Y'know every day we become even more convinced that the folks in this part of the country are better than you can find most anyplace.

We've been pretty well sold on this idea for a long time, but with each passing day we become even more entrenched with the idea.

The cemetery well fund drive is just another example of what we are talking about.

There was a need, it was told to the citizens of this area and before long the need was answered.

Such things surely make us proud that we are a part of such a community.

Erwin Johnson dropped by The Star office last week and brought us a sack of the prettiest yellow plums you ever saw.

He picked them from a tree in his yard, and he brought them about the time we were printing last week's paper they tasted even better.

We sure do than' you Mr. Johnson for the plums!

We hate to be a party to tearing down anyone's ideas, but we thought perhaps it would be o.k. to clear up something that has been going on.

Charles Allen and myself both have identical twins in our '53 Fords.

And -- each of us live the same direction from town.

Charles was accused of not ever going to work by Martha Clements some time ago, so he told her that each time he went to town he would honk as he passed her house . . .

When Charles told Martha this, he was driving only the new Olds.

Right afterward he bought the old ford I spoke about.

So, for sometime Martha has figured that Charles and I both have been honking . . . or perhaps figured that Charles sure does a lot of running up and down the highway . . . we dunno which.

learned quite a few things while on our recent "vacation."

We returned to Friona a couple of days early and found our landlord George W. (West of Town) Jones knee deep sampling wheat.

Anyhow we volunteered our services (not having any better sense) to help. Boy! Did I ever goof!

We remember in the dim dark past how tired the folks were at home after farming all day long, but that has been many moons ago.

The next morning we didn't know whether or not we'd make it out of the bed or not.

But--like all things around a farm, it was different from our regular work and we had a lot of fun and enjoyed the feeling of helping in some small way to make something grow.

Late one evening George spotted an old 'coon as he pulled up to the truck to dump a hopper of wheat.

I reckon that the folks passing on the road figured we were nuts with George running all over the field with the combine and I was running around with a shotgun.

What they weren't able to see from the road was the old raccoon bouncing along just out of shotgun range.

But finally George headed him

Cemetery Fund Hits \$4848

Recent drives to obtain money for the upkeep and water supply of the Friona cemetery have met with favorable reception from the people throughout the Friona area.

Monday night at a meeting of the American Legion and the newly created Cemetery Association, Loyd Brewer, Commander of the Friona American Legion Post turned over to Mrs. Louisa Wilson, president of the cemetery association, a check in the amount of \$4,848.00. This was the amount obtained by the various organizations during the drives.

Organizations that participated in the cemetery fund drive were American Legion, who spearheaded the drive, Modern

Study Club, Friona Woman's Club, Progressive Study Club, Hi-Plains Home Demonstration Club and the Friona Lions Club plus individual citizens.

CEMETERY FUND CHECK PRESENTED---Mrs. Louisa Wilson, president of the Cemetery Association, receives a check for \$4,848 from Loyd Brewer, commander of the

local American Legion Post. The funds were obtained by several organizations and individuals during a recent drive.

Friona Star Wins State Press Award

The Friona Star was awarded a first place plaque for their News Picture entry in the Texas Press Association Contests last week at the TPA convention held in Brownsville.

This award was made in Division VI of the events, for those newspapers published in a town of 2,000-3,500 population.

This is the second award The Star has won this year having been awarded a second place certificate for Excellence in Typography at the Panhandle Press Association convention held in Amarillo this spring.

The TPA award will be on display in the offices of the newspaper when it is received from Austin.

Chamber Has Varied Agenda

Nelson Welch and Tommie Jones met with members of the board of directors of the Friona Chamber of Commerce & Agriculture at the regular meeting Monday morning to discuss the possibility of a labor camp in this area.

These men, speaking for several of their neighbors, have advanced the idea that if a place and area was provided for transient laborers perhaps this would solve many of the problems brought about every year.

Their idea is built around the theme that these people had rather all be together than spread all over the town.

The possibility of purchasing land, grading streets and providing water to such an area was discussed and a committee appointed to look further into the plan.

Hollis Horton Jr. reported on the summer swimming program. He told members that the program will be supervised by Baker Duggins who will take the youngsters to Clovis for their lessons.

So far as could be learned Monday the actual cost of the program will be around 90 cents per child. Of this the chamber will charge each youngster 35 cents per day for participation.

This fee will include transportation to and from the pool, cost of the pool and the salary of the instructor.

In other business the chamber agreed to pay half the net cost of the summer baseball program, splitting the cost with the American Legion in Friona.

Next regular meeting of the chamber will be at 6:30 a.m. Monday, August 3.

Lambs Attend Funeral Monday

Mr. and Mrs. Jake Lamb attended funeral services for Joe R. Mothershed, 7, of Memphis at the First Baptist Church there at 10 a.m. Monday. The boy, son of Mr. and Mrs. Joe M. Mothershed, drowned Thursday afternoon in an irrigation canal at the Bethphage Mission in Axtell, Neb.

Besides his parents, Joe is survived by two sisters, Nancy and Susan; his grandparents, K. N. Mothershed of Parnell, Mrs. Anna Jean Lamb and J. C. Lamb both of Memphis.

Burial was in Fairview Cemetery. Mrs. Mothershed is a niece of Jake Lamb and cousin

WATER, WATER AND MORE WATER---This scene (above) was shot Sunday night at the corner of Main and Highway 60 after the heavy rains and winds struck the Friona area. THE UMBRELLA FOLDED---A catalpa tree (below) known as the umbrella tree, in front of Pete Lawton's home was split by the force of the heavy winds that struck Friona Sunday night.

of Mrs. Wesley Foster and Mrs. Ralph Smith all of Friona.

Former Residents Involved In Wreck

Mrs. Roy Lee Jones, the former Bobby Joyce Tedford, and her three sons were involved in a car-train wreck

near Rogers, Ark. Thursday of last week.

Mr. and Mrs. W. H. Jones, parents of Roy Lee, and daughter, Raye Jene, left for Rogers after receiving word of the accident. Latest reports from members of the family indicate that none of the occupants of the car were seriously injured. Mrs. Jones was driving the car and her sons were riding with her.

Heavy Winds Batter Friona

Winds of tornadic velocity struck the entire Friona area Sunday night accompanied by heavy rains.

One tornado was reported seen about 9:15 p.m. on the J. E. Knight farm about 2 miles east of Friona. It was reported seen by Jack Williams who was combining on the farm immediately before the weather struck.

Limbs were broken from trees and windows were shattered by the heavy winds. Wesley Foster of Friona reports a limb broken from one of his large trees as were several others.

Ed Duke, Friona patrolman,

reports seeing trees blown so severely that the tops of the branches seemed to touch the ground.

A catalpa tree in front of Pete Lawton's home on Prospect street was completely split in two by the force of the winds.

Rains that fell during the heavy winds were heavy in some areas and moderately light in others. In town, a reported two inches fell and at Bootleg Corner, as much as five and one-half inches of rain was reported.

Scattered hail stones fell during the deluge, but a report of any damage has not been made at press time.

Hub Downs Brookfield, Takes League Lead

In a make up game played Monday night at the little league ball park, the Hub nine defeated Brookfield by a score of 14 to 10 to take undisputed first place in the little league.

This was the make up game that had been pending since their first encounter when the score ended in a 22 to 22 tie and a protest was lodged. The game Monday has entered the books as official and the score will count.

This makes five wins for the Hub nine with no losses. The second place team in the little league is now Black with three wins and one loss. Holding down third is Brookfield with three wins and two losses. Reeve is fourth with a three and three record, McCaslin is fifth with one win and five losses and Plains-Hurst is in the cellar with four losses and no wins to their credit.

In other league action for the week, the Hub nine bested Reeve Thursday by a score of 20 to 19. Winning pitcher for the game was Jackie Clark and losing pitcher was Billy Taylor. There was one home run during the contest, this being made by Hobart Estep of Reeve with one man on base.

Friday night was double-header night and the first game

pitted Bengier against Ethridge-Spring with Bengier coming out on top by a score of 11 to 8. Winning pitcher for the game was John Bill McFarland and losing pitcher was Ramey Beene. Charlie Bishop made the only home run of the game with no men on base.

In the second game Friday night, Black defeated McCaslin by a score of 26 to four. Winning pitcher for this affair was Ricky Coon and losing pitcher was Jerry Cass. Larry Buckley of Black made the only home

(Continued on page 7)

HE'S OUT---Doyle Mabry of the Hub team was put out at home plate by Brookfield catcher Dennis Howell as he tried to make it home. Umpire Earl Smith is closely watching the play.

Two Local Youths Hurt In Wrecks

Fred Jackson Jr. of Friona was injured early Sunday morning when the 1956 Ford he was driving hit loose gravel on Highway 60 and overturned about 3 miles east of Friona.

Ed Dukes of the Friona Police Department said Fred was passing another vehicle when the front tires struck the loose rocks. The vehicle rolled completely over. Jackson was carried to the Farmer County Community Hospital by Claborn Funeral Home ambulance where he remained overnight and then released.

The vehicle was completely damaged and was a total loss as a result of the wreck.

Another wreck the same morning occurred when a 1950 Ford driven by Tim Pruitt who lives on the M. A. Black farm ran off highway 60 about 1 1/2 miles west of Friona and struck a tree headon.

