THANKSGIVING

● Another Thanksgiving has come, and we again have the privilege of giving thanks to our many friends and customers.

We are not only thankful for our friends, but we are thankful that we live in a community filled with such friendly and congenial people—and in a nation that is still free and blessed by the grace of an Almighty Father.

ROBERTS JEWELRY

Fairy

By Mrs. Eunice Massengale

We are having real summer weather again at this writing, with temperature in the eighties, but probably there is colder weather on the way.

Some hail and rain fell just north of Fairy late Thursday evening of last week, which was accompanied by considerable wind. Most farmers are through sowing grain, and most of the cotton crop has been gathered. We are needing rain badly.

Grass is becoming very dry, and every precaution should be used in preventing grassland fires, which many times terminates in the loss of farm buildings.

We are sorry to report Mrs. Brittle Little a patient in the Hico Hospital for the past several days. Her sons, Harvey and Paul Little, and Harvey's sons, H. L. of Oklahoma City, came in early Friday for a visit with her, returning Saturday. Her brother, Sid Dickerson, brought her home Monday, and we are glad to report her improved.

We were also very sorry to learn that Billie D. Massengill is a patient at the Hamilton Hospital. We hope that he will soon be much improved. He is the eldest son of Mr. and Mrs. Dewey Massengill.

We mentioned in last week's news of Mr. and Mrs. Richard Smith, Jerry and Marceline and Mrs. Smith's mother, Mrs. Myrtle Enger of Brady visiting relatives here, and failed to give the names of Troy Owens, also of Brady, a friend of Jerry's, who accompanied them.

Mr. and Mrs. Leon Springer of Miles, Texas, have purchased the Clifford Tinkle place south of Fairy, better known as the A. R. Hoover place. Mr. and Mrs. Tinkle have purchased a ranch home about three miles southeast of Hamilton on the Aleman road. Each are expected to move to their new places of abode around the first of the year.

Mr. and Mrs. Edd Craig and family have moved to their new home, the Sibley ranch, better known as the Tinkle ranch. They have made considerable improvement to the tenant house on the place, which was of tile structure and they chose this as their place of residence. We welcome them to our community.

Quite a number from here attended the basketball games at Carlton last Wednesday night. Our grammar school players, both boys and girls, and the senior girls played the Carlton teams. Our players came out victorious in all games.

Those from here attending the singing at Clairette Sunday afternoon were Mr. and Mrs. John Abel, Mr. and Mrs. H. S. Pitts, Mr. and Mrs. Albert Mason, Mrs. Eunice Massengale and mother, Mrs. A. L. Newman. The latter two visited awhile in the Burnett home in Hico on their return home.

Mr. and Mrs. Carl Ray Sellers, Carolyn and Jimmie Don, Mrs. Eunice Massengale, Mr. and Mrs. Edd Allison and Textie and Mrs. George Stringer and Cathy Ann of Hico were in Dublin Friday night to attend the football game between Dublin and Hamilton and to witness the bestowing of honors to their granddaughter and niece, Miss Ruby Jean Allison, daughter of Mr. and Mrs. D. E. Allison of Dublin. Ruby Jean was elected sweetheart for the Dublin football team. Dublin won with 19 to 6 in their favor.

Mr. and Mrs. Clark Little attended funeral services for Mr. Emmitt Adams at Stephenville Sunday afternoon. Mr. Adams formerly resided at Johnsville and married a cousin of Mrs. Little.

Mr. and Mrs. E. M. Hoover and Mrs. V. H. Heyroth were shopping in Fort Worth on Wednesday.

Well, as we close our news letter, that norther has reached us, dropping temperatures to the forties.

Mrs. Gladys Cox was the happy recipient of a beautiful electric clock last week, which she received as one among the second place winners in giving the correct states and capitals in a crossword puzzle in her daily paper. The clock, mounted on a mahogany base, was of bronze metal, set in a good luck horse shoe, which served as the frame for the lower portion of the clock. On either side was a large bronze horse, some eight by twelve inches in size with saddle and bridle, with a tiny gold-colored beaded chain forming the reins. The gift came as a great surprise.

