Fumbrook-Spraberry field production in East-Central Upton County has been extended two miles to the northwest with the completion of Sohio Petroleum Company No. 1 R. W. Clark.

The extender was completed for a calculated 24-hour flowing potential of 144.74 barrels of oil through a one-half-inch tubing choke.

The potential is based on an actual 21 hour flow of 126.66 barrels. Gravity and gas-oil ratio have not been reported.

Open hole section from 7,130 to 7,191 feet was treated with Hydrac.

Location is 660 feet from north and west lines of section 11, block N. HEAVY survey and 18 miles north of Rankin.

Pennsylvanian Is Abandoned In Garza Project By Humble

Humble Oil & Refining Company has abandoned efforts to develop production from the Pennsylvanian line in its No. 1 Jeff Justice, one location south offset to the discovery well of the Tobe-Strawn field in Southeast Garza County.

This project drilled to a total depth of 7,513 feet and found only water in the lower horizon. It set 5 1/2-inch casing at 7,499 feet and tested through perforations between that point and 7,410 feet.

The last test was at 7,410-45 feet. After that zone had been treated with an unreported amount of acid it swabbed dry.

Operator then plugged back to 5,000 feet and perforated the pipe at 4,900-40 feet. The interval was swabbed dry and it was then allowed to set overnight.

When opened up it had 2,500 feet of salt water in the hole. There were no shows of oil or gas. Operator is still swabbing on that zone.

It is expected that the 4,900-40 foot perforations will be squeezed off with cement and then a section at 4,558-740 feet will be perforated and tested.

Had Clean Oil In DST

Humble No. 1 Justice had a recovery of 210 feet of oil and gas cut mud and 900 feet of free oil in a drillstem test of that zone. It is in the Wolfcamp section of the lower Permian.

The prospector is 660 feet from north and west lines of section 18, block 6, H&GN survey. It is three miles south of Justiceburg, and one quarter of a mile south of Tobe-Strawn. No. 1 Justice, a small pumper from the Strawn line of the Pennsylvanian, which is the opener and lone producer in the Tobe-Strawn field.

S-C Crane Discovery From Fusselman Is Preparing To Finish

Humble Oil & Refining Company No. 3 Jax Cowden, South-Central Crane County wildcat nine miles west of the town of Crane pumped 140 barrels of new oil in 22 hours, with a shakeout of one per cent basic sediment and acid water.

The project is continuing to pump to test and complete as a discovery from the Fusselman line of the Silurian. The oil is coming from perforated section at 7,388-7,425 feet. That interval had been treated with several injections of acid.

Drilled To Ellenburger

Location is 660 feet from south and west lines of section 47, block X, CCS&D&RGNG survey. The wildcat drilled to a total depth of 8,984 feet in the Ellenburger.

That section, and all others back up to 7,425 feet, failed to develop any possibilities of commercial production. Some of the zones had some shows of oil, but each of them had water with the oil.

Penrose Abandons Crockett Failure

Neville G. Penrose, Inc., of Fort Worth has abandoned and plugged his No. 1-A University, South-west Crockett County wildcat. Total depth is 1,713 feet in Permian Dolomite.

The project found only sulphur water and it did not report logging any shows of possible commercial production.

Location was 330 feet from north and west lines of section 7, block 30 University survey. That made it five miles southeast of the shallow Lancaster Hill pool.

Deep Exploration Staked In Swisher

Marlin Petroleum Company has started operations on a 10,000-foot wildcat in South-Central Swisher County, five miles southwest of

Sabotage Of Truce Talks Feared

Hurricane Hits Yucatan, Rips Across Gulf

NEW ORLEANS—(AP)—A shrunken hurricane ripped across the Yucatan Peninsula Monday and into the Southern Gulf of Mexico, 30 miles northwest of Merida.

It continued on a west-northwesterly course with maximum winds of 75 miles per hour, minimum hurricane force.

However, Forecaster W. R. Stevens said the hurricane "will increase in size and intensity over the southwest Gulf of Mexico Monday night."

The storm, which during its peak power killed at least 109 persons and destroyed property valued at \$56,000,000 on the British Island of Jamaica last Friday and Saturday, was pointed in the general direction of the mouth of the Rio Grande River.

It moved into the Gulf from some 650 miles almost due south of New Orleans after giving Yucatan residents a night of panic. Reports were meager.

Radio Contact Lost

Radio contact with Cozumel Island, 200 miles east of Merida, the capital of Yucatan State, was lost at 3 p.m. Sunday. Officials in Mexico City said they supposed the radio tower was carried away.

Officials at Mexico City said they could not learn what damage, if any, was done.

Truman Will Ask More Flood Relief Funds For Midwest

WASHINGTON—(AP)—President Truman is preparing a special message to Congress asking more relief and rehabilitation funds for flood-stricken areas of the Midwest.

Congress leaders said after a conference at the White House Monday that Truman had read to them parts of the still incomplete message.

The conference lasted an hour and 30 minutes. House Speaker Rayburn said it was devoted exclusively to the "flood disaster in the Midwest."

The President is preparing to send a message to Congress "suggesting a course to help those people get out of the mud and out of the flood," Rayburn added.

None of the conferees would say how much Truman would ask in the way of money or what he proposes precisely.

Three Plead Guilty To DWI Charges

Three men pleaded guilty Monday before County Judge Clifford C. Keith to charges of driving while intoxicated.

Each was fined \$100 and costs. One was arrested early Sunday by Police Chief Melvin Little and Officer Clarence Hollis of Terminal, one by Highway Patrolman Mac Stout of Midland and the third by Highway Patrolman F. D. Marshall of Odessa.

Ranger Calls Off Automobile Raffle

Members of the Veterans of Foreign Wars post at Sweetwater found out Monday they couldn't sell automobile raffle tickets in Midland.

The automobiles moved into Midland Monday morning, parked at a Wall Street location and members of the veterans organization prepared to sell tickets for a drawing.

Texas Ranger John Wood quickly informed them, however, it was against the law.

Actress Spurs Screen Career To Become Nun And Teacher

LOS ANGELES—(AP)—A 30-year-old girl who made \$1,000 a week as a movie actress has turned her back on acting to become a nun.

Juanita Quigley, who was appearing before the cameras when she was only three, now is studying canon law in the San Vicente Novitiate. There she is known as Sister Quentin Rita of the Oathme Daughters of Mary and Joseph.

She promised herself to Christ in exercises conducted Saturday by the most Rev. Timothy Manning, auxiliary bishop of Los Angeles. Her mother, Mrs. Wayne Quigley, said Juanita decided more than a year ago that movies and television and other things that had occupied her time were not providing the challenge in life that she needed.

"She told me, finally, after she had rejected movie and television offers, that she wished to become a nun," said Mrs. Quigley. "Her father and I thought she should have time to consider such an important step. We urged her to go abroad for a year. In six months she was back. She called me from New York to say she still was sure of her decision, and that we merely had delayed her six months."

Miss Quigley was "Baby Jane" when she entered films. She play-

RAIN ON PLASTIC ROOF—A pneumatic rain hat that protects the wearer and at the same time leaves the hands free for carrying packages is the ingenious invention of a California manufacturer. The hat, which is made of lightweight, flexible plastic, is carried in a small case that fits the purse. It is quickly and easily inflated, left, to the size of an umbrella and ties on with attached ribbons, as seen at right. The invention promises to eliminate the "umbrella-rib-in-the-eye" hazard of crowded city streets during a rain.

Harriman Threatens To Quit Deadlocked Iran-British Talks

TEHRAN, IRAN—(AP)—An informed source said Monday W. Averell Harriman has threatened to leave for Washington unless the Iranians negotiate "in good faith" with the British on their oil dispute.

A breakdown in the crucial talks is believed near.

Premier Mohammad Mossadeq was reportedly visibly shaken by the strong words from the usually soft-spoken Harriman, President Truman's trouble shooter here.

Mossadeq met with Harriman and Richard Stokes, chief British negotiator, Monday but observers doubted if he would make any real concession, which could make the talks successful.

Has Kept Talks Going

Harriman is the only person who has kept the talks going this long. Mossadeq has been trying to keep the United States on his side of the oil dispute, and Harriman's threat to walk out at last has postponed his formal rejection of British settlement offers.

The Iranians reportedly handed the British a set of counterproposals Sunday, rejecting four of the eight British points.

Harriman reportedly told the Iranians, after he saw the counter offer, that they were not negotiating in good faith and threatened to make a public statement supporting the British position.

British sources said Stokes is preparing to leave for London Wednesday unless the talks take a turn for the better.

Midland Corporal Returns From Korea

SAN FRANCISCO—(AP)—The transport J. C. Breckenridge was due here Monday with troops from Korea.

Most are reservists being brought home for release to inactive duty. The port of embarkation said. Others were enroute to service schools, for reassignment, or other reasons.

Texas aboard include: Cpl. Elmer J. Morris, Midland; Sgt. Thomas J. Moore, Lorraine; and Sgt. W. H. Van Kirk, Big Spring.

Weather Was Hot, But Not That Hot, Say Police Officers

The weather was hot Sunday night but, city police believed, not hot enough to make the sleeping negro perspire as much as he was.

They were looking for the two negroes who broke into Reynolds Grocery on East Highway 80 and escaped with five cases of beer.

Lt. Chester Sprague, Sgt. Clyde Allison and Officer Joe Curry had arrived at the store just as the men were leaving. They chased them on foot several blocks but finally lost track of them.

A few minutes later they went to the home of a suspect and found him lying in bed, apparently asleep. But officers noted he was perspiring freely.

The man protested he had been in bed all night. Officers looked under his bed and found two cases of beer.

Midland Shriners Form Caravan For Suez Temple Meet

Midland Shriners — 75 to 100 of them — were to go to San Angelo in a caravan at 4 p.m. Monday for a big meeting of Suez Temple.

The Temple recently was awarded a charter at the national Shrine Convention in New York Monday night. It will elect and install its first officers under the charter.

One Midland Shriner, J. M. McDonald, is assistant Rabban of Suez Temple.

The Midland group is headed by Lester Short, president of the Midland Shrine Club, and McDonald. Short said they would gather at the high school cafeteria for the start of the trip at 4 p.m.

Midland County Sheriff Ed Darnell and A. L. Barr have arranged for a police escort for the Midland caravan from Carlsbad into the host city. Transportation for all the Shriners is available, Short said. The caravan will return to Midland Monday night.

Red Chinese MP Slain In Neutral Zone

TOKYO—(AP)—The Allies Monday night said the ambush of a Chinese patrol in the Kaesong neutral zone may have been the work of "partisans of either side" who want to wreck Korean armistice talks.

North Korean Lt. Gen. Nam Il, chief Red cease-fire delegate, Sunday sharply accused the Allies of violating the zone with gunfire that killed one Red soldier and wounded another.

