

A group of "coffee-swiggers" got to chewing the fat the other day and the things which were discussed would've made your hair curl.

Such things as energized wheat, atomized plants of all types and the new fertilizers and from there on.

We sat there and although many of the things which we were talking about are still in the "dream" stage in our nation's labs, it won't be long until such things as growth stimulants may make it possible to get two of the same crops off the same land each season.

Even things such as this will be possible here on the Plains and who knows, someone may come up with a cotton plant that is resistant to hail.

As our fellow coffee drinkers talked about the things which they had heard, we got to thinking.

What of the insects in the years to come?

If our memory serves us right, DDT was supposed to be THE chemical for such insects as roaches, silverfish and other such household pests.

But -- looking back on our days in the GI Village down at A&M we remember the varmits there.

By -- all DDT did to those animals was to make 'em madder.

And, if all these souped-up farm chemicals and plants come our way in the future, and we are sure they will, the insects will become just as fearsome.

Mother Nature has a way with such goings-on. She usually sets up a series of checks and balances -- perhaps Benson could learn a few things from here -- and these checks take care of the "surplus" years.

Things go along pretty well until Man, that two-legged varmint, comes along to mess things up.

We sat there and imagined what would happen if we found ourselves in a situation where the following might happen.

Say that a field had been sprayed from the local jet service with Uncle Hippo's Super Stimulating Growth Hormone containing particles of Y'all-ranium P32.

Along with the crop, the insects in said crop land got a good dose of the spray.

So, out we go to do some chow.

Can you imagine coming around a corner and finding yourself face to face with a Super Stimulated Grasshopper, say about the size of a great Dane?

YeGads!  
Or, going out to milk some morning and after letting the family cow graze on a wheat-field fortified with Hippo's wonder drug finding an udder walking around on four legs.

Wow -- but, we have faith in our people in the research labs and hope that they don't let things get too much out of control.

That's enuff of that, before long we'll be afraid to go home tonight.

\*\*\*\*  
We've added another body to our staff this week.

The newcomer is Miss Judy Smith, daughter of Mr. and Mrs. Ralph Smith of Friona. Judy will write us a column each week in the future dealing with the things of interest up at Friona High School and the goings-on in general of our young people.

Glad to have you with us, Judy.

\*\*\*\*  
We were sorry to hear a couple of weeks ago that Porter McGee and his daughter, Portia, had moved away from Friona and down to Abilene. But this week while visiting with Bill Hannold we looked up and who should walk in, yep there was Port.

Glad to have seen you Porter, come by and visit with us again before long.

\*\*\*\*  
We knew that our "In the Courts" column would get us in trouble one of these days. It hasn't been too long that our name appeared in it, but this past week we really goofed. Hurrying down the list of "offenders" last week we overlooked the name of the guilty party and placed the name of the arresting officer in our column. Ugh!

(Continued on page 5.)

NEW DIRECTORS OF CHAMBER--Newly-elected directors of the Friona Chamber of Commerce and Agriculture are seated in the community room of the Friona State Bank. They are left to right, Newman Jarrell Jr., Deon Awtry, Charles Allen, Steve Bavousett and Earl Chester. Wright Williams is the other new member of the board.

## Six Directors On Chamber Board

Six new members of the Board of Directors of the Friona Chamber of Commerce and Agriculture were informed of their election and took part at a meeting of the board Monday noon, in the school cafeteria.

The six new board members include Charles Allen, Newman Jarrell Jr., Steve Bavousett, Earl Chester, Deon Awtry and Wright Williams.

All were present with the exception of Williams who was out of town attending the Fort Worth Fat Stock Show.

Following the noon meal, the group retired to the community room of the Friona State Bank for the business session.

Banquet expenses were discussed and it was voted by the group to charge \$3 for the

banquet tickets this year.

The banquet is slated for February 24 at 7:30 p.m. with Jack Lacy, manager of the Amarillo Chamber of Commerce, the guest speaker of the evening.

Tickets were ordered to be printed for the occasion and these will go on sale the last of the week.

J. C. Claborn was named chairman of the ticket-selling committee for the banquet.

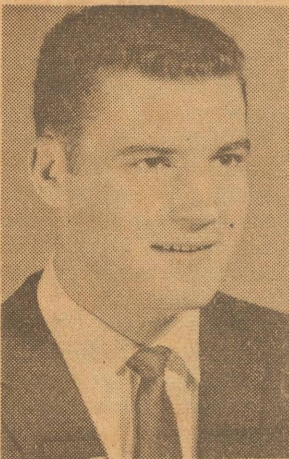

In addition to naming the officers for the coming year at the banquet, an Outstanding Man and Outstanding Woman of the Year will be named at the banquet.

These people will be presented to those in attendance at the banquet and will be presented with engraved plaques signifying their honor.

An anonymous committee of the CoC&A is working on naming this Outstanding Man and

Woman and they will remain unknown until the evening of the banquet.

Members voted to make the first Monday in every month a regular meeting date for the board. Time and place will be announced.

KIM CAFFEY

## Kim Caffey Alternate To Air Academy

Kim Caffey, son of Mr. and Mrs. Dalton Caffey of Friona, has been chosen an Alternate Candidate for an appointment to attend the United States Air Force Academy.

Caffey, a senior in Friona High School, received notice of his alternate appointment from the Hon. Walter Rogers this week.

Sen. Rogers' letter, in part, is as follows:

"I am delighted to advise that I am today submitting my nomination of you as an alternate candidate for Cadet in the United States Air Force Academy. You will soon be advised by the Department of the Air Force Academy as to the procedure to follow regarding the Academy's physical and scholastic entrance examinations.

"Should it follow that you are entered in the Academy I want you to know that I as well as my office, will be most anxious to be of whatever help we can. Please call on us any time should the occasion arise.

"With sincere congratulations on your future accomplishments, I remain,"  
Walter Rogers

## FHS Seniors To Sponsor Chili Supper

A Chili Supper will be held Tuesday night in the high school cafeteria, sponsored by the senior class of Friona High School.

The supper will begin promptly at 5 p.m. and will be over in time for the ball game that same night.

Included on the menu will be chili, salad, coffee, pie and cheese spread.

Adults will be fed at a charge of \$1 per plate and 75¢ for children.

Proceeds from the supper will go to the senior class.

# Council to Take Bids On Fire Truck

Following discussion with Fire Chief Reuben Taylor and Assistant Chief Ralph Shirley Monday night members of the Friona City Council approved a motion to ask for bids on new fire truck for the city.

The two firemen told the councilmen of the need for the new truck, bringing out that such a vehicle would help in the insurance breakdown of the city and make available additional water for disasters in case of fires.

Such a vehicle was estimated to cost, completely equipped, in excess of \$12,000.

Bids will be taken by the council on the chassis of the truck, which will be paid for and the equipment will be purchased over a period of years, the payments being paid for by the 25 cents which comes in each month from each water

meter in the city.

At the present time the firemen told the city it would only cost of the city an extra \$1500 to purchase the truck chassis.

This chassis, which will cost an estimated \$4,500, will be paid for by money which the water meters have brought in this year, and the money which the fire department didn't use out of this year's budget, plus the \$1,500 the city will have to make available.

The truck which the firemen feel the city needs is of the 750-gallon per minute class of pumps, which is 250 gallons larger than the big truck now in the fire department.

In other business councilmen approved a bid of \$1,710 from the Kurtz Steeplejack Service of Tulsa for the cleaning and painting the inside of the ground

storage and elevated storage water tanks.

It has been several years since the tanks have been reconditioned and Kurtz showed councilmen pictures taken inside the tanks pointing out several severe rust scars.

Kurtz told the council he will begin work on the tanks within the next six weeks and would be through with them before warmer weather when the big demand for water in this area begins.

