

Through a good many of the talks at the First Annual Texas Livestock Roundup in Fort Worth on November 2 and 3 ran the advice, "Watch Washington."

The reason it was suggested that Washington be watched is the fear that more controls and restrictions are being brewed up for the livestock industry.

Stockmen want none of it. During the late war they were able to get by without many, but they know there is considerable thinking outside the industry which would try to impose strict regulations on the marketing of meat animals.

A worn belt feeder, Ed Hollenbeck, of Sterling, Illinois, who feeds a lot of Texas calves, says folks in his section find Texas stock does better than calves from other sections. They are smoother, says, and put on gain faster.

True D. Morse, president of the Doane Agricultural Service, St. Louis says there is a demand for farms now because people fear inflation and that prices will go higher.

The grass demonstration staged by 4-H Club members Lee Wolf and Ray Luke of Cook county, and their county agent, R. T. Haws, went over big with the crowd of over a thousand who attended the Texas Livestock Roundup.

Another favorite was the report by young Bivin Dunklin, Hamilton county 4-H'er and County Agent E. R. Lawrence on their beef cattle feeding project.

Hubert Urbanczyk, young editor of the Agricultural Weekly in Munich, Germany, has been here as guest of the U. S. Department of Agriculture lately. He is studying ways of handling farm news and getting information to farmers in an effective way.

A sharp young fellow, he speaks almost perfect English, learned in the five months he has been in the U. S. He has received numerous requests for public appearances before luncheon groups and schools here. He plans to return to Germany after attending the National 4-H Club Congress in Chicago next month.

Channing Cope, the colorful Georgia farmer, author, newspaperman and broadcaster, who was set to appear on the Texas Livestock Roundup, ran afoul of high blood pressure last week and had to stay home, but he arranged for a substitute speaker, Dr. A. E. Cullison of the University of Georgia.

Being accustomed to farming from his front porch anyway, it was fairly easy for Channing to do this by remote control.

The Hico Cub Scout Pack went to Hamilton Saturday to visit Radio Station KCLW and see the equipment in operation. They were accompanied by their den mothers, Mrs. Grady Hooper, Mrs. J. D. Partain, and Mrs. J. T. Shank Jr.

Cubs passed inspection tests at their regular pack meeting at Hall Thursday night.

## AMERICAN HISTORY CLASS OBSERVES 30TH "AMERICAN EDUCATION WEEK"

People, plural of person, means you and I, and our government is an organization of our creation. It is an organization which must have our support and our criticism. We are its master and we are directly responsible for what it does, for all it does in our behalf.

Years of hardship, experienced by centuries of our predecessors and of which we learn through our history books, plus experience of two World Wars within one generation, have proved that our system is the best yet devised. These same experiences show that the best vehicle for preparing a citizen for his active participation in our government is education, for each person to be schooled in his responsibility to his government. Each generation inherits certain freedoms, rights and privileges, duties and best enjoy, exercise and perform in his inheritance.

Government of by and for the people therefore is a living thing. It is part of us the same as we are part of it and if it is to continue and improve, we must be informed so that we can teach others. We must perform well our duties and responsibilities so that others will be inspired to study and take an interested and active part in the preservation and

## FM Road to Carlton Next On Docket

When action of Thursday's meeting of Hamilton County Commissioners Court materializes, chances are that this end of the county will see completion of a project that has been uppermost in the minds of road planners for several years.

According to information submitted by Fern Jordan, Commissioner of Precinct 3, the court approved a Farm-to-Market road from Hico to Carlton, which will be the next project to share in Federal funds allocated to such projects.

Although the contract for construction will have to await the customary routine in such matters, the assurance of priority of this road is encouraging to those who have waited so long for its official recognition. It composes 9.6 miles of construction according to present Highway Department standards, and when completed will provide easy access between two important points.

In connection with this prospective road, Commissioner Jordan recalled that under his tenure of office three other projects had been achieved. Paving of the 9.63 miles from Fairy to Hico was the largest, but also 4.54 miles have been improved south of Fairy, and 6.54 miles west from Olin to the county line.

