NUMBER 2

TEXAS

By WILL H. MAYES
Austin.

GOVERNOR MOODY'S COURAGE.—Whether one agrees with him or not, those who see and hear Governor Dan Moody in action have to admit that he does not dodge issues and that he knows why he favors or opposes a measure, and also that he has the courage to tell the world what he thinks. He told members of the Texas Press association at Austin recently that conditions at the Texas penitentiary are deplorable and that the system should be centralized at some point to be selected after a thorough study has been made of the soils, the climate, conditions, accessibility, comparative expense of operating, etc., and not by an uninformed legislative body. Texas makes large pretensions to being a state whose citizens are of the highest type of civilization, but we are barbarians in the management of convicts and the business institution. Texas newspapers should work untidily to bring about the needed changes in penitentiary affairs.

STATE HIGHWAY BONDS.—Every proponent of a constitutional amendment appeals for its submission to a vote of the people on the ground that "It is cardinal principle of democratic government that the people have a right to alter their government or constitution." Of course it is but that does not justify a legislative body in submitting to a vote of the people any amendment it may think would be to the interest of the government. This old "cardinal principle" plea is being made by the proponents of a big state bond issue for public highways. There is much merit in the contention that some counties that have practically bankrupted themselves in building highways will not get any permanent roads should be at least partially reimbursed, but there is much doubt in the minds of the average taxpayers whether the state should pool itself a few hundred million dollars when the amount now being raised by automobile and gas taxes is as much as the highway commission seems to be able to expend to advantage. Why go to the expense of voting on a constitutional amendment that has a little chance of being carried as that proposing a bond issue of \$300,000,000 or even \$175,000,000?

LEGISLATOR DISGUSTED.—There is not much surprise that Representative Veatch is disgusted and wants to resign. Mr. Veatch believes in economy in both private and public business affairs and finds himself in a legislative body that is spending the public funds rather recklessly by raising salaries, creating new bureaus, establishing commissions and stations of various kinds and otherwise showing less regard for the state's interest than would be exercised in private business. This is not true of all legislators, for there is a respectable minority which, like Mr. Veatch, would try to avoid needless expenditures, but that minority seems helpless. Each branch of the legislature started out extravagantly with its own expenditures, employing more stenographers, clerks, porters, messes and other employees than were needed, doing this largely by making jobs for favorites. Salaries of employees were needlessly raised, and most of these employees stand or sit around half the time with nothing to do. No business could exist if it paid so little attention to its expense account or if it required no more work of its employees. This is largely true of many of the departments, bureaus, commissions and educational and eleemosynary institutions of the state and in many cases applies as well to the courts. What Texas needs is not to have Representative Veatch resign, but to send more men like him to the legislature and put more men in office and public positions who have a like regard for the welfare of the state.

TEXAS BUTTON FACTORY.—It is announced that a \$50,000 button factory will be in operation at Mercedes by April 1, and that it will employ 60 or 70 people. At the beginning, 48 button-making machines will be used and this number will be increased as needed.

M'CLOSKEY CASE IS UP MONDAY

Sensational Charges Hurlled in Dry Bill Debate

1,223 BILLS IN STATE LEGISLATURE

Few Measures of Importance Have Been Passed by Solons Who Have Only 19 Days to Finish Business

REBELLION IN STATE COLLEGE IS THREATENED

AUSTIN, Feb. 16.—Failure of the faculty of Southwest Texas Teachers' college to respond to the students' petition for an assembly of faculty and student representatives Saturday to hear their demands for the resignation of Mary C. Brogden, dean of women, may result in the students taking the matter to the board of regents, it was learned.

But it was indicated that the students are figuring a losing battle with the school administration. School authorities are determined to clamp down hard on student rebellion. It was further indicated that Dean Brogden would not be asked to resign, but that administration forces would attempt a consolidation by repealing some of Miss Brogden's rules which have brought about storms of protest.

Many conferences between faculty members and representatives of students were held Friday, following a mass meeting of the student body Saturday night. A petition, demanding the resignation of Miss Brogden or the taking off of drastic measures, signed by considerably more than half of the students had been presented to H. E. Speck, dean of students.

Pres. C. E. Evans of the college and Dean Brogden are maintaining a stoic silence over the outbreak of student feeling that has been breeding for several months. Nineteen specific charges were preferred against the dean by the students. Principal among the charges were that regulations were unreasonable in comparison with those of other colleges; that punishment of students was often harsh and uncalled for; and that espionage had been practiced.

AUSTIN, Feb. 16.—With nineteen days to go the state legislature has passed few bills of general importance. There have been 1,223 bills introduced, 538 of which were entered in the house. Speaker Barren announced at the close of this week's session that the house had finally passed 137 bills, most of them local in application.

There were 11 on 277 bills on his desk ready for action at one day or another. Of these bills 174 were general house bills, 17 were local house bills and the others were senate bills. Four house bills are ready for final passage and one senate bill Monday is house suspension day when members can call up pet bills out of turn. It is also the day in the house for consideration of the state road bond issue proposal. Other bills that are expected to come up then are: "the butcher bill" to require an identification record of cattle killed, and the anti-union bill.

The Avisa horse racing bill is also expected to come to a vote this week. In the senate proposed legislation will have the right of way. It is scheduled for Monday and the public utilities proposal for Tuesday.

The Creager organization has collected more than \$200,000 since 1921," Wurzbach said. "It is interesting to note that a large part of this sum was collected in 1921, after Harding took office and the political plans were ripe and ready to be picked."

He submitted several letters purporting to show that the Creager organization makes a practice of demanding notes from office holders. Chairman Brookhart announced that investigation of the 350 active notes previously submitted to him by the secretary of the Texas Republican party showed that all but 88 were signed by postal employees.

EVOLUTION BILL COMING UP TUESDAY

AUSTIN, Feb. 16.—No attempt will be made until Tuesday, Rev. J. W. Harper of Mount Pleasant, author of the bill, said today. While it is pending business, Monday is "suspension day" on the house calendar. Suspension day suspends the regular order of business and permits calling up bills out of turn. It usually is devoted to advancing local bills.

WURZBACH IN CHARGES ON TEXAS G. O. P.

WASHINGTON, Feb. 16.—Charges that the Texas Republican organization has collected enormous sums from federal office holders in contributions "not entirely voluntary" were made before the Brookhart patronage investigating committee today by Rep. Harry Wurzbach, Republican, Texas.

Wurzbach is the only Republican from Texas in congress and is an opponent of the party organization in his state led by National Committeeman R. B. Creager.

The Pan-American bid of \$2 per mile, the department explained, was the highest bid but was accepted over the low bid of the Air Transportation company of Minneapolis, Texas, and Mexico City, was announced today by the post office department.

With the exception of the hop from David to France field, which is about 250 miles, each section of the flight is approximately 350 miles. Although the route has been covered several times by army and civilian planes, the new project is different from all that have gone before in that essentially it is a speed test. All previous flights southward from Texas have been in transport planes, which have greater cruising range at a considerable less speed than the fast pursuit planes Captain Eaker will use. At each of his stops he will take on 70 gallons of special high test airplane fuel consisting of 25 per cent benzol and 75 per cent aviation gasoline. Taking advantage of the experience gained in the Question Mark flight Captain Eaker will return by a special pumping arrangement.

PASSAGE OF JONES ACT IS DELAYED

WASHINGTON, Feb. 16.—After a series of "sensational" charges were precipitated by widespread prohibition d-bate in the senate late this afternoon leaders decided unanimously to abandon their efforts for a vote on the Jones prohibition act in order that a full debate might be had.

Senator Reed charged that a sham raid had been staged before the Democratic convention at Houston, Texas, last summer. He said a boat loaded with liquor had been seized, but "every one saw a fool could see that the arrests was arranged for."

Senator Cole Bleese of South Carolina announced to the senate today he would not report a violation of the liquor law even if he saw a man selling liquor. He also asserted number of senators felt the way he did.

Attacking the present Jones proposal to increase prohibition penalties, Bleese said: "Prohibition is all right with me. A man that don't want liquor don't have to have it and the man that wants it can get all he wants."

When he called attention to newspaper advertisement which he said informed persons where they might get liquor, Senator Tydings of Maryland urged he submit a list of names "to help enforce the law."

LONE EAGLE IS SAFE ON BLEAK COAST

HATTERAS INLET, N. C., Feb. 16.—On this bleak stretch of dune land near the tip of dangerous Cape Hatteras, Colonel Charles A. Lindbergh found a haven tonight after hours of blind flying that sent him off his course on the way from Miami, Florida to Washington.

FAVORABLE REPORT ON GASOLINE TAX

AUSTIN, Feb. 16.—A four cent gasoline tax will be reported favorably to the house of representatives by its revenue and taxation committee Monday. A committee vote for the four cent tax has been taken. The tax will apply to gasoline used by the producers, as well as that that they sell. It will also apply to the gas sold by wholesalers. Present tax is two cents on gas sold by retailers.

ORIENT ROAD TO BE BUILT INTO SONORA

SAN ANGELO, Feb. 16.—Extension of the Orient system to Sonora, Sutton county, Texas, 62 miles south of San Angelo, by the Atkinson, Topka and Santa Fe railroad, long a dream of this wealthy ranch and farm section, has been announced by W. L. Aldwell, president of the First National bank of Sonora and a director of the Kansas City, Mexico & Orient railroad of Texas.

Immediate construction is to be started following securing of rights-of-ways and permission from the Interstate Commerce commission. It was said here today by S. E. Ross, assistant engineer of the Santa Fe of Chicago, who confirmed Aldwell's announcement.

Sutton county and Sonora have joined together to raise a bonus of \$75,000 and provide rights-of-ways and terminals, while Schleicher county and Eldorado have agreed to put up a \$20,000 bonus and provide right-of-ways. Concessions are being asked of Tom Green county and San Angelo today.

QUEENS LOST

After sweeping through a bracket of the West Texas A. A. U. girls basket ball tournament at Snyder to the finals last night, the Cisco Queens lost the title game of the match to their ancient rivals, the Breckenridge Buckaroos, by a score of 31 to 12.

New Witnesses Summoned by Congressman-Elect in Trial on Vote Alteration Charges

AUSTIN, Feb. 16.—Interest in the trial of Judge Augustus McCloskey, Democratic congressman-elect, which began Monday afternoon, was heightened Saturday when it was learned that the defense has summoned four more witnesses. To date the defense has summoned 14 witnesses and the state has subpoenaed 23. The defendant has a corps of seven attorneys. The state will be represented in the main by two county (nd district attorneys, H. W. Brooks of Travis county, and Lamar Seigerson of Bexar county.

The defendant, who has apparently defeated Harry Wurzbach, the only Republican congressman in Texas, is charged in five counts with alleged alteration of election returns during the recent congressional election in the 14th congressional district.

IMPEACHMENT TRIAL WAITS OVER WEEKEND

OKLAHOMA CITY, Feb. 16.—With the trial of Governor Henry S. Johnston on eleven charges of impeachment less than half finished the senate court hearing the case was in adjournment today. The senate, as a legislative body, the house, and the general investigating committee also were in adjournment until Monday.

Late yesterday, a question, the answer of which may be pertinent in its effect on the outcome of the trial, was asked of William F. Anderson, a friend of the suspended governor for 25 years. The question was whether Anderson considered Johnston "competent or incompetent to man the ship of state of Oklahoma." The court wanted to adjourn, the defense attorneys wanted to argue the question, and Anderson had to go to Washington until February 26. The answer was deferred until last date.

