CROSS PLAINS LIONS FAVOR MILK PLANT

CROSS PLAINS, Aug. 16.—With membership of seventy strong, the Lions club of this city is a progressive set.

Their luncheon Tuesday, attended by the women of the Methodist church, which was a delicious one, many members of the club heard the outline of proposed milk plant for Cisco, plans for milk routes and a few of the establishing of a plant at Marshall in Eastland.

The Marshall plant was officially opened July 21 and started with dairymen and farmers furnishing milk to the plant, according to The Marshall News, and is distributing \$200 daily to the farmers that section.

The routes were started in the school sections and when the capacity of the plant is utilized there will be distributed approximately \$120,000 every month of the year. There was every assurance that Cross Plains will be the movement of The Cisco News in its booster issue for plant and routes and fall edition of the paper that will be issued early in September.

There will be a very interesting meeting next Tuesday of the club, a large attendance is anticipated. The membership and officers of the club at this time are as follows: R. Clyde Darringer, president; Ted R. Smith, first vice president; Martin Neesh, second vice president; M. Polystunk, third vice president; E. D. Priest, secretary; R. B. McGowan, treasurer; George B. Scott, Lion tamer; K. J. Preston, tall twister; J. Westerman, Tom Anderson, W. Williams, Ted R. Smith, dance master; V. Harrell, A. C. Darringer, S. R. Jackson, Taylor Bond, D. Anderson, Chas. F. Hamilton, A. Huckabee, F. R. Anderson, A. Barr, S. C. Barr, D. B. Baum, A. Bertrand, S. F. Bond, C. Brown, Tom Bryant, John C. W. B. Baldwin, S. P. Colman, Roy Carmichael, A. R. Clark, H. Clifton, A. WILSON DENIES BEING 'KILLED' BY DEPUTIES

Erwin Wilson of Sabanno and Cisco has sent to Sheriff John Hart a denial of reports that he had been shot in the back with a 45-caliber pistol; that he had died in Ranger, in Eastland and in several other places and been buried without benefit of clergy; that he had been pierced in the lung with buckshot and was at the point of death; that he had been kidnapped from the county, and that he had been so badly hurt that he never would be able to walk again.

To refute these rumors, Wilson went in person to the sheriff's office and gave him a statement. Wilson was in his bed near Sabanno the morning of August 8 when officers came to the house looking for a man they wanted and it was not Wilson. Awakened from sound sleep, he did not know whether they were officers or bandits and was "fading away" when he felt something peering him and stopped. He went with them to Eastland and had some small shot poked from beneath his skin and then went back to his home, where he is now at work.

In his statement Wilson said that "the officers treated me as nice as anyone could ask an officer to and I want the public to know that I hold no ill will or blame the officers in any way for the incident, as they did not do any more than any officer would have done under similar circumstances."

FARM HOME AWARDS GIVEN FIVE TEXAS WOMEN.

MCGREGOR FARMER MAKES TON LITTER WITHIN 135 DAYS

WACO, Aug. 16.—To Luther Herring of McGregor, twenty miles west of Waco, belongs the distinction of being the first man in McLennan county this year to produce a ton litter of hogs within 135 days or less. The ten pigs in his litter weighed a total of 2,632 pounds at the end of 135 days.

Al Smith says he won't go in for "holoney" pictures. Still, he probably would have no objections to appearing in a newswall showing him bringing home the bacon.—Detroit Free Press.

ONE MAN KNOWN DEAD IN POTTERY PLANT BLAST

HAMMOND, Ind., Aug. 15.—One man was known to have perished in an explosion which wrecked the plant of the Indiana Sanitary Pottery company here and police said possibly two or three others may have been killed. The explosion was followed immediately by fire, and police began an investigation on the theory the plant was blown up.

TRUCK DRIVER WAS KILLED BY TRAIN AT BIG SPRING

BIG SPRING, Aug. 16.—Marvin Burdwell, 21, truck driver was fatally injured Monday afternoon when the truck which he was driving was struck by a T. & P. train at the last crossing. He received a fractured skull and other serious injuries, which resulted in his death a few hours after the accident.

BRECKENRIDGE TO VOTE UPON CHARTER RULE

BRECKENRIDGE, Aug. 16.—Breckenridge voters will be called upon to pass upon a new charter and extension of city limits proposed that are to result from the appointment Tuesday of a charter commission by Breckenridge chamber of commerce.

This was the announcement of Mayor C. H. Clark, who said that the charter body of 15 citizens would be decided upon at the next meeting of the city commission.

The proposals were involved in campaign pledges made by the mayor in his race for election. The proposed extensions will add at least 2,000 people to the census report of Breckenridge.

NEAR HIS END

"My dear madame, I'm afraid you will have to prepare your husband for the worst."

"Oh, doctor, is he really going to die?"

"Oh, no!" the doctor replied. "But I must forbid him whisky."

National prohibition officials are seeking \$100,000 worth of pre-war whiskey which disappeared. One place where they needn't look for it is among the bootleggers.—Flint Daily Journal.