## Fairy P.-T. A. Will Have Thanksgiving Program Monday

The Fairy Parent-Teacher Association meets November 13, 1950 at the Fairy Gym at 7:30 p. m. The following program will be presented:

Music, by the Music Chairman. "What Our Children Have to Be Thankful For," by Rev. J. Fred Patterson of Hico.

Thanksgiving program by the fourth and sixth grade pupils.

Everyone is urged to attend this fine program at Fairy.

MRS. B. T. SLATER, Reporter

There is a certain topic set aside for each day of American Education Week: Sunday, Nov. 5, Moral and Spiritual Values; Monday, Nov. 6, Responsibilities of the Citizens; Tuesday, Nov. 7, Meaning of the Ballot; Wednesday, Nov. 8, Urgent School Needs; Thursday, Nov. 9, Opportunity of All; Friday, Nov. 10, Home-School-Community Teamwork; Saturday, Nov. 11, Freedom's Heritage.

The two American History classes of Hico High School, taught by O. C. Cook and W. D. Bradley Jr., are making a special study this week on American Education Week and also the classes are participating in an assembly program. Mr. Cook's class visited the polls on Tuesday, Nov. 7, presided over by A. A. Brown, and found how the ballots for the general election are cast.

There will be an assembly program in the High School Auditorium Friday morning at 11 o'clock. The program will be at this time due to the fact that we are also commemorating Armistice Day by having part of the program about Armistice. The public is invited to attend.

## Light Vote Cast In General Election Held Tuesday of This Week

One hundred and forty-five people thought enough of their duty constituted rights to visit the polls and cast their vote in Tuesday's general election, according to a report submitted by A. A. Brown, precinct Democratic chairman, who presided.

Doc didn't expect a rush business, but he wasn't prepared for the way people stayed away. He had assembled a perfectly efficient and capable corps of workers, consisting of Mrs. Aften Aycock, Joe Guyton, Mrs. Lusk Randalls, Mrs. Marvin Marshall, and Mrs. L. J. Chaney, to take care of the "customers." He accounts for the light vote cast by the fact that there were no issues or personalities to choose between, and folks apparently thought it was a cut-and-dried affair anyhow. At that, it may have been, for Hico went Democratic again.

The only consoling feature of the day was a visit from the Junior Civics Class of Hico High School, taught by Principal O. C. Cook, who came down to see what it was all about.

## Navy Recruiter to Answer Questions Here Every Monday

Chief R. E. LaFon of the Waco Navy Recruiting Station has announced that Hico has been placed back on the traveling itinerary of the Naval Recruiting Service. A Navy recruiter will be in Hico at 2:30 to 3:00 p. m. every Monday except holidays.

Chief LaFon states that with the present world situation and the rapid expanding of the U. S. Fleet, the purpose of the recruiting visits is not only to procure recruits for the Navy but to furnish any information desired by the general public. Many parents of men now in the Naval Service have questions from time to time that can be answered by the traveling recruiter if they will contact him at the Post Office on his weekly visit.

Chief LaFon on this week's visit called attention to the openings that are available for enlistment and re-enlistment into the Navy and Navy Air Corps. At the present time no men are being drafted for the Navy, only volunteer applicants being accepted for enlistment. Any man can volunteer up until but not after he has received his induction notice.

Contrary to rumors, no reduction has been made in the qualifications for enlistment, and no waiting list is maintained. Openings are available for immediate enlistment, however arrangements can be made for enlistment at an applicant's own convenience.

Chief LaFon states that many ex-Navy men can be accepted back at their old rating. Men who were discharged in ratings of Seaman 1st Class or above, or the equivalent pay grade, can be accepted with dependents. For more complete information call upon Chief LaFon on his regular weekly visits each Monday, 2:30 to 3:00 p. m.

## PRELIMINARY LOAN FOR HOUSING IS APPROVED

### SOME POTATOES, MRS. HOLTON!

J. W. Richbourg has always been a loyal friend to the home paper. But since his retirement from the business world, his contacts with the NR have been on a "Howdy-Do" basis.

However this week he came up with a story that puts him back in the good graces of the management until he goes into business again.