Negotiators Again Make No Progress

MUNSAN, KOREA—(AP)—Allied and Communist subcommittees met briefly in Kaesong Monday as a new crisis threatened efforts to stop the Korean war.

General headquarters in Tokyo said "partisan forces of either side" may be trying to wreck armistice negotiations.

The statement was in reply to Red charges that UN forces ambushed a Red patrol inside Kaesong's five-mile neutral zone Sunday. A Chinese patrol leader was killed and a Chinese soldier injured seriously.

North Korean Lt. Gen. Nam Il, senior Communist delegate at the Kaesong talks, said the Chinese patrol was "carrying out police duties" in conformity with the neutrality agreement.

The subcommittees met only 70 minutes Monday. It was their shortest session since they took over for the main truce delegations Friday.

There was no report of progress from the secret talks. But the negotiators agreed to meet again at 11 a.m. Tuesday (7 p.m. Monday CST).

The subcommittees are trying to hammer out a compromise agreement on the question of a cease-fire buffer zone. The main delegations argued this point 10 days and found themselves completely deadlocked.

13-Year-Old Girl, Invalid Since Birth, Vanishes From Car.

HOUSTON—(AP)—A frantic mother appealed Monday for the immediate return of her vanishing 13-year-old daughter, a child who has been unable to walk, talk or care for any of her wants, since birth.

The helpless girl, Margaret Louise Allison, daughter of Mr. and Mrs. J. W. Allison, disappeared Sunday night from her parents' automobile, parked outside a cafe.

"My daughter cannot even feed herself," Mrs. Verna Lou Allison, 32, said. "She won't take food from anyone but me. Unless I am there to feed her she will starve to death."

Allison, 41, a construction worker, and his wife stayed up all night aiding a search through the sparsely built up area where the child disappeared. Six patrol cars manned by deputies scoured the neighborhood.

They found no trace of the child nor any witness.

He criticized an assertion in the GOP report that a settlement south of the Yalu River border of Manchuria would "admit the success of Chinese aggressors."

"The Republicans seem to be demanding now more concessions than Russia and China can yield in Korea and save face," Hunt said. "They might as well ring the bell for World War III. If that's what they want, they should say so."

Senator Cain (R-Wash.), one of the authors of the GOP report, told a reporter he and others aren't contending that a cease-fire agreement must provide for complete withdrawal of the Reds from Korea.

Shell Tanker Blasts Kill 22, Injure 30

SINGAPORE—(AP)—Two explosions aboard the Shell Oil Company tanker Zambesi yesterday killed 22 men and injured 30 others. Two were missing and it feared they were trapped in their flaming cabins.

All the dead were Asian employees on the 12,000-ton Dromus. Two European engineers—R. J. Hunter and A. Livingston—were injured.

Marine Fliers In Korea Drop Candy For Hungry Kids

BOSTON —(AP)— Berlin or Korea, wherever American fliers fly, there's candy for the kids.

Remember "Operation Little Vittles?" Those were the missions which delighted the nation during the Berlin airlift, when an American pilot dropped candy bars on little handkerchief parachutes to the children who crowded the airport.

Now it's "Candy bars away" in Korea. In a letter home, Marine Sgt. Harold E. Pierce tells how he and his pilot, Capt. Frank Parks of Allentown, Pa., spotted ragged Korean children running in fright as their helicopter flew over.

"We dropped some candy bars so they wouldn't be scared of our blue helicopter," the sergeant said. They fly courier duty between Seoul and the advanced UN headquarters at Munsan.

Now, he went on, the youngsters recognize the blue plane and jump and wave instead of running for cover.

"Only trouble is," the sergeant wrote, "there's more kids than candy bars."

Veteran Star Gilbert Roland Is Happy To Talk Of The Past

By ERSKINE JOHNSON
NEA Staff Correspondent
HOLLYWOOD — Gilbert Roland tightened the belt around the Apollo waistline that most movie profiles would give their best teeth to own, and said he would be glad to talk about the old days in Hollywood.

"And why not, my friend?" he shrugged. "Those were wonderful days. I do not know how this story began that I do not wish to speak of the past. I have heard it said by people, of course, that I must be 95 years old.

"Perhaps this bad story has something to do with the question of my age. My friend, I do not care how old people think I am. I will tell you. My true age is 45. I was less than 20, a boy very mature for his age, when I played 'Camille' on the screen with Norma Talmadge."

The star who threw mom, Aunt Hattie and Cousin Mame into a tizzy back in the era of the Charleston and Michael Arlen's "The Green Hat," and who's doing it all over again almost a quarter of a century later in "The Bullfighter and the Lady," began to speak quietly, almost reverently, of yesterday's Hollywood.

"I remember the days when I was an extra. Now extras are different. They work and call it a day. But we had inspiration! The extras I remember were Clark Gable, Charles Farrell, Janet Gaynor, Richard Arlen, Loretta Young and Don Alvarado.

"I remember a beautiful extra with platinum hair who walked around so gracefully. Her name was Jean Harlow.

"We had to make our own way with United Artists.

"I was under contract with Norma Talmadge to United Artists. To be a star with United Artists was a great thing, my friend. The studio had John Barrymore, Mary Pickford, Douglas Fairbanks and Charles Chaplin.

"Norma Talmadge always wanted me for her leading man. We made several big pictures together. Then Norma retired after her second talking picture. My career did not go well for a while. Norma and I had been a team. It was my fate.

"I did two pictures with Constance Bennett, who became my wife. Then came another small time away from the camera, then more pictures, then the war, then the Cisco Kid series. It was Hades to get out of it. It took John Huston to do it. He cut my hair, threw me a guitar and told me to sing. It changed my whole career."

Gilbert stood up, stretched his lean frame and said that he was due at the tennis courts.

"You see, my friend, I am not afraid to talk of the old days," he smiled. "It is a bad story that I am afraid. Perhaps it will amuse you to head this letter from a fan."

He fished a folded piece of paper from his wallet and handed it to me.

"Dear Gilbert," the letter began. "You are my favorite new star. I am so happy that Hollywood is giving moviegoers new faces like you!"

Newspaper Story Brings Many Offers For Adoption Of Seven Davey Children

COLUMBUS, OHIO —(AP)— The voice on the other end of the line was clear, although the connection was bad. "I'm calling from Philadelphia," the man said.

"Saw those Davey kids' picture in the paper. I might be interested in adopting them. Can you tell me how to reach the family?"

That call to a Columbus newspaper office Sunday was part of a snow-balling response to an out-of-the-ordinary request. Would anybody adopt some or all of the seven children of Mr. and Mrs. Richard Davey—who, for three years—had carried a load of illness, debts, and homelessness?

Seemed there are a lot of people who would. Davey made the adoption proposal in a letter to the Columbus Dispatch, saying the family was facing eviction. The story was carried nationally by The Associated Press.

Davey said people had been calling all day, offering to take some or all of the children "until we get on our feet," and added: "I wish everyone who is down and out could get his story before the public. I had no idea there were so many wonderful people. I don't think we have to give any of the children for adoption now."

Davey said his best offer came from a factory owner who suggested they consolidate the family's debts, and that Davey should come to work in his factory.

But the factory executive insisted, the children must stay.

Stork's Arrival Stops Show Cold

HOLLYWOOD —(AP)— The stork left a little bundle for the hatcheck girl and it stopped the night club show cold.

The floor show was going full blast early Sunday at Ciro's when impresario Herman Hovver stepped out on the stage to ask if there was a doctor in the house.

There was. And to the accompaniment of muted trumpets, the hatcheck girl, pretty Margaret Barstow, 21, gave birth to a daughter, Rex, in a private upstairs cocktail lounge.

"We named the baby Rex because we were expecting a boy," explained the father, Bruce Barstow, 24, an engineering student.

"Smallest show stopper we ever had," said Hovver afterward. Rex weighed six pounds, 13 ounces.

Progressive Party Leaders Map Full Program For 1952

MINNEAPOLIS —(AP)— Progressive Party leaders from 24 states went ahead Monday with plans to pump new life into their state organizations and to push "peace candidates" for every political office in 1952.

Members of the party's national committee, who concluded a two-day meeting Sunday, emphasized the candidates need not necessarily be Progressive Party members—just so they "stand for a genuine policy of peace."

A party "statement of policy" on next Fall's elections declared an intention "to work for and do everything in our power to bring about the organization of an independent ticket, supported by a coalition of all groups and individuals who stand for a genuine policy of peace."

But, the statement said, "if the conditions for such a ticket do not mature, the Progressive Party will nominate its own candidates for president and vice president in ample time to assure them a place on the ballot in 1952."

Fredrick Truman Defeat
Vito Marcantonio, former New York congressman and a Progressive Party leader, predicted President Truman would be defeated if he ran for reelection next year. Marcantonio went on to say at a news conference that the Democratic Party would begin a "disintegration" in 1952 and that from the remnants of the party "a stronger Progressive Party will arise."

The national committee's statement of policy contained this four-point "minimum program" for a coalition ticket in 1952:
1. An end to the war in Korea; United States initiative for good faith negotiations among the five great powers for the peaceful settlement of outstanding differences.

2. Return to a peacetime economy; a deep cut in armaments spending; genuine price and profit controls; an end to the wage freeze and an adequate welfare budget.

3. An end to discrimination against the negro people, with full legislative guarantees of civil rights.
4. An end to "McCarthyism, McCarthyism, McCarthianism and Taft-Hartleyism; repeal of the Smith Act and return to the Bill of Rights."

Oregon Convicts On Hunger Strike

SALEM, ORE. —(AP)— Hungry prisoners at the Oregon State Penitentiary Monday began their fifth consecutive day without meals.

Warden George Alexander ordered their food cut off Thursday after they refused to go to work. The non-work move followed a sitdown strike started by some of the 1,400 convicts last Tuesday.

All prison activities have been halted and the men are locked in their cells. None has asked for medical attention because of lack of food, the penitentiary physician reported.

Alexander said food would be withheld until the prisoners agreed to go back to work. The men probably can go without meals for several more days, another prison official said.

Negress Serving 218 Years Is Free After Prison Break

WETUMPKA, ALA. —(AP)— A negro woman who escaped from prison while under a 218-year sentence for murder was the only one of eight women at liberty Monday after a daring weekend break.

Officials at Julia Tutwiler prison here said the fugitive is Elizabeth McClain Williams, who was convicted of "several" killings. The other prisoners were white. Six were recaptured early Sunday. One returned to prison voluntarily.

The women overpowered three matrons late Saturday, bound and gagged the officers, and placed them in a storage room.

Then they fled from the prison, brandishing a knife and bottles. Four met Elvin Turner, husband of one of the matrons, and forced him to accompany them in his car on a flight toward Florida. They were halted at Dothan by buckshot-firing police, after releasing Turner unharmed near Phenix City.

