by a week of festivities which began June 9 with the annual pilgrimage of the senior class to the tomb of George Washington at Mount Vernon. Other events of the senior week program were the president's reception to the graduates, the reception and dance given by the alumni association of the university in honor of the graduating class, the baccalaureate sermon and the class night exercises.

WORRIED A LOT

Run-Down, Nervous, Appetite Gone, Lady Shows Great Improvement After Using Cardui.

Waterloo, S. C.—"I took Cardui at intervals for three years, and have been in good health since last fall," says Mrs. Noble J. Hayes, who lives near here.

"I am much stronger and can accomplish so much more work now. My weight increased twenty pounds, and my color is fresh and good."

"For a long time I had been feeling poorly. Some days I dragged around the house and had not enough energy to do my housework."

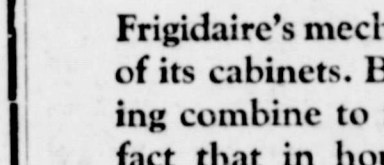

"I worried a lot about myself. I did not seem like myself, and my nerves were all on edge. I did not sleep well, and my appetite left me."

"I found Cardui to be an excellent tonic. After I had taken it a few weeks, I began to pick up and to gain in weight and strength."

"Now I am in fine health. I have recommended Cardui to many of my friends, and shall continue to do so."

"For over 50 years, Cardui has been used with success and recommended by thousands of women for weakness and similar ailments."

Ritchie Quits Race, Throwing Strength to Al Smith

Maryland Governor Withdraws, Saying That Most of Democrats Want New Yorker to Lead Party

BALTIMORE, June 19. — Withdrawing from the field of Democratic presidential candidates within a week of the national convention in Houston, Governor Albert Ritchie of Maryland, Monday night said that "Governor Smith is in every way fitted by experience, character and ability to assume the leadership," and has the best chance to win.

In stepping aside for the New York executive, who he said "is the peoples' faith in Democracy," Governor Ritchie added that he would instruct the Maryland delegation to cast its strength for Governor Smith.

There was no expectation in the Marylander's mind that he would offer the vice presidency, but even though it might be, he will not accept it.

"I am profoundly convinced that the consideration of self or of personal advancement on any one's part should be allowed to stand for a moment in the way of the success of the Democratic party which is the natural champion of self-government and popular self-rule," Governor Ritchie said.

CONVENTION HALL NAMED SAM HOUSTON

HOUSTON, June 19.—The Democracy of the nation will gather here in Sam Houston Hall. The name of the new structure that will house the Democratic convention was changed to Sam Houston Hall at the suggestion of Clem Shaver, chairman of the Democratic national committee.

A few minutes ride from the convention hall is battleground of San Jacinto where Houston won the battle that established Texas independence. Houston was a close friend of Andrew Jackson, patron saint of the Democratic party.

"Visitors to Houston who have been expecting to see a temporary building thrown up to house the convention will be surprised to see such a beautiful structure as the convention hall," Shaver said. "And it would be only fitting that the city should give a name which will do it proper honor. I thought of Sam Houston, for he was the man who fought the battle of San Jacinto and won Texas independence."

RURAL SCHOOL PROBLEMS ARE CONFERENCE SUBJECT

AUSTIN, June 19.—The conference on rural problems to be held here July 2 and 3, will be directed by Clarence Ouley, of Fort Worth, according to Dr. Annie Webb Blanton, associate professor of rural education at the University of Texas.

The extension department of the Texas State Teachers' association and the state department of education are sponsoring the conference. Rural education, the rural home, and social and health problems of rural life will be discussed.

Smith Victory Seen

"It has become increasingly evident that the great majority of the Democratic party in almost every section of the country are ready to align themselves behind the leadership of Governor Alfred E. Smith of New York."

Governor Smith is in every way fitted by experience, character and ability to assume the leadership.

"He has proved himself a fearless and efficient administrator of the greatest state in the union and his record is a guarantee that with him as president, honesty in government would take the place of corruption in government, and that the natural resources of the country would be protected."

Whatever contributes to Democratic unity will in turn contribute to Democratic victory. I think it is my duty to do my part and I do it gladly.

Self-Government Urged

Declaring that the principles of self-government and popular self-rule are challenging the attention of the country today as they have not for years," Governor Ritchie said:

"To them I have dedicated such political effort as I am able to exert. Faith in them saved the South during the dark days of reconstruction, and made possible a reunited and a happy nation, and as a son of the South I have brought to the struggle for these principles the enthusiasm and the loyalty which came to me from my ancestors who were ready to die, and some of whom did die, for the cause in which they believed."

"As a Democrat I have regarded this struggle as a duty, and as an American I believe that the dictates of patriotism require the re-establishment of these principles in our national life."

Opposes Vice Presidency

Asked whether he would accept the vice presidency if it were offered to him at the Houston convention, Governor Ritchie was emphatic in his declaration that he would not.

"I have not the slightest thought of the vice presidency, nor expectation of it being offered to me, or accepting it if it is. In taking this action, I do so without any ulterior motive, whatsoever. It emanates solely from a profound sense of duty to the nation and to the Democratic party with which the country's well-being is inseparably bound up."

