## Happy Is The Day When Backache Goes Away . . . .

Nagging backache, loss of pep and energy, headaches and dizziness may be due to slow-down of kidney function. Doctors say good kidney function is very important to good health. When some everyday conditions, such as stress and strain, cause this important function to slow down, many folks undergo a backache—feel miserable. Minor bladder irritations due to cold or wrong diet may cause getting up nights or frequent urination. Don't neglect your kidneys if these conditions bother you. Try Doan's Pills—a mild diuretic. Used successfully by millions for over 60 years. It's amazing how many times Doan's give happy relief from these discomforts—help the 16 miles of kidney tubes and filters flush out waste. **Colorado Popular Vacation Spot For Many Midlanders**

By BILL COLLYNS  
"Why didn't you stop by to see me when you were in Walsenburg, Colorado?" ask Ben Rogers, Midland oil man, when we saw him in a downtown coffee shop here Tuesday afternoon.  
And about that time, up walked Jack Bodkins, another oil operator, to inquire if we had seen his grandson while we were in Denver.  
"But you probably wouldn't have recognized Chips anyway since he has gotten a burr haircut since returning to Denver," Jack added quickly.  
"We probably crossed trails somewhere up in Colorado," said Clarence Nelson, realtor, and others who recently have been vacationing in Colorado.  
"Did you get up into Minnesota?" asked Leif Olson. The answer unfortunately was "No."  
"Did you see old so-and-so up that way," is another query which has been asked several times since our return.  
**How About Rain?**  
But the most popular question has been, "Why didn't you bring some of that rain home with you?" The fact that we didn't attract the moisture back down this way is the one regrettable thing about the Collyns' 1951 vacation tour. Maybe we should try again. The Proctor brothers, Foy and Leonard, said they surely would like to see some of the moisture we saw on the trip, right here in Midland. Others would, too.  
Anyway, Reporter-Telegram readers have been more than kind and generous in commenting on the travelogue columns we airmailed back to this newspaper while on our

annual five-state vacation trip. Thanks.  
But back to Ben Rogers and his question, with which we led off this yarn.  
**Unaware Of Fact**  
We are sorry that at the time we were not aware of the fact Ben has a place near Walsenburg. Had we known it, Mr. and Mrs. Rogers likely would have had to set three extra places at the dinner table. One eats pretty heavy while on vacation, too.  
That likely would have made no difference to Ben, who says he can catch a big mess of fish most anytime in the stream which rushes right by his cabin, which is situated in the hills about 20 miles southwest of Walsenburg. He has had the place, log cabin and all, the last several years, and the Rogers spend two or three months there each Summer. He is returning to Colorado just as soon as he winds up some business affairs here.  
**Country Is Dry**  
Although we found the country south and north of Walsenburg to be pretty dry, Ben tells us his country is wet and green. It seems the Rogers and numerous other families from over the U. S. maintain Summer homes at this particular spot. And Ben tells us The Reporter-Telegram, which he places in a public reading room after finishing with it, is quite popular with the citizens of the community. Thanks again.  
Ben, by the way, may get to vote twice next year. It seems that when one registers an automobile in Colorado, he is entitled to vote there. Quite a drive just to cast a ballot, however. But the Midlander still has not established his Colorado residence sufficiently to be entitled to kill a wild turkey there.  
In a release from Colorado Springs, we mentioned something about asking Frank Williamson of Midland, who has a ranch near Walsenburg, how to pronounce Huerfano, the name of the county in which Walsenburg is located. Well, Ben straightened us out on that too. Simple when you know how.  
Tuesday's mail brought a card from the Butler Hurleys who are vacationing in Colorado Springs, Denver and Estes Park.  
And Bill Laine, brother of Newsman Tanner Laine, is vacationing in Santa Fe, N. M., with his family.  
C. C. Manager Delbert Downing and family also vacationed recently in the Santa Fe Country.  
These Midlanders really do get around.