A long discussion on the matter of the approval of the Jones Addition plat occupied the council also Monday night.

Despite the fact the plat has been filed for record, the plat was never approved by either the city planning and zoning board, nor the city commission.

After investigation of the minutes concerning the Jones

addition it was found that apparently no alley was dedicated between the Jones and Turner Additions were provided for, and because of this the board and the commission failed to approve the plat.

This matter was referred back to the planning and zoning board for their action and investigation.

The council will then act on the plat at their next meeting.

A tentative budget was discussed at length, and with the adjournment of the meeting it was decided to have City Manager Albert Field make certain changes in the budget and set it for approval at the next meeting.

Councilmen present at the meeting included Ralph Smith, Mayor R. L. Fleming, Glenn Reeve and Forrest Osborn.

## Public School Week Occupies Trustees

Public School Week, and plans for the observance of this event occupied the greater part of the regular meeting of the board of trustees of the Friona Independent School District Monday night.

Public School Week will be observed March 2 through March 6 in the Friona schools and will be climaxed by Dedication Services and an Open House and refreshments Sunday, March 8.

Working with the school officials during the observance of PSW, members of the Progressive Study Club of Friona have indicated they will have on display an estimated 500 volumes of books which they hope to interest the people of the school district.

The books will be on display at the school during PSW, and the study club will have persons on hand to show visitors and parents the books.

If the visitors find some books in the group which they would like to give to the school's library they may do so and the book will carry the donor's name and the name of the per-

son in whose memory the book will be given to the school.

Other plans will be announced prior to PSW.

In other business the board approved a new payroll plan at the school which will simplify the present bookkeeping system.

The new system was recommended by the school's auditor, S. T. Cummings of Canyon.

Construction of the new bus barn was reported on by Dilton M. Kelley. The building is expected to be finished by early spring.

The board gave their approval for the purchase of \$500 worth of living room furniture to be placed in the Home Economics rooms.

The appointment of the textbook committee was approved and includes the following faculty members: Raymond Cook, Tom Jarboe, Baker Duggins, Kelley, Carmaleet Witt, Pearl McClain, Ruth Ede Imon, Jo Phillips, Emily Jo Barnett, Dorothy Rowlett, Jo Anne Hairgroves, Margaret Duggins, Vera Hays, Jewell Woodward and Mr. and Mrs. Sam Green.

## Jesse M. Osborn Gets Legislative Committee Posts

Hon. Jesse M. Osborn of Muleshoe, State Representative from the 96th District received the following legislative committee appointments for the current session of the Legislature:

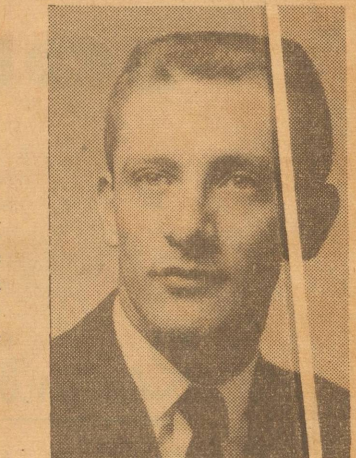

Vice-Chairman of Committee on Banking,  
Member of Committee on Conservation and Reclamation,  
Member of Committee on Game and Fish,  
Member of Committee on Penitentiaries and  
Member of Committee on Appropriations

Selection of committees and their announcement was made by Waggoner Carr, of Lubbock, Speaker of the House of Representatives.

## Patrons To Serve On Play Jury

Something new in school plays will be the feature of the evening when members of the Thespian Troupe of Friona High School present "Night of January 16th" in the high school auditorium on Tuesday evening, February 17.

There have been plays before with vague endings, but this is the first one in which the audience

DON LEWIS

## "Collegiates" To Be Here

"The Collegiates," a musical group under the direction of Don Lewis, son of Mr. and Mrs. Henry Lewis of Friona, will be presented at a program Saturday night in the school auditorium.

Sponsored jointly by the Modern Study Club and the Senior Class at FHS the proceeds will go toward club projects and the Senior Class fund.

Billed as a musical variety show, The Collegiates will give instrumentals, vocals and even Rock 'n Roll numbers for the audience's pleasure.

Tickets are being sold by all members of the Senior Class and are \$1.50, reserved seats, \$1, general admission and children, 75 cents.

The show will begin at 8 p.m. in the high school auditorium.

WINTRY SCENE--This scene was taken in front of the C. L. Lillard residence on Sixth Street in Friona Monday afternoon during the snow and ice. Apparently C. L. always forgets to turn off his lawn sprinkley and it always makes a beautiful sight.

## Friona HS Looking For Missing Books

Got any books at home that aren't yours?

If so, look inside the fly leaf and see if the book doesn't belong to the library of Friona High School.

In the past ten years the school's library has a record of some 200-odd books which have come up missing.

If these books, or any part (Continued on page 5.)

## MOD Total Hits \$861 In Friona

With a few coin containers remaining to be picked up and some pledges out, Mrs. Raymond Euler, Friona fund chairman for the March of Dimes announces that a total of \$861.71 has been contributed in Friona, compared to last year's total of \$327.29.

This is a good response to the National Foundation's expanded program which in addition to polio, includes, arthritis, birth defects and diseases of the central nervous system.

With the newly-expanded research program it is hoped to accomplish as much for these cripples and their victims as has been done for polio in the past.

"Coffee Day", sponsored by Bi-Wize Drug, Earl's Cafe and Sherman's Cafe netted \$88.55; The coin collectors netted \$118.29; The Friona 4-H Boys collected \$15.34 in rural areas. The Telethon on Channel 12, sponsored by the local Volun-

teer Fire Department and aided by the prizes (from two pair of socks to a stainless steel broiler pan) contributed by approximately 35 of our local merchants netted \$162.62; Friona Schools donated \$301.42, netted from a basketball game, cake sale and the individual envelopes distributed to the students; a coffee given by Mrs. J. F. Miller and Mrs. Raymond Euler netted \$18.66, and the Mother's March netted \$156.83.

In addition to the above total, Black Community contributed \$202.93 and Rhea Community contributed \$168.05 to date.

Mrs. Euler wishes to express to everyone who contributed in any way her sincere appreciation. Those who presented the talent on the Telethon Saturday night aided greatly, as did the child who put her penny in an envelope and brought it to school to help those who are less fortunate than most of us.

### News From RHEA

MARILYN POTTS

Mr. and Mrs. Walter Schueler attended a birthday party in Levelland Saturday evening honoring her grandmother, Mrs. E. H. Woolever, on her 75th birthday.

Mr. and Mrs. Herbert Schueler visited in the home of Mr. and Mrs. L. H. Hoffman of Hereford Friday evening.

Mr. and Mrs. Pat Palmer and family of Hobbs spent Saturday night in the home of Mr. and Mrs. Cordie Potts and children. Mrs. Palmer and

Potts are sister and brother. Several members of the Lutheran Church attended a church leadership banquet at Amarillo Sunday evening. They were Mr. and Mrs. Raymond Schueler, Mr. and Mrs. Ray Martensen, Mr. and Mrs. Florian Jarecki, Mr. and Mrs. Walter Schueler, Mr. and Mrs. Melvin Sachs, and Rev. H. A. Stroebel.

Mr. and Mrs. Billy Jack Gibson, Donnie and Sherry spent last weekend in Childress visiting Mrs. Gibson's parents. Irene Drager of Lubbock spent the week at home with her parents, Mr. and Mrs. Albert Drager, and had some dental work done.

Seem not greater than thou art.

### HD CLUB HAS REGULAR MEET

Mrs. Herbert Schueler was hostess to the Monday meeting of the Rhea Home Demonstration Club, which met in her home. The program on flower arrangement was presented by Mrs. Walter Schueler.

A chili supper was planned for February 27. A game session followed the program. Refreshments of cookies, coffee, and hot chocolate were served by the hostess.

