Well, we hate to always be griping about something, and this particular subject which we are leading up to is nothing new to anyone in this area either--but doggone it sometimes you feel like busting a gut or something in order to get your telephone to work!

As you thumb through the big slick magazines each month a sight which always strikes us as something that ought not to be allowed is the big ad which says "GENERAL TELEPHONE... Second Largest in the Nation."

We'd still like to put forth a motion that the ad should read "GENERAL NUISANCE... Largest Source of Headaches in Parmer County!"

We know that we aren't alone in this conviction and personally we are just biding our time until the inevitable happens... that being the time when a couple of telephone representatives will meet with the city council and by some stretch of the imagination ask for a rate increase.

We think they ought to pay a person just to keep one of the things on the desk... all it does is to take up two square feet of space... you certainly can never use it to talk to someone over.

Well -- things are finally looking up in the Star's photo department.

After the embarrassment of last week not being able to have a workable flash attachment we have purchased an electronic flash attachment.

We haven't had a chance to use it as yet, but they are supposed to be really nice.

One thing tho--last year while using one we got quite a jolt.

The jolt was that every time we took a picture most of the "juice" went through us, not the bulb... we had the feeling that every time we pulled the trigger our hair stood straight up--both hairs that is.

Did you know that Friona Battery & Electric has a "bear trap" in their garage.

Yep, that's the truth, if you don't believe it, the next time you're around that part of town wander back into the garage and look at the big hole Casey Jones has dug.

Really though, the bear trap isn't exactly like what the name suggests.

Johnny Wilson and the gang are going to put in a Bear Front-End machine and the big monstrous pit is to house the machine.

Watch for their advertisement in the Star when the facilities are available.

## B&D Gun Shop Open

B & D Gun Shop officially opened its doors for business Saturday morning and offers a full line of pistols, shotguns and rifles plus many other sporting accessories.

The new gun shop, owned by Ben Moorman and Dan Tabor, is located on East Highway 60 in Friona and will be managed by Lonnie Dement.

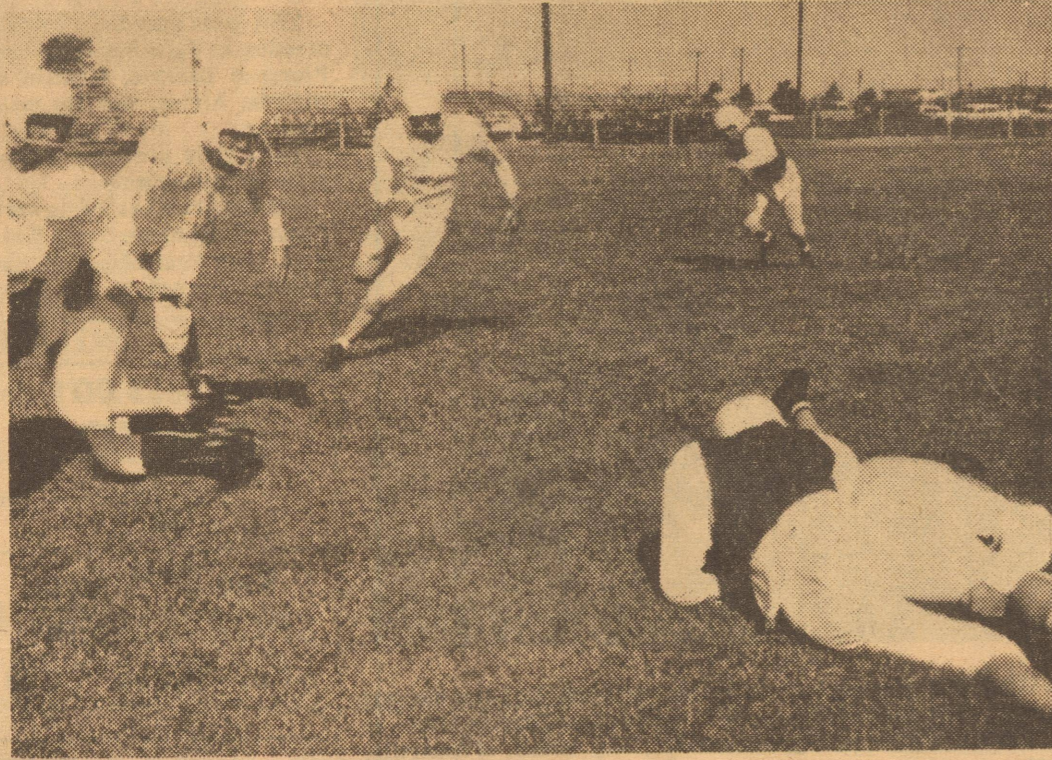

Dement will be in charge of all firearm repair and will offer services on the repair of small electrical appliances.

The B & D Gun Shop, which gets its name from the first names of the two owners has been "in the mill" in the minds of the two local peace officers for some time.

Ben Moorman, Friona chief of police and Parmer county deputy sheriff has been a resident of almost two years and is familiar to most residents.

Tabor is with the Texas Department of Public Safety and currently is residing in Dimmitt. Tabor is no new comer to this area as he is a graduate of Bovina High School and has lived in this area most of his life.

The men invite all their friends and acquaintances to drop by the new shop and inspect their merchandise and as Moorman says "We hope they will keep us in mind when hunting season rolls around."

ONE REDSKIN BIT THE DUST--A member of the Friona Chiefs backfield is shown immediately following his being tackled by a member of the Friona football teams line. Work-outs began Monday morning at 8 a.m. with approximately 52 boys reporting.

## 52 Boys Report For Football

Approximately 40 varsity members and 12 freshmen of the Friona football team reported for workouts Monday morning at 8 a.m.

Uniforms were issued and workouts began immediately. "We are sure pleased with the two days we have had so far," says head coach Earl Smith. "It looks like we are going to have plenty of hustle and chatter."

"We have already had one injury, however, Bobby Daniel, sophomore, popped his knee yesterday. He will probably be out about a week. We

This will be the second year the Chiefs will be playing in AA competition. Their district opponents will include Dimmitt, Dalhart, Canyon, and Tulla. The District schedule pits the chiefs against Tulla on the night of October 16, in their home stadium. The following week, October 23, the Chiefs travel to Dimmitt to meet the Bobcats on their home grounds.

Next, October 29, the Chiefs will take a rest from actual competition in that they have an open date, the Friday following the open date, November 6, the Canyon Eagles will come to

Friona for the contest and the final district game will see the Chiefs and Dalhart clash in Dalhart.

This schedule is for district games only, and does not include non-district contests. The complete schedule was printed in the July 30 edition of the Star.

Workouts are now being held once daily beginning at 8 a.m. and ending at 10 a.m. However, the second week of practice the time will be changed from 8 a.m. to 11 a.m. Workouts shall not be held twice daily. Opening game will be Sept-

ember 4, and will see the Chiefs pitted against the Farwell Steers in the home stadium. All games are to begin at 8 p.m. unless otherwise announced.

There are six lettermen returning this year. They include; Gary Goetz, Ronnie Castleberry, Gary Bradley, Gary Brooks, Jim Greeson and Jerry Rankin.

Assisting coach Smith this year is Roy Simmons and Bill Adams. Adams is new to the system, coming to Friona from McLean, where he has been junior high coach the past two years.

## New Wildcat Being Drilled

Amarillo Oil Company is now proceeding with drilling operations on a wildcat well eight miles west of Hereford.

The wildcat, the C. R. Viegel No 1 is a proposed 9,800 foot granite test well and is located about one mile southeast of Summerfield. The test was spudded in Monday and company officials estimate completion within 45 days.

Although the wells now being drilled in this area are tests for either gas or oil, a discovery by the Viegel well would afford a cheap supply of low-cost irrigation fuel for farmers in this area.

Amarillo Oil Co. is a subsidiary of Pioneer Natural Gas Company.

## Alliance Plans Youth Council

The formation of an Inter-Faith Youth Council was planned at the regular monthly meeting of the Friona Ministerial Alliance last week.

The purpose of the council would be for the purpose of having a closer fellowship program set up among the young people of the churches, and to expedite the planning of special programs throughout the year.

Each church will select one young person to meet on the council.

The Alliance expressed their appreciation to Rev. Fred Dean for his services both to the Ministerial Alliance and to the community of Friona at large.

Rev. Dean has tendered his resignation as pastor of the Union Congregational Church in Friona and will move to South Dakota next month.

The week of March 13-20 has been set as a week of simultaneous revivals in the local churches. Every church in the community is to cooperate by having a revival or religious emphasis week in their own congregation. Local merchants have agreed to observe this special time.

In addition the school officials have agreed to use one speaker from each church each day to schedule as little activity as possible during this Religious Emphasis Week in Friona.

Students of Friona High School, Junior High and lower elementary schools will register for their classes Thursday at 9 a.m., Alton Farr, superintendent has announced.

The complete registration schedule is as follows; High School students will meet with Raymond Cook, principal, in the Friona High School at 9 a.m. There is to be no separation of classes as far as a time schedule is concerned. All high school students will meet beginning at 9 a.m. on Thursday morning.

All seventh and eighth grade students are to meet with Tom Jarboe, principal, in the junior high school gymnasium, also beginning at 9 a.m.

All FIRST grade students will meet with Mr. Gee, principal, in the elementary building, beginning at the same hour.

It is important for all parents to please note that buses WILL NOT run on that Thursday, and the cafeteria WILL NOT be open.

Also, the second, third, fourth, fifth and sixth grades will not register until Monday, August 31, beginning at 8:45 a.m. These students will report to their respective building and at that time will be shown where they are to go.

Buses will run for the first time this school year on that Monday, and the school cafeteria will begin serving lunches.

Lunches will cost the same as in previous years; 35 cents for high school students and 30 cents for the elementary grades. Lunch tickets will again be sold and parents are encouraged to purchase the tickets on a monthly basis, if at all possible, or at the very least, on a weekly basis.

Mr. Cook has requested that an announcement be made to the effect that he will register high school students next Monday, Tuesday, or Wednesday

resignation of two faculty members. Mr. and Mrs. C. R. Brown tendered their resignations to accept positions with other schools.