None of the women was injured when the Dothan officers emptied their shotguns into the rear of the speeding car and made the fugitives halt.

Two others were caught at Tuskegee. The seismograph, used to measure earthquakes, was first made by a Chinese named Choko.

Trygve Lie Hopeful For Peace in Korea

NEW YORK —(AP)— Trygve Lie, United Nations secretary general, says he thinks that "in the end there will be an armistice in Korea." But he declines to speculate on the time element.

Lie, who returned here by plane Sunday from his native Norway, also said he was optimistic for a peaceful settlement of the British-Iranian oil dispute.

Discovery Of Cause Is First Step In Curing Acute Asthma

By EDWIN P. JORDAN, M.D.
Written for NEA Service
Few things are more distressing to see than an attack of acute asthma. The victim struggles for breath, coughs and wheezes, and sometimes gets blue around the lips. All this is the result of narrowing of the breathing passages—ways to the lungs—the bronchial tubes—and of the accumulation of mucus in them. Not enough air gets through and the body has to start working to try to remedy the situation.

Asthma is primarily an allergic disease that is, it is caused by over-sensitiveness to some outside protein with which the body comes in contact. Apparently there are other factors which sometimes enter into the picture such as chronic infection and fatigue but it is these outside proteins which are the most important.

This being the case, the most important thing to do in asthma is to identify the particular substance that is causing the trouble. This is attempted in many ways: analyzing the relations between the symptoms and contact with various pollens, foods, or other proteins; skin tests with protein extracts, and by other methods.

The best results so far as treatment is concerned appear to arise when the offending substance can be definitely discovered. The patient can then be separated from the cause, or treated for it, and the chances of great improvement are good.

Hard To Find Cause
Unfortunately, there are some of those who are afflicted by asthma in whom it is hard or impossible to find the cause. Even for these people, however, much can usually be done by appropriate drugs or other measures.

Although it is only in relatively recent times that we have heard so much about allergy, asthma is known to have existed for a long time. The name itself (meaning hard-breathing) was used by Hippocrates, the father of medicine, almost 400 years before the birth of Christ.

Undoubtedly a lot more can be done for the sufferer with asthma than in Hippocrates' time but there is still a long way to go. At present rates, however, progress in the next 2,300 years should be faster than in the last.

Ladies Golf Association To Give Fall Fashion Show

The U. S. Weather Bureau has not been informed, but Fall begins in Midland at 12:30 p. m. August 29. At that time, with air conditioners going full force, Midland Country Club members and their guests will witness the initial fashion show of the season at the Ladies Golf

Association luncheon. The show will be held at the country club. Models, chosen from the club roster, will model casual clothes especially selected for this showing by Colbert's.

Mrs. Milton Loring will direct the fashion show and act as commentator. This will be the first of a series of fashion shows to be staged for members of the club and their guests. The other shows will be given the third Friday in each month for the rest of the year.

Hostesses will be Mrs. Louis Thomas, Mrs. William Pomeroy, and Mrs. Johnson Phillips.

Reservations may be made singly or by tables. The staff at the country club will begin making reservations immediately and will continue until August 28.

Progressive bridge will be played after the luncheon and fashion show.

Models will be fitted for the clothes they will wear between 9 a. m. and noon Thursday and Friday at Colbert's.

Music for the show will be furnished by the club organist, Onan Vaudeil.

REVIVALIST—Bill Denton of Brisbane, Calif., is directing the music in a youth revival in the Calvary Baptist Church. The Rev. Frank Gillham is the evangelist.

Candelight Ceremony Unites Miss Hamilton, Paul Rodriguez

ANDREWS — In a formal candelight ceremony Saturday Barbara Hamilton became the bride of Stanley Paul Rodriguez. The ceremony took place in the First Baptist Church with the Rev. Aud Jones, pastor of the Pullertown Baptist Church, officiating.

The bride is the daughter of Mr. and Mrs. C. C. Hamilton of Andrews and Rodriguez's parents are Mr. and Mrs. Joe Rodriguez of Rio Vista, Calif.

The double-ring ceremony was performed before a background of greenery. The archway was entwined with fern and flanked on either side with floor candelabra holding white tapers and tall baskets of gladiolus and fern.

Sonny Oswalt, organist, played the traditional wedding music and accompanied Mrs. W. H. Griffin who sang "Because" and "Always."

The bride, given in marriage by her father, wore a gown of white slipper satin with a full skirt. The bodice was of chantilly lace designed with a high neckline and a pointed collar. The long sleeves extended into points over the wrists.

A two-tiered waist length veil of illusion was attached to a cap of white satin ornamented with seeded pearls, orange blossoms and white satin bows. She carried a white satin Bible topped with white orchids.

Millie Rae of Andrews was the maid of honor. She wore a gown of

blue net and carried a nosegay of pink carnations. Mrs. T. D. Hamilton, Jr., was bridesmaid and wore a pink net gown and carried a bouquet of white flowers.

Howard Rodriguez, brother of the bridegroom, was best man. Ushers were Farris Hamilton of Midland and Raymond Rodriguez of Rio Vista, Calif.

Reception Held
After the wedding a reception was given by the bride's parents in the Andrews Community Building.

The bride's table was covered with a lace cloth and centered with a three-tiered wedding cake and tall baskets of gladiolus.

Adell Harrell of Memphis, Tenn., and Berry Neal, son of Andrews, presided at the reception table. Mrs. Farris Hamilton of Midland registered the guests.

For traveling the bride chose a brown crepe skirt and a white lace blouse and jacket. She wore brown and white accessories and an orchid corsage.

After the wedding trip to El Paso, Juarez and Carlsbad, the couple will be at home in Fort Worth where he is stationed at Carswell Air Force Base.

Out-of-city guests were Mr. and Mrs. Joe Rodriguez, Raymond, and Royce of Rio Vista, Calif. Mr. and Mrs. A. Peterman and A. Benson of Electra, Mrs. H. W. Lindenberg of Heavardsville, Ky., and Mr. and Mrs. Bud Greer of Electra.

Family From Wink Moves To Midland

The Russell Lillys are convinced that Midland is a pretty nice place to be.

Mrs. Lilly spoke for the whole family. "We had an awful time finding a place to stay," she said, "but now that we're settled, we like it here."

Heather, the family's large collie dog, and Smokey and Tamson, their Persian cats, were less articulate in their praise, but they didn't look discontented. Heather was sprawled in a cool, shady spot in front of the house. And the cats were peacefully asleep on the living room rug.

Members of the family not present for the interview were Lilly, who is employed as assistant superintendent by Humble Oil Company here, and Rusty, the Lillys' 21-year-old son now visiting in Washington, D. C. In the Fall Rusty plans to return to Austin where he is a student at the University of Texas.

The Lillys' present address is 311 West Florida Street.

Laughter Is Encouraging

... occasional laughter drifting through the hot, muggy air from the Kaesong conference room indicated the four-man armistice subcommittee had met again in a spirit of friendly informality.

That statement in an Associated Press dispatch from Munsan, Korea, Sunday perhaps is the most encouraging bit of news to come out of the long drawn-out Korean cease-fire talks.

And the word "laughter" is the key to the whole situation.

It compares with the words "somber," "formal," "firm" and so forth which have described previous sessions of the entire peace negotiating teams. In several of the deadlocked meetings, Communist negotiators sat for hours without saying a word and certainly without cracking a smile. It is no wonder the talks bogged down.

But progress is reported in the informal meetings of the smaller groups. Laughter even has been heard.

Something yet may come out of the Kaesong talks, and surely the "spirit of friendly informality" must be credited to a large extent if and when the cease-fire order is issued.

Nothing can compare with a sense of humor in working out a tough problem, and certainly the Korean problem is no exception. Both sides, however, must be willing and able to smile, at least a little, if the problem is to be solved satisfactorily and in the shortest possible time.

A sense of humor, a smile, and a willingness to give and to take work wonders at meetings and conferences of all kinds, whether in Kaesong, in Midland, in Austin or in Washington. From the City Council meeting in Midland to the conference of world powers in Washington, Paris or London, a sense of humor is essential if our problems, local or international, are to be solved satisfactorily.

The very same thing, too, applies in our home life, our business life, or in anything in which problems and differences of opinion arise.

Let's smile, or even better, laugh when the going is toughest. It will pay dividends.

Yes, the laughter drifting from the conference room in Kaesong, Korea, is very encouraging.

Offense In Depth?

In contrast to the line of their new "peace offensive," teachers of history in Soviet grade schools are reported embarked on a program that will give their students the opportunity of "understanding why the U. S. A. has been turned into the chief country of capitalism and now heads the anti-democratic camp of international reaction and is the instigator of new wars."

These grade schoolers must be the second team they're training to throw at us in case their current "peace crusaders" fail to melt the hearts of the capitalistic masses.

A woman's final decision seldom tallies with the one immediately following it.

Is This Trip Necessary?

DREW PEARSON ON THE WASHINGTON MERRY-GO-ROUND

Chief mistakes we are making in our battle against communism. In Berlin, Moscow was selling an idea—we were handing out soup and bread. In the rest of Europe, Moscow has been selling an idea—we've been handing out Marshall Plan money to build buildings, railroads and roads. These are important. But sometimes people will fight harder for an idea than for full stomachs.

Ed. Note — Drew Pearson is on another tour of Europe, studying conditions there during this period of world tension and crisis. Herewith is another of his caustic dispatches from Europe.

BERLIN — I have just spent an evening behind the Iron Curtain. It's not hard to do here in Berlin where no guards patrol the line between the Russian and American sectors and where, if you flash a White House press card and look reasonably important, you can attend even the most exclusive of the Communist youth shows.

Berlin tonight is a city of vivid dramatic contrast—miles of bunting and flags everywhere, flags of every nation but particularly and ironically the flag of peace. Sandwiched in between almost every national flag is the blue and white emblem of peace. Standing out against the gaunt bomb-gutted ruins of Berlin, they made a genuine appeal to the tired population which never wants to see war again.

There were other contrasts. A Czech youth orchestra in immaculate blue and white uniforms played before the pillars of Berlin's bombed-out opera house. They played well and sang well. At one side stood shiny new Czech buses made in the Ekoda Munitions Works. One thousand of these buses brought the Czech youth delegation to this year's rally and they now stood in contrast to the bomb-wrecked weary pillars of the old opera house.

Performers Applauded. Across from the Kaiser's once-ornate palace which the Russians tore down and removed piece by piece, a great platform stood in front of the bomb-battered museum. The inside was an empty shell but outside a Russian ballet, a girl in Georgian costume, and Finnish folk dancers all performed. It was Russia's youth exhibition and you had to admit it was good. Lighting, acoustics and staging were all perfect; the music excellent and the dancing superb. I couldn't tell what the girl in the Georgian costume said when she sang a ballad dedicated to Stalin and I don't think many of the German Communists could, either. But they liked her voice and applauded just the same.