Those present were Mesdames Billy Jack Gibson, Joe Brown, Elmer Deyke, Ray Martensen, Jack Patterson, Herman Schueler, Herbert Schueler, Franklin Bauer, Shirley Smith, and Carl Schlenker.

One father is more than a hundred schoolmasters.

### COUNTY SUPERINTENDENTS DISCUSS CAFETERIAS

Superintendents of the four school districts in Parmer County met in Bovina Wednesday to discuss their respective cafeteria programs.

A regular monthly affair, the superintendents meet to discuss problems found with each of the schools and best meet these problems.

Those attending included Dilie Kelley, Friona; Warren Morton, Bovina; James Ward, Lazbuddie and Jack Williams, Farwell.

CHARLEY GETS A WATCH--C. S. "Charley" Bainum receives a handsome engraved watch from Fire Chief Reuben Taylor at the Firemen's Banquet Thursday night. Bainum served the Friona Volunteer Fire Department as a member and chief for about 25 years.

### Charley Bainum Receives Watch From Firemen

Charley Bainum was the guest of honor at the Firemen's Banquet held Thursday night in the school cafeteria.

Following the meal, Charley, as he is known to most of the "fireboys," was given a handsome engraved watch by Chief Reuben Taylor in recognition of his many years of hard work in behalf of the Friona Volunteer Fire Department.

Following the presentation of the watch, Raymond and Francis Euler presented a film on the March of Dimes to those present.

Firemen were asked for volunteers to work on the Telethon which took place Saturday night and the meeting was dismissed.

### Training Meet

### Slated Monday

An all day recreation training meeting will be held at the club house Monday, February 9. Phyllis Sanders, and Jessie Douglas, who have attended a training school sponsored by the extension service for home demonstration club members, will have charge of the program for the day.

The program will be based on "It's Fun To Be A Leader." Games and handicrafts will be included. There will be a covered dish luncheon at noon. All women who are interested in Girl Scouts or Cub Scouts are invited to attend. The leaders encourage everyone who is interested to be present whether or not they are currently leading a troop or den.

# Spelling Bee Winners Named

Six winners and four alternates were named following the annual spelling bee in the Friona Schools Tuesday morning.

Winners in the Junior Division included Karen Osborn, first; Larry Squires, second; Joyce Houlette, third.

Top winners in the Senior Division included Brenda Deaton, first; Amelia Valverde, second and Andrea Milligan third. Junior division saw both Darrell Anthony and George Rushing finishing in a dead heat for that honor, followed by Chuch McKinney second alternate.

Alternate in the Senior Division is Carolyn Herring.

The top winners in both divisions will now compete with top winners from the schools in Lazbuddie, Bovina and Farwell later this spring and the county winners will be named at that time.

## Shower Honors

### Mrs. Troy Young

At the home of Mrs. Calvin Martin Tuesday afternoon a pink and blue shower honored Mrs. Troy Young. Refreshments of white cake and pink and blue icing and punch were served by the hostesses, Mesdames Calvin Martin, Clarence Martin, Larry Martin, and Coy Jeter.

Those attending and sending gifts were Mesdames Ronald Smiley, Wendell Sikes, Gene Bracken, Bertram Jack, Elton Wily, Alta Wily, Bob Wily, A. H. Hadley, Newell Harper, Grace Hart, and Ed Walters; Also Mesdames James Pope, Noah T. Young, C. H. Veazey, H. G. Houston, Oscar Baxter, Bill Baxter, Louis Baxter, Jim Baxter, Sterling Graham, J. W. Baxter, J. L. Stowers, T. E. Blackburn, Leonard Pope, Everett Jack, and Glenn Floyd.

Mr. and Mrs. J. C. Stout and daughter, Carol, of Modesto, Calif., spent several days last week visiting in the home of Mr. and Mrs. James Procter and sons, Ronnie DeWayne, and Billy Ross. Stout and Procter are cousins.

BUY YOUR CHAMBER OF COMMERCE BANQUET TICKETS NOW!

## Party Honors

### John Baker

John Baker, son of Mr. and Mrs. J. G. Baker, was honored with a party in observance of his tenth birthday in the family home on West Fifth Monday afternoon.

After a game session directed by Mrs. Baker, refreshments were served. Those present besides the guest of honor, were Joe Bob Mann, Joe Murphree, Gene and Bill Weatherly, Roger Simmons, Don and Johnny Koover, Don Ready, and Kenny Squires.

## Club Has

### Music Meet

The Tuesday evening meeting of the Progressive Study Club featured a music program. The quotation, "Music is well said to be the speech of angels," was used. The meeting was opened with prayer directed by Thelma Johnson.

Roll call was answered with choice classics. Pat Nichols and Betty Louise Rector discussed the old and new masters -- Wolfgang Mozart, Claude Debussy, Richard Rodgers, and Oscar Hammerstein.

The hostesses, Juanez Green and Jo Nettles, served refreshments to 18 members and four guests, Joy Lindeman, Shirley McReynolds, Sarah Barber, and Jackie Crozier.

After the meeting Mr. and Mrs. Raymond Euler showed a March of Dimes film. The next meeting, which will be a chuckwagon buffet honoring husbands of the members, will be held Monday, Feb. 9.

# Hi School Hi Lites

By Judy Smith

Friday, January 30, the S. F. C. sponsored a basketball game between the faculty and the senior boys. The proceeds went to the March of Dimes. A cheering section was provided by the women teachers. The members of the section were dressed in a gay regala and did a very fine job of cheering their team on toward winning the ball game.

The teachers won with a score of 11 to the seniors 4. The teachers playing on the team exhibited most unusual uniforms. Among the uniforms were a football suit worn by Mr. Bentz, a convict's apparel worn by Mr. Smith, and overalls displayed by Mr. Capps. Following the game the high school students participated in a cake auction also sponsored by the S. F. C. The Juniors were the luckiest class winning six cakes. All in all much fun was had by everyone and the proceeds went for a good cause, too.

FHS seniors are busy selling tickets for the approaching show featuring Don Lewis. Tickets have been selling rapidly, so it would be wise for those planning to attend to buy their tickets as soon as possible.

Thespians are also busy selling play tickets. Saturday night 16 Thespians and Mr. and Mrs. McClean went to Hereford to see Troop 896 present "The Night of January, the 16th." The play was presented in the courthouse which was quite appropriate since the play itself is a courtroom scene. The play

## License Plates

### Now On Sale

Motor vehicle license plates went on sale in Parmer County February 1.

Sale of the plates has been brisk, Lee Thompson, county tax assessor-collector, says, but he reminds vehicle owners that they must bring their vehicle title and last year's license receipt with them when they buy new plates.

It's a state regulation that we have these two things before we register a vehicle," Thompson points out, "and we, here in the office, have to comply with it."

Mrs. Vanderdam was giving a bridge party when the patter of tiny feet was heard from the head of the stairway.

"Hush," she said, softly. "The children are going to give their goodnight message. It always gives me such a sentimental feeling to hear them."

There was a moment of tense silence; then shrilly: "Mamma! Percy found a bedbug!"

## CONGRATULATIONS

## THE BULWARK OF A COMMUNITY IS ITS CHURCHES

# A THOUGHT FOR THE WEEK

## THE CHRISTIAN TEACHER

One of the greatest factors in the growth of the Christian religion is the teaching and the teachers which are an integral part of Christianity -- Many of God's most noble servants are those men and women who give of themselves to instruct others. As a tribute to these teachers, I would like to share with you some factors in Christian teaching.

1. A Christian teacher is one who, having experienced a personal relationship with God through faith in the atoning merits of Christ the Savior, brings to others things new and old in such a way that they cannot deny that he is speaking from experience as well as knowledge.