Brown has taught high school history and civics the past two years. Mrs. Brown has been a first grade teacher for the same length of time.

A new addition to the faculty will be Guy Riggs of Wichita Falls. Riggs holds a B. A. Degree from the University of Texas and this shall be his first year's teaching experience. He shall teach seventh and eighth grade math.

Riggs is replacing Luther Hayes, who has accepted the position as high school mathematics teacher. Hayes has

taught seventh and eighth grade math the past four years.

Vacancies include teachers for the first and sixth grades and a vacancy in the high school social studies department.

Mrs. Lloyd Shulk, who underwent major surgery at the Deaf Smith County Hospital Friday, August 7, was dismissed Friday, August 14 and is convalescing at home. On the latest report she is said to be feeling just fine.

limit for the bicycle rodeo contestants will be 14 years.

The plans for this event are by no means complete. Baker Duggins, who will be in charge of the program, has announced that all plans should be completed by next week, and all rules and events for the bicycle rodeo will be made public at that time.

Entries are still coming in for the queen's contest under the direction of Mrs. Eva Miller. Any organization or community wishing to sponsor a girl for Maize Day's Queen should contact Mrs. Miller.

Gliders Cause Stir

Just in case you happened to be outside Wednesday afternoon of last week and noticed a couple of objects gliding around and headed toward Benger Air park you were right if you guessed they were gliders.

The two gliders landed at the local airport late Wednesday after a five hour gliding trip from Odessa.

The two pilots, Adrian Marx of Fort Worth and Harald Jensen of Chicago are both members of the Texas Soaring Association which has been holding a two-week national convention and Soaring contest at Odessa.

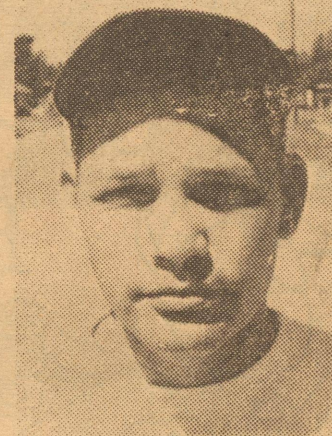

Jensen is an old hand at the glider game having designed and constructed his own glider, which flew into Friona on Wednesday.

Marx says he is only a novice "having only been gliding for about five years."

The duo took off from Odessa, or were towed off as the case was earlier in the day and had their sights set on going as far as Hereford.

"We always pick a goal to try to make," Marx says, "but lots of times the winds

GLIDER PILOTS--Harald Jensen, left, and Adrian Marx, right, dropped out of the blue last week and caused quite a bit of comment about Benger Air Park. This was an unusual event for local folks as it isn't often that gliders come this way. The plane in the background was flown by Jensen, who designed and built the craft.

BILL ADAMS

certainly hope he will be ready by the time we play Farwell. "As far as the freshmen go, we only asked for 12 to begin the workouts. We'll probably have approximately 25 when school begins."

## More Burglaries Plague Farwell

Burglaries continued unabated at Farwell during the past week.

Tuesday night the Moss Texaco station on Highway 70-84 in east Farwell was entered and a small amount of change, estimated at from \$7 to \$8, was removed.

Burglars gained entrance by breaking a window on the west side of the station and reaching in and unlatching it. They took the money from an unlocked cash register and opened the front door from the inside and left that way.

Bill Moss, station owner, discovered the burglary at 6:30 Wednesday morning when he came to work, noticing the front

door unlocked. The station closes about 11 o'clock at night, so the burglars visited at a late hour.

Sheriff Chas. Lovelace believes a link exists between this break-in and similar occurrences in Clovis, but to date no arrests have been made.

Watts' No. 1 station on the Amarillo highway near the state line was another break-in victim Friday night. Here burglars described as obviously "amateurs" by the sheriff broke a window in the store-room on the west side and crawled in.

They took tools from the storeroom and used them to pound the cash register, Coke, candy and cigarette machines in the station office. They succeeded in opening only the Coke machine and took a small amount of cash from it.

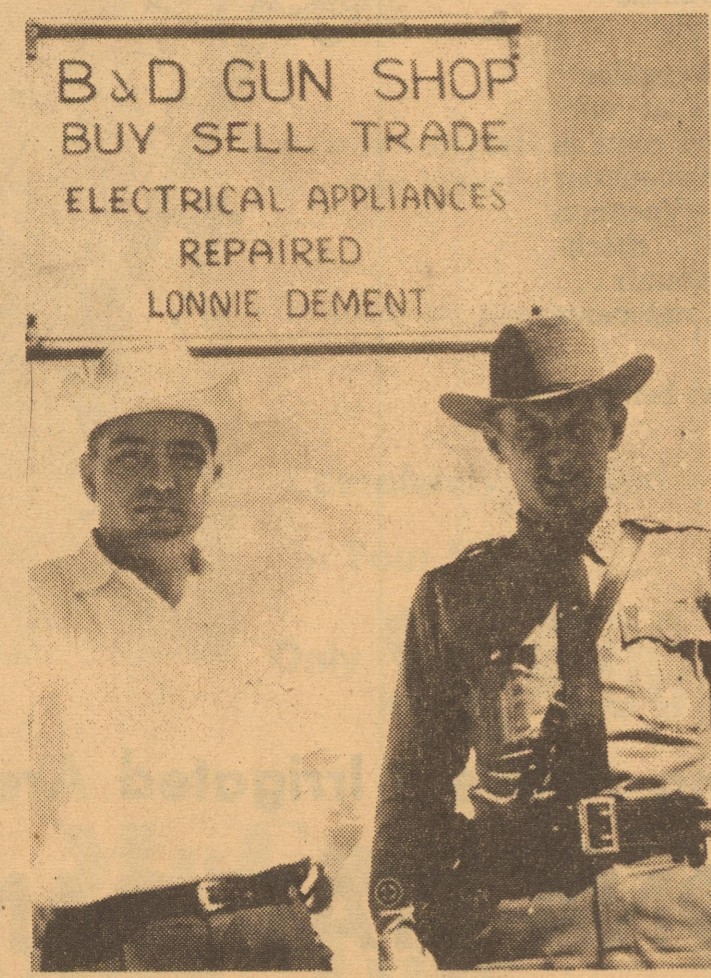

Sheriff Lovelace says practiced burglars usually have no trouble prying open such machines, and so he is convinced the thieves were inexperienced. Other clues were hard to come by, though. Rain during the night washed away foot and tire marks that officers often rely on in tracking down suspects.

Jim Hughes, station employee, discovered the burglary when he came to work Saturday morning. The station stays open until about midnight.

Five Mexican nationals showed up in Judge Roy Thornton's JP court in Farwell Monday to face charges of gambling and drinking. They were picked up after complaints had been made of their conduct at the Bovina Labor Camp. Sheriff Lovelace and Deputy Henry Minter made the arrests.

The nationals pled guilty as charged and were all fined \$24.50 by Judge Thornton. They paid their fines and were released.

Marvin King, 40, Lazbuddie, (Continued on Page 2)

OPEN NEW GUN SHOP--Ben Moorman, left and Don Tabor, right, have opened the B & D Gun Shop located on East Highway 60 in Friona and are ready to sell and service all types of pistols, rifles and shotguns.

### Dan True Speaks To Friona Lions

Amarillo's "ace" weatherman and coyote hunter, Dan True, was guest speaker at the regular meeting of Friona Lions Club last week and astonished members by correctly predicting the rain which fell over this area Friday night.

GET OUTTA THOSE HOLES!--Flake Barber and Danny Mac Bainum pose with a fellow they are taller than... Dan True. A well-known TV personality in this area. True was guest speaker at last week's Lion club meeting.

### GLIDERS

and updrafts just don't cooperate so you don't make it." Marx told a group of curious folks at the port about the trip Wednesday and says that "the High Plains are just perfect for gliding terrain for you can land just about anywhere you want to without fear of danger for either the pilot or the plane."

He described gliding a little bit for onlookers as he disassembled his plane.

The gliders were towed to an altitude of 2,000 feet over Odessa and turned loose in a thermal, or updraft of hot air. That was before noon Wednesday and the two gliders turned their noses toward Herford.

"You have to fly a glider all the time," Marx told reporters. "Gliding is just a series of ups and downs," he laughed.

He went on to tell how when gliding you keep on looking for thermals and other wind currents to keep you aloft and just for safety's sake have a good field picked out for landings at all times.

This is the reason Marx

gave for liking the Plains area for his sport.

Once a year the glider enthusiasts gather from all over the world for a two-week convention and contest.

This is what has been going on down at Odessa the past two weeks.

Jensen, a native of Denmark, holds several national titles for his gliding ability. His plane was a delicate ship, designed to take every advantage of flight and as one onlooker described it looked "like a dove waiting to take off."

When the planes leave their home field they have informed tow trucks where they intend to head for and the trucks leave for the same spot.

"The trucks keep in touch with the home base by phone and in case we don't make it to where we are heading they go where we land after we phone in, like today," Marx laughed.

Marx' glider was disassembled and was hauled back to Odessa on a truck.

Jensen hired Roy Botking to tow him back to Odessa with a Cup Tri-Pacer.

"When the weather forms right on top of you, it sometimes proves difficult to even predict weather within the next six hours correctly," True says. He told of how long-range forecasts are prepared, rainfall predictions and other weather phenomena.

True advised dryland farmers to "play it dry" next year. He based this educated guess on the fact that for three years this area has had wet weather and "the odds against getting a wet year next season is pretty slim."

He explained how lows are formed and how they affect weather.

A total of 56 members and guests were present. Next regular meeting will be August 27.

There's no substitute for conscience. Unless, of course, it's neighbors.--Franklin P. Jones

This feat of taking off, pulling the glider kept spectators at the Benger Air Park until about 6 p.m. when the pair winged their way back toward Odessa.

NEW AND OLD--Officers of the American Legion Post in Friona were installed at a meeting Monday night. Standing left to right, are Sam Williams, new commander, Charles Mason of Amarillo, district commander, Loyde Brewer, retiring commander, Roy Beard, of Amarillo, and Frank Reed, Friona post adjutant.