GOOD COTTON CROP IS SEEN BY GIN MAN

Jim Yeager, prominent gin man and citizen of Putnam, was a visitor to Cisco Wednesday, and stated that he was getting his gin in business for a big run this fall. Being a gin man I am naturally an observer of the condition of the cotton crop, which seems to me to be the best I have seen in many years in the Putnam country. The lint is looking fine, growing like a weed and taking on all the color the plants will mature. My observations show few boll weevils, at present, and I do not think any damage is being done by these pests. However, there are few leaf worms, according to some reports. Ordinarily there would be a fear from the leaf worm, but this year the crop is late, the worm is small and should the leaf worm appear in any considerable numbers, they might be a material factor in reducing the yield. Farmers have welcomed the leaf worm in past years, when the crop was rank and vegetation thick, as they destroyed the foliage and allowed the machine to open the matured bolls over the ground. But this year the crop is not so far advanced, the plants being comparatively clean, these conditions do not excite and the leaf worm could seriously damage the crop by an early appearance.

Wouldn't you prefer a car built in the World's Most Modern Automobile Plant?

Today you demand infinitely more in your automobile than you did five years ago. You demand higher top speed, more trustworthy performance, greater snap and acceleration and longer life.

In order to satisfy you, Oakland now builds the All-American Six and the Pontiac Six with greater care than ever before. Where tolerances of one-thousandth of an inch were once permissible, now scores of operations are accurate within one ten-thousandth of an inch. Oakland and Pontiac Sixes are built in factories constructed almost entirely within the past two years. Oakland is constantly discarding and replacing equipment, content to use only the very newest, most accurate designs. Oakland inspection standards are second to none in the industry, regardless of the price of the cars to which they are applied.

Wouldn't you prefer a car built in the world's most modern automobile plant with standards of precision such as Oakland employs? Drive an All-American Six or a Pontiac Six, and you'll find the answer in superior performance, stamina and reliability.

Oakland All-American Six, \$1045 to \$1265. Pontiac Six, \$745 to \$875. All prices at factory. Check Oakland-Pontiac delivered prices—they include lowest handling charges. General Motors Time Payment Plan available at minimum rate.

DEPENDABLE CLEANERS AND DYERS

5 GOOD REASONS

Why Most People in Cisco Prefer TULLOS BROS.

- 1—Because they have the Biggest and most Modern Dry Cleaning Plant in Cisco.
- 2—Because they are dependable, both in their Work and Service.
- 3—Because they have the only pleating machine in Cisco, therefore they are able to do any kind of pleated dress.
- 4—Because they are Master Cleaners, and a Master Cleaner is always a good cleaner.
- 5—And last but not least their prices are not higher, the work is just better.

Tullos BROS.

PRESENT SYSTEM OF HIGHWAY CONSTRUCTION TO BE FOUGHT

State to Build Designated Roads and Counties Lateral Ones, Plan to Be Offered Texas Legislature

MASTIN, Aug. 16.—Leonard T. and all their credit for lateral roads; also it will build roads on a plan as you go plan and when the roads are built there are no bonds and nobody owes anything." Tilton insists that it will also result in a policy whereby the state fund available for construction of roads will increase from year to year as motor vehicle traffic increases, and as the state system highways is extended by continued building the mileage of county lateral roads will be constantly decreasing, while the income to the counties for road purposes will be constantly increasing.

"I am also urging that as a part of the new policy, that the state provide for the payments annually as they mature, of the interest and bonds by counties and districts for building state highways," continued Tilton. "The state's part of the vehicle license fee will redeem these bonds. This would relieve land and property tax payers of the ad valorem tax for this purpose."

"The new policy I am urging will relieve land of long time ad valorem taxes for new roads and for bonds redemption, and should have a distinct tendency to improve land values."

"All the legislation necessary to carry the new policy into effect can be enacted by the legislature at any time and does not require a change in the constitution."

Callaway Fought Wilson, Wartime Policies and Prohibition, Abilene Told by Lee in Campaign Speech

ABILENE, Aug. 16.—There was a time in the not too distant past, it wasn't just a hangover of the afternoon temperature. It was a time when the first Democratic primary in the congressional campaign in the district answered the charges made against him here a week ago by his opponent in the recent primary, Oscar Callaway of Comanche. Lee didn't wear any hat, he didn't wear any tie, and he didn't wear any shoes, literally or figuratively, and he didn't wear any of the former congressman's suits. Lee's speech was not in the nature of a bitter personal attack on his opponent—it was merely a recital of happenings of a decade and a half ago. Most of the events which the Callaway called to the attention of the 1,200 or 1,300 around the federal law were well known to his hearers but many have been dimmed in their memory by the intervening years. In addition Lee explained the transactions in the buying up of stock of the Cisco & Northeastern railroad for the Texas & Pacific, which Callaway had charged that Lee had swindled some of the stockholders.

Callaway himself replied to Lee after the latter had finished his address. But it was a Lee address and he was observed at times by some 25 or 30 listeners who were his opponents as given repeated evidence throughout by the majority of the crowd. Callaway denied some of the statements made by Lee and he made a general charge against him, but his speech did not contain the specific accusations of a week ago and it looked like the fire of the speech made when Lee was not present to defend himself. The Callaway had put him completely on the defensive.