Mrs. W. O. Holton, a neighbor, had a big news story growing outside her window, and Mr. R. thought he ought to tell us.

Mrs. Holton, it seems, back in 1949 started a potato in a little bottle inside her house, which finally grew into such a big vine that eight months ago she moved it out in the yard, beside a west window. Unfortunately, it had a setback and was cut to the ground but overcame that and grew into a luxuriant vine again.

This week, according to Mr. Richbourg, she harvested her potato crop, and what do you think she found? Eight large potatoes in one nest!

## City Improvements Adopted At Monday's Meeting of Council

The City Council met in regular monthly session Monday night, November 6, with Mayor Greenblatt presiding over the meeting. Present were Councilmen Weldon Pierce, H. W. Sherrard, Max Hoffman and Ernie Jacobs.

Minutes of the previous meeting were read and approved, and other routine matters were taken up. The following report is taken from the minutes of Mrs. J. R. McMillan, city secretary:

"A delegation came before the council and presented a complaint on the reckless driving up Pecan Street. The council decided to publish a proclamation concerning the reckless driving and noise nuisances.

"Pierce moved and Sherrard seconded that the City buy a gasoline power mower for the pump station. Motion carried.

"Jacobs moved and Pierce seconded that the City put in new pipe line in the alleys in the eighth and ninth blocks, parallel to Pecan Street. The motion carried.

"Pierce moved and Sherrard seconded that the council adjourn subject to call. Motion carried."

## Graveside Rites Held Here Last Saturday For Former Citizen

Graveside rites were held for Charles L. Keffer, 80, at the Hico Cemetery at 2 o'clock Saturday afternoon. Mr. Keffer died early Friday morning at his home in Wichita Falls, and funeral services were held at 10 o'clock Saturday in that city.

He was a resident of Hico for a number of years before moving to Wichita Falls in 1923.

Survivors are his widow, the former Daisy Hickman, and a daughter, Miss Mamie Keffer, of Wichita Falls.

The club voted to buy one new instrument, a trombone or an oboe, for the band.

After the business meeting, with Mrs. W. M. Horeley presiding, the members played forty-two. Cake, coffee, and hot chocolate were served by Mrs. J. C. Prater, Mrs. Wayne Rutledge, and Mrs. Richmond Herrington. Twenty-seven were present.

## LOCAL GIRL MEMBER OF NEW TSCW CLUB

Denton, Tex., Nov. 6.—Miss Mary Annette Phillips, daughter of Mr. and Mrs. E. E. Phillips of Hico, will be a member of the newly organized Pi Lambda Theta fraternity for future teachers at Texas State College for Women.

Formal installation ceremonies for the new chapter, the third to be organized in Texas, will be held November 13 in Hubbard Hall at TSCW. Dr. Beulah Tatum, national Pi Lambda Theta vice-president, will come from Baltimore, Md., to conduct the installation.

EYES OF THE FAMILY . . . Bobby Golden, 4½, serves as pathfinder for his sightless mother and dad of Seattle, Wash. He guides them through city on tricycle.

## Housing Authority Allocates \$3,200.00 On 16-Unit Project

A preliminary loan of \$3200 to the Hico Housing Authority for 16 units of rural non-farm housing has been approved by the Public Housing Administration and is subject to the approval of President Truman, according to information received Tuesday by Odie Patsick from Congressman Omar Burleson and Senator Lyndon Johnson.

The local Housing Authority, composed of Patsick, W. E. Coats, Morgan Moon, Truman E. Roberts, and Aubrey Duzan, submitted a preliminary management plan and operating budget, which was approved by the City Council, with their application for the low-rent dwelling units in September.

The project is planned for families living in sub-standard quarters with incomes from \$800 to \$2000 per year. Rental is to be 20 per cent of the annual income, with a minimum rental estimated at \$18 per month, including utilities, and a maximum of \$40. Dwellings are to be equipped with mechanical refrigerators, cook stoves, hot water heaters, and space heaters.

## Local Baptist Church To Be Host to County Workers Conference

The Hamilton County Workers Conference will hold its regular meeting with the First Baptist Church here next Monday, Nov. 13. Theme of the program is "Lauching and Promoting Special Gifts Campaign Through the Association" just before adjournment of the conference.