### Legion, Auxiliary Install Officers

A dinner highlighted installation of officers for the coming year for the American Legion and Legion Auxiliary in Friona Monday night.

Installed as post commander for the next year was Sam Williams, who replaced Loyde Brewer, retiring commander.

Frank Reed was installed as post adjutant, replacing Ralph Taylor.

Out-of-town guests included Charles Mason of Amarillo who is district commander, and Roy Beard, commander of the Amarillo Post of the American Legion.

Installed as president of the Ladies Auxiliary was Mrs. J. E. Hall who replaced Mrs. Earl Drake.

### Two Chevy middleweights prove their rawhide stamina!

## Top hands on high-country hauls!

Ask any trucker who's been over Wolf Creek Pass, 10,850 feet up in the San Juans: a 9-mile pull to the summit and low gear all the way down. Mr. C. H. Phillips of Alamosa, Colorado, has a '6403 and a '6503 Chevrolet truck that are up over this route the year round, taking sheep and beef to pasture, later marketing the stock in Denver. In less than a year, his Chevy middleweights have averaged about 50,000 miles of

this kind of treatment--and they're going stronger than ever! Watch Chevy trucks at work out in range country. It's a sight to see the way they pack into high-up mountain pastures and handle through brush and rock like a cowman's favorite cutting horse. Take any truck work for that matter. Chevy middleweights probably handle a bigger variety of jobs than any trucks alive. About anything you name, includ-

ing work that used to be reserved strictly for bigger rigs. When a truck's built the way a Chevy is, lean-muscled and rawhide-tough, it takes to ugly trails the same way most trucks roll over the highway. It just keeps going, without a big to-do, but looking good every mile of the way. How they do it is your Chevrolet dealer's department. He'll be glad to supply details and specifications on the type of models you need.

No job's too tough for a Chevrolet truck!

See your local authorized Chevrolet dealer

NOT ALL TEENAGERS ARE DELINQUENT —

# Six Youngsters Credit To Age Group

BY DON WATKINS

At times this summer a few people have asked if I really believe what I have been writing in regards to the young people. They have questioned my sincerity, purpose and aim.

Most of the time, I have not taken the effort to answer questions asked in that vein. I have merely referred those persons to the initial article as it appeared in the June 11th issue of the Star. I still do.

Fortunately, there has been little criticism, as far as I know. But, there has been, is now, and always will be Doubting Thomases in this world of ours.

You could show them statistics in black and white until you were blue in the face, but they would continue to house their doubts. You could take them on a tour of a "Utopian Youthland," where nothing wrong ever occurred, and they would merely wonder when trouble would break loose or what the young people of the "Utopian Youthland" were after. There has to be ulterior motives behind all the good behavior displayed by those young people, the Doubting Thomases would think.

Now then, Doubting Thomas to me is just another name for cynic; a person who believes all human action is motivated only for self-interest or selfishness.

In an effort to penetrate the hard core, so to speak, of these cynics, I am going to do something a little different this week.

In all the previous articles, with one exception, they have dealt with individuals in relationship to work; trying to show the teenagers on the job; young people learning to make their own way.

But because the cynics might say and have said, "Well heck, the only reason they're working for the money," this article will omit the idea of work for salary.

However, there is one, big important character trait I will not disregard and that is the personality and individuality of each of these young people; all teenagers; all splendid and sublime members of the human race.

We shall take Janet Buckley first.

and eighth grades. While participating in the entire sports program for girls her level, she attained the highest scholastic average, 96.9, for the eighth grade the past season and was, of course, valedictorian for last fall's eighth grade graduation. She was elected class favorite in both the fifth and seventh grades, was cheerleader the past season and a member of the Junior High Girls' Choir.

Now, earning capacity is a part of most employment, but usually not when it is connected with the home. Inasmuch as I am not dealing with employment in the gainful sense, it wouldn't hurt to mention the picture I took of Janet was while she was busy chopping cotton.

To the cynics, about the only reason Janet was chopping cotton was to get blisters on her hands.

Now, let's discuss Tom Gee for a few moments.

high girl's basketball team for two years, earning her letter the past season.

While taking an active part in athletics, being a member of the band, choir and girl's trio, Sharon also held the second highest scholastic average in grade school—and average of 96. She was salutatorian of the eighth grade this past season and has been class favorite in both the sixth and eighth grades.

Help at home is only one of the many qualities this girl possesses. And, I would stake my life on the true fact that she does it through goodness, not selfish motives.

We have now discussed three young people of the highest of character. I wonder if we have made a dent in the armor of those Doubting Thomases; if we have moved them at all, if they have begun to realize that not all teenagers are delinquent.

And we can continue. Take David Talley, for instance. He is the 14 year old son of Mr. and Mrs. Joe Talley of Rt. 2, Friona.

season. He participated in the junior high track program and was chosen the Best All Around Boy in his class.

He has maintained an A average while in junior high school and has helped on the farm as most youngsters in an agricultural community do. Incidentally, the farm he works on belongs to his family, so we cannot honestly say he does so just for the money.

From David we can move to another wonderful member of the teenage set. Joy Ingram, 14 year old daughter of Mr. and Mrs. W. S. Ingram of Rt. 3, Friona.

We have now discussed three young people of the highest of character. I wonder if we have made a dent in the armor of those Doubting Thomases; if we have moved them at all, if they have begun to realize that not all teenagers are delinquent.

And we can continue. Take David Talley, for instance. He is the 14 year old son of Mr. and Mrs. Joe Talley of Rt. 2, Friona.

mom and dad; observe how she is constantly going about her many routines and that cynic could not help, we think, to feel a little remorse at his own attitude toward young people.

And as a final effort to swing these cynics to our way of thinking, we shall tell them a little of Max Reeve.

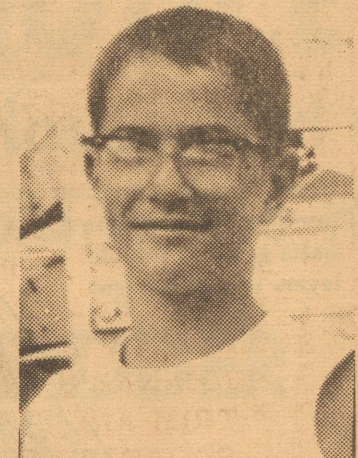

**MAX REEVE**  
Max is the 14 year old son of Mr. and Mrs. Glenn Reeve, Sr. Max had a scholastic average during the past year of 95.9. This was the third highest average in the eighth grade class.

He has participated in the junior high athletic program since becoming eligible, playing center on the Braves football squad for two years, and taking part in basketball and track.

Max has been a member of the boy's junior high choir, president of the eighth grade class, and was elected class favorite in the sixth grade.

The reader may have noticed by now that all six of these people are the same age; all six will be freshmen this fall; all six have creditable records.

**TOM GEE**  
Tom is the 14 year old son of Mr. and Mrs. J. T. Gee of Friona. He also will be a freshman in high school this fall.

Tom played basketball in junior high, earning a letter in that sport this past season. He is a member of the Friona School band and was a member of the boy's quartet that sang at the eighth grade banquet and graduation.

He has been doing farm chores this summer, not for salary mind you, but simply because he is a good, all-around young person.

And we shall now mention a few pertinent facts about another wonderful teenager, Sharon Reeve.

**DAVID TALLEY**  
David graduated from the eighth grade this past school

**JOY INGRAM**  
Joy has been a member of the junior high pep club, the junior high girl's choir, was a cheerleader the past football season for the Braves football team and earned a letter in girl's basketball, junior high level, for both the seventh and eighth grades. Joy also does work. Not salaried mind you, but the kind of household duties any woman will tell you is harder than any job in town. To the cynic, I can only say, drop out to this girl's house; watch her pitch in and help her

**JANET BUCKLEY**  
Janet is the 14 year old daughter of Mr. and Mrs. James Buckley of the Black Community. She will be a freshman in high school this fall.

She has participated in junior high athletics for girls the past two years, earning a letter in basketball for both the seventh

**SHARON REEVE**  
Sharon is the 14 year old daughter of Mrs. Faye Reeve of Friona. Sharon will, also be a freshman this fall.

She has participated in Interscholastic League events during her years in the grades. She was a member of the junior

**VALUE-RATE the ROCKET**  
AT YOUR AUTHORIZED QUALITY DEALER'S

**Of course an Olds is worth more... and your dealer can prove it!**

Total value is the secret of Oldsmobile's Rocketing sales success! Total value takes into consideration both first cost and what you get back at trade-in time.

Total value means things like Rocket Engine power... a Wide-Stance Chassis... Air-Scoop Brakes on all four wheels! It means all the extra pleasure and pride that's yours when you own an Olds! It means you are getting the best built car in the medium price class... the best value for your money!

Ask your Oldsmobile dealer to Value-Rate the Rocket for you before another day passes!

**OLDS** BY EVERY MEASURE... THE VALUE CAR OF THE MEDIUM PRICE CLASS

both at home and at school, and all six are surely all-around, good, down-to-earth young people.

How can a person be a Doubting Thomas (Cynic) where our young people are concerned? How do they look upon the teenagers with constant disfavor? I cannot answer that; I wish I knew.

But this I do know. If they would merely take the time to look around and observe our young people in action, then, where teenagers are concerned, they would be Doubting Thomases no more.

## What's The Matter Here?

I once saw a cartoon of a man standing on a garden hose. He was holding the end of the hose in his hand watching the water drip from it. With the look of desperation, he was saying, "What's the matter here. Something ought to be done about this low pressure! Can't expect a man to grow a garden without water, can you?"

Churches get a lot of criticism about what they are failing to do. Most of it comes from those who are not helping the church to do what it is doing. Anyone who withholds his talents of either time, attendance or financial support, or his spiritual and moral support from the church, is standing on the hose. This same hose he expects to feed the moral and spiritual fibre of his community and his country.