Pruitt sustained lacerations on his eyelids and knee and was taken to the county hospital by a Claborn ambulance where he remained for observation. This vehicle was also a total loss.

This program, if approved, will be an assessment type of paving project similar to the other two paving projects which have been carried out in Friona in the past years.

This program will cost a total of \$20,000.

Moving on to the next "need" of the city Smith outlined his plan for revamping the city sewage works.

As the present plant was designed for a city of 1,300 population the plant is now operating at a 75 to 100 per cent overload, Smith told the council.

Since the present plant is too close to town, he recommended the site be abandoned and a new site selected farther from the populated area.

Total estimate for the construction and installation of a sewage treatment plant to handle 4,000 population as outlined by Smith came to \$67,265.

In the water system the city is in dire need of more storage facilities, Smith says.

The present supply is adequate to serve the town for some time to come, he pointed out. However with more storage above ground the fire insurance people would be better satisfied and the water supply would be able to better handle more people more efficiently.

Included in Smith's plans is a 500,000 gallon ground storage reservoir, pumps, mains and a chlorinator for the city.

Also, he included the estimated price of a 200,000 gallon elevated water storage tank.

This particular item would be nice to have, Smith says, but with the money problem it is one thing which the city could do without for some more time in the future.

Total estimate for water works system improvement, without the elevated storage tank, would be \$99,560.

The improvement program, without the elevated tank would come to an estimated \$200,825.

The total improvement pro-

(Continued on page 7)

New Motel Slated Here

Construction on a new and modern 20 unit motel will begin July 20, Dave Hicks, owner, announced today. The motel will be named the Golden Spread. The facilities will include a swimming pool and each room will have a private bath, TV and refrigerated air.

The outside construction will be in red or pink brick and the inside will be of the most modern design.

The motel will be located on the corner of highway 60 and White Avenue.

Hicks is the former owner of Dave's Coin Laundry in Friona and he expresses the desire for his friends to drop by and see him at anytime during the construction and when the motel opens. He plans on giving the best service available during the operation of the new business.

(See picture inside this issue.) Hicks also manages Dave's Humble Station and he says his son-in-law and daughter, Mr. and Mrs. Joe E. Nottebrock will arrive in Friona the first of the year to take over the operation of the Humble station.

 Elsewhere.....\$4 Per Year

Dennis Serves Seventh Fleet

Bill W. Dennis, aviation electronics technician third class, USN, son of Mr. and Mrs. Fred C. Dennis of Friona, with Anti-Submarine Squadron 38, is serving in the Western Pacific

resting. He said, "Well, you see, it's like this. Fishing is business with me and no good business man tends to business on holidays. In the first place all the lakes are too full of people boating and water skiing for a fellow to do any fishing."

"Then in the second place, I sure like living, so try to take no chances. I don't figure I've got but one life and I'm going to prolong it as long as possible."

Thanks to Irvin Johnson, members of the Plains Publisher and Friona Star staff were treated to some lovely plums last week. In fact, last week must have been "plum week" with us. First J. H. Wise brought us a sample off one of his trees, then later in the week Mr. Johnson did likewise.

All of us wish to thank these two fine gentlemen for sharing locally grown fresh plums with us. Really makes us stop and wonder why we don't grow some ourselves.

Residents of the Rhea community seem to have a good idea for a sane Fourth of July. Annually they gather at the Parish Hall for an evening of fun, food and fellowship for all ages. Since most of the farmers are harvesting wheat, supper for some of them is served rather late, but there's always fried chicken, home made ice cream and everything that goes with the two for everybody.

Apparently we are living in age of reasons. There are reasons for this and reasons for that. Just about everywhere you turn you run into reasons for one thing or another. Ever think of how many reasons for not getting a divorce are contained in wedding vows?

Things seem to just about never run smoothly in a newspaper office, but last week seemed worse than usual. For sometime now, we've made a practice of carefully scrutinizing the Star before going out on the street after one has been printed.

Thursday morning what we

anti-submarine exercises. The carrier can effectively launch combat-ready aircraft against submarines, then travel hundreds of miles to a new location to recover her aircraft.

Dennis, a 1956 graduate of Friona High School, has been serving in the navy since June of the same year. His parents and a sister Julia Jan, live on Route 3.

News From LAZBUDDIE

By Mrs. C. A. Watson

Mr. and Mrs. E. A. Parham, Sharon and Terry and Mrs. Parham's father, Y. B. Mayfield, attended the Mayfield reunion in Abilene last week. On the trip home, they stopped for a visit with his parents in Merkel.

Mr. and Mrs. Leon Smith Jr. and Mr. and Mrs. Chunky Ivy spent the weekend in Ruidoso.

Lt. Howard Watson and Pfc. Glen Watkins, who are with the 36th Infantry Division of the National Guard are at Ft. Hood for a two week training period.

Mrs. M. D. Gaddy passed away at her home last Wednesday. One son, Marvin Gaddy, farms near Lazbuddie.

Mr. and Mrs. George Crain were in Waco last week. Mrs. Crain's mother, Mrs. J. O. Webb returned with them for a visit.

Most of the wheat has been cut in the area. Considering hail damage, the average yield was better than expected.

Visiting in the D. L. Schuman home this week are Mr. and Mrs. John Larue and Billy Melton from San Diego, Calif.

Hoppy Jennings and Buddie Emory were chosen all-star players in Little League. The Stars first game will be against Hereford.

S. T. Tipton, who was injured in a tractor, car accident near Clays Corner recently is showing improvement.

Marie Houston, who attends Draughts Business School in Lubbock, was home for the 4th of July.

The John Agee home was the scene of a picnic Sunday. Those attending were Mr. and Mrs. Broadhurst, Jerildene and Jimmy, Mr. and Mrs. Houston, Marie and Gene, Mr. and Mrs. Steinbock, Mr. and Mrs. Wesley Barnes and Junior.

Mr. and Mrs. Preston Cargile and children from Summerfield were Sunday dimer

guests in the home of Mr. and Mrs. Dan Cargile.

Visiting in the home of Mr. and Mrs. E. D. Masters last week were her parents, Mr. and Mrs. Jim Stuart from Reno, Okla.

Mr. and Mrs. John Hughes and David from Lubbock and Mr. and Mrs. Billy Watts and Cindy from Farwell visited in the Finas Jennings home Sunday. They spent the afternoon at Pleasure Lake.

Rev. Bernard Seay and family are to return from Brunswick, Md. this week. They have been visiting with his mother.

Mr. and Mrs. A. C. Heady from Garland were visitors in the J. R. Harris home recently.

Mr. and Mrs. J. McDonald

Enters Training

Mr. and Mrs. Harry C. Weis and Viddian Weis of Peryton and Denise Bender of Friona left Friday by car for Glendale, Calif., where Miss Bender, daughter of Mr. and Mrs. Karl Bender, will enter a nursing school.

Miss Bender, a former student of Friona High School, graduated from Sandia Academy at Albuquerque in 1958 and attended Western Junior College at Keene, Texas, last school term.

They were given a housewarming Sunday following evening church services.

Another Tribute To Area Citizens!

Citizens of Friona and the surrounding communities never cease to amaze us! When the chips are down you folks can always be counted on to come through in fine style.

The Friona Cemetery Fund is an example of just what I'm talking about.

The word got out that the cemetery needed help. An organization got behind it and last night a check for \$4848 was turned over to the cemetery fund to be used to get the site fixed up with water.

There wasn't a great deal of talk around

town either, just a group of folks that were interested in the cemetery got together and asked around.

Certainly the need was there, but the idea of these folks WITH YOUR HELP gathering up such a sum in such a short time... well, it is just one of the many reasons why we're proud to say that we live here.

With the impetus given the cemetery program by way of this check perhaps within a short time the Friona Cemetery will become a beauty spot that we can all be proud of.

in and around FRIONA

WITH JUNE

Several Friona residents were somewhat confused last week due to identical names. Karen Osborne, daughter of Mr. and Mrs. Cecil Osborne of Bovina, was a medical patient at the Parmer County Community Hospital. Then Karen Osborn, daughter of Ernest and Valoris Osborn of Friona, had emergency surgery.

The doctors, nurses and parents didn't have any trouble keeping the two patients separated, but acquaintances of the two families had difficulty getting straightened out on whether or not she had been dismissed.

Another mix-up on names caused Geneva Ivie of the Black Community to get several unexpected get-well cards and have a few visitors inquiring about her condition. Since the Ivies and Floyds have been friends about ten years, it isn't unusual for mutual friends to ask, "Which Geneva are you

talking about?" As a result of this, we usually say, "Our Geneva" or "Geneva Ivie." This week "Our Geneva" had minor surgery and was hospitalized a couple of days. In some of our conversations we mentioned the progress she was making, but failed to specify which Geneva we were talking about.

Just one more hospital incident--then we will get onto another subject. Early in the week little Clay Bandy, son of the Eugene Bandys, came out on the losing end of a battle with a swing and had to spend several days in the hospital.

Earlier Mrs. Gene Watson of Pampa had given birth to a baby boy in a hospital there and

had not been dismissed. Her mother, Mrs. Bud Reed, is also Clay's grandmother. When anyone asked Juanita, "How's your grandson?", she had to ask, "Which one?"