Homer Shanks, one of the defeated candidates in the first primary, attempted to speak but he didn't get very far. He started to recite a prayer which he said Lee prayed every night but the audience didn't take very well to the mockery and sarcasm. It looked like the Clyde man and when he raised his voice to make himself heard it hooped louder. As a result he left the platform amid boos and catcalls.

On the lighter side there was music by the Lobo band of Cisco, and two short and highly gentlemanly speeches by O. C. Funderburk and B. W. Patterson, runoff candidates for associate justice of the civil appeals court at Eastland judge James P. Simons presided over the night's ceremonies.

Lee and Caldwell

Lee started speaking at 9 o'clock and finished at 10. There was one interruption—an unannounced interruption into the debate by M. Caldwell of Abilene, who offered to one of Lee's statements. Lee was talking about the C. & N. E. deal and said Caldwell had taken \$25,000 worth. Caldwell rose from the crowd, calling "Colonel Lee."

Caldwell said that instead of taking \$25,000 of C. & N. E. stock he took \$100,000. He then sat down. Lee answered, "All right. The books of the company did not

show that Judge Caldwell owned more than \$25,000 worth. I did not know he had made additional purchases from Jesse H. Smith and others, as he tells you."

"As the Judge Caldwell's stock," Lee said, "further along his discussion of the C. & N. E. deal, Lancaster of the Texas & Pacific himself said to me, 'Lee, I don't want you to disturb the Caldwell stock. I want to handle that myself.' He said the same as to Mr. Caldwell's 50 shares, and to Mr. Walker's 250 shares."

"Later Judge Caldwell asked me to take up 200 of his shares at par. I told him I would try to handle 150. I put the proposition up to Mr. Lancaster and he said, 'K. O. N., and I personally sent Caldwell my stock for \$15,000 at par.'"

Railroad Deal

"I come now," said Colonel Lee, "to the serious charges made against me in connection with the management of the Cisco & Northeastern railroad. My opponent tells you I sold a railroad and he has made serious charges against me."

Lee then said he had not sold a railroad at all; that his only deal with J. L. Lancaster, president of the Texas & Pacific, was to buy and deliver to Lancaster 51 per cent of the C. & N. E. stock.

"It was not more an official act on my part than had any man in this audience done the same thing I did," he said. "And I want to carry it right now," he added, "that I paid par, 100 cents on the dollar, for every share of stock I bought to make up this 51 per cent."

Denies Olsen Suit.

From this same platform a week ago tonight, Lee went on, "My opponent told in his hand what he would lead you to believe was a citation filed by A. J. Olsen against me in the sum of \$2,500, representing it to be a claim of Olsen against me growing out of the sale of Olsen's stock to me. He further stated or intimated that I paid Mr. Olsen \$1,500 to withdraw the suit."

"My good friends, I hold here a certificate from the district clerk of Eastland county in which he states he has examined the records for 10 years back, and that during that time A. J. Olsen has never filed suit of any character against me anywhere. I want to say further that I never bought nor had any part in the buying of the Olsen stock, nor did I share directly or indirectly in any profits that might have been made from the purchase or sale of the stock."

Lee then said: "With your permission I am going to read here a copy of an affidavit signed by J. W. Ray, which will I believe make this matter thoroughly clear to all of you."

Ray's affidavit went on to say that, "in the interest of fair play, he wanted to say that R. Q. Lee did not have any knowledge of or interest in one share of C. & N. E. stock purchased by Ray. That he, Ray, had bought the stock from A. J. Olsen, Dr. J. H. Ball, E. S. Curry and Eugene Curry at 50 cents on the dollar, paying them \$7,500. He said Lee did not have any knowledge of or interest in the deal, and that he was in fact, at that time, 'ad-

try has been pinched. Then talk to us about economizing at the table. Be cautious that you do not come into contact with federal officials. Determine what you are going to do and then reach for a club for these officers, loaded to scatter, and get every one of them from constable to president of the United States."

Lee then turned attention to Shanks.

Shanks Wanted \$1,000 Is Charge.

"I must," he said, "pay my respects to Mr. Callaway's henchman, the man who has been going over this district with him speaking in his behalf, Mr. Homer Shanks. They said that on that night John Robertson of Clyde, want to read an affidavit to you, signed by two reputable men which I believe will explain to you why Mr. Shanks is supporting Mr. Callaway instead of me. I will make no comment on the affidavit, but you can draw your own conclusions. The men who signed this affidavit are here tonight."

Lee paused and said, "No, I don't think I will read that affidavit. There were cries of 'Read it!' and he answered, "All right, I will read it."

The affidavit which Lee read was by J. M. Williamson, mayor of Cisco and D. J. Moss. They swore that on July 31, 1928, following the first primary of July 28, they went to Clyde, home of Shanks. They said that on that night John Robertson of Clyde, told them that he and Shanks preferred supporting Lee to Callaway in the run off, but that

BUTTER KIST BAKERY

Shanks had spent \$1,800 on his own campaign, and "that he must make some of it back during this campaign." The affidavit said that Robertson said Shanks would "put in all his time from now until August 25 for \$1,000 and his expenses."

Shanks later joined the conversation, the affidavit said, remarking "that he had spent \$1,800 and could not afford to lose this amount, therefore his services would be available for the one who could pay him the most for them, remarking that Callaway had been to see him and that he must let him know right away."