**LOST 70 POUNDS WITH THIS HOME RECIPE**

Barcostrate is the original grapefruit juice recipe for taking off ugly fat. It's simple. Just go to your drugstore and ask for 4 ounces of liquid Barcostrate. Pour the contents into a pint bottle. Add 12 ounces of canned grapefruit juice. Then take just two tablespoonsful twice a day. That's all there is to it. If the very first bottle doesn't show the simple, easy way to lose bulky fat and help regain slender, more graceful curves—if rotatable pounds and inches of excess fat don't just seem to disappear almost like magic from neck, this, arms, bust, abdomen, hips, calves and ankles, just return the empty bottle for your money back. No starvation diet with Barcostrate.  
**Lost 70 Pounds**  
"I have lost a total of 70 pounds taking Barcostrate and am feeling fine," writes Mrs. J. A. McBoe, Box 58, Devine, Texas.  
**Lost 10 Pounds**  
"I am very much satisfied with Barcostrate. I lost 10 pounds in 2 weeks," writes Mrs. Albert Stevens, 1455 E. Van Duren, Brownsville, Texas.

**Carnie, Bitten On Tongue By Snake, Denies Suicide Try**

ELION, N. Y. —(AP)—A carnival worker insists he was not trying to commit suicide—that it was "all part of the act" when he put the head of a diamond-back rattlesnake in his mouth last month.

"I must have gotten careless that night and the rattler struck," explains 30-year-old George Morgan of Camden, N. J.

Morgan is recovering in Elion Hospital from the effects of the bite on the tongue that almost cost him his life.

"I flatly deny there was any suicidal intent the night I was bitten," he said in a statement issued at the hospital.

Police had quoted several carnival employees as saying Morgan had been despondent and had said he wanted to die after his brother was killed in the Korean fighting.

Dr. Arthur Leistyna, a physician who attended the World War II veteran, reported that shortly after he was bitten July 19, Morgan wrote two notes indicating he did not wish to live. At that time, Morgan's vocal chords were paralyzed.

Police said A. B. Sutton, owner of the snake show where Morgan worked, told them Morgan was not supposed to work with poisonous snakes.

Said Morgan: "I was working with the 'hot' ones since I joined the show, and putting them in my mouth during the second spiel. x x x It was all part of the act x x x."

He said he held the snake's jaws shut while performing the stunt.

**Air Force Suspends Call-Ups Of Officers**

WASHINGTON —(AP)—The Air Force, finding itself top heavy with officers, is halting temporarily call-ups of officers from most of its volunteer reserves.

An Air Force statement said Tuesday night procurement of officers in recent months outpaced enlistments. Officials could not say how long the suspension will last.

**Auto Salesman Dies Of Gunshot Wounds**

EDINBURG, TEXAS —(AP)—Earl P. Fertch, 53, McAllen automobile salesman, died here Tuesday of gunshot wounds police say were self-inflicted.

Fertch died less than 24 hours after police said he shot and killed Mrs. Dorothy K. Buster, pretty red-haired waitress, in her apartment, then turned the gun on himself.

# DADDY RINGTAIL

By WESLEY DAVIS

WANT SOME PLEASANT CHEWING ACTION? WRIGLEY'S SPEARMINT-SATISFACTION!!

## Daddy Ringtail And This Is It

The riverboat floated and floated on down the river, sometimes where the water was deep and still, sometimes where it ran fast and white between rocks as big as a house. On each side of the river were tall trees, or fields of flowers, and grass that was green. Sometimes too our friends in the boat could see buffalo and deer and other kinds of forest animals.

It was happy vacation time, so wonderful that Mugwump Monkey could hardly believe it. "Daddy Ringtail," said Mugwump, "will it be vacation time when we have floated on down the river to the sea?"

Daddy Ringtail smiled to hear these words. He looked at Mother Ringtail where she sat in the river-boat, and she smiled too. The Hufen Puffen did not smile because he was asleep.

"Oh, now, Mugwump," said Mother Ringtail. "This is vacation time right now. We don't wait until we come to the sea." But Mugwump shook his head. He knew about vacation time. Why, vacation time is something everyone knows about, then you go somewhere for fun—to do something you don't get to do when it isn't vacation time.

"That's right," said Daddy Ringtail. "When vacation time has come, then you go somewhere for fun, all to do a something you don't get to do when vacation time isn't here." Mugwump was happy indeed to hear it, and then he whispered to Mother Ringtail what it was he had

always wanted to do when vacation time had come at last. Could he do it that very night? Could he?

"Ah me," said Mother Ringtail, "and of course you can do it tonight if you want to." Well, of course, Mugwump wanted to do it that very night, and so he shouted "Yippee!" because now he was sure that the happy vacation had really come at last. "Of course it has," said Daddy Ringtail. "This is it!" But you will never guess what it was that Mugwump wanted to do that vacation night, and so I will tell you tomorrow. Happy day!