At last reports Clay was out of the hospital and doing fine. Mrs. Watson, the former Roberts Reed, and her baby son, Douglas Wade, are also at home and Mrs. Reed is in Pampa visiting for a few days.

Next time someone needs something to go with "As dead as," he might just say, "As dead as Friona on the Fourth of July." There seemed to be absolutely no activity anywhere in town except at the Bi-Wize Drug. There was almost no traffic at the post office, usually one of the busiest places in town.

Jake Lamb, an avid fisherman, was the only customer we saw at the drug store or post office. Seeing him came as a surprise, so we asked why he hadn't gone fishing. His reply was very in-

Pride of Community Aids Cemetery Drive

BY DON WATKINS
I had heard about the drives sponsored by various organizations to obtain money for the Friona cemetery, but had paid little or no attention to them. To me, like a lot of people in this world, it was just another fund raising drive that needed no special publicity or attention.

Be that as it may, I continued hearing the stories as to why funds were so badly needed. I heard about the condition of the Friona cemetery and that there was no program designed to place it on a perpetual care basis.

So, the more I heard about the cemetery, the more it raced through my mind. I finally decided to do what should have been done at first. I went to the cemetery for a first-hand look at the situation.

I parked the car in front of the walk-in gate and this was where I had my first answer to a lot of questions coming to mind. The gate, when opened, has a toneless, hollow sound, more like a gate to an old time asylum than an entrance to the final resting place of departed loved ones.

From the gate, I walked around the grounds. The earth, that not covered by weeds, was cracked and split like dry, caked earth after a long drought. There were ground squirrel holes, the ant hills, snake holes and what have you.

A very large percentage of the cemetery is covered by weeds of every description and kind. There is grass planted in the new section of the ceme-

tery, but weeds will soon take over if care is not given.

The fence around the cemetery itself is not of the best. It would give the cemetery a much nicer and cleaner appearance if a new fence were erected.

After I made this cursory examination, I checked further into the drives being made. I found out that the cemetery had once been maintained by a cemetery association, but had long since been turned over to the city.

The city, which was short-handed and short of money, did the best available, but as the cemetery grew, so did the amount of work and responsibility not to mention the cost.

As things grew worse, local organizations and civic-minded people took to the field. Spear-headed by the local American Legion Post, this fund drive was begun. The drive was aided by the Modern Study Club, the Progressive Study Club, the Lions Club, the Friona Woman's Club, the Hi-Plains Home Demonstration Club and many individually interested citizens.

A few articles in the paper helped. For example, Mrs. Dan Ethridge received a contribution from Arrah B. Staley of Springfield, Missouri who had read of the drive.

But more than anything else, the civic-mindedness of the local clubs, organizations and individuals helped this drive and will continue to help this drive.

Out of these plans, there developed a new Cemetery Association who will work with the city in caring for the cemetery.

There are plans to furnish water for the cemetery. There is a plan to establish annual contact with people who have moved away but who have relatives buried in the cemetery and would like to make contributions to help supplement the city and the association in the upkeep of the cemetery.

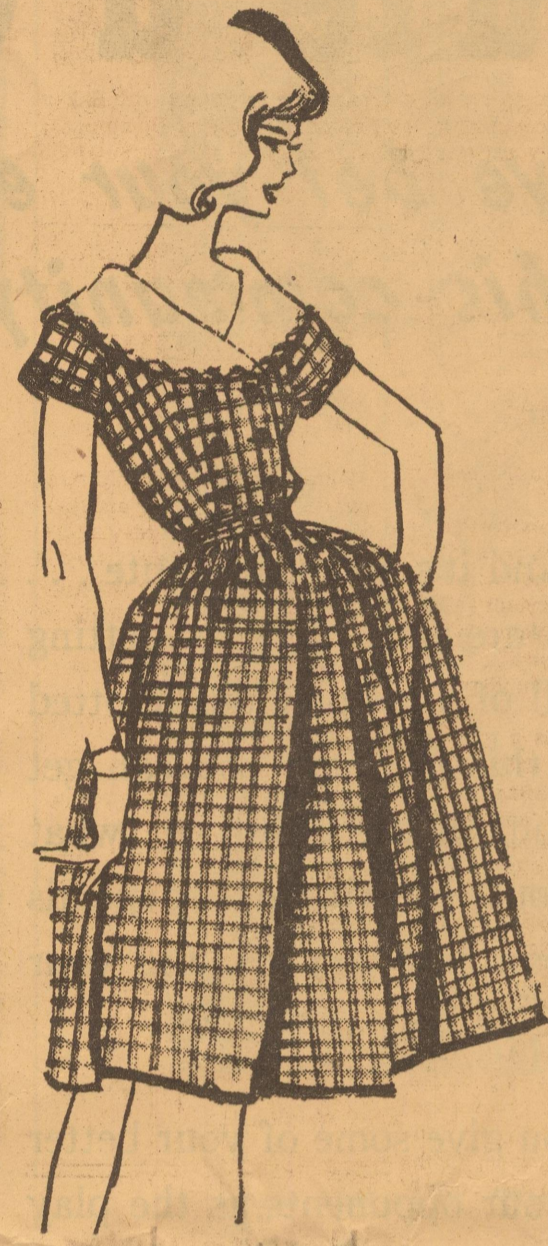

Perpetual care for the Friona cemetery is the ultimate goal. And I predict the goal will be attained. I predict this from what I have seen and learned from talking with the people involved.

Many hard hours have already been put into the operation by the mentioned clubs and individuals. Businesses have said they would donate labor to help get water to the cemetery. With that kind of civic-mindedness and community cooperation, success is nearer.

However, even with the hard work and time put into it by these people, it will take the cooperation of every individual in the Friona area. That too, is another reason I know it will succeed. Never have I seen people so willing to better their community and certainly a cemetery should have community pride as much as anything.

I guess all this leads up to one or two things. First and foremost is the respect that should be given to all the people who so unselfishly gave of their time and money and the second is to ask people to think of this situation and help the cemetery association with contributions.

OVER 25 YEARS OF SERVICE

STATE OF TEXAS

BOARD OF INSURANCE COMMISSIONERS

Austin, Texas

THIS IS TO CERTIFY, That Dan Ethridge of Friona, Texas, operating as DAN ETHRIDGE AGENCY

has fully complied with the laws of this State with reference to the licensing of Recording Agents for fire and casualty insurance companies, and is hereby authorized to transact a Recording Insurance Agency business when and only so long as there shall be in force and effect a valid appointment from one or more companies duly authorized to do a fire or casualty insurance business in this State, or until such appointment or this certificate, or either of them is cancelled, revoked or otherwise terminated.

IN TESTIMONY WHEREOF, I have hereto signed my name officially and caused the seal of my office to be affixed this Sixth Day of April, 1954

D. P. David
Chairman, Board of Insurance Commissioners.

Over 25 years ago the State of Texas issued this certificate licensing our agency to enter the insurance business. Since that time we have strived to serve the residents of this area as faithfully as possible putting your best interests as our goal at all times. We hope that we will have the opportunity of serving you in the future.

Alton Farr Assumes Office

Alton Farr began the duties of the Friona Public School superintendent as of July 1, the same date he and his family moved to the city.

Farr came to Friona from Paducah where he had been superintendent for the past 14 years and an administrator in the system for 18 years. He moved to Paducah in 1941 from Bovina, where he began his teaching career in 1936.

He holds both the BA and MA degrees from Texas Tech College in Lubbock.

Farr stated he had not yet had time to fully acquaint himself with the Friona School system. He has made a tour of the plant and has met with the board of trustees since assuming his duties.

"We are certainly happy to be here and I know we are going to love it in Friona," Farr said.

Farr and his wife and son are at home at 1203 6th Street. He replaced Dillie M. Kelley who resigned effective July 1 to become director of finance with the Brownfield Independent School system. Kelley had been with the Friona school system for 10 years and had been superintendent the past four.

IN THE COURTS

The following cases were tried before Judge Thelma Jones in City Court during the week ending July 9.

Larry M. Crow, improper start from stop position and excessive noise.

JP Court

The following cases were tried before Justice of the Peace Thelma Jones during the week ending July 9.

Shirley Newton Kesnor, no driver's license;

Jack G. Tomlin, fail to stop at stop sign;

George Jake LaFavers, no inspection sticker;

William Howard Ford, no driver's license;

Anderson Coleman, speeding 60 mph in 45 mph zone;

Troy Franklin Ray Jr., no inspection sticker;

John May Martin, speeding causing collision.

Mrs. Delton Lewellen and Mrs. Leona Holcomb of Tulla daughters spent the weekend was a visitor in the home of visiting her parents, Mr. and Mrs. F. W. Holcomb Mrs. Harvey Shapley of Center, and daughters, Elaine, Peggy Colo. and Phyllis.

GOIN' A SWIMMIN'---Jill Blackburn just can't suppress that grin as she registers with Baker Duggins for the two weeks swimming course sponsored by the Friona Chamber of Commerce. Jill was one of the many 4th, 5th, and 6th grade youngsters that signed up for the course Monday in the community room of the Friona State Bank.