Above the museum, the stone horse given to Kaiser Wilhelm by Czar Alexander II peered down at this modern-day Communist rally while on the crowd's edge a group of young Communists peered eagerly at the convertible Ford Mercury in which I had driven across the Iron Curtain. On their shirts was written "Activist," meaning their job was to whip up and activate enthusiasm among other party members. But they seemed much more enthusiastic about the modern motor production of the West than in communism.

Reds' Youth Rally No Flop. To read the headlines in American newspapers you get the impression that the Berlin youth rally was a flop. It wasn't. No rally which brings 2,000,000 youngsters together from all parts of the world is a flop and it's no use kidding ourselves.

The State Department, with a meager budget, did a miraculous job of attracting a quarter of a million German youths into the Western sector, giving them food, literature and a sight of the vastly better living standards on our side of the Iron Curtain. But when the rally was only half over, orders came to close up certain youth depots. The food was costing \$12 per day at one

center and the State Department's budget was exhausted. Congressman Taber of New York, Cleveland of Ohio and other economists had punched too many pennies and a great opportunity thus was snuffed out.

However, three-quarters of a million other youngsters never entered West Berlin. They braved the straw spread out in schoolrooms for them at night, put up with the poor Communist food and attended ballyhoo programs, all for the sake of communism. And a score of 75 per cent against 25 per cent means that eventually democracy loses out to communism.

"Ain't Go Home!" If you arrived early enough and flashed a White House press card, a U. S. military pass or even a District of Columbia police pass, an American could get into the most popular and packed performances of all—the North Korean. Seeing the Korean show gave some idea of the propaganda barrage this Youth Congress was subjected to. The highlight of their performance was a dance opera in which a Korean mother, her child killed by Americans, is the heroine. The scene which really brought down the house was that in which she throws three grenades into an American camp. Three Americans then tear her clothes half off and take turns beating her while she takes from her blouse the flag of the Peoples Republic. Then, just as the Americans cheer to a tune preparing to shoot her, a shot rings out and Korean guerrillas come to her rescue. The heroine then shoots an American officer at point-blank range.

At this point, the audience goes wild; there is 20 minutes of applause; the Korean actors get curtain call after curtain call and Russian women rush up to embrace the embarrassed but happy Korean orchestra leader. The audience then leaves, chanting "Ain't Go Home!"—the slogan of derision for Americans thrown at us from the Adriatic to the Baltic.

This is a sample of the propaganda drilled in on the youths at the rally and there's no use in kidding ourselves about its effect. Selling Ideas Is Important. I sat in the youth center in West Berlin talking to three boys from Saxony—one a carpenter's apprentice, one a locksmith's apprentice, and the third out of work. They sat in the George C. Marshall Building, in one end of which was a soup kitchen while in the center a toy edition of the Santa Fe Railway's "Chief" glided under bridges and over mountains in a huge electric-train exhibit.

Just outside stood "The European Train"—a beautifully built combination of the Friendship and Freedom Trains, showing the importance of uniting Europe. A long line of supposedly Communist youngsters from East Berlin stood waiting to pass through, but the boys I talked to already had seen this impressive train.

As we talked of communism—which they didn't like—I asked what they thought of the United States of Europe. "That's what we've got to have," said the carpenter's apprentice, banging his fist on the table. "We have got to be united, just as that train says. That's the way to lick communism and the way to lick war."

Chief Mistakes Cited. That remark to me pointed up the

chief mistakes we are making in our battle against communism. In Berlin, Moscow was selling an idea—we were handing out soup and bread. In the rest of Europe, Moscow has been selling an idea—we've been handing out Marshall Plan money to build buildings, railroads and roads. These are important. But sometimes people will fight harder for an idea than for full stomachs.

What we could do very easily and where we have been missing the boat is to sell both an idea and bread—the idea of uniting Europe and preventing war. We've hinted at this from time to time but until we sell that constructive idea and sell it hard the Communists may be able to continue outwitting us by their phony idea on a 75-to-25 ratio.

Q—What substance has the highest melting point? A—Carbon. Its melting point is not definitely known but it is above 6,300 F., the temperature at which it turns to vapor without going through a liquid stage.

Q—Why do most insects have six legs? A—Nature evolved the six-legged insects from many-legged ancestors because walking on two pairs of legs is not efficient for a small animal encased in an external skeleton.

Q—What eight Presidents of the United States served less than one term? A—William Henry Harrison, John Tyler, Zachary Taylor, Millard Fillmore, Andrew Johnson, James A. Garfield, Chester A. Arthur and Warren G. Harding.

Q—In what occupation are the most women employed? A—There are now more women stenographers, typists and other office workers in America than there are women in any other occupation. In the last 40 years, government figures indicate that the number of women in these clerical jobs has risen from a few thousand to over four million.

Q—Why do we refer to a golf course as the "links"? A—The word "links," in Scottish, originally designated undulating sandy and hilly land along the seashore. Golf courses were called links because they were most numerous along the coast.

"Murder" in Quotes by Julius Long

THE bullpen door opened with a painful grating sound, for its boilerplate taxed its unlubricated hinges. Sheriff Em Souders filled the doorway. He beckoned with a chubby index finger. "This is it, Jimmer. The jury's come in with a verdict."

Now that it had happened, it wasn't so bad. I'd dreamed over and over that they had found me guilty, that they were leading me to the electric chair, that I was sitting in it waiting for someone to throw the switch. That type of dream had been a bad one, but it had been worse dreaming the opposite, that I had been freed, for the let-down when I woke up was terrible.

I stared down at the five greasy cards in my hand. The five other card players had forgotten theirs. The ham in me compelled me to look at mine steadily and say: "We'll finish the hand, boys."

I was terrific. The five inmates of the Queen County jail regarded me with new respect. We played out the hand with exaggerated deliberation. I could imagine each of them telling it for the rest of his life. "Yes, I'll never forget it," he would say. "I'll never forget that afternoon in the old Queen County jail. We were playin' five-card 'straight draw and settin' in the game was Jimmer Malloy, on trial for the murder of Charlie Berman, the thief that had stole his big resort at Queen Lake. The jury'd been out since the night before. Right in the middle of a hand the sheriff opens up the bullpen door and says the jury's bring in a verdict."

"Jimmer Malloy, he never bats an eye. He just says casual-like: 'We'll finish this here hand, boys.' So we played out the hand with Jimmer as cool as a cucumber, not knowin' whether the jury'd give him the chair or let him go free."

I dropped 60 cents because I was too excited to realize that I was a pair of greasy fours wouldn't win. The hand played I stepped over the bolted-down bench and away from the table. I went back to my cell and got a sports jacket I didn't need, for it was a hot summer day outside. As I returned, Hal Hoover, who'd been in my class at high school and who was the only other local man in the jail, extended his hand.

Cleburne Rites Set For Blast Victim

The body of Bobby Wayne Oliver, 17, who was killed instantly Saturday when an oil tank exploded, was taken to Cleburne Sunday. Funeral rites will be held in that city.

BOY SCOUTS SET SAIL

CHERBOURG, FRANCE.—(AP)—The delegation of 650 American Boy Scouts who attended the World Jamboree at Bad Ischl, Austria, sailed for home Sunday on the ship Homeland, which takes 10 days on the Atlantic run.

I walked to the defense table. My lawyer Gene Sawyer glanced back at me and smiled wryly. Gene was almost as big as the sheriff. At 40 he was prematurely gray.

MY own convertible though a conservative blue, had been easily identifiable, the night of Charlie Berman's murder, and I had slowed down enough for the angry girl to flash a spotlight upon me. I never dreamed of disputing her word when afterwards she told the sheriff that I had left Berman's place at about 11 o'clock that night.

After that everything seemed to add up against me. I had noticed the gun, of course, a .38, but there are thousands of guns like it. It had never occurred to me that the weapon was mine—otherwise I would have picked it up. Sam Carter argued that I had never thought it could be traced to me. The fact was that the gun was unregistered, and the sheriff connected me with it only by digging slugs out of a sand trap I had set up on my own place in Orchard Island. I liked guns, and I had built a target rack in front of the sand. The slugs the sheriff had found were ideal for a ballistics check.

Plan Tremendous Increase In Synthetic Wool Production

By PETER EDSON
NEA Washington Correspondent

WASHINGTON—Plans to increase U. S. production of synthetic wools to a rate of 100 million pounds a year by 1953 now are being considered by Charles E. Wilson, director of Defense Mobilization. Present production is about four million pounds.

All of this production will be by private industry. No government plants and no government financing are involved. At the present time, the granting of tax amortizations to companies that build the new synthetic wool plants is not considered necessary. Government priorities to obtain steel and other critical materials needed to build the new plants will be granted. The government also will provide an ultimate market for almost all the synthetic wool produced. The wool itself is considered necessary for the national defense effort.

Half a dozen major U. S. chemical manufacturing companies now are interested in synthetic wool production. Included are DuPont, Union Carbide, Celanese Corporation, Virginia-Carolina Company, American Viscose, Monsanto and Chemstrand. The list may grow. Location of new plants has not been decided upon.

As far as the United States alone is concerned, consumption of natural wool has been about three times domestic production. What wool consumption the U. S. does not produce itself is imported from Australia, New Zealand, South Africa and the Argentine.

Natural Wool Prices Soar
In 1933 the average price of wool was 46 cents a pound. In 1945 it was 73 cents a pound. Last March, the price for domestic wool was \$1.19, while Australian top grades, delivered in bond at Boston, brought \$3.60 a pound.

By July, this top price had been brought down to \$2.45 a pound. The drop had been forced largely by stopping government purchases of the American defense program. By further curtailing U. S. purchases, the price may be forced down to \$2. But this still is considered a high price for synthetic wool.

Synthetic wool fibers produced at 30 cents a pound or less, of course, knock natural wool production right out of the market. American consumption of wool averaged 322,000,000 pounds a year in the 1937-41 period. In the war years, 1942-45, it shot up to 582,000,000 pounds annually.

It dropped to 328,000,000 pounds in 1949, rose to 429,000,000 pounds in 1950. It will go over 500,000,000 pounds this year, and probably will go still higher in 1952.

Since the end of the war, with consumption down, the U. S. has been drawing heavily on wool stocks.

CATCHING "THE KANSAS CITY SPIRIT"—Amid the mud and muck of the flood-ravaged Kansas City industrial district, famed artist Norman Rockwell sketches scenes of recovery. Rockwell toured the flood-ravaged areas to make sketches for a painting of "the Kansas City spirit." The work will be his contribution to the city, dramatizing its remarkable recovery and the unquenchable spirit that made it possible.

One-Time Pro Boxer Put On FBI's List Of 10 Most Wanted

WASHINGTON — A one-time professional boxer Monday was put on the FBI's list of 10 most wanted criminals.