**STALIN HAS HIS WORRIES, TOO**—As you can see, above, there's trouble all over the map in the Iron Curtain countries. Discontent, grumbling and even violent resistance to Communist oppression give the masters in the Kremlin plenty of headaches. They're in no danger of a revolutionary overthrow, of course. They still have all the guns. But there's enough serious unrest possibly to make Stalin & Company do a little rejiggering of their timetable for world conquest.

**French Explorers Believed Dead In Deep Ice Crevice**

PARIS—(AP)—French polar explorers apparently have given up hope that two of their members who fell into an ice crevice Sunday still are alive. Headquarters of the French polar expedition in Greenland said rescuers had worked their way 75 feet down the crevice to where the vehicles in which the two were riding had plunged. It is believed that the men, Jens Jari of Denmark and Alain Jost of France, tumbled farther to a depth of 150 feet. Additional rescue equipment was parachuted to the expedition team Tuesday night and the rescuers prepared to climb down to the bottom of the crevice.

**War Plant Savings Cited By Committee**

WASHINGTON—(AP)—Senator O'Mahoney (D-Wyo.) Wednesday said retention of World War II government plants and factories may have saved taxpayers more than \$2,000,000,000. O'Mahoney is chairman of the Senate Appropriations subcommittee holding hearings on a \$40,000,000,000 military appropriations bill for operating the defense establishment during fiscal 1952. The senator said "some 60 per cent of peak capacity for production of ordnance and chemical supplies for the Army" was retained after World War II. The plants, he added, originally cost \$2,400,000,000. Gregory I, who was a follower of Benedict and was made pope in 960, was the first monk to take the papal office.

**Careful Diet Helps Eliminate Formation Of Kidney Stones**

By EDWIN F. JORDAN, M.D.  
 Written for NEA Service  
 Several months ago after writing a column on kidney stones in which I remarked that diet was often important in lessening the possibility of the formation of new stones, several people wrote asking for the details of such a diet. One even said that he had four stones removed and that their composition was calcium phosphate and calcium oxalate. It is not possible to describe a diet which would be suitable for all persons who have had trouble with kidney stones. The most important reason is that there are several kinds and the chemicals entering into their structure are different and consequently they need different kinds of diet. But it is also true that people differ from one another in other respects besides the chemical composition of kidney stones: some are fat, some thin, some are young and others are old, some may have diabetes or another condition which would affect the kind of diet they should have. Kidney stones, of course, are not really "stones" at all. They are chemical compounds which have crystallized out of the urine because the latter no longer carries them in solution. They form in some part of the kidney, usually a sort of open space known as the pelvis. Also they grow little by little and do not appear suddenly as fully formed masses. This slow growth generally means that symptoms are not produced for years, and indeed it is not unusual to find them unexpectedly in an X-ray film taken for some entirely different reason. It is usually when the stone starts to move (which it may never do) that real trouble starts. Most of them have sharp, ragged edges, and as they begin to move down the urinary passageways they cut into the delicate tissues producing bleeding and pain that is likely to be terrific. In fact this pain is often really unbearable and may take several injections of morphine or similar drug before the victim can do anything but writhe in agony. In a way there are two stages of treatment. The first is the problem of the particular stone which is passing. Often the stone is eliminated by itself but sometimes its passage has to be aided by one or more of the methods which are now available to speed its course. The next step is to find out if there are any more stones still in the kidneys, to analyze chemically the one passed, and to advise the patient with regard to diet and other measures which may lessen the danger of similar trouble later. The public law of the United States revolves largely around (1) the Federal System; (2) the written Constitution; and (3) the judicial construction of written Constitutions.

**Action On Pecos Cab Application Expected**

PECOS—Action is expected from the City Council August 14 on a proposed application for two additional taxicabs. The request was delayed for "further investigation" by the council. Filing the application was Susano S. Lara, Latin American owner of two cabs in operation on a temporary permit issued 14 months ago. Lara is asking the city to issue a permanent permit for four cabs. Registering a protest was J. H. Arthur, owner of the only other taxi company here, the Pecos Cab Company. Arthur holds a permit for 10 vehicles but claims there is enough business only for seven cars. Therefore, he says, Lara should not be granted a new permit. J. M. Preston, attorney for Arthur, told the council that in controlling the taxicab business, "you are controlling a public service." If the field is overcrowded, he said, Lara's request should be refused. Counsel for Lara was Richard L. Toll, who presented a petition signed largely by neighboring farmers to the effect that Lara is doing their Mexican laborers a "good service." Toll observed that Lara's customers are almost exclusively Latin American, indicating that there is a definite need for more cabs to serve the Latin American citizenry as well as the transient laborers during cotton season.