## Hanger Collection for Livestock Show Funds Was Highly Successful

In looking forward to financing the Hico Annual Livestock Show, the students of vocational agriculture at the Hico High School under the administration of Superintendent J. E. Lincoln, collected coat hangers from almost every one in Hico recently.

Some 4,000 coat hangers were collected and sold to Everett's Cleaners and Buckhorn Cleaners. Each and every one of the boys, along with their teacher, Doyle Love, thanks the public for helping to make this campaign possible.

Those old coat hangers are important in our local and national welfare, stated Love, as he urged people not to throw them away, but to call on some vocational agriculture student to pick them up. In the first part of January, these same boys will be knocking at doors again for collection of coat hangers.

"Don't turn them away empty-handed, please," Love concluded.

#### SENIOR NEWS

We are reading play books, and trying to decide what our Senior Play will be.

The cold weather didn't stop interest in our football game Friday night. The boys all played a good game and beat Meridian 21 to 0. This week they will play Iredell at Iredell Friday night. This will be the last game of the season, and we all need to back the boys. So let's all come down to Iredell Friday night and see them beat the Iredell Dragons. And—don't forget—we have ribbons to sell.

#### JUNIOR NEWS

It has been very cold and everyone has been getting out coats, but the sun was shining the first of the week and it was hot.

We are proud of the boys for winning over Meridian last Friday night. We are also proud of Mr. Sirman's good coaching. And we consider him the best coach around these parts. So everyone be at the game at Iredell and back the boys and the coach. Show you are interested in their sports.

#### SOPHOMORE NEWS

The Sophomore Class is very proud of King Blakley and Queen Bolton of the High School. We all worked hard to get them elected and we feel we were well rewarded for our work. We collected \$50.64. Everyone was tired and sleepy Wednesday and we had several boys to go to sleep in classes. The money collected is to be spent on the libraries of both grammar and high schools.

We are very proud of the football boys for being on the long end of the score Friday night.

#### FRESHMAN NEWS

We are very happy that the boys won the game Friday night. We think that everyone that went nearly froze.

The king and queen of the Halloween Carnival were Betty Bolton and Aubrey Blakley. We congratulate them.

#### WORMS' EYE VIEW

Hello, everybody!  
Gee, but it is getting cold!  
I am all decked out in my bright red flannels and will wear them until Spring comes. Of course, they smell of mothballs—but that can't be helped.  
Did you know that we have real

MODERNISTIC SYMBOL . . . This silhouette of Christ's head with halo and staff is above the altar at Minneapolis' Church of The Good Shepherd and shows new trend in divine art.

royalty in our school? Yes, sir! We have the honor of being in the presence of Queen Betty Jo Bolton and King Aubrey Blakley of the Halloween Carnival. They were crowned after all the ghostly festivities of last Tuesday night. The Carnival was held in the Hico Gym. Betty made a very pretty queen with her long, flowing train and Aubrey was an awfully handsome king.

They were the candidates from the Sophomore Class who have won the race for king and queen for three years, now! Mrs. Segrest must have a hex on all the other classes! What do you think?

"If I have not froze to death, I will see all of you kids next week—so long, everyone."

#### DRIVERS EDUCATION GIVES YOUNG DRIVERS A CHANCE

The youths of this city get most of their bad driving habits from resentment—resentment from the overbearing control of traffic officers and jealous older drivers. If the older people of Hico would pay better attention to their driving, the youths would have a bet-

ter chance to learn good habits for safety.

Some young drivers were discussing the unfairness of traffic regulations and enforcement recently. They resented the fact that a student caught violating regulations was fined while older drivers were usually let alone. If the older drivers were punished for violations, this resentment of law enforcement would never result.

There is certain people near the school grounds are always turning in some of the students for speeding. This couldn't be fair because the ladies are never in a car to clock the youth's car; they just guess at his speed. On the other hand, if an older man came down that street at the same rate of speed these ladies would never notice.

Because of this youthful resentment, we the Safety Education Class reporters, think the older drivers and citizens should wake up and give the younger generation of drivers at least a fair chance.