Youngsters Register For Swim Course

Approximately 45 youngsters met with Baker Duggins in the Community Room of the Friona State Bank Monday to enroll in a two weeks swimming course sponsored by the Chamber of Commerce as a part of their summer recreation program.

The course will begin July 20 and all participants will meet each morning at 8 a.m. in front of the new gradeschool building. From there, they will be transported to Clovis in the Rainbow Girl's bus for classes

and will return to Friona by noon.

A letter will be mailed to the parents of each person enrolled explaining the course and absolving the supervisor and the chamber of any blame for an accident that might occur and is not covered by the insurance which is available.

Duggins, who is a qualified Red Cross water safety instructor, has stressed the fact that attendance is very important on the part of each youngster. If they begin by missing any days, they will be unable to receive certification that they completed the swimming course.

The letters that are to be mailed to the parents should be returned to the chamber or to Duggins as soon as possible. In the event they are not returned before July 20, the children should bring them to the grade school when they come to begin the first day of the course.

Rhea FB Has Annual Fireworks

Rhea Farm Bureau held their annual chicken supper and fireworks display Saturday night.

The meeting was attended by many residents of the Rhea community plus a number of guests.

The group enjoyed a supper of fried chicken with all the trimmings plus freezers of homemade ice cream.

Following two films in the Parish House the group retired outside where fireworks were set off highlighting the evening for the youngsters.

Among the guests present were Willard and Oscar Schlenker, both old-time residents of the Rhea community before moving to California back in the middle 1920's.

Walter Schueler, president of the Rhea FB presided at the meeting.

ASSUMES DUTIES---Alton Farr, who came to Friona from Paducah, recently began the duties of the Friona School Superintendency.

Hospital Notes

Fred J. Jackson, Jr., Friona, accident;

Eulers Return From Trip

Mr. and Mrs. Elmer Euler returned recently from their third summer trip to Michigan and New York where they visited their daughters and their families, Louise Mangold of Flint, Mich. and Gertrude Bigelow of Rochester, N.Y.

They report they drove over 4,500 miles and Elmer says he counted the crossing of 52 rivers (creeks not counted) nine states and parts of Ontario, Canada.

most miles per gallon

ONE OF THE 7 BIG BESTS CHEVROLET GIVES YOU OVER ANY CAR IN ITS FIELD

Take it, not from us, but from official results of this year's Mobilgas Economy Run: Chevy's pennypinching 6 delivers the most miles per gallon in its field. For a pair of these Chevrolet sixes with Powerglide walked away with the first two places in their class, getting the best mpg figure—a whopping 22.88—of any full-size car. And here are more expert, impartial opinions and on-the-record facts backing us up on Chevy's other six bests:

magazine, "Chevrolet establishes a new high in daring styling."

BEST BRAKES

In direct competitive tests of repeated stops from highway speeds, conducted by NASCAR, Chevrolet out-stopped both of the other leading low-priced cars—and why not? Chevy brakes are far larger, built with bonded linings, to help lengthen brake life by as much as 66%.

BEST ROOM

Official dimensions reported to A.M.A.† make this clear. For example, Chevy front seat hip room is up to 5.9 inches wider than comparable cars.

BEST ENGINE

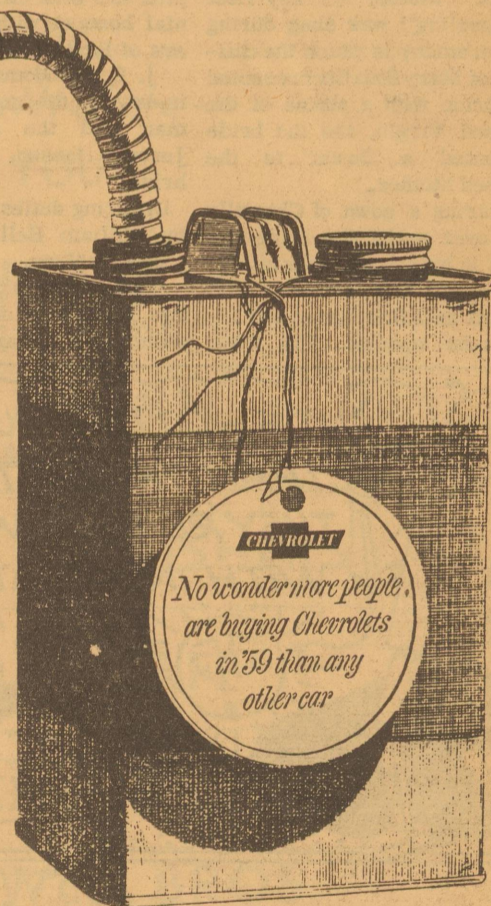

Every motor magazine has given Chevrolet's standard and Corvette V8's unstinted praise. As SPORTS CARS ILLUSTRATED puts it: "Indeed this device is surely the

BEST TRADE-IN

Check the figures in any N.A.D.A.* Guide Book. Chevrolet used car prices last year averaged up to \$128 higher than comparable models of the "other two."

BEST STYLE

It's the only car of the leading low-priced 3 that's unmistakably modern in every line. "In its price class," says POPULAR SCIENCE

most wonderfully responsive engine available today at any price."

BEST RIDE

MOTOR TREND magazine calls Chevy "... the smoothest, most quiet, softest riding car in its price class." You'll be able to tell this yourself, instantly. And your Chevrolet dealer can tell you about a long list of other advantages besides these 7 big ones!

*National Automobile Dealers Association

Of Interest To THE WOMEN

MISS BETTY AGEE

Betty Agee To Wed Eldon Wetsel

Mrs. Reeta Agee of Friona has announced the engagement and approaching marriage of her daughter, Betty, to Eldon Wetsel, son of Mr. and Mrs. J. H. Wetsel of Borger.

Wedding vows will be exchanged by the couple at the First Baptist Church at 7:30 in the evening, Saturday, August 15. Formal invitations are not being mailed locally, but all friends of the couple are invited to attend.

Past Matrons Club Meets

Kinsley Past Matrons Club met in the home of Mrs. Ethel Chitwood Friday afternoon. Sarah Ann Miller presented a devotional taken from the book of Exodus.

During the brief business session the minutes were read and several items of business were taken care of.

Ardythe Kuenzli of Upper Sandusky, Ohio, was a visitor. Members present were Sarah Ann Miller, Bessie Bogges, Stella Chester, Pearl Kinsley, Florence Guinn, Martha Russell, Vera Bainum and Faye Southward.

Following a Bible quiz directed by Florence Guinn, refreshments of tea, cake and strawberries were served by the hostess.

camedor greenery. Two vases of artificial tiger lilies trimmed with fern were provided by the bride's mother.

For her daughter's wedding, Mrs. Hanson wore a one piece dress of nylon dacron with blue flowers on a white background. Her corsage was of pink carnations.

Mrs. Koelzer, mother of the groom, wore a black silk shantung dress with beige accessories. Her corsage was of white carnations.

Breakfast was served to the wedding party and guests after the mass.

A reception was held in Nazareth Community Hall at 3 p.m.

Supper for the reception guests was served at 5 p.m. Teddy Conrad and his "Golden Spread Boys" furnished the music for the dance that started at 9 p.m. and completed the evening.

For travel, the bride wore a tan printed crisp cotton pongee dress with white accessories. Her corsage was the orchid from her bridal bouquet.

After returning from a wedding trip to Carlsbad, the couple is at home in Friona where Mr. Koelzer is employed by Parmer County Pump Company.

MR. and MRS. JOE PATTI

Toni Bruns Weds Joe Duane Pattie

In a double ring ceremony at the Farwell Church of Christ

Saturday, June 20, at seven o'clock, Miss Toni Sue Bruns, daughter of Mr. and Mrs. Les Bruns of Route 1 Friona, became the bride of Joe Duane Pattie.

Pattie's parents are Mr. and Mrs. Darrell Pattie of Muleshoe, Ebb Randol, minister of the church, officiated.

The bride wore an all white cotton sheath dress with white accessories and a pink feathered carnation corsage.

After the ceremony, members of the two families and Miss Luann Hardesty, a friend of the bride, drove to Clovis for supper.

Following a wedding trip to points of interest in New Mexico Mr. and Mrs. Pattie are at home at 4921 West Sixteenth St. in Amarillo. Pattie is employed as a civilian worker at Amarillo Air Force Base.

Mrs. Pattie, a former student at Friona High School, and a 1959 graduate of Muleshoe High School, plans to enroll at Amarillo Junior College this fall.

Houston Family Has Birthday Party

Mrs. T. L. Houston Sr. was hostess at a birthday dinner in her home Sunday. Those honored were her husband, whose birthday was Sunday; her son, H. G., who observes his birthday one day before his dad's; and the couple's only daughter, Mrs. Christine Gandy, whose birthday is July 3.

Those present besides the T. L. Houstons were Mr. and Mrs. Tolbert Houston Jr., Tobie and Gloria; Mr. and Mrs. Rubin Gandy, Theda Jo, Connie and Kerry of Tahoka; Mr. and Mrs. H. G. Houston and daughter, Debbie Kay; Owen and Jerry Houston and Linda Gee.

Life is a long lesson in humility.--James M. Barrie.