Read Hebrews 10:23-30. "Let us hold fast the profession of our faith without wavering... not forsaking the assembling of ourselves together..." Rev. Hugh F. Blaylock

people who are at home with quality... choose **GAS** appliances

Walk through an elegant doorway and you expect an elegant interior... and today, elegance in the kitchen is synonymous with GAS appliances. For example, the built-in range. Both in appearance and performance, it confidently maintains its place amidst the finest of home furnishings. Its sleek, luxurious beauty is always in perfect harmony with the most discriminating decor. Completely automatic from top burners to broiler, a Gas range makes the dull routine of cooking almost effortless... offers the perfect complement to cooking skill in creating meals that delight the eye, tempt the taste. And aside from the general excellence of its engineering, a Gas range offers a whole list of unduplicated advantages such as closed-door smokeless broiling, no warm-up wait, instant shut-off with no heat hang-over, and an absolute minimum of heat fluctuation. In every way — economy included — GAS gives you more! And where the finest is truly appreciated... GAS belongs.

fuel for a growing empire **Pioneer Natural Gas Company**

MRS. ELDON WETSEL

## Agee And Wetsel Vows Exchanged

In a candlelight service at the First Baptist Church at 7:30 p.m. Saturday, Betty Agee daughter of Mrs. Reeta Agee, became the bride of Eldon Wetsel, son of Mr. and Mrs. J. H. Wetsel of Borger.

The double ring ceremony was read by Charles Baldwin, educational director of the church before an altar decorated with white gladiola and greenery. Preceding the ceremony Mrs. Roy V. Miller Sr. presented several organ selections. She was accompanied by Nancy Outland at the piano. Mrs. Miller and Miss Outland also accompanied the bride as she sang "Whither Thou Goest."

Bridal attendants were Linda Gee, Helen Hamilton and Jeanie Wetsel, sister of the groom. The maid of honor, Miss Gee, and other attendants wore identical dresses of aqua embossed cotton with white net headbands and accessories. Their bouquets were circlets of white glads.

The bride, given in marriage by her brother, Elden Agee, wore a formal length princess dress of white taffeta and lace over satin. The dress, highlighted by a sweetheart neckline outlined in sequins was topped with a lace bolero with stand up collar.

Long lace sleeves tapered to

## Baxter Family Has Get Together

A Baxter family get-together at the Club House Sunday honored Mr. and Mrs. Jess Weatherly and Mr. and Mrs. Ernest Weatherly and children of Portland; and Mr. and Mrs. F. L. Clark, Mr. and Mrs. Earl Clark and children, Mrs. Jack Russell and Mrs. Cassie Smith all of Elk City, Okla.

Frionans present were Mr. and Mrs. J. W. Baxter, Mr. and Mrs. Bill Baxter and family, Mr. and Mrs. Louis Baxter and sons, Mr. and Mrs. Larry Martin and children, Mr. and Mrs. Clarence Martin and children Mr. and Mrs. Calvin Martin, and Jerry Rankin;

Also A. B. Clark, Mr. and Mrs. Jim Baxter and Patricia, Mr. and Mrs. Oscar Baxter and children, Mr. and Mrs. Ray Duff and children, Mr. and Mrs. Troy Young and daughters, Mr. and Mrs. Sterling Graham and Gail, Mr. and Mrs. Billy Dean Baxter and family and Mr. and Mrs. Eugene Nidey and daughters.

Others present were Mr. and Mrs. Dewayne Baxter and daughters of Bovina, Mr. and Mrs. L. R. Baxter and Mr. and Mrs. Charley Baxter and sons all of Clovis.

## Boy Born To McLellans

Clifford DeWayne is the name chosen for the baby boy born to Mr. and Mrs. Kenneth McLellan of Friona. The boy was born Tuesday of last week at the Parmer County Community Hospital. He weighed 6 lbs. and 5 1/2 ozs. He has an older brother, Ronnie Lynn. Grandparents are Mr. and Mrs. A. S. Grubbs and Mr. and Mrs. S. L. McLellan both of Friona.

## Of Interest To THE WOMEN

### Bridal Shower Fetes Estella Scales

Estella Scales, bride-elect of Allen Brents Parsons and daughter of Mr. and Mrs. Charles Scales, was honored with a shower at the First Baptist Church parlor August 14. Hostess were Mesdames J. T. Carroll, John L. Wright, Roy V. Miller, H. K. Kendrick, Vernon W. Roberts, Kenneth Williams, L. R. White, Ralph Roden, D. G. Hand, Ralph Taylor, Andy Hurst, Fred Dennis, Lucy Jones and Miss Marie Roberson.

Guests were registered by her sister, Faye. The hostesses assisted her in opening the gifts. The serving table was covered with a white damask cloth and centered with a floral arrangement of white gladiolas and pink carnations. The guests were served white cake, mixed nuts, and pink punch.

The receiving line was made up of the honoree, her mother,

and the prospective bridegroom's mother, Mrs. Joe Parsons.

Piano selections were presented during the entertaining hours by Mrs. Eva Miller.

Those attending and sending gifts were Mesdames Charles Allen, Faye Wilson, Erma Coffman, G. B. Smith, Charlie Wise, Randal Allen, Frankie Allen, Marie Boss, Lillian Williams, George Taylor, C. B. Bruce, J. W. McMahan, William Scales; Also Mesdames M. P. Bennett, Henry Roberson, Jack London, Hank Outland, Evert Bales, O. C. Jones, Dalton Caffey, Dorothy Hough, Fred Jackson, C. B. Roberson, J. A. Parson, Ruby Barnett, Winnie Beaton, Newman Jarrell, Barbara Banning, Clyde Scarborough, Ed Duke, Philip Weatherly, Caryl Fallwell;

Also Mesdames Willie Beaty, Wanda Jones, Lucy Lewis, Steve Bavausett, J. L. Ray, Joy Baldwin, Mary Lou Cason, Tom Lewis, Allen Stewart, Granville Cranfill, Lloyd Prewett, Myrtle Deaton, A. W. Wood, Lenard Haws, Coy Patton, A. L. Black, Tommie Parker, Ray Castalberry, Donn Tims, John Wilson; Also Mesdames Russell O'Brian, W. S. Crow, K. C. Kendrick, Henry C. White, Bud Elmore, Claude Edelman, Frank Truitt, Marian Lawson, Ed White, Pat Fallwell, R. B. McKee, Ruby Elliott, Don Brown, Billy Fairchild, G. B. Smith, Charles Schales, Tommy Scales;

Also Lynda Perry, Mary Ellen Scales, Nancy Scales, Nancy Outland, Karen Bales, T. E. Parsons, Freida Jackson, Mary Roberson, Carla Singleterry, Kitty and Cathy Bailey, Dora Martiniz, Elaine Parsons, Martha Deaton, Judy Fessor, Virginia Patton, Carolyn Parker, Joy Crow, Lois and Sue White, and Kay McKee.

E. Parson and Bonnie Fay Shadix of Brownwood.

## Hospital Auxiliary Meets

The Hospital Auxiliary held its regular meeting Thursday, August 13th in the Bank's Community Room with Mrs. Fern Autrey presiding.

Mrs. H. K. Kendrick gave a report on the T.V. Rental project at the Hospital sponsored by the Auxiliary and it has been suggested that friends of patients in the hospital may like to use the idea of renting a T. V. as a get well wish. Rental is \$1.00 per day.

Plans were made to sponsor the Future Nurses Club in maintaining a First Aid station during Matze Days.

Anyone interested in the Auxiliary and its work is invited to attend the next meeting which will be held on Thursday, September, 24th at 3 p.m. in the Bank's Community Room at which time plans for the annual fall rummage sale will be completed.

Mr. and Mrs. Van Eddy and children of Coolidge, Kans., spent last weekend visiting in the home of Mr. and Mrs. Larry Martin and children.

## Linda Gee To Wed Owen Ray Houston

MISS LINDA GEE

### VISIT COLORADO

Mr. and Mrs. Charlie Doak and Mr. and Mrs. David Moseley spent part of last week sight-seeing in Colorado. They also visited the Museum at Leadville, and the Glenwood Springs. They returned home last Friday.

The engagement and approaching marriage of Linda Gaye Gee to Owen Ray Houston is being made by the bride-elect's parents, Mr. and Mrs. J. T. Gee.

Wedding vows will be exchanged at the Friona Methodist Church at 4 p.m. Sunday, August 30. Rev. Hugh Blaylock, pastor, will read the ceremony.

Miss Gee, a 1958 graduate of Friona High School, attended Texas Tech last year. Houston's parents are Mr. and Mrs. T. L. Houston Sr., also of Friona.

He was a member of the 1959 graduating class. The couple will be at home at Canyon. Both of them will attend West Texas State College.

Guests in the home of Mrs. Pearl Kinsley Wednesday were Mrs. Max Brownlee of Oakland, Calif., and Ethel Womble of Hereford. Mrs. Brownlee is a former Friona resident.

**Girl Born To George Grants**

Mr. and Mrs. George Grant of Friona became the parents of a baby girl at the Farmer County Community Hospital August 3. She weighed 7 lbs. and was named Sherri Frances. Young Sherri has two older brothers and one older sister. Grandparents of the baby are Mrs. Clara Crosby of Boston, Massachusetts, and Mr. Harvey Crosby of Hartford, Connecticut.

MISS JANICE BOCK

**Janice Bock To Wed J. W. Baxter**

Rev. and Mrs. Hugh Blaylock announce the engagement and approaching marriage of their daughter, Janice Bock, to J. W. Baxter, son of Mr. and Mrs. Bill Baxter.

The wedding will be in the Friona Methodist Church Saturday, September 26, at 2 p.m. All friends of the couple are invited to the wedding and reception as announcements will not be sent locally.

FORMER RESIDENTS TO OBSERVE GOLDEN ANNIVERSARY--Children of Mr. and Mrs. T. E. Parson invite their friends to attend an Open House honoring the T. E. Parsons on their Golden Anniversary at their home 10 miles east of Brownwood from 2 p.m. until 6 p.m. Sunday, August 30. Joe and Thomas Parson of Friona are children of the honorees. Others include Truett of Rising Star; Festus of Lovington, N.M. and Bonnie Fay Shedix of Blanket.

**Party Honors Class**

The Young Married Men's Class of the First Baptist Church held a party for its members and their families Friday night, August 14, at 7:30 p.m. in the Hub Community Center.

The evening was spent in playing volleyball and forty-two. Approximately 40 people attended. They were served refreshments of cake and ice-cream.