He is Giacomo Anthony Baccolla, 34. The FBI said he boxed under the name of Jack Fiore in 1933-36. Baccolla is wanted in Detroit for the murder of Albert Swartz, a jeweler, May 17, 1951, and on a federal charge there of obstruction of justice, based on the slaying of Swartz.

The FBI, in asking law enforcement officers throughout the nation to be on the lookout for Baccolla, said he is "considered an extremely dangerous criminal who may kill without the slightest provocation rather than be caught and returned to face the serious charges outstanding against him." Baccolla was arrested in New York in 1937 and charged with armed robbery. He received a sentence of 12 to 20 years.

In November, 1950, he was arrested in Laredo, Texas, for possession of narcotics. He pleaded guilty and was to be sentenced at Corpus Christi, but he failed to show up and forfeited his bond. Baccolla is five feet, nine inches tall, weighs about 145, has dark brown hair and brown eyes, and has a one and a half-inch scar over his left eye.

Railmen's Walkout Closes Steel Plant

BUFFALO, N. Y. — The Lackawanna plant of Bethlehem Steel Company shut down Monday after a "sick" walkout by about 300 brakemen and conductors of the South Buffalo Railway, which serves the steel works.

Almost 17,000 Bethlehem employees were idled by the shutdown. Sunday night's last-minute parley between railway officials and union representatives failed to end the walkout, which began Saturday night and has continued through Monday.

Edward P. Martin, general manager of Bethlehem, said the steel company could not operate without the services of the line, and ordered an immediate shutdown of the plant. Blast furnaces were banked and other processes leading to a complete shutdown were undertaken Sunday. Martin said the plant would be idle Monday.

Weekend Violence Kills 22 In Texas

By The Associated Press
Weekend violence took 22 or more lives in Texas.

Thirteen died in traffic accidents. Three drowned. Two died from the heat and two others died in oil field accidents. Two were shot to death.

The deaths include:
Mrs. Beulah Brown, 51, of Miami, Fla., killed Sunday night when her car and a truck collided near Fredericksburg.

Leo Phillip Goudchaux, 26, a Beaumont pharmacist, killed Sunday when his car crashed into a culvert east of Liberty.

Ed Heath, 50, San Benito businessman, drowned at Boca Chica Beach, near Brownsville, Saturday night.

Pasquel Martinez, 25, an alien cotton picker, drowned while swimming near La Feria Sunday.

Reyes Gonzales, of near Brownsville, drowned Saturday near LaSara when he was pinned in a water-filled ditch under a tractor.

Teen-Age Shooting
Paul Benavides, 15, killed by a shotgun blast in Fort Worth Sunday. Another teen-ager told police he shot him after the two had quarreled.

O. E. Johnson, about 25, an oil field worker from Lubbock, died Sunday of injuries suffered in an accident at an oil well seven miles northeast of Lubbock. Johnson was crushed between a truck and a steel building.

Pfc. John B. Uncen, 22, a native of Berger, was killed Sunday when his car overturned near Fritch.

Woodrow Wilson Fowler, 37, Berger steam fitter, was injured fatally Sunday when his car and a truck collided near Berger.

Oscar Leon Loftin, 24, Brownsville, died in Canyon Sunday, several hours after his car overturned just north of there.

Four Die In Crash
Four youths were killed Sunday when two cars crashed head-on about 18 miles west of Snyder. They were Charles Duwane McCollum, Brown-

field; James William Monk, 22, James Ronald Graves, 16, and Troy Vernon Graves, about 20, the latter three of center.

Concepcion Valdez, 55, injured fatally Saturday when struck by an automobile in San Antonio.

Thomas Felippo, 62, was killed Saturday night in Fort Worth the same way.

Mrs. Gloria Jean Kimbrough, 25, of Odessa, and her infant daughter, Deborah, fatally injured Saturday when their car overturned near Snyder.

Richard Earl Wood, 53, was shot to death Saturday night in Dallas. Murder charges were filed against William Knewton Brown, 37.

Pvt. Melvin E. Warwick of Felton, Calif., stationed at Lackland Air Force Base, San Antonio, collapsed Friday night while on a four-mile march. Roy C. Doty, Fort Worth construction, died Saturday of heat prostration.

Bobby Wayne Oliver, 17, of Odessa, was killed Saturday when an oil tank exploded southwest of Odessa.

Chrysler FirePower V-8

does for you!

YOU'VE HEARD THE TALK about Chrysler's revolutionary new V-8 FirePower engine... with its 180 horsepower, its amazing smoothness and acceleration...

NOW COME DRIVE THE REASON for all this excitement. Here is the most revolutionary advance in American motor car engine design in 27 years...

HERE'S 180 HORSEPOWER... a full 20 horsepower more than that of the next most powerful American passenger car engine!

A NEW KIND OF HIGH COMPRESSION... the first Hemispherical Combustion Chamber in an American car engine actually puts to work more of the energy contained in the fuel than other engines.

HERE'S EXCITING PERFORMANCE... responsiveness, acceleration, smoothness, which no other passenger car engine built in this country can equal today. And you can have it with FirePower even on non-premium grade gasoline.

HERE'S THE SAFETY OF POWER-IN-RESERVE greater than you've ever had at your command — a new high in the instant responsiveness which is the very essence of safety on today's highways!

YOU'LL LIKE CHRYSLER'S POWER BRAKING, TOO... smoother, gentler, swifter stops at any speed than you've ever known. At the touch of your toe, power from the engine helps put on the brakes... reduces foot pressure by as much as two-thirds!

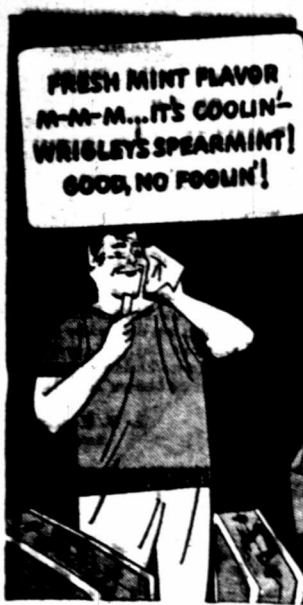

AND HYDRAGUIDE... THE NEW POWER STEERING! It makes driving a car a brand new experience. At your touch on the wheel, hydraulic power provides four-fifths of the steering energy. Even at a standstill, you can turn the wheels with your thumb and one finger! A great safety feature.

COME DRIVE IT... ONLY A RIDE CAN SHOW YOU WHAT ONLY A CHRYSLER GIVES!

DADDY RINGTAIL

By WESLEY DAVIS

Daddy Ringtail And Tug Of War

Mugwump Monkey, the monkey boy, stood close by the Whispering River. The Huffen Puffen, the friendly wolf, was there beside him. Yes, and Daddy Ringtail was there, of course.

They were waiting, they were, for Uncle Bunkum to come up the river with a Tug of War. Uncle Bunkum

had written a letter to say he would come up the river with a Tug of War, and so now the folks were waiting for him to do it, except—well, the folks weren't sure just

what the Tug of War would be. Said Mugwump: "I know what a Tug of War is. Tug of War is a game, and to play the game, people get on the ends of a rope and pull to see who is the stronger."

Daddy Ringtail smiled, because he knew about the game of Tug of War, just as Mugwump had told about it. But how could Uncle Bunkum be coming up the river with a Tug of War which was really a game? Well, Mugwump didn't know, and so the Huffen said he thought Uncle Bunkum's Tug of War was not a game at all, it wasn't.

Said the Huffen: "A tug is a kind of boat, it is, and maybe the Tug of War is really a tugboat that belongs to Mr. War."

because he thought the Huffen was wrong.

"We shall see," said Daddy Ringtail because he really didn't know what kind of Tug of War would come with Uncle Bunkum from down the river, but just then—"Toot! Toot!"

"Listen!" said Daddy Ringtail. From around a turn in the river came the happy noise of "Toot! Toot!"

"It is Mr. War's tugboat, it is!" cried the Huffen. "Yes sir, and I was right after all!"

And was the Huffen right? Well, there came a happy little boat, all right, with a whistle tooting a "Toot! Toot!" Oh, but the boat did not belong to Mr. War, because it belonged to Uncle Bunkum. He had bought it with playlike guns of war all over. "Toot! Toot!" tooted the whistle on the Tug of War, because Uncle Bunkum had pulled the string to do it, and everyone went for a happy ride on the Whispering River, all in the Tug of War, all on a very happy day!

Professor Comes For Bride Driving Two White Horses

BOSTON—A bridegroom arrived Sunday to claim his bride, driving not one white charger but two.

He was Prof. Helmut A. Zander of the University of Minnesota. He was married shortly afterwards to Annemarie J. Fogels, who came here a year and a half ago with her parents as displaced persons from Latvia.

The professor explained he's heard his bride's parents talk about an old Latvian custom—one in which a bridegroom arrives on his wedding day driving two white horses.

So the professor borrowed the chargers and a festive carriage from an antique museum on a Brookline estate.

INDIANS PACE YANKEES—

Slipping Dodgers Watch Lead Melt In National Race

By JOE REITZLER
Associated Press Sports Writer
Is this going to be the clamorous 1942 campaign all over again for the skidding Brooklyn Dodgers?

Just a week ago, the Dodgers were riding high and fancy free, laughing their way to the pennant with a 13 1/2-game bulge over the runner-up New York Giants.

Following Sunday's 13-4 pasting in Boston, the Brooks' lead is now a "mere" eight games over the rejuvenated Giants. That means the Giants, who whipped Philadelphia, 5-4, for their ninth straight, have made up five and one-half games in one week.

It took the Cards exactly 18 days and 23 games to make up the eight and one-half-game deficit. The next day, September 13, the Cards moved in front and never were headed.

Meanwhile, the race in the American League continues at fever edge. Cleveland's Indians regained undisturbed possession of first place by splitting a pair with the White Sox in Chicago while Philadelphia's A's were burying the New York Yankees, 15-1. The Indians won the opener, 4-0, and lost the nightcap, 7-6, to move a half-game in front of the defending champions.

The St. Louis Cardinals vaulted over the Phils into third place, winning two from Cincinnati, 5-4 and 5-1. Pittsburgh's Pirates took two from the Chicago Cubs, 4-2 and 5-4.

A Chicago turnout of 46,864 saw Early Wynn blank the White Sox with seven hits in the opener, then watched the Sox win the nightcap with a five-run seventh inning. Chicago, however, had to beat off a similar five-run uprising by the Indians in the eighth. Al Zarilla's ninth homer with a mate aboard proved the difference.

A nine-run seventh—the biggest single inning scoring spree against the Yankees this season—helped Morris Martin knock the Yankees out of a first place tie. Dave Philley collected five hits in five times at bat and Eddie Jooz scored four runs.