2. The initial aim of the Christian teacher is so to present Christ as Savior that he who is taught may believe, accept and pass from death unto life.

3. A second aim is to lead the pupil to a knowledge of God's will.

4. Another is to develop a Christian character which will be expressed through worship, right living, and efficient service.

TRAX --

Our sincere apologies Charlie Skinner. Skinner is a highway patrolman out of Hereford and sure 'nuff last week we had him down as being fined for being a "drunk pedestrian." Oh, well, we didn't want to drive toward Hereford anymore anyhow.

"TO SAVE REGULARLY" . . . that is the resolution many people claim as their own. It's fun to live up to it, too. Save while your income is up, so you'll have the money to buy the things you want later on.

## Dinner Honors Oscar Baxter

A birthday dinner in the home of Mr. and Mrs. Troy Young and daughter, Jan, Sunday honored Oscar Baxter. Those present, besides Mr. and Mrs. Baxter, Carolyn, Willene, and John, were Mr. and Mrs. Noah T. Young, and Mr. and Mrs. Ernest Beavers;

Also Mrs. J. L. Stowers and daughter, Ineta, Mr. and Mrs. H. G. Houston and Debie, Mr. and Mrs. C. H. Veazey and Pam. Afternoon callers were Mr. and Mrs. Lee Capps, Gary and Craig.

Sunday dinner guests in the home of Mr. and Mrs. Larry Martin and children were Mr. and Mrs. Calvin Martin, Mr. and Mrs. Clarence Martin and children, and Mr. and Mrs. Eugene Nidey and daughters.

## It's A Boy

### For McCabe's

Mr. and Mrs. Jim McCabe of Dawn became parents of a baby boy at 3:30 p.m. Friday at the Deaf Smith County Hospital in Hereford. He weighed 7 lbs. 13 1/2 ozs. and was named Stanley Virgil.

Stanley's grandparents are Mr. and Mrs. Lloyd Shulk of Friona and Mr. and Mrs. H. V. McCabe of Dawn. He has a brother, Tommy, who is almost two.

Mrs. Paul Hall entertained friends with a party in her home Tuesday afternoon. Mrs. Bebe Walker was a special guest. Cheese cake and coffee were served by the hostess.

Others present were Mesdames Marion Fite, Les Crews, Deon Awrey, Ralph Wilson, H. C. Kendrick, Mack Bainum, Danny Mack Bainum, Charles Allen, Cordie Potts, Bob Rule, Walter Schueler, Herbert Schueler, and Carl Schlenker.

## Steve Eckstein Is Guest Speaker

Guest speaker at the meeting of the Modern Study Club at the club house Tuesday evening of last week was Steve Eckstein, who is professor of religion at Eastern New Mexico University at Portales. His topic was "Story Of The Jews."

Husbands of the members were guests. Special guests were Mr. and Mrs. Nelson Welch and Mrs. M. B. McKinney. Hostesses were Jane Williams, Ethel Ruth Spring, Fay Reeve, and Cornelia Kelley.

Refreshments were served to 53 persons.

## Two Couples Plan Joint Anniversary

The 55th wedding anniversary of Mr. and Mrs. Howard Elmore and the 25th wedding anniversary of Mr. and Mrs. Dick Rockey will be observed with open house at the Black Community House from 2 p.m. to 5:30 Sunday, February 8.

All friends and neighbors of the two couples are invited to attend, but it has been requested that no gifts be brought.

## Baby Boy For Whites

Mr. and Mrs. Henry White of Plainview became parents of a baby boy at the Plainview Clinic December 27. He weighed 6 lbs. 1/2 oz. and was named Don Henry. The Whites, who are former Friona residents, have an older son, Ronnie.

Grandparents of Don Henry are Mr. and Mrs. W. M. White of Friona and Mr. and Mrs. E. D. Matlock of Plainview.

## CATHY ALLEN HAS SURGERY

Mrs. Randol Allen and daughter, Cathy, and Mrs. Charlie Wise returned home Tuesday of last week after spending a week in Dallas. Cathy, who will be three months old next week, was a surgical patient at Baylor Hospital there about a week.

Cathy had plastic surgery and is making satisfactory progress. Mrs. Allen and Cathy plan to return to their home in Lubbock next week.

## Club Members Honor Husbands

Husbands of members of the Friona Woman's Club were special guests at the Wednesday evening meeting of the club. A sunset supper was served at the club house. Mrs. S. E. Beaton, vice-president, introduced the guest speakers.

Steve Bavousett spoke on water conservation and Jay Sanders showed some Soil Conservation Service films. A vote of appreciation was extended to these two by the club members.

After the supper and program, the evening was spent playing games. Hostesses were Mesdames O. F. Lange and Bob Rule.

Newspaper classified columns indicate that quite a number of formerly amateur painters, carpenters, masons--possessing skills learned in their own home do-it-yourself jobs--are now for hire. Home-owners employing them help bolster demand for building materials.

As one hi-fi dealer put it: "A man who acquired audio equipment with overtime or bonus money may not buy as many gadgets now that his extra income has been curtailed, but he's still not going to throw his hobby out the window, particularly since he now has more time to enjoy it."

A STRANGER ASKS MR. MILQUETOAST TO DO HIM A LITTLE FAVOR

## 'EARLY MORNING' FASHIONS

Look your best at the breakfast table--that's one way to get off to a good start in the morning. And this is easy enough these days, thanks to pretty new cotton flannel brunchcoats and dusters. These "early morning" fashions have the new chemise and trapeze silhouettes as well as the traditional princess and peignoir lines. Most of them are patterned in gay floral prints trimmed with harmonizing collars and cuffs, but there are still plenty of checks, stripes, and plaids for those who prefer the more tailored styles. Deep inverted pleats and low-waisted belts offer back interest, while deep rounded yokes also are plentiful. Brushed fringe, rick-rack braid in an accent color, novelty stitching or embroidery, and piping often accent the yoke line. Actually, the brunchcoats and dusters are pretty enough to double as dresses to wear out in the yard, for emergency chauffeuring chores,

## Hereford Man Jailed Here

A Hereford man has been arrested and put in jail by Farmer County sheriff's department. He is charged with failing to comply with terms of his probated sentence.

Manuel Cavala is in jail at Farwell waiting for a hearing before District Judge Bill Street. He was convicted of theft in district court last March and was sentenced to two years and placed on probation.

He was convicted of stealing sheep in Farmer County.

The hearing is scheduled for the latter part of this week or next week.

J. D. Lane, the second part arrested in Bovina Implement Co. burglary case, has been turned over to Hale County Sheriff's department after his bond was set at \$3000 by Farwell justice of the Peace J. K. Thornton. Lane is from Amarillo.

Junior Yates, who was arrested earlier in connection with the Bovina burglary, was also released to Hale County authorities after his bond was set at \$2500. The men are also charged with an earlier burglary in Plainview.

There is a warrant out for the arrest of still another man who is suspected of being an accomplice in the burglary.

## PATRONS SERVE --

Patrons serve an integral part in its development and conclusion. With Pat Cranfill playing the part of Karen Andre, on trial for murder, the jury, selected from the audience is given the problem of deciding her guilt or innocence.

Patrons may leave their names as candidates for jury duty as they enter. Before the performance these names will be given to the clerk of the court, who will place them in a drum to be drawn by lot to determine who will serve.

The entire play will be presented in the form of a murder trial and will be a duplication of an actual court in session. Tickets may be obtained from any member of the Thespian Troupe.

## MISSING BOOKS --

GOES AND GOES AND GOES ON A GALLON!

Biscayne 4-Door Sedan shows the Fisher Body beauty of Chevrolet's lowest priced series for '59.

**CHEVY'S NEW HI-THRIFT 6**

More miles are back in a gallon of regular-grade gas--up to 10% more--and Chevy's new Hi-Thrift 6 engine puts them there. It also gives you more "git" in the speeds you drive the most.