Mr. and Mrs. H. Jonte, Mrs. Mary Mistell and Bob Coneway of Chicago left Wednesday morning after spending a week visiting in the home of Mr. and Mrs. O. F. Lange. Mrs. Lange is the mother of Mesdames Jonte and Mistell and Coneway.

Mr. and Mrs. Earl Lowder and son of Brentwood, Calif., spent Monday night in the home of Mr. and Mrs. Calvin Martin. Mrs. Lowder is Martin's sister.

Monday dinner guests in the home of Mr. and Mrs. Calvin Martin were Mr. and Mrs. Jess Weatherly and Mr. and Mrs. Ernest Weatherly and children of Portland, Oregon; Mr. and Mrs. F. L. Clark and Mr. and Mrs. Earl Clark and children of Elk City, Okla., and Mr. and Mrs. J. W. Baxter.

**Christmas Program In August**

The Tierra Blanca Association Sunbeam Meeting was held at the First Baptist Church in Friona August 11th at 10 a.m. The program was for the Home Missionaries in that they were presented gifts to be used for the little Indian children at Christmas time.

The program was opened by Bro. Charles Baldwin, who led the group in song and prayer. Two Bible stories, one in chalk and one lecture, were given by Mrs. Linda Tims and Mrs. Bob Coker, respectively.

The Sunbeams placed their gifts to the Home Missionaries under the Christmas Tree. A film was shown on the work our Home Missionaries are doing with the New Mex. Indians.

The guests were registered by the local W. M. U. at lunch time. The churches represented were Tulia, Dimmitt, Farwell, and Friona.

Lunch was served to approximately 160 people. The menu consisted of sandwiches, cookies, and pink punch.

Mrs. Bob Goodwin of Tulia, associational sunbeam director, led the closing prayer.

Mrs. T. A. Shirley is the local director of the Sunbeams.

The gifts are to be used at Christmas time for the Indian Children in order that they might have a happy Christmas.

**Kitchen Shower Honors Bride**

LaVon Fleming, who became the bride of Don Reeve Tuesday of last week, was honored with a wedding breakfast and kitchen shower by Mrs. Hank Outland and daughter, Nancy, at the Outland home Tuesday morning.

They were assisted by Mrs. Floyd E. Crume Jr. of Littlefield. Those present besides the suet of honor, were Mrs. Raymond Fleming and Mrs. Glenn E. Reeve Sr.;

Also Phila May Weatherly, Ruby Grubbs, Cynthia Caffey, Sharon Reeve, Darla Bingham, Paula Fairchild, Johnny Massey and Jacquelyn Magness.

**MARTIN FAMILY REUNION**

About 45 members of the Martin family met at Elwood Park in Amarillo Sunday of last week for an annual family reunion. Several southwestern states, including Okla., Texas, and Colo., were represented.

Those attending from Friona were Mr. and Mrs. Clarence Martin and children; Mr. and Mrs. Calvin Martin; and Mr. and Mrs. Eugene Nidey and daughters.

**White Family Holds Reunion**

P. F. C. Raymond C. White of Fort Berry, California, is visiting his parents Mrs. E. S. White and brothers and sisters.

Sunday the family was all at home at the E. S. White residence for a reunion.

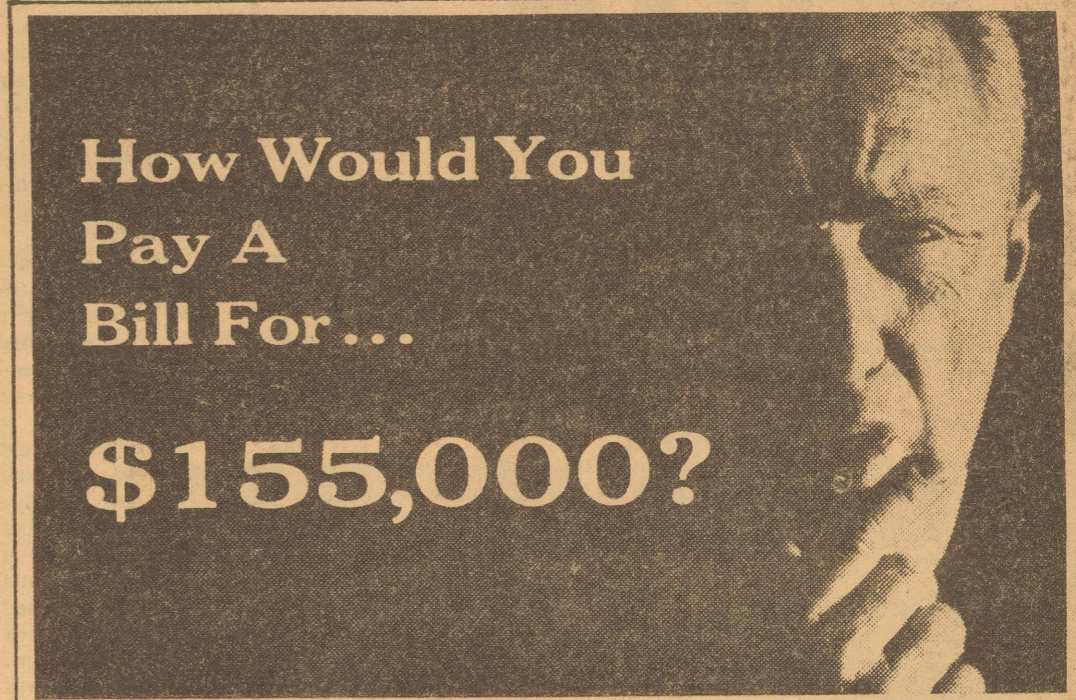

Those attending were Mrs. Roy Campbell and children of Seminole, Texas, Mr. and Mrs. Robert Holder and sons of Fort Worth, Texas, Mrs. and Mrs. Vernie Roberts and children of Amarillo, Mr. and Mrs. Edward White Jr., and son of Friona, Mr. and Mrs. Tommie Hamilton and daughters of Dimmitt, Texas, and Sue, Lois and Richard of the home and Gary Bradley also of Friona.

Raymond will return to Camp the 23rd of August. This is his first leave in over a year to visit with his folks.

Mrs. L. J. McKenzie accompanied her son, Oswald Varner, and his family to Cuthand, Texas, for a visit with relatives and friends last week.

They attended a homecoming then returned to Friona Wednesday.

home last week were Mr. and Mrs. Delvin Bratt and daughter, Jeanne, of Archer City, Texas, and Mrs. M. J. Ivie of Amarillo.

**How Would You Pay A Bill For ...**

**\$155,000?**

The other day, not so far from here, a jury awarded \$155,000 to a man injured in an automobile accident.

I don't know whether the motorist who had to fork up this amount was fully covered by his liability insurance.

The chances are he was only PARTIALLY covered.

The rest came OUT OF HIS OWN POCKET—somehow.

You may be thinking "this couldn't happen to me." But it

happens every day, to people just like you. It could happen tomorrow. YOU CAN'T AFFORD TO TAKE A CHANCE. Let me review your automobile insurance, and make sure you have enough protection.

If you have insurance now, it takes only a very few dollars more to double your protection. Don't wait until you get saddled with a lifetime judgment.

**Phosphorous Pays In Sandy Soil**

(Have you read this news?)

Fertilizer trials conducted on irrigated wheat for 1957-58-59 shows that phosphorous with nitrogen pays significant dividends in sandy soil.

Tests were conducted in the Lariat area. Fertilizer in each trial was applied in bands prior to seeding wheat. Dr. Al Pope of Southern Great Plains Research Station at Bushland conducted the trials.

In 1957 the first of four tests was run on the Walter Kaltwasser farm near Lariat. Best yield was produced with 120 pounds of nitrogen and 80 pounds phosphorous. Yield was 58.5 bushels per acre. Without fertilizer, a yield of 27.5 bushels per acre was produced. Eighty pounds of nitrogen with no phosphorous produced 41.2 bushels per acre, while 80 pounds of phosphorous produced only a 28.4 yield.

A test on the Burl Nix farm in 1958 showed 80 pounds of nitrogen and 40 of phosphorous produced the best yield. Top yield was 60.30. A higher yield, 62.52 bushels per acre, was produced with 80 pounds of both nitrogen and phosphorous but the extra 40 pounds of phosphorous wasn't compensated for in the increase.

The land produced 18.40 bushels per acre without fertilizer and 40.72 with 120 pounds of nitrogen and no phosphorous. Eighty pounds of phosphorous and no nitrogen produced 19.40 bushels per acre.

A treatment of 80 pounds each of phosphorous and nitrogen applied in a '59 test on the Kaltwasser farm produced 82.0 bushels per acre. Without fertilizer a yield of 41.6 was produced and 120 pounds of nitrogen without phosphorous produced 50.8 bushels.

A higher yield, 83.9, was produced on a plot treated with eighty pounds each of nitrogen, phosphorous and potassium but the slight increase wasn't enough to justify the potash.

The Successful Bidder must furnish bond on the form provided in the amount of 100% of the total contract price from a Surety Company holding a permit from the State of Texas to act as Surety, or other Sureties acceptable to the Owner. All lump sum and unit prices must be stated in both script and figures. In case of ambiguity or lack of clearness in stating the prices in the bids, the Owner reserves the right to consider the most advantageous construction thereof, or to reject the bid. Unreasonable (or "unbalanced") unit prices will authorize the Owner to reject the bid. The Owner reserves the right to reject any or all bids, to waive formalities, and to accept the bid which seems most advantageous to the City's interest. Bidders are expected to inspect the site of the work and to inform themselves regarding all local conditions under which the work is to be done. Attention is called to the provisions of the Acts of the 43rd Legislature of the State of Texas, page 91, Chapter 45, (Article No. 5159A Civil Statutes 1925) concerning the wage scale and payment of prevailing rates of wages as established by the Owner. Said scale of prevailing minimum rates of wages is set forth in the specifications. Information for bidders, proposal forms, plans and specifications are on file at the office of Albert L. Field, City Manager, Friona, Texas, and Parkhill, Smith and Cooper, Consulting Engineers, 201 Avenue R., Lubbock, Texas.