Mr. and Mrs. Guy Lockhart and Barbara of Pideoke visited Sunday with her parents, Mr. and Mrs. V. H. Heyroth. In the afternoon, Mr. and Mrs. Lockhart motored to Stephenville for a visit with an uncle of his, who was seriously ill in the Stephenville hospital.

Mr. and Mrs. Waynand Allison and baby of Baytown are expected in today (Tuesday) to visit his parents and other relatives here through the Thanksgiving holidays. A daughter and family, Mr. and Mrs. Guy Hartgraves, and daughter of Robstown, are also expected in for a Thanksgiving visit.

As another Thanksgiving Day is approaching, let us not forget to be thankful for the many blessings we receive from day to day, for even though our burdens seem heavy, if we will only stop and look around, we will see we still have much to be thankful for.

Wishing for all, a happy Thanksgiving Day.

Clairette

By Mrs. Henry Mayfield

Several attended the funeral services for Mr. Lem Lambert in Hico Thursday afternoon of last week. Burial was made in the Clairette Cemetery.

Dr. Alvin Swindell had lunch Tuesday with Mr. and Mrs. C. D. Richbourg.

Mrs. Luskie Randalls and baby of Premont spent last week with Mr. and Mrs. Clarence Noland and daughter.

Mrs. Mattie Walsworth and Mrs. Mary Koonsman of Indian Creek spent last Thursday with Mrs. Henry Mayfield.

T. L. and Carol Hodges of Waldrop visited the C. D. Richbourgs last Friday.

Mr. and Mrs. Hub Alexander have a new granddaughter, born in the Hico Hospital last week to Mr. and Mrs. Don Smith of Stephenville.

A large crowd attended singing Sunday afternoon.

Mrs. Laura Hollingsworth left Monday after a long visit with Mrs. Pearl Durham.

Mrs. Pearl Durham went to Alice recently to visit her daughter, Baylor.

Mrs. Roy Harvey and son visited Mr. and Mrs. Bud Harris of Stephenville Sunday night.

Mr. and Mrs. Barto Gamble, Rev. and Mrs. L. H. Davis of Hico visited Friday night in the home of Mr. and Mrs. C. D. Richbourg.

The group also attended the picture show at the Baptist Church Saturday night, consisting of Japan as a subject and shown by a missionary.

The Baptist church members have installed a butane system at the church.

Mr. and Mrs. Horace Roe and son of Mineral Wells spent the week end with the Roy Harveys.

“In a town I'd never seen before, I found a hundred friends!”
says **Oveta Culp Hobby**
—Commanding Officer of the Women's Army Corps (WAC) in World War II.

“Their faith makes them real...”

She describes how a strange town became, in an hour, like home—and how she found there, not only friends, but more happiness for the future.

“One morning, lonely in a strange town, I turned a corner and came upon a church, its doors wide open, the organ playing.

“Inside, the service was just beginning, and somehow, there I felt at home—not lonely at all, but as if I were joining in something worthwhile—so that when the last hymn ended, I was really sorry.

“As I walked out, however, someone came up to me. ‘Excuse me,’ she said, ‘but isn't this the first time you've been here? We'd all so like to meet you.’

“Then all at once, I had friends, in a town I'd never

seen before—real friends. One of them invited me home to dinner—all of them made me feel welcome and happy.

“Ever since then, in churches all over the world I have made friends—people who have no use for pretense, for their faith makes them real—who don't need to escape, for they have the strength to stand fast—people, above all, whom I respect.

“These people gather in church, every Sunday, because they find here, each week, fresh strength and peace of mind.”

Health Department of Texas Wins High Score In National Competition

Austin, Nov. 20.—A delayed report from the United States Public Health Service communicable disease center in Atlanta, Ga., credits the Texas State Health Department Bureau of Laboratories here with top score in national competition in identification of intestinal parasites.

Two grades were awarded during the evaluation studies which are designed to raise the standard of laboratory accuracy. One was for the ability to correctly identify *Endamoeba Histolytica*, an intestinal parasite; the other for a correct determination of the presence or absence of all intestinal organisms.