Lee said Williamson and Moss reported the conversation to him, and he promptly declined to have anything to do with the proposition.

BRIDGING THE GAP
Between the Gas Fills and Your City—To Serve You!

Lone Star Gas Company

"Bridge-ing" the Gap

What an age we live in! So many things to do—so many places to go. Sometimes you wonder how some women do it. But with natural gas delivered right into the kitchen you can safely sit at the bridge table until a bare half hour before dinner time.

YOU women nowadays enjoy yourselves far more than your mothers did. Pleasant afternoon bridges, matinees, or shopping tours are easily accomplished with all the modern conveniences that you have to help you.

Consider natural gas, for instance. It's always ready for you to use. To fully appreciate natural gas, just imagine your consternation if you were to walk into your kitchen, turn the handle, and find no gas there! It just simply doesn't happen, does it?

But if it were not for the Lone Star Gas Company, you would not know the marvelous, taken-for-granted service that your local gas company renders. You would have the hardship of handling a more cumbersome and dirty fuel. And much time would be spent in waiting to heat the stove (and incidentally, the whole kitchen), before you could cook.

We've built huge pipe lines that bring clean and economical natural gas to your community. We maintain costly pumping stations so the pressure will never lag. And part of our army of employees is always on the job so that the service shall not fail.

Bridging the gap, as we said it to the men—"Bridge-ing the Gap," as we have just told you—when we say our service means less work and more leisure for women, you'll know what we mean.

Lone Star Gas Company

SORE GUMS NOW CURE!
You won't be ashamed to smile again after you use Leto's Frenesia Remedy. This preparation used and recommended by leading dentists and cannot fail to fit you. Druggists return it if it fails.

A VALIANT SOLDIER OF THE CROSS.

"The Son of God goes forth to war,
A kingly crown to gain;
His blood-red banner streams afar;
Who follows in his train?"

"Who can drink his cup of woe
Triumphant over pain,
Who patient bears his cross below,
He follows in his train."

—Reginald Heber.

"Every forward-looking man and woman seeks to lift the level upon which mankind stands, and they trust that they will see beneficent changes during the brief span of their lives," said William Jennings Bryan in that last great speech of his intended for delivery at the Tennessee trial.

It was a clear and striking characterization of himself.

To Mr. Bryan the religion of Jesus Christ was not static, but dynamic; Christ a living spirit of ever-expanding influence and power and like "The Valiant Soldier of the Cross" he was, he ardently believed that his course of action was clear; he must consecrate the great energies and abilities that God had given him to help mankind see the true light. He knew there is no limit to the power of that light to mould life and reveal truth, and with banners flying he died proclaiming it. Light—that is what poor, struggling humanity does need—and in many of Cisco's churches Sunday prayerful men and women will be reverently seeking it and doing the best they can to reveal its glories to others. Will you be one of them

NOTICE, VISITORS!

Don't think that because you are away from home you are away from friends--there are many friendly churches in Cisco and Eastland county, all denominations. They extend to you a cordial invitation to attend their services.

TIME IS APPROACHING FOR FLOODING OF COTTON MARKET

Shipping of Product as Soon as It is Ginned Lowers Price; Storing of It Would Mean Profit at End

Some of the year is almost here and Texas farmers again will have their cotton to market in the summer. They have been doing well in the past, and it is expected that the crop will be harvested and ginned in the next few weeks. The cotton and town squares of country will be thronged with cotton gins and bales, with hundreds of cotton growers accepting their price they may be offered.

The same old story of better prices for a commodity should have made the South depend upon it. But instead of becoming rich, the South, Texas, finds the cotton price is anything but a flourishing condition.

The explanation part of it all is that the producers of a world commodity in such a great degree have not enjoyed a high degree of prosperity all these years, with the exception of a few years. The last twenty cotton has had the farmers greatly, or

NOMINEE FOR PRESIDENT IS NEGROES' PLAN

SAN FRANCISCO, Aug. 16.—In regional against both Republicans and Democrats, negro leaders have framed plans to nominate one of their own race as a candidate for the presidency.

With the side idea of forcing greater recognition from the two major parties, 3200 delegates of the Independent Order of Elk, second largest negro fraternal organization in America, will meet at Chicago on Aug. 24 to name a candidate, probably Alderman Louis Anderson of Chicago. The result is sponsored by the Elk, which has a membership of 400,000 and some of the country's most influential negro politicians at its head.

The reason behind the revolt were outlined to Herbert Hoover, Republican nominee, by Robert H. Clatsop, negro leader of Memphis, and Roscoe Simmons, who controls the black belt of Chicago. Clatsop and Simmons were members of the notification committee, and stayed over a few days to confer with Hoover. Both will go to Chicago to speak against a separate negro ticket, and fight for Hoover.

Negro leaders, weeklies and dailies have recently charged that the Republican party seeks to shake the colored rule of the organization in the South. They are particularly incensed at the indictment of Perry Howard, negro national Republican commit-

tee member, who was indicted in the District Court of the United States for the Northern District of Texas in Bankruptcy Abilene, Texas.

In the Master of Fred Moellendick, Bankrupt, No. 1278 in Bankruptcy Abilene, Texas, 8-14-28.