Kidnaping Theory Investigated After Disappearance of Small Girl From California Playground

SAN FRANCISCO, Feb. 16.—A child as the girl's mother had first believed. Another fact pointing to kidnaping was recovery of a note near the Murphy home. "You'll never find her," the note read. The police were informed that Davis had left a playground across from her home with a slim dark man about 50 years of age.

HOOVER WILL QUERY BRITAIN ON LIMITATION

By PAUL R. MALLON.
(Copyright 1929 by United Press.)
WASHINGTON, Feb. 16.—President-elect Hoover is expected to communicate with Great Britain early in his administration to see if there is a possibility of resuming disarmament negotiations which were broken off at Geneva in 1927, the United Press is informed on reliable authority.

Sources in possession of this information have viewed the interview which Sir Esme Howard, the British ambassador at Washington, gave the United Press yesterday, as meaning Hoover's offer for resumption of negotiations will be favorably received in London and that there may be a new disarmament conference possibly before this year is over.

The matter is a delicate diplomatic question and authorities in touch with the situation generally decline to make public statements at this time. For one thing, the recent senate debate over the American naval cruiser program was adopted, has directed international attention to the armament construction program of the United States and Britain.

MASS MEETING ON RACE BILL MONDAY NIGHT

FORT WORTH, Feb. 16.—There will be a free-for-all mass meeting in the Stephen F. Austin hotel at Austin Monday night, at which the "inside" of the proposed race-track legislation in Texas will be exposed.

There will be a mass meeting in Fort Worth Sunday afternoon at which various Fort Worth preachers will discuss the race track bill. Calo Sells, former Indian commissioner under Woodrow Wilson, will preside.

NUMBER 2

\$13,642 AID IS GIVEN EASTLAND RURAL SCHOOLS

County Board of Education Begins Grouping of Districts so That Consolidations May Be Carried Out

The twenty-eight rural schools of Eastland county have been granted in state aid an amount only about \$1,800 short of the total that was asked, a recapitulation following the recent inspection of John Olsen, of the state department of education showed. The amount asked by the schools was \$15,453.38. A total of \$13,642 was granted.

In an announcement issued Saturday Miss Beulah Speer, county superintendent of public instruction, said that the amount granted will likely be 20 per cent less, however, unless the present legislature passes the bill to meet the deficiency in rural aid. So many schools have applied for this aid that the appropriation made for the year has been found to be considerably short of the requirements and the only recourse before the state department of education is to appropriate the money among the schools on a basis below their merits.

Five of the 28 schools were inspected for standardization. Four of these will be standardized and the fifth one will be if it is able to maintain an eight months term which is an essential requirement.

Grouping of the various districts for high school purposes is now being carried forward by the county school board following a conference last week of the members of the board with Mr. Olsen and County Superintendent Miss Beulah Speer.

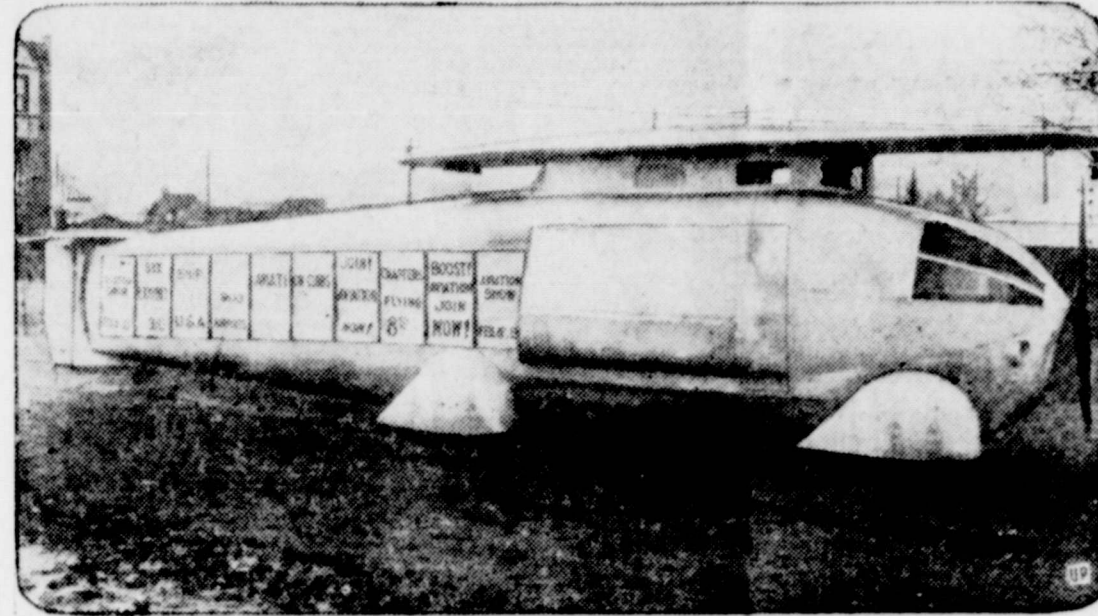

Consolidation of rural schools will receive any bonus on transportation of pupils unless this consolidation is carried out under the grouping plan recommended by the state department of education.

The following members of the board met with Mr. Olsen and Miss Speer in this conference: W. R. Usery, chairman; J. A. Beard, R. R. Bradshaw, T. L. Laster and W. P. Roach.

Dates of examinations for teachers' certificates have been announced for 1929 by Miss Speer as follows: April 5 and 6; June 7 and 8; July 5 and 6; August 2 and 3; September 6 and 7; and December 6 and 7. College entrance examinations will be held as usual on May 7, 8, 9 and 10. Miss Speer said.

Certificates of the second class only may be obtained by examination. All applicants who desire to take examination for certificates must register with the county superintendent not later than the 20th of the month preceding the examination. This registration may be made by letter or by person and the applicant should give age, sex, color and the number of years' experience in teaching. The subjects in which it is desired to be examined should also be given. The examination fee is not paid until the applicant enters the examination.

"Mono-Dirigible" For Long Tour

A view of the new mystery ship, the "Mono-Dirigible," which is being built for Frank Bolger, president of the Associated Aviation Clubs, Inc., of America. The odd craft is of all-metal construction and has propellers fore and aft. When completed, it will make a tour of the United States, visiting over 1,000 cities and the nation's principal airports.

RELEASE DAY FOR LICENSE VIOLATORS

It was release day for highway license violators in the city court Saturday morning. Out of four arraigned for driving cars without current license plates, three were released upon promise of procuring Texas licenses at the next county seat. One was fined \$12.70.

W. L. Richards was en route to his home in North Dakota from Mingus, where he had been visiting.

He told the court that he had applied for North Dakota license and ordered them sent to him but the plates had not arrived. As his home was in that state he told the court that he wanted to secure license in the state of his residence.

Dan H. Cody was in a similar situation, only he was going to Arizona, and had applied for highway license in that state but was told that he could secure them after his arrival. He was from Oklahoma, accompanied by his father. Both disclaimed any intention of violating the law.

D. R. Scurlock and Pete Toffler were also going to Arizona, but it seems were driving separate cars. They, too, were expecting to get their licenses after their arrival in the Baby State. Scurlock was released but his traveling companion

did not fare so well. When Toffler's case was reached the court's charity break had about become exhausted, so he decided that Toffler should be assessed the usual fine and costs, which was split by Scurlock paying half. Those released promised to procure Texas licenses when they reached Baird.

INVESTIGATE DEATH

CARTHAGE, Feb. 16.—Officers are investigating the death of Artie Bonds, 32, farmer in the Deadwood community, whose bullet-punctured body was found in his home Friday. The body was found on the floor by the oldest child when it returned from school. A shotgun lay on the bed nearby. Mrs. Bonds and several small children were away from home during the tragedy.

PROGRESS IS REFLECTED IN W. T. U. GROWTH

ABLENE, Feb. 16.—Construction of city lighting systems, extension of electric distribution lines and addition of new customers, all barometers reflecting growth and progress in several towns on the properties of the West Texas Utilities company were announced by the construction department.

The company is constructing a series pole lighting system in the city of Wellington to consist of 35 five-foot brackets on 30-foot poles. The lamps are 80 candle power.

The company also is rebuilding primary and secondary distribution lines over 11 city blocks.

The distribution system in Turkey is being extended eight blocks to serve many new customers.

In Paducah the 2300 volt primary lines are being extended three blocks to the city limits, hence 1-584 feet west along the highway to serve new residences, gasoline filling stations and a tourist's park.

WARNING ON SPECULATION SPURS MARKET

NEW YORK, Feb. 16.—Overnight publication of the federal advisory council's approval of the recent Federal Reserve board's warning against stock market speculation brought another flood of selling orders into the short week end session of the stock exchange today.

Urgent selling orders poured in to the market from the start as traders rushed to take what profits they still had on some stocks and to prevent further losses on others. As a result, new lows for the year were made by a long list of industrial and public utility issues.

Steel common was forced down to new low ground on the reaction, while new lows for the year or longer were scored by Chrysler, Westinghouse and other general leaders of the upside. High prices issues were again hard hit in the selling wave with Wright nearly 10 points lower.

No semblance of a rally occurred in the two-hour trading session and stocks closed around their low levels of the day. However, selling proceeded orderly and there were few outstanding weak spots. This led observers to believe that important interests were buying stocks on a scale-down.

Cattle stampedes are almost a thing of the past in West Texas, but three miles of barbed-wire fencing was torn down recently by a stampeding herd near Kernell.

KELLOGG PUTS APPROVAL ON ARMS EMBARGO

WASHINGTON, Feb. 16.—Secretary of State Kellogg today placed the approval of the administration on the Porter resolution which would authorize the president to place an embargo on arms and munitions to countries preparing for or engaging in war. Kellogg appeared before the house military affairs committee and endorsed the resolution as an aid to preserving world peace.

HEFLIN IS REBUKED FOR HIS ATTACKS

WASHINGTON, Feb. 16.—Senator Heflin, Democrat, Alabama, was rebuked by Senator Bingham, Republican, Connecticut, today for using the senate as forum "to stir up religious bigotry and hatred."

Heflin immediately challenged Bingham to a debate next month on the propriety of his anti-Catholic speeches but Bingham ignored it.

The exchange followed a long speech by Heflin in which he said Italian Fascists are terrorizing Chicago; Romanists plan to capture America; and public men are too cowardly to recognize the "Catholic menace."

"As a Protestant I protest against the use of this forum to stir up religious hatred," Bingham said. "I am weary of listening to the tirades of the senator from Alabama."

ARMY HOUSING BILL. WASHINGTON, Feb. 16.—The senate today adopted the conference report on the army housing bill. The report left the bill virtually as passed by the senate last week.

SHERIFFS CHOOSE COLORADO. BALLINGER, Feb. 16.—The next meeting of the West Texas Sheriffs' association will be held at Colorado in May. It was decided at the semi-annual meeting of the organization here Friday. Bob Miller, sheriff of Concho county, was elected president of the association. Other officers are Tom Hudson, Jones county, vice president, and Joe Ray, Dawson county, secretary-treasurer.

There's something about Mussolini's look of greatness that makes you think the ruz in front of his mirror is worn thin.

AFTER THE FLU

If you are one of the unfortunate ones who have had the flu, you need body-building foods to build up your strength and stamina to normal again.

We recommend Battle Creek Sanitarium Health Foods because they are nutritious, delicious and rich in body-building and health-building elements.