The Red Sox shelved Bob Porterfield for five runs in the first inning to give Boston a sweep of the three-game set in Washington. Ray Scarborough, in relief, won his tenth decision. Ted Williams blasted his twenty-sixth homer for Boston in the sixth inning with one on.

Pat Mullin and George Kell sparked the Tigers to their double win before a throng of 18,369, largest Browns home crowd since May, 1947. Mullin had three doubles and three singles, and Kell had a double and four singles.

The Browns used Ed Gaedel, 26-year-old midget, in their lineup. Gaedel, a three-foot, seven-inch stunt man from Chicago, was inserted as a pinch hitter for leadoff batter Frank Saucier in the first inning—and drew a walk.

Umpire Ed Hurley questioned Gaedel's eligibility, so he trotted back to the dugout and brought forth his signed contract for proof. Jim Dealing ran for Gaedel.

Don Mueller's eighth-inning single scored Whitley Lockman with the run that gave the Giants their ninth straight victory and handed the Phils their eighth straight loss. Bobby Thomson's homer, his twenty-third, had tied the score a few moments earlier to climax an uphill battle by the Giants.

Warren Spahn chalked up his fifteenth win as the Braves slaughtered and Willard Marshall homered for the victors. The loss was Brooklyn's fifth in its last seven games.

Pittsburgh's Ralph Kiner tied Brooklyn's Gil Hodges for the home run lead by smashing his thirty-fourth round tripper. Kiner also batted in three runs to wrest the league lead from New York's Monte Irvin, 90 to 89. Rookie Don Carlson held the Cubs to eight hits in the opener in a successful big league debut.

Gliff Chambers and Al Brazle hurled the double win for St. Louis. Brazle yielded five hits in the nightcap. It was his first start of the season.

Big Spring, Roswell Win Doubleheaders; Colts, Drillers Split

By The Associated Press
Big Spring and Roswell Sunday swept their Longhorn League twin bills. San Angelo and Artesia divided Big Spring downed Sweetwater twice, 10-4 and 7-3; Roswell defeated Odessa, 6-3 and 10-4. Midland and Vernon didn't play. They meet in a twin bill Monday night.

San Angelo took the first game of its bill, 8-1, but lost, 5-3, in the nightcap.

Roswell scored two runs in the fifth and four in the sixth to take the first game from Odessa.

The double victory moved the Rockets a half-game ahead of the Oilers into third place.

Big Spring brought out its big bats to sink Sweetwater.

San Angelo led all the way to win the first game from Artesia. They couldn't find the plate until the fifth in the second game.

Houston Buffs Hand Cats Double Setback

By The Associated Press
Hopes of the Fort Worth Cats took a severe setback Sunday night. The Houston Buffs swept a doubleheader to drop the Cats four games from fourth place.

Houston humbled the Cats, 2-1 and 6-1. San Antonio and Dallas traded shutouts, Dallas winning, 3-0, and losing, 8-0.

Oklahoma City coasted to an 8-0 victory over Beaumont, and Shreveport edged Tulsa, 4-1, in single games.

Midland, Vernon Twin Bill Slated Monday

The twin bill scheduled Sunday between Midland and Vernon, will be played at 7:30 p.m. Monday there.

Vernon discontinued Sunday afternoon baseball games recently, due to the heat.

The Brooklyn Dodgers were the last to join the National League. That was in 1890.

Coaches Say O. U., Tulsa To Capture Loop Crowns

KANSAS CITY—(AP)—Coaches say Oklahoma again will come up with football champions in both the Big Seven and Missouri Valley conferences this fall.

In the Big Seven, the University of Oklahoma Sooners are favored to make it four undisputed championships in a row.

Tulsa's Golden Hurricanes are favorites to repeat in the Missouri Valley League.

Coaches of the two leagues listed their favorites for the Midwest Chapter of the Football Writers Association of America.

The Big Seven coaches liked Nebraska, runner-up in 1950, for the same spot this fall, followed by Kansas, Colorado, Missouri, Iowa State and Kansas State.

The University of Houston, beginning its first football season as a Missouri Valley member, was picked to finish second in that conference. The coaches figure Houston has sufficient experienced personnel to finish ahead of Detroit, second last year.

In fourth place, according to the Valley coaches, will be the Oklahoma A&M Aggies, followed by Wichita, Drake and Bradley.

Coach Charles (Bud) Wilkinson's Oklahoma Sooners again will be in the money. Several of their great stars—foremost among them Fullback Leon Heath—have graduated.

But All-America Tackle Jim Weathersall and Billy Vessels, a great halfback as a sophomore last season, head capable line and backfield corps.

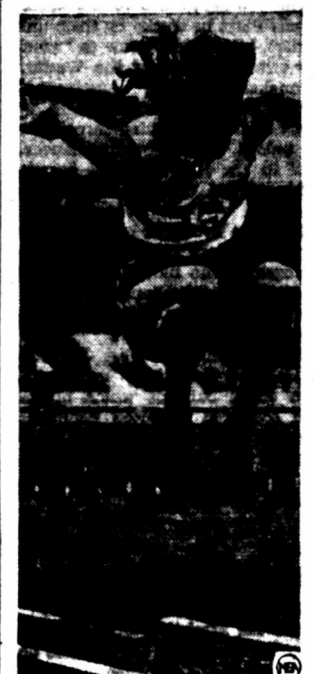

Coaches of the Texas team are Joe Golding and Johnny Kitchens. Paul Young and Afton Kelly are mentors of the Oklahoma squad.

Two players were added to the Texas roster at the last minute. Billy Harris, center, and Tommy Field, fullback, replaced Doyle Wix, Tavarakana, and Cletus Alexander. Harris and Field were members of the 1944 and 1950 Wichita Falls state championship eleven.

BROADWAY—Muscles strained, Dorothy Tyler wings her way 17 feet, eight inches in the broad jump for Britain in a meet with French athletes at London's White City. (NEA)

If you are an old time Midland Indian fan, and you want to start an argument but quick, then say that Scooter Hughes is a better shortstop than Clyde Perry.

Or, reverse the order and say that Perry is a better shortstop than the Scooter.

Either way, five will get you 10 you're in for a verbal battle with someone if you aren't talking to yourself.

We don't know who's the best. We haven't seen Perry, but we think highly of Hughes' ability.

But that wasn't the purpose of mentioning Perry in the first place. The thing that even brought it to mind is a controversy in Dallas that is raging around the play of Perry.

Jere R. Hayes, sports columnist for the Dallas Times-Herald, thinks highly of Perry, the ex-Midland shortstop who now toils for the Dallas Eagles.

Hayes has been accused by many Dallas fans of "over playing" the feats of Perry. Some say his "sensational catches" as described by Hayes are none other than routine stops.

Hayes vigorously denies this, saying he merely reports the facts and maintains Perry is a super-fielder. Many Dallas fans have rallied around to Perry's cause, saying he indeed is a great shortstop.

All we know about the situation is we'd like to have both Perry and Hughes on any team of ours.

Coaches are working hard to line up football talent for their colleges this time of year.

And they did strictly all right in luring players in the Permian Bowl game in Odessa Friday night to college.

Headline players on the squads indicated they would attend these schools:
West: Kenneth Henson, Stanton, Texas A&M or North Texas State; Morris Stone, Kerrville, Rice; George Christian, Pecos, Baylor; James Self, Wichita Falls, Texas A&M; Reed Kilgore, Midland, U. of Texas; Bobby Carman, Wink, Texas Western; Don Kaye Brown, Kermit, Texas Tech; Jim O'Neal, Midland, SMU; Duane Bush, Midland, Texas Western; Dean White, Lubbock, Texas Tech; Wayne Culvahouse, Kermit, Rice.

East: Bill Baker, Coleman; Texas Tech; Billy Quinn, San Antonio, Texas; Gerald Sandusky, Bronie, Texas A&M; Jim Rosser, Cleburne, Texas; Billy Harris, Wichita Falls, Texas; Eric Knebel, San Antonio, SMU; Jackie Wolf, Coahoma, Baylor.

Watch those boys: They'll be the all-Americans of tomorrow.

Pity the plight of the poor sports writer: We're on "vacation" right now, but not taking it easy at the mountains or on the beach. We're working.

We enjoy it, too.
Of course, it would be all the same if we didn't—the wife commanded it so.

10-Run Lead No Good In Slap-Happy WT-NM Loop Tilt

By The Associated Press
Even a 10-run lead isn't safe in the West Texas-New Mexico League.

Lamesa went into the last of the seventh leading Amarillo 14-4 Sunday. Two innings later, the Lobos had lost a 15-14 decision to the Gold Sox.

Amarillo scored five runs in the seventh and six in the eighth. The Gold Sox didn't even have to bat in the ninth. Merv Connors' grand slam home run in the seventh helped.

Seventh-place Borger clubbed 19 hits to clobber Abilene, 17-3. Albuquerque shamed Lubbock, 6-5. Pampa used seven walks and five hits to trim Clovis, 3-1.

Lettfelder Oil Daley of the Albany Cardinals in the Georgia-Florida League hit three home runs in one game recently. He just missed a fourth.

Texas Legionnaires Name New Officers, Ask Acheson Ouster

SAN ANTONIO—(AP)—Texas Legionnaires headed home in a fighting mood Monday after ending their state convention with a demand that Dean Acheson be ousted as secretary of State.

This was asked in a resolution recommending that the President dismiss Acheson and staff the State Department with "men of high purpose and realistic views."

The Legion also branded the UN ineffective as a guardian of the peace; demanded that members of the United Nations be called upon to contribute their utmost to halt aggression; declined to join any world federation; urged continued build-up of the North Atlantic Pact army; opposed admitting Red China to the United Nations, and asked that military supplies be furnished to National China.

The resolutions were offered by State Senator Rogers Kelley of Edinburg.

Critique Marshall Plan The Legion criticized the Marshall Plan and demanded that the United States help only those countries which show they are willing to help themselves; asked that the Point Four program be limited to supplying American technical know-how to underdeveloped areas of the world, and that the program be moved from the State Department and set up as a separate agency.

Charles G. Gibson of Amarillo is the new state commander of the American Legion. The Legionnaires picked Dallas for their 1952 convention.

Other state officers include Robert V. Keenan of Gladewater, judge advocate; W. F. Spiegel of Fort Arthur, treasurer; Mrs. Vera Langley of Dallas, historian; Rev. William Arms of Fort Worth, chaplain, and Ernest Davis of Odessa, sergeant-at-arms.

Injured Ballinger Youth Rescued From Texas' Tallest Peak

CARLSBAD, N. M.—(AP)—An injured youth was rescued from the rocky slopes of the highest mountain in Texas Sunday night after he painfully crawled three miles from a ledge where he was marooned.

John Eoff, 19, of Ballinger, Texas, was crippled by cactus spines in a fall on towering Guadalupe Peak. A companion, Jim Erwin, 18, also of Ballinger, made the five-hour descent to alert rescue parties.