Here's an engine that always seems able to coax extra miles out of a tank of regular-grade gas. In fact, if you're one of those drivers who keep tab on things like gas mileage, you'll soon see for yourself that this new Hi-Thrift 6 gets up to 10% more miles a gallon.

Another thing you'll like about this 135-h.p. 6 is the extra pep it gives you for passing and climbing hills. This is due to higher torque at normal speeds.

It may be hard to believe anything that looks and moves like this '59 Chevy can be such a stickler for economy. But--whether you pick the Hi-Thrift 6 or a vim-packed V8--this is just one more reason Chevy's the car that's wanted for all its worth. Stop by your dealer's and see.

**in and around FRIONA**

WITH JUNE

So much has been said and written in the past few years about "teen agers" that some young people have been lead

to believe that anyone between twelve and twenty needs special attention. In some cases this may be true, but in our opinion those in this age group are not much different from those older or younger.

Of course, a pre-school age child's needs and wants are different from those of a first or second grader. The same principle holds true of all persons of different age groups. Perhaps too many of us who are older are to quick to condemn the activities of high school students.

If, before we made any criticism, we would stop and seriously consider the activities of our high school age citizens, many of the criticisms would never be made. In spite of the fact that most of our boys and girls in this age group have a lot of energy and make a lot of noise, most of them are basically solid.

Those of you who doubt this statement might think of the many many things that have been done in our town and community during the past few years. In most cases, regardless of the project, the high school boys and girls come through and do their share if not more.

From our observation it seems that most of the girls and boys attending high school today have a more cooperative attitude than did the same age group 25 years ago. Just recently in a conversation with a young lady who was moving away we were deeply impressed with her attitude.

The Clark Carters were moving to Dumas after having been here several years. One of their daughters, Joy, who was a freshman in high school, has long been one of our favorites in that age group. She came in the office to have the address changed on the Friona Star.

In our conversation with her, she said, "I surely do hate to move away from Friona. However, I know that I will like living up there when we get acquainted with the kids in school. I wasn't happy about changing schools when we moved here, but have enjoyed living here very much."

Her tone of voice and the expression in her eyes showed that she sincerely meant every word she was saying and fully intended to take advantage of every opportunity to become a part of the school in which she was about to enroll.

How many of us who have been out of high school 20 or 25 years would have had such an admirable attitude?

Recently we ran across an item that was originally printed in a high school paper in the city of Grant, Michigan, and has been re-printed in several publications. Reading it has caused us to seriously reflect upon the attitudes of parents. The title of it is IF PARENTS WOULD Sometimes it's parents who keep teenagers from talking

things over. Here is a list of suggestions that would help parents avoid unhappy barriers between them and their children.

- (1) Give us credit for being as grownup as we are.
- (2) Listen and talk to us with respect as if you were our friend as well as our parent.
- (3) Give us good reasons for rules, instead of saying "When I was your age," or "because I say so."
- (4) Wait until you hear our whole explanation before jumping to conclusions and saying "no" to a request.
- (5) Don't make us afraid to tell you the truth or to ask you a difficult question.
- (6) Discuss mature matters with us. This makes us feel more responsible.
- (7) Honor our confidences. When we tell you something, don't air it over the whole neighborhood.
- (8) Be as courteous to us as you expect us to be to you.
- (9) Please, Please, ----- DON'T LAUGH AT US.

Something new has been added. Those of us who live west of town have been enjoying our road paved about six years now. The pavement really "took us out of the mud" and made us feel quite "citized."

But since Friday of last week, we've really got "big town-ish." A crew of highway department employees and a string of machines came over the hill from the west about noon Friday and left behind a broad white stripe. Now our road is striped just like state and national highways.

A newscaster made this remark recently, "It would be wonderful if our opportunities looked as big coming toward us as they do going the other way."

Mr. and Mrs. Louie Welch and children, Gil, Shannon, and Tina, of Houston were weekend guests in the home of Mrs. Nora Welch.

**Rhea Bureau Collects \$145 At Supper**

A total of about \$150 was collected at a Pie Supper in the Parish Hall in the Rhea Community Friday night, sponsored by the Rhea Community Farm Bureau.

Following a cake walk for the youngsters Judge Barker, of Friona, was called on to auction off several pies and cakes.

After the auction pie, coffee and hot chocolate was served to those present.

Jack Patterson, president of the Rhea Farm Bureau, and chairman of the Rhea March of Dimes committee presided at the meeting.

**NIDEYS MOVE HERE**

Mr. and Mrs. Eugene Nidey and daughters, formerly of Campo, Colo., have moved to a farm northwest of Friona. Mrs. Nidey is the daughter of Mr. and Mrs. Calvin Martin and lived here before her marriage.

A man apt to promise is apt to forget.

# THE HIGH PLAINS FARM AND HOME

## Interest Rate Increased By FHA

Farmers Home Administration has increased its interest rate to private lenders under the insured farm loan program from 3-1/2 to 4 per cent. Walter T. McKay, the agency's state director, advised that this change was made to encourage more lenders to advance funds for insured loans in order to meet the needs of qualified applicants throughout the nation.

The insured farm loan program encourages the use of private capital in place of direct government loans. Through this program private lenders can advance funds to eligible farmers for the purchase of land, for building and land improvement, and for domestic and irrigation water systems. In addition to the 4 per cent paid the lender, the borrower pays the government 1 per cent for insuring and servicing the loan. Although the amortization period of the loan may be up to 40 years depending on the purpose for which the loan was advanced, the lender, at his option, may have the note redeemed by the government at any time after five years. The note, held by the lender, is negotiable and may be assigned to another investor at any time.

"The insured farm loan is an attractive investment for private lending institutions and individuals and has been well received here in Texas," McKay states.

"In fact, 928 of our more recent real estate loans totalling \$8,926,000 were made from funds provided by private credit sources. We anticipate that raising the rate of interest to lenders to 4 per cent will result in a substantial increase in lender participation and thereby enable Farmers Home Administration to meet the credit needs of more farm families."

## Cotton Plan Discussions Scheduled

Three meetings have been scheduled in Parmer County to discuss A and B plans which cotton farmers are being offered this year.

Prentice Mills, manager of ASC, and Joe Jones, county agent, will conduct the meetings. "We'll try to be prepared to answer all the questions farmers have to ask," Mills says.

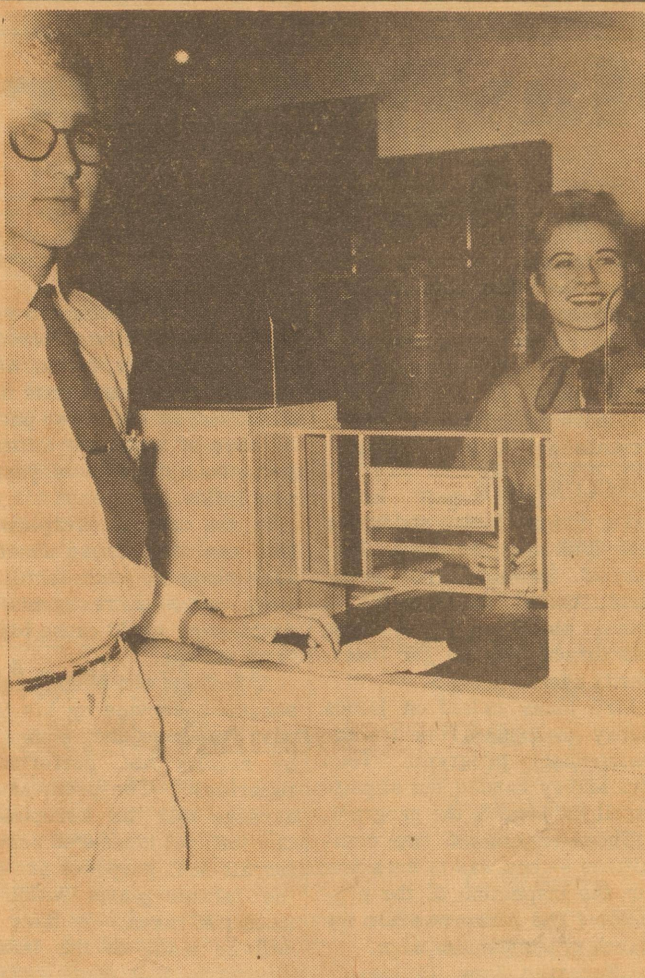

The first meeting will be at Lazbuddie Thursday, February 12. It will be in the school auditorium and will begin at 2.