The report said the Texas laboratory had tied for first place with three other state health departments in the first test, and had won a clear title to top honors in the second.

Forty-two state and territorial laboratories competed in the year-long evaluation studies which began in July, 1949. The scores were announced last week.

Laboratories tying Texas in the first test could not be identified. Code numbers known only to the referee laboratories are used to designate the participants in the studies. Texas' code number was 13.

A total of 110 specimens were examined. Twelve specimens were eliminated from the study because even the experts at the referee laboratories could not agree on what organisms they contained.

Authorities at the State Department of Health said they have now begun intrastate laboratory evaluation studies, conducted on the same basis as are the national studies. In the intra-state examinations, laboratories operating within the state are tested for accuracy in determining what organisms are contained within a given specimen.

WHEN YOU'RE USING PINS for sewing, wear a small pin-cushion at the wrist (left wrist, if you're right-handed), held with an elastic. In this way, pins can be salvaged very easily by putting in the cushion as soon as removed from the garment.

Always tuck the end of the thread onto a notch on the spool and it won't unravel when in the sewing box. If the notch breaks, it's a

RECIPE OF THE WEEK

Orange Jumbles
(Makes 36 cookies)
1 medium-sized orange
1/2 cup butter or shortening
3/4 cup sugar
2 egg yolks
1 1/4 cups sifted flour
1/2 teaspoon baking powder
1/2 teaspoon salt

Peel orange and scrape white from peel; discard white. Cut orange in quarters, remove seeds and put pulp and peel through food chopper. There should be about 1/2 cup, including pulp, peel and juice. Cream butter, add sugar, then egg yolks, and cream until fluffy. Add flour to mixture alternately with orange pulp. Chill. Drop by teaspoonsful on greased baking sheet. Bake in a moderately hot (400° F.) oven for 10 to 12 minutes. Tops will not be brown when done. While cookies are still warm, sprinkle with sugar.

simple matter to make another one immediately with a razor blade kept in the sewing box.

If you do sew regularly, you should have three pairs of scissors in the sewing box: for cutting, an 8-inch pair, for finishing seams, a pinking shears, and a small pair for cutting buttonholes, ripping seams and snipping thread.

To preserve needles from rust, cut a piece of woolen material long enough to accommodate your longest needle, and wide enough to hold several sizes. Pink edges and use for sticking needles when not in use.

Keep several small, labeled boxes in the sewing kit in which you place discarded buttons, zippers and snaps taken from clothing that is of no further use.

DEFENSE SECRETARY ESTABLISHES ORDERLY RESERVISTS RECALL—Reservists now being recalled by the Air Force are being screened to fill vacancies in certain grades, ranks and military occupational specialties which are critically needed. Those recalled are to be given 30 days to report, according to a Defense Department policy statement. The reserve lists are scanned before recall and personnel who are selected will fill the necessary vacancies.

Only 18, Major won his bars by combat leadership during his regiment's recent victories over the Reds in Korea. He has served in the Army less than two years.

ISSUANCE OF AN ARMED FORCES RESERVISTS MEDAL, to be awarded to Reservists for ten years of honorable service performed during a period of 12 consecutive years, has been announced by the President. Secretaries of the Army, Navy, and Air Force will present them to Reservists of their respective Departments, while the Secretary of the Treasury will award them to Coast Guard Reservists.

Medical personnel of the First Marine Medical Battalion were discussing the unbelievable conditions under which they worked when Lt. James H. Stewart of Denton, Ky., told of the youngest casualty of the war. A woman patient had been shot through the abdomen from side to side. The next day she delivered a baby. The baby had a bullet wound in its foot. Last reports, both mother and baby are doing fine.