**Wanted By Optimist Club: Tools, Kids To Man Them**

Craftsmen tools and youngsters to learn how to man them are needed by the Midland Optimist Club, which is putting the finishing touches to its Boys Workshop, located at New York Street and Lamesa Road. The workshop itself is a large barracks, moved from Terminal to its present site. Both the site and the building were donated by the City of Midland. A work session by members of the Optimist Club Saturday is expected to accomplish considerably more toward converting the building to its new purpose. The Optimists will report at 2:30 p.m. in work clothes and have been asked to bring along any tools they might have around the house. Any other civic minded persons who have tools to donate for the use of the boys who are to be enrolled in the workshop may contact any member of the club, or especially the chairman of the boys work program, who is Jimmie Valvin. He may be reached by dialing 4-4822. Articles Needed Here is a list of some of the items needed: Levels, nail pullers, planes (jack), one-fourth inch drill and stand and kit, hand grinder, miter boxes, nail pullers, nail sets, glass cutters, putty knives, paint brushes, framing squares, rulers, tri-squares, wood rasps, bevil devil, gun tacker, extension clamps, Firaxite, wood screws, lindium knives, lathe knives, router, flexible shaft machine, blow torch, soldering irons, chisels, drills and bits, augers, planes (block router), screw drivers, pliers, vises, tap and die sets, clamps, hack saws, key-hole saws, tin snips, sanding machine, hand saws (rip and cross cut) calipers and hatchets. Classes for boys 12 years and older will be organized soon in the following: drafting, artistry, book-keeping, salesmanship, estimating, show card printing and power equipment operation. The club's purpose in the workshop is to provide wholesome pastime for youths and at the same time to teach them a trade which may be followed in later life. Interested youngsters may contact Valvin for further information.

# Ben Hogan To Play In May's Meet

CHICAGO — (AP) — A bonanza of \$12,500 for the winner has lured one of golf's greatest fields, headed by Ben Hogan, to promoter George S. May's so-called "world" championships starting Thursday at Tam O'Shanter.

A group of 64 pros, including all the leading money winners plus 10 foreign entries, aim for the game's biggest jackpot.

Second place is worth \$5,000, third, \$3,000 and the prize list which totals \$50,000 scales down to \$200 for fourth.

Playing along with the 64 pros for the "world" title will be 10 amateurs topped by Frank Stranahan. This makes a total men's field of 74.

There also is a women's "world" section with the big name pros, led by Babe Zaharias, Patty Berg, Marlene and Alice Bauer and Louise Suggs, featured in a field of 20. The total purse is \$4,100, with a \$2,100 payoff to the winner. The list tapers down to \$100 in cash or merchandise for the last eight places.

Both men and women compete Thursday through Sunday on a 72-hole medal basis.

The first phase of the Tam O'Shanter meet—the All-American tournaments—ended Sunday with Cary Middlecoff, Mrs. Zaharias and Stranahan winning their respective divisions.

The entry of Hogan, three-time National Open champion who has shunned May's frolic since taking the Tam O'Shanter "world" crown in 1947, adds necessary luster to the 1961 field.

# Cats Pushed Away From Top Division

By The Associated Press

The four top Cats suffered a telling blow when the last-place Shreveport sports arose to blast them, 8-6, and thwart their bid for fourth place, Tuesday night. The Cats are in fifth but lost a game to fourth-place San Antonio.

San Antonio rallied to nip Oklahoma City, 5-4. They now are a game and a half ahead of the Cats.

Dallas and Beaumont met in another first division battle and the Eagles came off second best. The Roughnecks nipped the Birds, 6-5, with a ninth-inning run scored on a squeeze play. The victory cut the Dallas lead in second place to one game.

The Houston Buffs, coasting along with a 10-game lead, whammed Tulsa, 5-1, to make it unanimous for the home club. Mike Clark hurled a seven-hitter for the Buffs while Les Fusselman paced an 11-hit Houston attack.

# Pro-Am Golf Tourney Set For Ranchland Hill

More than 100 golfers from throughout Texas will convene at Ranchland Hill Country Club next Tuesday for the West Texas Pro-Am Golf Tournament.

The 18-hole, one-day tournament is scheduled to begin at 11 a.m.