**BAXTER FAMILY HAS ICE CREAM SOCIAL**

## Ernest Kuykendall Buried Thursday

Funeral services were held at noon Thursday in the First Southern Baptist Church in Richmond, California, for Ernest E. Kuykendall. Rev. Robert L. Lewis, pastor, officiated.  
Mr. Kuykendall, of 3238 Yosemite Ave., died Sunday following a short illness.  
Mr. Kuykendall, 63, was a native of Woodbury, Texas, and was the first newsboy in Pampa. Mr. Kuykendall will be remembered as a resident of Friona, having lived here a few years ago. He had been a resident of California for the past five years. He was a veteran of World War II.  
Survivors include his wife, Eula, of El Cerrito; four daughters, Mrs. Mae Dell Taylor of Friona, Texas, Miss Grace Kuykendall of El Cerrito, Mrs. Flo Tarpley of Richmond, Mrs.

Ermoline Sands of Long Beach; two sons, J. H. of Arkadelphia Ark., and Earnest O. of Tulsa, Oklahoma; five sisters, Mrs. Nellie Osborne and Mrs. Mammie Bell, both of Pampa, Mrs. Pearl Robinson of Panhandle, and Mrs. Grace Turner and Mrs. Amie Norris, both of Amarillo; two brothers, Orby of Amarillo, and Roy of Albuquerque, N. Mex.; and 13 grandchildren.  
Burial was in the Veterans Golden Gate National Cemetery, San Bruno, under the direction of Wilson & Kratzer Mortuaries of El Cerrito, California.

**AUTOMOTIVE NICKEL-PLATING**

# THE HIGH PLAINS FARM AND HOME

## Swine Production Pays Even With Price Low

"We utilize about 200,000 pounds of home grown grain in our swine feeding operation," says Ellis Tatum, whose farm is north of Friona.

Tatum has found pork, even when the price is low, usually brings in better returns for the grain than can be obtained by direct sale of the grain.

Presently, hogs are selling at the rate of about 14 cents per pound and Tatum feels sure his pork producing program will show a profit for this year, despite the low price. He says he "broke even" feeding 11-cent hogs on two-dollar grain several years ago.

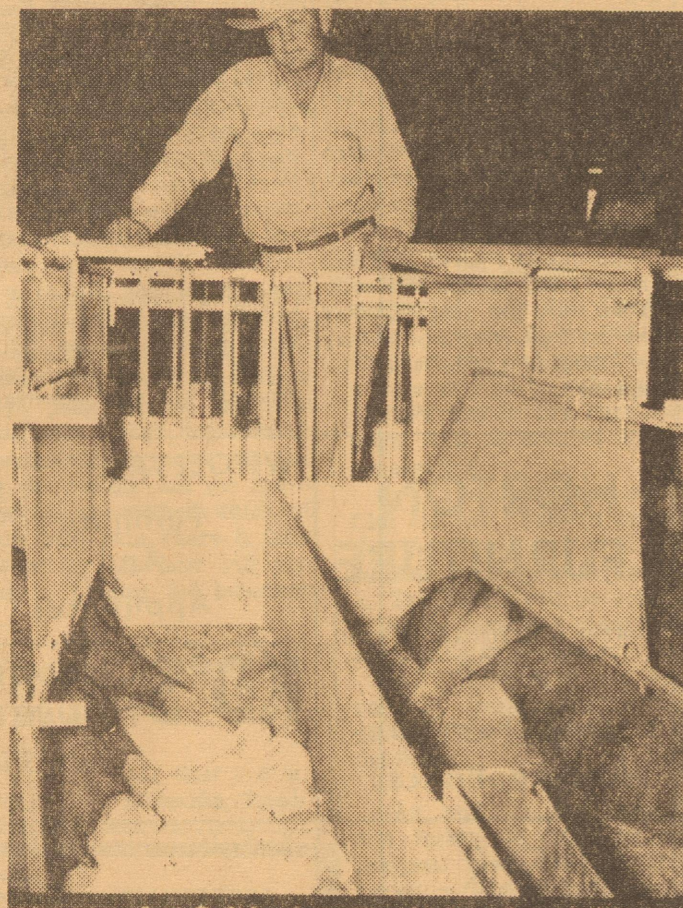

Tatum has installed new equipment recently and will expand his operations as soon as all the "bugs" are worked out of his farrowing and feeding facilities. His present operation involves 26 sows, five of which have litters now. His expansion will boost the number of sows to 50.

His feed lot currently contains 170 head. Their ration is grain sorghum and supplement. It is changed about once every two weeks.

Breeding stock, not including sows with litters, gets a ration of 20 per cent supplement and 80 per cent grain. They also pasture on alfalfa. Tatum has had some trouble keeping his sows from getting too fat. A grinder and mixer process grain that Tatum grows himself. It is elevated from bin to mixer so the procedure is relatively easy.

Sows are kept in farrowing pens that prevent them from turning around or moving about, except for getting on their feet to eat and drink. The "cages" are all-metal and were made in a welding shop.

Tatum says they enable the sows to raise more pigs, since it eliminates most of the crushing caused by sows lying on pigs. Also, the litter is more

SAVE MORE PIGS--These farrowing pens in use on the Ellis Tatum farm help the sows raise more pigs. The tin shields on each side of the sows' head blind them and make handling the pigs easier.

uniform because the sow lies in such a position that each pig has an equal chance at meal time.

The farrowing house has no cooling, but is well ventilated so the temperature is usually low enough for the sows and pigs to be comfortable in summer time. Heating in winter is by lamps attached to a rod that can be moved about to put heat where it is needed or keep it out of the way when it isn't

needed. Sows and pigs stay in the farrowing house six weeks after the litter is born. Tatum says most of the sows show no ill effects from having been kept from exercising that long.

When Tatum increases his herd to 50 sows, he will have to conduct a careful breeding program to keep from having more litters than the 12-unit house can care for at once. He says he may increase the number of sows still more and start keeping them in the "cages" only two weeks.

To cool his "pig parlor," Tatum has a perforated hose strung under the roof that puts a fine mist on the fattening

hogs. Hog prices are low now. They could go lower but a rise seems more likely, at least to swine producers. Tatum believes he can operate for the smaller profits feeding hogs will make when the price is low and really beat \$1.32 milo when the price goes up.

## THE HAPPY HOMEMAKER

BY JUNE FLOYD

Since pickle making time is here, we feel sure that homemakers in the area will be interested in trying a new recipe for making pickles. That is, if you want to make sweet pickles.

Mrs. L. B. Blake, who lives northwest of Friona, was kind enough to bring us a sample of her pickles. Although we haven't had an opportunity to taste them yet, they surely do look pretty and we're anxious to do so.

The name of the pickle recipe is:

**PERFECT SWEET PICKLES**  
2 gallons cucumbers  
6 pints vinegar  
5 pints sugar  
1/3 cup pickling spices  
Wash cucumbers and place in stone jar. Add 1 cup salt and 1 gallon water. Let soak in brine seven days skimming daily. On eighth day, pour off brine and add 1 tablespoon alum and 1 gallon boiling water. Pour off on ninth day and add fresh alum water. On tenth day heat to boiling point vinegar, sugar and spices and pour over cucumbers. On eleventh day pour off vinegar, add two cups sugar and heat to boiling and pour back over cucumbers.

On twelfth day add one cup sugar, heat cucumbers and vinegar to boiling and seal in sterilized jars. These are very good and do not get soft as a lot of homemade pickles do.

For a fish dish that is different and very tasty, try this recipe.

**SALMON PUFFS**  
1/2 cup sifted flour  
1/4 teaspoon salt  
pepper  
1/4 cup shortening  
1/2 cup boiling water  
2 tablespoons chopped pimiento  
2 tablespoons chopped green pepper  
2 eggs  
Sift together flour, salt and pepper. Melt shortening in boiling water over direct heat. Add chopped pimiento and pepper and dry ingredients, all at once,

## Waste It Not

Waste of underground water should be a matter of utmost importance to each individual making his home in the Texas High Plains.

There is a great quantity of water in storage beneath the southern High Plains. However, the fresh water-bearing formations underground receive only a negligible amount of recharge. Because this is true, the water pumped from these formations is mined in a similar manner to oil or gas.

By law, underground water in Texas is private property. Recognizing this fact, one would think that water users throughout the state would feel a great personal responsibility to conserve water. Generally, this is true. Unfortunately, however, we in the High Plains have our share of those who hold no regard for the future but think only in terms of the present -- and not much about it.

The board of directors and county committees of the High Plains Underground Water Conservation District are urging irrigators who have irrigation waste water problems to face these problems realistically.

The irrigator should ask himself how much longer will the citizens in other sections of Texas stand idly by while High Plains' underground water runs down bar-ditches to wet-weather lakes from which it mostly evaporates or is used by weeds?

How much longer before they band together in such force that they will become capable of changing the law so that underground water becomes public property rather than individual property? If the law were changed, then where would we be? Probably standing in line waiting for a permit to pump sufficient water with which to irrigate about one-fourth of our land.

High Plains irrigators do not want this kind of thing to befall them, and yet many will not take hold of the problem as individuals and solve it.

There are some farms where complete control of irrigation water at all times would be next to impossible, but they are few. Most cases of irrigation waste water with which the High Plains Water District is confronted are by no means in this category. There are few farms where simple and inexpensive conservation methods could not be employed to save water.

Of course, each farm is somewhat different from the next, consequently, each must vary the conservation methods used according to the problems encountered on that particular farm. Things like the slope of the land, the quantity of irrigation water available and soil texture must be taken into consideration. On some farms a combination of conservation procedures should be used.

For the most part, however, simple measures should be considered for conserving water -- things like shortening lengths of irrigation runs, use of smaller siphon tubes, pulling up borders at the lower end of rows, or planting a crop at the lower end of the field perpendicular to the rows coming down the slope.

In more extreme cases, where the farm land has a greater slope, methods such as "bench-leveiling" might be considered. Or perhaps, the use of a re-circulating pump in a sump located at the lowest point of the farm could prove successful in preventing the escape from the land of irrigation water.