"They both ought to be spanked," said Sheriff Bill High of Eddy County, New Mexico. "They had no business on the mountain if they couldn't take care of themselves."

Eoff spent 16 hours without food or water on the ledge, about 8,000 feet up the mountain.

But when Border Patrolman Jim Tice found him, he still had enough energy to want to crawl back up to recover a billfold containing \$4. Tice restrained him and seconded the sheriff's motion for a spanking.

The search party, gathered from Carlsbad, El Paso, Van Horn and Ballinger, had by-passed the injured youth in the dark on the way to the almost inaccessible ledge.

The two Texans climbed the peak Saturday to spend the night and fulfill a lifelong ambition of Eoff.

The youth fell to the ledge on the way down Sunday morning.

Eoff is a sophomore at Abilene Christian College. Erwin is a student at Trinity University in San Antonio.

Guadalupe Peak rears its 8,751-foot height from the plains 60 miles southwest of Carlsbad, just over the Texas border.

Western Observers See Red Youth Meet As 'Near Disaster'

BERLIN—(AP)—Official Western observers plan to label the Communist Peace Festival a "near disaster" for communism in reports to their governments.

The festivals wound up a two-week stand Sunday night in a blaze of hate for the United States with half a million blue-shirted youths chanting allegiance to Stalin. The kids crowded trains and buses Monday, enroute to their homes behind the Iron Curtain.

Despite the mass hysteria whipped up by the Reds, Western observers were unimpressed.

The festival ended after two hours of feverish anti-Western speeches Sunday night with an oath-taking rite reminiscent of Nazi mysticism.

The youths, hauled to the Marx-Engels Platz in trucks by their unit leaders, were told to vow to "wreck the criminal plans of the Western warmakers."

"We swear it, we swear it, we swear it!" they chanted three times in unison, raising their clenched fists in the Red salute as searchlights played on a giant portrait of Stalin.

Then, as fireworks burst over the city, they broke ranks to join other youngsters who had danced hokey and were make-dancing, singing and break-dancing through the dark streets of the great city.

Anti-Communist West Berliners spiced the final rally by sending over small balloons which opened and scattered anti-Red pamphlets through the crowd. These were scooped up eagerly, even though the Communist police grabbed them as quickly as they could.

State Oil, Gas Work Explained

The operation of the oil and gas division of the Texas Railroad Commission was explained Monday at the regular weekly luncheon-meeting of the Kiwanis Club.

The speaker was Warren Barton, Midland attorney who formerly served with the division as a legal examiner.

Barton said that the commission was set up in 1904 "for the purpose of regulating railroad rates" pursuant to a provision in the Texas constitution.

Then, in 1919, the oil and gas division was created to handle oil and gas problems.

"I don't know why they turned it over to the Railroad Commission," said Barton, "but I can imagine it was because the oil and gas business was small and they thought it always would be small."

"So they just turned it over to the Railroad Commission, rather than go to the expense of creating another board."

The oil and gas division operates through 10 field or district offices, one of which is located in Midland for the administration of activities in 44 West Texas counties.

Barton was introduced by Mayor Perry Pickett.

John W. Goodwin Dies At Lubbock LUBBOCK—(AP)—Former Judge John W. Goodwin, 98, whose father was one of the founders of Texas A&M College and a member of the first class, died Sunday night.

Goodwin for 18 years was on the bench of the 35th District. For 14 years he was attorney for the State Banking Department. He helped formulate many of Texas' banking laws.

Survivors include four sons. Services will be held Tuesday in Brownwood, where Goodwin spent his early life.

Four Persons Hurt In Weekend Crash

Four persons received minor injuries in a weekend collision of a truck and automobile on the Cloverdale Road.

Treated at Midland Memorial Hospital were T. O. Midkiff, III, John Midkiff and Al Cole. Injuries ranged from facial lacerations to a fractured nose suffered by John Midkiff.

Treated at Western Clinic-Hospital was G. E. Archer of Comanche. He suffered a chest injury. His seven-year-old daughter also underwent observation at the hospital.

The car carrying the two Midkiffs and Cole collided with a truck driven by Archer at the intersection of a lateral road and the Cloverdale Road Saturday night.

Hurricane— (Continued From Page One) of Cozumel, and other points in the storm's path reported Sunday night that inhabitants took to the streets in panic.

Meridid felt winds of 100 miles per hour. It was in the center of the storm's path, away from the vicious northern half of the storm which slammed Jamaica with a right-hand punch. Kingston received the heaviest blow with Port Royal, south of Kingston, suffering damage to every building reporting and four deaths, as winds reached 130 miles per hour.

Eight persons died at May Pen, near the former U. S. base, Verman Field.

Authorities at Kingston still were trying to round up 70 prisoners who escaped when the storm topped a wall of the island's penitentiary.

The island's poor house and mental hospital also were hard hit.

The government reported several persons were killed there when the roofs of those buildings collapsed.

New Storm Flattens Out Ninety per cent of the rich banana crop in some areas was blown down. The coconut crop, however, suffered less damage.

Miami forecasters, who had watched a new "area of suspicion" near Puerto Rico, reported an eastery wave there had flattened out, ending the threat of a new tropical storm.

The Miami Weather Bureau said the wave of showers and shifting winds that sometimes denote a storm in the making appeared to be returning to normal.

"We'll keep watch, but we are pretty sure there will be no further development there," said Grady Norton, chief storm forecaster in Miami.

Motorcyclists Test Their Riding Skill

Motorcyclists from Midland, Odessa and Roswell, N. M., tested their riding skill over the hazardous course of the Rankin Highway three miles south of Midland Sunday afternoon.

The Midland Motorcycle Club, whose president is Alvin Eblright, staged the event.

There were six place winners: Kenneth Feemster, Midland, first; Bug Powell, Odessa, second; Charles Penick, Midland, third; Junior Mixon, Midland, fourth; Carl Coen, Roswell, fifth, and James Null, Odessa, sixth.

Elementary, Junior High Enrollment Is For New Students Only elementary and junior high school students who have not attended Midland public schools need register August 27-28, Supt. Frank Monroe said Monday.

High school students, of course, will be enrolled prior to the opening of school.

Monroe said each of the Midland elementary schools will have six grades and Oowden Junior High School this year will teach only the seventh and eighth grades.

Students who previously attended Midland Public Schools will register when school opens September 4.

HOUSE JOINT RESOLUTION NO. 2 PROPOSING AN AMENDMENT TO SECTION 49-B, ARTICLE III, CONSTITUTION OF TEXAS, SO THAT THE TOTAL AMOUNT OF THE BONDS OF THE STATE OF TEXAS ISSUED BY THE VETERANS' LAND BOARD IS INCREASED TO ONE HUNDRED MILLION DOLLARS (\$100,000,000); PROVIDING FOR THE ISSUANCE OF SAID BONDS AND CERTAIN CONDITIONS RELATING THEREIN AND THE USE OF THE PROCEEDS THEREOF FOR THE PURPOSES OF THE VETERANS' LAND FUND; PROVIDING FOR THE SALE OF SUCH BONDS FOR AN ELECTION AND THE ISSUANCE OF A PROVISIONAL WARRANT;

SECTION 1. That Section 49-B, Article III, Constitution of Texas, be amended so that the same will hereafter read as follows: "SECTION 49-B. There is hereby created a Board to be known as the Veterans' Land Board, which shall be composed of the Governor, the Attorney General, and the Commissioner of the General Land Office. The Veterans' Land Board may issue not to exceed One Hundred Million Dollars (\$100,000,000) in bonds or obligations of the State of Texas for the purpose of creating a fund to be known as the Veterans' Land Fund. Such bonds shall be issued by the Board for the sole purpose of purchasing lands suitable for the purposes of the Veterans' Land Fund as provided in this section. (a) owned by the United States, or any governmental agency, or (b) owned by the Texas Prison System, or any other governmental agency, or (c) owned by any person, firm, or corporation.

SECTION 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of the State of Texas at the election to be held throughout the State on the second Tuesday in November, 1951, at which election there shall be printed thereon the following clause: "FOR THE AMENDMENT TO THE CONSTITUTION OF TEXAS, PROVIDING FOR THE ISSUANCE OF BONDS TO BE USED FOR THE PURPOSES OF THE VETERANS' LAND FUND, AS PROVIDED IN SECTION 49-B, ARTICLE III, OF THE CONSTITUTION OF TEXAS, AS AMENDED BY THIS AMENDMENT."

SECTION 3. The Governor of the State of Texas shall issue the necessary proclamation for said election, and shall call the election and the publication of the results thereof on August 6, 1951, at 10 o'clock a. m.

SECTION 4. The Legislature shall have the power to amend this section by adding thereto a new section, to be numbered Section 49-C, and authorizing the Legislature to provide for a statewide system of retirement and pensions for appointive officers and employees of the several counties of the State of Texas, and to provide that the same shall be voluntary and authorized by qualified voters of such county providing for the acceptance and expenditure of funds therefor from State funds, and providing that expenditures from State funds shall not exceed the expenditure of such county for such purposes each year.

The Bedford Place

Grace and substantial beauty are embodied in this new three bedroom home of El Paso brick located just a stone's throw from the Country Club.

The recessed entrance leads through a hallway into the roomy, cheerful living room, complete with wood-burning fireplace. The living room opens into the dining room, which has access in turn to the large patio. The kitchen measures 12x15 feet and its features include a 28-foot ceramic tile drainboard, a super-abundance of stained knotty pine cabinets. It is plumbed for dishwasher and disposal unit, with instantaneous hot water. An electrically-controlled vent is built over the range location. Breakfast room and laundry room are just off the kitchen.

The stained knotty pine den provides a lovely view of the quiet street and the grounds of the Country Club, and may be used as the fourth bedroom. All three massive bedrooms have large, walk-in closets with sliding doors to facilitate easier furniture arrangement. Three storage closets in the long hall.

Phone jacks have been placed in the den, the kitchen and the master bedroom. Central heating unit has been installed, and ducts to handle air conditioning. Recessed lighting and mahogany doors throughout. The double garage is completely finished inside, and has three enclosed storage closets.

Here is a home for the most discriminating family, one that will be a daily joy for the rest of your life. For appointment to see, at any time, call

• JACOBY ON BRIDGE

By OSWALD JACOBY
Written for NEA Service
North's bidding in today's hand looked more scientific than it really was. He bid two clubs (the Stayman Convention) to find out whether or not South had a bid-dable major suit. When South properly showed his hearts, North raised to game in that suit.

NORTH		28

Opening lead—♠ 10			

A jump to three no-trump was North's best response to the opening bid.

At three no-trump South would have no problems. He would need a simple diamond finesse to make his contract. The finesse would succeed, and that would be that.

At four hearts, life was not so simple. South needed either a good break in clubs or a very good break in diamonds. What's more, he had to play the hand very carefully to take advantage of whatever good fortune might come his way.