SAVITA is a delicious vegetable flavoring for soups and gravies. Rich in vitamin B, for tissue repair and restoring normal vitality. Per jar, 30¢ - 50¢

FOOD FERRIN is an extract of green, leafy vegetables and Melrose honey. Supplies the needed iron to build up rich, healthy blood. Per jar, \$1.25

PSYLLA and **PARAMELS** are two foods that cleanse the system of waste poisons and thus help to insure a speedy recovery from the flu. \$1.00 and 90¢ respectively.

Old Bottle, Found Embedded in Stone Wall, Recalls Memories of Cisco During Pre-Volstead Days

Bottles 50 or 100 or more years of age are not rare in this relic loving age, but a bottle dating back only 40 years may be interesting when found under certain conditions. The inspiration in particular is a little flask, encrusted with lime, which a quite practical workman dug out from between the stones of a demolished wall and hung upon the dust heap. Some of a more imaginative mind—on a recent dry by the way—regarded the relic as the genesis of the bottle of a shape strange to the modern disciple of John Barleycorn but entirely familiar to the lover of pre-Volstead days, was found embedded in mortar between two large stones in a wall of the old drug store, the oldest business building in Cisco, which was the oldest drug store in eastland county. A modern front now being substituted for the old facade.

The cork in the bottle was in a state of perfect preservation, a condition no doubt due to the action of the lime which absorbed such moisture as penetrated the wall, and kept the cork dry during its half century of entombment.

Resurrection of the bottle has opened the avenue to much speculation based upon a few known facts. At the time the Red Front building was built present conditions as to labor and the building industry were about as foreign to West Texas as calculus to savages. The stones for the building were hewn from the hillsides about Cisco, hauled to the site and laboriously lopped into the proper shape.

The man who had taken the contract for the construction of the building is known to have become involved in financial difficulties and at one time suspended work altogether while he sought out a distant kinsman for assistance.

It is not amiss to surmise that the contractor sought succor from his mental sorrows at the corner saloon and that upon one of these trips he exchanged a "quarter" for the half pint flask that only a day or so ago was dug out of its mural entombment. How it happened to be embedded there is another question. Quite likely after imbibing the contents the man regarded the bottle as an admirable filler for a wall that was designed to endure for generations.

LIVESTOCK MARKET

FORT WORTH, Feb. 16.—Hogs—Receipts 1,200, market 10 cents to 30 cents lower; top \$10, truck top \$9.40; bulk medium to choice 180-230 lb. rail hogs \$9.75 to \$10; bulk medium to good truck hogs \$9.20 to \$9.35; packing sows steady, mostly \$8 to \$8.75. Medium to choice Heavyweight (250-350 lb.) \$9.10 to \$10; medium weight (200-250 lb.) \$9.25 to \$10; light weight (150-200 lb.) \$8.95 to \$10; light lights (130-160 lb.) \$7.60 to \$9.75; packing sows, smooth and rough \$7.75 to \$9.

Cattle—Receipts 500; market today's trade nominal. Fr. week: Slaughter steers steady 1 25 cents lower; slaughter yearlings around 25 cents lower; butcher and beef grades the stock steady to 25 cents lower, low cutters and bulls fully steady, slaughter calves around 25 cents lower, stock cattle and calves unchanged. Week's tops: Slaughter steers \$11.60, fat yearlings \$12.25, carlot top fat cows \$8.75, heavy fed bulls \$8.65, practical top heavy slaughter calves \$11.25, extreme top choice stock, steer calves \$12.75; bulk prices: Short fed steers \$10.15 to \$11, slaughter yearlings \$9.50 to \$11, butcher cows \$6.25 to \$7, low cutters \$5 to \$5.35, desirable bulls mostly \$8 to \$8.50, heavy slaughter calves \$10 to \$11.25. Sheep—Receipts 250; today's trade nominal. Market for week: All classes steady; bulk medium to choice woolled fat lambs \$15 to \$15.75, short fat lambs \$14.25 and down, few short fat yearlings \$13.25, good to choice woolled fat yearlings \$14, woolled fat wethers up to \$10.50, fall short fat wethers \$9.50, few fresh short fat wethers \$9, fleshy woolled feeder lambs \$14, fresh short feeder lambs up to \$12, woolled feeder yearlings \$12, woolled feeder wethers \$9.50.

As for us we wouldn't want to change places with Silvi Jucherinar despite the steady nerves of Jack Redmond, champion trick shot golfer. Redmond drove a ball off the girls' jerezzed-while she lay on the roof ledge of a 26-story New York hotel.

CHICAGO CUBS COUNTING ON HORNSBY'S BAT

By GEORGE KIRKSEY.
NEW YORK, Feb. 16.—Rogers Hornsby's bat may mean a pennant for the Chicago Cubs. Few changes—the acquisition of Hornsby, a possible shift at third base and added pitching material of a doubtful quality—have been made in the Cubs, but the presence alone of the champion batsman of the National league may spell the difference between third and first place from 1928 to 1929.

Hornsby, who cost William Wrigley almost a half million in cash and players, is calculated not only to punch to the Cubs' attack, but to exert a steadying influence over Woody English which will cause the young shortstop to develop into a star of the first magnitude.

Hornsby, who is 33, batted 387 as manager of the Boston Braves last season. With the worries of a manager off his shoulders, Hornsby certainly should play as well as the coming season as he did last.

Those who expect Hornsby to fall into his evil ways again were surprised to learn recently that he had signed a pledge with president William Veck to refrain from betting on the races or any other gambling games during the life of his three-year contract with the Cubs.

Gayey Hartnett and Mike Gonzales will again take care of the catching. Tom Angley, who bat-

ted 223 for Atlanta, and Bob Grace, who batted 336 for Little Rock, will be given tryouts as catchers.

The Cubs' tentative squad follows:

Catchers—Hartnett, Gonzales, Angley or Grace.
Pitchers—Blake, Bush, Carlson, Overman, Malen, Neff, Root, Gramp, Day, Lautenbacher.
Infielders—Grimm at first, Hornsby at second, English at shortstop, Beck Taylor or Blair at third, with McMillan Reserve.
Outfielders—Stephenson in left, Wilson in center and Cuyler in right, with Heathcote Reserve.

TWO FOUND DEAD BESIDE HUGE STILL

WICHITA FALLS, Feb. 16.—Bodies of J. I. Williams, 40, and L. B. Gross, 35, were found late Friday beside a huge still located in the basement of a barn on a farm 14 miles northeast of here. A doctor who examined the bodies said death was due to carbon monoxide gas which had formed when a gas burner in the basement had been extinguished.

The position of the bodies indicated that Williams was overcome first, and that Gross died trying to rescue his companion. A gas mask hung from Gross' neck but did not cover his nostrils.

WELL FLOWING.
SAN ANGELO, Feb. 16.—Topping pay sand at 1,625 feet while seeking a seat for six inch casing, Peecos Valley Oil company's No. 2 well in Peecos county, flowed by leads this morning, with indications that it will become a larger producer than the same company's No. 1 well.

TWO KILLED WHEN PLANE FELL IN SPIN

WICHITA, Kansas, Feb. 16.—D. C. Bradford, 33, instructor at a flying school here, recently of Fort Worth, Tex., was killed instantly here last night when the plane in which he was flying went into a spin at an altitude of 400 feet and crashed. Floyd Garrison, flying the ship, died a few hours later.

Garrison recently had completed 35 hours of solo work and was preparing to take the department of commerce tests. He was flying the ship with Bradford in the front cockpit. Local aviators believe the pair were sideslipping into the field and lost flying speed, stalling and then falling off into a spin. Bradford came here from Florida, where he had been connected with an air line.

CHEVROLET IS PREPARING FOR GREATEST YEAR

With the demand for its cars at the highest level in the history of the company, the Chevrolet Motor company is preparing for the greatest year in its history with its 16 giant factories now busy on a 1,250,000 car production program for 1929.

This statement was issued here today by R. B. Spann, local Chevrolet dealer, who recently returned from Dallas, where he attended the twenty-sixth of a series of 40 nation-wide sales meetings that are being sponsored by the company this winter.

Through the medium of these meetings the company hopes to bring the 1929 Chevrolet sales message directly to every Chevrolet dealer in the United States. The day's program which embraced a graphic sales presentation in the showhouse in the afternoon and a banquet in the Adolphus hotel in

OIL NEWS OF SOUTHWEST

SAN ANGELO, Feb. 16.—The Henshaw west extension of the Roberts-Settles field in southeastern Howard county recorded a new producer today while Peecos county registered an apparent failure. The Taylor-Link Oil company's Kich No. 2, Rumsey and Abrams, had between 1,000 and 1,200 feet of oil in the hole while drilling at 2,290 feet, thirty feet in the pay.

Phillips Petroleum company's No. 1 Nutt, in Peecos county, made one and a half barrels of surplus water hourly from 2,630 feet. It continued drilling but probably will be abandoned soon.

VERNON, Feb. 16.—Oil drilling activity in Wilbarger county is again suffering from a shortage of water which threatens to be the worst felt in this district for many years, according to oil men.

A tourist is a person who thinks a farmer wouldn't care if somebody took a dozen ears of corn.

NEGROES HELD

DALLAS, Feb. 16.—Two negroes were arrested early today and held for questioning in connection with the slaying last Saturday night of Joe Piccola in his grocery store. The blacks are said to have admitted being in the store at the time Piccola was shot but claimed that a third negro was the one who actually killed the groceryman.

MEETING LEGAL.
WASHINGTON, Feb. 16.—Speaker Longworth ruled today the meeting of the house military affairs committee at which the Madden bill for leasing Muscle Shoals was favorably reported was legal and ordered the legislation placed on the house calendar for consideration.

WILKINS IN CHILE.
VALPARAISO, Chile, Feb. 16.—Sir George Hubert Wilkins, Polar explorer, arrived here today from Talcahuana on board the steamship Orana. He is returning from his Antarctic flying base on Deception Island. With him was Capt. Benjamin Eielson and Joe Crossan, his two pilots, and Orval Porter, aviation mechanic.

CISCO STEAM LAUNDRY

CISCO'S CHARITY FUND IS EXHAUSTED; CONTRIBUTIONS ASKED

Drive to Replenish Fund Not Necessary, Is Mayor's Opinion; Local People Always Generous

Cisco's municipal charity fund is exhausted. An appeal for a donation toward the relief of a mother and her six children, destitute and suffering, could not be answered Friday. The result is that Mayor J. M. Williamson has issued a call to the citizens of Cisco to make contribution toward the depleted fund so that the city may be able to continue its ministrations in behalf of the deserving poor and needy.

The mayor thinks that there are many citizens in Cisco who would be glad to donate liberally if the matter were brought to their attention. Men and women everywhere are glad to give to their less fortunate neighbors when they have their attention called to the existence of such conditions.

He would be very glad if those who are disposed to help the charity fund would make their donations as soon as possible so that the work along this line might go forward. Almost every day, he says, there are calls upon this fund and unless more funds are available at once the charity activities will be sadly crippled. It is sug-

gested that until such time as a concerted drive for more funds can be put into operation that those who are in a condition to dispense charity, should bring or mail in their subscriptions to the fund without any further solicitation.

The mayor called attention to the fact that this fund is a result of the united charities association of all the benevolent forces of the city. All organized charities are dispensed through this association. It automatically does away with promiscuous begging and giving, which is so often misplaced. All cases coming to the attention of the people of Cisco are thus investigated and no worthy case is ever turned away. But the professional beggar, who would betray the kind intentions of a benevolent citizenship, it thus found out and his illegal motives uncovered.

The mayor stated further that this far no organized drive has ever been found necessary in order to secure funds and his faith in the citizenship of Cisco leads him to believe that no such drive will be needed now.