Abe Beckman, Ranchland Hill golf pro, urged all Midland golfers to register Sunday and Monday in order that the tournament will not be slowed up on the day it is to be played.

Pros and amateurs will be paired off by humpers drawn from a container.

The founder of Detroit, Mich., Antoine de la Mothe Cadillac, was born June 27, 1658.

# BUT HOW ABOUT THE YANKEES?— Cleveland Ready To Make Drive For American Pennant

By RALPH RODEN  
Associated Press Sports Writer

The Cleveland Indians, favorites in many quarters to end the two-year reign of the New York Yankees as American League champions, are nearing the make or break phase of the pennant race.

Following their current brief home stand, the Indians embark on a short road trip and then return home August 20 for an 18-game stay that in all probability will decide their fate.

The Indians, trailing the pace-setting Yankees by a half-game, must clean up on their long home stand. It provides the Indians with their best opportunity to take command of the race, for upon its completion they take off on a 16-game swing that includes stops in every other American League ball park. Pennants seldom are won on the road.

Observers believe that if the Indians can leave their home lot with a fairly comfortable lead they will be hard to overtake.

Mike Garcia, husky right-hander, pitched the Indians to within a half-game of the Yanks Tuesday night as he turned back the St. Louis Browns, 3-1, on a neat four-hitter. The Yanks were idle. In other American League games, the third-place Boston Red Sox bowed, 7-4, to the Philadelphia Athletics and the Chicago White Sox nipped the Detroit Tigers, 2-1, in 13 innings. The Red Sox now trail by four and one-half games and the White Sox by six and one-half.

In the National League, the Philadelphia Phillies took a twin-night doubleheader from the Boston Braves, 3-1, and 1-0 in 15 innings. The Chicago Cubs downed the Cincinnati Reds, 4-1, and the St. Louis Cardinals swamped the Pittsburgh Pirates, 16-7. The New York Giants and Brooklyn Dodgers were rained out.

Garcia blanked the Browns on two scratch hits until the ninth, when he lost his shutout. Garcia helped his own cause with a three-run homer in the sixth. The victory was his fifteenth, the most he has ever won in the majors.

Big Bob Rush checked the Reds on four hits at Chicago. The Cubs tucked it away with three runs in the first inning off Willie Ramadell. Hank Sauer featured the rally with a two-run homer.

The Cards pounded six Pirate pitchers for 21 hits with Peanut Lowrey leading the attack with five safeties. The Cards scored seven runs in the first inning and added five more in the third to sew it up.

**KING'S ROW**  
LARRY KING

When East meets West in the Permian Bowl football game at Odessa August 17, five Midland boys will be on the West squad.

All schooled in fundamentals by Tugboat Jones—a firm believer in blocking and tackling—the five MHS boys should see some action in the tilt. Yet, each boy will be backing stiff competition.

Center Jimmy O'Neal must root out Don Kaye Brown, Kermit's 200-pound Class A all-state center, and Wink's rangy Bobby Carman, a 170-pound six-foot, two-inch lad. Carman was good enough to have been all-district—but, unfortunately for him, he happened to be in the same district with Brown.

End Duane Bush must compete with Lubbock's Dean White, Bill Bryan of Pecos and Curtis Elam of Monahans. Too, Wayne Cuiwahouse, the Kermit fullback, is listed as an end on the squad. He toiled at a terminal post for the Yellow Jackets a couple of seasons before shifting to fullback with much success.

Bob Wood, the 265-pound Midland tackle, will find opposition aplenty from teammates Dick Lawwell, Big Spring; Billy Ray Phillips, Andrews; Robert Forbes, Andrews; Keith Clark, Kermit, and Joe White, Odessa.

Backs Fred Gilmore and Jack Burris really will be in fast company. They'll be on a squad that lists as backs such boys as John Ed Giles, Bobby Jackson and Howard Dye, all of Odessa; Jack Weldon, Lubbock; George Christian, Pecos; Kenneth Henson, Stanton; Quinn Hood, Seminole; Clark Lee Pressley, Crane; Don Floyd, Andrews; James Self, Wichita Falls; Billy Quinn, San Antonio; Carl Beard, Odessa, and Cuiwahouse.

Backs Rick Spinks and Mack Taylor, Kermit and Lubbock war-horses last year, have withdrawn from the West team to play in the Greenbelt Bowl at Childress. The West then was allowed to bring in Self and Quinn from "foreign" territory as replacements.