These things would admittedly require an immediate outlay of cash, but they would in most cases pay for themselves through water savings in a few years.

Gradually add milk, cook until thick and smooth. Place over hot water and add salmon, salt, pepper and the celery mixture. Cook for 5 minutes. Fill puffs and serve.

An easy, economical way to increase calcium intake is by using "double milk." ... For example, add 4 tablespoons of dry milk to one cup of fluid milk for a delicious, cool, refreshing "double milk" beverage. Your favorite fruit or flavoring may be added to this. For variety of flavors try molasses, maple, spice or honey.

**CREAMED SALMON FILLING**  
1/2 cup chopped celery  
1 tablespoon chopped green peppers  
1 tablespoon chopped pimiento  
7 tablespoons shortening  
6 tablespoons flour  
3 cups milk  
2 cups flaked salmon  
1 teaspoon salt  
1/8 teaspoon pepper  
Pan fry celery, pimiento and green pepper in 1 tablespoon shortening. Melt 6 tablespoons shortening in top of double boiler, add flour and mix well.

David, our youngest, is the optimist in our family. When a gallon of milk is spilt in the middle of the kitchen floor, David says, "Good thing you got the floor mopped." When his Dad was complaining about the high cost of living David said, "But aren't you glad you have a big family to help you save!"

Mr. and Mrs. Howard Mayfield and Mr. and Mrs. Junior Snider of Farwell are vacationing in Colorado. Last we

heard the Snider's baby, David, was staying with his grandmother and grandfather Snider and Kim just couldn't decide if she wanted to go to Colorado or stay with her grandparents. The oldest son, John Charles, knew all along he was going to Colorado.

PCICN  
McCormick trailing-type disk plows may be obtained in sizes to match the power and give high clearance of the main beam.

PCICN  
If you can remember when folks "saved up" to go on a vacation you are too old for the draft.

PCICN  
Since oven cleaning is one chore most house wives put off, here's an easy method that is supposed to cut cleaning time. Put racks and all removable parts in bath tub, cover with hot water and add dishwasher All. Soak overnight or while you clean other parts of the stove. Racks will wipe clean. For inside of oven try an ammonia solution.

PCICN  
Why not get your binder repaired now? You'll be using it soon. We have plenty of binder parts now. Call Bill at 2091 for binder repairs.

PCICN  
The teacher decided the students in her class should write to a girl or a boy in a foreign country and little Willie was handed the name of a girl from Holland for his pen pal. That night he shocked his mother by saying, "Guess what, Mom, I got a girl in Dutch."

PCICN  
Corn harvesting is just around the corner. Prepare

## THE PARMER FARMER

by W. H. Graham Jr.

and Debonnaire." Now, doesn't that sound interesting? Anyway, the purpose of this column is to encourage some of our readers to help us come up with a good slogan for some new things--like sesame. So far as we know nobody has. We've some ideas, but we don't want to divulge them just yet. How about some hints from the readers?

Incidentally, the wife brought home a box of those "Sesame Stix" the other day and we wonder if we got the genuine article. They were made in Dallas, or at least the box said so. The thing that makes us wonder about their authenticity is the blurb on the back of the box that tells the customers what they have just bought.

The old, old story of Ali Baba and how he would say, "Open Sesame" to his hideout was warmed over, which we thought was a good idea, but the thing that hit us was that the blurb went on to tell about how sesame was grown in the Middle East and South American countries. Not the slightest hint was made that sesame is an important crop to a county or two very near to Dallas and of course is raised in profusion here on the High Plains. This is downright insulting! And it may help explain why we didn't like the taste of the stix either.

One more thing on sesame. We are talking it up with the ad boys of the Parmer County papers, and think we can work it out so that our grocerymen can push sesame sales all they want to in their ads and it won't cost them a cent.

Two eggs in the daily diet will supply the following percentages of needed food elements: vitamin A, 22; thiamine or B1, 7; riboflavin or B2, 16; vitamin D, 24; protein, 17; iron, 22; phosphorus, 13; calcium, 5; and for good measure the old hen adds some vitamin B12. Eggs are considered a complete food, points out Marshall Miller, extension poultry marketing specialist.

Frankly, we think these slogans could be a lot more effective if some imagination was used in dreaming them up. One of the great secrets of effective advertising is to promise the prospective customer that he will benefit in some way by making a purchase.

Contrast the flat (and demanding--does this alienate some folks?) statement: "Eat More Beef" to "Be Sociable--Have a Pepsi." Don't forget the second line, more suggestive still: "Be Young and Fair

"The Place Where Most People Trade" Friona, Texas

David, our youngest, is the optimist in our family. When a gallon of milk is spilt in the middle of the kitchen floor, David says, "Good thing you got the floor mopped." When his Dad was complaining about the high cost of living David said, "But aren't you glad you have a big family to help you save!"

CAGED LAYERS—J. T. Hammonds checks his 1000 layers for signs of disease or other stress periods that can cause a drop in egg production. The hens think it is feeding time and have poked their heads out of their cages to see what they're getting.

# Poultry Feeding Outlet For Grain

Egg prices are at their lowest point in years but J. T. Hammonds still manages to make a profit by feeding his 1000 layers locally grown milo which he grinds and mixes at his poultry house north of Bovina. "Efficiency in production is the most important thing for a poultryman to remember," Hammonds says. "Price is also important but efficiency enables one to make profits in years like this."

Hammonds has been in the business since 1956 and has always managed to make some profit.

He feeds grain sorghum with supplements of vitamins and minerals. His flock is given constant medication.

"Egg prices go in a three-year cycle," Hammonds says. "A good year is followed by a bad one, then one that sees medium prices and then back to the good year."

Hammonds' explanation for this situation is that it is caused by people getting into the poultry business after a good year, causing over production the following year and a sharp drop in prices. The next year some growers will give up and the corresponding drop in production will make prices about

medium. The next year, still more of the poultrymen give up and egg prices shoot up.

Milo is as good as corn for feeding poultry Hammonds and other poultry men think. "We make no difference between the two," he states.

State egg grading laws that went into effect recently have helped egg producers by placing a premium on quality. The new laws make it unlawful to sell unedible eggs in Texas.

Currently eggs are selling for from 15 to 59 cents per dozen in retail stores. Producers who consistently produce top grade eggs can get enough for them to keep their program in the black.

Hammonds has his layers caged and is convinced this is the best method. He says eggs are kept cleaner because they aren't sat upon by the hen after they have been laid. "When an egg gets warm, the shell expands and admits bacteria," Hammonds explains. In the cage system the egg rolls down out of the hen's cage into a trough where it is kept cool and clean.

The 1000 hens in Hammonds' program require about two hours each day to feed, water and gather eggs. Hammonds works on a regular job, sells seed and has a dry-land farm in addition to tending the chick-

ens. He feeds the hens by hand and has automatic watering troughs.

"A poultryman needs to see the hens often to anticipate stress periods caused either by weather conditions or disease," says Hammonds. The best way to sense something is wrong with the flock is to keep a careful watch on the size of eggs. When the eggs begin to be smaller, it is a sign laying will soon cease if something isn't done to remedy the situation.

Expanding his flock is in Hammonds' plans. He says 2000 hens would make it profitable to install automatic feeders. He is convinced after three years experience with caged layers that this is a profitable business.

Hammonds figures he feeds about 75,000 pounds of locally grown milo per year, or about one car load. This amount may be doubled soon when he expands.

## Big Losses From Careless Hauling Of Livestock

Careless hauling and handling of livestock can cost producers a lot of money, says U. D. Thompson, extension animal husbandman. A recent USDA study shows the loss from careless hauling of livestock amounts to about \$100 million annually for the nation.

Four major causes account for most of this loss, says Thompson. First, almost a fourth of all trucks hauled either too many or too few livestock. Animals shouldn't be crowded but the load needs to be fairly snug to avoid shifting. Marketing agencies and most truckers have charts which tell how to load according to type of animal and available floor space.

Second, only half of the loads were partitioned by type of animal. Horned cattle were seldom partitioned, resulting in much bruising and crippling. Partitions need to be put between animals of different sizes and types, the husbandman says.

Third, almost 30 percent of the trucks had little or no bedding, leaving the danger of animals slipping or falling. Floors need to be "slip-proofed" with sand, shavings or

sawdust, and a straw covering should be used to absorb moisture.

And fourth, the animals weren't handled properly when loaded and unloaded. Some truckers—and farmers too—used clubs, shovels and sticks. More than half the hogs and a fourth the cattle were mishandled as a result, Thompson says the only proper way to urge livestock along is with canvas slappers or electric prods, as clubs will injure the flesh.

In order to avoid losses, Thompson urges growers to make sure their livestock are hauled by reliable truckers. And be on hand when your cattle, hogs or sheep go into and out of the truck.

### NEWS FROM THE FARM BUREAU

BY RAYMOND EULER

Several Parmer County men were in attendance at the Annual Policy Development meeting in Lubbock Tuesday of this week. This is where legislation and other points of concern to farmers are discussed with a view to preparing resolutions in the county organizations for

presentation at annual conventions. There, the members discuss and vote on the resolutions they believe will be most helpful to farm people. Next week we will try to give some information on the above mentioned meeting.

Senator Andy Rogers, of Childress, was the youngest senator ever to be President Pro Tem and Governor for a day in Texas. (July 9, 1959) He has been one of the best and most influential friends Texas farmers have had in Austin, having introduced and fought for many bills of prime importance to the farmers future.

John T. Flynn, noted economist and commentator, has listed some findings regarding Socialism versus Capitalism that we think may be of interest to you. Since the end of World War II, this has happened: Real wages in Socialist Britain have risen 11 per cent. In Capitalist West Germany they have risen 99 per cent. Industrial production in Britain is up to 70 per cent. In West Germany it is up to 254 per cent. In 1958, Britain produced 100,000 automobiles. West Germany produced 950,000. Output of all goods and services rose 15 per cent in Britain; 115 per cent in West Germany. Last, but not least, top bracket taxes in Socialist Britain amount to 92 per cent. In Capitalist West Germany they are 55 per cent!