The second session will be at Hub community building Monday, February 16. It, too, will begin at 2.

The third and final meeting will be at the school in Bovina. It will be Monday night, February 16, and will begin at 8 p.m.

Mills says it is hoped that all farmers in the county will have an opportunity to attend one of the three centrally-located meetings.

The ASC manager also reports that he hopes to have the support price on maize by February 16.

MONEY IN THE BANK--and it's there because of the efforts of Parmer County 4-H Clubbers. Cooper Young, above, deposits \$233 to the MOD account at Security State, as Doris Ford happily makes receipt. Cooper, a Lazbuddie 4-H Club boy, served as secretary of the county-wide charity effort.

FUN ON THE FARM can still be found by the younger generation when they're looking for it. Pattijon Talley is held up by her mummy to grasp a long icicle hanging invitingly from the eave of the Talley farm home.

### SOIL CONSERVATION DISTRICT NEWS

OUR SOIL - OUR STRENGTH

Last week the SCS technicians were busy getting jobs underway. Surveys were made and information gathered on two proposed waterways. One is located on the J. J. Harper farm east of Friona, and the other on the D. T. Patterson farm in the same locality.

Ellis Tatum is planning to start a leveling job on the Guy Caldwell farm north of Friona. As soon as he has finished staking the field the SCS will make a survey and determine the yardage to be moved.

Several farmers wanted assistance to improve their methods of irrigation. They were Sloan Osborne, Tom Beauchamp, E. M. Jack, Owen Maulden and Homer Horner.

New cooperators with the District are T. O. Lesly, Tom Beauchamp, Archie Tarter, R. Q. Silverthorn, Edmond Schlabs, Elmer Lowrie and D. Clark & Eubanks.

SCD and SCS are different although their initials are somewhat similar. The Soil Conservation District (SCD) and the Soil Conservation Service are distinctly different agencies.

An SCD is a specified area in which a group of farmers and ranchers have banded together in a democratic fashion to practice soil conservation.

The SCS is a federal agency which lends technical assistance to members of and SCD. The District or SCD elects its own officers and administers its own affairs.

The SCS renders its services free upon request from land owners or operators submitted through the District Board.

Soil like freedom is not appreciated until it is endangered.

## 1959 Cotton Quality Bests 1956, Pfeiffenberger Says

Quality wise, the 1958-59 Texas High Plains cotton crop was one of the best on record, George W. Pfeiffenberger, executive vice president of the Plains Cotton Growers, reports this week as he released the seventh and final quality report on cotton statistics.

Out of the two million bales harvested on the High Plains -- statistics show that white cotton accounted for 71.3 per cent of the crop with 59.2 per cent strict low middling white and above.

"Light spotted cotton totaled only 25 per cent and 16.5 per cent of that was middling light spot and better. Full spotted cotton was only 21/2 per cent," Pfeiffenberger said.

The average staple length on the Plains 1958 crop was 31/32 inch with 25 per cent measuring one inch and longer. Only 8 1/2 per cent fell below 15/16 inch.

The micronaire average was

4.0 with 81 1/2 per cent above the tenderable micronaire limit of 3.5 and the majority of the crop, or 51 per cent fell between 4.0 and 5.0.

The Pressley fiber strength averaged 74,600 pounds per square inch with 44 per cent testing between 75,000 and 90,000 pounds.

Pfeiffenberger says that uniformity in grade, staple, micronaire and Pressley makes this crop much better than even the quality crop of 1956 and one of the best ever produced on the Plains.

The only sure thing about luck is that it will change.

### COUNTY 4-H CLUB NEWS

#### 4-H CLUB MEETS, PLANS PROGRAM

Tentative plans for the annual Achievement Day program were made at a recent meeting of Parmer County 4-H Club members. Definite details were not completed, but the program will be held during the month of February, reports a member of the organization.

The meeting was called to order by Joe Jones and Judy Billingsley, secretary, read the minutes of the past meetings. A discussion was also held about a contribution to the March of Dimes. It was decided that members would participate in a rural march Saturday, January 24.

Joe Jones, Virginia Rea and Barbara Rea were in charge of the program and they gave a demonstration of "Parliamentary Procedure." Pat Obrien

### THE PARMER COUNTY IMPLEMENT CO.

"The Place Where Most People Trade" Friona, Texas Wednesday, February 4, 1959

Mr. and Mrs. Hoyt Smith and son, Danny, left Friona by train the first of the week for Lansing Mich., where the Smiths will pick up their new Oldsmobile. They will visit in Chicago a few days and then go to Erie, Mich., for a short visit with Mrs. Smith's sister before they drive home.

International trucks have an exceptionally long and useful life. One of the reasons is the availability of genuine IH replacement parts. For the best kind of repair service call the Parmer County Implement Company at 2091 in Friona.

Extra happy parents are the W. H. Awtreys, who have a new baby boy in their family of three girls, and the A. W. Anthonys with a new baby girl added to two boys. Also the Dale Houlettes, who have their son home to stay. He had been staying at the hospital until his weight reached five pounds.

Congratulations to Clarence Martin. Clarence was the Parmer County winner in the pounds of DeKalb raised per acre.

Arthur Drake is driving his fifth new Oldsmobile purchased at the Parmer County Implement Company. Arthur says it takes more money "to boot" now to buy a new car than it did "for cash" when he bought his first Oldsmobile. Of course, he's sure got more car now, too.

Mrs. Deke Kendrick was in Lubbock Tuesday for a meeting of the membership nominating committee of the Cadrock Girl Scout council. Mrs. Kendrick is chairman of the committee.

We're headquarters for Farmall. Right for any job, this tractor really eats up the acres, but is easy on the fuel. Phone 2091 or come in soon. We'll show you what we mean.

Saturday night at eight o'clock in the high school auditorium Don Lewis and the Collegiates from Midwestern University at Wichita Falls will present a musical variety show. Tickets may be pur-

From The Man Next Door: If the old-fashioned family doctor has disappeared from the scene, perhaps it is because he's out looking for the old-fashioned family.

Science has, at last, determined the completely safe time to criticize your neighbor's children -- when yours are grown.

Farm equipment is our business and we'd enjoy helping you get the most out of yours. If it's parts you need, we've got them. If you're thinking about a new tractor, we can help you there, too. Why not stop in next time you're in town. Let's talk equipment.

Lonnie McFarland from Pierre, S.D., has been visiting here with his mother, Mrs. J. B. McFarland, and with other relatives and friends. Also with his son and family, the John McFarlands of Farwell.

Mrs. Deke Kendrick was in Lubbock Tuesday for a meeting of the membership nominating committee of the Cadrock Girl Scout council. Mrs. Kendrick is chairman of the committee.

We're headquarters for Farmall. Right for any job, this tractor really eats up the acres, but is easy on the fuel. Phone 2091 or come in soon. We'll show you what we mean.

Saturday night at eight o'clock in the high school auditorium Don Lewis and the Collegiates from Midwestern University at Wichita Falls will present a musical variety show. Tickets may be pur-

chased at the door and reserved seats may be purchased from any member of the senior class.