Stating that he had been gratified to think that his own state had thought him worthy of being the Democratic standard bearer, the Marylander added he could not adequately express his appreciation to friends in other parts of the country, who were similarly "generous enough to think me worthy of that honor."

Stressing the need for a "united and unbroken front," in the autumn election, Governor Ritchie said that "the Democratic party needs one thing and only one thing to assure its success and that one thing is

TERRELL FOR PROHIBITION REFERENDUM

AUSTIN, June 19. — George B. Terrell, state commissioner of agriculture, is in favor of a party declaration at the Democratic convention at Houston for a referendum on prohibition. Terrell describes himself as a "life long prohibitionist."

"I know that both eros and antis desire to know the will of the voters on the eighteenth amendment, since it has been in operation several years," Terrell said.

A plank in favor of such a referendum would, in the opinion of Terrell, "gain more votes for the Democratic ticket than all other planks combined."

Terrell declared that "we are now at the parting of the ways and the action of the Houston convention may perpetuate Democratic principles and civil liberty or it may destroy them."

"How do I know your love will be everlasting?"
 "That's the way I always love 'em."

BROWNWOOD'S CHOIR WINNER AT FT. WORTH

FORT WORTH, June 19. — The choir of the Central Methodist church of Brownwood Monday night was awarded first place in the Class B division of the third annual contest for glee clubs, choral clubs and choirs sponsored by the West Texas chamber of commerce convention. The contest was held in the First Christian church.

The First Christian church choir of Fort Worth was awarded first place in the Class A division, with the Broadway Presbyterian church choir, the only other entry in this class, taking second.

The choir of the First Methodist church of San Angelo was awarded second place in the Class B division and the First Methodist church choir of Ranger placed third.

The Treble-Clef club, a female chorus from Howard Payne college, Brownwood, was the only chorus other than a church choir to appear on the program.

Other choirs entered in the Class B division were, First Methodist church, Stephenville, Central Methodist church, Fort Worth.

Judges for the contest were M. Edwin McNeely, Southwestern Baptist Theological seminary; Mrs. I. D. Cole, Amarillo, and W. J. Marsh, Fort Worth, composer and choir director.

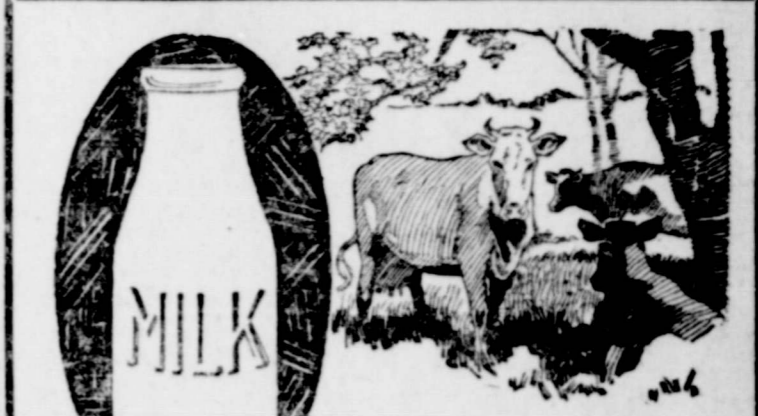

Bernard U. Taylor, general chairman of the committee which arranged the contest and master of ceremonies this year, presided over the contest. At the close of the contest he asked for opinions as to the advisability of continuing the contests. Several responded, recommending that the contests be continued as a feature of the convention.

PRELIMINARY WORK DONE ON SCOUTS' CAMP

Preliminary work of building the Boy Scout camp on the Llano river got under way last Friday when Tom Foley, Jr., of Cisco, in company with J. M. Perkins, member of the executive committee of the Eastland County Boy Scouts council, and Guy Quail, scout executive, spent Saturday digging out and walling a spring in the site of the summer camp of the boy scouts. They dug it about eight feet deep and obtained a flow of about 1,000 gallons of pure, clear, cool water every 24 hours. It will be ample for camp purposes with plenty to spare.

They also staked out the mess hall foundation, making it 27 feet wide by 49 feet long. Alex Clark, president of the county council, arrived at the camp last Sunday afternoon with one of his sons and with Mr. Quail, stayed over until Monday to make a contract for the building of the mess hall. Foley stated, who returned home Sunday.

SWINGING SIGN INJURES ABILENE MAIL CARRIER

ABILENE, June 18—A. H. Curry, city mail carrier, was knocked unconscious and three ribs were fractured when a swinging sign board at a service station fell and struck him Monday morning. He was on his delivery route when the accident occurred. Curry was brought to the offices of a physician where an X-ray examination showed fractures of the eighth, ninth and tenth ribs on the right side, and slight internal injuries. He regained consciousness within half an hour. Mr. Curry will likely be confined to his home for 10 days, physicians said.

Deny Pope Is Ill

When B. Brillante, Fascist newspaper, published a report that Pope Pius was severely ill with arteric sclerosis, his holiness not only caused Vatican officials to issue an emphatic denial, but further dispelled anxiety by granting one of the largest audiences of his reign. The above autographed picture, one of the pontiff's latest gives an excellent idea as to his present condition.