Schlenkers Have Family Gathering

Children, grandchildren and great-grandchildren of Mrs. Charles Schlenker and the late Charles Schlenker, pioneer residents of the Rhea Community, gathered at Mrs. Schlenker's home Sunday to assist her in the observation of her 93rd birthday.

For the noon meal, which was served picnic style, fifty-six

persons were present. Ten of the Schlenker children are still living and all of them were present. One son, Floyd, died about 3 1/2 years ago.

Those present were Mrs. Floyd Schlenker, Madeline, Catherine, Edgar and Richard Chang; Mr. and Mrs. Carl Schlenker and family; Mrs. Elmo Dean and daughters, Gladys and Lindy; Mr. and Mrs. Oscar Schlenker of Bellflower, Calif.; Mr. and Mrs. Willard Schlenker of Lomita, Calif.;

Also Mrs. Ester Mae Burns of Des Moines, Iowa; Mrs. Mabelle Hartwell; John Hartwell and family and Mr. and Mrs. Larry Ezell and children of

Bovina; Mr. and Mrs. Karl Dorsey and Mrs. Bula Hopkins of La Canada, Calif.; Mr. and Mrs. Harold Schlenker and Linda of Placerville, Calif.;

Also Mr. and Mrs. Melvin Tischler and children of Anton; Mr. and Mrs. Ralph G. Wilson; Mr. and Mrs. Louis Welch and daughters; Mr. and Mrs. Chick Schlenker, and children of Portales; Mrs. Cordie Potts and Jay; and Mr. and Mrs. Floyd Reeve.

Mr. and Mrs. Rosco Ivie visited in the home of Mr. and Mrs. Calvin Ivie and daughter, Christi, at Lubbock Monday.

Martha Ann Hanson Becomes Bride of Daniel L. Koelzer

Miss Martha Ann Hanson, daughter of Mr. and Mrs. John B. Hanson of Nazareth and Daniel L. Koelzer, son of Mr. and Mrs. Bernard N. Boelzer of Friona, were united in the Sacrament of Matrimony, Thursday, June 25, in the Holy Family Church at Nazareth.

Father Alban, O. S. B., conducted the double ring ceremony according to the rites of the Roman Catholic Church. The ceremony began at 10 a.m. and was followed immediately by the nuptial mass. Assisting the priest at mass were Andrew and James Hanson and David and James Koelzer.

Mrs. Elbert Lee Vance, accompanied on the organ by Joesetta Acker, sang, "On This Day O Beautiful Mother," "O Perfect Love," "Ave Maria," and "O What Could My Jesus Do More" before the recessional. "Mother At Thy Feet is Kneeling" was sung during the ceremony in which the children of Mary Sodality presented the bride with a statue of the Blessed Virgin, and the bride presented a flower to the Blessed Mother.

Wearing a gown of Chantilly lace over satin, the bride was given in marriage by her father. Her gown was designed with sabrina neckline dusted with iridescent sequins. The fitted

bodice had long sleeves that tapered to petal points and terminated in a point at the center front waistline.

From this line a voluminous skirt stemmed. It was cut on circular lines and flowed to a chapel train. Her fingertip veil of illusion was attached to a crown of pearls. She carried a cascade arrangement of white stephanotis centered with a white orchid. Streamers of picot ribbon with love knots tied in the ends completed the bouquet.

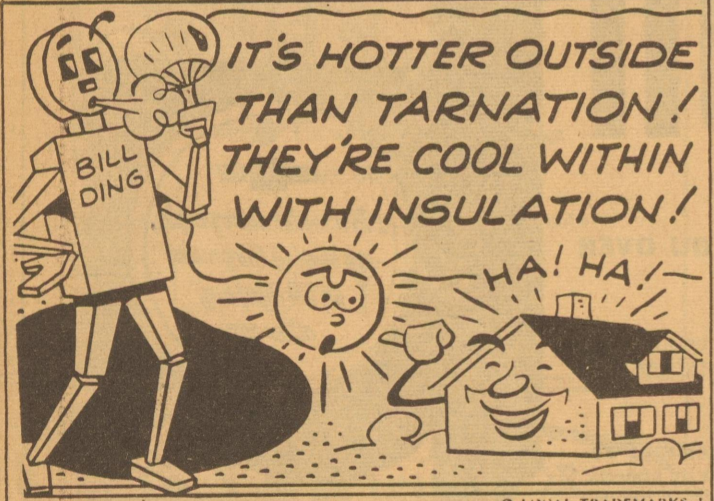

Betty Mae Hanson served her sister as maid of honor. She wore a pink ballerina length dress of lace over taffeta with a jacket to match.

Mrs. J. C. Blankenship, sister of the groom was the bridesmaid. She wore the new formal length dress of nylon net over azure silk crepe. Both attendants carried white glads with pink and blue maline in a colonial bouquet with long streamers of lace ribbon.

J. C. Blankenship, brother-in-law of the groom was best man and the attendant was Jerome Hanson, brother of the bride.

Ushering duties were assumed by William Bellinghausen and Jerry Koelzer.

The altar was decorated with two baskets of dark pink glads with white gyp and backed with

Mrs. Lucy Jones, Mgr.-Trea.

Psalms 33:12 reads: "Blessed is the nation whose God is the Lord,"

When the Continental Congress was organized, Benjamin Franklin, never a church member, requested, "May we open this session with prayer?"

At Valley Forge George Washington was daily on his knees praying. In that struggle for independence the colonies put their trust in Him who had guided another nation with a pillar of cloud by day and a pillar of fire by night.

May we--Christians--never abandon "the faith of our fathers." May we continue our trust and our faith daily to the service of the kingdom.

--Amen

gram, without the elevated tank would come to an estimated \$200,825.

Following a long discussion of each facet of the program the council instructed City Manager Albert Field to contact the city's bond holder, Ed Franklin of Dallas, to meet with the council at the earliest possible time to discuss a possible bond program to pay for the improvements.

Earlier in the meeting the city fathers heard a plan by Granville McFarland and H. E. Barnett, speaking for the Parmer County Community Hospital, asking that water and sewage lines be extended to serve eight lots south of the hospital.

Plans are being made by the hospital board of directors to sell these lots in the near future.

The plan was discussed by the council and Smith and a plan agreed upon for service extensions to these lots.

In other business Wesley Hardesty outlined a paving plan proposed by Art Drake for the paving of six blocks in the Drake Subdivision.

The plan as proposed by

Drake was turned down as it wouldn't meet the city ordinances now in effect.

Councilmen present at the meeting included Mayor R. L. Fleming, Deon Awtrey, Glenn Reeve Sr., Bill Nichols and Eddie Mell.

BIRTHDAY PARTY
HONORS G. DAY

Geraldene Day, daughter of Mrs. Vera Day and the late Carrol Day, observed her sixteenth birthday with a party in her home Thursday afternoon of last week.

A picnic supper with ice cream and birthday cake was served. Those present were Velma Faith, Chubby Petty, Joyce Rodgers, Jim Mears, Margie Hood, Mae Mahan, Donna Hunt, Sherry Hood, Bobby Rodgers, Randy Schwabb, Darvis Rodgers, Ray D. Sissom, and Ollie B. Rodgers.

Also Mr. Petty, Sue Rodgers and Gary Rodgers all of Friona; Bill and Dee Smith of Clovis and Wanda and Sue Sissom of Pampa.

WSCS Members
Host Coffee

Members of the membership committee of the Woman's Society of Christian Service of the Friona Methodist Church were hostesses at a coffee in Fellowship Hall Tuesday morning. Piano music was played throughout the morning by Adabeth Akens and Judy Bock. Jimmette McLean sang "God Understands." She was accompanied by Judy Bock at the piano.

Mrs. Jean K. Anthony introduced the new members and guests. Each of them was presented a corsage. Five mem-

bers of the society presented a skit, "What's My Line?" The devotional was given by Mrs. J. T. Gee. It was based on selected verses from the Book of Psalms. Guests attending were Mesdames Alton Pharr, Lee Spring, and Meryle Massie and Betty Drake, Judy Bock, Jimmette McLean and Adabeth Akens.

George Curry of Warsaw, Ind., and Danny Coleman of Chicago, Ill. have been visiting in the homes of Mr. and Mrs. J. B. Buske and Mr. and Mrs. Frank Griffith recently. Curry is a brother of Mrs. Buske and Mrs. Griffith.

HUB DOWNS
(Continued from Page 1)

run of the game with two men on base.

Saturday's July 4th exhibition game pitted little leaguers from various teams against one another. Members making up the number one team were Teddy Renner, Doyle Mabry, Larry Johnson and Jackie Clark of Hub; Billy Taylor, Kenneth Squyres, Hobert Estep and Duane Reed of Reeve, Jay Beene, Don Ready and Tim Harring of McCaslin.

Members that made up the number two team were Ronnie Brookfield, Dennis Howell, George Rushing and Jackie Stowers of Brookfield; Ray Braxton, Ricky Coon, Eugene Weatherly and Bill Weatherly of Black; Chuck McKinney, Michael Fallwell and Bryan Jameson of Plains-Hurst.

The number two team came out on top by a score of 25 to 13. Winning pitcher for the game was George Rushing and losing pitcher was Jackie Clark. Home runs made during the contest were by Ronnie Brookfield with no men on and by Eugene Weatherly with two men on. Both of these players were on the number two team.