Public Opinion, Indignant at Gang Murders, Demanding That Chicago Be Purged of Its Crime

3 CHARGED IN SLAYING AT VERNON

CHICAGO, Feb. 16. — Keyed to its highest pitch of indignation, public opinion clamored today for a purging of Chicago, a general housecleaning of the gangster element responsible for the murder of seven men on Valentine's day.

The bullet-riddled bodies of the seven murdered men lay in morgues today, unwitting stimulus for the greatest drive on crime in Chicago history. The drive was started with a bitter denunciation of the police by State's Attorney John A. Swanson. Calling his police captains before him, Swanson delivered a stinging indictment of their records, and laid the entire blame for the shooting at the door of the police department and the sheriff's office.

Immediate activity throughout the city resulted. Patrols were sent out to clamp down the lid on all drinking places, gambling houses and disorderly houses. Scores of men were taken to police headquarters for questioning. Photographs of three Detroit gangsters were identified last night as those of three men who occupied a room in a house across the street from the garage where the men were murdered. Police believe the men might have been spies for the killers.

The accused men are Vernon Donahue, Rawls, Williams and Oyse Jeffrey. The charges against them were filed by District Attorney John Myers after Justice of the Peace H. C. Justin had presided over a court of inquiry and returned a verdict of "death from gunshot wounds."

A charge from a shotgun had entered Walden's chest and his body was frozen due to exposure since death. With the aid of the victim's father, officers speeded out evidence which led to the belief that young Walden had been slain after an argument following a game of chance in which he is thought to have engaged with several companions in Hines' Sunday night. A car belonging to one of the men held was found near the spot where the body was located, officers said.

Public opinion clamored today for a purging of Chicago, a general housecleaning of the gangster element responsible for the murder of seven men on Valentine's day.

RAILROAD AGENTS IN CONVENTION

FORT WORTH, Feb. 16.— Freight and passenger agents from Texas and several large eastern cities were here today for the 14th annual conference of the Passenger and Freight Agents' association of Texas, which convened at the Texas hotel. Approximately 200 delegates attended the opening session.

H. T. Barnesfield of Houston, division freight agent of the Santa Fe, now vice president of the association, is slated for the presidency under the custom of advancing officers. Other officers are E. A. Farr, San Antonio, general passenger agent of the Missouri Pacific, president, and L. B. Shepherd, Dallas, also with the Missouri Pacific, secretary-treasurer. Effect of airplane travel on rail transportation is one of the subjects up for discussion by speakers.

WITNESSES IN MAIL ROBBERY TRIAL BACK

Cisco citizens, summoned to Fort Worth to attend the trial in the federal court of those indicted for robbery of the Texas & Pacific train at Aledo November 9, 1928, have returned home, having been excused by the court after Mealing E. Pruitt, railway mail clerk and one of the defendants, announced that he would admit receiving the consignment of \$5,000 transmitted through the mails by the First National bank of Cisco. The Cisco witnesses were summoned to prove this fact. Those from Cisco were W. T. Coldwell, Fred Steffey and J. M. Witten, of the local post office; Alex Spears, George P. Fee and Vance Littleton, of the First National bank.

Fred Steffey stated Saturday that court officials identified the Cisco witnesses readily, as some one had informed the clerk of the court that the delegation would be headed by a portly gentleman. "When the Cisco bunch filed into court the clerk announced, Mr. Coldwell and Cisco witnesses, much to our surprise and amusement, as we had not been informed that the clerk had been tipped off," Steffey said.

Besides Pruitt the other defendants charged with robbery of the mail car on the Texas & Pacific train, when \$26,000 was snatched, were Travis H. Wilson and Mrs. Ottilie Bridges. Wilson entered his plea of guilty Friday, and the others pleaded not guilty.

MAN KILLED.
BOGGER, Feb. 16.— Charles Goff, 45, a cook, was shot and almost instantly killed in a rooming house here early today. Edna Robinson, a woman companion, has admitted the shooting to authorities, who are holding her for a preliminary examining trial. She claims self defense. Goff had lived and worked here for three years. He is said to have wealthy relatives in Georgia.

DRUMWRIGHT BACK.
Henry S. Drumwright, manager of John H. Garner's store, has returned from a three weeks tour of eastern markets during which he purchased stock for the department store and for the men's furnishing store. Big in every way except in price

A GREAT FURORE is being created in the automotive world these days. People are agog. They're discovering something entirely new. They're learning all about a new low-priced six that offers every desirable big car quality. It is the New Pontiac Big Six.

They see the New Pontiac Big Six and admire its big car style and poise and beauty. They step into the New Pontiac and find roominess and restful ease. They drive the car. And then they are more than ever convinced that the New Pontiac Big Six is really a big car. For its big, new L-head engine gives it big car power, pick-up and speed.

Since the Pontiac Big Six went on display, men and women of every type have been coming to see and drive it. But most of the buyers belong to one particular group. They have taste. They love fine things. They would no more be content with buying the lowest priced car than they would with living in the cheapest house or wearing the cheapest clothes. They want to step up the quality of their automobiles—and the New Pontiac appeals to them—for it's big in every way except in price!

Prices \$745 and up, f. o. b. factory, plus delivery charges. Bumpers and rear fender guards regular equipment at slight extra cost. Check Oakland-Pontiac delivered prices—they include lowest handling charges. General Motors Time Payment Plan available at minimum rate.

Arrogant Temperaments and Deep Rooted Racial Prejudices to Clash in Sharkey-Stribling Bout

BL FRANK CETY. — MIAMI BEACH, Fla., Feb. 16. — A clash of arrogant temperaments, of deep rooted racial prejudices, as well as of able bodied fighting men, may make the forthcoming battle between Young Stribling and Jack Sharkey, a memorable one. The personalities of the promoters of the affair thus far have overshadowed those of the principals, causing a good many people to overlook the fact that on the night of February 27 Stribling and Sharkey are the ones who will be doing the fighting.

No prize fight in history ever was promoted as this one has been, and it may be that the end will justify the means. When the flood lights of the vast arena in Flamingo Park are dimmed, leaving only a vivid splash of white canvas, across which the fighters move from their respective corners to answer the opening bell, a scrap such as the ring seldom has known may ensue.

If Stribling and Sharkey retain part the sharp clamor of that opening bell the savage instinct, each possessing, the innate hatred for each other, then indeed there will be modified murder for the mobish mob. If, as each boxer has at one time or another in the past, left his fighting heart, draped like a limp towel over the ropes in his corner, it will be a sorry spectacle. The

two leading heavyweight contenders of the United States are meeting to decide which shall go on toward the now vacant championship. But possibly neither Stribling nor Sharkey ever will wear the crown so lately laid aside by Gene Tunney.

Something more than calculated ambition will impell the flailing fists of these two fighters when they meet. If the drop of a hat instead of tens of thousands of dollars were hanging from their hands, there might be a battle to decide the most blood-thirsty fight fan.

The antagonism between Stribling and Sharkey is not studied, it is inevitable. The black scowl of the haughty young southerner is matched by the hateful glare from the Redhead's chill blue eyes. Neither knows the meaning of quarter in battle—for his opponent, although it would be most incorrect to intimate that each hasn't fought a number of exceedingly bad fights.

Searching back into the family histories of the two men, one finds that Stribling's forefathers delighted to persecute those of Sharkey on the shores of the Baltic Sea, while a little throat-slitting on the other hand was not considered amiss. These young men who use six ounce gloves instead of Asiatic dirks have something of the same generous impulses toward slaughter.

GOVERNOR IN DEBATE WITH LABOR OFFICER

AUSTIN, Feb. 16.—Hearing of the bill proposing to consolidate industrial accident board and the insurance department, held Friday night by the senate insurance committee, drew a spirited debate between Governor Dan Moody, who is supporting the measure, and George H. Slater, executive secretary of the Texas Federation of Labor, who is opposing it.

Slater contended for keeping the accident board and the prompt payment of claims based on definite sums. The governor insisted that persons injured should have the right to sue for more adequate sums. Slater's reply was that the assurance of prompt payment of small fixed sums was preferable in most cases to a "big judgment you can't collect."

DO THAN

Rev. Sam Short preached here Sunday morning.

Mrs. E. L. Haselwood and children, Yvonne, J. M. and Eugene, were the Sunday dinner guests of Mr. and Mrs. L. A. Coffey of Cisco.

J. D. Miller of Moran was in Dothan Monday afternoon.

Mr. Duncan of Putnam visited his daughter, Mrs. J. M. Bostick, Tuesday afternoon.

Misses Abbie Jessup and Loraine Donaway, accompanied by Cecil and Charlie Jessup, attended singing at Buell Branch Sunday night.

Misses Geraldine Boudet and Lois Carey, accompanied by Luke Carey and Johnnie Penn, attended singing at Buell Branch Sunday night.

STUDENT INDICTED.
AUSTIN, Feb. 16.—J. T. Hughes, former University of Texas student, was indicted by the Travis county grand jury Friday on three charges in connection with forgery, and passing of forged instruments. He is now being held in the county jail.

NASH "400"
Leads the World in Motor Car Value

THE ONLY CAR of all the new cars with every new 1929 refinement

YOU will find some of these important new 1929 features on several of the new cars—but the only new car that has all of them is the new Nash "400"!

Each one of these new refinements gives added pleasure to driving a car. And all of them together mean more delightful, carefree, luxurious motoring than you have ever known before.

And when you buy a Nash "400", you get all these advantages without a penny of extra cost. Every necessary accessory... hydraulic shock absorbers... bumpers front and rear... even tire locks... are installed at the factory—*included in the factory price.*

Drive a new Nash "400" today. Compare what we say about the car with what the car says to you. You will find that although we make strong statements about the "400"—the facts are even stronger!

Secretary of Commerce Whiting Has Confidence in Fundamental Soundness of Business Structure

BY JOSEPH H. BAIRD. — Copyright, 1929, by United Press. — WASHINGTON, Feb. 16. — Secretary of Commerce Whiting today expressed confidence in "the fundamental soundness of the business structure" of America, which, if maintained, "would indicate for the immediate future a gratifying business progress." His optimistic statement, made exclusively to the United Press, was coincident with a drop in the stock market and an increase to 10 per cent in the call money rates. It followed, too, a warning by the Federal Reserve board against further loans for speculative purposes.

Secretary Whiting, a big business man as well as head of the commerce department, despite these considerations expressed confidence in the present financial and industrial structure. He cited the fact that production and distribution by manufacturers are being maintained at steady or generally rising levels as an indication of fundamental solidity. "The administration policies have made for a substantial and uniformly increasing stability in business for several years," Whiting said.

"This has aided in large measure to relieve the fluctuations in business of previous years. All important business indices show that broadly speaking production and distribution by manufacturers generally are being maintained at steady and generally rising levels. This points to the fundamental soundness of the business structure which, if maintained, would indicate for the immediate future a gratifying business progress." His optimistic statement, made exclusively to the United Press, was coincident with a drop in the stock market and an increase to 10 per cent in the call money rates. It followed, too, a warning by the Federal Reserve board against further loans for speculative purposes.

Secretary Whiting's view was supported by the survey of the United States employment service today. Relatively few persons in the United States were without work in January, although inventory taking had weakened outdoor labor, and the annual dull season in some industries curtailed employment in a few parts of the country, the employment service reported.

ARRANGEMENT APPROVED. — WASHINGTON, Feb. 16. — An arrangement by which railroads entering Houston, Texas, are to make joint use of the municipally owned port railway facilities was approved today by the Interstate Commerce commission.