The East has good personnel too. As yet, we wouldn't want to pick a winner.

Although Midland's baseballing Indians have about as much chance of reaching the playoffs now as General MacArthur has becoming Truman's valet, the fans here appreciate the baseball they are playing and the recent victories. It looks good for 1952.

Therefore, we thought perhaps the fans would like to express their appreciation in a player's appreciation night, the last night of the season. Soon containers will be put at the entrance to Indian Park, and Midland sportsmen may drop in contributions. There'll be no "high pressure" tactics—it will be strictly on a voluntary basis.

Contributions will be divided evenly among the players. It'll help pay the boy's way home and a few grocery bills for the married gents.

Top flight baseball will be available for the Midland fans Thursday and Friday when the Little League District Tournament is unrolled at Wadley Park. What the boys lack in skill, they make up in hustle and showmanship.

At least one business house will close for the affair. All games will be played at Wadley Park, the softball diamond North of the City on Ranchland Hill road.

### Hilburn Relected Skeet Shoot Prexy

DALLAS — (AP) — B. H. Hilburn, Dallas, was relected president of the National Skeet Shooting Association Tuesday. Also relected were Dr. J. Frank Trucks, Birmingham, Alabama, vice president, and Col. E. F. (Tod) Sloan, Dallas, secretary-treasurer.

The naval base at Norfolk, Va., now the world's largest, was commissioned Oct. 12, 1917.

# Gridder Says Army Offered 'Good Deal'

CHICAGO — (AP) — The Chicago Tribune, in a copyright story from Flint, Mich., Wednesday said "high pressure recruiting of football players for West Point" was told by "one of the nation's outstanding high school athletes."

The player was Duncan MacDonald, 18, 180-pound quarterback, described by the Tribune writer, Jerry Ledonne, as one of the most sought after athletes of recent years.

The Tribune said that "while sports, political and military circles still reeled over the ordered dismissal of 90 cadets accused of cribbing—including most of the Army football squad—MacDonald told of a six-week, expense-paid vacation at the academy this Summer.

"Features of the vacation, MacDonald said, were chatty, informal talk sessions with Col. Earl (Red) Blaik, head Army football coach, reimbursed travel expenses; offers of an easy appointment to the academy, help from academy instructors in passing entrance examinations, and—most important of all—draft free status while playing football at West Point."

**More Money**

The Tribune quoted MacDonald as saying he "liked the prospect of the draft free status." It said MacDonald related representatives of the academy "made it easier for the 23 football players to pass the entrance examinations" by showing them short cuts in answering questions and by giving them the tests

# Indians To Play Sunday Games Later

Midland's remaining Sunday baseball games scheduled for Indian Park will be played at 4:30 p. m., baseball officials announced Wednesday.