Mr. Dan Goldsmith, 3024 Curron Road, Louisville, Ky., owner of Coogla Cut Rate Store at 935 West Broadway, says there just aren't enough words in the English language to praise HADACOL correctly. He says he knows most folks don't realize what a change HADACOL can make in their life if their systems are deficient in Vitamins B, B₁₂, Iron and Niacin. Here is Mr. Goldsmith's statement:

"Before I started taking HADACOL I was run down and nervous—and had a hard time sleeping nights. With my work in the store I have to spend sometimes 14 hours a day on my feet. Since I am in the retail business I saw how many folks were asking for HADACOL so I decided to try it myself. After the first couple of bottles I could tell a definite improvement. Now I have all the pep and energy in the world, my nerves are steady as ever and I really do get a good night's rest. HADACOL is wonderful—I not only take it, but recommend it to all my customers. I praise the day Senator Dudley J. LeBlanc put HADACOL on the market."

HADACOL Is So Different

Thousands are benefiting from HADACOL... whose systems lack Vitamins B, B₁₂, Iron and Niacin. HADACOL is so wonderful because HADACOL helps build up the hemoglobin content of your blood (when Iron is needed) to carry these great Vitamins and Minerals to every body organ—to every part of the body. Give remarkable HADACOL a chance and if you don't feel better with the first few bottles you take—you get your money back. Only \$1.25 for Trial Size; Large Family or Hospital Size, \$3.50. If your druggist does not have HADACOL, order it direct from The LeBlanc Corporation, Lafayette, Louisiana. © 1950, The LeBlanc Corporation.

Roy Derrick Pays Tribute to Friend Gone Beyond

You have a substantial comfortable home in which to live. In many instances, this includes running water, hot and cold on tap, with a bath and indoor toilet. If you farm, the land is already under cultivation or the mechanical facilities are at your command to put it into cultivation. Our country is pretty well provided with railroads and paved roads. If you want to go anywhere, or send out anything or

have it sent in to you, you can do it easily and speedily. Telephone, radio and television are common to us today.

It was not always as it is now. Within the memory of persons now living, houses built of logs with wide-mouthed chimneys for heat and equipped with small wood cook stoves for home cooking were the best to be had. People then carried water from the well—hot or cold—that depended on the weather at the time. If they took baths, they went to the creek to do it or carried water from the well, heated it on the cook stove and took their baths in old tin wash tubs. If they went to town ten miles away, they rose early, hitched old Beck and Jude to a wagon, bogged and meandered through mud-holes and sand beds until they arrived in town about 12 o'clock. After an hour of staying in town, they repeated the procedure in reverse, arriving back home after dark, almost totally spent. If a kinsman died 50 miles away, perhaps they would get news of it two weeks later.

As we said, this is all changed now. Somebody worked for a better life. They were not satisfied with the world as it was; they changed it; you and I are their beneficiaries. Don't you think that we owe them some tribute?

"Lem" Lambert is one of the outstanding examples of our late neighbors who, fifty or more years ago, was working and continued to his dying day to work for a better life, not for himself alone, but in the main his work, which was not spectacular, has and will continue to benefit us all.

He took a mattock and an ax into the woods and cleared the way for a farm; he nursed his motherless children as a true father should; he opened more than one road where there wasn't any before—and without charge. He is gone now, and we, his successors, are his exclusive beneficiaries. At least we can remember our benefactor. Though he was unknown beyond his immediate neighborhood, we say a great man was "Lem" Lambert.

ROY DERRICK.

Mr. and Mrs. Stanton Bundy Jr. and two children of Roosevelt spent the week end with her par-

ents, Mr. and Mrs. H. E. McCullough, Mrs. Bundy and children, Stan and Margaret, remained for a longer visit while Mr. Bundy is attending the Texas Sheep and Goat Raisers' Association meeting in Fort Worth.

Seeing is believing

no other range is as fast or as efficient as a modern gas range

Speed you can see. Bring 1/2-inch of water to a boil. Add vegetables and cover. Time required—two to three minutes! Turn burner to simmer speed which completes cooking.

Warm up a gas burner? You don't have to! The second it's on it's at maximum heat. No other range can be fast as gas. Or as efficient. The flame gives tailored heat—fits itself to any size or shape pan. Less waste heat.

With a single oven range, only if it is gas can you bake and broil at the same time. You can bake rolls, potatoes and a casserole dish while you broil meat in the separate broiler.