Medicine Mound community of Hardeman county gets into print by organization of a home demonstration club.

FORMER CONVICT TAKEN.
DALLAS, Feb. 16. — A former convict, armed with a .45 caliber six-shooter, was captured by a policeman heretoday as he began an attack on a filling station operator. The man was released from the state penitentiary less than two months ago after serving two years on an auto theft charge.

Approximately 300 wolves and wildcats have been killed in Young county since bounties on each were offered last October.

CISCO HOST TO EASTLAND COUNTY ODD FELLOWS, REBEKAHS

Convention of Association Slated to Be Held Here March 7; Local Committees Named to Make Plans

The Eastland County Odd Fellows and Rebekahs association will meet in Cisco with Cisco lodge No. 281, I. O. O. F. and Goodwill Rebekahs lodge, No. 102, March 7. Committees from both of the local lodges have been named to take care of the delegates during the all-day session of the association while in Cisco. During the convention teams of the various Rebekah lodges of the county will put on degree work after the business sessions. A splendid program of entertainment and work has been arranged by the committee chosen from both organizations, consisting of the following: Odd Fellows and Rebekahs: E. C. Duncan, E. J. Wisdom and Walter Clements, of the Odd Fellows, and Mrs. Mae Kleiner, Mrs. Lydia Klauskopf and Miss Letta Maud Eager, of the Rebekahs.

The officers of the county association are H. G. Burch, Ranger, president; Mrs. Mae Kleiner, Cisco, first vice president; Mrs. Dollie Taylor, Ranger, secretary.

Following is the program that has been arranged for convention: Convention assemblies at 10 a. m. Invocation—Rev. B. C. Boney. Opening song, "America"—Convention. Welcome address on behalf of the city—Mayor J. M. Williamson. Response—H. G. Burch, president of the association. Welcome address on behalf of the Odd Fellows—J. A. Jensen. Response—Mr. Love of Desdemona lodge. Welcome address on behalf of the Rebekahs—Mrs. N. A. Brown. Response—Mrs. Dollie Taylor, secretary of the association. Vocal so-

lo—Miss Cleo Evans. Reading—Miss Eloise Rea. Piano solo—Miss Opal Heie. Address, five minutes—E. P. Whitaker, Putnam. Vocal solo—Mrs. C. McE. R. Pianologue—Miss Letta Maud Eager. Entertainment—Blue Bonnet Trio. Address, five minutes—Mrs. Mattie Thompson, German. Entertainment—Bonnet and Apron club, Ranger. Announcements. Luncheon, 12 to 12:30. Address—D. H. Lanford, district deputy grand master, Ranger. Business session. Individual contests in ritualistic work. Supper, 6 to 7:30. Costume Violin solo—Fred Casillas. Stunts. Contest in degree team work.

STABILIZATION COTTON MARKET ANTICIPATED

NEW YORK, Feb. 16.—Stimulated by renewed and consistent buying by the trade, a bullish government consumption report and favorable news developments, the cotton market during the active past week gave definite signs that the long drawn out period of liquidation had about run its course and that the process of stabilization had been entered upon.

A feature of the week's trading was the ease with which heavy liquidation was absorbed whenever it made its appearance. The steadiness that prevailed at the end of the preceding week was carried over into early dealings. New York and Texas spot interests bought heavily in the opening session and liquidation, particularly in March, offset by trade covering and substantial Wall street buying.

Following the holiday, with large blocks of contracts changing hands, the steady tone was maintained. Reports from Texas told of a broadening demand and a rapid decrease in the visible supply. A

bullish tone was further imparted by the continued bad weather in that area and reports that crop preparations were the poorest in many years.

The government consumption report, which was next to the largest on record, showed 668,399 running bales of lint cotton consumed in January as compared with 534,352 bales in December and 586,142 bales in January, 1928. Coupled with reports from New Orleans that a better demand from New England mills was in evidence and that the basis was strong and advancing, the report contributed to firmness and selling, which was mainly from the South and New Orleans was absorbed with ease.

Liverpool was quiet and steady throughout.

Passing of Anti-Evolution Bill by House Friday Prevented by Lack of Quorum; Is Left Pending

AUSTIN, Feb. 16. — Only 70 of the 149 members pledged themselves attend a session of the house of representatives if it were held today, so adjournment has been taken until Monday. A hundred are required for a quorum. Meantime committees are at work on the last of the 684 bills that have been introduced.

Lack of quorum yesterday prevented passing an anti-evolution bill. The vote recorded on the electric machine showed 50 for the bill and 34 against it. As there was no quorum the vote was not officially announced.

Parliamentarian Oetta Culp rules that this leaves the anti-evolution bill pending business when the house meets Monday.

The bill as voted upon favorable yesterday prohibits teaching as a fact that man has evolved from lower animals and teaching that the book of Genesis account of creation is untrue. It applies to all schools supported by the state, including the State university.

Rev. J. W. Harper of Mount Pleasant, author of the bill that prohibits teaching evolution as a theory. The bill was debated from 2:30 to 6 o'clock. "We confessed no man's religious thought ought to be taught in public schools," said Rev. Mr. Harper. "It is dangerous to teach doctrine in them. But we also confessed that while religion cannot be taught it ought to be forbidden to teach anti-evolution."

"Monkeys figured in many speeches. If any of my ancestors ever hung from a tree it was by the neck and not by the tail," said Rev. W. H. Wiggs of Paris. Other charged Tennessee had made a monkey of its legislators and wanted Texas to do the same. To the objection, that the bill is not needed, the Rev. Mr. Harper answered that evolution has been taught as a fact in some of the higher schools of the state. He refused to turn the debate on the correctness of the evolving theory.

JOHN GILBERT AT PALACE THEATER TODAY

Manager K. N. Greer of the B and R theaters pulled a "fast one" the past week in giving the people of Cisco the first talking picture to be shown in Eastland county. It was a great show and mighty well liked. Due to unforeseen difficulties, however, Manager Greer has been prevented from securing the high type of Vitaphone and Movietone features which he had hoped to present as "follow-ups" and rather than present an inferior type of sound films he has refused such billings and will present during the next week or ten days a high class series of silent pictures.

There is such a demand for sound pictures that it is difficult to secure billings. In the meantime the Vitaphone and Movietone equipment will be thoroughly adjusted and the installation of other parts completed so that everything will be in perfect working order for the next sound showing.

John Gilbert in "The Mask of the Devil" is the feature for Sunday and Monday. Tuesday and Wednesday Alice White will be seen in "Naughty Baby."

MEAT CUTTER CAPTURED IN GUN BATTLE

WICHITA FALLS, Feb. 16. — A Dallas meat cutter and fugitive from the state hospital for the insane here, ran amuck here with a loaded revolver, imperiling the lives of his wife and children and of two deputy sheriffs who braved a fusillade of shots to finally capture and jail the frenzied man.

Back From Oriental Honeymoon

Mr. and Mrs. Gorge Almada (former Miss Alicia Calles, daughter of the ex-President of Mexico), as they arrived in Seattle aboard the S.S. President Taft from their honeymoon in the Far East.

Officers. Two deputy sheriffs set out to serve a warrant. The citizens worked faster than one and soon of their search was ready and surrendered to the officers. The waiting. As the officers alighted from their car, the maniac simultaneously emptied his pistol at them, then jumped a fence and started across a field loading and firing as he ran.

After emptying his pistol three times, the pursued found that two officers were ready and surrendered to the officers. The district attorney's office has not decided today the exact status of the case.

You can tell the native at a resort. He pays 30 cents for something that costs you a dollar.

Reduction -IN- Electric Rates

Lower rates for electricity for domestic and commercial purposes have been made voluntarily by the West Texas Utilities Company. The cost per kilowatt-hour has been reduced.

The New Rate for Residences

- 12 CENTS net per kilowatt-hour for the first four kilowatt-hours used per room per month.
9 CENTS net per kilowatt-hour for the next four kilowatt-hours used per room per month.
6 CENTS net per kilowatt-hour for all energy used in excess of the above amount.

Determination of Number of Rooms

The room count is based upon the ordinary real estate rating, and in making the count, alcoves, unfurnished attics, bathrooms, cellars, hallways, laundries, closets, pantries, open porches, garages, barns, and outbuildings will not be included. Premises with less than three rooms, real estate rating; will be classed as 3-room premises; those with more than seven rooms will be rated as 7-room premises. THE NUMBER OF OUTLETS AND APPLIANCES USED DO NOT AFFECT THE RATE.

TABLE SHOWING THE NEW NET RATE AND NUMBER OF KILOWATT-HOURS IN EACH STEP.

Table with 4 columns: Size of Residence, First Step (12 cents per kilowatt-hour for first 4 hours), Second Step (9 cents per kilowatt-hour for next 4 hours), Third Step (6 cents per kilowatt-hour for all excess). Includes a large '6c' graphic.

You will note how few kilowatt-hours per month need be used before you reach the new low SIX CENT price.

COMMERCIAL RATES

- 12 CENTS net per kilowatt-hour for the first 30 hours of maximum demand.
10 CENTS net per kilowatt-hour for the next 60 hours use of maximum demand.
5 CENTS net per kilowatt-hour for all energy used in excess of the above amounts.

The new rate makes liberal use of electricity for all purposes in commercial establishments inexpensive per meter. Further explanation of the rates will be given gladly upon request.

THESE RATES EFFECTIVE IN CISCO IN FEBRUARY.

West Texas Utilities Company

SENATE EXPECTED TO PASS HIGHWAY BOND ISSUE PROPOSAL

Measure Which Will Provide for Constitutional Amendment, Is Slated to Be Taken up Monday

AUSTIN, Feb. 16.—The senate will pass the proposed \$175,000,000 highway bond issue, according to indications Saturday. This measure, providing for a constitutional amendment to permit the state to launch a bond issue for construction of highways, is scheduled to be taken up by special order Monday.

The very fact that Sen. Walter Woodruff of Houston, one of the sponsors of the measure, asked consent of the senate to consider this matter Monday indicated that he is fairly certain of sufficient votes to insure its passage. It is understood that he is counting 21 votes in his favor.

The opposition is expected to put up considerable fight and may win back some of Woodruff's votes. At the beginning of the session there was considerable doubt that the senate would pass the bond issue measure. The house of representatives voted Friday to adjourn until Monday, and Saturday morning when the roll call showed that there was not a quorum present in the senate, it likewise adjourned until Monday.

Next week will be the most stormy one of the 41st legislative session in the senate. Many of the major measures which have been through tough tussles in committee are scheduled to come out on the floor.

After battling with the highway bond issue the senate will struggle with the three prison bills, which are likewise scheduled for Monday. But it is not likely that the senate will get to the prison measure until Tuesday at the earliest, on account of much expected argument over the highway bond issue question. The prison measure will likely yield the most bitter scraps of the session. Holbrook's bill, which has the backing of Gov. Dan Moody provides that the prison board "sell out and move west" as Sen. Tom DeBerry expresses it. Cousins' bill is less drastic it provides for concentration on one of the farms already covered but sale of considerable prison holdings, including the Huntsville prison. McFarlane's bill is mild in comparison. It provides concentration on Darlington farm, retention of Huntsville prison, and sale of a few prison farms.

ALIEN BILL PASSED.
WASHINGTON, D. C., Feb. 16.—The undesirable alien deportation bill designed to rid the United States of foreign gunmen, dope peddlers, racketeers and other criminals, was passed by the house of representatives late today.