#### HALLOWEEN CARNIVAL

The ghosts have come and gone, the Halloween pranksters have had their proverbial fun; but the grandest time was enjoyed at the annual public school Halloween carnival Tuesday night, October 31, where every mother's son and father's daughter participated to make the carnival a howling success.

The faculty of the Hico Schools think it was mighty considerate of the merchants and citizens who contributed their time plus their gifts to the success of the carnival.

And too, never let it be said that the diligent efforts of the many students was not appreciated. The students worked tirelessly to make the carnival a success.

The money taken in will go for library books for the elementary and high schools. The following

is a financial report on the Hico School Halloween Carnival, according to High School Principal, O. C. Cook:

Gross Income	\$433.71
Gross Expenses	38.19
Net Profit	395.52

## Bird in hand that's a Beauty

## and a Buy!

Now it can be told. This clean-lined, smart-stepping 1950 version is the most popular Buick ever built.

Ever since early in the present year, a value-wise public has been taking them away from us as fast as—or faster than—the great Buick factories could roll them out. Within recent weeks, production and sales have set an all-time record.

Count off the distinguished and time-tried features of this winner and you'll know why.

It has a Very Exclusive Motor—Buick's own high-compression Fireball—which gets its driving power from a combustion chamber found in no other car in the world.

It has Dynaflo Drive\*—which ushered in a whole new concept of effortless travel.

It has a brilliant styling which sets it apart from every other car on the road.

And it has prices which say "buy me" to any motorist who's looking for maximum money's worth.

It has the bump-smothering softness of coil springs on all four wheels and a torque-tube drive—a comfort combination that no other car provides.

Isn't it sensible, while these great cars are still coming off the line, to check with your Buick dealer about getting one to call your own?

**"Let's Talk Live Stock"**

By TED GOULDY

Fort Worth, Nov. 6.—While the turn for the worse in the war news resulted in a sharp stock market break Monday, it further pointed up the importance of expanding livestock production and gave recent statements that livestock prices would be favorable in the coming year an even firmer foundation.

Livestock and meat are near the top in critical priorities as war supplies.

Strong prices were the rule throughout the cattle and beef trade with particular emphasis being in the stoker and feeder divisions. Nearly all markets reported gains for stockers after Monday's trade.

Last Friday at Fort Worth at the Livestock Roundup, True D. Morse, economics expert from the Doane Agricultural Service in St. Louis, stated: "The big demand for beef insures high prices for cattle of all kinds in 1951. That includes canners and cull dairy cows. The rush to build up cow herds will continue." Morse stated that the next year's prospects for hogs and sheep was also bright.

"The supply of beef cannot be expanded as rapidly as the demand," Morse said. There are definite indications that all-out production on the agricultural front are in the works. Rumors that hogs would soon have a support price and the relaxation of the controls on corn acreage point to stepped-up production.

Monday at Fort Worth all classes of cattle and calves moved at strong prices with spots higher through the list. Typical sales of Texas stock included some 600-pound stoker heifers from Bill Springer, Aspermont, at \$28 and the steer yearlings off them at 601

pounds brought \$29. A. B. Gilbert, Santo, had some \$30 stoker calves that averaged 305 pounds.

J. C. West of Corsicana, owner of Radio Station Kand, was a visitor on the market Monday and at the same time marketed 324 head of cattle. The majority of these yearlings weighed about 800 pounds and sold for \$28.50 as feeders. Sam Williams, Mount Pleasant, had a load of 788-pound plain steers at \$24. G. C. Robinson, Meridian, sold about five truck loads of steers at \$26 that averaged 1,070 pounds.

The Jesse Herring Johnson Estate, Amarillo, marketed a couple of loads of old cows, 32 head selling at \$21.50 for stockers, 14 head at \$20 for stockers and 12 head out for canners. Beggs Cattle Company of King County sold about three loads of 431-pound calves and yearlings at \$26.50.

Smith Peters, Roswell, N. M., marketed some fat lambs weighing around 90 pounds at \$29. Top for the feeder lamb trade at Fort Worth Monday was set by H. Friedrich of Melvin, in McCulloch County, with a load of around 65-pound lambs at \$28.25.