Office of Referee

To the creditors of Fred Moellendick, of Cisco, in the County of Eastland, and district aforesaid, a bankrupt. Notice is hereby given that on the 11th day of August, A. D. 1928, the said Fred Moellendick was duly adjudged bankrupt and that the first meeting of his creditors will be held at my office in the city of Abilene, Taylor county, Texas, on the 8th day of September, A. D. 1928, at 10 o'clock in the forenoon, at which time the said creditors may attend, prove their claims, appoint a trustee, examine the bankrupt and transact such other business as may properly come before said meeting.

D. M. OLDHAM, Jr., Referee in Bankruptcy.

COLORADO GOVERNOR ACCEPTS NOMINATION IN EIGHT WORDS

DENVER, Aug. 16.—Governor William F. Bennett of Colorado thunders two records have recently in his acceptance, formal or informal as you like it, of the Democratic nomination for re-election.

The first record broken was in regard to brevity. His talk consisted of a total of eight words. They were:

"Well, I guess I've got to do it."

The second record to fall before his unordinary character was in regard to the size of audience that heard the acceptance. This number reached a total of one. Thomas A. Anear, chairman of the Democratic state central committee, was the only other person in the room.

man from Mississippi and grand attorney of the Elks order. His influence is blamed on friends of Hoover, particularly Mrs. Mabel Walker Whitehead, assistant attorney general.

WHICH? Prof.—Clemens is one of the most remarkable figures in all history. Study—Is or had?

Farmer Can Have Own Nitrogen Factory by Production of Such Legume Crops as Alfalfa, Clover

COLLEGE STATION, Aug. 16.—Every farmer can have his own nitrogen factory right on his land, F. A. Miller, agronomist, extension service, A. & M. College of Texas, pointed out in a discussion of "Legumes for Texas" before the crops and farm engineering group of the nineteenth annual farmers' short course here.

"Such legume crops as cowpeas, sweet clover, alfalfa, velvet beans, soy beans, Mung beans and Guar, lupedina and vetch have the power to utilize the nitrogen from the air by the action of the bacteria on the roots and hence can rightfully be called 'little nitrogen factories,'" the speaker said. "Other crops such as corn, cotton, grain sorghums and small grains do not have the power. The amount of nitrogen in legume plants varies somewhat depending on the crop itself and also upon the condition of the soil. In many cases it will run from 30 to 50 pounds to a ton of hay.

"The word 'legume' should become a by-word with every farmer

AUBREY RAY'S PRISON TERMS TO 353 YEARS

GATESVILLE, Aug. 16.—Aubrey Ray, 21-year-old confessed bank bandit, who perhaps holds two modern Texas records—that for robbing more banks before he could vote than any other man, and for receiving the highest total of penitentiary sentences, 353 years—was tried and convicted here Monday for robbery about a year ago of the First State Bank at Copperton Cove and given a 20-year term. He pleaded guilty.

But three witnesses appeared. They were Clarence Clemmons and Barron Gilmore, employees in the bank, and Miss Oleta Ray of Anson, sister of Aubrey, who testified only to the age of her brother, 21 years. Roy Foreman of Riley, who was Ray's attorney in three previous trials, represented him here.

Testimony of the bank employees disclosed that while the robbery obtained only \$600, they overtook \$3,500 in cash.

Hanger, Captain Tom Hickman and Private McMorris, both of the Austin company, attended the trial, which attracted a crowd one large for the courtroom to accom-

modate. Many of the spectators were from the Kilbuck community, where Ray lived as a child and attended elementary and high school in the days when he was known only as a quiet son of farmer boy, who showed prospects of becoming a great football player.

Ray is under a sentence of 30 years for robbing the Ohio State bank and has received 90-year sentence for each of three bank jobs at Sylvester, McCaskey

Profit of Over \$500 Is Netted Ranger Farmer by 73 Fruit Trees; Greatest Revenue Is from Plums

CISCO, Aug. 16. — A net income of \$20.40 from one plum tree — a net income of \$500 or more from 73 fruit trees — and a net income of \$18.50 from another plum tree.

That is the kind of fruit that William Healer has on his two-acre fruit and truck farm located in the city limits on Eastland Hill. The fruit section of the farm — three-quarters of an acre — has 100 trees, but only 73 are producing fruit. Healer has many different varieties of peach and plum trees set out on the three-quarters of an acre.

He said that the greatest net income had been received from the plum crop. Two of the trees have netted him \$39.50.

He pointed out another plum tree that would have netted him more than either of the other two if the plums hadn't been so good that the people ate them as they walked through. About 80 were driven from the side of plums from this tree.

Healer has 30 plum trees that are bearing fruit. They are divided into six Wines, half a dozen six weeks trees, six Burbanks, six Green Sages, and six "unknown" variety.

He has 42 peach trees that have produced a record crop this year. In the 42 trees he has 14 Elberta, five Minnie Stansell, five Mamie Ross, nine General Robert F. Lee, four Chinese Cling, and six Red Inferno.

In addition to the fruit trees, Healer has 200 dewberry vines planted on one-eighth of an acre. This year the dewberry tract produced 142 gallons which were sold for sixty cents a gallon or \$85.20. Last year the same vines produced 172 gallons and the year before had 186 gallons.