"Claims" of speed don't mean a thing. But seeing is believing. Here you see why gas is fastest and most efficient—why 96 out of 100 women in this area cook with gas.

If your range has seen its best days, now is a good time to get a modern gas range. They cost less. They operate for less than 1/4 the cost of non-flame ranges. Gas burners last a lifetime; don't burn out. No special, expensive utensils are needed. No costly installation charge is added to the purchase price. Buy a modern gas range.

THIS PETTY PACE

BY BROWN LEE YATES

FOREIGN CORRESPONDENT
JUST RETURNED from 10 crowded weeks in Europe—the hotels were full of Princess Margaret's fiances and left-over channel swimmers. It was a whale of a trip—I shared a stateroom with Moby Dick. I covered 30 countries, looking for a ruler willing to talk peace with Stassen.

Here are some of the high spots of my trip: the Alps.

World War III, far from being inevitable, is not even likely—provided we can jump into World War IV and skip III.

I saw practically everyone I wanted to see. I missed Gorgeous Gussie, but Wimbledon is a bit too frosty these mornings for lace panties, and she might have been nipped in the bud. Had short chat with Shaw. He quipped, from his hospital bed: "Modern medicine is a miracle. Shame to waste it on sick people."

In England, I talked with cabinet and opposition members. Opinion ranges from "Labor stinks!" to "The Tories stink!" Couldn't get odds on either side next election, so kept my money in my pocket. But they took my pocket to stabilize the currency. I predict Labor will win, followed closely by the Tories and the St. Louis Cardinals.

In the Netherlands, Prime Minister Drees told me what his country will do for North Atlantic defense, but he didn't know I was there, under the table, and spoke in Dutch. In Belgium, I stumbled into the royal riots and found myself on Leopold's throne. I got up to get another cushion and someone else sat down. Just then, a stately gentleman who had befriended me 10 years ago in Antwerp—Prime Minister Paul-Henri Spaak—swept into the room, embraced me, and threw me out of the palace.

In Germany I talked to a lot of Germans and in France I talked to a lot of Frenchmen. Note the prevalence of Germans in Germany and Frenchmen in France. Each is outnumbered in his native land by only the Americans. Under astute questioning, Charles de Gaulle unbosomed himself to me. "Keep your shirt on, Charles," I advised.

Italy's foreign minister, Count Carlo Sforza, had me to lunch at his villa. Things look better in Italy than I had anticipated. I hadn't expected lunch.

Giesecke Attend 91st Birthday Dinner For Aunt In Granbury

Mr. and Mrs. C. W. Giesecke were in Granbury recently to attend the 91st birthday celebration and dinner for his aunt, Mrs. Lydia (Stanley) Balemon. They were accompanied from Glen Rose by Mr. and Mrs. Austin Giesecke and son.

Mrs. Balemon was born in Bates county, Missouri, on November 11, 1859, and came to Texas in 1874. She is the sole survivor of the Stanley family, who moved from Kentucky to Missouri, and then to Texas.

In 1875, she was married near Austin, Texas, to Oliver Balemon, and they were the parents of eight children, four of whom survive. Having reached her 91st birthday, she is hale and hearty, although in a wheel chair. She enjoys good health and a sound mind, and lives with her daughter in Granbury.

Names of guests who registered at the birthday celebration were Mr. and Mrs. Cleva (Pat) Balemon, Mr. and Mrs. Dick Dickerson and son, all of Stamford; Mrs. D. L. Dula, Brownwood; Mrs. James May, Mr. and Mrs. G. S. Gilbert, Mr. and Mrs. Payne, Mr. and Mrs. Paul Roe, all of Granbury;

Mr. and Mrs. W. R. Balemon, Mr. and Mrs. R. G. Keek, Seymour; Joe May and Jeanette Straffe, Mr. and Mrs. C. W. Hurrell, Mrs. May Commack, May McCommitt, Mr. and Mrs. B. D. Conway, Mr. and Mrs. Vivian May, all of Glen Rose; Mrs. Effie Carpenter, Mr. and Mrs. Bobbie Carpenter and son, Comanche; Mr. and Mrs. L. B. Giesecke, Stephenville; Mr. and Mrs. Tom Wilkerson, Videa Nell Wilkerson, Linda Sue Wilkerson, Mr. and Mrs. Dub Valene and girls, Waco.