The hog market worked lower at Fort Worth and at other market centers Monday in spite of the fact that some 10,000 fewer hogs were offered at the nation's 12 major markets. Pivotal pork supplies were reported in meat trade channels. Top at Fort Worth was \$19 and \$19.25, with sows again not far behind the top hogs and selling from \$18.50 downward.

On a trip last week end to the Panhandle section around Amarillo, we found the country needing rain. Wheat pastures are very uneven, some sections not yet up or barely so, while other sections are up to grazing stands but failure to get a rain to pack the soil and bring the wheat along may make about two-thirds of the cattle have to be moved. Grazing an-

imals are pulling lots of wheat out by the roots due to the loose soil.

On the other hand, there are many fields that have luxuriant growth and where cattle are doing exceptionally well and can be expected to continue to do so. Lots of bundle feed is being made and the maize crop is tremendous. Lots of cotton in the fields needs picking right now.

## NOTICE TO PUBLIC

Considerable disregard for common courtesy and respect for other people's property is being shown by beer drinkers who throw empty cans in the streets and in other people's yards.

This act constitutes a nuisance which is punishable by law, and the guilty will be kept under observation and when caught, taken before the local magistrates.

Another unnecessary nuisance is the action of some youths who make a practice of driving around and around the loop between Railroad Avenue and Third Street on Pecan St. at all hours of the night. Of course all people are entitled to use the streets, but abuse of the privilege constitutes a nuisance if not a misdemeanor.

The people who have their homes in this area will be deeply grateful if this practice is discontinued.

Our first real cool snap of the season blew in Thursday night of last week, and Friday was quite cold and blustery, with ice and frost on Friday and Saturday nights. Some hogs were butchered.

Mrs. Shepard stated they were drilling a second oil well on their farm and were down about 6000 feet. The first well blew in several months ago. They had been to Dallas for a physical check-up on the son and grandson. Mrs. Shepard is the former Miss Jettie Arrant of Fairy.

Mr. and Mrs. Carl Ray Sellers and Carolyn and Jimmie Don visited Sunday in the home of his parents, Mr. and Mrs. N. S. Sellers and Joy Marie of Hamilton.

The Baptist Church is being remodeled with the addition of several class rooms.

Mr. and Mrs. Milford Miller and Ronald Keith of Fort Worth spent the week end with their parents, Mr. and Mrs. A. J. Miller and Mr. and Mrs. M. E. Parks and family.

Mrs. Oran Williford was hostess for a birthday party on Monday afternoon from 2:00 until 4:00 o'clock, in honor of her little daughter, Doran Gwen, on her fourth birthday. Twelve little guests were present for the happy occasion, namely Mickey Streater of Lanham, Rosemary and Renea Norton of Hico, Don Logan Elam of Evans, Mike Allison of Stephenville, Carolyn Ruth and Jimmie Don Sellers, Sandra Gardner, David Gleason, Mary Jo Clark, Nelda Wood and Kenneth McAdams, all of the Fairy community. The honoree received a number of nice and useful gifts. Mothers present were Mrs. Arnold Gleason, Mrs. Carl Ray Sellers and Mrs. M. S. Norton. We wish for Doran Gwen many more such happy birthdays.

Several from the Agee community near Fairy attended funeral services Monday afternoon at Hamilton for Rev. Fred Boettner, former pastor of the Agee Baptist Church. Burial was at Fort Worth.

We failed to mention in last week's news the tragic death of Miss Billie Allison of Waco, daughter of Bill Allison of Waco, formerly of Fairy, who died last Thursday week from injuries received when she fell from a car

near McGregor. She was sixteen years of age and her father was a nephew of Edd Allison of Fairy. Mrs. Edd Allison and members of her family attended the funeral services for Billie which were held at the Riley Funeral Home in Hamilton on Friday, with burial at Hamilton. The Bill Allison family formerly resided at Hamilton. Bill was born and reared in the Fairy community. Billie's mother passed away when she was about two years old. We extend deepest sympathy to all those bereaved in her passing.