AMERICAN LED WORLD IN OIL PRODUCTION

WASHINGTON, Feb. 16.—America led the world in oil production last year with 969,394,000 barrels of crude petroleum as compared with its record of 961,129,000 in 1927, preliminary estimates of the commerce department showed today.

Venezuela was second in production, Russia third and Mexico fourth, the department said.

Texas led producing states in America with 256,893,900 barrels. Oklahoma dropped from first to second place and California from second to third position.

Imports of crude petroleum in 1928 amounted to 79,583,000 barrels, an increase of 26 per cent over 1927. While imports from Mexico fell off, those from Venezuela more than doubled, the department said. Gasoline production rose to 37,183,900 barrels, an increase of 14 per cent over 1927 production. Improved methods of distillation recovered 41.3 per cent of the gasoline from crude oil as compared with 39.6 per cent in 1927.

MASONS WILL HOLD DOUBLE BURIAL RITES

Members of Cisco lodge No. 536, A. F. & A. M. are called by L. D. Wilson, worshipful master, to meet at Masonic temple this afternoon at 1:30 o'clock for the purpose of conducting the funeral services of Thomas Jefferson Clark and Jesse Harris, deceased members of Cisco lodge. After assembling at the lodge rooms Masons will march in a body to the Western Funeral Home for the religious services for Mr. Clark, after which they will take charge of the body and march in grand procession to the grave for the Masonic services.

Masons will remain at Oakwood cemetery at the conclusion of the Clark obsequies until the arrival of the body of Jesse Harris, who will be buried according to the Masonic ritual. Every member of Cisco lodge is expected to be in attendance.

SEA RESCUE.
NEW YORK, Feb. 16.—A sea rescue chapter in the sea annuals of the United States lines was being written today as the steamship President Harding cut through storm tossed seas to the rescue of a rudderless American freighter, the Padway, of the American West Africa line, owned by the Barber Steamship company.

OF A SOCIAL NATURE

Twentieth Century Club.

The Twentieth Century club met Friday afternoon in the women's club house. Mrs. Philip Pettit presiding and Mrs. George Winston acting secretary for the term. After the business meeting Mrs. C. B. Kelly introduced the study of Shakespeare's "Macbeth." Mrs. E. E. Kinnell, a great actor who has immortalized the play, Mrs. Z. Fred Iby and others telling their experiences in seeing "Macbeth" played in late years. Mrs. Iby continued the study in her inimitable way, explaining witchcraft in the time of James I and its use in the play. Mrs. J. R. Burnett's critical interpretations showed thoughtful and careful study of the play, and the round table discussions after each phase of study testified to the gripping interest the study of Shakespeare's plays is sure to arouse. Mrs. Charles Brown, club critic efficient in her reports, yet kind in her criticisms, finished the lesson for the afternoon, after which Mrs. William Reagan, parliamentarian, called attention to the little lapses from the straight and narrow paths of parliamentary procedure, after which the club adjourned till March 1.

Women's Meeting of West Texas Utilities Company.

The women's committee of the West Texas Utilities company held its meeting in the club house Thursday evening at 8 o'clock. Miss Hazel Preston, chairman, and Miss Fern Scott of Moran, secretary, presiding. After routine business had been disposed of, a very interesting safety program was held, members present being on the program. L. L. Walker, district foreman of the meter department, told of the Monday morning session held by the men working for the company in its safety campaign. He also gave a physiological talk concerning the anatomy to the body and explaining what was accomplished in following out the Schaefer prone pressure method of resuscitation. Merle Byrd was used as the subject for resuscitation, the actual work being done by Charles Walton. Mr. Walker also read safety rules applying to streets and grade crossings for the information of those driving cars about the streets and highways. Mrs. O. J. Tunnell discussed safety measures to be observed in our homes and Mrs. Walter Ulrich followed with a talk on safety measures observed in schools. A game played on the streets is distinctly a game of chance was the theme enlarged upon by Mrs. Laurie Burrows, and Mrs. Warner urged the teaching of children to swim for fun for health and for safety. Fire hazard was discussed by Mrs. Moon in the careless handling of gasoline, kerosene, rubbish and bonfires. Care in drinking water and its sources was stressed, and a discussion of edible greens and how to distinguish poisonous plants was explained. Cherry pie, topped with whipped cream, and hot cocoa was served to Mesdames Moon, Ulrich, Williams,

Mitchell, Austin, Parks, Sledge, Burrows, Perdue, Tunnell, Walker, Dudley, Warner, Shepard, and Moses Hazel Preston, Margaret Parks, Fern Scott and Hughes.

North Circle.

The North Circle of the Methodist Missionary society entertained Tuesday at 1 o'clock at the home of Mrs. Charles Yates, with luncheon and handkerchief shower, complimenting Mrs. Jack Kelly. Covers were laid for 15. Decorations and favors carried out the Valentine colors. Following the luncheon, a program and business session was held. At the close of the meeting, Mrs. Philip Pettit, the retiring chairman, was presented with a beautiful pot plant.

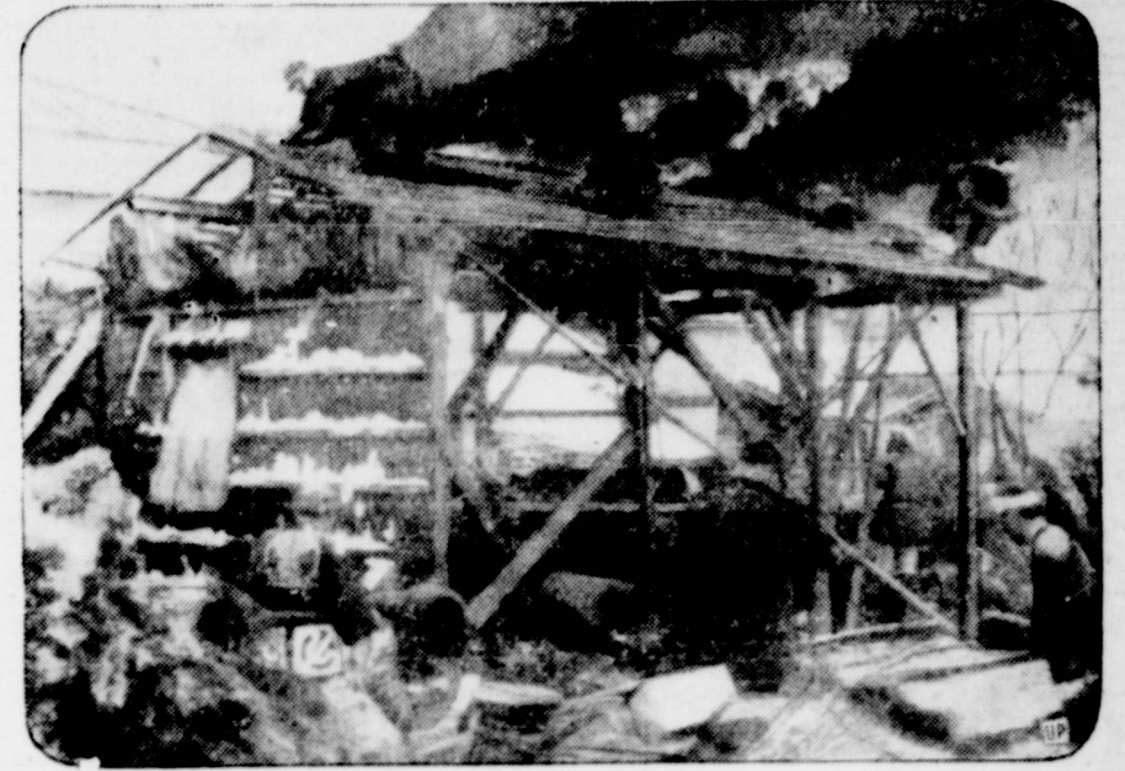

Circle One.

Circle One of the Presbyterian auxiliary met Friday at 1 o'clock at the home of Mrs. G. C. Mortimer, 511 West Seventh street. Preceding the regular program and business session, a two course luncheon was served, with deference shown Mrs. C. E. Brown, who left Thursday for her new home in Kansas City. Mrs. Red Carnations formed an attractive centerpiece for the table and dainty red and white nut cups, placed at each plate, suggested the Valentine season. Following the dinner, Mesdames W. W. Wallace and G. G. Mortimer expressed the regrets of the members in losing the valued membership of Mrs. Brown in the circle and extended to her wishes for much happiness in her new home. Miss Ann Dowell then gave an appropriate reading and Mrs. A. E. Jamison favored the guests with two solos. During the lesson study hour, conducted by Mrs. J. E. T. Peters, Miss Alice Johnson and Mrs. A. E. Jamison gave interesting papers. Sixteen members were present.

Mrs. L. A. Kennedy Honors Departing Couple.

Mrs. L. A. Kennedy entertained charmingly at the Cisco hotel Friday evening complimenting Mr. and Mrs. W. M. Turner with a farewell party on the eve of their departure for their future home in T. Dewida, Mr. and Mrs. C. I. McEl Paso. The evening was most joyous, the guests enjoying dancing, the spacious dining room, with its waxed floor, had been cleared for the occasion. The hostess served refreshments of angel food cake and hot chocolate during the evening to the following guests: The honorees, Mr. and Mrs. W. M. Turner, Mr. and Mrs. Herbert Lewis, Mr. and Mrs. W. T. Dewida, Mr. and Mrs. C. I. McEl Paso. The evening was most joyous, the guests enjoying dancing, the spacious dining room, with its waxed floor, had been cleared for the occasion. The hostess served refreshments of angel food cake and hot chocolate during the evening to the following guests: The honorees, Mr. and Mrs. W. M. Turner, Mr. and Mrs. Herbert Lewis, Mr. and Mrs. W. CHURCHES

FIRST METHODIST.
Services both at 11 a. m. and 7:30 p. m., the pastor preaching at both hours. Special music. A cordial invitation is extended to all.—FRANK E. SINGLETON, pastor.

CATHOLIC.
There will be mass today at 8 a. m. by Rev. P. Ruano. There will be devotions on Tuesday evening at 8 by Rev. M. Collins. The stations of the cross followed by a sermon: "Why Baptism is Essential to Salvation; that is, Seeing God Face to Face in the Next World." This does not mean that those not baptized will go to hell. Services in the Catholic church are always open and free to all.—REV. M. COLLINS.

FIRST PRESBYTERIAN.
Sixth street at 11 o'clock. "Sermons" will be the sermon theme this morning at 11. What will be our reaction to the talent to which you will scarcely recognize the auditorium in which you will be welcomed today; the roof has been in the hands of John-Manville; the pipe organ under the care of a tuner; and floor will be burning early to get everything comfortable by the time you come for 9:45 Sunday school. Dr. Myers and the choir will feature grand music for both morning and evening hours. The 7:30 service has "Lives of Great Men" as the sermon theme, and seven pictures illustrate the scripture lesson. "Hail, God as He comes for you."—BRUCE C. BONEY, minister.

GRACE LUTHERAN.
Let us all be present promptly.

at 10 o'clock and have a record attendance at Sunday school. Morning service at 11. Sermon topic: "What Lutherans teach about the Scriptures." Night service at 7:30. At this service the pastor will preach the first of a series of 6 sermons on "The Redeemer, the Redeemed, and the Redemption." Come out tonight and you will want to hear the rest. These sermons will be full of the Gospel message which announces free and full salvation to every sinner. You are welcome.—H. F. PEIMAN, pastor.

CHURCH OF GOD.
F avenue and 11th street. What do you know about the Bible-teaching regarding the second coming of Christ? The pastor will consider this subject in the night service. This will be an inspirational service for all. Sunday school at 9:45. Morning worship at 11. Subject, "Essentials to a Great Revival." Young people's meeting, 6:30. Everybody is invited to these services.—JOHN W. BATTORFF, minister.