Enrolled in the two acre plot

are grape vines and varied garden truck for home consumption. In the rear is a larger plot in which are planted watermelons, potatoes, black eyed peas and corn. With the exception of a few broken limbs caused by the heavy load, all of the trees are in good condition.

CISCO'S STOCK JUDGING TEAM IS BACK HOME

E. H. Varnell, vocational instructor of the Cisco high school, and his champion stock judging team have returned home from a touring trip extending over a week which carried them to Chicago Station and several intervening cities, where some of the choice Texas herds were judged by the youngsters. Varnell stated that the trip was a most enjoyable and profitable one, as the boys gained much valuable experience that will materially assist them in their work at the National Dairy Show at Memphis. Varnell stated that the boys judged 25 or 30 head of the best dairy cattle in Texas under the coaching of A. L. Durack of the A. & M. college; Dr. A. E. Flowers of Dallas; Frank Richardson of Dallas; and others including the instructors of the A. & M. college and North Texas Agricultural College at Abilene.

"We found some of the best Jerseys seen on this trip at Dallas," Varnell said. "The boys did excellent work and made a fine record in judging the cattle. At the A. & M. they gained some valuable experience in milk judging, a matter which was especially valuable, as they had previously very little experience in milk judging; and as this will be one of the tests at the National Dairy show, this experience will stand them well in hand."

Those accompanying Varnell on this trip were Bert Ezeell, Cra-brun Yeager, N. L. Taylor and Floyd Thorman.

This team won the free trip to the National Dairy show to be held at Memphis, Tenn. in October, in the contest at the A. & M. college last April in competition with teams from every section of Texas.

Texas Occupies Entire Continent Except U. S., Mexico and Canada, Visitor Says of Lone Star State

WHAARTON, Aug. 16.—In the opinion of the Wharton Bank and Trust company today the following impression of Texas, written and signed by "A Texas Visitor," also reproduced in various periodicals:

"Texas occupies all the continent of North America except the United States, Mexico and Canada. Texas occupies the north of the Rio Grande the only duty river in the world, also the only one with the possible exception of the Trinity, which is navigable for small craft and petroleum.

"Texas is bounded on the north by 25 or 30 states, on the east by all the oceans in the world but the Pacific, and on the south by the Gulf of Mexico and the Gulf of the Americas and on the west by the Pacific ocean, the Milky Way and the universal universe.

Would Float in Ocean

"If Texas were dropped from the rest of the United States and the Panhandle is removed into the ocean, as it has been in a vast submarine sea it would float.

"It is 100 miles farther from El Paso, Texas, to Texas than it is from Chicago to New York. Fort Worth, Texas, is nearer to St. Paul, Minn., than it is to Houston, Texas.

"The chief occupation of the people of Texas is to be seen from making all the money in the world. The chief product of the people of Texas was formerly Mexico, but now it is land, horses, sheep and Texas wool.

"The United States with Texas set would have a three-quarter million letter.

"Texas are as good as Texas that they can not sleep at night. If a Texas's head should be removed the map of Texas would be found photographed on his brain.

"This is also true of the heart. Unless your heart gets a million miles from your head, your eye will be blind in safety as a mountain in Texas. Our Texas's eye is 100 miles from his head, and he is thinking of moving his head back on to his eye and is not being helped by any automobile and accident.

Plenty of Land for All

"Other Texas' headless have a million million acres of land on their ranches. One Texas man has five miles of navigable river on his farm. If the occupation of cultivated land in Texas were the same as in Illinois, the state of Texas

as a crop would equal that of forty-seven states.

"Texas has enough land to supply every man, woman and child in the world with a tract five feet by twenty and have enough left over for the armies of the world to march around the border five abreast.

"If the alfalfa grown in Texas were baled and built into a stairway it would reach the pearly gates.

"If all the bones of Texas were one big bone he would be able to dig up the Panama Canal in three weeks.

"If all the Texas stars were our feet he would stand with his front feet in the Gulf of Mexico, one hand lost in Hudson Bay and the other in the Arctic ocean and his tail would brush the dust from the Alps Bernese Alps State."

CITY SEWAGE EXPERTS WILL HOLD PARLEY

AUSTIN, Aug. 16.—A special session of the conference of city sanitary engineers and others interested in sewage treatment is to be held August 27, at Cleburne, under the auspices of Dr. J. C. Anderson, city health officer, and Dr. F. E. Glavin, director of engineering research of A. M. Huber, having those who will participate in the conference are Dr. E. P. Nelson, head of the chemistry department of the University of Texas, who will speak on "Available Chemical Sewage and Their Elimination," J. O. Texas, water commissioner of Cleburne, and T. R. Sims, Cleburne water works superintendent, both speaking on "A Decade's Progress in the City of Cleburne." A. H. Taylor, chief sanitary engineer of the state health department, H. B. F. Hedlund, consulting engineer, Austin, and Elmer Woodhouse, city water department, Dallas, are others who will take part in the program.

Proven assets in closed banks are reported to be liquidating rapidly. The weather would that anything. — Saint Paul Pioneer Press.