Monday night's action pitted Hub against Brookfield as already reported and the second game saw Reeve best McCaslin by a score of 15 to 7. Winning pitcher was Billy Taylor and losing pitcher was Jerry Cass. There was one home run, this being credited to Duane Reed of Reeve with one man on base.

Weekend guests in the home of Mr. and Mrs. Wesley Foster were Mr. and Mrs. Ed Lovick and daughter, Mai Lynn, of Dallas, and Pat Foster, who is attending summer school at Crozier Tech High School there. The group returned to Dallas Sunday afternoon.

Dairying is an important part of Texas industry.

THE HIGH PLAINS FARM AND HOME

Sandy Land Potatoes About Ready to Roll

Harvest About Over

Wheat harvest in the Parmer County area is almost completed. However, the rains of Sunday night have prevented late-maturing fields -- and those which have been visited frequently by other rains -- from being finished out.

Estimates on the amount of acreage harvested range from 90 to 95 percent. There is from 70,000 to 80,000 acres of irrigated wheat in Parmer County this year.

Reports continue to be optimistic following checkups on how the yield is turning out. Hail damage is considerably less than had been feared at one time, although there is no question but what this has been the worst year on record insofar as damage to the crop is concerned.

The total wheat loss to hail is probably from 20 to 25 percent. In the severe storms of June, loss to hail and high wind was feared to approach the 50 percent mark.

In some areas, of course, the loss to foul weather has been complete, and there are many farms that sustained losses of 50 percent or over on substantial acreage. However, averaging things out, from one-fifth to one-fourth would probably be a more accurate figure, indications appear now.

Credit is not a substitute for income and Extension Economist A. B. Wooten says that credit should be used to buy consumer goods only when some income is reasonably certain. He adds that credit can help many farm families attain a desirable level of living, but misuse, often results in much unhappiness.

GOOD QUALITY, POOR YIELD--Carl Nabours, who works on the Buck Gregory farm, examines this year's potatoes as harvest time nears. Hail that cut down on the yield didn't affect quality.

Oversized terry cloth beach towels also can be used as outdoor tablecloths.

Machines and men are standing ready to harvest the hail-damaged potato crop in the Lariat area. Buck Gregory of Gregory Produce says the harvest will begin late this week or early next.

Gregory hopes to harvest about a "half crop" off his 235 acres. Total acreage in the Lariat area is about 375, including 100 owned by State Line Farms and 50 owned by E. A. Walker.

The hail beat up the vines so badly that the yield will be light. The vines have recovered now and look like they should have a good crop underneath but they were damaged too long at the wrong time to produce a good yield, according to Gregory.

While the vines were weakened by the hail, weeds sprang up and got a good start before the vines could recover and choke them out. Weeds are worse in the white potatoes than in the red ones because the

reds have a more hardy vine and spring back faster.

Market forecasts have been encouraging so far. Gregory says the first potatoes may bring \$4 per hundred and the market could go up even higher, perhaps as high as \$6.

"If the market remains good, we may make more money off this year's half crop than we did off the good crops of '57 and '58 when the market was poor," Gregory says. "Besides the difference in price, we will have less processing and handling cost."

Nothing is certain about the market yet, however, and Gregory fears it may not be as good as reports indicate. "We have had good early reports before and when we started to sell, the market was very poor. It is forced down when farmers start competing against each other. We are our own worst enemies when we start lowering the price of our potatoes to beat a price quoted by another grower," he

says. The last good potato year was '56 when the yield, quality and market were up at the same time. The last two years have been poor ones because the market was down. This year the market appears to be good, but the yield will be poor.

It has been three years since the three -- price, yield, and quality, -- were high at the same time, but apparently Lariat area potato farmers aren't too discouraged. Gregory was planting fall potatoes last weekend.

THE PARMER FARMER

by W. H. Graham Jr.

Cotton Remains Behind

Cotton on most Parmer County area farms continues to lag behind normal development patterns for this time of the year, reflecting an extremely poor starting season that middle-season growing seems unable to shake off.

Most-area farms still have straggly, undersize plants that are having a hard time fruiting up as they attempt to develop.

County Agent Joe Jones last week reported that not only are insects giving the crop a bad time this year, but that seedling diseases have been widespread on account of the cool, damp weather which has prevailed so much of the time since the crop went in.

Generally speaking, area cotton farmers are feeling pretty discouraged over prospects for a crop at this point. Most have plans to continue caring for the cotton as best they can through the growing season and crossing their fingers as fall approaches, hoping for mild weather.

The common opinion is that there's not much else they can do except to go ahead and "make out like they plan for a big crop" and then hope that an early freeze won't come. With the rainfall that has been coming, most agree that there won't be the tendency to irrigate late that has prevailed so many years, especially since the crop is so far behind normal patterns.

Wood Sash Saves Heat

Windows of wood will transmit much less heat than windows made of other materials when all have the same percentage of glass area, recent research has shown.

The research was carried out by the American Society of Heating and Air Conditioning Engineers and results were published in the society's Heating, Ventilating, and Air Conditioning Guide.

These facts are vital to prospective home buyers and families planning to build or remodel because these differences in heat transmission can have a sharp effect on home comfort and economy. This is why:

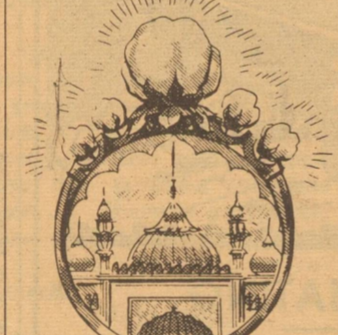

Wood is a natural insulating material. In winter, this means wood windows save heating fuel by helping to keep heat inside, and help maintain a more even, comfortable temperature in the house.

In summer windows of ponderosa pine, the material from which most wood windows are made, help block the penetration of heat from outside, resulting in a more comfortable house and more efficient and economical air conditioning.

One nice thing about money is that the color never clashes with any outfit you're wearing.

COBALT Cobalt is used in many alloys to improve their high-strength, special magnetic properties and resistance to wear.

THE PARMER COUNTY IMPLEMENT CO.

The Place Where Most People Trade" Friona, Texas Wednesday, July 8, 1959

Company at our house for the weekend was our mother's brother, Tracy Campbell, and his wife of Lamesa and our mother's niece, her husband and daughter, Rev. and Mrs. Rodney Williams and Beverly of Odell, Texas.

PCICN Extra capacity to out bale them all, the all-new McCormick baler, power take-off or engine drive, "capacity to burn" -- "a real hay hog" -- "beats many of the big ones". These are typical comments about the new baler. See one before you buy.

PCICN Modern Man: One who drives a mortgaged car over a bond financed highway using gas that was bought on a credit card.

PCICN The Phares-Wilkins Go-Devil is one plow, but does the work of six--weeds the row--pulverizes the crust--knives the middles--plows the row -- disks -- and loosens tractor hard pan. Let us show you one of these plows soon.

PCICN The worst rat infestation in the history of Texas occurred last summer and is still being felt. Now the rattlesnakes and coyotes, which got fat on rats are on the increase and the rats are making a comeback, too.

PCICN Mrs. Vera Bainum went visiting last week and since she also had a birthday, her daughter, Phyllis, and daughter-in-law, Glenna, decided to paint her bathroom as a surprise--but once started on the painting job, the girls kept going and Vera had several

rooms painted when she came home.

PCICN Want to buy some false teeth (dentures) for your old smooth mouth cows? You can, you know. For proof and more information, write to Bovine Crowns, Inc., Chappell, Neb.

PCICN The teeth, made of stainless steel, are slip over caps for the cow's worn down teeth and one cow can be fitted with eight teeth in about ten minutes. Should be a big help to owners of high priced dairy cows.

PCICN Rex Talley, seven year old son of the Calvin Talleys, came home last week after visiting with his grandparents in Arkansas and he really did ride on an airplane. According to his version of the trip, "The waitress (hostess) really did fix dinner for me on the plane."

PCICN Step into a new world of power with the great new IH tractor line. Now IH brings you a new and mighty line of Farmall and International tractors--leaders in every power class: New power sizes --increased power--amazing versatility--greater comfort and convenience--they're all yours in a new IH tractor.

PCICN Need a new buggy? If you want one, better get on the waiting list because the country's largest buggy maker is way behind. Located near Little Rock, Ark., the plant is expecting to open a new and larger plant soon. Prices range from \$150 to \$650 for a surrey with fringe on top.

PCICN The Goodyear Rib Hi Miler out performs any tire in its price class. Even before it had 3 T Nylon, Rib Hi Miler was the best buy in low-price truck tires. More tons are hauled on Goodyear tires than on any other kind.

PCICN Bill Holcomb, parts man at the Parmer County Implement Company, spent the holidays at Wichita Falls. He went fishing and his wife visited with her folks.

PCICN The honeymoon is over for sure when HE phones that he will be late for dinner and SHE has already left a note that it's in the refrigerator.

PCICN Enjoy quiet exhaust longer with an IH aluminumized muffler--Keep out rain and dirt with IH exhaust caps. Eliminate danger of fire-setting sparks with IH spark arresters. Parmer County Implement Company is IH parts headquarters. Visit us soon.