To qualify for non-recourse price support payment in excess of \$50,000, wheat farmers must reduce acreage by 20% below their 1959 acreage. It is possible the same requirement may be made of those raising other

### H. D. AGENT'S CORNER

Jimmie Lou Wainscott

Judy Billingsley, Farwell, who was winner of the county 4-H dress review, represented Parmer at the District style show at Amarillo August 7.

Judy modeled her tailored dress to good advantage.

She was accompanied to Amarillo by her mother, Mrs. Leon Billingsley and my self. The show was held in the Blue Flame room of Pioneer Gas Co.

There's something about a sale that seems to arouse a sense of adventure in women—an expectant sort of feeling that has to do with "getting a really good buy."

Right now, many stores are featuring sales of winter fabrics, and summer dresses, and other items. Extension clothing specialists of Texas A&M College point out that as a careful shopper, you can make the most of these special prices to fill gaps in the wardrobe, or add some needed pieces.

Here are some tips offered by specialists for analyzing the situation before you buy a certain fabric or clothing item on

fall seeded crops, including grain sorghums. The USDA will decide.

CONSIDER THIS: As coals are to burning coals, and wood to fire; so is a contentious man to kindle strife. Proverbs 26:21

# Washer\* DISHWATER HANDS

Lovely hands, aren't they? So different from dishwater hands. When you wash dishes by hand — they should be in 150° water for two minutes — think what that does to your hands — even with gloves on. You end all this with an electric dishwasher — it takes the hot water in stride inside the cabinet. Your hands will be smoother, softer, lovelier. Manicures will last longer, too. Don't have dishwater hands — have lovely dishwater hands.

**ATTENTION! HUSBANDS**  
Remember how lovely her hands were before you made a dishwasher out of her? Well, don't let her be a dishwasher — buy one! Reddy's wages to run it will be 1 1/2c a day.

## Mose Glasscock New Committeeman

Maurice (Mose) Glasscock of Farwell is the new member of the Farmer County committee for the Farmers Home Administration. He succeeds Gilbert Kaltwasser of the Oklahoma Land community whose three-year term expired June 30.

Glasscock has farmed in the county for 25 years. He operates a 640-acre irrigated farm with about 200 head of sheep.

Billy R. Boling, local county supervisor for FHA, says "Glasscock's practical experience will enable him to make a real contribution to the county committee's actions when they review loan applications."

Serving with him during the coming year will be Richard Rocky of Black and Earl Stevenson of Bovina.

There is a Farmers Home Administration county committee serving every agricultural county in the country. All loan applications must be approved by the committee before funds can be advanced. The committee also helps the county supervisor adapt the county's loan policies and services to local conditions.

The FHA makes loans to farm-

ers to buy livestock and machinery, to finance annual operating costs, to improve buildings and fences, and to purchase land.

The agency also lends money to farmers or their non-profit associations to establish and carry out approved soil and water conservation practices, as well as for installing and improving irrigation and farmstead water supply facilities.

About 5 per cent of the soil and water conservation loans to purchase land, and loans to improve and enlarge farms are made from funds advanced by private lenders and insured by the agency.

Holding summer rainfall on the land where it falls can mean additional income through better crop and pasture yields, says Jack Barton, extension soil and water conservation specialist, Terraces, farming on the contour and the use of mulches are methods which will help hold rain where it falls. Cover on the land will also aid in holding the moisture.

## SOIL CONSERVATION DISTRICT NEWS

The Farmer County Soil Conservation District Board of Supervisors held their regular monthly business meeting on Tuesday, August 11, 1959. Those present were Chairman A. L. Black, Carl Schlenker, County Agent Joe Jones, Bob Crozier of the SCS and Steve Messenger -- District bookkeeper.

The Board made plans for the annual District Banquet. It is to be the night of September 8 at Farwell provided arrangements can be made for the school cafeteria.

Also, a tour will be planned for the afternoon of September 8.

It is estimated that the cost of installing irrigation tile in this county in 1958 was \$442,911 of which \$121,343 was paid by the government through the Agricultural Conservation Program.

48 Farmer County farmers applied soil-sterilants to 306 acres of bindweed infested

## Tile, Bindweed Control Main ACP Measures

The Farmer County ASC committee is composed of Archie Tarter, chairman; Tom Beauchamp, vice-chairman; Louis Welch, member, and Joe W. Jones, county agent.

An outline of the work accomplished by the Farmer County ASC committee, and Farmers, with the assistance of federal cost-shares in 1958 is shown below:

305 Farmer County farmers installed irrigation tile on their land in 1958 for the purpose of conserving irrigation water. There were 395,457 feet of irrigation tile installed which will conserve, or save for future use, 21,000 acre feet of water per year.

It is estimated that the cost of installing irrigation tile in this county in 1958 was \$442,911 of which \$121,343 was paid by the government through the Agricultural Conservation Program.

48 Farmer County farmers applied soil-sterilants to 306 acres of bindweed infested

areas in order to control this pest and conserve the soil for the future. This was done by the assistance of the government through the ACP.

Other practices carried out by farmers through the ACP are grass seeding, legume seeding, land leveling, establishing sod waterways and terracing of

land. Farmers who desire to carry out an approved conservation practice during the months of October, November or December, should make application during the month of September as the program is conducted (in this county) on a quarterly basis, says Prentice Mills.

## Further Decline Seen For Hogs

In view of prospective supplies, prices of hogs in the winter of 1959 and early 1960 can be expected to be lower than a year earlier, said John G. McHaney, extension economist and T. D. Tanksley, Jr., extension animal husbandman. Production, they say, started upward last year, and may continue upward this fall and well into 1960. For this reason there is little room for optimism for hog prices in 1960.

According to the June pig crop report released by the Agricultural Marketing Service, the 1959 spring pig crop totaled nearly 60 million head. This is 12 percent more than was produced in the spring of 1958 and is the largest spring pig crop since 1951, said McHaney and Tanksley. This means that we are going to have more hogs on the market in the fall of 1959. If producers' fall farrowing intentions materialize, the 1959 fall pig crop will also be large and will probably be exceeded only by the fall pig crop of 1943.

On June 15, 1958, the farmers of Texas received an average price of \$20.70 per 100 pounds compared to \$15.30 on June 15, 1959. This year's prices are expected to remain considerably below those for

last year. This outlook information does not warrant the dispersing of commercial breeding herds as has been done in the past by many Texas producers facing similar price situations, they stated. But, it does mean that Texas hog producers should re-examine their individual hog production program for the possibility of improving the efficiency of their operation. The inefficient hog producer will be the one hardest hit as prices decline.

Producers should consider these points, say the specialists: Make sure that they can either produce or obtain the needed grain at reasonable prices, in view of the price outlook; sell market hogs at lighter weights (around 200 pounds--as soon as they reach market top); cull down to the most productive sows and gilts, (but retain sufficient numbers to make most efficient use of equipment and labor); consider selling heavy sows and keep young gilts; and hog producers should examine their feeding program to be certain that the largest possible number of pigs per litter are being raised and the most efficient feed lot gains.

homemade by dressing it up. Add a little instant minced onion moistened in an equal quantity of water, some big wedges of ripe olives, sliced celery and chopped pimiento for a colorful and delicious salad. Ice water-melon is the perfect dessert.

One of the best chicken salads combines halved grapes, cubes of Calavo avocado and celery with the chicken. Serve in lettuce cups along with ginger sandwiches and whole spiced peaches.

Raisin bread sandwiches make an energy-rich afternoon snack. Combine cream cheese with orange marmalade and finely-chopped candied ginger. Spread over slices of raisin bread and cut into strips.

For a savory dinner bread try this. Spread sliced French bread lightly with mustard flavored mayonnaise mixed with a little grated Parmesan cheese. Sprinkle with instant minced onion and heat in a hot oven until lightly browned. Moisture-free onion is always ready to use right from its container. This bread also is good for outdoor suppers. To prepare, just wrap in foil and brown over coals.

Use olives, capers and anchovies to make salads interesting. For a patio supper salad, add their zesty flavors to chilled diced cooked potatoes and canned green beans, which have been marinated overnight in an olive oil-wine vinegar dressing. Add tuna chunks to make it a whole-meal salad. Serve with chilled sliced tomatoes and garnish with ripe olives that have been rolled in a little oil so they'll keep their glossy shine.

### FOOD AND NUTRITION BRIEFS

When the price of fresh fruit strains your budget, try stretching the fruit with canned fruit cocktail. Fresh strawberries, raspberries, apricots, cherries and other summer fruits combine well with the five luscious fruits from one can. Fruit cocktail saves preparation time, too.

For easy summer dessert, chill canned cling peach slices or halves in the freezing tray of your refrigerator until they are partially frozen. Arrange the peaches in serving dishes, top with a scoop of lime sherbet and sprinkle with flaked coconut.

Add richly-flavored apricot whole fruit nectar to lemonade prepared from frozen concentrate for a delicious cooling drink on a warm day. Serve over cracked ice in tall glasses, garnishing each serving with a sprig of mint.

Luscious canned fruit cocktail heated with a few crushed mint leaves and then chilled, makes a delightful topping for summer desserts such as ice cream, custard or pudding.

On an extra hot day, enjoy a delicatessen supper and relieve yourself of cooking chores. Buy cold meats, fresh tomatoes to slice, potato salad and a crusty loaf of bread. Make the potato salad taste

**BUY LESS**

Do you habitually take a 25 or 30 per cent discount on the personal checks you write?

◆ Many people do . . . without realizing it. It's the hidden penalty they pay for the privilege of taking their trade to some other city or town.

◆ Take a moment to consider the facts: Only about 70 cents of each dollar we spend goes to pay for the actual goods or service

that we get. About 30 cents of that dollar has to cover the expenses of the community where the sale is made . . . to pay the people who work there . . . to return something on the capital invested . . . to help support the civic facilities such as churches, schools, fire and police protection, road and street maintenance, etc.

◆ Of course, when we spend our

money away from home we get no personal benefit whatever from the 30 per cent of it which goes for community business and social improvement.

◆ Doesn't it follow, then, that when we give checks or money for out-of-town purchases, nearly one-third of the amount goes for something we don't get? Isn't that very much the same as discounting our checks or money?

**It Pays to Buy where you Live**