Also May Berry, Dallas; Mrs. J. F. Wilkerson, Ranger, and Mrs. Kittie Payne, Glen Rose.

Marvin Marshall Talks to Review Club On Community Business

Marvin Marshall, president of the Hico Chamber of Commerce, spoke at a Review Club program based on the theme of "The Community" Thursday afternoon at the home of Mrs. W. M. Horsley. His subject was "Behind the Scene In Our Community's Business." He gave the basic requirements for a community, such as law and order, churches, social orders, schools, etc., compared Hico's assets with those of other towns, and pointed out the need of this community for a Parent-Teacher Association.

Roll call was answered with suggestions for a better community. Mrs. L. J. Wood, Federation counselor, read a news story on the 53rd Annual TFWC Convention held in Fort Worth Tuesday, Wednesday and Thursday of last week.

A dessert plate was served to 17 members by the co-hostesses, Mrs. Horsley and Mrs. R. B. Jackson.

In a brief business session, plans were completed for the rummage sale held Saturday, Nov. 18, and a financial report was given by the treasurer, Mrs. Hord Randals.

Present were 17 members: Mrs. Bryan Angell, Mrs. J. T. Appleby, Mrs. S. E. Blair Sr., Mrs. S. E. Blair Jr., Mrs. Edgar Bradley, Mrs.

J. W. Fairley, Mrs. W. F. Hafer, Mrs. Bernell Jernigan, Mrs. J. E. Lincoln, Mrs. Marvin Marshall, Mrs. Odie Petsick, Mrs. Hord Randals, Mrs. Morse Ross, Mrs. Wayne Rutledge, Mrs. L. J. Wood, the co-hostesses, and the guest speaker.

It Is Our Fervent Hope that You and Yours Will Have the Happiest Thanksgiving Ever, This Year!

There's no secret to LIVING A MORE SUCCESSFUL FULLER LIFE . . .

"LEARNING WHAT MAKES DAILY LIVING COUNT FOR MORE HAS BEEN THE TURNING POINT IN MANY CAREERS."

● One way to make living count for more calls for a periodic pause that lets you step away from immediate concerns and dwell for a time upon broader fundamentals—that gives you the opportunity to consider, in the company of others, the forces so much greater than man's and so infinitely superior to our own.

Deep down in every human heart there lies the urge to reach for higher, finer things—to understand the mysteries of the universe—to feel the nearness of an all-wise guiding power—and to gain strength by faith in that power.

Everett Colborn of Dublin to Produce Rodeo At Houston

Everett E. Colborn of Dublin, Texas, will be back in Houston to produce the World's Championship Rodeo at the 1951 Houston Fat Stock Show and Livestock Exposition, January 31 through February 11.

Mr. Colborn, long acknowledged as one of the greatest arena directors in the United States, will produce a show providing at least 150 minutes of lightning-fast action at 19 performances in the spacious indoor arena of Sam Houston Coliseum.

President W. A. Lee said signing of Mr. Colborn assures a first-class rodeo in every respect. The rodeo purse, totaling approximately \$45,000 with entry fees added, is expected to draw the nation's leading professional cowboys. Approved by the Rodeo Cowboys' Association, the rodeo will offer competition in saddle bronc riding, bareback riding, calf roping, steer wrestling and bull riding.

Starring at the rodeo will be William "Hopalong Cassidy" Boyd, western motion picture, television and radio star, and Eddy Arnold, nationally-famous ballad singer, who will bring his Oklahoma Wranglers.

In addition, the ever-popular calf scramble will be staged at every performance, plus cutting horse contests. Quarter horses and Palominos also will compete during the rodeo. The Lightning C. Quadrille and the Hendricks Family comedy act of Los Angeles are also scheduled.