FIRST BAPTIST.
E avenue at ninth. Acker C. Miller, pastor. Sunday school at 9:45; S. E. Hixson, general superintendent. Classes and congenial groups for every age in comfortable and separate class rooms. Preaching services at 11 a. m. and 7:30 p. m. Young people meet at 4:30 with general assembly at 7:15. In the evening the pastor will speak on "An S. O. S. to Heaven." Conversational singing is always a feature of this service led by W. F. Walker with Mrs. G. M. Rosenbaum at the piano. A cordial invitation is extended to all.

Splendid Fire Department and Water Supply Enable Cisco to Secure Credit on Fire Insurance

Thursday the Daily News carried an announcement that Cisco has been awarded the full 15 percent reduction allowed by the state fire insurance commission on fire rates. The announcement was read with much interest, no doubt. Had the story been that Cisco was handed the sum of \$24,000 in cold cash there would have been a stir the like of which would have equaled that after a football victory by the Lobos.

In effect the award is the same for the estimated savings to Cisco property owners by this reduction is \$24,000. It is estimated that local citizens pay fire insurance premiums to the amount of \$100,000 annually. Eighty thousand of this is paid through local agents, who estimate that, an equal amount is paid through outside agencies. Fifteen per cent reduction on this sum is the saving the Cisco people will realize.

The reason for the reduction, which is based upon the fire record of the city over the past three years, is not difficult to find. It is due to Cisco's splendid fire department, abundant water supply with its miles of water mains, supplied with fire hydrants, located at strategic points; the city's sanitary and anti-fire hazard ordinances, which have enabled the city to hold its fire losses down to the minimum.

Cisco's present insurance rate is about 80 cents on the \$100 property valuation, based on premiums paid, but without the splendid fire department, with its modern equipment, the insurance key rate would be \$1, which, with other charges, would give a rate of about \$2 on the \$100 property valuation. This it will be seen that the city's investment in fire prevention methods is saving the property owners of this city more than \$100,000 annually, plus the property loss that would result from disastrous fires that occur in the city.

If these facts are considered by local people the inevitable conclusion will be reached that Cisco's fire department is one of the best investments the city ever made.

Municipal administration is not dissimilar from that of a private corporation. The municipal corporation, which economically administered, differs from a private corporation in that its objective is to protect the persons and property of its citizenship, and to save the people from loss, rather than to achieve financial gain.

Representing a cost of \$500,000 in modern equipment, Cisco's fire department is one of its best assets. Due to the fact that Cisco has one of the best and most local volunteer departments in the state its operation is held down to the minimum. Members of the department are paid \$2.50 for each wet fire which partially pays the men for clothing, meals and induces prompt attendance at fires. There are three paid firemen, including the fire marshal. One of these paid firemen is desk sergeant at police headquarters, who also drives one of the fire trucks. Half of his salary is paid by the police department. The other paid fireman is a regular police officer in addition to being a driver of another truck. Only one-fourth of his salary is charged to the fire department and three-fourths is paid by the police department. The fire marshal is also sanitary officer, and his salary is paid by the fire and sanitary departments on a 50-50 basis. The records of the city secretary's office reveal that the cost to the tax payers of Cisco to maintain its fire department for the past 120 years was \$2,700 annually. Interest on the equipment amounts to about \$2-

Premier Race Driver in U. S.

Maj. H. O. D. Segrave, famous British race driver, with Mrs. Segrave. The Major hopes to return to England with the world's speed record for autos safely stored away and brought his 930 h.p. "Golden Arrow" along solely for that purpose.

TAKEN HOME.
Miss Ida Belle McCain, cousin of Mrs. V. G. Locke, who has been a patient at the Graham sanitarium for the past six weeks, had difficulty recovered for her to return home.

Miss Ida Belle McCain was taken ill at her home and came here to become a patient at the local sanitarium expecting the change in climate and hospital facilities to give her that relief which has resulted. While a patient here Miss McCain was under the nursing care of Miss Helen Taylor, local nurse, who accom-

panied her to Yuma, the two leaving on the Sunshine Special Saturday evening. Miss Taylor will remain in Yuma until her patient sufficiently recovers for her to return home.

JESSE HARRIS DEAD; FUNERAL HERE TODAY

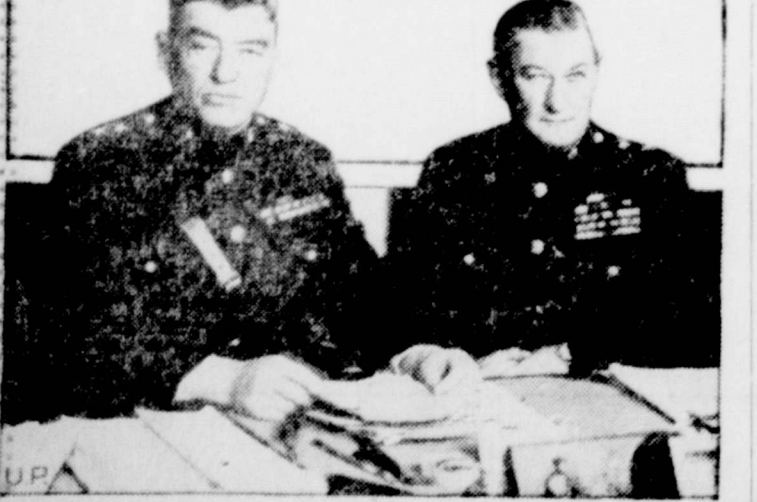

Jesse Harris, living about seven miles north of Cisco, on highway 22, died Saturday at the home of his son, Edgar Harris, with whom he lived for the past few years. Funeral services will be held at the residence at 3 o'clock and burial will be in Oakwood cemetery, directed by the Green Funeral Home. The body will be met at the grave by members of Cisco Lodge No. 556, A. F. & A. M. and be buried with Masonic honors. Mr. Harris was born March 7, 1854. He is survived by his widow and two sons.

MOST DRASTIC CURTAILMENT OF OIL STARTS

TULSA, Okla., Feb. 16.—The most drastic curtailment of crude oil production ever attempted at Oklahoma will start at 7 a. m. Sunday when the Burned Oil Corporation starts its curtailment plan in the Seminole field. The company's wells will not be allowed to flow again until 7 a. m. Monday, R. F. McArthur, vice president of the company, said. "We believe this is the best way to handle the overproduction situation," he said. "It is an idea that T. B. Slick suggested some time ago, and we have decided to try it." The Burned Oil production in Seminole is about 19,000 barrels a day.

When people speak of a living wage they mean a living wage.

Marine Corps Command Changes

Maj. Gen. John A. Lejeune, left, who is to relinquish his post as Commandant of the Marine Corps on March 5, next, gives his successor, Major Gen. W. C. Neville, right, a few pointers at his office in Washington. General Lejeune has commanded the sea soldiers for the past eight years, and wishes a few more months in the field before his retirement.

APPEAL FOR CHARITY GETS BIG RESPONSE

"It certainly pays to advertise," said Mrs. J. V. Heyser Saturday afternoon. "Ever since the appeal which the Cisco Daily News published Friday asking aid for a destitute mother and her six small children I have been swamped with telephone calls and with offers of assistance."

Mrs. Heyser said that she had collected \$35 in money besides large quantities of clothing and groceries which had been given the woman and her children. Shoes and school supplies were purchased for the youngsters and they will be started to school Monday.

"It was quite a different family that greeted me Saturday afternoon," she said. "The children were all bathed and clean, they were dressed in good clothing and every one was as happy as they could be."

Mrs. Heyser pointed out, however, that this family is not the only needy one in the city. There are others, she said, just as deserving, and the people of Cisco must not forget all their charity to the relief of one when others are suffering. She asked the Daily News to thank all who contributed in the appeal.

Goitre Not a Disease
Milwaukee Doctor Makes Remarkable Discovery.

MILWAUKEE, Wis.—It has been brought to light by scientific research that goitre is not a disease and is not to be treated as such. Dr. A. A. Rock, Dept. E43, Box 737, Milwaukee, Wis., a prominent goitre specialist for over 24 years, has perfected a different method of treatment for his patients that has proved remarkably successful. This same method is now being used for a home treatment of goitre cases all over the country with astonishing results. The doctor states that goitre is a condition which grows worse with neglect and recommends immediate attention no matter how small the growth may appear. He strongly opposes needless operations on a 50-50 basis. The records of the city secretary's office reveal that the cost to the tax payers of Cisco to maintain its fire department for the past 120 years was \$2,700 annually. Interest on the equipment amounts to about \$2-

FRUIT TREES IN CISCO IN DANGER OF BEING EXTERMINATED

Use of Sprays to Check Spread of Diseases Among Orchards Is Advised by Local Horticulturist

J. B. Ely, Cisco horticulturist, thinks fruit trees in this city are in danger of extermination unless given prompt attention. "I feel it my duty to sound a warning to those Cisco people who are sufficiently enterprising to have orchards in their back yards," Mr. Ely said. "Warnings are sent out each year by our state authorities, but these warnings are seldom seen or heeded by the average citizen. In the course of my work around in the yards of Cisco I find that, without exception, every fruit tree is diseased, and unless prompt and efficient spraying is done, there will not be left a bearing tree here. Crown gall, leaf curl, borers and another, even worse affliction, which could not be classified at Austin by a sample we sent in, are the diseases prevalent. These diseases travel from yard to yard and unless a concerted effort is made along this line, our home orchards will soon be a liability instead of an asset. When it is considered that a well cared for home orchard, planted on every square foot of ground, would pay the taxes on our average home, the value of these trees may be properly estimated.

"A combination spray is required, one that will be a remedy at one spraying for all of the diseases mentioned. I have found the following very efficient: Lime-sulphur, mixed according to instructions on the container, mixed with Bordeaux mixture—each one mixed as per instruction and then mixed together and sprayed on the tree until it is thoroughly drenched, using a stiff brush to rub it into the knots and rough places on the limbs. This should be done during this February, and again just before the buds begin to swell in the spring. Then again, when the young fruit has well formed, with half strength mixture, when half grown with a half strength of Bordeaux mixture, to discourage insect sting and the ubiquitous boll weevil.

"Any bearing tree that is affected badly should have half of its fruit buds trimmed away so as to give the tree more strength to combat the diseases and to put on new healthy growth for next year's crop. The dirt should be raked away from the base of the tree six inches deep and the butt painted with tar mixture, the dirt drawn back. Much more could be said that would fall under the head of general treatment and care of fruit trees, but I will just add this further warning concerning a greater fruit enemy than any of these already mentioned. Many of our yards are infected with a deadly root disease called nematodes, which has the appearance of knots or nodules along the roots, and sometimes forms a great mass of lumps at the base of the tree or shrub. Every variety of shrub and tree are subjects and there is absolutely no cure except by destroying the plant and abandoning the ground for two years. Every root should be pulled up and burned; the hole filled with lime and covered up. Then nothing except bulbs of some kind should be planted on the spot for two years, after which time the nematodes will have starved to death."

FRATERNITY SUSPENDED.
DALLAS, Feb. 16.—Officials at Southern Methodist University today revoked the charter of Sigma Alpha Epsilon fraternity and ordered all chapter activities suspended for one year because, it was charged, the varsity's taboo against student dances had been violated.

PARK BILL PASSED.
WASHINGTON, Feb. 14.—The Robinson bill to create 163,000 acre national park in Arkansas, was passed by the senate today.