PCICN A plain bar of iron worth \$5 will make \$10.50 worth of horseshoes -- \$250 worth of knives -- \$3500 worth of needles -- \$200,000 worth of main springs for watches. The same thing holds true of your citizenship. It is worth only what you make it.

PCICN Mr. and Mrs. Ed Lovnick and daughter from Dallas are visiting with Mrs. Lovnick's parents, the Wesley Fosters. The couple's other daughter, Pat, is also here for a few days. She is attending summer school in Dallas.

Farwell Feed Lots Utilizing Local Milo

ONE PEN FULL EVERY TWO MINUTES--One of four mixer trucks distributes feed to cattle in the Farwell Feed Lots. Feeding takes about one and one half hours for the 3000 head.

Up to 120,000 pounds of Farmer County area milo per day are consumed during the rush season in Farwell Feed Lots as the trend away from corn feeding to milo feeding continues. The lots, owned by Jewel Castor, have a capacity of 7500 cattle which is usually filled in September when the busy season begins. The firm does commercial feeding for both individual operators and packing firms. About 3000 cattle are in the lots in this, the slowest time of the year. Established in 1951 and expanded in '56 and '57, the lots have been filled each year for the past three. The firm hasn't

during the eight, although low cattle prices do make speculators and packing companies cut down on the number of cattle they send through the lots. In addition to locally grown milo, the cattle get corn, silage, grown on the firm's farm, and graze on barley also grown on the firm's land. Last year the corn grown for ensiling produced 23 tons per acre. This year Pike Jordon, manager of the lots, thinks it will make 25 tons. The corn is put into the trench silo just after it passes the roasting ear stage. The silo has a capacity of 80,000 tons. Jordon estimates shrinkage of the silage at about five per cent.

Cattle usually stay in the feed lots from 100 to 120 days. They are fed a ration of 80 per cent concentrates to 20 per cent roughage. This ration is discontinued 30 or 40 days before the animals are shipped. They are put on a 100 per cent concentrate ration in these last finishing days. "We used atlas sargo for silage until recently when we changed to corn and found it has much less spoilage and shrinkage," Jordon says. Now the firm feeds corn exclusively for silage. Other roughage is fed in the form of hay that is bought from area farmers. "We raise 300 acres of corn and don't have enough land left to grow all the hay we will need so we just buy it all," Jordon says.

Stilbestrol, a hormone that stimulates fattening and growth, is implanted in each animal's ear. The hormone was given the animals in their feed until recently when the implanting method was adopted. Cattle are fed by four mixer trucks that can feed the 3000 head presently in the lots in about one and one-half hours. The trucks drive down alleys between the pens and distribute feed in the troughs through a spout. It takes a truck about two minutes to feed each pen of cattle. In addition to the trucks, a \$50,000 mixing and grinding unit is used in the feeding operation. Jordon figures 12 pounds of feed and roughage is required for one pound gain. He says the average daily gain is over two and one-half pounds. "This figure is going up all the time. In 1952, a company that has feed lots throughout the United States had an average daily gain of 1.92 pounds," Jordon says. He gives credit for this increase to the hormones and antibiotics that have been introduced to the business. Jordon believes finishing cattle on the Plains, where an abundance of grain is available, will continue to increase and the fields will become more and more competitive. He says that experience has convinced him that milo fattened cattle grade just as highly as do corn fattened ones and he expects more feed lots to be established on the Plains. "For the last three years, we have had our lots full during the rush season. Our cattle have been selling for the same price per pound when fattened as when we bought them. Our profit has had to come from cheap feeding," Jordon says. He said that to make a profit on their feeding, cattle must gain at least two and a half pounds per day. "The days of sending cattle to Iowa to be fattened when we have plenty of grain here on the Plains are over," Jordon says. An important by-product of the feed lots is manure. Wheat grown on company land, fertilized heavily with manure, made 71 bushels this year.

THE HAPPY HOMEMAKER

BY JUNE FLOYD

Very few homemakers enjoy ironing. Yet, too many of us fail to take advantage of the "ironing-savings" offered us in the new drip dry fabrics that we buy. Probably very soon every new home will be planned to include a drip-dry closet with louvered doors, water resistant walls and a drain plug in the floor. Most of us enjoy the easy-to-iron feature of the cottons, but if we really dried garments by the suggested methods, we would have to iron them very little, if any. Another article we could use to save some of the energy we use up ironing is stretchers for pants. It seems that with very little practice a person can

learn to properly "stretch" any kind of pants so that they require little, if any, ironing.

This is the time of year when most of us begin thinking about foods that are cool when we begin meal preparation. For a filling drink we can always serve milk shakes, malts or frosted drinks. If you have children who do not drink enough milk this is an excellent way to provide them the calcium they need. Then for grown-ups and those who do not need extra calcium or calories there are a lot of drinks that can be served, but none are better than punches made from fruit juices. Of course, nothing is more refreshing at any time than a tall glass of iced milk. Most health authorities agree that "we never outgrow the need of milk."

Then for grown-ups and those who do not need extra calcium or calories there are a lot of drinks that can be served, but none are better than punches made from fruit juices. Of course, nothing is more refreshing at any time than a tall glass of iced milk. Most health authorities agree that "we never outgrow the need of milk."

Congealed salads are always good in warm weather. Three of our favorite recipes are (1) Lime Pear Salad, (2) Cheese Pineapple Salad, and (3) Cherry Coke Salad.

LIME PEAR SALAD
1 package lime jello
1 cup boiling water
2 three ounce packages cream cheese
1 can (13 oz.) pears, diced
1 cup pecans, cut up
1/2 pint whipping cream, whipped
Put lime jello in cup of boiling water. Add cream cheese and dissolve. Then add all juice off pears, mixing well. Place in ice box and let partly congeal, then remove and whip. Add pears and nuts and fold in whipped cream. Mix well and put in square pan. Chill before serving.

CHEESE-PINEAPPLE SALAD
3/4 cup pineapple juice
1 tablespoon corn starch
1 teaspoon vinegar
1 egg, well beaten
1/2 pound grated cheese
3/4 pound marshmallows
1 No. 2 1/2 can crushed pineapple
Place pineapple juice, cornstarch, vinegar and beaten egg in double boiler and cook until thick. Cool and add whipped cream, grated cheese, marshmallows and crushed pineapple. Mix all together and chill in the refrigerator overnight.

CHERRY COKE SALAD
2 cokes
1 small can crushed pineapple
1 No. 2 can black Bing cherries
1 package cherry jello
Heat 1 Coke and add to Jello; let dissolve. Add other Coke (cold). Add pineapple and cherries (with juice drained off), and nuts. Pour in mold and chill.

CANTALOUPE SALAD
1 package lime Jello
2 cups hot water
4 ripe peaches
20 cantaloupe balls
1 cup Thompson seedless grapes
Dissolve Jello in hot water and let cool. When Jello has cooled, add peaches, cantaloupe and grapes. Let set and serve.

If every homemaker in the area would make a special effort to use home grown products in as many ways as possible, it would be a boost for the economy of our section of the country. Let's try it. Nothing can bring you peace but yourself.

NEWS FROM THE FARM BUREAU

BY RAYMOND EULER

Your local Farm Bureau has, for the past several years, assisted 4-H boys and girls in a financial way when the time comes for the Annual State Roundup. This year, two of the girls who went were Barbara Rea, daughter of Mr. and Mrs. Gene Rea of Bovina, and Janice Hillock, daughter of Mr. and Mrs. Vernon Symcox of Oklahoma Lane. These two young ladies gave very interesting reports to the directors of Farm Bureau in their meeting Monday night, Jimmie Lou Wainscott, Home Demonstration Agent, took them to the roundup in Austin, and brought them to the directors meeting. She supplemented their reports. We are proud of these rural youth in 4-H.

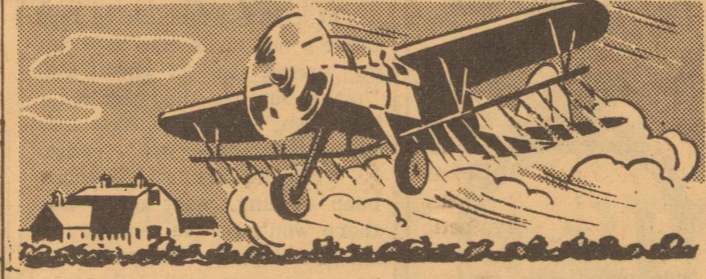

We would like to urge farmers to file for their state gas tax refund of five cents per gallon, and the Federal refund of three cents per gallon. Federal refunds may be filed for during July and August only, for the year up to July 1. To the people of the Farwell trade territory, we will be in the county agent's office from 10 to 12 next Tuesday, July 14, to assist you in making these claims. Those who receive notices for state tax refund will see that notation on the card. Please don't overlook this easy way of getting some of your hard earned money back where it belongs, in your pocket.