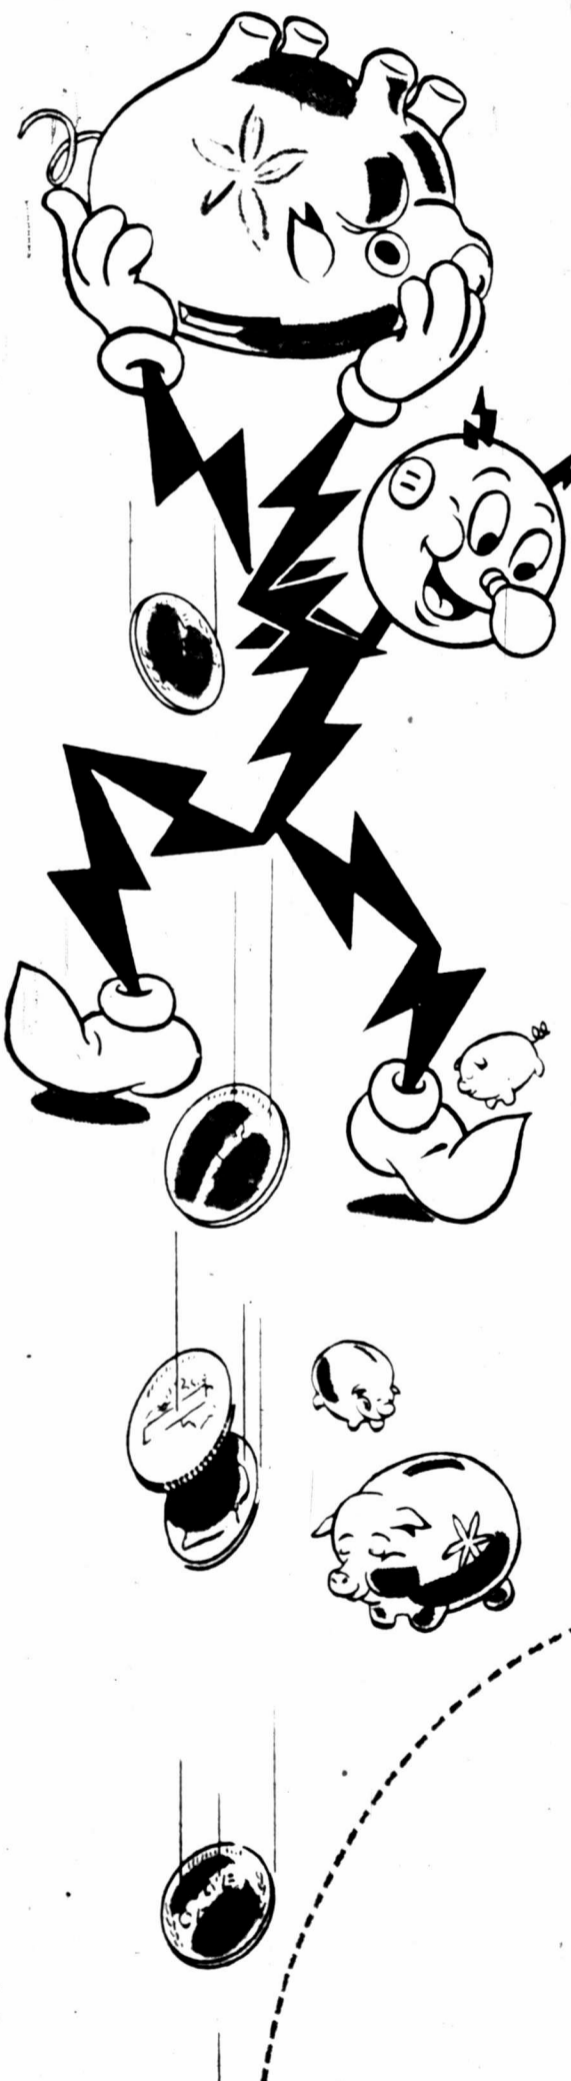

"The old time of 3 p. m. was just too hot for the players and spectators too," a spokesman said. Midland has three remaining Sunday afternoon home games. Rowell will be here Sunday, with Odessa here August 26 and San Angelo September 2. The 4:30 p. m. starting time will be observed for all three games.

It takes money from a lot of PIGGY BANKS to build a power plant!

Yes, money from piggy banks, and commercial banks too . . . money from the savings of a lot of people. Thousands of people supplied the money for Texas Electric Service Company to build power plants, power lines and the other facilities that provide your dependable electric service. They invested their savings in the securities of our company, or they have a stake in this company as owner of an insurance policy or shares of a trust fund in the large groups of insurance companies and trust funds that have investments in our securities.

The part of Texas we serve is growing rapidly and the need for electric service is growing even faster. Texas Electric Service Company has spent more than \$60,000,000 since 1946 to build new power plants, power lines and other facilities so Reddy Kilowatt can provide plenty of dependable electric power for the areas he serves. Yes, this construction program is still under way and is costing a lot of money. Most of it is "borrowed" through the sale of securities to folks who have faith in our future, and in the area we serve. The money you pay for electric service is used for the most part to pay our day to day expenses, such as wages, fuel and other costs of doing normal business, including the wages of capital. The additional new capital which is constantly being needed must come from the sale of securities.

**Ontario Moves To Halt Barrel Jumps Over Niagara Falls**

TORONTO —P— The Province of Ontario has forbidden anyone to go over Niagara Falls in a barrel. In the wake of the death of William Hill, Jr., last Sunday while making such an attempt, Ontario's Premier Leslie Frost told police to prevent any further tries. "In my opinion, such attempts are wholly undesirable from the standpoint of public interest. They add nothing to human knowledge and will be prevented, insofar as it is within the power of the province to do so," he said Tuesday.

Despite the premier's order, there was no indication whether New York interior decorator Leslie Sander had abandoned his plan to ride the 165-foot falls in a metal barrel on August 25. Sander dropped out of sight two weeks ago after coming here to make preparations for his trip.