A little daughter was born to Mrs. Wynonne Fotts and husband last Friday morning at the Hico Hospital. She is the former Miss Wynonne Arrant, daughter of Mr. and Mrs. Leslie Arrant. Her husband works with the highway department and is thought to be stationed near San Antonio at present. Mrs. Fotts had been visiting here with her parents.

*Are Our Texas Highways Being Destroyed by 1% of Highway Users?*

This question is presented squarely for the first time by the Texas Tax Journal in its booklet, "The Case of the One Per Centers."

Every Texan who wants good highways, adequate for 99 of every 100 users, should write for a free copy of this revealing booklet.

Approximately 99% of all Texas motor vehicles are registered for a gross weight of 20,000 pounds or less."

All Texas taxpayers, including your Texas Railroads, have reason to be concerned about the high cost of constructing and repairing our highways and the prospect of building more costly roads made necessary by the operation of highway "box cars."

No one has any desire to bar vehicles of reasonable size from our highways, so long

## Greenhands Initiated At Monday Meeting of Hico FFA Chapter

At their regular November meeting Monday night, the Hico Chapter of Future Farmers of America initiated the Greenhands, or freshmen ag students, and concluded the meeting with a wiener roast on Honey Creek.

Greenhand initiation, along with the Parent-Son Banquet and the Annual Livestock Show sponsored by the FFA Chapter, is one of the main highlights of FFA work.

Boys being initiated were Don Ross, Ray Battershell, Ross Baldwin, Paul Gillentine, Alva Shipley, Gayton Bullard, James Lewis, and Bennie Stipe, all of whom showed good sportsmanship. Pranks like airplane ride, creed hot-seat, belt line, blindfold boxing, concentration test, bubble test, and the FFA sandwich were withstood by all the Greenhands.

Future Farmer songs by the 42 members present concluded the meeting.

## WHILE VISITING IN HICO, SHE THOUGHT SHE WOULD SUBSCRIBE TO THE PAPER

Mrs. Myrtle Duncan of Ireddell is a new subscriber to The News Review. She was here Friday to have an arm injury treated at the Hico Hospital, and obeyed that impulse to join the happy family of News Review readers.

Daughter of the late Green Williamson, an Indian fighter who bought 400 acres of land in Bosque county for 10 cents an acre and refused the privilege of buying enough more that it would have later made him rich, Mrs. Duncan seems to have inherited some of her father's independent spirit. We wish for her many more years of the happiness that comes from taking care of one's self.

## CONGRESSMAN BURLERSON AND HIS SECRETARY VISIT HERE ON HURRIED CALL

Congressman Omar Burlerson of Anson and his secretary, John Hardesty of Abilene, were in Hico Monday morning visiting with constituents while on a trip through this end of the 17th District.

Mr. Burlerson, a pleasant visitor at the News Review office, stated that he regretted he was in such a hurry that he could not visit here longer, but that the short time allowed before reconvening of Congress necessitated allotment of time in the various towns.

## "OLE SARGE"

FOR THE BEST OF CARE—

THEY SO DESERVE—Fourteen Army hospitals, three of them in the Fourth Army area, have been designated to receive Korean casualties.

Major General R. W. Bliss, Army Surgeon General, has announced. Ten are already caring for patients evacuated from the battlefield. This list includes Brooke Army Hospital, Fort Sam Houston; William Beaumont Hospital, El Paso; and Army and Navy Hospital located at Hot Springs, Ark. Army patients are also being cared for in Navy hospitals.

CONGRESS AUTHORIZES NEW MEDAL—The Medal for Humane Action, which Congress authorized to reward services during the Berlin airlift, will be awarded for service of at least 120 days between June 26, 1948 and Sept. 30, 1949, inclusive, by service men and others who actually flew the lift or worked "in direct support thereof."

ATTENTION, YOUNG MEN—Eighteen-year-olds are not now being inducted into the Army. However, men 19 years of age are. Why not volunteer now, serve that year in the service of your choice, and plan on an uninterrupted civilian or military career. Further details will be found at your local Army and Air Force Recruiting Office.

HOW TRUE—A small shot nearly always becomes a big shot when half shot.

See ya' in the papers.  
OLE SARGE.