We are glad to note that both the house and senate of Texas sent resolutions to Washington objecting to rigid regulations imposed by U. S. Department of Labor on the recruiting of farm labor in Texas. We would like to quote this

paragraph from Tom Anderson's Straight Talk in Farm and Ranch. It carries Farm Bureau sentiment well: "Why not send all officeholders for whom you have a right to vote a list of things you're for? Tell them you'll be watching their votes carefully. Demand that they state clearly how they stand on each issue listed. Kill Civil Service, so millions of unneeded government workers can be fired. Insist that the labor union monopoly be ended and that unions be placed under the same anti-trust, anti-racketeering, tax-paying laws as are businesses."

CONSIDER THIS: Yet a little sleep, a little slumber, a little folding of the hands to sleep; So shall thy poverty come as one that traveleth; and thy want as an armed man. Proverbs 24:33-34

MILK POWDERS ADD NUTRITION

Make your meals better tasting and more nutritious by adding nonfat dry milk solids to the food, suggest extension foods and nutrition specialists.

For many uses, you won't need to reconstitute the milk. Simply sift milk powder -- 3 tablespoons for each cup of milk called for in the recipe with the dry ingredients. Then use water instead of milk.

When making yeast rolls, sift the milk powder with the flour, and use boiling water instead of scalded milk to dissolve the sugar, salt and shortening. Cool to lukewarm before adding the dissolved yeast.

Use nonfat milk solids for making your own mixes. Use them for biscuits, waffles, pancakes, gingerbread, cake and brownies. They can also be used in making cocoa.

Next time you have mashed potatoes, use a tablespoon of milk powder for every medium-sized potato. Add it with the butter when you mash the potatoes. Then, instead of adding fluid milk, use some of the hot potato water in which you cooked the potatoes.

To increase nutritional value of gravies, white sauce, and cream soups, use a quarter of a cup of milk solids with each cup of liquid. Add additional protein to custards, puddings, and cocoa by adding two tablespoons of milk solids to each cup of milk.

For meat loaves and sausage, mix half a cup of milk solids with every pound of meat.

Adding milk solids when cooking is an easy way to help family members get more of the nutrients they need daily.

BULLETIN ON VEGETABLES

Are you including enough vegetables in your daily diet? Besides being nutritionally necessary, vegetables offer the color and flavor variety that adds to eating enjoyment.

Three kinds of vegetables should be included daily in your meals, according to the Texas Food Standard, which is the daily food guide for Texas. A green or yellow vegetable, sweet or Irish potatoes, and any one from the long list of other vegetables should make a total of three kinds for a day.

Ideas on how to get the most from fresh, frozen and canned vegetables are given in a new bulletin written by extension foods and nutrition specialists. It's entitled "Vegetables -- Vegetables" and tells and shows how to select, care for and cook vegetables to preserve color, flavor and nutrition. A special section of the bulletin gives suggestions for colorful, tasty vegetable platters. Recipes with that special "something" are given for many different vegetables.

You can get copies of the new bulletin from your county home demonstration agent's office.

This is not for calorie watchers but it is really good. My aunt, Mrs. Oscar Youngblood of Wichita Falls, made a fresh strawberry pie that was really delicious last weekend. I thought that some of you might like to try it.

Fresh Strawberry Pie: 1 - 8 inch baked pie crust; 1 pint of fresh strawberries, stemmed, washed and drained; 1 1/2 cups of powdered sugar; 1/2 pint of whipping cream (commercial

mix can be used); 1/4 cup sugar. Line pie crust with whole berries. Cover with the powdered sugar. Whip the cream and add the sugar. Top the berries with the cream. If desired tint the whipped cream with a drop or two of red cake coloring. Chill before serving.

SOIL CONSERVATION DISTRICT NEWS

A very poor farming practice has been observed being carried on in a few places in this area. This is the practice of burning wheat straw or residue.

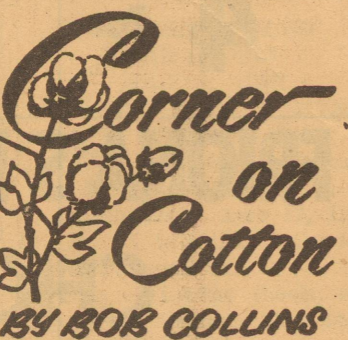

This residue, if handled properly, would become a very important ingredient in a money making farm. That ingredient is organic matter. Without a good supply of organic matter the land will not take water as it should and fertility is greatly impaired. We cannot do this year after year and continue on the land. It will not continue to support.

A wise farmer makes provisions to use every bit of the residue. To properly handle wheat residue it should be mulched into the surface of the soil. This will make an excellent seed bed next fall for planting back to wheat.

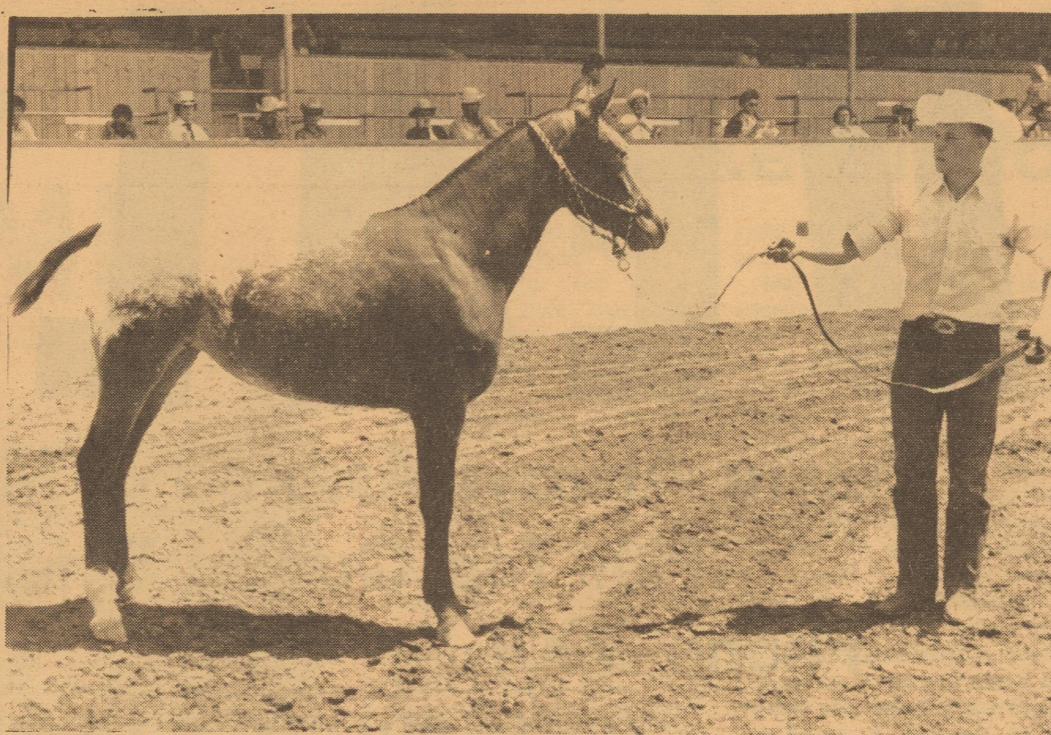

Very often farmers work against their best interest in trying to cut cost when actually it costs more in the long run. Experience of farmers and ranchers and research work have taught us important lessons. We know that burning residues is one of the worst mistakes that can be made.

Chlorosis of grain sorghum grown on calcareous soils is caused by a deficiency of iron in the sorghum plant. This condition can be controlled by foliar application of a spray solution containing 2.5 to 5.0% copperas and 0.01% of a wetting agent. One application of copperas spray should be made within 14 days of the first. These two sprayings should be applied over the entire field because it cannot be determined in advance where serious chlorosis will develop. Later applications should be made in areas showing chlorotic plants.

Note: Plants grown on soils low in organic matter get sick first.

Recently some cotton organizations began talking of the need for over-all public relations in the industry . . . this was initiated, no doubt, by many of the erroneous statements concerning loans, "windfall profits" and any number of other things that make the farmers and merchants look like parasites on the national economy . . . when widely circulated magazines and newspapers leave the impression that federal aid to farmers is nothing but charity and when merchants are accused of "windfall profits" when they insist upon getting what they pay for, it's evident an information program about farming is long over due . . . cotton farmers and cotton merchants have been unjustly accused for some time now and the effects of this are apparent in both legislation and public attitude . . . some kind of a far-reaching public information program is needed not only for

FIRST PLACE IN THE ANNUAL National Appaloosa Horse Show at Santa Barbara, Calif., went to Potet Baby Doll, shown above. Mr. and Mrs. Clifford Crow of Friona are owners of the yearling filly. Fifty other entries in the yearling filly class furnished competition for Potet Baby Doll.

Potet Baby Doll Places First In National Show

In the annual National Appaloosa Horse Show at Santa Barbara, Calif., recently, Potet Baby Doll, owned by Madge and Clifford Crow of Friona, won first place in the yearling filly class.

There were 350 horses in the entire show and they were shown by breeders in 38 of the United States and several provinces in Canada. Fifty entries competed in the yearling filly class.

Potet Baby Doll's dam is Appaloosa Pet, who also belongs to the Crow's, and her sire is Potet B, whose owner is Pete

Smith of Tatum, N. M.

Mr. and Mrs. Crow and their two children, Larry and Linda, attended the show and visited other points of interest between West Texas and the West Coast. They were gone about two weeks.