QUIT TOWN OR WORK OUT FINE NEGRESS TOLD

"Do you think you can wind up your affairs and vacate Cisco by Saturday night?" Mayor Williamson asked Bessie Hall, dusky denizen of the darktown section of Cisco, when Bessie was arraigned in city court Wednesday after the police had raided a house occupied by the woman, hanging a bunch of negroes against whom gambling charges were filed.

"You can take your choice of leaving Cisco or serving a term at Lake Cisco training camp," the mayor told Bessie. "Most of the trouble the police have had with the negroes of Cisco has been caused at the house occupied by you, and I am determined that it will have to stop." Bessie protested her innocence, flurried and indignantly, and stated that she had never been fined in the city court during her five years residence in Cisco. The mayor stated that others had pleaded guilty to the misdemeanors in which Bessie was involved, and had taken all the blame upon themselves, hence the hearing order was issued for Bessie, admonishing the police to bring her into court if she was in Cisco next Saturday night.

Those arrested in the raid the police made on the woman's home at 2:11 Wednesday morning, and who had their hearing before the mayor before Bessie's case was considered were Willie Swisher, Riley Freeman, T. Herrod, J. C. Jackson, Willie Pountrey and J. T. Evans, all negroes from neighboring towns who were here for a lodge celebration. Each was fined the usual sum for gaming. When arrested police stated they were indulging in a game played with cards, and thought they were "double crossed," as they said they had paid for lodging at the home of the Hall woman for the night.

COLEMAN C. C. IS COMPLETING FARM SURVEY

COLEMAN, Aug. 16.—Data and organization plans for bull circles in several communities are being gathered and compiled by E. V. Cook, chamber of commerce vocational agriculture manager. The newly formed department of the chamber of commerce is also completing a survey of farms, crops and stock raising conditions throughout the county to encourage cooperation between the chamber of commerce and agriculturists.

Since a year ago, when the chamber of commerce assisted in stocking Coleman county farms with a carload of registered dairy

cattle and with the completion of the Coleman creamery interest in dairying has steadily gained here. Division of several large ranches heretofore held intact throughout the county into small farms of 100 and 320-acre farms has greatly stimulated the agriculture interest and that in turn a more comprehensive dairying program. Sheep and goats, which have been largely confined to the more western counties, are making huge inroads into the stock raising of Coleman county with highly favorable results. Through investigations made, it is found that a few sheep with proper care will produce fully as much wool here as a larger flock without expert attention.

You can tell how old a man is by a simple current test: Does he quote that recent saying of Henry Ford, on his sixty-fifth birthday anniversary, that "the world is run by men over 50?" — Savannah Morning News.

AMARILLO IS SUED FOR SEWER FLOODS

AMARILLO, Aug. 16.—Residents of Red River a truck farming community, have presented a claim for \$92,000 against the city of Amarillo for damage alleged to have been done crops and homes by floods. The city sewer system empty into a small creek which flows through the district and residents claim the emptying of storm water during recent heavy rains caused a flood which swept away their crops.

DAWES SIGHTSEEING IN PUEBLO INDIAN CENTER

TAOS, N. M., Aug. 16.—President and Mrs. Charles Dawes were sightseeing in the Pueblo Indian center at Taos, N. M., Wednesday, after leaving here from wagon wheel camp Tuesday. They plan to leave Thursday by automobile for Wade Phillips ranch near Cimarron, where the vice president will try his luck at trout fishing.

Boy Friend—This sure is tough on the back.
Girl Friend—Guys with weak backs ought to use their heads—and buy Goodyears.

What's the Use?—When Goodyears Now Cost So Little

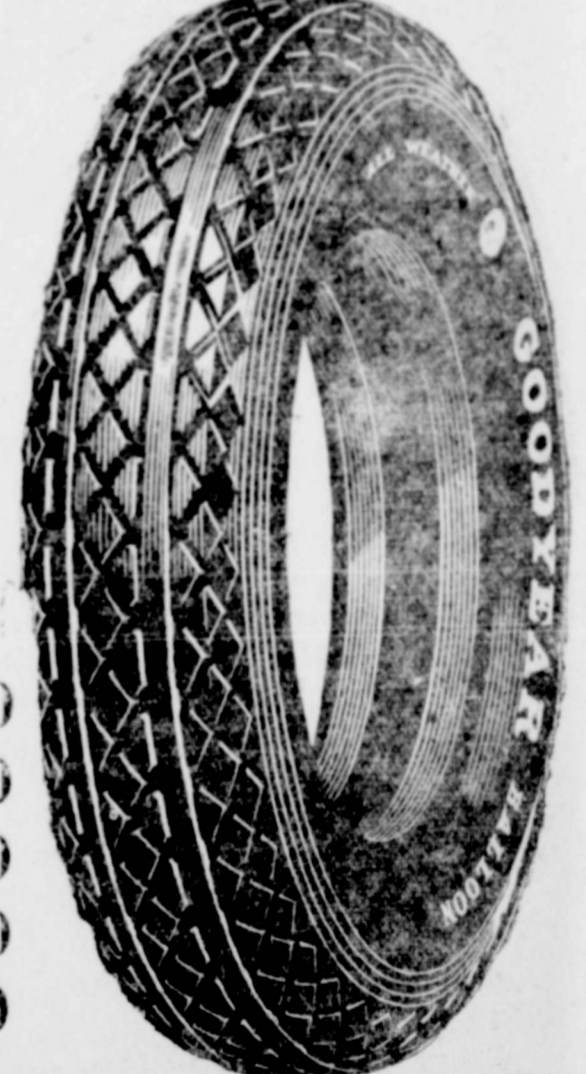

WHAT'S the use of worrying about punctures or blowouts every time you start out, when you can trade us those old tires for new Goodyears at the **NEW LOW PRICES**—The lowest prices in Goodyear's 30 years of selling tires!