Cells in the Angelina county jail at Lufkin are on the second and third floors, as a special "mest room" is being prepared on the ground floor, into which inebriated prisoners may be unceremoniously dumped.

Wrestling Champ

Gus Sonnenberg, world's heavyweight wrestling champion, has won the permission of the Illinois State Athletic Commission to use his famous flying tackle hold in Illinois rings.

WESTERN UNION EMPLOYEES GET NICE BONUS

Close to forty thousand employees of the Western Union Telegraph company, including messengers, shared in the distribution of approximately \$1,560,000, the amount set aside for the company's 1928 earnings for the employees. The distribution was on the income participation plan, according to an announcement made yesterday. The distribution was made on St. Valentine's day, and every employee who has been with the company 19 months or more, was eligible to share in the distribution of the fund.

The employees of Western Union have been paid more than \$15,500,000 under the income participation plan since its inauguration in January, 1926. The announcement follows closely the announcement of a two million dollar wage increase which was granted to employees of factory January 1, 1929, and which was in addition to various individual wage increases granted at the same time.

Manager Murphy said Saturday that none of the messenger force, or other employees of the Cisco office were eligible to participate in this distribution except himself and Mrs. Murphy, as they are the only employees of this office who have been with the company for 19 consecutive months. This fund was distributed on a basis of 28 per cent of the salary of the individual employee. Messenger boys are paid \$27.50 per month. Too bad some of the kids did not stay on the job.

LEES REACH WASHINGTON.
A telegram received Saturday by C. H. Fleming from Congressman R. Q. Lee announced that he and Mrs. Lee had arrived safely at Washington, having a most enjoyable trip without a mishap of any nature. The telegram stated they were pleasantly located in their Washington home at 1851 Irving street.

Mystery Surrounding Death of V. J. Kuntz on Railroad Tracks Near Cisco Partially Cleared Up

T. J. CLARK TO BE BURIED AT 2 P. M. TODAY

Thomas Jefferson Clark, aged father of John Q. Clark, died at the home of Mr. and Mrs. W. W. Roan, 162 East Ninth street at 6 o'clock Saturday morning, in the 89th year of his life. Funeral services will be held at the chapel of the Wippen Funeral Home this afternoon at 2:30, conducted by Rev. F. E. Singleton, pastor of the First Methodist church. Following the religious services the body will be taken in charge by members of Cisco lodge No. 556, A. F. & A. M., who will form in grand procession and march with the body to the grave, where the remains will be buried according to the ritual of the Masonic fraternity, in Oakwood cemetery.

Mr. Clark was born in Cherokee county, Alabama, April 16, 1840. In the year of his death he was one of the oldest citizens of Cisco, though he had lived in this city only since 1923, coming here from San Angelo to establish his home on the quarter block of land on East Ninth street and D avenue, where he had his home continuously since. He came to Texas in 1869.

Mr. Clark was affiliated with the Masonic fraternity and was a consistent member of the Methodist church. He served during the entire four years of Civil War, in the ranks of the Southern Confederacy as a member of Co. B, 23rd Mississippi regiment. Thomas Jefferson Clark and Elizabeth Davenport were united in marriage in Tippah county, Mississippi, February 5, 1869. Mrs. Clark preceded him in death eleven years ago. They were the parents of nine children, five of whom are living. The surviving children are Monroe Clark of Calvert; Charles Clark, of Paris, France; Mrs. W. W. (Florence) Roan, Miss Tommie Ray Clark and John Q. Clark, of Cisco.

Mr. Clark was well known to the older inhabitants of Cisco, but during the past few years had led an exclusive life, owing to illness and his advanced years. However, other than an old malady, his general health had been fairly good for a man of his years, and he was able to attend to business in any part of the city until a few weeks ago. Up to a few years ago he conducted a small grocery and restaurant at the corner of D avenue and East Ninth street, which was frequented by numerous farmer-friends of his. He was a splendid citizen, an upright and honorable man.

FESS BILL APPROVED.
WASHINGTON, Feb. 16.—A strengthened form of the Fess railroad consolidation bill was approved and ordered favorably reported to the senate today by the Interstate Commerce commission. The commission adopted two amendments by Senator Sackett, Republican, Kentucky, which will have the effect of modifying the purpose of the Fess bill. The vote on the bill was 7 to 2.

Mystery surrounding the finding of the body of V. J. Kuntz, of Putnam, on the Texas & Pacific tracks a short distance west of the Cisco station, Dec. 14, has been partially cleared up through investigations made by members of his family. Mr. Kuntz was known to have been well supplied with money, while his records as a citizen was such that there was no disposition on the part of officials to believe that he was endeavoring to "beat his way" and had fallen from the train at the point.

An explanation deduced from letters which he wrote and mailed in Fort Worth the day before he was found here a corpse, as well as from a knowledge of his mission to Fort Worth and the business in which he had been engaged is looked upon as logically clearing up the question that developed with the discovery of his remains in the particular spot.

One letter written to his wife from Fort Worth and mailed on December 12, contributes the largest measure of his explanation. According to A. V. Kuntz, eldest son of the deceased, who has been investigating the circumstances surrounding the death of his father, his father, himself and his brothers worked practically all their lives in the glass industry. They had moved to Texas from Pennsylvania only a short while prior to Mr. Kuntz's death, and the deceased had been occupying himself during his life here with plans for the establishment of a glass factory somewhere in the territory. Due to the nature of materials handled in the making of glass it is necessary to find a site near railroad tracks so that the handling of large quantities of sand and other heavy ingredients may be expedited.

The letter written from Fort Worth to the wife of the deceased was brief. It contained the following statements: "Fort Worth is no good. I am going to Cisco to investigate conditions there."

A handbag known to have been carried by Mr. Kuntz on his trip of found and identified by A. V. Kuntz at the local Texas & Pacific station. On his person was found a pocketbook containing over \$8 and other articles and papers which a man of business might have carried with him. A watch, minus the teeth charm and fob he was known to wear, was also found. The deceased was a member of the Elks lodge at Jeannette, Pennsylvania. From the letter and from the fact that his baggage was found at the railway station, it is deduced that Mr. Kuntz had gotten off from the train here, left his baggage at the depot and started out to inspect sections of the city along the railroad tracks for a possible site to be utilized in the establishment of a glass factory. According to A. V. Kuntz his father was in the habit of becoming so absorbed in his thoughts that he would notice nothing that went on about him, and this characteristic, combined with a deafness in one ear, is believed to have caused him to stand in the path of a train without realizing it, thus meeting his death. The spot at which the body was picked up was one likely to attract a person on the lookout for an industrial site where railroad facilities would be conveniently supplied. Mr. Kuntz had joined his sons at Putnam only three months before he met his death.

FARMER AND WIFE VICTIMS IN TRAGEDY

PALESTINE, Tex., Feb. 16.—W. C. Thompson, 38 farmer, shot and killed his wife, Mrs. Elsie Thompson, 34, today on a farm 23 miles north of here and then blew his own head almost off with the same gun. Mrs. Thompson was shot through the breast with a 10-gauge shotgun.

The murder and suicide was described to county officers by the oldest of four small sons who were in the house at the time. "Daddy didn't sleep good last night or the night before, the 11-year old boy sobbed to officers. "He's had the flu."

RUN DOWN BY CAR CHILD IS SLIGHTLY HURT

Wayne, the little seven year old son of Mr. and Mrs. Charles Coffee, and grandson of Mr. and Mrs. W. H. Hurd, was run down by a Chrysler car late Saturday afternoon in front of the Hurd Poultry Co. on D avenue. Mrs. Hurd and Mrs. Coffee had crossed the street from the Hurd Poultry Co., and the child attempted to follow when it was struck by the passing car. Reports from the Hurd home Saturday night were that the child's injuries were not serious. It was conveyed to the Graham Sanitarium where his wounds were given surgical attention. The driver of the Chrysler car could not be learned.

Brownwood are spending the week end in Cisco with relatives and friends.

MARSHALL, Feb. 16.—Two men were held today as suspects and another was held as a material witness here today, following the murder last night of H. B. Alston, 42, in a cemetery in the heart of town.

A blood-covered iron pipe was found today hidden under a bush a short distance from where Alston's body, his head crushed in several places, was found by Ed Ross, 17, who with two girl companions, was passing through the cemetery.

A grease stained handkerchief and a piece of paper covered with blood was found in the basement of the Texas & Pacific depot.

One of the men under arrest is alleged to have been seen to throw the handkerchief into the basement. The other was arrested with Alton about a month ago when both were charged with drunkenness. Gordon charged at time he had been robbed of about \$17 the night before.

A number of finger prints were found on the pipe and an expert from Shreveport was on the way here to investigate them. Prints of men under arrest will be taken.

County Attorney Taylor said he was convinced that the man who murdered Alston knew him and that he accompanied Alston to the scene of the murder.

Five or six tramps also have been arrested, city officers announced. Charges were expected to be filed during the day.

Alston will be buried in Tyler Sunday. His widow and three children arrived here today from Shreveport.

The grizzly bear is the world's largest carnivorous animal.

Furthering Business Enterprises

This Is the BANK that SERVICE Is Building

MEMBER FEDERAL RESERVE SYSTEM

First National Bank in Cisco, Texas.

A bank's life and growth depend almost exclusively upon the life and growth of business enterprises in the community.

Its deposits and its loans will naturally rise or fall with the volume of business transacted in the community and the consequent fluctuations in wages, profits and incomes.

A prime function of a bank, therefore, is to foster business enterprises to the extent of the community's needs.

This function has always been duly recognized in this institution. Our officers and directors consistently favor all warranted accommodation to commercial depositors within the limits of sound banking practice.

KILLED BY FALL

MIDLAND, Feb. 16.—H. Porter, architect inspector for W. C. Hedrick, in the construction of the 12-story Hogan Petroleum building here, was killed this afternoon when he fell through an elevator shaft from the 8th floor. His home was at Fort Worth.

HIJACKING CASE

A case of hijacking was reported early Saturday night when Ordie Jacobs, son of Calvin Jacobs, was held up while on the Lake Bernie road, between the Texas & Pacific and Katy tracks. A car in which were two men and a negro woman drove alongside of Jacobs, when the woman drew a pistol and covered Jacobs, demanded his money. Jacobs was relieved of \$3, all the cash he had, and these in the car took the money and drove away.

HOOVER ENDS SURVEY

PALM BEACH, Fla., Feb. 16.—President-elect Hoover completed his Everglades flood survey today, arriving here shortly after noon from his visit this morning to the area suffering most damage from last September's hurricane. He left Cleveland at 8:30 this morning for the 77 mile drive here. The president-elect was the guest of the exclusive Palm Beach Bath and Tennis club at luncheon, after which he was to return to Miami Beach.

"Pleasant Dealings—a Feature We Like to Advertise"

R. & R. PALACE THEATER

Due to unforeseen difficulties we have been prevented from securing the high type of Vitaphone and Movietone features which we had hoped to present as "follow-ups" for the coming week, and rather than present an inferior type of sound films we have refused such billings and will present during the next week or 10 days a high class series of silent pictures.

There is such a demand for sound pictures that it is difficult to secure billings. In the meantime the Vitaphone and Movietone equipment will be thoroughly adjusted and the installation of other parts completed so that everything will be in perfect working order for the next sound showing.

John Gilbert in "The Mask of the Devil" is the feature for Sunday and Monday, Tuesday and Wednesday Alice White will be seen in "Naughty Baby."

for the next 10 days we will be completing the installation of