West opened the ten of spades, and South won in his own hand. He next drew three rounds of trumps and cashed the rest of the spades, ending in dummy. Then he could afford to lead a club to try the finesse of the club ten.

West won with the jack of clubs and found himself up a tree. If he led the last spade dummy could ruff while South discarded a loser. (That's why declarer stripped out the spades before tackling the clubs.)

If he led a diamond, South needed only the jack to win three tricks in the suit. West therefore greeted his teeth and laid down the king of clubs.

When the club king held, West continued with his last club, allowing East to win with the ace. This left West on the ground but put East up in the branches of that tree.

If East returned the last club, South would ruff and discard a diamond from dummy; and then a simple diamond finesse would be enough. East therefore returned the six of diamond as the only chance to defeat the contract.

South's only chance to make the contract consisted in finding the ten of diamonds in the East hand and the king of diamonds in the West hand. Hence he played the nine of diamonds.

This finished off West. If he put up the king, declarer had three natural diamond tricks; and if he ducked, the nine would hold and South would be in position to repeat the diamond finesse.

• CARD SENSE •

Q—The bidding has been:
South West North East
1 Spade Pass 3 Diamonds Pass
3 Spades Pass 3 N T. Pass

You, South, hold: Spades K-Q-J-7-3, Hearts K-Q-5, Diamonds K-4 Clubs K-9-2. What do you do?

A—Bid six no-trump. Your partner cannot have a three-diamond bid without at least three aces. If he has four aces and some sort of diamond suit this leap to six no-trump may encourage him to bid the grand slam.

TODAY'S QUESTION
The bidding has been:
North East South West
1 Spade Pass 2 Diamonds Pass
2 Hearts Pass ?

You, South, hold: Spade 8, Hearts 7-4-3, Diamonds K-Q-J-9-6-3, Clubs 8-6-4. What do you do?

Kefauver Insists He is Not Candidate For President In '52

WASHINGTON—(P)—Insisting he is not a candidate, Senator Kefauver (D-Tenn.) says he has asked supporters to stop circulating petitions to put him in the Oregon primary as a presidential candidate.

He told a reporter Sunday that on a recent trip to Oregon he told friends "I wasn't a candidate" and "asked them to stop circulating petitions to put my name on the ballot."

Senator Douglas (D-Ill.) has taken a similar step, but his supporters have said they will go ahead anyway.

heroes of all Midland, the Little League baseballers returned from a successful participation in a regional tournament at Houston.

Arriving by train Sunday afternoon, the "future Yankees, Cardinals and Pirates" were met by a group of Midlanders, including fond parents—and the mayor, if you please.

Mayor Perry Pickett congratulated the lads on their sportsmanship and play in the "big tournament" and welcomed them back home. "Well-deserved congratulations are yours," the mayor said.

Tell Of Grand Trip
In unison, the youngsters told of a grand trip and expressed thanks to fans and friends who financed it. More than \$1,600 was contributed for the down state trip. Any surplus will be used in next year's program.

Fourteen players made the trip. They included Jimmie Owens, Arthur Adams, Jr., Dennis Patton, Robert Hillin, Benito Sanchez, John J. Redfern, III, Larry Cooper, Frank Parks, Gregor Smith, Billie Paris, Fred Hedger, Don Henderson, Lupe Hernandez and Milton Williams. John J. Redfern, Jr., and family and the Bob Hillin family accompanied the boys on the train trip. Everette Smith and family traveled by automobile to join the group at Houston. Also the Dave Henderson and Aaro Paris families were on hand to cheer the Midland boys in the tourney.

Redfern President
Redfern is Little League president; Hillin is manager of the team; and Smith is assistant manager.

The Midland contingent of very proud boys and their leaders departed by train in a special car last Tuesday night. Only two of the boys ever had slept in Pullmans and the boys who got the uppers complained of "no windows."

In the dead of the night as the T&P train roared through deep Texas, a voice boomed out from a youngster, all of 12 years old:

"Let's get some sleep, men!"

A stop was made in Port Worth for breakfast and a change to a streamliner train to Houston. The group arrived in Houston Wednesday afternoon. A special bus, provided by JayCees, met them and transported them to their tourist court quarters. A workout was held that afternoon.

Thursday, the Midland entry played North Austin and lost a heartbreaker, 7-2. Incidentally, the Austin team went on to win the tourney. Midland tied for third.

Complete Stands
Games of the tourney were played in a beautiful, well-equipped park, provided by Canada Dry. The Houston Little League park had complete stands, press facilities and fine parking aprons. Everything was done in "big league" style.

All of the 14 boys got into the final game in which Midland and Silsbee tied, 4-4. This game was played Friday.

But Wednesday night, it should be mentioned, the boys from West Texas got to see a Texas League game in which Vinegar Bend Midland of Houston struck out 18 Dallas Eagles.

Saturday was a great day for the youngsters when a side trip was made to Galveston. The boys swam in the gulf and the only casualty was Fred Hedger, bitten on the big toe by a crab. Also enjoyed was a "roller-coaster" ride. "Big Jim" Owens got a crick in his neck from dodging as he rode the coaster. A morning and an afternoon swim were enjoyed.

Is Next Move
Back to Houston and the train home was the next move of the happy boys and their leaders.

Port Worth taxi drivers still are shaking their heads. It seems the Midland boys got to see some of Cowntown for free. At Fort Worth, youngsters under 12 can ride free with an adult. So into the Port Worth taxis, seven boys and a leader per taxi, went the Midlanders.

"How many boys have you got?" a taxi driver inquired of one Midlander leader?

Safely out of Cowntown, the tired happy boys arrived home Sunday afternoon.

Approximately 120 boys of six teams participated in the Midland Little League program this Summer. Eighteen boys made up a team roster. Next year, it is hoped to have double the number of boys in uniform and playing. A "farm team" system will allow the increased number.

An example of the fun the boys had on their trip is shown on one "meal ticket" dutifully signed by a returning ball player:

It read: "three hamburgers, three pieces of cherry pie and three Cokes."

MacArthur Visits John Foster Dulles

NEW YORK—(P)—Gen. Douglas MacArthur was a weekend guest of John Foster Dulles, the State Department's drafter of the Japanese peace treaty, at Dulles' Summer home at Cold Spring harbor, on Long Island.

A spokesman for the ousted Far East commander said the meeting was social, the result of a long-standing date, and had nothing to do with the forthcoming Japanese peace treaty conference in San Francisco.

MacArthur was accompanied by his wife.

East German Family Escapes Into Sweden

MALMO, SWEDEN—(P)—An East German family who fled its Communist-ruled homeland in a leaky boat was safe in Sweden Monday.

The mother, father and four small children frantically pumped water out of their frail craft all Saturday night and were exhausted when they were picked up by a Swedish lightship in the Baltic Sunday.

The family has been taken to Landskrona, in Southern Sweden, where the Aliens Commission is expected to grant them asylum as political refugees.

Palette Club Art Center Gets Charter

AUSTIN—A charter has been issued to the Midland Palette Club Art Center, according to Secretary of State John Ben Shepperd.

Incorporators were Lucille Barron, Ralph Barron and Mary E. Butler. The center has no capital stock and its corporate existence is 50 years.

Shepperd also announced a permit to do business in Texas was issued to the Crown Drilling Company of Oklahoma. Crown has a capital stock of \$75,000 and Midland is the Texas office headquarters.

Texas agent is Lester Sarratt of Midland.

Geysers were first found in Iceland before the advent of recorded history.

Steel-Nerved Texan Clears Cars, Crowd With Crippled Jet

DETROIT—(P)—A steel-nerved Texan narrowly missed killing 40 or more persons at the National Air Races here Sunday. They owe their lives to Lt. Col. John W. LaFko, whose F-84 Thunderjet skimmed the highway and slid the length of a cornfield at the takeoff of the Allison Trophy Race to Indianapolis and back.

The people, all spectators, stood at the edge of the field. They knew only that they had witnessed the first mishap in the event.

But to the 25-year-old Austin pilot it wasn't the same picture. "A hell of a place for people to stand," he said later as he nursed scratches and a wrenched back.

"I didn't clear the cars by five feet. I might have wiped out about 40 of them."

Fire Rips Sweden's Most Famous Hotel

STOCKHOLM—(P)—A spectacular fire raged several hours Monday on the top floor of Stockholm's Grand Hotel, causing extensive damage before it was controlled.

Most damage was confined to the new seventh floor, now under construction. The hotel is the biggest and most famous in Sweden. Part of the roof caved in and about 50 rooms were damaged by smoke and water. There were no injuries to guests.

Barber Shop Singers Urged To Compete

PLAINVIEW—Here's a challenge for barber shop quartets.

The Plainview Four Sharps and a Natural quartet issued a challenge to all such groups to compete as a feature of the Hale County Fair. The barber shop quartet contest will be held September 14 from 7 to 9 p.m., or as long as it takes to pick a winner.

The singing contest will be held in the arena at the fair grounds. Interested quartets should contact E. J. Brock at Plainview.

Muleshoe Soldier Is Shot To Death By California Host

ANTIOCH, CALIF.—(P)—A Texas soldier was shot and killed Sunday, Deputy Sheriff Ray Stoffels reported, because he wouldn't stay in his own bed. Stoffels said the Korea war vet insisted on climbing into bed with his host and hostess. He gave this account:

Army Pfc. Bobby L. Tull, 21, of Muleshoe, Texas, and Joseph H. May, 20, were weekend guests of Mr. and Mrs. Herbert R. Collier. The Colliers put the soldiers up on a living room couch.

Early Sunday, Tull tried to get into bed with the Colliers. Collier, 33, escorted him back to living room. Fights and trips between the two rooms followed.

Finally Collier got his deer rifle and ordered Tull from the house. Tull lunged for the rifle. The gun went off, the bullet piercing the soldier's heart.

Stoffels said May and the Colliers agreed on details of the story. He said no charge was contemplated, pending further investigation.

U. S. Production Sets Record Pace

WASHINGTON—(P)—A record \$326,000,000-a-year pace in the country's total output of goods and services for the second quarter of this year was reported Sunday by the Commerce Department.

This reflected an almost 20 per cent increase in the first 12 months of the Korean war—as featured in dollar volume some of the gain, however, resulted from higher prices.

A \$7,000,000,000 increase during the April-May-June quarter stemmed wholly from the gathering momentum of the national defense program," the department said.

Excavation Begins For Band Building

ANDREWS—Excavation has begun for the foundation of the new band building to be erected on the high school campus.

Thidmore Construction Company of Lubbock, low bidder on the \$70,000 project has been given 150 days in which to finish the building.

Steel requirements for the building has been secured by the school board before the contract was let and no delay was expected in obtaining this material. The hall adjoins the auditorium of the senior high school and will house the 90-member senior band.