**Bulgarian Statesman Reported Red Victim**

NEW YORK —P— A Bulgarian newspaper published here says Nicolas Mushanoff, 80, leader of the Bulgarian Democratic Party and former premier, died recently in a Communist jail somewhere in Bulgaria. A spokesman for the newspaper, Free and Independent Bulgaria, a bi-weekly, said Mushanoff died after he was arrested in May, just after he suffered a stroke. No other details of the reported death were available.

**U. S., Canada Make Up Oil Shortage**

WASHINGTON —P— The oil shortage in Europe caused by the break in Iranian production is being made up out of supplies on hand in the United States and Canada. A statement Tuesday by Bruce K. Brown, deputy petroleum administrator, said a number of U. S. oil companies are making arrangements to increase Middle East and Caribbean crude oil production by about 230,000 barrels a day. Additionally, he said, under a pooling agreement reached since a squabble over nationalization halted shipments from Iran, about 200,000 barrels a day of Middle East crude oil which normally goes to the U. S. and Canada is being sent to Europe.

**Tass Charges U. S. Stalling At Kaesong**

LONDON —P— Russia Wednesday accused the United States of stalling on the Korean cease-fire talks while moving up reserves for a new offensive. The official Soviet news agency Tass made this charge in a dispatch from Pyongyang, the North Korean capital, quoting "well-informed journalistic circles." Tass declared the insistence of the United Nations truce team on establishing a no-man's land north of the 38th parallel "proves that the American imperialists have no peaceful desires, but predatory plans."

**Swiss Cut Vital Shipments To Reds**

WASHINGTON —P— Government officials Tuesday said Switzerland is shutting off shipments to Communist countries of machinery and materials relating to atomic energy. As the Swiss eliminate such trade, the officials said, the State and Commerce Departments have eased up on release of strategic materials for Switzerland. More than 13,000,000 acres of land have been ruined by wind and water erosion in the United States.

**Britain Reported Set To Build First Atom Power Station**

LONDON —P— The Daily Mail Wednesday said British atomic scientists are ready to begin building the world's first nuclear power station. All that is needed to get the project under way, the newspaper said, is approval of a government grant of \$900,000,000 (£250,000,000) to begin construction of the plant. The Mail said the project would be entirely independent of coal supplies, which now produce almost all of Britain's power. The plant will be located at Harwell, headquarters of government atomic research work. The Mail quoted the Supply Ministry, which handles Britain's atomic research, as saying: "The work x x x will be conclusive this year. If successful, it will also foreshadow important advantages in the use of atomic energy for ship propulsion."

**High Plains Water Meet Set Thursday**

PLAINVIEW —P— High Plains residents will get a chance Thursday to say whether they want a water district to regulate the use of the underground water beneath their lands. At 10 a. m. in the Plainview City Auditorium, the Texas State Board of Water Engineers will open a public hearing to get testimony on whether an election should be called for the creation of an underground water district. Such a district would be governed by directors chosen by the people of the district. The district, through its directors, would have limited control of the underground water of the area. The district also would have power to levy a tax not to exceed 50 cents on each \$100 valuation for its administration. The area involved includes all or a portion of these counties: Armstrong, Bailey, Briscoe, Castro, Cochran, Crosby, Deaf Smith, Dickens, Floyd, Garza, Hale, Hockley, Lamb, Lubbock, Lynn, Oldham, Parmer, Potter, Randall, Swisher and Terry.

**Possum And 'Taters Ease Meat Shortage**

ST. PETERSBURG, FLA. —P— Roasted possum and sweet potatoes are competing with high-priced meats on dinner tables hereabouts. A couple of enterprising negro grocers, Sidney Harden and James Nelson, have started raising their own 'possums. "They're our biggest selling meat item," says Nelson. "We sell 'em as fast as we can raise 'em." They get about \$1.50 for a plump, year-old 'possum, weighing four or five pounds.

**Many Texas Rivers Dangerously Low**

AUSTIN —P— Three rivers were running dry and others critically low in one of Texas' worst droughts, the State Board of Water Engineers reported Tuesday. The Nueces River, below Uvalde, was reported dry most of July the first time in the 24-year existence of the reporting station there. The North Concho River at Carlsbad was practically dry the entire month. The Colorado River, above Buchanan Reservoir, was practically dry during the latter part of July, the board report said. Flow on the Guadalupe at New Braunfels was down to 19.4 second-feet, less than nine per cent of the normal July flow. Little River near Cameron, a tributary of the Brazos, was recorded at 6.5 second feet the latter part of the month, the lowest since 1918.