The new truck tire by Goodyear, Hi-Miler X - tra grip, gives x-tra traction, x-tra mileage, x-tra quiet, x-tra utility, and x-tra safety. It's better for mud and snow. Ask about our trade-in prices.

Don Wallace of Kimberly, Idaho, thought up an easy to carry syphon tubes. He slung an old truck inner tube over his shoulder and found he could carry 70 or 80 syphon tubes in this handy sling. Rubber keeps the tube from slipping and distributed the weight evenly.

Several Friona folks were on the TV March of Dimes program over KICA at Clovis Saturday night. The ones we saw were Janet Mings and Tinker Dunn tap dancing; Sharon Reeve and her grandmother, Mrs. F. W. Reeve, playing the flute and piano; Nancy Outland, Pamela Roden, Sue Baxter, and Mary Jane Grubbs twirling batons, and the boys quartet, Kim Caffey, Bobby Daniel, Floyd Reeve, and Johnny Miller, singing.

Nonchalance is the ability to look like an owl when you have behaved like an ass.

Before you buy a tractor, new tires or tubes, grease guns, syphon tubes, a pick up, a fan belt, spark plugs, battery, air cleaner, anti-freeze, tractor heater, brake lining, or beautiful new Oldsmobile, better check the prices at the Parmer County Implement Company.

# May Measure In Advance

Any farmer who wants to be entirely sure of compliance with his cotton allotment for 1959 may have the acreage measured in advance of planting. This service which is offered to all producers of cotton is called "premeasurements," says

### 4-H CLUB NEWS

The Friona Junior and Senior 4-H Club met Tuesday, January 23. Dewain Phipps, president, called the meeting to order, and then the meeting was turned over to Joe Jones, county agent.

Mr. Jones called on James Mabry to explain the tractor maintenance program. Then Mr. Mabry handed out slips to enroll the boys in the program.

Then we elected two committees -- one was to set a date for the inspection of the projects. The other was for the March of Dimes campaign.

Reporter Joey Taylor

Prentice Mills of the county ASC office.

Every year there are some farmers who either exceed or underplant their cotton allotments through inaccurate measurement on their own part or because of incorrect information about the size of permanent fields.

In the case of overplanting, this can often cause unnecessary expense for fertilizer, seed, and soil treatment. Underplanting could cause loss of farm income.

A farmer who used premeasurement service on his farm pays to have the work done by regular ASC performance reporters. The premeasured acreage will be accepted as the official measured acreage for all ASC purposes provided the farmer plants within the measured area. A later trip will be made to the farm to determine that these require-

ments have been met, but in most cases an additional survey will not be required.

Premeasurement may be requested by application to the county ASC office by not later than March 15. The farmer will be asked at the time of application to deposit sufficient funds to cover the cost of the work.

The fee for premeasuring cotton acreage in Parmer County is \$12 for the first plot premeasured plus \$4 for each additional plot.

The judge was lecturing the village drunk for the umpteenth time.

"And now, Elmer," he said, "I don't expect to see you here again--understand?"

"Why, Judge Evans!" said the man with surprise. "You resignin'?"

Those pretty evergreen trees on so many Parmer County area farmsteads don't pop up as if by magic. They require a little elbow grease. Showing how to apply some (it's really an iron-bearing solution to nourish the tree) is Mrs. James Mabry of the Hub community. The Mabrys have used Red Cedars obtained from the Great Plains Field Station at Woodward, Okla., to beautify their already-attractive farmstead.

## Tree Order Deadline Draws Near

The approach of an order deadline, plus a shortage of seedlings this year, has prompted County Agent Joe Jones to urge residents to get orders in now for evergreen trees to be planted on their farmsteads this spring.

Official deadline is March 1, but the supply of trees may be exhausted before that time.

The use of evergreens as functional and beautifying additions to farms is on the increase. Their cost is very low, and the effort required to raise them is repaid many times over for the years of service and beauty that they provide as they grow.

Order blanks can be obtained from the county agent's office. Cost of the trees is only \$1.25 per hundred. Austrian Pine, Red Cedar, and Ponderosa Pine are the varieties available.

phases that would take too much space for explanation in this column. If they are passed, they will protect out of state markets for Texas livestock, which is important to every farmer as well as livestock producers.

H.B. 22, by Hale, McGregor and Spears, if passed, would cost the state an additional \$80 million per year, and the local districts \$20 million a year. This bill would provide an

across the board pay raise of \$800 per year for all Texas teachers. It would also extend the school year from nine to nine and one half months with the districts having the option of extending the term to ten months.

To this writer, extending the school term is rather foolish when holiday periods generally are being increased each year. Of particular interest to all rural Texans is the bill to give equal rights for electric co-ops to service rural areas, and in other fields where they have established service not formerly available.

Ever since we can remember, Texas Farm Bureau has been trying to get a tax bill passed on natural resources, namely, natural gas. The bill, as introduced, would provide an additional \$41 million revenue to the state.

If you favor this bill, it would be well to write your senator and representative of that fact. The natural gas lobby has strong representation against it. Write

Senator Andy Rogers and Rep. Jesse Osborn. Farm Bureau has representatives there, but they will need lots of help on this one.

There is a bill intended to take funds from the permanent school fund, which is like selling a quarter of land to pay the taxes on the other three quarters. Farm Bureau from every county opposes this proposal. . . . Division of commissioner's precincts by population is also being pushed with Farm Bureau opposition. We hope you will keep up with doings in Austin this session. Some people are planning some things that may do irreparable damage to Texas citizens.

CONSIDER THIS: Confidence in an unfaithful man in time of trouble is like a broken tooth, and a foot out of joint." Proverbs 25:19.

"Does your husband talk in his sleep?"  
"No, and it's terribly exasperating. He just grins."

## Grain Sorghum Research Conference Scheduled

What promises to be one of the most significant meetings in the history of Great Plains agriculture is scheduled March 3 and 4, at the Herring Hotel in Amarillo.

A grain sorghum research and utilization conference designed to bring together research and development scientists from throughout the nation, who are studying the utilization of grain sorghum through livestock, industry and export outlets, is the attraction.

Being held in connection with the two-day conference are meetings of the National Grain Sorghum Research Committee, the Grain Sorghum Utilization Committee and the annual meeting of the Grain Sorghum Producers Association.

A list of some of the nation's leading agricultural researchers will attend, according to Bill Nelson, vice president of the Grain Sorghum Producers Association, who is

chairman of the two-day program.

It is expected that the material presented by the researchers and grain industry leaders will be used as background material for the Association's domestic and foreign market development activities.

There is little arguing about the importance of grain sorghum to the Parmer County area. It is farmed on more

than a quarter million acres in the county and is not only by far the biggest crop acreage - wise, but also produces more cash gross than any other crop -- somewhere around \$13 million.

No official figures are available for accurate comparisons, but judging from the most reliable estimates available Parmer County is the leading county in the state (probably in the nation) in the production of grain sorghum.

beverages; and starchy foods, such as macaroni, dry peas and beans.

You get a lot of food value at low cost in dry beans and peas. A pound of dry beans, for example, will provide seven to nine hearty servings, according to extension foods and nutrition specialists.

Beans and peas go well with meat and other foods. They are easy to store and use. With different seasonings, they make an almost endless variety of tasty dishes.

Look at the food values they offer. Rich in carbohydrate content, which your body uses for energy, they also contain some B vitamins, and are good sources of calcium and iron. And along with all of this, they provide useful protein.

To get the most good from the bean-family foods, plan to serve with some grain food, like bread, or some meat, cheese or other animal protein. Baked beans with brown bread, pork and beans, and chili con carne are popular flavor combinations.

Save time, if necessary, by using a pressure cooker to cook dried beans or peas.