Entries for the show are pouring into the office and show officials are confidently predicting more than 9,000 entries. President Lee stressed that December 15 was deadline for swine, sheep and cattle entries and that January 15 is deadline for horse, poultry and rabbit entries. He urged potential exhibitors to mail their entries at once.

At the same time, Mr. Lee announced that reservations were being accepted for tickets for the rodeo. All mail orders should be addressed to the Director of Ticket Sales, P. O. Box 2371, Houston, Texas. The orders should give complete information—number of tickets desired, price, date of performance and whether a matinee or night performance. A post office money order or check should accompany the order with an extra 40 cents for mailing and registration costs.

Every indication, officials say, points to a record number attending the 1951 show. The 1950 exposition attracted great throngs and the rodeo played to sell-out crowds at practically every performance.

*As American as Thanksgiving Itself

On Thanksgiving Day the sound of telephone bells ring in perfect harmony with dinner bells.

A holiday visit by telephone with loved ones who are away is becoming as much a part of Thanksgiving today as turkey. So this year, as in all others, we'll be expecting a huge number of callers—especially long distance callers. You'll all be taken care of—but please, won't you try to place your calls early?

IN THE SPIRIT OF THANKSGIVING, LET US GIVE THANKS FOR ALL GOOD THINGS THAT IT HAS BEEN OUR PRIVILEGE TO ENJOY IN THE PAST YEAR.

Knowledge of want and suffering abroad convinces us more certainly that we in the United States are truly blessed. We should all be grateful for enjoying existence in a country blessed as this nation is. Let us all be thankful.

AS INDIVIDUALS, WE ALSO FIND THAT MANY FAVORS HAVE COME OUR WAY!

So it is at this season that we join in extending thanks to all of our good friends and customers for their kind patronage. We have enjoyed serving you and sincerely hope you will continue to give us your support in the future.

PEEK AT THE STARS

MEREDITH WILLSON sums up Manhattan television: "New York is a gold rush to make the '49 days look like a ladies tea . . . Everybody is playing theatre with billions of dollars and cheerfully learning show business by trial and error." . . . **Dinah Shore** and **Tony Martin** may join **Jack Benny** when he entertains Korean fighters at Christmas . . . Let's hope Jack takes it easier on his trip than the late, great Al Jolson . . . Al was warned by medics against the trip, but felt it was the least he could do for the troops . . . At 67 (his actual age) he undertook too much and Jack, no chicken himself, is going at the same pace what with radio, TV, a command performance in London coming up and Korea, too.

PLATTER CHATTER
COLUMBIA: The Mariners do a fine job with "Beyond the Reef" . . . It's backed by "Minnequa" . . . A new Christmas ditty by that popular cowboy, **Gene Autry**, is "When Santa Claus Gets Your Letter" . . . Gene adds a light note to the reverse, "Frosty the Snow Man" . . . **Bob Chester's** "Forgive Me" is worth going over . . . "Have You?" is on the flip . . . **Al Trace** has a cutie in "Sticks and Stones," coupled with "WHEN" . . . Western fans, try **Dusty Walker's** latest disc, "Proud Little Heart" paired with "Silver River."

MERCURY: New song going the rounds and heading for the top is "The Petite Waltz" and Lawrence Welk has a biting rendition . . . "I'm in the Middle of a Riddle" backs it . . . Eddy Howard sings the new "The Red We Want Is the Red We've Got" with zing . . . The beautiful "I'm Forever Blowing Bubbles" is a happy choice for the flip.

CAPITOL: Jo Stafford and Gordon MacRae are together again in another excellent recording which pairs the old favorite "Tea for Two" with the newcomer, "I'm in the Middle of a Riddle" . . . Jan Garber comes up with a fine effort in the lovely "Daddy's Little Boy."

Feature Automatic Transmission—

**Weatherby Motor Co. to
Display '51 Fords Friday**

The 1951 Fords, featuring Fordomatic Drive, the new automatic transmission, will be introduced at the Clyde Weatherby Motor Co. in Hamilton, as well as Ford dealerships throughout the nation Friday, (November 24).