Think of this! The price you would have paid a short time ago for some cheap, little

known tire now buys you a genuine Goodyear!

You have four types of Goodyears to choose from—Double Eagles, Heavy Duty All-Weathers, Standard All-Weather Treads and Pathfinder Treads.

Come in and let us make you an offer on those old tires—before your next blowout or puncture makes them valueless!

Smith-Straton Row Appears to Have Flopped but Preacher Says He Still Wants to Debate Foe

YORK, Aug. 16.—The wide-spread "debate" between John Roach Straton, the fundamentalist, and Gov. E. Smith, the Democratic candidate for president, appears to have gone into a tailspin and to have flopped.

Preacher is determined to raise the issue again through the medium of a public hearing, even to the extent of a big hall and repeating a bigger audience than that Governor Smith is his "deadliest foe" of moral and political wisdom.

Smith declined to answer back anywhere except in the Baptist church, from which the preacher attacked.

Matter is closed. Smith and until I hear from the affirmative the matter is closed, the governor's letter of the letter was shown.

copy of the letter was shown to newspaper men, although he had not received the copy.

Smith is the most remarkable man I have ever known as "trading" him goes under Heaven could be from the fact. Of course, I did not answer until I receive the governor's letter. However, I feel the heart of my reply will have the effect.

challenged me to a joint debate. I accepted. He stipulated the debate be held in a church. For obvious reasons I already have advised cannot be.

the governor insists on debate with me in a hall, which I have already advised is impracticable.

I will hire the largest hall secure. I will notify the Smith that I am going to hold in that hall the exact date I delivered in Calvary

Baptist church and to which he objected. "I will see to it that tickets are given to every one of my parishioners so that those who heard the original sermon will be there. The balance of the tickets will be divided in equal numbers between Democratic and Republican headquarters for distribution as they wish and will.

Wants Protection. "I am going to ask the mayor of New York and Mr. Smith as governor for all necessary police protection, and, if it should be necessary, military protection. I will cite additional proof of my allegations, give Governor Smith all the time he wants in which to reply and offer whatever remarks I may think wise and necessary.

If the governor does not appear at the meeting I shall have something to say about him, whether he is governor or presidential candidate. We will see who will run to cover in this thing."

Straton said he would not let Governor Smith run away from a fight he has got himself into.

PLANE FINDS MAN LOST FOR FORTY-EIGHT DAYS

THE PAS, Manitoba, Aug. 16.—Andy Taylor, prospector, lost forty-eight days in the densely wooded country north of here, and given up for dead, was brought to The Pas Wednesday by airplane. Taylor who had wandered aimlessly through the brush, living on traps and dead fish, was found by Fred Coleman, Ontario professor, and Captain Kenyon in a Pukker plane that has been searching for him.

OIL WORKER LOSES ARM IN PULLEY BELT

FORT STOCKTON, Aug. 16.—W. Nash, an oil worker, suffered the loss of his right arm and received a broken collar bone when his arm became entangled in a pulley belt at the field twenty miles from here Wednesday. He was brought to the hospital here, where attendants said he had a chance to live.

REVIVAL UNDER WAY HERE AT CHRIST CHURCH

you will hear something to think about. Much time, talent and money is spent in preaching the gospel. It has cost the lives of thousands. Why all this sacrifice? Surely it means something to the world. And indeed it does. Preaching the gospel is the foundation of civilization and the medium by which we come to Christ and the salvation of "CISCO, TEXAS, FRIDA

ADAI

We invite everyone—preachers, lawyers, doctors, merchants, teachers, farmers, cowboys and all working men." Rev. Gist said. "None are too poor nor too rich. Come and

At the last day. All preach that we must come to Christ to be saved. And all admit that no man comes to Christ unless God draws him. But how does God draw us? The best verse says: "And they shall be all taught of God." Every man therefore that hath heard, and hath learned of the Father cometh

to me. Then it is plain that all will draw them. They cannot hear unless as one preaches the gospel to them."

Subject for Thursday night will be "The Seventeen Events of Christ's History."

THREE DIE IN CALIFORNIA BLAZE

REDWOOD CITY, Cal., Aug. 16.—Three persons were suffocated Tuesday in a fire which swept the summer home of Sol Koff, wealthy San Francisco real estate man. Four others were injured.

The dead are Mrs. Lena Koff, Howard Koff, 7, and Miss Rose Heyman, New Jersey school teacher, a cousin.

The ship escaped, two by swimming to shore. August Hauche, 23, of Scott Field, Yorkville, Ohio, pilot and George Griffin, 34, of Kirkwood, Ohio, were the two killed. Joseph Duncan of Martins Ferry, Ohio, one of the passengers, who escaped, said Hauche was planning when one wing of the plane struck the water and broke off.