### THE FARMER FARMER

by W. H. Graham Jr.

By all odds the tractor is regarded as a blessing to American farmers. The harnessed power of the modern "work-horse" of the farm has put

American farmers ahead of every other agricultural region in the world.

Yet by a curious quirk of events, the mechanization of our farms at times seem to be more of a bane than a blessing. Speaking literally, the tractor is not responsible for the astronomical increases in farm production that have taken place within the past decade.

Improved seed, the practice of commercial fertilization, the application of irrigation water to supplement natural rainfall, a big improvement in transportation and hauling -- these and many other factors play a hand in making the farmer of our nation the most efficient producer on earth.

However, for symbolic purposes, the silhouette of the big, powerful tractor flashes in the mind of the person who thinks of American farm productivity. The tractor is the central machine around which all other marvelous farm devices orbit.

The invention of the reaper, and the invention of the cotton gin are in bold type in the pages of history. It is true that these devices mastered specialized motions that had been wedded to hand labor ever since the dawn of civilization and that the problem of power was already "solved" by horses and mules in the field and by water and steam at the mill or gin.

However, that doesn't prevent today's farmer from judging his success as a tiller of the soil by the kind of tractor he owns. Urbanity has its counterpart to the rural phenomenon in that the city-dweller judges the success of himself -- and his neighbors -- by the kind of car he drives, even though in absolute terms a car is nothing more than transportation.

Within the past 10 years there has been much upgrading in the manufacture of American tractors. Each year's models produces more power than those of the former years. More than just brute strength, however, has been added a host of features that have put tractor driving out of the "man-killer" class it sometimes used to be.

We have known farmers to seriously injure their health as they stayed with the day-in, day-out pounding of the Iron Mule. Others sound themselves physically unfit to even attempt

the jarring job of guiding the machine over a rough field for hours at a time.

Today's tractor, though, is a far cry from the three-wheeled "torture machines" of not too many years ago. The biggest difference is the improvement in the ride itself. The demand is almost universal for an independently mounted and balanced seat that isolates the jar and pitch of the machine from the operator.

Power steering is popular on autos but it's selling good down on the farm, too. Time was when a rock, clod, or some other obstruction in the path of the front wheels would transmit an arm-wrenching shock to the driver, sometimes almost knocking him from his perch. Better linkage improved this a lot and power steering, where used, has eliminated the problem.

Many a farmer has risked frostbite to his fingers and toes riding a tractor on a cold day here on the Plains, and drivers are still anything but immune from the effects of the weather. However, the covering and heating gadgets now commonly applied to tractors at least makes the conditions bearable, if not comfortable.

The buying public has gone hog-wild over automatic transmissions in cars and the idea seems to be taking hold on the farm, too. Torque converting mechanisms are receiving great play in the sales pitches of machinery manufacturers.

Auxiliary units called "power take-offs" have been with us for many years, but have become more useful, more flexible, with each passing year. A farmer can just about do anything he wants to with a tractor, if he's willing to pay to get the machine properly equipped.

Prices of manufactured products are going up all the time, and that includes the price of tractors. This is the only fly in an otherwise very nice jar of ointment.

It would be a mistake, though, to judge today's tractor against the one made 10 years ago -- or, for that matter, five years

ago. Today's machine is far more productive.

Although price is a major consideration in the contemplated purchase of any item, farmers should apply the logic of businessmen (and farmers ARE businessmen) to the matter of price:

"It isn't so much how much a machine costs. The important thing is how much it is worth."

Mechanization is the touchstone of High Plains agriculture.

### Martin Best DeKalb Raiser

Clarence Martin of Friona has been presented the first place award for Parmer County in DeKalb's 1958 national sorghum yield contest.

This award presentation was made to Martin at DeKalb's annual yield award banquet held

January 29, in the Hilton Hotel in Plainview. Winning official Yield was 8263.74 pounds per acre made with DeKalb Variety F-62a.

The corn state winner was Gene Ezell of Bovina with a yield of 136.49 bushels per acre.

The national DeKalb winner was Roger Heim of Modoc, Kansas with a yield of 11,988.99 pounds per acre with DeKalb F-62a. (irrigated).

### H. D. AGENT'S CORNER

Jimmie Lou Waincott

Have you made snow ice-cream this year? The snow this week was ideal for making very good cream. It even freezes real good. My recipe is as follows:

#### SNOW ICE-CREAM

1 egg  
1 small can evaporated milk  
3/4 cup sugar  
1/2 t. vanilla

Beat the egg until thick and fluffy. Add the other ingredients and beat until well mixed and the sugar dissolved. If you wish you can use a can of sweetened condensed milk instead of the condensed milk and sugar. Add enough snow gradually until it is thick and fluffy. Beat with the mixer the entire time.

A training meeting was in my office last Thursday on "Growing Shrubs and Trees from Cuttings." Each Home Demonstration Club was to have one

I made cuttings of roses, mahonia and forsythia showing how to make the cuttings and then planted them. Then the care was discussed. They are to be planted in sand or unfertilized soil and watered once a week. If you are interested in doing some of this then write or call me for the bulletin on this subject.

COOKING FOR WEIGHT WATCHERS

Any weight watchers in your family? If so, you, the cook, can be a big help by planning and preparing foods to cut calories.

Here are some suggestions offered by extension foods and nutrition specialists:

- Use non-fat, dry milk solids for cooking. Reconstituted dry milk solids heated and combined with vegetable liquors are good in soups.
- Keep desserts simple. Serve fresh fruits or canned and frozen fruits packed in water or juice -- not syrup.
- Roast or oven or pan-broil meats, poultry and fish instead of frying in fat. Avoid "bread-ing" and use of egg batters on foods. Trim extra fat from the meat.
- Serve salad materials plain

### Farmers, Here's Facts About COTTONSEED DELINTING

By the wet acid process you need to know!

Your seed can be fuzzy, Flamed, gas delinted, saw delinted or wet acid delinted.

We recommend the wet acid process.

#### Here's Why:

- Seed stays in contact with the acid for a period of only 30 seconds or less.
- Water is used to neutralize.
- Does not eat the bags.
- Wet or green seed can be safely delinted.
- Can be safely stored and used for a period of several years.
- Does a more thorough job on angular leaf spot and other seed borne disease prevention and control.
- Heat is used only to dry seed after the acid has been washed off.
- Planting 12 pounds per acre, the cost is less than 10 cents per acre more than using the regular acid process.
- More uniform planting.
- More even stand.
- Quicker emergence.
- Plant faster.
- Get bigger yields.
- Gravity table floats out the weak seed.
- Treating prevents seed rotting even in cold damp weather.
- No sticks, stems, or lint to clog up the planter.
- In warm soil seed will sprout in 12 hours--a stand can be had in 4 days.
- Less moisture required for germination.
- For only one lb. of lint cotton per acre you can have your seed delinted using the wet acid process--the safest of all types of delinting.

A phone call will get you complete details

### HUB DELINTING PLANT

CHEMICAL DELINTING BY WET ACID PROCESS  
MECHANICAL DELINTING USING SAWS

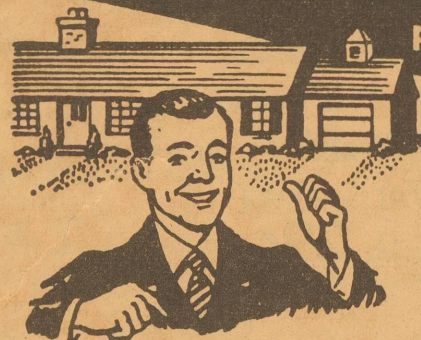

1. Would you like to put tile on your farm?
2. Would you like to put down another well?
3. Would you like to build or improve your farm?
4. Or would you just like to have more money, with a long term pay off with low interest.

Check with us for a farm loan, we can make it on good terms.