"Ford cars for 1951 accomplish notable refinements in styling, beauty, engineering, riding qualities, economy, safety and ease of handling," L. D. Cruse, vice-president and general manager of Ford Division, announced.

Addition of the new automatic device will make available to Ford buyers a choice of three transmissions and two engines—six different power combinations in all. Both the conventional three-speed transmission and the Ford overdrive will continue to be available. These, with the new Fordomatic Drive, will be offered with either the 100-horsepower V8 or the improved 95-horsepower six engines.

Introduction of Fordomatic eliminates several years of intensive engineering research by the company to develop a fully automatic transmission that is simple to operate, economical, long-wearing and easy to service. The device,

which will be optional at extra cost, combines the advantages of a hydraulic torque converter and a planetary gear train to provide maximum performance and a smooth and economical flow of power.

The distinctive styling of the 1949 and 1950 models has been retained, but with refinements and improvements both in interiors and exteriors.

A lowered hood, a new dual-spinner grille and a wider, longer wrap-around bumper give a more massive appearance to the front end. Parking lights are restyled and larger chrome headlamp rims extend beyond the lenses. Added chrome and new, larger tail lamps add to the appearance of the rear end.

Rear deck lids on the new Fords have been counter-balanced and are opened by a new key release lock. Springs then assist in raising the lid and hold it in the open position.

The new models have a wide range of color combinations, and a choice of upholstery, headlinings and other interior trim to harmonize with body colors. This wide choice is a Ford exclusive in the low-price field.

The '51 "Safety Glow" instrument panel is completely new. A "Charnalite" instrument cluster adds safety and convenience, and the speedometer pointer has a glowing ring which encircles and illuminates the figure showing the speed. The instrument control knobs are mounted in depressed cups, each individually lighted.

Key starting is provided by the new ignition switch which incorporates the starter control. The steering wheel also is re-designed, with a full-circle horn ring on custom models. A posture control front seat is mounted on curved tracks, and when it is moved forward or backward, the entire seat assembly tips to the correct position for tall or short drivers. An assist spring moves the seat forward automatically.

An outstanding feature of the new cars is a new "softer" ride which is made possible by suspension improvements and automatic ride controls. A new control valve was developed in the hydraulic shock absorbers, which adjusts the cushioning effect. The combination of new tension-type rear spring suspension and softer front spring rate maintains a proper balance between the front and rear for a level ride on all roads. Rubber engine mounts also have been redesigned.

The Ford deluxe line includes

the business coupe, tudor and fordor models. In the custom line are the club coupe, tudor, fordor and convertible. The Country Squire station wagon and the Crestliner complete the passenger car line. The V8 engine or the Six are optional on all models except the convertible and the Crestliner.

There will be a choice of 10 basic colors in all models except the convertible, which will have 12 and the Crestliner which will have four two-tone color combinations.

New colors are Coral Flame red, Alpine blue, Culver blue, Sea Island green, Greenbrier metallic and Mexicali maroon. Other colors are Sheridan blue, Silver-tone gray, Hawaiian bronze, Hawthorne green and Raven black. Sportsman's green is reserved for the convertible and Crestliner. Coral Flame red is reserved for the convertible.

The '51 models have a winged hood ornament, and "Deluxe" and "Custom" nameplates are on the sides of front fenders. Chromed V8 insignia on the fender identify eight-cylinder models.

The chassis frame has been strengthened by extending heavy box section side rails almost to the rear end. Brake drums and backing plates also were re-designed.

Several important engine changes have been made. Valve rotators have been incorporated and the top compression ring on each piston in V8 and Six engines now is chrome flashed. A weather-proof ignition system also is a feature.

The new fuel pump is designed to assure reliability under all kinds of operating conditions. A larger windshield wiper motor improves wiper operation.

New mounting of the intake manifold on the Six insures more uniform fuel distribution for quicker cold weather starting and smoother performance. Quieter operation is accomplished by installation of expansion control Autothermic pistons and by adoption of a redesigned camshaft and a three-blade fan.

Gears have been redesigned and strengthened in the conventional three-speed transmission and in the unit used with the overdrive.
